December 16, 2025

To the Honorable Members of the Board of Supervisors
To the Citizens of Campbell County
County of Campbell, Virginia

We are pleased to present the Annual Comprehensive Financial Report of the County of Campbell, Virginia, (the "County"), for the fiscal year ended June 30, 2025. This report was prepared by the County's Department of Management Services. Responsibility for both accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Controls: In addition to the internal accounting controls noted above, the County also maintains budgetary controls. These budgetary controls ensure compliance with provisions embodied in the annual appropriated budget approved by the Board of Supervisors. Activities of the general fund, solid waste fund, road construction fund, school construction fund, County capital projects funds and County debt service fund are included in the annual appropriated budget. Additional information related to budgetary controls can be found in Note 1 of the Note to Financial Statements.

As a recipient of federal and state financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations.

The County adopts an annual budget by July 1 of each year as required by §15.2-2503, Code of Virginia of 1950, as amended. A budget is not required for fiduciary funds.

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with §15.2-2507, Code of Virginia of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required.

THE REPORTING ENTITY AND ITS SERVICES

The County of Campbell report includes all funds of the “primary government.” In Virginia, cities and counties are distinct units of government; therefore, the County is responsible for providing all services normally provided by a local government. These services include public safety, public works, libraries, economic development, law enforcement, social services, recreation and cultural activities, and community development. Additionally, the County is responsible for funding primary and secondary education and elects a separate board to handle utilities. For financial reporting purposes and in accordance with the Governmental Accounting Standards Board (GASB), Statement 14, “The Financial Reporting Entity,” the County has identified two discrete component units. The GASB statement establishes the criteria used in making this determination and identifies each as a blended component unit or discretely presented component unit. Blended component units, although legally separate entities, are, in substance, part of the primary government’s operations and therefore are included as part of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of this primary government. There, the County School Board and the Industrial Development Authority (IDA) are reported in a discrete presentation. Based on GASB Statement 14 criteria, the School Board is a legally separate organization providing educational services to the public whose board is elected and is fiscally dependent on the local government. The IDA is a legally separate organization providing economic development services to the County whose board is appointed by the County Board of Supervisors.

CAMPBELL COUNTY DEMOGRAPHIC & ECONOMIC DEVELOPMENT INFORMATION

Campbell County’s existing industrial sectors include, but are not limited to, advanced manufacturing, agriculture, automotive, banking/finance, call/customer service centers, forest/ wood products, furniture, metal fabrication, nuclear engineering/fabrication, pharmaceutical, plastics, printing, textile and trucking.

In FY 2025 Campbell County’s unemployment rate ranged from 3.3% to 3.7% with an average of 3.5%. Campbell County’s unemployment rates followed the same trends as the Commonwealth of Virginia and the United States as a whole. The Weldon Cooper Center reports that Campbell County’s population estimate aligns closely from the 2020 Census count of 55,693 to the 2025 estimate of 55,696.

FY 2025 MAJOR ECONOMIC DEVELOPMENT DEPARTMENT ACCOMPLISHMENTS/INITIATIVES

- **Strategic Plan** - The Economic Development Department concluded the Comprehensive Economic Development strategic plan that gives focus to new Economic Development Goals. The plan was released after presentation to the Board of Supervisors at a summit engaging community members, stakeholders and partners alike with over fifty people in attendance.
- **Incentive Awards** - The Economic Development Department awarded seven businesses incentives based on their qualifying taxable investment in Campbell County.
- **Grant Awards** - Economic Development staff applied for six grants, secured five of them bringing \$955,977 into the County for projects and received nine applications for the Start Small Campbell Grant Program with four businesses awarded \$5,000 each.
- **Shell Building** - Ground was broken on the 100,000 sq. ft. shell building site after procuring a grading contractor to prepare the site and Lot L for a pad ready site. Campbell County IDA began construction on a 45,000 sq. ft. dark shell industrial building in Seneca Commerce Park.

FY 2025 OTHER ACCOMPLISHMENTS/INITIATIVES

- Citizen Engagement and Quality of Life worked with Economic Development to procure grant funds to offset costs to implement a large-scale mural on the outside of Patrick Henry Memorial Library.
- County Administration continues to work with Campbell County Schools on a major \$50 million renovation of Brookville High School through the Public-Private Education and Infrastructure Act (PPEA).
- Information Technology worked with vendors and Public Safety EMS staff to implement a drug/narcotics room at Public Safety Station 6, which included 24/7 surveillance, secure access and an upgraded network for the entire station.
- Public and Employee relations implemented a new employee curriculum (CORE) to develop and connect staff in key functions throughout the organization.
- Public Safety implemented an in-house pharmacy after hospitals made the decision to discontinue providing drugs to first responder agencies.
- Public Works worked to have the roof and HVAC replaced at the School Administration and Social Services Buildings.
- The County continues implementation efforts with several companies to provide high speed Internet to residents in the rural area of Campbell County.

PROPERTY TAX RATES

Effective April 2024, the Personal Property Tax rate of \$4.11 decreased by \$0.06 to \$4.05 per \$100 of assessed value. Machinery & Tools Tax rate remained at \$3.20 per \$100 of assessed value. Business, Professional and Occupational License (BPOL) rates decreased by 1% as follows:

- \$0.1444 to \$0.1344 per \$100 of gross receipts for contractors;
- \$0.1805 to \$0.1705 per \$100 of gross receipts for retail sales;
- \$0.3159 to \$0.3059 per \$100 of gross receipts for personal service & repair;
- \$0.4513 to \$0.4413 per \$100 of gross receipts for professional service;
- \$0.4513 to \$0.4413 per \$100 of gross receipts for public service; and
- \$0.0451 to \$0.0351 per \$100 of gross receipts for wholesalers.

The Real Estate Tax rate of \$0.45 cents remained at \$0.45 per \$100 of assessed value.

Effective April 2025, the Personal Property Tax rate of \$4.05 decreased by \$0.10 to \$3.95 per \$100 of assessed value. Machinery & Tools Tax rate remained at \$3.20 per \$100 of assessed value. Business, Professional and Occupational License (BPOL) rates decreased by 3% as follows:

- \$0.1344 to \$0.1304 per \$100 of gross receipts for contractors;
- \$0.1705 to \$0.1654 per \$100 of gross receipts for retail sales;
- \$0.3059 to \$0.2967 per \$100 of gross receipts for personal service & repair;
- \$0.4413 to \$0.4281 per \$100 of gross receipts for professional service;
- \$0.4413 to \$0.4281 per \$100 of gross receipts for public service; and
- \$0.0351 to \$0.0340 per \$100 of gross receipts for wholesalers

The Real Estate Tax rate of \$0.45 cents remained at \$0.45 per \$100 of assessed value.

GOVERNMENT'S FINANCIAL POLICIES AND LONG-TERM FINANCIAL PLANNING

Campbell County's Financial Policy has established a target Unassigned General Fund Balance of 15% of the combined budgets of the General Fund and School Operating Fund, less the local funding share to the Schools. For the FY 2025 budget year, this totals 15% of \$177,976,392 or \$26,696,459. The target of \$26,696,459 represents approximately 60 days of operating reserve, additionally serves to meet required financial assurance measures for solid waste activities and demonstrates the County's fiscal soundness for borrowing capacity. As of June 30, 2025, there is a total of \$16.33 million assigned by the Board for future needs of school maintenance, economic development, community & economic investment fund, and debt service.

The County utilizes an annual comprehensive planning process to look at long-term capital and operational needs. This process leads to the development of a formal Strategic Plan and Timeline that identifies future funding requirements of up to five years for Strategic Planning. This plan is adopted by the Board of Supervisors in February of each year and used to develop the annual operating budget. Additionally, this same process yields a five-year Capital Improvement Plan (CIP) for the primary government and schools that is formally adopted by the Board in the spring of each year in conjunction with the annual operating budget.

OTHER INFORMATION

Management's Discussion and Analysis: Generally accepted accounting principles (GAAP) require management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The County of Campbell's MD&A can be found immediately following the report of the independent auditors.

Independent Audit: The Commonwealth of Virginia requires an annual audit of the financial records and transactions of all departments of the County by independent certified public accountants selected by the Board of Supervisors. The County is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the findings and recommendations, and auditors' reports on the internal control structure and compliance with laws and regulations, is contained in this report. These requirements have been complied with and the auditor's opinion is included in this report.

Certificate of Achievement: In order to be awarded a Certificate of Achievement from the Government Finance Officers Association (GFOA), a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report (ACFR). This report must satisfy both generally accepted accounting principles and applicable legal requirements. The County has been the recipient of this prestigious award for the last eighteen successive years.

Acknowledgments: The preparation of this report on a timely basis could not have been accomplished without the dedicated services of the entire Management Services Department. We would also like to thank the Board of Supervisors for their interest and support in planning and conducting the financial operation of the County in a responsible and progressive manner. In addition, we would like to thank the Commissioner of the Revenue, Real Estate Office, Community Development, Economic Development and other employees for their assistance in the preparation of this report.

Revised 11/20/18

ROBINSON, FARMER, COX ASSOCIATES, PLLC

Certified Public Accountants

Independent Auditors' Report

**To the Honorable Members of
The Board of Supervisors
County of Campbell, Virginia**

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Campbell, Virginia, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Campbell, Virginia, as of and for the year ended June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the school activity fund of the Component Unit School Board, which represent 8 percent, 18 percent, and 3 percent, respectively, of the assets, fund balances, and revenues of the Component Unity School Board as of June 30, 2025. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for school activity fund, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of County of Campbell, Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified audit opinions.

Change in Accounting Principles

As described in Note 1 to the financial statements, in 2025, the County adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Restatement of Beginning Balances

As described in Note 19 to the financial statements, in 2025, the County restated beginning balances to reflect the requirements of GASB Statement No. 101 and for correction of previously reported accounts payable amounts. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Campbell, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of County of Campbell, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Campbell, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise County of Campbell, Virginia's basic financial statements. The accompanying combining and individual fund financial statements and schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the report of the other auditors, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2025, on our consideration of County of Campbell, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of County of Campbell, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Campbell, Virginia's internal control over financial reporting and compliance.

Robinson, Farmer, Cox Associates

Charlottesville, Virginia
December 9, 2025

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Campbell, Virginia, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2025. In some areas, references to where the information is found in the Financial Report is bracketed [] to provide location of data.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflow of resources at the close of fiscal year 2025 by \$126,422,236 (net position) [Exhibit 1]. During the current fiscal year, the County's net position increased by \$19,374,775 [Exhibit 2].
- \$5,330,384 was received in FY 2022 from The American Rescue Plan Act (ARPA) approved by the Federal Government. The U.S. Department of Treasury has stipulated that these funds must be used for specific purposes, one of which is to make necessary infrastructure investments in water, sewer, or broadband. Campbell County will be using these funds, along with the additional \$5,330,384 received in FY 2021 for a regional broadband project and a utility infrastructure project. Significant process has been made toward countywide broadband access and the utility project is nearing completion.
- The County's combined funds reported year-ending fund balances totaling \$106,456,675 [Exhibit 3] and reflected a decrease of \$7,689,239 or 6.74% over FY 2024. This decrease is driven mostly by funds spent on school construction.
- In Fiscal Year 2025, there are two entries as Reconciled Fund Overdraft. These include \$29,646 resulting from the enactment of a special tax district for Springfield Road. Under the Board's policy, these funds will provide the 50% match for state dollars to bring that road up to state maintenance standards. These expenditures will be reimbursed through a special assessment of properties on Springfield Road over a period of five years. The second is in the amount of \$3,303,946. This represents payments for school construction costs that have not been reimbursed at fiscal year close. These reimbursements are pending and will be received in the coming months.
- At the end of the current fiscal year 2025, the unassigned fund balance for the General Fund of \$49,712,449 [Exhibit 3], before netting with the negative unassigned fund balance reported in other funds, represented 49.40% of the total General Fund expenditures and transfers for the year. Separately, \$25,898,128 of the total general fund balance is committed by the Board for educational - school maintenance needs, Board of Supervisors' projects, economic development, community and economic development investment fund, debt service, and operations - reassessment [Exhibit 3].
- The Campbell County Financial Policy established a target unassigned General Fund balance of 15% of the General Fund budget [Exhibit 11] and School Operating Fund budget [Exhibit 33], less the County's local share contribution to the School Operating Fund. For the FY 2025 budget year, this totals 15% of \$177,976,392 or \$26,696,459. The County has exceeded that target of \$26,696,459 with an Unassigned Fund Balance at year-end of \$46,378,857.
- The 15% target represents approximately 60 days of operating reserve, required financial assurance measures for solid waste activities and demonstrates the County's fiscal soundness for borrowing capacity.

