Independent Auditors' Report

To the Members of the Board of Supervisors County of Carroll, Virginia Hillsville, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Carroll, Virginia, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Carroll, Virginia, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 22 to the financial statements, in 2016, the County adopted new accounting guidance, GASB Statement Nos. 79 Certain External Investment Pools and Pool Participants and 82 Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules related to pension and OPEB funding on pages 73 and 74-78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Carroll, Virginia's basic financial statements. The introductory section, other supplementary information, and other statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

Other Information (continued)

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and other statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the County of Carroll, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Carroll, Virginia's internal control over financial reporting and compliance.

County of Carroll, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		\$ (2,677,498)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.		
Capital outlays Depreciation expense	\$ 1,594,184 (2,769,711)	(1,175,527)
The net effect of various miscellaneous transactions involving capital assets (I.e., sales, trade-ins, and donations) is to decrease net position.		(149,594)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes	\$ 193,730	
Change in deferred inflows related to the measurement of the net pension liability	713,738	907,468
The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term obligations and related items. Issuance of Long-term Debt Lease revenue bonds	\$ (69,912)	
Capital lease Principal Payments	(506,969)	
General obligation bonds Lease revenue bonds Literary loans Capital lease	2,958,168 260,655 680,167 16,946	3,339,055
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. Change in compensated absences Change in accrued interest payable Amortization of bond premium Amortization of bond discount Change in net pension liability Change in deferred outflows related to measurement of net pension liability Change in deferred outflows related to pension payments subsequent to the measurement date	\$ 53,146 43,388 58,129 (7,312) (966,674) 384,604 15,751	(418,968)

COUNTY OF CARROLL, VIRGINIA

Notes to Financial Statements June 30, 2016

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County of Carroll, Virginia conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity

The County of Carroll, Virginia ("the County") is a political subdivision governed by an elected six-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units- The component unit columns in the financial statements include the financial data of the County's discretely presented component units. The component units are reported in a separate column to emphasize that they are legally separate from the County.

The <u>Carroll County School Board</u> operates the elementary and secondary public schools in the County. School Board members are elected by popular vote. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue separate financial statements.

The <u>Carroll County Public Service Authority</u> provides water and sewer service to County residents. The <u>Public Service Authority</u> is fiscally dependent upon the County because the County significantly funds Authority operations. In addition, the County Board appoints the <u>Public Service Authority</u>'s Board. A copy of the <u>Public Service Authority</u>'s report can be obtained from the <u>Public Service Authority</u>.

The <u>Carroll County Industrial Development Authority</u> promotes industrial development in the County. The Authority is fiscally dependent upon the County. In addition, the Authority's Board is appointed by the County Board of Supervisors. A copy of the Industrial Development Authority's report can be obtained from the Industrial Development Authority.

Related Organizations - The County Board appoints board members to outside organizations, but the County's accountability for these organizations do not extend beyond making the appointments.

Note 1-Summary of Significant Accounting Policies: (continued)

A. Financial Reporting Entity (continued)

Jointly Governed Organizations:

The County along with the Counties of Wythe, Bland, Grayson, Smyth and the City of Galax participate in supporting the Mt. Rogers Community Services Board. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. For the fiscal year ended June 30, 2016, the County contributed \$130,500 to the Community Services Board.

The County along with the City of Galax participates in supporting the Galax-Carroll Regional Library. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. For the fiscal year ended June 30, 2016, the County contributed \$312,634 to the Library.

The County along with the County of Grayson and the City of Galax participate in supporting the Carroll-Grayson-Galax Regional Solid Waste Authority through user charges. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions.

The County along with the County of Grayson and the City of Galax participate in supporting the Twin Counties E-911 Program. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. Payments to the program totaled \$374,154 for the fiscal year ended June 30, 2016.

The County along with the Counties of Bland, Floyd, Giles, Grayson, and Wythe and the City of Radford participate in supporting the New River Valley Regional Jail Authority. The monthly payment made by the County to the Regional Jail is based on the number of prisoners housed for the County. For the year ended June 30, 2016, the County paid \$1,495,131 for the confinement of prisoners.

B. Government-wide and fund financial statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from the legally separate *component units* for which the primary government is financially accountable.

