**Independent Auditors' Report**

---

**To the Honorable Members of  
the City Council of the  
City of Galax, Virginia**

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Galax, Virginia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia, as of and for the year ended June 30, 2022 and the respective changes in financial position, and, where applicable, cash flows thereof for the year ended in accordance with accounting principles generally accepted in the United State of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Galax, Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Change in Accounting Principle***

As described in Note 28 to the financial statements, in 2022, the City of Galax, Virginia adopted new accounting guidance, GASB Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

## ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Galax, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Galax, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Galax, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Galax, Virginia's basic financial statements. The accompanying combining and individual fund financial statements and schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical information but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2022, on our consideration of the City of Galax, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Galax, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Galax, Virginia's internal control over financial reporting and compliance.

*Robinson, Fauser, Cox Associates*

Blacksburg, Virginia

City of Galax, Virginia  
Reconciliation of the Balance Sheet of Governmental Funds  
To the Statement of Net Position  
June 30, 2022

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds \$ 13,609,672

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Capital assets		
Land	\$ 2,931,122	
Buildings and improvements	27,407,691	
Infrastructure	5,313,162	
Machinery and equipment	3,606,632	
Construction in progress	420,903	
Right-to-use capital assets		
Machinery and equipment	108,388	39,787,898

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds. The assets consist of unavailable taxes.

Net pension asset	\$ 665,804	
Leases receivable	16,332	
Unavailable revenue	592,486	1,274,622

Deferred outflows of resources are not available to pay for current-period expenditures and, therefore, are not reported in the funds.

Pension related items	\$ 1,038,678	
OPEB related items	148,044	1,186,722

Internal service funds are used by management to charge the costs of certain activities, such as health insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

38,390

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

Bonds, loans, and lease liabilities	\$ (24,354,708)	
Less: Unamortized charge on advance refunding	26,480	
Accrued interest payable	(250,203)	
Accrued landfill closure/postclosure monitoring liability	(555,933)	
Compensated absences	(398,606)	
Net OPEB liabilities	(487,878)	(26,020,848)

Deferred inflows of resources are not due and payable in the current period and, therefore, are not reported in the funds.

Pension related items	\$ (2,680,220)	
OPEB related items	(296,844)	(2,977,064)

Net position of governmental activities

\$ 26,899,392

The notes to the financial statements are an integral part of this statement.

Issuance of general obligation bonds	1,542,500
Issuance of leases	56,521
Total other financing sources (uses)	<u>\$ 2,630,391</u>
Net change in fund balances	\$ 6,056,297
Fund balances - beginning	7,553,375
Fund balances - ending	<u><u>\$ 13,609,672</u></u>

The notes to the financial statements are an integral part of this statement.

City of Galax, Virginia  
Reconciliation of the Statement of Revenues,  
Expenditures, and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended June 30, 2022

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ 6,056,297

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the details of items supporting this adjustment:

Capital outlays	2,497,770	
Depreciation/amortization expense	(1,357,981)	1,139,789

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.

Disposal of assets	(56,262)	
Transfer of assets (net) to Component Unit-School Board	(428,833)	(485,095)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	\$ (8,457)	
Leases receivable related items	16,332	
Opioid Settlement funds	157,070	
Meals tax	11,876	176,821

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Debt issued or incurred:

Issuance of general obligation bond	\$ (1,542,500)	
Issuance of leases	(56,521)	
Change in accrued landfill closure/postclosure liability	(10,719)	

Principal repayments:

General obligation bonds and literary fund loans	493,500	
Lease liabilities	48,081	(1,068,159)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Change in compensated absences	\$ (20,488)	
Decrease (increase) in arbitrage rebate liability		
Change in accrued interest payable	(329)	
Amortization of deferred charge on refunding	(2,303)	
Amortization of issuance costs		
Change in pension related items	338,237	
Change in OPEB related items	19,688	334,805

Internal service funds are used by management to charge the costs of certain activities, such as health insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

23,152

Change in net position of governmental activities

\$ 6,177,610

The notes to the financial statements are an integral part of this statement.

CITY OF GALAX, VIRGINIA

NOTES TO THE FINANCIAL STATEMENTS  
JUNE 30, 2022

---

**Note 1-Summary of Significant Accounting Policies:**

The financial statements of the City of Galax, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

**A. Financial Reporting Entity**

The City of Galax, Virginia (government) is a political subdivision of the Commonwealth of Virginia governed by an elected seven-member City Council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the City's discretely presented component units.

The Galax City School Board ("the School Board") operates the elementary and secondary public schools in the City. School Board members are appointed by City Council. The School Board is fiscally dependent upon the City because the City approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue separate financial statements.

The Galax City Industrial Development Authority ("the IDA") encourages and provides financing for industrial development in the City. The IDA directors are appointed by the City Council. The IDA is fiscally dependent upon the City because the City provides significant funding and approves all debt issuances. In addition, the IDA does not have separate taxing powers. The IDA is authorized to acquire, own, lease, and dispose of properties to the extent that such activities foster and stimulate industrial development. The IDA is presented as an enterprise fund type and does not issue separate financial statements.

Jointly Governed Organizations - The following entities are excluded from the accompanying financial statements:

The Galax-Carroll Regional Library was created by the City and the County of Carroll. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The City contributed \$238,052 to the Library for the current year. The City provides accounting services (payroll services) for this organization.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

**A. Financial Reporting Entity (Continued)**

The City and the Counties of Carroll and Grayson participate in the Twin County E-911 Commission. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The City contributed \$103,798 to the Commission for the current year. The City provides accounting services (payroll services) for this organization.

The City and the County of Grayson participate in supporting the Galax-Grayson Ambulance Service. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The organization's activities are primarily supported by user charges; however, the City provided a contribution of \$188,024 during the fiscal year. The City provides accounting services (payroll services) for this organization.

The City and the Counties of Carroll and Grayson participate in the Regional Solid Waste Authority. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. Each jurisdiction provides collection of solid waste and recyclables from within its jurisdiction and delivers the collected materials to the Waste Authority. Operations are financed by tipping fees and the individual jurisdictions are required to fund any annual deficit(s). The City paid \$152,066 in tipping fees during the current year.

The City and the Counties of Carroll and Grayson participate in The Wired Road Authority. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The primary purpose of the Authority is to develop and construct broadband infrastructure in the participating localities and then lease that infrastructure to third parties. The organization's activities are to be primarily supported by lease revenue.

The City and Counties of Carroll and Grayson participate in The Twin County Airport Commission. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. The Commission is charged with operating the Twin County Regional Airport. During the current year, the City contributed \$53,560 to the Commission. The City has also entered into an agreement with The Twin County Airport Commission to be responsible for a one-third share of their debt service for hangar construction. The commitment could be reduced based on potential revenue from hangar rentals.

*Remainder of page left blank intentionally.*

**Note 1-Summary of Significant Accounting Policies: (Continued)**

A. Financial Reporting Entity (Continued)

Blue Ridge Crossroads Economic Development Authority (BRCEDA) is the regional industrial facilities authority that represents the City and the Counties of Carroll and Grayson. Each jurisdiction appoints two members and an alternate member. A moral obligation for debt service is currently in place for a regional project known as Wildwood. Contributions to BRCEDA during the current year were \$145,200. It is the hope of BRCEDA that this park project will be a catalyst for economic development in the region.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of net position is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide statement of net position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide, proprietary, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the City.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental fund:

The *General Fund* is the government's primary operating fund. It is used to account for and report for all financial resources of the general government, except those required to be accounted for and reported in other funds.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

The government reports the following major proprietary funds:

The *Water and Sewer Fund* accounts for the activities of the City's water and sewer system, which includes water distribution and sewage collections systems throughout the City.

The *Stormwater Fund* accounts for the activities of the City's stormwater system, which includes improvements to the rain and runoff collection systems.

The *Internal Service Fund* accounts for and reports the financing of goods and services provided by one department or agency to other departments or agencies of the City government. The self-insured health insurance plan is accounted for and reported in this fund.

