Independent Auditors' Report

The Honorable Members of The Board of Supervisors County of Greensville, Virginia Emporia, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greensville, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Greensville, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greensville, Virginia, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 4, 2011, on our consideration of the County of Greensville, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, budgetary comparison information and the Schedules of Funding Progress as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Greensville, Virginia, basic financial statements. The other supplementary information, including the other statistical information, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the County of Greensville, Virginia. The other supplementary information, excluding the statistical information, and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Management's Discussion and Analysis

To the Citizens of Greensville County County of Greensville, Virginia

As management of the County of Greensville, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2010.

Financial Highlights

Government-wide Financial Statements

- The assets of the County (Governmental and Business-type activities) exceeded its liabilities at the close of the most recent fiscal year by \$33,157,667 (net assets) compared to \$30,249,211 in the prior year, an increase of \$2,908,456.
- Our combined (governmental and business-type activities) long-term obligations decreased by a net of \$1,215,435 during the current fiscal year. The decrease is due to the payment of principal of existing debt.

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures by \$356,338 (Exhibit 5) after making contributions totaling \$1,674,455 (net of adjustment) to the School Board. In the prior year, fund balance decreased by \$1,374,659.

- As of the close of the current fiscal year; the County's funds reported ending fund balances of \$1,677,356, a decrease of \$356,338 in comparison with the prior year. The major use of fund balance can be attributed to the continued work on the Southside Virginia Workforce Center and District 19 Clinic capital projects.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$1,612,505, or 10% of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements (Continued)

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's nets assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Greensville, Virginia itself (known as the primary government), but also a legally separate school district, an Industrial Development Authority, and a Joint Department of Social Services for which the County of Greensville, Virginia is financially accountable. Financial information for these component units is reported separately from the financial information present for the primary government itself.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Greensville, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and proprietary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, reconciliation between the two methods is provided on Exhibit 4. The County has two major governmental funds - the General Fund and the Capital Projects Fund.

<u>Proprietary funds</u> - Proprietary funds consist of enterprise funds. Enterprise funds are established to account for the delivery of goods and services to the general public and use the accrual basis of accounting, similar to private sector business. The Solid Waste fund provides waste services to County residents. The Water and Sewer Authority provides water services to area residents. Refer to the separately issued financial statements of the Water and Sewer Authority for further analysis and note disclosures.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Overview of the Financial Statements (Continued)

Other information - In addition to the basic financial statement and accompanying notes, this report also presents in summary from the discretely presented component units: School Board, Department of Social Services, and the Industrial Development Authority. All three component units issue separate reports and therefore are presented in summary form in the Government-wide financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, (government and business-type) total assets exceeded total liabilities by \$33,157,667 at the close of the fiscal year ended June 30, 2010.

County of Greensville, Virginia's Net Assets

		Governmental Activities				Business-Type Activities			
	_	2010		2009		2010		2009	
Current and other assets Capital assets Total assets	\$	10,657,865 36,895,838 47,553,703		4,004,492 36,892,398 40,896,890		7,583,610 \$ 31,650,931 39,234,541 \$	_	5,866,718 30,882,713 36,749,431	
Long-term liabilities outstanding Current liabilities Total liabilities	\$ \$	32,136,268 8,833,477 40,969,745	٠.	33,277,132 1,570,316 34,847,448		12,168,140 \$ 492,692 12,660,832 \$		12,242,711 306,951 12,549,662	
Net assets: Invested in capital assets, net of related debt Restricted for: Debt Service	\$	5,444,436 992,798	\$	998,541		-	ò	21,066,707	
Unrestricted Total net assets	\$	146,724 6,583,958	\$	(536,380) 6,049,442		4,188,055 26,573,709 \$	- }_	3,133,062 24,199,769	

At the end of the current fiscal year, the County's investment in capital assets, net of related debt, is \$5,444,436. This decrease can be attributed to the repayment of principal on outstanding bonds and notes and additional capital outlays and building projects. The unrestricted net assets of governmental activities at June 30, 2010 is \$146,724.