Note 1-Summary of Significant Accounting Policies: (continued)

B. Government-wide and fund financial statements (continued)

The Statement of Net Position is designed to display financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide statement of net position and will report depreciation expense - the cost of "using up" capital assets - in the statement of activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The County reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. Certain funds have been merged with the general fund for financial reporting purposes only.

The *School Construction Fund* is the County's only major capital projects fund. It accounts for and reports financial resources to be used for the acquisition or construction of major capital facilities of the school board.

The County reports the following major enterprise fund:

The *Gas Utilities Fund* accounts for activities related to the sales of natural gas and related expenses. During fiscal year 2016, the County sold the natural gas system. As such, the Gas Utilities Fund was closed.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Additionally, the County reports the following fund types:

Fiduciary funds (Trust and Agency Funds) account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. The Special Welfare, Twin County Airport, Performance Bond Escrow, County Flexible Spending Arrangement and School Board Flexible Spending Arrangement Funds are reported as agency funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance:
 - 1. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and Collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act").

2. Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

3. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. the noncurrent portion of interfund loans).

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

4. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of December 6th. Real estate taxes are payable on December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

5. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$1,128,730 at June 30, 2016 and is comprised solely of property taxes.

6. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

7. Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

8. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	20-40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30

9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is comprised of certain items related to the measurement of the net pension liability. These include differences between expected and actual experience, change in assumptions, the net difference between projected and actual earnings on pension plan investments and contributions to the pension plan made during the current year and subsequent to the net pension liability measurement date, which will be recognized as a reduction of the net pension liability next fiscal year. For more detailed information on these items, reference the pension note.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

8. Deferred Outflows/Inflows of Resources (continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. These amounts are comprised of uncollected property taxes due prior to June 30 and amounts prepaid on installments due after year-end and are deferred and recognized as an inflow of resources in the period that the amounts become available. Under the accrual basis, amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments and changes in proportion and differences between employer contributions and proportionate share of contributions. For more detailed information on these items, reference the pension note.

9. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of GASB 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement Plan and the additions to/deductions from the County's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

11. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

12. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

13. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

14. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaid expenditures) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

The Board of Supervisors is the County's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is an action by the Board of Supervisors.

The County has not delegated authority to assign fund balance to anyone other than itself as of June 30, 2016.

The County has designated unassigned fund balance into three categories. Unassigned for fiscal stability fund balance represents the funds designated for fiscal cash liquidity purposes (i.e. fiscal reserve) that will provide for sufficient cash flow to minimize the potential of short term tax anticipation borrowing. This amount shall be equal to but not less than 12% of the combined budgeted expenditures of the County General fund and the Carroll County School Board Operating Fund, net of the County's local share contribution to the School Board. The County must approve and adopt a plan to restore the fiscal stability fund balance to the target level within 24 months of falling below the threshold of 12%. Unassigned for grants fund balance represents the funds designated for grant matching and cash flow. This amount shall be equal to but not less than 2.5% of the budgeted expenditures of the County General Fund. Unassigned fund balance-no specification represents the funds available for increasing committed fund balances, assigning fund balances, increasing the unassigned for fiscal stability or unassigned for grants fund balances, purchase of capital items, or for use as beginning cash balance in support of the annual budget.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, deferred outflows/inflows of resources, liabilities, and net position/fund balance: (continued)

14. Fund Equity (continued)

The County considers restricted fund balance to be spent when an expenditure is incurred for purposes for which restricted and unassigned, assigned, or committed fund balances are available, unless prohibited by legal documents or contracts. When an expenditure is incurred for purposes for which committed, assigned or unassigned amounts are available, the County considers committed fund balance to be spent first, then assigned fund balance, and lastly unassigned fund balance.

Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to April 1st, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. All non-fiduciary funds have legally adopted budgets.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, and the General Capital Projects Funds. The School Fund and School Construction Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.

Note 2-Stewardship, Compliance, and Accountability: (continued)

A. Budgetary information (continued)

8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the County's accounting system.

B. Deficit fund equity

At June 30, 2016, there were no funds with deficit fund equity.

C. Appropriations

Law Library had expenditures in excess of appropriations.

Note 3-Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporations (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Note 3-Deposits and Investments: (continued)

Credit Risk of Debt Securities:

The County has not adopted an investment policy for credit risk. The County's rated debt investments as of June 30, 2016 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

County's Rated Debt I	nvestme	nts' Values
Rated Debt Investments	Fair C	Quality Ratings
		AAAm
LGIP	\$	364,062

Concentration of Credit Risk:

At June 30, 2016, the County did not have any investments meeting the GASB 40 definition requiring concentration of credit risk disclosures that exceeded 5% of total investments.

