INTRODUCTORY SECTION (unaudited)

The Introductory Section contains the letter of transmittal, which provides a profile of Fairfax County Public Schools (FCPS) and an overview of its school membership, accomplishments, major initiatives, financial policies, long-term financial planning, awards, and acknowledgements.

Also included in this section are the following:

- Listing of FCPS' School Board members and administration
- FCPS' organizational chart
- Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Financial Officers Association
- Certificate of Excellence in Financial Reporting awarded by the Association of School Business Officials International

Michelle C. Reid, Superintendent

Falls Church, Virginia 22042

November 04, 2025

Members of the Board of Supervisors, Members of the School Board, and Residents of Fairfax County:

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) of Fairfax County Public Schools (FCPS) for the fiscal year ended June 30, 2025. The financial statements included in this report are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applicable to governmental units. This report consists of management's representations concerning the finances of FCPS. Accordingly, responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with FCPS' management.

To the best of our knowledge and belief, the information included in this report is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the various activities and funds of FCPS.

FCPS' financial statements were audited by the independent accounting firm of Cherry Bekaert LLP. The independent audit involved examining, on a test basis, documents supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Cherry Bekaert LLP issued an unmodified opinion on FCPS' financial statements for the fiscal year ended June 30, 2025. An unmodified opinion represents a clean audit opinion and is expressed when an auditor concludes that the financial statements are presented fairly, in all material respects, and in accordance with the applicable financial reporting framework; this is the best possible result for an external audit. The independent auditor's report is included as the first item in the financial section of this report.

GAAP requires that management of FCPS provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

Profile of the School System

OVERVIEW

The Virginia Department of Education (VDOE) is responsible for apportioning the Commonwealth of Virginia (State) into school divisions based on geographic area and school-age population. The school divisions are charged with promoting the realization of the standards of quality required by Article VIII, Section 2, of the Constitution of Virginia. FCPS, the school division for the County of Fairfax, Virginia (County), is located in the northeastern corner of the State and encompasses an area of 407 square miles, including land and water. The County is part of the Washington, D.C. metropolitan area, which includes part of Northern Virginia, the District of Columbia, and Maryland.

FCPS is the largest educational system in the State and the 9th largest school division in the U.S. based on enrollment. FCPS is the second largest employer in the County, with approximately 26,800 full-time staff positions, of which approximately 93 percent are school-based. The FCPS bus fleet is one of the largest bus fleets in the U.S., transporting approximately 133,000 students on over 1,600 buses each day. FCPS facilities consist of more than 28 million square feet of school buildings and office space.

The function of the FCPS School Board is to set general school policy and, within the framework of the VDOE regulations, establish guidelines and rules that will ensure the proper administration of the school system. The School Board comprises 12 members who are elected by citizens of the County and serve four-year terms. There is one member from each of the County's nine magisterial districts and three members at large. A nonvoting student representative is selected by a countywide student advisory council for a one-year term. The School Board is entrusted with the responsibility of hiring the school division's superintendent. The superintendent along with chiefs of staff for: schools, academic, equity, experience and engagement, financial, information technology, operating, facilities services and capital programs, safety and security, and human resources manage the day-to-day operations of the school system.

Schools and Centers – Fiscal Year 2025

Elementary (K-6)	142
Middle (6-8)	3
Middle (7-8)	20
Secondary (7-12)	3
High (9-12)	24
Special Education Centers	7
Total	199

FCPS is focused on meeting the needs of approximately 182,000 students from preschool through twelfth grade, while managing 199 schools and centers. The schools and centers are divided into six regions and are supported by eleven chiefs that provide a broad range of services including instructional services, special services, facilities services and capital programs, information technology, school improvement/supports, human resources, and financial services.

Approximately 86 percent of the school system's approved operating budget (\$3.7 billion for fiscal year 2025) was allocated to instructional programs. In addition to core instructional programs designed to meet the varied needs of the student body and to enhance academic achievement, FCPS offers a variety of other instructional programs. Such programs include Family and Early Childhood Education, Elementary Magnet Schools, State K-3 Reduced Ratio Schools, Project Momentum, Title I Schools, Language Immersion, International Baccalaureate, Advanced Placement, Advanced Academics, as well as, extensive programs for students pursuing technical careers. FCPS also provides a broad range of adult education programs offering basic skill education courses along with vocational and enrichment programs to adults in the community. Thomas Jefferson High School for Science and Technology (TJHSST), a Governor's magnet school, attracts students from throughout Northern Virginia for an intensive program emphasizing sciences, mathematics, and technology.

FCPS is a component unit of the County and is included as an integral part of the County's financial statements. The cost of FCPS governmental activities are funded primarily by the County. For fiscal year 2025, the County provided 69 percent of funding and the state and federal governments provided 28.1 percent of FCPS' operating funding. The fiscal year 2025 transfer from the County totals \$2.6 billion, an increase in funding of \$165.0 million, or 6.8 percent, from the fiscal year 2024 transfer amount.

Economic Condition and Outlook

LOCAL ECONOMY

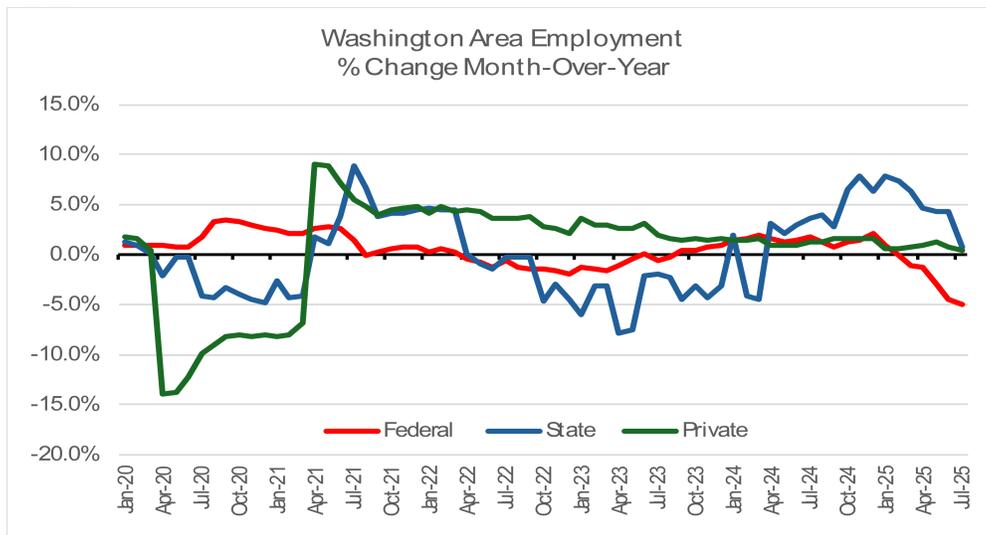

The total number of jobs in Fairfax County increased a net 7,000 jobs (1.1 percent) in calendar year 2024, as reported by the U.S. Bureau of Labor and Statistics. While overall employment has surpassed the pre-pandemic level, the recovery varies by sector. In calendar year 2024, public facing sectors such as the Leisure and Hospitality sector remained about 3 percent below the pre-COVID levels, while other sectors such as the higher paying Professional and Business Services sector fully recovered, increasing 2.5 percent in calendar year 2024 over calendar year 2019.

Business, Professional, and Occupational License (BPOL) taxes and sales taxes are two revenue sources that are good indicators of economic activity in the County. In fiscal year 2025, overall BPOL tax receipts increased 3.5 percent over the previous year. Revenues in the combined Consultant and Business Service Occupations categories, which represent over 44 percent of total BPOL tax receipts, increased by 6.9 percent. It should be noted that fiscal year 2025 BPOL taxes

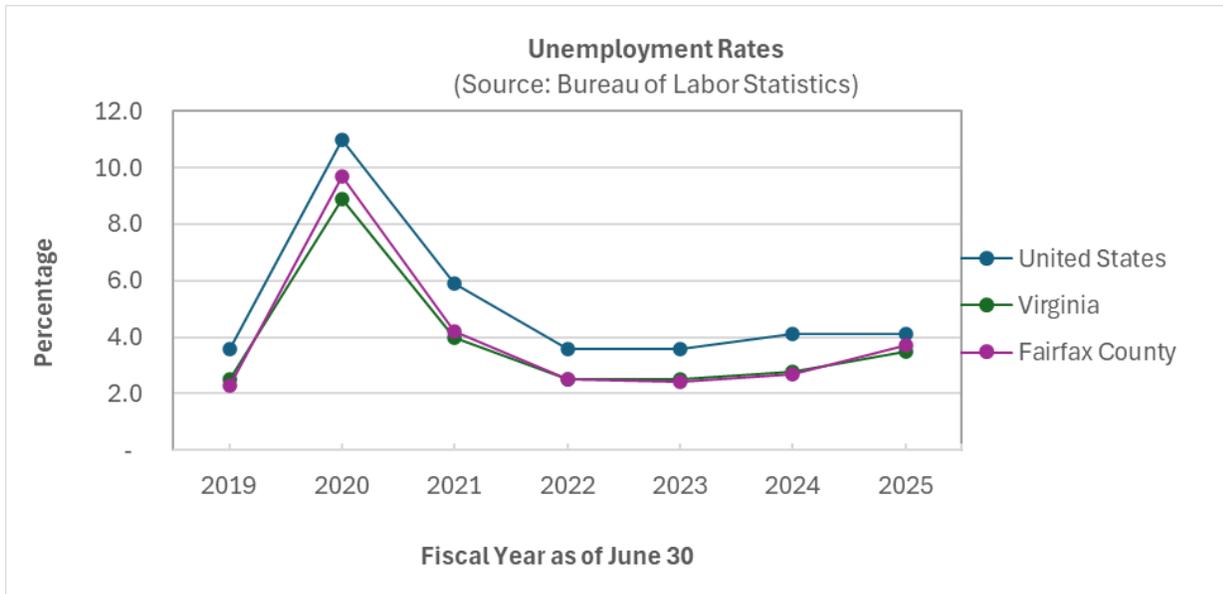

were based on business receipts received in calendar year 2024. Fiscal year 2025 Sales Tax receipts increased 2.6 percent.

Because the economy of the Washington Metro region is knowledge-based and highly dependent upon federal spending, it was somewhat insulated from the disruptions that affected other regional economies during the pandemic. Currently, the local economy is facing levels of uncertainty not seen since the initial days of the pandemic as the federal administration’s policies are having a significant impact in Northern Virginia, which is heavily reliant on federal employment and procurement. The Trump administration has taken actions to significantly reshape the federal government, including its workforce. Fairfax County is home to more than 80,000 federal workers, and even more workers connected to businesses that contract with the federal government. Thousands of federal workers have already lost their jobs, although many have challenged the administration’s actions in court. Federal contracts and grants are also being canceled. The chart below shows changes in the Washington Area federal, state, and private employment. Federal employment declined 5 percent from July 2024 to July 2025. State and private employment growth, while still positive, decelerated significantly.

It should also be noted that while the private sector’s job growth remained positive, it may have difficulty absorbing the displaced federal workers due to a mismatch in skills and expertise. According to data laid out in a recent Brookings Institute report on the Washington Metro area’s economy amid federal downsizing, the industries seeing a net job growth during this period were mostly in construction, hospitality and healthcare, which all have a very limited overlap with the public sector.

As illustrated in the following chart, Fairfax County’s unemployment rates, not seasonally adjusted, remained below the national average but climbed compared to last year due to the new administration’s federal layoffs and cancellations of contracts and grants. In June 2025, Fairfax County’s unemployment rate was 3.7 percent, a whole percentage point higher compared to last year. The seasonally adjusted unemployment rates for the state of Virginia and the United States were 3.5 percent and 4.1 percent, respectively. This is the first month that shows the County’s unemployment rate surpassed the state’s since August 2021.

As the U.S. Congress could not reach a continuing resolution agreement on the federal budget before the start of the new fiscal year, the federal government started its first shutdown in almost 7 years on October 1, 2025, and it outran previous shutdowns becoming the longest in history. The full impact of the shutdown on the local economy is still unknown as the release of economic data is lagging, but with the administration's further massive layoffs during the shutdown, federal employees not receiving paychecks during the shutdown, and the voluntary buyout paychecks ending on September 30, the region could feel further economic pains in fiscal year 2026.

For the commercial real estate market, office vacancy rates continued to increase. According to the Fairfax County Economic Development Authority (FCEDA), the direct office vacancy rate increased to 18.1 percent as of mid-year 2025, up from 14.6 percent in calendar year 2020. The vacancy rate exceeded the previous 10-year high of 16.5 percent in 2015 when federal sequestration negatively impacted federal government related office space.

For the residential real estate market, based on information from Bright MLS, the average sales price of homes in Fairfax County rose 8.6 percent in calendar year 2024. Home prices continued to increase primarily because of the tight inventory of homes for sale. Since 2009, the average home sales price has more than doubled, with an average annual growth rate of 4.9 percent. Bright MLS also reported that the number of home sales in Fairfax County increased 5.1 percent in calendar year 2024, compared to calendar year 2023. It should be noted that similar to national trends, home price gains are decelerating in the Washington metropolitan area. According to the latest Case-Shiller Home Price Index through July 2025, the Washington area index increased 1.3 percent, compared to a 5.5 percent annual increase in July 2024. Bright MLS reported that the average sales price of homes in Fairfax County increased 3.6 percent from July 2024 to July 2025, compared to the annual increase of 8.6 percent in calendar year 2024.

School Enrollment

PROJECTED ENROLLMENT

The projected student enrollment for fiscal year 2026 is 181,091 students. This represents a decrease of 610 students compared to fiscal year 2025 projections. While enrollment has rebounded slightly from pandemic lows, FCPS anticipates that larger cohorts moving through middle and high school will be offset by smaller, recent kindergarten cohorts, thereby decreasing overall enrollment totals. FCPS enrollment projections are developed using a bottom-up methodology for general education students, beginning with elementary, then middle, and finally high schools. Kindergarten projections are based on historical relationships between kindergarten enrollment and births (five years prior) of Fairfax County and Fairfax City residents by attendance area. Each cohort is then aged through successive grades based on selected historical ratios or averages of those ratios, school by school. Projections may be modified, as necessary, to account for other factors such as new housing completions. New housing data forecasts are considered

with each projection effort. The number of additional students attributed to new housing decreased during the recent economic downturn as fewer houses were completed. Fewer students are generated (yielded) from mid and high-rise residential housing than from lower density housing.

SPECIAL EDUCATION

In fiscal year 2026, an estimated 52,410 special education services at an average cost of \$19,798 per service will be provided to 31,183 students (an average of 1.7 services per student). Special education services are determined by each student's Individualized Education Program (IEP) and is mandated by the Individuals with Disabilities Education Act (IDEA).

MULTILINGUAL LEARNERS (ML) TRENDS

In fiscal year 2026, 37,742 students, approximately 21 percent of FCPS students, in grades K-12 are projected to receive ML services. This is a projected increase of 4,417 ML services, or 13.3 percent, as compared to fiscal year 2021 actual services.

FREE AND REDUCED-PRICE MEALS ELIGIBILITY TRENDS

The federal free and reduced-price meals (FRM) program is one of the fastest growing segments of the FCPS student population. Families qualifying for free and reduced-price meals must meet established federal guidelines of income and household size. In fiscal year 2026, the number of students eligible for FRM is projected to be 67,004 students, or 37.0 percent of enrollment. This is a projected increase of 9,105 students, or 15.7 percent, as compared to fiscal year 2021 actual enrollment. The percentage of students eligible for FRM is used by FCPS to provide needs based staffing to schools.

Accomplishments

STUDENT AND TEACHER ACHIEVEMENTS

Individual students and groups annually earn honors and awards in all academic, extracurricular, and athletic areas in regional, state, and national competitions. FCPS teachers are recognized on regional, state, and national levels for their accomplishments.

- For the 2024-2025 school year, FCPS' average overall composite SAT score was 1183, which was higher than the State average of 1112 and the global average of 1029.
- Seven FCPS high schools made the U.S. News & World Report 2025 list of top ten Best High Schools in Virginia. Thomas Jefferson High School for Science and Technology (TJHSST) remains the top high school in Virginia, followed by Langley, Woodson, Oakton, Mclean, Marshall, and Madison High Schools.
- Five FCPS students were named winners of 2025 National Merit corporate-sponsored scholarship awards.
- A South Lakes High School math teacher was honored with the USA's highest awards for science and mathematics teachers and mentors.
- A biology and environmental science for multilingual learners teacher and science department chair at Justice High School has been awarded the 2025 AFS-USA Global Educator of the Year.
- Spring Hill Elementary School has been named a 2024 National Blue Ribbon School.

Major Initiatives

STRATEGIC PLAN

The FCPS strategic plan identifies the four pillars.

- **Pillar A – Differentiated and Culturally Responsive Learning Environments**

Innovative learning experiences designed to meet the needs of each and every learner, and implement professional practices that engage, empower, include, and challenge the whole learner through varied opportunities.

- **Pillar B – Vibrant Home, School, and Community Partnerships**

Shared responsibility to build trusting partnerships that sustain a safe, inclusive culture for learning and work, and we collaborate proactively with respect, honesty, and transparency.

- **Pillar C – Diverse, Adaptive, and Supported Workforce**

Recruit and retain staff who reflect the diversity of students and families; provide meaningful continuous learning, exceptional compensation, and balanced workload; and create a safe and culturally responsive environment that values staff voice.

- **Pillar D – Culture of Equity, Excellence, and Accountability**

Nurture processes and structures that are grounded in intentional partnerships, shared responsibility for equitable resource allocation, and data-driven continuous improvement and innovation.

The FCPS strategic plan identifies five overarching student-centered goals to indicate the focus and alignment of efforts for the division from 2023-2030. Each goal includes an equity commitment and a set of measures to evaluate success. During school year 2024-2025, strategic plan priorities for each goal included an intentional focus on the following:

- **Goal 1 – Strong Start: Pre-K-12**

Every student will develop foundational academic skills, curiosity, and a joy for learning necessary for success in Pre-K through 12th grade.

Throughout school year 2024-2025, there was a focus on strategic improvement efforts for early childhood experiences, kindergarten readiness, and English language proficiency for multilingual learners. These initiatives included new instructional resources for English language instruction, summer programming, local advocacy and partnerships to expand early childhood access, financial investments to add Pre-k classrooms, and professional development opportunities for staff to support successful inclusion and academic success.

- **Goal 2 – Safe, Supported, Included, and Empowered**

Every student will experience an equitable school community where student health and well-being are prioritized, and student voice is centered. Priority areas for goal 2 are chronic absenteeism, discipline disproportionality, and student academic inclusion and engagement.

Significant gains in improving chronic absenteeism were attributed to division-wide focus on systems that support good attendance for all students and personalized supports for student and families. Strategies to improve discipline disproportionality include new division-wide data practices and monitoring of discipline, positive family engagement, providing targeted support to schools and providing students and families with targeted resources to minimize the risk of future discipline

involvement. Efforts to support improvement in student academic inclusion involved monitoring of inclusion data through a new dashboard (LRE), a development of a multi-year plan to enhance supports for twice exceptional students, and engaging with experts on instructional program delivery to inform models for students with autism.

- **Goal 3 – Academic Growth and Excellence**

Every student will acquire critical and creative thinking skills, meet/exceed high academic students, and achieve their highest academic potential.

Important measures for goal 3 are students reading by third grade, completing Algebra 1 by 8th grade, and completing advanced coursework in high school. In school year 2024-2025 FCPS made changes to its approach to 3rd grade readiness by standardizing evidence-based literacy curriculum, assessing and responding to student literacy/risk, and providing personalized support for students who face individual challenges.

During the school year 2024-2025, 74.5% of rising 8th graders were enrolled in Algebra or higher. Current plans also include the expansion of access to Algebra 1 in 6th grade during school year 2025-2026. FCPS also offered a summer program called Algebra Powerup to provide students in 7th and 8th grades a solid foundation for success in Algebra 1. To improve completion of advanced course work in high school, FCPS is currently focused on strategies that increase the overall availability and variety of advanced courses offered, as well as the preparation and intentional planning for enrollment.

- **Goal 4 – Equitable Access and Opportunity**

Every student will have access to high-quality academic programming, resources to support their success and consistent availability of and accessibility to electives, extracurricular, co-curricular and enrichment activities.

To improve rates of academically intense course taking, some of the key strategies FCPS is focused on revising offerings, pathways, requirements across the division, academic advisement and enrollment practices on strategic scheduling, preparing all students for the rigor of advanced coursework, increasing the number and variety of advanced course offered, and identifying and resolving common barriers to accessing academically intense courses.

Access to activities has been linked to improved will-being, self-esteem, belonging, and mental health for students. Strategic improvement efforts focused on access to activities include offering a variety of engaging after-school activities, understanding barriers to participation, and using student voice to understand activity preferences and identify future offerings. In the fall of school year 2024-2025, boys volleyball was offered in all 25 high schools and 440 boys participated. Girls wrestling was offered in the winter at all 25 high schools and 239 girls participated.

- **Goal 5 – Leading for Tomorrow’s Innovation**

Every student will graduate ready to thrive in life after high school and with the skills to navigate, adapt, and innovate for a sustainable future.

Strategic improvement efforts focused on graduation equity, identifying and supporting students at risk of not graduating on time, providing targeted support to schools with higher rates of dropout or other risk factors, supporting school engagement and postsecondary momentum, ensuring appropriate use of credit accommodations, strengthening transcript evaluation and advisement/scheduling practices, and leveraging a goal innovation team to provide analysis, support, and identify barriers to graduation.

INITIATIVES

The fiscal year 2025 Approved Budget aligns with the work needed to meet the goals outlined in FCPS' 2023-30 Strategic Plan. The budget supports students academically by maintaining existing class size formulas and providing necessary support to all students. It also included funding to strengthen student well-being outside of the classroom with expanded athletic offerings, additional athletic trainers, and enhanced stipends for fine and performing arts. FCPS will continue key multiyear initiatives such as expansion of inclusive preschool and adoption of green initiatives by the Joint Environmental Task Force. Competitive compensation for all FCPS employees remains a top priority.

TECHNOLOGY INTEGRATION IN THE CLASSROOM

Achieving high academic standards increasingly involves integrating technology into the classroom. FCPSOn is the Division's 1:1 device program for students and educators. FCPSOn provides students with equitable access to meaningful learning experiences using a variety of technology tools. Teachers are able to personalize student learning and ensure that each student has access to an active and inspiring learning environment in which they can develop and apply their Portrait of a Graduate skills. Technology use within FCPS continues to evolve and is growing in scope, depth, complexity, and sophistication. Demands for and expectations of technology services, solutions, and devices are increasing at an unprecedented pace. Ubiquitous internet access and instructional resources such as the FCPSOn initiative reflect the ever-increasing student and teacher dependence on technology.

ENVIRONMENTAL SUSTAINABILITY

FCPS works with Fairfax County and its environmental vision which recognizes the responsibility to be good stewards to ensure a sustainable future. Two principles that are key in the vision: (1) Conserve our limited natural resources. (2) Commit to providing the resources needed to protect our environment. FCPS is committed to educating students and employees about environmental stewardship responsibilities and encourages everyone to use their critical thinking and communication skills to implement appropriate measures to be good environmental stewards.

FCPS earned the Association of Energy Engineers 2024 International Institutional Energy Management Award. There is a single annual winner (globally) of this award. FCPS was recognized as a 2023 Better Buildings Challenge Goal Achiever by the United States Department of Energy. In addition, 187 FCPS facilities earned an ENERGY STAR certification at least one time.

Get2Green is the environmental stewardship program for FCPS. The mission is to cultivate school cultures and an FCPS community centered on student wellness and equitable access to environmental stewardship opportunities. The goal is to empower every student to be an environmentally literate global citizen who is connected to nature and equipped to be a leader who protects our world. Get2Green expanded over the last few years to add central staff to support schools, a Get2Green Leader position in every school to engage students in environmental action, and funding to support student-led environmental projects. Additionally, Get2Green has a partnership with the National Wildlife Federation EcoSchools US program, which provides a framework for schools to engage in student led environmental action. Through the Eco-schools US program, 44 FCPS schools earned the highest recognition of the Green Flag award for the 2024-2025 school year.

CHALLENGES

FCPS faces several mandatory cost increases that impact its ability to expand services. These mandatory costs continue to rise year over year. In fiscal year 2026, healthcare costs are projected to increase \$25.9 million due to rate increases, and future year increases could be more substantial due to inflationary pressures. Funding of \$8.6 million is required for the division's contractual increases due to cost escalations.

The need to recruit, hire, and retain a diverse workforce with exceptional employees is at the forefront of the FCPS Strategic Plan. Competition for top educators, especially those in critical shortage areas, is prompting all area school divisions to offer higher salaries and additional incentives to attract a highly qualified teaching staff. The shortage of qualified bus drivers needed to meet operational demand is ever more prevalent and is reaching a critical level.

Financial Policies

FCPS utilizes a number of control systems to ensure the integrity of its financial information and the protection of its assets.

INTERNAL CONTROLS

The internal control system is designed to provide reasonable, but not absolute, assurance about the achievement of FCPS' objectives with regard to the reliability of financial reporting, effectiveness and efficiency of operations, and compliance with the applicable laws and regulations.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management. A sound internal control system should ensure that if any material error or fraud occurs, they would be detected in a timely manner by employees in the normal course of performing their duties.

BUDGET DEVELOPMENT PROCESS

The FCPS budget development process is a collaborative one involving many stakeholders. The School Board and County Board of Supervisors hold several joint budget work sessions to incorporate One Fairfax into decision-making processes while continuing to identify efficiencies. One Fairfax is a joint social and racial equity policy adopted by the Fairfax County Board of Supervisors and the Fairfax County School Board. It commits the County and the school system to intentionally consider equity when making policies or delivering programs and services. Community engagement is an important component of the budget development process. This includes community outreach meetings, an instructive online budget video, and other available tools and channels for the community to participate in the budget process.

BUDGET POLICIES

The School Board's policies and practices highlight significant assumptions used to develop the budget and are divided into the following broad categories:

Reserve Policies

School Board reserves are maintained to enable FCPS to address unanticipated needs in a timely manner. Each year, the reserve amount is approved after a careful review of previous years' expenditures and balances to ensure that sufficient contingency funding is not delayed awaiting quarterly reviews. These are grants, food and nutrition services, restricted, school board flexibility, school materials, and staffing contingency.

Fund Balance Reserve Policies

The School Board may establish fund balance reserves to address future requirements. Fund balance reserves represent funds available for School Board's action and may include reserves for budgeted beginning balance, centralized instructional resources, and fuel contingency reserves.

Position and Salary Policies

There are three policies that include position growth, position reallocation, and salary increase. All position adjustments are subject to School Board approval. Principals and program managers can reallocate funds available as a result of vacant positions and unanticipated needs provided they maintain certain standards. FCPS maintains five salary scales: teacher, classroom instructional support, school-based administrator, unified, and other scales. The other schedules provide rates of pay for substitutes and other hourly employees. All salary adjustments are subject to School Board approval.

Assumptions and Costing Guidelines for Other Budget Issues

Included in this category are building maintenance, building renovation, carryover funding, equipment funds transfer, technology funding, utilities, vehicle and bus replacement, and vehicle services.

BUDGETARY CONTROLS

The budget is implemented with legal and administrative oversight at certain fund levels. Legal oversight is carried out at the individual fund level, and the administrative controls occur at the commitment item group level for each office and school within a fund.

FCPS maintains an encumbrance accounting system as a technique of accomplishing budgetary control. All expenditures - purchase orders, contracts, or salary commitments - must have funds set aside or encumbered to ensure that funds will be available when payment is due. The encumbrance process is an important control measure to prevent over-expenditure of budget appropriations due to lack of information about future commitments.

