#### Incorporated Town of Dumfries, Virginia Independent Auditor's Report For the Year Ended June 30, 2012

To the Honorable Members of the Town Council Incorporated Town of Dumfries, Virginia

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Incorporated Town of Dumfries, Virginia (the "Town") as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. My responsibility is to express opinions on these financial statements based on our audit.

I have conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America; and Specifications for Audits of Counties, Cities and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for our opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town as of June 30, 2012, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As disclosed in Note 14, the Town made a prior period adjustment to the opening balances of Net Assets and Fund Balance.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5 through 9 and on pages 15 and 16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Incorporated Town of Dumfries, Virginia's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual non major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we I do not express an opinion or provide any assurance on them.

#### Incorporated Town of Dumfries, Virginia

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*For the Year Ended June 30, 2012

To the Honorable Members of Town Council Incorporated Town of Dumfries, Virginia

I have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Incorporated Town of Dumfries, Virginia (the "Town") as of and for the year ended June 30, 2012, which collectively comprise of the Town's basic financial statements and have issued our report thereon dated September 20, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Specifications for Audits of Counties, Cities and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia...

#### Internal Control over Financial Reporting

In planning and performing our audit, I considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. However, as discussed below, I have identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as item 12-1, 12-2, 12-3, 12-4 to be material weakness.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Town Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Johnson Certified Public Accountant, PLLC & Consulting

November 11, 2013

#### Incorporated Town of Dumfries, Virginia Summary of Compliance Matters For the Year Ended June 30, 2012

As more fully described in the "Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*," we performed tests of the Incorporated Town of Dumfries, Virginia's compliance with certain provisions of the laws, regulations, contracts, and grants shown below.

#### State Compliance Matters

Code of Virginia

Budget and Appropriation Laws
Cash and Investments Laws
Conflicts of Interest Act
Local Retirement Systems
Debt Provisions
Procurement Laws
Uniform Disposition of Unclaimed Property Act

State Agency Requirements
Highway Maintenance Funds
Police Grants

## Incorporated Town of Dumfries, Virginia Management's Discussion and Analysis

As management of the Town of Dumfries, we offer readers of the Town of Dumfries' financial statements this narrative overview and analysis of the financial activities of the Town of Dumfries for the fiscal year ended June 30, 2012.

#### Financial Highlights

- The assets of the Town of Dumfries exceeded its liabilities at the close of the most recent fiscal year. The net assets are \$2,587,623.
- The government's total net assets increased by \$435,563.
- As of the close of fiscal year 2012, the Town of Dumfries governmental funds reported combined ending fund balances of \$1,904,202. Of this total amount, \$1,100,578 is available for spending at the government's discretion (unreserved fund balance).
- The Town of Dumfries total debt increased by 1.25 percent during the current fiscal year, compared to 3.44 percent in the previous year.

#### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Dumfries' basic financial statements. The Town of Dumfries' basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Dumfries' finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Town of Dumfries' assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town of Dumfries is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during FY 2012. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town of Dumfries that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town of Dumfries include general government, public safety, highways and streets, sanitation, community development, economic development, and culture and recreation.

The government-wide financial statements can be found on pages 10-11 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Dumfries, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Dumfries can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Dumfries maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The Town of Dumfries adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for all of the funds to demonstrate compliance with this budget. This can be found on page 15 of this report.

The basic governmental fund financial statements can be found on pages 12-14 of this report.

Proprietary funds. The Town of Dumfries maintains no proprietary funds.

Capital projects fund. The Town has funding earmarked for various capital projects. The Town has designated approximately \$2.8 Million in bond funds for Streetscape Revitalization on Main Street, as well as Storm water management and road improvements in Tripoli Heights. Revenue sharing funds have also been earmarked for the Tripoli Heights project, and the Town will apply for additional revenue sharing funds for both projects. The Town also has earmarked funds for phase two of our Multi-Modal program, improvements to the intersection at Graham Park Road/Curtis Drive, and Route 1/Fraley Boulevard improvements all of which will move forward in FY 13-14. A primary focus will also be the widening of Route 1 which will take several years to complete. An additional \$40,000 was designated for Ginn Memorial Park improvements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 16-26 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town of Dumfries' progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 27 of this report.

#### Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Dumfries, assets exceeded liabilities by \$2,661,901 at the close of FY 2012.

A major portion of the Town of Dumfries total assets (47.7 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The Town of Dumfries uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Dumfries' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The government's net assets increased by \$409,841 during FY 2012. This increase represents the degree to which Town Management curtailed Town expenditures while working to increase revenues.

#### Town of Dumfries' Net Assets

	Governmental Activities					
	_	2012	2011			
Current and other assets	\$	2,983,501	\$	2,605,235		
Capital Assets						
Land		320,876	\$	320,786		
Assets Being Depreciaed		4,786,203	\$	4,763,020		
Less: Accumulate Deprecaition		(2,384,315)	\$	(2,356,960)		
		2,722,764	12	2,726,936		
Total assets		5,706,264		\$5,332,171		
Liabilities						
Current		1,076,488		917,457		
Long-term		2,042,153		2,162,654		
Total liabilities		3,118,641		3,080,111

Invested in capital assets,						
net of related debt		647,763		546,936		
Restricted/Earmarked		803,624		877,457		
Other Net assets		1,136,236		827,667		
Total net assets	\$	2,587,623	\$	2,252,060		

Governmental activities. Governmental activities increased the Town of Dumfries net assets by \$285,588, thereby accounting for 100 percent of the total increase in the net assets of the Town of Dumfries. Key elements of this increase are as follows:

#### Town of Dumfries' Changes in Net Assets

	Governmental Activities					
	1,0	<u>2012</u>		2011		
Revenue:						
Program revenue:						
Charge for services	\$	4,256	\$	1,943		
Operating grants and contributions		472,733		442,592		
Capital grants and contributions

Property taxes		1,017,115		1,043,377		
Other taxes		2,360,864		2,258,101		
Other		297,168		170,991		
Total revenue	12	4,152,136		3,917,004		
Expenses:						
General government		1,101,080		1,206,108		
Public safety		1,174,648		1,142,994		
Highways and streets		106,720		175,277		
Sanitation		1,160,074		941,797		
Culture and recreation		244,683		104,333		
Community development		6,050		5,850		
Interest on long-term debt	92	86,701		68,391		
Total expenses		3,879,956		3,644,750		
Increase in net assets before transfers		272,180		272,254		
Transfers						
Increase in net assets		272,180		272,254		
Net assets beginning of year		2,252,060		1,979,806		
Prior period adjustment		63,383		0.531		
Net assets end of year	\$	2,587,623	\$	2,252,060		

- Property taxes decreased by \$26,262 during the year.
- Charges for service increased by \$2,313.
- Operating grants and contributions increased by \$30,141. Grant awards furnished resources to support three of the Town's functions: Public safety, Highways and Streets, and Culture and Recreation.
- There was consistent increase in meals tax revenue in FY12 with no significant increase or decrease in other areas.

Expenditures increased by \$235,206 between 2011 and 2012 with the largest increases being in Sanitation in the amount of \$218,277 and Culture and recreation being \$140,350.

#### Financial Analysis of the Government's Funds

As noted earlier, the Town of Dumfries uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town of Dumfries *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town of Dumfries' financing requirements. In particular, classifications of fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The initial distinction that is made in reporting fund balance information is identifying amounts that are considered nonspendable such as inventories. The Town had no nonspendable funds at June 30, 2012.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town's highest level of decision-making authority, The Town Council. Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, Assigned fund balance represents the remaining amount that is not restricted or committed. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund balance as of June 30, 2012:

Restricted	\$646,250
Committed	137,325
Assigned	20,049
Unassigned	1,100,578
Total Fund Balance	\$ 1,904,202

As of the end of FY 2012, the Town of Dumfries governmental funds reported combined ending fund balances of \$1,904,272, an increase of \$211,310 in comparison with the prior year.

The unassigned fund balance is available for spending at the government's discretion. The restricted, committed and assigned fund balance are reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of the prior period.

