ASSISTANT DIRECTOR OF FINANCE 540-332-3803

CINDY A. STEED

SUPERVISOR OF PURCHASING & UTILITIES 540-332-3819

November 29, 2016

To the Honorable Mayor, Members of City Council, and the Citizens of the City of Staunton, Virginia:

We are pleased to submit the City of Staunton's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2016. This report has been prepared by the City's Finance Department. The report provides full disclosure of all financial information necessary to enable the reader to gain an understanding of the government's financial activities.

Management assumes full responsibility for the completeness and reliability of the information contained in their report, based upon a comprehensive framework of internal control that it has established for their purpose. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The government is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, <u>and Non-profit Organizations</u>. The Code of Virginia requires the City to have an annual audit conducted by an independent certified public accountant.

Brown Edwards & Company, LLP, Certified Public Accountants, has issued an unmodified opinion for the City of Staunton for fiscal year ending June 30, 2016. The independent auditor's report is located at the front of the financial section of this report.

The City's management discussion and analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides for a narrative introduction, overview, and analysis of the City's basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Staunton was founded in 1747 and later chartered as a town by the Virginia General Assembly in 1761. The City was named for Lady Rebecca Stanton, wife of colonial Governor Sir William Gooch. Staunton was incorporated as a city in 1871. Staunton is the birthplace of the city manager form of government. Staunton appointed its first city manager, and the nation's first city manager, in April 1908.

The City is governed by seven members of City Council for policymaking and legislative issues. Council members are elected at large for four-year terms. Council members elect the mayor. The Staunton City School Board is comprised of six members elected at large for four-year terms. The city manager is appointed by City Council and is responsible for the general operations of the City and administering the policies and ordinances enacted by City Council. The city manager appoints all department directors for the various operating departments.

Staunton is an independent city with local government taxing power providing the full range of municipal services. These services include public safety, recreation and culture, education, health and social services, public works and utilities, sanitation, planning and zoning, community development, judicial administration, and general and financial administration services.

Staunton is located at the intersection of I-81 and I-64, approximately two hours southwest of Washington D.C. in the Shenandoah Valley in Virginia. The City encompasses an area of 19.98 square miles with a population of approximately 24,000. Staunton is located within Augusta County and offers a total labor force of more than 100,000 within a 30 mile radius of Staunton.

The City is within 35 miles of eight universities and colleges: University of Virginia, James Madison University, Washington & Lee University, Virginia Military Institute, Mary Baldwin College, Bridgewater College, Eastern Mennonite University, and Blue Ridge Community College. The area also has several other specialized education centers: Shenandoah Valley Governor's School, four private high schools, and Valley Career and Technical Center for specialized industrial training.

The *Code of Virginia* requires the City to adopt a balanced budget by May 15 for the School's Education Fund and June 30 for all other funds. Budget control is maintained at the fund level. The City Manager is authorized to transfer appropriations from any line item within each fund as needed to sufficiently fund any expenditure. Purchase orders for materials, supplies, and services are not released until adequate appropriations are available. Open encumbrances are reported as assigned or committed fund balances at the end of each fiscal year. City Council adopts an ordinance to approve any budget amendments that require increased or decreased appropriations to the total adopted budget.

The City's CAFR includes all funds, and component unit agencies, boards and commissions for which the City is financially accountable. Financial accountability is defined as appointment of a voting majority of such an entity's Board, and either (a) the ability to impose its will, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City. Based on the foregoing criteria, the financial activities of the Staunton City School Board and the Staunton Economic Development Authority are included in the financial statements for the reason indicated:

The Staunton City School Board was created as a separate legal entity by the City to oversee the operation and management of its publicly funded primary and secondary schools. The School Board creates a financial burden on the General Fund requiring approximately 25% of its funding for school operations and the issuance of all general obligation bonds. All members of the Board are elected by the City voters. City Council has the ability to impose its will upon the Board.

The Staunton Economic Development Authority was created as a separate legal entity by the City to promote economic development within the City. All members of the Board are appointed by City Council. The Economic Development Authority imposes a financial burden on the City.

LOCAL ECONOMY

The City's overall financial health is determined by several economic factors based on retail sales volume, consumer based taxes, new residential and commercial construction permits, and property values and transactions. Other financial factors include state revenues, population trends, the unemployment rate, and the local tourism industry. The 2016 total taxable real estate assessed values increased 0.68%. Other local consumer based tax revenue sources increased slightly from 2015. General increase in economic activity resulted in increases in meals, lodging and consumer sales taxes. The local unemployment rate for June 2016 was 3.9%, which is well below the national average of 5.1% and slightly below the statewide average of 4.0%. The City relies on its diverse property tax base consisting of manufacturing facilities, distribution centers, a fairly stable retail base, a large government workforce within the area, and a successful tourism market for the economic stability of the City.

LONG-TERM FINANCIAL PLANNING

Staunton City Council's Vision for 2025, revised on April 28, 2015, focuses on seven major principles; <u>Economic Development</u> to provide and support economic vitality through tourism, small business development, and commercial development to provide employment growth and revenue growth for the City; <u>Education</u> by recruiting and retaining the best teachers and providing superb facilities; <u>Culture</u> by promoting and retaining a vibrant, exciting, and welcoming community for the arts, performing arts, music, galleries, and museums; <u>Inclusiveness</u> for all citizens by developing a strategy to achieve more citizen engagement, promote a diverse society to enhance civic pride, and instill ownership to improve Staunton's quality of life; <u>Resilience</u> by protecting the City's natural environmental resources, and providing financial resources to safeguard the City's future; <u>Responsive</u>, <u>Efficient Government</u> to include professional administration, prudent fiscal management, and the efficient and effective delivery of core services; <u>Built Environment</u> to study changes to the City's land use policies and ordinances to enable more mixed use development within the City, and develop a long term financing strategy for public facilities and infrastructure.

Economic Strategy – The City's long-range economic strategy is to attract new commercial, manufacturing, and retail businesses and expand existing businesses. This strategy will strengthen, diversify, provide employment growth, increase the median household income level, and sustain and increase the local tax revenue base to provide quality governmental services to the citizens of Staunton.

City Safety Net Reserve – The City's fund balance fiscal policy, as revised by City Council, now requires a reservation of 14% of the City's total general fund operating budget as a cash safety net reserve, reported as committed fund balance in the general fund. The primary government reserve is currently \$7,295,960. These funds can be used only for major catastrophic events that would affect the public safety or major infrastructure of the City, or imposition of mandates by Federal and State governments. The City also adopted a policy to establish and maintain a contingency reserve in the amount of \$250,000, reported as unassigned fund balance in the general fund, to provide for unexpected declines in budgeted revenues or unanticipated emergency expenditures. Council's goal is to establish the safety net reserve at 15% by FY 2017.

Capital Improvement Plan – The City revises its long-term capital improvement plan on an annual basis. This plan includes general government capital needs, capital needs for the education fund, and the enterprise funds including golf, water, sewer, parking, storm water and the environmental fund. The City funds the capital program through annual operating revenues, the appropriation of unassigned fund balance from the prior year, infrastructure grants, or will issue new debt to finance capital projects. The City also requires the use of funds appropriated for debt retired in the previous year to be appropriated to the Capital Improvements Fund as a financing source of funds for future capital projects. The Finance Department prepares five-year affordability financing models to plan for future capital needs.

MAJOR INITIATIVES

FY2016 Budget

City Council's commitment to prudent fiscal management has provided the framework for the City to prepare and adopt budgets in response to the economic conditions of the local, state, and national economies. The total fiscal year 2016 budget, \$104.7 million, an increase of 2.2% or \$ 2.26 million from the previous year was adopted with no tax rate increases for property tax or other local tax rates. The general fund budget increased 5.6% over the previous year. Property tax revenues were projected to increase by \$.8 million, or 3.8%, and other local tax revenues were projected to increase 4.0% over the previous year's budget. The general fund budget increased its transfer to the education fund by 2.3%.

Economic Development

Staunton Crossing Development Park

Work continues on the marketing strategy for the development of the Staunton Crossing Development Park. In November 2009, the City and the EDA entered into a land exchange agreement with the Commonwealth of Virginia to re-locate and build a new state of the art mental health facility and in exchange create a new 300 acre business development park. In exchange for the land, the City paid the Commonwealth of Virginia \$15 million towards the construction of the new hospital. The \$118 million hospital facility was completed in November 2013. The development is expected to create jobs and generate significant annual property and consumer tax revenues for the City. Staunton Crossing, located at U.S. 250 and the interchange of Interstate Highways 81 and 64, is planned for a mix of corporate and professional offices, retail stores, restaurants and lodging facilities. The project will be the largest business development property to support both office and retail development in the Shenandoah Valley region of the I-81 corridor through Virginia.