Long-Term Financial Planning

The fiscal year 2025 budget development process was a collaborative process involving many stakeholders. The School Board and County Board of Supervisors held several joint budget work sessions to incorporate One Fairfax into the decision-making process while continuing to identify efficiencies.

The Superintendent worked closely with the School Board, the leadership team, and the community to present the needs of the school division. The Superintendent also works closely with the County to fit these needs into the One Fairfax policy, the larger requirements of the community, and within the annual budget plan. The fiscal year 2025 budget included an increase in funding from the County of \$165 million, or 6.8 percent from the fiscal year 2024 transfer.

The fiscal year 2026 Approved Budget total of \$3.9 billion aligns with the work needed to meet the goals outlined in FCPS' 2023-30 Strategic Plan, our foundational commitment to delivering a world-class education to every FCPS student, in every classroom, every day. The fiscal year 2026 budget cycle presented significant challenges. A \$121 million funding shortfall added pressure to a budget already strained by years of longstanding inequities in state funding.

As a result, we faced difficult decisions, including adjustments to our staffing formulas that will impact class sizes across all school levels. We also had to make the difficult decision to eliminate positions, reduce proposed compensation increases for our committed staff, and delay planned investments.

Despite these considerable hurdles, we remain steadfast in our mission and are proud of the significant progress we have achieved as a school division. One major milestone was reached with the implementation of our first collective bargaining agreement in decades, strengthening our commitment to valuing staff voices and ensuring competitive employee compensation.

The major planning activities are:

FCPS' Approved Budget - the approved budget is adopted annually by the School Board and reflects ongoing programs as well as initiatives for the next fiscal year.

The Technology Plan - outlines the multiyear strategic goals and demonstrates the effective use of technology throughout the school system. The technology plan supports FCPS' vision and mission to provide a high quality education to every child in an instructional setting appropriate for his or her needs; to educate all students to meet high academic standards; and to prepare all students to be responsible citizens in the 21st century. The technology plan is aligned with the VDOE's Educational Technology Plan.

School Improvement and Innovation Plans are required by FCPS and the VDOE. Aligned within the school plan are the annual measurable objectives and Standards of Accreditation requirements. Schools are required to review their progress related to student achievement goals and describe how the school will accomplish its objectives. Each school's plan is posted on their website, which can be accessed through FCPS' Schools and Centers Directory.

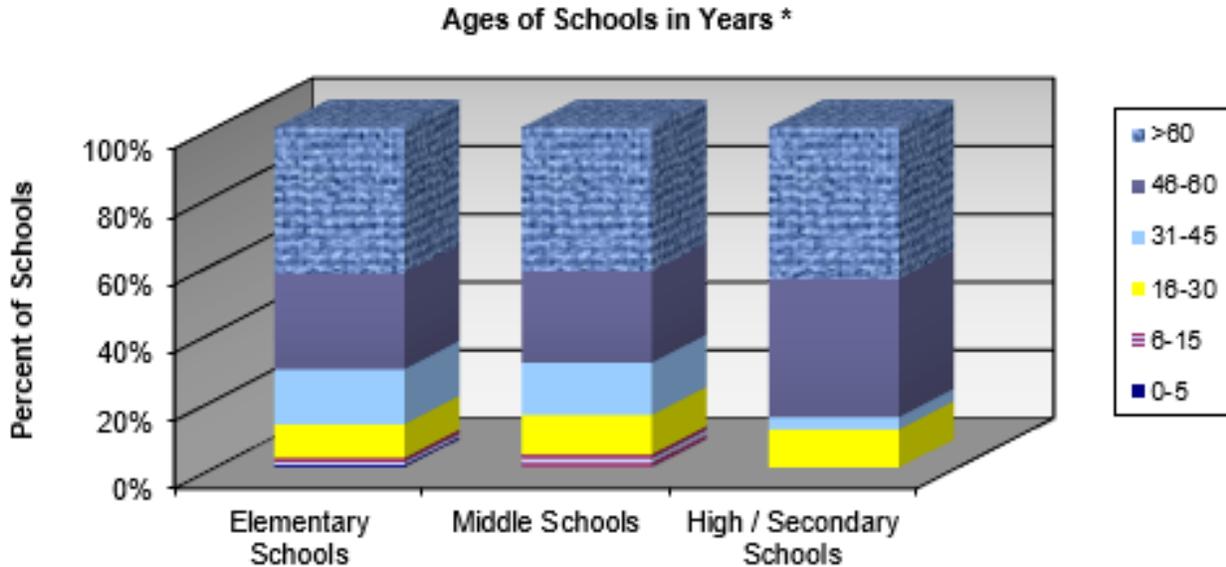

Capital Improvement Program (CIP) is adopted by the School Board and contains the five-year capital improvement plan, student enrollment projections, and building use analysis. The CIP assesses requirements for new facilities, renovation of existing facilities, infrastructure management, technology upgrades, and other facility-related needs. The list of capital projects resulting from this assessment provides a clear statement of school facility requirements. Actual completion dates for CIP projects depend on cash flow and debt service limitations established by the County Board of Supervisors.

The CIP is a planning and fiscal management tool used to coordinate the location, timing, and funding of projects over a five-year period. The fiscal year 2026-2030 five-year CIP totals approximately \$1.4 billion. The funding will allow for the following projects:

- New school construction of two elementary schools.
- Relocation of modular buildings.
- Renovation of 18 elementary schools, two middle schools, and two high schools.

Traditionally, the County has used the sale of municipal bonds to fund school capital facility expenditures. Every two years in November, school capital facility projects are part of a school bond referendum, which is added to the general election ballot. Beginning in fiscal year 2025, the debt cap for general obligation bond sales increased to \$230 million. To ensure that the county bond rating is not jeopardized, the County Board of Supervisors adheres to financial management principles that set limits on the annual cost of debt service and net long-term debt. It should be noted, however, the bond sale allocations for fiscal year 2025 and beyond set at \$230 million by the County Board of Supervisors is being challenged by inflation in the construction industry and is therefore insufficient to meet the ongoing needs of FCPS.

The graph below reflects the ages of FCPS' elementary, middle, and high schools as of June 30, 2025

* From the year that each school opened through June 30, 2025 (does not reflect renovation dates)

Awards

FCPS maintains a significant commitment to provide annual financial reports. By preparing and presenting an ACFR, FCPS validates the credibility of the school system's operations and recognizes the commitment of the School Board and staff in being good stewards of financial resources. The financial reporting awards received by FCPS reflect the commitment to communicate financial activity in a comprehensive and clear format.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to FCPS for its ACFR for the fiscal year ended June 30, 2024. In order to be awarded a GFOA Certificate of Achievement, certain requirements must be met, including the issuance of an easily readable and efficiently organized ACFR. The report must also satisfy both GAAP and applicable legal requirements.

GFOA has given an *Award of Outstanding Achievement in Popular Annual Financial Reporting* to FCPS for its Popular Annual Financial Report for the fiscal year ended June 30, 2024. This award is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to receive this award, a government unit must publish a popular annual financial report, whose contents conform to program standards of creativity, presentation, understandability and reader appeal.

In addition, the Association of School Business Officials International (ASBO) sponsors a *Certificate of Excellence in Financial Reporting* program to foster transparency and quality information in the preparation and issuance of school system's annual financial reports. The ASBO program is similar to the GFOA Certificate of Achievement for Excellence in Financial Reporting program. FCPS was awarded the ASBO Certificate of Excellence for its ACFR for the fiscal year ended June 30, 2024.

FCPS has received prestigious awards from both GFOA and ASBO for 31 consecutive years. We believe that the current ACFR also conforms to the GFOA and ASBO certificate program requirements therefore; we are submitting it to them to confirm our compliance and to obtain another GFOA and ASBO certificate.

FCPS has won several awards for its budgeting reports, forecasting reports, and a separately issued ACFR for the Educational Employees' Supplementary Retirement System of Fairfax County pension plan. In addition, ASBO and GFOA awarded FCPS with the Meritorious Budget Award and the Distinguished Budget Presentation Award, respectively, for the fiscal year 2025 Approved Budget.

Acknowledgments

We would like to express our sincere gratitude to the personnel in the Office of the Comptroller, Department of Financial Services who participated in the preparation of this ACFR and to our independent auditors, Cherry Bekaert LLP. Appreciation is also extended to the School Board and the administration, whose continuing support is vital to the financial health of the school system.

Respectfully submitted,

Awards for Excellence in Financial Reporting

GOVERNMENT FINANCE OFFICERS ASSOCIATION AWARD

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to FCPS for its ACFR for the fiscal year ended June 30, 2024. The Certificate of Achievement for Excellence in Financial Reporting is a prestigious, national award, which recognizes conformance with the highest standards for preparation of state and local government ACFRs.

In order to receive a Certificate of Achievement for Excellence in Financial Reporting, a governmental unit must publish a ACFR whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. In addition, this report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. FCPS has received the Certificate of Achievement for Excellence in Financial Reporting for 31 consecutive years.

ASSOCIATION OF SCHOOL BUSINESS OFFICIALS AWARD

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to FCPS for its ACFR for the fiscal year ended June 30, 2024. FCPS has received this award for 31 consecutive years.

This nationally recognized program was established by ASBO to encourage school business officials to achieve a high standard of financial reporting. The award is the highest recognition for school division financial operations offered by ASBO, and it is only conferred upon school systems that have met or exceeded the standards of the program. More than 500 school systems and educational institutions submit applications each year.

Participation in the Certificate of Excellence in Financial Reporting program validates FCPS' commitment to fiscal and financial integrity and enhances the credibility of FCPS' operations with the School Board and the community. The program reviews the accounting practices and reporting procedures used by FCPS in its ACFR based upon specific standards established by the Governmental Accounting Standards Board.

FINANCIAL SECTION

County of Fairfax, Virginia

To the Fairfax County School Board
County of Fairfax, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fairfax County Public Schools (“FCPS”), a component unit of the County of Fairfax, Virginia, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise FCPS’ basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of FCPS, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities, and Towns* (the “Specifications”), issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards and the Specifications are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of FCPS and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matters

As discussed in Note 1.Q to the financial statements, FCPS adopted Governmental Accounting Standards Board (“GASB”) Statement 101, *Compensated Absences*, effective July 1, 2024. As a result, the beginning net position has been restated.

As discussed in Note 1.L to the financial statements, FCPS changed the measurement date of its OPEB Plan. As a result, the beginning net position has been restated. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about FCPS’ ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Specifications will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Specifications, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of FCPS' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about FCPS' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise FCPS’ basic financial statements. The accompanying other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory and Statistical Sections but does not include the basic financial statements and our auditor’s report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2025, on our consideration of FCPS’ internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of FCPS’ internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering FCPS’ internal control over financial reporting and compliance.

A young woman with glasses, wearing a black graduation cap and gown with a yellow sash, is smiling and holding up her tassel. The background is a blurred red wall.

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)

The Management's Discussion and Analysis provides a narrative introduction to and overview and analysis of the basic financial statements. It includes a description of the government-wide and fund financial statements, as well as an analysis of Fairfax County Public Schools' financial position and results of operations.

Management's Discussion and Analysis (Unaudited)

This discussion and analysis, a section of the Fairfax County Public Schools' (FCPS) Annual Comprehensive Financial Report (ACFR), provides a narrative overview and analysis of the financial activities of FCPS, as of and for the fiscal year ended June 30, 2025. We encourage readers to consider the information presented here in conjunction with additional information furnished in our letter of transmittal in the introductory section of this ACFR.

FINANCIAL HIGHLIGHTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements report information about FCPS as a whole using the economic resources measurement focus and accrual basis of accounting.

- Net position is \$368.6 million at June 30, 2025 as a result of the assets and deferred outflows of resources exceeding liabilities and deferred inflows of resources.
- Total revenues of \$4,251.0 million were generated in fiscal year 2025. Expenses incurred were \$4,228.5 million, resulting in an increase in net position of \$22.5 million for the current year.
- General revenues, including the funds transferred from the County, totaled \$3,302.6 million and are available for all purposes. Such revenues were sufficient to fund the \$3,280.1 million excess of total operating costs over program-specific revenues. For the fiscal year 2025, program-specific revenues amounted to \$948.4 million.

FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about FCPS' major funds using the current financial resources measurement focus and modified accrual basis of accounting.

- FCPS' governmental funds reported a combined fund balance of \$688.0 million as compared to \$700.3 million in fiscal year 2024; this represents a decrease of \$(12.3) million in fund balance. The decrease is primarily due to a reduction in other financing sources; decrease in financed purchase agreements and subscriptions offset by an increase in leases.
- On June 30, 2025, the General Fund, which accounts for the main operating activities of FCPS, reported an ending fund balance of \$403.3 million as compared to \$407.6 million in fiscal year 2024; this represents a decrease of \$(4.3) million in fund balance. The unassigned portion of the General Fund's fund balance was \$1.3 million, which is available for future expenditures.
- The Capital Projects Fund ended fiscal year 2025 with a fund balance of \$211.0 million as compared to \$171.7 million in fiscal year 2024; this represents an increase of \$39.3 million in fund balance. This balance is restricted for construction projects in progress or starting in the near future.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of this ACFR comprises five sections: 1) report of independent auditor, 2) management's discussion and analysis, 3) basic financial statements, 4) required supplementary information, and 5) other supplementary information.

FCPS basic financial statements consist of two types of statements, each with a different perspective on FCPS' financial condition. First, the government-wide financial statements provide both long-term and short-term information about overall FCPS finances. On the other hand, the fund financial statements focus on the individual components of FCPS operations, providing more detail than the government-wide financial statements. The basic

financial statements also include notes providing additional explanation and detailed information essential for gaining a full understanding of the data presented in the financial statements.

The financial statements and notes are followed by required supplementary information, consisting of the budget and actual comparison schedule for the General Fund and trend data pertaining to the pension and other postemployment benefit trust funds. In addition to these required elements, FCPS provides other supplementary information that includes combining fund statements for the nonmajor governmental funds, budget and actual comparison schedules for the special revenue funds, combining fund statements for the internal service funds, and combining fund statements for the pension and OPEB trust funds.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements report information about FCPS activities as a whole using accounting methods similar to those used by private-sector businesses. In addition, they report the FCPS net position and financial position changes during the fiscal year.

The Statement of Net Position presents information on all of FCPS' assets, liabilities, and deferred outflows/inflows of resources with the difference as net position. Over time, increases or decreases in net position may serve as a useful indicator of FCPS' ability to cover costs and continue to provide services in the future.

The Statement of Activities presents information on the change in the FCPS net position providing the results of operations during the fiscal year. The statement highlights the extent to which, specific programs are able to cover their costs with user fees, grants, and contributions, as opposed to being financed with general revenues. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid. The change in net position from year to year may serve as a gauge of FCPS' financial position performance.

All of FCPS' basic services are reported as governmental activities. These activities are financed primarily by charges for services and intergovernmental grants and contributions. The governmental funds and the internal service funds are included in governmental activities because these services only benefit FCPS.

FUND FINANCIAL STATEMENTS

Fund financial statements provide an additional level of detail about FCPS' major funds. A fund is a grouping of related accounts used to maintain control over resources for specific activities or objectives. FCPS uses fund accounting to track transactions in individual funds, as well as to ensure and demonstrate compliance with finance-related legal requirements. FCPS funds are divided into the following three classifications:

Governmental Funds - Governmental funds account for, in essence, the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on 1) how cash and other financial assets, which can readily be converted to cash, flow in and out and 2) the balances of spendable resources available at the end of the fiscal year.

The governmental funds provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources available for spending in the near future to finance FCPS' programs. Because this information does not encompass the additional long-term focus of the governmental activities in the government-wide financial statements, reconciliations are provided to explain the relationship.

The General Fund is the largest of the governmental funds, which is the main operating activities of FCPS. Information on the General Fund and the Capital Projects Fund, both of which are considered to be major funds, is presented separately in the governmental funds' Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. All other governmental funds, which include the Food and Nutrition Services, Grants and Self-Supporting Programs, and Adult and Community Education special revenue funds, are collectively referred to as nonmajor governmental funds. Data for the three nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in combining statements elsewhere in the ACFR.

Proprietary Funds - Proprietary funds consist of FCPS' internal service funds and are used to account for activities financed and operated in a manner similar to private-sector businesses. In other words, costs are recovered primarily through user charges. Proprietary fund financial statements provide both long-term and short-term financial information. The internal service funds are used to account for FCPS' health benefits and insurance activities on a cost reimbursement basis. Both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these internal service funds is provided in combined statements elsewhere in the ACFR.

Fiduciary Funds - Fiduciary funds are used to account for resources that are held by FCPS for the benefit of outside parties. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support FCPS' programs. FCPS' fiduciary fund types consist of pension and OPEB trust funds. The pension and OPEB trust funds are combined into a single, aggregated presentation in the fiduciary fund financial statements and are used to account for assets held in trust by FCPS for the Educational Employees' Supplementary Retirement System of Fairfax County (ERFC) pension plan and to accumulate and invest funds for FCPS' postemployment health benefit subsidies for eligible retirees and their surviving spouses. Individual fund data for the pension and other postemployment benefit trust funds is provided in combining statements elsewhere in the ACFR.

FINANCIAL ANALYSIS OF GOVERNMENTAL ACTIVITIES

The Statement of Net Position and the Statement of Activities provide the financial status and operating results of FCPS as a whole.

STATEMENT OF NET POSITION

The following table provides a summary of FCPS' net position as of June 30, 2025 and 2024:

SUMMARY OF NET POSITION

As of June 30

(Dollars in Millions)

	Governmental Activities			Percent Variance
	2025	2024	Variance	
ASSETS				
Current and other assets	\$ 1,013.2	\$ 1,016.3	\$ (3.1)	(0.3)%
Capital assets, net	2,973.6	2,915.9	57.7	2.0
Total assets	<u>3,986.8</u>	<u>3,932.2</u>	<u>54.6</u>	1.4
DEFERRED OUTFLOWS OF RESOURCES				
Deferred pensions	1,325.7	1,201.6	124.1	10.3
Deferred OPEB	135.6	119.7	15.9	13.3
Deferred debt refundings	2.6	2.9	(0.3)	(10.3)
Total deferred outflows of resources	<u>1,463.9</u>	<u>1,324.2</u>	<u>139.7</u>	10.6
LIABILITIES				
Current liabilities	205.1	181.6	23.5	12.9
Non-current liabilities	4,171.7	4,103.7	68.0	1.7
Total liabilities	<u>4,376.8</u>	<u>4,285.3</u>	<u>91.5</u>	2.1
DEFERRED INFLOWS OF RESOURCES				
Deferred pensions	596.2	306.5	289.7	94.5
Deferred OPEB	106.4	106.4	-	-
Deferred Lease	2.7	1.2	1.5	125.0
Total deferred inflows of resources	<u>705.3</u>	<u>414.1</u>	<u>291.2</u>	70.3
NET POSITION				
Net investment in capital assets	2,776.0	2,702.0	74.0	2.7
Restricted	283.8	291.3	(7.5)	(2.6)
Unrestricted (deficit)	(2,691.2)	(2,436.3)	(254.9)	10.5
Total net position	<u>\$ 368.6</u>	<u>\$ 557.0</u>	<u>\$ (188.4)</u>	(33.8)%

Net investment in capital assets is \$2,776.0 million, which represents the portion of net position related to capital assets, net of accumulated depreciation, reduced by the lease liabilities, notes payable, subscription liability and contract retainages of \$135.4 million that were used to acquire the assets, and increased by deferred outflows related to debt refundings in the amount of \$2.6 million.

For fiscal year 2025, FCPS reported deferred outflows of resources of \$1,463.9 million, which primarily consists of \$1,325.7 million related to deferred pensions and \$135.6 million related to deferred OPEB. The majority of the deferred outflows of resources reported are comprised of current year contributions to the retirement systems, in addition to outflows attributable to the various components that impact pension and OPEB expense, amortization of

changes due to actuarial assumptions, changes in proportionate share of contributions, and differences between expected or actual experience. The majority of the increase in non-current liability in the amount of \$68.0 million is the net effect of the increase of compensated absences in the amount of \$190.5 million, the decrease of net pension liability in the amount of \$(88.2) million, and the decrease of net OPEB liability of \$(17.8) million.

For fiscal year 2025, FCPS reported deferred inflows of resources of \$705.3 million, which primarily consists of \$596.1 million related to deferred pensions and \$106.4 million related to deferred OPEB. The majority of the deferred inflows of resources reported represents a net amount attributable to the various components that impact pension and OPEB expense, amortization of changes due to actuarial assumptions, changes in proportionate share of contributions, and differences between expected or actual experience.

STATEMENT OF ACTIVITIES

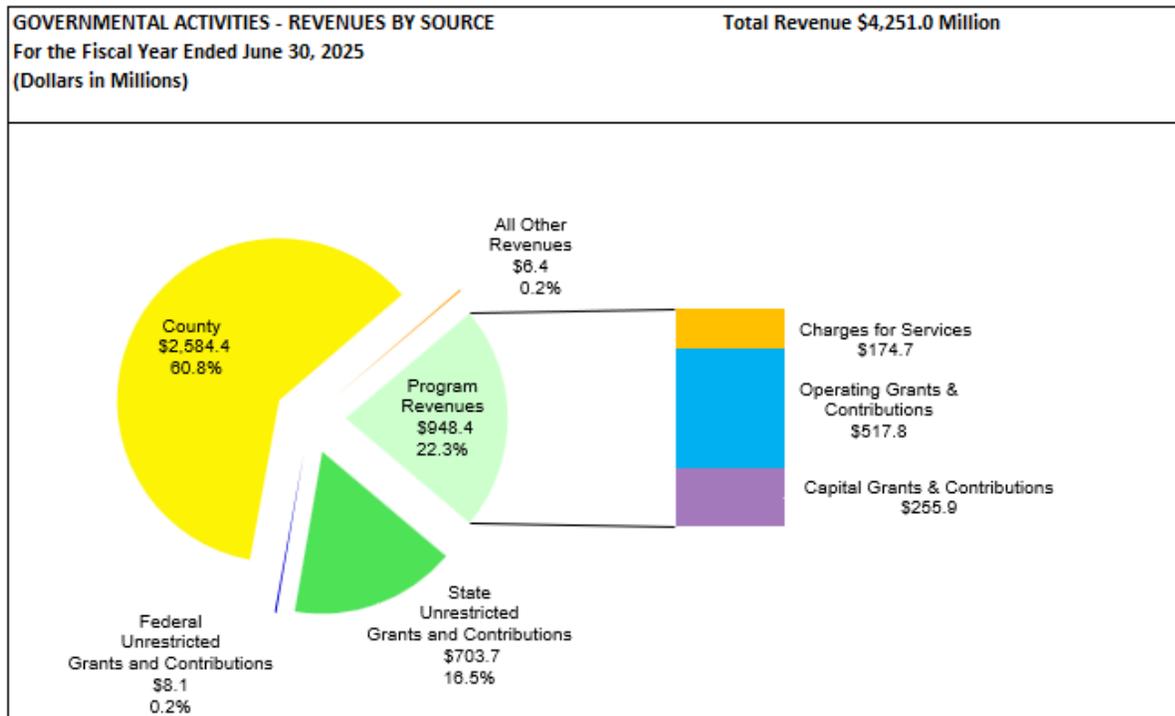

The following table provides a summary of the changes in FCPS' net position for the fiscal years ended June 30, 2025 and 2024:

SUMMARY OF CHANGES IN NET POSITION				
For the Fiscal Years Ended June 30				
(Dollars in Millions)				
	Governmental Activities			Percent
	2025	2024	Variance	Variance
REVENUES				
Program revenues:				
Charges for services	\$ 174.7	\$ 169.3	\$ 5.4	3.2 %
Operating grants and contributions	517.8	594.3	(76.5)	(12.9)
Capital grants and contributions	255.9	234.3	21.6	9.2
General revenues:

Total revenues for FCPS’ governmental activities were \$4,251.0 million in fiscal year 2025, representing an increase of \$165.5 million, or 4.1 percent, over fiscal year 2024. The increase over prior year is primarily due to: \$159.8 million increase in County transfers, \$41.3 million increase in State funding, \$24.5 million increase in bonds, \$4.5 million increase in State sales tax, and offset by \$(64.6) million reduction in Federal funding.

The total expenses of FCPS’ programs for fiscal year 2025 were \$4,228.5 million, representing an increase of \$365.0 million or 9.4 percent over fiscal year 2024. The change is primarily due to an increase of \$300.3 million in instruction spending for education, an increase of \$63.6 million in support programs, and an increase of \$2.4 million in the food service program.

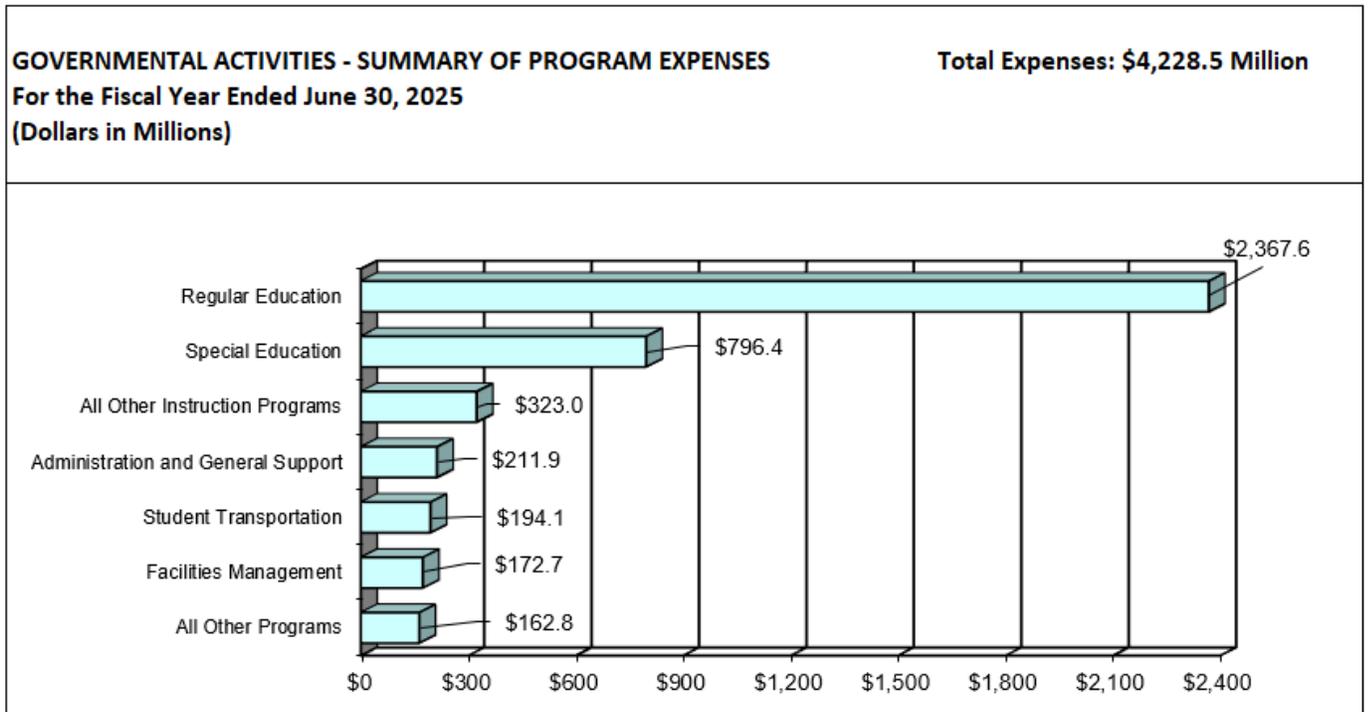

The following chart presents revenues by source for the fiscal year ended June 30, 2025:

The following items reflect the major increases and decreases in revenues during fiscal year 2025:

- \$159.8 million, or 6.4 percent, increase in funding from County transfers
- \$41.3 million increase in State funding due to \$100.2 million increase in standards of quality funding, \$7.3 million increase in other State funding, and offset by \$(66.2) million decrease in incentive-based funding
- \$24.5 million increase from fiscal year 2025 bond sales
- \$4.5 million increase in State sales tax
- \$(64.6) million decrease in Federal funding due to \$(63.4) million decrease in the Elementary and Secondary School Emergency Relief (ESSER) grant funding and \$(1.2) million decrease in other Federal funding

The following chart compares the total expenses of each of FCPS' programs for the fiscal year ended June 30, 2025:

As the chart indicates, regular education is FCPS' largest program. Regular education includes activities and programs conducted during the regular instructional day for students in grades K-12. Special education, FCPS' second largest program, includes activities for students with special needs. Such activities include programs specifically designed to overcome disabilities, alternative education, Head Start, and preschool programs.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

ALL GOVERNMENTAL FUNDS

As noted earlier, FCPS uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of FCPS' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing FCPS' short-term financing requirements. Fund balance is reported by purpose within these classifications as appropriate: nonspendable, restricted, committed and assigned and unassigned.

