The County Of *Powhatan*

November 30, 2021

Honorable Members of the Board of Supervisors and Citizens
County of Powhatan
Powhatan, Virginia:

The Comprehensive Annual Financial Report of the County of Powhatan, Virginia, (the County) for the fiscal year ended June 30, 2021 is hereby submitted. The *Code of Virginia* requires that all local governments shall be audited annually with a report to the governing body by December 31. This report is published to fulfill that requirement.

As management, we assume full responsibility for the completeness and reliability of all the information contained in this report. To provide a reasonable basis for making these representations, we have established a comprehensive internal control framework that is established for this purpose. Because the cost of internal controls should not outweigh their benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatements.

The County's financial statements have been audited by Brown, Edwards & Company, LLP, a firm of licensed certified public accountants. The independent auditor has issued an unmodified opinion on the County's financial statements for the fiscal year ended June 30, 2021. The independent auditor's report is located at the front of the Financial Section of the Comprehensive Annual Financial Report.

Management's Discussion and Analysis (MD&A) is found immediately following the independent auditor's report. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The independent audit of the financial statements of the County was part of a broader federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. These reports are available in the Single Audit Section of the Comprehensive Annual Financial Report.

Profile of the County

Powhatan II lived from 1550(?) - 1618 and was the paramount Virginia Native American chief during the period of the founding of Jamestown in a land Europeans called "The New World". Jamestown (1607) had the distinction of being the first permanent English colony in the Americas. Chief Powhatan headed a tribal alliance of 32 Indian nations, known as the "Powhatan Confederacy". Its boundaries stretched from North Carolina to Washington, D.C., to the Eastern Shore region (approximately 16,000 square miles). He is popularly well-known to be the father of Pocahontas, the Pamunkey Indian child who supposedly saved the life of Captain John Smith. In early 1617 Powhatan went to the Tauxenent (Dogue) town of May-umps near the mouth of Virginia's Occoquan River. By May 1618 he died and his body may have remained with the Tauxenents until its transfer for burial in a sacred place in 1621. His interment site is believed to be in a large mound on the Pamunkey Reservation in King William County.

Profile of the County (Continued)

The first European settlers along the James River in the area west of present-day Chesterfield County were the French Huguenots in the early 1700's. Subsequently, the County was created by the Virginia General Assembly in 1777 and was named in honor of Chief Powhatan. The County of Powhatan, a community of 30,305 people and 272 square miles, is located in Virginia's Central Piedmont region between the Appomattox and James Rivers. Powhatan is twenty miles west of Richmond, the Commonwealth's capital city, and is within an easy two-hour drive to the Atlantic Ocean, Washington D.C., Colonial Williamsburg, and the Blue Ridge Mountains.

The governing body, a five-member Board of Supervisors elected by district for four-year terms, sets the policies for the County. The Board of Supervisors hires a County Administrator to act as Chief Administrative Officer. The County Administrator serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, and oversees the daily administration of the County. Powhatan County Public Schools (PCPS) is governed by a five-member School Board who are elected by district for four-year terms. The School Board hires the Superintendent who is the Chief Administrative Officer of PCPS. The County Treasurer, the Commissioner of the Revenue, the Commonwealth's Attorney, the Clerk of the Circuit Court and the Sheriff are elected at-large by the voters. The judges of the Circuit Court, General District Court, and the Juvenile and Domestic Relations Courts are appointed by the Virginia legislature.

The County provides a full range of municipal-type services including public safety (sheriff, fire, and EMS), health and social services, public improvements, planning, zoning and building inspections, recreation and cultural services, solid waste and recycling disposal, and general administrative services. The County also operates a public water system along the eastern portion of Andersen Highway and two wastewater treatment plants in the central and eastern parts of the County.

Profile of the County (Continued)

In accordance with the requirements of the Government Accounting Standards Board (GASB), the financial reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the County is financially accountable. The discretely presented component units qualifying for inclusion in this report is Powhatan County Public Schools (PCPS) and Powhatan County Economic Development Authority. The discretely presented component units are reported separately in the financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operation and cash flows from those of the primary government.

The annual operating budget serves as the foundation for the County's financial planning and control. All departments of the County are required to submit their recommended budgets to the County Administrator in January. The County Administrator uses these recommendations as the starting point for developing his proposed budget. The County Administrator presents the proposed budget to the Board of Supervisors usually by the beginning of March. The School Board presents the proposed budget for PCPS to the Board of Supervisors by mid-March. The Board of Supervisors holds public work sessions in March and April to discuss the budget. The Board of Supervisors is required to hold a public hearing and adopt a budget by May 15 for the fiscal year beginning July 1. PCPS budget is appropriated and controlled at the total budget level. The County's appropriated budget is legally controlled at the fund level. The Board of Supervisors must approve all transfers between funds. The County Administrator may make transfers of appropriations within a fund.

Local economy

The 2021 residential/commercial is 93% / 7%. For the fiscal year end (FYE) 2021, revenue from sales tax increased 14% over FYE 2020. The County's unemployment rate decreased to 3.0% in FY 2021, which is lower than the state rate of 4.3% and the national rate of 5.9%.

Long term financial planning

On June 22, 2016, Standard & Poor's affirmed the County's bond rating of AA+ and assigned a stable outlook. Standard & Poor's AA+ rating was based on their assessment of the county's strong economy, strong management conditions with what they considered "strong" financial policies and practices, very strong budgetary flexibility with a history of available reserves above 29% of expenditures, very strong liquidity, and very weak debt and contingent liabilities, which includes overall net debt at less than 3.8% of market value.

Relevant financial policies

The County believes that sound financial management principles require that sufficient funds be retained by the County to provide a stable financial base at all times. To retain this stable financial base, the County maintains an unassigned General Fund Balance sufficient to fund all cash flows of the County, to provide financial reserves for unanticipated expenditures and for revenue shortfalls. Policy guidelines have established this amount at a minimum of 15% of operating revenues of the same fiscal year net of transfers. In FY2020 the County established a revenue stabilization reserve that is equal to 3% of the subsequent year general and school operating budgets less the local appropriation to the school fund. The County has also established a capital maintenance reserve within its fund balance policy where any fund balance remaining over and above the assigned fund balances is to be maintained for non-recurring needs of the County. Only the Board of Supervisors can determine these needs and authorize the use of the capital reserve fund balance.

In addition, policies and procedures are being developed or revised periodically to provide better clarification, more detail of practice, and to strengthen documentation of management.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Powhatan for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2020. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

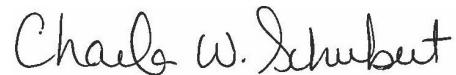

A Certificate of Achievement is valid for a period of one year only. We believe that our current financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the skill, effort and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation to all members of the department. We wish to thank all county departments and Powhatan County Public Schools for their assistance in providing the data necessary to prepare this report. The Board of Supervisors are to be commended for their support in strategically planning and managing the fiscal policies of the County.

Respectfully submitted,

Ned Smither
County Administrator

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the Board of Supervisors
County of Powhatan, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Powhatan, Virginia (the "County") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* and *Specifications for Audits of Authorities, Boards and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Powhatan, Virginia, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, other supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2021 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

County of Powhatan, Virginia

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2021

This section of the County of Powhatan (the "County") comprehensive annual financial report presents management's discussion and analysis of the County's financial performance during the fiscal year ended June 30, 2021. Please read it in conjunction with the transmittal letter, which can be found on pages iii-vi and with the County's basic financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the County, on a government-wide basis excluding component units, exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$42,976,540 (*net position*). Of this amount, \$29,684,545 (*unrestricted net position*) may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net position, excluding component units, increased by \$12,688,612, of which the governmental activities increased \$12,284,855 and business-type activities increased by \$403,757.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$41,705,486, an increase of \$4,418,804 in comparison with the prior year. The increase was due to the increase in property tax and local sales tax collections. Approximately 33% of this amount, \$13,950,906, is *available for spending* at the County's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$13,950,906 or 15% of total operating revenues of the general, school operating and school cafeteria funds (\$93,006,043). The County's policy is to maintain the general fund unassigned fund balance of 15% of operating revenues. General fund unassigned fund balance as a percent of operating revenues as calculated in accordance with the County's Unassigned Fund Balance Policy R-2015-62 of 15 percent is \$13,950,906. The County maintains a capital maintenance reserve for the County's capital needs. The County funds the capital maintenance reserve with fund balance in excess of the 15 percent policy less any budget carryforwards, nonspendable fund balance, transportation capital reserve, broadband capital investment reserve, economic incentive program, revenue stabilization reserve and schools capital maintenance reserve. The amount in the County capital maintenance reserve is \$10,200,491.
- The County established a revenue stabilization reserve in FY 2020. The reserve will be maintained at 3% of the total annual adopted general fund budget of the prior year, plus the non-local portion of the school operating fund budget. The Board may draw down from the reserve only if:
 - Current fiscal year – third or fourth quarter forecasted general fund revenues, excluding use of prior year fund balance, decline by more than 1.5%; or
 - Subsequent fiscal year – during the annual budget cycle real estate assessments are forecast to decrease more than 3% over the previous year's assessments

