INDEPENDENT ACCOUNTANT'S REPORT

We have examined management's assertion that the census data for other post-employment benefit plans sent to the actuary of the Virginia Retirement System (the System), for the year ended June 30, 2021, was complete and accurate based on the criteria included in the accompanying letter. The relevant census data elements for other post-employment benefit plans are also included in the accompanying letter. The System's management is responsible for the assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The System does not use census data for retired members eligible for the Health Insurance Credit or Group Life Insurance Plans who are not 'Retirees in a VRS Pension Plan,' as referenced in the accompanying letter. The System's actuary applies assumptions in accordance with Actuarial Standards of Practice (ASOP) in the absence of census data for these members. Our opinion is not modified with respect to this matter.

In our opinion, management's assertion that the census data for other post-employment benefit plans sent to the actuary of the System, for the year ended June 30, 2021, was complete and accurate based on the criteria included in the accompanying letter, is fairly stated, in all material respects.

Our report is intended solely for the information and use of Virginia Retirement System management, the Virginia Retirement System Board of Trustees, the Commonwealth Joint Legislative Audit and Review Commission, and Virginia Retirement System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

The census data provided by the Virginia Retirement System to the plans' actuary, Gabriel, Roeder, Smith & Company, as of June 30, 2021 properly identifies the service and dollars associated with deceased members so that they may be excluded from the valuations. The Virginia Retirement System has contracted with Pension Benefit Information, LLC (PBI) Research Services, to provide death auditing services by comparing records provided to available resources and notifying VRS of deceased members.

Sincerely,

Patricia S. Bishop, Director
