### INTRODUCTORY SECTION

#### Town of Vinton

311 S. Pollard Street Vinton, VA 24179 Phone (540) 983-0608 Fax (540) 985-3105

> Barry W. Thompson Finance Director/Treasurer

November 2, 2012

### To the Honorable Mayor, Members of Town Council, and Citizens of the Town of Vinton, Virginia

The Comprehensive Annual Financial Report (CAFR) for the Town of Vinton for the fiscal year ended June 30, 2012 is hereby submitted in accordance with Section 15.1-167 of the 1950 *Code of Virginia*, (1950 as amended). The *Code* requires that the Town issues an annual report on its financial accounts and records. In addition, the report must be audited. The report was prepared by the Treasurer's Office and audited independently by the accounting firm of Brown, Edwards & Company, L.L.P.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the Town of Vinton. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town's financial activities have been included.

#### The Reporting Entity and Services Provided

The financial reporting entity includes all of the funds of the primary government of the Town of Vinton, as legally defined. The reporting entity does not include legally separate entities (component units) for which a primary government is financially accountable because there are no such component units within the Town. The Town jointly operates the Roanoke Valley Resource Authority with Roanoke County and City of Roanoke. It is, however, a legally separate entity governed by a six-member multi-jurisdictional Board, one member of which represents the Town.

The Town of Vinton provides a full range of municipal services. These services include police protection, fire and first aid services, refuse and recycling functions, general public improvements, street and right-of-way maintenance, recreational and cultural activities, and planning and zoning. The Town also provides potable water distribution, wastewater collection, maintenance and service of line, meters, and other components related to its utility system. Based on the latest Water Quality Report, the water system meets all state and federal requirements administered by the Office of Drinking Water under the Virginia Department of Health. According to the 2011 Water Quality Report, the Town had no water quality violations. The Virginia Department of Environmental Quality in reported statewide recycling rates for calendar year 2011. The Town of Vinton's rate was 66.1% which ranked second out of 71 solid waste planning units in the Commonwealth.

#### **Local Economic Condition and Outlook**

The Town of Vinton is located in the southern end of the Shenandoah Valley, in the southwestern region of Virginia. Vinton is a part of the Roanoke Metropolitan Statistical Area, which includes the Cities of Roanoke and Salem and Counties of Roanoke, Botetourt, and Craig. The Town is a compact, urban area of 3.2 square miles located within eastern Roanoke County and shares a common border with the City of Roanoke. It is approximately 170 miles west of Richmond, Virginia, the State capital. The Town is a major gateway to the recreational attractions of Smith Mountain Lake and the Blue Ridge Parkway. Approximately 78.8% of the total land within the Town is developed; 50.6% for residential use, 13.8% for commercial or industrial development (within the Town industrial park and at various other locations) and 14.4% for public facility development.

Vinton is proud of its small size in relation to the surrounding dense urban areas. It has a reputation as a friendly community with much scenic charm and beauty, and is often the urban center of choice for residents in east Roanoke County and the surrounding population centers of Bedford, Botetourt, and Franklin counties.

The location of the Town provides quick and easy access from neighboring jurisdictions via US Interstates 81 and 581, U.S. Routes 460 and 220, and Virginia Routes 24 and 634. This also provides an opportunity for citizens to be able to drive to a community college, two private colleges, and two public universities in less than one hour. The Town's location also means that its economy is impacted by the economic conditions of its neighbors, and by decisions made by these larger neighboring jurisdictions.

Since the Town of Vinton is highly concerned with providing a positive atmosphere and quality of life for its citizens, it has taken an active role in various regional authorities and activities. The Town participates in economic development by being a member of the Roanoke Regional Partnership and in major festivals in community relations by funding a portion of the annual operating costs of the Roanoke Valley Regional Cable Television. The Town also participates in the Greenway Commission, the purpose of which is to identify possible greenway locations in the Roanoke Valley area.

Vinton has maintained stable property tax rates over the years, while continuing to provide high quality municipal services and responsive government. The Town Council adopted an ordinance to eliminate the vehicle decal and to enact a vehicle license fee effective January 1, 2008. This essentially was a revenue neutral action by Council.

The nearby educational institutions allow opportunities for Town citizens to receive higher education and technical training. Expansion of industry, tourist facilities, and conference centers in the region continue to enhance the reputation of the Town as a highly desirable residential area.

#### **Long-term Financial Planning**

Christopher S. Lawrence was appointed as Town Manager in September 2008. Mr. Lawrence has strong leadership and management skills and has set goals toward community and economic development. The Town's Management Team works closely with the Roanoke County Management Team to develop short-term and long-term financial goals addressing the financial stability of the Town/County endeavors.

#### **Long-term Financial Planning (Continued)**

The Town Council approved a balanced budget for the upcoming fiscal year. The budget provides for maintaining the existing levels of services provided to the Town's citizens while increasing an effort on economic development through revitalizing the downtown business area. These efforts include partnering with the Virginia Department of Housing and Community Development whereby funding may be provided for a downtown economic restructuring plan as well as a physical improvement master plan. The Town was also awarded by the Virginia Department of Housing and Community Development (VA DHCD), a Business District Revitalization Planning Grant in the amount of \$35,000. The grant enabled the Town to hire consultants to complete the Downtown Revitalization and Economic Restructuring Plans. The project involved citizens in a participatory planning process from May 2009 through September 2010. A series of meeting and surveys were held to identify community assets and opportunities in downtown Vinton. These identified economic and physical needs we're used to compile the Downtown Revitalization and Economic Restructuring Plans for Vinton and in VA DHCD Community Improvement Grant applications submitted.

The budget maintains the Cigarette Tax, which was passed two years ago at \$0.20 per pack of cigarettes. This revenue generated an additional \$296,000. Another economic benefit for the Town is the result of the marketing and branding efforts of the newly completed War Memorial Conference Center. The Town should continue to realize increased revenue from the use of this facility. It is a premier conference facility. It has a main ballroom with a seating capacity of 240 to 300 depending on the room configuration which can be converted into two rooms. There is also a smaller meeting room known as the Library on the main floor and another two smaller meeting rooms on the second floor. The facility has a modern sound system, projectors and screens, and wireless Internet. The facility is now fully ADA compliant and all floors are served by an elevator. As a part of this project, the Jaycee Ball field near the War Memorial Complex was relocated to the Vineyard Park in order to continue providing the Vinton community an adequate ball field facility. This project is in cooperation with Roanoke County through its Parks and Recreation Program in order to provide a high level of service to our citizens.