External Investment Pools:

The fair value of the position in the external investment pool (Local Government Investment Pool) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP and SNAP are amortized cost basis portfolios under the provisions of GASB Statement No. 79. There are no withdrawal limitations or restrictions imposed on participants.

Interest Rate Risk:

Investment Maturities (in years)					
	Fa	ir Value	Less	than 1 year	
LGIP	\$	\$ 364,062		364,062	

Note 4-Note Receivable:

On June 29, 2014 the County issued a note receivable to the Carroll County Industrial Development Authority for \$1,000,000 for economic development activities. Repayment terms called for monthly payments in the amount of \$10,606, payable over 10 years at 5% per annum. As of June 30, 2016, the balance was \$845,274.

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Primary Government			Component Unit School Board		
<u>Local Government:</u>						
BRECEDA	\$	58,812	\$	-		
Commonwealth of Virginia:						
Local sales tax		349,937		-		
State sales tax	-			781,171		
Categorical aid-shared expenses		202,365		-		
Noncategorical aid		187,332		-		
Virginia public assistance funds		74,725		-		
Comprehensive services act		228,872		-		
Federal Government:						
Virginia public assistance funds		130,973		-		
School grants		-		1,052,085		
Totals	\$	1,233,016	\$	1,833,256		

Note 6-Interfund Transfers and Balances:

Interfund transfers and remaining balances for the year ended June 30, 2016, consisted of the following:

Fund	Transfers In		Tra	nsfers Out
Primary Government:				
General Fund - modified accrual	\$	-	\$	29,107
General Fund - full accrual		-		85,366
Gas Utilities Fund		114,473		-
Total	\$	114,473	\$	114,473

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 7-Interfund/Component-Unit Obligations:

Fund	Go	e to Primary overnment/ oponent Unit_	Due from Primary Government/ Component Unit		
Primary Government: General Fund	\$	\$ -		2,787,586	
Component Unit - School Board: School Operating Fund		2,042,716		-	
Component Unit - Public Service Authority: PSA		744,870			
Totals	\$	2,787,586	\$	2,787,586	

Note 8-Long-Term Obligations:

Primary Government - Governmental Activities Indebtedness:

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2016:

	Balance	Increases/	Decreases/	Balance
	June 30, 2015	Issuances	Retirements	June 30, 2016
General obligation bonds Unamortized bond premium Unamortized bond discount Literary loans Lease revenue bonds Capital lease Compensated absences	\$ 25,896,112	\$ -	\$ (2,958,168)	\$ 22,937,944
	248,376	-	(58,129)	190,247
	(87,751)	-	7,312	(80,439)
	4,443,163	-	(680,167)	3,762,996
	11,569,779	69,912	(260,655)	11,379,036
	-	506,969	(16,946)	490,023
	927,645	642,588	(695,734)	874,499
Net pension liability	4,150,897	3,035,358	(2,068,684)	5,117,571
Total	\$ 47,148,221	\$ 4,254,827	\$ (6,731,171)	\$ 44,671,877

Note 8-Long-Term Obligations: (continued)

<u>Primary Government - Governmental Activities Indebtedness:</u> (continued)

Annual requirements to amortize long-term debt and related interest are as follows:

Year Ending	General Obli	General Obligation Bonds		Loans	Lease Revenue Bonds			
June 30,	Principal	Interest	Principal	Interest	Principal	Interest		
2017	\$ 2,662,889	\$ 1,117,784	\$ 680,167	\$ 75,260	\$ 253,632	\$ 414,546		
2018	2,667,906	1,040,620	680,167	61,657	273,062	420,972

^{*}VPSA (Virginia Public School Authority), QSCB (ARRA-Qualified School Construction Bond)

Note 8-Long-Term Obligations: (continued)

Primary Government - Governmental Activities Indebtedness: (continued)

The 2011 issuance of the ARRA funded Qualified School Construction Bond contains a face interest rate of 4.50%. However, it contains a federal tax credit resulting in federal revenue to offset the entire interest payment. Therefore, the effective interest rate is 0.00%. However, for fiscal year 2016, the sequester reduction rate was 6.80%.