Additionally, the government reports the following fund types:

*Fiduciary funds* account for and report assets held by the government in a trustee capacity or as custodian for individuals, private organizations, other governmental units, or other funds. The *Special Welfare* fund is a custodial fund of the City. Fiduciary funds are not included in the government-wide financial statements.

The School Board reports the following major fund:

The *School Operating Fund* is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from appropriations from the City and state and federal grants.

The School Board reports the following nonmajor fund:

The *School Activity Fund* accounts for and reports all funds received from extracurricular school activities, such as entertainment, athletic contests, club dues, fundraisers, etc., and from any and all activities of the individual schools.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services and for insurance premiums. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, depreciation on capital assets, and insurance claims and expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance

1. Cash and cash equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits, and short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

2. Prepaid items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

3. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

4. Inventories

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

5. Capital assets

Capital assets are tangible and intangible assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, except for infrastructure assets, are defined by the City and Component Unit School Board as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years.

As the City and Component Unit School Board constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost (except for intangible right-to-use lease assets (lease assets), the measurement of which is discussed in more detail below). The reported value excludes normal maintenance and repairs, which are amounts spent in relation to capital assets that do not increase the asset's capacity or efficiency or increases its estimated useful life. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Land and construction in progress are not depreciated. The other tangible and intangible property, plant equipment, lease assets, and infrastructure of the primary government, as well as the component unit, are depreciated/amortized using the straight-line method over the following estimated useful lives:

<b>Assets</b>	<b>Years</b>
Infrastructure	20-50
Buildings and improvements	20-40
Machinery and equipment	4-15
Right-to-use assets	
Machinery and equipment	3-10

6. Restricted Assets

Restricted assets consist of cash and cash equivalents that are legally restricted for use by enabling state legislation. In addition, restricted assets consist of cash and cash equivalents held for customer deposits.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

7. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item is comprised of certain items pension and OPEB. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes, meals tax, and opioid settlement receivables are reported in the governmental funds balance sheet. These amounts are comprised of uncollected property taxes, meals tax, and opioid settlement proceeds due prior to June 30 and prepaid taxes, which are deferred and recognized as an inflow of resources in the period that the amounts become available. Under the accrual basis, amounts prepaid are reported as deferred inflows of resources. In addition, certain items related to pensions, OPEB, and leases are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

9. Property Taxes

Property is assessed at its value on January 1. Real estate taxes are payable on December 5<sup>th</sup>. Personal property taxes are due and collectible annually on December 5<sup>th</sup>. Liens may be placed on property taxes that are uncollected after the due date, December 5<sup>th</sup>. The City bills and collects its own property taxes.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

10. Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$246,845 at June 30, 2022. The allowance consists of delinquent taxes in the amount of \$191,946; delinquent meals tax of \$15,993; and delinquent water, sewer, and garbage bills of \$38,906.

11. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

12. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

13. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's Retirement Plan and the additions to/deductions from the City's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

14. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI, Teacher HIC, and HIC OPEB Plans and the additions to/deductions from the VRS OPEB Plans' net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

15. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

16. Fund balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called "fund balance." City's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes:

Nonspendable fund balance - amounts that are either not in spendable form (such as inventory and prepaids) or are legally or contractually required to be maintained intact (corpus of a permanent fund);

Restricted fund balance - amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers;

Committed fund balance - amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the City Council prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Council adopts another ordinance to remove or revise the limitation;

Assigned fund balance - amounts a government intends to use for a specific purpose but do not meet the criteria to be classified as committed; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment;

Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

16. Fund balance (Continued)

When fund balance resources are available for a specific purpose in more than one classification, it is the City's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of a ordinance. This is typically done through adoption and amendment of the budget. A fund balance commitment, which does not lapse at year end, is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

17. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

18. Net position flow assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

**Note 1-Summary of Significant Accounting Policies: (Continued)**

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

19. Leases

The City leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term lease, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

*Lessee*

The City recognizes lease liabilities and intangible right-to-use lease assets (lease assets) with an initial value of \$5,000, individually or in the aggregate in the government-wide financial statements. At the commencement of the lease, the lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease liability is reduced by the principal portion of payments made. The lease asset is measured at the initial amount of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. The lease asset is amortized over the shorter of the lease term or the useful life of the underlying asset.

*Lessor*

The City recognizes leases receivable and deferred inflows of resources in the government-wide and governmental fund financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

*Key Estimates and Judgments*

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate stated in lease contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by options to extend to reflect how long the lease is expected to be in effect, with terms and conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease liability (lessee) or lease receivable (lessor).

The City monitors changes in circumstances that would require a remeasurement or modification of its leases. The City will remeasure the lease asset and liability (lessee) or the lease receivable and deferred inflows of resources (lessor) if certain changes occur that are expected to significantly affect the amount of the lease liability or lease receivable.

**Note 2-Stewardship, Compliance, and Accountability:**

**A. Budgetary information**

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the City Manager submits to the City Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The following funds have legally adopted budgets: General Fund, Enterprise Fund and the School Operating Fund.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. Only the City Council can revise the appropriation for each fund. The City Manager is authorized to transfer budgeted amounts within general government functions; however, the School Board is authorized to transfer budgeted amounts within the school fund.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund. The School Fund is integrated only at the level of legal adoption.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. Appropriations lapse on June 30 for all City units.
8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the City's accounting system.

**B. Excess of expenditures over appropriations**

The City monitors appropriations by fund and for the year ended June 30, 2022, expenditures were below appropriations for all funds.

**C. Deficit fund balance**

At June 30, 2022, there were no funds with negative balance.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 3-Deposits and Investments:**

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”), Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments: Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper that has received at least two of the following ratings: P-1 by Moody’s Investors Service, Inc.; A-1 by Standard and Poor’s; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker’s acceptances, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP).

Interest Rate Risk

The City has not adopted an investment policy for interest rate risk. Investments subject to interest rate risk are presented below along with their corresponding maturities.

<b>Investment Maturities (in years)</b>		
<b>Investment Type</b>	<b>Fair Value</b>	<b>1 Year</b>
Local Government Investment Pool	\$ 1,441,574	\$ 1,441,574
Local Government Investment Pool EM	120,324	120,324
Certificates of Deposit	66,589	66,589
Totals	\$ 1,628,487	\$ 1,628,487

Custodial Credit Risk

At year end, the City was not exposed to any custodial credit risk for deposits or investments. The City limits deposits to those banks fully collateralized under the Commonwealth’s Security for Public Deposits Act. The City policy in regards to investments requires that all investments be held in the City’s name.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 3-Deposits and Investments: (Continued)**

External Investment Pool

The fair value of the positions in the external investment pool (Local Government Investment Pool (LGIP)) is the same as the value of the pool shares. As LGIP is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP is an amortized cost basis portfolio. There are no withdrawal limitations or restrictions imposed on participants.

Credit Risk of Debt Securities

The City's rated debt investments as of June 30, 2022 were rated by Standard and Poor's and/or an equivalent national rating organization and the ratings are presented below using the Standard and Poor's rating scale.

City's Rated Debt Investments' Values

Rated Debt Investments	Fair Quality Ratings	
	AAAm	AAAf
Local Government Investment Pool	\$ 1,441,574	\$ -
Local Government Investment Pool EM	-	120,324

**Note 4-Fair Value Measurements:**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The City maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1. Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at a measurement date
- Level 2. Directly or indirectly observable inputs for the asset or liability other than quoted prices
- Level 3. Unobservable inputs that are supported by little or no market activity for the asset or liability

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 4-Fair Value Measurements: (Continued)**

(If there has been a change in valuation technique that has a significant effect on the result (e.g., changing from an expected cash flow technique or the use of an additional valuation technique), document that specific change, and the reason(s) for making it.)