FINANCIAL HIGHLIGHTS (CONTINUED)

Overview of the Financial Statements

The discussion and analysis serves as an introduction to the County's basic financial statements and is comprised of the following three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statement

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government administration, public safety, administration of justice, education, health and welfare, planning and community development and parks, recreation, and cultural activities.

The government-wide financial statements include not only the County of Campbell, Virginia itself (known as the primary government), but also a legally separate school district and an Industrial Development Authority (IDA) for which the County of Campbell, Virginia has incurred a moral obligation to provide funding for the payment of debt. Financial information for these component units is reported separately from the financial information present for the primary government itself.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Campbell, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - *Governmental funds* are used to account for the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statement, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on the balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

FINANCIAL HIGHLIGHTS (CONTINUED)

Overview of the Financial Statements (Continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Solid Waste Management Fund, the General Capital Projects Fund, the School Construction Capital Projects Fund, Debt Service Fund and Road Construction Fund all of which are considered to be major funds [Exhibit 3 & 4].

The County adopts an annual appropriated budget for its governmental funds. A budgetary comparison statement has been provided for the General Fund [Exhibit 11], the Solid Waste Fund [Exhibit 12], the Capital Projects Fund [Exhibit 27], the School Construction Projects Fund [Exhibit 27], and Road Construction Fund [Exhibit 27], and the Debt Service Fund [Exhibit 28].

Proprietary funds - The County maintains one proprietary fund – the Health Insurance Fund [Exhibit 6]. The Health Insurance Fund is an internal service fund and is used to account for costs of providing health and dental insurance to county and school employees as well as employees of Campbell County Utilities and Service Authority (CCUSA) along with a Health Savings Account (HSA). Proprietary funds use the accrual basis of accounting, similar to a private sector business. These funds are restricted in their use for current and future health related costs only, including a reserve to meet future retiree obligations.

Fiduciary funds - The County is the trustee, or fiduciary agent, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for two discretely presented component units consisting of the School Board and the IDA. Neither the School Board, or IDA, issue separate financial statements.

FINANCIAL HIGHLIGHTS (CONTINUED)

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$126,422,236 at the close of fiscal year 2025. The summary of Net Position below is based on accrual accounting method with data summarized from [Exhibit 1].

Summary of Net Position		
	Governmental Activities	
	2025	2024
Assets		
Current and Other assets	\$ 154,233,745	\$ 168,504,248
Capital assets	115,638,805	91,894,802
Total assets	<u>269,872,550</u>	<u>260,399,050</u>
Deferred outflows of resources	<u>\$ 6,513,091</u>	<u>\$ 4,930,948</u>
Liabilities		
Long-term liabilities	\$ 102,376,323	\$ 105,090,493
Current liabilities	14,631,247	17,614,201
Total liabilities	<u>\$ 117,007,570</u>	<u>\$ 122,704,694</u>
Deferred inflows of resources	<u>\$ 32,955,835</u>	<u>\$ 36,836,064</u>
Net position:		
Net investment in capital assets	\$ 54,587,913	\$ 27,013,893
Restricted	132,930	5,260,072
Unrestricted	71,701,393	75,152,833
Total net position	<u><u>\$ 126,422,236</u></u>	<u><u>\$ 107,426,798</u></u>

The largest portion of the County's net position, Restricted and Unrestricted, of \$71,834,323 (56.8% of total net position) [Exhibit 1], primarily consists of cash, cash equivalents and investments. At the end of the current fiscal year, the County is able to report positive balances in all categories of net position.

The remaining portion of the County's net position, Net Investment in Capital Assets, is \$54,857,913 (43.4% of total net position) and reflects its investment in capital assets (e.g., land, buildings and improvements, vehicles, machinery, and equipment) less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The county's net position increased in the amount of \$19,374,775.

Health Insurance Fund: Health Insurance Fund net position of \$2,058,934 [Exhibit 6] decreased by \$1,352,245 from FY 2024, reflecting actual health care claim expenditures versus fund revenue.

The County's policy is to maintain a targeted fund balance in the Health Insurance Fund of 15% for the upcoming year. The targeted net position for the Health Insurance Fund in FY 2025 was \$2.4 million based on projected self-insured medical insurance claims and administration costs anticipated for next year. Additionally, the Health Insurance Fund balance as reported in the Statement of Net Position of \$2,058,934 also reflects an increase in net position of \$1,352,245. The purpose of the targeted net position is to provide funding for the short-term self-insured liability of the Fund. Funds above this amount are used to stabilize premium contribution rates over a longer period of time and pay for the continuation of the contributions to the Health Savings Accounts.

HSA contributions for the year totaled \$2,495,837 on a combined basis for employer and employee contributions for County, Schools and CCUSA employees. The employees contributed \$969,443 of this amount.

FINANCIAL HIGHLIGHTS (CONTINUED)

Government-wide Financial Analysis (Continued)

The County and School system implemented a high deductible plan coupled with an IRS HSA on January 1, 2012 and this has resulted in significantly lower claims and administrative costs than would be expected with a traditional guaranteed-cost health insurance program.

Governmental Activities: As stated earlier Governmental Activities resulted in an increase in the County's net position of \$19,374,775 or 18%. Elements of the changes in net position of the Primary Government are summarized as follows from [Exhibit 2]:

Changes in Net Position - Statement of Activities			
	Governmental Activities		
	2025	2024	
Program Revenues:			
Charges for services	\$ 4,781,810	\$ 3,719,020	
Operating grants and contributions	28,352,944	19,316,089	
Capital grants and contributions	9,716,793	6,192,112	
General Revenues:			
General property taxes	51,494,521	51,139,668	
Other local taxes	19,342,370	18,745,006	
Use of money and property	4,423,218	4,432,969	
Grants and contributions not restricted	5,073,012	5,044,500	
Miscellaneous revenue	932,308	507,035	
Total revenues	\$ 124,116,976	\$ 109,096,399	
Expenses			
General government administration	\$ 7,505,286	\$ 7,070,909	
Judicial administration	2,368,432	2,543,301	
Public safety	22,742,413	21,946,565	
Public works	6,043,795	8,051,842	
Health and welfare	18,725,976	16,544,088	
Education	33,887,332	29,879,991	
Parks, recreation and cultural	2,710,276	2,496,536	
Community development	7,978,400	2,937,354	
Interest and other fiscal charges	2,780,291	3,182,555	
Total expenses	\$ 104,742,201	\$ 94,653,141	
Change in net position	\$ 19,374,775	\$ 14,443,258	
Net position, beginning, as restated	107,047,461	92,983,540	
Net position, ending	\$ 126,422,236	\$ 107,426,798	

As reported in the above table, actual revenues for governmental activities for all primary government funds for the year on a combined basis exceeded actual expenses in the amount of \$19,374,775 including current year depreciation on capital assets. Current year depreciation expense for capital assets for the primary government totaled \$4,652,240 [Exhibit 5]. General Revenues for governmental activities increased by \$15,020,577 or 13.8% primarily due to increases in operating grants and contributions as well as capital grants and contributions.

Governmental-Wide expenses, including current year depreciation on capital assets, increased by \$10,089,060 or 10.7% with significant variations below.

EXPENSES - PRIMARY GOVERNMENT SIGNIFICANT CHANGES

Expenses for Governmental Activities increased by \$10,089,060 or 10.7% (see table above). Below are some noteworthy changes in expenses:

- Children's Services Act increased by \$511,923 or 9.2%
- Sheriff's Department increased by \$243,936 or 4.2%
- Off Duty Deputies increased by \$156,800 or 118.0%
- Welfare Services increased by \$579,097 or 3.8%
- Education funding increased by approximately \$4.0 million or 13.4%
- Community development expenses increased approximately \$5.04 million due to expenses related to the broadband project.

PROGRAM/GENERAL REVENUES - PRIMARY GOVERNMENT

Revenue for Governmental Activities increase by \$15,020,577 or 13.8% (see table above). Below are some noteworthy changes in revenue:

- Personal Property Tax up 2,510,835 or 21.34%
- Local Sales & Use Tax up \$2,333,136 or 27.4%
- Interest on Investments up \$2,392,666 or 319%
- Capital grants from the Commonwealth of Virginia for school construction increased \$3.9 million or 70%
- Recognized additional ARPA grant funds in excess of prior year amounts of approximately \$2.45 million, largely utilized to fund the broadband project.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund based accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the County's governmental funds is to provide information on current revenues, inflows, outflows, and expenditures. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

Approximately 43% percent of the combined governmental fund balance or \$46,378,857 [Exhibit 3] comprises the unassigned fund balance, which is available for spending at the County's discretion. The remainder of fund balance is Restricted, Committed, Assigned or Non-spendable to indicate that it is not available for new spending because it has already been committed for:

- Capital improvement projects
- Education encumbrances and carryovers for expenditures
- Other encumbrances and carryovers for expenditures
- Prepaid Items

Financial Analysis of the County's Funds (Continued)

GENERAL FUND: The total General Fund balance experienced an increase in the amount of \$9,003,494 or 11.8% from FY 2024. The General Unassigned Fund balance increased in the amount of \$916,638 or 1.9%. In addition, \$25,898,128 [Exhibit 3] of the year end unassigned fund balance was committed by the Board for use in FY 2025 for future needs of education, operations, school maintenance, economic development, debt service, and reassessment.

Actual General Fund revenues and transfers in from other funds combined increased by \$6,125,787 or 5.9% from the previous year.

Tax rate changes effective April 2024 that occurred during FY 2025 are as follows:

The Personal Property Tax rate of \$4.11 decreased by \$0.06 to \$4.05 per \$100 of assessed value. Machinery & Tools Tax rate remained at \$3.20 per \$100 of assessed value. Business, Professional and Occupational License (BPOL) rates decreased by 1% as follows:

- \$0.1444 to \$0.1344 per \$100 of gross receipts for contractors;
- \$0.1805 to \$0.1705 per \$100 of gross receipts for retail sales;
- \$0.3159 to \$0.3059 per \$100 of gross receipts for personal service & repair;
- \$0.4513 to \$0.4413 per \$100 of gross receipts for professional service;
- \$0.4513 to \$0.4413 per \$100 of gross receipts for public service; and
- \$0.0451 to \$0.0351 per \$100 of gross receipts for wholesalers

The Real Estate Tax rate of \$0.45 cents remained at \$0.45 per \$100 of assessed value.

Tax rate changes effective April 2025 are as follows:

The Personal Property Tax rate of \$4.05 decreased by \$0.10 to \$3.95 per \$100 of assessed value. Machinery & Tools Tax rate remained at \$3.20 per \$100 of assessed value. Business, Professional and Occupational License (BPOL) rates decreased by 3% as follows:

- \$0.1344 to \$0.1304 per \$100 of gross receipts for contractors;
- \$0.1705 to \$0.1654 per \$100 of gross receipts for retail sales;
- \$0.3059 to \$0.2967 per \$100 of gross receipts for personal service & repair;
- \$0.4413 to \$0.4281 per \$100 of gross receipts for professional service;
- \$0.4413 to \$0.4281 per \$100 of gross receipts for public service; and
- \$0.0351 to \$0.0340 per \$100 of gross receipts for wholesalers

The Real Estate Tax rate of \$0.45 cents remained at \$0.45 per \$100 of assessed value.

SOLID WASTE MANAGEMENT FUND: Expenditures for the Solid Waste Management Fund (SWMF) for FY 2025 totaled \$2,528,328 [Exhibit 4]. The transfer in from the General Fund increased \$185,279 from the previous fiscal year. For the seventh year in a row, members of the Region 2000 Services Authority were not able to reach a majority vote to release the annual payment for the County's portion of the excess of actual revenues verses actual expenses for airspace provided. From fiscal years FY 2014 to FY 2018, the average yearly revenue received from The Region 2000 Services Authority was \$802,235.