For financial reporting purposes the lease purchase agreements are treated as revenue bonds of the County as title to the property has passed to the County. The Industrial Development Authority acts as a conduit for these obligations and does not retain the asset or related liability.

Note 11-Pension Plan:

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of the public school divisions are automatically covered by the VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. However, several entities whose financial information is not included in the primary government report, participate in the VRS plan through County of Carroll, Virginia and the participating entities report their proportionate information on the basis of a cost-sharing plan.

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system).

Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members") • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
About Plan 1 (Cont.)	About Plan 2 (Cont.)	About the Hybrid Retirement Plan (Cont.) The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.	
Eligible Members Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013. Hybrid Opt-In Election VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.	Eligible Members Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013. Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.	Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes: • Political subdivision employees* • School division employees • Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
Hybrid Opt-In Election (Cont.) The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.	Hybrid Opt-In Election (Cont.) The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.	*Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan. They include: • Political subdivision employees who are covered	
If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.	If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.	by enhanced benefits for hazardous duty employees. Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.	
Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016.	Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.	Creditable Service Same as Plan 1.	Creditable Service Defined Benefit Component: Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit. Defined Contributions Component: Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.	Vesting Same as Plan 1.	Vesting Defined Benefit Component: Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component. Defined Contributions Component: Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make.	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
Vesting (Cont.)	Vesting (Cont.)	Vesting (Cont.) Defined Contributions Component: (Cont.) Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service. • After two years, a member is 50% vested and may withdraw 50% of employer contributions. • After three years, a member is 75% vested and may withdraw 75% of employer contributions. • After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. Distribution is not required by law until age 70½.	
Calculating the Benefit The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.	Calculating the Benefit See definition under Plan 1.	Calculating the Benefit Defined Benefit Component: See definition under Plan 1	

Note 11-Pension Plan: (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)

When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.	Purchase of Prior Service Same as Plan 1.	Purchase of Prior Service Defined Benefit Component: Same as Plan 1, with the following exceptions: •Hybrid Retirement Plan members are ineligible for ported service. •The cost for purchasing refunded service is the higher of 4% of creditable compensation or average final compensation. •Plan members have one year from their date of hire or return from leave to purchase all but refunded prior service at approximate normal cost. After that one-year period, the rate for most categories of service will change to actuarial cost. Defined Contribution Component: Not applicable.					

Note 11-Pension Plan: (continued)

Plan Description (continued)

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The County's contractually required contribution rate for the year ended June 30, 2016 was 12.17% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$770,617 and \$762,325 for the years ended June 30, 2016 and June 30, 2015, respectively.

The Component Unit Public Service Authority's (PSA) contractually required contribution rate for the year ended June 30, 2015 was 12.17% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit PSA were \$76,159 and \$75,339 for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability

At June 30, 2016, the County reported a liability of \$5,117,571 for its proportionate share of the net pension liability. The County's net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015. In order to allocate the net pension liability to all employers included in the plan, the County is required to determine its proportionate share of the net pension liability.

COUNTY OF CARROLL, VIRGINIA

Notes to Financial Statements (Continued) June 30, 2016

Note 11-Pension Plan: (continued)

Net Pension Liability (continued)

Contributions as of June 30, 2016 was used as a basis for allocation to determine the County's proportionate share of the net pension liability. At June 30, 2015 and 2014, the County's proportion was 83.7951%.

At June 30, 2016, the Authority reported a liability of \$505,758 for its proportionate share of the net pension liability. The Authority's net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015. The Authority's proportionate share of the same was calculated using creditable compensation as of June 30, 2015 and 2014 as a basis for allocation. At June 30, 2015 and 2014, the Authority's proportion was 8.2813%.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Carroll County's Retirement Plan and the Carroll County School Board Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation 2.5%

Salary increases, including inflation 3.5% - 5.35%

Investment rate of return 7.0%, net of pension plan investment

expense, including inflation*

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Note 11-Pension Plan: (continued)

Actuarial Assumptions - General Employees (continued)

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Note 11-Pension Plan: (continued)

Actuarial Assumptions - Public Safety Employees

The total pension liability for Public Safety employees in the Carroll County's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation 2.5%

Salary increases, including inflation 3.5% - 4.75%

Investment rate of return 7.0%, net of pension plan investment

expense, including inflation*

Mortality rates: 60% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

All Others (Non 10 Largest) - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