The City has the following recurring fair value measurements as of June 30, 2022:

		Fair Value Measurement Using Quoted Prices in Active Markets for Identical Assets (Level 1)	
Investment	6/30/2022		
Local Government Investment Pool EM		\$	120,324

**Note 5-Due from Other Governmental Units:**

The following amounts represent amounts due from other governments at year-end:

	Primary Government Governmental Activities	Component Unit- School Board
Due from other local government agencies	\$ -	\$ 166,040
Commonwealth of Virginia:		
Local sales tax	490,512	-
Categorical aid-State sales tax	-	140,022
Categorical aid-Shared expenses	36,533	-
Categorical aid-Other	5,481	146,368
Non-categorical aid	82,513	-
Categorical aid-Virginia Public Assistance	43,889	-
Categorical aid-Comprehensive Services Act	23,789	-
Federal Government:		
Categorical aid-Virginia Public Assistance	122,403	-
Categorical aid-Other	1,277,726	1,911,967
Totals	\$ 2,082,846	\$ 2,364,397

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 6-Component Unit Contribution and Obligations:**

Primary government contributions to component units for the year ended June 30, 2022, consisted of payments to School Board of \$3,994,330 and IDA of \$8,540.

Component unit obligations at June 30, 2022, consisted of the following:

<u>Fund</u>	<u>Due From</u>	<u>Due To</u>
Primary Government:		
Governmental Activities	\$ -	\$ 8,255
Component Unit:		
IDA	8,255	-
Total	<u>\$ 8,255</u>	<u>\$ 8,255</u>

**Note 7-Interfund Transfers and Balance:**

Interfund transfers for the year ended June 30, 2022, consisted of the following:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Primary Government:		
General Fund	\$ 1,231,370	\$ 200,000
Water and Sewer Fund	200,000	1,213,155
Stormwater Fund	-	18,215
Component Unit - School Board:		
School Operating Fund	\$ 9,231	\$ 32,567
School Activity Fund	32,567	9,231
Total	<u>\$ 1,473,168</u>	<u>\$ 1,473,168</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 7-Interfund Transfers and Balance: (Continued)**

Interfund balances at year end represent amounts that have been transferred between funds in a lending or borrowing capacity and are expected to be repaid by current administration. Interfund balances for the year ended June 30, 2022, consisted of the following:

<u>Fund</u>	<u>Due From</u>	<u>Due To</u>
Primary Government:		
General Fund	\$ 511,395	\$ -
Water and Sewer Fund	-	511,395
Total	<u>\$ 511,395</u>	<u>\$ 511,395</u>

**Note 8-Long-Term Obligations:****Primary Government - Governmental Activities Obligations:**

The following is a summary of long-term obligation transactions of the City for the year ended June 30, 2022.

	<u>Balance July 1, 2021</u>	<u>GASB No. 87 Adjustment</u>	<u>Increases/ Issuances</u>	<u>Decreases/ Retirements</u>	<u>Balance June 30, 2022</u>
Direct borrowings and placements:					
General obligation bonds	\$ 23,196,657	\$ -	\$ 1,542,500	\$ (493,500)	\$ 24,245,657
Lease liabilities	-	100,611	56,521	(48,081)	109,051
Landfill closure/postclosure liability	545,214	-	10,719	-	555,933
Compensated absences	378,118	-	322,982	(302,494)	398,606
Net OPEB liabilities	786,139	-	123,103	(421,364)	487,878
Net pension liability <sup>1</sup>	2,633,394	-	3,223,496	(5,856,890)	-
Total	<u>\$ 27,539,522</u>	<u>\$ 100,611</u>	<u>\$ 5,279,321</u>	<u>\$ (7,122,329)</u>	<u>\$ 25,797,125</u>

<sup>1</sup>Beginning balance was a net pension liability; however, the ending balance is a net pension asset

For governmental activities, compensated absences and the landfill closure/postclosure liability are generally liquidated in the General Fund.

Loans from the Virginia Resources Authority (VRA) are governed by rate covenants, which require the City to maintain an annual debt service coverage ratio of 115%. For the year ended June 30, 2022, the City was in compliance with this coverage ratio.

If an event of default occurs with VRA or RD bonds, the principal of the bond(s) may be declared immediately due and payable to the registered owner of the bond(s) by written notice to the City.

**Discretely Presented Component Unit - IDA Obligations:**

At June 30, 2022, the IDA had no long-term obligations.

**Note 10-Pension Plans:**

***Plan Description***

All full-time, salaried permanent employees of the City and (nonprofessional) employees of the public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. However, several entities whose financial information is not included in the primary government report, participate in the VRS plan through the City of Galax and the participating entities report their proportionate information on the basis of a cost-sharing plan. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

***Benefit Structures***

The System administers three different benefit structures for covered employees - Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.

**Note 10-Pension Plans: (Continued)**

***Benefit Structures (Continued)***

- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 - April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

***Average Final Compensation and Service Retirement Multiplier***

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

***Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits***

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

***Contributions***

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 10-Pension Plans: (Continued)**

***Contributions (Continued)***

The City's contractually required employer contribution rate for the year ended June 30, 2022 was 7.71% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$449,015 and \$433,317 for the years ended June 30, 2022 and June 30, 2021, respectively.

***Net Pension Asset***

At June 30, 2022, the City reported an asset of \$825,604 for its proportionate share of the net pension liability. The City's net pension asset was measured as of June 30, 2021. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. In order to allocate the net pension liability to all employers included in the plan, the City is required to determine its proportionate share of the net pension liability. Contributions as of June 30, 2021 and 2020 was used as a basis for allocation to determine the City's proportionate share of the net pension asset. At June 30, 2021 and 2020, the City's proportion was 80.08% and 81.46%, respectively.

***Actuarial Assumptions - General Employees***

The total pension liability for General Employees in the City of Galax's Retirement Plan and the Component Unit Schools Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation	3.50% - 5.35%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

**Mortality rates:**

All Others (Non-10 Largest) - Non-Hazardous Duty: 15% of deaths are assumed to be service related

**Pre-Retirement:**

Pub-2010 Amount Weighted Safety Employee projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

**Post-Retirement:**

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)*****Actuarial Assumptions - General Employees (Continued)***

## Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95 of rates for males set back 3 years; 90% of rates for females set back 3 years

## Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

## Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

## All Others (Non-10 Largest) - Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

**Note 10-Pension Plans: (Continued)*****Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits***

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the City of Galax's Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation	3.50% - 4.75%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

**Mortality rates:**

All Others (Non-10 Largest) - Hazardous Duty: 45% of deaths are assumed to be service related

**Pre-Retirement:**

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)*****Long-Term Expected Rate of Return***

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Long-Term Target Asset Allocation</u>	<u>Arithmetic Long-term Expected Rate of Return</u>	<u>Weighted Average Long-term Expected Rate of Return*</u>
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS - Multi-Asset Public Strategies	6.00%	3.29%	0.20%
PIP - Private Investment Partnership	3.00%	6.84%	0.21%
Total	<u>100.00%</u>		<u>4.89%</u>
		Inflation	<u>2.50%</u>
		Expected arithmetic nominal return*	<u>7.39%</u>

\* The above allocation provides a one-year expected return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

\*On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 40<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)*****Discount Rate***

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the City and Component Unit School Board (Nonprofessional) was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2021, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever was greater. Through the fiscal year ending June 30, 2021, the rate contributed by the school division for the VRS Teacher Retirement Plan was subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, participating employers and school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

***Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate***

The following presents the City's proportionate share of the net pension liability (asset) using the discount rate of 6.75%, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease (5.75%)	Discount (6.75%)	1% Increase (7.75%)
City's proportionate share of the City Retirement Plan Net Pension Liability (Asset)	\$ 2,619,042	\$ (825,604)	\$ (3,676,767)

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)*****Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended June 30, 2022, the City recognized pension expense of \$24,729. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Primary Government</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 158,494	\$ 277,224
Change in assumptions	675,658	-
Change in proportionate share	3,551	43,165
Net difference between projected and actual earnings on pension plan investments	-	3,038,424
Employer contributions subsequent to the measurement date	449,015	-
Total	<u>\$ 1,286,718</u>	<u>\$ 3,358,813</u>

\$449,015 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction/increase of the Net Pension Liability/Asset in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

<b>Year ended June 30</b>	<b>Primary Government</b>
2023	\$ (366,443)
2024	(512,160)
2025	(715,827)
2026	(926,680)
Thereafter	-

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)*****Pension Plan Data***

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2021-annual-report-pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

**Component Unit School Board (Nonprofessional)**

Additional information related to the plan description, plan contribution requirements, actuarial assumptions, long-term expected rate of return, and discount rate is included in the first section of this note.