Government-wide Financial Analysis (Continued)

The total net assets of the County increased \$2,908,456. Key elements of this increase are as follows:

County of Greensville, Virginia's Change in Net Assets

	_	Governmenta		Business-Type			
	_	2010	2009	2010	2009		
Revenues:							
Program revenues:							
Charges for services	\$	1,780,329 \$	1,709,835 \$	3,864,357 \$	4,039,803		
Operating grants and contributions	5	1,678,137	1,699,926	-	-		
Capital grants and contributions		1,985,897	1,547,855	1,184,708	185,829		
General revenues:

Other local taxes		1,447,080	1,692,677	-	-		
Other revenue		416,141	311,149	73,687	40,348		
Grants and other contributions		,	,	,	,		
unrestricted		2,228,992	2,182,844	2,011,283	9,558		
Total revenues	\$	15,344,268 \$	14,809,765 \$	7,134,035 \$	4,275,538		
F							
Expenses:	÷	4/2 207 ¢	002 4E7 ¢	ċ			
General government Judicial administration	\$	462,287 \$	902,157 \$	- \$	-		
		933,390	912,115	-	-		
Public safety		3,731,815	2,896,672	4 740 005	4 424 000		
Public works		1,268,511	1,638,935	4,760,095	4,421,988		
Health and welfare		1,209,307	555,967	-	-		
Education		3,080,160	5,009,079	-	-		
Parks, recreation and culture		230,567	237,994	-	-		
Community development		2,746,961	2,123,911	-	-		
Interest	-	1,146,754	1,334,775	- -			
Total expenses	\$_	14,809,752 \$	15,611,605 \$	4,760,095 \$	4,421,988		
Increase (decrease) in net assets	\$	534,516 \$	(801,840) \$	2,373,940 \$	(146,450)		
Net assets - beginning	-	6,049,442	6,851,282	24,199,769	24,346,219		
Net assets - ending	\$	6,583,958 \$	6,049,442 \$	26,573,709 \$	24,199,769		

For the most part, increases in governmental activities revenues and expenditures closely paralleled inflation and growth in the demand for services causing a net asset increase of \$534,516 in governmental activities only. The net assets of business-type activities increased \$2,373,940 due to proceeds from a lawsuit settlement.

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The County's business-type activities experienced natural growth in expenses due to inflation and a decrease in revenues due to water-saving measures taken by a major customer.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

Government-wide Financial Analysis (Continued)

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$1,677,356, a decrease of \$356,338 in comparison with the prior year. Approximately 56% of this total amount constitutes unreserved fund balance, which is available for spending at the County's discretion. The remainder of fund balance is reserved to indicate that is not available for new spending because it has already been committed for debt service and education. The decrease in fund balance can be attributed to continued use of funds for capital projects.

Proprietary funds

The County's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were \$2,850,510 and can be briefly summarized as follows:

- \$1,132,237 in increases in Public Safety
- \$1,567,927 in increases in Community Development
- \$150,346 in other budget increases and decreases

Capital Asset and Debt Administration

- <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2009 amounted to \$36,895,838 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment. The following is a comparison to prior year of net capital assets as of June 30, 2010:

County of Greensville, Virginia's Capital Assets

		Governmenta	l Activities	Business-Type	• Activities	
	_	2010	2009	2010	2009	
Land Land and landfill improvements Infrastructure Land improvements Buildings and improvements Equipment Tenancy in common (buildings) Construction in progress	\$	1,295,528 \$ - 1,416,126 15,285,748 2,310,222 6,197,369 17,604,424	1,295,528 \$	441,589 \$ 1,076,107 36,558,073 - 2,803,808 2,013,006 - 1,210,188	441,589 1,076,107 35,841,237 - 2,803,808 1,497,723 - 755,066	
Total Less accumulated depreciation	\$_	44,109,417 \$ (7,213,579)	43,305,241 \$ (6,412,843)	44,102,771 \$ (12,451,840)	42,415,530 (11,532,817)	
Net capital assets	\$_	36,895,838 \$	36,892,398 \$	31,650,931 \$	30,882,713	

Additional information on the County's capital assets can be found in the notes of this report.

Capital Asset and Debt Administration: (Continued)

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total governmental activities debt outstanding of \$32,136,268. Of this amount \$13,697,369 comprises debt backed by the full faith and credit of the County, (bonded debt). The remainder of the County's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds). The following table depicts a comparison of outstanding debt to prior year.

