#### Independent Auditors' Report

TO THE HONORABLE MAYOR AND MEMBERS OF THE TOWN COUNCIL TOWN OF GORDONSVILLE, VIRGINIA

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Town of Gordonsville, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Town of Gordonsville, Virginia's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Town of Gordonsville, Virginia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Emphasis of Matter

As described in Note 1 to the financial statements, in 2013, Town of Gordonsville, Virginia adopted new accounting guidance, GASB Statement Nos. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

# **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedule of pension funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the schedule of pension funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

# Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of Gordonsville, Virginia's basic financial statements. The other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2013, on our consideration of Town of Gordonsville, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Gordonsville, Virginia's internal control over financial reporting and compliance.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities are different because:				
Net change in fund balances - total governmental funds			\$	47,973
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation or vice versa in the current period. Capital asset additions Depreciation		114,099 (74,241)		39,858
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. The change in unavailable property taxes is reported as revenues in the governmental funds.				9,825
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.				
Issuance of capital lease Payment of principal Amortization of premium on issuance	\$ _	(50,130) 49,878 10,508	-	10,256
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.				
Compensated absences Accrued interest payable	\$	20,045 540		20,585

#### NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

#### Narrative Profile

The Town of Gordonsville, located in Orange County, Virginia, was founded in 1813 and incorporated in 1873. The Town has a population of 1,498 and a land area of .9 square miles.

The Town is governed under the Council-Manager form of government. The Town government, with approximately 15 full-time employees, engages in a wide range of municipal services including: police protection, refuse collection, recycling, street and sidewalk maintenance, street lights, zoning enforcement, planning and community development, and Town beautification. Judicial administration, educational, fire, library, health and welfare services, and recreational facilities and programs are provided by Orange County.

The financial statements of the Town of Gordonsville, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

#### A. Financial Reporting Entity

Accounting principles generally accepted in the United States require financial statements to present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The Town has no component units that meet the requirements for blending. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. The Town does not have any discretely presented component units.

The Treasurer is the fiscal agent of Maplewood Cemetery, so it is reported as an agency fund of the Town. The financial activities of the Maplewood Cemetery are excluded from the Town's government-wide statements for the following reasons:

- 1. The Cemetery is a separate legal entity;
- 2. The Town is not financially accountable for the Cemetery;
- 3. The Town does not exercise oversight responsibility or authority over the Cemetery trustees, and;
- 4. The Cemetery trustees are separately appointed by the Circuit Court of the County of Orange.

#### B. Government-wide and Fund Financial Statements

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

# NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### B. Government-wide and Fund Financial Statements (Continued)

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense, the cost of "using up" capital assets, in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

# C. <u>Measurement Focus</u>, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

# NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The following is a brief description of the specific funds used by the Town in FY 2013.

#### 1. Governmental Funds:

Governmental Funds are those through which most governmental functions typically are financed.

- a. *General Fund* The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for services, and interest income. The General Fund is considered a major fund for reporting purposes.
- b. Special Revenue Fund Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The only special revenue fund is the Pool Fund, which is considered a major fund.
- 2. Proprietary Funds:

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of an enterprise fund.

Enterprise Funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. The enterprise fund consists of the Water and Sewer Fund.

3. Fiduciary Funds (Trust and Agency Funds):

Fiduciary Funds (Trust and Agency Funds) account for assets held by the Town in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The agency fund (Maplewood Cemetery) uses the economic measurement focus and the accrual basis of accounting for reporting its assets and liabilities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

# NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

# C. <u>Measurement Focus</u>, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues consist of charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# D. <u>Budgets and Budgetary Accounting</u>

The Town Council annually adopts budgets for the general and water and sewer funds.

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. On or before April 1 of each year, the Town Manager submits to Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public notice regarding the proposed budget is circulated in accordance with Virginia statute, and at least one public hearing is conducted at Town Hall to obtain taxpayer comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an appropriation resolution. Town Council may approve supplemental appropriations.
- 4. The legal level of control is at the function level within an individual fund. The Town Manager is authorized to transfer budgeted amounts within departments within any fund; however, any revisions between departments, from the contingency line item, or that alter the total expenditures of any fund must be approved by Town Council.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund and Water and Sewer Fund.
- 6. The budgets for the General Fund and Water and Sewer Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. A review of the presented budget comparisons herein will disclose how accurately Town Council was actually able to forecast the revenues and expenditures of the Town.
- 8. Appropriations lapse on June 30, unless carried forward by a resolution of Town Council.
- 9. Budgetary amounts as presented in the financial statements reflect budget revisions through June 30, 2013.

# E. Expenditures and Appropriations

Expenditures exceeded appropriations in the Pool Fund at June 30, 2013.

# NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### F. Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term highly liquid investments that are both (1) readily convertible to known amounts of cash, and (2) so near the maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

#### G. Investments

The Town's investments at June 30, 2013 consisted of amounts invested in the Local Government Investment Pool and a 60 month certificate of deposit, which are reported at fair value.

#### H. Inventory and Prepaid Items

Inventories are immaterial to the financial statements and are therefore not capitalized as assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### I. <u>Allowance for Uncollectible Accounts</u>

The Town calculates its allowances for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance for uncollectible taxes and water and sewer receivables are \$8,656 and \$30,087, respectively at June 30, 2013.

# J. Capital Assets

Capital outlays are recorded as expenditures of the governmental funds of the Town, and as assets in the government-wide financial statements to the extent that the Town's capitalization threshold of \$5,000 is met. Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is recorded on capital assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Land improvements	10-40 years
Buildings	20-40 years
Plant, equipment, and infrastructure	25-50 years
Plans and topographic maps	5-40 years
Vehicles	5-7 years
Machinery and Equipment	5-10 years
Intangibles	5-6 years

# K. Accumulated Unpaid Vacation Pay and Other Employee Benefit Amounts

Vested vacation pay, sick pay and other related employee benefit amounts are accrued when earned in all funds. The current amount of leave liability has been estimated at 10%. The balance of compensated absences has been reported as a long-term liability.

# NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### L. Long-Term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount. Long-term obligations financed by proprietary funds are reported as liabilities in the appropriate fund.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

# M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Significant estimates, which are elements of these financial statements, include allowance for doubtful accounts receivable and useful lives for tangible property. Actual results could differ from those estimates.

#### N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town does not have any deferred outflows of resources as of June 30, 2013.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after statements are reported as deferred inflows of resources.

# O. <u>Net Position</u>

Net position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

# NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### P. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

#### Q. Fund Equity

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is generally the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance/resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

A fund balance policy has not been formally adopted by Council as of June 30, 2013.

### NOTE 1–SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### R. Adoption of Accounting Principles:

Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, Statement No. 63 of the Governmental Accounting Standards Board:

The Town implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement, certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position." The net equity reported in the financial statements was not changed as a result of implementing this Statement and no restatement of prior balances is required.

# Items Previously Reported as Assets and Liabilities, Statement No. 65 of the Governmental Accounting Standards Board:

The Town implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The net position reported in the financial statements was restated as a result of implementing this Statement. The restatement is as follows:

	Governmental Activities Net Position	Business-Type Activities Net Position
Balance as reported at June 30, 2012	\$ 1,148,843 \$	2,192,622
Restatement to remove bond issuance costs	(16,173)	(13,777)
Balance as restated at July 1, 2012	\$ 1,132,670 \$	2,178,845

#### S. Upcoming Pronouncements:

The Governmental Accounting Standards Board has issued Statement No. 68, Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27. This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements for fiscal years beginning after June 15, 2014. The Town has not determined the impact of this pronouncement on its financial statements.

#### NOTE 2-DEPOSITS AND INVESTMENTS:

#### Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et. seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### Investments

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

#### Custodial Credit Risk (Investments)

The Town's investments at June 30, 2013 were held in the Town's name by the Town's custodial bank.

#### Credit Risk of Debt Securities

The Town has no investment policy.

The Town's rated debt investments as of June 30, 2013 were rated by <u>Standard & Poor's</u> and/or an equivalent national rating organization and the ratings are presented below using the <u>Standard & Poor's</u> rating scale.

Rated Debt Investments	 Fair Quality Ratings
	 AAAm
Local Government Investment Pool	\$ 284,847

#### External Investment Pool

The fair value of the positions in the external investment pool (Local Government Investment Pool) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

#### NOTE 3-PROPERTY TAXES:

Real and personal property taxes are levied on January 1 at a rate enacted by the Town Council on the assessed value of property as determined by the Commissioner of Revenue of Orange County. Neither the Town Charter nor the State of Virginia imposes a limitation on the tax rate. The Town's tax rates for fiscal year 2013 were \$.10 and \$.99 per \$100 of real estate and personal property assessed valuation, respectively.

Real estate taxes are due in two installments, the first on June 5 and the second on December 5. Personal property taxes are due annually on December 5. A penalty of 10 percent is added to each delinquent installment. No discounts are allowed and interest at 10 percent per annum is also assessed on delinquent installments, beginning January 1.

