A PROFESSIONAL LIMITED LIABILITY COMPANY

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report

To the Honorable Members of the Board of Supervisors County of Westmoreland, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of County of Westmoreland, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County of Westmoreland, Virginia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Westmoreland, Virginia, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of pension and OPEB funding progress on pages 4-9, 69, and 70 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Westmoreland, Virginia's basic financial statements. The other supplementary information and statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2015, on our consideration of the County of Westmoreland, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Westmoreland, Virginia's internal control over financial reporting and compliance.

Robinson, Farmer, Cox Associares

Fredericksburg, Virginia March 2, 2015

To the Citizens of Westmoreland County County of Westmoreland, Virginia

As management of the County of Westmoreland, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2014.

Financial Highlights

Government-wide Financial Statements

• On a government-wide basis for governmental activities, the assets and deferred outflows of the County exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$12,675,482 (net position). For business-type activities, assets and deferred outflows exceeded liabilities and deferred inflows by \$20,277,305.

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures of \$391,144 (Exhibit 5) after making contributions totaling \$7,717,745 to the School Board.

- As of the close of the current fiscal year, the County's governmental funds reported ending fund balances of \$8,372,216 an increase of \$391,144 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$3,751,159 or 12% of total general fund expenditures.
- Combined long-term obligations for the governmental funds increased \$5,973,704 during the current fiscal year.

The Proprietary Funds, on an accrual basis, reported a decrease in net position of (\$752,727) (Exhibit 8).

- As of the close of the current fiscal year, the County's proprietary funds reported ending net position of \$20,277,305, an decrease (\$752,727).
- Combined long-term obligations in the proprietary funds decreased (\$159,554) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements: (Continued)

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the excess of assets and deferred outflows over liabilities and deferred inflows reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's nets position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Westmoreland, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Westmoreland, Virginia is financially accountable. Financial information for this component unit is reported separately from the financial information present for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Westmoreland, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental Funds</u> - Governmental Funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, a reconciliation between the two methods is provided following the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County's major funds are the General Fund and the County Capital Improvements Fund.

<u>Proprietary Funds</u> - Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

Overview of the Financial Statements: (Continued)

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County's governmental activities, assets and deferred outflows exceeded liabilities and deferred inflows by \$12,675,482 at the close of the most recent fiscal year.

At the end of the current fiscal year, the County's investment in capital assets net of related debt used to acquire those assets was \$6,850,919 for governmental activities. The County uses these capital assets to provide services to citizens therefore; these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County's net position decreased by (\$164,498) during the current fiscal year.

Government-wide Financial Analysis: (Continued)

<u>Governmental Activities</u> - Governmental activities and business-type activities increased the County's net position by \$588,229 and (\$752,727) respectively. Key elements of this increase are as follows:

| | | Summary S | tat | ement of Chan | ige | in Net Positior | ı | | | |

Government-wide Financial Analysis: (Continued)

- The increase of \$391,144 in the governmental activities net position was largely attributable increases in revenues exceeding corresponding increases in expenses.
- Net position for business-type activities showed a decrease of (\$752,727) during fiscal year 2014. This decrease was primarily driven by a decrease in availability/connection/tap fees.

For the most part, increases in expenditures closely paralleled inflation and growth in the demand for services.

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$8,372,216 an increase of \$391,144 in comparison with the prior year. Approximately 45% of this total amount constitutes unassigned fund balance, which is available for spending at the County's discretion. The remainder of fund balance is nonspendable, restricted, committed, and assigned to indicate that it is not available for new spending because it has already been constrained.

<u>Proprietary Funds</u> - The focus of the County's proprietary funds is upon determination of net income, financial position, and changes in financial position. Funds are accounted for in a manner similar to private business enterprises. The County's proprietary funds consists of the Water and Sewer Fund. The proprietary funds reflected a combined decrease in net position of (\$752,727).

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget was an increase of \$9,300,468 in expenditures and can be briefly summarized as follows:

- \$147,248 in increases for general government administration
- \$29,378 in increases for judicial administration
- \$606,680 in increases for public safety
- \$406,896 in increases for public works
- \$708,900 in increases for health and welfare
- \$6,970,453 in increases for capital projects
- \$430,913 in other increases

Of this increase, \$776,285 was to be funded from intergovernmental revenues. The remaining \$8,524,183 was to be budgeted from available fund balance and other revenue increases. During the year, however, expenditures were less than budgetary estimates by \$3,116,369 thus eliminating the need to draw upon all of the \$2,429,370 of the existing fund balance which was budgeted.

Capital Asset and Debt Administration

• <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2014 amounts to \$17,198,773 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment. Investment in capital assets for the County's proprietary operations amounts to \$28,341,938 as of June 30, 2014. This investment includes land, water systems, sewer systems, and equipment.

Additional information on the County's capital assets can be found in note 8 of this report.

Long-term debt - At the end of the current fiscal year, the County had total long-term obligations outstanding of \$13,299,000 for its governmental operations. Of this amount \$4,584,801 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt for governmental operations \$8,714,199 represents bonds secured solely by specified revenue sources (i.e., revenue bonds). Business-type debt is comprised of \$9,968,133 bonds secured solely by water and sewer revenues, \$98,464 treatment plant upgrade and compensated absences of \$16,589.

The County's total debt outstanding increased by \$5,814,150 during the current fiscal year.

Additional information on the County of Westmoreland, Virginia's long-term debt can be found in Note 11 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County is currently 6.1 percent, which is a decrease from a rate of 6.3 percent a year ago. This is slightly higher than the state's average unemployment rate of 4.8 percent and compares favorably to the national average rate of 5.6 percent.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for the 2015 fiscal year.

The fiscal year 2015 general fund budget amounted to \$27,092,490.

Requests for Information

This financial report is designed to provide a general overview of the County of Westmoreland, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, P.O. Box 1000, Montross, Virginia 22520.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

| Net change in fund balances - total governmental funds | | \$ | 391,144 |
|--|--------------|----------|-------------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. | | | |
| Capital asset additions | \$7, | 323,250 | |
| Depreciation expense | | 691,857) | 6,631,393 |
| Transfer of joint tenancy assets from Primary Government to the Component Unit | | | (256,456) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | | (124,309) |
| The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | | | |
| Increase in landfill closure/post-closure liability | \$ | (1,978) | |
| Issuance of bonds | | 578,971) | |
| Lease revenue bonds | | 217,370 | |
| Deferred charge on refunding | | (12,418) | |
| General obligation bonds | | 115,000 | |
| State literary fund loans | | 249,000 | |
| Capital leases | | 44,470 | (5,967,527) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. | | | |
| Compensated absences | \$ | 16,626 | |
| Net OPEB obligation | , | (35,221) | |
| Accrued interest payable | | (67,421) | (86,016) |
| | | (57,121) | (00,010) |
| Change in net position of governmental activities | | \$ = | 588,229 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Narrative Profile

The County of Westmoreland, located in the northern neck of Virginia and bordered by the counties of Essex, King George, Northumberland and Richmond, was founded in 1653. The County has a population of 16,718 and a land area of 222 square miles.