***Employees Covered by Benefit Terms***

As of the June 30, 2020 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<b><u>Component Unit School Board Nonprofessional</u></b>
Inactive members or their beneficiaries currently receiving benefits	20
Inactive members:	
Vested inactive members	5
Non-vested inactive members	9
Inactive members active elsewhere in VRS	<u>7</u>
Total inactive members	21
Active members	<u>26</u>
Total covered employees	<u><u>67</u></u>

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 10-Pension Plans: (Continued)**

**Component Unit School Board (Nonprofessional) (Continued)**

***Contributions***

The Component Unit School Board's contractually required employer contribution rate for nonprofessional employees for the year ended June 30, 2022 was 3.85% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$29,561 and \$24,062 for the years ended June 30, 2022 and June 30, 2021, respectively.

***Net Pension Asset***

The net pension asset (NPA) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The Component Unit School Board's (nonprofessional) net pension asset was measured as of June 30, 2021. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021.

Employer contributions subsequent to the measurement date	<u>29,561</u>	<u>-</u>
Total	\$ <u>74,305</u>	\$ <u>364,795</u>

\$29,561 reported as deferred outflows of resources related to pensions resulting from the Component Unit School Board's (nonprofessional) contributions subsequent to the measurement date will be recognized as an increase of the net pension asset in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

<b><u>Year ended June 30</u></b>	<b><u>Component Unit School Board (nonprofessional)</u></b>
2023	\$ (97,521)
2024	(64,817)
2025	(68,327)
2026	(89,386)
Thereafter	-

**Note 10-Pension Plans: (Continued)**

**Component Unit School Board (Professional)**

***Plan Description***

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information regarding the plan description is included in the first section of this note.

***Contributions***

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2022 was 16.15% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School Board were \$1,340,591 and \$1,205,724 for the years ended June 30, 2022 and June 30, 2021, respectively.

In June 2021, the Commonwealth made a special contribution of approximately \$61.3 million to the VRS Teacher Retirement Plan. This special payment was authorized by a budget amendment included in Chapter 552 of the 2021 Appropriation Act, and is classified as a non-employer contribution.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2022, the school division reported a liability of \$6,620,369 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2021 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the school division's proportion was 0.08528% as compared to 0.08550% at June 30, 2020.

For the year ended June 30, 2022, the school division recognized pension expense of \$(56,718). Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

**Component Unit School Board (Professional) (Continued)**

***Actuarial Assumptions***

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation	3.50% - 5.95%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

**Mortality rates:**

**Pre-Retirement:**

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

**Post-Retirement:**

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

**Post-Disablement:**

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

**Beneficiaries and Survivors:**

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

**Mortality Improvement:**

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

*Remainder of page left blank intentionally.*

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)****Component Unit School Board (Professional) (Continued)*****Actuarial Assumptions (Continued)***

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

***Net Pension Liability***

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2021, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

		<b><u>Teacher Employee Retirement Plan</u></b>
Total Pension Liability	\$	53,381,141
Plan Fiduciary Net Position		<u>45,617,878</u>
Employers' Net Pension Liability (Asset)	\$	<u><u>7,763,263</u></u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability		85.46%

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 10-Pension Plans: (Continued)****Component Unit School Board (Professional) (Continued)*****Net Pension Liability (Continued)***

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

The long-term expected rate of return and discount rate information previously described also apply to this plan.

***Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate***

The following presents the school division's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	(5.75%)	(6.75%)	(7.75%)
School division's proportionate share of the VRS Teacher Employee Retirement Plan Net Pension Liability	\$ 12,776,955	\$ 6,620,369	\$ 1,555,756

***Pension Plan Fiduciary Net Position***

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2021-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

School Board Professional	-	-	-	-	2,500,462	5,117,651	6,620,369	(56,718)
Totals	<u>\$ 1,286,718</u>	<u>\$ 3,358,813</u>	<u>\$ (825,604)</u>	<u>\$ 24,729</u>	<u>\$ 2,574,767</u>	<u>\$ 5,482,446</u>	<u>\$ 6,302,516</u>	<u>\$ (203,581)</u>

**Note 11-Other Postemployment Benefits - City Health Insurance:*****Plan Description***

In addition to the pension benefits described in Note 10, the City administers a cost-sharing defined benefit healthcare plan. Several entities participate in the defined benefit healthcare plan through the City and the participating entities report their proportionate information on the basis of a cost-sharing plan. The plan provides postemployment health care benefits to all eligible permanent employees who meet the requirements under the City's pension plans. The plan does not issue a publicly available financial report.

***Benefits Provided***

Postemployment benefits are provided to eligible retirees consisting of medical insurance. The benefits that are provided for active employees are the same for eligible retirees, spouses and dependents of eligible retirees. An eligible City retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 10 years of service with the City and the employee must be eligible to retire from the City under the Virginia Retirement System. The benefits, employee contributions and the employer contributions are governed by the City Council and can be amended through Council action.

***Contributions***

The Council does not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the City Council. The amount paid by the City for OPEB as the benefits came due during the year ended June 30, 2022 was \$14,488.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 11-Other Postemployment Benefits - City Health Insurance: (Continued)**

***Total OPEB Liability***

At June 30, 2022, the City reported a liability of \$292,624 for its proportionate share of the total OPEB liability. The City's total OPEB liability was measured as of June 30, 2021. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to the measurement date of June 30, 2021. At June 30, 2021, the City's proportionate share of total OPEB liability was 80.0833% as compared to 81.4596% at June 30, 2020.

***Actuarial Assumptions***

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Healthcare cost trend rate	6.7% for FY2022, gradually decreasing over several decades to an ultimate rate of 3.7% in FY2075 and later years.
Discount Rate	1.92%

Mortality rates were based on the RP-2014 mortality tables with projected mortality improvements on scale MP-2015, and other adjustments.

The date of the most recent actuarial experience study for which significant assumptions were based is not available.

***Discount Rate***

Per GASB guidance, the single rate that produces the same present value of expected benefit payments as (1) expected long-term rate of return on plan assets during the period when projected assets are sufficient to pay future retiree benefits, and (2) the 20-year municipal bond rate after assets are projected to be exhausted. Fidelity 20-Year Municipal GO AA Index was used because it meets the GASB requirements and is based on a large amount of municipal security data.

***Sensitivity of the City's Proportionate Share of the Total OPEB Liability to Changes in the Discount Rate***

The following amounts present the total OPEB liability of the City, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (0.92%) or one percentage point higher (2.92%) than the current discount rate:

Rate		
1% Decrease (0.92%)	Current Discount Rate (1.92%)	1% Increase (2.92%)
\$ 259,477	\$ 292,624	\$ 269,505

**Note 11-Other Postemployment Benefits - City Health Insurance: (Continued)*****Sensitivity of the City's Proportionate Share of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates***

The following presents the total OPEB liability of the City, as well as what the total OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (5.70% decreasing to an ultimate rate of 2.70%) or one percentage point higher (7.70% decreasing to an ultimate rate of 4.70%) than the current healthcare cost trend rates:

Rates		
Healthcare Cost		
1% Decrease (5.70% decreasing to 2.70%)	Trend (6.70% decreasing to 3.70%)	1% Increase (7.70% decreasing to 4.70%)
\$ 259,477	\$ 292,624	\$ 331,575

***OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources***

For the year ended June 30, 2022, the City recognized OPEB expense in the amount of \$13,410. At June 30, 2022 the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 138,096
Changes in assumptions	67,860	99,831
Employer contributions subsequent to the measurement date	14,488	-
Total	\$ 82,348	\$ 237,927

\$14,488 reported as deferred outflows of resources related to OPEB resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ended June 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense in future reporting periods as follows:

Year Ended June 30	
2023	\$ (33,141)
2024	(32,665)
2025	(29,931)
2026	(36,120)
2027	(38,210)

(Continued)***

Additional disclosures on changes in total OPEB liability, related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

**Note 12-Other Postemployment Benefits - School Board Health Insurance:**

***Plan Description***

In addition to the pension benefits described in Note 10, the School Board administers a single-employer defined benefit healthcare plan, The Galax City Public Schools Other Postemployment Benefits Plan. The plan provides postemployment health care benefits to all eligible permanent employees who meet the requirements under the School Board's pension plans. The plan does not issue a publicly available financial report.