In September, 2016 the EDA sold approximately 25 acres of the Staunton Crossing development property for \$1.25 million. Construction began on the first phase of the development site in November, 2016. The development will have a mixture of two hotels, several restaurants, a grocery center, and a fuel and convenience store center. The City will gain additional jobs and approximately \$1.0 million annually from property, meals, sales, and lodging tax revenues when the first phase is completed.

Green Hills Industrial Park

The City continues to market high tech business enterprises to locate in the Green Hills Industrial Park. As a result of economic development efforts in FY2016, the City accomplished the location of a new facility and the expansion of an existing business.

Fed Ex Ground located to Staunton and completed construction in July, 2016 of a new 200,000 square foot distribution facility in the Green Hills Industrial Park. The new facility is part of a nationwide network expansion to boost daily package volume capacity and further enhance the speed and service of the FedEx Ground network. Additional jobs and property investment will add to the City's economic base.

Graphic Packaging International, LLC, acquired an existing business located in the Green Hills Industrial Park, and is currently in the construction phase of a \$20 million expansion to their facility to include investment in property and machinery and equipment which will add to the City's tax base.

Frontier Center

The City finalized agreements in March, 2016 with Staunton Frontier, LLC to develop 10.3 acres at Frontier Center near the intersection of Interstates 81 and 64 for the first phase of the development. Construction will begin in December, 2016 for the road and infrastructure improvements. This phase will add three new fast food restaurants and a grocery center, adding to the City's property, meals, and sales tax revenues.

Capital Improvements

City Council updated and adopted its five year capital improvement plan during fiscal year 2016. The Capital Improvement Plan adopted by City Council equals \$225 million with \$95 million dedicated for school projects, \$63 million for infrastructure projects in the proprietary funds, and \$67 million for general fund projects. Total general fund projects approved and funded for fiscal year 2016 included \$3.2 million for street improvement projects, fire truck replacement, space needs study for a new public safety building, jail reserve, education projects, recreation projects, technology infrastructure, and Staunton Crossing Development Park.

AWARDS AND ACKNOWLEDGEMENTS

Economic Development

National Recognition- Staunton continues to be recognized nationally in publications such as *USA Today* and *Travel+Leisure*, *Country Living and Cosmopolitan* magazines. In 2016, *USA Today* named Staunton as one of the 'Best Main Streets in the USA'. Also in 2016, *Travel+Leisure* named Staunton as 'one of America's favorite towns', *Country Living* named Staunton as 'one of the 30 small towns you should visit this summer', *Travelsquire.com* named Staunton as 'one of the top 28 hot destinations for 2016' and *Tasting Table* named Staunton as one of '9 of the best small towns for food in the US'. In 2015, *The CutureTrip.com* named Staunton on the list of '10 most beautiful towns in Virginia!' and *OnlyinYourState.com* named Staunton one of the '15 best places to live in Virginia and why'.

Parks and Recreation

The Department of Parks and Recreation received two awards from the Virginia Recreation and Park Society for the Lake Tams environmental sustainability renovation project and a new special event award for Irish Road Bowling celebrating a 300 year old Irish tradition.

The Horticulture Division of the Department of Parks and Recreation received a Tree City USA award from the National Arbor Day Foundation. This is the fourteenth consecutive year the City has achieved this award recognizing municipalities with active tree care and replacement programs.

Human Resources

The Human Resources department received a Risk Management and Excellence Award from the Virginia Municipal League for the effective and efficient management of the City's workers compensation program.

Public Safety

The Staunton Police Department received the 10th consecutive national accreditation award from the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA) in May, 2016. The department received its first accreditation award in 1985 as one of the first ten law enforcement agencies in the world accredited by CALEA. Staunton citizens benefit from the accreditation process because the Police Department's policies and procedures are designed for accountability and operations under a set of nationally accepted standards designed to provide professional law enforcement services.

The Staunton Fire and Rescue Department received several awards from the Governor's Fire Services Award Program for Virginia Firefighter of the Year, Outstanding Fire Department Response, and the Award for Excellence in Virginia Fire Service Training. The Governor's Fire Service Awards were established in 2002 as a formal recognition of excellence in Virginia's Fire Services. The department also received the national Grinnell Mutual Reinsurance Life Safety Achievement Award for actively promoting fire prevention in the pursuit for saving lives.

Finance Department

The Risk Management Division of the Finance Department successfully completed 100% of the Virginia Municipal League's Insurance Program for risk management guidelines for the City and Staunton City Schools. These guidelines ensure the City and School's commitment to safety for its citizens and employees. As a result of completing the guidelines, the City and Staunton City Schools received a 5% discount on the liability and workers compensation insurance premiums for the fiscal year.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Staunton, Virginia, for its Comprehensive Annual Financial Report for the fiscal years ended June 30, 1985 through 2015. A Certificate of Achievement for Excellence is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis was accomplished with efficient and dedicated services of the Finance Department. I would also like to thank the City Manager and the City Council for their interest and support in applying for the Certificate of Achievement for Excellence in Financial Reporting.

Respectfully submitted,

June Klas-

Jeanne R. Colvin

Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of City Council City of Staunton, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Augusta Regional Landfill. The City's share of this undivided interest represents 57%, 42%, and 21%, respectively, of the assets, net position, and revenues of the Environmental Fund. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Augusta Regional Landfill, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Auditor's Responsibility (Continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the other supplementary information, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and is also not a required part of the basic financial statements.

Other Matters (Continued)

Other Information (Continued)

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditor in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Staunton's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year that ended June 30, 2016. The MD&A is in addition to the transmittal letter, located on pages iv-x of this report. Readers are encouraged to review the information presented in the MD&A and the letter of transmittal to provide the user a more comprehensive view of the City's financial condition. The MD&A presents information for the government-wide financial statements and the fund financial statements. The MD&A provides the user with a narrative introduction, overview, and analysis of the basic financial statements for the City's financial performance as a whole.

FINANCIAL HIGHLIGHTS

Highlights for Government-wide Financial Statements

- The City's total net position of governmental activities was \$50.5 million at June 30, 2016. Net position of the City's business-type activities was \$67.1 million.
- Total revenues of governmental activities exceeded total expenses by \$10.8 million.
- General revenues, charges for services, operating grants and contributions, and capital grants and contributions of the City's governmental activities were \$64.7 million for FY 2016. Revenues of the City's business-type activities were \$11.6 million.
- Expenses were \$53.6 million for governmental activities and expenses for the business-type activities were \$10.7 million for FY 2016.
- The City's total general obligation bond and loans payable at June 30, 2016 was \$56.5 million, a net decrease of \$4.6 million from FY 2015 due to normal scheduled debt reduction.
- At June 30, 2016, the total fund balance for all governmental funds was \$21.7 million with the General Fund comprising \$12.3 million of that total.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the City of Staunton's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements including budgetary comparisons.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. One of the most important questions asked about the City's finances is, "Is the City as a whole better or worse as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position and the Statement of Activities report the City's net position and changes in net position. One can think of the City's net position – the difference between assets, liabilities, and deferred inflows/outflows of resources – as a way to measure the City's financial health, or financial position. Over time, increases or decreases in net position help determine whether the City's financial position is improving or deteriorating.

The government-wide financial statements of the City are divided into three categories:

<u>Governmental activities</u> – Most of the City's basic services are included here, such as the police, fire, public works, parks and recreation, health and welfare, and general administration. Property taxes, other local taxes, and intergovernmental revenue are the primary sources that finance these activities.

<u>Business-type activities</u> – The City's golf, water, sewer, storm water, parking, and environmental management activities are reported here. The City charges fees to customers to fund all or most of the cost of services provided by these activities.

<u>Component units</u> –The City also includes two separate legal entities in its report – the Staunton City Schools and the Staunton Economic Development Authority. While these represent legally separate entities, their operational or financial relationship with the City makes the City financially accountable.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate fiscal accountability. As described below, the City uses governmental, proprietary, and fiduciary fund financial statements to provide detailed information regarding its funds.

Governmental funds – Governmental funds report most of the City's basic services. The funds focus on cash and other financial resources that can be readily converted to cash flows in and out, and balances left at year-end that are available for future spending. Consequently, the governmental funds statements provide a near or short-term view of the City's finances that helps the reader determine whether there are greater or fewer financial resources available in the near future to finance City programs. Because this information does not encompass the long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statements to explain the relationship (or differences) between them.

Proprietary funds – Proprietary funds report the same functions that are presented as business-type activities in the government-wide financial statements. Proprietary funds are classified as enterprise or internal service funds. An enterprise fund reports any activity for which fees are charged to external users for goods or services. Internal service funds account for goods and services provided on a cost reimbursement basis from activities within the government. The City maintains six enterprise funds to report on activities for golf, water, sewer, storm water, environmental management and parking operations; and, two internal service funds. The Inventory fund accounts for the City's inventory which provides supplies for the City's operations. The Health insurance fund accounts for the City and School's self-insured health plans and employer and employee health care costs. Because both funds predominately benefit governmental rather than business-type functions, the internal service funds are reported with governmental activities in the government-wide financial statements.