The following table presents a summary of fund balances of governmental funds as of June 30, 2025 and 2024:

FUND BALANCES OF GOVERNMENTAL FUNDS				
As of June 30				
(Dollars in Millions)				
	<u>2025</u>	<u>2024</u>	<u>Variance</u>	<u>Percent Variance</u>
General Fund				
Nonspendable	\$ 0.2	\$ 0.3	\$ (0.1)	(33.3)%
Committed	36.7	38.1	(1.4)	(3.7)
Assigned	365.1	367.2	(2.1)	(0.6)
Unassigned	1.3	2.0	(0.7)	(35.0)
Total General Fund	<u>403.3</u>	<u>407.6</u>	<u>(4.3)</u>	(1.1)
Capital Projects Fund				
Restricted	<u>211.0</u>	<u>171.7</u>	<u>39.3</u>	22.9
Total Capital Projects Fund	<u>211.0</u>	<u>171.7</u>	<u>39.3</u>	22.9
Nonmajor governmental funds				
Nonspendable	0.9	1.5	(0.6)	(40.0)
Restricted	<u>72.8</u>	<u>119.5</u>	<u>(46.7)</u>	(39.1)
Total nonmajor governmental funds	<u>73.7</u>	<u>121.0</u>	<u>(47.3)</u>	(39.1)
All governmental funds				
Nonspendable	1.1	1.8	(0.7)	(38.9)
Restricted	283.8	291.2	(7.4)	(2.5)
Committed	36.7	38.1	(1.4)	(3.7)
Assigned	365.1	367.2	(2.1)	(0.6)
Unassigned	1.3	2.0	(0.7)	(35.0)
Total governmental funds	<u>\$ 688.0</u>	<u>\$ 700.3</u>	<u>\$ (12.3)</u>	(1.8)%

As of June 30, 2025, FCPS' governmental funds had a combined fund balance of \$688.0 million, compared with \$700.3 million at June 30, 2024, resulting in a decrease of \$(12.3) million, or (1.8) percent decrease over prior year. The following represents the fiscal year 2025 fund balance classification:

- \$1.1 million is nonspendable for prepaid items and inventories
- \$283.8 million is restricted for capital construction, grants, and food service
- \$36.7 million is committed by the School Board for fiscal year 2026 operating budget requirements
- \$365.1 million is assigned for obligated but undelivered orders, fiscal year 2026 initiatives, and fiscal year 2027 operating budget requirements
- \$1.3 million is unassigned representing resources not associated with a specified purpose

MAJOR GOVERNMENTAL FUNDS

The General Fund is the main operating fund of FCPS. For fiscal year 2025, General Fund revenues, inclusive of other financing sources, totaled \$3,833.4 million, which represents an increase of \$171.7 million, or 4.7 percent, over the prior year. Expenditures for the General Fund, inclusive of other financing uses totaled \$3,837.7 million, which represents an increase of \$223.3 million, or 6.2 percent over prior year. This resulted in a decrease in fund balance of \$(4.3) million from prior year fund balance. The per pupil cost increased from \$19,795 in fiscal year 2024 to \$20,940 in fiscal year 2025, representing an increase of \$1,145 or 5.8 percent.

The Capital Projects Fund reported a total fund balance of \$211.0 million, an increase of \$39.3 million from fiscal year 2024. Other revenues in this fund for fiscal year 2025 totaled \$2.3 million, a decrease of \$(8.8) million from fiscal year 2024. Expenditures for fiscal year 2025 totaled \$240.8 million, which represents an increase of \$14.2 million, or 6.3 percent, from fiscal year 2024 due to the fact that more renovation projects are ongoing in fiscal year 2025.

During fiscal year 2025, FCPS received \$230.0 million of bond proceeds from the County to fund capital projects. As of June 30, 2025, the unspent portion of bond proceeds totaled \$240.4 million which is represented as restricted cash and investments on the Balance Sheet. The unspent portion of bond proceeds consists of \$230.0 million and \$10.4 million from fiscal years 2025 and 2024, respectively.

GENERAL FUND BUDGETARY HIGHLIGHTS

The *Code of Virginia* (Code) requires the appointed Superintendent of the school division to submit a budget annually to the governing body, following approval of the advertised budget by the School Board.

The Superintendent presents FCPS' proposed budget to the School Board in early January. The School Board then conducts a series of public hearings and work sessions before adopting the advertised budget. The School Board's advertised budget is then forwarded to the County for inclusion in the County Executive's advertised budget. In early April, the County Board of Supervisors holds public hearings regarding the advertised budget and determines the amount of funding to be transferred to FCPS. The School Board then holds additional public hearings before approving the final budget in late May.

The approved budget governs all of the financial operations of FCPS beginning on July 1 and is modified on a quarterly basis as revenue sources and expenditure priorities change. FCPS' School Board approves all quarterly budget modifications.

The following table presents a summary comparison of the General Fund's original and final budgets with actual performance for the fiscal year ended June 30, 2025:

GENERAL FUND BUDGET AND ACTUAL COMPARISON For the Fiscal Year Ended June 30, 2025 (Dollars in Millions)

	Budget - Original	Budget - Final	Actual - Budget Basis	Variance from Final Budget
Total revenues	\$ 1,131.7	1,165.7	\$ 1,170.4	\$ 4.7
Total expenditures	3,705.0	4,058.3	3,711.3	(347.0)
Excess of expenditures over revenues	(2,573.3)	(2,892.6)	(2,540.9)	351.7
Total other financing sources, net of uses	2,545.2	2,535.7	2,535.8	0.1
Net change in fund balances	\$ (28.1)	\$ (356.9)	\$ (5.1)	\$ 351.8

During fiscal year 2025, the General Fund’s final budget for revenues exceeded the original budget by \$34.0 million. The increase in revenues is due to the increase in the sales tax projection and City of Fairfax tuition based on actual receipts.

Actual revenues were \$1,170.4 million or \$4.7 million more than final budgeted amounts as a result of the budgeted total IDEA amounts were not fully received in fiscal year 2025 and will be reappropriated in fiscal year 2026.

The final budget for expenditures exceeded the original budget by \$353.3 million, or 9.5 percent. The overall increase in expenditure budget is due to carryover of undelivered orders, school balance carryover, and flexibility reserve funding from fiscal year 2024.

Actual expenditures of \$3,711.3 million came in under the final budget of \$4,058.3 million by \$(347.0) million, or (8.6) percent, primarily due to the following:

- \$173.2 million in schools and project carryover
- \$72.3 million in outstanding encumbered obligations
- \$68.8 million in salary and benefits attributed to persistent vacancy and turnover following the pandemic
- \$26.2 million of department critical needs which consists of funding to address budgetary requirements necessary to support strategic priorities
- \$6.5 million from school board flexibility reserve to meet unforeseen circumstances that occur during the fiscal year

The actual net change in fund balance for fiscal year 2025 was \$(5.1) million which was improved from the final budgeted net fund balance projected at \$(356.9) million.

CAPITAL ASSETS AND LONG-TERM OBLIGATIONS

CAPITAL ASSETS

As of June 30, 2025, FCPS’ investment in capital assets for governmental activities totaled \$2,973.6 million, net of accumulated depreciation and amortization of \$3,177.9 million. This represents a net increase in capital assets of \$57.7 million, or 2.0 percent, over the prior year.

The following table summarizes capital assets as of June 30, 2025 and 2024:

NET CAPITAL ASSETS			
As of June 30			
(Dollars in Millions)			
Capital Asset Category	Book Value		Increase/ (Decrease)
	(net of depreciation)		
	2025	2024	
Land	\$ 46.8	\$ 46.8	\$ -
Construction in progress	465.0	361.3	103.7
Software under development	7.9	4.3	3.6
Equipment	103.6	98.5	5.1
Library collections	6.3	6.6	(0.3)
Buildings and improvements	2,213.2	2,284.7	(71.5)
Software and licenses	1.9	2.7	(0.8)
Right-to-Use lease asset	50.8	49.0	1.8
Right-to-Use subscription asset	78.1	62.0	16.1
Total	\$ 2,973.6	\$ 2,915.9	\$ 57.7

Net additions (reductions) to capital assets during fiscal year 2025 include the following:

- \$32.2 million in multiyear major renovations and additions
- \$17.1 million intangible assets including software, leases, and software subscriptions
- \$ 5.1 million equipment
- \$ 3.6 million software under development
- \$ (0.3) million in library collections

Additional detailed information regarding FCPS’ capital assets, including the current year’s activity, can be found in notes I.H and III.E in the notes to the financial statements.

LONG-TERM OBLIGATIONS

As of June 30, 2025, FCPS reported total long-term obligations in the amount of \$4,171.7 million, compared to \$4,316.7 million at June 30, 2024. The following table summarizes FCPS’ long-term obligations as of June 30, 2025 and 2024:

LONG-TERM OBLIGATIONS		
As of June 30		
(Dollars in Millions)		
	2025	2024
Compensated absences	\$ 236.6	\$ 230.1 *
Actuarial claims payable	88.5	86.9
Lease Liability	54.6	52.1
Notes payable/Financed purchase agreements	84.0	92.5
Subscription liability	42.9	55.2
Net pension liabilities	3,375.5	3,463.7
Net OPEB liabilities	289.6	336.2 *
Total	\$ 4,171.7	\$ 4,316.7

* Fiscal year 2025 beginning balances are restated due to change in accounting principle, see Note I.Q. for details.

Additional detailed information regarding long-term obligations, including the current year’s activity, can be found in notes I.I, I.J, and III.F in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The primary source of revenue for FCPS comes from the County, which in turn derives the majority of its revenue from real and personal property taxes. For fiscal year 2025, real estate tax rate slightly decreased to \$1.1225 per \$100 of the assessed home value. The personal property tax rate remains unchanged in fiscal year 2025 at \$4.57 per \$100 of assessed personal property value.

FISCAL YEAR 2026 BUDGET

The fiscal year 2026 Approved Operating Expenditure Budget totals \$3.9 billion, an increase of \$175.8 million, or 4.7 percent, over the fiscal year 2025 Approved Budget. Every dollar in the fiscal year 2026 budget is strategically aligned with the priorities outlined in the Strategic Plan, our foundational commitment to delivering a world-class education to every FCPS student, in every classroom, every day.

The following are highlights of the fiscal year 2026 expenditure budget:

- \$179.0 million to provide a compensation adjustment of 6.0 percent for employees represented by Fairfax Education Union (FEU), and 5.0 percent compensation adjustment for non-FEU represented employees
- \$23.6 million to support recurring baseline adjustments based on the quarterly fund review adjustments
- \$20.0 million and 207.9 positions to support changing student needs and enrollment
- \$12.9 million to support increases in transfers to other School Board funds
- \$9.3 million earmarked to enhance safety and security in schools. This funding will support the installation of external and internal security cameras at school sites, panic alert systems for all schools
- \$8.6 million in contractual services primarily for terms and conditions of negotiated contracts and renewals
- (\$13.2) million funding reduction for post-covid classroom monitors
- (\$32.6) million compensation base savings represents the recurring savings due to position turnover in fiscal year 2025
- (\$33.3) million of savings from staffing formula adjustments; these formula changes result in 275.3 fewer positions allocated to elementary, middle, and high schools, an average of less than 1.5 positions per school.

CONTACTING FCPS MANAGEMENT

This summary is designed to provide a general overview of the financial condition of FCPS. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer, Department of Financial Services, 8115 Gatehouse Road, Falls Church, Virginia 22042 or by calling (571) 423-3750.

This ACFR can also be found on FCPS' website at:

<https://www.fcps.edu/about-fcps/leadership/departments-offices/office-chief-financial-officer/comptroller/financial>

A young girl with dark hair and glasses is smiling broadly at the camera. She is wearing a green long-sleeved shirt and holding a yellow pencil. The background is a blurred classroom with other students and desks.

BASIC FINANCIAL STATEMENTS

The Basic Financial Statements subsection includes the government-wide statements, which incorporate the governmental activities of Fairfax County Public Schools in order to provide an overview of the financial position and results of operations for the reporting entity. This subsection also includes the fund financial statements and the accompanying notes to the financial statements.

See accompanying notes to the financial statements.

Reconciliation of the Balance Sheet to the Statement of Net Position

Governmental funds

June 30, 2025

Fund balances - total governmental funds \$ 687,964,536

Amounts reported for governmental activities in the Statement of Net Position are different due to:

Capital assets used in governmental funds' activities are not financial resources and, therefore,

are not reported in funds.

Non-depreciable/non-amortizable capital assets	\$ 519,777,836	
Depreciable/amortizable capital assets	5,630,703,192	
Accumulated depreciation and amortization	<u>(3,177,590,196)</u>	
Total		2,972,890,832

Internal Service Funds are used by management to provide certain goods and services to governmental funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.

Assets:

Current assets	\$ 150,524,688	
Right-to-use subscription asset	1,014,275	
Accumulated amortization of subscriptions	(306,787)	

Liabilities :

Subscription Liability	(540,832)	
Other Liabilities	<u>(120,092,192)</u>	

Total 30,599,152

Non-current liabilities related to governmental fund activities are not due and payable in the current period and, therefore, are not reported in the funds.

Accrued interest on long-term debt	\$ (2,349,354)	
Compensated absences	(235,767,738)	
Leases	(54,594,822)	
Notes Payable/Financed purchase agreements	(83,972,400)	
Subscription Liability	<u>(42,395,265)</u>	
Total		(419,079,579)

Revisions of debt agreement resulting in an increase of debt obligations are reported as deferred outflows in the Statement of Net Position, but they are not financial resources and, therefore, are not reported in the funds.

2,654,038

GAAP requires the reporting of net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions in the Statement of Net Position; however, they are not financial resources and, therefore, are not reported in the funds.

Deferred outflows related to pensions	\$ 1,325,686,891	
Net pension liability	(3,375,558,413)	
Deferred inflows related to pensions	<u>(596,141,450)</u>	
Total		(2,646,012,972)

GAAP requires the reporting of net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB in the Statement of Net Position; however, they are not financial resources and, therefore, are not reported in the funds.

Deferred outflows related to OPEB	\$ 135,579,229	
Net OPEB liability	(289,561,597)	
Deferred inflows related to OPEB	<u>(106,396,585)</u>	
Total		(260,378,953)

Net position of governmental activities \$ 368,637,054

See accompanying notes to the financial statements.

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
For the Fiscal Year Ended June 30, 2025**

Net change in fund balances - total governmental funds	\$ (11,742,837)
Amounts reported for governmental activities in the Statement of Activities are different due to:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is expensed over their estimated useful lives and reported as depreciation expense.	
Capital outlay	\$ 275,088,224
Depreciation expense	<u>(217,034,428)</u>
Total	58,053,796
Donations of capital assets increase net position in the Statement of Activities, but do not appear in the governmental funds because they are not financial resources.	1,473,390
Losses on the disposal of capital assets are reported in the Statement of Activities. However, in governmental funds, the proceeds from sales are reported. The difference is the net depreciated value of the disposed capital assets.	(16,298)
Principal payments on leases and installment purchases are reported as expenditures in governmental funds. However, the principal payments reduce the liabilities in the Statement of Net Position and do not result in expenses in the Statement of Activities.	49,241,837
Other financing sources recorded at the inception of leases and right-to-use subscriptions increase fund balance of governmental funds. In the government-wide statements, new debt increases non-current liabilities in the Statement of Net Position and does not affect the Statement of Activities. This amount represents principal amounts of new leases and right-to-use subscriptions.	(32,714,186)
Accrued interests for leases with rent abatement that were not in governmental funds	(69,048)
In the government-wide statements, inventory changes impact net position. Inventory is recorded as an expenditure in the governmental funds' statements as purchased. These expenditures are not adjusted for the net change in inventory.	(628,471)
In the Statement of Activities, compensated absences are measured by the amounts earned during the current fiscal year. In the governmental funds, expenditures for these items are measured by the amount of financial resources used. This amount represents the net change in compensated absences.	(6,476,107)
Internal Service Funds are used by management to provide certain goods and services to governmental funds. The change in net position of these funds is reported within governmental activities in the Statement of Activities.	(17,140,288)
In the government-wide statements, interest related to leases and subscriptions is accrued when incurred rather than expensed.	(261,547)
In the government-wide statements, the effects of deferred outflows of resources relating to refinance of Gatehouse Administrative Building are amortized over the life of each lease and expensed.	(286,923)
In the government-wide statements, the effects of net pension liability, deferred outflows of resources, and deferred inflows of resources relating to pension accounting are expensed.	(77,399,813)
In the government-wide statements, the effects of net OPEB liability, deferred outflows of resources, and deferred inflows of resources relating to OPEB accounting are expensed.	60,495,618
Change in net position of governmental activities	<u>\$ 22,529,123</u>
See accompanying notes to the financial statements.

Notes to the Financial Statements

As of and for the year ended June 30, 2025

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fairfax County Public Schools (FCPS) is a corporate body operating under the constitution of the Commonwealth of Virginia (State) and the *Code of Virginia* (Code). The twelve voting members of the School Board are elected by the citizens of the County of Fairfax, Virginia (County) to serve four-year terms. Each of the County's nine magisterial districts has a member who represents its constituents. There are three at-large members and a non-voting student member selected by a countywide student advisory council to serve a one-year term. The School Board sets the educational policies of FCPS and appoints the Superintendent to implement them. In addition, the Superintendent administers operations, supervises personnel, and advises the School Board on all educational matters with a view toward enhancing students' learning, safety, and well-being.

A. REPORTING ENTITY

FCPS includes all of its departments, boards, and associated agencies that are not legally separate. In accordance with standards established by accounting principles generally accepted in the United States of America (GAAP), FCPS has identified one component unit required to be included in its financial statements. The Educational Employees' Supplementary Retirement System of Fairfax County (ERFC) is a legally separate entity that provides pension benefits exclusively for former employees of FCPS. The School Board appoints the majority of the trustees and has ultimate ability to impose its will. The School Board, in conjunction with its employees, provides all the funding for ERFC. Therefore, ERFC is considered to be a blended component unit and the results of its operations are reported within a single fund and combined with data from FCPS for financial presentation purposes.

FCPS is a component unit of the County since the County issues and services general obligation debt to finance the purchase or construction of school facilities. In addition, the County is FCPS' primary funding source.

B. BASIS OF FINANCIAL STATEMENT PRESENTATION AND FUND ACCOUNTING

FCPS' financial statements are prepared in conformity with GAAP, as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles. The basic financial statements consist of the government-wide statements, including the Statement of Net Position and the Statement of Activities; fund financial statements (which provide more detailed financial information); and notes to the financial statements (which provide detailed narrative explanations of the accounting policies used by FCPS). They serve to enhance user understanding of the data presented in the financial statements.

1. GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements, the Statement of Net Position and the Statement of Activities, present financial information about FCPS as a whole. These statements include the financial activities of FCPS' Primary Government, except for the fiduciary activities because FCPS cannot use these assets to finance its operations. Activities of the internal service funds are eliminated to avoid duplicate reporting of revenues and expenses; however, interfund services provided and used are not eliminated in the process of consolidation. In accordance with GAAP, activities are reported in these statements as governmental.

The Statement of Net Position presents the overall financial condition of FCPS at June 30, 2025. The net position balance provides evidence of FCPS' ability to cover its costs and continue to provide services in the future.

The Statement of Activities clarifies the extent to which FCPS program revenues are sufficient to cover direct program expenses. Direct expenses are those that are associated with specific programs and, therefore, can be classified by activity. FCPS also reports certain administrative expenses that cannot be specifically associated with a given program. These indirect expenses are allocated to the programs based on a ratio of expenditures by program reported in the governmental funds' statements. The net revenue or expense figure demonstrates whether the program is self-supporting or depends on general revenue sources. For the year ended June 30, 2025, most programs were heavily dependent on general revenues. Facilities management was the only program where the revenue sources exceeded program expenses.

Program revenues include: (a) charges for services such as tuition and fees, (b) operating grants and contributions, and (c) capital grants and contributions. Revenues that are not directly related to a program are reported as general revenues. These include funding provided by the County, as well as certain other unrestricted amounts received from the State and the Federal government.

2. FUND FINANCIAL STATEMENTS

FCPS classifies funds as governmental, proprietary, and fiduciary. Separate financial statements are produced for each classification. Major governmental funds are reported in separate columns in the governmental funds' financial statements. All other governmental funds are aggregated in a single column entitled, "Nonmajor Governmental Funds". Internal service funds are aggregated in a single column entitled, "Governmental Activities - Internal Service Funds", in the proprietary fund statements. FCPS' fiduciary funds are reported by type (pension and other postemployment benefit funds) in the fiduciary fund statements.

Each fund is considered an independent fiscal activity that operates with a self-balancing set of accounts. Each fund reports cash and other financial resources together with all related liabilities and residual equities or balances, and changes therein.

FCPS reports the following major governmental fund types:

- General Fund - the primary operating fund, which accounts for all financial resources, except those which are accounted for in another fund.
- Capital Projects Fund - the fund used to track financial transactions involved with acquisition, construction, or renovation of school sites, buildings, and other major capital improvements.

FCPS reports the following nonmajor governmental fund type:

- Special Revenue Funds - used to account for proceeds of specific revenue sources, other than for capital projects, in which expenditures are restricted for a specified purpose. The Food and Nutrition Services Fund accounts for sales proceeds from the school cafeterias. The Grants and Self-Supporting Programs Fund accounts for transactions related to grants and self-supporting programs, including the summer school program, that are not specifically reported in another fund. The Adult and Community Education Fund accounts for transactions arising from the programs and activities provided by the Office of Adult and Community Education.

FCPS reports the following additional fund types:

- Internal Service Funds - these are proprietary funds which account for the financial transactions associated with the provision of goods and services by one department in FCPS to another on a cost reimbursement basis. The Health Benefits Fund presents the results of transactions associated with the comprehensive health benefits self-insurance program. The Insurance Fund reports activities connected with FCPS' casualty liability obligations, including workers' compensation.
- Pension and Other Postemployment Benefits Funds - these are fiduciary funds used to account for assets held in a trustee capacity for the members and beneficiaries of ERFC, a single-employer defined benefit pension plan, and for the School Other Postemployment Benefits (OPEB) Trust Fund, a single-employer defined benefit plan to account for nonpension postemployment benefit commitments made by FCPS to its employees.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

1. GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. All assets and liabilities are shown in the Statement of Net Position, including non-current assets (such as land, buildings, improvements, and other capital assets) and long-term liabilities (such as obligations for pensions, OPEB, compensated absences, leases, actuarial claims payable, subscriptions, and notes payable/financed purchase leases).

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. The Statement of Activities demonstrates the degree to which program expenses are offset by associated revenues. Program revenues include charges for services, operating grants and contributions, and capital grants and contributions. County, State and Federal grants and contributions, which are not restricted for specific uses, are classified as general revenues. Revenue generated from the use of money is classified as general. The effect of interfund revenue was eliminated from these statements.

2. FUND FINANCIAL STATEMENTS

Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. Only current assets and current liabilities are included in the Balance Sheet. Revenue is recorded when susceptible to accrual, that is, when measurable and available for funding of current appropriations. FCPS, in general, considers revenues available if it is received within 60 days after fiscal year-end, except for insurance claim reimbursements, which FCPS considers available if it is collected within 90 days after fiscal year-end.

Statement of Revenues, Expenditures, and Changes in Fund Balance for these funds present increases and decreases in current financial resources. Increases result from the receipt of revenues and other financing sources, while decreases result from expenditures and other financing uses. Non-exchange revenues, where FCPS receives value without directly giving equal value in exchange, include grants and donations. These revenues are recognized in the fiscal year when all eligibility requirements have been satisfied and the resources are available. Expenditures are reported in the fiscal year when the related fund liability is incurred, except that certain long-term obligations, such as expenditures related to compensated absences or leases, are recorded when payment is due. Depreciation and amortization expense, which is an allocation of cost, is not recorded in the governmental funds.

Since the governmental fund statements are prepared on a different measurement focus than government-wide statements, reconciliations are provided to aid the reader in understanding the differences.

Proprietary funds and fiduciary funds are reported using the economic resources measurement focus and

the accrual basis of accounting. All assets and liabilities associated with the operation of these funds are included on the Statement of Net Position.

The proprietary funds' operating statement presents increases (revenues) and decreases (expenses) in net position. The operating revenues are charges for services provided to other departments on a cost reimbursement basis, while the costs incurred to deliver these services are reported as operating expenses. Since insurance services typically pertain to multiple fiscal years, the change in the actuarially determined insurance liability from one year to the next is reported as an operating expense. Nonoperating revenues in the proprietary funds are generated from investing activities. The Statement of Cash Flows presents the cash inflows and outflows of the proprietary activities.

Fiduciary funds are used to account for resources held for the benefit of parties outside FCPS. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support FCPS programs. FCPS fiduciary funds consist of pension trust funds and OPEB trust funds. Fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

For the pension trust fund, both member and employer contributions to the plan are recognized in the period when contributions are due. For the employee benefit trust fund, employer contributions are recognized in the period in which the contributions are due. For the pension and OPEB funds, benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

D. UNEARNED REVENUES

Unearned revenues are liabilities that do not involve the application of the revenue availability criteria and, therefore, applies equally to both accrual and modified accrual financial statements. FCPS has several types of unearned revenues. Community use payments are reported in the General Fund. In the Food and Nutrition Services Fund, the unearned revenues reported represent balances in student accounts for prepaid purchases of school lunches, breakfasts, and snacks as of June 30, which will be used to purchase meals in the subsequent school year. Unearned revenues reported in the Grants and Self-Supporting Programs Fund are primarily attributable to advance tuition payments for summer school. The unearned revenues in the Adult and Community Education Fund stem from tuition payments to be applied to classes offered in the following fiscal year. Unearned revenues in the Health Benefits Fund represent coverage for the months of July and August withheld in advance from employees' paychecks from September through June.

E. CASH AND CASH EQUIVALENTS

The majority of FCPS' cash and cash equivalents is cash on deposit with the County. Placing these funds in an investment pool administered by the County enhances investment returns. At June 30, 2025, all of the County's deposits were covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized in accordance with the Virginia Security for Public Deposits Act (Act). The Act establishes a single body of law applicable to the pledge of security as collateral for public funds on deposit in banking institutions. This ensures that the procedure for securing public deposits is uniform throughout the State. Under the Act, banks holding public deposits must pledge certain levels of collateral and make monthly filings with the State Treasury Board.

