Board of Directors
King George County Service Authority
And Interest Parties

The Comprehensive Annual Financial Report (CAFR) of the King George County Service Authority (Authority) is submitted herewith for the fiscal year ending June 30, 2015. The information in this report is believed by Authority management to be sufficient to fully represent the financial results of the Authority's operations for the year ended June 30, 2015 and to provide an accurate and useful picture of the Authority's status as of that date. All information included is the responsibility of the management of the Authority with respect to accuracy, completeness and fairness.

ORGANIZATION AND SERVICES PROVIDED

The King George County Service Authority was established under the *Virginia Water and Sewer Authorities Act* (1950, as amended), to supply drinking water and to provide wastewater collection and treatment in certain areas of King George County. The Authority is governed by a five member board comprised of the government's elected supervisors and is therefore considered a blended component unit of the County. Blended component units, although legally separate entities, are in substance, part of the government's operations. The Board appoints a General Manager, who manages Authority operations under their direction.

The Authority operates and maintains twelve (12) water systems and five (5) wastewater treatment plants and the associated water storage facilities, pumping stations, transmission mains and interceptor sewers. The Authority has 250 miles of water mains which service approximately 4,023 customers and has 200 miles of sanitary sewer lines which service approximately 2,240 customers.

LOCAL ECONOMY

King George County has a diversified economy with strong military, services, manufacturing, retail trade and agricultural sectors. NSF Dahlgren, a military installation, is the major economic driver and provides employment for 5,000 civilian and military personnel, and an additional 4,000 contract employees. NSF Dahlgren infuses over 1 billion dollars into the regional economy annually. During the latest BRAC (Base Realignment Committee) recommendation, the NSF Dahlgren had a net gain of ten (10%) percent in personnel. NSF Dahlgren is home to the Aegis Ballistic Missile Defense, Naval Surface Warfare Center Dahlgren Division, Center for Surface Combat Systems, Aegis Training and Readiness Center, Joint Warfare Analysis Center, and 20th Space Control Squadron-Detachment One. NSF Dahlgren has been instrumental in attracting a variety of high technology software engineering firms to the County. In addition to NSF Dahlgren, other industries and institutions include: light manufacturing, high technology, computer programming, retail, food service, education, and government. Agriculture also remains important in the County's economy. King George County is currently seeing a significant amount of retail growth near Dahlgren as well. As of June 30th, 2015 King George County had an estimated population of 25,371, an increase of 7.6% since 2010.

MAJOR INITIATIVES / PROSPECTS FOR THE FUTURE

The projects and their status in the CIP are listed below:

- Oakland Park and Purkins Corner Waste Water Treatment Plant Nitrogen Abatement Project (under construction)
- Presidential Lakes and Arnolds Corner Water System Interconnection Project (under construction)
- Construction of a new sludge dewatering facility. (Postponed due to development decline)
- Bayberry well and well house (Project on hold)

LONG TERM FINANCIAL PLANNING

The Authority prepares a Capital Improvement Plan (CIP) annually. The CIP serves as a planning tool to analyze initiatives, formulate service levels and phase-in funding needed for facilities. Long-term financing is primarily achieved with long term revenue bonds.

ACCOUNTING AND BUDGETARY CONTROLS

The Authority's accounting records are maintained on the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recorded when incurred, without regard to receipt or payment of cash. Current controls provide reasonable assurance that the Authority's assets are properly recorded and protected and that the financial data may be used with confidence in the preparation of historical reports and projections. Accounting control is maintained by segregation of duties and data security systems in all areas of record keeping, disbursements, and purchasing authority.

All of these control systems are reviewed regularly by staff and are evaluated as part of the annual financial audit (see Annual Audit section below). Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. In this regard, we believe that the Authority's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

ACCOUNTING AND BUDGETARY CONTROLS (CONTINUED)

A proposed budget for each fiscal year is prepared by the General Manager and Director of Finance and submitted to the Board of Directors, usually in March, with a public hearing held on the proposed rates in April or May. Budgetary compliance is monitored and reported to the Board by the Director of Finance and General Manager. Projections of both revenues and expenses are understood to reflect anticipated service levels and to incorporate a variety of economic, climatic, and demographic forecasts.