Fiduciary funds – Fiduciary funds are used to report assets held in a trustee or agency capacity for others outside the government. Fiduciary funds are excluded from the City's government-wide financial statements because the City cannot use these assets to finance its operations. The primary government and the Component Unit School Board both maintain fiduciary funds.

Notes to the Financial Statements – The Notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligations to provide pension benefits and other post-employment benefits to its employees.

The combining and individual fund statements and schedules for all nonmajor funds include the special revenue and debt service funds. Budget to actual statements are provided for governmental and special revenue funds with legally adopted budgets.

Other Supplementary Information for the City and Schools' includes a Statistical Section and Schedule of Expenditures of Federal Awards.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position-The following table reflects condensed information for the City's net position.

City of Staunton Summary Statements of Net Position June 30, 2016 and 2015

Net Position:							
Invested in capital assets	35,503,141	32,734,112	54,769,922	53,499,079	90,273,063	86,233,191	
Restricted	27,466	117,646	-	-	27,466	117,646	
Unrestricted	15,005,839	6,839,895	12,364,605	12,545,752	27,370,444	19,385,647	
Total net position	\$ 50,536,446	\$ 39,691,653	\$ 67,134,527	\$ 66,044,831	\$ 117,670,973	\$ 105,736,484	

The City's total net position of \$117.7 million increased by 11.3%, or \$11.9 million, from FY 2015. The majority of this change is due to the recognition of the net amount due from other governments for the regional jail buy in of \$5.4 million and a net decrease in long term liabilities of \$4.6 million due mainly to scheduled debt reduction.

The largest component of the City's net position (\$90.3 million or 76.7%) is the investment in capital assets (e.g. facilities, equipment, and infrastructure), net of any outstanding related debt used to acquire those assets. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources need to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Current year increase of \$4.0 million is mainly due to reductions in long term liabilities. Net investment in capital assets for business-type activities represents, for the most part, the assets of the water, sewer, and storm water utilities. Please refer to Notes 5 and 6 of this report and the MD&A's capital assets and long term debt section.

Less than 1% of the City's net position is restricted. The remaining balance of unrestricted net position (\$27.4 million or 23.3%) is used to finance day-to-day operations.

As of June 30, 2016, the City reported positive balances in net position for the City as a whole for the governmental activities and the business-type activities. The same situation held true for the prior fiscal year.

The following tables summarize the City's change in net position for the current and previous year.

Governmental Activities - Revenues

- The City's total revenues from governmental activities were \$64.7 million for the fiscal year ended June 30, 2016, an increase of \$9.3 million over the previous year.
- Property taxes, the largest source of general revenue, accounted for \$23.8 million or 36.8% of revenue in 2016. Property tax revenues increased \$1.5 million over 2015 due to an increase in assessed values. Real estate rates were \$.95 per \$100 of assessed value. Personal property taxes were \$2.75 per \$100 of assessed value.
- Operating grants and contributions increased \$5.2 million over FY 2015 due to the regional jail buy in.
- Charges for services increased \$1.9 million over FY 2015 due mainly to the inclusion a full year of health insurance fund operations in governmental activities.

Governmental Activities - Revenues by Source

Fiscal Years Ended June 30, 2016 and 2015 (\$ In Millions)

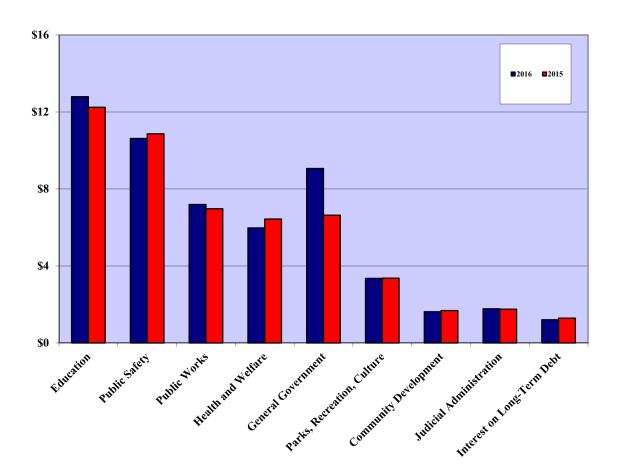

Governmental Activities - Expenses

- The total expenses from governmental activities were \$53.6 million for the year, an increase of \$2.3 million from FY 2015.
- Education is the largest expenditure for the City at \$12.8 million or 23.9% of the total governmental activities. The net cost remained stable compared to FY 2015.
- General government increased \$2.4 million over FY 2015 due mainly to the inclusion of a full year of health insurance fund expenditures.

Governmental Activities - Expenses by Function

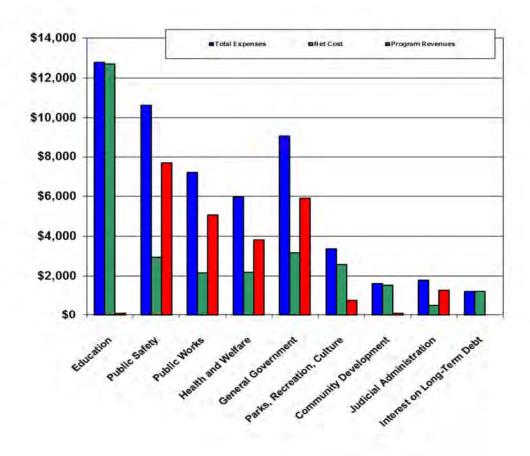

Fiscal Years Ended June 30, 2016 and 2015

(\$ In Millions)

Governmental Activities - Expenses, Net Costs, and Program Revenues

(\$ In Thousands)

Program revenues are those revenues directly related to the individual expenditure functions such as user fees and charges, restricted grants, and contributions. Program revenues for FY 2016 totaled \$24.7 million and general revenues totaled \$40 million.

The net cost of services represents the amount of tax or other revenue required to support these functions. The Education function requires the largest amount of general revenue support at 43.9%, an increase of \$.5 million from FY 2015. General government net cost of service increased \$.5 million due in part to the decrease in net profit of the health insurance fund. Public safety function saw a decrease of \$5.9 million mainly due to full recognition of the jail buy in.

	 2016				2015

	\$ 53,607,798	\$	28,944,997	\$	51,258,977	\$	34,218,291	

Business-Type Activities

- 1. Total revenues of the City's business-type activities were \$11.5 million for FY 2016. Charges for services including golf, water, sewer, storm water, environmental, and parking fees make up the largest source of revenues at \$11.4 million or 98.2% of total revenues for business-type activities.
- 2. Overall expenses of business-type activities remained relatively stable increasing \$.1 million over FY 2015.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

Governmental funds include the general fund, special revenue funds, the debt service fund and the capital projects fund. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financial requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

For FY 2016, the City's governmental funds reported combined ending fund balances of \$21.7 million, a decrease of \$.8 million over FY 2015. Of that amount \$.1 million was nonspendable, \$7.3 million was committed, \$12.2 million was assigned, and \$2.1 million was unassigned. The general fund's increase in fund balance was \$.4 million. The capital project fund's decrease in fund balance was \$1.1 million.

General Fund

The General Fund reported \$12.3 million in fund balance at year end. Of the total General Fund balance, \$2.1 million is unassigned, \$7.3 million is committed for specific purposes, and \$2.8 million is assigned.

In total, FY 2016 revenues increased \$.4 million over FY 2015. Property tax revenues increased \$.2 million, other local taxes increased \$.1 million and recovered costs increased \$.1 million over FY 2015.

General Fund actual expenditures were \$46 million versus the revised budget totaling \$47.2 million. The contribution to the Component Unit School Board was the largest expense at \$12.1 million. Expenditure savings of \$2.8 million resulted from \$.5 million in general government administration due to professional fees and maintenance costs being less than expected and technology equipment and maintenance savings; \$.4 million in public safety due to equipment and maintenance savings; \$.5 million in public works due to public works equipment and maintenance expenditure savings; \$.7 million in health and welfare due to CSA and social services expenditures being less than anticipated; \$.2 million in parks and recreation from maintenance and capital expenditure savings, and the balance of \$.5 million in expenditures savings resulting from judicial and community development expenditure savings.

Capital Projects Fund

The City's Capital Improvements Fund is used to report transactions related to the financing resources and expenditures for the acquisition or construction of capital facilities for the General Fund. Proprietary capital projects are reported in the appropriate proprietary fund. The City uses annual operating revenues of the General Fund, fund balance transfers from the General Fund, bond proceeds, or grants as resources to fund capital projects. With the exception of grant resources, the General Fund transfers funds to the Capital Improvements Fund when appropriated by the governing body. The General Fund transferred \$1.9 million in FY 2016 to the City Capital Improvement Fund for projects still in progress. The City updates the capital improvements plan on an annual basis.

