# Board of Directors King George County Service Authority And Interested Parties

The Annual Comprehensive Financial Report (ACFR) of the King George County Service Authority (Authority) is submitted herewith for the fiscal year ending June 30, 2024. The information in this report is believed by Authority management to be sufficient to fully represent the financial results of the Authority's operations for the year ended June 30, 2024, and to provide an accurate and useful picture of the Authority's status as of that date. All information included is the responsibility of the management of the Authority with respect to accuracy, completeness, and fairness.

#### ORGANIZATION AND SERVICES PROVIDED

The King George County Service Authority was established under the *Virginia Water and Sewer Authorities Act* (1950, as amended), to supply drinking water and to provide wastewater collection and treatment in certain areas of King George County. The Authority is governed by a five-member board comprised of the government's elected supervisors or their appointees and is therefore considered a blended component unit of the County. Blended component units, although legally separate entities, are in substance, part of the government's operations. The Board appoints a General Manager, who manages Authority operations under their direction.

The Authority operates and maintains nine (9) water systems and five (5) wastewater treatment plants and the associated water storage facilities, pumping stations, transmission mains and interceptor sewers. The Authority has 250 miles of water mains which service approximately 4,539 customers and has 200 miles of sanitary sewer lines which service approximately 2,705 customers.

#### LOCAL ECONOMY

The County has a diversified economy with a strong government, professional services, manufacturing, retail, and agricultural sectors. That strength is appreciated in the County's gross domestic product (GDP), which increased to \$2.5 billion dollars in 2022. In 2023, the per capita personal income increased to \$64,018, and the County continued to see growth in total employment reaching it's peak in July with 14,810. With increases in employment and population, the combined County's personal income rose to \$1.8 billion in 2022. This is a strong indicator that the County is continuing to create high-paying jobs and attracting the right kind of private investment to the community.

### LOCAL ECONOMY (CONTINUED)

Naval Support Facility (NSF) Dahlgren primarily drives the economic growth in the County, and it is the largest federal research and development employer in the Commonwealth of Virginia. Currently NSF Dahlgren employs more than 5,900 federal civilian personnel and nearly 400 military personnel. Over 4,000 defense contractor employees support the installation and various commands and programs. Year over year the NSF Dahlgren generates more than \$1.1 billion in economic impact that has a ripple effect on the local economies in the form of payroll dollars and defense contracts. The combined payroll of the base's workforce alone totaled more than \$700 million. An additional \$444 million in defense contract spending was awarded to companies in the region.

### MAJOR INITIATIVES / PROSPECTS FOR THE FUTURE

The projects and their status in the CIP are listed below:

#### **Active Projects**

- Hopyard WWTP Modifications/Purkins Corner WWTP Decommissioning Project
  - Status: Pre-Construction Awarded: 12/2024 Expected Completion: Fall 2026
  - Description: The Hopyard Farms Wastewater Treatment Plant Modifications includes extensive improvements such as, the demolition of outdated equipment, installation of advanced screens, comminutors, and UV channels, construction of a new pavilion structure, enhancements to the digester, and post-equalization tank, electrical system upgrades, and various mechanical process improvements along with related site work. Decommissioning the Purkins Corner Wastewater Treatment Plant includes the demolition of structures, equipment, and piping, abandonment of the outfall system, electrical system demolition, and associated site work to facilitate the process. The Pump Station upgrades involve the rehabilitation and enhancement of several pump stations across King George County.
  - Current Activity: Contractor is preparing submittals and obtaining necessary permits.

