INTRODUCTORY SECTION

County of Roanoke

Department of Finance
5204 Bernard Drive, PO Box 29800
Roanoke, VA 24018

November 22, 2019

To the Honorable Chairman, Members of the Board of Supervisors, and Citizens of the County of Roanoke, Virginia:

It is with pleasure that we submit to you the Comprehensive Annual Financial Report (CAFR) of the County of Roanoke, Virginia (the County) for the fiscal year ended June 30, 2019. State law requires that all local governments have their accounts and records, including those of the constitutional officers, audited annually as of June 30 by an independent certified public accountant and that the audited financial report be submitted on or before November 30 to the Auditor of Public Accounts of the Commonwealth of Virginia (APA). This report has been prepared by the County's Department of Finance in accordance with the standards of financial reporting as prescribed by the Governmental Accounting Standards Board (GASB).

The CAFR was prepared with an emphasis on full disclosure of the financial activities of the County. Responsibility for both the completeness and reliability of the information contained in this report rests solely with County management, and is based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The auditing firm of Brown, Edwards & Company, L.L.P., a firm of independent certified public accountants, has issued unmodified opinions on the County's basic financial statements as of and for the fiscal year ended June 30, 2019. Those opinions are located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the report of the independent auditor and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Profile of the Government

The County of Roanoke is primarily the suburban hub of the Roanoke Valley. Within the County's geographical boundaries lie the independent cities of Roanoke and Salem, as well as the Town of Vinton. The County's provisional population is 93,672¹, up 1.6% from the 2010 census population of 92,253. The County is part of the Roanoke Metropolitan Statistical Area (MSA) that has a total population of 314,172, reflecting an increase of 1.8% over the 2010 census. The County is within easy reach of major markets for local manufacturers and distributors via Interstate 81 and railway access.

¹ Population source: Weldon Cooper Center for Public Service, University of Virginia.

The County is governed by a charter approved by the 1986 session of the Virginia General Assembly, which grants additional authority to the County Administrator. The Board of Supervisors (the Board) is the governing body of the County. Members of the Board, one from each of five magisterial districts, are elected to four-year terms. Board members annually select a Chairman and Vice-Chairman to each serve a one-year term.

The Board appoints a County Administrator to act as administrative head of the County. The County Administrator, who serves at the pleasure of the Board, carries out its policies and directs business procedures. All department heads report to the County Administrator, except for the County Attorney, who reports directly to the Board. Five constitutional officers (Commissioner of the Revenue, Commonwealth's Attorney, Clerk of the Circuit Court, Sheriff and Treasurer) are elected by the voters of the County and are not accountable to the Board, but work closely with the Board and the County Administrator.

The County provides a full range of services, including police and fire protection, curbside trash and brush collection, general public improvements, planning and zoning management, recreation and cultural activities, economic development and general administrative support. Residents enjoy certain other services provided through joint cooperation with neighboring localities, such as airport facilities, solid waste facilities, and water and sewer services.

The County provides education through its Roanoke County Public Schools system (School System) administered by the Roanoke County Public School Board (School Board) and promotes industry through the Economic Development Authority (EDA). The School System and EDA have been reflected as discretely presented component units in the accompanying financial statements because, under GASB pronouncements, they are legally separate entities for which the County is financially accountable. The School Board administers the County's schools and its own appropriations within the categories defined by the *Code of Virginia*, but is fiscally dependent upon the County because the Board of Supervisors approves the budget, levies the necessary taxes to finance operations and issues debt to finance capital projects. Additional information for the Schools is available in the separately published Roanoke County Public Schools comprehensive annual financial report. The EDA has the power to issue tax-exempt industrial development revenue bonds to qualifying enterprises wishing to utilize that form of financing. Those bonds represent limited obligations of the EDA and are to be repaid solely from revenue and receipts derived from the projects funded with the proceeds. The outstanding debt does not constitute a debt or pledge for the faith and credit of the County or the EDA.

The annual budget serves as the foundation of the County's financial planning and control. All departments of the County generally submit requests to the Department of Finance and Management Services in November of each year. The County Administrator uses these requests as the starting point for developing a proposed budget. The County Administrator then presents the proposed budget to the Board. The Board is required to hold a public hearing on the proposed budget and to adopt a final budget no later than June 30, the close of the County's fiscal year. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., Sheriff's office) with the budget appropriation resolution, adopted by the Board of Supervisors, placing legal restrictions on expenditures at the fund level.

Economic Condition and Outlook

Local Economy

Fiscal year 2019 continued to show signs of economic stability in the Valley. Unemployment as of June 30, 2019 remained low at 2.7%², which is below the State average of 2.9%³.

Additionally, according to the “Greater Roanoke Virginia Statistical Guide” produced by the Roanoke Regional Chamber of Commerce, the Valley’s overall cost of living index is 86.9, indicating that costs in Roanoke are 13.1% lower than the national average of 100%. The composite index is based on six component categories: housing, utilities, grocery items, transportation, health care, and miscellaneous goods and services.

Economic Development

The County and region strive to promote a healthy and growing economic base that includes a diverse mix of manufacturing, medical, wholesale/retail trade, finance, insurance and banking, corporate headquarters and related businesses. The County’s multi-faceted economic development strategy includes an active business attraction, retention and expansion program, infrastructure and site development initiatives, and the redevelopment of key County properties. Ongoing outreach efforts with business leaders enable the County to identify company needs and provide appropriate assistance.

The Roanoke Valley Broadband Authority (RVBA) continues to invest in, support, and partner with Roanoke County to improve economic opportunity for all local citizens. This past year, the RVBA expanded its local Roanoke County network footprint extending out from the County’s Center for Research and Technology (CRT) to the Western Virginia Regional Jail and then beyond to the Western Virginia Water Authority’s Spring Hollow Reservoir facility.

RVBA also helped Roanoke County make state-wide economic development headlines this year, with the launch of MtnNet, a Roanoke County based business that officially became the county’s newest residential internet service provider in January. MtnNet, located in the Bent Mountain area delivers high-speed wireless service, which has been previously unavailable to area residents. Dedicated internet connections will be provided to ensure common connection issues are minimized and will serve more than 100 homes at speeds up to 25mbps. The project is expected to be a catalyst for innovation and entrepreneurship in the Bent Mountain area.

The 109-acre Wood Haven Technology Park will be the largest, prepared site in the urban area and represents the greatest economic opportunity for the region, given its gateway location at the intersection of I-81 and I-581. The technology park is a joint development of Roanoke County, the City of Roanoke, and City of Salem through the Western Virginia Regional Industrial Facility Authority. Infrastructure improvements continued during the year including, water and sewer extensions to the entrance of the property, construction of a four-lane entrance road with landscaped median and the demolition of structures. Additional improvements for entrance landscaping, curb and gutter construction and paving are slated for the spring of 2020. Marketing strategies are underway, and funding is secured for Exit 2 (Peters Creek Road) to study the interchange to determine potential improvements that could benefit existing businesses as well as the future Wood Haven property development.

The Route 419 corridor is the center of commerce for Roanoke County, and a key economic driver for the community. Roanoke County's vision is to revitalize this corridor through the 419 Town Center Study, a planning study of 390 acres from Route 220 to Starkey Road in the Route 419 area near Tanglewood Mall. The plan was adopted by the Board of Supervisors in FY19, with implementation strategies underway beginning in FY20.

Nearly \$30 million in transportation improvements have been awarded for the Route 419 corridor to address congestion in the 419 Town Center Study area. Improvements include the design and construction of a Diverging Diamond Interchange at the intersection of Route 419 and Route 220, the widening of 419 from Ogden to Route 220, and the Fallowater extension project to open up new development sites across from Tanglewood Mall.

Tanglewood Mall continues to represent significant opportunity to repurpose this property for greater economic development outcomes. The Mall is the County's most noted and high-profile commercial development, located in the County's busiest commercial corridor, and is a catalyst site highlighted in the Route 419 Town Center Plan. Redevelopment scenarios continue to be evaluated and development concepts created, consistent with the goals and strategies outlined in the Plan to enhance the livability, accessibility and economic impact of the area. The Oak Grove Center Plan and the Hollins Center Plan are also underway, with final plans to be completed in FY 20.

Redevelopment projects continued throughout the year, including the completion of The Billy Byrd project, converting the historic property into 82 market rate apartments. The \$12 million project reflects the trend over the past five years of redeveloping historic buildings throughout the area. Repurposing underutilized public facilities to breathe new life into Vinton has seen transformative results through redevelopment projects.

Metis Plaza completed a redevelopment project in FY19, with more than \$6 million in investment and an expected job creation of up to 600 positions at full occupancy. Consisting of more than 5 corporate tenants, Metis Plaza brings significant new employment and will serve as a catalyst for future development in the Oak Grove area.

Richfield Living launched a significant redevelopment and expansion project that was enabled by a \$93 million bond inducement through the Economic Development Authority to support the project and provide high-quality health care services for the community. The not-for-profit plans for an additional 140 new independent living residences with skilled nursing facilities, a new Town Center featuring an atrium, Chapel, dining room, and salon services, with the goal to serve as a new communal, multi-purpose space for the residences. As demands for retirement living facilities rise, Richfield's Vision 2020: Project Home redevelopment plan seeks to meet these demands.

Other commercial and industrial expansion projects include the announcement of VFP, Inc.'s relocation of their corporate headquarters to Roanoke County, bringing more than 60 new jobs to the 419 Planning area. The Economic Development office also sold 53 acres in the Center for Research and Technology for \$1.05 million for a new 75,000 sf. highly secured mission critical facility. This project represents a \$60+ million investment and 50 new jobs with expected completion in 2021.

The County's Economic Development Department successfully utilizes provisions under the public/private partnership policy that allows businesses to receive assistance from the County for qualifying facility expansions and relocations. The expected return on investment in new taxes and employment is a critical measure governing the use of public funds to assist businesses and

industries. The Department is an Accredited Economic Development Organization (AEDO), through the International Economic Development Council (IEDC) and has maintained this status since its original designation in 2004.

The County recognizes the importance of expanding the business tax base to provide revenues for needed services. Further, the County is committed to attracting and retaining quality jobs and investments that will diversify the economy, broaden the tax base, and provide long-term employment opportunities for residents.

Long-Term Financial Planning

The County annually prepares a Capital Improvement Plan (CIP). The CIP serves as a planning tool for efficient, effective and equitable distribution of public improvements throughout the County. The CIP represents a balance between finite resources and an ever-increasing number of competing County priorities. This balance was achieved using the priorities and objectives established by the Board of Supervisors.

The Board of Supervisors adopted a formal policy for the establishment, maintenance, and use of unassigned general fund balance to provide for the long-term economic stability of the County of Roanoke. This policy increases the unassigned fund balance incrementally over several years with the ultimate goal of 12% of general government fund revenues. Rating agencies carefully monitor levels of unassigned fund balance in a government's general fund to evaluate a government's continued credit worthiness.

At June 30, 2019 the unassigned fund balance for the general government fund was 12% of the fiscal year 2019 general government fund budgeted revenues. This is a tenet of the Board's commitment to prudent financial planning because it eliminates the need for short-term borrowing, ensures that current obligations, including debt payments, can be met and provides a cushion against the potential shock of any unexpected change in revenues. This practice, along with our prudent debt management policies, allows the County to maintain strong bond ratings. The County has bond ratings on outstanding lease revenue bonds as follows: Standard & Poor's AA, Moody's Investor Service Aa1, and Fitch AA.

Relevant Financial Policies

Fiscal integrity is a top priority for the County of Roanoke. The County recognizes financial policies establish the framework for financial planning and management and provide guidelines against which budgetary performance can be measured and proposals for future funding can be evaluated. Financial policies further ensure that the County can continue to be a model for excellence in government by providing direction in the areas of revenues, operating expenditures, Capital Improvement Program, reserves and debt management.

Effective July 1, 2019 the Board of Supervisors adopted a Comprehensive Financial Policy to create the framework for making sound financial decisions. The County Administrator is responsible for the daily administration of the Board's policies and general County operations. The County Administrator may designate other County officials to assist in the administration of these policies. The Comprehensive Financial Policy is a statement of the guidelines and goals that influence and guide the financial management practices of the County of Roanoke and can be found on our website.

Major Initiatives

Initiatives of the County of Roanoke promote economic progress, improve the community's quality of life, and position the County to respond to future development needs. The County is committed to providing quality housing and continues to receive positive publicity for the quality of life enjoyed by citizens and potential business prospects. Roanoke County saw the continuation of major capital and educational initiatives during the fiscal year. Major initiatives for 2018-2019 included:

Education: Roanoke County Public Schools is the 19th largest of 132 school systems in the Commonwealth of Virginia. The School Board consists of five members elected to four-year terms.

The School System provides a broad spectrum of general, special, gifted, career and technical education opportunities for 14,000 students (including pre-kindergarten) between the ages of 3 and 21 at sixteen elementary schools, five middle schools, five high schools, and one specialty center. Roanoke County Public Schools had a strong year in terms of standards of learning (SOL) performance. The School system again had all of its 26 schools fully accredited for the 2019-2020 school year based on 2018-2019 results.

The School System has been recognized for the past 16 years as one of the "Best Communities for Music Education" in America by the NAMM Foundation and one of only eighteen school divisions in the Commonwealth of Virginia. This recognition demonstrates the School System's commitment to providing a wide range of musical opportunities and supporting them financially.

Eastern Section of the Roanoke River Greenway: This project entails the planning, design and construction of approximately 2.7 miles of the Roanoke River Greenway in the eastern portion of the County, from the water treatment plant in the City of Roanoke to the Blue Ridge Parkway and will end in Explore Park. The project is has completed the design phase and is in the right of way acquisition stage. The project is funded through approximately \$6.8 million in VDOT Transportation Alternatives and Regional Surface Transportation Program (RSTP) funds with a local match of approximately \$193,000. The project is estimated to be completed in the summer of FY 2022.