General Fund Budgetary Highlights

City Council revised the total FY 2016 City Budget two times during the year which included two amendments to the General Fund budget. These budget amendments included:

- Budget Amendment Number 1 \$262,451. This amendment appropriated \$160,473 from prior year funds for the balance of grant programs and mandated state program carry-over funds for programs not completed at the end of FY 2015. This amendment also included additional appropriations of \$101,978 for additional grants funds.
- Budget Amendment Number 2 \$1,687,074. This amendment appropriated \$1,282,342 from the prior year unassigned fund balance to be transferred to the Capital Improvements Fund for projects approved in the CIP plan. Also from prior year fund balance, a transfer of \$150,000 to the debt service fund for additional debt service costs and \$125,764 to the health insurance fund as a reserve for future health costs. The amendment also included additional appropriations of \$128,968 made up of \$127,135 in additional state grant funds and \$1,833 for insurance recoveries for damaged property.

CAPITAL ASSETS

The City of Staunton's investment in capital assets for its governmental activities and business-type activities as of June 30, 2016 amounts to \$133.8 million (net of depreciation). This investment in capital assets includes land, buildings and systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges. Total net capital assets are \$58.4 million for the governmental activities, and \$75.3 million for the business-type activities.

Major capital asset events (other than normal depreciation costs) during the current fiscal year included the following for governmental activities:

• \$1.5 million for vehicles and equipment and \$2 million in new roads and sidewalks.

Major capital asset events (other than normal depreciation costs) during the current fiscal year included the following for business-type activities:

• \$3.2 million of construction in progress, utility lines and equipment were added to capital assets.

Additional information regarding capital assets can be found in Note 5 in the notes to the financial statements.

DEBT ADMINISTRATION

- The City of Staunton maintains an Aa2 bond rating from Moody's Investor Service, affirmed December 2006, and AA- from Standard and Poor's affirmed May 2014.
- The *Code of Virginia* limits the amount of general obligation debt the City may issue to ten percent of its total assessed taxable value of real estate which is \$180.6 million for the City. The City currently has bonds payable of \$56 million. The current legal margin for creating additional debt for the City of Staunton is \$124.6 million.
- Additional information regarding outstanding debt can be found in Note 6 in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The FY 2017 general fund budget was adopted at \$52.1 million, an increase of \$1.3 million over the \$50.8 million budget for FY 2016.
- No property tax rate increases were proposed for FY 2017. The January 1, 2016 taxable real estate reassessment reflected an increase of .68%, a gain of \$12,142,267 in market value for the City's taxable real estate base. Personal property taxes have a budgeted increase of 2.9% expected for 2017.
- There was a 1.7% increase budgeted for lodging tax to fund tourism marketing expenses. The rate will increase from 5% to 6.7%.
- Funding from the Commonwealth constitutes 22.6% of the total budget and will increase \$142,073 over FY 2016, from \$11,632,900 to \$11,774,973. Most of the net increase is for street and highway maintenance.
- A 3% cost of living adjustment for all full-time and part-time employees will be effective December 1, 2016. The General Fund increase for wages and benefits for FY 2017 is \$112,513. The City added one new position in the FY 2017 General Fund budget for tourism. Two positions were moved to contracted services as the Human Resources department entered into a shared services agreement with Staunton City Schools for human resources. The total FTE count for the City is 290 full-time employees, a net decrease of 1 position.
- The General Fund budgeted transfer to the City and School Capital Improvement Funds remained the same for FY 2017. The operating budget transfers \$.7 million from operating revenues
- The General Fund transfer to the Debt Service Fund decreased slightly from 2016 to \$2,850,500. The City will reduce its total outstanding debt by \$4 million in 2017.
- The General Fund transfer to the Education Fund increased 3.2%, or \$382,700, to help fund an average 3% pay increase for school employees.
- There is a budgeted increase of 20.7% in the City's water rate and a budgeted increase of 10% in the City's refuse rate for FY 2017.
- As of September 2016, the unemployment rate for the City of Staunton is 4.1%. Staunton's rate is slightly higher than the state's average unemployment rate of 4.0% and below the national average of 4.8%.

All these factors were considered in preparing the FY 2017 budget to finance the cost of programs and services provided to citizens.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, City of Staunton, 116 E. Beverley Street, Staunton, Virginia 24401, 540-332-3809, or at ColvinJR@ci.staunton.va.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2016

Net changes in fund balances - Governmental Funds			\$	(755,733)
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:				
Governmental funds report the cost of capital assets acquired as current expenditures while the statement of activities reports depreciation expense to allocate those expenditures over the life of the assets.				
Depreciation	\$	(3,026,488)		
Capital expenditures		3,869,312		
Contributed Capital		92,325	•	935,149
In the statement of activities, only the gain on the disposal of capital assets is reported, while in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in				
net position differs from the change in fund balance by the net book value of the capital asset.				(7,902)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.				
Property taxes	\$	761,544		
Interest		(6,704)		
Jail buy in		5,432,403		
Miscellaneous revenue	_	(10,424)	•	6,176,819
Debt proceeds provide current financial resources to governmental funds, but debt issuances increase long term liabilities in the statement of net position. Principal repayments are expenditures in governmental funds, but reduce long term liabilities in the statement of net position.				
GO bond and literary loan payments				2,546,046
Governmental funds report interest on long term debt as expenditures when payments are made, while the statement of activities reports interest expense on the accrual basis.				43,374
Governmental funds report employer pension contributions as expenditures. However, in the statement of activities the cost of pension benefits earned net of employee contributions				
is reported as pension expense. Empoyer pension contributions		2,057,462		
Pension expense		(1,056,851)		1,000,611
rension expense		(1,030,031)		1,000,011
Some expenses reported in the statement of activities do not require the use of current resources, and therefore are not reported as expenditures in governmental funds.				
Compensated absences and claims payable	\$	95,351		
Amortization of bond discount, deferred amount, and bond premium		(45,613)	•	49,738
The net income of internal service funds is reported within governmental activities on the statement of activities.				856,691
Change in net position - Governmental Activities			\$	10,844,793

Note 1. Summary of Significant Accounting Policies

The City of Staunton, Virginia (the "City"), is named for Lady Stanton, wife of Governor Gooch. The City was initially established as a town in 1761, and later incorporated as a city by an act of the Virginia General Assembly in 1871. The City has an area of 19.98 square miles and a population of approximately 24,350. The City provides a full range of municipal services, including general government administration, public safety and judicial administration, education, health and welfare services, recreation, planning and community development, and water, sewer, and refuse utilities. The City is a political subdivision of the Commonwealth of Virginia and operates under the Council-Manager form of government. Staunton was the first city in the United States to utilize this form of government.

A. The Financial Reporting Entity

Discretely Presented Component Units: Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, or whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. They are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City.

City of Staunton School Board

The City of Staunton School Board (School Board) was created as a separate legal entity by the City to oversee the operation and management of its publicly funded primary and secondary schools. The members of the School Board are elected by the voters. The School Board does not have the authority to levy taxes and is fiscally dependent on the City to provide the significant funding to operate and maintain the public school system. In addition, the City has final approval of the school budget and must approve any debt issues related to the schools.

The component unit School Board is governmental in nature. The Schools have several funds. As a result, the complete activity of the School Board is included in the discretely presented component unit column of the government-wide financial statements. Individual fund statements are included as supplementary information. Separate financial statements of the School Board are not available.

Staunton Economic Development Authority

The Staunton Economic Development Authority (EDA) was established under the Industrial Development and Revenue Bond Act of the *Code of Virginia* and has the responsibility to promote industry and develop trade by inducing manufacturing, industrial, and other commercial enterprises to locate or remain in the City. The City appoints all seven members of the EDA's Board of Directors. In addition, the City has incurred debt to provide capital grants and other property to the EDA. As a result, the EDA imposes a financial burden on the City. Separate financial statements of the EDA are not available.

Note 1. Summary of Significant Accounting Policies (Continued)

A. The Financial Reporting Entity (Continued)

Related organizations:

The City also participates in the following entities:

Augusta Regional Landfill

The City, along with the City of Waynesboro and County of Augusta, participates in the Augusta Regional Landfill (the "Landfill"). The Landfill is a hybrid undivided/joint interest venture formed to develop regional refuse disposal, including the development of facilities and systems for recycling, waste reduction, and disposal alternatives with the ultimate goal of acquiring, financing, constructing, and operating/maintaining regional solid waste disposal areas, systems, and facilities. The City's share of revenues, expenses, assets, and liabilities are reported in the City's Environmental fund.

Middle River Regional Jail Authority

The City, in conjunction with the City of Waynesboro and the County of Augusta, participates in the Middle River Regional Jail Authority. Capital and operating costs are allocated annually based on the percentage of prisoners from each member jurisdiction over the previous three calendar years. In accordance with the service agreement, the Authority has divided its charges to member jurisdictions into an operating component and a debt service component. The City paid the Authority \$1,568,298 for the current year. This entity is not included in the City's financial statements.