The general fund is the chief operating fund of the Town of Dumfries. At the end of FY 2012, unassigned fund balance of the general fund was \$1,100,578 while total fund balance reached \$1,904,202. As a measure of the fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 28.37 percent of total general fund expenditures, while total fund balance represents 49.08 percent of that same amount. The fund balance of the Town of Dumfries' general fund increased by \$449,574 during the fiscal year. The key reasons for the increase were greater restrictions on spending by Town Management combined with a diligent effort to increase overall revenues.

#### Capital Asset and Debt Administration

Capital assets. The Town of Dumfries' investment in capital assets for its governmental and business type activities as of June 30, 2012, amounted to \$2,722,763 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment and infrastructure. The total decrease in the Town of Dumfries' investment in capital assets for FY 2012 was 2.73 percent, which was primarily due to the annual depreciation. Major capital asset events during the current fiscal year included the following:

- Buildings
- Equipment

Additional information on the Town of Dumfries' capital assets can be found on page 21.

Long-term debt. At the end of FY 2012, the Town of Dumfries had a total bonded debt outstanding of \$2,075,000.

The Town of Dumfries total debt remained consistent with FY 2011 totals during FY 2012.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the Town of Dumfries is \$31,019,640 (not including percentage of Public Service Assessments) which is significantly in excess of the Town of Dumfries' outstanding general obligation debt. The current bonded debt ratio is .66 percent, compared to .76 percent in FY 2011. The decrease in percentage is a result of the regular bond payments. It should be noted that .66 percent compares quite favorably with the maximum allowable bonded debt ceiling of 10%.

Additional information on the Town of Dumfries' long-term debt can be found on pages 30 of this report.