Western Section of the Roanoke River Greenway: This project entails the planning, design and construction of approximately 1.6 miles of the Roanoke River Greenway in the western portion of the County, from Green Hill Park in Roanoke County to Riverside Park in the City of Salem. The project has completed its design stage and is in the right of way acquisition stage. The project is funded through approximately \$8.03 million in VDOT Open Container (OC), Regional Surface Transportation Program (RSTP) funds and VDOT SMART SCALE funds. The project is estimated to be completed in the summer of FY 2022

Explore Park: Explore Park is an 1100 acre outdoor recreation park located in the eastern part of Roanoke County connecting with the Blue Ridge Parkway. In 2016, the Board of Supervisors adopted the Explore Park Adventure Plan that outlines the 15 year development plan for a regional park that will host not only local users but tourists from the surrounding region. Explore Park's plan focuses on private development for many of the recreational amenities such as a lodge, campground, cabins, restaurant, gas station, country store, rental facilities, ropes course and river access, creating a positive economic impact to the Roanoke Valley. Roanoke County is contracting with private firms to begin private recreation operations in 2018. In FY18, the public

water and sewer project was completed to Explore Park. In FY19, the public water and sewer system was completed in the park to serve the Blue Ridge Parkway Visitor Center and park buildings. The cabin and yurt campground project was completed in the fall of 2018 with a project cost of \$900,000. Explore Park has two private vendors currently in operation with cabins and camping operations with a new private operator to begin operating historic Brugh Tavern in the fall of 2019. Treetop Quest, Explore Park's signature aerial adventure park opened to the public in the summer of 2019. Explore Park has become a regional outdoor destination in just three years for local residents and tourists.

Plantation Road Project: The Plantation Road Bicycle, Pedestrian and Streetscape Improvement Project was started in 2009. The project encompasses the length of Plantation Road (Route 115) from Interstate 81 to Williamson Road (Route 11), a distance of nine-tenths of one mile. The proposed improvements include sidewalks, pedestrian crosswalks, pedestrian signals, bicycle facilities, street trees, pedestrian-scaled lighting, a Hollins community identification sign, landscaping and drainage improvements. Shared-use trails will connect Walrond Park to the Hollins University segment of the Tinker Creek Greenway and ultimately to the 60 miles of trails at Carvins Cove Natural Reserve. Phase 1 is complete and includes a shared use path from Williamson Road to Walrond Drive with curb, gutter, street trees and a Welcome to Hollins sign. A total of about \$1.3 million was awarded in 2016 for Lila Drive Intersection Safety Improvements. The Right-of-Way phase is underway and construction is anticipated in 2020. Another \$1.8 million was awarded in 2017 for Phase 2 of the Plantation Road Project which will continue sidewalks, curb, gutter and street trees from Walrond Drive to Gander Way/Friendship Lane. The project will also include Walrond Drive intersection improvements, pedestrian signals and crosswalks at the Gander Way/Friendship Lane intersection. Preliminary Engineering is underway and construction is anticipated to begin in FY 2021.

Public Service Center Facility: This multi-phase project was initiated in the FY 2017 Capital Improvement Plan (CIP) through the completion of a comprehensive building planning study to identify options for the replacement of this existing facility that provides office space, shops, storage, and equipment staging for multiple County Departments. FY 2018 resulted in contracting for the acquisition of a key property adjacent to the County's Fleet Service Center necessary for Phase I of the project. Architectural and Engineering services were procured in FY2019 for Phase I and design work has begun. Remaining property acquisition, Architectural and Engineering services and Phase I construction is anticipated to commence in FY2020. Phase II is currently planned for funding in FY2023. The total cost for all prior and future project phases is anticipated to be \$15.3 million.

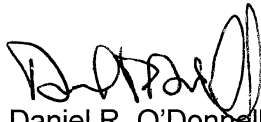

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Roanoke for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2018. This was the thirty-fifth consecutive year that Roanoke County has received this prestigious honor. In order to be awarded a Certificate of Achievement, governments have to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements. In addition, the County received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning July 1, 2019. This was the thirty-third consecutive year that the government received this esteemed recognition. In order to qualify for the Distinguished Budget Presentation Award, the government's budget

document must be judged proficient as a policy document, a financial plan, an operations guide and a communications device.

In closing, we would like to express our sincere gratitude to the personnel in the Department of Finance and Management Services for their dedication to assuring the financial integrity of the County of Roanoke and the preparation of this report. Appreciation is also extended to the Board of Supervisors and the administration, whose continuing leadership and support is essential to the financial health of the County of Roanoke.

Sincerely,

Daniel R. O'Donnell
County Administrator

History of Roanoke County, Virginia

In the 1740s, the first Scotch-Irish and German settlers reached the upper Roanoke Valley by traveling from Pennsylvania through the Shenandoah Valley. They were joined by Tidewater Virginians of English ancestry who journeyed up the valleys of the James and Roanoke Rivers.

Roanoke County, named after the Roanoke River, was formed in 1838 from a portion of Botetourt County and in 1849 a portion of Montgomery County was added. Roanoke County's name comes from the Indian word "Rawrenock", which means wampum. Wampum were white shell beads worn by Native Americans. This explanation comes from Captain John Smith, who wrote about the origins of Roanoke Island in North Carolina's Albermarle Sound.

Most of Roanoke County was rural in nature and farming was predominant throughout the area. By the latter half of the 20th century, Roanoke County, (the "County"), was in transition from farm to factory, but the County's rural population was still relatively large in 1920.

The County today has a population of approximately 93,672 and is a mostly suburban area that surrounds the City of Roanoke. Its 251 square miles include the Town of Vinton; Hollins, home of the prestigious Hollins University for women; and historic Bonsack. A diversified economic base helps to provide security from market fluctuations related to particular products.

The County is governed by a charter approved by the 1986 session of the Virginia General Assembly, which grants additional authority to the County Administrator. The Board of Supervisors is the governing body of the County. Members of the Board, one from each of five magisterial districts, are elected to four-year terms. Board members annually select a Chairman and Vice-Chairman to each serve a one-year term.

The Board appoints a County Administrator to act as administrative head of the County. The County Administrator serves at the pleasure of the Board, carries out its policies and directs business procedures. All department heads report to the County Administrator except for the County Attorney who reports directly to the Board. Five constitutional officers (Commissioner of the Revenue, Commonwealth's Attorney, Clerk of the Circuit Court, Sheriff, and Treasurer) are elected by the voters of the County and are not accountable to the Board, but work closely with the Board and the County Administrator.

On July 1, 1980, the Roanoke County Public Service Authority (therein called the "Authority") was dissolved and the sewer utility operation became a part of the utility department within the County government. The water utility operation had previously been transferred to the County effective July 1, 1976. Effective July 1, 2004, these utility operations were transferred to the newly created Western Virginia Water Authority as discussed in more detail on the next page.

The County participates in the Roanoke Regional Airport Commission, formed in 1987 through an act of the Virginia General Assembly. The Commission's five Board members are each appointed a four year term by both the Roanoke City Council and the Roanoke County Board of Supervisors. This is representative of a new cooperative, promotional spirit that is emerging in the Roanoke Valley between local governments.

In November 1992, the Roanoke County Police Department became the first nationally accredited department in Southwest Virginia through the Commission on Accreditation for Law

Enforcement Agencies, Inc. (CALEA). The department has maintained national accreditation since November 1997. Existing departmental programs, including criminal investigations, traffic enforcement, domestic violence, crime prevention, criminal apprehension, and community-involved policing, are enhanced through the accreditation process.

The Roanoke Valley Resource Authority (RVRA) was established on October 23, 1991 under a user agreement between the County of Roanoke, the City of Roanoke and the Town of Vinton to develop a regional solid waste disposal facility. In 2016, the City of Salem joined the RVRA. A nine-member board appointed by the governing bodies of the Charter Members presently governs the RVRA. The County has control over the budget and financing of the Authority only to the extent of representation by board members appointed. The old regional sanitary landfill operated by the Roanoke Valley Regional Solid Waste Management Board was closed on September 30, 1993.

On July 1, 2004, the County of Roanoke and the City of Roanoke, Virginia (City) formed the Western Virginia Water Authority, a regional water and wastewater authority. This full service authority serves both County and City citizens ensuring a reliable and efficient means of providing water and wastewater treatment, at the lowest cost and best rate and service for its customers. The assets and liabilities of the County and City water and wastewater utilities were merged into one full service authority.

The Western Virginia Regional Jail Authority was formed in June 2005 by the counties of Roanoke, Franklin, and Montgomery and the City of Salem. This regional initiative was undertaken to address overcrowded conditions experienced by each of the partner jurisdictions. The Western Virginia Regional Jail houses post-sentencing inmates and special populations, while the local jails remain operational and are used to house pre-sentencing inmates.

In 2016, the Board of Supervisors adopted the first-ever Community Strategic Plan. The Community Strategic Plan focuses on Community Health and Well-Being, Economic Development, Education, Public Safety, Quality of Life, and Transportation through seven Strategic Initiatives identified through a series of citizen surveys.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the Board of Supervisors
County of Roanoke, Virginia
Roanoke, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Roanoke, Virginia (the "County"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the South Peak Community Development Authority (the "CDA"), as a discretely presented component unit of the County, which represents 5.5% of the respective assets, 0.4% of the respective revenues, and 1.4% of the respective net position of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the CDA, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Your Success is Our Focus

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Roanoke, Virginia, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information other than management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.

The supplementary information and the schedule of expenditures and federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2019 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

County of Roanoke, Virginia
Management's Discussion and Analysis (Unaudited)
For the Year Ended June 30, 2019

The basic financial statements present two types of financial statements, each with a different view of the County's finances, the County as a whole (government-wide) and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the County's overall financial position. The fund financial statements focus on the individual funds of the County, reporting the County's operations in more detail than the government-wide statements. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison and enhance the County's accountability.

Government-Wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These financial statements provide information about the County as a whole using the accrual basis of accounting, which is the method used by most private-sector enterprises. All current year revenues and expenses are reported in the Statement of Activities regardless of when cash is received or paid. These statements allow readers to answer the question: "Is the County's financial position, as a whole, better or worse as a result of the year's activities?"

One of the main goals of these two financial statements is to report the County's net position and changes that affected net position during the fiscal year. The amount of net position, which is the difference between assets and deferred outflows and liabilities and deferred inflows, is one way to measure the County's financial position. Over time, increases or decreases in net position are indicators of whether the County's financial condition is improving or deteriorating. Other nonfinancial factors, such as changes in the County's property tax base and the physical condition of the County's infrastructure should also be considered in assessing the overall financial condition of the County.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate Roanoke County Public Schools and a legally separate Economic Development Authority for which the County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 32-33 of this report.

In the Statement of Net Position and the Statement of Activities, the County's fund-based activity is classified as follows:

Governmental activities – Most of the County's basic services are reported as governmental activities, including public safety, public works, judicial administration, library, health and welfare, parks, recreation and cultural, community development, education, and general government. Property and other local taxes, and state and federal grants finance most of these activities.

Fund Financial Statements

Government financial statements have traditionally been prepared using the fund financial statement presentation. They provide more detailed information about the County's funds, focusing on its most significant or "major" funds – not the system as a whole. The County utilizes three types of funds:

- **Governmental funds:** Most of the County's basic services are reported in governmental funds, which focus on how resources flow into and out of those funds and the remaining balances at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation accompanying the fund financial statements.
- **Proprietary funds:** The County uses Internal Service funds to provide for health, other post employment benefits, dental, and workers' compensation coverage for employees and for general and automobile liability coverage.
- **Fiduciary funds:** The County is trustee, or fiduciary, for the Fire and Rescue Pension Trust Length of Service Awards Program. The County acts in an agency capacity or fiscal agent, for the Roanoke Valley Resource Authority, Virginia Recreational Facilities Authority, the Western Virginia Regional Jail Authority, the Regional Center for Animal Control and Protection and other local agencies. Resources held for other governments, individuals or agencies not part of the County are reported as fiduciary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The County excludes these activities from the government-wide financial statements because the County cannot use these assets to finance its operations.

The governmental fund financial statements can be found beginning on page 34 of this report.

Notes to the basic financial statements. The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found beginning on page 45 of this report.

Required supplementary information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's budgetary comparisons, contributions and progress in funding its obligation to provide pension and postemployment health care benefits to its employees. Required supplementary information can be found beginning on page 132 of this report.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Summary of Net Position

As noted earlier, the amount of net position may serve over time as a useful indicator of a government's financial position. The following table reflects the condensed Summary of Net Position as presented in the government-wide financial statements:

Summary of Net Position As of June 30, 2019 and 2018			
Governmental Activities			
	FY2019		FY2018
Current and other assets	\$ 108,281,871	\$	85,440,205
Capital assets, net	232,050,807		242,281,810
Total assets	<u>340,332,678</u>		<u>327,722,015</u>
Deferred outflows	<u>9,555,460</u>		<u>10,337,935</u>
Other liabilities	16,384,903		11,480,962
Long-term liabilities	243,085,084		228,934,614
Total liabilities	<u>259,469,987</u>		<u>240,415,576</u>
Deferred inflows	<u>15,955,209</u>		<u>15,924,017</u>
Net investment in capital assets	94,294,227		108,276,652
Restricted	3,396,762		4,018,119
Unrestricted	(23,228,047)		(30,574,414)
Total net position	<u>\$ 74,462,942</u>	\$	<u>81,720,357</u>

In the case of the County, assets and deferred outflows exceed liabilities and deferred inflows by \$74.5 million at the close of fiscal year 2019. This decrease of \$7.3 million reflects an overall decrease in the County's financial position and is the result of a combination of factors including 1) a decrease in net capital assets due to an increase in asset values offset by annual depreciation expense, 2) a decrease in net assets resulting from tenancy-in-common assets transferred to Roanoke County Public Schools and 3) expenses exceeding revenues for the year ended.

The largest portion of the County's net position (126.6%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment) less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Restricted net position (4.5%) is restricted for state and federal grant programs. The remaining balance is unrestricted net position (-31.2%). A negative balance indicates that no funds were available for discretionary purposes.