10459 Courthouse Drive, Suite 200 King George, VA 22485 Telephone: (540) 775-9181 Fax: (540) 775-5248

### MAJOR INITIATIVES / PROSPECTS FOR THE FUTURE (CONTINUED)

#### **Active Projects (Continued)**

- Purkins Corner FM & WM Extension
  - Status: Pre-Construction Awarded: 12/2024 Expected Completion: Fall 2026
  - Description: This initiative will connect the Courthouse Water System to the Hopyard Water System through the installation of approximately 11,000 linear feet of 12-inch water main and a pressure-reducing valve vault. In addition, the project will connect the Courthouse area sewer system with the Hopyard WWTP by installing approximately 19,000 linear feet of 10-inch and 12-inch force main.
  - Current Activity: Contractor is obtaining necessary permits. Submittals have been received and are being reviewed by the County and Engineer.
- Circle to Courthouse Interconnected Water System
  - Status: Pre-Construction Awarded: 11/2024 Expected Completion: Fall 2025
  - Description: This interconnection project includes the installation of approximately 4,300 linear feet of 8-inch PVC waterline, 60 linear feet of 8-inch ductile iron waterline, and the addition of associated valves, hydrants, fittings, and other related components.
  - Current Activity: Contractor is obtaining necessary permits. Submittals have been received and are being reviewed by the County and Engineer.
- Canterbury to Courthouse Interconnected Water System

Status: In Progress Awarded: 11/2024 Expected Completion: Fall 2025

- Description: This project involves extending an 8-inch waterline from the easternmost portion of the Courthouse water system to the southernmost portion of the Canterbury water. The scope of work includes the installation of 8-inch PVC waterline, 8-inch ductile iron waterline, and the addition of associated valves, hydrants, fittings, and other related components.
- Current Activity: Contractor began construction January 2025

### MAJOR INITIATIVES / PROSPECTS FOR THE FUTURE (CONTINUED)

#### **Active Projects (Continued)**

Arnolds Corner Well Improvements

Status: In Progress Awarded: 10/2024 Expected Completion: Summer 2025

- Description: This project involves the removal and replacement of a 10'x12' well building, installation of new water piping, the removal of outdated tanks, and new electrical equipment to support the upgraded facility.
- Current Activity: Contractor began construction January 2025
- Potomac Landing/Fairview Beach Well

Status: In Progress Awarded: 10/2024 Expected Completion: Spring 2025

- Description: This project involves constructing a 360-foot-deep well to produce at least 95 gallons per minute, with tasks including drilling, testing, and water sampling near the existing well.
- Current Activity: Contractor began construction January 2025
- Peppermill Well
  - Status: Pre-Construction Awarded: 11/2024 Expected Completion: Summer 2025
  - Description: The new Peppermill Well project involves drilling a 960-foot-deep well capable of producing at least 360 gallons per minute, with tasks including drilling, testing, and water sampling.
  - Current Activity: Contractor is preparing submittals

10459 Courthouse Drive, Suite 200 King George, VA 22485 Telephone: (540) 775-9181 Fax: (540) 775-5248

### MAJOR INITIATIVES / PROSPECTS FOR THE FUTURE (CONTINUED)

#### **Active Projects (Continued)**

- Dahlgren Sewer Line Rehabilitation
  - Status: Pre-Construction Awarded: 11/2024 Expected Completion: Summer 2025
  - Description: The project involves rehabilitating the interior of manholes and lining approximately 14,000 linear feet of 8-inch sewer piping. This process includes applying concrete to restore damaged areas, conducting thorough cleaning, installing a new 8-inch liner, and ensuring the proper reinstatement of all active service connections.
  - Current Activity: Planning is underway to notify citizens in the affected area of the work to be performed
- Oakland Park WWTP Decommissioning Project
  - Status: Planning
  - Description: A preliminary engineering report is being developed to evaluate the decommissioning of the Oakland Park WWTP and to assess the upgrades necessary for redirecting flows to the Hopyard WWTP. This evaluation encompasses the affected force mains and pump stations, as well as discussing the feasibility of a proposed water main that will connect the Oakland Park, Hopyard, and Courthouse water systems.
  - Current Activity: Consultant is revising the report to include recent comments from KGCSA.

#### LONG TERM FINANCIAL PLANNING

The Authority prepares a Capital Improvement Plan (CIP) annually. The CIP serves as a planning tool to analyze initiatives, formulate service levels and phase—in funding needed for facilities. Long-term financing is primarily achieved with long-term revenue bonds.