#### Economic Factors and Next Year's Budgets and Rates

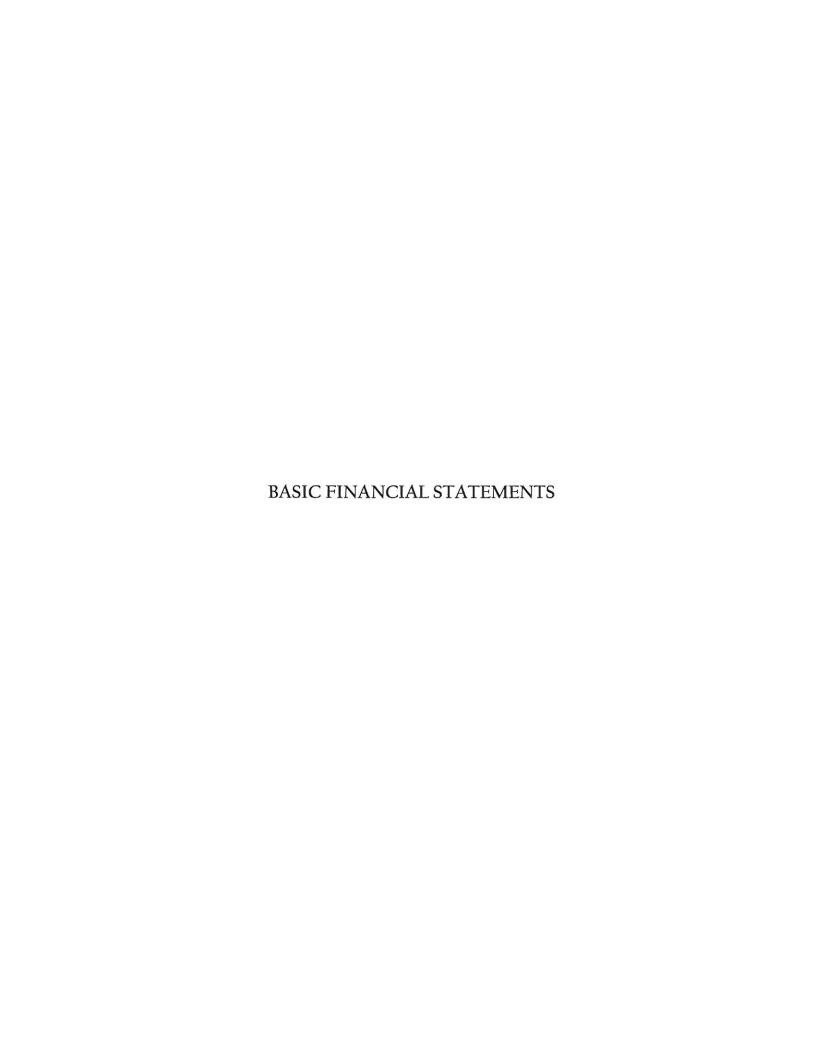

- As a result of federal sequestration, there is uncertainty on the actual overall effect it will have on the local economy. Defense related businesses may suffer the most potentially lowering BPOL revenue. It should be noted, however, that local, state, and national unemployment continue to decline slightly and some overall financial recovery is expected.
- There is some interest from new businesses in locating within the Town but nothing of a significant nature.
- There is little undeveloped land available for residential or commercial purposes and the Town is seeing little interest from the development community in the redevelopment of existing properties. This is occurring in both residential and commercial areas, but the uncertainty of the overall economy is a major drag factor.
- There are indicators that assessments of residential and individual properties are slowly increasing and this will be taken into account as we move into FY13.
- It is expected that the real estate tax rate will be reduced somewhat in FY12 and FY13.

All of these factors will be considered in preparing the budget for the 2013-2014 fiscal year.

#### Requests for Information

This financial report is designed to provide a general overview of the Town of Dumfries finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Daniel E. Taber Town Manager The Town of Dumfries 17755 Main Street Dumfries, VA 22026

#### Incorporated Town of Dumfries, Virginia Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance Government Funds to the Statement of Activities: Governmental Funds For The Year Ended June 30, 2012

Net change in fund balances-total governmental funds	\$ 294,479
Governmental funds report capital outlays as expenditures.  However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current	
period.	(76,448)
Revenues in the statement of activities that do not provide current resources are not reported as revenue in the funds.	7,929
The issuance of long-term debt (e.g., bonds, and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transactions, however, has any effect on the net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	105,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	13,494
Effects of prior period adjustments	(72,274)
Change in net assets of governmental activities	\$ 272,180

These schedules are prepared on the funds basis of accounting. The accompanying notes are an integral part of these financial statements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Financial Reporting Entity

As required by Generally Accepted Accounting Principles (GAAP), these financial statements present the Incorporated Town of Dumfries, Virginia. The Town has no blended component units, nor does the Town have any discretely presented component units. Furthermore, the Town has no related organizations, nor any jointly governed organizations.

#### Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even through the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The Town of Dumfries does not have proprietary funds or fiduciary funds.

#### Measurement Focus

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Financial Statement Presentation

The financial statements of the Incorporated Town of Dumfries, Virginia conform to GAAP applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). As such, the accounts are organized on the basis of fund classifications, each of which is considered as a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund balance, revenues, and expenditures. The various funds are grouped in the financial statements as follows:

- Governmental funds This group of funds account for expendable financial resources. The measurement focus is based upon determination of financial position and changes in financial position, rather than upon net income (as would apply to a commercial enterprise). The governmental funds consist of the general fund and the capital projects fund. The general fund accounts for all revenue and expenditures applicable to the general operations of the Town, while the capital projects fund accounts for the receipt and disbursement of resources for the purpose of building or procuring major capital assets.
- Account groups These are used to account for general long-term debt and general fixed assets. Both of these account groups are included herein.

Total columns on the combined statements are captioned "Memorandum Only" because they are presented only to facilitate financial analysis. Data in these columns do not present the financial position in conformity with GAAP. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Basis of Accounting for Governmental Funds

These funds utilize the modified accrual basis of accounting, under which revenues and related assets are recorded when measurable and available to finance operations during the year. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. One exception is that property taxes not collected within 45 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the State or Utility and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the State or Utility, which is generally in the month preceding receipt by the Town. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of Federal, State and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. Expenditures are recorded as the related fund liabilities are incurred.

#### **Budgets**

The operating and capital budget includes proposed expenditures and the means of financing them. All budgets are adopted on a basis consistent with GAAP. Any residual appropriations lapse at year-end.