Withdrawals may not exceed half of the balance in the reserve in any one fiscal year and shall be used in combination with spending cuts. In the event of a draw down, the reserve must be replenished to 3% level within 3 fiscal years. The balance in the revenue stabilization fund in FY2021 is \$2,861,863.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements (Continued)

Government-Wide financial statements

The *government-wide financial statements* are designed to provide the readers with a broad overview of the County's finances using the economic resources measurement focus and the accrual basis of accounting, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets, liabilities and deferred inflows/outflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Additionally, to assess the overall financial health of the County one must also consider non-financial factors such as changes in the County's property tax base.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g. uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government administration, judicial administration, public safety, public works, health and welfare, parks, recreation and cultural, community development, and education. The business-type activities are for water and sewer utilities.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate school board for which the County is financially accountable. Financial information for the *component units* are reported separately from the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 15-17 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*. These funds are reported on the modified accrual basis of accounting, this measures cash and other liquid assets that can be readily converted to cash.

The County maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, County Capital Projects Fund and the Grants Fund, which are all considered to be major funds. Data for the other seven County funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Overview of the Financial Statements (Continued)

Fund financial statements (continued)

The County adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic fund financial statements can be found on pages 18-21 of this report.

The County maintains one type of **Proprietary Fund**. The County uses *enterprise funds*, which are used to report the same functions presented as *business-type activities* in the government-wide financial statements, to account for its water and sewer utilities. The basic proprietary fund financial statements can be found on pages 22-24 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund statement can be found on page 25 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26-117 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. It also provides information on the progress in funding its obligation to provide pension benefits and health insurance to its employees. Required supplementary information can be found on pages 118-132 of this report.

The combining statements referred to earlier with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found starting on page 133 of this report.

Government-Wide Financial Analysis

An analysis of the County's financial position with a review of the Statement of Net Position and the Statement of Activities. These two statements report the County's net position and changes therein. It should be noted that the County's financial position can also be affected by non-financial factors, including economic conditions, population growth and new regulations.

As noted earlier, net position may serve over time as a useful indicator of a government's financial standing. In the case of the County, assets exceeded liabilities by \$43 million at the close of the most recent fiscal year. A portion of the County's net position (\$13,291,995, 31% of total) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the County's investment in capital assets are of a permanent nature as assets acquired are generally not sold or otherwise disposed of during their useful life).

Unrestricted net position of \$27.9 million or 79% may be used to meet the County's ongoing obligations to citizens and creditors.

Government-wide Financial Analysis (Continued)

The following table reflects the condensed Summary of Net Position as presented in the government-wide financial statement:

County of Powhatan, Virginia's Net Position								
	Governmental Activities		Business-type Activities		Primary Government Totals		Component Units	
	2021	2020	2021	2020	2021	2020	2021	2020

Government-wide Financial Analysis (Continued)

The County's combined net position, which is the County's bottom line, increased by \$12,688,612 or 41.9% from the prior year. The change in the County's combined net position is a combination of a increase of \$12.3 million from the efforts of governmental activities and an increase of \$403,757 from the efforts of business-type activities. A significant portion of the increase from the efforts of the governmental activities can be attributed to an increase in collection of property taxes and local sales tax, as well as a reduction in spending across the County.

The School Board and Economic Development Authority (EDA) make up the County's component units. In FY 2021, the net position of the two component units' totals (\$35,808,992) compared to (\$36,395,622) in FY 2020. Powhatan County Public Schools, liabilities exceeded assets by \$36 million at the close of fiscal year 2021. The deficit is due to GASB Statements 68 and 75, which requires for the recording of the net pension liability and net other postemployment liabilities. The Powhatan County Public Schools net pension liability at June 30, 2021 is \$42,474,195 and net other post-employment benefits liability is \$21,786,331. The Commonwealth of Virginia requires that counties, as well as their financial dependent component units, be financed under a single taxing structure. This results in counties issuing debt to finance capital assets, such as public schools, for their component units. The capital assets of the Powhatan County Public Schools are jointly owned with the County. The County maintains ownership of the capital asset and as debt is paid a portion of the asset is transferred back to the component unit. The County also reports depreciation expense on these assets and as debt is paid a portion of the jointly owned assets are transferred back to the component unit. The EDA's assets exceeded its liabilities by \$163,354 at the close of fiscal year 2021.

Governmental activities – For fiscal year ended June 30, 2021, revenues from governmental activities (not including Capital Projects) totaled \$72.9 million, which was an increase of \$10.4 million from the prior year. Real estate tax revenues, the County's largest revenue source, real estate billing of \$35.2 million. The County's

Government-wide Financial Analysis (Continued)

assessed real property tax base for fiscal year 2021 saw an increase of \$531 million. The increase is due to increase in new construction. The real estate tax rate was lowered to \$.85 for fiscal year 2021.

In the General Fund, the County reported current year collections of \$13.3 million in personal property taxes, the County's second largest revenue source. Of that amount, \$3.02 million was received as reimbursement from the Commonwealth of Virginia. Under the provisions of the Personal Property Tax Relief Act (PPTRA), the state's share of local personal property taxes remains stable, which is attributed to the tax rate remaining at \$3.60. The increase of \$828,647 in other taxes, which includes local sales taxes, consumer utility taxes, transient occupancy taxes and local business license taxes, is evidence that the local economy continues to grow.

For the fiscal year ended June 30, 2021, expenses relating to governmental activities (not including Capital Projects) were \$3.2 million less than planned. The decrease in spending can be contributed \$656,753 reduction of spending by Schools due to the hybrid learning, \$1.1 million of Central Virginia Transportation Authority and conservative spending by all departments in the County.

Public education continues to be one of the County's highest priorities and commitments. The County contributed \$22.5 million to public education school operations and \$6.5 million toward debt payments relating to school projects for a total contribution of \$29 million.

The following graphs illustrate by source for governmental activities, as well as illustrating expenses for each of the functional areas of governmental activities:

Government-wide Financial Analysis (Continued)

Business-type activities increased the County's net position by \$403,757 for fiscal year 2021. Similar to the changes in net position attributable to governmental activities, changes in business-type activity net position also result from the difference between revenues and expenses. Unlike governmental activities, which primarily rely on general tax revenue to finance operations, business-type activities are financed by fees charged for goods and services provided.

The County has one enterprise fund, which provides water and wastewater services to approximately 200 customers in the County. Like all business-type activities, the Utility Fund attempts to recover much of the operating expenses it incurs to meet service demands through user fees. The primary factors affecting the Utility Fund are:

- Efforts to make the fund self-supporting have been unsuccessful; however the fund is showing improvements. The County recognizes the need to continue support of the fund through annual General Fund transfers. The budgeted transfer was \$2,016,668 in fiscal year 2021.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$41.7 million, an increase of \$4.4 million in comparison with the prior year. The \$4.4 million increase can be attributed to the increase in collection of property taxes and local sales tax and a decrease in general operating spending.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$13.95 million, while total fund balance reached \$28.8 million. The Board of Supervisors adopted a fund balance policy to keep unassigned fund balance at a minimum of 15% of operating revenues of the same fiscal year. The fund balance in excess of 15% is assigned to capital maintenance reserve and the revenue stabilization reserve. In fiscal year 2021 the County's fund balance was 31% of fiscal year 2021 operating revenues. The excess fund balance of \$14.9 million is assigned to revenue stabilization reserve in the amount of \$2.9 million and the remainder is for capital maintenance needs of the County and Schools.