Financial Analysis of the County's Funds (Continued)

Tipping fees of \$587,090, up by 2.6% from FY 2024, were paid to the Region 2000 Services Authority for solid waste received at the regional landfill generated from County citizens. Transfer site operations throughout the County cost \$1,243,998 for the year which included delivery costs of trash from transfer sites to the regional landfill. In-house construction for small projects cost \$212,164.

There exists a year-end fund balance of \$3,161,401 residing in the SWMF. The year-end fund balance is up \$226,992 from the previous year. The remaining funds will be needed to pay for anticipated future environmental requirements.

COUNTY CAPITAL IMPROVEMENT PROJECT FUND: The Capital Improvement Project (CIP) Fund balance reported a decrease of \$735,890 from the previous year to \$15,863,995 [Exhibit 3]. The fund balance in the CIP is either restricted, for previously issued unspent bond proceeds or assigned in its entirety for capital projects already under construction or for future capital projects included in the adopted five-year Capital Improvement Plan.

General Fund Budgetary Highlights

Differences between the General Fund original expenditure and transfer budget of \$96,214,813 [Exhibit 11] and the final amended budget of \$111,410,958 amounted to an increase of \$15,196,145 in budgeted expenditure appropriations with highlights as follows:

- \$800,000 increase in final expenditure budget for Children's Services Act (CSA), requested to cover the anticipated rising cost of children and youth requiring community services.
- \$912,911.31 –increase in final expenditures budget for the Economic Development Department, mostly due to Grant Awards received and incentive Payments for County businesses.

Differences between the General Fund original revenue budget of \$96,214,813 and the final revenue budget of \$99,481,498 amounted to an increase of \$3,266,685 [Exhibit 11] in budgeted revenues with highlights as follows:

- The majority of this change is due to revenues from the Commonwealth of Virginia.
- \$95,940 increase in Federal and State revenue for Public Assistance Services.
- \$1,484,000 increase in Children at Risk (CAR) Pool revenue from Commonwealth of Virginia for reimbursement of County program expenditures.
- The majority of the remaining increases in budgeted revenues resulted from Public Safety, Law Enforcement and Judicial Administration related grants approved throughout the year.

During the year, General Fund actual revenues of \$105,073,614 exceeded original budget of \$96,214,813 by \$8,858,801 [Exhibit 11] and above the final budget of \$99,481,498 in the amount of \$5,592,116. Actual expenditures of \$86,791,682 were more than the original budget of \$82,364,112 by \$4,427,570 and actual expenditures were less than final budget of \$97,560,257 by \$10,768,575 primarily because of contributions to the School Board being significantly less than final budgeted amount.

General Fund Budgetary Highlights (Continued)

Actual transfers out from the General Fund to funds other than the School Operating Fund totaled \$13,850,701 versus \$17,790,179 for FY 2024. The transfer into the Health Insurance Fund decrease to \$20,000 [Exhibit 7] in FY 2025 compared to \$4,128,422 in FY 2024 when the County general fund transferred \$4,000,000 from year end balances to the health insurance fund.. There was a \$359,799 decrease in transfer to the CIP Fund to \$3,500,000 versus \$3,859,799 in FY 2024. An increase of \$185,179 in Solid Waste Fund to \$2,667,930 versus \$2,482,651 in FY 2024. The Debt Service Fund transfer increased to \$7,662,771 in FY 2025 from \$7,319,207 in FY 2024. The net decrease in transfers out from the General Fund to other funds equaled \$3,939,478.

Revenues & Expenditures General Fund - Budget to Actual			
	General Fund Budget to Actual		
	Final Budget	Actual	Variance
Revenues:			
Local revenue sources	\$ 74,746,697	\$ 80,126,761	\$ 5,380,064
Intergovernmental	24,734,801	24,946,853	212,052
Total Revenue	<u>\$ 99,481,498</u>	<u>\$ 105,073,614</u>	<u>\$ 5,592,116</u>
Expenditures:			
General government administration	\$ 7,270,538	\$ 6,300,399	\$ 970,139
Judicial administration	2,416,023	2,348,759	67,264
Public safety	23,273,327	21,627,579	1,645,748
Public works	2,510,213	2,227,286	282,927
Health and welfare	18,523,346	18,724,937	(201,591)
Education	37,367,608	31,146,959	6,220,649
Parks, recreation and cultural	2,509,225	2,451,204	58,021
Community development	4,347,977	1,962,372	2,385,605
Nondepartmental	(658,000)	2,187	(660,187)
Total expenditures	<u>\$ 97,560,257</u>	<u>\$ 86,791,682</u>	<u>\$ 10,768,575</u>

Revenues: As reported above [Exhibit 11], total actual revenues were higher than final budget by \$5,592,116 or 5.6%. Total actual local revenue comprised 76.3% of total actual General Fund revenue while Intergovernmental Revenue (State/Federal) comprised the remaining 23.7% of total actual General Fund revenue. Intergovernmental actual revenue was \$212,052 more than final budget or 0.9%. Actual local revenue exceeded final budget by 5,380,064 or 7.2%.

Expenditures: Total General Fund actual expenditures and transfers out of \$100,642,383 [Exhibit 11] on a combined basis were \$10,768,575 less than the final budget of \$111,410,958. The largest component of this difference in the level of actual expenditures verses amended budget is for Education. Actual education expenditures transferred from the General Fund were \$6,220,649 less than the final budget. The Board of Supervisors subsequently re-appropriated \$6,460,189 of this amount to the schools as encumbrances for FY 2026 covering school contracts and obligations not completed as of June 30, 2025.

Strong expense control throughout the government organization contributed substantially to overall expenditure savings for the fund. Year-end expenditure reversion savings are becoming increasingly difficult to achieve in light of increasingly constrained budgets.

Capital Asset and Debt Administration

Capital assets – The County’s capital assets for governmental funds as of June 30, 2025 totals \$115,638,805 (net of accumulated depreciation) [Exhibit 1] for an increase of \$23,744,003 from FY 2024. Depreciation expense for the year for all capital assets for all primary government funds totaled \$4,652,240. The investment in County capital assets includes land and land improvements, buildings and improvements, vehicles and machinery and equipment. Readers interested in additional information relating to capital assets should refer to Note #6 to the financial statements.

Capital Assets - Condensed At June 30, 2025

Governmental Activities	Ending Balance Original Cost	Accumulated Depreciation	Net Capital Assets
Capital assets, not being depreciated:			
Land	\$ 4,003,434	\$ -	\$ 4,003,434
Construction in progress	33,107,292	-	33,107,292
Total capital assets, not being depreciated	\$ 37,110,726	\$ -	\$ 37,110,726
Other capital assets:			
Buildings and improvements	\$ 23,551,503	\$ 11,662,534	\$ 11,888,969
Other improvements	20,082,425	12,480,324	7,602,101
School buildings	21,788,571	17,946,592	3,841,979
Equipment	67,110,900	11,915,870	55,195,030
Total other capital assets	\$ 132,533,399	\$ 54,005,320	\$ 78,528,079
Total capital assets	\$ 169,644,125	\$ 54,005,320	\$ 115,638,805

School Board capital assets are jointly owned by the County (primary government) and the component unit School Board. The County reports depreciation on these assets as an element of its share of the costs of the public school system.

DEBT SCHEDULES

Of the \$76,173,000 total principal balance of outstanding bonds at the end of the year; \$10,300,000 was for General Obligation Bonds, and \$65,873,000 for Lease Revenue Bonds. General Obligation Bonds amounted to less than 0.5% [Table 10] of the County’s actual value of taxable property, well below the maximum limit set by the County’s Fiscal Policy Guidelines of 1.75%.

Debt service paid during the year amounted to \$3,063,589 for interest and bank service charges for the reporting period. There are no obligations for capitalized lease payments. Readers interested in additional information should refer to Note 7 in the Notes to Financial Statements. The County’s total outstanding debt principal was paid down by \$4,017,000 [Exhibit 4 & 28].

DEBT SCHEDULES (continued)

Annual requirements to amortize all remaining long-term debt and related interest expense are as follows:

Future Debt Service Obligations At June 30, 2025			
Year Ending June 30,	Principal	Interest	Total
2026	\$ 4,150,000	\$ 3,063,589	\$ 7,213,589
2027	3,594,000	2,931,800	6,525,800

	<u>\$ 76,173,000</u>	<u>\$ 36,843,388</u>	<u>\$ 113,016,388</u>

In FY 2020, a new Fund was created for Debt Service. Revenue collected from the Meals Tax as well as annual debt service payments will be managed in this fund to offset debt costs incurred. The collected funds will accumulate in this fund to be used for current and future debt service as needed.

The County provides Other Postemployment Benefits (OPEB) as described in Note 13 and reported in Note 7. The County has elected not to fund the outstanding OPEB liability and has instead reduced the benefits provided to employees hired after 2010.

CONTACT THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide interested parties with a general overview of the County's finances and to demonstrate the County's accountability for the money it receives. Debt service	-	-	-	-	-	4,948,972	4,948,972
Unassigned	49,712,449	-	-	(29,646)	(3,303,946)	-	46,378,857
Total fund balances	\$ 85,815,899	\$ 3,161,401	\$ 15,863,995	\$ (29,646)	\$ (3,303,946)	\$ 4,948,972	\$ 106,456,675
Total liabilities, deferred inflows and fund balances	\$ 124,876,547	\$ 3,450,683	\$ 16,427,122	\$ -	\$ -	\$ 4,948,972	\$ 149,703,324

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances - governmental funds - per above \$ 106,456,675

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds (Cost of \$169,644,125 less accumulated depreciation of \$54,005,320) 115,638,805

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds

 Unavailable revenue - property taxes 1,565,809

 Other unavailable revenues - Opioid settlement funds 701,509

Items related to measurement of the net pension and OPEB liabilities are considered deferred outflows or deferred inflows and will be amortized and recognized in pension and OPEB expense over future years.

 Deferred outflows - pension related 4,638,218

 Deferred outflows - OPEB related 1,874,873

 Deferred inflows - pension related (2,403,164)

 Deferred inflows - OPEB related (988,484)

An internal service fund is used by management to charge the costs of health insurance to individual funds. The assets and liabilities of the self insurance internal service fund are included in the governmental activities in the Statement of Net Position 2,058,934

Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the governmental funds

 Accrued interest payable (413,822)

 Long term commitments to IDA (330,794)

 General obligation bonds and lease revenue bonds (76,173,000)

 Bond premiums (4,182,544)

 Landfill closure/postclosure (3,236,114)

 Net/total OPEB liabilities (10,295,631)

 Compensated absences (2,343,611)

 Net pension liability (6,145,423)

Net position of governmental activities \$ 126,422,236

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2025

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(7,709,239)
--	----	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized expenditures exceeded depreciation expense in the current period.

Capital outlays	\$ 28,396,243	
Depreciation expense	<u>(4,652,240)</u>	23,744,003

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	\$ 113,025	
Other revenues-Opioid settlement funds	<u>(44,750)</u>	68,275

Deferred outflows of resources and net pension asset are not available to pay for current-period expenditures and, therefore, are not reported in the funds.

Deferred outflows of resources - pension related items	\$ 929,083	
Deferred outflows of resources - OPEB related items	<u>653,060</u>	1,582,143

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of certain activities of internal service funds is reported with governmental activities.

(1,352,245)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal retired on long-term debt	\$ 4,017,000	
(Increase)/decrease in landfill closure, postclosure liability	<u>(69,662)</u>	3,947,338

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase)/decrease in premium on bond issuance	\$ 331,087	
(Increase)/decrease in accrued interest payable	48,597	
(Increase)/decrease in compensated absences	2,726	
(Increase)/decrease in long term commitments to IDA	(72,981)	
(Increase)/decrease in net pension liability	444,793	
(Increase)/decrease in net OPEB liabilities	(1,210,101)	
(Increase) decrease in deferred inflows related to the measurement of the net pension liability	(996,774)	
(Increase) decrease in deferred inflows related to the measurement of OPEB liabilities	<u>547,153</u>	(905,500)

Change in net position of governmental activities	\$	<u>19,374,775</u>

COUNTY OF CAMPBELL, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Financial Reporting Entity

Campbell County, Virginia (the “County”) is a political subdivision of the Commonwealth of Virginia governed under the County Administrator – Board of Supervisors form of government. The County engages in a comprehensive range of municipal services, including general government administration, public safety and administration of justice, education, health, welfare, human service programs, planning, community development and recreation, and cultural activities.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America as specified by the Governmental Accounting Standards Board (GASB) and the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. The significant accounting policies are described below.