#### SERVICE AUTHORITY BOARD OF DIRECTORS

10459 Courthouse Drive, Suite 200 King George, VA 22485 Telephone: (540) 775-9181 Fax: (540) 775-5248

#### ACCOUNTING AND BUDGETARY CONTROLS

The Authority's accounting records are maintained on the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recorded when incurred, without regard to receipt or payment of cash. Current controls provide reasonable assurance that the Authority's assets are properly recorded and protected, and that the financial data may be used with confidence in the preparation of historical reports and projections. Accounting control is maintained by segregation of duties and data security systems in all areas of record keeping, disbursements, and purchasing authority. All of these control systems are reviewed regularly by staff and are evaluated as part of the annual financial audit (see Annual Audit section below). Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. In this regard, we believe that the Authority's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

A proposed budget for each fiscal year is prepared by the General Manager and Director of Finance and submitted to the Board of Directors, usually in March, with a public hearing held on the proposed rates in April or May. Budgetary compliance is monitored and reported to the Board by the Director of Finance and General Manager. Projections of both revenues and expenses are understood to reflect anticipated service levels and to incorporate a variety of economic, climatic, and demographic forecasts.

#### OTHER INFORMATION

Management's Discussion and Analysis: Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County of King George's MD&A can be found immediately following the report of the independent auditors.

#### OTHER INFORMATION (CONTINUED)

Independent Audit: The Commonwealth of Virginia requires an annual audit of the financial records and transactions of all departments of the County by independent certified public accountants selected by the Board of Supervisors. The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Information related to this single audit, including the findings and recommendations, and auditors' reports on the internal control structure and compliance with laws and regulations, is contained in this report. These requirements have been complied with and the auditor's opinion is included in this report.

**Awards:** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting Program to the County of King George, Virginia for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2023. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Annual Comprehensive Financial Report conforms to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a certificate.

**Acknowledgments:** The preparation of this report on a timely basis could not have been accomplished without the dedicated services of the entire Department of Finance. We would like to express our appreciation to all the members of the staff who assisted and contributed to its preparation. We would also like to thank the Board for their continued interest and support in planning and conducting the financial operation of the Authority in a responsible, timely and progressive manner.

Respectfully Submitted,

Cathy Binder

#### **Independent Auditors' Report**

To the Honorable Members of Board of Directors King George County Service Authority King George, Virginia

#### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the accompanying financial statements of the business-type activities of King George County Service Authority, component unit of County of King George, Virginia, as of and for the year ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of King George County Service Authority, as of June 30, 2024 and 2023, and the changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities*, *Boards*, *and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of King George County Service Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about King George County Service Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Authorities, Boards, and Commissions* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Authorities, Boards, and Commissions*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of King George County Service Authority's internal control. Accordingly, no such opinion
  is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about King George County Service Authority's ability to continue as a going
  concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2025, on our consideration of King George County Service Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of King George County Service Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering King George County Service Authority's internal control over financial reporting and compliance.

Robinson, Farmer, Cox Associases Fredericksburg, Virginia

January 23, 2025

#### **Management's Discussion and Analysis**

As management of the King George County Service Authority (the Authority), we offer readers of our financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introduction section of this report.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements.

**Enterprise fund financial statements**. The enterprise fund financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The statement of net position presents information on the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the excess of assets and deferred outflows of resources over liabilities and deferred inflows of resources reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how the Authority's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g. earned but unused vacation leave).

The basic enterprise fund financial statements can be found on Exhibits 1 through 3 of this report.

**Notes to financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

#### **Financial Highlights**

- The assets and deferred outflows of resources of the Authority decreased its liabilities and deferred inflows of resources at the close of the most recent fiscal year to \$26.1 million (net position).
- The Authority's total net position increased by \$2.1 million for Fiscal Year 2024. Operating income in FY24 was \$1.6 million; the increase in net position is mainly attributable to an increase in operating revenues.
- The Authority's operating revenues increased by \$1 million compared to prior year. This is mainly due to increases in water sales and other revenues.