OTHER INFORMATION

Management's Discussion and Analysis: Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Authority's MD&A can be found immediately following the report of the independent auditors.

Independent Audit: The Commonwealth of Virginia requires an annual audit of the financial records and transactions of the Authority by independent certified public accountants selected by the Board. The annual audit was conducted in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and Specifications for Audits of Authorities, Boards and Commissions, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. The Independent auditor's report is presented in the Financial Section of this report.

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting Program to the King George County Service Authority, Virginia for its comprehensive annual financial report for the fiscal year ended June 30, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report conforms to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a certificate.

Acknowledgments: The preparation of this report could not have been accomplished without the dedicated services of the entire Department of Finance. We would like to express our appreciation to all the members of the staff who assisted and contributed to its preparation. We would also like to thank the Board for their continued interest and support in planning and conducting the financial operation of the Authority in a responsible, timely and progressive manner.

Respectfully submitted,

Christopher F. Thomas, P.E.

Independent Auditors' Report

**To the Honorable Members of Board of Directors
King George County Service Authority
King George, Virginia**

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of King George County Service Authority, as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of King George County Service Authority, as of June 30, 2015 and 2014, and the changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 2 to the financial statements, in 2015, the Authority adopted new accounting guidance, GASB Statement Nos. 68 *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

Other Matters

Comparative Information

As described in Note 2 to the financial statements, GASB Statement Nos. 68 and 71 were implemented prospectively resulting in a restatement of beginning net position. In the year of implementation, comparative information for the net pension liability and related items was unavailable. Therefore, the 2014 amounts related to pensions have not been restated to reflect the requirements of GASB Statement Nos. 68 and 71. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules related to pension and OPEB funding on pages 5-8 and 55-57 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise King George County Service Authority's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2015, on our consideration of King George County Service Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering King George County Service Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the King George County Service Authority (the Authority), we offer readers of our financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introduction section of this report.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements.

Enterprise fund financial statements. The enterprise fund financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The statement of net position presents information on the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the excess of assets and deferred outflows of resources over liabilities and deferred inflows of resources reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how the Authority's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g. earned but unused vacation leave).

The basic enterprise fund financial statements can be found on Exhibits 1 through 3 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Financial Highlights

- The assets and deferred outflows of resources of the Authority exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$21.1 million (net position).
- The Authority's total net position increased by \$1.8 million for Fiscal Year 2015. Operating income in FY15 was \$780,191; the large increase in net position is mainly attributable to the addition in capital contributions. The increase in net position along with the slight decrease in the prior year is a favorable pattern for the Authority.
- The Authority's operating revenues increased by \$304,629 compared to prior year. This is mainly due to an increase in usage fee revenue along with connection and availability fee revenue.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of an Authority's financial position. In the case of the Authority, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$21.1 million at the close of the most recent fiscal year. The same period ended last fiscal year was \$19.3 million.

\$16.9 million of the Authority's net position reflects its net investment in capital assets used to acquire those assets that are still outstanding. The Authority uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to pay these liabilities. The Authority's unrestricted net position was \$4.2 million for the year ended June 30, 2015 which was an increase of \$1,953,154 compared to the same period ended June 30, 2014.

| | Net Position | | |
|-----------------------------------|----------------------|----------------------|----------------------|
| | 2015 | 2014 | 2013 |
| Current and other assets | \$ 5,177,316 | \$ 5,765,973 | \$ 4,347,699 |

| Net investment in capital assets | \$ 16,923,176 | \$ 17,323,889 | \$ 17,936,970 |
| Unrestricted | <u>4,178,802</u> | <u>2,225,648</u> | <u>1,963,895</u> |
| Total net position | <u>\$ 21,101,978</u> | <u>\$ 19,549,537</u> | <u>\$ 19,900,865</u> |

Note: In the year of implementation of GASB 68, prior year comparative information was unavailable. Therefore, the information in the table has not been restated to reflect the requirements of GASB 68.