On a monthly basis, the County allocates interest, less an administrative charge, to some funds based on their respective average balances in pooled cash and investments. In accordance with the County's legally adopted operating budget, interest earned on FCPS' remaining funds is assigned directly to the County's General Fund.

Cash and cash equivalents in the Statement of Cash Flows and the Statement of Fiduciary Net Position represent amounts in the investment pool administered by the County, as such they are considered to be

demand deposits under GAAP.

The amount reported for cash with fiscal agent in the Statement of Fiduciary Net Position stems from receipts from ERFC pension investment sales occurring on the last day of the fiscal year, which could not be invested in the pooled cash fund until July 1, 2025.

F. INVESTMENTS

Cash on deposit with the County is maintained in an investment pool administered by the County. Money market investments that have a remaining maturity of one year or less at the time of purchase are reported at amortized cost, which approximates fair value. Other investments are reported at fair value.

Investments are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy. Investment purchases and sales are recorded as of the trade date. These transactions are not finalized until the settlement date, which is usually the trade date, but could be up to seven business days after the trade date.

G. INVENTORIES AND PREPAID ITEMS

Inventories in the Food and Nutrition Services Fund are valued at cost. The consumption method of accounting for inventory is used in the government-wide statements. Under this method, inventory items are comprised of expendable supplies and are expensed as they are consumed. The purchase method of accounting for inventory is used in the governmental funds. Under this method, inventory items are expensed when purchased. Inventory of the Food and Nutrition Services Fund, which consists of food products, are classified as nonspendable fund balance.

Certain payments to vendors reflect costs applicable to future accounting periods. These transactions are recorded as prepaid assets in both the government-wide and fund financial statements using the consumption method. Prepaid items in the governmental funds are classified as nonspendable fund balance.

H. CAPITAL ASSETS

Capital assets are reported in the government-wide financial statements, proprietary fund statements, fiduciary fund statements, and include land, construction in progress, equipment, library collections, buildings, improvements, and intangible assets. An asset must have a useful life of more than a year to be capitalized. Equipment, buildings, and improvements with a value of \$10,000 or more are capitalized. The capitalization threshold for capital assets purchased with grant funding is \$5,000.

Land, construction in progress, software in development, and library collections are generally capitalized regardless of value. The costs of routine maintenance and repairs that do not add to asset values or materially extend asset lives are not capitalized.

Capital assets are recorded at acquisition cost, or at estimated historical cost, if acquisition cost is not available. Donated assets are recorded at their acquisition value at the time of receipt.

No depreciation is taken in the year of acquisition for library collections. Depreciation on other capital assets commences when the assets are purchased or are substantially complete and ready to be placed into operation.

Intangible assets lack physical substance, are nonfinancial in nature, and have an initial useful life greater than one year. The intangible assets recognized by FCPS are software products and licenses, right-to-use lease assets, and right-to-use subscriptions. Software products and licenses are valued at historic cost, while right-to-use assets are measured at the discounted value of future lease payments. No indirect costs are

incorporated into the valuations for internally generated software. The cost threshold for individual asset recognition is \$100,000 for software and licenses, \$10,000 for right-to-use lease assets, and \$100,000 for right-to-use subscription assets.

Preliminary cost of software development (Stage 1) is expensed. Software in the application development stage (Stage 2) is capitalized. Amortization on software under development commences when software is operational. Any subsequent expenses and training costs are expensed (Stage 3).

The straight-line depreciation/amortization method is used over the following array of estimated useful lives:

Capital Assets	Useful Lives (Years)
Equipment:	
Buses and other vehicles	5-10
Office and other	3-20
Library collections	5
Buildings	20-50
Improvements	10-25
Software and licenses	5-12
Right-to-use leases*	4-5
Right-to-use subscriptions**	2-10
* Based on underlying agreement of lease term	
* Based on underlying agreement of software subscription term	

I. COMPENSATED ABSENCES AND ACCRUED WAGES AND BENEFITS

FCPS employees earn annual leave pay based on a prescribed formula tied to years of service. Employees with less than 10 years of service are allowed to accumulate a maximum of 240 hours as of fiscal year end and employees with more than 10 years of service may accumulate 320 hours. Any excess hours are converted to the unused sick leave balance.

Prior to fiscal year 2025, compensated absences were recognized as liability as the benefits were earned by the employees if the leave was attributable to past service and it is probable that the employer will compensate the employee for benefits through paid time off or cash payments at termination. Beginning in fiscal year 2025 and in accordance with GASB 101, *Compensated Absences*, FCPS uses a more likely than not threshold to determine when a compensated absence liability should be recognized, providing a more accurate reflection of the potential future cash outlays associated with accrued leave.

The accrued wages and benefits liability stems from employees who retired, resigned, or were terminated during the fiscal year, and, as of June 30, had not received payment for their accrued annual leave or severance pay. In addition, a number of FCPS' employees are paid on a biweekly schedule that does not align precisely with the fiscal year. Any salaries and fringe benefits that were incurred during the fiscal year, but not paid as of June 30, are accrued as current liabilities in the applicable funds.

J. LONG-TERM OBLIGATIONS

Long-term obligations are reported in the government-wide financial statements and the proprietary fund financial statements. These obligations are segregated between current and long-term components. In the government-wide financial statements, the long-term obligations are further divided between those due within one year and those due beyond a year.

Certain long-term obligations, such as claims and judgments and compensated absences that will be paid from current financial resources, are recorded as liabilities of the governmental funds. Lease payments are recorded as they are due and no liability is reported at fiscal year-end in the governmental funds.

K. PENSIONS

In government-wide financial statements, pensions are required to be recognized and disclosed using the accrual basis of accounting (see Note IV. Retirement Plans and the required supplementary information (RSI) section immediately following the Notes to Financial Statements), regardless of the amount recognized as pension expenditures on the governmental fund statements, which use the modified accrual basis of accounting.

FCPS recognizes a net pension liability, which represents FCPS' proportionate share of the excess of the total pension liability over the fiduciary net position of the pensions reflected in the actuarial reports of The Fairfax County Employees' Retirement System (FCERS) and Virginia Retirement System (VRS). For EFRC, FCPS recognizes the entire net pension liability. The net pension liability is measured as of FCPS' prior fiscal year-end. Changes in the net pension liability are recorded, in the period incurred, as pension expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the changes. The changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions, changes in proportionate share, or other inputs and differences between expected or actual experience) are amortized over the weighted-average remaining service life of all participants in the respective pension plans and are recorded as a component of pension expense beginning with the period in which they are incurred.

For purposes of measuring the net pension liability and deferred outflows of resources and deferred inflows of resources relating to pensions and pension expense, information about the fiduciary net position of FCPS' pension plans and the additions to/deductions from FCPS plans' net fiduciary position have been determined on the same basis as they are reported by the retirement plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

L. OTHER POSTEMPLOYMENT BENEFITS

In government-wide financial statements, OPEB is required to be recognized and disclosed using the accrual basis of accounting (see Note V. OPEB and RSI section immediately following the Notes to Financial Statements), regardless of the amount recognized as OPEB expenditures on the governmental funds' financial statements, which use the modified accrual basis of accounting.

In fiscal year 2025, and in accordance with GASB Statement No. 100, *Accounting Changes and Errors Corrections-an Amendment of GASB Statement No. 62*, FCPS implemented a change in accounting principle for the measurement date of the FCPS OPEB Plan. Prior to fiscal year 2025, the measurement date was the current fiscal year. Effective in fiscal year 2025, the measurement date changed to the prior fiscal year. This change in accounting principle is preferable for consistency and comparability to the VRS HIC OPEB and VRS GLIC OPEB plans as reported by FCPS.

FCPS recognizes a net OPEB liability, which represents FCPS' proportionate share of the excess of the total OPEB liability over the fiduciary net position of the OPEB reflected in the actuarial reports of FCPS OPEB

plan, Virginia Retirement System Teacher Health Insurance Credit Plan (VRS HIC) and Virginia Retirement System Group Life Insurance Plan (VRS GLI). For the FCPS OPEB plan, FCPS recognizes the entire net OPEB liability. Net OPEB liability for the FCPS OPEB, VRS HIC, and VRS GLI plans are measured as of FCPS' prior fiscal year-end. The employer contributions for the FCPS OPEB, VRS HIC and VRS GLI plans during the current fiscal year are reflected as a deferred outflow of resources which will impact the pension expense of the subsequent year. Changes in the net OPEB liability are recorded, in the period incurred, as OPEB expense or as deferred inflows of resources or deferred outflows of resources depending on the nature of the changes. The changes in net OPEB liability that are recorded as deferred inflows of resources or deferred outflows of resources (that arise from changes in actuarial assumptions, changes in proportionate share, or other inputs and differences between expected or actual experience) are amortized over the weighted average remaining service life of all participants in the respective OPEB plans and are recorded as a component of OPEB expense beginning with the period in which they are incurred.

For purposes of measuring the net OPEB liability and deferred outflows of resources and deferred inflows of resources relating to OPEB and OPEB expense, information about the fiduciary net position of FCPS' OPEB plans and the additions to/deductions from FCPS plans' net fiduciary position have been determined on the same basis as they are reported by the OPEB plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

Projected earnings on OPEB investments are recognized as a component of OPEB expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of OPEB expense on a closed basis over a five-year period beginning with the period in which the difference occurred. Each subsequent year will incorporate an additional closed basis five-year period of recognition.

M. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources which represent a consumption of net assets that applies to future periods. FCPS has three items which qualify for reporting in this category, deferred outflows related to pensions, deferred outflows related to OPEB, and deferred outflows related to debt refunding. Refer to Notes IV. Retirement Plans and V. OPEB for a detailed listing of the deferred outflows of resources related to pensions and OPEB, respectively. The deferred outflows related to debt refunding is the result of the debt restructure to fund construction costs for the Gatehouse Administrative Building.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources which represent an acquisition of net assets that applies to future periods. FCPS has three items which qualify for reporting in this category, deferred inflows of resources related to pension, deferred inflows of resources related to OPEB, and deferred inflows related to leases. Refer to Notes IV. Retirement Plans and V. OPEB for a detailed listing of the deferred inflows of resources related to pensions and OPEB, respectively. Refer to Note III G. Leases for a detailed listing of the deferred inflows related to leases.

N. NET POSITION

Net position represents assets and deferred outflows of resources less liabilities and deferred inflows of resources. In the government-wide and proprietary fund financial statements, FCPS' net position is categorized as follows:

- Net investment in capital assets which represents the portion of capital-related assets, net of accumulated depreciation, reduced by lease liability, notes payable, subscription liability, contract retainages to acquire these assets, and increased by deferred outflows related to debt refundings.
- Restricted, which represents the amount of net position that is externally restricted for food and nutrition services, grant programs, and capital projects
- Unrestricted deficit, which represents net position, which are neither restricted nor capital-related

In the fiduciary funds' financial statements, FCPS' net position is categorized as restricted for pension and OPEB, which represent the amount of assets accumulated for the payment of benefits to the members and beneficiaries of the ERFC pension and FCPS OPEB plans.

O. RECOVERED COSTS

Reimbursements from the City of Fairfax, Virginia (City) for operating City owned schools and providing educational services to City students are recorded as recovered costs in the governmental fund financial statements. During fiscal year 2025, reimbursements totaled \$66,214,951 for educational services, in addition to \$528,389 for construction projects performed on the City's behalf through FCPS' Capital Projects Fund. The increase in recovered cost from the City of Fairfax is related to rising operational costs and the increase in the number of students enrolled.

P. RESTRICTED ASSETS

Restricted assets are liquid assets that have third-party limitations on their use. FCPS reports restricted cash and investments in the Capital Projects Fund, which represents unspent amounts from the County's issuance of general obligation bonds. The County issues general obligation debt to finance the construction of school facilities on behalf of FCPS because the Code precludes school divisions issuing debt or levying taxes.

When both restricted and unrestricted resources are available for use, FCPS' policy is to use restricted resources first, and then unrestricted resources, as they are needed. As of June 30, 2025, restricted cash and investments reported in the Capital Projects Fund totaled \$240,445,507.

Q. IMPLEMENTATION OF NEW ACCOUNTING PRONOUNCEMENTS

In fiscal year 2025, FCPS implemented the following new accounting standards as issued by GASB.

GASB Statement No. 101, *Compensated Absences*. This Statement enhances recognition and measurement guidance for compensated absences by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This statement requires a more likely than not threshold to determine when a compensated absence liability is to be recorded, providing a more accurate reflection of the potential future cash outlays associated with accrued leave. See restatement - implementation of GASB 101 below.

The following restatements were recorded due to the implementation of GASB Statement No. 101 and change in OPEB measurement date in fiscal year 2025:

<u>Statement of Activities</u>	<u>Governmental Activities</u>
Net Position - July 1, 2024	\$ 556,955,492
Restatement - Change in accounting principle	
Change in OPEB measurement date (Note I.L.)	(26,818,912)
Implementation of GASB 101 (Note I.Q.)	<u>(184,028,649)</u>
Net Position - July 1, 2024, as restated	<u>\$ 346,107,931</u>

<u>Statement of Revenue , Expenses, and Changes in Net Position</u>	<u>Internal Service Fund</u>
Net Position - July 1, 2024	\$ 48,199,208
Restatement - Change in accounting principle	
Implementation of GASB 101 (Note I.Q.)	<u>(459,768)</u>
Net Position - July 1, 2024, as restated	<u>\$ 47,739,440</u>

GASB Statement No. 102, *Certain Risk Disclosures*. This Statement establishes financial reporting requirements for risks related to vulnerabilities due to certain concentrations or constraints. The implementation of the new standard did not have a material impact on FCPS' financial statements for fiscal year 2025.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The following reconciliations accompany the governmental fund statements:

Reconciliation of the Balance Sheet to the Statement of Net Position - this reconciliation explains the differences between total fund balances as reflected on the governmental funds Balance Sheet and net position for governmental activities as shown on the government-wide Statement of Net Position.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities - this reconciliation explains differences between total net change in fund balances as reflected on the governmental funds' Statement of Revenues, Expenditures, and Changes in Fund Balances and the change in net position for governmental activities as shown on the government-wide Statement of Activities.

The reconciling differences are a result of the governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting, while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

III. DETAILED NOTES TO ALL FUNDS

A. NONFIDUCIARY DEPOSITS AND INVESTMENTS

1. DEPOSIT AND INVESTMENT POLICIES

The County maintains an investment policy, the overall objectives of which are the preservation of capital and the protection of investment principal; maintenance of sufficient liquidity to meet operating requirements; conformance with Federal, State, and other legal requirements; diversification to avoid incurring unreasonable risks regarding specific security types or individual financial institutions; and attainment of a market rate of return. Oversight of investment activity is the responsibility of the County's Investment Committee, which is comprised of the County's Chief Financial Officer and certain key County management and investment staff.

It is the County's policy to pool for investing purposes all available funds of the County and its component units that aren't otherwise required to be kept separate. The County's investment policy, therefore, applies to the activities of the County's reporting entity, including FCPS, with regard to investing the financial assets of its pooled investment funds.

The County is a participant in the Virginia Investment Pool Trust Fund (VIP Trust). VIP Trust is a Section 115 governmental trust fund created under the Joint Exercise of Powers statute of the Commonwealth of Virginia to provide political subdivisions with an investment vehicle to pool surplus funds and to invest such funds into one or more investment portfolios under the direction and daily supervision of a professional fund manager. The VIP Trust is governed by a Board of Trustees.

The County is also a participant in the Virginia State Non-Arbitrage Program (SNAP), sponsored by the Virginia Treasury Board. The SNAP Program provides comprehensive investment management, accounting, and arbitrage calculation services for the proceeds of tax-exempt financings of Virginia governments. The Treasury Board has hired a program/investment manager, rebate calculation agent, central depository, custodian bank, and legal counsel to manage the program and provide services to investors.

The Code of Virginia authorizes the purchase of the following types of investments:

- Commercial paper
- US Treasury, agency securities and US Treasury strips
- Certificates of deposit and bank notes
- Insured Deposits
- Demand Deposit Accounts
- Money market funds
- Bankers' acceptances
- Repurchase agreements
- Medium term corporate notes
- Local Government Investment Pool
- Asset-backed securities
- Hedged debt obligations of sovereign governments
- Securities lending programs
- Obligations of the Asian Development Bank, African Development Bank, International Bank for Reconstruction and Development
- Obligations of the State and its instrumentalities; counties, cities, towns, and other public bodies located within the State; and state and local government units located within other states
- Savings accounts or time deposits in any bank or savings institution within the State that complies with the Code
- Qualified investment pools

However, the County's investment policy precludes the investment of pooled funds in derivative securities, reverse repurchase agreements, security lending programs, asset-backed securities, hedged debt, obligations of sovereign governments, obligations of the State and its instrumentalities, obligations of counties, cities, towns, and other public bodies located within the State and obligations of state and local government units located within other states.

The Code also authorizes the County to purchase other investments for its pension trust funds and OPEB trust funds, including common and preferred stocks and corporate bonds that meet the standard of judgment and care set forth in the Code. The pension trust funds' Boards of Trustees' investment policies permit these funds to lend their securities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future.

2. FAIR VALUE MEASUREMENT

The County's pooled investments are reported at fair value, except for money market funds and investments that have a remaining maturity at the time of purchase of one year or less. These are carried at amortized cost, which approximates fair value. The fair value of all investments is determined annually and is based on current market prices.

The County categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the source and type of information used to determine the fair value of the asset. The hierarchy gives the highest level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest level to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Information is unadjusted quoted prices for identical instruments in active markets that the County has the ability to access.
- Level 2 Information is quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, quoted prices that are observable, either directly or indirectly from a source other than an active market.
- Level 3 Includes unobservable information to arrive at the valuation.

3. INTEREST RATE RISK

The County's policy is to minimize the risk that the fair value of securities in its portfolio will fall due to changes in market interest rates. To achieve this minimization of risk, the County structures the pooled investment portfolio so that sufficient securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Pooled investments that are purchased to meet liquidity needs shall have a target weighted average maturity of 90 days or less. All other pooled funds are invested primarily in shorter-term securities, with a maximum maturity of five years.

As of June 30, 2025, the pooled investments allocated to the County's component units, of which FCPS is designated a majority share, is presented below:

Investment Type	Fair Value	Weighted Average Maturity (Days)
US Treasury Securities and Agencies	\$ 321,262,193	3,632
Commercial Paper	43,873,968	127
Corporate Notes	122,584,555	599
Money Market Funds	121,025,022	1
Negotiable Certificates of Deposit	229,710,180	177
VA Investment Pool LGIP	65,689,556	38
VIP - Virginia Investment Pool	14,546,713	42
Total	<u>\$ 918,692,187</u>	
Portfolio weighted average maturity		1,404

4. CREDIT RISK

The County’s policy is to minimize the risk of loss due to the failure of an issuer or other counterparty to an investment to fulfill its obligations. The County pre-qualifies financial institutions, broker-dealers, intermediaries, and advisors with which the County does business. In addition, the County limits its pooled investments to the safest types of securities and diversifies its pooled investment portfolio so that potential losses on individual securities will be minimized. Also, new investments shall not be made in securities that are listed on Moody's Investors Service, Inc. (Moody's) Watchlist or Standard and Poor's, Inc. (S&P) Credit Watch with a negative short-term rating. County policy specifies the following acceptable credit ratings for specific types of investments in the pooled portfolio:

- U.S. government agency and GSE instruments should have a rating of least Prime-1 by Moody's and A-1 by S&P. In those instances when a GSE does not have a rating, a thorough credit and financial analysis will be conducted by County investment staff.
- Prime quality commercial paper must be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch Investor's Services, Inc. (Fitch), F-1; or by Duff and Phelps, Inc., D-1.
- Mutual funds must have a rating of AAA or better by S&P, Moody's, or another nationally recognized rating agency.
- Negotiable certificates of deposit must have a rating of at least A-1 by S&P and P-1 by Moody's if less than one year, and a rating of AA by S&P if more than one year.
- Bankers' acceptances must be rated by at least two of the following: Moody's, with a rating of P-1; S&P, A-1; Fitch, F-1; or by Duff and Phelps, Inc., D-1.
- Corporate notes must have a rating of at least Aa by Moody's and a rating of at least AA by S&P.
- Local government investment pool (LGIP) bond funds must have a rating of AAA by S&P, and AA+ by S&P for VIP Stable NAV Liquidity Pool.
- Supranationals must have a rating of AAA by S&P or Moody's.

As of June 30, 2025, the County had investments in the following issuers with credit quality ratings as a percent of total investments in debt securities:

Credit Quality Rating *			
AA	A-1	AAA-m	Unrated
Corporate Notes	Commercial Paper	Money Market Funds	Demand Deposit Accounts
11.9%	4.3%	2.8%	8.7%
		LGIP	
		7.8%	
US Treasury and Agencies**	Negotiable CD	Bond Funds	Collateralized CDs
31.4%	22.4%	7.5%	3.2%
43.3%	26.7%	18.1%	11.9%

* Credit quality ratings are determined using S&P's short-term and long-term ratings, which approximates the greatest degree of risk as of June 30, 2025.

** U.S. Treasury and Agencies AA+

5. CONCENTRATION OF CREDIT RISK

The County's investment policy sets the following limits for the types of securities held in its pooled investment portfolio:

US Treasury securities and agencies	100%	maximum
Negotiable certificates of deposit	40%	maximum
Banker's acceptances	35%	maximum
Commercial paper	35%	maximum
Repurchase agreements	30%	maximum
Mutual funds	30%	maximum
Virginia investment pool - daily liquidity	30%	maximum
Corporate notes	25%	maximum
Non-negotiable certificates of deposit	25%	maximum
Virginia investment pool - LGIP bond fund	25%	maximum
Insured certificates of deposit	15%	maximum
Bank demand deposit	10%	maximum
Supranationals	10%	maximum

In addition, not more than five percent of the total pooled funds available for investment at the time of purchase may be invested in any one issuing or guaranteeing corporation for commercial paper, corporate notes, and negotiable certificate of deposits. The County shall seek to maintain five percent of the investment portfolio in a combination of mutual funds, demand deposit accounts, or open repurchase agreements to meet liquidity requirements.

6. CUSTODIAL CREDIT RISK

For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the County may not recover its deposits. In accordance with the Virginia Security for Public Deposits Act (the Act), all of the County's deposits are covered by federal depository insurance or collateralized, which provides for the pooling of collateral pledged by financial institutions with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for one public depositor, and public depositors are prohibited from holding collateral in their name as security for deposits. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover a loss, additional amounts are assessed on a pro rata basis to the members of the pool. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by participating financial institutions. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance; therefore, funds deposited in accordance with the requirements of the Act are considered to be fully insured.

For investments, custodial credit risk is the risk that, in the event of the failure of a counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Per County policy, all of the investments purchased by the County are insured or registered or are securities held by the County or its agent in the County's name.

B. FIDUCIARY INVESTMENTS

1. ERFC

Fair Value Measurements

ERFC categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Information is unadjusted quoted prices for identical instruments in active markets.
- Level 2 Information is quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and model-derived valuations in which all significant inputs are observable.
- Level 3 Includes unobservable information to arrive at the valuation.

Investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. ERFC's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

Short-term securities are reported at fair value when published market prices and quotations are available, or at cost plus accrued interest, which approximates market or fair value.

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique or a bid evaluation.

Debt securities classified in Level 3 of the fair value hierarchy are valued by a third party.

Matrix pricing is used to value securities based on the securities relationship to benchmark quoted prices. Bid evaluations may include reported trades, broker/dealer quotes, issuer spreads, two-sided markets, bids, offers, and reference data including market research publications.

- Commingled Large Cap Equity Funds - The objective of these index funds is to invest in securities and collective funds that together are designed to track the performance of the Russell 1000®.
- Commingled Global Equity Funds - These funds are both actively and passively managed, multi-capitalization funds focused on attractively priced companies with strong and/or improving financial productivity. The funds invest in listed global equity securities located in both developed and emerging markets.
- Commingled Emerging Markets Equity Fund - The fund invests in common stocks and other forms of equity investments issued by emerging market companies of all sizes to obtain long-term capital appreciation.
- Commingled Core Plus Bond Funds - These funds are actively managed investment vehicles that aim to deliver strong total returns by investing in a diversified portfolio of U.S. investment-grade bonds. They focus on intermediate and long term high quality bonds and provide broad exposure across all sectors of the U.S. investment grade market including securities not included in the benchmark. The strategy emphasizes selecting bonds with attractive valuations in countries that have stable or improving economic conditions. The objective is to generate strong, risk adjusted returns from the global bond markets.
- Private Equity and Debt Partnerships - This type includes investments in limited partnerships, which generally include the following strategies: buyouts, venture capital, mezzanine, distressed debt, growth equity and special situations. These investments have an approximate life of 10 years and are considered illiquid. Redemptions are restricted over the life of the partnership. During the life of the partnerships, distributions are received as underlying partnership investments are realized. As of June 30, 2025, it is probable that all of the investments in this type will be sold at an amount different from the NAV per share of the plan's ownership interest in partners' capital.
- Infrastructure - This type invests in assets which provide essential services or facilities to a community such as schools, hospitals, transportation, distribution, communication, power generation, water and waste management. These investments can include limited partnerships and commingled funds and are considered illiquid. The investment seeks to provide long-term risk-adjusted returns, a stable income stream and inflation protection.
- Natural Resources - This type includes earth related extractions in four distinct sub-sector categories: energy, mining, agriculture-timber and sustainability. Opportunities in energy are traditional oil and gas activities across the value chain. Mining is the exploration and extraction of metals and minerals through surface or underground. Agriculture and timber are opportunities in ownership of regenerating assets, and investments in companies through-out the value chain. Sustainability is opportunities related to sectors with strong tailwinds from government climate policy, industry commitments, and consumer preferences to mitigate the effects of climate change.

- **Commingled Multi-Asset Class Solutions** - These funds typically have an unconstrained, non-benchmark oriented investment approach with investments across various asset classes. It may invest in, but are not limited to, equities, fixed income, inflation-linked bonds, currencies and commodities. The objective is to provide attractive returns in any type of economic environments.
- **Commingled Real Estate Equity Funds** - This type of fund provides diversified exposure to a core portfolio of U.S. real estate investments across different sectors. The investment primarily focused on income with some value- add properties seeking higher returns from potential appreciation.
- **Private Real Estate** - This type of fund is a limited partnership that makes direct or secondary investments in various types of real estate and real estate related entities, such as commingled real estate funds, limited partnerships, joint ventures, real estate operating companies and non-traded REIT vehicles.
- **Hedge Funds - Opportunistic** - This is an alternative type of strategy with a typical return objective of cash plus a premium. It invests across different asset classes.

Investments measured at fair value as well as NAV for ERFC are presented in the following tables.

INVESTMENTS MEASURED BY FAIR VALUE HIERARCHY LEVEL				
	Fair Value Measures Using			
	June 30, 2025	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs

TOTAL INVESTMENTS AND SHORT-TERM SECURITIES	\$ 3,416,120,089			

Investments

The authority to establish pension funds is set forth in Sections 51.1-800 of the Code, which provides that the County may purchase investments for pension funds (including common and preferred stocks and corporate bonds) that meet the standard of judgment and care set forth in Section 51.1-124 of the Code. ERFC does not have investments (other than U.S. government and U.S. government guaranteed obligations) in any one organization that represents five percent or more of net position restricted for pensions.