The County is governed under the County Administrator - Board of Supervisors form of government. Westmoreland County engages in a comprehensive range of municipal services, including general government administration, public safety and administration of justice, education, health, welfare, human service programs, landfill operations, planning, community development and recreation, cultural, and historic activities.

The financial statements of the County of Westmoreland, Virginia have been prepared in conformity with the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board and specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. The more significant of the government's accounting policies are described below.

A. Financial Reporting Entity

<u>Management's Discussion and Analysis</u>: GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to analysis the private sector provides in their annual reports.

<u>Government-wide Financial Statements:</u> The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter.

<u>Statement of Net Position</u>: The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u>: The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

A. <u>Financial Reporting Entity</u> (Continued)

<u>Budgetary Comparison Schedules</u>: Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The County and many other governments revise their original budgets over the course of the year for a variety of reasons. The budgetary comparison schedules present the original budget, final budget, and actual results.

As required by the accounting principles generally accepted in the United States, these financial statements present the primary government and its component unit, entity for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The County has no component units that meet the requirements for blending. The discretely presented component unit, on the other hand, is reported in a separate column in the government-wide statements to emphasize it is legally separate from the primary government. The discretely presented component unit has a June 30 fiscal year-end.

Inclusions in the Financial Reporting Entity:

1. <u>Component Unit:</u>

a. <u>Westmoreland County School Board:</u>

The Westmoreland County School Board is elected to four year terms by the County voters. The School Board may hold property and issue debt subject to approval by the Board of Supervisors. The School Board provides public primary and secondary education services to the County residents. The primary funding sources of the School Board are state and federal grants, and appropriations from the County, which are significant since the School Board does not have separate taxing authority. The County also approves the School Board budget. The School Board does not issue separate financial statements.

Exclusions from the Financial Reporting Entity:

1. Jointly Governed Organizations:

Jointly governed organizations are regional governments or other multi-governmental arrangements that are governed by representation from each of the governments that create the organizations, and the participants do not retain an ongoing financial interest or responsibility in the organization.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

A. Financial Reporting Entity (Continued)

Exclusions from the Financial Reporting Entity: (Continued)

1. Jointly Governed Organizations: (Continued)

The financial activities of the following organizations are excluded from the accompanying financial statements for the reasons indicated:

a. <u>Northern Neck Regional Jail</u>

The Northern Neck Regional Jail is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The counties of Richmond, Northumberland, and Westmoreland and the Town of Warsaw provide the financial support for the Jail through the assessment of user fees for prisoner care and appoint its governing Board, in which is vested the ability to execute contracts and to budget and expend funds. The Westmoreland County Board of Supervisors appoints two (2) of the seven (7) members of the Jail Board. No one locality contributes more than 50% of the Authority's funding or has oversight responsibility over its operations. The County of Westmoreland acts as fiscal agent for the Authority.

b. Rappahannock Regional Library

The Rappahannock Regional Library is considered an intergovernmental (joint) venture and therefore its operations are not included in the County's financial statements. The Counties of Westmoreland, Stafford and Spotsylvania and the City of Fredericksburg provide the financial support for the Library and appoint its governing Board, in which is vested the ability to execute contracts and to budget and to expend funds. The County appoints one (1) of the seven (7) members of the Board. No one locality contributes more than 50% of the Library's funding. The County provided \$399,979 in operating funds to the Library in 2014.

c. Middle Peninsula Northern Neck Community Services Board

The Middle Peninsula Northern Neck Community Services Board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. This organization provides mental health, mental retardation, and substance abuse services to ten counties. The Counties of Essex, King and Queen, King William, Middlesex, Richmond, Mathews, Gloucester, Westmoreland, Lancaster and Northumberland appoint one member each to the Board. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Westmoreland County contributed \$53,182 as operating grants to the Middle Peninsula Northern Neck Community Services Board for the fiscal year ended June 30, 2014.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

A. <u>Financial Reporting Entity</u> (Continued)

Exclusions from the Financial Reporting Entity: (Continued)

d. Middle Peninsula Juvenile Detention Commission

The Middle Peninsula Juvenile Detention Commission is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. Westmoreland County along with 16 other counties appoint one member each to the Board. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Westmoreland County contributed \$112,264 to the Middle Peninsula Juvenile Detention Commission for the fiscal year ended June 30, 2014.

Obtaining of Financial Statements for Jointly Governed Organizations

Complete financial statements of the jointly governed organizations may be obtained by contacting the County of Westmoreland, Virginia County Administrator, P.O. Box 1000, Montross, Virginia 22520-1000.

B. <u>Government-Wide and Fund Financial Statements</u>

The basic financial statements include both government-wide (based on the County as a whole) and fund financial statements. The focus is on both the County as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category) and the component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense, the cost of "using up" capital assets, in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The County does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. Internal service charges if applicable, are eliminated and the net income or loss from internal service activities are allocated to the various functional expense categories based on the internal charges to each function.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

Proprietary fund operating revenues consist of charges for services and related revenues. Nonoperating revenues consist of contributions, grants, investment earnings and other revenues not directly derived from the providing of services.

The County's fiduciary funds are presented in the fund financial statements by type (private purpose, if applicable, and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. The following is a brief description of the specific funds used by the County in FY 2014.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

B. <u>Government-Wide and Fund Financial Statements</u> (Continued)

1. Governmental Funds:

Governmental Funds account for and report the expendable financial resources, other than those accounted for in Proprietary and Fiduciary Funds. The Governmental Funds utilize the modified accrual basis of accounting where the measurement focus is upon determination of financial position and changes in financial position, rather than upon net income determination as would apply to a commercial enterprise. The individual Governmental Funds are:

- a. <u>General Fund</u> The General Fund is the primary operating fund of the County. This Fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues are used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for reporting purposes.
- b. <u>Debt Service Funds</u> The Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should also be used to report financial resources being accumulated for future debt service. The A.T. Johnson Debt Service Fund is the only debt service fund. The A.T. Johnson Debt Service Fund is the only debt service fund.
- c. <u>Special Revenue Funds</u> Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The only special revenue fund is the Placid Bay Sanitary District Fund. The Placid Bay Sanitary District Fund is a nonmajor fund.
- d. <u>Capital Projects Funds</u> The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The General Capital Projects Fund is considered a major fund.