The County Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those reported by the Proprietary Fund. The County Capital Projects Fund has a fund balance of \$9.2 million, which \$8.8 million was restricted for bonded projects and \$434,343 has been assigned for future capital projects. The fund balance decreased from the prior year by \$6.7 million. This decrease is due to several large projects such as the public radio system were under way. The County made a transfer from capital maintenance reserve in the amount of \$273,000 to fund pay as you go projects from the Five-Year Capital Improvement Plan.

Proprietary funds: The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Utility Fund at the end of the year amounted to \$1.8 million, which is an increase of \$194,387 from fiscal year 2020. The majority of this increase can be attributed to a reduction in debt service. Other factors concerning the finances of this fund have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

Total General Fund expenditures in fiscal year 2021 came in at \$1.9 million or 3.5% below the final amended budget. Local expenditures for Education were under budget by \$656,753.

General Fund revenues exceeded budget projections in fiscal year 2021 by \$6.3 million, which can be attributed to very conservative revenue forecasting during the pandemic.

There was an increase of \$711,973 between the original General Fund budget and the final amended General Fund budget, and the major differences can be summarized as follows:

- An increase of \$629,714 can be associated with the appropriation of carryover grant balances for CSBG and balances for PGCAA.
- An increase of \$82,259 can be attributed to various minor budget changes across multiple departments.

Capital Asset and Debt Administration

Capital assets: The County's investment in capital assets for its governmental and business-type activities as of June 30, 2021 amounts to \$117.9 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, and machinery and equipment.

The County does not own its own roads; therefore, roads are not included in the capital assets.

Major capital asset events during the current fiscal year included the following:

- The County continues the ERP upgrade and public safety radio system. The total work in progress amounted to \$7,989,157.
- The County completed several large projects, such as PMS – County gymnasium upgrades, bathroom renovations and Skaggs Road building renovations.

Capital assets, net of accumulated depreciation, are illustrated in the following table:

Capital Assets As of June 30, 2021 and 2020								
	Governmental Activities		Business-type Activities		Primary Government Totals		Component Units	
	2021	2020	2021	2020	2021	2020	2021	2020

Additional information on the County's capital assets can be found in Note 8 on pages 42-44 of this report.

The remainder of this page left blank intentionally

Capital Asset and Debt Administration (Continued)

Long-term debt: At the end of the current fiscal year, the County had a total outstanding debt of \$115.3 million and details are summarized in the following table:

Long-Term Debt As of June 30, 2021 and 2020								
	Governmental Activities		Business-type Activities		Primary Government Totals		Component Units	
	2021	2020	2021	2020	2021	2020	2021	2020
Bonds Payable:								
General obligation bonds	\$ 19,054,287	\$ 20,871,963	\$ -	\$ -	\$ 19,054,287	\$ 20,871,963	\$ -	\$ -

Premium on bonds	6,437,564	7,058,056	777,536	849,043	7,215,100	7,907,099	-	-
Capital leases	1,937,959	1,630,626	-	-	1,937,959	1,630,626	-	-
Compensated absences	946,332	911,204	38,991	37,795	985,323	948,999	2,486,260	2,494,850
Total	\$ 100,769,142	\$ 106,009,849	\$ 15,551,527	\$16,366,838	\$ 116,320,669	\$ 122,376,687	\$ 2,486,260	\$ 2,494,850

Debt associated with governmental activities decreased \$5.3 million, which is the net amount of pay down of principal during the year. The debt associated with business-type activities decreased by \$756,507, which can be attributed to pay down of principal during the current year.

The County is not subject to a statutory debt limitation, but the County limits its debt to a net debt as a percentage of assessed value of taxable property which shall not exceed 4%. The County also limits its ratio of debt service as a percentage of governmental operating funds expenditures to 15%. The County's net tax supported debt as a percentage of assessed value was 2.37%, the net debt per capita ratio was \$3,805, and the debt payments percentage was 11.23%.

Additional information on the County's long-term debt can be found in Note 10 on pages 46-50.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County as of June 2021 was 3.0 percent, which is lower than the state rate (4.3 percent) and the national rate (5.9 percent).
- Real property taxable assessed values increased 9.6 percent from January 1, 2018 to January 1, 2020 from \$3,424,488,050 to \$3,986,923,400 due to the County's general reassessment. The County anticipates the assessments to continue to increase for new construction and this will be taken into consideration in the development of the FY 2023 Budget, which is currently underway.

Requests for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance, County of Powhatan, 3834 Old Buckingham Road, Suite B, Powhatan VA 23139. General information relating to the County of Powhatan is available on the County's website <http://www.powhatanva.gov>.

Reconciliation of the Balance Sheet of Governmental Funds
To the Statement of Net Position
June 30, 2021

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds	\$	41,705,486
--	----	------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Capital assets, cost	\$	154,764,955	
Less: accumulated depreciation		<u>(57,443,242)</u>	97,321,713

Deferred inflows of resources (i.e. taxes levied) are not available to pay current period expenditures and, therefore, are deferred in the funds.	2,085,793
---	-----------

Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the funds.

Deferred outflows of resources for employer contributions - pension	\$	1,029,635	
Deferred outflows - pension		2,337,384	
Deferred inflows of resources for differences between expected and actual experience - pension		(341,138)	
Deferred inflows of resources for changes in assumptions - pension		(48,710)	
Deferred outflows - OPEB		511,331	
Deferred inflows - OPEB		(330,927)	
Net other postemployment benefits liability		(3,500,276)	
Net Pension Liability		<u>(4,998,052)</u>	(5,340,753)

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

Bonds and loans payable	\$	(91,447,287)	
Bond issuance premium		(6,437,564)	
Deferred charge on refundings		1,200,517	
Interest payable		(841,390)	
Capital lease obligations		(1,937,959)	
Compensated absences		<u>(946,332)</u>	<u>(100,410,015)</u>

Net position of governmental activities	\$	<u><u>35,362,224</u></u>

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	4,418,804
--	----	-----------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

Capital asset additions	\$	8,732,536	
Allocation of jointly owned assets, net		(1,385,554)	
Depreciation expense		<u>(4,606,998)</u>	2,739,984

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	99,380
--	--------

Governmental funds report employer pension contributions as expenditures. However in the statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense.

Employer pension contributions	\$	1,029,635	
Pension expense		<u>(1,915,383)</u>	(885,748)

In the Statement of Activities, only the gain or loss on sale of capital assets is reported, whereas in the governmental funds, the entire proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the cost of the property sold.	(7,156)
---	---------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments	\$	5,433,060	
Issuance of refunding bonds		(15,927,000)	
Principal payments on refunding bonds		15,749,000	
Issuance of capital leases		(599,718)	
Premium on issuance of bonds		178,000	
Amortization of deferred amounts on refunding		143,330	
Amortization of premium on bonds payable		<u>620,492</u>	5,597,164

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase) decrease in compensated absences	\$	(35,128)	
(Increase) decrease in OPEB liability		(108,589)	
(Increase) decrease in interest payable		<u>466,144</u>	322,427

Change in net position of governmental activities	\$	<u><u>12,284,855</u></u>
---	----	--------------------------

The notes to the financial statements are an integral part of this statement.

THIS PAGE INTENTIONALLY LEFT BLANK

NOTES TO THE FINANCIAL STATEMENTS

THIS PAGE INTENTIONALLY LEFT BLANK

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

The County of Powhatan, Virginia (County) is governed by an elected five-member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, recreational activities, cultural events, education, and social services.

The financial statements of the County have been prepared in conformity with the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant GASB policies are described below.

B. Financial Statement Presentation

Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position

The statement of net position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments report all capital assets in the government-wide statement of net position and report depreciation expense - the cost of "using up" capital assets - in the statement of activities. The net position of a government is broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities

The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

B. Financial Statement Presentation (Continued)

Statement of Activities (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Budgetary Comparison Schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Governments provide budgetary comparison information in their financial statements, including the government's original budget with a comparison of final budget and actual results.

C. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the Organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Powhatan, Virginia (the primary government) and its component units. The discretely presented component units are reported in a separate column in the combined financial statements to emphasize they are legally separate from the government.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

D. Individual Component Unit Disclosures

Discretely Presented Component Units

School Board

The School Board members are elected by the citizens of Powhatan County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School does not issue a separate financial report.

Economic Development Authority

The Powhatan County Economic Development Authority (EDA) is responsible for industrial and commercial development in the County. The Authority consists of six members appointed by the Board of Supervisors. The Authority is fiscally dependent on the County, as the County is involved in the day-to-day operations of the EDA, and therefore, it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2021. The Authority does not issue a separate financial report.

E. Other Related Organizations

James River Juvenile Detention Commission

The James River Juvenile Detention Commission is jointly governed by the localities of Goochland, Henrico, and Powhatan. The Commission is funded primarily through monthly fees paid by the member jurisdictions for operating support which is determined annually by the Commission. The County's annual fee for fiscal year 2021 was \$259,264.

Central Virginia Waste Management Authority

The Counties of Charles City, Chesterfield, Goochland, Hanover, Henrico, New Kent, Powhatan, and Prince George, and the Cities of Colonial Heights, Hopewell, Petersburg, and Richmond, and the Town of Ashland provide financial support for the Authority, which is determined annually by the Board, and appoint its governing Board, in which is vested the ability to execute contracts and to budget and expend funds. The County appoints one or more members to the Board. No one locality contributes more than 50% of the Authority's funding or has oversight responsibility over its operations. The County has no equity interest in the Authority. During fiscal year 2013, the County executed and renewed 6 contracts with the CVWMA. The County's contribution for fiscal year 2021 was \$14,172.

Goochland-Powhatan Community Services Board

The Board was created by resolution pursuant to state statute and is considered a jointly governed organization, and therefore, its operations are not included in the County's financial statements. The counties of Goochland and Powhatan provide the financial support for the Board, which is determined annually by the Board, and appoint its governing Board in which is vested the ability to execute contracts and to budget and expend funds. The County has no equity interest in the Board, and made operating contributions of \$298,630 to the Board during fiscal year 2021.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Related Organizations (Continued)

Virginia Department of Health - Chesterfield Health District

The Chesterfield Health District includes the localities of Chesterfield, Powhatan, and Colonial Heights. The County makes an annual contribution for operating support, which is based on the needs of the Department and determined annually by the Board of Supervisors. The County's contribution for fiscal year 2021 was \$192,783.

Monacan Soil and Water Conservation District

The County entered into an agreement with the District to work together in the development of effective soil and water conservation programs. The County's contribution during fiscal year 2021 was \$41,800.

Piedmont Court Services

Piedmont Court Services is an agency dedicated to enhancing public safety, reducing crime, reinforcing offender accountability, promoting lawful and productive lifestyles among offenders, and assisting the Courts in managing offenders by utilizing evidence-based practices and principles and establishing collaborative community partnerships in order to promote offender self-efficacy and to reduce recidivism. The agency is jointly governed by the following localities: Amelia, Buckingham, Charlotte, Cumberland, Lunenburg, Nottoway, Powhatan, and Prince Edward. The County made no contribution during fiscal year 2021.

Richmond Regional Planning District

The Richmond Regional Planning District Commission is a regional planning agency with major emphasis in the areas of transportation, local technical assistance and information services including demographic, economic and geographic information systems. The Commission, which was formed by local governments on August 14, 1969 under the authority of the Virginia Area Development Act, which was revised and retitled as the Regional Cooperation Act in 1995, is comprised of elected officials and citizens who address mutual problems and work out solutions for the local governments which benefit from intergovernmental cooperation. Each county within the Richmond region is required to pay annual dues, which is based on estimated population. The County's dues for fiscal year 2021 were \$18,591.

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

E. Other Related Organizations (Continued)

Maggie L. Walker Governor's School for Government and International Studies

The Maggie L. Walker Governor's School for Government and International Studies provides broad-based educational opportunities that develop gifted students' understanding of world cultures and languages, as well as their ability to lead, participate, and contribute in a rapidly changing global society. The Regional School Board is jointly governed by a representative from each of the following localities: the counties of Charles City, Chesterfield, Goochland, Hanover, Henrico, King and Queen, New Kent, Powhatan, and Prince George and the cities of Hopewell, Petersburg, and Richmond. The County of Powhatan pays the school a set rate for each student that attends. The School Board's contribution for fiscal year 2021 was \$92,389.

Appomattox Regional Governor's School

The Appomattox Regional Governor's School for the Arts and Technology provides gifted and talented students a differentiated and rigorous education, cultivates a supportive environment that inspires unique artistic and technological visions, promotes cultural tolerance, nurtures community partnerships, and produces active, engaged citizens. This school board is jointly governed by a representative from each of the following localities: the counties of Amelia, Charles City, Chesterfield, Dinwiddie, Powhatan, Prince George, Southampton, Surry and Sussex and the cities of Colonial Heights, Franklin, Hopewell, Petersburg, and Richmond. The County of Powhatan pays the school a set rate for each student that attends. The School Board's contribution for fiscal year 2021 was \$72,495.

CodeRVA Regional School

The CodeRVA Regional School is an alternative program of studies that partners with private industry and institutions of higher education where students will graduate with a high school diploma and more than 400 hours of paid information technology work experience. The Regional School Board is jointly governed by a representative from each of the following localities: the counties of Chesterfield, Dinwiddie, Goochland, Hanover, Henrico, New Kent, Powhatan, Prince George, and Sussex and the cities of Hopewell, Petersburg, and Richmond. The County of Powhatan pays a pro rata portion of operating costs based on the average of the percent of average daily membership (ADM) of the students of the respective school divisions in CodeRVA as of March 30th of the preceding year. The School Board's contribution for fiscal year 2021 was \$78,400.

F. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board, which represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

F. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property taxes, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers most revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are for assets held by the government as an agent or custodian for individuals, private organizations, other governmental units, or other funds. Fiduciary funds utilize the accrual basis of accounting as described in the proprietary funds presentation. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

G. Fund Financial Statements

Governmental Funds are those through which most governmental functions typically are financed. The County reports the following as major governmental funds:

The *General Fund* is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.

The *Capital Projects Fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities.

The *Grants Fund* accounts for financial resources to be used for grants awarded to the County.

The **Proprietary Fund** accounts for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. It distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The County's major proprietary fund is the water and sewer fund.

The **Special Revenue Funds** account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administration action. Special Revenue Funds consist of the following funds: Cash Proffers, State Asset Forfeiture, Federal Asset Forfeiture, Fire and Rescue, tourism and CVTA.

The **Fiduciary Funds** (Trust and Custodial Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Custodial Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

H. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are stated at fair value which approximates market; no investments are valued at cost.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

H. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position (Continued)

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and are described as follows.

- Level 1 inputs are quoted prices in active markets for identical assets;
- Level 2 inputs are significant other observable inputs;
- Level 3 inputs are significant unobservable inputs.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

Receivables

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis.

Real and Personal Property Tax Data

The tax calendars for real and personal property taxes are summarized below.

	<u>Real Property</u>	<u>Personal Property</u>
Ley	January 1	January 1
Due Date	November 5 / June 5	June 5 / November 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

H. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position (Continued)

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	5-40
Utility plant in service	30-50
Machinery and equipment	3-20

Local governments in Virginia may have a tenancy in common with their school systems whenever the locality incurs a financial obligation, including capital leases, for school property which is payable over more than one fiscal year. The County reports this debt in its financial statements. The capital assets acquired by such debt are reported by the County until such time as the outstanding indebtedness is retired, at which time, the net book value is transferred to and reported by the Schools.

Compensated Absences

The County and School Board have policies to allow the accumulation and vesting of limited amounts of paid leave and sick leave until termination or retirement. Amounts of such absences are accrued when earned in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds when the amounts are due for payment.

Pensions and Other Post-Employment Benefits (OPEB)

For purposes of measuring all financial statement elements related to pension and OPEB plans, information about fiduciary net position of the County's Plans and the additions to/deductions from the County's Plan's net fiduciary position have been determined on the same basis as they were reported to the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-term Obligations

In the government-wide financial statements, and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activity, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the period of issuance. The face amounts of debt issued are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

H. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position (Continued)

Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Prepaid expenditures in governmental funds are offset by a nonspendable fund balance.