Investment Policy

ERFC's investment policy is established by the Board of Trustees (ERFC Board) based on information and/or recommendations provided by ERFC's investment consultant and ERFC staff. The policy may be amended as necessary by the ERFC Board and is reviewed at least annually. There were no significant investment policy changes during the fiscal year. ERFC's asset structure is enumerated in the investment policy and reflects a proper balance of ERFC's needs for liquidity, growth of assets and the risk tolerance of the ERFC Board. The target asset mix, consistent with the achievement of the long-term objective of ERFC is as follows:

Security Class	Strategic Targets as of June 30, 2025
Domestic Equity (Large Cap)	13.0 %
Domestic Equity (Small Cap)	6.0
International Equity (Large Cap)	7.0
International Equity (Small Cap)	3.0
Emerging Market Equity	3.0
Global Equity	3.0
U.S. Core Fixed Income	37.0
MACS	2.0
Hedge Funds Opportunistic	-
Infrastructure	3.0
Real Estate	7.0
Private Equity	7.0
Private Debt	4.0
Natural Resources	5.0
TOTAL	100.0 %

Rate of Return

For the year ended June 30, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 8.51 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Derivative Financial Instruments

As permitted by the Code, ERFC invests in derivative instruments on a limited basis in accordance with the ERFC Board's investment policy. Investment in derivatives allows ERFC to increase earnings and/or hedge against potential losses. The risks associated with derivative instruments include market risk resulting from fluctuations in interest and currency rates, the credit worthiness of counter parties to any contracts entered into, and the credit worthiness of mortgages related to collateralized mortgage obligations (CMOs). Specific authorization by the ERFC Board is required should investment managers seek to purchase securities on margin or leverage. During fiscal year 2025, ERFC's fair value of CMOs was \$2,005,107 and the fair value of futures was \$159,281,974.

Securities Lending

The ERFC Board's policy permits the fund to participate in a securities lending program. This program is administered by ERFC's custodian. Certain securities are loaned to approved broker/dealers who borrow the securities and provide collateral in the form of cash, US Treasury or Government Agency Securities, letters of credit issued by approved banks, or other securities of a quality specified in the securities lending agreement. Collateral must be provided in the amount of 102 percent of the fair value for domestic securities and 105 percent for international securities. ERFC did not impose any restrictions during the period on the number of loans the custodian made on its behalf. The custodian provides for full indemnification to ERFC for any losses that might occur in the program due to the failure of a broker/dealer to return the borrowed security or a failure to pay ERFC for income of the securities while on loan. The fair value of collateral is monitored daily by the custodian.

Cash collateral is invested in a fund maintained by the custodian or its affiliate. Per stated custodian policy, the maximum weighted average maturity is 60 days. Investment income from the securities lending program is shared 75/25 by ERFC and the custodian, respectively. At year-end, ERFC had no overall credit risk exposure to borrowers because the amounts ERFC owed the borrowers exceeded the amounts the borrowers owed ERFC.

Cash received as collateral and related liability of \$119,201,065 as of June 30, 2025, are shown on the Statement of Fiduciary Net Position. As of June 30, 2025 the fair value of securities on loan for cash collateral was \$116,358,563. Securities received as collateral are not reported as assets and liabilities since ERFC does not have the ability to pledge or sell the collateral securities absent borrower default.

On June 30, 2025, the array of securities ERFC had on loan for cash and non-cash collateral took this form:

Securities	Fair Value	Cash Collateral
Domestic Corporate Bonds	\$ 54,797,240	\$ 56,207,007
International Bonds	3,589,715	3,766,477
Domestic Stock	55,030,138	56,223,831
International Stock	-	-
US Government Securities	2,941,470	3,003,750
TOTAL	\$ 116,358,563	\$ 119,201,065

Interest Rate Risk

ERFC's fixed income managers use the effective duration method to control interest rate risk. Regarding maturity, ERFC does not place limits on these fixed income managers. However, it does expect the average duration to be within 30 percent of their respective benchmarks. One of the managers is expected to be within 50 percent of the Bloomberg Barclays Capital Government/Credit Index.

As of June 30, 2025, ERFC had the following fixed income investments, none of which are highly sensitive to changes in interest rates:

Investment Category	Amount	Effective Duration*	Percentage of Fixed
Asset and Mortgage Backed	\$ 228,672,358	1.89	25.1 %
Corporate Bonds	394,136,423	5.43	43.3
International Bonds	24,123,063	0.93	2.6
Convertible Securities	3,388,211	0.01	0.4
US Government	260,967,495	2.92	28.6
TOTAL	\$ 911,287,550	11.18	100.0 %

* Weighted duration in years

Short-Term Investment Funds	\$ 59,387,722	-	
TOTAL SHORT-TERM	\$ 59,387,722	-	

Credit Risk

ERFC's policy on credit quality states that the average credit quality of the portfolio must have a rate of A or better. Up to 20 percent of the portfolio may be invested in below investment grade (that is, Moody's Baa or Standard & Poor's BBB ratings). If a security has a split rating, the lower rating will be considered in meeting the minimum quality standard. One of ERFC's fixed income managers may invest up to 35 percent in below investment grade securities. For this manager, if a security has a split rating, the higher rating shall be considered.

The Credit Quality Summary below lists the ratings of all of ERFC's fixed income investments as of June 30, 2025, excluding pooled funds, according to Moody's Investment Services and Standard & Poor's.

Investment Type	Amount	Rating	Percent of Fixed
Asset and Mortgage Backed	\$ 47,829,096	AAA	7.5 %
	109,276,629	AA	16.8
	19,929,673	A	3.1

	4,064,419	AA	0.6
	10,368,964	BBB	1.6
	8,879,552	BB	1.4
TOTAL	\$ 650,320,055		100.0 %

Concentration of Credit Risk

ERFC's policy limits the securities of any one issuer to 10 percent at cost and 15 percent at market of each fixed income portfolio. The policy allows an exception for government securities and its agencies. At June 30, 2025, ERFC had four active fixed income managers. The portfolios had values of \$243.4 million, \$232.4 million, \$326.4 million and \$197.9 million. The fair value of the largest issue other than the US Government in the portfolios of the active managers, excluding pooled funds, was 1.33 percent of that portfolio.

Deposits

At June 30, 2025, short-term investments with the custodial bank totaled \$59,387,722. These investments consist of U.S. Treasury bills, are collateralized with securities held by the agent in ERFC's name or are in a short-term investment pool.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, ERFC's funds will be lost. However, ERFC's investments and deposits are not exposed to custodial credit risk since they are held by the agent in ERFC's name. Other investments such as mutual funds, a short-term investment pool, and a cash collateral investment pool which invests cash collateral for securities on loan, are not exposed to custodial risk due to their non-physical form. As such, ERFC does not have a custodial credit risk policy.

The mix of investments held by the custodian on June 30, 2025, was as follows:

Investment Type	Fair Value
Stocks	\$ 191,503,176
Bonds and mortgage securities	650,320,055
US Government obligations	260,967,495
Real estate	291,587,674
Multi asset class solutions (MACS)	69,848,848
Hedge funds - opportunistic	285,582,462
Private equity	347,488,368
Private debt	106,358,603
Infrastructure	78,724,684
Natural Resources	58,921,801
Commingled fixed income funds	73,972,062
Commingled equity funds	941,457,139
Subtotal Investments	3,356,732,367
Cash collateral for securities on loan	119,201,065
TOTAL	\$ 3,475,933,432

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. ERFC's currency risk exposures primarily exist in the international equity and active fixed income holdings. At the present time, there are no specific foreign currency guidelines for equities or active fixed income investments; however, equity and fixed income managers are all measured against specific performance standards and risk guidelines identified in ERFC's investment policy.

The following chart provides a summary of ERFC's fair value of foreign currency risk as of June 30, 2025:

Currency	Cash & Cash Equivalents	Equities	Fixed Income Securities	Private Markets	Grand Total
BRAZIL REAL	\$ 136,111	\$ -	\$ 2,445,569	\$ -	\$ 2,581,680

TOTAL FAIR VALUE	\$ 507,755	\$ 875	\$ 24,123,063	\$ 32,728,757	\$ 57,360,450

2. SCHOOL OPEB TRUST FUND

Deposit and Investment Policies

The authority to establish a trust fund for the purpose of accumulating and investing other postemployment benefits is set forth in Section 15.2-1544 of the Code, which provides for the purchase of investments that meet the standard of judgment and care set forth in Section 51.1-803 of the Code.

FCPS invests the School OPEB Trust Fund's assets with the Virginia Pooled OPEB Trust Fund (Pooled Trust) sponsored by the Virginia Municipal League and the Virginia Association of Counties (VML/VACo). The Pooled Trust is an investment pooling vehicle created to allow participating local governments, school divisions, and authorities in the State to accumulate and invest assets to fund other postemployment benefits. Funds of participating jurisdictions are pooled and invested in the name of the Pooled Trust. FCPS' respective shares in the Pooled Trust are reported in the School OPEB Trust Fund's financial statements. Investment decisions are made by the OPEB Board of Trustees (OPEB Board) of the Pooled Trust.

The OPEB Board adopted an investment policy to establish investment objectives, risk tolerance levels, and asset allocation parameters. The investment objective is to maximize the total long-term rate of return with reasonable risk by seeking capital appreciation and income, and secondarily, principal protection. The Pooled Trust is segregated and managed as two distinct portfolios that are referred to as Portfolio I and Portfolio II. Portfolio I is structured to achieve a compound annualized total expected rate of return over a market cycle, including current income and capital appreciation, of 7.5 percent. Portfolio II is structured to achieve an expected rate of return of 6.0 percent. The investment performance of each Portfolio is reviewed quarterly and compared on a rolling three year basis and over other relevant time periods to the following: (a) a composite benchmark comprised of each asset classes' market index benchmark, weighted by each Portfolio's long-term policy allocations, and (b) a peer group of other similar size long-term diversified funds.

The Pooled Trust's assets are separately managed by professional investment managers or invested in professionally managed investment vehicles. Each Portfolio is invested in a broadly diversified manner by asset class, style and capitalization, which control volatility levels.

The asset allocation policies for the Portfolios are outlined in the table below:

	Portfolio I		Portfolio II	
	Target Percentages		Target Percentages	
	of Total Assets	Allocation Range	of Total Assets	Allocation Range
Total Equity	65%	0% - 26%	40%	0% - 21%
Total Fixed Income	20%	0% - 16%	50%	0% - 43%
Total Real Assets	15%	0% - 15%	10%	5% - 15%
Cash	0%	0% - 10%	0%	0% - 10%

The Pooled Trust and each Portfolio is monitored on a continual basis for consistency in investment philosophy, return relative to objectives, and investment risk as measured by asset concentrations, exposure to extreme economic conditions, and market volatility. Each Portfolio is reviewed by the Trustees on a regular basis, but results are evaluated over longer time periods. The OPEB Board regularly review each manager in order to confirm that the factors underlying the performance expectations remain in place.

The OPEB Board meets a minimum of four times a year to review quarterly performance and asset allocation. The investment policy is reviewed and updated annually, or otherwise as deemed appropriate and necessary by the OPEB Board.

Fair Value Measurement

The Pooled Trust categorizes its fair value measurements within the fair value hierarchy established by GAAP.

Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy. The Pooled Trust measures certain qualifying investments at the NAV to estimate fair value unless it is probable that the Pooled Trust will sell its interest at an amount different than the NAV. Short-term highly liquid investments classified as cash equivalents that are measured and reported at amortized cost are not classified in the fair value hierarchy.

On June 30, 2025, the School OPEB Trust Fund's share in the Pooled Trust was \$262,527,810 as reported on Exhibit U.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The Pooled Trust's investment policy establishes certain restrictions on investments and limitations on portfolio composition. The limitations include an asset allocation policy that is structured in a manner which prevents investing more than five percent of the total investments in any single issuer.

More extensive information about the Pooled Trust, including the classification of individual investments and related risks, can be obtained by writing to VML/VACo Finance, 8 East Canal Street, Richmond, Virginia 23219.

C. DUE FROM INTERGOVERNMENTAL UNITS

Amounts due from Federal government are attributed primarily to the Individuals with Disabilities Education Act (IDEA) grant in the General Fund; and Title I/II/III and National School Lunch Program grants in the nonmajor governmental funds. IDEA is designed to ensure that all school-age handicapped children are provided a free, appropriate public education. Title I/II programs enhance the instruction for disadvantaged children. Title III program improves education of limited English proficient children. National School Lunch Program makes lunch available to school children and encourages consumption of domestic nutritious agricultural commodities.

A significant portion of the receivable from the State is attributed to State sales taxes due to FCPS. The Virginia Retail Sales and Use Tax Act require one and one-eighth cent of every five cents collected in State sales tax to be distributed to school divisions based on school-age population.

FCPS provides special education services for eligible students, including those who reside outside of FCPS' school boundaries. These services are provided on a fee-based system. The receivables from other jurisdictions are related to outstanding invoices for services provided to other localities within the Washington Metropolitan area as well as those from out-of-state public school systems. The receivable from the County represents funds owed to FCPS primarily for custodial services and school use.

Amounts due from governments as of June 30, 2025, were as follows:

Fund	Federal Government	Commonwealth of Virginia	County	Other Jurisdictions	Total
General Fund	\$ 8,703,664	\$ 21,743,556	\$ 100,606	\$ 10,820,629	\$ 41,368,455
Food and Nutrition Fund	7,927,112	10,428	109,844	-	8,047,384
Grants and Self-Supporting Programs Fund	18,983,964	838,223	9,750	-	19,831,937
Adult and Community Education	692,125	-	-	-	692,125
Total	\$ 36,306,865	\$ 22,592,207	\$ 220,200	\$ 10,820,629	\$ 69,939,901

D. INTERFUND TRANSFERS

The primary purpose for interfund transfers is to provide funding for summer school, PreK, Early Head Start operations, and capital projects. The breakdown of interfund transfers for the fiscal year ended June 30, 2025 was as follows:

Fund	Transfers In	Transfers Out
General Fund	\$ -	\$ 46,297,560
Capital Projects Fund	22,048,097	-
Grants and Self-Supporting Fund	22,853,213	-

Depreciation and amortization was charged to governmental programs during fiscal year 2025 as shown:

Governmental Activities	Depreciation and Amortization Expense
Instruction:	
Regular education:	
Elementary school	\$ 65,197,142
Middle school	17,536,382
High school	40,281,590
Special education	41,388,465
Adult and community education	390,662
Instructional support	16,386,099
Support programs:	
Administration and general support	11,003,646
Student transportation	10,092,101
Facilities management	8,985,225
Food service	5,773,116
Depreciation on capital assets held by FCPS' internal service funds is charged to the various functions based on asset usage	127,479
Total	<u>\$ 217,161,907</u>

F. LONG-TERM OBLIGATIONS

Internal service funds long-term obligations are included as part of government activities because these funds generally serve the governmental funds. Net pension liability, net OPEB liability, compensated absences, notes payable, lease liability and subscription liability are generally liquidated from the General Fund. Actuarial claims payable are liquidated in the internal service funds.

The County issues general obligation debt for FCPS and carries this debt on their books. However, FCPS is responsible for the outstanding obligations indicated below.

The table below summarizes the changes in the long-term obligations of FCPS for the year ended June 30, 2025:

Governmental Activities	Balance			Balance June 30, 2025	Due within One Year	Due Beyond One Year
	July 01, 2024	Additions	Reductions			
Compensated absences	\$ 230,054,269 a	\$ 7,759,520	\$ (1,254,486)	\$ 236,559,303	\$ 176,553,768	\$ 60,005,535

Net OPEB liability	336,242,963 b	353,746,895	(400,428,261)	289,561,597	-	289,561,597
Total	<u>\$ 4,316,729,040</u>	<u>\$ 817,418,130</u>	<u>\$ (962,422,538)</u>	<u>\$ 4,171,724,632</u>	<u>\$ 257,610,664</u>	<u>\$ 3,914,113,968</u>

a. Fiscal year 2025 beginning balance is restated due to the implementation of GASB Statement No. 101, *Compensated Absences*. Prior year ending balance of \$46,025,620 was restated to \$230,054,269 (Note I.Q.).

b. Fiscal year 2025 beginning balance is restated due to a change in OPEB measurement date. Prior year ending balance of \$307,328,068 was restated to \$336,242,963 (Note I.L).

c. Financed purchase agreements of \$14,670,060 include lease liability for laptops, buses, and Gatehouse Administrative building. FCPS does not have authority to issue debt, please see notes payable section.

d. Subscription additions of \$4,894,321 include new subscriptions of \$4,811,405 for Governmental funds, \$69,048 for interest accretion from prepaid subscriptions, and \$13,868 subscription asset due to additional user for oragami system which is recorded in the Insurance fund.

1. NOTES PAYABLE

Leases for laptops, buses and Gatehouse Administrative Building are recognized as financed-purchase leases because ownership of the underlying assets will automatically be transferred to FCPS at the end of the lease term and the lease contracts do not contain any termination options. Therefore, the lease liability for laptops, buses and Gatehouse Administrative Building are recorded as notes payable.

FCPS does not issue debt. Issuance of bonds and debts that is repaid by taxpayers is only issued by the County on behalf of FCPS.

The future minimum obligations and the net present value of these minimum payments as of June 30, 2025, are as follows:

Principal and Interest Requirements to Maturity				
Fiscal Year	Governmental Activities			Total Payments
	Principal Payments	Interest Payments		
2026	\$ 19,148,238	\$ 2,565,302	\$	21,713,540
2027	18,870,221	1,897,177		20,767,398
2028	17,180,526	1,214,273		18,394,799
2029	7,398,670	603,374		8,002,044
2030	6,119,745	386,522		6,506,267
2031-2035	15,255,000	601,185		15,856,185
	<u>\$ 83,972,400</u>	<u>\$ 7,267,833</u>	<u>\$</u>	<u>91,240,233</u>

2. DEBT SERVICE RESPONSIBILITY

The Code prohibits FCPS from having borrowing or taxing authority. The County issues and services general obligation debt to finance the purchase or construction of school facilities. The debt is not secured by the assets purchased or constructed by FCPS, but by the full faith and credit and taxing authority of the County. Since FCPS is not obligated to repay principal or interest on any general obligation debt incurred on FCPS' behalf, the debt is recorded in the County's government-wide financial statements.

G. LEASES

1. Right-to-Use Leases as Lessee

Lease Liability

As of June 30, 2025, FCPS has entered into 96 leases as Lessee for the use of Ricoh copiers, the lease terms range from 25 to 60 months. An initial lease liability was recorded in the amount ranging from \$2,531 to \$5,913,710. FCPS is required to make annual fixed payments ranging from \$121 to \$1,614,202. Leases have interest rate ranging from 5.58% to 9.46%. The copiers' estimated useful life was 60 months as of the contract commencement.

As of June 30, 2025, FCPS has entered into 11 leases as Lessee for real estate, the lease term ranges from 60 months to 157 months. An initial lease liability was recorded in the amount ranging from \$30,091 to \$28,065,170. FCPS is required to make monthly fixed payments ranging from \$4,005 to \$350,607. Leases have interest rate ranging from 0.893% to 3.50%. The buildings' estimated useful life was 240 months as of the contract commencement, while the parking lot's estimated useful life was 120 months.

These right-to-use leases are recorded at the present value of their future minimum lease payments as of the inception date and expire at various times through fiscal year 2036.

Principal and Interest Requirements to Maturity			
Governmental Activities			
Fiscal Year	Principal Payments	Interest Payments	Total Payments
2026	\$ 12,062,992	\$ 1,934,819	\$ 13,997,811
2027	11,849,184	1,389,108	13,238,292
2028	10,951,474	855,636	11,807,110
2029	7,683,570	443,829	8,127,399
2030	2,766,892	307,594	3,074,486
2031-2035	8,704,109	722,341	9,426,450
2036	576,601	5,904	582,505
	<u>\$ 54,594,822</u>	<u>\$ 5,659,231</u>	<u>\$ 60,254,053</u>

2. Lease Receivable as Lessor

As of June 30, 2025, FCPS has entered into leases as Lessor for the use of cell towers in different school locations with multiple carriers. The leases have terms ranging from 31 to 180 months and provide for renewal options ranging from one to five years. An initial lease receivable was recorded in the amount ranging from \$10,640 to \$754,635. As of June 30, 2025, the value of the lease receivable ranged from \$450 to \$741,395. The lessee was required to make monthly fixed payments ranging from \$200 to \$21,875. The leases have interest rates ranging from 0.457% to 3.34%. The Land Improvement’s estimated useful life was 180 months as of the contract commencement. The value of the deferred inflow of resources as of June 30, 2025 ranges from \$364 to \$737,166, and FCPS recognized lease revenue of \$865,221 in total during the fiscal year 2025.

On November 1, 2024, FCPS has entered into leases as sublessor for the use of an industrial building located at 619-623 South Pickett Street, Alexandria, VA. The sublease has terms of 31 months. An initial lease receivable was recorded in the amount of \$1,275,275. As of June 30, 2025, the value of the lease receivable is \$944,124. The lessee is required to make monthly fixed payments \$42,485. The sublease has interest rate of 2.321%. The value of the deferred inflow of resources as of June 30 2025 was \$942,129, and FCPS recognized lease revenue of \$346,449 in fiscal year 2025.

The table of principal and interest expected to maturity is disclosed below:

Principal and Interest Expected to Maturity			
Governmental Activities			
Fiscal Year	Principal Payments	Interest Payments	Total Payments
2026	\$ 881,715	\$ 63,445	\$ 945,160
2027	827,853	42,751	870,604
2028	216,880	29,576	246,456
2029	174,666	24,572	199,238
2030	94,509	20,369	114,878
2031-2035	250,978	75,852	326,830
2036-2040	319,210	26,091	345,301
	<u>\$ 2,765,811</u>	<u>\$ 282,656</u>	<u>\$ 3,048,467</u>

The table of deferred Inflows of resources is disclosed below:

	Balance as of July 1, 2024	Additions	Reductions	Balance as of June 30, 2025

FNS warehouse sublease-AMI	-	638,938	168,931	470,007
FNS warehouse sublease-ALIVE	-	636,337	164,218	472,119
Total Deferred Inflow of Resources	\$ 1,169,400	\$ 2,679,130	\$ 1,139,792	\$ 2,708,738

H. Subscription-Based Information Technology Arrangements

GAAP requires a single model for subscription accounting based on the principle that subscriptions are financings of the right to use an underlying asset. Under this statement, an organization is required to recognize a subscription liability and an intangible right-to-use subscription asset.

As of June 30, 2025, FCPS has 44 active subscriptions. The initial subscription liability was recorded in amounts ranging from \$102,203 to \$9,644,047. FCPS is required to make annual fixed payments ranging from \$83,603 to \$2,533,759. Subscriptions have interest rates ranging from 2.04 % to 3.16%, and the subscription contract terms range from 14 to 124 months.

Principal and Interest Requirements to Maturity				
Governmental Activities				
Fiscal Year	Principal Payments	Interest Payments	Total Payments	
2026	\$ 9,089,766	\$ 1,123,557	\$ 10,213,323	
2027	8,058,781	889,137	8,947,918	
2028	7,402,556	682,683	8,085,239	
2029	3,966,928	394,546	4,361,474	
2030	4,830,804	391,665	5,222,469	
2031-2034	9,587,262	582,974	10,170,236	
	<u>\$ 42,936,097</u>	<u>\$ 4,064,562</u>	<u>\$ 47,000,659</u>	

I. CONSTRUCTION COMMITMENTS

On June 30, 2025, FCPS had contractual commitments of \$296,871,609 in the Capital Projects Fund for the construction of various projects.

J. FUND BALANCE

Governmental fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the School Board is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The two major types of fund balances are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent as they are not expected to be converted to cash or they are legally or contractually required to remain intact. This classification includes prepaid items and inventories.

In addition to nonspendable fund balance, FCPS classifies spendable fund balances based on the following hierarchy of spending constraints:

- **Restricted:** Fund balances that are constrained by external parties, constitutional provisions or enabling legislation.
- **Committed:** Fund balances that include amounts that can be used only for the specific purposes determined by a formal action of FCPS' highest level of decision-making authority, the School Board. Fund balances also incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- **Assigned:** Fund balances that are intended to be used by FCPS for specific purposes but do not meet the criteria to be classified as restricted or committed. The School Board makes assignments of fund balance.
- **Unassigned:** Fund balance of the General Fund that is not constrained for any particular purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, the unassigned classification is only used to report a deficit fund balance.

The School Board reviews and amends the budget on a quarterly basis. Commitment of fund balance is established and approved by the School Board at the final fiscal year end quarterly budget review. All subsequent changes to the budget plan to add, reduce, or redirect resources to other purposes are also accomplished by Board resolution. As a result, all unrestricted amounts directed toward a purpose are shown as committed. Balances shown as assigned in the General Fund represent encumbrances which would otherwise be unassigned. The General Fund is the only fund that reports a positive unassigned fund balance amount. FCPS considers restricted balances to be expended first in cases where both restricted and unrestricted amounts are available.

When utilizing unrestricted balances, committed balances are applied first, followed by assigned then unassigned balances. FCPS has classified fund balances based on the following hierarchy:

- **Nonspendable:** The nonspendable fund balance of \$1,077,501 includes prepaid items and inventories of \$249,725 and \$827,776, respectively, among all governmental funds.
- **Restricted:** The restricted fund balance of \$283,844,663 includes funds from Food and Nutrition Services, Grants and Self-Supporting Programs, and Capital Projects.
- **Committed:** The committed portion of the fund balance includes amounts that can be used for the specific purposes that was determined by School Board action prior to the end of the fiscal year. Amounts in the committed fund balance classification may be redeployed for other purposes with appropriate due process. When a budget appropriation lapses at year end, the commitment still exists because the commitment was made solely through the appropriation. The committed fund balance of \$36,736,741 includes flexibility reserve which is committed to meet unforeseen circumstances by the School Board and other appropriated items.

- Assigned: The assigned fund balance of \$365,063,296 includes various needs for the upcoming fiscal year 2027 budget. Primary components include \$173,330,213 for schools/projects carryover; \$72,346,146 outstanding encumbered obligations; \$30,000,000 for healthcare premium stabilization reserve; \$26,900,00 for special education teacher contracts; \$24,000,000 set-aside for fiscal year 2027 beginning balance; and \$23,316,165 for local school activities.
- Unassigned: The unassigned fund balance totals \$1,242,335, which will be utilized by the School Board during future budget development. This amount is comprised of \$1,266,444 from the General Fund and a deficit of (\$24,109) from the Adult and Community Education Fund.

IV. RETIREMENT PLANS

FCPS employees participate in ERFC, the FCERS, and the Virginia Retirement System (VRS) Teacher Retirement Plan. Information about these plans is provided as follows.

A. ERFC

Plan Description

ERFC is a legally separate, single-employer pension plan established under the Code to provide pension benefits to all full-time educational and administrative support employees who are employed by FCPS and who are not covered by another County plan. The plan contains two primary defined benefit structures, ERFC and ERFC 2001, and are both defined benefit structures. The original structure, ERFC, became effective July 1, 1973, and is coordinated with the benefits members expect to receive from VRS and Social Security. It remains in effect; however, it is closed to new members employed after June 30, 2001. A simplified plan of benefits was developed effective July 1, 2001 with an exclusive level lifetime benefit structure. Eligible newly hired full-time educational and administrative support employees were enrolled in ERFC 2001, hereinafter referred to as ERFC 2001 Tier 1. It was closed to new members employed after June 30, 2017.