2. Proprietary Funds:

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

- a. <u>Enterprise Funds</u> Enterprise Funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. The Enterprise Funds consist of the following funds:
 - <u>Water and Sewer Fund</u> This fund accounts for income and expenses of the Rt. 3 Corridor, water services, Montross Sewer, Washington District sewer service and the Coles Point Sewer Service.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

B. <u>Government-Wide and Fund Financial Statements</u> (Continued)

3. Fiduciary Funds (Trust and Agency Funds):

Fiduciary Funds (Trust and Agency Funds) account for assets held by a governmental unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. The funds include Private Purpose Trust and Agency Funds. Private purpose trust funds utilize the accrual basis of accounting as described in the Proprietary Funds presentation. Agency funds also utilize the accrual basis of accounting. The County has no Private Purpose Trust Funds. The Agency Funds consist of the following:

- a. Agency Funds:
 - <u>Special Welfare Fund</u> This fund accounts for monies provided primarily through private donors for assistance of children in foster care and needy senior citizens. This fund is also used to account for monies received from other governments and individuals (i.e., social security and child support) to be paid to special welfare recipients.
 - <u>Adult Education Program Fund</u> This fund accounts for the operation of the Northern Neck Regional Alternative Education Program. The Program is a regional program utilized by local school districts for alternative education activities.
- 4. Component Unit:

Westmoreland County School Board:

The Westmoreland County School Board has the following funds:

Governmental Funds:

- <u>School Operating Fund</u> This fund is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from charges for services, appropriations from the County of Westmoreland and state and federal grants. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes.
- <u>Special Revenue Funds</u> Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.
- School Cafeteria Fund This special revenue fund accounts for the operations of the School Board's food service program. Financing is provided primarily by food and beverage sales, and state and federal grants.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The government-wide statement of net position and statement of activities and all proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these activities are either included on the statement of net position or on the statement of fiduciary net position. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The statement of net position, statement of activities, financial statements of the Proprietary Funds, and Fiduciary Funds are presented on the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The fund financial statements of the General, Special Revenue, Debt Service, and Capital Projects (for the primary government and component unit School Board) are maintained and reported on the modified accrual basis of accounting using the current financial resources measurement focus. Under this method of accounting, revenues are recognized in the period in which they become measurable and available. With respect to real and personal property tax revenue and other local taxes, the term "available" is limited to collection within forty-five days of the fiscal year-end. Levies made prior to the fiscal year-end but which are not available are deferred. Interest income is recorded as earned. Federal and state reimbursement-type grants are recorded as revenue when related eligible expenditures are incurred. Expenditures, other than accrued interest on long-term debt, are recorded when the fund liability is incurred.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

D. Budgets and Budgetary Accounting

The Board of Supervisors annually adopts budgets for the various funds of the primary government and component unit School Board. All appropriations are legally controlled at the department level for the primary government funds. The School Board appropriation is determined by the Board of Supervisors and controlled in total by the primary government.

The budgets are integrated into the accounting system, and the budgetary data, as presented in the financial statements for all major funds with annual budgets, compare the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule for the major funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

Encumbrances:

Encumbrance accounting, the recording of purchase orders, contracts, and other monetary commitments in order to commit an applicable portion of an appropriation, is used as an extension of formal budgetary control in the primary government and component unit School Board. Encumbrances outstanding at year-end are reported as commitments of fund balance and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent fiscal year. These encumbrances are subject to reappropriation by the Board of Supervisors in the succeeding fiscal year.

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to April 1, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating budget and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings and open-houses are conducted to obtain citizen comments. Also, several work sessions between the Board of Supervisors and School Board are conducted on the School Board budget.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

D. Budgets and Budgetary Accounting: (Continued)

- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the fund, function and departmental level. The appropriation for each fund, function and department can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within departments and the School Board is authorized to transfer budgeted amounts within the school system's categories. Supplemental appropriations in addition to the appropriated budget were necessary during the year. Supplemental appropriations may not be made without amending the budget.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except School Funds), General Capital Projects Funds, Debt Service Funds, and Proprietary Funds. The School Operating and School Cafeteria Funds are integrated only at the level of legal adoption.

The County may adopt budgets for other funds, such as the Agency Funds, for use as a management control device over such funds. Capital Project and County Facility budgets are adopted at the time the project is approved and the construction contract awarded. Any unexpended current year appropriations are reappropriated in the ensuing fiscal year(s) until the project is completed.

- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. All appropriations lapse on June 30, for all County and School Board funds.
- 8. All budgetary data presented in the accompanying financial statements is the original budget as of June 30, 2014, as adopted, appropriated and legally amended.
- 9. The expenditure budget is enacted through an annual appropriations ordinance. Appropriations are made at the departmental level for the primary government and at the function level for the School Board. State law requires that if budget amendments exceed 1% of the original adopted budget the Board of Supervisors may legally amend the budget only by following procedures used in the adoption of the original budget.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

Investments are reported at fair value.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

G. <u>Allowance for Uncollectible Accounts</u>

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$205,637 at June 30, 2014 and is comprised of the following:

General Fund--taxes receivable \$ 205,637

H. Prepaid Items

Prepaid items are reported on the consumption method.

I. <u>Capital Assets</u>

Capital outlays are recorded as expenditures of the governmental funds of the primary government and component unit School Board, and as assets in the government-wide financial statements to the extent the County's and School Board's capitalization threshold of \$5,000 is met and the asset has an estimated life in excess of two years. The County and Component Unit School Board do not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are property of the Commonwealth of Virginia. Depreciation is recorded on capital assets on a government-wide basis using the straight-line method and the following estimated useful lives:

| Building and improvements | 10 to 40 years |
|-------------------------------|----------------|
| Furniture and other equipment | 3 to 20 years |

To the extent the County's capitalization threshold of \$5,000 is met and the asset has an estimated life in excess of two years, capital outlays of the Proprietary Funds are recorded as capital assets and depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis using the straight-line method and the following estimated useful lives:

| Buildings and systems | 10 to 40 years |
|-----------------------|----------------|
| Equipment | 5 to 10 years |
| Intangibles | 20 to 40 years |

All capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their estimated fair market value on the date donated. The County and School Board do not capitalize historical treasures or works of art.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

Interest on cost of construction funds for the Proprietary Funds is capitalized where applicable. No interest was capitalized in fiscal year 2014.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes prior to June 30, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount become available. Under the accrual basis, amounts prepaid on the 2nd half installments are reported as deferred inflows of resources.