County of Greensville, Virginia's Outstanding Debt

		Governmenta	l Activities	Business-Type	Activities	
		2010	2009	2010	2009	
Literary loans	\$	7,425,000 \$	8,000,000 \$	- \$	-	
VPSA bonds Revenue bonds		6,272,369 15,277,573	7,011,797 14,965,000	9,007,680	9,456,762	
Loans payable Landfill closure/post-closure		2,651,548	2,701,049	184,331 2,685,232	194,382 2,222,138	
Compensated absences Other Post-Employment Benefits		228,130 31,966	227,009 16,000	212,632 5,000	193,511 -	
Capital leases	-	249,682	356,277	73,265	175,918	
Total	\$_	32,136,268 \$	33,277,132 \$	12,168,140 \$	12,242,711	

Legislation enacted requires that debt historically reported by the School Board has been assumed by the primary government. The legislation affects the reporting of local school capital assets as well.

The County's total debt decreased by a net of \$1,215,435 during the current fiscal year. Governmental activities debt decreased \$1,140,864 due to principal payments while business-type activities debt decreased \$74,571 due to repayment of principal due on revenue bonds/and an increase in the landfill closure liability.

Additional information on the County of Greensville, Virginia's long-term debt can be found in Note 6 of this report.

Economic Factors and Next Year's Budgets and Rates

The unemployment rate for the County at June 30, 2010 was 9.8 percent, which is an increase from a rate of 9.4 percent a year ago. This compares unfavorably to the state's average unemployment rate of 7.1 percent and unfavorably to the national average rate of 9.6 percent.

Inflationary trends in the region compare favorably to national indices.

The fiscal year 2011 General Fund budget increased from \$13,662,739 to \$14,054,181 or \$391,442 (3%). Fiscal year 2011 tax rates are as follows: \$0.45/\$100 Real Estate; \$4.50/\$100 Personal Property; \$4.00/\$100 Machinery and Tools; \$0.50/\$100 Aircraft.

Requests for Information

This financial report is designed to provide a general overview of the County of Greensville, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, 1781 Greensville County Circle, Emporia, Virginia, 23847.

Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2010

Amounts reported for governmental activities in the statement of net assets are different because:				
Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds			\$	1,677,356
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.				36,895,838
Unspent bond proceeds used for construction by the component unit school board and other assets and liabilities are reported as assets and liabilities of the primary government on the statement of net assets.				424,770
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.				218,254
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds: Accrued interest payable	\$	(495,992)		(32 (32 340)
Long-term liabilities Net assets of governmental activities	-	(32,136,268)	<u>'</u>	6,583,958

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2010

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds

(356,338)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlay exceeded depreciation in the current period:

Capital asset additions	\$	2,118,604	
Depreciation expense		(746,270)	
Net transfer of assets to School Board	_	(1,368,894)	3,440

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

67,798

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

Proceeds from issuances of new debt	\$	(770,611)	
Principal paid on long-term obligations	_	1,928,562	1,157,951

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Net School Board activity	\$ (305,695)
(Increase) in accrued interest payable	(15,553)
(Increase) in accrued leave	(1,121)
(Increase) in OPEB liability	(15,966) (338,335)

Change in net assets of governmental activities \$ 534,516

Notes to Financial Statements As of June 30, 2010

Note 1—Summary of Significant Accounting Policies:

The County of Greensville, Virginia was formed in 1781 and is governed by an elected four member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include police and volunteer fire protection; sanitation services; recreational activities, cultural events, education and social services.

The financial statements of the County of Greensville, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Financial Statement Presentation

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components unit. For the most part, effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets, in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. The government has presented the original budget in addition to the final budget in comparison with actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for general purpose financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organizations governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Greensville, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures

1. Blended Component Units

The Greensville County Water and Sewer Authority has separate corporate powers that distinguish it as being legally separate from the County of Greensville, Virginia. The Water and Sewer Authority is financially accountable to the County because the County appoints a voting majority of its governing body and has the ability to impose its will on the Authority by significantly influencing the programs, projects, activities, and level of services provided by the Authority. The governing body of the Authority is the same as the governing body of the County.

For the reasons listed above, the Greensville Water and Sewer Authority is a Blended Component Unit of the County. The financial data of the Authority for its year ended September 30, 2009 has been included in this financial report. However, separately issued financial statements for the Authority can be obtained from the County Administrator's office located at 1781 Greensville County Circle, Emporia, Virginia 23847.