On April 27, 2017, the School Board voted to modify the ERFC 2001 Tier 1 Plan effective July 1, 2017. ERFC 2001 Tier 2 Plan was developed for full-time educational and administrative employees hired on or after July 1, 2017. The retirement eligibility was raised, the period for calculating a member's final average salary was increased and the cost-of-living adjustment was changed to be based on the Consumer Price Index. For all members, the annual interest rate credited on member accounts was reduced.

Benefits Provided

Benefit provisions for ERFC and ERFC 2001 are established and may be amended by ERFC's Board of Trustees (ERFC Board) subject to approval by the School Board. All members are vested for benefits after five years of service. The ERFC benefit formula was revised effective July 1, 1988, following changes to VRS, which ERFC has historically supplemented. The benefit structure is designed to supplement VRS and Social Security benefits to provide a level retirement benefit throughout retirement. ERFC 2001 Tier 1 and Tier 2 have a stand-alone structure. Member contributions for ERFC and ERFC 2001 are made through an arrangement that results in a deferral of taxes on the contributions. Further details of member contributions may be found in Article III of the ERFC and ERFC 2001 Plan Documents.

ERFC and ERFC 2001 provide for a variety of benefit payment types. ERFC's payment types include Service Retirement, Reduced Service, Disability, Death-in-Service, and Deferred Retirement. ERFC 2001's payment types include Service Retirement, Death-in-Service, and Deferred Retirement. Minimum eligibility requirements for full service benefits for ERFC is either (a) age 65 with 5 years of service or (b) age 55 with 25 years of service. Minimum eligibility requirements for full service benefits for ERFC 2001 Tier 1 is either (a) age 60 with 5 years of service or (b) any age with 30 years of service. Minimum eligibility requirements for full service benefits from ERFC 2001 Tier 2 is either (a) age and service equal 90 (the rule of 90) or (b) full Social Security age with five years of service. Annual post-retirement cost-of-living (COLA) increases of 3 percent are effective each March 31 for ERFC and ERFC 2001 Tier 1 members. Participants in their first full year of retirement from ERFC and ERFC 2001 Tier 1 receive a 1.49 percent increase. Participants who retire on or after January 1 receive no COLA increase that first March. Under ERFC 2001 Tier 2, the first COLA will equal approximately half of the full COLA amount. Thereafter, the full COLA will equal 100 percent of the Consumer Price Index for all Urban Consumers (CPI-U) for the Washington, D.C., metropolitan area for the period ending in November of each year, capped at 4 percent. Additional detail regarding all benefit payment types can be found in the actuarial valuation and/or plan documents.

At December 31, 2024, the date of the most recent actuarial valuation, ERFC's membership consisted of:

Retirees and beneficiaries currently receiving benefits	14,427
Active DROP members	235
Terminated employees entitled to, but not yet receiving benefits	8,819
Active plan members	<u>23,381</u>
Total	<u><u>46,862</u></u>

Contributions

The contribution requirements for ERFC and ERFC 2001 members are established and may be amended by the ERFC Board with the approval of the School Board. The requirements are based upon a fundamental financial objective of having rates of contribution that remain relatively level from generation to generation of employees. To determine the appropriate employer contribution rates and to assess the extent to which the fundamental financial objective is being achieved, ERFC has actuarial valuations prepared annually. Members are required to contribute 3 percent of annual salary. The employer is required to contribute at an actuarially determined rate which was 6.48 percent for fiscal year 2025. Employer contributions to the pension plan were \$129,278,658 and \$121,645,811 for the years ended June 30, 2025 and June 30, 2024 respectively.

Actuarial funding valuations as of odd-numbered years are used to develop the appropriate employer contribution rate for the two-year period beginning 18 months after the valuation date. As such, the December 31, 2023 valuation were used to set the employer contribution rate of 6.48 percent for fiscal year 2025.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2025, ERFC's net pension liability was \$1,167,014,976 and was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2023 and rolled forward to June 30, 2024 measurement date. For the year ended June 30, 2025, FCPS recognized pension expense of \$321,249,725 and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 34,601,587	\$ (140,523,610)
Changes of assumptions	64,876,088	(5,702,047)
Net difference between projected and actual earnings on pension plan investments	266,513,541	(106,847,968)
Contributions subsequent to the measurement date	<u>129,278,658</u>	<u>-</u>
Total	<u><u>\$ 495,269,874</u></u>	<u><u>\$ (253,073,625)</u></u>

A total of \$129,278,658 reported as deferred outflows of resources related to pensions resulting from FCPS contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2025	\$	11,220,648
2026		115,410,873
2027		17,979,629
2028		(19,271,731)
2029		(12,421,828)
	\$	<u>112,917,591</u>

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of December 31, 2023, using the entry age actuarial cost method and rolled forward to the measurement date of June 30, 2024. Significant actuarial assumptions used in the valuation include:

Actuarial Assumptions	
Inflation	2.50%
Salary increases, including inflation	2.75% to 7.25%
Investment rate of return	7.00%

The mortality table used to measure retired life mortality was 102% of the male rates and 99% of the female rates of the PUB-2010 Teacher mortality table projected generationally with Scale MP-2020. The corresponding Disabled and Employee tables were used for disability and pre-retirement mortality, respectively.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined in conjunction with a formal study of experience in 2020. The amortization period for the assumption is set at 20 years, aligning with best actuarial practices. The investment consultant's inflation expectation is 2.4 percent.

The target asset mix and the best estimates of arithmetic real rates of return as of the measurement date are summarized in the table below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Large Cap Equity	11.0%	6.4%
Domestic Small Cap Equity	6.0%	7.3%
International Equity	5.0%	6.7%
International Small Cap Equity	5.0%	8.1%
Emerging International Equity	5.0%	8.0%
Global Equity	3.0%	6.8%
Emerging Market Debt	2.0%	3.7%
US Fixed Income	28.0%	1.8%
Multi-Asset Class Strategies	4.0%	2.8%
Hedge Funds Opportunistic	5.0%	5.5%
Infrastructure	3.0%	8.0%
Real Estate	7.0%	5.1%
Private Equity	7.0%	11.3%
Private Debt	4.0%	7.8%
Natural Resources	5.0%	8.9%
	100.0%	

Discount Rate

A single discount rate of 7.0 percent was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.0 percent. The projection of cash flows used to determine this single discount rate assumed that ERFC member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, ERFC's fiduciary net position was projected to be available to make all projected future benefit payments of current ERFC members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability	Increases (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances at June 30, 2023	\$ 4,203,831,095	\$ 3,076,733,102	\$ 1,127,097,993
Changes for the year:			
Service cost	102,289,996	-	102,289,996
Interest	293,865,503	-	293,865,503
Changes of benefit terms	161,937,951	-	161,937,951.00
Differences between expected and actual experience	(165,399,993)	-	(165,399,993)
Contributions - employer	-	121,645,811	(121,645,811)
Contributions - employee	-	56,450,447	(56,450,447)
Net investment income	-	180,365,641	(180,365,641)
Benefit payments, including refunds of employee contributions	(216,084,948)	(216,084,948)	-
Administrative expense	-	(5,685,425)	5,685,425
Net changes	176,608,509	136,691,526	39,916,983
Balances at June 30, 2024	\$ 4,380,439,604	\$ 3,213,424,628	\$ 1,167,014,976

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the table below presents ERFC's net pension liability, calculated using a single discount rate of 7.0 percent as well as what ERFC's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent). Sensitivity results at 6.0 percent interest were based upon computer runs. Results of 8.0 percent were based upon the 6.0 percent results and estimation techniques.

	1% Decrease	Current Discount Rate	1% Increase
	6.00%	7.00%	8.00%
FCPS' ERFC net pension liability	\$ 1,795,987,962	\$ 1,167,014,976	\$ 655,985,961

Pension Plan Fiduciary Net Position

ERFC is considered a part of FCPS' reporting entity and ERFC's financial statements are included in FCPS' basic financial statements as a trust fund.

Information concerning ERFC as a whole, including pension plan's fiduciary net position, is available in FCPS' ACFR for the fiscal year ended June 30, 2025. Additionally, ERFC issues a publicly available annual comprehensive financial report that includes financial statements and required supplementary information, which may be obtained by writing to the Educational Employee's Supplementary Retirement System of Fairfax County, 3110 Fairview Park Drive, Suite 300, Falls Church, VA 22042 or the report is also available online ERFC's website at www.fcps.edu/erfc/erfc-retirement-forms-publications-and-resources.

B. FCERS

Plan Description

FCERS is a cost-sharing, multi-employer defined benefit pension plan, which covers only employees of the County and component units of the County. The plan covers full-time and certain part-time FCPS employees who are not covered by ERFC or VRS.

Benefits Provided

Benefit provisions are established and may be amended by County ordinances. All benefits vest at five years of creditable service. Members who were hired before January 1, 2013 had the option to elect to join Plan A or Plan B, and members who were hired on or after January 1, 2013 may elect to join Plan C or Plan D. Members who were hired on or after July 1, 2019 are automatically enrolled in Plan E. To be eligible for normal retirement, an individual must meet the following criteria: (a) attain the age of 65 with five years of service, (b) for Plans A and B, attain the age of 50 with age plus years of service being greater than or equal to 80, or (c) for Plans C, D and E, attain the age of 55 with age plus years of service being greater than or equal to 85. The normal retirement benefit is calculated using average final compensation (i.e., the highest 78 consecutive two week pay periods or the highest 36 consecutive monthly pay periods) and years (or partial years) of creditable service at date of termination. For Plans A, B, C and D, if normal retirement occurs before Social Security benefits are scheduled to begin, an additional monthly benefit is paid to retirees. Plan E eliminates the pre-Social Security Supplement; however, there is a cost-neutral Early Age Option for employees who retire prior to full retirement age under Social Security.

The plan provides that unused sick leave credit may be used in the calculation of average final compensation by projecting the final salary during the unused sick leave period. Those who commenced employment on or after January 1, 2013, may not use more than 2,080 hours of accrued sick leave

toward service credit for retirement or entry into the Deferred Retirement Option Program (DROP). The benefit for early retirement is actuarially reduced and payable at early termination.

Effective July 1, 2005, DROP was established for eligible members of the FCERS. Members who are eligible for normal service retirement are eligible to participate in this program. DROP provides the ability for an employee to retire for purposes of the pension plan, while continuing to work and receive a salary for a period of three years. During the DROP period, the pension plan accumulates the accrued monthly benefit into an account balance identified as belonging to the member. The account balance is credited with interest in the amount of 5.0 percent per annum, compounded monthly. The monthly benefit is calculated using service and final compensation as of the date of entry in DROP, with increases equal to the annual COLA adjustment provided for retirees.

Contributions

The contribution requirements of FCERS members are established and may be amended by County ordinances, including member contribution rates. Plan A and Plan C require member contributions of 4.0 percent of compensation up to the maximum Social Security wage base and 5.33 percent of compensation in excess of the wage base. Plan B, Plan D and Plan E require member contributions of 5.33 percent of compensation.

FCPS is required to contribute at an actuarially determined rate; the rate for the year ended June 30, 2025, was 30.07 percent of annual covered payroll. Employer contributions to the pension plan were \$83,344,161 and \$70,963,853 for the years ended June 30, 2025 and June 30, 2024, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2025, FCPS reported a liability of \$563,459,674 for its proportionate share of the net pension liability. The net pension liability was determined based on an actuarial valuation as of June 30, 2024 using the December 31, 2023 data rolled forward to June 30, 2024. At June 30, 2024, FCPS' proportion was 23.65 percent, a decrease of (0.84) percent from its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, FCPS recognized pension expense of \$90,815,909. At June 30, 2024, FCPS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 73,534,474	\$ (2,062,647)
Changes of assumptions	11,052,975	-
Net difference between projected and actual earnings on pension plan investments	56,325,280	-
Changes in proportion applicable to FCPS	7,318,674	(31,052,009)
Contributions subsequent to the measurement date	83,344,161	-
Total	\$ 231,575,564	\$ (33,114,656)

A total of \$83,344,161 reported as deferred outflows of resources related to pensions resulting from FCPS contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2026	\$ 29,423,208
2027	60,741,061
2028	20,926,170
2029	4,026,308
	<u>\$ 115,116,747</u>

Actuarial Assumptions

The total pension liability for the year ended June 30, 2024 was determined as part of the December 31, 2023, actuarial valuation using the entry age actuarial cost method and rolled forward to the measurement date of June 30, 2024. Significant actuarial assumptions used in the valuation include:

Actuarial Assumptions	
Discount rate, net plan investment expenses	6.75%
Inflation	2.25%
Salary increases, including inflation	2.25% + merit
Investment rate of return, net of plan investment expenses	6.75%
Mortality	Health and Disabled Annuity PubG-2010 Combined Mortality projected to MP-2020

The actuarial assumptions used in the June 30, 2024 valuation were based on the results of an actuarial experience study performed in 2024.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the FCERS' target asset allocation as of June 30, 2025, are summarized below:

Asset Class	Long-Term Expected Real Rate of Return	Target Allocation*
US Leverage Cost	1.9%	-35%
Non-US Leverage Cost	1.1%	-26%
US Large-Cap Equity	7.7%	11%
US Small/Mid Cap-Equity	8.7%	3%
Non-US Developed Equity (USD Hedge)	8.3%	6%
Non-US Developed Small-Cap Equity	9.3%	3%
Emerging Market Equity	12.5%	3%
Global Equity	8.6%	5%
Private Equity - Growth	14.6%	1%
Private Equity - Venture	20.8%	1%
Private Equity	13.2%	2%
US TIPS	2.3%	16%
US Treasury Bond	2.1%	-3%
US Mortgage-Backed Securities	2.5%	2%
US High Yield Corporate Bond	5.7%	4%
Emerging Market External Debt	5.3%	4%
Emerging Market Local Currency Debt	6.0%	2%
Non-US Government Bond	2.2%	2%
Non-US Government Bond (USD Hedge)	2.0%	2%
Non-US Inflation-Linked Bond (USD Hedge)	1.3%	12%
Private Debt - Credit Opportunities	8.0%	6%
Private Debt - Distressed	8.8%	4%
Private Debt - Direct Lending	8.1%	1%
US Long-Term Treasury Bond (10-30 Year)	2.6%	5%
20+ Year US Treasury STRIPS	3.9%	3%
US High Yield Securitized Bond	5.1%	2%
US High Yield Collateralized Loan Obligation	6.3%	4%
10 Year US Treasury Bond	2.6%	8%
10 Year Non-US Government Bond (USD Hedge)	1.2%	18%
Commodity Futures	5.0%	7%
Public Real Assets (Multi-Asset)	6.0%	2%
US REIT	9.0%	5%
Gold	5.1%	3%
Core Real Estate	6.7%	1%
Private Real Assets - Infrastructure	7.4%	4%
Hedge Fund - Macro	5.1%	8%
Hedge Fund - Credit	5.8%	4%
Hedge Fund	5.6%	3%

*Target totals may exceed 100% due to futures and other derivatives

Discount Rate

The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made according to FCERS' stated policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all

projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of FCPS' Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents FCPS' proportionate share of the net pension liability calculated using the discount rate of 6.75 percent, as well as what FCPS' share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75 percent) or 1-percentage-point higher (7.75 percent) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
	5.75%	6.75%	7.75%
FCPS' proportionate share of the FCERS net pension liability	\$ 772,681,784	\$ 563,459,674	\$ 388,268,023

Pension Plan Fiduciary Net Position

FCERS is considered a part of the County's reporting entity and FCERS' financial statements are included in the County's basic financial statements as a pension trust fund. FCERS is a multiple employer defined benefit plan

Information concerning FCERS as a whole, including pension plan's fiduciary net position, is available in the County ACFR for the fiscal year ended June 30, 2025. Additionally, FCERS issues a publicly available annual financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Employees' Retirement System, 12015 Lee Jackson Memorial Highway, Suite 350, Fairfax, Virginia 22033, by calling (703) 279-8200, or by accessing the information at <https://www.fairfaxcounty.gov/retirement/financial-publications>

C. VRS

Plan Description

VRS is a cost-sharing, multiple-employer retirement system, which administers two defined benefit plans and a hybrid plan that combines the features of a defined benefit plan and a defined contribution plan. These plans are administered by the State and provide coverage for State employees, public school board employees, employees of participating political subdivisions, and other qualifying employees. All full-time, salaried, permanent employees of VRS-participating employers are automatically covered under VRS. All employees hired after January 1, 2014 are automatically enrolled in the Hybrid Plan. Contributions made by members and participating VRS employers are invested to provide future retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. FCPS contributes to VRS on behalf of its covered professional employees.

Benefits Provided

Benefit provisions are established and governed by Section 51.1 of the Code. Changes to the Code can be made only by an act of the Virginia General Assembly. All benefits vest at five years of creditable service. Benefits under the Defined Contribution component of the Hybrid Plan are always 100% vested. To be eligible for unreduced retirement benefits, an individual must meet the following criteria: (a) attain the age of 65 with five years of service or age 50 with 30 years of service for Plan 1, (b) for Plan 2 and the Defined Benefit component of the Hybrid Plan, attain normal social security retirement age with five years of service or combination of age and service equals 90 or (c) for the Defined Contribution component of the Hybrid Plan, terminate employment.

To be eligible for reduced retirement benefits, an individual must meet the following criteria: (a) attain the age of 55 with five years of service or age 50 with 10 years of service for Plan 1, (b) for Plan 2 and the Defined Benefit component of the Hybrid Plan, attain the age of 60 with five years of service or (c) for the Defined Contribution component of the Hybrid Plan, terminate employment.

Annual retirement benefits are payable monthly for life in an amount equal to (a) 1.7 percent of eligible members' average final compensation for each year of credited service under Plan 1, (b) 1.65 percent of eligible members' average final compensation for each year of creditable service on or after January 1, 2013 and 1.7 percent on creditable service before January 1, 2013 for Plan 2, or (c) 1.0 percent of eligible members' average final compensation for each year of creditable service for the Defined Benefit component of the Hybrid Plan.

A health insurance credit provides retirees who have 15 or more years of creditable service with reimbursement to assist with the cost of health insurance premiums. The credit is a dollar amount set by the General Assembly for each year of service.

Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the Code, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.0 percent of their compensation toward their retirement. Each school division's contractually required contribution rate for the year ended June 30, 2024 was 16.62 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021 which set a rate of 14.76 percent. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the pension plan were \$283,206,729 and \$311,651,655 for the years ended June 30, 2025 and June 30, 2024, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2025, FCPS reported a liability of \$1,645,083,763 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. FCPS' proportion of the net pension liability was based on FCPS' actuarially determined employer contributions to the pension plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, FCPS' proportion was 17.53 percent as compared to 17.54 percent at June 30, 2023.

For the year ended June 30, 2025, FCPS recognized pension expense of \$165,351,359. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2025, FCPS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 285,398,837	\$ (33,873,420)
Changes of assumptions	29,860,469	-
Net difference between projected and actual earnings on pension plan investments	-	(226,446,782)
Changes in proportion applicable to FCPS	375,418	(49,632,967)
Contributions subsequent to the measurement date	283,206,729	-
Total	\$ 598,841,453	\$ (309,953,169)

A total of \$283,206,729 reported as deferred outflows of resources related to pensions resulting from FCPS' contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2026	\$ (124,292,402)
2027	122,195,261
2028	28,259,716
2029	(20,481,020)
	\$ 5,681,555

Actuarial Assumptions

The total pension liability for VRS was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Actuarial Assumptions	
Inflation	2.5%
Salary increases, including inflation	3.5% to 5.95%
Investment rate of return, net of plan investment expense, including inflation	6.75%

Mortality Rates		
Pre-Retirement	Post-Retirement	Post-Disablement
Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males	Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females	Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Long-term Expected Rate of Return

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return*
Public Equity	32.00 %	6.70 %	2.14 %
Fixed Income	16.00	5.40	0.86
Credit Strategies	16.00	8.10	1.30
Real Assets	15.00	7.20	1.08
Private Equity	15.00	8.70	1.31
Private Investment Partnerships	1.00	8.00	0.08
Diversifying Strategies	6.00	5.80	0.35
Cash	2.00	3.00	0.06
Leverage	(3.00)	3.50	(0.11)
Total	100.00 %		7.07
		* Expected arithmetic nominal return	7.07 %

* The above allocation provides a one-year return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the assets classes. In setting the long-term expected return for the VRS, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.5%.

On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which is roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumes that member contributions are made per the VRS Statutes and the employer contributions are made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2024, the rate contributed by FCPS for VRS was subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 112.0 percent of the actuarially determined contribution rate. From July 1, 2024, on, school divisions are assumed to continue to contribute 100.0 percent of the actuarially determined contribution rates. Based on those assumptions, VRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of FCPS' Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents FCPS' proportionate share of the net pension liability using the discount rate of 6.75 percent, as well as what FCPS' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75 percent) or 1-percentage-point higher (7.75 percent) than the current rate:

	1% Decrease 5.75%	Current Discount Rate 6.75%	1% Increase 7.75%
FCPS' proportionate share of the VRS net pension liability	\$ 3,056,243,177	\$ 1,645,083,763	\$ 489,389,098

Pension Plan Fiduciary Net Position

Detailed information about the VRS net position is available in the separately issued VRS 2024 ACFR, which may be obtained from the VRS website at www.varetire.org, or by writing to the VRS Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

D. SUMMARY OF PENSION PLANS

The following table presents a summary of pension amounts by each defined benefit plan as of the measurement date of June 30, 2024 to the Statement of Net Position:

	ERFC	FCERS	VRS	Total
Deferred Outflows of Resources:				
Differences between expected and actual experience	\$ 34,601,587	\$ 73,534,474	\$ 285,398,837	\$ 393,534,898
Changes of assumptions	64,876,088	11,052,975	29,860,469	105,789,532
Net difference between projected and actual earnings on pension plan investments	266,513,541	56,325,280	-	322,838,821
Changes in proportionate share applicable to FCPS	-	7,318,674	375,418	7,694,092
Contributions subsequent to the measurement date	129,278,658	83,344,161	283,206,729	495,829,548
Total Deferred Outflows of Resources	<u>\$ 495,269,874</u>	<u>\$ 231,575,564</u>	<u>\$ 598,841,453</u>	<u>\$ 1,325,686,891</u>
Deferred Inflows of Resources:				
Differences between expected and actual experience	\$ (140,523,610)	\$ (2,062,647)	\$ (33,873,420)	\$ (176,459,677)
Changes of assumptions	(5,702,047)	-	-	(5,702,047)
Net difference between projected and actual earnings on pension plan investments	(106,847,968)	-	(226,446,782)	(333,294,750)
Changes in proportionate share applicable to FCPS	-	(31,052,009)	(49,632,967)	(80,684,976)
Total Deferred Inflows of Resources	<u>\$ (253,073,625)</u>	<u>\$ (33,114,656)</u>	<u>\$ (309,953,169)</u>	<u>\$ (596,141,450)</u>
Pension expense for the year ended June 30, 2025	<u>\$ 321,249,725</u>	<u>\$ 90,815,909</u>	<u>\$ 165,351,359</u>	<u>\$ 577,416,993</u>
Net pension liability as of June 30, 2025	<u>\$ 1,167,014,976</u>	<u>\$ 563,459,674</u>	<u>\$ 1,645,083,763</u>	<u>\$ 3,375,558,413</u>

V. OTHER POSTEMPLOYMENT BENEFITS

FCPS employees participate in the FCPS OPEB Plan, the Virginia Retirement System Teacher Health Insurance Credit (HIC) OPEB Plan and the Virginia Retirement System Group Life Insurance (GLI) OPEB Plan. Information about these plans is provided as follows.

A. FCPS OPEB PLAN

In fiscal year 2025, and in accordance with GASB Statement No. 100, *Accounting Changes and Error Corrections-an amendment of GASB Statement No. 62*, FCPS implemented a change in accounting principle for the measurement date of the FCPS OPEB Plan net liability. Prior to fiscal year 2025, the measurement date was the current fiscal year. Effective in fiscal year 2025, the measurement date changed to the prior fiscal year. This change in accounting principle is preferable in terms of consistency and comparability to the VRS HIC OPEB and VRS GLI OPEB plans. See Note I.L. for more details.

Plan Description

The FCPS OPEB Plan (the Plan) is a single-employer defined benefit plan administered by FCPS. The Plan provides the opportunity to continue participation in medical/dental, vision, and life insurance benefits for eligible retirees and their spouses. The plan benefits correspond with benefits available to active employees. Benefit provisions are established and may be amended by the School Board. Fiduciary oversight is provided by the members of the Local Finance Board for OPEB. The Plan does not issue a stand-alone financial report.

Benefits Provided

In order to participate in the Plan, an employee must meet retirement criteria for either VRS, ERFC, or FCERS. Employees are eligible to continue health insurance coverage after retirement, provided that retiring employees have health coverage in effect for at least 60 months when they stop working. Upon retirement FCPS no longer contributes to the premium payments and the participant becomes responsible for 100% of premiums less any applicable subsidies.

A retiree and/or spouse who is at least 55 of years of age and participates in an FCPS-administered health insurance plan will receive an explicit subsidy ranging from \$15 to \$175 per month, based on years of service and the retirement plan in which the retiree is covered. In addition, FCPS provides an implicit subsidy by allowing retirees to participate in the health insurance plans at the group premium rates calculated on the entire universe of active and retired employees. This subsidy occurs because, on an actuarial basis, the current and future claims of the retiree participants are expected to result in higher per person costs to the insurance plans than will be the experience for active employees.

For fiscal year 2025, required disclosures for the FCPS OPEB liability and the Plan's fiduciary net position are made simultaneously. Participant data used for the current year is based on July 1, 2023; also shown is the data used for the prior fiscal year.

	Fiscal Years Ended	
	July 1, 2023	July 1, 2021
<u>Medical</u>		
Actives		
Count	18,112	20,528
Average age	46.8	46.3
Average service	11.5	11.3
Retirees and spouses		
Count	10,363	10,174
Average age	73.3	72.6
<u>Life Insurance</u>		
Actives		
Count	3,807	4,451
Average age	53.4	53.1
Average service	11.5	11.7
Retirees and spouses		
Count	3,396	3,050
Average age	72.7	72.2

Contributions

Contributions to the School OPEB Trust Fund are determined and may be amended by the School Board. The contributions are set at a minimum to satisfy the current year's projected pay-as-you-go benefits costs. The School Board may provide additional amounts to prefund future costs. Employer contributions to the Plan was \$15,578,650 for the years ended June 30, 2025, respectively. The costs of administrating the plan are paid for by the Plan through the use of investment income and employer contributions.