B. Government-wide and Fund Financial Statements

The government-wide financial statements consist of a statement of net position and a statement of activities that report information on all the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements, as well as the proprietary fund financial statements, report all their activities using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Agency funds, a type of fiduciary fund, report only assets and liabilities; therefore, they do not have a measurement focus. Agency funds use the accrual basis of accounting to recognize assets and liabilities.

Governmental fund financial statements use the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they become both measurable and available. Accordingly, real and personal property taxes are recorded as deferred revenue and receivables when levied, net of allowances for uncollectible amounts. Real and personal property taxes recorded at June 30 and received within the first 45 days after year-end are included in tax revenues, with the related amount reduced from deferred revenues. Sales and utility taxes, which are collected by the State or utility companies and subsequently remitted to the City, are recognized as revenues and amounts receivable when the underlying exchange transaction occurs, which is generally one or two months preceding receipt by the City. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of Federal, State and other grants for the purpose of specific funding are recognized when earned or at the time of the specific reimbursable expenditure. Revenues from general-purpose grants are recognized in the period in which the grant applies. Investment earnings are recorded when earned, as are unbilled accounts receivable in the enterprise funds. All other revenue items are considered to be measurable and available only when the government receives cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund and is used to account for and report all financial resources not accounted for and reported in another fund.

Additionally, the City reports the following individual non-major governmental funds:

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The City has established the following non-major special revenue funds: Blue Ridge Court Services Fund, Community Development Fund and the State and Federal Grants Fund.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The City has established the Capital Improvements Fund for this purpose.

Debt Service Funds are used to account for resources and payments made for principal and interest on long-term general obligation debt of governmental funds. The City has established the Debt Service Fund for this purpose.

Proprietary Funds are used to account for the City's ongoing activities similar to those found in the private sector. The City reports the following major proprietary funds:

The Water Fund accounts for the operations of the City's water distribution system.

The Sewer Fund accounts for the operations of the City's wastewater collection system.

The Stormwater Fund accounts for the operation of the City's storm water system.

The *Environmental Fund* accounts for the operations of the City's refuse collection and participation in a regional landfill operation.

Additionally, the City reports the following individual non-major proprietary funds:

The *Parking Fund* accounts for the operations of the City's parking garage and lot system.

The Golf Fund accounts for the operations of the City's Gypsy Hill Golf Course.

Internal Service Funds are used to account for employee health benefits and goods and services provided to other departments on a cost reimbursement basis and they derive their funding from charges assessed to the user departments and employees. The City has established the Health Insurance Fund and the Inventory Fund for these purposes. These funds are included in the governmental activities for government-wide reporting purposes. The excess revenues or expenses for the funds are allocated to the appropriate functional activity.

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent for individuals, other governmental units, or other funds. *The OPEB Trust Fund* accounts for the assets held for, and costs of, other post-employment benefits (OPEB). It is accounted for in the same manner as a proprietary fund type. Measurement focus is upon determination of the change in net position.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's proprietary funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating revenues for the City's enterprise funds and internal service fund consist of charges to customers for goods and services. Operating expenses for these funds include the costs of sales and service, administrative expenses and depreciation of capital assets. Any revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position

Cash and Cash Equivalents

The City maintains an internal cash management pool in which the primary government and component units share. Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are stated at fair value. The reported value of the state-sponsored investment pool is the same as the fair value of the pooled shares.

Receivables and Allowance for Uncollectible Accounts

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance for uncollectible accounts is calculated using historical collection data, specific account analysis and management's judgment. The allowance at June 30 consisted of the following:

General Fund (property taxes)	\$ 526,606
General Fund (other local taxes)	1,724
Water Fund (charges for services)	39,362
Sewer Fund (charges for services)	61,877
Stormwater Fund (charges for services)	22,814
Parking Fund (charges for services)	680
Environmental Fund (charges for services)	 28,688
	\$ 681,751

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Inventory

Inventory is generally recorded at the lower of cost (weighted average method) or market. Inventory in the internal service fund consists of expendable supplies held for consumption. The costs are recorded as expenditures or expenses when consumed rather than when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads and bridges) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of at least 3 years (2 years for component unit school board). All capital assets are valued at historical cost or estimated historical cost, if actual cost was not available. Donated capital assets are recorded at their estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives. No depreciation is taken in the year of acquisition for infrastructure assets. For constructed assets, all associated costs necessary to bring such assets to the condition and location necessary for their intended use are initially capitalized as construction in progress and are transferred to the appropriate asset class when the assets are substantially complete and ready for use.

Estimated Useful Life
10-50 years
10-50 years
20-50 years
50 years
3-10 years
3-10 years

Interest incurred during the construction phase of capital assets of business type activities is included as part of the capitalized value of assets constructed. During FY 2016, the enterprise funds incurred interest costs of \$715,901 of which \$9,659 was capitalized.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statements that present financial position report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expenses/expenditures) until then. The government has three items that qualify for reporting in this category. The first is the deferred charge on refunding which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the life of the refunded debt. The second consists of contributions subsequent to the measurement date for pensions; this amount will be applied to the net pension liability in the next fiscal year. The third consists of change in proportion in the teacher cost sharing pool; this amount will be recognized in pension expense over a closed five year period.

In addition to liabilities, the statements that present financial position report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has five items that qualify for reporting in this category. The first item occurs only under the modified accrual basis of accounting; this item, *unavailable revenue*, is reported only on the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes and other receivables not collected within 45 days of year end. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second item is unearned revenue, which results from collection in the current fiscal year of property taxes levied to fund future years. The third item is the net difference between projected and actual earnings on pension plan investments. The fourth item results from participation in the Virginia Retirement System's teacher cost sharing pool, where changes in proportion and differences between employer contributions and the proportionate share of employer contributions are reported as a deferred inflow. The fifth item is the net difference between expected and actual experience in the pension plans. The last three items will be recognized in pension expense over a closed five year period.

Compensated Absences

City employees earn general leave based on length of service. In the event of resignation or retirement, a City employee is compensated for accumulated general leave, up to a 480 hour maximum (640 hour maximum for fire personnel) at his or her then current rate of pay. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service.

School Board employees on twelve-month contracts earn vacation leave based on length of service and are entitled to compensation for such upon resignation or retirement. Twelve-month personnel can carry over an unlimited number of accumulated vacation leave days to a succeeding fiscal year. However, upon termination, the maximum payout is 15 days. Additionally, all School Board employees may accrue unlimited days of sick leave at the rate of one day per month of employment. Upon retirement, those employees with at least ten years of service, with the previous five consecutive years having been with the School Board, and that are qualified to retire under the terms of the Virginia Retirement System, are compensated for all days of accumulated sick leave at the rate of \$20.00 per day.

All liabilities for compensated absences are accrued when incurred in the government-wide and proprietary financial statements. In governmental funds a liability for these amounts is reported only if they have matured; for example, as a result of employee resignations and retirements.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Unearned Revenue

In the Golf Fund, unearned revenue consists of membership fees which apply to subsequent periods.

Long-Term Obligations

In the government-wide financial statements (and proprietary fund types in the fund financial statements), long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method or bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period but not as long-term liabilities. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Repayments and issuance costs are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Political Subdivision's Retirement Plan and the additions to/deductions from the Political Subdivision's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Encumbrances

The City uses encumbrance accounting, wherein purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign that portion of fund balance.

Net Position

Net position in the government-wide and proprietary financial statements is classified as net investment in capital assets; restricted; and unrestricted. Net position is reported as restricted when there are limitations imposed on its use through enabling legislation or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations. Restricted net position arose from contributions and grants required to be used for specific purposes.

The golf fund had negative net position totaling \$(157,993) at June 30, 2016 as a result of costs exceeding fees charged and recognition of the net pension liability. The portion of the deficit related to costs exceeding fees charged is expected to be recovered by an increase in fees.

The component unit school board had a negative net position totaling \$(15,743,661) at June 30, 2016 as a result of recognizing the net pension liability. This deficit is not expected to be recovered in the near term.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Fund Balance Policies

The following fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used.

<u>Nonspendable Fund Balance:</u> includes amounts that cannot be spent because they are either not in spendable form such as inventories, property acquired for resale, prepaid amounts, or amounts that are legally or contractually required to be maintained intact.

<u>Restricted Fund Balance:</u> includes amounts that have constraints placed on their use by external sources such as creditors (debt covenants), grantors, contributors, or laws or other regulations of other governments. Restricted fund balance can also be imposed by law through constitutional provisions or enabling legislation.

<u>Committed Fund Balance:</u> includes amounts that can only be used for specific purposes determined by a formal action of City Council. City Council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

<u>Assigned Fund Balance:</u> includes amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the finance director to assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment.