Fund Net Position

Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

Nonspendable – Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans, if applicable.

Restricted – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed – Amounts constrained to specific purposes by the County, using authority resolution; to be reported as committed, amounts cannot be used for any other purposes unless the same highest level of action is taken to remove or change the constraint.

Assigned – Amounts are constrained by intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by County management based on governing body direction through adoption or amendment of the budget or through ordinance or resolution.

Unassigned – Amounts that are available for any purpose; positive amounts are reported only in the general fund.

The County Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through the adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of Supervisors through adoption or amendment of the budget as intended for specific purposes (such as the purchase of fixed assets, construction, debt service, or for other purposes).

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Supervisors has provided otherwise in its commitment or assignment actions.

The Powhatan County Board of Supervisors adopted a minimum fund balance policy for the General Fund which requires the unassigned fund balance at June 30th to be at least 15 percent of operating revenues of the same fiscal year.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

H. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position (Continued)

Net Position

Net position is the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets represent capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets. Unrestricted net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

Deferred Outflows and Inflows of Resources

In addition to assets, the statements which present financial position reports a separate section for deferred outflows of resources. These items represent a consumption of net position that applies to future periods and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements which present financial position report a separate section for deferred inflows of resources. These items represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time.

The County has the following items that qualify as deferred inflows or outflows:

- Deferred charge on refunding. A deferred charge on refunding is a deferred outflow which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Contributions subsequent to the measurement date for pensions and OPEB are always a deferred outflow; this will be applied to the net pension or OPEB liability in the next fiscal year.
- Differences between expected and actual experience for economic/demographic factors in the measurement of the total pension or OPEB liability. This difference will be recognized in pension or OPEB expense over the expected average remaining service life of all employees provided with benefits in the plan and may be reported as a deferred inflow or outflow as appropriate.
- Difference between projected and actual earnings on pension and OPEB plan investments. This difference will be recognized in pension or OPEB expense over the closed five year period and may be reported as a deferred outflow or inflow as appropriate.
- Changes in assumptions on pension or OPEB investments. This difference will be recognized in pension or OPEB expense over the closed five year period and may be reported as a deferred outflow or inflow as appropriate.
- Changes in proportion and differences between employer contributions and the proportionate share of employer contributions are reported as a deferred inflow or outflow, as appropriate.
- Unavailable revenue is reported only in the governmental fund balance sheet. The governmental funds report unavailable revenue from property taxes and other receivable not collected within 60 days of year end. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Unearned revenue related to the prepayment of taxes not due until 2021.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 1. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Note 2. Stewardship, Compliance, and Accountability

Budgetary Information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution. The Appropriations Resolution places legal restrictions on expenditures at the fund level. The appropriation for each fund can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
4. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
5. The Appropriations Ordinance is adopted at the fund level. Department Directors may transfer appropriations within a department within a fund. The County administrator may approve transfers of appropriations between departments within a fund. The appropriation for each fund can be revised through resolution by the Board of Supervisors.
6. Appropriations lapse on June 30, for all County units.

Note 3. Deposits and Investments

Deposits:

All deposits of the primary government and its discretely presented component unit are held in banks covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

Note 3. Deposits and Investments (Continued)

Investments:

At June 30, all investments held by the County were in external investment pools which were considered to be cash and cash equivalents for purposes of presentation in the basic financial statements. Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development Bank (World Bank), the Asian Development bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Pursuant to Sec. 2.1-234.7 of the *Code*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings and the carrying value of the position in LGIP and SNAP is the same value of the pool shares (i.e., the LGIP maintains a stable net asset value of \$1 per share in accordance with GASB 79).

Credit Risk Debt Securities:

The County's investment limits investments to those allowed by the *Code of Virginia*. The County may however restrict investments beyond the limits imposed by the *Code of Virginia* as such restrictions serve the purpose of further safeguarding County funds or are in the best interest of the County.

County's Rated Debt Investments' Values

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 3. Deposits and Investments (Continued)

Credit Risk Debt Securities: (Continued)

At June 30, the deposit and investment balances were as follows:

Deposits:

Demand deposits	\$ 36,927,235
Certificates of deposit	2,500,000
Cash on hand	1,050

Investments:

LGIP	17,846
SNAP	3,489,576
Trust	5,318,615

Total deposits and investments	<u>\$ 48,254,322</u>
--------------------------------	----------------------

The deposits and investments are comprised as follows:

Cash and cash equivalents - Primary Government	\$ 36,289,034
Cash and cash equivalents - Component Unit - School Board	3,093,743
Cash and cash equivalents - Component Unit - EDA	63,354
Restricted assets - Primary Government	
Investments	<u>8,808,191</u>
Total deposits and investments	<u>\$ 48,254,322</u>

Restricted cash and cash equivalents is comprised of cash held for capital projects financed with debt proceeds.

Note 4. Fair Value Measurement

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The County has the following recurring fair value measurements as of June 30, 2021:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds				
US Treasury Note	<u>\$ 8,808,191</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,808,191</u>
	<u>\$ 8,808,191</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,808,191</u>

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 4. Fair Value Measurement (Continued)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques. Collateralized debt obligations classified in Level 3 are valued using consensus pricing.

Note 5. Receivables

Receivables consist of the following:

Receivables consist of the following:

	Governmental Activities	Business-Type Activities	Total Primary Government
Taxes	\$ 8,801,291	\$ -	\$ 8,801,291
Less: allowance for uncollectible accounts	(490,829)	-	(490,829)
Net taxes receivable	8,310,462	-	8,310,462
Accounts Receivable, net of allowance	234,840	80,706	315,546
Total receivables, net	\$ 8,545,302	\$ 80,706	\$ 8,626,008

Taxes receivable represent the current and past four years of uncollected tax levies for personal property taxes and the current and past nineteen years for uncollected tax levies on real property. Governmental activities accounts receivable is comprised of amounts due for EMS billings and other local revenues. The allowances for uncollectible accounts is based on historical collection rates aging of receivable balances, and specific account analysis.

Note 11. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the County of Powhatan, VA (the "Political Subdivision") are automatically covered by VRS Retirement Plan, upon employment. This multi-employer agent plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Note 11. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1</p> <p>Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, service credit, and average final compensation at retirement using a formula.</p>	<p>About Plan 2</p> <p>Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, service credit, and average final compensation at retirement using a formula.</p>	<p>About the Hybrid Retirement Plan</p> <p>The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan.</p> <ul style="list-style-type: none">• The defined benefit is based on a member's age, service credit, and average final compensation at retirement using a formula.• The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.• In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

Note 11. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Retirement Contributions Same as Plan 1.	Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

Note 11. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.	Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.	Average Final Compensation Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.
Service Retirement Multiplier VRS: The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.70%. Sheriffs and regional jail superintendents: The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. Political subdivision hazardous duty employees: The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.70% or 1.85% as elected by the employer.	Service Retirement Multiplier VRS: Same as Plan 1 for service earned, purchased, or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for service credit earned, purchased, or granted on or after January 1, 2013. Sheriffs and regional jail superintendents: Same as Plan 1. Political subdivision hazardous duty employees: Same as Plan 1.	Service Retirement Multiplier <u>Defined Benefit Component:</u> VRS: The retirement multiplier for the defined benefit component is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans. Sheriffs and regional jail superintendents: Not applicable. Political subdivision hazardous duty employees: Not applicable. <u>Defined Contribution Component:</u> Not applicable.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 11. Defined Benefit Pension Plan (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>County</u>	<u>School Board Non- Professional</u>
Inactive members or their beneficiaries currently receiving benefits	50	81
Inactive members:		
Vested inactive members	16	17
Non-vested inactive members	17	24
Inactive members active elsewhere in VRS	38	20
	<u>71</u>	<u>61</u>
Total inactive members	71	61
Active members	<u>166</u>	<u>86</u>
Total covered employees	<u>287</u>	<u>228</u>

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's and School Board Non-Professional Employee Plan's contractually required employer contribution rate for the year ended June 30, 2021 was 11.60% and 4.91% respectively, of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$1,054,496 and \$1,014,305 for the years ended June 30, 2021 and June 30, 2020, respectively. Contributions to the pension plan from the School Board Non-Professional Employee Plan were \$83,052 and \$69,547 for the years ended June 30, 2021 and June 30, 2020, respectively.