COUNTY OF CARROLL, VIRGINIA

Notes to Financial Statements (Continued) June 30, 2016

Note 11-Pension Plan: (continued)

Actuarial Assumptions - Public Safety Employees (continued)

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Note 11-Pension Plan: (continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

			Weighted
		Arithmetic	Average
		Long-Term	Long-Term
	Target	Expected	Expected
Asset Class (Strategy)	Allocation	Rate of Return	Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
		Inflation	2.50%
	*Expected arithme	tic nominal return	8.33%

^{*} Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

Note 11-Pension Plan: (continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Carroll County Retirement Plan, Carroll County School Board Retirement Plan, and the VRS Teacher Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's and Component Unit PSA's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's and Component Unit PSA's proportionate shares of the net pension liability using the discount rate of 7.00%, as well as what the County's and Component Unit PSA's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate					
		(6.00%)		(7.00%)		(8.00%)
County's proportionate share of the County Retirement Plan Net Pension Liability	\$	8,700,364	\$	5,117,571	\$	2,143,451
Component Unit Public Service Authority Net Pension Liability	ς.	859,839	ς	505,758	\$	211,833

Note 11-Pension Plan: (continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the County and Component Unit PSA recognized pension expense of \$531,947 and \$52,571, respectively. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, the County and Component Unit PSA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

						Component Unit- Public			
		Primary G	٥Ó	ernment/		Service Authority			
	_	Deferred		Deferred	erred Deferred		Deferred		
		Outflows of	Outflows of Inflows of		Outflows of		Inflows of		
	_	Resources	_	Resources		Resources	Resources		
Differences between expected and actual experience Net difference between projected and actual	\$	384,604	\$	-	\$	38,011 \$	-		
earnings on pension plan investments		-		576,011		-	56,926		
Employer contributions subsequent to the measurement date	_	770,617	_	-		76,159			
Total	\$_	1,155,221	\$_	576,011	\$	114,170 \$	56,926		

\$770,617 and \$76,159 reported as deferred outflows of resources related to pensions resulting from the County's and Component Unit PSA's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	Primary Government		Public Service Authority
2016	 \$	(110,231) \$	(10,894)
2017	•	(110,231)	(10,894)
2018		(110,230)	(10,894)
2019		139,285	13,767

<u>Component Unit School Board (nonprofessional)</u>

Plan Description

Additional information related to the plan description, plan contribution requirements, actuarial assumptions, long-term expected rate of return, and discount rate is included in the first section of this note.

Employees Covered by Benefit Terms

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Component Unit School Board Nonprofessional
Inactive members or their beneficiaries currently receiving benefits	88
Inactive members: Vested inactive members	7
Non-vested inactive members	10
Inactive members active elsewhere in VRS	11
Total inactive members	28
Active members	132
Total covered employees	248

Contributions

The Component Unit School Board's contractually required contribution rate for nonprofessional employees for the year ended June 30, 2016 was 9.78% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

Note 11-Pension Plan: (continued)

Component Unit School Board (nonprofessional) (continued)

Contributions (continued)

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$241,165 and \$239,595 for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability

The Component Unit School Board's (nonprofessional) net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Component Unit School Board (professional)

Plan Description

Additional information related to the plan description, plan contribution requirements, long-term expected rate of return, and discount rate is included in the first section of this note.

Contributions

Each School Division's contractually required contribution rate for the year ended June 30, 2016 was 14.06% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013 adjusted for the transfer in June 2015 of \$192,884,000 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarial rate for the Teacher Retirement Plan was 18.20%, however, it was reduced to 17.64% as a result of the transfer. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of \$51.1-145 of the Code of Virginia, as amended the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2016. Contributions to the pension plan from the School Board were \$2,844,000 and \$2,933,000 for the years ended June 30, 2016 and June 30, 2015, respectively.

Note 11-Pension Plan: (continued)

Component Unit School Board (professional) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the school division reported a liability of \$34,245,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2015 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2015, the school division's proportion was 0.27208% as compared to 0.27458% at June 30, 2014.