<u>Unassigned Fund Balance:</u> includes amounts not assigned to other funds, or restricted, committed or assigned within the same fund. Unassigned fund balance includes all spendable amounts not contained in the other classifications and is technically available for any purpose.

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Fund Balance Policies (Continued)

Stabilization Arrangement:

City Council has formally adopted by resolution a requirement to establish and maintain a safety net reserve equal to a minimum of 14% of the subsequent fiscal year's adopted expenditure budget for the general fund and all other major operating funds, including water, sewer, storm water, and environmental. In the adopted resolution, the safety net reserve is to be reported as committed fund balance. The safety net reserve at June 30, 2016 for the general fund is \$7,295,960. Circumstances allowing the use of the safety net reserve include:

- 1. Damage from unanticipated natural disasters or unseen infrastructure damage such as water or sewer system deterioration, bridge repair, etc. exceeding \$100,000 in damages.
- 2. Imposition of mandates by Federal and State governments such as water, sewer, and landfill regulations, construction of court and jail facilities, etc. exceeding \$100,000 in costs.
- 3. Court decisions resulting in unbudgeted expenditures, in excess of \$100,000.
- 4. Acts of terrorism against the City destroying the City's infrastructure or causing a financial hardship to provide services to citizens, in excess of \$100,000.

Funds to be used from the safety net reserve must be appropriated through the annual budget ordinance or by a budget amendment ordinance approved and adopted by City Council.

City council also formally adopted by resolution a requirement to establish and maintain a general contingency amount of \$250,000 in the General Fund, categorized as unassigned fund balance.

Estimates

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities, and reported revenues, expenditures, and expenses. Actual results could differ from those estimates.

Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and are described as follows.

- Level 1 inputs are quoted prices in active markets for identical assets;
- Level 2 inputs are significant other observable inputs;
- Level 3 inputs are significant unobservable inputs.

Note 2. Deposits and Investments

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that range in amount from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Investment policy

In accordance with the *Code of Virginia* and other applicable law, including regulations, the City's investment policy (Policy) permits investments in U.S. Treasury Securities, U.S. agency securities, prime quality commercial paper, non-negotiable certificates of deposit and time deposits of Virginia banks, negotiable certificates of deposit of domestic banks, banker's acceptances with domestic banks, Commonwealth of Virginia and Virginia Local Government Obligations, obligations of states other than Virginia, obligations of World Bank, the Asian and African Development Banks, corporate notes or bonds rated in the AAA or AA category, money market funds regulated by the SEC, repurchase agreements collateralized by the U. S. Treasury/Agency securities, the Virginia State Non-Arbitrage Program or other authorized Arbitrage Investment Management programs, and the State Treasurer's Local Government Investment Pool (the Virginia LGIP, a 2a-7 like pool).

Pursuant to Sec. 2.1-234.7 of the *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings and the fair value of the position in LGIP is the same as the value of the pool shares (i.e., the LGIP maintains a stable net asset value of \$1 per share).

The Policy limits investment maturities to five years maximum maturity for any investment, unless specifically disclosed in writing to City Council.

Note 2. Deposits and Investments (Continued)

Investment policy (Continued)

As of June 30, the City's investments consisted of the following:

Investment Type	 Fair Value	S & P Credit Rating
Primary Government		
Money Market Funds	\$ 795,074	Not Rated
Federal Agency Bonds and Notes	6,226,985	AA+
Corporate Bonds/Notes	964,536	AA- to AA+
Local Government Investment Pool (LGIP)	 917,345	AAAm
Total primary government	 8,903,940	
Component Unit School Board		
Local Government Investment Pool (LGIP)	573,455	AAAm
Total Component Unit School Board	 573,455	
Grand total	\$ 9,477,395	

Credit Risk:

As required by state statute or by the City, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following: Moody's Investors Service, Standard & Poor's, and Fitch Investor's Service, provided that the issuing corporation has a net worth of at least \$50 million and its long-term debt is rated "A" or better by Moody's and Standard & Poor's. Banker's acceptances and certificates of deposit maturing in less than one year must have a short-term debt rating of at least "A-1" by Standard & Poor's and "P-1" by Moody's Investor Service.

Concentration of Credit Risk:

The City had the following investments at June 30 that exceeded 5 percent of the total investment balance. These investments were not considered by management to represent a risk to the City.

Issuer	Percent of Total Portfolio
Local Government Investment Pool (LGIP)	15.73%
First American Government Obligations Fund	8.39%
Federal Farm Credit Bank	17.32%
Federal Home Loan Bank	19.20%
Federal Home Loan Mortgage Corp	19.34%
Federal National Mortgage Association	9.85%

Note 2. Deposits and Investments (Continued)

<u>Interest Rate Risk:</u> In accordance with the City's investment policy, the City manages its exposure to declines in fair value by limiting the average maturity of its investment portfolio to less than 3 years.

The carrying values and weighted average maturity of investments were as follows:

Investment Type	Fair Value	Weighted Average Maturity (years)
Money Market Funds	\$ 795,074	N/A
Federal Agency Notes and Bonds	6,226,985	.99
Corporate Bonds/Notes	964,536	.99
Local Government Investment Pool (LGIP)	 1,490,800	N/A
	\$ 9,477,395	

The above items are reflected in the financial statements as follows:

Component Units					
Primary					
	Government	S	School Board		EDA
\$	9,745	\$	264	\$	-
	33,067,969		4,713,085		29,528
	8,903,940		573,455		-
\$	41,981,654	\$	5,286,804	\$	29,528
\$	31,552,961	\$	5,286,804	\$	29,528
	7,986,596		-		-
	2,442,097		-		-

	\$	\$ 9,745 33,067,969 8,903,940 \$ 41,981,654 \$ 31,552,961 7,986,596 2,442,097	Government S \$ 9,745 \$ 33,067,969 8,903,940 \$ 41,981,654 \$ \$ 31,552,961 \$ 7,986,596 2,442,097	Primary Government School Board \$ 9,745 \$ 264 33,067,969 4,713,085 8,903,940 573,455 \$ 41,981,654 \$ 5,286,804 7,986,596 - 2,442,097 -	Primary Government School Board \$ 9,745 \$ 264 \$ 33,067,969 4,713,085 \$ 573,455 \$ 41,981,654 \$ 5,286,804 \$ 5,286,804 \$ 7,986,596 \$ 2,442,097 \$ - 2,442,097 <t< td=""></t<>

Fair Value:

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The City has the following recurring fair value measurements as of June 30, 2016:

	Level 1		
Debt securities	·		
U.S. Agency securities	\$	6,226,985	
Corporate bonds		964,536	
	\$	7,191,521	

Debt securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Note 3. Due From Other Governmental Units

Amounts due from other governments at June 30 were as follows:

						Component	
	Primary Government					Unit	
	G	overnmental		Business-type		_	
	Activities		Activities-			School Board	
Various state and federal grants	\$	1,870,178	\$	-	\$	2,082,142	
Virginia revolving loans		-		2,757,042		-	
Regional jail buy-in		5,432,403		-		-	
	\$	7,302,581	\$	2,757,042	\$	2,082,142	

Virginia Revolving Loans:

The City's Sewer fund reports loans receivable for the Augusta County Service Authority's share of the Middle River Wastewater Treatment Plant Virginia Revolving Loans. The Service Authority reimburses the City for its share of the debt service on these loans as each loan payment is due.

At June 30, principal amounts and related interest outstanding on each loan were as follows:

	Principal			Interest	
Amount receivable within 1 year	\$	206,256	\$	71,137	
Amount receivable within 2 to 5 years		884,886		224,687	
Amount receivable beyond 5 years		1,665,890	(206,477	
	\$	2,757,042	\$	502,301	

Regional Jail Buy-in

Effective July 1, 2015, the City entered into an agreement with the Counties of Augusta and Rockingham and the Cities of Waynesboro and Harrisonburg, where the County of Rockingham and City of Harrisonburg agreed to "buy-in" to the Middle River Regional Jail Authority. The total purchase price is \$21,543,588. The purchase price was determined pursuant to an arm's length negotiation and calculated based in part upon the original replacement cost of the jail and an assumed usage of 250 beds by the buyers.

The City's share of the purchase price was \$31.17% or \$6,715,136. The purchase price is to be paid over the next 10 years in equal annual installments of \$670,964, which includes interest calculated at 2.17% per annum.