The Town continues to commit to the improvement of the highways, streets, and roads by including approximately \$218,000 for paving and milling of streets throughout the Town.

#### **Major Initiatives**

The Vinton Business Center is open for business. Cardinal Glass Industries of Minnesota is the first company located in the Vinton Business Center. It has completed its 222,000 square-foot building at an investment of approximately \$23.9 million. Currently, it is fully staffed.

There are two additional prepared sites at the Vinton Business Center which are being marketed. A picnic shelter has been completed while the Greenway Trail is planned to eventually connect with the existing Greenway System running through the Town of Vinton and east Roanoke County. A business center sign has been constructed to better identify the Vinton Business Center. This was jointly constructed by the Town of Vinton and Roanoke County at a cost of \$36,874.

In November 2003, the citizens of Vinton voted to allow operation of an off-track betting facility within the Town limits. Colonial Downs was constructed and began operations in October 2004 which has brought approximately \$30,000 of tax revenue to the Town.

#### **Major Initiatives (Continued)**

The Roanoke County Commonwealth Attorney's Office continues to represent the Town's interests in the prosecution of criminal charges. Attorney Elizabeth Dillon was re-appointed by the Town Council on July 1, 2010 to serve as counsel for the Town's other legal matters.

The Town evaluated its wastewater collection and water distribution system and as a result identified four (4) projects as vital to improve and update its safe and reliable operations. In January 2008, the Town issued bonds through VML-VACo amounting to \$2,750,000 to fund these projects. The bonds were issued to fund the water and wastewater improvement projects and are secured by pledges from the water and sewer revenues from the current utility system.

The remaining project to be completed is as follows:

- Glade Creek/Tinker Creek Wastewater Trunk Line will replace 750 foot segment of 18-inch wastewater trunk line and install new manholes along new alignment. The new alignment will locate replacement line away from creek within existing right-of-way. The segment of existing line to be replaced is in severely deteriorated condition and needs to be replaced immediately.
- The town and the County of Roanoke entered into an agreement pursuant to the acquisition of real estate at 304 Pollard Street in the downtown corridor for the construction of a future Roanoke County Public Library. The town's portion of the \$1,255,000 real estate transaction was \$625,000. The town agreed to pay \$100,000 at closing with the balance of \$525,000 paid over a period of ten (10) annual installments.

The Town continues to update with the County of Roanoke the Real Estate Tax and Appraisal and Personal Property Tax Software and billing has been successfully implemented. Roanoke County/Town of Vinton also has implemented and continues to update an Appraisal System. DMV imports have been automated and set-off debts have been automated and have improved delinquent collections. In January 2012, the Town has implemented an agreement with ACS Enterprise, Inc. for Application Hosting and Technology Support Systems and Services for the Financial Applications. They provide the Town with Technical Support, continuous software updating on the financial applications, and a disaster recovery plan in the event of some unforeseen emergency.

#### **Prospects for the Future**

Comprehensive Plan – The twenty-year Comprehensive Plan for the Town's economic and community development was adopted in September 2004. This plan which serves as the blue print for the Town's direction regarding land use, capital development, and economic progress is continuously being reviewed and updated, as needed.

**Façade Improvement Program** – The Façade Improvement program was envisioned from recommendations during the Vinton Comprehensive Planning process, which was adopted by Town Council in 2004. The Program provides financial assistance to small businesses, within an identified Downtown area, that wish to improve their property. The grants available under this program range from \$500 to \$5,000. The program provides a 50% reimbursement of qualified expenses, which include façade and other general property improvements undertaken in accordance with the established design guidelines for exterior improvements only and address architecture, signage, landscaping, walls, lighting, veneers, and awnings. Ten buildings in downtown Vinton have been updated using the façade grant program.

**Vinton Area Corridors Plan** – The Vinton Area Corridors Plan's purpose is to provide data and information for the Town of Vinton, Roanoke County, and the Virginia Department of Transportation (VDOT) to use in land use and transportation planning. The Town, with a population approaching 8,000 and a land mass slightly larger than 3 square miles is a

diversifying urban area striving to sustain its distinctive small-town charm within the greater Roanoke Valley. The study area is comprised of 7.5 miles of corridors that traverse through the Town of Vinton and eastern Roanoke County. The Plan contains a number of implementation strategies that are to be completed over the next 20 years and are grouped by project names, timeframes, and responsible parties.

#### **Accounting System and Budgetary Controls**

The Town's accounting records for governmental fund type operations are maintained on a modified accrual basis with revenues being recorded when available and measurable, and expenditures being recorded when services or goods are received and fund liabilities are incurred. Accounting records for proprietary fund types are maintained on the accrual basis with revenues and expenses being recorded when earned or incurred.

In developing or modifying the Town's accounting system, consideration is given to the adequacy of internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding: (a) the safeguarding of assets against loss from unauthorized use or disposition, and (b) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that: (a) the cost of a control should not exceed the benefits likely to be derived, and (b) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. The Town's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the department or function level by the adoption of an annual, accrual plus encumbrances basis budget for both the General and Enterprise Funds. The budgetary controls are designed to ensure compliance with legal restrictions on expenditures as established by the Town Council. Only the Council can revise appropriations. Year-end outstanding encumbrances are reported as a reserve of fund balance and re-appropriated in the subsequent year.

#### **Cash Management**

The Town uses a pooled cash concept to allow greater investment flexibility and consequently a better return on investments. Cash from all funds is pooled for investment purposes in the Commonwealth of Virginia's Local Government Investment Pool and in Certificates of Deposit. The Town's checking account is an interest bearing public fund demand deposit account earning interest rates tied to the 90-day US T-Bill.

#### Risk Management

The Town's various property and liability insurance coverage is provided by Virginia Municipal League Insurance Programs. The annual insurance costs are allocated to specific departments and funds based on assigned equipment, number of personnel, building usage, and other equitable cost estimates.

#### **Independent Audit**

Virginia law requires that the financial statements of the Town be audited by a Certified Public Accountant (or alternatively, by the Auditor of Public Accounts) selected by the Town Council. Brown, Edwards & Company, L.L.P., has performed an annual audit of the Comprehensive Annual Financial Report. Their audit was conducted in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audit of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. The auditor's report, which includes their opinion on the financial statements of the Town, is contained in this report on page one of the Financial Section. Other auditor's reports are included in the Compliance Section.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditors.