#### **Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of an Authority's financial position. In the case of the Authority, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$26.1 million at the close of the most recent fiscal year. The same period ended last fiscal year was \$23.9 million.

\$14.7 million of the Authority's net position reflects its net investment in capital assets used to acquire those assets that are still outstanding. The Authority uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to pay these liabilities. The Authority's unrestricted net position was \$11.3 million for the year ended June 30, 2024 which was an increase of \$3.1 million compared to the same period ended June 30, 2023.

	_	Net Position						
		2024	2023	2022				
	•			_				
Current and other assets	\$	12,929,458	\$	10,074,602	\$	10,167,797

#### **Financial Analysis: (Continued)**

Major reasons are as follows:

- Operational revenues increased in FY2024 overall mainly due to increases in water sales and other revenues. Operational revenues decreased in FY2023 overall mainly due to decreases in availability fees revenues.
- There was an increase in operational expenses in FY2024 in comparison to FY2023 in the amount
  of \$911,444. This increase in operational expenses was primarily related to contractual services
  expenses. There was an increase in operational expenses in FY2023 in comparison to FY2022 in
  the amount of \$680,081. This increase in operational expenses was primarily related to contractual
  services expenses.
- In FY2022 the Authority received one-time revenue in the amount of \$611,281 in the form of developer contributions, by comparison there were no developer contributions received in FY2024 or FY2023.

#### **Capital Asset and Debt Administration**

<u>Capital Assets</u> - The Authority's investment in capital assets as of June 30, 2024 totals \$36.5 million (net of accumulated depreciation) and \$37 million as of June 30, 2023. Investment in capital assets decreased \$523,312 in FY2024 compared to a increase of \$264,820 million in FY2023. Details supporting changes in capital asset activity including construction in progress can be found in Note 4 to the financial statements.

<u>Long-Term Debt</u> - At the end of the current fiscal year, the Authority has \$22.7 million in bonds, notes, and other long term obligations outstanding which is a increase of \$134,749 in comparison to the prior year. Fiscal Year ended 2023 debt was \$22.6 million or a decrease of \$928,393 compared to Fiscal Year ended 2022. The increase in long-term obligations in FY2024 was mainly attributed to monies drawn on the line of credit partially offset by the repayment of principal thru debt service payments, details supporting each individual long-term debt retirement can be found in Note 5 to the financial statements.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, at 10459 Courthouse Drive, King George, Virginia, 22485.

The accompanying notes to financial statements are an integral part of this statement.

Notes to Financial Statements As of June 30, 2024 and 2023

#### **NOTE 1-BASIS OF PRESENTATION:**

#### A. Organization and Purpose

The King George County Service Authority was created by the King George County Board of Supervisors, pursuant to the provisions of the Virginia Water and Sewer Authorities Act, Section 15.1-1239 through Section 15.1-1270 of the Code of Virginia 1950, as amended.

The By-laws and rules for the transaction of the business of the King George County Service Authority are made pursuant to authority vested in this Authority by Section 15.1-1250(b), <u>Code of Virginia</u>, 1950, as amended and in accordance with the general provisions of the Virginia Water and Sewer Authorities Act.

#### B. Financial Reporting Entity

The King George County Service Authority is reported as a blended component unit of the County of King George. The Authority is governed by a board comprised of the government's elected supervisors. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government.

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

#### A. Basic Financial Statements

Since the Authority is only engaged in business-type activities, it is required to present only the financial statements required for enterprise funds. For the Authority, the basic financial statements and required supplementary information consist of:

- Management's Discussion and Analysis
- Schedules related to Pension and OPEB Funding
- Enterprise fund financial statements
  - Statement of Net Position
  - Statement of Revenues, Expenses and Changes in Net Position
  - Statement of Cash Flows
  - Notes to Financial Statements

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### B. Basis of Accounting

The King George County Service Authority operates as an enterprise fund and its accounts are maintained on the accrual basis of accounting. Under this method, revenues are recognized when earned, and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash. The Authority accrues revenue for services rendered but not yet billed at the end of the fiscal year.