Financial Analysis: (Continued)

The Authority's net position increased \$1,791,732 during the current year and decreased (\$351,328) during the prior year. Operating revenues increased \$304,629 while operating expenses decreased \$152,136 from FY 2014 to FY 2015 levels. Revenues increased by \$77,190 and expenses increased \$182,852 from FY 2013 to FY 2014.

| | | Change in Net Position | | |

| Net position—June 30 | \$ | 21,101,978 | \$ 19,549,537 | \$ 19,900,865 |

Note: In the year of implementation of GASB 68, prior year comparative information was unavailable. Therefore, the information in the table has not been restated to reflect the requirements of GASB 68.

Financial Analysis: (Continued)

Major reasons are as follows:

- Operational revenues increased overall with the main increases being in usage fee revenue which is due to prior year connections now being served as users including any new businesses in the County. There was also an increase in availability fees which include connection to the system. The increase in the prior year was due to a small increase in usage fee revenue.
- There was a decrease in operational expenses in FY2015 in comparison to FY2014 in the amount of \$152,136. This was mainly due to a reduction in operational expenses that include personnel costs and contractual services. Operational expenses increased by \$182,852 from FY2013 to FY2014 due to an increased cost in contractual services
- The Service Authority transferred \$175,000 to the County for the annual cost allocation expenses in both 2015 and 2014.

Capital Asset and Debt Administration

Capital Assets - The Authority's investment in capital assets as of June 30, 2015 totals \$44.8 million (net of accumulated depreciation) and \$42.3 million as of June 30, 2014. Investment in capital assets increased \$2,455,618 in FY2015 compared to a increase of \$1,270,311 in FY2014. Details supporting changes in capital asset activity including construction in progress can be found in Note 5 to the financial statements.

Long-Term Debt - At the end of the current fiscal year, the Authority has \$30,305,423 in bonds, notes, and other long term obligations outstanding which is an increase of \$1,879,424 in comparison to the prior year. Fiscal Year ended 2014 debt was \$28,425,999 or an increase of \$2,132,097 compared to Fiscal Year ended 2013. The Authority refunded several bonds in Fiscal Year 2015 for overall savings, along with additional proceeds for the Fairview Beach and Dahlgren capital projects, details supporting each individual long-term debt retirement can be found in Note 6 to the financial statements.

Requests for Information

This financial report is designed to provide a general overview of the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, at 10459 Courthouse Drive, King George, Virginia, 22485.

This Page Intentionally Left Blank

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2015 and 2014

NOTE 1–BASIS OF PRESENTATION:

A. Organization and Purpose

The King George County Service Authority was created by the King George County Board of Supervisors, pursuant to the provisions of the Virginia Water and Sewer Authorities Act, Section 15.1-1239 through Section 15.1-1270 of the Code of Virginia 1950, as amended.

The By-laws and rules for the transaction of the business of the King George County Service Authority are made pursuant to authority vested in this Authority by Section 15.1-1250(b), Code of Virginia, 1950, as amended and in accordance with the general provisions of the Virginia Water and Sewer Authorities Act.

B. Financial Reporting Entity

The King George County Service Authority is reported as a blended component unit of the County of King George. The Authority is governed by a board comprised of the government's elected supervisors. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government.

NOTE 2–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Basic Financial Statements

Since the Authority is only engaged in business-type activities, it is required to present only the financial statements required for enterprise funds. For the Authority, the basic financial statements and required supplementary information consist of:

- Management's Discussion and Analysis
- Enterprise fund financial statements
 - Statement of Net Position
 - Statement of Revenues, Expenses, and Changes in Net Position
 - Statement of Cash Flows
 - Notes to Financial Statements

B. Basis of Accounting

The King George County Service Authority operates as an enterprise fund and its accounts are maintained on the accrual basis of accounting. Under this method, revenues are recognized when earned, and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash. The Authority accrues revenue for services rendered but not yet billed at the end of the fiscal year.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Basis of Accounting: (Continued)

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. The Authority also recognizes as operating revenue the portion of availability charges intended to recover the cost of connecting new customers to the system. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Cash and Cash Equivalents

The Authority's cash and cash equivalents consist of cash on hand, demand deposits, certificates of deposit and short-term investments with original maturities of three months or less from the date of acquisition.