2. Discretely Presented Component Units

The Greensville County School Board operates the elementary and secondary public schools in the County. School Board members are appointed by the County Board of Supervisors. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is comprised of two Special Revenue Funds, the School Operating and School Cafeteria; and one Capital Projects Fund, the School Capital Projects Fund. The School Board is a discretely presented component unit of the County for which separate financial statements are issued. Copies of such statements can be obtained from the School Board offices located at 105 Ruffin Street, Emporia, Virginia 23847.

The Greensville County Industrial Development Authority was created by the County to attract industry to the County and to provide financing for such industries. The Authority does have separate corporate powers that distinguish it as being legally separate from the County. The County is financially accountable for the Authority because it appoints a voting majority of the Authority's governing body and there exists a financial benefit or burden between the two entities. However, because the two governing bodies are not substantially the same, the Authority is a discretely presented component unit of the County. Separately issued financial statements for the Authority can be obtained from the County Administrator's office located at 1781 Greensville County Circle, Emporia, Virginia 23847.

The Greensville/Emporia Department of Social Services has also been determined to be a discretely presented component unit of the County. The following factors require the Department to be reported as a discretely presented component unit: the County's Board of Supervisors appoints a voting majority of the Department's governing body, the existence of a financial benefit and burden between the County and Department, and the County is financially accountable for the Department. All of these factors require the department to be reported as a discretely presented component unit. Separate financial statements for the Department have been issued and can be obtained from their administrative offices located at P.O. Box 1136, Emporia, Virginia 23847.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

C. Other Related Organizations:

Included in the County's Financial Report

None

Excluded from the County's Financial Report

Meherrin Regional Library

The Meherrin Regional Library is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The counties of Greensville, Brunswick and the City of Emporia provide the financial support for the Library and appoint its governing Board, in which is vested the ability to execute contracts and to budget and expend funds. The County appoints two (2) of the ten (10) members of the Board.

District 19 Community Services Board

The Board was created by resolution pursuant to state statue and is considered a jointly governed organization and therefore its operations are not included in the county's financial statements. The County appoints two of the board members; however, the County cannot impose its will on the Board since it does not have the ability to modify or approve the budget or overrule or modify the decisions of the Board. The Board is fiscally independent and there is no financial benefit or burden relationship with the County. Therefore, it is not included in the County's financial statements.

Southside Regional Jail Authority

The Authority was created in 1995 to develop, construct, operate and maintain the regional jail known as Southside Regional Jail Authority. The Jail's service area includes the County of Greensville and the City of Emporia. The Authority is governed by a Board of Directors appointed by the Board of Supervisors of the County of Greensville and City of Emporia, Virginia. The Board of Directors has appointed the Treasurer of Greensville County to serve as fiscal agent. The board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The County cannot impose its will on the Board since it does not have the ability to modify or approve the budget or overrule or modify decisions of the Authority. The Authority is fiscally independent and there is not financial benefit or burden relationship with the County. Therefore it is not included in the County's financial statements.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

1. Governmental Funds: (Continued)

b. Capital Projects Fund

The Capital Projects Fund accounts for all financial resources used for the acquisition or construction of major capital facilities.

c. Proprietary Fund

The Proprietary Fund accounts for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and cash flow. The Proprietary Fund consists of the Enterprise Fund.

The Enterprise Fund accounts for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. The Solid Waste Fund and Greensville Water and Sewer Authority (blended component unit) are Enterprise Funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Budgets and Budgetary Accounting

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

E. Budgets and Budgetary Accounting: (Continued)

- 4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund and the General Capital Projects Funds of the primary government and the School Fund, School Cafeteria Fund and School Capital Projects of the School Board.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all county units.
- 8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component units, are reported at fair value. The Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$242,646 at June 30, 2010 and is comprised solely of property taxes.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable December 5th. The County bills and collects its own property taxes.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2010 was immaterial.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	<u>Years</u>
Structures, lines & accessories	30
Buildings	40
Building improvements	20-40
Vehicles	5
Office and computer equipment	5
Buses	8
Police vehicles	3

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay the leave. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

J. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

J. Long-term Obligations: (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

K. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

L. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current services costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension costs as it accrues.