Discretely Presented Component Units: Discretely presented component units are entities that are legally separate from the County, but for which the County is financially accountable, or whose relationship with the County is such that exclusion would cause the County’s financial statements to be misleading or incomplete. They are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County.

Campbell County School Board

The Campbell County School Board (the “School Board”) is responsible for elementary and secondary education within the County’s jurisdiction. The School Board is comprised of seven members elected by County voters. The School Board is fiscally dependent upon the County because the County Board of Supervisors approves the School Board budget, levies the necessary taxes to finance operations, and approves the borrowing of money and issuance of debt. The School Board does not issue separate financial statements.

Campbell County Industrial Development Authority

The Campbell County Industrial Development Authority (the “IDA”) was created to encourage and provide financing for economic development in the County. The IDA’s directors are appointed by the Board of Supervisors and the County is financially accountable for the IDA in that it provides local funding for the IDA’s activities. It is authorized to acquire, own, lease, and dispose of properties to the extent that such activities foster and stimulate economic development. The IDA is presented as a proprietary fund type and does not issue separate financial statements.

Related Organizations: The following entities are excluded from the accompanying financial statements:

Campbell County Utilities and Service Authority

The Campbell County Utilities and Service Authority was created by the Board of Supervisors to operate the County’s water and sewer systems. This Authority is excluded from the accompanying financial statements as the County neither exercises oversight responsibility nor has accountability for the fiscal affairs of the Authority. All obligations of the Authority are payable from and secured by revenues derived from the operation of the water and sewer systems.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

A. Financial Reporting Entity (Continued)

Horizon Behavioral Health

The County, in conjunction with the Counties of Amherst, Appomattox, and Bedford, and the City of Lynchburg, supports Horizon Behavioral Health, which is composed of two members from each of the participating localities. The County contributed \$314,080 to Horizon Behavioral Health for the current year.

Blue Ridge Regional Jail Authority

The County, in conjunction with the Counties of Amherst, Halifax and Bedford, and the Cities of Bedford and Lynchburg, participates in the Blue Ridge Regional Jail Authority (the “Authority”). Each member jurisdiction pays a per-diem charge for each day that one of its prisoners is at any regional jail facility. In accordance with the service agreement, the Authority has divided the per-diem charge into an operating component and a debt service component. The per-diem charge is based upon an assumed number of prisoner days and is subject to adjustment at the end of each fiscal year. The County paid the Authority \$2,960,215 for the current year.

Region 2000 Services Authority

The County, in conjunction with the Cities of Lynchburg and Bedford, and the Counties of Appomattox and Nelson, participates in the Region 2000 Services Authority for solid waste disposal. The County paid the Authority tipping fees of \$587,090 for solid waste transferred to the Authority and received \$0 in distributions from the Authority for 2025 profits as a host fee.

B. Government-Wide and Fund Financial Statements

Government-wide financial statements consist of a Statement of Net Position and a Statement of Activities that report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and inter-governmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The County reports no business-type activities. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Statement of Net Position - The Statement of Net Position is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense, the cost of “using up” capital assets, in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Government-Wide and Fund Financial Statements (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, the proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Custodial funds, a type of fiduciary fund uses the accrual basis of accounting, an economic measurement focus.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements use the *current financial resources measurement focus* and the *modified accrual basis of accounting*. This is the manner in which these funds are normally budgeted. Revenues are recognized when they become both measurable and available. Accordingly, real and personal property taxes are recorded as deferred inflows of resources and receivables when levied, net of allowances for uncollectible amounts. Real and personal property taxes recorded at June 30 and received within the first 60 days after year end are included in tax revenues, with the related amount reduced from deferred inflows of resources. Sales and utility taxes, which are collected by the State or utility companies and subsequently remitted to the County, are recognized as revenues and amounts receivable when the underlying exchange transaction occurs, which is generally one or two months preceding receipt by the County. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of Federal, State and other grants for the purpose of specific funding are recognized when earned or at the time of the specific reimbursable expenditure. Revenues from general-purpose grants are recognized in the period in which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The County reports the following major governmental funds:

General Fund – The General Fund is the government's primary operating fund. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues are used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for reporting purposes.

Special Revenue Fund – Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The Solid Waste Fund is a special revenue fund which accounts for revenues from landfill operations and related expenditures.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Capital Projects Funds – The County Capital Projects Fund, School Construction Fund and Road Construction Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

Debt Service Fund – The County Debt Service Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for principal and interest. Debt service funds are also used to report financial resources being accumulated for future debt service. The County Debt Service Fund is considered a major fund.

Proprietary Funds are used to account for the reporting entity’s activities similar to those often found in the private sector. The County reports the following major proprietary fund:

Internal Service Fund – Health Insurance Fund – Internal service funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the County government. The County’s internal service fund is the Health Insurance Fund, through which the County self-insures the costs of providing health insurance to employees.

In addition to its major funds, the County reports the following fund category:

Fiduciary Funds – Fiduciary funds are used to account for assets held by the County in a purely custodial capacity. The County’s only fiduciary type fund is a custodial fund, the Special Welfare Fund, which holds funds in a custodial capacity for individuals receiving social service assistance as required by law.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government’s health insurance fund and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Operating revenues and expenses in the proprietary fund result from providing services in connection with its principal ongoing operations. The principal operating revenues of the County’s proprietary fund are charges for health investment services. Nonoperating revenues consist of interest income. Operating expenses include the costs of claims and administrative expenses.

D. Budgetary Information

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to April 15, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the related financing.
- Public hearings are conducted to obtain citizen comments.
- Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Budgetary Information (Continued)

- The Appropriations Resolution places legal restrictions on expenditures at the department level. The appropriation for each department can be revised only by the Board of Supervisors. The School Board is authorized to transfer budgeted amounts within the school system's categories. The Board of Supervisors approved supplemental appropriations in the General Fund totaling \$15,196,145 for additional requests from various departments including contribution to the School Board and transfers to other funds. The Board of Supervisors also approved additional appropriations to the Solid Waste Fund of \$570,081, the County Capital Projects fund of \$19,692,743, the Road Construction Fund of \$208,952 and the School Construction Fund of \$52,198,640.
- Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for all governmental funds.
- All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- Appropriations lapse on June 30 for all County and School Board units.
- All budgetary data presented in the accompanying financial statements includes the original and revised budgets as of June 30.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and investments with a maturity date within three months of the date acquired.

Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

Receivables

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance for uncollectible accounts is calculated using historical collection data, specific account analysis, and management's judgment. The allowance for uncollectibles was comprised of property taxes in the amount of \$370,256.

Inventories

Inventories for resale generally are recorded at the lower of cost (first-in/first-out (FIFO) method) or market except for any commodities received from the U.S. Department of Agriculture, which are valued at market. Supplies inventory is reported at cost. Inventories of the County's governmental funds are recorded as expenditures when consumed rather than when purchased. Inventories consist of expendable supplies in the General Fund and USDA commodities in the Component Unit – School Board.

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Prepaid Items

Payments made for services that will benefit periods beyond June 30 are reported as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which the services are consumed.

Capital Assets

Capital assets are tangible and intangible assets which include property, plant, and equipment and are reported in the government-wide financial statements. The County does not own infrastructure assets. Capital assets are defined as items with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is recognized as an expense when incurred and accordingly is not capitalized as part of the asset.

Land and construction in progress are not depreciated. All other capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	10-40 years
Other improvements	2-40 years
Equipment	5-10 years

Compensated Absences

The County and School recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee flex spending account) during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave. The liability for compensated absences is reported as incurred in the government-wide financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Vacation

The County’s policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment at the employee’s current pay rate upon separation from employment subject to maximum payouts.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Compensated Absences: (Continued)

Sick Leave

The County's and School Board's respective policy permits employees to accumulate earned but unused sick leave. All sick leave lapses when employees leave employment with the County or School Board and, upon separation from service, no monetary obligation exists, except for those employees that participate in the County's sick reserve. A liability for estimated value of sick leave that will be used by employees as time off and a provision for sick reserve payout is included in the liability for compensated absences.

Deferred/Unearned Revenue

Deferred/Unavailable revenue consists primarily of property taxes receivable not collected within 60 days of year end, as well as property taxes, either receivable or already collected, intended to finance a future fiscal period. Unearned revenue includes grants which have been advanced to the County but have not yet been earned.

Unearned revenue in the internal service fund represents advances by other funds, component units, and outside entities for the cost of insurance for periods after June 30.

Economic Incentive Grants Payable

Economic incentive grants payable are recorded when, in management's opinion, failure by the grantee to meet the performance criteria is unlikely, generally amounts expected to be paid within one year. Refunds of these incentives are reflected as revenues when collection is determined to be likely.

Long-Term Obligations

Long-term debt obligations are reported as liabilities in the government-wide statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method or bonds outstanding method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period but no long-term liabilities. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Repayments are reported as debt service expenditures.

Encumbrances

The County uses encumbrance accounting, wherein purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve that portion of fund balance.

Use of Estimates

Management uses estimates and assumptions in preparing its financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities, and reported revenues, expenditures, and expenses. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resource (expense/ expenditure) until then. The County has one item that qualifies for reporting in this category. It is comprised of certain items related to pension and OPEB. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has multiple items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to pension, OPEB and leases are reported as deferred inflows of resources. The County reported a deferred inflow related to settlement funds (opioid settlement) to be received in a future period. For more detailed information on these items, reference the related notes.

Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called “fund balance.” County’s governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes:

- Nonspendable fund balance – amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Fund Balance (Continued)

- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The County's policy establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. Assigned fund balance is established by the Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

IDA Transactions and Conduit Obligations

In addition to disbursing incentives to promote the expansion of business initiatives in the County, the IDA may also structure ownership of properties through lease purchase arrangements or issue Industrial Revenue Bonds for the purpose of obtaining and constructing facilities deemed to be in the public interest. However, all rights to payments on these bonds have been assigned to the trustees, agents, or the holders of the bonds, and purchasers have assumed responsibility for all operating costs such as utilities, repairs and property taxes. In such cases the IDA neither receives nor disburses funds. Deeds of trust or letters of credit secure outstanding bond obligations; although the IDA provides a conduit to execute such transactions, it does not retain either the benefits of asset ownership or the liability for bond liquidation. Accordingly, the IDA does not recognize associated assets, liabilities, income or interest expense in its financial statements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement Plan and the additions to/deductions from the County's and School Board's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

Other Postemployment Benefits (OPEB)

Group Life Insurance

The Virginia Retirement System (VRS) Group Life Insurance (GLI) Plan provides coverage to state employees, teachers, and employees of participating political subdivisions. The GLI Program was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The GLI Plan is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net GLI Plan OPEB liability, deferred outflows of resources and deferred inflows of resources related to the GLI OPEB, and GLI OPEB expense, information about the fiduciary net position of the VRS GLI Plan OPEB and the additions to/deductions from the VRS GLI OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Political Subdivision and Teacher Employee Health Insurance Credit Plan

The County and Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Programs were established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For purposes of measuring the net OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the Programs' OPEB, and the related OPEB expenses, information about the fiduciary net position of the County and VRS Teacher Employee HIC Plans; and the additions to/deductions from the County and VRS Teacher Employee HIC Programs' net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

F. Leases

The County leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

Lessor

The County recognizes leases receivable and deferred inflows of resources in the government-wide and governmental fund financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

F. Leases (Continued)

Key Estimates and Judgments

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The County uses the interest rate stated in lease contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the County uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by options to extend to reflect how long the lease is expected to be in effect, with terms and conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease liability (lessee) or lease receivable (lessor).

The County monitors changes in circumstances that would require a remeasurement or modification of its leases. The County will remeasure the lease asset and liability (lessee) or the lease receivable and deferred inflows of resources (lessor) if certain changes occur that are expected to significantly affect the amount of the lease liability or lease receivable.

G. Adoption of Accounting Principle

During the current year, the County implemented GASB Statement No. 101, *Compensated Absences*. In addition to the value of unused vacation time owed to employees upon separation of employment, the County now recognizes an estimated amount of leave earned as of year-end that will be used by employees as time off in future years as part of the liability for compensated absences. The change in accounting principle resulted in the restatement of net position as outlined in Note 19.