#### **Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial reporting to the Town for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2011. The Certificate of Achievement is a national award that recognizes conformance with the highest standards for preparation of government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which must conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Town of Vinton has received a Certificate of Achievement for the past eleven fiscal years. We believe our current report continues to conform with the Certificate of Achievement Program requirements, thus, this report is being submitted to GFOA.

The Town Manager has also established a goal for the budget document to be reevaluated as a budgeting and communication tool. The GFOA budget document standards are being used as a model for improving the budget document.

#### Acknowledgements

The preparation of this report was made possible through the diligent effort of the Treasurer/Finance Office with the support of all departments. Appreciation is expressed to the members of the Town Council for their interest in the preparation of the Town of Vinton's comprehensive annual financial report and to the Town's independent auditing firm, Brown, Edwards & Company, L.L.P. for their cooperation and input in this work.

Respectfully submitted,	
Christopher S. Lawrence	Barry W. Thompson
Town Manager	Treasurer/Finance Director

### FINANCIAL SECTION

#### INDEPENDENT AUDITOR'S REPORT

Honorable Members of Town Council Town of Vinton, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Vinton, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year partial comparative information has been derived from the Town's 2011 financial statements and, in our report dated November 3, 2011, we expressed unqualified opinions on the respective financial statements of the governmental activities, the business-type activities, and each major fund.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2012 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Analysis of Funding Progress for Defined Benefit Pension Plan, and Analysis of Funding Progress for Other Postemployment Benefits be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Town's basic financial statements. The introductory section and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**CERTIFIED PUBLIC ACCOUNTANTS** 

Brown, Edwards Company, S. L. P.

Roanoke, Virginia November 2, 2012

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Vinton, Virginia (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i through vi of this report.

#### Financial Highlights

- The total assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$13,070,665 (net assets). Of this amount, \$2,312,382 (unrestricted net assets) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net assets decreased by \$438,490. This decrease is largely due to the total expenses of \$11,042,245 being more than the total revenues of \$10,603,755. However, an increase of \$527,241 (11.7%) in current and other assets occurred. Additionally, capital assets decreased by \$1,241,851 (5.6%) in capital assets with the final result being a drop of 2.7% in total assets.

On the other hand, long-term liabilities decreased by \$157,393 (1.4%) while other liabilities fell by \$118,727 (8.2%), thus causing a favorable effect on the total net assets.

The final result of all these effects is a 3.2% decrease in net assets.

- As of the close of the current fiscal year, the Town's governmental fund reported an ending fund balance of \$2,664,761, an increase of \$929,360 in comparison with the prior year. This is largely due to an increase of \$825,944 (26.7%) in total assets particularly due from cash and cash equivalents. In addition to this positive effect, total liabilities decreased by \$103,416 (7.6%) in particular accrued payroll and related liabilities.
- Approximately 97% of the ending fund balance, \$2,584,947 is available for spending at the Town's discretion (unassigned fund balance), and represents 36.5% of the governmental fund's expenditures.
- The Town's total long-term liabilities decreased by \$157,393 (1.4%) during the current fiscal year. This decrease is largely due to the regular payment on bonds and capital lease.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Overview of the Financial Statements (Continued)**

**Government-wide Financial Statements** – The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, community development, and parks, recreation, and cultural. The business-type activity of the Town is the water and sewer department.

**Fund Financial Statements** – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary Funds** – The Town maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses an enterprise fund to account for its Water and Sewer Department.

#### **Overview of the Financial Statements (Continued)**

**Proprietary Funds (Continued)** – *Proprietary funds* provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Department.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statement.

**Other Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Town's funding progress for the defined benefit pension plan.

#### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$13,070,665 at the close of the most recent fiscal year.

By far the largest portion of the Town's net assets (82.3%) reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities

Unrestricted net assets of \$2,312,382 may be used to meet the Town's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in all three categories of net assets, both for the government as a whole, and for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

#### **Government-wide Financial Analysis (Continued)**

**Governmental activities** – Governmental activities increased the Town's net assets by \$64,137. The key elements of this increase are an increase in transfers in of \$500,000 (100%).

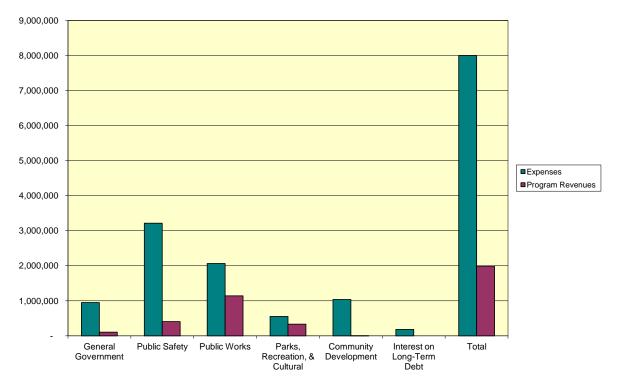

For the most part, revenues closely paralleled inflation and conditions represented in the economy and growth in the demand for services. Revenues from operating grants and contributions showed a major decrease due to not receiving VDOT revenue sharing which was a significant amount in the prior year. Investment earnings also showed a decline because of a very low interest rate coupled with the declining investments and bond proceeds. However, there was an increase in gain sharing revenue due to business growth in the area.

The Town's Changes in Net Assets

#### **Government-wide Financial Analysis (Continued)**

#### Expenses and Program Revenues - Governmental Activities

#### Revenues by Source – Governmental Activities

**Business-type activities** – Business-type activities decreased the Town's net assets by \$502,627. This decrease is largely due to the increase in transfers by \$500,000 (100%). There were no capital grants and contributions received this fiscal year.

#### Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** – The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental fund reported combined ending fund balances of \$2,664,761, an increase of \$929,360 in comparison with the prior year. This is largely due to an increase in total of assets totaling \$825,944 (26.7%) particularly an increase by cash and cash equivalents by \$939,489 (40.8%). In addition to this favorable effect, accounts payable, accrued payroll and related liabilities decreased by \$68,421 (13.2%).

**Proprietary funds** – The Town's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water and Sewer Department at the end of the year amounted to \$339,523. Factors concerning the finances of this fund have already been addressed in the discussion of the Town's business-type activities.

#### **General Fund Budgetary Highlights**

Differences between the original budget and the final amended budget for revenues were \$54,592 primarily due to an increase on Categorical Aid by \$47,896, or 4.4%.

Differences between the original budget and the final amended budget for expenditures were \$174,692. These differences are primarily due to minimal increases on expenses for public safety; public works; community development; and capital projects.