Formal budgetary integration is not employed within the accounting system. However, monthly financial statements are presented to the Town Council, which indicate the yearly budget, year-to-date amounts, and the percent of budget attained.

Before the close of the prior fiscal year-end, the Manager submitted to the Town Council a proposed operating and capital budget for the current fiscal year. A public hearing was conducted to obtain citizen comments. The budget was legally enacted at the regular Council meeting. All budget data is presented in the accompanying financial statements.

#### Cash and Cash Equivalents

All highly liquid investments are stated at cost, which approximates market unless otherwise indicated. These assets are recorded as cash and cash equivalents if they mature within three months or less at the end of the year.

#### Short-Term Interfund Receivables / Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as a "Due from Other Funds" or a "Due to Other Funds," respectively on the balance sheet.

#### Fixed Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Capital acquisitions and construction, including improvements, are reflected as expenditures in the general fund and the related assets are reported in the general fixed assets account group. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not added to the account group.

Property and equipment is recorded depreciated over their estimated useful lives. Depreciation expense is computed on the straight-line basis for financial reporting purposes. The town capitalizes any purchase over \$5,000.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The estimated useful lives for purposes of computing depreciation are as follows:

Buildings and Improvements	20-30 years
Vehicles & Weapons	5 years
Furniture and Fixtures	5 years
Equipment	5 years

#### Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

#### Compensated Absences

Accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as expenditure in the general fund. Amounts of accumulated vacation leave of the general fund that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group with no associated expenditure.

Accrued vacation leave payable is stated at the value of total leave accrued at current compensation rates. A maximum of 240 hours is allowed for employees active less than ten years. A maximum of 300 hours is allowed for employees active ten years or longer.

#### Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

General fund debt payments are recognized as expenditures during the year in which the payments are made. The remaining portion of the debt payable is recorded as a current liability and a long-term liability to the long-term debt account group.

#### Net Assets

It is the Town's policy to apply unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available, and then general funds are reimbursed with earmarked or "restricted" funds.

#### Fund Balance

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the County/City/Town classifies governmental fund balances as follows:

- Non-spendable: includes fund balance amounts that cannot be spent either because it spendable form or because of legal or contractual constraints.
- Restricted: includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed: includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.
- Assigned: includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the (fill in appropriated titles such as Clerk, Mayor, etc)
- Unassigned includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balance.

#### CASH AND CASH EQUIVALENTS

#### Deposits

At year-end, the carrying value of the Town's cash was \$1,732,905. Of this amount, \$150 was petty cash, kept on hand, and \$1,732,755 was deposits with banks and savings institutions. The bank balance was \$1,652,723, of which, \$1,652,723 was covered by federal depository insurance or collateralized in accordance with the Virginia Security for Public Deposits Act. Under the Act, banks holding public deposits in excess of the amounts insured by FDIC must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. Savings and Loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by banks and savings and loans. No balances were uninsured and uncollateralized in banks or savings and loans not qualifying under the Act at June 30, 2012.

#### Investments

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), The Asian Development Bank, The African Development Bank, "Prime Quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

#### Credit Risk

As required by state statute, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following: Moody's Investors Service, Standard & Poor's, and Fitch Investors Service, provided that the issuing corporation has a net worth of at least \$50 million and its long term debt is rated "A" or better by Moody's and Standard & Poor's. Banker's acceptances and Certificates of Deposit maturing in less than one year must have a short-term debt rating of at least "A-1" by Standard & Poor's and "P-1" by Moody's Investors Service.

Total Fund Balance	\$1,904,202

#### 2. CASH AND CASH EQUIVALENTS (CONTINUED)

#### Credit Risk (Continued)

Although the intent of the Policy is for the Town to diversify its investment portfolio to avoid incurring unreasonable risks regarding (i) security type, (ii) individual financial institution or issuing entity, and (iii) maturity, the Policy places no limit on the amount the Town may invest in any one issuer.

Investment Type	F	air Value	Credit Rating
TD Bank	\$	592,833	Pl Moody's
LGIP		424,414	LGIP
Total Investment	\$	1,017,247	

At year-end, the Town's deposits and investment balances were as follows.