For the year ended June 30, 2016, the school division recognized pension expense of \$2,851,000. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$	-	\$ 472,000
Net difference between projected and actual earnings on pension plan investments		-	2,097,000
Changes in proportion and differences between employer contributions and proportionate share of contributions		93,000	284,000
Employer contributions subsequent to the measurement date	_	2,844,000	
Total	\$	2,937,000	\$ 2,853,000

Note 11-Pension Plan: (continued)

Component Unit School Board (professional) (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

\$2,844,000 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2017	\$ (972,000)
2018	(972,000)
2019	(972,000)
2020	237,000
Thereafter	(81,000)

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.95%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Note 11-Pension Plan: (continued)

Component Unit School Board (professional) (continued)

Actuarial Assumptions (continued)

Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females set back 5 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 3 years

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate					
_	(6.00%)	(7.00%)	(8.00%)			
School division's proportionate share of the VRS Teacher Employee Retirement Plan						
Net Pension Liability (Asset)	50,114,306	34,245,000	21,181,198			

Note 11-Pension Plan: (continued)

Component Unit School Board (professional) (continued)

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Governmental activities capital assets, net	\$ 5,833,675	\$	(44,659)	\$	-	\$ 5,789,016

Note 13-Other Postemployment Benefits - Health Insurance:

From an accrual accounting perspective, the cost of postemployment health care benefits (OPEB), like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in future years when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the School Board recognizes the cost of postemployment health care in the year when the employee services are rendered, reports the accumulating liability, and provides information useful in assessing potential demands on the County's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Component Unit: School Board

A. Plan Description

The School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees of the School Board and their dependents in the health insurance programs available to School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the School Board. An eligible School Board retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 10 years of service with the School Board and the employee must be eligible to retire from the School Board under the Virginia Retirement System. The benefits, employee contributions and the employer contributions are governed by the School Board and can be amended through School Board action. The Plan does not issue a publicly available financial report.

B. Funding Policy

The School Board currently pays for post-retirement health care benefits on a pay-as-you-go basis. The School Board currently has 633 employees that are eligible for the program. In addition, for retirees of the School Board, 100 percent of premiums are the responsibility of the retiree. The rates were as follows at July 1, 2014:

Participants	Key Advantag	ge 250 K	Key Advantage 500		
Single	\$	680 \$	627		
Dual		1,258	1,160		
Family		1,836	1,693		

The Board is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed twenty nine years.

Note 13-Other Postemployment Benefits - Health Insurance: (continued)

Component Unit: School Board (continued)

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other post employment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if pain on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the School Board's net OPEB obligation to the plan.

Annual required contribution	\$ 443,000
Interest on net OPEB obligation	92,800
Adjustment to annual required contribution	(96,600)
Annual OPEB cost (expense)	\$ 439,200
Contributions made	253,900
Increase in net OPEB obligation	\$ 185,300
Net OPEB obligation - beginning of year	2,320,014
Net OPEB obligation - ending of year	\$ 2,505,314

The Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the two preceding years were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB Cost	Net OPEB
Year Ended	OPEB Cost	Contributed	Obligation
6/30/2014	404,200	56%	2,119,214
6/30/2015	425,900	53%	2,320,014
6/30/2016	439,200	58%	2,505,314

D. Funded Status and Funding Progress

The funded status of the Plan as of July 1, 2014, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 4,980,900
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 4,980,900
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (active plan members)	\$ 22,205,000
UAAL as a percentage of covered payroll	22.43%

Note 13-Other Postemployment Benefits - Health Insurance: (continued)

Component Unit: School Board (continued)

D. Funded Status and Funding Progress (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2014, the most recent actuarial valuation date, the projected unit of credit actuarial cost method was used. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility. The actuarial assumptions included: inflation at 2.5%, and investment rate of return at 4%, and a health care trend rate of 8.50% decreasing 0.50% per year until an ultimate rate of 5.00% is reached. The UAAL is being amortized as a level percentage over the remaining amortization period, which at July 1, 2014, was 30 years.

Note 14-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit:

Nonprofessional Employees - Discretely Presented Component Unit School Board

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

Note 14-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit: (continued)

A. Plan Description (continued)

An employee of the School Board, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 11.