K. <u>Compensated Absences</u>

The County and Component Unit School Board accrue compensated absences (annual and sick leave benefits) when vested. The amounts include all balances earned by employees which would be paid upon employee terminations, resignations or retirements.

An estimate of ten percent of the liability has been classified as current in the government-wide financial statements.

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

M. Long-Term Obligations

The County reports long-term obligations at face value. The face value of the obligations is believed to approximate fair value.

N. <u>Net Position</u>

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

O. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

P. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only
 reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Supervisors or the County Administrator.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

P. Fund Equity: (Continued)

In the general fund, the County strives to maintain an unassigned fund balance to be used for unanticipated emergencies of 15% of the actual GAAP basis expenditures/operating revenues.

The details of governmental fund balances, as presented in aggregate on Exhibit 3, are as follows:

| | | General Fund | | General Capital Projects Fund | | Other Governmental Funds | | Total |
|-------------------------------|-----------|-----------------|-------|-------------------------------------|--------|--------------------------------|-----------------|-----------|

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 2 - DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Custodial Credit Risk (Investments)

The County's investments at June 30, 2014 were held in the County's name by the County's custodial bank.

Credit Risk of Debt Securities

The County's investment policy stipulates that U.S. dollar denominated commercial paper issued by an entity incorporated in the U.S. must be rated at least A-1 by Standard & Poor Corp. and P-1 by Moody's Investors Service. The policy also stipulates that U.S. dollar denominated Corporate Notes and Bonds must have a rating of at least A by Standard & Poor Corp. and by Moody's Investors Service.

The County's rated debt investments as of June 30, 2014 were rated by *Standard & Poor's* and/or an equivalent national rating organization and the ratings are presented below using the *Standard & Poor's* rating scale.

| County's Rated Debt Investments' Values | | | | | | | | |
|--|---------------|--------------|---------------------------|------------|------------|---------|--|--|
| Rated Debt Investments | ality Ratings | | | | | | | |
| | | AAAm _+ | AA+ | AA | A+ | A- | | |
| U.S. Agencies U.S. Treasuries | \$ | - \$ | 1,531,246 \$ 6,210,373 | - \$ | - \$ | - | | |
| Corporate Debt Money Market Mutual Fund | | 1,957,929 | - | 459,661 | 305,150 | 478,932 | | |
| Total | \$ | 1,957,929 \$ | 7,741,619 \$ | 459,661 \$ | 305,150 \$ | 478,932 | | |

Concentration of Credit Risk

The County's investment policy contains several stipulations concerning the amount of funds that can be invested. Not more than 40% of the total funds available for investment may be invested in bankers' acceptances. Not more than 35% of the total funds available for investment may be invested in commercial paper, and not more than 5% in the obligations of any one issuer.

NOTE 2 - DEPOSITS AND INVESTMENTS: (CONTINUED)

Interest Rate Risk

The County's investment policy contains certain guidelines concerning interest rate risk. Funds must be invested at all times in keeping with the seasonal pattern of the County's cash balances. County personnel must monitor and update cash flow projections to be communicated to the investment managers. A minimum of 10% of the portfolio must be invested in securities maturing within 30 days, and a minimum of 50% of the portfolio must be invested in securities maturing within 24 months.

The interest rate risk is summarized below:

| Investment Maturities (in years) | | | | | | | | | |
|---|----|-------------------------------------|---------|---------------------------------|----|---------------------------------|----|-------------------|--|
| Less Than Investment Type Fair Value 1 Year 1-5 Years 6-10 Years | | | | | | | | | |
| U.S. Treasuries U.S. Agencies Corporate Bonds | \$ | 6,210,373 1,531,246 1,243,743 | \$ - | 970,511 1,074,802 938,053 | \$ | 4,489,844 456,444 305,690 | \$ | 750,018 - - | |
| Total | \$ | 8,985,362 | \$ | 2,983,366 | \$ | 5,251,978 | \$ | 750,018 | |

NOTE 3 - PROPERTY TAXES:

Real property taxes are assessed on property values as of January 1, and attach as an enforceable lien on property as of the date levied by the Board of Supervisors. Personal property taxes are assessed on a prorated basis for the period the property is located in the County and also attach as an enforceable lien on the property.

Real estate and personal property taxes are due on December 5.

A ten percent penalty is levied on all taxes not collected on or before their due date. An interest charge of ten percent per annum is also levied on such taxes beginning on their due date.

Property taxes for calendar year 2013 were levied by the County Board of Supervisors on May 1, 2013, on the assessed value listed as of January 1, 2013.

Property taxes levied in the prior year have been recorded as receivables as of the date the County has the legal right to receive payments thereon. The receivables collected during the fiscal year and during the first 45 days of the succeeding fiscal year are recognized as revenues in the current fiscal year.

Taxes receivable as of the end of the year (June 30) and not collected until the succeeding year are reported as unavailable revenues.

NOTE 3 - PROPERTY TAXES: (CONTINUED)

On April 18, 2000 the County adopted a resolution which established a separate tax district to pay all or any portion of the County's expenditures for operating the Westmoreland County school division. This resulted in two separate sets of tax rates. One set of rates for taxpayers residing in the area of the Town of Colonial Beach, and a different set of rates for those residing in the remainder of the County. For calendar year 2012 the rates per \$100 of assessed value were as follows:

| | | Placid Bay | |
|---------------------|----------------|-------------------|-----------|
| | Colonial Beach | Sanitary District | All Other |
| Real Estate | 0.29 | 0.06 | 0.48 |
| Personal Property | 1.61 | N/A | 3.00 |
| Machinery and Tools | 1.50 | N/A | 1.50 |
| Merchants Capital | 0.22 | N/A | 0.46 |

Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, 1950, as amended, changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments on-behalf of school boards was reported in the school board's discrete column along with the related capital assets. Under the law, local governments have a tenancy in common with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the School Board of Westmoreland, Virginia for the year ended June 30, 2014, is that school financed assets in the amount of \$2,669,746 are reported in the Primary Government for financial reporting purposes.