NOTE 2–DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Investment Policy

In accordance with the Code of Virginia and other applicable law, including regulations, the County’s investment policy (Policy) permits investments in U.S. Treasury Securities, U.S. agency securities, prime quality commercial paper, non-negotiable certificates of deposit and time deposits of Virginia banks, negotiable certificates of deposit of domestic banks, banker’s acceptances with domestic banks, Commonwealth of Virginia and Virginia Local Government Obligations, repurchase agreements collateralized by the U. S. Treasury/Agency securities, the Virginia State Non-Arbitrage Program or other authorized Arbitrage Investment Management programs, and the State Treasurer’s Local Government Investment Pool.

The fair value of the positions in the external investment pool (Local Government Investment Pool and State Non-Arbitrage Pool) is the same as the value of the pool shares. As LGIP and SNAP are not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. The LGIP and SNAP are amortized cost basis portfolios. There are no withdrawal limitations or restrictions imposed on participants.

Credit Risk of Debt Securities

As required by state statute or by the County, the Policy requires that commercial paper have a short-term debt rating of no less than “A-1” (or its equivalent) from at least two of the following: Moody’s Investors Service, Standard & Poor’s, and Fitch Investor’s Service, provided that the issuing corporation has a net worth of at least \$50 million and its long term debt is rated “A” or better by Moody’s and Standard & Poor’s. Banker’s acceptances and certificates of deposit maturing in less than one year must have a short-term debt rating of at least “A-1” by Standard & Poor’s and “P-1” by Moody’s Investor Service.

County's Rated Debt Investments' Values - Standard & Poor's Rating		
Rated Debt Investments	Fair Quality Ratings	Amount at June 30
LGIP	AAAm	\$ 61,107,379
State Non-Arbitrage Pool	AAAm	10,900,617

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 2–DEPOSITS AND INVESTMENTS: (CONTINUED)

Concentration of Credit Risk

The County’s current Policy places restrictions on the diversification by type of investments. The Policy provides the following restrictions on diversification as a percentage of the County’s total investments. The maximum allowable concentration by investment type is as follows:

US Treasury Bills, Notes and Bonds	50%
Certificates of Deposit	70%
LGIP	50%
Bankers Acceptances	35%
Prime Quality Commercial Paper	35%
High Quality Commercial Notes	35%
Overnight Repurchase Agreement	50%

Interest Rate Risk

The County’s current Policy limits investment maturities to five years maximum maturity for any negotiable certificate of deposit or any sovereign government obligation excluding those of the United States; to fifteen years for any single corporate security; and five years for any single asset-backed security.

The carrying values and weighted average maturity were as follows:

Investment Type	Investment Maturity*		
	Fair Value	Less than 1	1 - 5
State Non-Arbitrage Pool	\$ 10,900,617	\$ 10,900,617	-
LGIP	61,107,379	61,107,379	-
Total investments	\$ 72,007,996	\$ 72,007,996	-

* Weighted average maturity in years.

Custodial Credit Risk

The Policy requires that all investment securities be held in safekeeping by a third party and evidenced by safekeeping receipts. As required by the *Code of Virginia*, all security holdings with maturities over 30 days may not be held in safekeeping with the “counterparty” to the investment transaction. As of June 30, all investments are held in a bank’s trust department in the County’s name.

COUNTY OF CAMPBELL, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Custodial Credit Risk (Continued)

Cash and investments are reflected in the financial statements as follows:

		Component Units	
	Primary Government	School Board	IDA
Deposits and investments:			
Cash on hand	\$ 3,150	\$ -	\$ -
Deposits	113,231,363	18,296,346	191,061
Total	<u>\$ 113,234,513</u>	<u>\$ 18,296,346</u>	<u>\$ 191,061</u>
Statement of Net Position:			
Cash and cash equivalents	\$ 100,586,703	\$ 14,395,465	\$ 191,061
Restricted cash and equivalents	12,647,810	3,900,881	-
Total	<u>\$ 113,234,513</u>	<u>\$ 18,296,346</u>	<u>\$ 191,061</u>

NOTE 3—RECEIVABLES AND DEFERRED/UNAVAILABLE/UNEARNED REVENUE:

Receivables consist of the following:

	General Fund	Solid Waste	Capital Projects	Health Insurance	Total
Receivables:					
Taxes	\$ 30,055,238	\$ -	\$ -	\$ -	\$ 30,055,238
Accounts	1,731,383	2,564	-	-	1,733,947
Leases	<u>236,866</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>236,866</u>
Gross receivables	<u>\$ 32,023,487</u>	<u>\$ 2,564</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 32,026,051</u>
Less:					
Allowance for uncollectible amounts	\$ <u>370,256</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>370,256</u>
Net receivables	<u>\$ 31,653,231</u>	<u>\$ 2,564</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 31,655,795</u>

The taxes receivable account represents the current and past four years of uncollected tax levies on personal property taxes and the current and past nineteen years of uncollected tax levies on real property. Real estate taxes are recorded as receivable when they attach as an enforceable lien, therefore, real estate taxes based on the January 1, 2025, assessment date are included in taxes receivable at June 30, 2025, even though taxpayers had not yet been billed. Additionally, personal property taxes are assessed on January 1, 2025 and the County does not prorate assessments, therefore the assessment is included in taxes receivable. However, since the January 1, 2025 levy is intended to finance a future period, these amounts have been included in unavailable revenue as discussed below.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 3—RECEIVABLES AND DEFERRED/UNAVAILABLE/UNEARNED REVENUE: (CONTINUED)

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period, as well as for receivables which are considered unearned in that they are intended to finance a future period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At June 30, the components of unavailable/unearned revenue were as follows:

Exhibit 3 Reconciliation	
Advance payments of state and federal grants – unearned	\$ 4,997,716
Total unearned revenue – governmental funds (Exhibit 3)	\$ 4,997,716
Other unavailable revenues	
Opioid settlement funds	\$ 701,509
Lease receivable	220,772
Property taxes receivable – due after June 30	\$ 26,964,406
Property taxes receivable – due prior to June 30	2,720,576
Advance collection of 2025-2026 property taxes	2,379,009
Less amounts collected within 60 days	(1,154,767)
Unavailable property taxes - Deferred Inflows of Resources - Balance Sheet (Exhibit 3)	\$ 30,909,224
Exhibit 1 Reconciliation	
Unavailable property taxes - Deferred Inflows of Resources - Balance Sheet (Exhibit 3)	\$ 30,909,224
Less property taxes due prior to June 30 (net of 60 day collections)	(1,565,809)
Deferred property taxes - Deferred Inflows of Resources - Statement of Net Position (Exhibit 1)	\$ 29,343,415
Other unavailable revenues - Deferred Inflows of Resources - Balance Sheet (Exhibit 3)	\$ 922,281
Less revenues recognized to be received 60 days after June 30	(701,509)
Other unavailable revenues - Deferred Inflows of Resources - Statement of Net Position (Exhibit 1)	\$ 220,772
Advance payments of state and federal grants – unearned	\$ 4,997,716

AS OF JUNE 30, 2025 (CONTINUED)

NOTE 4—DUE FROM OTHER GOVERNMENTS:

Amounts due from other governments consist of the following:

	Primary Government	Component Unit- School Board
<u>Commonwealth of Virginia:</u>		
Local sales tax	\$ 1,414,538	\$ -
State sales tax	-	1,844,483
Comprehensive Services Act	1,600,504	-
Public assistance	263,137	-
Motor vehicle rental tax	59,570	-
Mobile home titling tax	56,608	-
Shared expenses and grants	404,866	-
Railroad rolling stock	159,196	-
Communications tax	144,176	-
Other state funds	163,450	6,525
<u>Federal Government</u>		
Public assistance	399,627	-
Title I	-	602,327
Title II, Part A	-	32,068
Title VI-B special education cluster	-	330,345
School nutrition program - SFSP	-	588,221
Career and technical education	-	17,020
Other federal grants	26,041	55,980
Total	\$ <u>4,691,713</u>	\$ <u>3,476,969</u>

NOTE 5—INTERFUND AND INTRA-ENTITY TRANSACTIONS AND BALANCES:

Interfund and Intra-Entity transfers are as follows:

Transfer Out Fund	Transfer In Fund	Amount
General Fund	Capital Projects Fund	\$ 3,500,000
General Fund	Solid Waste Fund	2,667,930
General Fund	County Debt Service Fund	7,662,771
General Fund	Health Insurance Fund	20,000
Capital Projects Fund	General Fund	4,149,927

The transfer from the General Fund to the Capital Projects Fund was to support general government capital projects. Transfers from the General Fund to the Solid Waste Fund were to offset shortfalls in operating revenues. Transfers between the Solid Waste Fund and the General Fund were to offset operating costs. Transfers from the General Fund to the Health Insurance Fund are to provide funding for health benefits. Transfers from the General Fund to the County Debt Service Fund were to accumulate resources to pay future debt service costs.

COUNTY OF CAMPBELL, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 5—INTERFUND AND INTRA-ENTITY TRANSACTIONS AND BALANCES:

Balances due to and from the primary government and its component units consist of the following:

The Component Unit—School Board owed \$4,393,684 to the General Fund at year end as a result of appropriated local funds in excess of actual school expenditures in the current and previous years.

The primary government owed the Component Unit—IDA \$330,794 for economic incentive grants awarded by the IDA for which the County is ultimately responsible.

NOTE 6—CAPITAL ASSETS:

Primary Government

Capital asset activity for the year was as follows:

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, nondepreciable:				
Land	\$ 4,003,434	\$ -	\$ -	\$ 4,003,434
Construction in progress	6,047,914	27,059,378	-	33,107,292

Governmental activities capital assets, net	\$ 91,894,802	\$ 23,744,003	\$ -	\$ 115,638,805

- 1) Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the Code of Virginia 1950, as amended, has changed the reporting of local capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Campbell for the year ended June 30, 2025, is that school financed assets in the amount of \$93,736,268 are reported in the Primary Government for financial reporting purposes.

COMPONENT UNIT - INDUSTRIAL DEVELOPMENT AUTHORITY					
<u>Bank Note Payable:</u>					
Industrial development building	7.25%	Jan 2025	July 2026	\$ 1,800,000	\$ 670,935

As of June 30, 2025, the Industrial Development Authority has not drawn down the entirety of the available note payable.

During fiscal year 2016 the County issued Series 2015 refunding bonds to refund the outstanding VML/VACo Bonds issued June 2008. The refunding bonds issued September 29, 2015 in the amount of \$29,095,000 refunded the aforementioned bonds in the amount of \$26,170,000. The present value of the economic gain was \$1,084,046.

COUNTY OF CAMPBELL, VIRGINIA

**NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)**

NOTE 8—LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS:

The County's landfill consists of four phases described as follows: Phase I of the landfill has never been intended to be used for actual waste disposal and serves only as a storage area. Phase II of the landfill was closed in 1995. Phase III opened in 1995 and Phase IV was never opened. The remaining capacity of Phase III and all of Phase IV were sold to the regional landfill authority, Region 2000 Services Authority, during fiscal year 2012.

In accordance with state and Federal laws, the County placed a final cover on Phase II of the landfill in 1995 and is required to perform certain maintenance and monitoring functions at this site for a minimum of thirty years after closure. The cumulative amount of estimated postclosure care costs and corrective action costs for this site, less amounts expended for such costs to date were \$1,050,124 and \$2,185,990, respectively. The liability for Phase II reported is equal to 100% of the estimated liability.

The closure and postclosure care costs for Phase III were assumed by the Region 2000 Services Authority as part of the purchase of Phase III and IV. The cumulative amount reported as postclosure care costs and corrective action liability is \$3,236,114 as of June 30, 2025, all of which is for Phase II. The liability reported is based on what it would cost to perform all postclosure care in 2025. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County demonstrates financial assurance requirements for closure and postclosure care through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC-20-70 of the Virginia Administrative Code.

NOTE 9—IDA ECONOMIC INCENTIVE GRANTS PAYABLE:

As discussed in Note 11, the IDA has awarded certain economic incentive grants to businesses within the County; typically the grants are paid over a 1-5 year period. Outstanding grants approved by the governing body as of June 30, 2025 that have been substantially earned by the business and expected to be paid are recorded as a liability.