B. Funding Policy

As a participating local political subdivision, the School Board is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2016 was 0.84% of annual covered payroll.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The School Board is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2016, the School Board's contribution of \$20,858 was equal to the ARC and OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the two preceding years are as follows:

	Fiscal	Annual	Percentage	Net
	Year	OPEB	of ARC	OPEB
Component Unit:	Ending	Cost (ARC)	Contributed	Obligation
School Board	6/30/2014 \$	12,597	100.00%	\$ -
	6/30/2015	20,691	100.00%	-
	6/30/2016	20.858	100.00%	_

Note 14-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit: (continued)

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2015, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 291,928
Actuarial value of plan assets	\$ (21,547)
Unfunded actuarial accrued liability (UAAL)	\$ 313,475
Funded ratio (actuarial value of plan assets/AAL	-7.38%
Covered payroll (active plan members)	\$ 2,435,872
UAAL as a percentage of covered payroll	12.87%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.00% investment rate of return, compounded annually, including an inflation component of 2.50%, and a payroll growth rate of 3.00%. The UAAL is being amortized as a level percentage of payrolls on an open basis. The remaining open amortization period at June 30, 2015 was 19-28 years.

The Retiree Health Insurance Credit benefit is based on a member's employer eligibility and his or her years of service. The monthly maximum credit amount cannot exceed the member's actual health insurance premium costs. The actuarial valuation for this plan assumes the maximum credit is payable for each eligible member. Since this benefit is a flat dollar amount multiplied by years of service and the maximum benefit is assumed, no assumption relating to healthcare cost trend rates is needed or applied.

Note 14-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit: (continued)

Professional Employees - Discretely Presented Component Unit School Board

A. Plan Description

The School Board participates in Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. Contribution rates were 1.06%, 1.06%, and 1.11%, of annual covered payroll for the years ending June 30, 2016, 2015, and 2014, respectively. The School Board's contributions to VRS for the years ending June 30, 2016, 2015, and 2014 were \$215,104, \$214,298, and \$217,987, respectively and equaled the required contributions for each year.

Note 15-Risk Management:

The County and its component unit - School Board are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component unit - School Board participate with other localities in a public entity risk pool for their coverage of general liability, property, crime and auto insurance with the VACO Insurance Program. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit - School Board pay the program contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit or depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit - School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 16-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 17-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland-Surety:	
Gerald R. Goad, Clerk of the Circuit Court	\$ 1,525,000
Bonita Williams, Treasurer	400,000
Fran A. McPherson, Commissioner of the Revenue	3,000
John B. Gardner, Sheriff	30,000

Note 18-Payroll Expenses:

All full-time employees of the Component Unit - Public Service Authority are paid through the County and the Authority reimburses the County for these expenses. Part-time employees are paid by the Public Service Authority along with any overtime pay that the Public Service Authority Board approves.

Note 19-School Board Early Retirement Incentive Program:

SunTrust administers an early retirement incentive program for the Component Unit - School Board employees. Early retirement is available to those contracted employees who are members of the Virginia Retirement System (VRS) and are eligible to retire with the VRS. The employee must have been employed with Carroll County School System for 10 consecutive years, immediately preceding retirement and must not be eligible for disability retirement benefits from the VRS and/or Social Security. Finally, participants must be approved by the School Board and must have a bona fide separation from service of at least 30 days. The program allows for several different methods of payment depending upon the number of months the participant wishes to be paid. SunTrust holds a trust account to fund these incentive payments. During fiscal year 2010, the School Board implemented an additional benefit of \$400 in health insurance premiums per month for seven years. Both programs require the employee to work for twenty days of each year to receive the benefit; therefore, there is a commitment and not a liability. Originally, twelve employees agreed to participate in the plan, creating an unfunded commitment of \$230,400. Since 2010, a number of the retirees have stopped participating. The School Board reserves the right to amend or terminate these programs. The final payment of benefits will occur in 2017.

Note 20-Deferred/Unavailable Revenue:

Deferred/unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue is comprised of the following:

		Government-wide Statements	_	Balance Sheet
Unavailable/deferred revenue Unavailable property tax revenue representing uncollected property tax billings that are not		Governmental Activities	_	Governmental Funds
available for the funding of current expenditures	\$	-	\$	3,584,467
Tax assessments due after June 30		21,875,991		21,875,991
Prepaid property taxes due after June 30 but paid in advance by taxpayers	,	79,557	_	79,557
Total unavailable/deferred revenue	\$	21,955,548	\$	25,540,015

Note 21-Litigation:

As of June 30, 2016, there were no matters of litigation involving the County which would materially affect the County's financial position should an court decisions on pending matters not be favorable.

Note 22-Adoption of Accounting Principles:

Governmental Accounting Standards Board Statement No. 79, Certain External Investment Pools and Pool Participants

The County implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. There was no material impact on the County's financial statement as a result of the implementation of Statement No. 79. All required disclosures are located in Note 3.