NOTE 9 - PENSION PLAN:

The County and Component Unit School Board participate in the Virginia Retirement System defined benefit pension plan.

A. <u>Plan Description</u>

Name of Plan: Virginia Retirement System (VRS) Identification of Plan: Agent and Cost-Sharing Multiple-Employer Pension Plan Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Members earn one month of service credit for each month they are employed and they and their employer are paying contributions to VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

Within the VRS Plan, the System administers three different benefit plans for local government employees - Plan 1, Plan 2, and, Hybrid. Each plan has different eligibility and benefit structures as set out below:

VRS – PLAN 1

- 1. Plan Overview VRS Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 2. Eligible Members Employees are in VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 3. Hybrid Opt-In Election VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under VRS Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 1 or ORP.

4. Retirement Contributions - Members contribute up to 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.

NOTE 9 - PENSION PLAN: (Continued)

A. <u>Plan Description: (Continued)</u>

VRS – PLAN 1 (CONTINUED)

- 5. Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.
- 6. Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.

Members are always 100% vested in the contributions that they make.

7. Calculating the Benefit - The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.

An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

- 8. Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
- **9.** Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.7% or 1.85% as elected by the employer.
- 10. Normal Retirement Age Age 65.
- 11. Earliest Unreduced Retirement Eligibility Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit at age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.

12. Earliest Reduced Retirement Eligibility - Members may retire with a reduced benefit as early as age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.

NOTE 9 - PENSION PLAN: (Continued)

A. Plan Description: (Continued)

VRS – PLAN 1 (CONTINUED)

- **13.Cost of Living Adjustment (COLA) in Retirement** The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.
- 14. Eligibility For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.

For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

- **15. Exceptions to COLA Effective Dates** The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:
 - The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
 - The member retires on disability.
 - The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
 - The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
 - The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.
- **16.** Disability Coverage Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1./% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

NOTE 9 - PENSION PLAN: (Continued)

A. <u>Plan Description: (Continued)</u>

VRS – PLAN 1 (CONTINUED)

17. Purchase of Prior Service - Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

VRS – PLAN 2

- 1. Plan Overview VRS Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 2. Eligible Members Employees are in VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 3. Hybrid Opt-In Election VRS Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under VRS Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 2 or ORP.

- 4. **Retirement Contributions** Same as VRS Plan 1–Refer to Section 4.
- 5. Creditable Service Same as VRS Plan 1 Refer to Section 5.
- 6. Vesting Same as VRS Plan 1-Refer to Section 6.
- 7. Calculating the Benefit Same as VRS Plan 1–Refer to Section 7.
- 8. Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.

NOTE 9-PENSION PLAN: (CONTINUED)

A. Plan Description (Continued)

VRS – PLAN 2 (CONTINUED)

- 9. Service Retirement Multiplier Same as Plan1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.
- **10.** Normal Retirement Age Normal Social Security retirement age.
- 11. Earliest Unreduced Retirement Eligibility Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.

- **12.** Earliest Reduced Retirement Eligibility Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.
- **13.** Cost-of-Living Adjustment (COLA) in Retirement The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.
- 14. Eligibility Same as VRS Plan 1-Refer to Section 14.
- 15. Exceptions to COLA Effective Dates Same as VRS Plan 1-Refer to Section 15.
- **16. Disability Coverage** Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Same as VRS Plan 1-Refer to Section 17.

NOTE 9-PENSION PLAN: (CONTINUED)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN

- 1. Plan Overview The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as VRS Plan 1 and VRS Plan 2 members who were eligible and opted into the plan during a special election window. (See "Eligible Members")
 - The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.
 - The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.
 - In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.
- 2. Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:
 - State employees*
 - School division employees
 - Political subdivision employees*
 - Judges appointed or elected to an original term on or after January 1, 2014
 - Members in VRS Plan 1 or VRS Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014
- 3. *Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement
 - Members of the State Police Officers' Retirement System (SPORS)
 - Members of the Virginia Law Officers' Retirement System (VaLORS)
 - Political subdivision employees who are covered by enhanced benefits for hazardous duty employees

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 9-PENSION PLAN: (CONTINUED)

A. <u>Plan Description (Continued)</u>

HYBRID RETIREMENT PLAN (CONTINUED)

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under VRS Plan 1 or VRS Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select VRS Plan 1 or VRS Plan 2 (as applicable) or ORP.

4. Retirement Contributions - A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

5. Creditable Service

<u>Defined Benefit Component</u> - Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

<u>Defined Contribution Component</u> - Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

6. Vesting

<u>Defined Benefit Component</u> - Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. VRS Plan 1 or VRS Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

<u>Defined Contribution Component</u> - Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.

Members are always 100% vested in the contributions that they make.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 9-PENSION PLAN: (CONTINUED)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (CONTINUED)

6. Vesting (Continued)

Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.

- After two years, a member is 50% vested and may withdraw 50% of employer contributions.
- After three years, a member is 75% vested and may withdraw 75% of employer contributions.
- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.

Distribution is not required by law until age $70\frac{1}{2}$.

7. Calculating the Benefit

<u>Defined Benefit Component</u> - Same as VRS Plan 1-Refer to Section 7.

<u>Defined Contribution Component</u> - The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

- 8. Average Final Compensation Same as VRS Plan 2-Refer to Section 8. It is used in the retirement formula for the defined benefit component of the plan.
- 9. Service Retirement Multiplier The retirement multiplier is 1.0%.

For members that opted into the Hybrid Retirement Plan from VRS Plan 1 or VRS Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

10. Normal Retirement Age

<u>Defined Benefit Component</u> - Same as VRS Plan 2-Refer to Section 10.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

11. Earliest Unreduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 9-PENSION PLAN: (CONTINUED)

A. <u>Plan Description (Continued)</u>

HYBRID RETIREMENT PLAN (CONTINUED)

12. Earliest Reduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

13. Cost-of-Living Adjustment (COLA) in Retirement

<u>Defined Benefit Component</u> - Same as VRS Plan 2-Refer to Section 13.

Defined Contribution Component - Not Applicable.

- 14. Eligibility Same as VRS Plan 1 and VRS Plan 2-Refer to Section 14.
- 15. Exceptions to COLA Effective Dates Same as VRS Plan 1 and VRS Plan 2-Refer to Section 15.
- **16. Disability Coverage** Eligible political subdivision and school division members (including VRS Plan 1 and VRS Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.

State employees (including VRS Plan 1 and VRS Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

Hybrid members (including VRS Plan 1 and VRS Plan 2 opt-ins) covered under VSDP or VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service

Defined Benefit Component - Same as VRS Plan 1 and VRS Plan 2-Refer to Section 17.