There were multiple significant variances between the final budget and the actual final results for the year. They can be briefly summarized as follows:

Some revenue forecasts in the governmental fund were not significantly realized. Current personal property tax collection was 89.5% of the budget due to budgeting too high and collections being lower on current property taxes while tax on public utilities was budgeted too high. Fines and forfeitures had a variance of 32.2% due to decreased court fines. Charges for services had a variance of 9.0% due to decreases in rental of senior center, memorial hall income, and fee for transport. Other income expectations were significantly met.

On the other hand, there were also favorable variances on certain expenses. These were due to a concerted effort to control and minimize expenditures.

Significant variances in the enterprise fund are in the bulk water sales, water and sewer service billing, and recoveries and rebates. Revenue realized from bulk sale was 15% below the budget due to consumption whereas revenue from water and sewer service billing was short by 2% due to decreased consumption as well. No recoveries or rebates were received during the year. These negative variances were partially offset by a 35% increase in system development fees for water and sewer, a 23% increase in water/sewer penalties, and a 26% increase in Roanoke County utility taxes.

#### **General Fund Budgetary Highlights (Continued)**

The numbers of accounts with significant favorable variances in the enterprise fund are more than the unfavorable ones. Water purchased for resale was below the budget by 18% due to the corresponding decrease in the bulk water sale. Expenditures which can be held off without affecting services and operations cause positive variances on contractual services (36%), and materials and supplies (26%). Wastewater treatment cost was 12% favorably below the budget because the projection was based on higher treatment cost which turned out to be relatively the same as last year. The favorable variance in the salaries and wage category in water was offset by the unfavorable salaries and wage category in sewer due to different actual cost allocation for expenditures than the budget. The favorable variance of 14% in electrical services is primarily due to rebate of previous rate increase during the year. Pump houses and pumps had to be repaired thus overshooting the budget. Some necessary repairs had to be done in the wastewater system maintenance thus exceeding the allocation by 7%.

#### **Capital Asset and Debt Administration**

Capital assets – The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2012, amounts to \$20,854,884 (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems, improvements, infrastructure, machinery, and equipment. The total decrease in the Town's investment in capital assets for the current fiscal year was 5.62% (a 6.24% decrease for governmental activities and a 5.05% decrease for business-type activities). Additional information on the Town's capital assets can be found in Note 5 of this report.

#### **Capital Asset and Debt Administration (Continued)**

**Long-term debt** – At the end of the current fiscal year, the Town had total debt outstanding of \$10,935,222. Of this amount, \$7,125,222 comprises debt backed by the full faith and credit of the government, \$3,810,000 is related to revenue bond obligations.

The Town's Outstanding Debt General Obligation and Capital Leases

				Gener	aı	Obligation	ı a	nu Capitai	L	Leases			
	Governmental Activities				Busine Acti				Total				
		2012		2011		2012	-	2011		2012		2011	
General obligation bonds	\$	2,700,000	\$	2,845,000	\$	3,950,222	\$	4,258,808	\$	6,650,222	\$	7,103,808	
Revenue bonds		1,360,000		1,435,000		2,450,000		2,555,000		3,810,000		3,990,000	
Other obligations		475,000		-		-		-		475,000		-	
Capital leases	_	<u>-</u>		47,595		-		-		<u>-</u>	_	47,595	
	\$	4,535,000	\$	4,327,595	\$	6,400,222	\$	6,813,808	\$	10,935,222	\$	11,141,403	

The Town's total debt decreased by \$206,181, or 1.85%, during the fiscal year. This decrease is largely due to the principal payments on general obligation and revenue bonds amounting to \$453,586, or 66.6% and \$180,000, or 26.4% respectively. The payment of \$47,595, or 7.0% on capital lease also lowered the total debt.

Additional information on the Town's long-term debt can be found in Note 6 of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

During the current year, the Town took measures to mitigate the impact of the economic downturn. Departments were also asked to delay small capital expenditures and to monitor operating expenditures for the remainder of the fiscal year.

- The unemployment rate for Roanoke County (no statistics are available for the Town individually) as of June 30, 2012 is 5.7%, which is the same as last year's rate of 5.7%. This compares favorably to the state's average unemployment rate as of June 30, 2012 of 5.7% percent and to the national average rate of 8.2%.
- The occupancy rate of the Town's central business district has remained at 90% for the past five years.
- Inflationary trends in the region compare favorably to national indices.

During the current fiscal year, the unreserved fund balance in the general fund increased by \$929,360. The general fund remains strong with an increase in ending fund balance of \$2,664,761. It is intended that this available fund balance will be used for future needs of the Town.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department/Treasurer's Office, Town of Vinton, 311 S. Pollard Street, Vinton, Virginia 24179.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2012

	General Fund				
	2012		(For Comparison Only)		
			2011		
Net change in fund balances governmental fund Amounts reported for governmental activities in the statement of activities are different because:	\$	929,360	\$	52,216	
The net effect of the change in accrued interest expense is not reflected in the fund statements.		5,143		4,549	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation \$(753,502) exceeded capital outlays \$91,715 in the current period.		(661,787)		(700,938)	
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		54,568		1,701	
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. Also, governmental funds report issuance costs, premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of those differences.		(210,505)		257,401	
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of an increase in compensated absenses of \$(37,453) and an increase in other postemployment benefits of \$(15,189).		(52,642)		70,192	
Change in net assets of governmental activities	\$	64,137	\$	(314,879)

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 1. Summary of Significant Accounting Policies

### A. The Financial Reporting Entity

The Town of Vinton was established in 1884. It is a political subdivision of the Commonwealth of Virginia operating under the Council-Manager form of government. The Town Council consists of a mayor and four other council members. The Town is part of Roanoke County and has taxing powers subject to state-wide restrictions and tax limits.

Vinton provides a full range of municipal services including police, refuse collection, recycling, public improvements, planning and zoning, general administrative services, fire, first aid, recreation, and water and sewer services. Fire and first-aid services are supplemented by volunteer departments.

### **Jointly Governed Organizations**

### **Roanoke Valley Resource Authority:**

The Town of Vinton, Roanoke County, and the City of Roanoke jointly participate in the Roanoke Valley Resource Authority, which operates a regional solid waste disposal system that includes a sanitary landfill, waste collection, and transfer station. The Authority is governed by a board composed of seven members appointed by the governing bodies of participating jurisdictions. Town Council appoints one member. The Town has control over the budget and financing of the Authority only to the extent of representation by the board member appointed. The participating localities are each responsible for their pro-rata share, based on population, of any year-end operating deficit. For the year ended June 30, 2012, the Town remitted \$176,243 to the Authority for services. A separate financial statement can be obtained from the Roanoke Valley Resource Authority, 110 Hollins Road, NE, Roanoke, Virginia 24012.