NOTE 10—SIGNIFICANT TRANSACTIONS OF THE COUNTY AND COMPONENT UNIT – SCHOOL BOARD:

Certain transactions between the County and School Board component unit are explained here in detail to provide a more informed understanding of the operational relationship of the two entities and how such transactions are presented in the financial statements.

- A. The School Board can neither levy taxes nor incur debt under Virginia law. Therefore, the County issues debt "on behalf" of the School Board. The debt obligation is recorded as a liability of the County's governmental activities. The proceeds from the debt issued "on behalf" of the School Board and related capital expenditures are recorded in the County's funds.
- B. Debt service payments for school bonded debt are reported as part of the primary government in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds.

NOTE 10–SIGNIFICANT TRANSACTIONS OF THE COUNTY AND COMPONENT UNIT – SCHOOL BOARD: (CONTINUED)

- C. Local governments in Virginia have a “tenancy in common” with the School Board whenever the locality incurs a financial obligation for school property which is payable over more than one year. In order to match the capital assets with the related debt, the legislation permits the primary government to report the portion of the school property related to the financial obligation as “jointly owned” assets. When the debt related to a particular capital asset is completely retired, the related capital asset, net of accumulated depreciation, is removed from the primary government’s financial statements and reported in the School Board’s financial statements. The School Board retains authority and responsibility over the operation and control of this property.
- D. If all economic resources associated with school activities were reported with the School Board, its total expenditures would be as follows:

Expenditures of School Board - Component Unit (Exhibit 32)	\$ 120,797,819
School-related principal and other debt service expenditures included in primary government (Exhibit 4)	<u>3,110,024</u>
Total expenditures for school activities	<u>\$ 123,907,843</u>

NOTE 11–SIGNIFICANT TRANSACTIONS OF THE COUNTY AND COMPONENT UNIT – IDA:

The IDA was created to encourage economic development in the County. To that end, the County appropriates periodic contributions to the IDA. In addition, the County provides certain economic incentive grants to encourage development in the County. These grants pass through the IDA but ultimately are long-term obligations reported in the County’s government-wide statement of net position. When the underlying requirements have been substantially met, these amounts are recorded by the IDA as payable to the grant recipient and as receivable from the County. At year end the IDA reported economic incentive grants payable of \$330,794 and an equal amount was reported as receivable from the County.

Amounts reported as payable to the IDA by the County consist of the following:

Long-term commitments to IDA, reported in the government-wide Statement of Net Position	\$ <u>330,794</u>
Total payable to IDA	<u>\$ 330,794</u>

The County aso provides personnel and office space to the IDA at no charge.
The County also provides personnel and office space to the IDA at no charge.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Benefit Structures

The System administers three different benefit structures for covered employees – Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of creditable service or when the sum of their age plus and credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 – April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN: (CONTINUED)

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Employees Covered by Benefit Terms

As of the June 30, 2023 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Primary Government	Component Unit School Board Nonprofessional
Inactive members or their beneficiaries currently receiving benefits	309	193
Inactive members:		
Vested inactive members	78	14
Non-vested inactive members	139	119
Inactive members active elsewhere in VRS	173	26
Total inactive members	390	159
Active members	353	172
Total covered employees	1,052	524

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN: (CONTINUED)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's contractually required employer contribution rate for the year ended June 30, 2025 was 12.87% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$2,620,916 and \$2,304,504 for the years ended June 30, 2025 and June 30, 2024, respectively.

The Component Unit School Board's contractually required employer contribution rate for nonprofessional employees for the year ended June 30, 2025 was 5.64% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$278,831 and \$201,493 for the years ended June 30, 2025 and June 30, 2024, respectively.

The defined contributions component of the Hybrid plan includes member and employer mandatory and voluntary contributions. The Hybrid plan member must contribute a mandatory rate of 1% of their covered payroll. The employer must also contribute a mandatory rate of 1% of this covered payroll, which totaled \$74,986 and \$33,741 for the County and School Board, respectively, for the year ended June 30, 2025. Hybrid plan members may also elect to contribute an additional voluntary rate of up to 4% of their covered payroll; which would require the employer a mandatory additional contribution rate of up to 2.5%. This additional employer mandatory contribution totaled \$71,904 and \$28,376 for the County and School Board, respectively, for the year ended June 30, 2025. The total Hybrid plan participant covered payroll totaled \$7,498,632 and \$3,374,121 for the County and School Board, respectively, for the year ended June 30, 2025.

Net Pension Liability (Asset)

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The County's and Component Unit School Board's (nonprofessional) net pension liabilities were measured as of June 30, 2024. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024.

NOTE 12–PENSION PLAN: (CONTINUED)

Mortality rates: (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Actuarial Assumptions – Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the County’s Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Inflation	2.50%
Salary increases, including inflation	3.50% – 4.75%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

All Others (Non-10 Largest) – Hazardous Duty: 45% of deaths are assumed to be service related

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males; 105% of rates for females set forward 2 years

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN: (CONTINUED)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	32.00%	6.70%	2.14%
Fixed Income	16.00%	5.40%	0.86%
Credit Strategies	16.00%	8.10%	1.30%
Real Assets	15.00%	7.20%	1.08%
Private Equity	15.00%	8.70%	1.31%
PIP - Private Investment Partnerships	1.00%	8.00%	0.08%
Diversifying Strategies	6.00%	5.80%	0.35%
Cash	2.00%	3.00%	0.06%
Leverage	-3.00%	3.50%	-0.11%
Total	100.00%		7.07%
Expected arithmetic nominal return**			7.07%

*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

COUNTY OF CAMPBELL, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN: (CONTINUED)

Discount Rate:

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. For the year ended June 30, 2024, the employer contribution rate was 100% of the actuarially determined employer contribution rate from the June 30, 2023 actuarial valuations. Through the fiscal year ended June 30, 2024, the rate contributed by the school division for the VRS Teacher Retirement Plan was subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 112% of the actuarially determined contribution rate. From July 1, 2024 on, participating employers and school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the County and Component Unit School Board (nonprofessional) using the discount rate of 6.75%, as well as what the County's and Component Unit School Board's (nonprofessional) net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1% Decrease (5.75%)	Current Discount (6.75%)	1% Increase (7.75%)
County Net Pension Liability (Asset)	\$ 18,466,651	\$ 6,145,423	\$ (3,944,735)
Component Unit School Board (nonprofessional) Net Pension Liability (Asset)	1,335,843	(285,337)	(1,665,452)

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)
NOTE 12—PENSION PLAN: (CONTINUED)***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended June 30, 2025, the County and Component Unit School Board (nonprofessional) recognized pension expense of \$2,238,529 and \$230,921, respectively. At June 30, 2025, the County and Component Unit School Board (nonprofessional) reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Component Unit School Board (nonprofessional)	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,017,302	\$ -	\$ 81,323	\$ -
Change in assumptions	-	-	-	-
Net difference between projected and actual earnings on pension plan investments	-	2,403,164	-	452,298
Employer contributions subsequent to the measurement date	2,620,916	-	278,831	-
Total	\$ 4,638,218	\$ 2,403,164	\$ 360,154	\$ 452,298

\$2,620,916 and \$278,831 reported as deferred outflows of resources related to pensions resulting from the County's and Component Unit School Board's (nonprofessional) contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year Ended June 30	Primary Government	Component Unit School Board (nonprofessional)
2026	\$ (821,290)	\$ (330,338)
2027	1,409,390	135,407

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <https://www.varetire.org/Pdf/Publications/2024-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 12—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information related to the plan description is included in the first section of this note.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 14.21% of covered employee compensation. This was the General Assembly approved rate which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$7,764,939 and \$8,101,566 for the years ended June 30, 2025 and June 30, 2024, respectively.

The defined contributions component of the Hybrid plan includes member and employer mandatory and voluntary contributions. The Hybrid plan member must contribute a mandatory rate of 1% of their covered payroll. The employer must also contribute a mandatory rate of 1% of this covered payroll, which totaled \$232,724 for the year ended June 30, 2025. Hybrid plan members may also elect to contribute an additional voluntary rate of up to 4% of their covered payroll; which would require the employer a mandatory additional contribution rate of up to 2.5%. This additional employer mandatory contribution totaled \$217,805 for the year ended June 30, 2025. The total Hybrid plan participant covered payroll totaled \$23,272,424 for the year ended June 30, 2025.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the school division reported a liability of \$45,089,202 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2024 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the school

NOTES TO FINANCIAL STATEMENTS

NOTE 12—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2025, the school division recognized pension expense of \$4,634,902. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions. Beginning with the June 30, 2022 measurement date, the difference between expected and actual contributions is included with the pension expense calculation.

At June 30, 2025, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 7,822,341	\$ 928,418
Change in assumptions	818,429	-
Net difference between projected and actual earnings on pension plan investments	-	6,206,556
Changes in proportion and differences between employer contributions and proportionate share of contributions	422,979	607,789
Employer contributions subsequent to the measurement date	<u>7,764,939</u>	<u>-</u>
Total	<u>\$ 16,828,688</u>	<u>\$ 7,742,763</u>

\$7,764,939 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

<u>Year Ended June 30</u>	
2026	\$ (2,747,015)
2027	3,913,215
2028	793,083
2029	(638,297)
2030	-

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024.

Inflation	2.50%
Salary increases, including inflation	3.50% – 5.95%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

Mortality rates:

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the standard rates

NOTE 12–PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Actuarial Assumptions (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system’s total pension liability determined in accordance with GASB Statement No. 67, less that system’s fiduciary net position. As of June 30, 2024, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

		Teacher Employee Retirement Plan
Total Pension Liability	\$	60,622,260
Plan Fiduciary Net Position		51,235,326
Employers' Net Pension Liability (Asset)	\$	9,386,934
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability		84.52%

The total pension liability is calculated by the System’s actuary, and each plan’s fiduciary net position is reported in the System’s financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System’s notes to the financial statements and required supplementary information.

The long-term expected rate of return and discount rate information previously described also apply to this plan.

NOTE 12–PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Sensitivity of the School Division’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division’s proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the school division’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

		Rate		
		1% Decrease	Current Discount	1% Increase
		(5.75%)	(6.75%)	(7.75%)
School division's proportionate share of the VRS Teacher Employee Retirement Plan Net Pension Liability (Asset)		\$ 83,766,899	\$ 45,089,202	\$ 13,413,398

Pension Plan Fiduciary Net Position

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS:

Health Insurance (Single-employer Defined Benefit Plan)

Plan Description

The County and School Board provide postemployment medical coverage for retired employees through a single-employer defined benefit plan. The County and School Board may change, add or delete coverage as they deem appropriate and with the approval of the Board of Supervisors. The plan does not grant retirees vested health benefits. The Plan does not issue separate financial statements.

Benefits Provided

A Campbell County retiree, eligible for postretirement medical coverage, is defined as a full-time employee who retires directly from the County or Schools and is eligible to receive an early or regular retirement benefit from the VRS. Employees applying for early or regular retirement are eligible to continue participation in the Retiree Health Plans sponsored by the County and Schools. County employees hired prior to July 1, 2006 and School employees hired for the 2006-2007 school year and before must have 10 years of service with Campbell County in order to be eligible for postretirement medical coverage. All subsequently hired employees must have 20 years of service with Campbell County to be eligible. Retired employees, hired on or after July 1, 2010, eligible for VRS retirement benefits with at least 20 years of consecutive County service may continue their health insurance under the County insurance plan until age 65 if they elect to pay the entire insurance premium established for regular employees in that classification. The School Board allow dependents to be covered if eligible employees are hired on or after July 1, 2010; employees hired prior to July 1, 2010 are also provided dependent coverage if they meet the previously stated eligibility requirements. Coverage for County employees will be limited to the retired employee and will not include dependents for those hired on/after July 1, 2010.

NOTE 13–OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Health Insurance (Single-employer Defined Benefit Plan) (Continued)

Benefits Provided (Continued)

Retirees not yet eligible for Medicare coverage have one coverage choice, just as active employees have. Retirees eligible for Medicare coverage have access to plans that supplement Medicare, however, the retiree is responsible for the full cost of the plan.