The remainder of this page left blank intentionally.

Note 22-Adoption of Accounting Principles: (continued)

Governmental Accounting Standards Board Statement No. 82, Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73

The County early implemented provisions of the above Statement during the fiscal year ended June 30, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. No restatement was required as a result of this implementation.

Note 23-Upcoming Pronouncements:

Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016.

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017.

Statement No. 77, *Tax Abatement Disclosures*, will increase the disclosure of tax abatement agreements to disclose information about the agreements. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015.

The remainder of this page left blank intentionally.

Note 23-Upcoming Pronouncements: (continued)

Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans, addresses a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015.

Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14, improves financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial Reporting Entity, as amended. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016.

Statement No. 81, *Irrevocable Split-Interest Agreements*, improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Current year contributions are from County records and prior year contributions are from the VRS actuarial valuation performed each year.

Schedule is intended to show information for 10 years. Prior to 2015, the PSA's information was consolidated in the County's totals and presented in the County report. Therefore, sufficient information to allocate the prior year balances is not available. Additional years will be included as they become available.

County of Carroll, Virginia Notes to Required Supplementary Information June 30, 2016

In 2015, Covered Employee Payroll (as defined by GASB 68) included the total payroll for employees covered under the pension plan whether that payroll is subject to pension coverage or not. This definition was modified in GASB Statement No. 82 and now is the payroll on which contributions to a pension plan are based. The ratios presented use the same measure.

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this was a new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2015 are not material.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Component Unit School Board - Professional Employees

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

To the Members of the Board of Supervisors County of Carroll, Virginia Hillsville, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Carroll, Virginia as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the County of Carroll, Virginia's basic financial statements and have issued our report thereon dated November 30, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Carroll, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Carroll, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Carroll, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses [2016-001].

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Carroll, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

County of Carroll, Virginia's Response to Findings

Robinson, Farner, la associates

County of Carroll, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Carroll, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Members of the Board of Supervisors County of Carroll, Virginia Hillsville, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Carroll, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Carroll, Virginia's major federal programs for the year ended June 30, 2016. County of Carroll, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Carroll, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Carroll, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County of Carroll, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, the County of Carroll, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the County of Carroll, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Carroll, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Carroll, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

County of Carroll, Virginia Schedule of Expenditures of Federal Awards (Continued) For the Year Ended June 30, 2016

Notes to Schedule of Expenditures of Federal Awards

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of County of Carroll, Virginia under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of County of Carroll, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of County of Carroll, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2016, Carroll County, Virginia had food commodities totaling \$0 in inventory.

Note 4 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government: General Fund Less: QSCB subsidy Less: Payment in lieu of taxes	\$	3,124,522 (629,100) (20,499)
Total primary government	<u>\$</u>	2,474,923
Component Unit School Board: School Operating Fund	<u>\$</u>	4,285,506
Total expenditures of federal awards per the basic financial statements	\$	6,760,429

Schedule of Findings and Questioned Costs Year Ended June 30, 2016

Section II - Financial Statement Findings

~~		~ ~	
201	16-	.()() [

Criteria: Per Statement on Auditing Standards 115, an auditee should have

sufficient controls in place to produce financial statements in accordance with applicable standards. Furthermore, reliance on the auditor to propose *adjustments* necessary to comply with reporting

standards is not a component of such controls.

Condition: The financial statements as presented for audit, did not contain all

necessary adjustments to comply with generally accepted accounting principles (GAAP). As such, the auditor proposed adjustments that were

material to the financial statements.

Cause of Condition: The County/Component Unit School Board does not have proper controls

in place to detect and correct errors in closing their year end financial

statements.

Effect of Condition: There is more than a remote likelihood that a material misstatement of

the financial statements will not be prevented or detected by the

County/School Board's internal controls over financial reporting.

Recommendation: The County/School Board should review the auditors' proposed audit

adjustments for 2016 and develop a plan to ensure the trial balances and

related schedules are accurately presented for audit.

Management's Response: This is the first year that the County and School Board has hired a

consultant to help with year-end closing. As the consultant becomes more familiar with the County/School Board's books, the adjustments

should be reduced to an amount below materiality.

Section III - Federal Award Findings and Questioned Costs

None

Section IV - Status of Prior Audit Findings and Questioned Costs

No federal findings or questioned costs in prior year.