#### NOTE 4-ACCOUNTS RECEIVABLE:

Accounts receivable are detailed as follows:

	_	Governmental Activities	Business-Type Activities
Property taxes Meals taxes	\$	108,204 \$ 26,579	-
Consumer utility taxes Consumption taxes		1,954 370	-
Other	-	2,218	122,563
Total Allowance for uncollectibles	\$ -	139,325 \$ (8,656)	122,563 (30,087)
Net receivables	\$	130,669 \$	92,476

## NOTE 5-DUE FROM OTHER GOVERNMENTAL UNITS:

Amounts due from other governments are detailed as follows:

		Governmental Activities																						Business-Type Activities
Town of Orange:																								
Raw Water Storage Basin	\$	-	\$	2,275																				
Commonwealth of Virginia:																								
Communication tax		4,928		-																				
TEA-21 streetscape grant		11,500		-																				
Other		1,936		-																				
County of Orange, Virginia:																								
Local sales taxes		24,021		-																				
Circuit Court of Orange County, Virginia:																								
Court fines	-	13,065		-																				
Total	\$	55,450	\$	2,275																				

#### NOTE 6-INTERFUND ACTIVITY:

Details of interfund activity as of June 30, 2013 are as follows:

Transfers To/From Other Funds:								
Transfers to the Pool Fund from the General Fund to cover								
restricted assets.	\$	32,514						
Transfers from the Water and Sewer Fund to the General Fund for								
payment in lieu of taxes.	\$	(129,715)

#### NOTE 8-COMPENSATED ABSENCES:

In accordance with GASB Statement 16, *Accounting for Compensated Absences*, the Town has accrued the liability arising from outstanding compensated absences. Town employees earn vacation and sick leave based upon length of service. The Town has outstanding accrued compensated absences totaling \$51,574 in governmental activities (funded by the General Fund) and \$5,489 in the Enterprise Fund.

#### Notes to Financial Statements As of June 30, 2013 (Continued)

## NOTE 9-LONG-TERM OBLIGATIONS:

The following is a summary of long-term obligations of the Town for the year ended June 30, 2013.

## NOTE 9-LONG-TERM OBLIGATIONS: (CONTINUED)

#### Details of Long-term Indebtedness:

		Total Amount Outstanding		Amount Due Within One Year
Governmental Activities:	-		_	
Bond:				
On October 15, 2011, the Town issued General Obligation Refunding Bonds in the amount of \$905,000 with interest rates ranging from 2.125% to 5.125% through November 1, 2022. Annual installments are due ranging from \$65,000 to \$105,000. The Town issued the bonds to advance refund \$1,050,000 of the outstanding series 2002 General Obligation Refunding Bonds with interest rates ranging between 3.125% and 5.125%. The refunding reduced total debt service payments over the next 11 years by approximately \$151,860, with a present value savings of \$128,528. The agreement with the Virginia Resources Authority provides that the obligations will be repaid from revenues generated by the Town. The principal and interest payments				
have been allocated 54% to the general fund and 46% to the water and sewer fund.	\$_	453,600	\$	37,800
Premium on Issuance	\$_	55,761	\$	9,883
Capital lease:				
In fiscal year 2013, the Town entered into a long-term lease to finance the acquisition of a backhoe. This lease provides for 60 monthly payments in the amount of \$1,810, which includes principal and interest. Interest is charged at a rate of 3.2%. The tractor was capitalized in the amount of \$100,260. The lease and asset	¢		÷	0 572

#### NOTE 10-LEASE AND RELATED AGREEMENTS:

#### Lease of Land

On February 5, 1992, the Town Council granted an option to lease land to a company that used the land to build an energy cogeneration plant. The option was exercised during the fiscal year ended June 30, 1993.

The lease operates under three separate terms: the Preliminary Term, the Initial Term, and the Renewal Term. The Preliminary Term extended from February 5, 1992 until February 5, 1996. The Initial Term extends from the end of the Preliminary Term for a period of thirty years. Under the terms of the lease agreement, the tenant would then have the option of renewing the lease for one Renewal Term, which would extend the entire option/lease agreement to no more than forty years.

Rent revenue under the contract totals approximately \$232,000 per year, not including miscellaneous charges. For the fiscal year ended June 30, 2013, rent and miscellaneous charges totaled \$335,423.

#### Water Agreements

On January 28, 1993, the Town agreed to reserve not less than 3,000,000 gallons per month (gpm) of potable water for the plant's use as process water and its normal domestic potable water supply. The rate charged is equal to the Town's rate from the water provider plus the amount the Town adds to those rates. This agreement was effective upon execution by both parties. The initial term of the agreement ends thirty years from the date of execution and automatically renews at the end of the initial term and each of two additional five-year periods, unless written notice is received of the plant's intention not to renew at least one year prior to the expiration of the initial term or any renewal period.

On August 16, 1993, the water agreement was amended to provide 6,000,000 gpm. The rates charged on the first 3,000,000 gpm are based on the original agreement. However, rates on the second 3,000,000 gpm are dependent upon use. The plant shall pay the Town's markup on the second 3,000,000, whether any portion of the Town Water Supply is actually delivered or not. If delivery of any portion of the second 3,000,000 is made, in addition to the monthly markup payment, the Town shall be paid the actual cost by the Town to the provider for that portion in excess of the first 100,000 used by the plant.

