INTERNAL CONTROL QUESTIONNAIRE REVIEW RESULTS

We have reviewed the Internal Control Questionnaire, completed on April 26, 2017, for the Motor Vehicle Dealer Board. The purpose of this review was to evaluate if the agency has developed adequate internal controls over significant organizational areas and activities and not to express an opinion on the effectiveness of internal controls. Management of the Motor Vehicle Dealer Board is responsible for establishing and maintaining an effective control environment.

The Auditor of Public Accounts has developed a new process for auditing agencies that are not required to have an audit every year, which we refer to as "cycled agencies." Traditionally, we audit these agencies at least once every three years. We now employ a risk-based approach to auditing the cycled agencies. Under this approach, annually we will perform a risk analysis for all of the cycled agencies considering certain criteria and divide the agencies into two pools. One pool will receive an annual audit and the other pool will be subject to review in a special project focused on one area of significance as well as a review of internal controls in the form of a questionnaire. All agencies will undergo an Internal Control Questionnaire review at least once every three years. This letter is to communicate the results of the Internal Control Questionnaire review.

Review Process

During the review, the agency completes an Internal Control Questionnaire that covers significant organizational areas and activities including payroll and human resources; revenues and expenses; procurement and contract management; and information technology and security. The questionnaire focuses on key controls over these areas and activities.

We review the agency responses and supporting documentation to determine the nature, timing, and extent of additional procedures. The nature, timing, and extent of the procedures selected depend

on our judgment in assessing the likelihood that the controls may fail to prevent and/or detect events that could prevent the achievement of the control objectives. The procedures performed target risks or business functions deemed significant and involve reviewing internal policies and procedures. Depending on the results of our initial procedures, we may perform additional procedures including reviewing evidence to ascertain that select transactions are executed in accordance with the policies and procedures and conducting inquiries with management. The "Review Procedures" section below details the procedures performed for the Motor Vehicle Dealer Board. The results of this review will be included within our risk analysis process for the upcoming year in determining which agencies we will audit.

Review Procedures and Results

Due to the implementation of the new statewide accounting system, we reviewed system access and a selection of system and transaction reconciliations in order to gain assurance that the statewide accounting system contains accurate data.

We reviewed the Internal Control Questionnaire and supporting documentation detailing policies and procedures. As a result of our review, we performed additional procedures over the following areas: revenue and expenditure processing. These procedures included validating the existence of certain transactions; observing controls to determine the controls are designed and implemented; reviewing transactions for compliance with internal policies and procedures as well as the Commonwealth's policies and procedures; and conducting further review over management's risk assessment process.

We did not note any matters requiring management's attention as a result of the procedures we performed.

This report is intended for the information and use of management. However, it is a public record and its distribution is not limited.

Sincerely,

Auditor of Public Accounts