Defined Contribution Component - Not Applicable.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf</u>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 9-PENSION PLAN: (CONTINUED)

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employee-paid member contribution. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School Board's contribution rates for the fiscal year ended 2014 were 13.55% and 10.58% of annual covered payroll, respectively.

The School Board's contributions for professional employees were \$990,789, \$961,960, and \$501,935 to the teacher cost-sharing pool for the fiscal years ended June 30, 2014, 2013, and 2012, respectively and these contributions represented 11.66%, 11.66%, and 6.33% respectively, of current covered payroll.

C. Annual Pension Cost:

For fiscal year 2014, the County's annual pension cost of \$667,591 was equal to the County's required and actual contributions.

| Three-Year Trend Information - County | | | | | | | | | | |
|---------------------------------------|---|---------|------|------------|--|--|--|--|--|--|
| Fiscal Year Ending | Annual P Pension scal Year Ending <u>Cost</u> (APC) (1) <u>Co</u> | | | | | | | | | |

(1) Employer contribution only

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 9-PENSION PLAN: (CONTINUED)

C. Annual Pension Cost: (Continued)

The FY2014 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% for teachers and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the unfunded actuarial accrued liability (UAAL) was 30 years.

D. Funded Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the County's plan was 75.50% funded. The actuarial accrued liability for benefits was \$21,619,087, and the actuarial value of assets was \$16,322,199 resulting in an unfunded actuarial accrued liability (UAAL) of \$5,296,888. The covered payroll (annual payroll of active employees covered by the plan) was \$4,720,079 and ratio of the UAAL to the covered payroll was 112.22%.

As of June 30, 2013, the most recent actuarial valuation date, the School Board's plan was 82.04% funded. The actuarial accrued liability for benefits was \$3,703,226, and the actuarial value of assets was \$3,038,082, resulting in an unfunded actuarial accrued liability (UAAL) of \$665,144. The covered payroll (annual payroll of active employees covered by the plan) was \$833,222, and ratio of the UAAL to the covered payroll was 79.83%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

NOTE 10 - COMPENSATED ABSENCES:

In accordance with GASB Statement 16 "*Accounting for Compensated Absences*," the County and its component unit have accrued the liability arising from all outstanding compensated absences. The liability for future vacation and sick leave benefits is accrued when such benefits meet certain conditions. See note 11 for details of changes.

NOTE 11 - LONG TERM OBLIGATIONS:

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2014:

| | | July 1, 2013 As Restated | | lssuances/ Increases | Retirements/ Decreases | Balance June 30, 2014 |
|--|---------|--|--------|-------------------------|------------------------------------|--|

Annual requirements to amortize all long-term obligations and related interest are as follows:

| Year Ending June 30, | Principal | Interest |
|----------------------|------------------|-----------------|
| | | |
| 2015 | \$ 948,430 | \$ 634,476 |
| 2016 | 974,564 | 604,822 |
| 2017 | 995,829 | 574,145 |
| 2018 | 1,016,028 | 542,640 |
| 2019 | 905,860 | 510,294 |
| 2020-2024 | 2,421,619 | 2,250,320 |
| 2025-2029 | 1,651,671 | 1,747,639 |
| 2030-2034 | 1,529,473 | 1,167,313 |
| 2035-2039 | 1,849,601 | 843,499 |
| 2040-2044 | 1,993,529 | 459,260 |
| 2045-2049 | 1,322,615 | 130,973 |
| 2050 | 112,196 | 1,295 |
| Total | \$ 15,721,415 | \$ 9,466,676 |

Note: The above includes all long-term bonds, capital leases, treatment plant upgrade agreement, and early retirement incentive obligation. Compensated absences, Net OPEB obligation and landfill closure/postclosure liability are not included. The \$7,500,000 and \$1,031,000 revenue bonds will be included once all proceeds have been drawn by the County.

NOTE 12 - UNEARNED AND DEFERRED/UNAVAILABLE REVENUE:

At June 30, 2014:

| Primary Government: | - | Government-wide Statements Governmental Activities | | Balance Sheet Governmental Funds |
|--|----|---|----|---|
| Unavailable revenue representing uncollected property tax billings for which asset recognition criteria has not been met. The uncollected tax billings are not available for the funding of current expenditures. | \$ | - | \$ | 463,139 |
| Prepaid property tax revenues representing collections received for property taxes that are applicable to the subsequent budget year. | | 37,902 | | 37,902 |
| Unearned revenue representing grants and other items | - | 151,433 | | 151,433 |
| Total | Ş | 189,335 | Ş | 652,474 |

NOTE 13 - COMMITMENTS AND CONTINGENCIES:

Federal Programs

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

Construction Commitments

At June 30, 2014, the County has outstanding Construction Commitments in the amount of \$354,758 for Courthouse Construction and Dam Reconstruction.

NOTE 14 - LITIGATION:

At June 30, 2014 there were no matters of litigation involving the County which would materially affect the County financial position should any court decision or pending matter not be favorable to the County.

NOTE 15 - LANDFILL CLOSURE AND POST CLOSURE CARE COST:

The County closed its landfill prior to the date mandated by state and federal laws and regulations; thereby, reducing the liability period for post closure monitoring to ten years subsequent to closure. The \$1,143,245 reported as landfill closure and post closure liability at June 30, 2014, represents the remainder of the liability to close the landfill and the estimated liability for post closure monitoring as well as corrective action costs. These amounts are based on what it would cost to perform all closure and post closure care in 2014. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County has demonstrated financial assurance requirements for closure and postclosure care and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

NOTE 16 - RISK MANAGEMENT:

The County and Component Unit School Board are exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County and School Board participate with other localities in a public entity risk pool for their coverage of worker's compensation with Virginia Municipal League and public official's liability with the Virginia Association of Counties Group Self Insurance Risk Pool. The County and School Board pay an annual premium to the pools for its general insurance through member premiums and continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM:

County:

A. Plan Description:

The County Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. The plan is administered by the County. Participants in the Plan must be eligible to retire through the Virginia Retirement System and attain either (1) the age of 50 with at least 10 years of service with the County, or (2) the age of 55 with at least 5 years of service with the County. The plan has no separate financial report.

B. Funding Policy:

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. This is determined annually as part of the budgetary process. The retiree and spouse must pay 100% of the premium cost.

