COUNTY OF ACCOMACK CENTRAL ACCOUNTING

Post Office Box 620 Accomac, Virginia 23301 (757) 787-5714 (757) 824-5444

December 21, 2010

To the Honorable Members of the Board of Supervisors To the Citizens of Accomack County, Virginia

We are pleased to present the Comprehensive Annual Financial Report of the County of Accomack, Virginia, (the "County"), for the fiscal year ended June 30, 2010. This report was prepared by the County's Central Accounting Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds. We further believe that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

Generally accepted accounting principals require management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County of Accomack's MD&A can be found immediately following the report of the independent auditors.

Report Organization. The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and compliance.

- ☐ <u>Introductory Section</u>: The Introductory Section includes this letter of transmittal, a certificate of achievement for excellence in financial reporting, the County's organizational chart and list of principal officials.
- ☐ <u>Financial Section</u>: The Financial Section includes Management's Discussion and Analysis (MD&A), government-wide and fund financial statements, notes to the financial statements, required and other

- ☐ <u>Statistical Section</u>: The Statistical Section contains selected financial and demographic information generally presented on a multi-year basis.
- ☐ Compliance Section: The Compliance Section contains information on County programs that are financed by federal grants. This information is required by the Single Audit Act and by the Commonwealth of Virginia Auditor of Public Accounts.

The Reporting Entity. The County of Accomack's report includes all funds of the "primary government." In Virginia, cities and counties are distinct units of government; therefore, the County is responsible for providing all services normally provided by a local government. These services include public safety, social services, recreation and cultural activities and community development. For financial reporting purposes and in accordance with the Governmental Accounting Standards Board (GASB), Statement 14, "The Financial Reporting Entity," as amended by GASB No. 39, the County has identified eight discretely presented component units. This GASB statement establishes the criteria used in making this determination and identifies each as a blended component unit or discretely presented component unit. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of this primary government. Based on GASB Statement 14, as amended by GASB No. 39, as interpreted by Virginia's Auditor of Public Accounts, the School Board is a legally separate organization providing educational services to the public whose board is appointed by a School Board Selection Committee and is fiscally dependent on the local government.

Independent Audit. The Commonwealth of Virginia requires an annual audit of the financial records and transactions of all departments of the County by independent certified public accountants selected by the Board of Supervisors. The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996, as amended, and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Government and Non-Profit Organizations*. Information related to this single audit, including the findings and recommendations, and auditors' reports on the internal control structure and compliance with laws and regulations, is contained in this report. These requirements have been compiled with the auditors' opinion and are included in this report.

Internal and Budgetary Controls: The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

In addition to internal accounting controls, the County also maintains budgetary controls. These budgetary controls ensure compliance with provisions embodied in the annual budget adopted and appropriated by the Board of Supervisors. Activities of the general fund, special revenue funds, debt service fund, and capital project funds are included in the annual appropriated budget.

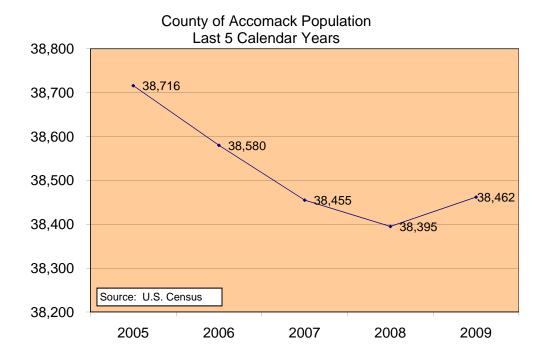

As a recipient of federal and state financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations. The audit for the fiscal year ended June 30, 2010 has been completed and no material internal control weaknesses or material violations of laws and regulations have been found.

The County adopts an annual budget by July 1 of each year as required by Section 15.2-2503, Code of Virginia of 1950, as amended. A budget is not required for fiduciary funds.

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with Section 15.2-2507, Code of Virginia of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required. These appropriations, except those to incur mandated expenditures, may be greater or less than contemplated in the budget.

Local Economy. Accomack County is located in the northernmost portion of the Eastern Shore of Virginia, towards the southern end of the Delmarva Peninsula. The 476 square mile county is bounded on the north by the state of Maryland, on the east by the Atlantic Ocean, on the south by Northampton County, and on the west by the Chesapeake Bay. Accomack County is home to the NASA Wallops Flight Facility, a center of aeronautic research established in 1945. With its saltwater bays, marshes and numerous creeks, Accomack County is one of the few unspoiled coastal areas on the eastern seaboard.

Population: The County had a population of 38,462 at December 31, 2009 according to the U.S. Census Bureau, increasing at a rate of less than 1% over the previous twelve months.

Labor Force Employment: Over the past three years, there have been minor changes in average employment. Isolation along with the lack of centralized wastewater in growing and industrial areas and lack of a skilled workforce has been cited as major deterrents of economic development in the County. The County has taken steps to address two of these issues by:

- Partnering with NASA to provide wastewater treatment services to the County's Wallops Research Park,
- Continuing to pursue wastewater treatment options in the Central Accomack area. Current options include negotiating with the Town of Onancock for increased wastewater treatment capacity, construction of a County treatment facility and privatization. Note that the Town of Onancock is one of the few towns in Accomack County that provides water and wastewater services.
- Partnering with the State and Federal Government to construct a business development and workforce training center at the Eastern Shore Community College.

The manufacturing sector continues to account for the majority of jobs in the County, approximately 26% in 2009. The majority of the jobs in this sector are associated with poultry processing which includes the County's top two employers, Perdue Farms, Inc. and Tyson Foods, Inc.

| Calendar | Manuf- | Accomod- ations and | Retail | Public Administ- | Health Care & Social | Other | Total |
|----------|----------|------------------------|--------|---------------------|-------------------------|-------|--------|
| Year | acturing | Food Service | Trade | ration | Assistance | Other | Total |
| 2009 | 3,528 | 1,171 | 1,138 | 1,162 | 1,310 | 5,385 | 13,694 |
| 2008 | 3,331 | 1,182 | 1,186 | 1,139 | 1,313 | 5,175 | 13,326 |
| 2007 | 3,356 | 1,150 | 1,197 | 1,126 | 1,249 | 5,460 | 13,538 |
| 2006 | 3,237 | 1,166 | 1,205 | 1,095 | 1,258 | 5,364 | 13,325 |
| 2005 | 3,302 | 1,217 | 1,253 | 1,097 | 1,238 | 5,307 | 13,414 |

The health care and social assistance sector makes up the second largest category of average employment representing 10% of jobs.

Accommodations/food services and Public Administration sectors make up the next two largest sectors. The accommodations/food services sector is significantly impacted by tourism which is a major economic engine in the County. Those that seek a more relaxed vacation far from the crowds with access to pristine beaches, wildlife and other outdoor activities are beginning to discover Accomack. In fact, the

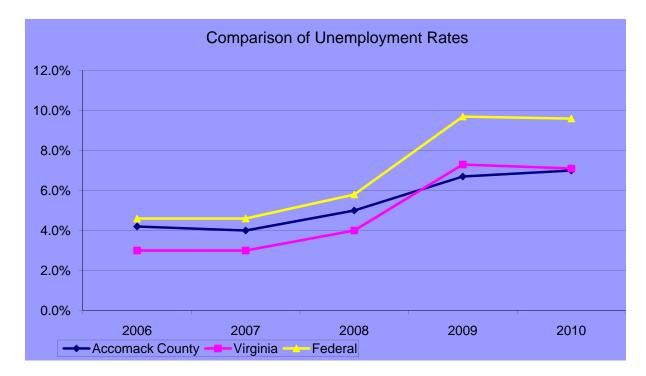

Town on Chincoteague, Accomack's largest incorporated town, was named best beach town by AOL travel.com in June of 2010.

Employment associated with The U.S. Navy Surface Combat Systems Center (SCSC), NASA Wallops Flight Facility, and NOAA Command and Data Acquisition Center, all located on Wallops Island, while not reflected in any one sector is worth noting. Average employment for these entities taken as a whole ranks third in the County with a large concentration of these jobs classified as high-skill and high-wage. In all, over 1,000 local military, civilian and contractor jobs are tied to these entities providing a variety of engineering, aerospace and naval operations services.

Future prospects for the Wallops Island area are high. This island is home to the Mid-Atlantic Regional Spaceport (MARS) whose mission is to develop and operate a multi user spaceport at the NASA Wallops Flight Facility which provides low cost, safe, reliable, "schedule friendly" space access to commercial, government, and academic users. In May of 2009, MARS successfully launched its third Minotaur rocket carrying a trio of payloads including the TacSat-3, a joint military project designed to test the ability of a satellite to respond to real-time data requests from field commanders on the ground. Wallops Island's location of roughly 38 degrees north latitude makes it an ideal site to send loads into inclined orbits - between the equator and the poles - at a reduced expense.

The County is pursuing a number of initiatives designed to secure, promote and strengthen the Wallops Island region. These initiatives are outlined in the "Major Initiatives" section of this letter.

Unemployment: Local unemployment rates increased from the previous calendar year. Accomack County's unemployment rate as of June 2010 is 7.0% well below that of the nation.

Major Initiatives. The County continued utilize to Strategic Plan as a framework for planning and accountability and continued to seek out partnerships with other organizations to help achieve Major initiatives its goals. continued. begun, completed this fiscal year were:

• Completed the development planning master document to guide the development of the Wallops Research Park which is located on land adjacent to NASA's Wallops **Flight** Facility (WFF). In addition, the County has also contingently approved the issuance of up to \$8.9

million in bonds to ready the park for occupation.

The proximity not only to NASA, but also to U.S. Navy Surface Combat Systems Center, makes the park a prime location for many businesses.