Plan Membership

At June 30, 2025 (measurement date), the following employees were covered by the benefit terms:

	County	School Board
Total active employees with coverage	357	1,197
Total retirees with coverage	33	71
Total	390	1,268

Contributions

The County and School Board do not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the County and School Board. The amount paid by the County and School Board for OPEB as the benefits came due during the year ended June 30, 2025 was \$553,463 and \$1,214,629, and \$525,068 and \$1,271,204 for fiscal year ended June 30, 2024.

Total OPEB Liability

The County and School Board’s total OPEB liabilities were measured as of June 30, 2025. The total OPEB liabilities were determined by an actuarial valuation as of that date.

NOTE 13–OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Health Insurance (Single-employer Defined Benefit Plan): (Continued)

Actuarial Assumptions

The total OPEB liability in the June 30, 2025 actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

County	
Inflation	2.50% per year as of June 30, 2025
Payroll Growth	County - The payroll growth rate starts at 1.85% increase for 1 year of service and gradually declines to 0.0% for 20 or more years of service for non-law enforcement and 1.25% to 0.0% for law enforcement.
Discount Rate	4.21% as of June 30, 2024 5.20% as of June 30, 2025
School Board	
Inflation	2.50% per year as of June 30, 2025
Salary Increases	School Board - The payroll growth rate starts at 2.45% salary increase for 1 year of service and gradually declines to 0.0% salary increase for 20 or more years of service.
Discount Rate	4.21% as of June 30, 2024 5.20% as of June 30, 2025

The mortality rates for general and public safety employees and retirees - SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using scale MP-2021. Teacher employees and retirees - SOA Pub-2010 Teacher Headcount Weighted Mortality Table fully generational using Scale MP-2021.

Health Insurance (Single-employer Defined Benefit Plan): (Continued)

Discount Rate

The discount rate used when OPEB plan investments are insufficient to pay for future benefit payments is selected from a range of 20-Year Municipal Bond Indices and include the Bond Buyer 11-Bond GO Index, the S&P Municipal Bond 20-Year High Grade Rate Index, and the Fidelity 20-Year GO Municipal Bond Index. The final equivalent single discount rate used for this year's valuation is 5.20% as of the end of the fiscal year with the expectation that the County and School Board will continue contributing the Actuarially Determined Contribution and paying the pay-go cost from the OPEB Trust.

Thereafter	-	-

Additional disclosures on changes in net OPEB liability, related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance:

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$9,532 as of June 30, 2025.

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance: (Continued)

Contributions

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.18% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.710% (1.18% x 60%) and the employer component was 0.47% (1.18% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2025, was 0.47% of covered employee compensation. This rate was the final approved General Assembly rate which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Plan from the County were \$95,873 and \$103,478 for the years ended June 30, 2025 and June 30, 2024, respectively, and \$23,351 and \$24,468 from the School Board (Nonprofessional) and \$256,969 and \$276,185 from the School Board (Professional).

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Program OPEB

At June 30, 2025, the County reported a liability of \$832,813 and the School Board in the amounts of \$196,960 and \$2,222,805 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2024 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2023, and rolled forward to the measurement date of June 30, 2024. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2024 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the participating employer's proportion was .07463% as compared to .07560% at June 30, 2023 and .01765% and .01778% for School Board (Nonprofessional) and .19919% and .20560% for the School Board (Professional).

For the year ended June 30, 2025, the County recognized GLI OPEB expense of \$28,108, the School Board (Professional) recognized \$50,017 and School Board (Nonprofessional) recognized expense of \$6,921. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Program OPEB (Continued)

\$95,873, \$23,351 and \$256,969 (County, School Board Nonprofessional and School Board Professional) reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ended June 30	County	School Board	
		Professional	Nonprofessional
2026	\$ (33,662)	\$ (102,836)	\$ (6,816)
2027	17,021	32,827	4,941
2028	4,183	(4,217)	1,556
2029	8,687	8,623	2,102
2030	11,183	22,921	2,826

Actuarial Assumptions

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2023, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2024. The assumptions include several employer groups as noted below. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS ACFR.

Inflation	2.50%
Salary increases, including inflation:	
Teachers	3.50%-5.95%
Locality - General employees	3.50%-5.35%
Locality - Hazardous Duty employees	3.50%-4.75%
Investment rate of return	6.75%, net of investment expenses, including inflation

Mortality Rates – Teachers

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the program’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2024, NOL amounts for the GLI Plan are as follows (amounts expressed in thousands):

		GLI OPEB Plan
Total GLI OPEB Liability	\$	4,196,055
Plan Fiduciary Net Position		3,080,133
GLI Net OPEB Liability (Asset)	\$	1,115,922
Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability		73.41%

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance: (Continued)

NET GLI OPEB Liability: (Continued)

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	32.00%	6.70%	2.14%
Fixed Income	16.00%	5.40%	0.86%
Credit Strategies	16.00%	8.10%	1.30%
Real Assets	15.00%	7.20%	1.08%
Private Equity	15.00%	8.70%	1.31%
PIP - Private Investment Partnerships	1.00%	8.00%	0.08%
Diversifying Strategies	6.00%	5.80%	0.35%
Cash	2.00%	3.00%	0.06%
Leverage	-3.00%	3.50%	-0.11%
Total	100.00%		7.07%
Expected arithmetic nominal return**			7.07%

*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

** On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTE 13–OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance: (Continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2024, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113% of the actuarially determined contribution rate. From July 1, 2024 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB’s fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer’s Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer’s proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer’s proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate		
	1% Decrease	Current Discount	1% Increase
	(5.75%)	(6.75%)	(7.75%)
County's proportionate share of the Group Life Insurance Program			
Net OPEB Liability	\$ 1,295,132	\$ 832,813	\$ 459,320
School Board - Professional employees proportionate share of the Group Life Insurance Program			
Net OPEB Liability	\$ 3,456,751	\$ 2,222,805	\$ 1,225,939
School Board - Nonprofessional employees proportionate share of the Group Life Insurance Program			
Net OPEB Liability	\$ 306,299	\$ 196,960	\$ 108,629

GLI Program Fiduciary Net Position

Detailed information about the GLI Plan’s Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <https://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Health Insurance Credit (HIC) Plan – School Board (Nonprofessional):

Plan Description

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

Benefit Amounts

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 13–OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Health Insurance Credit (HIC) Plan – School Board (Nonprofessional): (Continued)

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. There is no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Employees Covered by Benefit Terms

As of the June 30, 2023 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	102
Inactive members:	
Vested inactive members	2
Inactive members active elsewhere in VRS	<u>22</u>
Total inactive members	<u>126</u>
Active members	<u>172</u>
Total covered employees	<u><u>298</u></u>

Contributions

The contribution requirements for active employees is governed by §51.1-1402(E) of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The School Board’s contractually required employer contribution rate for the year ended June 30, 2025 was .68% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School Board to the HIC Plan were \$33,618 and \$30,785 for the years ended June 30, 2025 and June 30, 2024, respectively.

Cash	2.00%	3.00%	0.06%
Leverage	-3.00%	3.50%	-0.11%
Total	100.00%		7.07%
Expected arithmetic nominal return**			7.07%

*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Health Insurance Credit (HIC) Plan – School Board (Nonprofessional): (Continued)

Discount Rate

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2024, the rate contributed by the entity for the HIC OPEB was 100% of the actuarially determined contribution rate. From July 1, 2024 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

HIC Plan Data

Information about the VRS Political Subdivision HIC Plan is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <https://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree’s death.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

The specific information for the Teacher HIC OPEB, including eligibility, coverage, and benefits is described below:

Eligible Employees

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

Benefit Amounts

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire with at least 15 years of service credit, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Contributions

The contribution requirements for active employees is governed by §51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2025 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was the final approved General Assembly rate, which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2023. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee HIC Plan were \$661,195 and \$618,628 for the years ended June 30, 2025 and June 30, 2024, respectively.

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Teacher Employee HIC Plan OPEB Liabilities, Teacher Employee HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB

At June 30, 2025, the school division reported a liability of \$5,514,752 for its proportionate share of the VRS Teacher Employee HIC Plan Net OPEB Liability. The Net VRS Teacher Employee HIC Plan OPEB Liability was measured as of June 30, 2024 and the total VRS Teacher Employee HIC OPEB liability used to calculate the Net VRS Teacher Employee HIC OPEB Liability was determined by an actuarial valuation performed as of June 30, 2023 and rolled forward to the measurement date of June 30, 2024. The school division's proportion of the Net VRS Teacher Employee HIC OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2024, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2024, the school division's proportion of the VRS Teacher Employee HIC Plan was .47720% as compared .4848% at June 30, 2023.

For the year ended June 30, 2025, the school division recognized VRS Teacher Employee HIC Plan OPEB expense of \$406,319. Since there was a change in proportionate share between measurement dates a portion of the VRS Teacher Employee HIC Plan Net OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2025, the school division reported deferred outflows of resources and deferred inflows of resources related to the VRS Teacher Employee HIC Plan OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 261,276
Net difference between projected and actual earnings on Teacher HIC OPEB plan investments	-	19,616
Change in assumptions	95,003	-
Change in proportion	82,597	96,184
Employer contributions subsequent to the measurement date	<u>661,195</u>	<u>-</u>
Total	<u>\$ 838,795</u>	<u>\$ 377,076</u>

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates – Teachers (Continued)

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Net Teacher Employee HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the plan’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2024, NOL amounts for the VRS Teacher Employee HIC Plan are as follows (amounts expressed in thousands):

		Teacher Employee HIC OPEB Plan
Total Teacher Employee HIC OPEB Liability	\$	1,478,105
Plan Fiduciary Net Position		322,457
Teacher Employee Net HIC OPEB Liability (Asset)	\$	1,155,648
Plan Fiduciary Net Position as a Percentage of the Total Teacher Employee HIC OPEB Liability		21.82%

The total Teacher Employee HIC OPEB liability is calculated by the System’s actuary, and the plan’s fiduciary net position is reported in the System’s financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System’s notes to the financial statements and required supplementary information.

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 13—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	32.00%	6.70%	2.14%
Fixed Income	16.00%	5.40%	0.86%
Credit Strategies	16.00%	8.10%	1.30%
Real Assets	15.00%	7.20%	1.08%
Private Equity	15.00%	8.70%	1.31%
PIP - Private Investment Partnerships	1.00%	8.00%	0.08%
Diversifying Strategies	6.00%	5.80%	0.35%
Cash	2.00%	3.00%	0.06%
Leverage	-3.00%	3.50%	-0.11%
Total	<u>100.00%</u>		<u>7.07%</u>
	Expected arithmetic nominal return**		<u>7.07%</u>

*The above allocation provides a one-year expected return of 7.07% (includes 2.50% inflation assumption). However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.10%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTE 13–OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2024, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2024, on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

Sensitivity of the School Division’s Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the school division’s proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division’s proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

		Rate		
		1% Decrease	Current Discount	1% Increase
		(5.75%)	(6.75%)	(7.75%)
School division's proportionate share of the VRS Teacher Employee HIC OPEB Plan				
Net HIC OPEB Liability	\$	6,271,649	\$ 5,514,752	\$ 4,873,213

Teacher Employee HIC OPEB Fiduciary Net Position

Detailed information about the VRS Teacher Employee HIC Plan’s Fiduciary Net Position is available in the separately issued VRS 2024 Annual Comprehensive Financial Report (Annual Report). A copy of the 2024 VRS Annual Report may be downloaded from the VRS website at <https://www.varetire.org/pdf/publications/2024-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

COUNTY OF CAMPBELL, VIRGINIA

**NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)**

NOTE 14—PROPERTY TAXES:

The County levies real estate taxes on all real property within its boundaries, except that exempted by statute, at a rate enacted by the Board of Supervisors on the assessed value of property (except public utility property) as determined by the Commissioner of Revenue. Public utility property is assessed by the Commonwealth. All real property is assessed at 100 percent of fair market value and reassessed every four years as of January 1. The Commissioner of Revenue, by authority of County ordinance, prorates billings for property incomplete as of January 1, but completed during the year.

Real estate taxes are billed in semi-annual installments due June 5 and December 5. The taxes receivable balance at June 30, 2025 includes amounts not yet received from the January 1, 2025 levy. Property taxes attach as an enforceable lien on property as of January 1.