### Roanoke Valley Regional Pound Facility:

The Counties of Roanoke and Botetourt, the City of Roanoke, the Town of Vinton, and the Roanoke Valley Society for the Prevention of Cruelty to Animals, Inc. formed the Advisory Board of the Roanoke Valley Regional Pound Facility to construct and operate a regional pound facility. The Board is composed of nine members. Each locality's financial obligation is based on the number of animals caged per day at the facility. The Town's proportionate share totaled \$39,350 for the year ended June 30, 2012. Separate financial statements are not available.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

### A. The Financial Reporting Entity (Continued)

### **Joint Venture**

### **Regional Fire Training Facility:**

The Town participates in an intergovernmental agreement with the County of Roanoke and the Cities of Roanoke and Salem for the operation of a regional fire training facility. The Roanoke Valley Regional Fire Training Academy Board is responsible for overseeing the management, operation, and administration of the Academy. Each participating jurisdiction maintains a leasehold interest in the project and shares costs of operation and maintenance equal to the jurisdiction's payment percentage as defined in the agreement. The Town's participating interest is 4%. The Town's share of the operating cost was approximately \$3,545 in the current year. Separate financial statements are not available.

### B. Individual Component Unit Disclosures

As required by generally accepted accounting principles, these financial statements present the Town as the primary government. A *component unit* is an entity for which the primary government is considered to be financially accountable. There are no component units within this reporting entity.

### C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for the governmental fund and proprietary fund.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

### D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenue as available if it is collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

The Town reports the following major governmental fund:

The *general fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The Town reports the following major proprietary fund:

The *enterprise fund* accounts for the financing of services to the general public where all or most of the operating expenses involved are intended to be recovered in the form of user charges, or where management has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for management control, accountability, or other purposes. The enterprise fund consists of the activities relating to water and sewer services.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their enterprise funds, subject to this same limitation. The Town has elected not to follow subsequent private-sector guidance.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

# D. <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### E. Budgets and Budgetary Accounting

The following procedures are used in establishing the budgetary data reflected in the financial statements:

- 1) Prior to June 30, the Town Manager submits to Council a proposed operating and capital budget for the fiscal year commencing the following July 1. This budget includes proposed expenditures and the means of financing them.
- 2) Public hearings are conducted to obtain citizen comments.
- 3) Prior to June 30, the budgets for the general and enterprise funds are legally enacted through passage of an appropriations ordinance. Town Council may, from time to time, amend the budget providing for additional expenditures and the means for financing them. Town Council approved additional general fund appropriations of approximately \$174,692 during the fiscal year ended June 30, primarily for capital projects deferred from the prior year and additional operating expenditures.
- 4) The appropriations ordinance places legal restrictions on expenditures at the department or function level. Management can over-expend at the line item level without approval of Town Council. The appropriation for each department or function can be revised only by Town Council. The Town Manager is authorized to transfer budget amounts within departments. All budget data presented in Exhibit 7 is at the legal level of budgetary control.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

### E. Budgets and Budgetary Accounting (Continued)

- 5) Formal budgetary integration is employed as a management control device during the year for the general and enterprise funds.
- 6) Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7) Appropriations lapse on June 30.
- 8) All budget data presented in the accompanying financial statements are revised as of June 30.

### F. Cash and Cash Equivalents

Cash and cash equivalents are defined as short-term, highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased.

### **G.** Allowance for Uncollectible Accounts

The Town calculates its allowance for uncollectible accounts using historical collection data and specific account analysis.

### H. Inventories

Inventories are valued at the lower of cost (first-in, first-out) or market method.

### I. Capital Assets

Capital assets, which include property, plant, and equipment, and infrastructure assets acquired subsequent to July 1, 2001, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. *Capital assets* are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

### I. Capital Assets (Continued)

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	10-40 years
Machinery and equipment	3-10 years
Utility plant	20-40 years
Public domain infrastructure	25-40 years
Sewage treatment contract	30 years

### J. Capitalization of Interest

The Town capitalizes net interest costs on funds borrowed to finance the construction of proprietary capital assets. Interest is not capitalized on the construction of assets used in governmental activities. There was \$5,778 of interest capitalized for the year ended June 30, 2012.

### **K.** Compensated Absences

The Town has policies which allow for the accumulation and vesting of limited amounts of vacation and sick leave until termination or retirement. Amounts of such absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only when the leave is due and payable.

### L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, *long-term debt* and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

#### M. Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

- Nonspendable Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.
- **Restricted** Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Amounts constrained to specific purposes by the Town, using its highest level of decision making authority; to be reported as committed, amounts cannot be used for any other purposes unless the same highest level of action is taken to remove or change the constraint.
- **Assigned** Amounts the Town intends to use for a specified purpose; intent can be expressed by the governing body.
- Unassigned Amounts that are available for any purpose; positive amounts are reported only in the general fund.

Council establishes fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. Assigned fund balance is established by Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

The Town applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### **Minimum Fund Balance Policy**

The Town does not have a minimum fund balance policy or target for the General Fund.

### N. Estimates

Management uses estimates and assumptions in preparing its financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 1.** Summary of Significant Accounting Policies (Continued)

### O. Comparative Information

The basic financial statements include certain prior year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the prior year from which the summarized information was derived.

### P. Reclassifications

Certain amounts in the prior-year comparison information have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

### Note 2. Deposits and Investments

### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

### **Investments**

### **Investment Policy:**

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, and bankers' acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Pursuant to Section 2.1-234.7 *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regulatory scheduled monthly meetings and the fair value of the position in LGIP is the same as the value of the pool shares (i.e., the LGIP maintains a stable net asset value of \$1 per share). The investment policy (the "Policy") specifies that no investment may have a maturity greater than one year from the date of purchase.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 2.** Deposits and Investments (Continued)

### **Investments (Continued)**

### Credit Risk:

As required by state statute, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following: Moody's Investors Service, Standard & Poor's, and Fitch Investors Service, provided that the issuing corporation has a net worth of at least \$50 million and its long-term debt is rated "A" or better by Moody's and Standard & Poor's. Bankers' acceptances and Certificates of Deposit maturing in less than one year must have a short-term debt rating of at least "A-1" by Standard & Poor's and "P-1" by Moody's Investors Service.