 Continued the goal of eliminating unmanned "green box" solid waste collection sites in the County by beginning construction of the sixth manned facility at the southern end of the County. Funding for this project was provided by issuing debt via the Virginia Resources Authority Pooled Financing Program. The County expects to complete construction of this site in fiscal year 2011.

- Continued the Accomack County Hazard Mitigation Project. This multi-year project, primarily funded by federal grant funds, is designed to reduce the risk of injury to people and damage to property located in areas prone to flooding.
- Went "live" with a new, more robust and feature rich property tax billing application. This new software has created efficiencies throughout the organization by creating an interface between the Assessor's Computer Automated Mass Appraisal (CAMA) system and the tax billing system, improving automated personal property valuation and eliminating legacy system software "bugs". The application has also enabled the County to eliminate the inconvenience of taxpayers having to purchase a County vehicle decal by allowing the County to add a vehicle license fee to personal property bills. It also has enabled the County to move from an annual billing cycle to a semi-annual billing cycle for personal property taxes.

Prospects for the Future. For the 2011 Fiscal Year, the Board of Supervisors adopted a Primary Government operating and capital budget of \$48,467,056 which is an increase of .5% from the previous year and 2% lower than the adopted 2009 budget. The 2011 budget does contain tax increases. The real estate tax rate was increased to offset reductions in Commonwealth aid earmarked for education. It is expected that more Commonwealth reductions will be headed the County's way as the State struggles to balance its budget.

Certificate of Achievement. The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Accomack, Virginia, for its comprehensive annual financial report for the fiscal year ending June 30, 2009. In order to be awarded a Certificate of Achievement, a government must publish

an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a another certificate.

Acknowledgments. The preparation of this report could not have been accomplished without the dedicated services of the entire Central Accounting Department, the Treasurer's Office, the County Administrator and the School Board Finance Department. We would also like to thank the Board of Supervisors for their interest and support in planning and conducting the financial operation of the County in a responsible and progressive manner.

Respectfully submitted,

Michael T. Mason, CPA

Finance Director

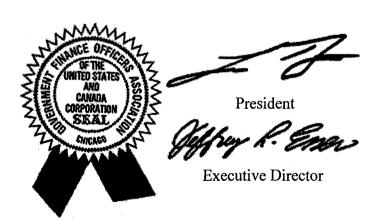

Certificate of Achievement for Excellence in Financial Reporting

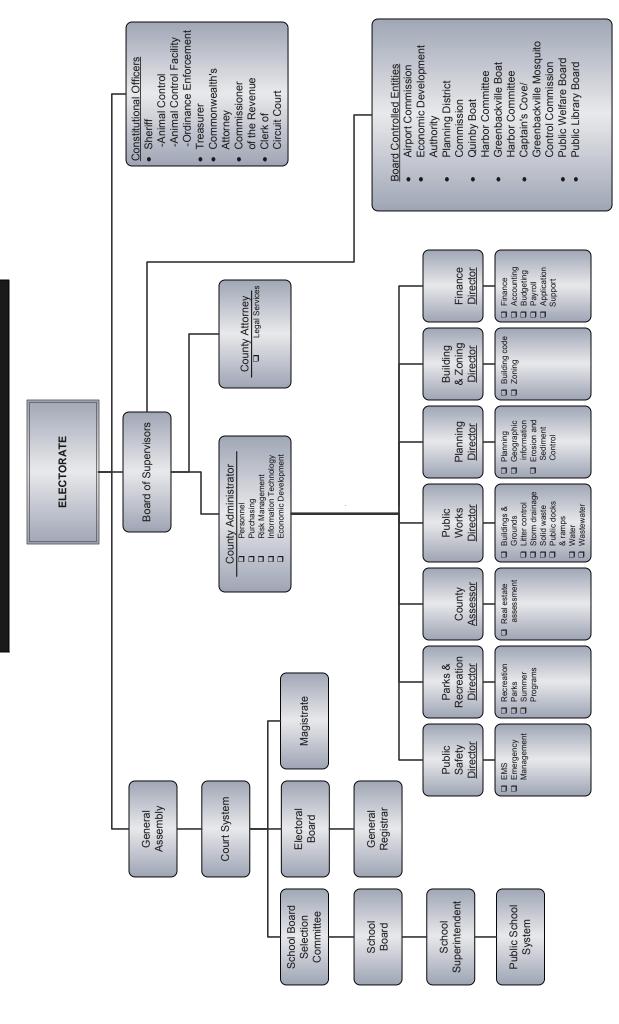

Presented to

County of Accomack Virginia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditors' Report

To The Honorable Members of the Board of Supervisors County of Accomack Accomac, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Accomack, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the County of Accomack, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Accomack-Northampton Planning District Commission which reflect total assets of \$1,428,599 and revenues of \$1,405,195 as of June 30, 2010. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the financial statements, insofar as it relates to the amounts included for the Accomack-Northampton Planning District Commission is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Accomack, Virginia, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2010, on our consideration of the County of Accomack, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and required supplementary information as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Accomack, Virginia's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, supporting schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the County of Accomack, Virginia. The combining and individual nonmajor fund financial statements and schedules, supporting schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Accomack County County of Accomack, Virginia

As management of the County of Accomack, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$15,460,806 (net assets). Of this amount, \$8,663,947 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$4,053,992 (36%). Net assets of the governmental-type activities increased \$4,186,554 (36%) and net assets of the business-type activities decreased \$132,562 (-51%).
- The County's unrestricted nets assets increased by \$6,132,811 (242%). Unrestricted net assets of the governmental-type activities increased \$5,747,089 (100%) and unrestricted net assets of the business-type activities increased \$385,722 (12%).
- Program revenues of the County's business-type activities increased by 6% to \$2,976,630 while expenses increased by 31% to \$3,327,697.
- The General fund reported an ending fund balance of \$7,830,989, an increase of \$3,673,183 (88%). Of the ending fund balance, \$7,701,289 was unreserved.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$7,701,289 or 24 percent of total general fund expenditures.
- The County's outstanding debt decreased by \$2,029,292 or 4.2 percent during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the Government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial administration, police and volunteer fire protection, refuse collection, social services, education, community development and recreation. The business-type activities of the County include waste disposal, water/wastewater services and and the portion of its recreation activities financed by user fees.

The Government-wide financial statements include not only the County of Accomack, Virginia itself (known as the primary government), but also legally separate entities for which the County of Accomack, Virginia is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Accomack, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental funds</u> - Governmental funds are used to account for essentially the same functions reported as Governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of

revenues, expenditures, and changes in fund balance for the General Fund, Virginia Public Assistance Fund, Comprehensive Youth Services Fund, School Debt Service Fund and County Capital Projects Funds, all of which are considered to be major funds. Data from the remaining thirteen governmental funds are combined into a single aggregated presentation. Individual fund data for these nonmajor funds is provided in the "Other Supplemental Information" section of the report.

The County adopts an annually appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the general fund and major special revenue funds to demonstrate compliance with this budget. Budgetary comparison schedules for nonmajor funds are also provided in the "Other Supplemental Information" section of the report.

<u>Proprietary funds</u> - The County maintains three enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its landfills, water/wastewater services and portions of its recreation activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for landfills, water/wastewater services and portions of recreation activities. Only the Landfill Enterprise Fund is considered to be a major fund of the County.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. The County's assets exceeded liabilities by \$15,460,806 at year-end.

The largest portion of the County's net assets (56%) is unrestricted meaning it may be used to meet the government's ongoing obligation.

The next largest portion of the County's net assets (38%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot readily be used to liquidate these liabilities.

| Total net assets | \$ 15,851,376 | \$ 11,664,822 | \$ | (390,570) | \$ | (258,008) | \$ 15,460,806 | \$ 11,406,814 | | |

An additional portion of the County's net assets (6%) represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the County is able to report positive balances of net assets, for the County as a whole, as well as for its governmental-type activities. Business-type activities had deficit net assets of \$390,570 due primarily to unfunded landfill closure and post closure care costs. The County has taken steps to gradually eliminate this deficit by increasing landfill user fees to cover current operating cost (including closure and post closure care) and providing additional general funds to gradually reduce the deficit.

The County's net assets increased by \$4,053,992 or 36% during the fiscal year. Governmental activities accounted for 103% of the total increase while business-type activities accounted for the remaining -3%.