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N. Restricted Cash:

General Fund:

The County maintains a Debt Service Reserve Fund restricted for future required debt service payments on the following debt issues:

Series 2000 Lease Revenue Bond Series 2003 Lease Revenue Bond	\$ 551,456 441,342
Total restricted cash, Exhibit 3	\$ 992,798
School Board:	
Restricted cash, school capital projects	424,770
Total restricted cash, Exhibit 1	\$ 1,417,568

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

O. Designated Cash:

The County designates cash in the Solid Waste Fund for the following purposes:

Designated for new equipment	\$ 174,740
Designated for new cell development	1,248,856
Designated for postclosure monitoring	1,091,833
Designated for landfill closure	1,367,652
Total designated cash	\$ 3,883,081

Note 2—Deposits and Investments:

Deposits

All cash of the County and its discretely presented component units are maintained in accounts collateralized in accordance with Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the <u>Code of Virginia</u> or covered by federal depository insurance.

<u>Investments</u>

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

The County has no formal investment policy addressing the various risks related to investments.

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2010 were rated by <u>Standard & Poor's</u> and the ratings are presented below using <u>Standard & Poor's</u> rating scale.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 2—Deposits and Investments: (Continued)

Credit Risk of Debt Securities: (Continued)

Locality's Rated Debt Investments' Values								
Rated Debt Investments	_	Fair Quality Ratings						
		AAA						
U.S. Agencies Money Market Local Government Investment Pool	\$	1,014,116 1,112,717						
Repurchase Agreements - Underlying: U.S. Agency Securities		5,493,321						
Total	\$	7,620,154						

Interest Rate Risk

Investment Maturities (in years)										
Investment Type	Fair Value	Less Than 1 Year								
Repurchase Agreements	\$ 5,493,321	\$ 5,493,321								
Total	\$ <u>5,493,321</u>	\$ <u>5,493,321</u>								

External Investment Pools:

The fail value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As the pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Other

Discretely Presented Component Unit-Greensville/Emporia Department of Social Services

All funds of the Department are in the custody of the Treasurer of the County.

Discretely Presented Component Unit-Greensville County Industrial Development Authority

All funds of the Authority are in the custody of the Authority's Treasurer.

Note 7-Defined Benefit Pension Plan:

A. Plan Description:

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Primary Government

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. The County has elected to assume the 5.00% member contribution. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was 3.06% of annual covered payroll.

Discretely Presented Component Unit - School Board (Non-professional)

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. The School Board has elected to assume the 5.00% member contribution. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2010 was 6.96% of annual covered payroll.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 7—Defined Benefit Pension Plan: (Continued)

B. Funding Policy: (Continued)

<u>Discretely Presented Component Unit - Greensville-Emporia Department of Social Services</u>

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. The Department has elected to assume the 5.00% member contribution. In addition, the Department is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The Department's contribution rate for the fiscal year ended 2010 was 5.81% of annual covered payroll.

Discretely Presented Component Unit - Greensville Water and Sewer Authority

Information regarding the Authority's retirement plan may be obtained from the separately issued financial statements.

C. Annual Pension Cost

Primary Government

For fiscal year 2010, the County's annual pension cost of \$118,826 was equal to the County's required and actual contributions (does not include employee share in the amount of \$194,160 which was assumed by the County).

Three-Year Trend Information for County - Primary Government

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed		Net Pension Obligation
6/30/08	\$ 135,773	100%	\$	-
6/30/09	120,309	100%		-
6/30/10	118,826	100%		-

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

Notes to Financial Statements As of June 30, 2010 (Continued)

D. Funded Status and Funding Progress

Primary Government

As of June 30, 2009, the most recent actuarial valuation date, the plan was 96.43% funded. The actuarial accrued liability for benefits was \$14,914,258, and the actuarial value of assets was \$14,381,791, resulting in an unfunded actuarial accrued liability (UAAL) of \$532,466. The covered payroll (annual payroll of active employees covered by the plan) was \$3,914,362, and ratio of the UAAL to the covered payroll was (13.60%).