D. Restricted Assets

Certain proceeds of the Authority's revenue bonds, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts to be expended on various water and sewer capital projects.

E. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the year ended June 30, 2015.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 2–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Capital Assets: (Continued)

Property, plant, and equipment and infrastructure are depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|-----------------------------|--------------|
| Buildings | 40 |
| Source of supply structures | 40, 50 |
| Vehicles | 5 |
| Office equipment | 5 |
| Meters, pumps | 10, 40 |

F. Other Significant Accounting Policies

- All trade receivables are shown net of an allowance for uncollectibles. The Authority calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to \$177,433 and \$177,337 at June 30, 2015 and 2014 respectively.
- Investments are reported at fair value.
- Inventory of materials and supplies is stated at cost using the first-in, first-out method of valuation.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Authority has items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The Authority also reports contributions to the pension plan made during the current year and subsequent to the net pension asset or liability measurement date, which will be recognized as a reduction of the net pension asset or liability next fiscal year. For more detailed information on this item, reference the pension note.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 2–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

H. Deferred Outflows/Inflows of Resources: (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has one item that qualifies for reporting in this category. Certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments. For more detailed information on this item, reference the pension note.

I. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

J. Net Position Flow Assumption

Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

K. Prepaid Connection Fees

Prepaid connection fees are non-refundable deposits received in advance for water and/or sewer connection fees. The amounts are recorded as revenue when the connection is made.

L. Compensated Absences

The Authority accrues compensated absences (annual and sick leave benefits) when vested. The current and noncurrent portions of the compensated absences liabilities are recorded as accrued liabilities.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority Retirement Plan and the additions to/deductions from the Authority Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Adoption of Accounting Principles

Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*:

The Authority implemented the financial reporting provisions of the above Statements for the fiscal year ended June 30, 2015. These Statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures related to pensions. Note disclosure and required supplementary information requirements about pensions are also addressed. The requirements of this Statement will improve financial reporting by improving accounting and financial reporting by state and local governments for pensions. The implementation of these Statements resulted in the following restatement of net position:

| | <u>Business- Type Activities</u> |
|--|---|
| Net Position as reported June 30, 2014 | \$ 19,549,537 |
| Implementation of GASB 68 | <u>(239,291)</u> |
| Net Position as restated June 30, 2014 | \$ <u><u>19,310,246</u></u> |

In the year of implementation of GASB 68, prior year comparative information was unavailable. Therefore, the 2014 information has not been restated to reflect the requirements of GASB 68 and 71.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 3—DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the Authority to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

Interest Rate Risk

The Authority does not have a policy related to interest rate risk.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 4-CAPITAL ASSETS:

A summary of changes in capital assets for the year ended June 30, 2015 is as follows:

| | Beginning Balance July 1, 2014 | Additions | Deletions | Ending Balance June 30, 2015 |

The Authority has no Arbitrage rebate liability at June 30, 2015.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 6–COMPENSATED ABSENCES:

In accordance with GASB statement 16 “Accounting for Compensated Absences,” the County has accrued the liability arising from outstanding claims and judgments and compensated absences.

The Authority accrues vacation and sick leave at various rates. No benefits or pay is received for unused sick leave upon termination. The Authority had outstanding accrued vacation pay at June 30, 2015 in the amount of \$78,480.

NOTE 7–UNEARNED REVENUE:

Unearned revenue represents amounts for which assets recognition criteria have been met, but for which revenue recognition criteria have not been met. Unearned revenue totaled \$122,642 at June 30, 2015 and consisted of prepaid connection fees.