County of Roanoke, Virginia
Management's Discussion and Analysis (Unaudited)
For the Year Ended June 30, 2019

At the end of the current fiscal year, the County was able to report a positive balance in both the net investment in capital assets and the restricted categories and a negative balance in the unrestricted net position category.

Governmental Activities

Governmental activities decreased the County's net position by \$7.3 million. The County's total revenues increased from the prior year by 3.1% to \$216.0 million and expenses for all programs and services increased 2.0% to \$223.3 million.

County of Roanoke, Virginia
Management's Discussion and Analysis (Unaudited)
For the Year Ended June 30, 2019

Approximately 55.1% of the County's revenues come from property taxes, 3.3% from business license tax, 1.6% from communications tax, 1.7% from consumer utility tax, 2.0% from tax on prepared food, 1.1% from motor vehicle license, 2.7% from other local tax, 6.6% from charges for services, 13.8% from operating grants and contributions, 5.7% from non-categorical state aid, 5.1% from sales tax, and 1.4% from other and miscellaneous revenues.

The County's expenses cover a range of services, with about 39.8% related to Education, 21.7% to Public Safety, 8.7% to Public Works, 8.6% to Health and Welfare, 1.5% to Judicial Administration, 2.6% to Library, 4.6% to Parks, Recreation and Culture, 1.1% to Community Development, 7.5% to General Government, and 3.8% for interest and other charges.

Revenues for governmental activities increased \$6.5 million (3.1%) and total expenses increased \$4.3 million (2.0%) when compared to the prior year. Key elements of these changes were as follows:

- Property tax revenues increased by \$3.9 million (3.4%) during the year. This increase was primarily due to modest growth in both real and personal property tax values.
- Business license tax revenues increased by \$0.4 million (6.0%). This increase was primarily due to modest growth in local business revenues.
- Sales tax revenues increased by \$0.7 million (7.2%). This increase was primarily due to modest growth in local business revenues.
- General Government expenses increased by \$0.8 million (5.1%) due to an increase in administrative costs, capital outlays for software upgrades, and other capital outlays
- Public Works expenses increased by \$3.0 million (18.0%) primarily due corridor improvement projects and multiple flooding events that required extensive cleanup.
- Public Safety expenses decreased by \$2.4 million (-4.7%) due, in large part, to a decrease in depreciation expense and decreases in capital outlays.
- Parks, Recreation and Culture expenses increased by \$0.8 million (8.2%) primarily due to new operations and capital improvements at Explore Park.
- Community Development expenses decreased by \$5.9 million (-70.9%) primarily due to a decrease in capital outlays related to transportation alternative grants, transportation improvement grants, and greenway improvement grants.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

Governmental Funds

Governmental funds consist of the General Fund, Special Revenue Fund, Debt Service Fund and Capital Projects Fund and account for the general operations of the County. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In fiscal year 2011, the County implemented new reporting guidance, which replaced the traditional fund balance components. The components of fund

County of Roanoke, Virginia
Management's Discussion and Analysis (Unaudited)
For the Year Ended June 30, 2019

balance now include non-spendable, restricted, committed, assigned and unassigned. The County has fund balances in all components at year end.

As of the end of the fiscal year, the County's governmental funds reported combined fund balance of \$77.4 million, an increase of \$16.4 million in comparison with fiscal year 2018. Of this amount 0.3% (\$0.2 million) constitutes non-spendable fund balance which reflects inventories and prepaid assets that are non-liquid in form and cannot be spent, 32.9% (\$25.5 million) constitutes restricted fund balance, which is externally restricted for State and Federal grant programs, 34.0% (\$26.3 million) constitutes committed fund balance, which is designated for future capital projects, education, community development, stormwater management, LOSAP pension liability, and other general government programs, 1.2% (\$0.9 million) constitutes assigned fund balance, which is designated for parks and recreation and other various general government programs, and 31.6% (\$24.4 million) constitutes unassigned fund balance which reflects the County's unappropriated fund balances for all general governmental accounts.

The fund balance of the General Fund increased \$1.0 million during the current fiscal year. This increase is primarily attributed to revenues exceeding original projections.

The Special Revenue Fund accounts for proceeds of specific revenue sources that are restricted to expenditures for specific purposes. The restricted fund balance increased from prior year by \$3,248 as a result of the increase in the taxes received from the South Peak district.

The Capital Projects Fund is used to account for the acquisition or construction of major capital facilities. At the end of the current fiscal year, the Capital Projects Fund balance consisted of \$18.8 million committed and \$22.1 million restricted for future capital projects. The fund balance increased by \$15.4 million primarily due to bond proceeds received for the renovation of Cave Spring High School.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budget is prepared in accordance with the *Code of Virginia*. During the year, the County amended the original budget primarily for the following purposes:

- To reappropriate monies to pay for commitments in the form of encumbrances established prior to June 30, 2019 but not paid by that date.
- To reappropriate grants, donations and other revenues authorized in fiscal year 2019 or earlier, but not expended or encumbered as of June 30, 2019.
- To appropriate grants, donations, and other revenues accepted or adjusted in fiscal year 2018 when official notice of approval was received.
- To appropriate the designated general fund balance to capital projects.

Below is a condensed version of the budgetary comparison of the General Fund original budget, amended budget, and actual amounts for fiscal year 2019.

County of Roanoke, Virginia
Management's Discussion and Analysis (Unaudited)
For the Year Ended June 30, 2019

General Fund						
Budgetary Highlights for 2019						
		Original Budget		Budget as Amended		Actual
Revenues	\$	202,635,789	\$	217,687,322	\$	206,559,574
Expenditures		114,379,363		131,518,338		114,759,825
Transfers out, net		91,173,239		90,765,933		90,766,033
Net change in fund balance	\$	(2,916,813)	\$	(4,596,949)	\$	1,033,716

Actual General Fund total revenues fell short of the amended budget by \$11.1 million for fiscal year 2019. The deficit is primarily the result of several reimbursable federal and state grants budgeted for the Roanoke River Greenway, Corridor improvements and other various projects. During the year, planning for the projects continued; however, minimal expenditures were incurred and, therefore, few revenues were received. Expenditures and transfers were less than budgetary estimates by \$16.8 million, resulting in savings at year end primarily due to grant awarded budgeted, but not fully expended.

The County Board of Supervisors appropriated \$3.2 million in transfers in fiscal year 2019 to allocate the prior year ending fund balance for future expenditures and capital projects. The County ending fund balance increased at June 30, 2019 by \$16.4 million compared to the prior fiscal year end largely due to bond proceeds received for several new capital projects offset by one-time transfers to County and School Capital. The School Board and County Board of Supervisors have a jointly adopted financial policy designating year end balances for major and minor capital projects.

Proprietary Funds

The County Internal Service Funds, a proprietary fund type, are presented on the same basis as the government-wide financial statements but is presented in more detail in the fund financial statements.

Unrestricted net position of the Health Insurance, Dental Insurance, and Risk Management funds at the end of the year amounted to \$1,423,204. The net position of Risk Management increased by \$123,854, Health Insurance increased by \$1,560,231 as a result of favorable claims experience, and Dental Insurance increased by \$27,965.

CAPITAL ASSETS

As of June 30, 2019, the County had invested \$232.0 million, net of accumulated depreciation, in a variety of capital assets including land, buildings, construction-in-progress, land improvements, and equipment. The total net decrease in the County's investment in capital assets for the current year was \$10.2 million.

Additional information on the County's capital assets can be found in note 9 of the notes to the basic financial statements. Capital assets are illustrated in the following table:

Major capital asset events during the current fiscal year included the following:

- Building, improvements and systems decreased by \$10.1 million primarily due to the transfer of tenancy-in-common assets to Roanoke County Public Schools.
- Furniture, fixtures, and equipment increased by \$2.1 million primarily due to the purchase and disposal of vehicles and heavy equipment for various departments.

LONG-TERM DEBT

At June 30, 2019, the County had a number of bonded debt issues outstanding. These include \$1.9 million of general obligation debt (which is privately held), \$91.9 million of Virginia Public School Authority (VPSA) bonds for School purposes and \$79.0 million outstanding of lease revenue bonds. Although the issuance of bonds by Virginia counties is not subject to any limitations on amount, counties are prohibited from issuing general obligation bonds unless the issuance has been approved by public referendum. Outstanding debt at June 30, 2019 increased by a net amount of \$17.9 million as a result the issuance of new VPSA bonds and of scheduled debt payments made during the year that reduced the principal balance of outstanding debt.

The County has adopted a debt policy that establishes guidelines and limitations for the issuance of debt. The debt policy addresses the level of total indebtedness the County can reasonably expect to incur without jeopardizing its financial position and to ensure the efficient

and effective operation of the County. The County measures its total level of debt through three ratios: 1) net debt per capita (excluding business type funds) should not exceed \$2,500, 2) net debt per assessments should not exceed 3%, and 3) debt service to general fund expenditures should not exceed 10%. As of June 30, 2019, the County's net debt per capita ratio was \$1,924, the net debt to assessments ratio was 1.80%, and the percent of debt service to general fund expenditures was 6.26% based on total debt outstanding.

The County has bond ratings on outstanding lease revenue bonds as follows: Standard & Poor's AA, Moody's Investor Service Aa1, and Fitch AA.

Additional information on the County's long-term debt can be found in note 8 of the notes to the basic financial statements. The following table illustrates the County's outstanding debt:

Outstanding Debt			
As of June 30, 2019 and 2018			
		Governmental Activities	
		FY2019	FY2018
General Obligation bonds	\$	1,866,987	\$ 2,765,175

Totals	\$	<u>180,205,563</u>	<u>\$ 162,858,659</u>

FACTORS INFLUENCING FUTURE BUDGETS AND RATES

Key factors that are expected to impact future budgets include:

- Current financial market volatility and continued uncertainty of the economy.
- Current and projected State budget reductions.
- Projected increases in retirement contribution rates assessed by the Virginia Retirement System.
- Projected increases in health insurance premiums.
- Funding for the Capital Improvements Program.
- Volatility of CSA program expenditures.

ECONOMIC FACTORS

During fiscal year 2019, the State economy mirrored the slow, yet steady, recovery of the national economy. The County continues to forecast and experience relatively flat revenue growth in the local tax base, further challenging the ability to maintain existing service levels.

Fiscal year 2019-20 revenue estimates appear to be performing slightly above budget. While we have always kept a watchful eye on the year-to-date revenue collections and regularly

update revenue forecasts, our current fiscal climate dictates that continuous revenue budgeting be a top priority. However, even with this emphasis, it is important to be aware of the pitfalls of estimating future revenues in this continuing unstable economic environment.

The County recognizes the value of properly illustrating year-end commitments. Accordingly, the County is able to utilize all or portions of surpluses at the end of the current year as a source of funding in a subsequent year, while also meeting the County's fund balance and capital policies, and maintain desired reserves for future needs.

Balance Sheet
Governmental Funds
June 30, 2019

Reconciliation of the Governmental Funds' Balance Sheet to the Statement of Net Position

Total fund balances for governmental funds	\$ 77,431,563
--	---------------

Total net capital assets reported for governmental activities in the Statement of Net Position is different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. Those assets consist of:

Land and construction in progress	35,519,941	
Other capital assets, net of \$211,689,274 of accumulated depreciation	196,530,866	
Total capital assets, net		232,050,807

Internal service funds (Exhibit V) are used by the County to charge the cost of health, dental, and risk management to individual funds. These assets and liabilities of the internal service funds are included in the governmental activities in the Statement of Net Position. Internal service fund net position (deficit) is:	1,423,204
--	-----------

County revenues that are earned but not considered available are not current financial resources and, therefore, are not reported in the governmental funds.	1,251,500
--	-----------

Long-term assets or liabilities are not due and payable in the current period and, therefore, are not reported as assets or liabilities in the governmental funds. Balances at June 30, 2019 are:

Prepaid and other assets	327,478	
Accrued interest payable	(2,939,192)	
Bonds payable	(168,849,175)

COUNTY OF ROANOKE, VIRGINIA
Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds
For the Year Ended June 30, 2019

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities

Net change in fund balances-total governmental funds	\$ 16,430,569
--	---------------

Total change in net position reported for governmental activities in the Statement of Activities is different due to:

Internal service funds (See Exhibit VI) are used by the County to charge the cost of health, dental, and risk management to individual funds. The change in net position of internal service funds is reported with governmental activities.	1,712,050
--	-----------

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds.	9,529
---	-------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the costs of these assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$13,368,652) were under depreciation expense (\$23,599,656) in the current period.	(10,231,004)
--	--------------

Long-term liabilities, including bond and other obligation proceeds, are reported as financing sources in governmental funds and, thus, contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the change in net position. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position.

Obligation under debt issuances	(30,076,943)	
Repayments of principal	11,955,043	
Locality compensation payment	<u>(124,894)</u>	
Net adjustment		(18,246,794)

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, which is presented on the accrual basis, expenses and changes in liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the net change of the following:

Compensated absences	275,492	
Accrued interest payable	<u>(1,514,594)</u>	
Net adjustment		(1,239,102)

Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	3,452,666
---	-----------

Governmental funds report other postemployment benefit contributions as expenditures. However, in the Statement of Activities, the cost of other postemployment benefits earned net of employee contributions is reported as pension expense.	854,671

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

(1) Summary of Significant Accounting Policies

Financial Reporting Entity

Formed in 1838, the County of Roanoke, Virginia (the County) is a county government within the Commonwealth of Virginia (the Commonwealth or the State). The County is a municipal corporation governed by an elected five-member Board of Supervisors (the Board), one from each of the five magisterial districts that appoints a County Administrator. There are also five elected Constitutional Officers who are independent of the Roanoke County Government by law and serve as Clerk of the Circuit Court, Commissioner of the Revenue, Commonwealth Attorney, Sheriff and Treasurer.