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

Note 11. Defined Benefit Pension Plan (Continued)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For county's, net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2019 rolled forward to the measurement date of June 30, 2020.

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the County's Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.50%
Salary increases, including inflation	3.50 – 5.35%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

NOTES TO FINANCIAL STATEMENTS
June 30, 2021

Note 11. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions – General Employees (Continued)

Largest 10 – Non-LEOS:

- Update mortality rates to a more current mortality table – RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Adjusted withdrawal rates to better fit experience at each year age and service through 9 years of service
- Reduce disability rates
- No change to salary scale
- Line of Duty disability increase rate from 14% to 20%
- Decrease discount rate from 7% to 6.75%

All Others (Non 10 Largest) – Non-LEOS:

- Update mortality rates to a more current mortality table – RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Adjusted withdrawal rates to better fit experience at each year age and service through 9 years of service
- Reduce disability rates
- No change to salary scale
- Line of Duty disability increase rate from 14% to 15%
- Decrease discount rate from 7% to 6.75%

Actuarial Assumptions – Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the Political Subdivision Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.50%
Salary increases, including inflation	3.50 – 4.75%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Largest 10 – LEOS:

Mortality rates: 70% of deaths are assumed to be service related.

- Adjusted disability rates to better fit experience
- No change in salary scale
- Decrease in Line of Duty disability rate from 60% to 45%
- Decrease discount rate from 7% to 6.75%

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long -Term Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return*
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		4.64%
Inflation			2.50%
*Expected arithmetic nominal return			7.14%

* The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation

(Continued)

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions – Public Safety Employees (Continued)

of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations, provide a median return of 6.81%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuations, whichever was greater. From July 1, 2020 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Pool

General Information about the Teacher Cost Sharing Pool

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Retirement Contributions Same as Plan 1.	Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Pool (Continued)

General Information about the Teacher Cost Sharing Pool (Continued)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2021 was 16.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$4,150,930 and \$3,953,603 for the years ended June 30, 2021 and June 30, 2020, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the school division reported a liability of \$42,218,623 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the school division's proportion was 0.2901% as compared to 0.2942% at June 30, 2019.

For the year ended June 30, 2021, the school division recognized pension expense of \$4,343,217. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$4,150,930 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Increase (Reduction) to Pension Expense</u>
2022	\$ (325,598)
2023	787,547
2024	1,192,807
2025	998,716
2026	(72,018)
Thereafter	-

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation	2.50%
Salary increases, including inflation	3.50 – 5.95%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Pool (Continued)

General Information about the Teacher Cost Sharing Pool (Continued)

Actuarial Assumptions (Continued)

Mortality rates:

Pre-Retirement:

RP-2014 White Collar Employee Rates at the age of 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates at the age of 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 70 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with Scale BB to 2020; 115% of rates for males and females.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

- Update mortality rates to a more current mortality table – RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Adjusted withdrawal rates to better fit experience at each year age and service through 9 years of service
- Adjusted disability rates to better match experience
- No changes to salary scale
- Decrease discount rate from 7.00% to 6.75%

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Pool (Continued)

General Information about the Teacher Cost Sharing Pool (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		4.64%
	Inflation		2.50%
			7.14%
*Expected arithmetic nominal return			

* The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations, provide a median return of 6.81%.

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Pool (Continued)

General Information about the Teacher Cost Sharing Pool (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2020, the rate contributed by the school division for the VRS Teacher Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total net pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2020, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

	Teacher Employee Retirement Plan
Total Pension Liability	\$ 51,001,855
Plan Fiduciary Net Position	<u>36,449,229</u>
Employers' Net Pension Liability (Asset)	<u>\$ 14,552,626</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	71.47%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School Board division's proportionate share of the VRS teacher employee retirement plan net pension liability	\$ <u>61,944,202</u>	\$ <u>42,218,623</u>	\$ <u>25,903,076</u>

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan

At June 30, 2021, approximately \$6,898 was payable to the Virginia Retirement System for the legally required contributions related to June 2021 accrued payroll.

Note 13. Other Postemployment Benefits Liability – Local Plan

Plan Provisions and Benefits

In addition to providing the benefits described in Note 14, the County and School Board administers a single-employer defined healthcare plan for qualifying retired employees, their spouses and dependents. The plan's benefit levels and employer contributions are governed by the County and School Board and can be amended by the County and School Board. The Plan provides for healthcare insurance coverage for eligible retirees, their spouses and dependents.

Plan Description

Covered full-time active employees who retire directly from the County with at least 5 years of service and attain the age of 50 prior to retirement are eligible to receive postretirement health care benefits. Retirees not eligible for Medicare may elect one of the following medical options which include medical, dental, and vision coverage: Key

Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

Plan Description (Continued)

Advantage Expanded (PPO), Key Advantage 500 (PPO), or TLC High Deductible (PPO). Retirees who are eligible for Medicare may only elect the Medicare supplement provided by Key Advantage 65 and must pay 100% of the supplement less the health insurance credit. Retirees may elect to cover a spouse and dependents.

County retirees who have at least 15 years of service with the County receive a health insurance credit with the County. Retirees receive \$4 per year of County service per month, up to a maximum of \$120 per month for their elected medical coverage from the County. The retiree must pay the remainder of the premium. County retirees who have less than 15 years of service with the County must pay 100% of the premium cost. County membership in the plan at the time of the actuarial study consisted of 156 active members with total active covered payroll of \$8,566,000 and 4 retirees.

The Powhatan County Schools retirees who attain the age of 50 with at least 5 years of service are eligible to participate in the retiree medical plan. Retirees who are age 65 and older may only participate in the Medicare Supplement and must pay 100% of the cost. The School Board pays 100% of the premium cost for retirees' single coverage. Retirees pay 100% of any additional premium for spouse and dependent coverage. Schools membership in the plan at the time of the actuarial study consisted of 532 active members with total active covered payroll of \$24,503,000 and 49 retirees. There are no financial statements issued for the OPEB plan.

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the plan:

	<u>County</u>	<u>School Board</u>
Inactive members or their beneficiaries:		
Currently receiving benefits	4	49
Entitled to but not yet receiving benefits	-	-
	<u>4</u>	<u>49</u>

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

Total OPEB Liability

The County's total OPEB liability of \$2,246,000 was measured as of July 1, 2020 and was determined based on an actuarial valuation performed as of July 1, 2019. The School Non-Professional employee's total OPEB liability of \$15,849,000 was measured as of July 1, 2020 and was determined based on an actuarial valuation performed as of July 1, 2019.

Actuarial Assumptions and other inputs

The total OPEB liability was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

	<u>County</u>	<u>School Board</u>
Inflation	2.45%	2.45%
Salary increases, including inflation	3.75%	3.75%
Healthcare cost trends rates*	10.64%	10.66%
* decreasing .50% per year to an ultimate rate of 5.00%		

Mortality rates: RP-2014 Mortality Table, fully generational with base year 2006, projected using two-dimensional mortality improvement scale MP-2020. For county employees and non-teachers, a four year set forward in age for males and a two year setback in age for females is applied. For law enforcement officers, a two year setback in age for both males and females applied. For teachers a three year setback in age applied to males and a five year set back in age is applied to females.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2019 through July 30, 2020. The actuarial cost method discount rate has been set equal to 2.45% and represents the Municipal GO AA 20-year yield curve rate as of the measurement date.

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the County and Schools also participates in various cost-sharing and agent multi-employer other postemployment benefit plans, described as follows.

Plan Descriptions

Group Life Insurance Program

All full-time, salaried permanent teachers and employees of political subdivisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment. This plan is administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at <https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp>

Plan Descriptions (Continued)

Teacher Employee Health Insurance Credit Program

All full time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit (HIC) Program. This plan is administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

Specific information about the Teacher HIC is available at
<https://www.varetire.org/retirees/insurance/healthinscredit/index.asp>

General Employee Health Insurance Credit Program

The General Employee Health Insurance Credit Program (HIC) is available for all full time, salaried employees of local government entities other than Teachers. The General Employee HIC provides all the same benefits as the Teacher HIC, except that this plan is considered a multi-employer agent plan.

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the General Employee Health Insurance Credit Program:

Inactive members or their beneficiaries receiving benefits	10
Inactive members:	
Vested inactive members	-
Non-vested inactive members	-
Inactive members	-
Total inactive members	10
Active members	64
Total covered employees	74

Contributions

Contributions to the VRS OPEB programs were based on actuarially determined rates from actuarial valuations as of June 30, 2019. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

Group Life Insurance Program

Governed by:	<i>Code of Virginia</i> 51.1-506 and 51.1-508 and may be impacted as a result of funding provided to school divisions and governmental agencies by the Virginia General Assembly
Total rate:	1.34% of covered employee compensation. Rate allocated 60/40; 0.80% employee and 0.52% employer. Employers may elect to pay all or part of the employee compensation.
June 30, 2021 Contribution	\$48,752
June 30, 2020 Contribution	\$47,418

Teacher Health Insurance Credit Program

Governed by:	<i>Code of Virginia</i> 51.1-1401(E) and may be impacted as a result of funding provided to school divisions by the Virginia General Assembly.
Total rate:	1.21% of covered employee compensation.
June 30, 2021 Contribution	\$301,816
June 30, 2020 Contribution	\$302,269

Contributions (Continued)**General Employee Health Insurance Credit Program**

Governed by:	<i>Code of Virginia</i> 51.1-1402(E) and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	0.26% of covered employee compensation.
June 30, 2021 Contribution	\$9,006
June 30, 2020 Contribution	\$10,715

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liabilities were measured as of June 30, 2020 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations performed as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the net OPEB liabilities, except for LODA, were based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers.

Group Life Insurance Program

	County	School Board	Teachers
June 30, 2021 proportionate share of liability	\$733,788	\$138,013	\$2,051,834
June 30, 2020 proportion	0.04397%	0.00827%	0.12295%
June 30, 2019 proportion	0.04328%	0.00859%	0.12531%
June 30, 2021 expense	\$36,080	\$1,886	\$65,287

Teacher Health Insurance Credit Program

June 30, 2021 proportionate share of liability	\$3,747,484
June 30, 2020 proportion	0.28727%
June 30, 2019 proportion	0.29185%
June 30, 2021 expense	\$282,650

Since there was a change in proportionate share between measurement dates, a portion of the OPEB expense above was related to deferred amount from changes in proportion.

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB (Continued)

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions based on an actuarial valuation date of June 30, 2019, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020:

Inflation	2.50%
Salary Increases, including inflation:	
Locality - general employees	3.50-5.35%
Locality - hazardous duty employees	3.50-4.75%
Teachers	3.50-5.95%
Healthcare cost trend rates:	
Under age 65	7.00-4.75%
Ages 65 and older	5.375-4.75%
Investment rate of return, net of expenses, including inflation*	6.75%

- * Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed percent above. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be the percent noted above to simplify preparation of OPEB liabilities.

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 11.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Net OPEB Liabilities

The net OPEB liabilities represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2020, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

	Group Life Insurance Program	Teacher Employee HIC OPEB Plan
Total OPEB liability	\$ 3,523,937	\$ 1,448,676
Plan fiduciary net position	1,855,102	144,160
Employers' net OPEB liability (asset)	<u>\$ 1,668,835</u>	<u>\$ 1,304,516</u>
Plan fiduciary net position as a percentage of total OPEB liability	52.64%	9.95%

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Long-Term Expected Rate of Return

Group Life Insurance and Health Insurance Credit Programs

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		<u>4.64%</u>
	Inflation		<u>2.50%</u>
*Expected arithmetic nominal return			<u>7.14%</u>

- * The above allocation provides for a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.5%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations, provide a median return of 6.81%.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Discount Rate

The discount rate used to measure the GLI and HIC OPEB liabilities was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2020, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the County and School Board, as well as what the County and School Board's net OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current discount rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
GLI Net OPEB liability - County	\$ 964,620	\$ 733,788	\$ 546,330
GLI Net OPEB liability - Teachers	2,697,294	2,051,834	1,527,661
GLI Net OPEB liability - Schools Non-professional	181,428	138,013	102,755
Teacher HIC Net OPEB liability	4,194,918	3,747,484	3,367,198
General Employee HIC Net OPEB liability	49,466	40,802	33,449

OPEB Plan Fiduciary Net Position

Information about the various VRS OPEB plan fiduciary net position is available in the separately issued VRS 2020 Annual Report. A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Federal programs

Federal programs in which the County and discretely presented component unit participate may be subject to audit by the Federal Government, which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 17. Line of Duty Act Liability (LODA)

The County covers LODA through insurance with VACorp. They do not have an OPEB liability for current safety employees. However, prior to starting coverage with VACorp, an officer died in the line of duty and his spouse and child were grandfathered into the original State LODA plan. The County pays approximately \$8,000/year currently for health insurance for the two individuals. The spouse's insurance will be paid until she dies while the child is covered until he reaches age 26 (unless he meets the requirements as an incapacitated dependent child). The following is the calculated liability for the County at June 30, 2021:

Annual premiums paid by County for spouse:	\$ 11,748
Annual premiums paid by County for child:	8,016
Years remaining for spouse: Approximately	37
Years remaining for child: Born July 2003	8
Annual increase in health insurance costs:	<u>6.0%</u>
Present value of total estimated liability at 6/30/21	<u>\$ 559,846</u>

Note 18. Risk Management

The County and School Board are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the government carries insurances.

The County and School Board are members of the Virginia Municipal Group Self Insurance Association for workers' compensation. Each Association member jointly and severally agrees to assume, pay, and discharge any liability. Virginia Municipal Group contributions and assessments are based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County and School Board carry commercial insurance for all other risks of losses. Settled claims from these risks have not exceeded commercial coverage in any of the last three fiscal years.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 20. Local Choice Insurance Plan

The County's employees are covered by a professionally administered risk sharing program which provides health coverage for employees of the County on a cost-reimbursement basis. Dependents are covered by the program provided they pay a premium to the County. Under the program, the County's health insurance claims are separately rated from other groups, and the County's claims experience is factored into the premiums assessed in subsequent periods. However, gains and losses resulting from the County's claims experience are not settled directly with the County, but instead are shared by the pool. If the County were to exit the risk pool, it could be assessed a settlement charge that would not exceed any net loss resulting from the County's most recent claims experience. The County has no plans to exit the pool.

Note 21. Revenue Stabilization Reserve

The County established a revenue stabilization fund in FY2020. The County will maintain the reserve of 3% of the total adopted general fund budget of the prior year, plus non-local portion of the school operating fund budget. The Board may draw down the reserve only if:

1. Current fiscal year – Third and fourth quarter forecasted general fund revenues, excluding use of prior year fund balance, decline by more than 1.5%; or
2. Subsequent fiscal year – During the annual budget cycle real estate assessments are forecast to decrease more than 3% over the previous year's assessments.

Withdrawals may not exceed half of the balance in the reserve in any one fiscal year and shall be used in combination with spending cuts. In the event of a draw down, the reserve must be replenished to 3% level within 3 fiscal years.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 22. Accounting Changes and Restatements

The School Division adopted Statement No. 84 of the Governmental Accounting Standards Board, "Fiduciary Activities," for the fiscal year ended June 30, 2021. The Statement established standards of accounting and financial reporting for fiduciary activities. Powhatan County Public Schools' School Activity Fund has historically been reported as a stand-alone cash-basis audited financial report.

With the implementation of Statement No. 84, the School Activity Fund was incorporated in the Annual Comprehensive Financial Report as a special revenue fund and reported as part of the Component Unit School Board. The School Activity Fund was reported on a modified accrual basis of accounting. There were no accruals reported as school ended early June and all revenues and expenditures were received and paid by June 30, 2021.

The restatement of the prior period net position and fund balance for the fiscal year ended June 30, 2020 increased the amounts by \$864,554. As a result, the net position/fund balance as of June 30, 2020 has been adjusted accordingly:

	Component Unit School Board	Component Unit School Activity Fund
As reported June 30, 2020:		
Total net position	\$ (36,562,911)	
Total fund balance		\$ -
Adjustments for June 30, 2020 items:		
Cash and cash equivalents	864,554	864,554
As restated July 1, 2020		
Total net position	\$ (35,698,357)	
Total fund balance		\$ 864,554

Additionally, the County's custodial funds now present net position instead of "Amounts Held for Others." Total net position for all custodial funds were restated by \$438,277, as noted in Exhibit 11, as a result of a new standard.

Note 23. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective.

The GASB issued **Statement No. 87, Leases** in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after June 15, 2021.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

Note 23. New Accounting Standards (Continued)

The GASB issued **Statement No. 91**, *Conduit Debt Obligations* in May 2019. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

In January 2020, the GASB issued **Statement No. 92**, Omnibus. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021. GASB 93 addresses accounting and financial reporting implications that result from the replacement of an IBOR. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2022. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

In March 2020, the GASB issued **Statement No. 94**, Public-Private and Public-Public Partnerships and Availability Payment Arrangements. This Statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. All other requirements of this statement are effective for reporting periods beginning after June 15, 2021.

In May 2020, the GASB issued **Statement No. 96**, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

In June 2020, the GASB issued **Statement No. 97**, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32. This Statement provides a more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

COUNTY OF POWHATAN, VIRGINIA

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2021

Note 1. Changes of Benefit Terms

Pension

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

Other Postemployment Benefits (OPEB)

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Note 2. Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2019, valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2020. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Largest 10 – Non-Hazardous Duty:

- Update mortality table to RP-2014 project to 2020
- Lowered rates at older ages and extended final retirement age from 70 to 75
- Update withdrawal rates to better fit experience at each age and service year
- Lowered in rates of disability retirement
- No changes to salary rates
- Decrease discount rate from 7.00% to 6.75%
- Applicable to: Pension, GLI OPEB, and HIC OPEB

Largest 10 –Hazardous Duty/Public Safety Employees:

- Update mortality table to RP-2014 project to 2020
- Lowered rates of retirement at older ages
- Update withdrawal rates to better fit experience at each age and service year
- Increased disability rates
- No changes to salary rates
- Decrease discount rate from 7.00% to 6.75%
- Applicable to: Pension, GLI OPEB, and HIC OPEB

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table to RP-2014 project to 2020
- Lowered rates of retirement at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience at each age and service year
- Lowered disability rates
- No changes to salary rates
- Decrease discount rate from 7.00% to 6.75%
- Applicable to: Pension, GLI OPEB, and HIC OPEB

COUNTY OF POWHATAN, VIRGINIA

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2021

Note 2. Changes of Assumptions (Continued)

All Others (Non 10 Largest) – Hazardous Duty/Public Safety Employees:

- Update mortality table to RP-2014 project to 2020
- Increased retirement rate at age 50 and lowered rates at older ages
- Update withdrawal rates to better fit experience at each age and service year
- Update disability rates to better fit experience
- No changes to salary rates
- Decrease discount rate from 7.00% to 6.75%
- Applicable to: Pension, GLI OPEB, and HIC OPEB

Teacher cost-sharing pool

- Update mortality table to RP-2014 project to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience at each year age and service through 9 years of service
- Update disability rates to better fit experience
- No changes to salary rates
- Decrease discount rate from 7.00% to 6.75%
- Applicable to: Pension, GLI OPEB, and HIC OPEB

Note 3. Budgetary Statements

The State of Virginia requires all local governments prepare, approve, adopt and execute an annual budget. The budgeting process is based on estimates of revenues and expenditures. The County budgets are prepared on a modified-accrual basis of accounting in accordance with generally accepted accounting principles.

The County maintains budgetary controls to ensure compliance with legal provisions in the appropriated budget approved by the Board of Supervisors. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is the fund level and thus the budget to actual comparison is presented at this level. Amounts that do not fall under function control are categorized as nondepartmental even though they may relate to a particular function.

OTHER FINANCING SOURCES (USES)			
Transfers in	\$ -	\$ 50,000	\$ 50,000
Transfers out	(50,000)	-	(50,000)
Total other financing sources and uses	<u>\$ (50,000)</u>	<u>\$ 50,000</u>	<u>\$ -</u>
Net change in fund balances	\$ (53,387)	\$ 282,109	\$ 228,722
Fund balances - beginning - as restated	176,887	612,485	789,372
Fund balances - ending	<u>\$ 123,500</u>	<u>\$ 894,594</u>	<u>\$ 1,018,094</u>

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:

Net change in fund balances - total governmental funds - per above \$ 228,722

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

Capital asset additions	\$ 109,518	
Depreciation expense	(229,197)	
Allocation of jointly owned assets, net	<u>669,488</u>	549,809

Governmental funds report employer pension and OPEB contributions as expenditures. However, in the Statement of Activities the cost of pension benefits earned net of employee contributions is reported as pension/OPEB expense.

Employer pension contributions	\$ 4,233,982	
Pension expense	(5,242,267)	
Employer OPEB contributions	760,289	
OPEB expense	<u>(1,405,534)</u>	(1,061,110)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Decrease in compensated absences	<u>8,590</u>
----------------------------------	--------------

Change in net position of governmental activities	<u>\$ (273,989)</u>
---	---------------------

STATISTICAL SECTION

STATISTICAL SECTION

This part of the County of Powhatan, Virginia's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents

Table

Financial Trends

1-4

These tables contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

Revenue Capacity

5-8

These tables contain information to help the reader assess the factors affecting the County's ability to generate revenues through property, sales taxes, and other means.

Debt Capacity

9-11

These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Demographic and Economic Information

12-14

These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparison over time and with other governments.

Operating Information

15-16

These schedules contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The County implemented Statement No. 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

Source: Treasurer's Office and Commissioner of the Revenue

(1) In FY 2012, the County implemented twice a year collections for personal property taxes. This resulted in an additional levy and collection of one half of the annual personal property tax in FY 2012.

(2) In FY2014, the County did a short year for real estate and therefore the levy was half of a normal levy in order for the real estate levies to agree to the budget cycle.

(3) The collection rate appears low due to second half of personal property is not due until FY2016

2013	28,394	3,375,688,832	36,068,717	1.07%	1,270
2012	28,110	3,327,692,284	38,856,830	1.17%	1,382

Notes: Details regarding the County's outstanding debt can be found in the notes to the financial statements.

(1) Assessed taxable value is combination of real and other personal property per Table 7.

(2) Includes all long-term general obligation debt, bonded anticipation notes and literary fund loans. Excludes revenue bonds, capital leases, and compensated absences.

**Debt Management Ratios
Last Ten Fiscal Years**

Policy (1)	15.00%	4.00%
Fiscal Year	Debt Service To Expenditures (2)	Net Tax Supported Debt To Assessed Value (3)
2021	11.23%	2.37%
2020	13.25%	2.86%
2019	13.17%	3.06%
2018	13.20%	3.02%
2017	13.11%	3.23%
2016	11.17%	2.16%
2015	11.39%	2.34%
2014	12.06%	2.47%
2013	12.20%	2.63%
2012	11.73%	2.75%

(1) Policy was 12% and 4.50% prior to FY 2016

(2) Expenditures are made up of the General fund, Other Governmental funds, School Operating fund, School Cafeteria fund, Water and Sewer fund less transfers to the School Fund. Includes all debt from Table 9 less premiums.

(3) Assessed taxable value is combination of real and other personal property per Table 7.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of the Board of Supervisors
County of Powhatan, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Powhatan, Virginia (the "County"), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 24, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. **Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. **The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

To the Honorable Members of the Board of Supervisors
County of Powhatan, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Powhatan, Virginia's (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2021. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, the terms, and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Powhatan, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. **We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

COUNTY OF POWHATAN, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2021

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting consistent with the basis of accounting used by County of Powhatan, Virginia. The schedule includes all known federal funds expended by the County for the year ended June 30, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

(a) Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(b) Pass-through entity identifying numbers are presented where available.

Note 3 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General Fund	\$ 1,300,131
Special Revenue Funds:	
Grants fund	1,019,395
Fire and rescue fund	19,235
Total primary government	<u>\$ 2,338,761</u>

Component Unit Public Schools:

School Operating Fund	\$ 1,442,486
School Cafeteria Fund	584,651
Total component unit public schools	<u>\$ 2,027,137</u>