C. Annual OPEB Cost and Net OPEB Obligation:

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actuarially contributed to the plan, and changes in the County's net OPEB obligation:

| Annual required contribution \$ |) | 42,400 |
|--|---|---------|
| Interest on net OPEB obligation | | 1,404 |
| Adjustment to annual required contribution | | (1,483) |
| Annual OPEB cost (expense) \$ | | 42,321 |
| Contributions made | | (7,100) |
| Increase in net OPEB obligation \$ | | 35,221 |
| Net OPEB obligation-beginning of year | | 40,100 |
| Net OPEB obligation-end of year \$ | | 75,321 |

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM: (Continued)

County: (Continued)

C. <u>Annual OPEB Cost and Net OPEB Obligation: (Continued)</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 is as follows:

| Fiscal Year Ended | Annual OPEB Cost | _ | Percentage of Annual OPEB Cost Contributed | | Net OPEB Obligation |
|-------------------------|----------------------------|----|--|----|---------------------------|
| June 30, 2013 | \$ 40,100 | \$ | 0% | \$ | 40,100 |
| June 30, 2014 | 42,321 | | 17% | | 75,321 |

D. Funded Status and Funding Progress:

The funded status of the plan as of June 30, 2013 is as follows:

| Actuarial accrued liability (AAL) | \$ 273,900 |
|---|---------------|
| Actuarial value of plan assets | - |
| Unfunded actuarial accrued liability | 273,900 |
| Funded ratio (actuarial value of plan assets/AAL) | 0% |
| Covered payroll (active plan members) | 4,154,700 |
| UAAL as a percentage of covered payroll | 6.59% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. <u>Actuarial Methods and Assumptions:</u>

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM: (Continued)

County: (Continued)

E. Actuarial Methods and Assumptions: (Continued)

Cost Method

The cost method for valuation of liabilities used for this valuation is the Projected Unit Credit (PUC) Actuarial Cost Method. A PUC accrued benefit is determined for each active member in the Plan on the basis of the member's average final compensation projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

The actuarial liability and the normal cost for termination benefits, disability benefits, and preretirement spouse's death benefits are determined in a similar manner by projecting the member's average final compensation to each assumed date of termination, disablement, or death. The actuarial liability and normal cost for the supplemental benefits are based upon the present value of the expected supplement expected to be paid to those covered employees attaining eligibility. The actuarial liability for inactive members is determined as the actuarial present value of the pension and supplemental benefits expected to be paid.

The difference between the actuarial liability and the actuarial value of assets is the unfunded actuarial liability. The annual required contribution is the sum of the normal cost and the amount necessary to amortize the unfunded actuarial liability over the amortization period and is adjusted with one-half year's interest to reflect that payments are made throughout the year. The amortization amount is determined as a level percentage of payroll.

Interest Assumptions

In the June 30, 2013, the most recent actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 3.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.00 percent initially, reduced by decrements to an ultimate rate of 4.80 percent after seventy years. Both rates included a 3.00 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2013, was thirty years.

| | Unfunded | | |
|----------------|----------|-------|--|
| | | | |
| Discount rate | \$ | 3.50% | |
| Payroll growth | | 3.00% | |

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM: (Continued)

School Board:

A. Plan Description:

The School Board Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. The plan is administered by the School Board. Retired employees, who have attained the age of 50, who were employed by Westmoreland County Public Schools with at least 10 years of service which have attained the age of 50 or have at least 5 years of service and have attained the age of 55 are eligible for retiree medical benefits. The plan has no separate financial report.

B. Funding Policy:

The School Board establishes employer contribution rates for plan participants as part of the budgetary process each year. The School Board also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. This is determined annually as part of the budgetary process. The School Board contributes \$467.60 per month towards participants' premiums, and \$567.00 per month for retiree and spouse/dependent coverage, participating retirees pay the remainder of the monthly premiums. Surviving spouses are not allowed access to the plan.

C. Annual OPEB Cost and Net OPEB Obligation:

The School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the School Board's annual OPEB cost for the year, the amount actuarially contributed to the plan, and changes in the School Board's net OPEB obligation:

| Annual required contribution | \$ 108,200 |
|--|-----------------|
| Interest on net OPEB obligation | 53,701 |
| Adjustment to annual required contribution | (56,734) |
| Annual OPEB cost (expense) | \$ 105,167 |
| Contributions made | (60,800) |
| Increase in net OPEB obligation | \$ 44,367 |
| Net OPEB obligation-beginning of year | 1,534,303 |
| Net OPEB obligation-end of year | \$ 1,578,670 |

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM: (Continued)

School Board: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years are as follows:

| Fiscal Year Ended | Annual OPEB Cost | | Percentage of Annual OPEB Cost Contributed | | Net OPEB Obligation |
|-------------------------|------------------------|----|--|----|---------------------------|
| June 30, 2012 | \$ 442,644 | \$ | 27% | \$ | 1,207,788 |
| June 30, 2013 | 477,764 | | 32% | | 1,534,303 |
| June 30, 2014 | 105,167 | | 58% | | 1,578,670 |

D. Funded Status and Funding Progress:

The funded status of the plan as of January 1, 2013 is as follows:

| Actuarial accrued liability (AAL) | \$ 1,246,700 |
|---|-----------------|
| Actuarial value of plan assets | - |
| Unfunded actuarial accrued liability | 1,246,700 |
| Funded ratio (actuarial value of plan assets/AAL) | 0% |
| Covered payroll (active plan members) | 9,445,600 |
| UAAL as a percentage of covered payroll | 13.20% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. <u>Actuarial Methods and Assumptions:</u>

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Notes to Financial Statements As of June 30, 2014 (Continued)

NOTE 18-OTHER POSTEMPLOYMENT BENEFIT HEALTH INSURANCE PROGRAM: (Continued)

School Board: (Continued)

E. <u>Actuarial Methods and Assumptions: (Continued)</u>

Cost Method

The cost method for valuation of liabilities used for this valuation is the Projected Unit Credit (PUC) Actuarial Cost Method. A PUC accrued benefit is determined for each active member in the Plan on the basis of the member's average final compensation projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

The actuarial liability and the normal cost for termination benefits, disability benefits, and preretirement spouse's death benefits are determined in a similar manner by projecting the member's average final compensation to each assumed date of termination, disablement, or death. The actuarial liability and normal cost for the supplemental benefits are based upon the present value of the expected supplement expected to be paid to those covered employees attaining eligibility. The actuarial liability for inactive members is determined as the actuarial present value of the pension and supplemental benefits expected to be paid.