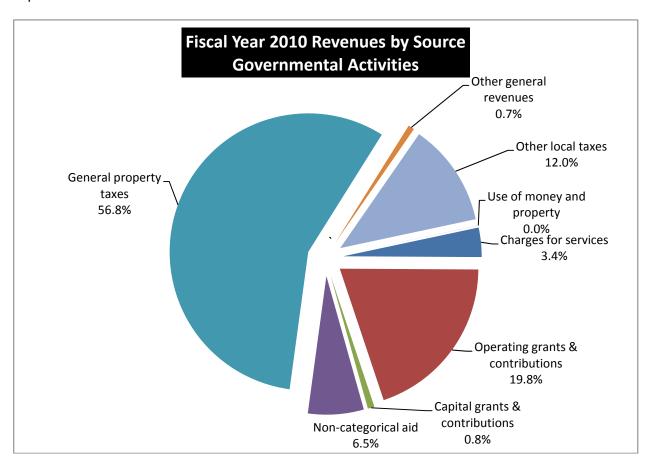

<u>Governmental Activities</u> - Governmental activities increased the County's net assets by \$4,186,554 or 36% during the fiscal year. Key elements of this increase are as follows:

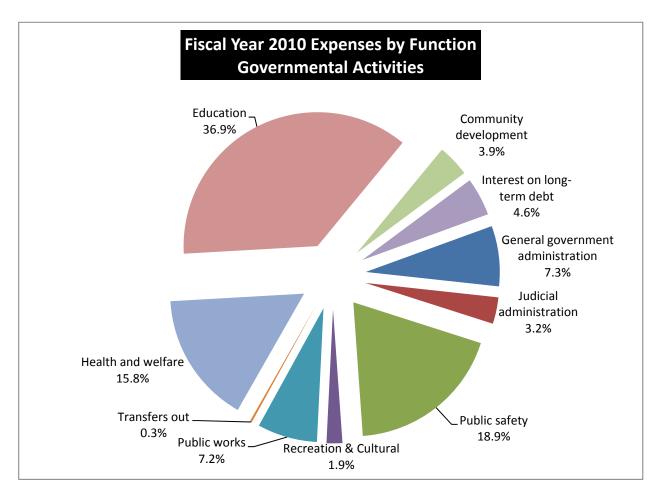

| Change in Net Assets | | | | | | | | |

Accomack County, Virginia

- Property taxes are the largest single revenue source comprising 57% of total governmental revenues. Property taxes increased by \$5,861,462 or 25% during the fiscal year. This increase was mostly attributable to changing to a semi-annual billing cycle for personal property taxes. Previously, personal property taxes were due in one installment on December 5 of each fiscal year. Personal property taxes are now due in two installments. The first due on June 5 and the second on December 5. Changing the cycle resulted in the recognition of a one-time revenue of approximately \$3.2 million. In addition to changes to the personal property billing cycle, real estate taxes were increased by 7%.
- Operating grants for governmental activities is the second largest revenue source comprising 20% of governmental revenues. This revenue source decreased by \$2,060,318 or 17% during the fiscal year. The primary factors for this decrease were as follows:
 - 1. Operating grant revenue associated with the County's Hazard Mitigation Elevation Project decreased \$1,107,675. This \$3 million project provides financial assistance to residences located in low-lying areas. Funding is primarily used to raise existing homeowner residences to heights sufficient to escape flood water. Most grant revenue associated with the project was recognized in FY09. The project is now approaching the end of its grant term.

- 2. Utilization of Comprehensive Services Act (CSA) program, a state mandated program, decreased prompting a reduction in state categorical aid designated for it of approximately 12% or 260,015. This decrease also explains the 9% decrease in health and welfare expenditures from the prior year.
- Other local taxes decreased by 7% primarily due to the replacement of the motor vehicle decal fee with a vehicle license fee. Motor vehicle decal fees were historically collected overthe-counter in April as opposed to the new vehicle license fee which is billed as a separate item on the personal property tax bill due in June. The vehicle license fee is prorated. Differences in the timing of collection and the period for which the fee was levied resulted in a one-time revenue loss of approximately \$223,000.
- Education expense is the largest single category comprising 37% of total governmental expenses. Expenses for this category decreased \$318,338 or 2% from the previous year. This decrease was the result of a reduction in the operating contribution to the Accomack County School Board.
- Public safety expense is the second largest category comprising 19% of governmental expenses. Expenses for this category decreased \$369,809 or 4%. Of this decrease, \$292,283 is attributable to decreased operational expenses of the Accomack County Jail. A decrease in inmate census was the driving factor.
- Community development expenses decreased \$1,573,403 or 46% from the prior year. The primary component of this decrease was the reduction in Hazard Mitigation Elevation Project expenses.

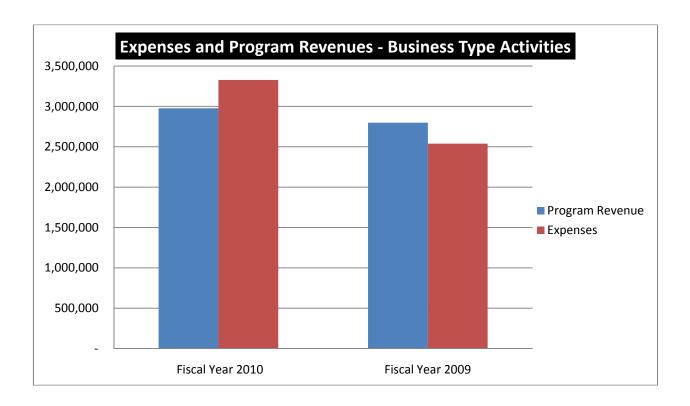

<u>Business-type Activities</u> - Business-type activities decreased the County's net assets by \$132,562 or 1% during the fiscal year.

Business-type expenses increased by 31% or \$788,571 as compared to the prior fiscal year. The key element of this increase was as follows:

• Landfill expenses for lechate transport and treatment jumped 576% or approximately 502,000 in fiscal year 2010 due to the ceasing of operations of the County's on-site lechate treatment facility. This voluntary shutdown was initiated because of persistent violations of the discharge permit including exceeding discharge limits of total suspended solids (TSS) and total Kjeldahl Nitrogen (TKN). The County expects to complete modifications to the facility in fiscal year 2011 that will enable on-site treatment to resume.

Business-type revenues increased by 6% due mostly to a landfill tipping fee rate increase implemented midway through fiscal year 2009. Fiscal year 2010 was the first full-year the increase was in effect.

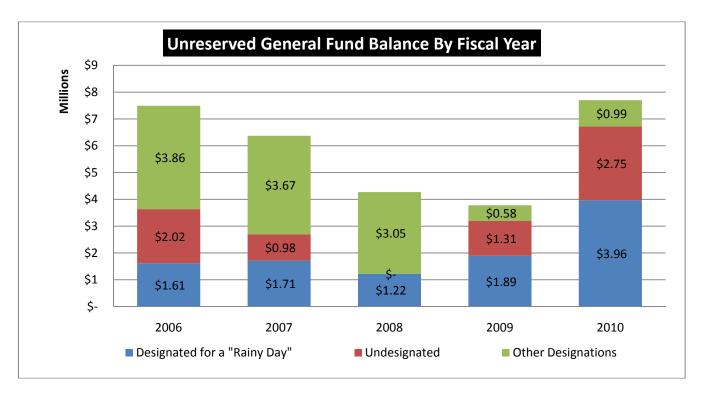

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$11,197,153. Details are as follows:

- The General Fund accounted for 70% percent or \$7,830,989 of the combined ending governmental fund balance.
 - o Approximately \$7,701,289 or 98% of this balance constitutes unreserved fund balance, which is available for spending at the County's discretion. Approximately \$3,964,000 of unreserved fund balance has been designated for a "Rainy Day" or emergency use only.
 - o The remainder of general fund balance is reserved for noncurrent advances/receivables.
- The General Fund reported an increase in fund balance of \$3,673,183 or 88%. The increase was due to several County actions initiated to increase the County's fund balance. Specifically, the actions were taken to increase the County's fund balance designated for a "Rainy Day" which had decreased to under 2% of County/School Board revenue as of June 30, 2009. The primary action taken to replenish the fund balance designated for a "Rainy Day" was to designate most of the one-time revenue associated with changing the personal property billing cycle to fund balance.

• The County Capital Projects Fund accounted for 11% or \$1,228,036 of the combined ending governmental fund balance. Approximately \$1,126,250 of this balance represents unspent bond proceeds reserved for constructing and equipping four solid waste convenience centers. The remainder of \$101,786 is designated for improvements at the Quinby Boat Harbor and for repairs at the social services office facility.

<u>Proprietary funds</u> - The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The Landfill Fund reported deficit net assets at the end of the year in the amount of \$740,233 This deficit is primarily due to unfunded landfill closure and post closure care costs. The current fiscal year deficit is significantly less that the \$2.8 million deficit net assets reported at the end of fiscal year 2004. The County has gradually reduced this deficit since 2005 by increasing landfill user fees and allowing Northampton County to dispose of its waste at the County's South Landfill. These steps have resulted in positive changes in net assets of \$277,686, \$883,701, \$575,617 and \$426,792 for the fiscal years ended June 30, 2009, June 30, 2007, June 30, 2006 and June 30, 2005 respectfully. For the fiscal year ended June 30, 2010, the County reported a reduction in net assets of \$206,134. This reduction in net assets is due to increased lechate treatment expenses discussed earlier in this financial overview. The County expects to resume positive changes in net assets beginning next fiscal year.

Budgetary Highlights

General Fund Budget Amendments:

Revenues:

The economic recession continued to have a significant negative impact on the County's general fund revenues in fiscal year 2010. In the previous year, the County had to amend many of its revenue estimates down especially those tied to the housing market or consumer spending. During fiscal year 2010, the County's local revenues stabilized but the same did not hold true for shared expense revenue from the Commonwealth. Categorical aid intended to reimburse the County for the shared operations of the Treasurer, Sheriff, Commissioner of Revenue, Commonwealth's Attorney and Clerk of the Circuit Court offices was reduced twice during the

fiscal year by the General Assembly. The original budget for these shared expense revenues was reduced by \$372,811 or 10% as a result of these reductions.

On a positive note, the general fund revenue budget for public service corporation real estate taxes was amended upward by \$372,767 to recognize an increase in the assessed value of public service real property. The State Corporation Commission, as opposed to the County, determines the value of public service property. In addition, categorical aid revenue amendments totaling \$2,687,963 were made during the fiscal year to recognize the award of various Commonwealth and Federal grants. It is the County's policy not to budget for categorical aid until grant awards are officially made. Of this amount, \$140,568 represented amendments to reflect Federal stimulus funding received by the County. These funds were used to reimburse the County for expenditures associated with law enforcement personnel.