In addition, any uncollected amounts from previous years' levies are incorporated in the taxes receivable balance. The real estate tax rate was \$.45 and \$.45 per \$100 of assessed value for calendar years 2025 and 2024, respectively.

Personal property tax assessments on all motor vehicles is \$4.05 per \$100 assessed value. Personal property tax on business machinery and tools is \$3.20 per \$100 of assessed value. Personal property taxes are billed in semi-annual installments due on June 5 and December 5. Personal property tax assessments are not prorated. Property is assessed as of January 1st of each year.

NOTE 15—RISK MANAGEMENT:

The County and its component units are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; workers' compensation claims; and natural disasters.

The County contracts with VACorp to provide insurance coverage for these risks of loss. In the event of a loss deficit and depletion of all assets and available insurance of the League, the League may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The property coverage is for specific amounts based on values assigned to the insured properties. Liability coverage consists of \$2 million primary and \$4 million excess coverage.

The School Board contracts with private insurers for property and liability coverage.

Unemployment Insurance

The County and School Board are fully self-insured for unemployment claims. The Virginia Employment Commission bills the County for all unemployment claims.

COUNTY OF CAMPBELL, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
AS OF JUNE 30, 2025 (CONTINUED)

NOTE 15–RISK MANAGEMENT: (CONTINUED)

Employee Health Insurance

The County is self-insured for medical coverage for County and School employees. Anthem serves as the administrator of a group medical insurance program in which the County and School Board’s participating employees are combined into one overall funding program. The program includes a specific stop loss of \$150,000 for the program year ending September 30, 2025, and a maximum aggregate liability of 115% of Anthem’s estimate of the expected liability.

Liabilities for unpaid claims and claims incurred but not reported (IBNR) are estimated based on the estimated ultimate costs of settling the claims. Changes in the balances of claim liabilities are as follows:

<u>Fiscal Year Ending</u>	<u>Beginning of Year</u>	<u>Insured Claims (Including IBNR)</u>	<u>Claim Payments</u>	<u>End of Year</u>
June 30, 2025	\$ 1,422,333	\$ 19,010,850	\$ 19,040,134	\$ 1,393,049
June 30, 2024	1,224,138	19,481,647	19,283,452	1,422,333
June 30, 2023	1,228,173	17,478,432	17,482,467	1,224,138
June 30, 2022	960,000	19,104,298	18,836,125	1,228,173
June 30, 2021	1,139,601	14,714,309	14,893,910	960,000

In fiscal year 2012 the County started offering health benefits with a health savings account. The County has provided an annual contribution to each employee’s health savings account.

NOTE 16–COMMITMENTS AND CONTINGENCIES:

Special Purpose Grants

Special purpose grants are subject to audit to determine compliance with their requirements. County officials believe that if any refunds are required, they will be immaterial.

Revenue Bonds of Campbell County Utilities and Service Authority

The County Board of Supervisors has issued expressions of intent to provide the debt service payments on certain revenue bonds issued by the Campbell County Utilities and Service Authority (CCUSA). This support agreement is a non-binding obligation to appropriate to the CCUSA such funds as may be requested from time to time to pay these debt service costs for the life of the bonds, or 20 years. The County paid CCUSA \$93,475 for debt service in fiscal year 2025. In turn, the County receives water and sewer access fees related to these projects. In 2025, the County received approximately \$0 in such fees.

Leesville Road Waterline

The County financed the construction of the Leesville Road waterline. Campbell County Utility Service (CCUSA) will own and operate the assets. All connection fees received as a result of the waterline will be remitted to the County until the costs are recovered. If the total costs are not recovered, CCUSA is not responsible for the difference.

NOTE 20—UPCOMING PRONOUNCEMENTS:

Statement No. 103, *Financial Reporting Model Improvements*, improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Statement No. 104, *Disclosure of Certain Capital Assets*, requires certain types of assets (lease assets, subscription assets, intangible right-to-use assets, and other intangible assets) to be disclosed separately in the capital asset note disclosures by major class of underlying asset. It also requires additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Implementation Guide No. 2025-1, *Implementation Guidance Update—202cx5*, effective for fiscal years beginning after June 15, 2025.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

NOTE 21—COVID-19 FUNDING

ARPA Funding

On March 11, 2021, the American Rescue Plan (ARPA) Act of 2021 was passed by the federal government. A primary component of the ARPA was the establishment of the Coronavirus State and Local Fiscal Recovery Fund (CSLFRF). Local governments were to receive funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered approximately 12 months later.

In fiscal year 2021, the County received its share of the first half of the CSLFRF funds in the amount of \$5,330,384. The County received a second tranche in the amount of \$5,330,384 in fiscal year 2022. As a condition of receiving CSLFRF funds, any funds unobligated by December 31, 2024, and unexpended by December 31, 2026, will be returned to the federal government. Unspent funds in the amount of \$4,948,651 is reported as unearned revenue as of June 30.

Notes to Required Supplementary Information - Pension
Pension Plans
For the Year Ended June 30, 2025

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

All Others (Non 10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Component Unit School Board - Professional Employees

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

OPEB - Health Insurance Plan
Notes to Required Supplementary Information - Health Insurance OPEB
For the Year Ended June 30, 2025

Valuation Date: July 1, 2024
Measurement Date: June 30, 2025

No assets are accumulated in a trust that meets the criteria in GASB 75 to pay related benefits.

Methods and assumptions used to determine OPEB liability:

Actuarial Cost Method	Entry age normal level % of salary
Discount Rate	4.21% as of June 30, 2024; 5.20% as of June 30, 2025
Inflation	2.50% per year as of July 1, 2024
Healthcare Trend Rate	The healthcare trend rate assumption starts at 8.0% and gradually declines to 4.5%
Payroll Growth Rates	County - The payroll growth rate starts at 1.85% increase for 1 year of service and gradually declines to 0.0% for 20 or more years of service for non-law enforcement and 1.25% to 0.0% for law enforcement. School Board - The payroll growth rate starts at 2.45% salary increase for 1 year of service and gradually declines to 0.0% salary increase for 20 or more years of service.
Retirement Age	The average age at retirement is 63
Mortality Rates	The mortality rates for general and public safety employees and retirees - SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using scale MP-2021. Teacher employees and retirees - SOA Pub-2010 Teacher Headcount Weighted Mortality Table fully generational using Scale MP-2021.

Notes to Required Supplementary Information
Group Life Insurance Program (GLI) Plan
For the Year Ended June 30, 2025

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Teachers

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Non-Largest Ten Locality Employers - General Employees

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Non-Largest Ten Locality Employers - Hazardous Duty Employees

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Top 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Local government	31,026,959	-	-	120,000	31,146,959
Commonwealth	75,212,678	132,475	-	-	75,345,153
Federal	5,462,827	4,788,158	-	-	10,250,985
Total revenues	<u>\$ 112,465,826</u>	<u>\$ 5,097,414</u>	<u>\$ 3,031,717</u>	<u>\$ 192,298</u>	<u>\$ 120,787,255</u>
EXPENDITURES					
Current:					
Education	\$ 112,060,417	\$ 4,963,884	\$ 2,817,066	\$ -	\$ 119,841,367
Capital projects	-	-	-	956,452	956,452
Total expenditures	<u>\$ 112,060,417</u>	<u>\$ 4,963,884</u>	<u>\$ 2,817,066</u>	<u>\$ 956,452</u>	<u>\$ 120,797,819</u>
Excess (deficiency) of revenues over (under) expenditures	<u>\$ 405,409</u>	<u>\$ 133,530</u>	<u>\$ 214,651</u>	<u>\$ (764,154)</u>	<u>\$ (10,564)</u>
Net change in fund balances	\$ 405,409	\$ 133,530	\$ 214,651	\$ (764,154)	\$ (10,564)
Fund balances - beginning	5,202,591	4,261,669	1,791,218	78,924	11,334,402
Fund balances - ending	<u>\$ 5,608,000</u>	<u>\$ 4,395,199</u>	<u>\$ 2,005,869</u>	<u>\$ (685,230)</u>	<u>\$ 11,323,838</u>
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:					
Net change in fund balances - total governmental funds - per above					\$ (10,564)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of the assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized expenditures exceeded depreciation expense in the current period					
Capital outlay				\$ 2,890,556	
Depreciation expense				<u>(3,858,381)</u>	(967,825)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals) is to decrease net position					
Loss on disposal of capital asset				<u>(76,175)</u>	(76,175)
Deferred outflows of resources and net pension asset are not available to pay for current-period expenditures and, therefore, are not reported in the funds.					
Deferred outflows of resources - pension related items				\$ 1,444,532	
Deferred outflows of resources - OPEB related items				<u>2,202,452</u>	3,646,984
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds					
(Increase)/decrease in compensated absences				\$ 66,948	
(Increase)/decrease in net pension liability				4,402,380	
(Increase)/decrease in net OPEB liabilities				(2,866,210)	
(Increase) decrease in deferred inflows related to the measurement of the net pension liability				(2,670,026)	
(Increase) decrease in deferred inflows related to the measurement of the OPEB liabilities				<u>1,528,777</u>	461,869
Change in net position of governmental activities					<u>\$ 3,054,289</u>

Other Statistical Information

Contents

Tables

Financial Trends

These tables contain trend information to help the reader understand how the the County's financial performance and well-being have changed over time.

1 - 4

Revenue Capacity

These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.

5 - 8

Debt Capacity

These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.

9-10

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.

11-15

Sources: Unless otherwise noted, the information in these tables is derived from the annual financial reports for the relevant year.

(1) Assessed value is as of January 1 of the previous fiscal year; does not include tax exempt property; excludes land use reduced valuation; includes mineral values

(2) Merchants' capital is no longer assessed as of fiscal year 2004

(3) Real estate, mobile homes, and machinery and tools taxes are assessed on a taxable property value which is 100% of estimated fair market value
Personal property taxes are assessed on a taxable property value which is 50% of fair market.

(4) Per \$100 of assessed value.

(5) Includes recreational and apportioned vehicles

(6) Starting in 2023, the County bills most property tax types biannually.

**Independent Auditors' Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

**To the Honorable Members of
the Board of Supervisors
County of Campbell, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Campbell, Virginia, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the County of Campbell, Virginia's basic financial statements, and have issued our report thereon dated December 9, 2025. Our report includes a reference to other auditors who audited the financial statements of the Component Unit School Board, as described in our report on the County of Campbell, Virginia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Campbell, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Campbell, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Campbell, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Campbell, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Charlottesville, Virginia

**Independent Auditors' Report on Compliance For Each Major Program and on
Internal Control over Compliance Required by the Uniform Guidance**

**To the Honorable Members of
the Board of Supervisors
County of Campbell, Virginia**

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited County of Campbell, Virginia's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of County of Campbell, Virginia, Virginia's major federal programs for the year ended June 30, 2025. County of Campbell, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, County of Campbell, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of County of Campbell, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of County of Campbell, Virginia's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to County of Campbell, Virginia's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on County of Campbell, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about County of Campbell, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding County of Campbell, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of County of Campbell, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of County of Campbell, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Report on Internal Control over Compliance: (Continued)

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

COUNTY OF CAMPBELL, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2025

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards ("Schedule") includes the federal award activity of the County of Campbell, Virginia under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Campbell, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Campbell, Virginia.

Note 2 - Basis of Accounting

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Commodities

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note 4 - Indirect Cost Rate

The County did not elect to use the 15-percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 5 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General Fund	\$	5,396,405
--------------	----	-----------

Capital Projects Funds:

County Capital Projects Fund		4,159,927
------------------------------	--	-----------

Parks Construction Fund		
-------------------------	--	--

Total primary government	\$	9,556,332
--------------------------	----	-----------

Component Unit School Board:

School Operating Fund	\$	5,462,827
-----------------------	----	-----------

School Cafeteria Fund		4,788,158
-----------------------	--	-----------

Total Component Unit School Board	\$	10,250,985
-----------------------------------	----	------------

Total federal expenditures per basic financial
statements

	\$	19,807,317
--	----	------------

Total federal expenditures per the Schedule of Expenditures
of Federal Awards

	\$	19,807,317
--	----	------------

Note 6 - Loan Balances

The County has no loans or guarantees which are subject to reporting requirements for the current year.

COUNTY OF CAMPBELL, VIRGINIA