***Benefits Provided***

Postemployment benefits are provided to eligible retirees include Medical insurance. The benefits that are provided for active employees are the same for eligible retirees, spouses and dependents of eligible retirees. An eligible School Board retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 10 years of service with the School Board and the employee must be eligible to retire from the School Board under the Virginia Retirement System. The benefits, employee contributions and the employer contributions are governed by the School Board and can be amended through School Board action. The plan is closed to new entrants.

***Plan Membership***

At June 30, 2021 (measurement date), the following employees were covered by the benefit terms:

Total active employees with coverage	156
Total active employees without coverage	47
Total retirees with coverage	<u>7</u>
Total	<u><u>210</u></u>

***Contributions***

The board does not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the School Board. The amount paid by the School Board for OPEB as the benefits came due during the year ended June 30, 2021 was \$41,205.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 12-Other Postemployment Benefits - School Board Health Insurance: (Continued)**

***Total OPEB Liability***

The School Board’s total OPEB liability was measured as of June 30, 2021. The total OPEB liability was determined by an actuarial valuation as of June 30, 2020.

***Actuarial Assumptions***

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Healthcare cost trend rate	6.7% for FY2022, gradually decreasing over several decades to an ultimate rate of 3.7% in FY2075 and later years.
Discount Rate	1.92%

Mortality rates were based on the RP-2014 mortality tables with projected mortality improvements on scale MP-2015, and other adjustments.

The date of the most recent actuarial experience study for which significant assumptions were based is not available.

***Discount Rate***

Per GASB guidance, the single rate that produces the same present value of expected benefit payments as (1) expected long-term rate of return on plan assets during the period when projected assets are sufficient to pay future retiree benefits, and (2) the 20-year municipal bond rate after assets are projected to be exhausted. Fidelity 20-Year Municipal GO AA Index was used because it meets the GASB requirements and is based on a large amount of municipal security data.

(Continued)***

\$44,258 reported as deferred outflows of resources related to OPEB resulting from the School Board's estimated contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ended June 30, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense in future reporting periods as follows:

<u>Year Ended June 30</u>	
2023	\$ 14,751
2024	14,751
2025	15,291
2026	17,243
2027	17,421
Thereafter	(46,936)

Additional disclosures on changes in total OPEB liability, related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan):*****Plan Description***

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***Eligible Employees***

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

***Benefit Amounts***

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. It will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,722 as of June 30, 2022.

***Contributions***

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% ( $1.34\% \times 60\%$ ) and the employer component was 0.54% ( $1.34\% \times 40\%$ ). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2022 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the Group Life Insurance Plan from the City were \$31,376 and \$29,910 for the years ended June 30, 2022 and June 30, 2021, respectively.

Contributions to the Group Life Insurance Plan from the Component Unit School Board (Nonprofessional) were \$4,146 and \$3,225 for the years ended June 30, 2022 and June 30, 2021, respectively.

Contributions to the Group Life Insurance Plan from the Component Unit School Board (Professional) were \$44,865 and \$40,652 for the years ended June 30, 2022 and June 30, 2021, respectively.

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB***

***Primary Government Group Life Insurance Plan***

At June 30, 2022, the entity reported a liability of \$312,350 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2021 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the participating employer's proportion was 0.0290% as compared to 0.0261% at June 30, 2020.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$15,205. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

***Component Unit School Board (Nonprofessional) Group Life Insurance Plan***

At June 30, 2022 the entity reported a liability of \$33,647 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2021 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the participating employer's proportion was 0.0029% as compared to 0.0026% at June 30, 2020.

For the year ended June 30, 2022, the participating employer recognized GLI OPEB expense of \$1,931. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

***Component Unit School Board (Professional) Group Life Insurance Plan***

At June 30, 2022, the entity reported a liability of \$424,727 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2021 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the participating employer's proportion was 0.0365% as compared to 0.0360% at June 30, 2020.

For the year ended June 30, 2022, the participating employer recognized GLI OPEB expense of \$10,472. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

JUNE 30, 2022

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Program OPEB (Continued)***

At June 30, 2022, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	Primary Government		Component Unit School Board (nonprofessional)		Component Unit School Board (professional)	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 35,625	\$ 2,380	\$ 3,838	\$ 256	\$ 48,442	\$ 3,236
Net difference between projected and actual earnings on GLI OPEB program investments	-	74,551	-	8,031	-	101,373
Change in assumptions	17,220	42,737	1,855	4,604	23,415	58,112
Changes in proportionate share	16,581	10,495	3,862	928	7,040	25,812
Employer contributions subsequent to the measurement date	31,376	-	4,146	-	44,865	-
Total	\$ 100,802	\$ 130,163	\$ 13,701	\$ 13,819	\$ 123,762	\$ 188,533

\$31,376, \$4,146, and \$44,865 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ended June 30	Primary Government	Component Unit School Board (nonprofessional)	Component Unit School Board (professional)
2023	\$ (16,007)	\$ (1,105)	\$ (27,852)
2024	(12,542)	(731)	(22,273)
2025	(10,817)	(715)	(19,744)
2026	(19,979)	(1,935)	(34,047)
2027	(1,392)	222	(5,720)
Thereafter	-	-	-

***Actuarial Assumptions***

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021. The assumptions include several employer groups as noted below. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

Inflation	2.50%
Salary increases, including inflation:	
Teachers	3.50%-5.95%
Locality - General employees	3.50%-5.35%
Locality - Hazardous Duty employees	3.50%-4.75%
Investment rate of return	6.75%, net of investment expenses, including inflation

**Mortality Rates - Teachers**

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110 of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***Actuarial Assumptions: (Continued)***

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

**Mortality Rates - Non-Largest Ten Locality Employers - General Employees**

**Pre-Retirement:**

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; males set forward 2 years; 105% of rates for females set forward 3 years

**Post-Retirement:**

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 95% of rates for males set forward 2 years; 95% of rates for females set forward 1 year

**Post-Disablement:**

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 110% of rates for males set forward 3 years; 110% of rates for females set forward 2 years

**Beneficiaries and Survivors:**

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally

**Mortality Improvement Scale:**

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75 of the MP-2020 rates

**NET GLI OPEB Liability**

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2021, NOL amounts for the GLI Plan is as follows (amounts expressed in thousands):

	<b>GLI OPEB Plan</b>
Total GLI OPEB Liability	\$ 3,577,346
Plan Fiduciary Net Position	2,413,074
GLI Net OPEB Liability (Asset)	<u>\$ 1,164,272</u>
Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability	67.45%

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

**NET GLI OPEB Liability (Continued)**

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

**Long-Term Expected Rate of Return**

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class (Strategy)</b>	<b>Long-Term Target Asset Allocation</b>	<b>Arithmetic Long-term Expected Rate of Return</b>	<b>Weighted Average Long-term Expected Rate of Return*</b>
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS - Multi-Asset Public Strategies	6.00%	3.29%	0.20%
PIP - Private Investment Partnership	3.00%	6.84%	0.21%
Total	<u>100.00%</u>		<u>4.89%</u>
		Inflation	<u>2.50%</u>
		Expected arithmetic nominal return*	<u>7.39%</u>