As of June 30, 100% of the portfolio was invested in "AAAm" rated securities. All credit ratings presented in this paragraph are Standard & Poor's short-term issue credit ratings.

Although the intent of the Policy is for the Town to diversify its investment portfolio to avoid incurring unreasonable risks regarding (i) security type, (ii) individual financial institution or issuing entity, and (iii) maturity, the Policy places no limit on the amount the Town may invest in any one issuer.

#### Interest Rate Risk:

As of June 30, the fair value and weighted average maturity investments were as follows:

Investment Type	Fa	air Value	Credit Rating	Weighted Average Maturity*
Virginia LGIP Money Market Funds – Wells Fargo (Heritage)	\$	603,569 316,351	AAAm AAAm	34.77 7.91
Total investments	\$	919,920		
Portfolio weighted average maturity				42.68

<sup>\*</sup> Weighted average maturity in days.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 2. Deposits and Investments (Continued)

### **Investments** (Continued)

### Custodial Credit Risk:

The Policy requires that all investment securities shall be held in safekeeping by a third-party and evidenced by safekeeping receipts. As required by the *Code of Virginia*, all security holdings with maturities over 30 days may not be held in safekeeping with the "counterparty" to the investment transaction. As of June 30, all of the Town's investments are held in a bank's trust department in the Town's name.

	_	air alue
Investments Deposits		919,920 727,636
Total deposits and investments	\$ 3,	647,556
Reconciliation of deposits and investments to Exhibit 1: Cash and cash equivalents, excluding \$4,401 cash on hand Cash and cash equivalents, restricted		314,147 333,409
Total deposits and investments	\$ 3,	647,556

Restricted cash and cash equivalents consists of \$316,341 of unused bond proceeds and \$17,068 of ATF and State seized funds that can only be used for specific purposes.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 3. Receivables

Receivables consist of the following:

	 vernmental Activities	Business-type Activities		Total	
Receivables Taxes Accounts	\$ 349,635 11,790	\$	- 584,479	\$	349,635 596,269
Gross receivables	361,425		584,479		945,904
Less allowance for uncollectibles	 117,473		71,500		188,973
Receivables, net	\$ 243,952	\$	512,979	\$	756,931

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

	<u>Ur</u>	<u>available</u>	J	J <b>nearned</b>	 Total
Included in receivables:					
Delinquent property taxes receivable	\$	79,587	\$	5,407	\$ 84,994

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities	
General government	\$ 308,103
Public safety	191,671
Public works	227,218
Parks, recreation, and cultural	 26,510
	\$ 753,502
Business-type activities	
Water and sewer	\$ 619,337

### **Construction Commitments**

The Town has no active construction projects as of June 30, 2012. The Town does have partially completed construction in progress, but there are no outstanding construction commitments related to these items. The construction in progress for governmental activities is related to design and study costs that the Town has done for future projects. The amounts in construction in progress in the water and sewer fund are engineering costs associated with the Glade-Tinker Creek Wastewater Interceptor Placement – Phase II Project. As disclosed in Note 17, the Town awarded the contract for this project on July 17, 2012 and plans to finance this project with a \$500,000 loan through VML/VACo.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 5. Capital Assets (Continued)

### **Sewage Treatment Contract**

Through its participation in an agreement with four other localities for the expansion of the regional sewage treatment plant and interceptors, the Town has contractual rights to predetermined capacity in both the plant and interceptors through 2034.

The Town is required to contribute \$66,000 annually to a capital reserve fund for ongoing maintenance of the system.

### Note 6. Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year:

Governmental Activities	Beginning Balance	 Additions	R	eductions	 Ending Balance	ue Within One Year
General obligation bonds Revenue bonds	\$ 2,845,000 1,435,000	\$ -	\$	145,000 75,000	\$ 2,700,000 1,360,000	\$ 155,000 75,000

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

#### Note 7. Defined Benefit Pension Plan

#### **Plan Description**

The Town of Vinton contributes to the Virginia Retirement System (VRS), an agent and cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System (the "System"). All full-time, salaried permanent (professional) employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit as early as age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

#### Note 7. Defined Benefit Pension Plan

### **Plan Description** (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is -0-%. The VRS also provides death and disability benefits. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

### **Funding Policy**

Plan members are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended June 30, 2012 was 13.48% of the annual covered payroll, which includes the employee contribution of 5% that the Town has elected to cover on the employee's behalf.

### **Annual Pension Cost**

For the fiscal year ended June 30, 2012, the Town's annual pension cost of \$419,249 for VRS was equal to the required and actual contributions.

### **Three-Year Trend Information**

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 7. Defined Benefit Pension Plan (Continued)

The fiscal year 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% per year for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases also included an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

### **Funded Status and Funding Progress**

As of June 30, 2011, the most recent actuarial valuation date, the plan was 85.35% funded. The actuarial accrued liability for benefits was \$14,800,513, and the actuarial value of assets was \$12,632,410, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,168,103. The covered payroll (annual payroll of active employees covered by the plan) was \$3,310,821, and the ratio of the UAAL to the covered payroll was 65.49%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

#### **Note 8.** Other Postemployment Benefits

### **Plan Description**

The Town provides postemployment medical and dental benefits to its eligible retirees and their dependents who elect to stay in the plans. At retirement, retirees under the age of 65 may participate in one of the Town's health and dental plans and may continue coverage under these plans until age 65 or becoming eligible for Medicare, whichever comes first. The Town contributes \$200 per month towards this coverage with the retiree paying the remainder of the premium. Medicare-eligible retirees may participate in the Medicare supplement only and pay 100% of the Medicare supplement premium. The retirees receive an implicit benefit from participating in the Town's health and dental plans through lower insurance rates created by the blending of the retirees with active employees rates. The Town Council may change, add, or delete benefits (including contributions required of retired employees) as deemed appropriate.

Participants are eligible for the plan at age 55 if they have completed 25 years of service. Retiring employees must have been active employees when they retire.

The plan does not provide audited financial statements.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 8.** Other Postemployment Benefits (Continued)

### **Funding Policy**

The Town currently funds postemployment benefits on a pay-as-you-go basis. The Town does not intend to establish a trust to pre-fund this liability.