The difference between the actuarial liability and the actuarial value of assets is the unfunded actuarial liability. The annual required contribution is the sum of the normal cost and the amount necessary to amortize the unfunded actuarial liability over the amortization period and is adjusted with one-half year's interest to reflect that payments are made throughout the year. The amortization amount is determined as a level percentage of payroll.

Interest Assumptions

In the January 1, 2013, the most recent actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 3.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.70 percent initially, reduced by decrements to an ultimate rate of 4.80 percent after seventy-two years. Both rates included a 3.00 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at January 1, 2013, was thirty years.

NOTE 19 -OTHER POSTEMPLOYMENT BENEFITS - VRS HEALTH INSURANCE CREDIT:

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Localities may elect to provide an additional health insurance credit of \$1 per month for each full year of the retired members' creditable service, not to exceed a maximum monthly credit of \$30. The enhanced credit is available for constitutional officers and their employees, local social services employees, and general registrars and their employees. Whereas the \$1.50 health credit cost is borne by the Commonwealth, the costs of such additional health insurance credit shall be borne by the locality.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 9.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the <u>Code of Virginia</u> and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2014 was .28% of annual covered payroll.

C. OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2014, the County's contribution of \$1,407 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows:

NOTE 19 -OTHER POSTEMPLOYMENT BENEFITS- VRS HEALTH INSURANCE CREDIT: (Continued)

C. OPEB Cost and Net OPEB Obligation: (Continued)

| Fiscal Year Ending | Annual OPEB Cost | Percentage of OPEB Contributed | Net OPEB Obligation |
|---|-------------------------------|--------------------------------------|---------------------------|
| June 30, 2014 June 30, 2013 June 30, 2012 | \$ 1,407 4,702 3,578 | 100% 100% 100% | |

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2013, the most recent actuarial valuation date, is as follows:

| Actuarial accrued liability (AAL) | \$ 50,214 |
|---|--------------|
| Actuarial value of plan assets | 9,624 |
| Unfunded actuarial accrued liability | 40,590 |
| Funded ratio (actuarial value of plan assets/AAL) | 19.17% |
| Covered payroll (active plan members) | 1,414,344 |
| UAAL as a percentage of covered payroll | 2.87% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2013 was 30 years.

NOTE 19 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) - VRS HEALTH INSURANCE CREDIT (Continued)

F. Professional Employees - Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2014, 2013, and 2012 were \$51,385, \$51,324, and \$47,577, respectively and equaled the required contributions for each year.

NOTE 20 - UPCOMING GASB PRONOUNCEMENTS:

At June 30, 2014, the Governmental Accounting Standards Board (GASB) had issued statements not yet implemented by the County. The statements which might impact the City are as follows:

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, will improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. Statement No. 68 will be effective for fiscal years beginning after June 15, 2014.

The County has not yet determined the effect these GASB Statements will have on its financial statements.

NOTE 21 - RESTATEMENT OF BEGINNING NET POSITION:

Beginning net position was restated as follows:

| | Cc | let Position - mponent Unit School Board |
|--|----|--|
| Beginning balances as previously reported | \$ | 5,812,016 |
| Restatement to early retirement obligation | | (100,754) |
| Beginning balances as restated | \$ | 5,711,262 |

REQUIRED SUPPLEMENTARY INFORMATION

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the Board of Supervisors County of Westmoreland, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Westmoreland, Virginia as of and for the year ended June 30, 2014, and the related notes to the financial statements and have issued our report thereon dated March 2, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Westmoreland, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Westmoreland, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Westmoreland, Virginia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses (2014-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Westmoreland, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Westmoreland, Virginia's Response to Findings

County of Westmoreland, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Westmoreland, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

To the Honorable Members of the Board of Supervisors County of Westmoreland, Virginia

Report on Compliance for Each Major Federal Program

We have audited County of Westmoreland, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Westmorland, Virginia's major federal programs for the year ended June 30, 2014. County of Westmoreland, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Westmoreland, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Westmoreland, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Westmorland, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Westmoreland, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of County of Westmoreland, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Westmorland, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Westmorland, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance of deficiencies, in internal control over compliance with a type of compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to the schedule of expenditures of federal awards.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2014

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Westmoreland, Virginia under programs of the federal government for the year ended June 30, 2014. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County of Westmoreland, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Westmoreland, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

| Primary government: | |
|---|-----------------|
| General Fund | \$ 1,196,786 |
| General Fund - Rural Development Loan Proceeds | 6,578,971 |
| Less: Payments in Lieu of Taxes | (1,418) |
| Total primary government | \$ 7,774,339 |
| Component Unit School Board: | |
| School Operating Fund | \$ 1,153,020 |
| School Cafeteria Fund | 662,430 |
| Total Component Unit School Board | \$ 1,815,450 |
| Total expenditures of federal awards per basic | |
| financial statements | \$ 9,589,789 |
| Less: Interest Subsidy | \$ (97,322) |
| Total expenditures of federal awards per the Schedule of Expenditures | |
| of Federal Awards | \$ 9,492,467 |

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2014

Yes

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2014 (continued)

Section II - Financial Statement Findings

2014-001 - Bank Reconciliation:

<u>Criteria:</u>

The reconciliation of material cash balances in the automated accounting system to a detailed bank statement is a critical internal control for the prevention of material misstatements in the financial statements.

Condition:

The primary checking account statement for the month ended June 30, 2014 had a unreconciled variance between the bank reconciliation and the balance reported in the automated accounting system.

Cause and Context of Condition:

The position of the Treasurer experienced a turnover on May 30, 2014 as the former Treasurer retired. All cash balances as of May 30, 2014 were reconciled. Subsequent to the turnover in the Treasurer position, internal controls over the bank reconciliation process were not operating effectively.

Effect of Condition:

The cash amounts recorded in the automated accounting system may not be accurate leading to misstatements of cash balances.

Recommendation:

The Treasurer's Office should make improvements to the bank reconciliation process to make the reconciliations as timely, efficient and accurate as possible. All reconciling items should be investigated and, if needed, communicate with the Finance Department any necessary adjustments to be posted in the automated accounting system. This entire process should be completed within 15 days of month end to ensure that all transactions are properly recorded in the automated accounting system and to prevent bank overdrafts.

Management's Response:

There has been another turnover of the Treasurer position subsequent to June 30, 2014. The County is taking steps to ensure that bank reconciliations are completed in a accurate and timely manner.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.

Summary Schedule of Prior Audit Findings Year Ended June 30, 2014

There were no prior year audit findings.