Expenditures:

The difference between the Primary Government General Fund original budget and the final amended budget (schedule 2) was \$2,629,991. Significant differences can be summarized as follows:

- <u>Community Development related amendments</u> Amendments totaling \$1,592,357 were made to reappropriate unspent grant funds associated with the Hazard Mitigation Elevation Project.
- <u>Public Safety related amendments</u> The following amendments were made to reflect the award or carryover of grant funding:
 - o An amendment of \$110,923 was made to recognize the carryover of unspent Virginia Homeland Security Grant Funds. The purpose of these funds was to purchase hazardous material safety equipment.
 - o An amendment of \$105,000 was made to recognize additional awards of Virginia Homeland Security Grant Funds.
 - o An amendment of \$88,453 was made to recognize the award of Virginia Department of Criminal Justice Services grant funds used to provide local probation services for the General District Court and Juvenile Domestic & Relations Court.
 - o Amendments totaling \$68,115 were made to recognize the award of federal Edward Byrne Memorial Assistance grant funds used to improve the functioning of the criminal justice system.
 - o An amendment of \$90,000 was made to recognize the award of federal Community Oriented Policing Services (COPS) grant funds used for technology upgrades in the Sheriff's office.
 - oAn amendment of \$49,418 was made to recognize the award of Virginia Juvenile Community Crime Control Act grant funds used to fund community based justice programs.
- <u>Public Works related amendments</u> The original budget was amended by \$67,325 to reflect the carryover of funds used for storm drainage control.
- Parks, Recreation and Cultural amendments The original budget was amended by \$92,138 to reflect the acceptance of a grant award for the Summer Food/Playground Program.
- <u>Debt Service amendments</u> The original budget was amended by \$107,967 to cover legal, underwriting and related expenditures associated with the advance refunding of the County's Lease Revenue Bonds Series 2003 and a portion of its Lease Revenue Bonds Series 2006.

General Fund Budget Variances:

The following negative budget variances were the result of reduced consumer spending and the slumping housing market all major tied to the current recession.

| | varı | ance from |
|---------------------------------------|------|-----------|
| Revenue: | Fin | al Budget |
| Building permits fees | \$ | 66,479 |
| Hotel and motel room taxes | | 38,128 |
| Eroision and sediment control permits | | 22,467 |
| Mobile home titling taxes | | 42,518 |
| Total | \$ | 169,592 |

As a result of these budget variances, the County has lowered its fiscal year 2011 estimates accordingly.

Significant budget variances were reported for both revenues (\$1,269,972) and expenditures (\$1,068,707) associated with the Hazard Mitigation Project. As stated previously, this project's life spans more than one fiscal year. The variance at the end of the fiscal year represents the remaining project budget that will be rolled forward and used in the following fiscal year.

Capital Asset and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental and business type activities as of June 30, 2010 amounts to \$51,798,667 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment.

Additional information on the County's capital assets can be found in Note 7 of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total debt outstanding of \$46,436,244. Of this amount, \$40,688,244 represents debt backed by the full faith and credit of the County. The remainder of the County's debt is secured by property or specific revenue sources.

Legislation enacted during fiscal year ended June 30, 2002 required the Primary Government to assume debt historically reported by the School Board. The legislation resulted in an additional \$38,576,248 in debt reported on the County's Statement of Net Assets and an expense increase of \$1,769,872 reported on the County's Statement of Activities for the transfer of school property on which debt was retired during the fiscal year to the school board. The legislation affects the reporting of local school capital assets as well.

Additional information on the County's long-term debt can be found in Note 11 of this report.

Economic Factors and Next Year's Budgets and Rates

Many economists expect Virginia's recovery from the global recession to be long and slow. Many revenues, in particular sales tax and revenues tied to the housing market, are not expected to fully recover to their 2006 levels until 2013. Based upon this outlook, the County has taken many steps, some of them unprecedented, which will impact the County's financial position in fiscal year 2011. These steps include:

 Reducing the County's workforce through attrition, general operational funding reductions and specific position defunding. Approximately 13.5 full-time equivalents

- have been eliminated effective next fiscal year.
- Doubling the County's budget contingency to prepare for additional reductions in Commonwealth aid which are likely in fiscal year 2011.
- Eliminating the town tipping fee rebate program which effectively allowed incorporated towns to dispose of their solid waste free of charge.
- Continuation of the short-term savings realized from fiscal year 2010's debt restructuring plan implementation which will save \$700,000 annually in debt service costs until fiscal year 2014.
- Continuing with the plan implemented in fiscal year 2009 to strengthen the County's general fund balance designated for a "Rainy Day". The plan calls for this fund balance to be at least equal to 8% of County and School Board operating revenue by fiscal year 2016.
- Increasing the real estate tax rate from 0.45 to 0.48 per \$100 of taxable value. This tax
 increase was approved primarily to increase the local contribution to the Accomack
 County School Board thereby minimizing the impact of Commonwealth aid reductions
 approved by the General Assembly.

Although the local unemployment rate continues to increase, it does compare favorably to the both the Commonwealth rate of 7.1% and the national rate of 9.6%. The local average unemployment rate was 7.0%, 6.6% and 5.0% for June 2010, June 2009 and June 2008, respectfully. According to the Virginia Employment Commission, the number of persons employed decreased by approximately 1% from 18,991 in June 2009 to 18,801 in June 2010.

Little change in population has occurred over the decade and no substantial change is anticipated in the next fiscal year.

Assessed value of taxable real property increased \$80,112,182 or 2% in fiscal year 2010 as compared to the previous fiscal year. A reassessment of real property values was conducted in fiscal year 2010. The next reassessment is scheduled for 2012. County real estate values appear to be holding up favorably to the deteriorating housing market.

Requests for Information

This financial report is designed to provide our residents, taxpayers, customers, investors and creditors with a general overview of the County of Accomack, Virginia's finances and to demonstrate accountability for the money the County receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Accomack County Central Accounting Office, P.O. Box 620, Accomac, Virginia 23301.

COUNTY OF ACCOMACK, VIRGINIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE-**GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

FOR THE YEAR ENDED JUNE 30, 2010

Net changes in fund balances-governmental funds (Exhibit 5) \$ 3,770,409 Amounts reported for governmental activities in the Statement of Activities are different because: Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This and the net effect of various miscellaneous transactions involving capital assets are as follows: Capital asset expenditures 1,175,894 Depreciation on capital assets (1,832,735)Retirement of capital assets (11,000)Net adjustment (667,841)School Board capital assets financed by are jointly owned by the County and the School Board. The County share of School Board assets is in proportion to the debt owed on such by the County. The transfers to the School Board are affected by the relationship of the debt to assets on a year to year basis. The net transfer resulting from this relationship decreased the transfers to the School Board. (1,769,672)Revenues in the fund statements which were subject to accrual in the prior year are additions to beginning net assets and, therefore, are not reported as revenues in the Statement of Activities. 779,922 The issue of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued interest expense 29,732 Compensated absences (65, 452)Other postemployment benefit expenses (447,000)Net adjustment

(482,720)

Change in net assets of governmental activities (Exhibit 2)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Accomack, Virginia (the County) was formed as an independent county in 1634. The County is located on Virginia's Eastern Shore and covers an area of approximately 476 square miles. The County is governed by a Board of Supervisors consisting of nine members each of which are elected for a four-year term.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government in the United States of America. The Governmental Accounting Standards Board (GASB) is the primary standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the significant accounting policies of the County:

A. The Reporting Entity

As required by GAAP, the accompanying financial statements present the financial data of the County (Primary Government) and its component units. The financial data of the component units are included in the County's basic financial statements because of the significance of their operational or financial relationships with the County. The County and its component units are together referred to herein as the reporting entity.

Blended Component Units

Blended component units, although legally separate entities, are, in substance, part of the County's operations and so data from these units are combined with data of the primary government. The County has no component units that meet the requirements for blending.

Discretely Presented Component Units

The component unit columns in the financial statements include the financial data of the County's component units. They are presented in separate columns to emphasis that they are legally separate from the County. All component units have a fiscal year end of June 30, 2010.

- Accomack County School Board The Accomack County School Board was created by state law and is vested with the responsibility of administering the public school system. The School Board is composed of ten members all of whom are appointed by a selection committee established by the Circuit Court. The County levies taxes for its operation, issues bond or enters into capital leases for its capital requirements and approves its annual budget. The School Board is reported as a governmental fund type. The School Board does not issues separate financial statements.
- 2. Accomack County Airport Commission The Accomack County Airport Commission was created for the purpose of improving, equipping, maintaining, operating, and promoting the Accomack County Airport. The Commission is empowered to acquire, hold and dispose of property in its own name. The Commission consists of nine members all of which are appointed and serve at the pleasure of the County Board of Supervisors. The County approves the annual operating budget and provides significant financial assistance to the Commission. The Commission is reported as an enterprise fund type. The Airport Commission does not issue separate financial statements.