NOTE 8–LITIGATION:

At June 30, 2015, there were no matters of litigation involving the Authority which would materially affect the Authority’s financial position should any court decisions on pending matters not be favorable.

NOTE 9–PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the Authority are automatically covered by the City of Fredericksburg, Virginia Pension Plan, a cost-sharing multiple employer plan. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

NOTE 9—PENSION PLAN: (CONTINUED)

Plan Description: (Continued)

| RETIREMENT PLAN PROVISIONS | | |
|---|---|--|
| PLAN 1 | PLAN 2 | HYBRID RETIREMENT PLAN |
| <p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p> | <p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p> | <p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members")</p> <ul style="list-style-type: none"> • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. |

NOTE 9—PENSION PLAN: (CONTINUED)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The Authority's contractually required contribution rate for the year ended June 30, 2015 was 9.13% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Authority were \$94,769 and \$83,779 for the years ended June 30, 2015 and June 30, 2014, respectively.

Net Pension Liability

At June 30, 2015, the Authority reported a liability of \$122,232 for its proportionate share of the net pension liability. The Authority's net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2013, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014. The Authority's proportionate share of the same was calculated using creditable compensation as a basis for allocation. At June 30, 2015 and 2014, the Authority's proportion was 9.24%.

NOTE 9—PENSION PLAN: (CONTINUED)

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the Authority's Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

| | |
|---------------------------------------|--|
| Inflation | 2.5% |
| Salary increases, including inflation | 3.5% – 5.35% |
| Investment rate of return | 7.0%, net of pension plan investment expense, including inflation* |

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Actuarial Assumptions – General Employees (Continued)

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Actuarial Assumptions – Public Safety Employees

The total pension liability for Public Safety employees in the Authority's Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

| | |
|---------------------------------------|--|
| Inflation | 2.5% |
| Salary increases, including inflation | 3.5% – 4.75% |
| Investment rate of return | 7.0%, net of pension plan investment expense, including inflation* |

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

NOTE 9—PENSION PLAN: (CONTINUED)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Target Allocation | Arithmetic Long-Term Expected Rate of Return | Weighted Average Long-Term Expected Rate of Return |
|-------------------------------|------------------------------|---|---|
| U.S. Equity | 19.50% | 6.46% | 1.26% |
| Developed Non U.S. Equity | 16.50% | 6.28% | 1.04% |
| Emerging Market Equity | 6.00% | 10.00% | 0.60% |
| Fixed Income | 15.00% | 0.09% | 0.01% |
| Emerging Debt | 3.00% | 3.51% | 0.11% |
| Rate Sensitive Credit | 4.50% | 3.51% | 0.16% |
| Non Rate Sensitive Credit | 4.50% | 5.00% | 0.23% |
| Convertibles | 3.00% | 4.81% | 0.14% |
| Public Real Estate | 2.25% | 6.12% | 0.14% |
| Private Real Estate | 12.75% | 7.10% | 0.91% |
| Private Equity | 12.00% | 10.41% | 1.25% |
| Cash | 1.00% | -1.50% | -0.02% |
| Total | 100.00% | | 5.83% |
| | | Inflation | 2.50% |
| | | *Expected arithmetic nominal return | 8.33% |

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Authority's proportionate share of the net pension liability using the discount rate of 7.00%, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

| | 1% Decrease (6.00%) | Current Discount Rate (7.00%) | 1% Increase (8.00%) |
|-----------------------------------|------------------------------------|--|------------------------------------|
| Authority's net pension liability | \$ 498,684 | \$ 122,232 | \$ (187,626) |

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the Authority recognized pension expense of \$35,538. At June 30, 2015, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|
| Net Difference between projected and actual earnings on pension plan investments | \$ - | \$ 152,597 |
| Employer contributions subsequent to the measurement date | <u>94,769</u> | <u>-</u> |
| Total | \$ <u><u>94,769</u></u> | \$ <u><u>152,597</u></u> |