Total Investments	\$ 1,017,247
Total Deposits	1,732,905
Total Investments and Deposits	\$ 2,750,152

#### 3. ACCOUNTS RECEIVABLE - TAXES

Property values are determined by Prince William County. The County provides the Town with a listing of assessments and the Town prepares the billings. Town Residents are billed semi-annually on May  $5^{th}$  and November  $5^{th}$  and tax payments are due June  $5^{th}$  and December  $5^{th}$ . Taxes are considered delinquent if not paid by June  $6^{th}$  and December  $6^{th}$ . Penalties are assessed after June  $6^{th}$  and December  $6^{th}$  and interest is added to tax bills on July  $1^{st}$ .

All delinquent property taxes are considered collectible. For the Year Ended June 30, 2012, \$78,083 was classified as taxes receivable.

#### Sanitation Receivables

This account represents public trash pick-up fees due to the Town. The sanitation department activity has been discontinued by the Town. The balance due at June 30, 2012 was \$29,733.

#### 4. INTERFUND OBLIGATIONS

A summary of interfund obligations is presented below.

Due l	From	Du	e To	Tran	sfers From	Tra	nsers To

#### ACCOUNTS RECEIVABLE - OTHER

At June 30, 2012, other accounts receivable consisted of the following.

Real Estate	9,260
Meals	56,614
Sales	33,303
Storm Water Mgt Fees	1,581
Transit Tax	8,369
Utility Taxes	2,328
Miscellaneous	 14,078
Total Accounts Receivable - Other	\$ 125,533

#### 7. RETIREMENT PLAN

Defined Benefit Pension Plan

#### Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing, Multiple-Employer Defined Benefit

Pension Plan

Administering Entity Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public schools of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously VRS service as credit in their plan.

VRS administers two defined plans for local government employees-Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit as early as age 55 with five years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail

#### RETIREMENT PLAN-(CONTINUED)

#### Defined Pension Benefit Plan

superintendants is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advanced Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2 the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the most recent report may be obtained from the VRS Web site at <a href="http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### **Funding Policy**

Plan members are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended June 30, 2012 contribution rate was 13.63 of the annual covered payroll. The Town's contribution rate includes the employee's share of 5% paid by the employer.

#### **Annual Pension Cost**

For the fiscal year ended June 30, 2012, the Town annual pension cost of \$216,577 for VRS was equal to the required and actual contributions.

Three-Year Trend Information for Town

	Fiscal Year	Annual Pension	Percentage of	Net Pension	
_	Ending	Cost (APC)	APC Contributed	Obligation	
	6/30/2012	\$216,577	100%	\$ -	
	6/30/2011	\$238,272	100%	\$ =	
	6/30/2010	\$301,226	100%	\$ -	

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%,(b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% per year for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost of living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases also include an inflation component of 2.50%. The actuarial value of the Town assets is equal to the modified market value of assets. This method uses technique that smoothes the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued liability (UAAL) was 20 years.

#### 7. RETIREMENT PLAN-(CONTINUED)

Defined Pension Benefit Plan

#### Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the plan was 63.87% funded. The actuarial accrued liability for benefits was \$5,262,981, and the actuarial value of assets was \$3,361,553, resulting in an unfunded accrued liability (UAAL) of \$1,901,428. The covered payroll (annual payroll of active employees covered by the plan) was \$1,147,058, and the ration of the UAAL to the covered payroll was 167.77%.

#### 8. GENERAL FIXED ASSETS ACCOUNT GROUP

A summary of changes in the general fixed assets account group is presented below.

		Beginning Balance	1	f	D.			Ending

Included within General Fixed Assets are the Weems Botts Museum and Merchant Park, which are leased to Historic Dumfries, Virginia Inc. at a cost of \$1 per annum. The Town is responsible for grounds maintenance and development. Historic Dumfries is responsible for operating expenses and receives all proceeds derived from operations.

All depreciation expense is included in the general government expenditures in the statement of activities.