The County's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (the GAAP) as applicable to government units. The Governmental Accounting Standards Board (the GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County's financial reporting entity is defined and its financial statements are presented in accordance with GAAP, which defines the distinction between the County as the Primary Government and its related entities. Accordingly, these financial statements present the County and its component units, entities for which the County is considered to be financially accountable, hereafter referred to as the Reporting Entity.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate organizations for which the elected officials of the Primary Government are financially accountable or for which the nature and significance of their relationship with a Primary Government are such that exclusion would cause the Reporting Entity's financial statements to be misleading. They are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County.

Roanoke County Public Schools

The Roanoke County Public School Board (the School Board) is responsible for overseeing elementary and secondary public education within the government's jurisdiction. The members of the School Board are elected by the citizens of Roanoke County. However, the Roanoke County Public Schools (the School System) is fiscally dependent upon the County because its Board approves the School System's budget, levies the necessary taxes to finance operations, and approves the borrowing of money and issuance of debt to support School System operations and infrastructure. The School System's financial information is presented within the Discretely Presented Component Units' column to emphasize that it is legally separate from the Primary Government. The School System has separately issued financial statements, which may be obtained by writing the Roanoke County Public Schools Department of Budget and Finance, 5937 Cove Road, Roanoke, VA 24018 or visit their website at www.rcs.k12va.us.

Economic Development Authority of Roanoke County, Virginia

The Economic Development Authority of Roanoke County, Virginia (the EDA or the Authority) was created as a political subdivision of the Commonwealth of Virginia by ordinance of the Roanoke County Board on August 11, 1971, pursuant to the provisions of the Industrial Development and Revenue Bond Act (Chapter 49, Section 15.2 et. Seq., of the Code of Virginia (1950), as amended). The Authority is governed by a board of directors appointed by the County's Board. As a result, the Authority's revenues and expenses may be influenced by the decisions made by the County. The Authority is authorized to acquire, own, lease, and dispose of properties aimed at promoting industry and developing trade by encouraging enterprises to locate and remain in the Roanoke Valley. In addition, the Authority is authorized to issue revenue bonds for the purpose of obtaining and constructing facilities, for which related liabilities may be retained by the Authority or may be assumed by the enterprises for which facilities are constructed. Collection of revenues pledged to liquidate the bonds may be assigned to a trustee. The revenue bonds are not deemed to constitute a debt of pledge of the faith and credit of the Commonwealth of Virginia or any municipality thereof and are payable solely from revenues generated from the lease of facilities constructed, which may be secured by a deed of trust on those facilities. The EDA financial information is presented within the Discretely Presented Component Units' column to emphasize that it is legally separate from the primary government. The Authority does not issue separate financial statements.

South Peak Community Development Authority

The South Peak Community Development Authority (the CDA) was created as a political subdivision of the Commonwealth of Virginia by ordinance of the County Board on August 24, 2010 pursuant to the provisions of the Virginia Water and Waste Authorities Act (Chapter 51, Section 15.2 et. Seq., of the Code of Virginia (1950), as amended). The CDA is governed by a board of directors appointed by the County's Board. As a result, the CDA's revenues and expenses may be influenced by the decisions made by the County. The creation of the CDA was the result of a petition filed with the Board by the land owners within the South Peak Community Development District (the District). The District consists of approximately 62.5 acres of land within the County intended to be a mixed use development consisting of commercial and residential. The CDA was created to assist in financing the infrastructure, improvements and services in connection with the development of the land. The funding for these improvements will be through bonds issued by the CDA, special assessments to be levied pursuant to Section 15.2-5158(A)(5) of the Code of Virginia (1950), as amended, and contributions made by the County of certain incremental tax revenues generated within the District. Any bonds issued by the CDA, or any other financing arrangements entered into by the CDA are the obligations of the CDA, and will not be a debt or other obligation of the County nor does it constitute a pledge of the faith and credit of the County. The CDA's financial information is presented within the Discretely Presented Component Units' column to emphasize that it is legally separate from the primary government. The CDA has separately issued financial statements, which may be obtained by writing to the County of Roanoke Finance Department, 5204 Bernard Drive, Roanoke, VA 24018.

Related Organizations

As the custodian of public funds, the County's Treasurer invests all public monies held on deposit with the County. In the case of the separate agencies listed below, the County serves as fiscal agent, but is not financially accountable for their operations. Accordingly, the activities of the following organizations are accounted for as Agency funds within the County's financial records:

Roanoke Valley Resource Authority
Commonwealth Fund
Special Welfare Fund
Cable TV
Roanoke Valley Greenway Commission
Virginia Recreational Facilities Authority
Regional Fire Training Center
Western Virginia Regional Jail Authority
Regional Center for Animal Care and Protection

Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements with all non-fiduciary activities categorized as governmental or proprietary. Fiduciary activities, whose resources are not available to finance the County's programs, are not included in the government-wide statements. In accordance with GAAP, the County's financial statements are comprised of the following components:

Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all the County's activities. This approach includes not just current assets and liabilities but also capital assets, deferred inflows and outflows, and long-term liabilities. Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

Statement of Net Position

The Statement of Net Position is designed to display the financial position of the Primary Government and its discretely presented component units. The County reports all capital assets, net of accumulated depreciation, in the government-wide Statement of Net Position and report depreciation expense – the cost of “using up” capital assets - in the Statement of Activities. The net position of a government may be broken down into three categories; 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities

The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each government function. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Fund Financial Statements

The Fund financial statements organize and report the financial transactions and balances of the County on the basis of fund categories. Separate statements for each of the County's three fund categories – Governmental (e.g., General), Proprietary (e.g., Internal Service) and Fiduciary are presented. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. For the governmental funds, the financial statements consist of a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances, which are presented on current financial resources and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. For the Internal Service funds, the financial statements consist of a Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund equity, revenues and expenditures or expenses, as appropriate. Fiduciary fund statements are used to report assets that are held in a trustee or agency capacity and consist of a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliation of Government-wide and Fund Financial Statements

A summary reconciliation of the difference between the total governmental fund balances and total net position for governmental activities, as shown in the government-wide Statement of Net Position, is presented in an accompanying reconciliation to the governmental funds' Balance Sheet. The asset, liability and deferred inflows and outflows of resources elements, which comprise the reconciliation differences, stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

A summary reconciliation of the difference between net changes in governmental fund balances and change in net position for governmental activities as shown on the government-wide Statement of Activities is presented in a reconciliation to the governmental funds' Statement of Revenues, Expenditures, and Changes in Fund Balances. The revenue and expense elements, which comprise the reconciliation differences, stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

Measurement Focus and Basis of Presentation

Government-wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the County as a whole, except for fiduciary funds, and are prepared using the economic resources measurement focus, which differs from the manner in which governmental fund financial statements are prepared.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, are clearly identifiable to a particular function. Program revenues

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

include charges for services, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County. The County does not allocate indirect expenses.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this rule is where the elimination of the interfund activity would distort the direct costs and program revenues reported for the various functions.

Fund Financial Statements: Financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances and changes therein. Fund financial statements are designed to present financial information of the County at this more detailed level. The emphasis of fund financial statements is on major governmental and proprietary funds, each displayed in a separate column. The following is a brief description of the specific funds used by the County:

- ***Governmental Funds*** – These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Accordingly, real and personal property taxes are recorded as deferred revenue and receivables when billed. Sales taxes, which are collected by the State by year-end and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the State, which is generally in the month preceding receipt by the County. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. The individual governmental funds are:
 - General Fund – This fund accounts for all revenues and expenditures applicable to the general operations of the County that are not required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Roanoke County Public Schools. The General Fund is considered a major fund for reporting purposes.
 - Special Revenue Fund – This fund accounts for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The Special Revenue Fund consists of activity related to the CDA. Revenues are derived primarily from property taxes, other local taxes, and special assessments collected within the South Peak district. The Special Revenue Fund is considered a major fund for reporting purposes.

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

- Debt Service Fund – This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and other related costs. The Debt Service Fund is considered a major fund for reporting purposes.
- Capital Projects Fund – This fund accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by the proprietary fund. The Capital Projects Fund is considered a major fund for reporting purposes.
- **Internal Service Funds** – These funds account for employee health, dental, and workers' compensation coverage provided to other departments on a cost-reimbursement basis and they derive their funding from charges assessed to the user departments and employees. These funds are included in the governmental activities for government-wide reporting purposes. As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. The excess revenue or expenses for the fund are allocated to the appropriate functional activity.

Additionally, the County reports the following Fiduciary funds:

- **Other Postemployment Benefits (OPEB) Trust Fund** – This fiduciary fund is used to account for the assets held in trust for the employees and beneficiaries of its OPEB plan.
- **Agency Funds** – These are fiduciary funds used to account for assets held by the County in a trustee capacity or as agent or custodian for other governmental units or other funds. They are presented in the fund financial statements by type. The County's Agency funds include assets held for entities for which the County is the fiscal agent. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. Agency funds for the County include the Roanoke Valley Resource Authority, Commonwealth Fund, Special Welfare Fund, Cable TV, Roanoke Valley Greenway Commission, Regional Fire Training Center, Virginia Recreational Facilities Authority, Western Virginia Regional Jail Authority, and Regional Center for Animal Care and Protection.

Basis of Accounting

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements.

Government-wide, Proprietary Fund, and Fiduciary Fund Financial Statements.

The government-wide, proprietary, pension and other postemployment benefits trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Agency funds report assets and liabilities and have no measurement focus and only use the accrual basis of accounting.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements

accounting wherein revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within thirty days after year-end. Expenditures are recorded when the related fund liability is incurred, except compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues: Exchange and Non-exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within thirty days of fiscal year end.

Non-exchange transactions are transactions in which the County receives value without directly giving value in return. Taxes (e.g. real and personal property, sales), licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. Taxes are levied to fund a subsequent fiscal period are recorded as a deferred inflow at fiscal year-end. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the County. On a modified accrual basis, revenue from non-exchange transactions must be available before it can be recognized.

Deferred Outflows and Inflows of Resources – The Statement of Net Position reports a separate section for deferred outflows of resources in addition to assets. The County reports deferred outflows of resources for deferred charges on refunding, amounts related to pensions, and amounts related to other postemployment benefits (OPEB) in the government-wide Statement of Net Position. The deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or the refunding debt. Deferred outflows for pensions and OPEB result from changes in actuarial assumptions, pension/OPEB trust investment returns that exceed projected earnings, change in the proportion, actual economic experience that is different than estimated, and pension/OPEB contributions made to the measurement date. Changes in deferred outflows of resources, except contributions subsequent to the measurement date, are amortized over the remaining service life of all plan participants with the exception of investment experience amounts, which are deferred and amortized over a closed five-year period.

The Statement of Net Position reports a separate section for deferred inflows of resources in addition to liabilities. Deferred inflows of resources in the governmental funds' Balance Sheet represent unavailable revenue for amounts billed and not collected. Deferred inflows of

resources in the government-wide Statement of Net Position represent unearned revenues for amounts received in advance of meeting timing requirements or amounts collected in advance of the fiscal year to which they apply. Deferred inflows of resources are also reported for amounts related to pensions and OPEB in the government-wide statement of net position. Actuarial losses resulting from a difference in expected and actual experience, investment results, changes in actuarial assumptions and changes in proportionate share are deferred and amortized. Changes in deferred inflows of resources are amortized over the remaining service life of all plan participants with the exception of investment experience amounts, which are deferred and amortized over a closed five-year period.

Unearned Revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria can be satisfied and also when assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period. Grants and entitlements received before the eligibility requirements are met have been recorded as unearned revenue.

Cash and Cash Equivalents – The County considers cash and cash equivalents in proprietary funds to be cash on hand and demand deposits. In addition, because the Treasury Pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is also deemed to be a cash equivalent. For purposes of the Statement of Cash Flows, cash and cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and investments with maturities of 90 days or less. For purposes of the Statement of Cash Flows, cash includes unrestricted cash and cash equivalents and restricted cash. Restricted cash equivalents are defined differently and are not considered available for operations and, therefore, are not considered to be cash equivalents for the Statement of Cash Flows. Note 4 provides a detailed disclosure regarding cash equivalents and investments held by the County.

Investments – Cash received by the County is deposited in various bank accounts. Monies legally required to be maintained individually, such as trust balances and contractor escrows, are deposited and maintained in individual segregated bank accounts. All other monies are deposited in a pool of bank accounts and are used to purchase investments that are specifically allocated to the appropriate funds. Interest earned on pooled investments is accrued as earned and distributed to the General Fund and other qualifying funds utilizing a formula based on the average month end balance of cash and cash equivalents of all pooled funds. Short-term investments are stated at amortized cost or at fair value and may consist of certificates of deposits, repurchase agreements, commercial paper, bankers' acceptances, Local Government Investment Pool (LGIP) and U.S. government securities. Investments are stated at fair value with any net appreciation or depreciation in fair value reflected as investment income. Investments consist of equity interest in long-term investments in U.S. government accounts. Interest earned is allocated based on average monthly balance. Note 4 provides a detailed disclosure regarding investments held by the County.

The County requires all banking institutions holding its public funds to protect such funds in accordance with the Virginia Security for Public Deposits Act (the Act). The Act established a single body of law applicable to the pledge of security as collateral for public funds on deposit in banking institutions so that the procedures for securing public deposits is uniform throughout the Commonwealth. Under the Act, banks holding public deposits must pledge certain levels of collateral and make monthly filings with the State Treasury Board.

Fair Value Measurement – The County categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and are described as follows.

- Level 1 inputs are quoted prices in active markets for identical assets;
- Level 2 inputs are significant other observable inputs;
- Level 3 inputs are significant unobservable inputs.

Receivables – Local taxes and governmental fund accounts receivable are recorded in the County's accounts as both receivables and unearned revenue when billed. Property taxes paid in advance are recorded as unearned revenue until such time as the taxes become due. The reporting entity determines allowances for uncollectible accounts using historical collection data, specific account analysis and management's judgment.

Inventories – Inventories consist of various consumable supplies and are maintained on a perpetual basis with periodic verification based on physical count. All inventories are valued at cost using the first-in first-out method for the government-wide statements. The cost of the consumable supplies is recoded as expenditures when consumed in the General Fund.