A. The Reporting Entity-continued

- 3. Economic Development Authority of Accomack County The Economic Development Authority of Accomack County (EDA), formerly known as the Industrial Development Authority of Accomack County (IDA), was established to promote industry and develop trade by inducing manufacturing, industrial, government, and commercial enterprises to locate in Accomack County. The IDA changed its mission in fiscal year 2008 to enhance the economy and development of the County hence the name change. The Authority consists of seven directors, all of which are appointed by the County Board of Supervisors. The County approves the annual operating budget of the Authority. The Authority is reported as an enterprise fund type. The Authority does not issue separate financial statements.
- 4. <u>Eastern Shore Public Library</u> The Eastern Shore Public Library was created for the purpose of providing public library services to residents of the Eastern Shore of Virginia. The Library Board consists of five members, a majority of which is appointed by the Accomack County Board of Supervisors. The Library is fiscally dependent upon the County for its annual contribution. Separately issued financial statements can be obtained from the Eastern Shore Public Library, Post Office Box 360, Accomac, Virginia 23301. The Library is reported as a governmental fund type.
- 5. Accomack-Northampton Planning District Commission The Accomack-Northampton Planning District Commission is a multi-jurisdictional entity created for the purpose of promoting the orderly and efficient development of the physical, social, and economic elements in its district. The Commission consists of thirteen members of which seven are appointed by and serve at the pleasure of the County Board of Supervisors. The Commission receives significant financial assistance from the County and is fiscally dependent on this assistance. Separately issued financial statements can be obtained from the Accomack-Northampton Planning District Commission, Post Office Box 417, Accomac, Virginia 23301. The Commission is reported as a governmental fund type.
- 6. <u>Quinby Boat Harbor Committee</u> The Quinby Boat Harbor Committee was established to diligently conduct and enforce the rules and regulations regarding the use and occupancy of the Quinby Boat Harbor. The Committee consists of nine members, all of which are appointed and serve at the pleasure of the County Board of Supervisors. Separately issued financial statements can be obtained from the Quinby Boat Harbor Committee, Post Office Box 343, Quinby, Virginia 23423. The Committee is reported as a governmental fund type.
- 7. Greenbackville Boat Harbor Committee The Greenbackville Boat Harbor Committee was established to diligently conduct and enforce the rules and regulations regarding the use and occupancy of the Greenbackville Boat Harbor. The Committee consists of five members, all of which are appointed by and serve at the pleasure of the County Board of Supervisors. Separately issued financial statements can be obtained from the Greenbackville Harbor Committee, Post Office Box 74, Greenbackville, Virginia 23356. The Committee is reported as a governmental fund type.

A. The Reporting Entity-continued

8. <u>Greenbackville/Captain's Cove Mosquito Control Commission</u> - The Greenbackville/Captain's Cove Mosquito Control Commission is responsible for insect control in the Greenbackville/Captains Cove area of Accomack County. The Commission consists of three members of which two are appointed by the Primary Government. The County levies taxes on behalf of the Commission to finance the Commission's operations. Separately issued financial statements can be obtained from Greenbackville/Captain's Cove Mosquito Control Commission, Greenbackville, Virginia 23356. The Commission is reported as a governmental fund type.

Jointly Governed Organizations

The following entities are excluded from the accompanying financial statements:

1. Eastern Shore of Virginia 911 Commission - The County has joined together with Northampton County to create the Eastern Shore of Virginia 911 Commission. The purposes of the Commission are to manage the 911 system in order to save the lives and property of the citizens of Accomack and Northampton Counties. The Commission is governed by a twelve member board, six of which are appointed by Accomack County. Prior to January 1, 2007, the Commission was funded primarily by a local consumer utility tax levied and collected by both Accomack and Northampton County. State legislation effective January 1 repealed the authority to levy this tax replacing it with a state-controlled communication sales and use tax which is remitted to both counties on a monthly basis and subsequently distributed to the Commission. In fiscal year 2010, the County contributed \$423,049 to the Commission including 19,219 in grant funding obtained from the Federal Government. The Commission's complete financial activity is included in the financial report of Northampton County, Virginia, its fiscal agent.

Related Organizations

The following entities are excluded from the accompanying financial statements:

 Eastern Shore Community Services Board – The County, in conjunction with Northampton County, participate in the Eastern Shore Community Services Board. The County's Board of Supervisors appoints a voting majority of the board members of the Eastern Shore Community Services Board, but the County's accountability for this organization does not extend beyond making the appointments. During fiscal year 2010, the County contributed \$134,995 to the Board for operations. Complete financial statements for the Commission may be obtained by contacting the Eastern Shore Community Services Board, P.O. Box 453, Nassawadox, Virginia 23413.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based upon the County as a whole) and fund financial statements.

Government-wide Financial Statements

The government-wide financial statements (i.e. the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. Fiduciary activities are excluded because fiduciary assets are held for the benefit of a third party and cannot be used to address activities or obligations of the government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirement of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Indirect expenses are not allocated among functions.

Fund Financial Statements

The accounts of the reporting entity are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for in a separate set of self-balancing accounts comprised of assets, liabilities, fund equity, revenues and expenditures or expenses where appropriate. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. All remaining funds are aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

 General Fund: The General Fund is the County's primary operating fund. It accounts for financial resources of the general government except those required to be accounted for in another fund. Revenues are primarily derived from property taxes. A significant part of the General Fund's revenues are used to finance operations of the Accomack County School Board.

At June 30, 2010 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

- Virginia Public Assistance Fund: The Virginia Public Assistance Fund accounts for the
 resources of the Social Services department which is responsible for administering welfare
 related programs as mandated by the Code of Virginia. Revenues are primarily derived
 from the intergovernmental funding including significant local funding from the County's
 general Fund.
- Comprehensive Youth Services Fund: The Comprehensive Youth Services Fund accounts for revenues and expenditures associated with the Comprehensive Services Act (CSA). The Comprehensive Services is a mandated Commonwealth program the purpose of which is to provide high quality, child centered, family focused, cost effective, community-based services to high-risk youth and their families. Revenues are primarily derived from intergovernmental funding including significant local funding from the County's General Fund.
- County Capital Projects Fund: The County Capital Projects Fund is used to account for the acquisition or construction of major capital facilities in the County. This fund also accounts for proceeds from bonds issued on behalf of the Accomack County School Board and disbursed to the school board for education related capital projects.
- School Debt Service Fund: The School Debt Service Fund accounts for revenues
 derived from a special property tax levied on County residents exclusively for the current
 and future retirement of public school related debt. In Virginia, public school systems do
 not have borrowing authority so all school related debt must be issued and therefore
 reported by the County.

The County reports the following major proprietary funds:

Landfill Fund: The Landfill Fund is an enterprise fund used to account for waste disposal
operations of the County's North and South Landfills. The cost of waste disposal services
is primarily financed through user charges to the County, residents and commercial
customers.

Additionally the County reports the following nonmajor governmental fund types and proprietary funds:

- Special Revenue Funds: Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.
- **Enterprise Funds**: Enterprise funds are used to report an activity for which a fee is charged to external users for goods or services.

Additionally the County reports the following fund types:

Fiduciary Funds: Fiduciary funds are used to account for assets held in a trustee capacity (trust funds) or as an agent for other individuals or organizations (agency funds). The County's fiduciary funds consist of the Special Welfare Fund, War Memorial Fund and Sheriff Canteen Fund, all of which are agency funds. Agency funds are accounted for using the accrual basis of accounting.

At June 30, 2010 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are susceptible to accrual, that is, when they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Major sources of governmental funds which meet the "susceptible to accrual" criteria include the following:

- Property taxes
- Transient occupancy taxes
- Sales and use taxes
- Consumer Utility Taxes
- Revenue from Governmental Entities

All other revenue items are considered to be measurable and collectible only when cash is received by the County.

Expenditures generally are recorded when a liability is incurred, if measurable (except for unmatured interest on general long-term debt which is recognized when due and paid). Interest on general long-term debt is recognized as expenditures when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from the issuance of debt and acquisitions under capital leases are reported as other financing sources.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

The effect of interfund activity has been removed from these statements except payments in lieu of taxes and other charges between the Landfill Fund and the General Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenue and expenses.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

D. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with general accepted accounting principles for all governmental funds except for the Rehabilitation Projects Fund and the County Capital Projects Fund which adopt project/grant length budgets. The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year beginning the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. This budget excludes intergovernmental grant revenues and expenditures unless they were officially awarded prior to the budget submission to the Board of Supervisors. Intergovernmental grants awarded after adoption of the budget are reflected in the amended budget once approved by the Board of Supervisors.
- Public hearings are conducted to obtain citizen comments.
- Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution. The Appropriations Resolution places legal restrictions on expenditures at the department level. The appropriation for each department or category can be revised only by the Board of Supervisors. The School Board is authorized to transfer budgeted amounts within the school system's categories.
- Formal budgetary integration is employed as a management control device during the year for all funds.
- Appropriations lapse on June 30 for all County units except for Capital Project Funds which carry unexpended balances into the following year on a continuing appropriation basis.
- Budget amounts reported in the financial statements are labeled as either original or
 final. The original budget is the initial adopted budget plus amendments made prior to
 the beginning of the fiscal year. The final budget is the original budget combined with
 amendments approved during the fiscal year.

E. Cash and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term, highly liquid investments with a maturity date within three months of the date acquired by the County. This definition also applies to cash and cash equivalents used in the statement of cash flows.

Investments are stated at fair value.

F. Restricted Assets:

Restricted assets include cash and investments which have third-party limitations on their use. When both restricted and unrestricted resources are available for use, it is the County's practice to use restricted assets first.

Restricted assets as of June, 30, 2010 consisted of \$1,130,559 in unspent bond proceeds associated with solid waste convenience center construction.

At June 30, 2010 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a reserve of fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables, including tax receivables, are shown net of allowance for uncollectibles.

H. <u>Inventory</u>

Inventory is valued using the first-in, first-out (FIFO) method. Inventory in the proprietary funds is accounted for under the consumption method. Cost is recorded as an expense at the time the individual inventory items are used.

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30 are recorded as prepaid items in both government-wide financial statements and fund financial statements.