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. The Authority also recognizes as operating revenue the portion of availability charges intended to recover the cost of connecting new customers to the system. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### C. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits and short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

#### D. Restricted Assets

Certain proceeds of the Authority's revenue bonds, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts to be expended on various water and sewer capital projects.

#### E. Capital Assets

Capital assets are tangible and intangible assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items). Capital assets, except for infrastructure assets, are defined by the Authority as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. For infrastructure asset the same estimated minimum useful life is used (in excess of two years), but only those infrastructure projects that cost more than \$100,000 are reported as capital assets.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### E. Capital Assets: (Continued)

As the Authority constructs or acquires capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost (except for intangible right-to-use lease assets (lease assets), the measurement of which is discussed in more detail below). The reported value excludes normal maintenance and repairs, which are amounts spent in relation to capital assets that do not increase the asset's capacity or efficiency or increases its estimated useful life. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Land and construction in progress are not depreciated. The other tangible and intangible property, plant equipment, lease assets, and infrastructure are depreciated/amortized using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Source of supply structures	40, 50
Vehicles	5
Office equipment	5
Lease equipment	3-5
Meters, pumps	10, 40

### F. Other Significant Accounting Policies

- All trade receivables are shown net of an allowance for uncollectibles. The Authority calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to \$537,005 and \$330,658 at June 30, 2024 and 2023 respectively.
- Investments are reported at fair value.
- Inventory of materials and supplies is stated at cost using the first-in, first-out method of valuation.

#### G. <u>Use of Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Authority has two items that qualify for reporting in this category. The first item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding resulted from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item is comprised of certain items related to pension and OPEB. For more detailed information on these items reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has one item that qualifies for reporting in this category. Certain items related to pension, leases and OPEB are reported as deferred inflows of resources. For more detailed information on this item, reference the related notes.

#### I. Net Position

The difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/ amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Assets are reported as restricted when constraints are placed on asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### I. Net Position: (Continued)

Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### J. Prepaid Connection Fees

Prepaid connection fees are non-refundable deposits received in advance for water and/or sewer connection fees. The amounts are recorded as revenue when the connection is made.

#### K. Compensated Absences

The Authority accrues compensated absences (annual and sick leave benefits) when vested. The current and noncurrent portions of the compensated absences liabilities are recorded as accrued liabilities.

#### L. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority Retirement Plan and the additions to/deductions from the Authority Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### M. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI OPEB Plan and the additions to/deductions from the VRS OPEB Plans' net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### N. Leases

The Authority leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

#### Lessee

The Authority recognizes lease liabilities and intangible right-to-use lease assets (lease assets) in the financial statements. At the commencement of the lease, the lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease liability is reduced by the principal portion of payments made. The lease asset is measured at the initial amount of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. The lease asset is amortized over the shorter of the lease term or the useful life of the underlying asset.

#### Lessor

The Authority recognizes leases receivable and deferred inflows of resources in the financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

#### Key Estimates and Judgments

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Authority uses the interest rate stated in lease contracts. When the interest rate is not
  provided or the implicit rate cannot be readily determined, the Authority uses their estimated
  incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by
  options to extend to reflect how long the lease is expected to be in effect, with terms and
  conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease liability (lessee) or lease receivable (lessor).

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### N. Leases: (Continued)

The Authority monitors changes in circumstances that would require a remeasurement or modification of its leases. The Authority will remeasure the lease asset and liability (lessee) or the lease receivable and deferred inflows of resources (lessor) if certain changes occur that are expected to significantly affect the amount of the lease liability or lease receivable.