Capital Assets – Capital outlays are recorded as expenditures in the governmental funds and as assets in the government-wide financial statements, to the extent the County's capitalization threshold is met. The County defines capital assets as assets with an initial individual cost of more than \$10,000 and an estimated useful life of at least two years. Major additions, including those that significantly prolong a capital asset's economic life or expand usefulness, are capitalized. Normal repairs that merely maintain the asset in its present condition are recorded as expenditures and are not capitalized. Depreciation expense for capital assets is identified with a function, whenever possible, and is included as a direct expense.

All capital assets are capitalized at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and donated capital assets received in a service concession arrangement would be reported at acquisition value rather than fair value. Upon the sale or retirement of a capital asset, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	40-50 years
Building Improvements	10-25 years
Furniture, Fixtures, and Equipment	3-25 years

According to the Code of Virginia, when a local government incurs a financial obligation payable over more than one fiscal year to fund an acquisition, construction or improvement of public school property, the local government acquires title to the school property as a tenant

in common with the local school board for the term of the financial obligation. For financial reporting purposes, the local government may report the school property and related financial obligation. At the time the financial obligation is paid in full, the net value of the school property is transferred to the local school board and reflected as program revenue and expense in the government-wide financial statements for the local school board and the local government, respectively.

Pension Plan – The Virginia Retirement System (VRS) County Retirement Plan is a multi-employer, agent plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement plan and the additions to / deductions from the County's Retirement plan's net fiduciary position have been determined on the same basis as they were reported by the VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB) – In connection with the County's funding of other postemployment benefits in fiscal year 2009, the County joined the Virginia Pooled OPEB Trust (the OPEB Trust Fund). The County plans to contribute amounts to the OPEB Trust Fund sufficient to fund the actuarially determined contribution (the ADC), an actuarially determined rate in accordance with GAAP. The OPEB Trust Fund assets are recorded at fair value. The Trust Board of Trustees establishes investment objectives, risk tolerance, and asset allocation policies based on the investment policy, market and economic conditions, and generally prevailing prudent investment practices.

Health Insurance Credit Program – The VRS Political Subdivision Health Insurance Credit Program is a multiple-employer, agent defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. The Political Subdivision Health Insurance Credit Program was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. For purposes of measuring the net Health Insurance Credit Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Health Insurance Credit Program OPEB, and the Health Insurance Credit Program OPEB expense, information about the fiduciary net position of the VRS Political Subdivision Health Insurance Credit Program; and the additions to/deductions from the VRS Political Subdivision Health Insurance Credit Program's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Group Life Insurance – The VRS Group Life Insurance Program is a multiple employer, cost-sharing plan. It provides coverage to state employees, teachers, and employees of participating political subdivisions. The Group Life Insurance Program was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net Group Life Insurance Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance Program OPEB, and Group Life Insurance Program OPEB expense, information about the fiduciary net position of the VRS Group Life

COUNTY OF ROANOKE, VIRGINIA

Insurance program OPEB and the additions to/deductions from the VRS Group Life Insurance Program OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Temporary Literary Loan Proceeds – The County receives drawdowns from the Commonwealth of Virginia from approved Literary Loans. These loans are accounted for as short-term borrowings until the entire proceeds have been received by the County at which time the repayment schedules are finalized and the amounts established as long-term debt.

Self-Insurance – The County is self-insured for workers' compensation, health insurance, general liability and automobile liability. Estimates for accrued liabilities in each program at the end of the year have been recorded.

Compensated Absences – The liability for compensated absences reported at the government-wide level consists of unpaid accumulated vacation and sick leave balances. The liability is based on the sick leave and vacation leave accumulated at June 30. Limited vacation and sick leave may be accumulated until retirement or termination. Accumulated sick leave is paid at a fixed daily rate and accumulated vacation is paid at the employee's current wage upon retirement or termination.

Long-term Obligations – Long-term debt and other obligations are reported as liabilities in the Statement of Net Position in the government-wide financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using straight line amortization. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period but no related long-term liabilities. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as an other financing source while discounts on debt issuances are reported as other financing uses. Payments to an escrow agent to defease debt is reported as other financing uses while issuance costs and repayments of principal and interest are reported as debt service expenditures. Matured principal and interest payments are reported when due.

Interfund Transactions – On fund financial statements, receivables and payables resulting from interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities' column of the Statement of Net Position. Flow of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

Encumbrances – The County uses encumbrance accounting, wherein purchase orders, contracts, and other commitments for the expenditure of funds are recorded to restrict, commit, or assign that portion of the applicable appropriation.

Net Position – Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is divided into three components:

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

- Net investment in capital assets - consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding which was used to finance those assets.
- Restricted - consists of assets where there are limitations imposed on their use through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.
- Unrestricted – all other net position is reported in this category

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources, as needed.

Fund Balance – Except when required to comply with GAAP, all commitments and restrictions of Governmental Fund balances reflect County Board action in the context of adoption of the County's budget.

Net Investment in Direct Financing Leases – The Authority may acquire and improve properties and retain title to them. Where transfer of title at the completion of a lease to a tenant is not reasonably assured by bargain purchase options or other lease provision, the Authority accounts for activities in its role as lessor as either capital leases or operating leases in accordance with GAAP.

Pollution and Remediation – In accordance with GAAP, the County yearly analyzes the requirements for reporting liabilities related to cleaning up pollution and/or contamination. As of June 30, 2019, the County has determined that there is no related liability.

Use of Estimates – Management of the County has made a number of estimates and assumptions relating to the reporting of assets and deferred outflows, liabilities and deferred inflows, revenues, expenditures, and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with GAAP. Actual results could differ from those estimates.

New Accounting Pronouncements – The following accounting pronouncements have been implemented by the County.

- GASB Statement No. 83, *Certain Asset Retirement Obligations (AROs)*, addresses accounting and financial reporting for certain asset retirement obligations. This statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. It requires that recognition occur when the liability is both incurred and reasonably estimable. In practice, there have been no material changes to the financial statements of the County as a result of Statement No. 83.
- GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when

disclosing information related to debt. In practice, there have been no material changes to the financial statements of the County as a result of Statement No. 88.

(2) Property Taxes

Property taxes are levied annually in April on assessed values as of January 1. In addition, personal property transactions during the year are taxed on a prorated basis. Real estate tax is payable in two equal installments on or before December 5, and June 5, and personal property tax is due on or before May 31, or within 30 days subsequent to assessment. Taxes levied and due December 5 are intended to fund operations of that fiscal year. A lien is created when the real estate taxes are levied, and after three years it becomes enforceable by judicial sale of the property. Personal property taxes do not create a lien on property; however, the County reports delinquent taxpayers to the Virginia Department of Motor Vehicles (the DMV) twice a year. At that time, the taxpayer will no longer be able to conduct any business with the DMV until the outstanding taxes are paid. The County bills and collects both real estate and personal property taxes. The County recognizes tax revenue when levied to the extent that they are collected during the fiscal year and within 30 days after year-end.

The annual assessment for real estate is based on 94% of the assessed fair market value. A penalty of 10% of the unpaid tax is due for late payment. Interest is accrued at 10% for the initial year of delinquency, and thereafter at the maximum annual rate authorized by the Internal Revenue Code Section 6621 (b). The effective tax rates per \$100 of assessed value for the year ended June 30, 2019 were as follows:

Real Estate	\$1.09
Personal Property	3.50
Machinery and Tools	2.85

(3) Fund Balances

The Board has adopted policies that provide a framework for the County's overall fiscal planning and management. The County's unassigned General Fund fund balance has been built over the years to provide the County with sufficient working capital to finance unforeseen emergencies without borrowing. The County is dedicated to maintaining a diversified and stable revenue system to shelter the government from fluctuations in any single revenue source and to ensure its ability to provide ongoing services. The County's policy is to fund current expenditures with current revenues. If it becomes necessary to fund current expenditures with fund balance, amounts already set aside for that specific purpose will be utilized unless otherwise directed by the County Board.

The County, in accordance with GAAP, categorizes its governmental-type fund balances using the following guidance:

- Nonspendable – Represents County assets that will never convert to cash (e.g., inventory and prepaid items).
- Restricted – Represents County resources with externally enforceable limitations on their use imposed by grantor, or laws and regulations of other governments.

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

- **Committed** – Represents County resources that can be used only for specific purposes, as determined by the County’s highest level of decision-making authority, the Board, and is imposed by formal appropriation, which is an ordinance. The County policy is that formal Board action is required to establish or rescind a committed fund balance.
- **Assigned** – Represents County resources that are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. The County Board has approved limited authority to the parks and recreation management to have the flexibility in decisions on the use of certain funds as deemed necessary by an approved ordinance dated September 27, 1994.
- **Unassigned** – Represents County resources that have no spending restrictions under any of the preceding four classifications. The County has adopted a Board policy for establishing unappropriated fund balance. The General Fund is the only fund that reports a positive unassigned fund balance amount.

It is the policy of the County to spend all restricted monies first, committed funds second, with assigned funds third, and unassigned funds being spent last for any projects with multiple funding sources.

The adopted Comprehensive Financial Policy states under Section 10 the County of Roanoke's General Government Fund Unassigned Balance will be maintained to provide the County with sufficient working capital and a comfortable margin of safety to address emergencies and unexpected declines in revenue. The General Government Fund's Unassigned Fund Balance should not be used to support recurring operating expenditures outside of the current budget year. If a budget variance requires the use of Unassigned Fund Balance, the County will decrease the General Government Fund's expenditures and/or increase the General Government Fund's revenues to prevent using the Unassigned Fund balance for two consecutive fiscal years to subsidize General Fund operations. The General Government Fund's Unassigned Fund balance will be 12% of budgeted annual General Government expenditures. In the event that the General Government Fund's Unassigned Fund Balance is used to provide for temporary funding of unforeseen emergency needs, the County shall restore the balance to the 12% minimum within two fiscal years following the fiscal year in which the event occurred. This will provide for full recovery of the targeted General Government Fund Unassigned Fund Balance in a timely manner.

(4) Deposits and Investments

At June 30, 2019, the fair value and maturity of the County's and Component Units' total deposits and investments were as follows:

Deposits and Investments	Fair Value	Original Investment Maturity		Credit Rating
		Less Than 1 Year	1-6 Year	
Demand and time deposits	\$ 32,286,543	\$ 32,286,543	\$ -	not applicable

Total	<u>\$ 166,458,545</u>	<u>\$ 131,473,231</u>	<u>\$ 34,985,314</u>	

The investment in other pooled funds categorizes its investments within the fair value hierarchy established by general accepted accounting principles. A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the NAV per share (or its equivalent) of the investment. Investments in the pooled funds are valued using the NAV per share, which is determined by dividing the total value of the pooled funds by the number of outstanding shares. The NAV per share changes with the value of the underlying investments in the pooled funds. Generally, participants may redeem their investment at the end of a calendar quarter upon 90 days' written notice. As of June 30, 2019, excluding the pooled funds, there were no other investments.

Below is the carrying value of cash and investments for the Reporting Entity as of June 30, 2019:

Fair Value

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The County has the following recurring fair value measurements as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Debt securities				
U.S. governmental bonds & notes	\$ -	\$ 34,985,314	\$ -	\$ 34,985,314

Debt securities classified in Level 2 of the fair value hierarchy are valued using matrix technique pricing.

Credit and Concentration of Credit Risk

In accordance with the Code of Virginia and other applicable laws, including regulations, the County's investment policy (the Policy) limits credit risk by restricting authorized investments to the following: bonds, notes and other direct obligations of the United States; bonds, notes and other direct obligations of the Commonwealth of Virginia or political subdivisions thereof; bonds and other obligations issued, guaranteed or assumed by the International Bank for Reconstruction and Development and the Asian Development Bank; prime quality commercial paper; certificates of deposits; bankers' acceptances; repurchase agreements; and money market funds. The policy requires that commercial paper have a minimum Standard & Poor's (S&P) rating (or Moody's equivalent) of A-1. Deposits with banks are covered by the Federal Deposit Insurance Corporation (the FDIC) and collateralized in accordance with the Act Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized. The LGIP is administered by the Treasury Board pursuant to Sections 2.2-4600 through 2.2-4606 of the Code of Virginia. The Treasury Board has delegated the management of the LGIP to the State Treasurer. The fair value of the County's position in the LGIP is the same as the value of the pool shares.

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. The Policy establishes limitations on portfolio composition, both by investment type and by issuer, in order to control concentration of credit risk. The maximum percentage of the portfolio permitted in each eligible security with the limit to any one issuer is as follows:

U.S. Treasury Obligations	70%
U.S. Treasury Agency Securities and Instrumentalities of Government Sponsored Corporations	80%
Bankers' Acceptance with no more than 25% with any one Institution and maximum of 10% in any one issuance	40%
Repurchase Agreement Overnight with no more than 20% with any one institution	70%
Repurchase Agreement Two or more nights with no more than 20% with any one institution	25%

Federal Farm Credit Bank Bonds	25.56%

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the depositor will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Policy requires that all investment securities purchased by the County or held as collateral on deposits or investments shall be held by the County or by a third-party custodial agent who may not otherwise be counterparty to the investment transaction. As of June 30, 2019, with the exception of the LOSAP funds, all other County investments are held by the County or in a bank's trust department in the County's name.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Policy requires maturity scheduling be timed to anticipated need and scheduled to coincide with projected cash flow needs. All funds shall be considered short-term except those reserved for capital projects and prepayment funds being held for debt retirement. As of June 30, 2019, the County did not have investments with a maturity greater than 24 months.