J. Capital Assets

Capital assets, including land, improvements to land, buildings, building improvements, vehicles, machinery, equipment and intangible assets that individually cost \$5,000 and over, with a useful life of greater than one year are reported in proprietary funds and applicable governmental or business-type activities columns in the government-wide financial statements. The County does not capitalize roads and bridges since these assets belong to the Commonwealth of Virginia. Capital assets are stated at historical cost or estimated historical cost. Donated capital assets are stated at their fair market value as of the date of the donation. Capital assets are depreciated over their useful lives using the straight-line method. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Estimated lives for County and School Board Component Unit assets are as follows:

| | Lives (years) |
|-----------------------------------|---------------|
| <u>Capital Assets</u> | Lives (years) |
| Buildings | 30-50 |
| Improvements other than buildings | 15-40 |
| School Buses | 12 |
| Cars and light duty trucks | 5-7 |
| Heavy equipment | 10 |
| Computer & related | 5 |
| Intangibles (Software) | 5 |
| Other machinery and equipment | 5-20 |

At June 30, 2010 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

K. Deferred Revenue

In the fund financial statements, deferred revenue represents amounts for which asset recognition criteria has been met but revenue recognition criteria has not been met. These amounts are considered measurable but are not considered available resources. The County's deferred revenue consist primarily of property tax due but not collected within 60 days after the end of the fiscal year and grant funds received but not expended for their restricted purpose.

L. Compensated Absences

All County and School Board full-time employees earn annual leave based on years of service. Accumulated annual leave vests immediately. County and School Board employees are paid for unused annual leave, at their normal rate of pay, at termination. Annual leave termination payments are limited only by maximum accumulation policies. All County and School Board Component Unit full-time employees also earn ten hours of sick leave per month. Maximum accumulation is unlimited. Employees are entitled to the lesser of 25% of accrued sick leave or \$5,000 upon termination providing the employee has 5 years of service. The amount of unpaid annual, sick and compensatory leave, including applicable payroll taxes, is accrued when incurred in the government-wide and proprietary fund financial statements. Only the current portion due, if any, is recorded in the fund financial statements.

M. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type financial statement of net assets. Bond premiums and discounts, as well as issue costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance cost, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

N. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

O. Encumbrances

Encumbrance accounting is not employed as an extension of formal budgetary integration.

At June 30, 2010 (Continued)

P. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are due in two installments payable in December and June. Prior to fiscal year 2010, personal property taxes were due annually in December. Personal property taxes are now due in two installments the same as real estate taxes. Personal property taxes are prorated based on the number of months property is owned. The County bills and collects its own property taxes.

In 1998, the Virginia General Assembly passed the Personal Property Tax Relief Act (PPTRA). The purpose of this legislation was to gradually eliminate the personal property tax on automobiles by increasing Commonwealth funding to localities. Localities were reimbursed for tax relief granted based on guidelines developed by the Commonwealth. In fiscal year 2007, Commonwealth funding moved from a reimbursement basis to a pro rata share of a capped amount. This change reduced the amount of funding the County would have otherwise received and ultimately the amount of tax relief available to its citizens. The PPTRA provides tax relief via a tax credit that appears on the citizen's tax assessment as a reduction to taxes due. The credit applies to the first \$20,000 of taxable value of automobiles and motorcycles held for personal use. The tax credit on vehicles valued between \$1,000 and \$20,000 for tax year 2010 was equal to 51% of the tax assessment. The tax credit on vehicles with a taxable value of less than \$1,000 was equal to 100% of the tax assessment. Revenue from the Commonwealth pertaining to PPTRA is recorded as non-categorical aid.

Q. Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH AND INVESTMENTS

<u>Deposits</u>: All cash of the primary government and school board component unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance.

<u>Investments</u>: Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

At June 30, 2010 (Continued)

2. CASH AND INVESTMENTS-continued

<u>External Investment Pools:</u> The State Non-Arbitrage Program is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair values of the positions in the State Treasurer's Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2010 were rated by Standard & Poor's or an equivalent national rating organization and the ratings are presented below using Standard & Poor's rating scale. The County had no policy on credit risk other than restrictions imposed by State law at June 30.

At June 30, 2010 (Continued)

4. NOTES RECEIVABLE

A. Primary Government:

The County was awarded a community improvement grant from the Virginia Department of Housing and Community Development for the purpose of creating twenty-three jobs for low and moderate-income persons. A portion of the grant proceeds, \$186,009, was used to provide a low-interest loan to one area business. The term of the loan is twenty years payable in monthly installments to the Authority at an annual percentage rate of three percent. The loan is secured by a first Deed of Trust. All payments due the County are current as of June 30, 2010. The repayment schedule is as follows:

| Year Ending | Note | e Receivable | |
|----------------|-----------------|--------------|--------|
| June 30, | Principal | Interest | Total |
| 2011 | \$ 9,293 \$ | 2,054 \$ | 11,347 |
| 2012 | 10,433 | 1,946 | 12,379 |

6. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivable and payable balances at June 30, 2010 are as follows:

| | Inte | rfunc | <u> </u> | | | | |
|-----------------|---------|------------------------|---------------|--|--|--|--|
| Receivables Pay | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| \$ | 210,961 | \$ | - | | | | |
| | - | | 210,961 | | | | |
| \$ | 210,961 | \$ | 210,961 | | | | |
| | | Receivables \$ 210,961 | \$ 210,961 \$ | | | | |

The above internal balances are the result of temporary cash deficits associated with reimbursement-type grants. These internal balances have been eliminated in the government-wide financial statements.

Total depreciation expense charged to the School Board component unit was \$2,028,664.

Legislation enacted during the fiscal year 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, 1950, as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Accomack, Virginia, for the year ended June 30, 2010, is that debt and related assets in the amount of \$38,576,248 have been transferred to the Primary Government from the School Board Component Unit for financial reporting purposes.

The Authority had no depreciation expense during the fiscal year due to its assets being fully depreciated.

8. DEFERRED REVENUE

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the components of deferred revenue reported in the governmental funds were as follows:

10. SHORT-TERM DEBT

A. Primary Government

On August 26, 2009, the County issued entered into an agreement with Suntrust Bank for short – term financing in the form of a \$2,000,000 non-revolving line of credit. The financing was secured by a pledge of fiscal year 2010 tax revenues. The variable interest rate of the line was set at 68% of 1 month LIBOR plus 2.26%. The purpose of the line of credit was to provide temporary cash flow relief.

The County only drew upon the line of credit once during the fiscal year in the amount of \$51,000. All draws were repaid prior to the end of the fiscal year.

11. LONG-TERM OBLIGATIONS - continued

B. Airport Commission Component Unit:

| Year | | | | | |
|----------|----|----------|------|---------|--------------|
| Ending | | Note P | ayal | ble | |
| June 30, | Р | rincipal | I | nterest | Total |
| 2011 | \$ | 26,043 | \$ | 2,226 | \$ 28,269 |
| 2012 | | 27,276 | | 994 | 28,270 |
| 2013 | | 6,599 | | 49 | 6,648 |
| Total | \$ | 59,918 | \$ | 3,269 | \$ 63,187 |

The Airport Commission Component Unit uses operating revenues to liquidate compensated absences and other long-term obligations.

C. Advance Refundings:

The County issued \$4,263,000 of lease revenue refunding bonds to provide resources to purchase U.S. Government Securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$4,005,000 of lease revenue bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the statement of net assets. The requisition price exceeded the net carrying amount of the old debt by \$502,812. This amount is being amortized over the remaining life of the refunded debt which has the same life as the new debt issued. This advance refunding was undertaken as a short-term budgetary relief measure. As a result of the refunding, no principal payments are due on the refunding bonds prior to fiscal year 2013; however, total debt service over the next 20 years will increase by \$1,059,342 and result in an economic loss of \$657,298.

In addition, the County issued \$2,112,000 of general obligation refunding bonds to provide resources to purchase U.S. Government Securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$2,045,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the business-type activities column of the statement of net assets. The requisition price exceeded the net carrying amount of the old debt by \$10,039. This amount is being amortized over the remaining life of the refunded debt which is shorter than the life of the new debt issued. This advance refunding was undertaken as a short-term budgetary relief measure. As a result of the refunding, no principal payments are due on the refunding bonds prior to fiscal year 2013; however, total debt service over the next 9 years will increase by \$302,025. The result of this refunding is an economic gain of \$18,948.

12. LANDFILL CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the County to place a final cover on its North and South landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at these sites for thirty years after closure. Although closure and postclosure costs will be paid only near or after the date that the landfills stop accepting waste, the County reports a portion of these closure and postclosure care costs in each period based on landfill capacity used as of each balance sheet date.

The \$7,423,146 reported as landfill closure and postclosure care liability at June 30, 2010, represents the cumulative amount reported to date based on the use of 46.45% and 92.24% of the estimated capacity of the North Landfill Cell Two and the South Landfill, respectively. The County will recognize the remaining estimated cost of closure and postclosure care of \$2,121,539 as the remaining estimated capacities are filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2010. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The South Landfill has sufficient capacity to accept waste well beyond its mandated closure date of 12/31/2012. The 2012 closure date is dictated by state regulations which require unlined landfills, such as the South Landfill, to cease operations by the end of calendar year 2012. The North Landfill Cell Two has sufficient capacity to continue accepting waste until fiscal year 2017. This estimate assumes that all waste from the southern end of the County will be disposed of in the North Landfill once the South Landfill is closed. The County expects to fund landfill closure and postclosure care costs from operating revenues.