#### **NOTE 3-DEPOSITS AND INVESTMENTS:**

#### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard & Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

#### Interest Rate Risk

The Authority does not have a policy related to interest rate risk.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

Net Pension Liability	\$_	45,040	\$_	_
Total long-term obligations	\$_	22,721,935	\$_	2,750,630

The Authority has no Arbitrage rebate liability at June 30, 2024.

#### **NOTE 6-COMPENSATED ABSENCES:**

The Authority has accrued the liability arising from outstanding claims and judgments and compensated absences.

The Authority accrues vacation and sick leave at various rates. No benefits or pay is received for unused sick leave upon termination. The Authority had outstanding accrued vacation pay at June 30, 2024 and 2023 in the amounts of \$44,171 and \$35,046, respectively.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### **NOTE 7-UNEARNED REVENUE:**

Unearned revenue represents amounts for which assets recognition criteria have been met, but for which revenue recognition criteria have not been met. Unearned revenue totaled \$502,932 and \$882,355 at June 30, 2024 and 2023, respectively, and consisted of prepaid connection fees.

#### **NOTE 8-LITIGATION:**

At June 30, 2024, there were no matters of litigation involving the Authority which would materially affect the Authority's financial position should any court decisions on pending matters not be favorable.

#### **NOTE 9-PENSION PLAN:**

## Plan Description

All full-time, salaried permanent employees of the Authority are automatically covered by the County of King George, Virginia Pension Plan, agent multiple employer plan. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. However, several entities whose financial information is not included in the primary government report participate in the VRS plan through County of King George, Virginia and the participating entities report their proportionate information on the basis of a cost-sharing plan. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

#### Benefit Structures

The System administers three different benefit structures for covered employees – Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 9-PENSION PLAN: (CONTINUED)

### Benefit Structures: (Continued)

- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

### Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 9-PENSION PLAN: (CONTINUED)

### Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

#### **Contributions**

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Authority's contractually required contribution rates for the years ended June 30, 2024 and 2023 were 12.10% and 12.10% of covered employee compensation, respectively. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Authority were \$18,336, \$48,467, and \$47,710 for the years ended June 30, 2024, June 30, 2023, and June 30, 2022, respectively.

#### Net Pension Liability (Asset)

The net pension liability (Asset) (NPA) is calculated separately for each employer and represents that particular employer's total pension liability (asset) determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. At June 30, 2024, the Authority reported a liability of \$45,040 for its proportionate share of the net pension liability (asset). The Authority's net assets were measured as of June 30, 2023. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of June 30, 2022 rolled forward to the measurement date of June 30, 2023. The Authority's proportionate share of the same was calculated using creditable compensation as a basis for allocation. At June 30, 2024, June 30, 2023, and June 30, 2022, the Authority's proportion was .99%, 2.65% and 3.60% respectively.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### **NOTE 9-PENSION PLAN: (CONTINUED)**

### Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Authority's Retirement Plan was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation 2.50%

Salary increases, including inflation 3.50% – 5.35%

Investment rate of return 6.75%, net of pension plan investment

expense, including inflation

### Mortality rates:

All Others (Non-10 Largest) – Non-Hazardous Duty: 15% of deaths are assumed to be service-related

#### Pre-Retirement:

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### **NOTE 9-PENSION PLAN: (CONTINUED)**

### Actuarial Assumptions – General Employees (Continued)

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-	Update to Pub-2010 public sector mortality tables. For future					
retirement healthy, and disabled)	mortality improvements, replace load with a modified Mortality

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males and females set forward 2 years

### Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

### All Others (Non 10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, post-	Update to Pub-2010 public sector mortality tables. Increased						
retirement healthy, and disabled)	disability life expectancy. For future mortality improvements,

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

## NOTE 9-PENSION PLAN: (CONTINUED)

### Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
MAPS - Multi-Asset Public Strategies	4.00%	4.50%	0.18%
PIP - Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
Total	100.00%		5.75%
		Inflation	2.50%
	Expected arithmetic	nominal return**	8.25%

<sup>\*</sup>The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

<sup>\*\*</sup>On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### **NOTE 9-PENSION PLAN: (CONTINUED)**

#### Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the Authority was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2022 actuarial valuations, whichever was greater. From July 1, 2023, on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Authority's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the Authority's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

		1% Decrease (5.75%)		Current Discount Rate (6.75%)	1% Increase (7.75%)
Authority's net pension liability (asset)	_		-		
2024	\$	128,592	\$	45,040	\$ (22,952)
2023		323,816		116,230	(51,826)

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 9-PENSION PLAN: (CONTINUED)

## Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the years ended June 30, 2024 and 2023, the Authority recognized pension expense of \$19,720 and \$82,559 respectively. At June 30, 2024 and 2023, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 30, 2024			 June 30, 2023			
	Deferred Outflows of Resources		Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 22,203	\$	-	\$ 40,705	-		
Change in assumptions	8,903		-	26,359	-		
Net difference between projected and actual earnings on pension plan investments	-		39,819	-	57,579		
Changes in proportionate share	-		54,606	8,411	-		
Employer contributions subsequent to the measurement date	18,336	_	-	 48,467			
Total	\$ 49,442	\$_	94,425	\$ 123,942	57,579		

\$18,336 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future accounting periods as follows:

June 30	_	
2025	\$	(12,566)
2026		(51,715)
2027		755
2028		207
Thereafter		-

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 9-PENSION PLAN: (CONTINUED)

#### Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2023-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2023-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

#### **NOTE 10-RISK MANAGEMENT:**

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority joined together with other local governments in the State to form the Virginia Municipal Group Self Insurance Association, a public entity risk pool currently operating as a common risk management and insurance program for member governments. The Authority pays an annual premium to the pool for its workers compensation coverage. The Agreement for Formation of the association provides that the association will be self-sustaining through member premiums.

The Authority continues to carry commercial insurance for all other risks of loss, including general liability and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN):

#### Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS Group Life Insurance Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

### Plan Description: (Continued)

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured Plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

### Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the Plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

#### **Benefit Amounts**

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute. This amount is increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$9,254 as of June 30, 2024.

#### **Contributions**

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54%

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

### Contributions: (Continued)

(1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2024 was 0.54% of covered employee compensation. This rate was the final approved General Assembly rate, which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the GLI Plan from the Authority were \$862, \$2,270, and \$2,849 for the years ended June 30, 2024, June 30, 2023 and June 30, 2022, respectively.

In June 2023, the Commonwealth made a special contribution of approximately \$10.1 million to the Group Life Insurance Plan. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a special employer contribution. The entity's proportionate share is reflected in the financial statements.

## GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

At June 30, 2024 and June 30, 2023, the Authority reported a liability of \$21,402 and \$29,208, respectively, for their proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2023 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2022 and rolled forward to the measurement date of June 30, 2023. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Plan for the year ended June 30, 2023 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2023, the Authority's proportion was .00178%, as compared to .00243% at June 30, 2022.

For the year ended June 30, 2024 and June 30, 2023, the Authority recognized GLI OPEB expense of \$1,750 and \$2,078, respectively. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

## NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

## GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

At June 30, 2024 and June 30, 2023, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	June 30	, 2024	June 30, 2023			
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 2,138 \$	650 \$	2,313 \$	1,172		
Net difference between projected and actual earnings on GLI OPEB program investments	-	860	-	1,825		
Change in assumptions	457	1,483	1,089	2,845		
Changes in proportionate share	2,124	17	3,946	4		
Employer contributions subsequent to the measurement date	862		2,270			
Total	\$ 5,581 \$	3,010 \$	9,618 \$	5,846		

\$862 reported as deferred outflows of resources related to the GLI OPEB resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

_	Year Ended June 30		
	2225	_	50.4
	2025	\$	524
	2026		(326)
	2027		865
	2028		437
	2029		209
	Thereafter		-

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

### **Actuarial Assumptions**

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023. The assumptions include several employer groups as noted below. Mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

Inflation 2.50%

Salary increases, including inflation:

Locality - General employees 3.50%-5.35% Locality - Hazardous Duty employees 3.50%-4.75%

Investment rate of return 6.75%, net of investment expenses,

including inflation

### Mortality Rates - Non-Largest Ten Locality Employers - General Employees

#### Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; males set forward 2 years; 105% of rates for females set forward 3 years

#### Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 95% of rates for males set forward 2 years; 95% of rates for females set forward 1 year

#### Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 110% of rates for males set forward 3 years; 110% of rates for females set forward 2 years

#### Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally

#### Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

### NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

### Actuarial Assumptions: (Continued)

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in discount rate, which was based on VRS Board action effective July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

## Mortality Rates – Non-Largest Ten Locality Employers – Hazardous Duty Employees

#### Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

#### Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

#### Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years

#### Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

#### Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

## **NET GLI OPEB Liability**

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2023, NOL amounts for the GLI Plan is as follows (amounts expressed in thousands):

	_	Group Life Insurance OPEB Plan
Total GLI OPEB Liability	\$	3,907,052
Plan Fiduciary Net Position	_	2,707,739
GLI Net OPEB Liability (Asset)	\$	1,199,313
Plan Fiduciary Net Position as a Percentage		
of the Total GLI OPEB Liability		69.30%

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

### NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

### **NET GLI OPEB Liability: (Continued)**

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

## Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
MAPS - Multi-Asset Public Strategies	4.00%	4.50%	0.18%
PIP - Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
Total	100.00%		5.75%
		Inflation	2.50%
	*Expected arith	nmetic nominal return**	8.25%

<sup>\*</sup>The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

<sup>\*\*</sup>On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45<sup>th</sup> percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

## NOTE 11-GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (CONTINUED)

#### **Discount Rate**

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2023, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2023 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

## Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

				Rate		
	_	1% Decrease	C	<b>Current Discount</b>		1% Increase
		(5.75%)		(6.75%)	_	(7.75%)
Authority's proportionate share of the GLI Plan Net OPEB Liability:					_	
2024	\$	31,724	\$	21,402	\$	13,056
2023		42,500		29,208		18,465

## Group Life Insurance Plan Fiduciary Net Position

Detailed information about the Group Life Insurance Plan's Fiduciary Net Position is available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2023-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2023-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements as of June 30, 2024 and 2023 (Continued)

#### **NOTE 12-LEASE RECEIVABLE**

The Authority leases property to third parties. The following summarizes the balances related to these leases for the year ended June 30, 2024:

			Lease	Deferred Inflow of
Lease Description	Discount Rate	Lease Ends	eceivable ne 30, 2024	 Resources June 30, 2024
Towers	0.457%	2025	\$ 6,989	\$ 6,693

Lease revenue totaled \$11,988 for the year ended June 30, 2024. Lease interest revenue totaled \$62 for the year ended June 30, 2024.

#### **NOTE 13-UPCOMING PRONOUNCEMENTS**

Statement No. 101, *Compensated Absences*, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

Statement No. 102, *Certain Risk Disclosures*, provides users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024.

Statement No. 103, *Financial Reporting Model Improvements*, improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

#### **NOTE 14-SUBSEQUENT EVENT:**

Subsequent to June 30, 2024, the Authority paid off the Line of Credit Revenue Note referenced in Note 5.

#### KING GEORGE COUNTY SERVICE AUTHORITY

(A Component Unit of King George County, Virginia) Notes to Required Supplementary Information Pension Plans Year Ended June 30, 2024

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2022, valuations were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) - Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement	Update to Pub-2010 public sector mortality tables. For future mortality improvements,
healthy, and disabled)	replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

All Others (Non 10 Largest) - Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Certified Public Accountants

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Members of the Board of Directors King George County Service Authority County of King George, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the business-type activities of King George County Service Authority, Component Unit of County of King George, Virginia, as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise King George County Service Authority's basic financial statements, and have issued our report thereon dated January 23, 2025.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered King George County Service Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of King George County Service Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of King George County Service Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether King George County Service Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