(11) Risk Management

The County of Roanoke is self-insured for workers' compensation, health insurance, general liability and automobile liability as follows:

Workers' Compensation – The County established a self-insured Workers' Compensation program July 1, 1986. On July 1, 1990, the School System also implemented a self-insured Workers' Compensation program. Premiums are paid into the Internal Service Fund and the Component Unit Internal Service Fund by all other funds and are available to pay claims, claims reserves and administrative costs of the programs. An excess coverage insurance policy covers each accident in excess of \$500,000 for both the County and the School System, with a higher threshold of \$550,000 for emergency personnel, with statutory limits for all claims prior to June 30, 2015. Effective July 1, 2015, the County and Schools joined the VACORP Pool for any claims in excess of \$200,000. At June 30, 2019, the County and the School System have accrued liabilities of \$2,188,000 and \$748,000, respectively, based primarily upon an estimate by a qualified actuary. Interfund premiums are based primarily upon the insured funds' claims experience and are reported as interfund services provided and used.

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

Health Insurance – The County established a self-insured health insurance program July 1, 1988. On July 1, 1990, the School System also implemented a self-insured health insurance program. Monthly contributions are paid into the Internal Service Fund and the Component Unit Internal Service Fund from the County and School System funds and the County and School System employees based upon estimates from the claims processor that should cover administrative expenses, stop loss insurance premiums, and claims. An excess coverage insurance policy covers each individual's pooled claims in excess of \$200,000. At June 30, 2019, incurred but not yet reported (IBNR) claims for the County and School System are estimated to be \$908,625 and \$1,600,823 respectively. Interfund premiums are based upon the employees within that fund who are enrolled in the plan.

General Liability – The County established a self-insured program for general liability and automobile insurance July 1, 1994. The County purchased excess insurance with \$250,000 retention, with limits of \$2,000,000 per occurrence, and no aggregate limit. At June 30, 2019, the County has an accrued general liability of \$2,500, based primarily upon an estimate by a qualified claims adjuster with a third party administrator.

Automobile Liability – The County continues to be self-insured up to \$250,000 and has certain deductibles in place for auto physical damage and comprehensive/collision. Effective July 1, 2017, the County purchased coverage for physical damage to and liability associated with the operation of the County's fleet, including Fire and Rescue and Solid Waste. At June 30, 2019, the County has an accrued automotive liability of \$10,000, based primarily upon an estimate by a qualified claims adjuster with a third party administrator.

Settled claims have not exceeded insurance coverage for the past three years. Unpaid claims are included as accrued liabilities on the balance sheet. Changes in the balances of claims liabilities during the past two years are as follows:

(12) Pension Plan

Plan Description – All full-time, salaried permanent employees of the County are automatically covered by a VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan.

Employees Covered by Benefit Terms – As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	County of Roanoke	School System Non-Professional Plan
Inactive members or their beneficiaries currently receiving benefits	665	417
Inactive members:		
Vested	181	127
Non-vested	262	178
Active elsewhere in VRS	316	107
Total inactive members	759	412
Active members	982	98
Total covered employees	2,406	927

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to localities and school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's contractually required contribution rate for the year ended June 30, 2019 was 12.32% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan from the County were \$5,664,637 and \$5,081,170 for the years ended June 30, 2019 and June 30, 2018, respectively.

In addition, The School System's contractually required employer contribution rates for the year ended June 30, 2019 were 15.68% and 1.92% of covered employee compensation for the Teacher and Non-Professional Plans, respectively. These rates were based on actuarially determined rates from actuarial valuations as of June 30, 2017. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The actuarial rate for the Teacher Retirement Plan was 15.68%. Contributions to the

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For the County and School System, the net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2017 rolled forward to the measurement date of June 30, 2018.

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the County's Retirement Plan was based on an actuarial valuation as of June 30, 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

Inflation.....2.5 percent
Salary increases.....3.5 percent to 5.35%, including inflation
Investment rate of return.....7.0 Percent, net of pension plan investment expenses, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	100.00%		4.80%
Inflation			2.50%
* Expected arithmetic nominal return			7.30%

- * The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be

made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; Counties were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2018, the alternate rate was the employer contribution rate used in FY 2012 or 90% of the actuarially determined employer contribution rate from the June 30, 2015, actuarial valuations, whichever was greater. From July 1, 2018 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the Long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

(13) Other Postemployment Benefits (OPEB)

Retiree Medical Program

Plan Description - The County administers a single-employer healthcare plan (the Retiree Medical Plan). All full-time employees hired before July 1, 2016 who retire directly from the County and are eligible to receive an early or regular retirement benefit from the VRS are eligible for post-retirement medical coverage. Specific information about the County's Retiree Medical Plan, including eligibility, coverage, and benefits is set out in the table that follows:

OPEB PLAN PROVISIONS – RETIREE MEDICAL
Eligible Members
<p>All full-time employees hired before July 1, 2016, who meet the following criteria, are eligible to for post-retirement medical coverage:</p> <ul style="list-style-type: none"> ○ Retire directly from the County and are eligible to receive an early or regular retirement benefit from the VRS ○ Have 10 years of continuous full-time service through the date of retirement ○ Have 5 years of enrollment in the County sponsored medical plan <p>Eligible dependents on the employee's health insurance may continue to receive the County's contribution toward the health plan.</p>
Benefit Amounts
<p>For plan members receiving benefits, the County contributes a specified amount monthly towards the cost of the health insurance premium.</p>
Program Notes
<p>Actives hired after July 1, 2016 are not eligible.</p>

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

The Retiree Medical Plan is assumed to be the primary plan of benefits prior to age 65. Once the retiree or spouse becomes eligible for Medicare, they must then enroll in the Medicare Advantage Plan.

The County participates in the OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (the VML), at P.O. Box 12164, Richmond, Virginia 23241.

Long-Term Expected Rate of Return - The long-term expected rate of return on OPEB investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

VRS Health Insurance Credit and Group Life Insurance Programs

Plan Description - All full-time, salaried permanent employees of the County are automatically covered by the VRS Political Subdivision Health Insurance Credit Program (HIC) upon employment. All full-time, salaried permanent employees of the state agencies, teachers and employees of participating political subdivisions are automatically covered by the VRS Group Life Insurance Program upon employment.

These plans are administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information about the Health Insurance Credit Program and the Group Life Program, including eligibility, coverage, and benefits is set out in the table below:

Employees Covered by Benefit Terms - As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

Inactive members or their beneficiaries currently receiving benefits	193
Inactive members:	
Vested inactive members	9
Non-vested inactive members	-
Inactive members active elsewhere in VRS	-
Total inactive members	202
Active members	746
Total covered employees	948

Contributions - Under the Health Insurance Credit Program, the contribution requirement for active employees is governed by §51.1-1402(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Under the Group Life Program, the contribution requirements are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of the funding provided to state agencies and school divisions by the Virginia General Assembly.

The County's contractually required employer contribution rate for the year ended June 30, 2019 was 0.30% of covered employee compensation for employees in the Health Insurance Credit Program. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the County to the Political Subdivision Health Insurance Credit Program were \$104,564 and \$135,906 for the years ended June 30, 2019 and June 30, 2018, respectively.

The total rate for the Group Life Insurance Program was 1.31% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.79% (1.31% X 60%) and the employer component was 0.52% (1.31% X 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2019 was 0.52% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Program from the entity were \$240,118 and \$237,653 for the years ended June 30, 2019 and June 30, 2018, respectively.

Net OPEB Liability - The County's net Health Insurance Credit OPEB liability and Group Life Insurance OPEB liability were measured as of June 30, 2018. The total OPEB liability for each program was determined by an actuarial valuation performed as of June 30, 2017, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

Actuarial Assumptions - The total OPEB liability for the Health Insurance Credit Program and Group Life Insurance Program was based on an actuarial valuation as of June 30, 2017, using

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

Inflation.....	2.5 percent
Salary increases, including inflation.....	3.5 percent – 5.35 percent
Investment rate of return.....	7.0 percent, net of investment expenses, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of the OPEB liabilities.

Mortality rates

Pre-Retirement.....RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with Scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement.....RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with Scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement.....RP-2014 Disability Life Mortality Table projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates.....	Updated to a more current mortality table – RP-2014 projected to 2020 (pre-retirement, post-retirement healthy, and disabled)
Retirement Rates.....	Lowered retirement rates at older ages and, for the HIC Program, extended final retirement age from 70 to 75
Withdrawal Rates.....	Adjusted termination rates to better fit experience at each age and service year
Disability Rates.....	Adjusted rates to better match experience (Group Life Insurance Program) Lowered disability rates (Health Insurance Credit Program)
Salary Scale.....	No change

Long-Term Expected Rate of Return - The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	<u>100.00%</u>		<u>4.80%</u>
Inflation			<u>2.50%</u>
Expected arithmetic nominal return			<u>7.30%</u>

* The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

Discount Rate - The discount rate used to measure the total OPEB liability for the Health Insurance Credit Program and the Group Life Insurance Program was 7.00%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the entity for the OPEB plans will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net positions were projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Group Life Insurance Program OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program OPEB - At June 30, 2019, the entities reported a liability of \$3,822,000 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

of June 30, 2018 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation as of that date. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Program for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018, the participating employer's proportion was 0.25166% as compared to 0.25093% at June 30, 2017.

For the year ended June 30, 2019, the participating employer recognized GLI OPEB expense of \$35,000. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2019, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Other Postemployment Benefits – VRS – Schools

Plan Description – All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

Program (Health Credit Program). All full-time, salaried permanent employees of the state agencies, teachers and employees of participating political subdivisions are automatically covered by the VRS Group Life Insurance Program (Group Life Program) upon employment.

These plans are administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members of the Health Credit Program earn one month of service credit toward the benefit of each month they are employed and for which their employer pays contributions to VRS.

The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information for the Health Credit Program and the Group Life Program, including eligibility, coverage, and benefits is set out in the table on the following pages.

Contributions – Under the Health Credit Program, the contribution requirement for active employees is governed by §51.1-1401(E) of the Code of Virginia, as amended, but may be

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements

impacted as a result of funding provided to school divisions by the Virginia General Assembly. Under the Group Life Program, the contribution requirements are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly.

Each school division's contractually required employer contribution rate for the year ended June 30, 2019 was 1.20% of covered employee compensation for employees in the Health Credit Program. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School System to the Health Credit Program were \$930,288 and \$947,188 for the years ended June 30, 2019 and June 30, 2018, respectively.

The total rate for the Group Life Program was 1.31% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.79% ($1.31\% \times 60\%$) and the employer component was 0.52% ($1.31\% \times 40\%$). Although not required, the School System elected to pay the employee component, which is separate from the contractually required employer component. Each employer's contractually required employer contribution rate for the year ended June 30, 2019 was 0.52% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contribution to the Group Life Insurance Program from the entity were \$419,260 and \$420,490 for the years ended June 30, 2019 and June 30, 2018, respectively.

OPEB Liabilities and OPEB Expense – At June 30, 2019, the School System reported \$12,093,000 for its proportionate share of the Health Credit Program Net OPEB Liability. The Health Credit Program Net OPEB Liability was measured as of June 30, 2018 and the Health Credit Program total OPEB liability used to calculate the Health Credit Program Net OPEB Liability was determined by an actuarial valuation as of that date. The School System's proportion of the Health Credit Program Net OPEB Liability was based on the School System's actuarially determined employer contributions to the Health Credit Program OPEB plan for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018, the School System's proportion of the Health Credit Program was 0.95240% as compared to 0.97245% at June 30, 2017.

At June 30, 2019, the School System reported \$6,157,000 and \$252,000 for its proportionate share of the Group Life Program Net OPEB Liability for the teachers and non-professional employees, respectively. The Group Life Program Net OPEB Liability was measured as of June 30, 2018 and the Group Life Program total OPEB liability used to calculate the Group Life Program Net OPEB Liability was determined by an actuarial valuation as of that date. The covered employer's proportion of the Group Life Program Net OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Program for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018, the participating employer's proportion was 0.40541% and 0.01657% for teachers and non-professional employees,

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

respectively, as compared to 0.41724% and 0.01666% for teachers and non-professional employees, respectively, at June 30, 2017.

For the year ended June 30, 2019, the School System recognized Health Credit Program OPEB expense of \$993,000. For the year ended June 30, 2019, the participating employer recognized Group Life Program OPEB expense of \$50,000 and \$(1,000) for teachers and non-professional employees, respectively. Since there was a change in proportionate share between measurement dates, a portion of the Health Credit Program and Group Life Program OPEB expense was related to deferred amounts from changes in proportion.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB Plans – At June 30, 2019, the School System reported deferred outflows of resources and deferred inflows of resources related to the OPEB program from the following sources:

\$930,288, \$403,539, and \$15,721 of deferred outflows of resources resulting from the School System's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020 for the Health Credit Program, Group Life Program Teacher Plan, and Group Life Program Non-Professional Plan, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB programs will be recognized in OPEB expense as follows:

Payable to the OPEB Plans – At June 30, 2019, the Health Credit Program, Group Life Program Teacher Plan, and Group Life Program Non-Professional Plan reported payables of \$14,870, \$16,223, and \$2,932, respectively, for the outstanding amount of contributions to the OPEB plans required for the year ended June 30, 2019.