	 Principal		Interest
Amount receivable within 1 year	\$ 553,081	\$	117,883
Amount receivable within 2 to 5 years	2,334,976		348,881
Amount receivable beyond 5 years	 2,544,346	1	139,512
	\$ 5,432,403	\$	606,276

Note 4. Interfund Transfers and Obligations

Transfers Out

Primary Government:

Transfers out		Transfers in	
	Capital Projects Fund	<i>J</i> 1	ernal se Fund Total
Capital Projects	\$ -	\$ 500,000 \$ - \$	- \$ 500,000
General Fund	1,873,392	3,018,227 89,528	125,764 5,106,911
Total	\$ 1,873,392	\$ 3,518,227 \$ 89,528 \$	125,764 \$ 5,606,911

Transfers In

Transfers from the General Fund to the Debt Service Fund are to fund debt service costs. Transfers from the General Fund to the Golf Fund are to fund debt service and operating costs. Transfers from the General Fund to the Parking Fund are to fund debt service costs. Transfers from the General fund to the Capital Projects fund are to fund capital projects. Transfers from the General fund to the Health insurance fund are to support a reserve for future health costs.

Component Unit School Board:

Transfers Out		Transfers In					
		Nonmajor					
	E	Education Governmental					
	Fund		<u> </u>	Funds		Total	
Education fund	\$	-	\$	607,318	\$	607,318	
Nonmajor governmental funds		95,755		-		95,755	
Total	\$	95,755	\$	607,318	\$	703,073	

All transfer activities of the school board component unit were made to support current operations.

Interfund Advances:

The General Fund has a receivable in the amount of \$143,981 from the Environmental Fund and \$22,198 from the Golf Fund for advances to cover cash deficits. These advances are expected to be collected in the subsequent year.

In the School Board Component Unit, the Education Fund has a receivable in the amount of \$698,165 from the State Operated Programs Fund for an advance to cover a cash deficit. The advance is expected to be collected in the subsequent year when grant reimbursements are received.

Note 5. Capital Assets

Primary Government:

Capital asset activity for the primary government is as follows:

	Balance					Balance			
	J	une 30, 2015		Additions		Deletions		June 30, 2016	
Governmental activities:									
Capital assets, not

50 verimientar activities	Ψ	27,302,100	Ψ	1,5 10,704	Ψ	117,133	Ψ	20,120,007	

Additions to the accumulated depreciation of governmental activities differ from depreciation expense for governmental activities due to internal service fund depreciation in the amount of \$3,398.

^{*}School Board capital assets are jointly owned by the City (primary government) and the Component Unit – School Board. The City reports the School Board capital assets as long as debt is owed on such assets by the City. When debt is completely paid off, the entire capital asset balance less accumulated depreciation reverts to the school board. The City reports depreciation on its share of these assets as an element of its share of the costs of the public school system.

Note 5. Capital Assets (Continued)

Primary Government: (Continued)

^{*}School Board capital assets are jointly owned by the City (primary government) and the Component Unit – School Board. The City reports the School Board capital assets as long as debt is owed on such assets by the City. When debt is completely paid off, the entire capital asset balance less accumulated depreciation reverts to the school board. The City reports depreciation on its share of these assets as an element of its share of the costs of the public school system.

Note 5. Capital Assets (Continued)

Component Unit - EDA

Capital asset activity for the Component Unit – EDA is as follows:

Note 7. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the City of Staunton (the "Political Subdivision") and permanent non-professional employees (non-teachers) of the City of Staunton (the "School Division") are automatically covered by VRS Retirement Plan upon employment. This plan is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. The *Code of Virginia*, as amended, assigns the authority to establish and amend benefit provisions to the Virginia General Assembly. The System issues a publicly available comprehensive annual financial report for VRS. A copy of that report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan is as follows:

<u>Plan 1</u> – Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service, and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.

- Hybrid Opt-In Election VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014. If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.
- Retirement Contributions Employees contribute 5.00% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.
- Creditable Service Creditable service includes active service. Members earn creditable service for
 each month they are employed in a covered position. It also may include credit for prior service the
 member has purchased or additional creditable service the member was granted. A member's total
 creditable service is one of the factors used to determine their eligibility for retirement and to calculate
 their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement,
 if the employer offers the health insurance credit.

Note 7. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

Plan 1 (Continued)

- Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.
- Calculating the Benefit The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier, and total service credit at retirement. It is one of the benefit payout options available to a member at retirement. An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.
- Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
- Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.70% or 1.85% as elected by the employer.
- **Normal Retirement Age** Age 65 or age 60 for hazardous duty employees.
- Earliest Unreduced Retirement Eligibility Age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service. Age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service, for hazardous duty employees.
- Earliest Reduced Retirement Eligibility Age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service. 50 with at least five years of creditable service for hazardous duty employees.
- Cost-of-Living Adjustment (COLA) in Retirement The Cost-of-Living Adjustment (COLA) matches the first 3.00% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4.00%) up to a maximum COLA of 5.00%.
- Disability Coverage for members who are eligible to be considered for disability retirement and retire on
 disability, the retirement multiplier is 1.70% on all service, regardless of when it was earned, purchased,
 or granted. VSDP members are subject to a one-year waiting period before becoming eligible for nonwork-related disability benefits.

Note 7. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

<u>Plan 2</u> - Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service, and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.

- Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014. If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan. Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.
- Retirement Contributions Employees contribute 5.00% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5.00% member contribution but all employees will be paying the full 5.00% by July 1, 2016.
- Creditable Service Same as Plan 1.
- **Vesting** Same as Plan 1.
- Calculating the Benefit See definition under Plan 1.
- Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.
- Service Retirement Multiplier Same as Plan 1 for service earned, purchased, or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased, or granted on or after January 1, 2013. Sheriffs, regional jail superintendents, and hazardous duty employees are same as Plan 1.
- Normal Retirement Age Normal Social Security retirement age. Hazardous duty employees are the same as Plan 1.
- Earliest Unreduced Retirement Eligibility Normal Social Security retirement age with at least five years (60 months) of creditable service or when their age and service equal 90. Hazardous duty employees are the same as Plan 1.
- Earliest Reduced Retirement Eligibility Age 60 with at least five years (60 months) of creditable service. Hazardous duty employees are the same as Plan 1.
- Cost-of-Living Adjustment (COLA) in Retirement The Cost-of-Living Adjustment (COLA) matches the first 2.00% increase in the CPI-U and half of any additional increase (up to 2.00%), for a maximum COLA of 3.00%.
- **Disability Coverage** Same as Plan 1 except that the retirement multiplier is 1.65%.

Note 7. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

Hybrid Retirement Plan – The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. The defined benefit is based on a member's age, creditable service, and average final compensation at retirement using a formula. The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

- Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes political subdivision employees; members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1 through April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.
- Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan. They include political subdivision employees who are covered by enhanced benefits for hazardous duty employees and those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.
- Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

• Creditable Service –

- O **Defined Benefit Component:** Under the defined benefit component of the plan, creditable service includes active service and is generally subject to the same terms as in Plans 1 and 2.
- O **Defined Contributions Component:** Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

Note 7. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

Hybrid Retirement Plan (Continued)

Vesting –

- **Defined Benefit Component:** Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.
- O Defined Contributions Component: Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make. Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service. After two years, a member is 50% vested and may withdraw 50% of employer contributions. After three years, a member is 75% vested and may withdraw 75% of employer contributions. After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. Distribution is not required by law until age 70½.

Calculating the Benefit –

- o **Defined Benefit Component:** See definition under Plan 1.
- Defined Contribution Component: The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.
- Average Final Compensation Same as Plan 2 for the defined benefit component of the plan.
- Service Retirement Multiplier The retirement multiplier for the defined benefit component is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans. This is not applicable to sheriffs, regional jail superintendents, or hazardous duty employees.

Normal Retirement Age –

- Defined Benefit Component: Same as Plan 2, however, not applicable for hazardous duty employees.
- O **Defined Contribution Component:** Members are eligible to receive distributions upon leaving employment, subject to restrictions.

Note 7. Defined Benefit Pension Plan (Continued)

Plan Description (Continued)

Hybrid Retirement Plan (Continued)

- Earliest Unreduced Retirement Eligibility
 - O **Defined Benefit Component:** Normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90. This is not applicable to hazardous duty employees.
- Earliest Reduced Retirement Eligibility -
 - O **Defined Benefit Component:** Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service. This is not applicable to hazardous duty employees.
 - O **Defined Contribution Component:** Members are eligible to receive distributions upon leaving employment, subject to restrictions.
- Cost-of-Living Adjustment (COLA) in Retirement
 - O Defined Benefit Component: Same as Plan 2.
- **Disability Coverage** Employees of political subdivisions (including Plan 1 and Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides and employer-paid comparable program for its members. Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.
- Purchase of Prior Service As with Plans 1 and 2, members may choose to purchase prior service credits subject to the Plan provisions.

Employees Covered by Benefit Terms

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	City
Inactive members or their beneficiaries currently receiving benefits	265
Inactive members:	
Vested inactive members	45
Non-vested inactive members	62
Inactive members active elsewhere in VRS	102
Total inactive members	209
Active members	270
Total covered employees	744

Note 7. Defined Benefit Pension Plan (Continued)

	School Non- Professional
Inactive members or their beneficiaries currently receiving benefits	45
Inactive members:	
Vested inactive members	6
Non-vested inactive members	34
Inactive members active elsewhere in VRS	14
Total inactive members	54
Active members	40
Total covered employees	139

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all of the 5.00% member contribution was assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. Effective July 1, 2012, the City and School Board provided a 5.7% salary increase to cover this increase in cost to the employee.