### **Annual OPEB Cost and Net OPEB Obligation**

For the year ended June 30, 2012, the Town's annual OPEB cost (expense) of \$67,080 was equal to its Annual Required Contribution (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. For the year ended 2012, the Town's pay-as-you-go funding totaled \$50,219 and resulted in a Net OPEB obligation of \$43,489. The pay-as-you-go funding includes the Town's contribution towards retiree health care premiums of \$7,200, and an implicit subsidy of the retiree health care premiums created through the blending of active employee and retiree insurance rates.

Annual required contribution	\$ 67,080
Interest on net OPEB obligation	1,058
Adjustment to annual required contribution	 (882)
Annual OPEB cost Less funding	67,256 (50,219)
Less funding	 (30,219)
Increase in net OPEB obligation	17,037
Net OPEB obligation-beginning of year	 26,452
Net OPEB obligation-end of year	\$ 43,489

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012, 2011, and 2010 are as follows:

Fiscal Year Ended	 OPEB Obligation	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2012	\$ 67,256	74.7%	\$ 43,489
June 30, 2011	56,002	80.0%	\$ 26,452
June 30, 2010	55,400	72.5%	\$ 15,250

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 8.** Other Postemployment Benefits (Continued)

### **Funded Status and Funding Progress**

As of January 1, 2012, the Town's most recent actuarial valuation date, the unfunded actuarial accrued liability (UAAL) for benefits was \$279,700, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$3,109,500, and the ratio of the UAAL to the covered payroll was 9.00%.

### **Methods and Assumptions**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.

In the January 1, 2012 actuarial valuation, the projected unit credit cost method was used to determine the liabilities. Under this method, the post-retirement health costs are assumed to be earned ratably from the date of hire to the participant's full eligibility age. The actuarial assumptions used a 4.00% discount rate and an initial annual healthcare cost trend of 7.20% reduced by decrements each year to arrive at an ultimate healthcare cost trend rate of 4.80%. The unfunded accrued liability is being amortized over 30 years. The remaining amortization period at June 30, 2012 is 30 years.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

#### **Note 9. Service Contracts**

### **Sewage Treatment**

The Town is party to an agreement, dated November 1, 2003, with the Western Virginia Water Authority for the Authority to provide the transportation and treatment of waste at a specified rate to be adjusted annually on July 1, based on the actual operating and maintenance costs for the previous year. The 30-year agreement provides for a surcharge in the event waste content or volume exceeds certain limits or the cost is less than the amount paid by users.

### Water Purchases/Sales

Effective, June 1, 2005, the Town agreed to purchase water from the Western Virginia Water Authority at a bulk rate which is determined by a mutually agreed-upon formula. The water is designated for an industrial user who pays the Town a rate agreed upon by the user and the Town. This is a 30-year agreement and will expire in 2035.

### **Note 10.** Property Taxes

The major sources of property taxes are real estate and personal property taxes. The assessments are the responsibility of the County of Roanoke, while billing and collection functions are the Town's responsibilities.

Property taxes are levied annually in April on assessed values as of January 1. Personal property transactions during the year are taxed on a prorated basis. Real estate tax is payable in two equal installments on or before June 5 and December 5, and personal property tax is due on or before May 31, or within 30 days subsequent to assessment. Personal property taxes do not create a lien on property.

The annual assessment for real estate is based on 100% of the assessed fair market value. A penalty of 10% of the unpaid tax is due for late payment. Interest is accrued at 10% for the initial year of delinquency, and thereafter at the maximum annual rate authorized by the *Internal Revenue Code* Section 6621(b). The effective tax rates per \$100 of assessed value for the year ended June 30 were as follows:

Real estate	\$ .03
Personal property	\$ 1.00
Machinery and tools	\$ 1.00

#### Note 11. Leases

The Town leases a portion of a building to the Virginia State Department of Health for \$1,602 per month on a month to month basis until terminated by either party.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### Note 12. Risk Management

The Town is insured for workers' compensation, general liability, health, and other risks. The risk management programs are as follows:

### **Workers' Compensation**

Workers' compensation insurance is provided through the Virginia Municipal League. During 2011-2012, total premiums paid were approximately \$73,000. Benefits are those afforded through Commonwealth of Virginia as outlined in the *Code of Virginia* Section 65.2-100; premiums are based upon covered payroll, job rates, and claims experience.

### **General Liability**

The Town provides general liability and other insurance through policies with Virginia Municipal Self-Insurance Association. During 2011-2012, total premiums paid were approximately \$158,000. General liability and business automobile have a \$1,000,000 limit per occurrence. Boiler and machinery coverage and property insurance are covered per statement of values. The Town maintains an additional \$4,000,000 umbrella policy over all forms of liability insurance. Police professional liability and public officials' liability insurance with a \$1,000,000 limit are covered through a policy with the Commonwealth of Virginia.

There were no significant reductions in insurance coverages from the prior year and no settlements that exceeded the amount of insurance coverage during the last three fiscal years.

#### Healthcare

The Town provides healthcare coverage for employees through a policy with Anthem Blue Cross Blue Shield. The Town contributes the required premium amount for single coverage for each employee. Dependents of employees are also covered by the policy provided they pay the additional premium to the Town. During 2011-2012, total premiums paid were approximately \$514,000.

### Note 13. Commitments and Contingencies

### **Special Purpose Grants**

Special purpose grants are subject to audit to determine compliance with their requirements. Town management believes that required refunds, if any, will be immaterial.

### NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 13.** Commitments and Contingencies (Continued)

### **Landfill Closure and Post-Closure Costs**

As discussed in Note 1, the Town participates in the Roanoke Valley Resource Authority. The Authority currently has responsibility for closure and post-closure care related to the new Smith Gap landfill, the transfer station, and an old landfill site.

Closure and post-closure care requirements are mandated under the United States Environmental Protection Agency (EPA) rule, *Solid Waste Disposal Facility Criteria*, and are subject to periodic revisions by the EPA. The current estimate of remaining closure and post-closure care costs, assuming full utilization of the sites, is approximately \$13.9 million. The participating localities have contributed their pro-rata shares to fund the closure and post-closure care costs.

### Gain Sharing Agreement – Vinton Business Center

On March 2, 1999, the Town and Roanoke County reached an agreement to provide for the sharing of certain local tax revenues and sharing of the costs of certain public services. That agreement states that the Town and County may negotiate an agreement to fund jointly the costs of development of the Vinton Business Center and to share equally in the local tax revenues generated by this project. During 2007, the County paid the Town one-half of the costs of development.