Actuarial Assumptions – The total OPEB liability for the Health Credit Program and Group Life Program was based on an actuarial valuation as of June 30, 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

Inflation.....2.50%

Salary increases, including inflation.....3.50% to 5.95% for Health Credit Program

.....3.50% to 5.95% for Group Life Program-Teacher Plan

.....3.50% to 5.35% for Group Life Program-Non-Professional Plan

Investment rate of return7.00%, net of pension plan investment expense, including inflation*

*Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GAAP purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of OPEB liabilities.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates Updated to a more current mortality table – RP-2014 projected to 2020 (pre-retirement, post-retirement healthy, and disabled)

Retirement Rates Lowered rates at older ages and changed final retirement from 70 to 75

Withdrawal Rates Adjusted rates to better fit experience at each year age and service through 9 years of service (Health Credit Program and Group Life Program Teacher Plan) Adjusted termination rates to better fit experience at each age and service (Group Life Program Non-Professional Plan)

Disability Rates Adjusted rates to better match experience (Health Credit Program and Group Life Program Teacher Plan) Lowered disability rates (Group Life Program Non-Professional Plan)

Salary Scale No change

Net OPEB Liability – The net OPEB liability (NOL) is calculated separately for each school division and represents that particular division's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2018, NOL amounts for the School System's participation in the OPEB Plans is as follows:

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

	Health Credit Program	Group Life Program Teacher Plan	Non-Professional Plan
Total GLI OPEB Liability	\$ 13,156,000	\$ 12,622,000	\$ 517,000
Plan Fiduciary Net Position	1,063,000	6,465,000	265,000
Net OPEB Liability	<u>\$ 12,093,000</u>	<u>\$ 6,157,000</u>	<u>\$ 252,000</u>

Fiduciary Net Position as a Percentage of Total OPEB Liability	8.08%	51.22%	51.26%
---	-------	--------	--------

The total OPEB liability is calculated by the System's actuary, and each school division's fiduciary net position is reported in the System's financial Statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Discount Rate – The discount rate used to measure the total OPEB liability was 7.00%. For the Health Credit Program, the projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. For the Group Life Program, the projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the school division for the OPEB Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees for the Health Credit Program and eligible employees for the Group Life Program. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Long-Term Expected Rate of Return – The long-term expected rate of return on VRS OPEB System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS OPEB System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

COUNTY OF ROANOKE, VIRGINIA
Notes to Basic Financial Statements
June 30, 2019

Asset Class (Strategy)	Target Allocation	Long-Term Expected Rate of Return	
		Arithmetic	Weighted Average
Public Equity	40.00%	4.54%	1.82%
Fixed Income	15.00%	0.69%	0.10%
Credit Strategies	15.00%	3.96%	0.59%
Real Assets	15.00%	5.76%	0.86%
Private Equity	15.00%	9.53%	1.43%
Total	100.00%		4.80%
		Inflation	2.50%
		*Expected arithmetic nominal return	7.30%

*The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

Sensitivity of the School System's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate – The following presents the School System's proportionate share of the Net OPEB liability using the discount rate of 7.00%, as well as what the School System's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)

Other Postemployment Benefits – Employer Recognition of the OPEB Plan – Schools

Plan Description – The School System administers and sponsors a single-employer defined benefit healthcare plan (Retiree Medical Plan). Employees are eligible for this benefit if they retire after age 55 with at least 10 years of service and 12 months enrollment in the School System's self-insured health insurance program. Information for the June 30, 2019 School System Retiree Medical Plan balances are based on the June 30, 2018 actuarial valuation with a measurement date of June 30, 2018.

The School System participates in the OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The OPEB Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (VML) at P.O. Box 12164, Richmond, VA 23241.

COUNTY OF ROANOKE, VIRGINIA

Benefits Provided – The School System contributes up to \$2,500 per year towards the total medical premium for each eligible retiree for up to five years after retiring under the Employee Extended Work Plan. The total retiree medical premium is calculated as a blended rate based on the medical claims of all active and retired participants resulting in an implicit subsidy that benefits the retiree with a lower cost medical premium.

All health care benefits are provided through the School System's self-insured health insurance program. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services, mental, nervous and substance abuse care, vision care, and prescriptions. Once a retiree reaches age 65, retirees are removed from the plan.

The benefits, employee contributions, and employer contributions are governed by School Board policy and can be amended through School Board action.

Employees Covered by Benefit Terms – As of the Valuation Date of June 30, 2018, the following employees were covered by the benefit terms in the Retiree Medical Plan:

Inactive employees or beneficiaries currently receiving benefits	147
Active employees	<u>1,382</u>
Total covered employees	<u><u>1,529</u></u>

Contributions – The Retiree Medical Plan is funded through member and employer contributions. Plan members receiving benefits contribute monthly premiums towards the cost of the health insurance depending on the coverage selected (single, single plus dependent, single plus spouse, or family).

For the fiscal year ended June 30, 2019, the School System's average contribution rate was 1.59% of covered employee payroll. The total amount contributed was \$579,484. This rate was based on the actuarially determined rate from the actuarial valuation performed as of June 30, 2018.

Net OPEB Liability and OPEB Expense – At June 30, 2019, the Retiree Medical Plan reported a net OPEB liability of \$10,012,145. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation performed as of June 30, 2018.

Other Postemployment Benefits – Retiree Medical Plan Disclosures – Schools

The GASB issued Statement 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, in June 2015. This GASB Statement requires the School System to report extensive note disclosures and required supplementary information (RSI) about the Retiree Medical Plan itself because since the plan does not issue a separate financial report. Information for these required disclosures and RSI are based on the June 30, 2018 actuarial valuation date with measurement dates of June 30, 2019. Given this, the information for the Retiree Medical Plan below is one year subsequent to the required Employer Disclosures of the Plan as recognized in the Statement of Net Position and discussed in Note 12.

Actuarial Assumptions – The total OPEB liability was based on an actuarial valuation date of June 30, 2018 and measurement date as of June 30, 2019, using the Entry Age normal actuarial market value cost method and the following assumptions.

Inflation.....	This is implicitly included in the investment rate of return and healthcare cost trend rates.
Discount rate	2.98% per annum
Salary increases.....	3.0% per annum
Investment rate of return	7.5% per annum
Medical.....	7.5% graded down to 5.0% over 10 years beginning in 2018

Professionals Post-Retirement.....	RP-2000, Males setback 2 years, Females setback 3 years, projected to 2020 with Scale AA
Professionals Disability	RP-2000, Males setback 1 year, no future mortality improvements
Non-Professionals Pre-retirement..	RP-2000, Males set forward 2 years, Females setback 3 years, projected to 2020 with Scale AA
Non-Professionals Post-retirement	RP-2000, Females setback 1 years (no setback for Males), projected to 2020 with Scale AA
Non-Professionals Disability	RP-2000, Males setback 3 years, no future mortality improvements

The following changes were made to the actuarial assumptions and methods effective June 30, 2018:

- The percentage of future eligible retirees electing medical coverage was updated from 45.89% to 42.50%.
- The percentage of future eligible retirees electing medical coverage for a spouse was

updated from 9.48% to 8.80%.

- The mortality, disability, withdrawal, and retirement assumptions were updated to the assumptions listed in the most recently published VRS Comprehensive Annual Financial Report, which was the 2017 report.

Net OPEB Liability – The net OPEB liability (NOL) for the Retiree Medical Plan represents its total OPEB liability calculated by the actuary in accordance with GASB Statement No. 74 less the fiduciary net position. As of the valuation date of June 30, 2018 and measurement date of June 30, 2019, NOL amounts are as follows:

Total OPEB Liability	\$ 11,186,267
Plan Fiduciary Net Position	894,368
Net OPEB Liability	<u>\$ 10,291,899</u>

Fiduciary Net Position as a Percentage of Total OPEB Liability	8.00%

Long-Term Expected Rate of Return – The long-term expected rate of return on Retiree Medical Plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Large Cap Equity (Domestic)	26.00%	11.01%	2.86%

(14) Fire and Rescue Pension Trust Length of Service Awards Program

Plan Description

The County established a Length of Service Awards Program (the LOSAP) on January 1, 1989, to recognize the service the volunteers for the County Fire and Rescue provide to the County. LOSAP is a single employer, noncontributory defined benefit plan. It is owned by the County and governed by the Volunteer Fireman's Insurance Services, Inc. (the VFIS). The plan's fiscal year follows the calendar year January 1 through December 31. It was active until December 31, 2005, at which time the County Board froze all member benefits in the program. LOSAP was open to any volunteer member over 18 years of age who met specific eligibility and service requirements. No assets are accumulated in a trust that meets the reporting and disclosure criteria of GAAP. Plan assets are accumulated in a revocable trust reported in the General Fund.

Benefits provided. The Plan provides a benefit of \$12 for each year of credited fire or rescue service completed after January 1, 1989, plus \$12 for each year of credited fire or rescue service completed between January 1, 1979 and January 1, 1989. No participant receives credit for more than a total of 20 years of fire or rescue service. The maximum per month benefit under this plan is \$240. The plan does not provide for post-retirement

The program is closed to new entrants.

Total Pension Liability

The County's total LOSAP pension liability of \$9,921,930 was measured as of July 31, 2018 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 31, 2017 rolled forward to July 31, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	0.0 percent
Salary increases	Not applicable
Investment rate of return	3.69 percent, net of pension plan investment expense, including inflation
Mortality	No pre-retirement mortality; post retirement RP2000 projected to 2030
Retirement	First eligible
Turnover	None
Disability	None

The discount rate was based on the 20-year, AA tax-exempt general obligation bond rate of 3.69%.

	General Fund
Sales Tax	\$ 995,395
Other local tax	256,105
Total	<u>\$ 1,251,500</u>

(16) Commitments, Contingencies, and Other Information

Encumbrances – The County had \$695,993 of encumbrances reported as restricted and committed under the general governmental funds and \$26,348,764 for capital projects.

Litigation – Various claims are pending against the County. In the opinion of County management, after consulting with legal counsel, the potential loss on all claims will not materially affect the County's financial position or activities.

Grant Programs – Under the terms of federal and state grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement of the grantor agencies. County management believes disallowances, if any, would not be material to the financial position of the County at June 30, 2019.

Other Commitments –

- In August 1999, the Board adopted a resolution to enter into a Local Participation Agreement with Virginia's First Regional Industrial Facility Authority, and to purchase 10,000 shares of a 150,000 share pool for the financing of the initial phase of the New River Valley Commerce Park Project. The County's annual required payment for the shares and the administrative costs are currently \$34,255 per year.
- In November 2007, the Board approved a three party agreement between the Western Virginia Water Authority (WVWA), Franklin County, and the County. The agreement is to provide for the construction of a water line in the Route 220 corridor from Clearbrook in the County to the Wirtz Plateau in Franklin County. The WVWA will design, construct, and issue revenue bonds for this \$5.5 million project. The County's contribution to this project is approximately \$2.3 million payable over 20

years, beginning in FY 2009. The County's contribution to the WVWA for the year ended June 30, 2019 totaled \$179,859.

- The Authority entered into an agreement with R.R. Donnelley and Sons Company, Inc. in February 2006 to assume any maintenance obligations for the Valley TechPark stormwater facilities, under existing uniform local policies and ordinances. In the unlikely event that the County adopts an ordinance or policy imposing a stormwater fee on property owned by R.R. Donnelley, the County of Roanoke will appropriate to the Authority a sum sufficient to pay R.R. Donnelley's pro rata share of this fee, for a period of ten years from the imposition of the fee. After ten years, any such fees shall be paid by R.R. Donnelley.

Although obligation under the revenue bonds issued to date through the Authority is secured by lease proceeds and the underlying properties and the Authority retains no liability on pass through leases, the Authority and the County may choose at their option to assume responsibility for the bonds in the event of default by lessees to preserve the credit rating of the Authority for future issues.

- The Roanoke Valley Broadband Authority (RVBA), formed by the County, City of Roanoke, City of Salem, and Botetourt County, will construct a core fiber network of approximately 25 miles to service Roanoke County. The County's contribution to this project is expected to be approximately \$3.85 million payable over 10 years. The County's contribution to the RVBA for the year ended June 30, 2019 totaled \$714,477, which included contributions for debt related principal and interest payments of \$387,279 and operating support of \$327,198.
- The Western Virginia Regional Industrial Facility Authority was formed in 2014 and includes the County, Franklin County, Botetourt County, Town of Vinton, City of Salem and City of Roanoke. The purpose of the Authority was to provide a mechanism for local jurisdictions to engage in partnerships that would facilitate economic growth and development in the Roanoke Valley. The County, City of Salem and Roanoke City entered into a partnership agreement for the acquisition of the Wood haven Property. The County's contribution to this project is approximately \$4.4 million payable over 20 years, beginning in FY 2018. The County's debt related payments for the year ended June 30, 2019 totaled \$149,557.
- On September 10, 2019, the Board of Supervisors authorized the issuance of not to exceed \$10,000,000 of Revenue Lease Bonds through the Virginia Resources Authority and appropriation of funds for the construction and renovation for the relocation of all General Services department functions and the CommIT department shop and tower maintenance functions.

(17) Jointly Governed Organizations

The following entities are considered to be jointly governed. The County has no ongoing financial responsibility or interest in jointly governed organizations.

Roanoke Valley Resource Authority

The Roanoke Valley Resource Authority (the RVRA) was established on October 23, 1991 under a user agreement between the County, City of Roanoke, Virginia (the City), and the

COUNTY OF ROANOKE, VIRGINIA

Town of Vinton, Virginia (the Town) to develop a regional solid waste disposal facility. The old regional sanitary landfill operated by the Roanoke Valley Regional Solid Waste Management Board was closed on September 30, 1993. The City of Salem became a member of the RVRA, effective November 1, 2016.

RVRA is presently governed by a nine member board appointed by the governing bodies of the Charter Members. The County has control over the budget and financing of the RVRA only to the extent of representation by the board members appointed. For the fiscal year ended June 30, 2019, the County remitted \$2,064,680 to RVRA for services. Participating localities are responsible for their pro-rata share, based on population, of any year-end deficit. RVRA is currently self-supporting and is expected to remain as such in the future. The County is the fiscal agent for RVRA and reports its assets and liabilities in an agency fund.

Roanoke Regional Airport Commission

The Roanoke Regional Airport Commission (the Commission) was established on July 1, 1987 by legislative act of the Commonwealth of Virginia to own and operate the Roanoke Regional Airport. The Commission is composed of five members.

Two members are appointed by the County Board and three by City Council. The County and the City are each responsible for their pro-rata share, based on population, of any year-end operating deficit or capital expenditures if any additional funding is required. The Commission is responsible for paying all outstanding debt. No subsidy has been required since inception.

Roanoke Valley Detention Commission

The Counties of Botetourt, Craig, and Roanoke, and the Cities of Roanoke and Salem formed the Roanoke Valley Detention Commission (the RVDC) to renovate, expand, and operate a detention facility for juveniles. RVDC is governed by a six member board. Each locality's financial obligation is based on the number of juveniles housed at the facility. The County's contribution for the year ended June 30, 2019 was \$407,220. RVDC has the authority to issue debt and such debt is the responsibility of RVDC.