#### 9. LONG-TERM DEBT AND CHANGES IN LONG TERM DEBT

#### Revenue Bonds

The Town has two revenue bonds. The balances for these two revenue bonds are presented below:

	6/30/2011		Inci	rease	I	Decrease	6/30/2012		
2002 Revenue Bond	\$	1,600,000	\$	_	\$	80,000	\$	1,520,000

Total long-term Liabilities	\$	2,075,000	\$	_	\$	105,000	\$	1,970,000	

#### 9. LONG-TERM DEBT AND CHANGES IN LONG TERM DEBT (CONTINUED)

Revenue Bonds (Continued)

A \$2,100,000.00 Virginia Resource Authority Bond was issued June 2002 for infrastructure of the Town. The bond matures annually in amounts ranging from \$49,442.50 to \$99,442.50 through April 30, 2027, with interest paid semi-annually at 3.1% to 5.225%.

A summary of payments due is presented below,

Fiscal Year Ending		Principal	Interest		
June 30, 2013	\$	80,000	\$	59,975	
June 30, 2014		80,000		58,425	
June 30, 2015		80,000		56,700	
June 30, 2016		80,000		53,950	
June 30, 2017		85,000		50,618	
June 2018-2022		500,000		191,000	
June 2023-2027	0	615,000		72,081	
Totals	\$	1,520,000	\$	542,749	

A \$750,000 Virginia Resource Authority Bond was issued May 22, 2003 for infrastructure of the Town. The bond matures annually in amounts ranging from \$10,959.09 to \$30,291.75 through April 1, 2028 with interest paid semi-annually at 3.1% to 4.7%. A summary of payments is presented below.

Fiscal Year Ending	Pi	rincipal	I	nterest
June 30, 2013	\$	25,000	\$	23,963
June 30, 2014		25,000		23,063
June 30, 2015		25,000		22,132

June 30, 2017		30,000		20,012
June 2018-2022		160,000		80,680
June 2023-2027		200,000		40,195
June 2028-2032		65,000		2,119
Totals	\$	555,000	\$	233,346

#### 10. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

### A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains the "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of the \$2,147,153 difference are as follows:

Bonds Payable	\$ 2,075,000
Compensatee Absences	72,153
Net adjustment to reduce fund balance-total governmental funds	
to arrive at net assets-governmental activities	\$ 2,147,153

- 10. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)
  - A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets. (Continued)

Another element of the reconciliation is the fixed assets that are not financial resources and are not reported in the funds. The details of the \$2,722,784 difference are as follows:

Fixed Assets	\$ 5,107,078
Accumulated Depreciation	(2,384,314)
Net adjustment to increase fund balance-total governmental funds	
to arrive at net assets-governmental activities	\$ 2,722,763

Another element of the reconciliation is the assets that are not available for current period expenditures and are therefore deferred. The details of the \$233,349 are as follows:

Real estate taxes, net	\$ 78,083
Sanitation revenue	29,733
Other accounts receivables	125,533
to arrive at net assets-governmental activities	\$ 233,349

B. Explanation of certain differences between the governmental fund statement of revenues expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the governmental wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$76,448 are as follows:

Capital Outlay	\$ 94,507
Depreciation Expense	(170,955)
Net adjustment to decrease net changes in fund balances-total governmental funds	
to arrive at changes in net assets-governmental activities	\$ (76,448)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The \$105,000 represents the use of financial resources of governmental funds.

Another element of that reconciliation states the "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$15,498 are as follows:

Compensated absences	\$ 15,498
Net adjustment to decrease net changes in fund balances-total governmental funds	
to arrive at changes in net assets-governmental activities	\$ 15,498

#### 10. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of certain differences between the governmental fund statement of revenues expenditures, and changes in fund balances and the government-wide statement of activities (Continued)

Another element of that reconciliation is the revenue in the statement of activities that does not provide current resources and is not reported in the fund. The details of the \$7,929 are as follows:

Real estate tax	\$ 7,929
Net adjustment to decrease net change in fund	
balance-total governmental funds to arrive at net	\$ 7,929
assets-governmental activities	

#### 11. LITIGATION

Per correspondence with the Town's attorney, there was no pending litigation that would have a material effect on the financial statements as of June 30, 2012.