Net FCPS OPEB Liability

FCPS OPEB Plan's net OPEB liability was measured as of June 30, 2024 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The components of net OPEB liability for the FCPS OPEB Plan is as follows:

Total OPEB liability	\$ 244,167,561
Plan Fiduciary Net Position (fair value of assets)	(238,830,591)
Net OPEB liability as of June 30, 2025	\$ 5,336,970
Plan fiduciary net position as a percentage of the OPEB liability	97.81%

Actuarial Assumptions

Significant actuarial assumptions used in the valuation include:

Methods and Assumptions Used to Determine Contribution Rates	
Actuarial cost method	Entry Age Normal
Asset method	Fair value
Salary increases	7.25% trending down to 2.75%
Investment rate of return, net of OPEB plan investment expense, including inflation	7.00%, prior year rate was 7.00%
Retirement age	Varies by age and pension plan
Mortality	
Active Participants	102% of the male rates and 99% of the female rates of the Pub-2010, "Teachers" Classification, Employees Mortality Table, projected using Scale MP-2021, sex-distinct
Current Retirees	102% of the male rates and 99% of the female rates of the Pub-2010, "Teachers" Classification, Healthy Annuitant Mortality Table, projected using scale MP-2021, sex-distinct
Surviving Spouses	102% of the male rates and 99% of the female rates of the Pub-2010, "Teachers" Classification, Survivor Beneficiary Mortality Table, projected using scale MP-2021, sex-distinct
Disabled Retirees	102% of the male rates and 99% of the female rates of the Pub-2010, "Teachers" Classification, Disabled Retirement Mortality Table, projected using scale MP-2021, sex-distinct
Healthcare cost trend rate	7.00% - 12.00% decreasing to 4.50%

Long-term Expected Rate of Return

The long-term expected rate of return on OPEB plan investments are determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the OPEB plan's target asset allocation are summarized in the following table:

Asset Class	Expected Real Rate of Return	Allocation
Large Cap U.S. Equity	4.30%	24.68%
Small Cap U.S. Equity	4.79%	12.17%
International (Non-U.S) Equity (Developed)	4.20%	12.80%
Emerging Markets Equity	4.50%	5.80%
Cash (Gov't)	1.76%	0.02%
Core U.S. Fixed Income (Market Duration)	2.44%	3.74%
Long Duration Bonds – Credit	3.62%	14.59%
Non-US Developed Bond (50% Hedged)	1.96%	3.77%
Private Real Estate (Core)	3.42%	8.69%
Private Equity	6.94%	7.97%
Hedge Funds - Long/Short Equity (Institutional Quality)	4.30%	5.77%
Total Portfolio	4.88%	100.00%

There are no concentrations in any one organization that represent five percent or more of the fiduciary net position in the plan. For the year ended June 30, 2025, the annual money-weighted rate of return on investments, net of investment expense was 9.49 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing actual invested.

The plan's funds are invested in domestic and international equity and fixed income funds through the Virginia Pooled OPEB Trust Fund established as the investment vehicle for participating employers. FCPS is not involved in the administration of these funds. Further information about the Virginia Pooled OPEB Trust Fund sponsored by VML/VACo, including financial statements, can be obtained by writing to VML/VACo Finance Program, 8 East Canal Street, Richmond, Virginia 23219.

Discount Rate

The discount rate used to measure the total OPEB liability is 7.0 percent. The projection of cash flows used to determine the discount rate assumed that FCPS contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments of current active and inactive employees / current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net FCPS OPEB Liability to Changes in the Discount Rate

The following represents the net FCPS OPEB liability calculated using the discount rate of 7.0 percent, as well as what the liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate:

	1% Decrease 6.0%	Current Discount Rate 7.0%	1% Increase 8.0%
Total OPEB liability	\$ 269,620,408	\$ 244,167,561	\$ 222,573,974
Plan fiduciary net position	(238,830,591)	(238,830,591)	(238,830,591)
Net OPEB liability	<u>\$ 30,789,817</u>	<u>\$ 5,336,970</u>	<u>\$ (16,256,617)</u>

Sensitivity of the Net FCPS OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following represents the net FCPS OPEB liability calculated using the stated healthcare trend rates (varied percentages decreasing to 4.5 percent), as well as what the liability would be if it were calculated using a healthcare trend rates that is 1-percentage-point lower (varied percentages decreasing to 3.5 percent) or 1-percentage-point higher (varied percentages decreasing to 5.5 percent) than the current healthcare trend rates:

	1% Decrease (Varied decreasing to 3.5%)	Current Trend Rate (Varied decreasing to 4.5%)	1% Increase (Varied decreasing to 5.5%)
Total FCPS OPEB liability	\$ 235,024,832	\$ 244,167,561	\$ 255,196,455
Plan fiduciary net position	(238,830,591)	(238,830,591)	(238,830,591)
Net FCPS OPEB liability	<u>\$ (3,805,759)</u>	<u>\$ 5,336,970</u>	<u>\$ 16,365,864</u>

FCPS OPEB Expense, Deferred Outflows of Resources and Deferred and Inflows of Resources Related to FCPS OPEB

For the year ended June 30, 2025, FCPS recognized FCPS OPEB plan expense of \$(11,240,262). At June 30, 2025, FCPS reported deferred outflows of resources and deferred inflows of resources related to FCPS OPEB plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 66,908,632	\$ (11,421,500)
Changes of assumptions	-	(58,443,987)
Net difference between projected and actual earnings on OPEB plan investments	1,418,644	-
Contributions subsequent to the measurement date	15,578,650	-
Total	<u>\$ 83,905,926</u>	<u>\$ (69,865,487)</u>

A total of \$15,578,650 reported as deferred outflows of resources related to FCPS OPEB resulting from FCPS' contributions subsequent to the measurement date will be recognized as a reduction of the net FCPS OPEB liability in the year ended June 30, 2026.

Amounts recognized in the deferred outflows of resources and deferred inflows of resources related to the FCPS OPEB plan will be recognized in the FCPS OPEB plan expense as follows:

Year ended June 30:	
2026	\$ (454,091)
2027	9,086,838
2028	(3,466,192)
2029	(2,750,301)
2030	(1,451,885)
Thereafter	(2,502,580)
	<u>\$ (1,538,211)</u>

Changes in the Net FCPS OPEB Liability

	Fiscal Year Ended June 30, 2025
Total FCPS OPEB Liability	
Service cost	\$ 3,877,412
Interest cost	17,246,413
Difference between expected and actual experiences	34,727,497
Changes of assumptions	(48,804,895)
Benefit payments	(10,578,650)
Net Change in Total FCPS OPEB Liability	<u>(3,532,223)</u>
Total FCPS OPEB Liability - Beginning	247,699,784
Total FCPS OPEB Liability - Ending (a)	<u>\$ 244,167,561</u>
Plan Fiduciary Net Position	
Contributions - Employer	\$ 15,578,650
Net Investment Income	20,491,342
Benefit payments	(10,578,650)
Administrative Expense	(108,670)
Net Change in Plan Fiduciary Net Position	<u>25,382,672</u>
Plan Fiduciary Net Position - Beginning	213,447,919
Plan Fiduciary Net Position - Ending (b)	<u>\$ 238,830,591</u>
Net FCPS OPEB Liability - Ending (a) - (b)	<u>\$ 5,336,970</u>

B. VRS HEALTH INSURANCE CREDIT (HIC) OPEB

Plan Description

The HIC OPEB plan is a cost-sharing, multiple-employer plan administered by VRS. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the HIC OPEB plan. The plan provides health insurance credit to eligible retirees. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the Virginia General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

Benefits Provided

In order to participate, retirees must have at least 15 years of service credit. The HIC OPEB plan provides the following benefits for eligible employees:

- At Retirement - For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount.
- Disability Retirement - For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the month benefit is either (a) \$4.00 per month, multiplied by twice the amount of service credit, or (b) \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

The monthly benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the health insurance credit as a retiree.

Contributions

The contribution requirement for active employees is governed by Section 51.1-1401(E) of the Code, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 1.21 percent of covered employee compensation for employees in the HIC OPEB plan. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the HIC OPEB plan were \$24,120,578 and \$22,694,437 for the years ended June 30, 2025 and June 30, 2024, respectively.

HIC OPEB Liabilities, HIC OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC OPEB

At June 30, 2025, FCPS reported a liability of \$202,309,474 for its proportionate share of the net HIC OPEB liability. The net HIC OPEB liability was measured as of June 30, 2024 and the total HIC OPEB liability used to calculate the net HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2023 and rolled forward to the measurement date of June 30, 2024. FCPS' proportion of the net HIC OPEB liability was based on FCPS' actuarially determined employer contributions to the HIC OPEB plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, FCPS' proportion was 17.51 percent as compared to 17.53 percent at June 30, 2023.

For the year ended June 30, 2025, FCPS recognized HIC OPEB expense of \$14,381,303. Since there was a change in proportionate share between measurement dates, a portion of the HIC OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2025, FCPS reported deferred outflows of resources and deferred inflows of resources related to HIC OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (9,584,939)
Change of assumptions	3,485,209	-
Net difference between projected and actual earnings on OPEB plan investments	-	(719,622)
Changes in proportionate share	1,122,127	(8,173,205)
Contributions subsequent to the measurement date	24,120,578	-
Total	<u>\$ 28,727,914</u>	<u>\$ (18,477,766)</u>

A total of \$24,120,578 reported as deferred outflows of resources related to HIC OPEB resulting from FCPS' contributions subsequent to the measurement date will be recognized as a reduction of the net HIC OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to HIC OPEB will be recognized in HIC OPEB expense as follows:

Year ended June 30:	
2026	\$ (2,800,391)
2027	(2,412,606)
2028	(3,473,999)
2029	(3,342,448)
2030	(1,453,235)
Thereafter	(387,751)
	<u>\$ (13,870,430)</u>

Actuarial Assumptions

The total HIC OPEB liability for VRS was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Actuarial Assumptions	
Inflation	2.5%
Salary increases, including inflation	3.5% to 5.95%
Investment rate of return, net of plan investment expenses, including inflation	6.75%

Mortality Rates

Pre-Retirement	Post-Retirement	Post-Disablement	Beneficiaries and Survivors	Mortality Improvement Scale
Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males	Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% rates for females	Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females	Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally	Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2016 through June 30, 2020, except the change in discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Long-term Expected Rate of Return

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-Term Target	Arithmetic Long-Term Expected	Weighted Average Long-Term Expected
Asset Class (Strategy)	Asset Allocation	Rate of Return	Rate of Return*
Public Equity	32.00 %	6.70 %	2.14 %
Fixed Income	16.00	5.40	0.86
Credit Strategies	16.00	8.10	1.30
Real Assets	15.00	7.20	1.08
Private Equity	15.00	8.70	1.31
Private Investment Partnership	1.00	8.00	0.08
Diversifying Strategies	6.00	5.80	0.35
Cash	2.00	3.00	0.06
Leverage	(3.00)	3.50	(0.11)
Total	<u>100.00 %</u>		<u>7.07 %</u>
			<u>7.07 %</u>

* Expected arithmetic nominal return

* The above allocation provides a one-year return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for VRS, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.5%.

On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.5%.

Discount Rate

The discount rate used to measure the total HIC OPEB liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2024, the rate contributed by FCPS for the VRS HIC plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100.0 percent of the actuarially determined contribution rate. From July 1, 2024 on, school divisions are assumed to contribute 100.0 percent of the actuarially determined contribution rates. Based on those assumptions, HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

Sensitivity of FCPS' Proportionate Share of the Net HIC OPEB Liability to Changes in the Discount Rate

The following presents FCPS' proportionate share of the net HIC OPEB liability using the discount rate of 6.75 percent, as well as what FCPS' proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75 percent) or 1-percentage-point higher (7.75 percent) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
	5.75%	6.75%	7.75%
FCPS' proportionate share of the VRS net HIC OPEB liability	\$ 230,076,341	\$ 202,309,474	\$ 178,774,514

HIC OPEB Plan Fiduciary Net Position

Detailed information about the HIC OPEB plan's fiduciary net position is available in the separately issued VRS 2024 ACFR. A copy of the 2024 VRS ACFR may be obtained from the VRS website at <https://www.varetire.org>, or by writing to the VRS Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

C. VRS GROUP LIFE INSURANCE (GLI) OPEB

Plan Description

The GLI OPEB plan is a cost-sharing, multiple-employer plan administered by VRS. All full-time, salaried permanent employees of the state agencies, teachers and employees of participating political subdivisions are automatically covered by the GLI OPEB plan upon employment.

In addition to Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI plan. For members who elect the optional group life insurance coverage, the insurer bills FCPS directly for the premiums. FCPS deducts these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI OPEB plan. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefits Provided

The benefits payable under the GLI OPEB plan have the following components:

- *Natural Death Benefit* - The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled.

- *Accidental Death Benefit* - The accidental death benefit is double the natural death benefit.
- *Other Benefit Provisions* - In addition to the basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances. These benefits include accidental dismemberment, seatbelt, repatriation, felonious assault and accelerated death option.

The benefit amounts provided to members covered under the GLI OPEB plan are subject to a reduction factor. The benefit amount reduces by 25.0 percent on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25.0 percent on each subsequent January 1 until it reaches 25.0 percent of its original value. For covered members with at least 30 years of service credit, there is a minimum benefit payable under the GLI OPEB plan. The minimum benefit was set at \$8,000 by statute in 2015. This amount is increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the cost-of-living adjustment was \$9,532 as of June 30, 2025.

Contributions

The contribution requirement for active employees is governed by Sections 51.1-506 and 51.1-508 of the Code, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. The total rate for the GLI OPEB plan was 1.18 percent of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.71 percent (1.18 x 60 percent) and the employer component was 0.47 percent (1.18 x 40 percent). Employers may elect to pay all or part of the employee contribution, however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2025 was 0.47 percent of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Employer contributions to the GLI OPEB plan were \$9,413,906 and \$10,177,887 for the years ended June 30, 2025 and June 30, 2024 respectively.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to GLI OPEB

At June 30, 2025, FCPS reported a liability of \$81,915,153 for its proportionate share of the net GLI OPEB liability. The net GLI OPEB liability was measured as of June 30, 2024 and the total GLI OPEB liability used to calculate the net GLI OPEB liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. FCPS' proportion of the net GLI OPEB liability was based on FCPS' actuarially determined employer contributions to the GLI OPEB plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, FCPS' proportion was 7.34 percent as compared to 7.47 percent at June 30, 2023.

For the year ended June 30, 2024, FCPS recognized GLI OPEB expense of \$1,055,123. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2025, FCPS reported deferred outflows of resources and deferred inflows of resources related to GLI OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 12,919,903	\$ (2,000,913)
Change of assumptions	466,917	(4,059,546)
Net difference between projected and actual earnings on OPEB plan investments	-	(6,904,590)
Changes in proportionate share	144,663	(5,088,283)
Contributions subsequent to the measurement date	9,413,906	-
Total	<u>\$ 22,945,389</u>	<u>\$ (18,053,332)</u>

A total of \$9,413,906 reported as deferred outflows of resources related to GLI OPEB resulting from FCPS' contributions subsequent to the measurement date will be recognized as a reduction of the net GLI OPEB liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to GLI OPEB will be recognized in GLI OPEB expense as follows:

Year ended June 30:	
2026	\$ (4,827,281)
2027	154,740
2028	(1,116,753)
2029	231,732
2030	1,035,713
	<u>\$ (4,521,849)</u>

Actuarial Assumptions

The total GLI OPEB liability for VRS was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Actuarial Assumptions	
Inflation	2.5%
Salary increases, including inflation	3.5% to 5.95%
Investment rate of return, net of plan investment expenses, including inflation	6.75%

Mortality Rates

Pre-Retirement	Post-Retirement	Post-Disablement	Beneficiaries and Survivors	Mortality Improvement Scale
Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males	Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% rates for females	Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females	Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally	Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates on based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Long-term Expected Rate of Return

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

	Long-Term Target	Arithmetic Long-Term Expected	Weighted Average Long-Term Expected Rate
Asset Class (Strategy)	Asset Allocation	Rate of Return	of Return*
Public Equity	32.00 %	6.70 %	2.14 %
Fixed Income	16.00	5.40	0.86
Credit Strategies	16.00	8.10	1.30
Real Assets	15.00	7.20	1.08
Private Equity	15.00	8.70	1.31
Private Investment Partnership	1.00	8.00	0.08
Diversifying Strategies	6.00	5.80	0.35
Cash	2.00	3.00	0.06
Leverage	(3.00)	3.50	(0.11)
Total	100.00 %		7.07 %
			Expected arithmetic nominal return*
			7.07 %

* The above allocation provides a one-year return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for VRS, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a medium return of 7.14%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2024, the rate contributed by FCPS for the GLI OPEB plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113.0 percent of the actuarially determined contribution rate. From July 1, 2024 on, school divisions are assumed to contribute 100.0 percent of the actuarially determined contribution rates. Based on those assumptions, GLI OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of FCPS' Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents FCPS' proportionate share of the net GLI OPEB liability using the discount rate of 6.75 percent, as well as what FCPS' proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75 percent) or 1-percentage-point higher (7.75 percent) than the current rate:

	1% Decrease 5.75%	Current Discount Rate 6.75%	1% Increase 7.75%
FCPS' proportionate share of the VRS net GLI OPEB liability	\$ 127,388,701	\$ 81,915,153	\$ 45,178,503

GLI OPEB Plan Fiduciary Net Position

Detailed information about the GLI OPEB plan's fiduciary net position is available in the separately issued VRS 2023 ACFR. A copy of the 2024 VRS ACFR may be downloaded from the VRS website at <https://www.vataretire.org>, or by writing to the VRS Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

D. SUMMARY OF OPEB PLANS

The following table presents a summary of OPEB amounts by each plan as of the measurement date of June 30, 2024 to the Statement of Net Position:

	FCPS OPEB	VRS HIC OPEB	VRS GLI OPEB	Total
Deferred Outflows of Resources:				
Differences between expected and actual experience	\$ 66,908,632	\$ -	\$ 12,919,903	\$ 79,828,535
Changes of assumptions	-	3,485,209	466,917	3,952,126
Net difference between projected and actual earnings on OPEB plan investments	1,418,644	-	-	1,418,644
Changes in proportionate share	-	1,122,127	144,663	1,266,790
Contributions subsequent to the measurement date	15,578,650	24,120,578	9,413,906	49,113,134
Total Deferred Outflows of Resources	\$ 83,905,926	\$ 28,727,914	\$ 22,945,389	\$ 135,579,229
Deferred Inflows of Resources:				
Differences between expected and actual experience	\$ (11,421,500)	\$ (9,584,939)	\$ (2,000,913)	\$ (23,007,352)
Changes of assumptions	(58,443,987)	-	(4,059,546)	(62,503,533)
Changes in proportionate share of contributions	-	(8,173,205)	(5,088,283)	(13,261,488)
Net difference between projected and actual earnings on OPEB plan investments	-	(719,622)	(6,904,590)	(7,624,212)
Deferred Inflows of Resources	<u>\$ (69,865,487)</u>	<u>\$ (18,477,766)</u>	<u>\$ (18,053,332)</u>	<u>\$ (106,396,585)</u>
OPEB expense for the year ended June 30, 2025	<u>\$ (11,240,262)</u>	<u>\$ 14,381,303</u>	<u>\$ 1,055,123</u>	<u>\$ 4,196,164</u>
Net OPEB liability as of June 30, 2025	<u>\$ 5,336,970</u>	<u>\$ 202,309,474</u>	<u>\$ 81,915,153</u>	<u>\$ 289,561,597</u>

VI. OTHER INFORMATION

A. RELATED PARTIES

With the exception of the County, which funds a large portion of FCPS' budget, and ERFC, a blended component unit of FCPS, which the School Board created and oversees, FCPS did not conduct business with any other related parties in fiscal year 2025.

B. RISK MANAGEMENT

FCPS is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee illnesses and injuries; and natural disasters.

FCPS maintains internal service funds for workers' compensation claims, property losses, casualty claims, and health insurance benefits. The School Board believes it is cost effective to manage risks by a combination of self-insurance and the purchase of commercial insurance policies. Liabilities are reported in the internal service funds when it is probable that losses have occurred and the amounts of the losses can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported to date. Since actual liability claims depend on complex factors such as inflation, changes in governing laws and standards, and court awards, the process used in computing liability claims is reevaluated periodically to take into consideration the history, frequency, severity of recent claims, and other economic and social factors. These liabilities are computed using a combination of actual claims experience and actuarially determined amounts and recorded at an undiscounted rate.

In addition to the self-insurance program, FCPS purchases commercial property and casualty insurance, cyber liability insurance, bonds, fiduciary liability insurance, and catastrophic accident insurance for Virginia High School League student participants. In the past three fiscal years, there have been no instances where claims settlements exceeded commercial insurance coverage limits. In fiscal year 2025, there were no significant reductions in insurance coverage from the prior year.

Changes in the actuarial balances of liability claims during fiscal years 2024 and 2025 are as follows:

	Health Benefits	Insurance	Total
July 1, 2023 - liability balance	\$ 28,622,000	\$ 54,197,735	\$ 82,819,735
Claims and changes in estimates	541,145,311	17,917,733	559,063,044
Claims Payments	(539,268,311)	(15,699,722)	(554,968,033)
June 30, 2024 - liability balance	30,499,000	56,415,746	86,914,746
Claims and changes in estimates	595,445,932	17,457,574	612,903,506
Claims Payments	(595,214,932)	(16,061,320)	(611,276,252)
June 30, 2025 - liability balance	<u>\$ 30,730,000</u>	<u>\$ 57,812,000</u>	<u>\$ 88,542,000</u>

C. CONTINGENT LIABILITIES

FCPS is contingently liable with respect to lawsuits and other claims, which arise in the ordinary course of its operations. Management believes that the amount of loss, if any, is not material to FCPS' financial condition.

FCPS receives grant funds, principally from the Federal government, for various educational programs. Certain expenditures of these funds are subject to audit by the grantor. FCPS is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of FCPS management, no material refunds will be required as a result of expenditures disallowed by the grantors.