On July 18, 1994, a quarry water agreement was entered into between these same parties. This allowed the plant to design and construct a system necessary to withdraw water from the Quarry and transport 5,000,000 gpm to the power production facility. The plant was given the non-exclusive right, but not the obligation, to withdraw and use up to 5,000,000 gpm of Quarry Water. The plant pays the Town a rate of 20% of the Industrial Water Rate as periodically changed by amendments to the Town Code per month for the reserved water unless such withdrawals exceed 5,000,000 gpm. All water withdrawn in excess of 5,000,000 gpm shall be paid at a rate of 20% of the Industrial Water Rate as periodically changed by amendments to the Town Code. This agreement was effective upon execution by both parties. The initial term of the agreement ends thirty years from the date of execution and automatically renews at the end of the initial term and each of two additional five-year periods, unless written notice is received of the plant's intention not to renew at least one year prior to the expiration of the initial term or any renewal period.

#### NOTE 11-DEFINED BENEFIT PENSION PLAN:

#### A. <u>Plan Description</u>

Name of Plan:	Virginia Retirement System (VRS)
Identification of Plan:	Agent Multiple-Employer Defined Benefit Pension Plan
Administering Entity:	Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2013 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplier. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

#### NOTE 11-DEFINED BENEFIT PENSION PLAN: (CONTINUED)

#### A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the report may be obtained from the VRS website at <u>http://www.varetire.org/Pdf/publications/2012-annual-report.pdf</u> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their compensation toward their retirement. All or part of the 5% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended 2013 was 8.77%, of annual covered payroll.

#### C. Annual Pension Cost

For fiscal year 2013, the Town's annual pension cost of \$54,474 was equal to the Town's required and actual contributions.

The following trend information is presented for three years.

Fiscal Year Ending	 Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	\$ 54,474	100%	-
June 30, 2012	54,066	100%	-
June 30, 2011	50,041	100%	-

#### NOTE 11–DEFINED BENEFIT PENSION PLAN: (CONTINUED)

#### C. Annual Pension Cost (Continued)

The FY 2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

#### D. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the plan was 76.66% funded. The actuarial accrued liability for benefits was \$924,835, and the actuarial value of assets was \$708,989, resulting in an unfunded actuarial accrued liability (UAAL) of \$215,846. The covered payroll (annual payroll of active employees covered by the plan) was \$580,015, and ratio of the UAAL to the covered payroll was 37.21%.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

#### NOTE 12-CONTINGENT LIABILITIES:

At June 30, 2013 there were no matters of litigation involving the Town which would materially affect the Town's financial position should any court decisions on pending matters not be favorable to the Town.

#### NOTE 13–CONSTRUCTION COMMITMENTS:

The Town had construction commitments at year-end related to the Streetscape project. Of the \$240,828 contract, \$67,572 was outstanding at June 30, 2013.

Notes to Financial Statements As of June 30, 2013 (Continued)

#### NOTE 14-RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates with other localities in a public entity risk pool for coverage of workers' compensation with Virginia Municipal league and public officials' liability with the Virginia Department of Risk Management. The Town pays an annual premium to the pools for its insurance through member premiums. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### NOTE 15-UNEARNED AND UNAVAILABLE REVENUE:

Unearned and unavailable revenue represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available.

Land Lease - Unearned revenue representing amounts received in advance for the lease described in Note 10 totaled \$141,477 at June 30, 2013.

<u>Unavailable Property Tax Revenue</u> - Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$98,077 (including  $2^{nd}$  ½ tax billings of \$48,427 not due until December 5) at June 30, 2013.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2013 but paid in advance by the taxpayers totaled \$6,082 at June 30, 2013.

#### NOTE 16-INTERGOVERNMENTAL AGREEMENT:

In September 2007, the Town entered into a raw water storage basin agreement with the Town of Orange, Virginia. The agreement stipulates that the interest cost to Orange for the financing of the construction of the raw water storage basin will be borne by Gordonsville and Orange in proportion to the monthly amount each takes of the finished water produced by Orange. The agreement shall continue until payments are made for forty (40) years or until the bonds are paid off, whichever occurs first. The Town of Gordonsville made payments totaling \$20,359 during fiscal year 2013 pursuant to the agreement.

#### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### TO THE HONORABLE MAYOR AND MEMBERS OF THE TOWN COUNCIL TOWN OF GORDONSVILLE, VIRGINIA

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Gordonsville, Virginia as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Town of Gordonsville, Virginia's basic financial statements and have issued our report thereon dated November 4, 2013.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Gordonsville, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Gordonsville, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Gordonsville, Virginia's virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Gordonsville, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