Blue Ridge Behavioral Healthcare

The Counties of Botetourt, Craig, and Roanoke, and the Cities of Roanoke and Salem formed Blue Ridge Community Services (the Blue Ridge) to provide a system of comprehensive community mental health, mental retardation, and substance abuse services. Blue Ridge is governed by a sixteen member board. Each locality's financial obligation is based on the type and amount of services performed for individuals in the locality. The annual contribution for the year ended June 30, 2019 was \$240,000.

Fifth Planning District Disability Services Board

The Counties of Allegheny, Botetourt, Craig, and Roanoke, the Town, and the Cities of Roanoke, Salem, Covington, and Clifton Forge jointly participate in the Fifth Planning District Disability Services Board, which provides input to state and local agencies on service needs and priorities with physical and sensory disabilities.

Regional Center for Animal Care and Protection

The Regional Center for Animal Care and Protection (the Regional Pound) was created by an intergovernmental agreement dated December 11, 2012 between the charter members of the County, the City, the Town, and Botetourt County pursuant to code section 3.26546 of the Code of Virginia which requires the governing body of each county, town, or city to maintain or cause a “pound” to be maintained and allows one or more local governing bodies to operate a single “pound” in conjunction with one another. This agreement established a format to transition the management of the “pound” from the Roanoke Valley Society for the Prevention of Cruelty to Animals to the governing localities and also established the County as the fiscal agent effective July 1, 2013. Participating localities are responsible for their pro-rata share of the operating budget, which is billed on a monthly basis. For the year ended June 30, 2019, the County’s share was \$302,709.

In addition, the City issued \$1,829,500 on November 1, 2013 to purchase the property and equipment from the Roanoke Valley Society for the Prevention of Cruelty to Animals on behalf of the Regional Pound. Participating localities are responsible for their pro-rata share of the outstanding debt, which is billed on a quarterly basis. For the year ended June 30, 2019, the County’s share of principal and interest was \$51,253.

Western Virginia Water Authority

The WVWA was created by the County and the City on July 1, 2004. The WVWA is a full service authority that provides water and wastewater treatment to both County and City citizens. The WVWA is governed by a seven member board of which two are appointed by the County Board. The County has no financial responsibility for the debt issued by the WVWA.

Western Virginia Regional Jail Authority

The Counties of Roanoke, Franklin, Montgomery, and the City of Salem formed the Western Virginia Regional Jail Authority (the WVRJA) in June 2005 for the purpose of developing and operating a regional jail authority for the benefit of the Member Jurisdictions. The Board consists of three representatives from each of the Member Jurisdictions. The Member Jurisdictions will each be responsible for a per diem cost based on their prisoner days used. For the year ended June 30, 2019, the County’s share was approximately \$2,855,350.

Roanoke Valley Broadband Authority

In 2011, the regional business community initiated a work group to examine the region’s broadband infrastructure. Based on the findings of the work group, the County of Roanoke, City of Roanoke, City of Salem, and Botetourt County concurrently took action to form the Roanoke Valley Broadband Authority (RVBA) for the purpose of bringing enhanced broadband services to the Roanoke Valley. In 2015, the City of Salem and the City of Roanoke, through the RVBA, initiated construction of approximately 47 miles of fiber network in their respective jurisdictions, which became operational in early 2016.

In May 2016, the Roanoke County Board of Supervisors authorized an expansion of the RVBA fiber network to include construction of approximately 25 miles of broadband infrastructure in Roanoke County. As a result, RVBA issued a revenue bond on June 17, 2016 in the amount of \$3,000,000 (plus amounts for a required Local Debt Service

Reserve Fund, administrative costs, and costs of issuance) to design, construct, and operate the expanded network. The County is responsible for the amount of debt service on the Series 2016 Local Bond. Additionally, the County of Roanoke, City of Roanoke, and City of Salem will each be responsible for one-third of the operation and maintenance expenses related to the expansion. The County's contribution to the RVBA for the year ended June 30, 2019 totaled \$714,477, which included contributions for debt-related payments of \$387,279 and operating support of \$327,198.

Western Virginia Regional Industrial Facility Authority

The Western Virginia Regional Industrial Facility Authority (WVRIFA) was formed in 2014, and includes the Counties of Roanoke, Franklin, and Botetourt, the Town of Vinton, and the Cities of Roanoke and Salem. The purpose of the WVRIFA is to provide a mechanism for local jurisdictions to engage in partnerships that would facilitate economic growth and development in the Roanoke Valley.

Through the WVRIFA, the County entered into a partnership agreement with the Cities of Salem and Roanoke for the acquisition of the Wood Haven Property, which consists of several tracts of land comprising over 100 acres of developable land situated at the intersection of Interstate 81 and 581. According to the terms of the Partnership Agreement, the costs of acquisition and site development will be shared by the County (44.2%), City of Roanoke (44.2%), and the City of Salem (11.6%). The County's contribution to this project is expected to be approximately \$4.4 million payable over 20 years, beginning in FY 2018. For the year ended June 30, 2019, the County share of principal and interest was \$149,471.

(18) Incentive Agreements and Tax Abatements

The County, along with the Economic Development Authority of Roanoke County, which is reported as discretely presented component unit, provides economic development incentive grants as permitted by Virginia State Code section 15.2-4905, Powers of authorities. During the fiscal year ended June 30, 2019, the County abated taxes and fees totaling \$93,325 through such agreements. A summary of the key provisions of each agreement follows.

The Authority, in conjunction with the County, approved an agreement with Edward Rose Development Company, L.L.C., on May 5, 2011, which was subsequently amended on April 22, 2014. Under the terms of the agreement, as amended, the Company agreed to construct a new mixed use commercial development by December 31, 2019, along with certain public infrastructure improvements. The agreement calls for the Authority, with funds provided by the County, to pay not more than \$300,000 in the form of an Economic Development Incentive Grant, based on new commercial real estate tax revenues in any two calendar years of the Company's choice from 2013 through 2019. The Authority, in conjunction with the County, also agreed to reimburse up to \$100,000, with a matching \$100,000 to be reimbursed by the Western Virginia Water Authority (WVWA), upon completion and acceptance by the WVWA of water line extension construction. No reimbursement has been made pursuant to this agreement, nor is reimbursement expected under the current terms.

On August 11, 2015, the Authority, in conjunction with the County and Town of Vinton, approved an agreement with Old School Partners, LLC, whereby the Company shall

acquire from the County and redevelop the old Roland E. Cook Elementary School building for the Company's use that will contain twenty-one (21) apartments, including a complete restoration, while maintaining the historic character of the building and incorporating modern conveniences. This agreement provides for the Authority, with funds provided by the County and the Town of Vinton, to grant funds not to exceed \$150,000 for the Economic Development Incentive Grant, based on new local tax revenues collected in calendar years 2017 through 2026. The agreement also calls for reimbursement by the Authority of certain permitting and other fees imposed by the County and of utility connection fees imposed by the Town of Vinton. In accordance with the terms of this agreement, Roanoke County local tax revenues in the amount of \$19,669 and Town of Vinton local tax revenues in the amount of \$1,263 were reimbursed to the Company in the form of an Economic Development Incentive Grant during the year ended June 30, 2019.

On April 7, 2016, the Authority, in conjunction with the County, approved an agreement with Waukeshaw Development, Inc., whereby the Company shall acquire from the County the Old William Byrd High School building and associated acreage for the Company's use. The Company will convert the building to market rate apartments, at a density and unit mix to be determined by the Town of Vinton's zoning requirements and the Company's sole discretion. In accordance with the agreement, the Company was required to deposit \$200,000 in escrow payable to the County or the Authority prior to commencing any renovation or construction. The agreement provides for the Authority, with funds provided by the County and Town of Vinton, to provide an Economic Development Incentive Grant not to exceed \$1 million based on new real estate tax revenues collected in calendar years 2018 through 2027. In accordance with the terms of this agreement, Roanoke County local tax revenues in the amount of \$28,952, Town of Vinton local tax revenues in the amount of \$1,859, and other fees and permits in the amount of \$24,455 were reimbursed to the Company in the form of an Economic Development Incentive Grant during the year ended June 30, 2019.

On June 26, 2016, the Authority, in conjunction with the County, approved an agreement with Vindos, LLC, whereby the Company shall acquire from the County the old Vinton Library for \$700,000. The Company will convert the building into a restaurant. The agreement provides for the Authority, with funds provided by the Town of Vinton, to provide an Economic Development Incentive Grant not to exceed \$500,000 based on new meals tax revenues collected in calendar years 2018 through 2027. In accordance with the terms of this agreement, Town of Vinton meals tax revenues in the amount of \$17,127 were reimbursed to the Company in the form of an Economic Development Incentive Grant during the year ended June 30, 2019.

(19) Special Assessment – Component Unit

On February 8, 2012, the CDA approved the issuance of the Series 2012 bonds by resolution to finance the infrastructure improvements and facilities for approximately 62.5 acres of land within the County as mixed-use commercial and residential development. The Series 2012 bonds were issued in December 2012 in the amount of \$7,000,000 with maturation in 20 years. Neither the faith nor credit of the Commonwealth of Virginia nor the County is pledged to the payment of the principal or interest of the Series 2012 bonds. By memorandum of understanding dated February 1, 2011, the County will collect and pay to the CDA or Trustee the incremental tax revenues generated by the District. In addition, the County will levy a special assessment on property owners in the district as

Notes to schedules:

Changes in assumptions. Changes of assumptions reflect change in the discount rate from 3.50% to 3.69% and changes in the mortality tables used.

There is no covered employee payroll since this plan provides benefits for volunteers.

This schedule is intended to show information for 10 years. Since this is the third year for this presentation, only two additional years are shown. However, additional years will be included as they become available.

The amounts presented have a measurement date of the previous fiscal year end.

COUNTY OF ROANOKE, VIRGINIA
Notes to Required Supplementary Information
For the Year Ended June 30, 2019
(Unaudited)

1. Budgetary Accounting and Control

Annual Budget Adoption - Annual budgets are legally adopted for the General, Debt Service, and School Board Component Unit Operating Funds. The Debt Service Fund is budgeted for principal and interest payments to be paid. Capital Projects Fund is budgeted on a project basis. The County follows these procedures in establishing the budgetary data reflected in the required supplementary information. The Code of Virginia requires adoption of a balanced budget by June 30 of each year. The County Board of Supervisors formally adopted the fiscal year 2018-2019 budget appropriation on May 22, 2018.

Budgetary Basis of Accounting - The General and Debt Service Fund budgets are adopted on the modified accrual basis of accounting, a basis of accounting consistent with accounting principles generally accepted in the United States of America.

Budgetary Process - At least sixty days prior to June 30, the County Administrator submits to the Board of Supervisors a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain citizen comments. Prior to June 30, the budget is legally enacted through an ordinance passed by the County Board of Supervisors.

Budgetary Controls - Legal budgetary control is maintained at the fund level. However, for management purposes, the budget is segregated into three categories: personnel, operating, and capital expenditures by department. The Department Head may use discretion to transfer from one category to another as long as the departmental total does not change. County debt is segregated into a separate fund for budgetary purposes. The County Administrator may authorize or delegate the authorization of a transfer of any unencumbered balance or portion thereof from one department to another within a fund. All other transfers require approval of the Board of Supervisors. Formal budgetary integration into the financial accounting system is employed as a management control device during the year for the governmental type funds. Management control is maintained at the category level (i.e. personnel, operating, capital) and supplemental appropriations during the year-end cannot exceed the undesignated fund balance. Actual expenditures and operating transfers out may not legally exceed budget appropriations at the fund level. Unspent appropriations lapse at year-end for legally adopted budgets. The Board of Supervisors must approve any budget amendments increasing or decreasing appropriations. Major amendments are budget amendments that exceed one percent of the original budget, which is \$2.2 million for fiscal year 2018-2019. These major amendments must go through the same public hearing requirements as the original budget.

Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2019

Net change in fund balances - total governmental funds	\$ 3,119,367
--	--------------

Amounts reported for governmental activities in the Statement of Activities are different due to:

Internal service funds are used to charge the costs of health, dental, and workers' compensation insurance to individual funds. The change in net position of the internal service funds are reported with governmental activities.	301,174
---	---------

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate the cost of those assets over the life of the assets.

Capital outlay	5,403,517
Capital donated	6,919,043
Depreciation expense	(6,040,572)
Loss on sale of assets	(8,385)

Revenues reported in the Statement of Activities, such as certain unearned revenues, are not considered available current financial resources and, therefore, are not reported as revenues in governmental funds. This is the amount by which the current year unearned amount exceeds the prior year available resources.	(13,694)
--	----------

Expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated absences	281,146
----------------------	---------

Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

Deferred outflows of resources	(1,832,384)
Cost of benefits earned net of employee contributions	8,457,910

Governmental funds report other postemployment benefit provided by Virginia Retirement System contributions as expenditures. However, in the Statement of Activities, the cost of other postemployment benefit provided by Virginia Retirement System benefits earned net of employee contributions is reported as pension expense.

Deferred outflows of resources	215,870
Cost of benefits earned net of employee contributions	87,000

Governmental funds report other postemployment benefit provided by Roanoke County Public Schools contributions as expenditures. However, in the Statement of Activities, the cost of other postemployment benefit provided by Roanoke County Public Schools benefits earned net of employee contributions is reported as pension expense.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of
the Board of Supervisors
County of Roanoke, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Roanoke, Virginia (the "County"), as of and for the year ended June 30, 2019 and the related notes to the financial statements which collectively comprise the County's basic financial statements, and have issued our report thereon dated, November 22, 2019. Our report includes a reference to other auditors who audit the financial statements of the South Peak Community Development Authority, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. **Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

Your Success is Our Focus

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. **The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Members of
the Board of Supervisors
Roanoke, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Roanoke, Virginia's (the "County's") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the County's major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section, and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. **We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
