

THE AUDITOR OF PUBLIC ACCOUNTS LOCALITY STORMWATER UTILITY REPORTING FORM

The purpose of this form is to implement the following locality stormwater utility reporting requirement established by Paragraph D.1. of Item 2 of the Fiscal Year 2017-2018 State Budget ([Chapter 836](#) of the 2017 Acts of Assembly): *Each locality establishing a utility or enacting a system of service charges to support a local stormwater management program pursuant to §[15.2-2114](#), Code of Virginia, shall provide to the Auditor of Public Accounts by October 1 of each year, in a format specified by the Auditor, a report as to each program funded by these fees and the expected nutrient and sediment reductions for each of these programs. For any specific stormwater outfall generating more than \$200,000 in annual fees, such report shall include identification of specific actions to remediate nutrient and sediment reduction from the specific outfall.*

Each locality subject to the reporting requirement set forth above shall complete and submit this report form each year to the Auditor of Public Accounts by October 1, in an electronic format emailed to LocalGovernment@apa.virginia.gov. **The first report for Fiscal Year 2017 is due by October 1, 2017.**

SECTION 1 – LOCALITY INFORMATION

Locality Name: County of Chesterfield

Contact Name/Title: Scott B. Smedley P.E.

Contact Address: 9800 Government Center Parkway

Contact Email: smedleys@chesterfield.gov

Contact Phone: (804) 751-2311

Report Completion Date: September 22, 2017

SECTION 2 - STORMWATER UTILITY FEES

For your stormwater utility fees provide the following information from your most recent audited annual financial report.

Financial Statement Fund Name: Stormwater Utility Fund

Fiscal year: 2017 (July 1, 2016 to June 30, 2017)

Revenues	Expenditures	Ending Fund Balance/Net Position
\$2,140,001.69	\$0	\$2,140,001.69

SECTION 3 – FUNDED PROGRAMS AND OTHER MAJOR ACTIVITIES

Provide a brief description of each major program funded by the utility fee system and, where applicable, the expected nutrient and sediment reductions for each of these programs.

A. Operations & Maintenance Program

To assist with the implementation of the stormwater utility fee, the Stormwater Utility Fund provides funding for a fulltime Stormwater GIS Analyst position. This position coordinates with the Treasurer's office to collect and transfer parcel and pertinent GIS data as relating to stormwater utility fees. Performs spatial analysis and database queries on parcel stormwater utility fees for county residents/businesses. No other O&M programs are funded through the Stormwater Utility Fund.

B. Capital Improvement Program

The Capital Improvement Program Plan provides for planning and the budget for compliance with the Chesapeake Bay Total Maximum Daily Load (TMDL) requirements of the county's stormwater permit. Beginning with FY2017, the Stormwater Utility Fund became the primary source of funding for this program.

Chesterfield County has implemented or expects to implement a combination of retrofits and new facilities to achieve the required pollutant reductions detailed in the county's Chesapeake Bay TMDL Action Plan. The plan includes construction of regional stormwater treatment facilities, stream restoration and stabilization projects, structural BMP enhancements, outfall retrofits, conversion of existing ponds, installation of treatment facilities and land cover conversions.

During the first MS4 permit cycle, this program is expected to provide for reductions in total nitrogen (TN) of 1,642 lbs/yr, total phosphorus (TP) of 677 lbs/yr and total suspended solids (TSS) of 395,982.10 lbs/yr.