#### 12. SUBSEQUENT EVENTS

Subsequent events have been evaluated through the Financial Statements report release date of July 1, 2013.

#### 13. PRIOR PERIOD ADJUSTMENT

The Town has determined that certain transactions were recorded incorrectly in a prior year.

Governmental Activities: In the Government-Wide statements, assets were expensed instead of capitalized. In the Government-Wide and Government Fund Statements revenue and expenses were recorded incorrectly. In the Government-Wide statements an adjustment of \$63,383 was made to increase the opening balance of Net Assets. In the Governmental Fund Statements an adjustment of \$8,891 was made to decrease the opening balance of Fund Balance.

	as	Vet Assets, Previously Reported	Restatement	Net Assets As Restated
Governmental Activities: Net Assets	\$	2,252,060	\$ 63,383	\$ 2,315,443
	as	and Balance Previously Reported	Restatement	Fund Balance as Restated
Fund Balance	\$	1,454,648	\$ (8,891)	\$ 1,445,757

#### Incorporated Town of Dumfries, Virginia Schedule of Finding and Responses June 30, 2012

#### A. SUMMARY OF AUDITOR'S RESULTS

- 1. An unqualified opinion was issued on the financial statements of the Town of Dumfries, Virginia (See Independent Auditor's Report.)
- Four material weaknesses relating to the audit of the financial statements were reported in the Report on Internal Control
  over Financial Reporting, and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in
  Accordance with Government Auditing Standards.
- 3. No instance of noncompliance material to the financial statements, which would be required to be reported in accordance with Government Auditing Standards, was disclosed during the audit.
- 4. The Town of Dumfries has no major federal award programs during FY2012.
- 5. The Town of Dumfries was not determined to be a low-risk auditee.

#### B. FINDINGS - FINANCIAL STATEMENT AUDIT

#### 12-1: Segregation of Duties (Material Weakness)

#### Condition:

A fundamental concept of internal controls is the separation of duties. No one employee should have access to both physical assets and the related accounting records, or to all phases of a transaction. A proper segregation of duties has not been established in functions related to payroll, accounts payable, accounts receivable, and cash disbursements.

#### Recommendation:

Steps should be taken to eliminate performance of conflicting duties where possible or to implement effective compensating controls.

#### Management's Response:

The Town of Dumfries has a small staff and it is not possible to segregate duties to more than the number of employees we have; however we will implement mitigating, overriding controls.

#### 12-2: Auditor Adjustments (Material Weakness)

#### Condition:

We noted that there were errors which required adjustments to current year and prior period financial statements, indicating a material weakness in controls over financial reporting.

#### Recommendation:

The Town should implement steps to improve its financial reporting process.

#### Management's Response:

The Town of Dumfries will implement procedures to alleviate these adjustments.

#### Incorporated Town of Dumfries, Virginia Schedule of Finding and Responses June 30, 2012

#### 12-3: No Separate Capital Project Fund (Material Weakness)

#### Condition:

The Town of Dumfries only has General Fund, which it does not have a Capital Project Fund to account for financial resources segregated for acquisition or construction of major general government capital facilities.

#### Recommendation:

We recommend to the Town Manager to create a new Capital Project Fund. Required financial statements include: Balance sheet, Statement of revenues, expenditures, and changes in fund balance (GAAP basis); Statement of revenues, expenditures, and changes in fund balance-budget and actual (for CPFs with legally adopted annual budgets).

#### Management's Response:

The Town of Dumfries will create a Capital Project Fund with required financial statements.

#### 12-4: The Lack Tracking of Fix Asset (Material Weakness)

#### Condition:

The Town of Dumfries doesn't have any account to record the Fix Asset amount.

#### Recommendation:

We recommend the town treasury should record fix asset. The town Manager should have a policy about the deprecation method in written. The treasury also has to keep up with the items are fully depreciated, and take of the items when they are been got rid of.

#### Management's Response:

The Town of Dumfries will initiate procedures to track purchases and disposition of fixed assets.

#### SCHEDULE OF PRIOR YEAR FINDINGS