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Discretely Presented Component Unit - School Board (Non-professional)

As of June 30, 2009, the most recent actuarial valuation date, the plan was 92.56% funded. The actuarial accrued liability for benefits was \$5,146,865, and the actuarial value of assets was \$4,763,967, resulting in an unfunded actuarial accrued liability (UAAL) of \$382,898. The covered payroll (annual payroll of active employees covered by the plan) was \$1,181,911, and ratio of the UAAL to the covered payroll was 32.40%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Discretely Presented Component Unit - Greensville-Emporia Department of Social Services

As of June 30, 2009, the most recent actuarial valuation date, the plan was 85.56% funded. The actuarial accrued liability for benefits was \$6,013,160, and the actuarial value of assets was \$5,145,054, resulting in an unfunded actuarial accrued liability (UAAL) of \$868,106. The covered payroll (annual payroll of active employees covered by the plan) was \$1,025,502, and ratio of the UAAL to the covered payroll was 84.65%.

E. Professional Employees - Discretely Presented Component Unit School Board:

Plan Description

The Greensville County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the State legislature. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Funding Policy

Plan members are required to contribute 5.00% of their annual covered salary and Greensville County School Board is required to contribute at an actuarially determined rate. The current rate is 8.81% of annual covered payroll. The contribution requirements of plan members and Greensville County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ending June 30, 2010, 2009, and 2008 were \$840,589, \$1,128,094, and \$1,286,710 respectively, equal to the required contributions for each year. The School Board's contribution rate was 8.81% of covered payroll for July 2009 through March 2010 and zero (0.00%) for April through June 2010.

Note 8-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue in the fund totaling \$7,044,529 is comprised of the following:

Primary Government:

- A. <u>Deferred Property Tax Revenue</u> Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$7,042,109 at June 30, 2010.
- B. <u>Prepaid Property Taxes</u> Property taxes due subsequent to June 30, 2009 but paid in advance by the taxpayers totaled \$2,420 at June 30, 2010.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 9-Landfill Closure and Postclosure Care Cost:

State and federal laws and regulations require the County to place a final cover on its Greenville landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as each balance sheet date. The \$2,685,232 reported as landfill closure and postclosure care liability at June 30, 2010 represents the cumulative amount reported based on the use of 26 percent of the estimated capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$7,608,157 as the remaining estimated capacity is filled. The County expects to close the landfill in the year 2025. Actual cost may be higher due to inflation, changes in technology, or changes in regulations. The County intends to fund these costs from tipping fee revenues.

The County has demonstrated financial assurance requirements for closure and postclosure care costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code. Also, \$2,459,485 has been designated in the Solid Waste Fund for payment of future closure and postclosure care costs.

Note 10—Commitments and Contingencies:

Federal programs in which the County and all discretely presented component units participants were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments and Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major program and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance test which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 11—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments in Virginia to form the Virginia Association of Counties Risk Management Program, a public entity risk pool currently operating as a common risk management and insurance program for participating local governments. The County pays an annual premium to the association for its workers compensation insurance, and general liability insurance.

In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss, including and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 12—Litigation:

At June 30, 2010, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

Note 13—City/County School Cost Agreement:

The City of Emporia and the County of Greensville are parties to an agreement that contains provisions for cost sharing, representation and other matters relating to the Greensville County Public School System. The current agreement expires December 13, 2013.

Note 14—Surety Bonds:

	Amount
Fidelity and Deposit Company of Maryland - Surety	
Robert C. Wrenn, Clerk of the Circuit Court	\$ 25,000
Linda B. Richardson, Treasurer	300,000
Martha S. Swenson, Commissioner of the Revenue	3,000
J.R. Edwards, Jr., Sheriff	30,000
Above constitutional officers' employees - blanket bond	50,000
Hartford Accident & Indemnity Company - Surety:	
Philip L. Worrell, Superintendent of Schools	10,000
Rick Pirkey, Deputy Clerk of the School Board	10,000
Angela Wilson, Clerk of the School Board	10,000
Romine T. Braswell, Bookkeeper	10,000
Liza Harrel, Payroll Clerk	10,000

By order dated December 31, 1983, the Judge of the Circuit Court ruled that no bond shall be required for any member of the Greensville County Board of Supervisors.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15-Other Post-Employment Benefits Program:

County:

Background

Beginning in fiscal year 2009, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to post-employment health-care and non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the County accrue the cost of the retiree health subsidy and other post-employment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

A. Plan Description:

In addition to the pension benefits described in Note 7, the County provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from County service with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) has the ability to remain on the County's medical and dental insurance plans up to the age when they become eligible for Medicare (age 65). The retiree's spouse can also receive benefits under the plan.