At June 30, 2010 (Continued)

13. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2010 were made up of the following:

| | Transfers | | Transfers | |
|-----------------------------------|-----------------|----|-----------|--|
| Primary Government: | ln | | Out | |
| Governmental funds: | | | | |
| General fund | \$ 385,802 | \$ | 2,566,770 | |
| Virginia Public Assistance Fund | 608,609 | | 87,182 | |
| Comprehensive Youth Services Fund | 439,859 | | | |
| County capital projects fund | 575,535 | | 220,614 | |
| School debt service fund | 286,261 | | | |
| Non-major governmental funds | 457,157 | | | |
| Total governmental funds | 2,753,223 | | 2,874,566 | |
| Enterprise funds: | | | | |
| Landfill fund | 386,008 | | 402,063 | |
| Non-major enterprise funds | 137,398 | | <u>-</u> | |
| Total enterprise funds | 523,406 | | 402,063 | |
| Total Primary Government | \$ 3,276,629 | \$ | 3,276,629 | |

The purpose of the above interfund transfers is as follows:

| <u>Purpose</u> | Amount |
|--|-----------------|
| Finance pay as you go capital projects | \$ 724,179 |
| Fund debt service requirements | 286,261 |
| Satisfy grant local match requirements | 439,859 |
| Supplement General Fund operations with amount of debt service savings | |
| realized from Landfill Enterprise Fund debt restructuring. | 385,802 |
| Fund future landfill closure and post-closure costs | 237,364 |
| Remove | 53,327 |
| Supplement operations of special revenue and enterprise funds | 1,149,837 |
| Total interfund transfers | \$ 3,276,629 |

The Primary Government also transferred \$14,812,272 to the School Board Component Unit, \$319,259 to the Eastern Shore Library Component Unit, \$174,715 to the Airport Component Unit, \$82,844 to the Planning District Component Unit and \$65,344 to the Captains Cove/Greenbackville Mosquito Control Component Unit to be used to supplement operations. These amounts are reported as expenditures in the County's financial statements.

14. CONTINGENT LIABILITIES

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The primary government and its component units are defendants in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the reporting entity.

At June 30, 2010 (Continued)

15. RISK MANAGEMENT

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation and the Virginia Association of Counties Risk Pool for property, general liability, automobile and crime insurance. Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays the Virginia Municipal Group Insurance Association and the Virginia Association of Counties Risk Pool contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are paid. In the event of a loss deficit and depletion of all available excess insurance, the Associations may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

16. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

A. Primary Government:

For the year ended June 30, 2010, the following expenditures exceeded appropriations:

| Major Funds: General Fund: | |
|---|---------------|
| Community Corrections | \$ 34 |
| Medical Examiner | 1,690 |
| Johsongrass/Gypsy Moth Control Program | 14 |
| Wallops Research Park operations | 3,548 |
| Total General Fund | \$ 5,286 |
| Comprehensive Youth Services Fund: | |
| Comprehensive Services Act (CSA) | \$ 218,324 |
| Nonmajor Funds: | |
| Drug Seizures Fund | \$ 247 |
| Emergency 911 Systems Fund | 1,135 |
| Captain's Cove/Greenbackville Mosquito Control Fund | 3,756 |
| School Debt Service | 33,402 |
| Total nonmajor funds | \$ 38,540 |

Each variance was funded by available fund balance or grant revenues.

17. DEFICIT NET ASSETS

A. Primary Government:

At June 30, 2010, the Landfill Enterprise Fund had deficit fund net assets of \$740,233. This amount is primarily due to unfunded landfill closure and post closure care costs. The County has taken steps to gradually eliminate this deficit by increasing landfill user fees and appropriating additional local funding.

At June 30, 2010 (Continued)

18. SURETY BONDS

The following elected officials and County employees were covered by surety bonds at June 30, 2010:

Commonwealth of Virginia Division of Risk Management (Commonwealth funded):

| Dana T. Bundick, Treasurer (1) | \$ 500,000 |
|--|---------------|
| Larry J. Giddens, Sheriff ⁽¹⁾ | 30,000 |
| Leslie A. Savage, Commissioner of the Revenue (1) | 3,000 |
| Samuel H. Cooper, Clerk of the Court (1) | 350,000 |
| Virginia Association of Counties Self Insurance-Risk Pool: | |
| All County employees - Blanket bond coverage | 250,000 |
| All School employees - Blanket bond coverage | 1,000,000 |
| All Social Services employees - Blanket bond coverage | 100,000 |
| Mary E. Parker, Director of Social Services | 5,000 |

¹Commonwealth funded surety bonds also cover employees of the elected official.

19. OTHER POSTEMPLOYMENT BENEFITS PROGRAM

Primary Government:

A. Plan Description:

The County Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan which provides post-retirement supplemental health insurance benefits for employees who retire from service with the County. Employees who are full-time and limited-term employees who are retiring at age 65 or older, who are enrolled in Medicare parts A and B, and who have at least 15 years of service with the County are eligible. Also, a portion of this policy applies to all full-time and limited employees who retire with at least 15 years of service before age 65. The County's Post-Retirement Medical Plan does not issue a separate, audited GAAP-basis report.

B. Funding Policy:

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For participating retirees who retire at age 65 with 15 years of service with the County, the County pays 50% of the monthly premium and the retiree is responsible for the remainder. For participating retirees who are younger than age 65, with at least 15 years of service with the county or those with less than 15 years of service with the County who have retired due to line-of-duty injuries, may choose to continue their health insurance coverage with the county at their own expense until they reach 65 years of age. Retirees pay 100% of spousal premiums. Surviving spouses cannot access the plan.

C. Annual OPEB Cost and Net OPEB Obligation:

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the

At June 30, 2010 (Continued)

19. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-continued

Primary Government-continued:

components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

| Annual required contribution | \$ 515,000 |
|---|---------------|
| Interest on net OPEB obligation | 19,000 |
| Addjustment to annual required contribution | (20,000) |
| Annual OPEB cost (expense) | 514,000 |
| Contribution made | 67,000 |
| Interest in net OPEB obligation | 447,000 |
| Net OPEB Obligation-beginning of year | 459,230 |
| Net OPEB Obligation-end of year | \$ 906,230 |

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 are as follows:

| Fiscal | Annual | Percentage of | Net |
|---------------|------------|------------------|------------|
| Year | Pension | Annual OPEB | Pension |
| Ended | Cost | Cost Contributed | Obligation |
| June 30, 2009 | \$ 483,000 | 5% | \$ 459,230 |
| lune 30, 2010 | 514 000 | 13% | 906 230 |

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010 is as follows:

| Actuarial accrued liability (AAL) | \$ 4,803,803 |
|---|-----------------|
| Actuarial value of plan assets | - |
| Unfunded actuarial accrued liability | 4,803,803 |
| Funded ratio (actuarial value of plan assets/AAL) | 0% |
| Covered payroll (active plan members) | 10,321,000 |
| UAAL as a percentage of covered payroll | 46.54% |

At June 30, 2010 (Continued)

19. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-continued

Primary Government-continued:

E. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The projected unit credit (PUC) cost method was used for this valuation. The objective of this method is to fund each participant's benefits under the plan as they would accrue. Under this method the total value of the benefit to which each participant is expected to become entitled is broken down into units, each associated with a year of past or future credited service.

Interest Assumptions

In the January 1, 2008, actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 10 percent initially, reduced by decrements to an ultimate rate of 5 percent after eighty years. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at January 1, 2008, was thirty years.

| | Unfunded |
|----------------|----------|
| Discount rate | 4.50% |
| Payroll growth | 2.50% |

At June 30, 2010 (Continued)

19. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-continued

School Board:

A. Plan Description:

The School Board Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan that provides post-retirement health care insurance benefits for employees who are eligible. Employees who retired effective 1985-86 school year or later and under provisions of the Virginia Supplemental Retirement System (VSRS) prior to age 65 and were on full-time status in a VSRS covered position and were participating in the hospitalization plan at the time of retirement are eligible. The School Board's Post-Retirement Healthcare Plan does not issue a separate, audited GAAP basis report.

B. Funding Policy:

The School Board establishes employer contribution rates for plan participants as part of the budgetary process each year. The School Board also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again, this is determined annually as part of the budgetary process. Retirees pay 100% of the monthly premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses can stay in the plan but must pay the full premium.

C. Annual OPEB Cost and Net OPEB Obligation:

The School Board's annual other post employment benefit (OPEB) cost (expense) is calculated base on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

| Annual required contribution | \$ 365,000 |
|---|---------------|
| Interest on net OPEB obligation | 8,000 |
| Addjustment to annual required contribution | (10,000) |
| Annual OPEB cost (expense) | 363,000 |
| Contribution made | 232,000 |
| Interest in net OPEB obligation | 131,000 |
| Net OPEB Obligation-beginning of year | 172,000 |
| Net OPEB Obligation-end of year | \$ 303,000 |

At June 30, 2010 (Continued)

19. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-continued

School Board: (Continued):

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 are as follows:

| Fiscal | Annual | Percentage of | Net |
|---------------|------------|------------------|------------|
| Year | Pension | Annual OPEB | Pension |
| Ended | Cost | Cost Contributed | Obligation |
| June 30, 2009 | \$ 350,000 | 50.90% | \$ 172,000 |
| June 30, 2010 | 363,000 | 63.90% | 303,000 |

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010 is as follows:

| Actuarial accrued liability (AAL) | \$ 3,308,000 |
|---|-----------------|
| Actuarial value of plan assets | - |
| Unfunded actuarial accrued liability | 3,308,000 |
| Funded ratio (actuarial value of plan assets/AAL) | 0% |
| Covered payroll (active plan members) | 23,581,000 |
| UAAL as a percentage of covered payroll | 14% |

E. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

20. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-VRS Health Insurance Credit

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and

At June 30, 2010 (Continued)

20. OTHER POSTEMPLOYMENT BENEFITS PROGRAM-VRS Health Insurance Credit-continued:

prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as discussed in Note 21.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.04% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2010, 2009, and 2008 were \$187,170, \$279,443, and \$294,980, respectively and equaled the required contributions for each year.

21. DEFINED BENEFIT PENSION PLAN

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2008annurept.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School's non-professional employee contribution rates for the fiscal year ended 2010 were 2.62% and 7.57% of annual covered payroll, respectively.

At June 30, 2010 (Continued)

21. DEFINDED BENEFIT PENSION PLAN-continued

The School Board's contributions for professional employees were \$1,585,542, \$2,279,533 and \$3,900,472, to the teacher cost-sharing pool for the fiscal years ended June 30, 2010, 2009 and 2008, respectively and these contributions represented 8.81%, 8.81% and 10.30%, respectively, of current covered payroll.

C. Annual Pension Cost

For fiscal year 2010, the County's annual pension cost of \$269,883 (does not include the employee share assumed by the County which was \$515,043) was equal to the County's required and actual contributions.

For fiscal year 2010, the County School Board's annual pension cost for the Board's non-professional employees was \$246,733 (does not include the employee share assumed by the Board which was \$162,968) which was equal to the Board's required and actual contributions.

| June 30, 2008 | | 401,943 | 100.00% | - |

¹ Employer and employee portion only

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost of living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the County School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

At June 30, 2010 (Continued)

21. DEFINDED BENEFIT PENSION PLAN-continued

D. Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the County's plan was 101.78% funded. The actuarial accrued liability for benefits was \$38,592,379, and the actuarial value of assets was \$39,280,782, resulting in an unfunded actuarial accrued liability (UAAL) of (\$688,403). The covered payroll (annual payroll of active employees covered by the plan) was \$10,408,840 and ratio of the UAAL to the covered payroll was (6.61%).

As of June 30, 2009 the most recent actuarial valuation date, the County School Board's plan was 90.81% funded. The actuarial accrued liability for benefits was \$9,246,529, and the actuarial value of assets was \$8,396,983, resulting in an unfunded actuarial accrued liability (UAAL) of \$849,545. The covered payroll (annual payroll of active employees covered by the plan) was \$3,280,042, and ratio of UAAL to the covered payroll was 25.90%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Required Supplementary Information (Other than Management Discussion & Analysis)

Notes to Required Supplementary Information:

1. Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Nonmajor Governmental Funds

Special Revenue Funds-Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

- <u>Law Library Fund</u>-Accounts for revenues and expenditures associated with the County's law library.
- <u>Courthouse Security Fund</u> Accounts for revenues derived from court fees levied in accordance with the Code of Virginia§ 53.1-120. Use of these funds is restrictued for courthouse security.
- <u>Drug Seizures Fund</u>-Accounts for revenues associated with the sale of assets confiscated from illegal drug activities. Expenditures of this fund are restricted for use on law enforcement activities.
- <u>E-911 Systems Fund</u>- Accounts for tax revenues restricted for use on the County's E-911 enhanced emergency telephone system.
- <u>Fire Programs Fund</u>- Accounts for grant revenues received from the Commonwealth Department of Fire Programs which are restricted for fire education, training and related.
- <u>Hazardous Materials Fund</u>- Accounts for revenues and expenditures associated with hazardous waste clean-up.
- <u>Rehabilitation Projects Fund-Accounts</u> for revenue and expenditures associated with community development block grants predominantly used for rehabilitation of low income housing.
- <u>Captain's Cove/Greenbackville Mosquito Control Fund</u>-Accounts for revenues derived from a special property tax levied on residents of Captain's Cove and Greenbackville areas. Expenditures are restricted for use on mosquito control services within those areas.
- <u>Consolidated Emergency Medical Services Fund</u>-Accounts for revenues derived from a special property tax levied on all residents of the County except for those located in the Town of Chincoteague. Expenditures are restricted for use on fire and rescue services.
- <u>Fire and Rescue District 2 Fund</u>-Accounts for revenues derived from a special property tax levied on residents of the Atlantic fire and rescue district (district 2). Expenditures are restricted for use on fire and rescue services within this district.
- <u>Fire and Rescue District 3 Fund</u>-Accounts for revenues derived from a special property tax levied on residents of the Metompkin fire and rescue district (district 3). Expenditures are restricted for use on fire and rescue services within this district.
- <u>Fire and Rescue District 4 Fund-Accounts for revenues derived from a special property tax</u> levied on residents of the Lee fire and rescue district (district 4) and select charges for medical services. Expenditures are restricted for use on fire and rescue services within this district
- <u>Fire and Rescue District 5 Fund</u>-Accounts for revenues derived from a special property tax levied on residents of the Pungoteague fire and rescue district (district 5). Expenditures are restricted for use on fire and rescue services within this district.

Nonmajor Proprietary Funds

<u>Proprietary Funds</u>-Proprietary funds are used to account for governmental activities that are similar to businesses in the private sector.

- Water & Sewer Fund-Accounts for water and sewer operations in the County. Currently, the
 only water and sewer services delivered by the County are to businesses located inside or in
 close proximity to the County Industrial Park or Wallops Research Park. Operations are
 primarily funded through user fees.
- <u>Parks and Recreation Revolving Fund</u>-This fund in used to account for parks and recreation events which are financed in whole or in part by user fees.

Agency Funds

Agency Funds-Agency funds are used to account for the assets held by a government unit as an agent for individuals, organizations, other governmental units, and/or other funds. Agency fund do not involve the measurement of results of operations, as they are custodial in nature. The County has the following agency funds:

- Special Welfare-The Special Welfare fund is established under the authority of Section 63.1-51, Code of Virginia, as amended. This fund accounts for Social Security or Veteran's Administration benefits for specific individuals for which the County is acting as the custodian. It also accounts for donations and the provision for emergency assistance to indigent citizens.
- <u>War Memorial Fund</u>-The War Memorial Fund is established to accounts for citizen donations for memorial service commemorations.
- <u>Sheriff Canteen Fund</u>-The Sheriff Canteen Fund accounts for funds held on behalf of inmates of the County jail.

Statistical Section

| <u>Contents</u> | Page |
|--|-------------|
| Financial Trends These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time. | 150 |
| Revenue Capacity These schedules contain information to help the reader assess the county's most significant local revenue source, the property tax. | 155 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the county's current levels of outstanding debt and the county's ability to issue additional debt in the future. Note that no legal debt margin information is presented as the Code of Virginia only sets legal debt limits for towns and cities. Counties have no legal debt limit imposed by law. Also note that pledged revenue information is not presented as the County has not issued any revenue backed debt. | 160 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the county's financial activities take place. | 162 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the county's financial report relates to the services the county provides and the activities it performs. | 164 |

Sources: Unless otherwise noted, the information in these schedules is derived from comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

¹ This table reports financial information based on the accrual basis of accounting. The County implemented GASB 34, the new reporting standard, in fiscal year 2003. Therefore, ten years of data is not available but will be accumulated over time.

² Net (expense) revenue is the difference between the expenses and program revenues. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. A number in parentheses is net expenses indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

Table 3

Notes:

Beginning in fiscal year 2003, the County began accounting for waste disposal services in an enterprise fund. Prior to this fiscal year, these services were accounted for in governmental funds. Fund balance for fiscal years 2000 to 2002 has been restated to include School Debt Service Fund Balance. This fund was previously reported with the School Board component unit.

Notes:

The County implemented GASB 34 in fiscal year 2003. Fiscal years 2001 and 2002 have been restated to allow comparability with post GASB 34 information.

Beginning in fiscal year 2003, the County began accounting for waste disposal services in an enterprise fund. Prior to this fiscal year, these services were accounted for in governmental funds.

Notes: Real Property is assessed annually at actual market value. Property is assessed at 100 percent of estimated actual value however, the County has adopted the provisions of Title 58.1-3230 of the Code of Virginia that provides for land use-value assessment when real estate is devoted to agricultural, horticultural or forest uses. Tax rates are per \$100 of assessed value. The County is divided into various different tax rate districts. The above direct tax rates are those for the district with the highest rate. The County reassessed real property values in 2008 marking the first reassessment since 2003.

 $^{^{\}left(1\right) }$ This schedule is prepared using the cash basis of accounting.

⁽²⁾ Does not include penalty or interest.

⁽³⁾ The Personal Property Tax Relief Act (PPTRA) was passed by the Commonwealth of Virginia in 1998. This legislation provides personal property tax relief to owners of personal use vehicles via a tax credit that appears on the citizen's local tax assessment as a reduction to taxes due. Localities receive a fixed amount of Commonwealth aid restricted for this program which is intended to reimburse the County for tax relief granted. Additional information on this legislation is found in the notes to the financial statements.

⁽⁴⁾ Beginning in fiscal year 2010, personal property taxes were levied in two installments due 6/25 and 12/5. Taxes were previously due in one installment.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To The Honorable Members of Board of Supervisors County of Accomack Accomac, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Accomack, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County of Accomack, Virginia's basic financial statements and have issued our report thereon dated December 21, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Accomack, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the County of Accomack, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Accomack, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Accomack, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Accomack, Virginia, in a separate letter dated December 21, 2010.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements that Could Have a
Direct and Material Effect on Each Major Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
Independent Auditor's Report

To The Honorable Members of Board of Supervisors County of Accomack Accomac, Virginia

Compliance

We have audited the County of Accomack, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The County of Accomack, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Accomack, Virginia's management. Our responsibility is to express an opinion on County of Accomack, Virginia's compliance based on our audit.

County of Accomack, Virginia's basic financial statements include the operations of the Accomack-Northampton Planning District Commission, which received \$884,255 in federal awards which is not included in the schedule during the year June 30, 2010. Our audit, described below, did not include the operations of Accomack-Northampton Planning District Commission because the component unit engaged other auditors to perform an audit in accordance with OMB Circular A-133

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Accomack, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Accomack, Virginia's compliance with those requirements.

In our opinion, the County of Accomack, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the County of Accomack, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Accomack, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Accomack, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

COUNTY OF ACCOMACK, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2010

Note 1 - Basis of Accounting

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Accomack, Virginia under programs of the federal government for the year ended June 30, 2010. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Accomack, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Accomack, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

| Intergovernmental federal revenues per the basic financial statements: Primary government: | | |
|---|----|------------|
| General Fund | \$ | 1,188,181 |