\*The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

\*On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly the 40<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at the time, providing a median return of 7.11%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***Discount Rate***

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2021, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

***Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate***

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease (5.75%)	Current Discount (6.75%)	1% Increase (7.75%)
City's proportionate share of the GLI Plan Net OPEB Liability	\$ 456,354	\$ 312,350	\$ 196,059
Component Unit School Board's (nonprofessional) proportionate share of the GLI Plan Net OPEB Liability	\$ 49,160	\$ 33,647	\$ 21,120
Component Unit School Board's (professional) proportionate share of the GLI Plan Net OPEB Liability	\$ 620,541	\$ 424,727	\$ 266,598

**Note 13-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)**

***Group Life Insurance Plan Fiduciary Net Position***

Detailed information about the GLI Plan's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2021-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan):**

***Plan Description***

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the Teacher HIC OPEB, including eligibility, coverage, and benefits is described below:

***Eligible Employees***

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

***Benefit Amounts***

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***HIC Plan Notes***

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

***Contributions***

The contribution requirements for active employees is governed by §51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2022 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee HIC Plan were \$100,461 and \$90,337 for the years ended June 30, 2022 and June 30, 2021, respectively.

***Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB***

At June 30, 2022, the school division reported a liability of \$1,084,231 for its proportionate share of the VRS Teacher Employee HIC Net OPEB Liability. The Net VRS Teacher Employee HIC Program OPEB Liability was measured as of June 30, 2021 and the total VRS Teacher HIC OPEB liability used to calculate the Net VRS Teacher Employee HIC OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The school division's proportion of the Net VRS Teacher Employee HIC OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the school division's proportion of the VRS Teacher Employee HIC was 0.0845% as compared to 0.0844% at June 30, 2020.

For the year ended June 30, 2022, the school division recognized VRS Teacher Employee HIC OPEB expense of \$74,239. Since there was a change in proportionate share between measurement dates, a portion of the VRS Teacher Employee HIC Net OPEB expense was related to deferred amounts from changes in proportion.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)*****Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB: (Continued)***

At June 30, 2022, the school division reported deferred outflows of resources and deferred inflows of resources related to the VRS Teacher Employee HIC OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 18,920
Net difference between projected and actual earnings on Teacher HIC OPEB plan investments	-	14,283
Change in assumptions	29,309	4,357
Change in proportionate share	335	54,034
Employer contributions subsequent to the measurement date	<u>100,461</u>	<u>-</u>
Total	\$ <u>130,105</u>	\$ <u>91,594</u>

\$100,461 reported as deferred outflows of resources related to the Teacher Employee HIC OPEB resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Teacher Employee HIC OPEB Liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Teacher Employee HIC OPEB will be recognized in the Teacher Employee HIC OPEB expense in future reporting periods as follows:

Year Ended June 30

2023	\$ (15,389)
2024	(15,551)
2025	(13,771)
2026	(10,174)
2027	(5,134)
Thereafter	(1,931)

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Actuarial Assumptions***

The total Teacher Employee HIC OPEB liability for the VRS Teacher Employee HIC Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation	3.50%-5.95%
Investment rate of return	6.75%, net of investment expenses, including inflation

**Mortality Rates - Teachers**

Pre-Retirement:

Pub-2010 Amount Weighted Teacher Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

*Remainder of page left blank intentionally.*

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Actuarial Assumptions: (Continued)***

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

***Net Teacher Employee HIC OPEB Liability***

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the Plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2021, NOL amounts for the VRS Teacher Employee HIC Plan is as follows (amounts expressed in thousands):

		<b>Teacher Employee HIC OPEB Plan</b>
Total Teacher Employee HIC OPEB Liability	\$	1,477,874
Plan Fiduciary Net Position		194,305
Teacher Employee Net HIC OPEB Liability (Asset)	\$	<u>1,283,569</u>
Plan Fiduciary Net Position as a Percentage of the Total Teacher Employee HIC OPEB Liability		13.15%

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Net Teacher Employee HIC OPEB Liability (Continued)***

The total Teacher Employee HIC OPEB liability is calculated by the System's actuary, and the plan's fiduciary net position is reported in the System's financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

***Long-Term Expected Rate of Return***

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class (Strategy)</b>	<b>Long-Term Target Asset Allocation</b>	<b>Arithmetic Long-term Expected Rate of Return</b>	<b>Weighted Average Long-term Expected Rate of Return*</b>
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS - Multi-Asset Public Strategies	6.00%	3.29%	0.20%
PIP - Private Investment Partnership	3.00%	6.84%	0.21%
Total	<u>100.00%</u>		<u>4.89%</u>
		Inflation	<u>2.50%</u>
		Expected arithmetic nominal return*	<u>7.39%</u>

\*The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

\*On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which was roughly at the 40<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 14-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Discount Rate***

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2021, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

***Sensitivity of the School Division's Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate***

The following presents the school division's proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease (5.75%)	Current Discount (6.75%)	1% Increase (7.75%)
School division's proportionate share of the VRS Teacher Employee HIC OPEB Plan			
Net HIC OPEB Liability	\$ 1,220,543	\$ 1,084,231	\$ 968,878

***Teacher Employee HIC OPEB Fiduciary Net Position***

Detailed information about the VRS Teacher Employee HIC Plan's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2021-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan):**

***Plan Description***

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

***Eligible Employees***

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

***Benefit Amounts***

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

***HIC Plan Notes***

The monthly HIC benefit cannot exceed the individual premium amount. There is no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

As of the June 30, 2020 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	6
Inactive members:	
Vested inactive members	1
Total inactive members	7
Active members	<u>26</u>
Total covered employees	<u><u>33</u></u>

**Contributions**

The contribution requirements for active employees is governed by §51.1-1402(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The school division's contractually required employer contribution rate for the year ended June 30, 2022 was .79% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2020. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the HIC Plan were \$6,066 and \$4,717 for the years ended June 30, 2022 and June 30, 2021, respectively.

During the 2020 session, House Bill 1513 was enacted. This bill required the addition of Health Insurance Credit benefits for non-teacher employees effective July 1, 2021. While benefit payments became effective July 1, 2021, employers were required to pre-fund the benefits beginning July 1, 2020. The bill impacted 95 employers and resulted in approximately \$2.5 million of additional employer contributions in FY 2021.

**Net HIC OPEB Liability**

The school division's net HIC OPEB liability was measured as of June 30, 2021. The total HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2020, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)*****Actuarial Assumptions***

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation:	
Locality - General employees	3.50%-5.35%
Locality - Hazardous Duty employees	3.50%-4.75%
Investment rate of return	6.75%, net of investment expenses, including inflation

**Mortality Rates - Non-Largest Ten Locality Employers - General Employees****Pre-Retirement:**

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

**Post-Retirement:**

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

**Post-Disablement:**

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years

**Beneficiaries and Survivors:**

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

**Mortality Improvement Scale:**

Rates projected generationally with Modified-2020 Improvement Scale that is 75% of the MP-2020 rates

***Long-Term Expected Rate of Return***

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<b>Asset Class (Strategy)</b>	<b>Long-term Target Asset Allocation</b>	<b>Arithmetic Long-term Expected Rate of Return</b>	<b>Weighted Average Long-term Expected Rate of Return*</b>
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS - Multi-Asset Public Strategies	6.00%	3.29%	0.20%
PIP - Private Investment Partnership	3.00%	6.84%	0.21%
Total	<u>100.00%</u>		<u>4.89%</u>
		Inflation	<u>2.50%</u>
		Expected arithmetic nominal return*	<u>7.39%</u>

\*The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

\*On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

*Remainder of page left blank intentionally.*

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Discount Rate***

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2021, the rate was 100% of the actuarially determined contribution rate. From July 1, 2021 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