B. Funding Policy:

Individuals retiring from the County have the ability to remain on the County's medical and dental insurance plans. The County does not offer a subsidy towards the retiree or the retiree's spouse's premiums.

C. Annual OPEB Cost and Net OPEB Obligation:

The annual cost of other post-employment benefits (OPEB) under GASB 45 is calculated based on the annual required contribution or ARC. The estimated pay as you go cost for OPEB benefits is \$27,400 for fiscal year 2010. The County paid \$11,400 towards this obligation during the fiscal year. The ARC is an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan and change's to the net OPEB obligation:

Annual required contribution	\$ 27,400
Interest on net OPEB obligation	640
Adjustment to annual required contribution	(674)
Annual OPEB cost (expense)	\$ 27,366
Estimated contributions made	(11,400)
Increase in net OPEB obligation	\$ 15,966
Net OPEB obligation - beginning of year	\$ 16,000
Net OPEB obligation - end of year	\$ 31,966

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

Annual OPEB Cost

For 2010, the County's cash payment of \$11,400 was \$15,966 less than the OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009 and 2010 are as follows:

			Percentage of Annual OPEB		Net OPEB	
Fiscal Year Ended	1	Annual APEB Cost	Cost Contributed		Obligation	
June 30, 2009	\$	27,400	42%	\$	16,000	
June 30, 2010		27,366	42%		31,966	

D. Funded Status and Funding Progress

The funded status of the plan as of January 1, 2008, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	Ş	201,200
Actuarial value of plan assets	\$	-
Unfunded actuarial accrued liability	\$	201,200
Funded ratio (actuarial value of plan assets / AAL)		0%
Covered payroll (active plan members)		3,931,682
UAAL as a percentage of covered payroll		5.12%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

County: (Continued)

E. Actuarial Methods and Assumptions: (Continued)

Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

Interest Assumptions

	Unfunded
Investment rate of return	4.00%
Health cost trend assumption	10.00%
Payroll growth	2.50%

School Board:

A. Plan Description

In addition to the pension benefits described in Note 7, the School Board provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from School Board service with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) has the ability to remain on the School Board's medical and dental insurance plans up to the age when they become eligible for Medicare (age 65). The retiree's spouse can also receive benefits under the plan.

B. Funding Policy

Individuals retiring from the School Board have the ability to remain on the School Board's medical and dental insurance plans. The School Board does not offer a subsidy towards the retiree or the retiree's spouse's premiums.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

School Board: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the School Board's net OPEB obligation to the Retiree Health Plan:

Annual required contribution	\$	94,100
Interest on net OPEB obligation		2,132
Adjustment to annual required contribution	_	(2,137)
Annual OPEB cost (expense)	\$	94,095
Estimated contributions made		(40,800)
Increase in net OPEB obligation	\$	53,295
Net OPEB obligation - beginning of year	\$	53,300
Net OPEB obligation - end of year	\$	106,595

For 2010, the School Board's cash payment of \$40,800 was \$53,295 less than the OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009 and 2010 are as follows:

Fiscal Year Ended		Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed		Net OPEB Obligation	
June 30, 2009 June 30, 2010	\$	94,100 94,095	57% 43%	\$	53,300 106,595	

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010 is as follows:

Actuarial accrued liability (AAL)	\$ 901,600
Actuarial value of plan assets	-
Unfunded actuarial accrued liability	901,600
Funded ratio (actuarial value of plan assets / AAL)	-
Covered payroll (active plan members)	13,962,298
UAAL as a percentage of covered payroll	6.46%

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

School Board: (Continued)

D. Funded Status and Funding Progress: (Continued)

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2008 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employers own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 10.0% initially, reduced by decrements to an ultimate rate of 5.0% after ten years. Both rates included a 2.5% inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at January 1, 2009 was thirty years.

Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

School Board: (Continued)

E. Actuarial Methods and Assumptions: (Continued)

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

Interest Assumptions

	Unfunded
Investment rate of return	4.00%
Health cost trend assumption	10.00%
Payroll growth	2.50%

In addition to the benefits described above, the County and School Board participate in the Health Insurance Credit Program administered by the Virginia Retirement System.