D. TERMINATION BENEFITS

Public Health Service Act

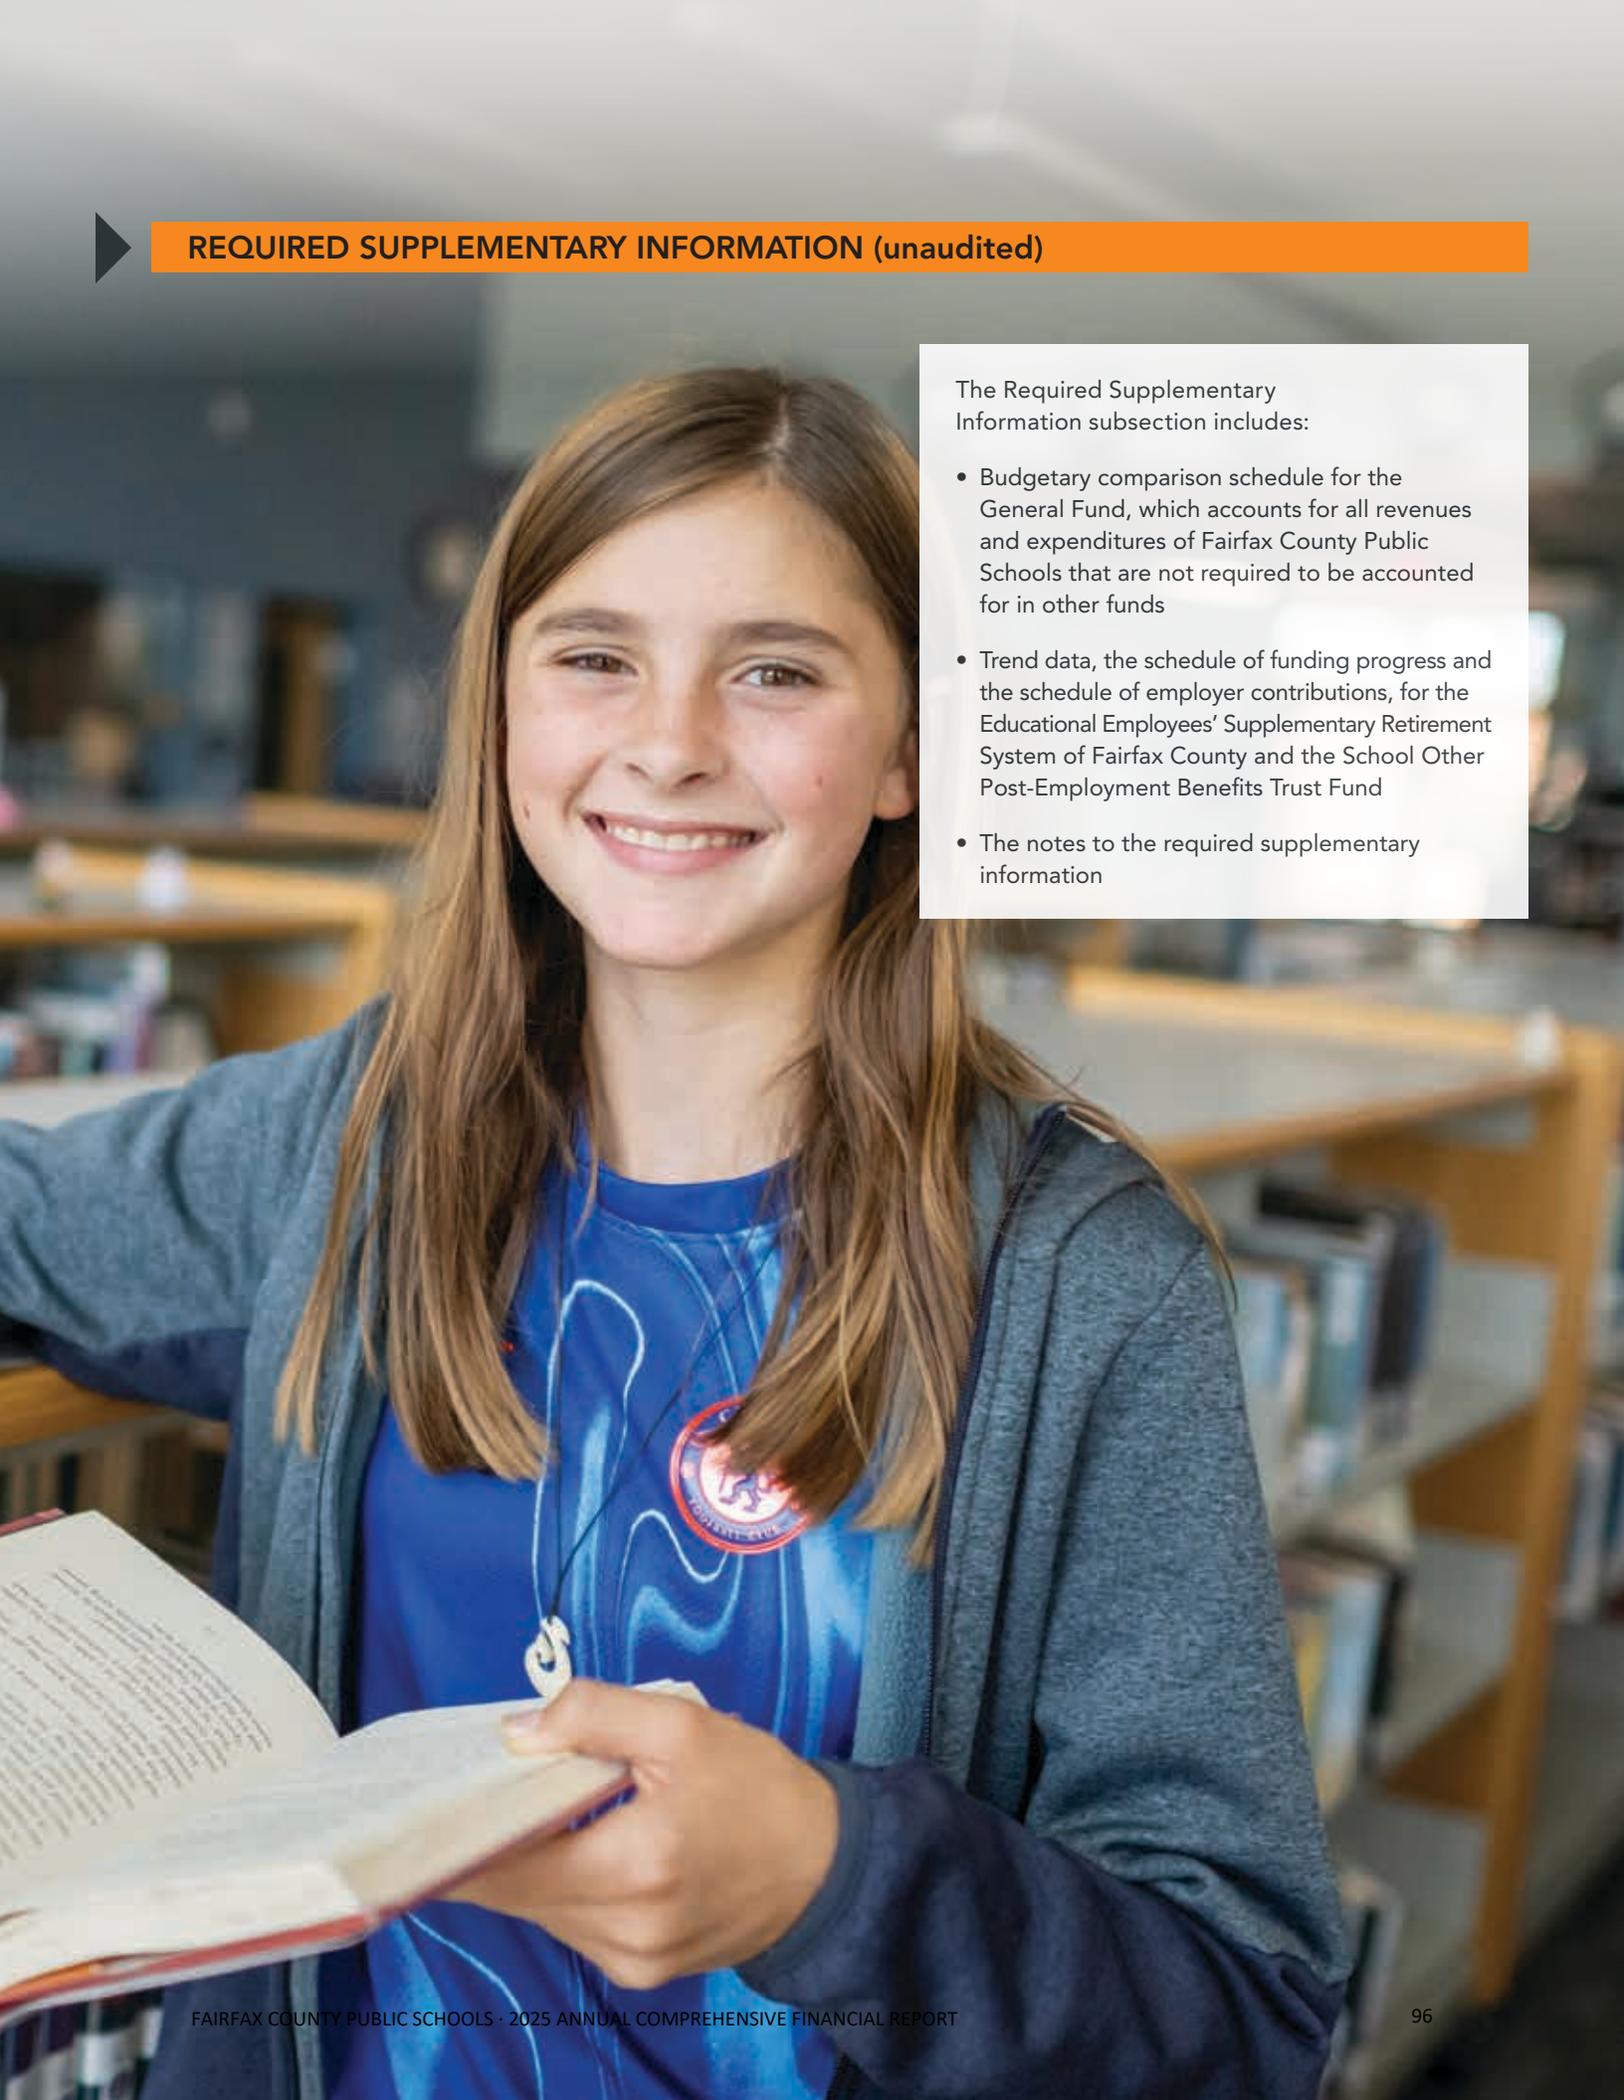

FCPS provides health care benefits as required by Federal law under the Public Health Service Act (PHSA). This benefit was previously required by the Consolidated Omnibus Budget Reconciliation Act (COBRA). PHSA requires employers that sponsor group health plans to provide a continuation of group coverage to terminated employees and their dependents in qualifying circumstances where coverage would normally end. FCPS provides 18 to 36 months of optional postemployment healthcare to employees and their dependents that elect to continue healthcare coverage. The election to be covered is at the request of the employees. The employees are required to pay 102 percent of the premium costs for themselves and their dependents, which include a two percent administrative fee. The premium costs to the employees and their dependents are the established premium equivalent rates for each respective plan year; accordingly, no liability is recorded for PHAS benefits. On June 30, 2025, there were 53 participants receiving benefits under PHSA.

E. SUBSEQUENT EVENTS

In August 2025 (fiscal year 2026), FCPS finalized the purchase of the site of the former King Abdullah Academy in Herndon, Virginia, now called Western High School.

FCPS initiated the acquisition of the land and building, including all furniture, technology, and equipment, for \$150 million. The nearly 33-acre site has 325,000 square feet of modern educational spaces, large multi-purpose halls, libraries and study rooms, fine arts facilities, and athletic space. These features will provide innovative instruction and learning opportunities for FCPS.

FCPS will plan for a phased implementation of utilizing the space for the 2026-2027 school year.

REQUIRED SUPPLEMENTARY INFORMATION (unaudited)

The Required Supplementary Information subsection includes:

- Budgetary comparison schedule for the General Fund, which accounts for all revenues and expenditures of Fairfax County Public Schools that are not required to be accounted for in other funds
- Trend data, the schedule of funding progress and the schedule of employer contributions, for the Educational Employees' Supplementary Retirement System of Fairfax County and the School Other Post-Employment Benefits Trust Fund
- The notes to the required supplementary information

Notes to the Required Supplementary Information

Fairfax County Public Schools
June 30, 2025

I. BUDGETARY COMPARISON SCHEDULE

The *Code of Virginia* requires the appointed superintendent of Fairfax County Public Schools (FCPS) to submit a budget to the County of Fairfax, Virginia (County) Board of Supervisors (BOS), with the approval of the School Board.

The preparation of FCPS' budget begins with the Superintendent soliciting input from parents and community leaders on the School Board's budget priorities. In January, the Superintendent releases the proposed budget and meets with the community, County, and employee groups to discuss it. The School Board reviews the proposed budget and holds work sessions and public hearings.

February through April, the School Board adopts the advertised budget. The Superintendent forwards the FCPS advertised budget to the County for funding consideration. The County Executive releases the County's advertised budget including a proposed transfer to FCPS. The Virginia General Assembly adopts the state budget. The School Board presents its budget to the BOS. The County adopts its budget and determines the transfer to FCPS.

In May, the School Board holds public hearings and work sessions and makes final funding decisions based on the most current information. The School Board adopts is approved budget. The approved budget governs the financial operations of the school system beginning on July 1.

The County legally adopts annual budgets all FCPS appropriated governmental funds, except for the Capital Projects Fund in which budgetary control is achieved on a project-by-project basis. The modified accrual basis is used in budgeting for governmental funds and the budgets are consistent with accounting principles generally accepted in the United States of America, with the following exceptions:

- Transactions for leases, financed purchase leases, subscriptions, and local school activities, when initiated, are not budgeted as offsetting expenditures and other financing sources; and
- Transactions between FCPS and the County are budgeted as other financing sources (uses).

All annual appropriations lapse at fiscal year-end. The current budget is re-evaluated three times during the year based on current projections and amended accordingly by the School Board and the BOS.

The budget is controlled at certain legal and administrative levels. The legal controls are placed at the individual fund level and the administrative controls are placed at the object level, which is at the expenditure category for each office and school within a fund. Management may amend the approved budget at the administrative level within the same fund. Amendments, changes, or transfers at the legal level require the specific approval of the School Board.

The following schedule reconciles the General Fund amounts on the Statement of Revenues, Expenditures, and Changes in Fund Balances, Exhibit D, to the amounts on the Budgetary Comparison Schedule—Budget and Actual (Budgetary Basis), Exhibit J for the fiscal year ended June 30, 2025:

General Fund	Actual - GAAP Basis (Exhibit D)	Basis Differences					Actual - Budget Basis (Exhibit J)
		Leases	Financed Other Leases/Notes Payable	Subscriptions	Local School Activities	Transactions between FCPS and the County	
Total revenues	\$ 3,801,876,108	\$ -	\$ -	\$ -	\$ (46,212,687)	\$ (2,585,284,875)	\$ 1,170,378,546
Total expenditures	(3,791,394,319)	13,232,721	14,670,060	3,621,135	45,382,586	3,196,818	(3,711,290,999)
Total other financing sources	(14,773,644)	(13,232,721)	(14,670,060)	(3,621,135)	-	2,582,088,057	2,535,790,497
Net change in fund balances	\$ (4,291,855)	\$ -	\$ -	\$ -	\$ (830,101)	\$ -	\$ (5,121,956)

II. PENSIONS AND OPEB

PENSIONS

Ten-year historical trend information for FCPS' retirement systems is presented as required supplementary information. This information is intended to help users assess each system's financial health status on a going concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employee retirement systems.

Analysis of the dollar amounts of plan fiduciary net position, total pension liability, and net pension liability in isolation can be misleading. Expressing plan net position as a percentage of the total pension liability provides one indication of each system's financial health. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage is, the stronger the system. Trends in the net pension liability and covered payroll are both affected by inflation. Expressing the net pension liability as a percentage of covered payroll approximately adjusts for the effects of inflation and aids in the analysis of the system's progress made in accumulating sufficient assets to pay benefits when due. Generally, the smaller the percentage is, the stronger the system.

The Schedule of Changes in Net Pension Liability and Related Ratios illustrates whether each plan's net position is increasing or decreasing over time relative to the total pension liability and the net pension liability as it relates to covered payroll.

The Schedule of Employer Contributions provides historical context for the amount of contributions in the current period. The contribution rates are calculated as of June 30, one year prior to the beginning of the fiscal year in which contributions are reported.

Information pertaining to FCPS retirement systems can be found in Note IV.D to the financial statements.

OPEB

1. FCPS OPEB

Beginning in fiscal year 2017 GAAP required information related to the total and net OPEB liability, information associated with the actuarially determined contribution, and investment returns to be presented.

Information pertaining to the FCPS OPEB Plan can be found in Notes III.B.2 and IV.E to the financial statements. Disclosures associated with the GASB 74 requirements are found in Note IV.E to the financial statements.

In fiscal year 2025, and in accordance with GASB Statement No. 100, FCPS implemented a change in accounting principle for the measurement date of the FCPS OPEB Plan. Prior to fiscal year 2025, the measurement date was the current year. Effective in fiscal year 2025, the measurement date changed to the prior fiscal year. See Note I.L. for more details.

There have been no actuarially material changes to the FCPS OPEB benefit provisions since the prior actuarial valuation.

The financial accounting valuation reflects the following assumption changes:

No excise tax has been reflected due to the SECURE Act. Among the provisions was a repeal of three taxes and fees that were originally intended to help fund the Affordable Care Act (ACA):

- i. the excise tax on high-cost health plans (Cadillac tax);
- ii. the annual fee on health insurance providers; and
- iii. the medical device excise tax.

Additionally, the financial accounting valuation reflects the following assumption changes based on the FCERS pension report as of June 30, 2023 and the ERFC pension funding report as of December 31, 2023:

- Annual rates of salary increases were updated to reflect more recent experience.
- Rates of Normal Retirement and Early Retirement were updated to reflect more recent experience.
- Rates of withdrawal were updated to reflect more recent experience.
- Rates of disability were updated to reflect more recent experience.
- The mortality table was updated from the RP-2014 Mortality Table using projection scale MP-2016 to Pub-2010, "Teachers" Classification, Mortality Table using projection scale MP-2019 reflect more recent experience.

2. VRS HIC

Changes of benefit terms: There have been no actuarially material changes to the VRS HIC benefit provisions since the prior actuarial valuation.

Changes of assumptions: The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of June 15, 2023. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

3. VRS GLI

Changes of benefit terms: There have been no actuarially material changes to the VRS GLI benefit provisions since the prior actuarial valuation.

Changes of assumptions: The actuarial assumptions used in the June 30, 2023, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of June 15, 2023. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

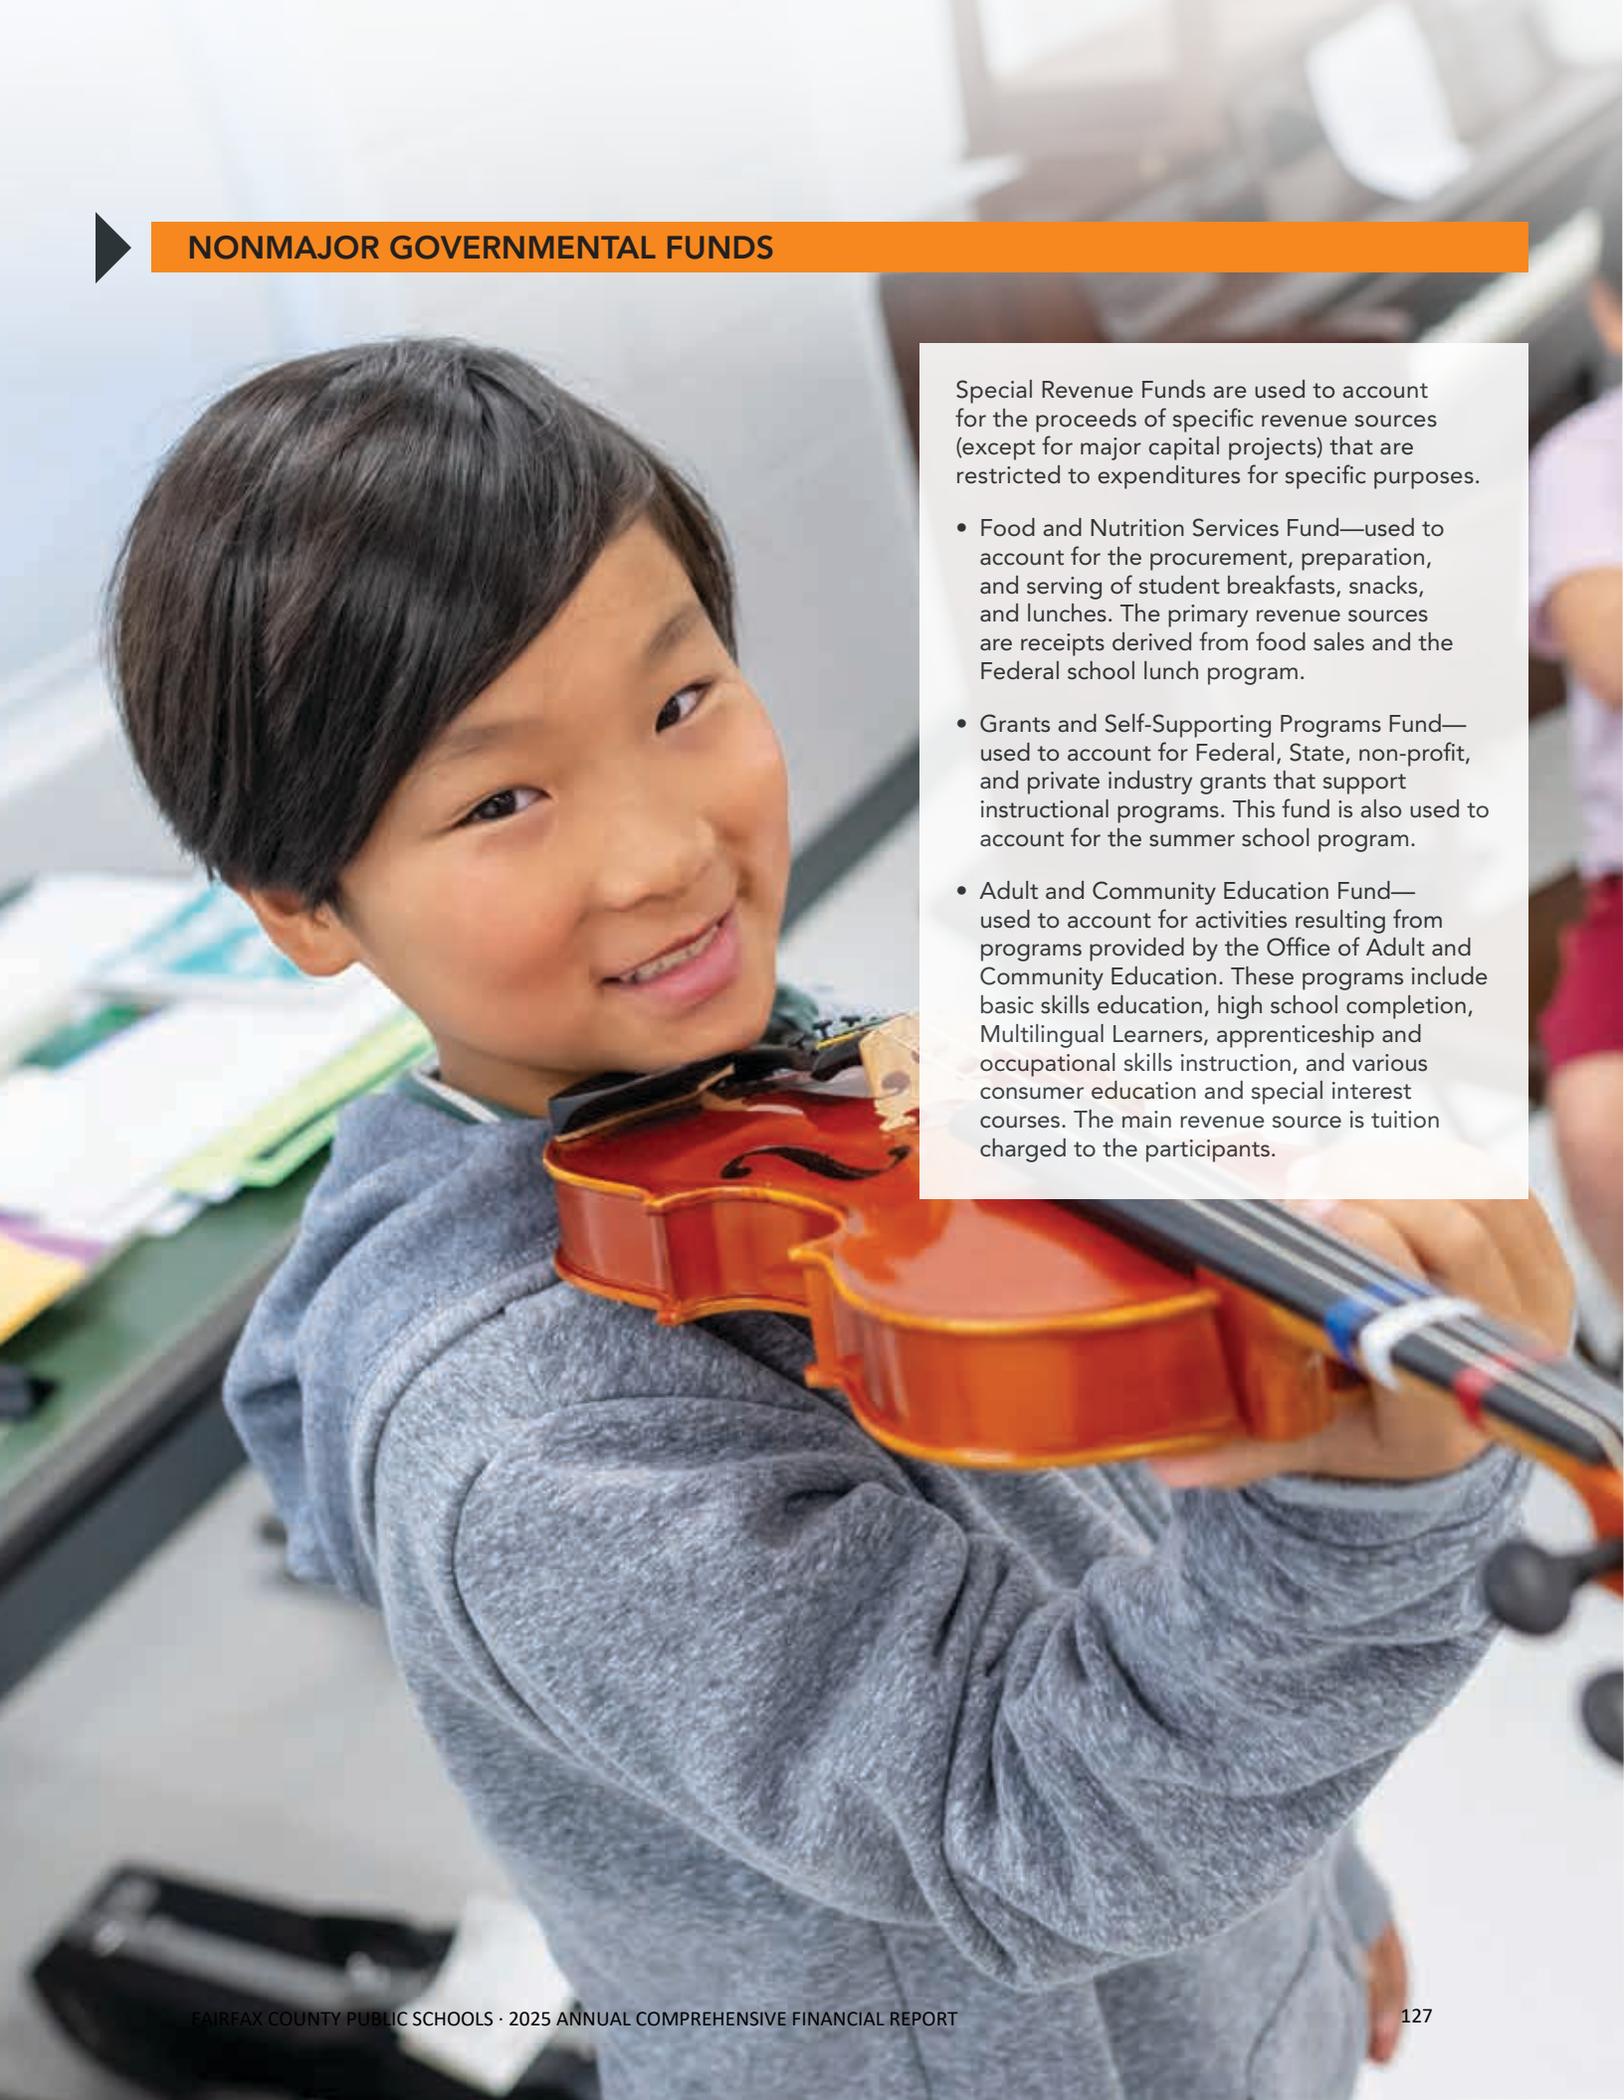

A young man with dark hair and safety glasses is focused on a science experiment. He is wearing a dark blue jacket with a red lining and a white t-shirt underneath. The jacket has a logo that says "NIAGARA FALLS" with a red maple leaf. He is holding a clear plastic U-tube connected to a white apparatus. The background is a classroom with a "BIBS" sign on the wall.

OTHER SUPPLEMENTARY INFORMATION

The Other Supplementary Information subsection includes combining and individual fund statements and schedules for the following:

- Combining statements for the nonmajor governmental funds
- Budgetary comparison schedules for the special revenue funds
- Combining statements for the internal service funds
- Combining statements for the pension and other postemployment benefit funds

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (except for major capital projects) that are restricted to expenditures for specific purposes.

- Food and Nutrition Services Fund—used to account for the procurement, preparation, and serving of student breakfasts, snacks, and lunches. The primary revenue sources are receipts derived from food sales and the Federal school lunch program.
- Grants and Self-Supporting Programs Fund—used to account for Federal, State, non-profit, and private industry grants that support instructional programs. This fund is also used to account for the summer school program.
- Adult and Community Education Fund—used to account for activities resulting from programs provided by the Office of Adult and Community Education. These programs include basic skills education, high school completion, Multilingual Learners, apprenticeship and occupational skills instruction, and various consumer education and special interest courses. The main revenue source is tuition charged to the participants.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by a department to another department on a cost reimbursement basis.

- Health Benefits Fund—a self-insurance fund used to account for the transactions associated with the comprehensive health benefits self-insurance program. This fund also provides for payment of eligible health care and dependent care expenses for employees participating in the flexible spending account program.
- Insurance Fund—a self-insurance fund used to account for Fairfax County Public Schools' casualty liability obligations, including workers' compensation

FIDUCIARY FUNDS

Pension and Other Postemployment Benefit Trust Funds are used to account for assets held by Fairfax County Public Schools (FCPS) in a trustee capacity under terms of a formal trust agreement.

- Educational Employees' Supplementary Retirement System of Fairfax County (ERFC)—used to account for assets held for the members and beneficiaries of ERFC, a single-employer defined benefit pension plan.
- School Other Postemployment Benefit (OPEB) Trust Funds—used to account for accumulating and investing assets for FCPS' postemployment health benefit subsidies for eligible retirees and their surviving spouses. The School OPEB Trust Fund is a single-employer other postemployment defined benefit plan.

The Statistical Section provides financial statement readers with additional historical perspective, content, and detail to assist readers in using the information in the financial statements, including the accompanying notes and the required supplementary information, to understand and assess Fairfax County Public Schools' (FCPS) economic condition. Information is presented in the following five categories:

- Financial Trends—trend information to assist in understanding how FCPS' financial performance has changed over time. (Tables 1-4)
- Revenue Capacity—information to assist in understanding FCPS' most significant own-source revenue, charges for services. (Tables 5-8)
- Debt Capacity—information to assist in understanding FCPS' debt burden. (Table 9)
- Demographic Information—demographic and economic indicators to assist in understanding the environment within which FCPS' financial activities take place. (Tables 10-13)
- Operating Information—service and infrastructure data to assist in understanding the resources used and services provided in FCPS' operations. (Tables 14-19)

(1) See Note III.F in the notes to the financial statements for additional details on FCPS' outstanding debt.

(2) The Code prohibits FCPS from issuing general obligation debt. As a result, the County issues general obligation bonds for FCPS and reports in its financial statements, the general obligation debt related to FCPS. The Code does not impose a legal limit on the amount of long-term indebtedness that the County can incur or have outstanding; however, the County's Board of Supervisors has imposed limits. The County discloses direct and overlapping debt with the Town of Herndon and Town of Vienna in the County's ACFR, Statistical Section, Table 3.3.

(3) See Table 12 for personal income and population totals. The calculations are based on calendar year figures that fall within the fiscal year.

(4) GASB 87 and GASB 96 implementations in fiscal years 2022 and 2023, respectively, resulted in a change to FCPS Debt to include Lease Liability, Notes Payable and Subscription Liability.

Cost per Pupil
Last Ten Fiscal Years
Unaudited

TABLE 11

Fiscal Year	Cost per Pupil (1)	Cost per Pupil (2)
2025	\$ 20,940	\$ 23,474
2024	19,795	21,420
2023	18,772	19,229
2022	16,674	17,498
2021	16,505	18,475
2020	16,043	17,631
2019	15,293	15,886
2018	14,767	15,659
2017	14,432	15,667
2016	13,718	14,500

(1) The regional formula for calculating the cost per pupil is based on General Fund expenditures rather than the government-wide expenses. The computation includes all costs directly associated with an instructional program. Transportation costs are allocated to each program according to the actual costs of providing services.

(2) Calculation is based on the total government-wide expenses divided by the number of students enrolled.