***Changes in Net HIC OPEB Liability***

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)**

***Sensitivity of the School Division's HIC Net OPEB Liability to Changes in the Discount Rate***

The following presents the school division's HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division's net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease	Current Discount	1% Increase
	(5.75%)	(6.75%)	(7.75%)
School Division's Net HIC OPEB Liability	\$ 47,728	\$ 42,922	\$ 38,785

***HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB***

For the year ended June 30, 2022, the school division recognized HIC Plan OPEB expense of \$3,767. At June 30, 2022, the school division reported deferred outflows of resources and deferred inflows of resources related to the school division's HIC Plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Benefit changes	\$ -	\$ 1
Differences between expected and actual experience	-	382
Change in assumptions	735	-
Employer contributions subsequent to the measurement date	6,066	-
Total	\$ 6,801	\$ 383

**Note 15-Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)*****HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB (Continued)***

\$6,066 reported as deferred outflows of resources related to the HIC OPEB resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net HIC OPEB Liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in the future reporting periods as follows:

**Year Ended June 30**

2023	\$	90
2024		90
2025		90
2026		82
2027		-
Thereafter		-

***HIC Plan Data***

Information about the VRS Political Subdivision HIC Plan is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/pdf/publications/2021-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 17-Line of Duty Act (LODA) (OPEB Benefits):**

The Line of Duty Act (LODA) provides death and healthcare benefits to certain law enforcement and rescue personnel, and their beneficiaries, who were disabled or killed in the line of duty. Benefit provisions and eligibility requirements are established by Title 9.1 Chapter 4 of the Code of Virginia. Funding of LODA benefits is provided by employers in one of two ways: (a) participation in the Line of Duty and Health Benefits Trust Fund (LODA Fund), administered by the Virginia Retirement System (VRS) or (b) self-funding by the employer or through an insurance company.

The City has elected to provide LODA benefits through an insurance company. The obligation for the payment of benefits has been effectively transferred from the City to VRSA Insurance Programs. VRSA Insurance Programs assumes all liability for the City's LODA claims that are approved by VRS. The pool purchases reinsurance to protect the pool from extreme claims costs.

The current-year OPEB expense/expenditure for the insured benefits is defined as the amount of premiums or other payments required for the insured benefits for the reporting period in accordance with the agreement with the insurance company for LODA and a change in liability to the insurer equal to the difference between amounts recognized as OPEB expense and amounts paid by the employer to the insurer. The City's LODA coverage is fully covered or "insured" through VRSA Insurance Programs. This is built into the LODA coverage cost presented in the annual renewals. The City's LODA premium for the year ended June 30, 2022 was \$31,290.

Assets with a net value of \$428,833 (gross value \$518,527 and depreciation of \$89,694) were transferred to the School Board from the City in the current year

**Note 20-Inventory Held for Resale:**

The IDA had land and a building that was shown as inventory held for resale at June 30, 2022 in the amount of \$773,025. This inventory is valued at cost.

*Remainder of this page left blank intentionally.*

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 21-Leases Receivable:**

Primary Government:

The following is a summary of lessor activity of the City for the year ended June 30, 2022:

	Beginning Balance	GASBS No. 87 Implementation	Increases/ Issuances	Decreases/ Retirements	Ending Balance	Interest Revenue
Leases receivable	\$ -	\$ 532,598	\$ -	\$ (14,295)	\$ 518,303	\$ 14,474

Lease revenue recognized during the fiscal year was \$14,295.

Details of leases receivable:

Lease Description	Lease Origination Date*	End Date	Payment Frequency	Discount Rate	Ending Balance	Amount Due Within One Year
Cell Tower	Dec-08	2039	Monthly	3.00%	\$ 288,642	\$ 9,398
Cell Tower	Nov-08	2039	Monthly	3.00%	229,761	7,554
Total					\$ 518,403	\$ 16,952

*There are no variable payments for any of the lease receivables above*

\*Date shown is the original lease commencement date. GASB Statement No. 87 was implemented as of July 1, 2021.

**Note 22-Risk Management:**

The City and its component unit - School Board are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters.

The City participates with other localities in a public entity risk pool for its coverage of workers compensation, crime coverage, boiler and machinery, property insurance, automobile coverage, general liability, and public official's liability insurance with the VRSA. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The City pays the VRSA contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit or depletion of all available excess insurance, the pool may assess all members in the year in which such deficit occurs.

The Component-unit School Board participates with other divisions in a public entity risk pool for its coverage of workers compensation, crime coverage, boiler and machinery, property insurance, automobile coverage, general liability, and public official's liability insurance with the Virginia School Board Association Property and Casualty Pool. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The School Board pays the Pool contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit or depletion of all available excess insurance, the pool may assess all members in the year in which such deficit occurs.

The City and its component unit - School Board continue to carry commercial insurance for all other risk of loss. Settle claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 23-Contingent Liabilities:**

Federal programs in which the City and its component units participate were audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Pursuant to the provisions of the Uniform Guidance, all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

**Note 24-Landfill Closure and Post-closure Care Cost:**

The City closed its former landfill site in 1994. In accordance with federal and state laws, the City placed a final cover on this site and was required to perform certain maintenance and monitoring functions for a minimum of ten years after closure.

The presence of certain contaminants has been detected in the groundwater, which thereby extends the monitoring period in excess of the initial requirement. The estimated liability is based on the Virginia Department of Environmental Quality (DEQ) accepting the active remedy proposed by the City as discussed below. If the DEQ does not accept the active remedy, the actual costs may increase. Also, actual costs may be higher due to inflation, changes in technology, changes in regulations, or other unforeseen circumstances. The cumulative amount of estimated postclosure care and corrective costs to date for this site, less cash paid for such costs to date, totals \$555,933. This amount is included in the long-term liabilities in the primary government.

The City's current plan of remediation is monitored natural attenuation. This remedy consists of monitoring wells on the site for what is expected to be approximately thirty years beginning in the year 2010. It is the City and its external engineer's belief that during thirty years, the groundwater contaminants will decrease to an acceptable level and the City will be released by the DEQ from all other monitoring requirements.

The City uses the financial test method of demonstrating assurance for postclosure care and corrective action costs.

The City demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 25-Self Health Insurance:**

The City established a limited risk management program for health insurance in fiscal year 2020. Premiums are paid into the health plan fund from the City and are available to pay claims, and administrative costs of the program. During the fiscal year 2022, a total of \$1,616,476 was paid in benefits and administrative costs. The risk assumed by the City is based on the number of participants in the program. The risk varies by the number of participants and their specific plan type. Incurred but not reported claims of \$110,982 have been accrued as a liability based primarily on actual cost incurred prior to June 30 but paid after year-end. Interfund premiums are based primarily upon the insured funds' claims experience and are reported as quasi-external interfund transactions. Changes in the claims liability for the current fiscal year are as follows:

<u>Fiscal Year</u>	<u>Balance at Beginning of Fiscal Year</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance at End of Fiscal Year</u>
2021-22	\$ 88,421	\$ 1,639,037	\$ (1,616,476)	\$ 110,982
2020-21	132,869	1,672,753	(1,717,201)	\$ 88,421
2019-20	-	1,725,925	(1,593,056)	132,869

*Remainder of this page left blank intentionally.*

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 26-Commitments and Contingencies:**Construction Commitments

The City was involved in and initiated several projects during the fiscal year, as presented below:

Project	Contract Amount	Contract Amount Outstanding at June 30, 2022
City:		
VDOT McArthur/Circle Drive Traffic Signals	\$ 399,038	\$ 187,046
VDOT McArthur W. Stuart Drive Sidewalk	69,500	28,612

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

**Note 28-Adoption of Accounting Principle:**

The City implemented provisions of Governmental Accounting Standards Board Statement No. 87, *Leases* during the fiscal year ended June 30, 2022. Statement No. 87, *Leases* requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. No restatement of beginning net position was required as a result of this implementation. Using the facts and circumstances that existed at the beginning of the year of implementation, the following balances were recognized as of July 1, 2021 related to the leases:

	Governmental Activities	Business-Type Activities	Component Unit School Board
Lessee activity:			
Lease assets	\$ 100,611	\$ 58,635	\$ 102,553
Lease liabilities	\$ 100,611	\$ 58,635	\$ 102,553
Lessor activity:			
Lease receivable	\$ 532,698	\$ -	\$ -
Deferred inflows of resources-leases	\$ 532,698	\$ -	\$ -

**Note 29-Upcoming Pronouncements:**

Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability of Payment Arrangements*, addresses issues related to public-private and public-public partnership arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022.

Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022.

Statement No. 99, *Omnibus 2022*, enhances the comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The effective dates differ based on the requirements of the Statement, ranging from April 2022 to reporting periods beginning after June 15, 2023.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2022

---

**Note 29-Upcoming Pronouncements: (Continued)**

Statement No. 100, *Accounting Changes and Error Corrections* - an amendment of GASB Statement No. 62, enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for reporting periods beginning after June 15, 2023.

Statement No. 101, *Compensated Absences*, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2023.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Schedule is intended to show information for 10 years. Prior to 2015 the City information reported in the City's report included participants that are not reported in the City's report. Therefore, no additional data is currently available for the City. Additional years will be included as they become available.

**City of Galax, Virginia**  
**Notes to Required Supplementary Information-Pension**  
**For the Year Ended June 30, 2022**

**Changes of benefit terms** - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** - The actuarial assumptions used in the June 30, 2020, valuations were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

**All Others (Non 10 Largest) - Non-Hazardous Duty:**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1: set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

**All Others (Non 10 Largest) - Hazardous Duty:**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

**Component Unit School Board - Professional Employees**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

**Primary Government**

Valuation Date: 6/30/2021  
Measurement Date: 6/30/2021

No assets are accumulated in a trust that meets the criteria in GASB 75 to pay related benefits.

*Methods and assumptions used to determine OPEB liability:*

Actuarial Cost Method	Entry age normal level % of salary
Discount Rate	1.92%
Inflation	2.25%
Healthcare Trend Rate	6.70% for FY2022, gradually decreasing over several decades to an ultimate rate of 3.70% in FY2075 and later years
Salary Increase Rates	Based on the most recently disclosed assumptions for the pension plan in which the employee participates
Retirement Age	The average age at retirement is 65
Mortality Rates	Pub-2010 Amount Weighted General/Disabled Employee Rates projected generationally with generational mortality improvement using 75% of scale MP-2020, and other adjustments

---

**Changes of benefit terms** - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

**Changes of assumptions** - The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

**Teachers**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

**Non-Largest Ten Locality Employers - General Employees**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

**Non-Largest Ten Locality Employers - Hazardous Duty Employees**

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Top 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Intergovernmental	19,788,873	-	19,788,873
Total revenues	<u>\$ 20,391,743</u>	<u>\$ 210,349</u>	<u>\$ 20,602,092</u>
<b>EXPENDITURES</b>			
Current:			
Education	\$ 20,837,266	\$ 246,452	\$ 21,083,718
Debt service:			
Principal retirement	25,465	-	25,465
Interest and other fiscal charges	409	-	409
Total expenditures	<u>\$ 20,863,140</u>	<u>\$ 246,452</u>	<u>\$ 21,109,592</u>
Excess (deficiency) of revenues over (under) expenditures	<u>\$ (471,397)</u>	<u>\$ (36,103)</u>	<u>\$ (507,500)</u>
<b>OTHER FINANCING SOURCES (USES)</b>			
Transfers in	\$ 9,231	\$ 32,567	\$ 41,798
Transfers out	(32,567)	(9,231)	(41,798)
Sale of capital assets	784	-	784
Total other financing sources and uses	<u>\$ (22,552)</u>	<u>\$ 23,336</u>	<u>\$ 784</u>
Net change in fund balances	\$ (493,949)	\$ (12,767)	\$ (506,716)
Fund balances - beginning	3,999,879	197,661	4,197,540
Fund balances - ending	<u>\$ 3,505,930</u>	<u>\$ 184,894</u>	<u>\$ 3,690,824</u>

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

Net change in fund balances - total governmental funds - per above \$ (506,716)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the details of items supporting this adjustment:

Capital outlays	2,682,161	
Transfer of asset from County	428,833	
Depreciation expense	<u>(388,468)</u>	2,722,526

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

State non-employer contribution to the pension plan 52,314

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal repayments:

Lease liabilities 25,465

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Change in compensated absences	\$ (15,523)	
Change in OPEB related items	15,557	
Change in pension related items	<u>1,575,690</u>	1,575,724

Change in net position of governmental activities \$ 3,869,313

*Certified Public Accountants*

**Independent Auditors' Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

---

**To the Honorable Members of  
the City Council of the  
City of Galax, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Galax, Virginia as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Galax, Virginia's basic financial statements and have issued our report thereon dated December 6, 2022.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Galax, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Galax, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Galax, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a deficiency in internal control, described in the accompanying schedule of findings and questioned costs, as item 2022-001 that we consider to be a material weakness.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Galax, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## The City of Galax, Virginia's Response to Finding

*Government Auditing Standards* requires the auditor to perform limited procedures on the City of Galax, Virginia's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The City of Galax, Virginia's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## COMPLIANCE SECTION

---

**Independent Auditors' Report on Compliance For Each Major Program and on  
Internal Control over Compliance Required by the Uniform Guidance**

---

To the Honorable Members of  
the City Council of the  
City of Galax, Virginia

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited the City of Galax, Virginia's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Galax, Virginia's major federal programs for the year ended June 30, 2022. The City of Galax, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City of Galax, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City of Galax, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City of Galax, Virginia's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City of Galax, Virginia's federal programs.

## ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City of Galax, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City of Galax, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City of Galax, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City of Galax, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City of Galax, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards:

## CITY OF GALAX, VIRGINIA

Schedule of Expenditures of Federal Awards  
For the Year Ended June 30, 2022

## Note A--Basis of Presentation:

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the City of Galax, Virginia under programs of the federal government for the year ended June 30, 2022. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Galax, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Galax, Virginia.

## Note B--Summary of Significant Accounting Policies

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

(2) Pass-through entity identifying number are presented where available.

(3) The City did not elect the 10% de minimis indirect cost rate because they only request direct costs for reimbursement.

## Note C--Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

## Note D--Loan Balances

The City has received federal funding through loans. At June 30, 2022, the outstanding balances of these loans were:

\$ 17,098,009

## Note E--Relationship to the Financial Statements:

For the Year Ended June 30, 2022 (Continued)

---

Section II - Financial Statement Findings

---

2022-001

---

Criteria:	Identification of adjustments to the financial statements that were not detected by the entity's internal controls indicates that a material weakness may exist.
Condition:	The School Board's financial statements required several adjusting entries to ensure such statements complied with Generally Accepted Accounting Principles.
Cause of Condition:	During the closing process, the School Board failed to identify all year end accounting adjustments necessary for the financial statements to be prepared in accordance with current reporting standards.
Effect of Condition:	There is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected by the entity's internal controls over financial reporting.
Recommendation:	In the future, financial statements should be reviewed and adjusted as necessary to comply with current reporting standards.
Management's Response:	The School Board's consulting accountant was not available for assistance in closing out the books during the current fiscal year. School Board Staff closed the books and failed to identify all adjustments required under current GASB requirements. School Board Staff will review all proposed audit adjustments and will consider these adjustments when closing the books in the future.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.

City of Galax, Virginia

Summary Schedule of Prior Audit Findings  
For the Year Ended June 30, 2022

---

**2021-001 - Material Weakness**

---

Finding Type:	Material weakness
Condition:	The School Board's financial statements required year end adjusting entries to ensure such statements complied with Generally Accepted Accounting Principles.
Recommendation:	In the future, funds should be reviewed and adjusted as necessary to comply with current reporting standards.
Current Status:	Finding 2021-001 was recurring in fiscal year 2022 and reported as 2022-001.