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 8.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was .19% of annual covered payroll.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

C. OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2010, the County's contribution of \$7,378 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 and the preceding two years are as follows:

Fiscal Year Ended		Annual Pension Cost	Pension Annual OPEB		Net Pension Obligation	
June 30, 2008	\$	15,086	100%	\$		-
June 30, 2009		7,470	100%			-
June 30, 2010		7,378	100%			-

D. Funded Status and Funding Progress

The funded status of the plan as of September 30, 2009, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 63,090
Actuarial value of plan assets	44,705
Unfunded actuarial accrued liability	18,385
Funded ratio (actuarial value of plan assets / AAL)	70.86%
Covered payroll (active plan members)	3,914,362
UAAL as a percentage of covered payroll	0.47%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Notes to Financial Statements As of June 30, 2010 (Continued)

Note 15—Other Post-Employment Benefits Program: (Continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.5% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2009 was 27 years.

F. Professional Employees - Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.04% of annual covered payroll. The School Board's contribution to VRS for the years ended June 30, 2010, 2009 and 2008 was \$99,302, \$138,295, and \$145,133, and equaled the required contributions for each year.

REQUIRED SUPPLEMENTARY INFORMATION

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Honorable Members of the Board of Supervisors County of Greensville Emporia, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Greensville, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County of Greensville, Virginia's basic financial statements and have issued our report thereon dated January 4, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the Specifications for Audits of Counties, Cities, and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered County of Greensville, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Greensville, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Greensville, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Greensville, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 Independent Auditors' Report

The Honorable Members of the Board of Supervisors County of Greensville Emporia, Virginia

Compliance

We have audited County of Greensville, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Greensville, Virginia's major federal programs for the year ended June 30, 2010. County of Greensville, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Greensville, Virginia's management. Our responsibility is to express an opinion on County of Greensville, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Greensville, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Greensville, Virginia's compliance with those requirements.

In our opinion, County of Greensville, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of County of Greensville, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered County of Greensville, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Greensville, Virginia's internal control over compliance.

Internal Control Over Compliance: (Continued)

Tuinsa, Farmer, Cox associates

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2010

Note 1 - General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federally assisted programs of the County of Greensville, Virginia. The County's reporting entity is defined in Note 1 to the County's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the schedule. The information in this schedule is presented in accordance with OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations.

Note 2 - Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the accrual basis of accounting, which is described in Note 1 to the County's basic financial statements. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for States, Local and Indian Tribal Governments.

Note 3 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:		
General Fund	\$	1,170,171
General Fund Federal Loan Proceeds		213,961
Capital Projects Fund		409,488
Total primary government	\$	1,793,620
Component Unit Public Schools:		
School Operating Fund	\$	4,009,509
School Cafeteria Fund		1,044,999
Total component unit public schools	\$_	5,054,508
Component Unit Department of Social Services	\$_	1,379,562
Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$_	8,227,690

Schedule of Findings and Questioned Costs Year Ended June 30, 2010

Section I - Summary of Auditor's Results

Financial Statements

Unqualified Type of auditor's report issued:

Internal control over financial reporting:

Material weaknesses identified? No

Significant deficiencies identified? None reported

Noncompliance material to financial statements noted? No

Federal Awards

Internal control over major programs:

Material weaknesses identified? No

Significant deficiencies identified? None reported

Unqualified Type of auditor's report issued on compliance for major programs:

Any audit findings disclosed that are required to be reported in accordance with Circular A-133, Section .510 (a)? No

Identification of major programs:

CFDA# Name of Federal Program or Cluster

84.394 ARRA - State Fiscal Stabilization Fund (SFSF) - Education State Grants

Child Care and Development Fund Cluster:

Child care and development block grant 93.575 93.596 Child care mandatory and matching funds 93.713 ARRA - Child care and development block grant

Special Education Cluster:

84.027 Special Education - Grants to States 84.173 Special Education - Preschool Grants 84.391 ARRA - Special Education - Grants to States

Title I, Part A Cluster:

84.010 Title I Grants to Local Educational Agencies 84.389 ARRA - Title I Grants to Local Educational Agencies

School Food Cluster:

10.553 School Breakfast Program

10.553 Food Distribution

10.555 National School Lunch Program

10.559 Summer Food Service Program for Children

SNAP Cluster:
