Independent Auditors' Report

To The Honorable Members of the Board of Supervisors County of Northumberland Northumberland, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of County of Northumberland, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of County of Northumberland, Virginia, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis budgetary comparison information, and schedules of pension and OPEB funding progress on pages 4-10, 64, and 65-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise County of Northumberland, Virginia's basic financial statements. The other supplementary information and statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2015, on our consideration of County of Northumberland, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Northumberland, Virginia's internal control over financial reporting and compliance.

Richmond, Virginia January 15, 2015

BAICK-

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Northumberland County County of Northumberland, Virginia

As management of the County of Northumberland, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2014. Please read it in conjunction with the County's basic financial statements, which follow this section.

Financial Highlights

Government-wide Financial Statements

< The assets of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$16,072,616 (net position).

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported expenditures and other uses in excess of revenues and other financing sources of \$1,245,133 (Exhibit 5) after making contributions totaling \$10,746,560 to the School Board.

- < As of the close of the current fiscal year; the County's funds reported ending fund balances of \$7,050,800, a decrease of \$1,245,133 in comparison with the prior year.
- < At the end of the current fiscal year, unassigned fund balance for the general fund was \$6,631,922, or 28% of total general fund expenditures and other uses.
- The combined long-term obligations decreased \$1,219,276 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Northumberland, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Northumberland, Virginia is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Northumberland, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has two major governmental funds - the General Fund and the County Capital Projects Fund.

Proprietary funds - Proprietary funds consist of enterprise funds. Enterprise funds are established to account for the delivery of goods and services to the general public and use the accrual basis of accounting, similar to private sector business.

The Sanitary District Fund provides a centralized source for water/sewer services to County residents.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities and deferred inflows of resources by \$16,072,616 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Position:

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$7,050,800, a decrease of \$1,245,133 in comparison with the prior year. Approximately 94% of this total amount constitutes unassigned General Fund balance, which is available for spending at the County's discretion.

<u>Proprietary Funds</u> - The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position at the end of the year amounted to \$29,418. The total decrease in net position was \$156,858. Other factors concerning the finances of this fund have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

During the year, revenues and other sources were less than budgetary estimates by \$1,094,525. Expenditures and other uses were less than budgetary estimates by \$1,279,983, resulting in a positive variance of \$185,458.

Capital Asset and Debt Administration

< <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2014 amounts to \$39,697,037 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total debt outstanding of \$36,576,000 (excludes bond premium). The County's debt represents bonds secured solely by specified revenue sources (i.e., lease/revenue bonds).

The County's total debt outstanding decreased by \$1,211,537 during the current fiscal year.

Additional information on the County of Northumberland, Virginia's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budgets and Rates

< Inflationary trends in the region compare to national indexes.

All of these factors were considered in preparing the County's budget for the 2015 fiscal year.

The fiscal year 2015 budget increased approximately 2.6%. All tax rates remained the same.

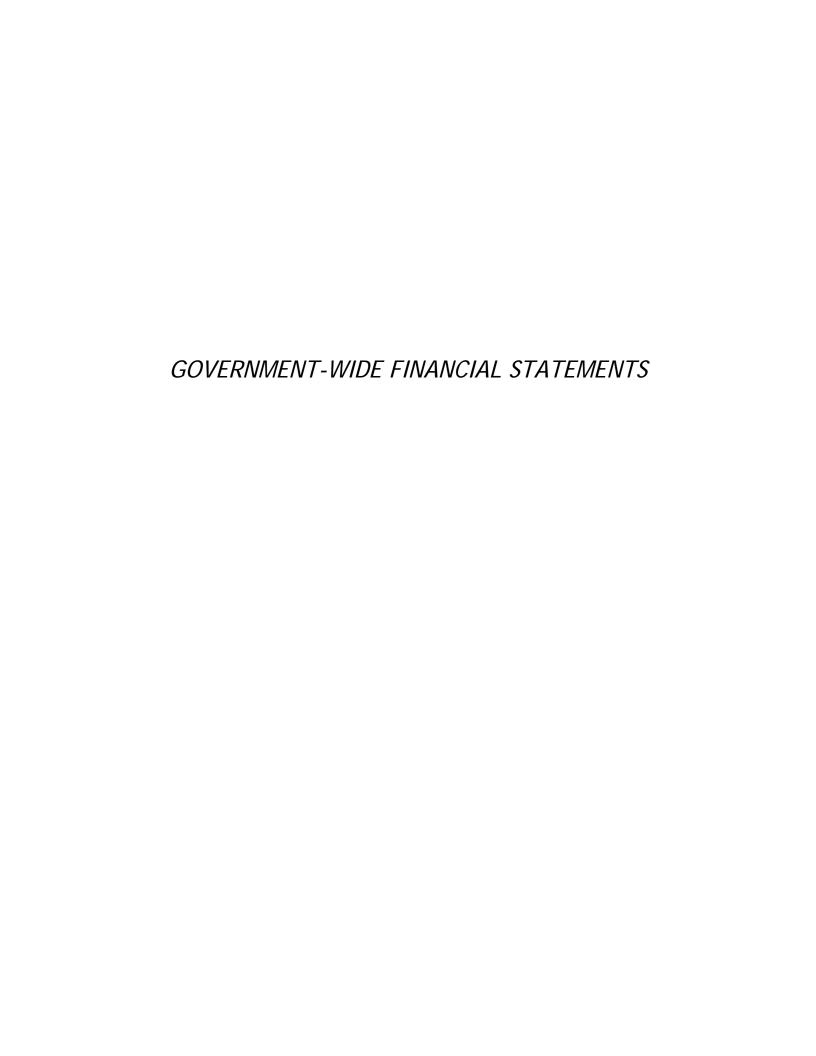

Requests for Information

This financial report is designed to provide a general overview of the County of Northumberland, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, 72 Monument Place, Heathsville, Virginia 22473.

County of Northumberland, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Position June 30, 2014

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds \$ 7,050,800

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

39,697,037

Other long-term assets are not available to pay for current-period expenditures and,

therefore, are deferred in the funds:

Unavailable property taxes 662,083

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

 Lease revenue bond
 \$ (33,830,000)

 Bond premium
 (380,155)

 Net OPEB obligation
 (100,730)

 Accrued interest payable
 (398,883)

 Compensated absences
 (171,095)

Compensated absences (171,095) (34,880,863)

Net position of governmental activities \$ 12,529,057

\$ (2,343,714)

County of Northumberland, Virginia Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:				
Net change in fund balances - total governmental funds			\$	(1,245,133)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period. The following is a summary of items supporting this adjustment:				
Capital outlay	\$	695,875		
Depreciation expense		(1,492,487)		(227 (24)
Transfer of joint tenancy assets to Component Unit from Primary Government		(90,872)	-	(887,484)
The net effect of various miscellaneous transactions involving capital assets (I.e., sales,				
trade-ins, disposals and donations) is to decrease net position.				(1,383,130)
Revenues in the statement of activities that do not provide current financial resources are				
not reported as revenues in the funds.				45,343
The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The following is a summary of items supporting this adjustment: Principal retired on school lease revenue bond Principal retired on school general obligation Decrease in bond premium on lease revenue bond	\$	800,000 310,000 16,529	-	1,126,529
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment: (Increase) decrease in compensated absences (Increase) decrease in net OPEB obligation (Increase) decrease in accrued interest payable	\$	11,710 (20,500) 8,951		161
(2222, 2222 200, 202	_	3,701	-	.51

Notes to Financial Statements As of June 30, 2014

Note 1—Summary of Significant Accounting Policies:

The County of Northumberland, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, recreational activities, cultural events, education, and social services.

The financial statements of the County of Northumberland, Virginia have been prepared in conformity with the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board and the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. The more significant of the government's accounting policies are described below.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Northumberland (the primary government) and its component unit. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

B. <u>Individual Component Unit Disclosures</u>

Blended Component Unit. The County has no blended component units at June 30, 2014.

Discretely Presented Component Units. The School Board members are elected by the citizens of Northumberland County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2014.

C. Other Related Organizations

Included in the County's Financial Report

None

Excluded from the County's Annual Financial Report

Northern Neck Regional Jail Authority

The Northern Neck Regional Jail Authority is an intergovernmental (joint) venture, and therefore, its operations are not included in the County's financial statements. The participating jurisdictions' provide the financial support for the Authority and appoints its governing Board. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The government-wide statement of activities reflect both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following governmental funds.

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

b. Capital Projects Funds

Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The County Capital Projects Fund is considered a major fund.

c. Special Revenue Funds

Special Revenue Funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The Law Library, Forfeited Assets, Economic Development and Courthouse Security Funds are nonmajor special revenue funds.

2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to those found in private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

Enterprise Funds

Enterprise funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. Enterprise Funds consist of the Sanitary District Fund.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

3. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds and Private Purpose Trust Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements. Agency funds consist of the following funds: Special Welfare, Road Improvement Bond, 350th Anniversary, Tornado Relief, Fallen Heroes, Northern Neck Regional Special Education, Animal Shelter, and School Board Employee Escrow.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

Investments are reported at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. the noncurrent portion of the interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$129,226 at June 30, 2014 and is comprised solely of property taxes.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the fiscal year ending 2014.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Buildings	40
Building Improvements	40
Plant, equipment, and systems	35-45
Motor vehicles	5-10
Machinery and equipment	2-15

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulated rights to be received for sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service costs over a 30-year period. The County's policy is to fund pension cost as it accrues.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

M. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County does not have any deferred outflows of resources as of June 30, 2014.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reported a deferred inflows of resources for property taxes unavailable at June 30, 2014. The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid on the 2nd half installments are reported as deferred inflows of resources.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

O. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

P. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 1—Summary of Significant Accounting Policies: (Continued)

P. Fund Equity (Continued)

- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent
 can be expressed by the governing body or by an official or body to which the governing body
 delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

The details of governmental fund balance, as presented in aggregate on Exhibit 3, are as follows:

				Other				
	General			Capital Projects		vernmental		
		<u>Fund</u>		<u>Fund</u>	<u>Funds</u>			<u>Total</u>
Fund balances:								
Restricted:

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. The appropriation for each department or category can be revised only by the Board of Supervisors. The Board of Supervisors is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse on June 30, for all County units.

Expenditures and Appropriations

Expenditures exceeded appropriations at June 30, 2014 in the Forfeited Assets Fund.

Note 3—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 3—Deposits and Investments: (Continued)

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2014 were rated by Standard & Poor's and the ratings are presented below using Standard & Poor's rating scale. The County's investment policy has an emphasis on high credit quality and known marketability. Holdings of commercial paper are not allowed to exceed thirty-five percent of the investment portfolio.

County's Rated Debt Investments' Values				
Rated Debt Investments		ir Quality Ratings		
Local Government Investment Pool	<u> </u>	AAAm 11,889		
U.S. Government Money Market Fund Virginia State Non-Arbitrage Pool		15 2,720		
Total	\$	14,624		

Interest Rate Risk

According to the County's investment policy, at no time shall the maturity or duration of an investment exceed five years.

Investment Maturities (in years)							
Investment Type	Fair '	Less Than 1 Year					
U.S. Government Money Market Fund	\$	15	\$	15			
Total	\$	15	\$	15			

External Investment Pools

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 4—Due to/from Other Governments:

At June 30, 2014, the County has amounts due from other governments as follows:

Other Local Governments:	Primary Government	Component Unit School Board
County of Northumberland	\$ -	\$ 1,360,724

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 8—Unearned and Deferred/Unavailable Revenue:

Unearned and Unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. The County reports unavailable revenue totaling \$709,126 and deferred revenue totaling \$47,043 which is compiled of the following:

<u>Unavailable Property Tax Revenue</u> - Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$662,083 at June 30, 2014.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2014 but paid in advance by the taxpayers totaled \$47,043 at June 30, 2014.

<u>Deferred Revenue</u> - Deferred revenue representing prepaid taxes due subsequent to June 30, 2014 totaled \$47,043.

Note 9—Contingent Liabilities:

Federal programs in which the County and discretely presented component unit participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations.</u> Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 10—Litigation:

At June 30, 2014, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

Note 11—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation and public officials' liability coverage with the Virginia Association of Counties Group Self Insurance Risk Pool. This program is administered by a servicing contractor, which furnishes claims review and processing.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 11—Risk Management: (Continued)

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

Note 12-Pension Plan:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Members earn one month of service credit for each month they are employed and they and their employer are paying contributions to VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

Within the VRS Plan, the System administers three different benefit plans for local government employees - Plan 1, Plan 2, and, Hybrid. Each plan has different eligibility and benefit structures as set out below:

VRS - PLAN 1

- Plan Overview VRS Plan 1 is a defined benefit plan. The retirement benefit is based on a
 member's age, creditable service and average final compensation at retirement using a
 formula. Employees are eligible for VRS Plan 1 if their membership date is before July 1,
 2010, and they were vested as of January 1, 2013.
- 2. Eligible Members Employees are in VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 3. Hybrid Opt-In Election VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under VRS Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 1 or ORP.

43

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. <u>Plan Description (Continued)</u>

VRS - PLAN 1 (CONTINUED)

- 4. Retirement Contributions Members contribute up to 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.
- 5. Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.
- 6. Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.

Members are always 100% vested in the contributions that they make.

7. Calculating the Benefit - The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.

An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

- **8.** Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
- 9. Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.7% or 1.85% as elected by the employer.
- 10. Normal Retirement Age Age 65.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS - PLAN 1 (CONTINUED)

- 11. Earliest Unreduced Retirement Eligibility Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit at age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.
 - Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.
- **12. Earliest Reduced Retirement Eligibility** Members may retire with a reduced benefit as early as age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.
- **13. Cost-of-Living Adjustment (COLA) in Retirement** The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.
- **14. Eligibility** For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.
 - For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.
- **15. Exceptions to COLA Effective Dates** The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:
 - The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
 - The member retires on disability.
 - The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
 - The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
 - The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. <u>Plan Description (Continued)</u>

VRS - PLAN 1 (CONTINUED)

16. Disability Coverage - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS - PLAN 2

- Plan Overview VRS Plan 2 is a defined benefit plan. The retirement benefit is based on a
 member's age, creditable service and average final compensation at retirement using a
 formula. Employees are eligible for VRS Plan 2 if their membership date is on or after July 1,
 2010, or their membership date is before July 1, 2010, and they were not vested as of
 January 1, 2013.
- 2. Eligible Members Employees are in VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 3. Hybrid Opt-In Election VRS Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under VRS Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 2 or ORP.

- 4. Retirement Contributions Same as VRS Plan 1-Refer to Section 4.
- 5. Creditable Service Same as VRS Plan 1- Refer to Section 5.
- 6. Vesting Same as VRS Plan 1-Refer to Section 6.
- 7. Calculating the Benefit Same as VRS Plan 1-Refer to Section 7.
- **8.** Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.
- **9. Service Retirement Multiplier** Same as Plan1 for service earned, purchased or granted prior to January 1, 2014. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2014.
- 10. Normal Retirement Age Normal Social Security retirement age.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. Plan Description (Continued)

VRS - PLAN 2 (CONTINUED)

11. Earliest Unreduced Retirement Eligibility - Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.

- **12. Earliest Reduced Retirement Eligibility** Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.
- **13. Cost-of-Living Adjustment (COLA) in Retirement** The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.
- **14.** Eligibility Same as VRS Plan 1-Refer to Section 14.
- **15. Exceptions to COLA Effective Dates** Same as VRS Plan 1-Refer to Section 15.
- **16. Disability Coverage** Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Same as VRS Plan 1-Refer to Section 17.

HYBRID RETIREMENT PLAN

- 1. Plan Overview The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as VRS Plan 1 and VRS Plan 2 members who were eligible and opted into the plan during a special election window. (See "Eligible Members")
 - The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.
 - The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (CONTINUED)

- 1. Plan Overview (Continued)
 - In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.
- 2. Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:
 - State employees*
 - School division employees
 - Political subdivision employees*
 - Judges appointed or elected to an original term on or after January 1, 2014
 - Members in VRS Plan 1 or VRS Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014
- **3. *Non-Eligible Members** Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:
 - Members of the State Police Officers' Retirement System (SPORS)
 - Members of the Virginia Law Officers' Retirement System (VaLORS)
 - Political subdivision employees who are covered by enhanced benefits for hazardous duty employees

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under VRS Plan 1 or VRS Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select VRS Plan 1 or VRS Plan 2 (as applicable) or ORP.

4. Retirement Contributions - A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. <u>Plan Description (Continued)</u>

HYBRID RETIREMENT PLAN (CONTINUED)

5. Creditable Service

<u>Defined Benefit Component</u> - Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

<u>Defined Contribution Component</u> - Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

6. Vesting

<u>Defined Benefit Component</u> - Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. VRS Plan 1 or VRS Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

<u>Defined Contribution Component</u> - Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.

Members are always 100% vested in the contributions that they make.

Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.

- After two years, a member is 50% vested and may withdraw 50% of employer contributions.
- After three years, a member is 75% vested and may withdraw 75% of employer contributions.
- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.

Distribution is not required by law until age 70½.

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (CONTINUED)

7. Calculating the Benefit

Defined Benefit Component - Same as VRS Plan 1-Refer to Section 7.

<u>Defined Contribution Component</u> - The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

- **8.** Average Final Compensation Same as VRS Plan 2-Refer to Section 8. It is used in the retirement formula for the defined benefit component of the plan.
- 9. Service Retirement Multiplier The retirement multiplier is 1.0%.

For members that opted into the Hybrid Retirement Plan from VRS Plan 1 or VRS Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

10. Normal Retirement Age

Defined Benefit Component - Same as VRS Plan 2-Refer to Section 10.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

11. Earliest Unreduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

12. Earliest Reduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

13. Cost-of-Living Adjustment (COLA) in Retirement

Defined Benefit Component - Same as VRS Plan 2-Refer to Section 13.

<u>Defined Contribution Component</u> - Not Applicable.

- 14. Eligibility Same as VRS Plan 1 and VRS Plan 2-Refer to Section 14.
- **15. Exceptions to COLA Effective Dates** Same as VRS Plan 1 and VRS Plan 2-Refer to Section 15.
- **16. Disability Coverage** Eligible political subdivision and school division members (including VRS Plan 1 and VRS Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.

State employees (including VRS Plan 1 and VRS Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

Hybrid members (including VRS Plan 1 and VRS Plan 2 opt-ins) covered under VSDP or VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service

<u>Defined Benefit Component</u> - Same as VRS Plan 1 and VRS Plan 2-Refer to Section 17.

Defined Contribution Component - Not Applicable.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 12-Pension Plan: (Continued)

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County and School Board non-professional's contribution rate for the fiscal year ended 2014 were 13.06% and 11.36% of annual covered payroll, respectively.

The School Board's professional employees contributed \$860,880, \$782,648 and \$422,937 to the teacher cost-sharing pool for the fiscal years ended June 30, 2014, 2013, and 2012 respectively and these contributions represented 11.66%, 11.66% and 6.33% for 2014, 2013, and 2012, respectively, of current covered payroll.

C. Annual Pension Cost

For fiscal year 2014, the County's annual pension cost of \$439,811 was equal to the County's required and actual contributions.

Three	Year	Trend	Information

57,075

June 30, 2012

The fiscal year 2014 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

D. Funded Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the County's plan was 78.42% funded. The actuarial accrued liability for benefits was \$15,059,895, and the actuarial value of assets was \$11,809,519, resulting in an unfunded actuarial accrued liability (UAAL) of \$3,250,376. The covered payroll (annual payroll of active employees covered by the plan) was \$3,230,205, and ratio of the UAAL to the covered payroll was 100.62%.

As of June 30, 2013, the most recent actuarial valuation date, the School Board's plan was 74.96% funded. The actuarial accrued liability for benefits was \$3,944,773 and the actuarial value of assets was \$2,956,862, resulting in an unfunded actuarial accrued liability (UAAL) of \$987,911. The covered payroll (annual payroll of active employees covered by the plan) was \$639,505 and ratio of the UAAL to the covered payroll was 154.48%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

The County of Northumberland entered into a financing lease agreement dated June 29, 2000 with the Counties of Westmoreland and Richmond to lease a portion of the two counties interest in the Northern Neck Regional Jail located in the Town of Warsaw, Virginia. Annual rental payments of \$345,838 are to be made through December 15, 2015 with 64% payable to the Northern Neck Regional Jail Board and 36% payable to Richmond County. Annual rental payments are subject to appropriation. After all scheduled lease payments are made Northumberland County will hold an ownership interest in the Regional Jail Facility of 25%.

The remainder of this page left blank intentionally

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 15-Other Postemployment Benefits - Health Insurance:

Background

Beginning in fiscal year 2009, the County of Northumberland implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other postemployment benefits (OPEB) offered to retirees. The standard addresses how local governments should account for the report their costs related to postemployment health care and other non-pension benefits, such as the County and School Board retiree health benefit subsidy. Historically, the County and the School Board subsidy was funded on a pay-as-you-go basis, but GASB Statement No. 45 requires that the County and the School Board accrue the cost of the retiree health subsidy and other postemployment benefits during the period of the employees' active employment, while the benefits are being earned, and disclosed the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County and the School Board. This funding methodology mirrors the funding approach used for pension benefits.

A. Plan Description

The County of Northumberland and the County of Northumberland School Board offer eligible retirees post-retirement medical and dental coverage if they retire directly from the County or Schools and are eligible to receive an early or regular retirement benefit from the Virginia Retirement System (VRS). Health benefits include medical, dental and vision coverage.

B. Funding Policy

The County and the School Board in Northumberland allow retirees and their spouses continue to participate in the County and School Board's medical, dental and disability coverage plans. The retiree pays 100% of all premiums. Benefits coverage stops at age 65 or upon the employees death.

The remainder of this page left blank intentionally

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in compliance with GASB 45 parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County and School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County and School Board's net OPEB obligation to the Retiree Health Plan:

	_	Primary Government	-	Component Unit School Board
Annual required contribution	\$	25,900	\$	87,200
Interest on net OPEB obligation	_	3,209		6,476
Adjustment to annual required contribution		(3,209)		(6,842)
Annual OPEB cost (expense)	\$	25,900	\$	86,834
Contributions made		(5,400)		(61,200)
Increase in net OPEB obligation	\$ -	20,500	\$	25,634
Net OPEB obligation-beginning of year		80,230		185,042
Net OPEB obligation-end of year	\$	100,730	\$	210,676

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The County and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2014 and the two preceding years were as follows:

Fiscal Year Ended	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
County:			
6/30/2012	\$ 23,051	4.34%	\$ 58,930
6/30/2013	24,500	13.06%	80,230
6/30/2014	25,900	20.85%	100,730
School Board:			
6/30/2012	\$ 69,700	52.37%	\$ 151,619
6/30/2013	85,023	60.69%	185,042
6/30/2014	86,834	70.48%	210,676

D. Funded Status and Funding Progress

As of January 1, 2012, the most recent actuarial valuation date, the County's actuarial accrued liability for benefits was \$167,200, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$3,156,800, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 5.30%.

As of January 1, 2013, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$1,018,300, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$7,730,300, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 13.17%.

Actuarial valuations of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The cost method for valuation of liabilities used for this valuation is the Projected Unit Credit (PUC) Actuarial Cost Method. A PUC accrued benefit is determined for each active member in the Plan on the basis of the member's benefit projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

The following simplifying assumptions were made:

Retirement age for active employees-The actuary used medical trend rates consistent with information from the Getzen Trend Model, Milliman's Health Cost Guidelines and actuarial judgment to project retirement trends. These trends rates do not include the effects of changes in demographics of the covered group.

Mortality-Life expectancies were based on mortality tables from the RP-2000 Combined Healthy Mortality Tables for males and females projected to 2014 using Scale AA.

Coverage elections - The actuary used medical trend data consistent with information from the Getzen Trend Model, Milliman's Health Cost Guidelines and actuarial judgment. The actuary assumed that 20% of eligible retirees will elect coverage and 20% of retirees who elect coverage will cover their spouse.

Based on the historical and expected returns of the County and School Board's short-term investment portfolio, a discount of 4.00% was used. In addition, the projected unit credit actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at January 1, 2012 and January 1, 2014, respectively, was thirty years.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 16—Other Postemployment Benefits (OPEB) - Health Insurance Credit:

A. Plan Description

Northumberland County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

Employees of Northumberland County who retire under VRS with at least 15 years of total creditable service under the System and are enrolled in a health insurance plan, are eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 12.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the <u>Code of Virginia</u> and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2014 were .010% of annual covered payroll.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 16—Other Postemployment Benefits (OPEB) - Health Insurance Credit: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

For 2014, the County's contribution of \$132 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years are as follows:

Fiscal Year Ending	O	nnual PEB : (ARC)	Percentage of ARC Contributed	0	let PEB gation
June 30, 2014 June 30, 2013	\$	132 134	100% 100%	\$	-
June 30, 2012		619	100%		-

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2013, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 31,903
Actuarial value of plan assets	\$ 39,494
Unfunded actuarial accrued liability (UAAL)	\$ (7,591)
Fundid ration (actuarial value of plan assets/AAL)	123.79%
Covered payroll (active plan members)	\$ 729,311
UAAL as a percentage of covered payroll	-1.04%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Notes to Financial Statements *(Continued)*As of June 30, 2014

Note 16—Other Postemployment Benefits (OPEB) - Health Insurance Credit: (Continued)

E. Actuarial Methods and Assumptions: (Continued)

Retiree postemployment benefit expenses are determined under the Projected Unit Credit actuarial cost method. Under this method, benefits are projected for life and their present value is determined. The present value is divided into equal parts, which are earned over the period from date of hire to the full eligibility date.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.0% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at June 30, 2012 was 29 years using an open amortization period.

F. Professional Employees - Discretely Presented Component Unit School Board

The School Board professional employees participate in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.11% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2014, 2013, and 2012 were \$81,953, \$74,506 and \$40,089, respectively and equaled the required contributions for each year.

Notes to Financial Statements *(Continued)* As of June 30, 2014

Note 17—Upcoming Pronouncements:

The GASB has issued Statement No. 68, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27." This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statement No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014. The County has not determined the impact of this pronouncement on its financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To The Honorable Members of the Board of Supervisors County of Northumberland Northumberland, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Northumberland Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County of Northumberland, Virginia's basic financial statements, and have issued our report thereon dated January 15, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Northumberland Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Northumberland, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Northumberland, Virginia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questions costs, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses, 2014-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Northumberland, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Northumberland, Virginia's Response to Findings

County of Northumberland, Virginia's response to the findings identified in our audit is described in the accompany schedule of findings and questions costs. County of Northumberland, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by OMB Circular A-133

To The Honorable Members of the Board of Supervisors County of Northumberland Northumberland, Virginia

Report on Compliance for Each Major Federal Program

We have audited County of Northumberland, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Northumberland, Virginia's major federal programs for the year ended June 30, 2014. County of Northumberland, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Northumberland, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Northumberland, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Northumberland, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Northumberland, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of County of Northumberland, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Northumberland, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Northumberland, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

County of Northumberland, Virginia Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2014

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Northumberland, Virginia under programs of the federal government for the year ended June 30, 2014. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Northumberland, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Northumberland, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments,* wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received or disbursed.

Note 4 - Relationship to Financial Statements

Primary government

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:	
General Fund	\$ 690,359
Special Revenue Funds:	
Forfeited Assets	40,413
Capital Projects Funds:	
County Capital Projects Fund	138,084
Total primary government	\$ 868,856
Component Unit School Board:	
School Operating Fund	\$ 991,161
School Cafeteria Fund	399,201
Total component unit School Board	\$ 1,390,362
Total expenditures of federal awards per basic financial statements	\$ 2,259,218
Total expenditures of federal awards per the Schedule of Expenditures of Federal Awards	\$ 2,259,218

Section II-Financial Statement Findings

2014-001

Financial Reporting

Condition:

Criteria: Per Statement of Auditing Standards 115 (SAS 115), identification of

adjustments to the financial statements that was not detected by the entity's internal controls indicates that a material weakness exists. Internal controls should be in place that provide assurance that audited financial statements reconcile to the County's internal documents.

The financial statements did not contain all necessary adjustments to reconcile to the County's internal documents to comply with generally

accepted accounting principles (GAAP).

Effect of Condition: There is more than a remote likelihood that a misstatement of the

County's financial statements or notes to the financial statements that is more than inconsequential will not be prevented or detected by the

County's internal controls over financial reporting.

Cause of Condition: Procedures have not been fully implemented to provide the necessary

internal controls over financial reporting.

Recommendation: Procedures should be implemented providing for the posting of all year-

end adjusting entries to allow for reconciliation between the audited financial statements and the County's general ledger reports. It should be noted that significant efforts have been made since FY07 to address this weakness including maintaining capital assets, reporting accrual based general government expenditures and gathering revenue accrual data for posting to the general ledger. In order to take the next step in addressing this issue, the County should consider employing a governmental accounting consultant, that is independent of the County's Auditor, to assist with the preparation of year end working

trial balances.

Management's

Response: The County is considering corrective action for FY15.

<u>Section III-Federal Award Findings and Questioned Costs</u>

None

County of Northumberland, Virginia Summary Schedule of Prior Year Findings For the Year Ended June 30, 2014

There were no prior year findings. Financial Statement Finding 2013-1 has been repeated for FY14 as Finding 2014-001.