As part of the agreement, the Town agreed to convey a one-half undivided interest in the remaining real estate of the project. The agreement states that the Town and County plan on making additional improvements to this project and will share in the costs of that and annual maintenance equally. The Town and County must jointly agree before any future improvements are made to the property or before portions of the property are sold. No major improvements were commenced during the current year.

### Roanoke County/Vinton Branch Library

On September 6, 2011, the Town and Roanoke County reached an agreement to purchase property for a Roanoke County/Vinton Branch Library to be built by Roanoke County. The property cost \$1.25 million, and the Town is responsible for half of that amount, or \$625,000. Roanoke County is responsible for the remainder of the costs. The Town made an additional \$100,000 good faith deposit in fiscal year 2012 with the remaining costs for the project to be spread out over the next 10 years. The Town will pay \$50,000 each year for year's one through five, and \$55,000 per year in years six through ten. Roanoke County will own the property and add it to its capital assets. The \$100,000 good faith deposit and \$50,000 current year contribution is included in community development expenditures on the fund statement.

### Note 14. Major Customer/Taxpayer

During fiscal year 2012, approximately 8.00% of the Town's business-type revenues were generated by one industrial customer.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 15.** Interfund Activity

The primary purpose of the \$500,000 transfer from the water and sewer fund to the general fund was to cover obligations expended in the general fund on behalf of the water and sewer fund.

### Note 16. Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources in the general fund. The constraints placed on the general fund balance are presented below:

	General Fund
Nonspendable: Prepaids	\$ 62,746
Total nonspendable Restricted for: Public safety	62,746 17,068
Total restricted	17,068
Unassigned	2,584,947
Total fund balance	\$ 2,664,761

#### Note 17. Subsequent Event

On July 1, 2012, Town Council agreed to proceed with a loan application with VML/VACo for \$500,000 to help fund the Glade-Tinker Creek Wastewater Interceptor Placement-Phase 2 Project. The interest rate is variable and adjusted quarterly.

The Town awarded a contract for construction of the project in the amount of \$645,000 on July 17, 2012.

The Town executed a Government Obligation Contract with First Capital Equipment Leasing Corp. in the amount of \$313,814.50 for seven police vehicles and two administrative vehicles for the Police Department on September 18, 2012. The term of the lease is six years.

### Note 18. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following statements which are not yet effective.

GASB Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements, was issued to address service concession arrangements, which are a type of public-private or public-public partnership. The statement defines a service concession arrangement in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. The requirements of this statement establish recognition, measurement, and disclosure requirements for these types of arrangements. This statement will be effective for the year ending June 30, 2013.

# NOTES TO FINANCIAL STATEMENTS June 30, 2012

### **Note 18.** New Accounting Standards (Continued)

GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources, and Net Position, is intended to improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. This statement will be effective for the year ending June 30, 2013.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, establishes standards for reclassification of certain item as deferred outflows and inflows of resources that were previously reported as assets and liabilities. The standard limits the items that should be reported as deferred outflows and inflows of resources to items specifically identified in authoritative pronouncements. Additionally, the standard requires that debt issuance costs be recognized as an expense in the period incurred except any portion related to prepaid insurance costs. Prospective application is required. The statement will be effective for the year ending June 30, 2014.

GASB Statement No. 66, Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62, was issued to resolve conflicting guidance that resulted from the issuance of two pronouncements. The statement amends GASB Statement No. 10 by removing the provision that limits fund-based reporting of an entity's risk financing activities to the general fund and the internal service fund type. The fund classification should be determined based on the nature of the activity to be reported. The statement also amends GASB Statement No. 62 by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straight-line basis, (2) the difference between the initial investment (purchase price) and the principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a normal servicing fee rate. The statement will be effective for the year ending June 30, 2014.

GASB Statement No. 68, Accounting and Financial Reporting for Pension Plans replaces the requirements of GASB Statements No. 27 and No. 50 as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. The statement requires governments providing defined benefit pensions to recognize the long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information, including disclosing descriptive information about the types of benefits provided, how contributions to the pension plan are determined, and assumptions and methods used to calculate the pension liability. This statement will be effective for the year ending June 30, 2015.

Management has not yet evaluated the effects, if any, of adopting these standards.

### **COMPLIANCE SECTION**

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Members of Town Council Town of Vinton, Virginia

We have audited the financial statements of the governmental activities, business-type activities, and each major fund of the Town of Vinton, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the Town of Vinton, Virginia's basic financial statements and have issued our report thereon dated November 2, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

### **Internal Control over Financial Reporting**

Management of the Town is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Responses, we identified a certain deficiency in internal control over financial reporting that we consider to be a material weakness.

A deficiency in internal control exists when the design of operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described as 07-1 in the accompanying schedule of findings and responses to be a material weakness in internal control over financial reporting.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the Town in a separate letter dated November 2, 2012.

The Town's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the Town's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, state and federal awarding agencies and pass-through entities, and Town Council, and is not intended to be, and should not be, used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

Brown, Edwards Company, S. L. P.

Roanoke, Virginia November 2, 2012

### SUMMARY OF COMPLIANCE MATTERS June 30, 2012

As more fully described in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the Town's compliance with certain provisions of laws, regulations, contracts and grants shown below.

### **STATE COMPLIANCE MATTERS**

#### Code of Virginia:

Budget and Appropriation Laws
Cash and Investment Laws
Conflicts of Interest Act
Debt Provisions
Local Retirement Systems
Procurement Laws
Uniform Disposition of Unclaimed Property Act

### **State Agency Requirements:**

Highway Maintenance Funds

#### **LOCAL COMPLIANCE MATTERS**

Town Charter

### SCHEDULE OF FINDINGS AND RESPONSES Year Ended June 30, 2012

### A. FINDINGS - FINANCIAL STATEMENT AUDIT

### 07-1: Segregation of Duties (Material Weakness)

#### Condition:

A fundamental concept of internal controls is the separation of duties. No one employee should have access to both physical assets and the related accounting records, or to all phases of a transaction. A proper segregation of duties has not been established in functions related to payroll, accounts payable, accounts receivable, cash disbursements, and information technology.

#### Recommendation:

Steps should be taken to eliminate performance of conflicting duties where possible or to implement effective compensating controls.

#### Management's Response:

Management noted this finding. The Finance Director has segregated duties, to the extent practical, to minimize instances where the same person has complete control of a transaction or conflicting duties.

### B. FINDINGS - COMMONWEALTH OF VIRGINIA

None

### SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS Year Ended June 30, 2012

### A. FINDINGS - FINANCIAL STATEMENT AUDIT

None