\$94,769 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Year ended June 30</u> | |
|-------------------------------|-----------|
| 2016 | \$ 38,149 |
| 2017 | 38,149 |
| 2018 | 38,149 |
| 2019 | 38,150 |
| Thereafter | - |

KING GEORGE COUNTY SERVICE AUTHORITY

Notes to Financial Statements
as of June 30, 2015 and 2014 (Continued)

NOTE 10–RISK MANAGEMENT:

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority joined together with other local governments in the State to form the Virginia Municipal Group Self Insurance Association, a public entity risk pool currently operating as a common risk management and insurance program for member governments. The Authority pays an annual premium to the pool for its workers compensation coverage. The Agreement for Formation of the association provides that the association will be self-sustaining through member premiums.

The Authority continues to carry commercial insurance for all other risks of loss, including general liability and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 11–DEBT REFUNDING:

On November 19, 2014 the Authority issued \$3,980,000 in VRA Lease Revenue Refunding Bonds, Series, 2014C with an effective interest rate ranging from 3.424% to 5.125%. The Series 2014C bonds were issued to refund \$4,007,342 of Revenue Bonds. The bonds will be repaid in various installments beginning October 1, 2015 to October 1, 2033. As a result, the refunded bonds are considered to be defeased in substance and the liability for those bonds has been removed from the financial statements. The reacquisition price exceeded the carrying amount of the old debt by \$655,182. The advance refunding reduced the total debt service payments over the next 19 years by \$282,665 and resulted in an economic gain of \$251,310. At June 30, 2015, the defeased bonds had balances outstanding of \$3,980,000.

On November 19, 2014 the Authority issued \$5,749,000 in Water and Sewer Revenue Refunding Bonds with an effective interest rate ranging from 2.240% to 5.000%. The bonds were issued to refund \$4,830,000 of Revenue Bonds. The bonds will be repaid in various installments beginning October 1, 2015 to October 1, 2033. As a result, the refunded bonds are considered to be defeased in substance and the liability for those bonds has been removed from the financial statements. The reacquisition price exceeded the carrying amount of the old debt by \$682,604. The advance refunding reduced the total debt service payments over the next 19 years by \$632,001 and resulted in an economic gain of \$506,490. At June 30, 2015 the defeased bonds had balances outstanding of \$4,830,000.

NOTE 12–UPCOMING GASB PRONOUNCEMENTS:

At Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. No formal study or estimate of the impact of this standard has been performed.

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017. No formal study or estimate of the impact of this standard has been performed.

|---|---|---|--|---------------------------------------|--|
| (1) | (1) | (2) | (3) | (4) | (5) |
| 2015 | \$ 94,769 | \$ 94,769 | \$ - | \$ 935,528 | 10.13% |

Schedule is intended to show information for 10 years. Since 2015 is the first year for this presentation, no other data is available. However, additional years will be included as they become available.

(A Component Unit of King George County, Virginia)
Notes to Required Supplementary Information
June 30, 2015

Changes of benefit terms – There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.

Changes of assumptions – The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 – LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) – LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Statistical Section

Contents

Tables

Financial Trends

These tables contain trend information to help the reader understand how the the Authority's financial performance has changed over time.

1-2

Revenue, Rates and Useage Information

These tables contain information to help the reader assess the factors affecting the Authority's change in revenues and its ability to generate revenues.

3-6

Expenses

This table contains comparative information about the Authority's expenses.

7

Debt Capacity

These tables present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue debt in the future.

8-9

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place and to help make comparisons over time.

10-11

Operating Information

These tables contain information about the Authority's operations and resources to help the reader understand how the Authority's financial information relate to the activities it performs.

12

Other Information

These tables contain miscellaneous data.

13

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

**To the Honorable Members of the Board of Directors
King George County Service Authority
County of King George, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the business-type activities of King George County Service Authority, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise King George County Service Authority's basic financial statements, and have issued our report thereon dated December 7, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered King George County Service Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of King George County Service Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of King George County Service Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether King George County Service Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