The political subdivision's and school division's contractually required contribution rate for the year ended June 30, 2016 was 17.94% and 11.47%, respectively, of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the political subdivision were \$2,363,714 and \$2,897,005 for the years ended June 30, 2016 and June 30, 2015, respectively. Contributions to the pension plan from the school division were \$119,455 and \$158,520 for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability

The political subdivision's net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Note 7. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.50%
General Employees - Salary increases, including inflation	3.50 – 5.35%
Public Safety Employees - Salary increases, including inflation	3.50 – 4.75%
Investment rate of return	7.00%, net of pension plan investment expense,

Mortality rates: General employees - 14% of deaths are assumed to be service related. Public Safety Employees - 60% of deaths are assumed to be service related. Mortality is projected using the applicable RP-2000 Mortality Table Projected to 2020 with various set backs or set forwards for both males and females.

including inflation

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees - Largest 10 - Non-LEOS and all Others (Non 10 Largest): Update mortality table; decrease in rates of service retirement; decrease in rates of disability retirement; and reduce rates of salary increase by 0.25% per year.

Public Safety Employees – Largest 10 – Non-LEOS and all Others (Non 10 Largest): Update mortality table; adjustment to rates of service retirement for females (Non 10 Largest); decrease in rates of male disability (Largest 10, only); decrease in male and female rates of disability (Non 10 Largest) increase in rates of withdrawal, and reduce rates of salary increase by 0.25% per year.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Note 7. Defined Benefit Pension Plan (Continued)

Long-Term Expected Rate of Return (Continued)

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50 %	6.46 %	1.26 %
Developed Non U.S. Equity	16.50 %	6.28 %	1.04 %
Emerging Market Equity	6.00 %	10.00 %	0.60 %
Fixed Income	15.00 %	0.09 %	0.01 %

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Political Subdivision Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Payables to the Pension Plan-City

At June 30, 2016, approximately \$248,271 was payable to the Virginia Retirement System for the legally required contributions related to June 2016 payroll.

Payables to the Pension Plan-School Division

At June 30, 2016, approximately \$15,187 was payable to the Virginia Retirement System for the legally required contributions related to June 2016 payroll.

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Pool

General Information about the Teacher Cost Sharing Plan

Plan Description

All full-time, salaried permanent (professional) employees of Virginia school divisions, including City of Staunton (the "School Division"), are automatically covered by the VRS Teacher Retirement Plan upon employment. This plan is a multiple employer cost-sharing plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia.

Prior to the adoption of GASB Statement No. 68 in fiscal year 2015, Virginia local school divisions were required to disclose information about their contributions to the teacher cost-sharing plan, but not report a proportionate share of the plan's net pension liability. Upon adoption of the new pension standards in 2015, the School Division now reports its proportionate share of the plan's net pension liability as well as certain other deferred inflows and/or outflows as disclosed below.

Plan participants are covered under three different benefit structures – Plan 1, Plan 2, and Hybrid. The provisions and features of the plans, as well as all actuarial assumptions, are substantially the same as those described in Note 7

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all of the 5.00% member contribution was been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. Effective July 1, 2012, the City and School Board provided a 5.7% salary increase to cover this increase in cost to the employee.

Each school division's contractually required contribution rate for the year ended June 30, 2016 was 14.06% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013 adjusted for the transfer in June 2015 of \$192,884,000 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarial rate for the Teacher Retirement Plan was 18.20%, however, it was reduced to 17.64% as a result of the transfer. The school division's allocation portion of this transfer, which is included in operating grants and contributions on the statement of activates was \$408,366.

The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of §51.1-145 of the *Code of Virginia*, as amended, the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2016. Employee and employer contributions to the pension plan from the school division were \$3,118,604 and \$3,062,931 for the years ended June 30, 2016 and June 30, 2015, respectively.

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the school division reported a liability of \$26,647,826 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2015 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2015, the school division's proportion was .21775% as compared .21711% at June 30, 2014.

For the year ended June 30, 2016, the school division recognized pension expense of \$1,738,472. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	O	Deferred outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	-	\$ 366,557
Change in assumptions		-	-
Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between		-	1,632,492
Employer contributions and proportionate			
share of contributions		70,006	789,508
Employer contributions subsequent to the			
measurement date		2,293,663	 -
Total	\$	2,363,669	\$ 2,788,557

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The \$2,293,663 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Increase (Reduction) to Pension Expense				
2017	\$	(935,353)			
2018		(935,353)			
2019		(935,353)			
2020		118,621			
2021		(31,113)			
Thereafter		-			

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability of the school division using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	_	1.00% Decrease (6.00%)		Current Discount Rate (7.00%)		1.00% Increase (8.00%)
School division's proportionate share of the VRS Teacher Employee Retirement plan net pension liability	<u>\$</u>	38,996,036	\$	26,647,826	<u>\$</u>	16,482,430

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Teacher Cost Sharing Pension Plan

At June 30, 2016, approximately \$301,597 was payable to the Virginia Retirement System for the legally required contributions related to June 2016 payroll.

Note 9. Other Post-Employment Benefits

The City and the School Board provide other post-employment benefits (OPEB) including health insurance. Retirees benefit from a lower insurance rate as a result of inclusion in the plan with active City and School Board employees. This lower rate results in an implicit rate subsidy that qualifies as an OPEB plan, as defined by GASB Statement No. 45.

The City and School Board recognize the cost of the retiree health subsidy during the period of employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the City and School Board. This funding methodology is similar to the funding approach used for pension benefits prior to the adoption of GASB No. 68. The legal authority to establish a trust fund to fund OPEB was provided by the Virginia General Assembly and Governor in March 2007. Accordingly, the City has established a joint trust fund with the School Board to fund the cost of OPEB.

The joint trust fund was established by the City and School Board with the Virginia Pooled OPEB Trust Fund (Trust), sponsored by the Virginia Municipal League and the Virginia Association of Counties. The Trust is established as an investment vehicle for participating employers to accumulate assets to fund OPEB. Plan assets for purposes of GASB Statement No. 45 are segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with terms of the plan.

Note 9. Other Post-Employment Benefits (Continued)

Investment decisions for the fund's assets are made by the Board of Trustees. The Board of Trustees established investment objectives, risk tolerance and asset allocation policies in light of the investment policy, market and economic conditions, and generally prevailing prudent investment practices. The Board of Trustees also monitors the investments to ensure adherence to the adopted policies and guidelines. In addition, the Trustees review, monitor, and evaluate the performance of the investments and its investment advisors in light of available investment opportunities, market conditions and publicly available indices for the generally accepted evaluation and measurement of such performance. Specific investment information for the Trust can be obtained by writing to VML/VACo Finance Program, 1108 East Main Street, Richmond, Virginia 23219.

Plan Description

The City provides OPEB for retirees through a single-employer defined benefit plan. Medical insurance benefits are available to eligible retirees, their spouses and dependents. Retirees are eligible to participate in the City's health insurance plan if they: a) meet VRS requirements for service retirement or disability retirement and will immediately be receiving a retirement annuity from VRS, b) currently participate in the City's health insurance program, and c) are under age 65 and not eligible for Medicare.

The School Board provides OPEB for retirees through a single-employer defined benefit plan. Medical insurance benefits are available to eligible retirees, their spouses and dependents. Retirees are eligible to participate in the Board's health insurance plan if they: a) are eligible for VRS retirement with at least 10 years VRS experience, the last 5 years of which are with the Staunton City School Board, b) have participated in the Board's health insurance program for all of the 5 years immediately preceding retirement, and c) are under age 65.

Current year health insurance claims are paid out of current City and School Board funds. The difference between the actuarial calculated annual required contribution and the current year claims is contributed to the trust.

Funding Policy-City

The contribution requirements of the City healthcare plan members and City are established and may be amended by the City Council. During fiscal year 2016, the City paid approximately 91% of subscriber only coverage, 84% of subscriber plus child coverage, 81% of subscriber plus children coverage, 80% of subscriber plus spouse coverage, and 82% of family coverage. The retiree is required to pay the remaining amount.

GASB Statement No. 45 requires recognition of the current expense of OPEB based on the City's annual required contribution, but does not require funding of the related liability. For the fiscal year ended June 30, 2016, the City contributed \$507,000 to the City's healthcare plan for health insurance and contributed \$141,000 to the Virginia Pooled OPEB Trust. The contribution to the trust and the City contributions to the healthcare plan combine to fully fund the annual required contribution (ARC) of \$648,000 for fiscal year 2016. It is the City's intent to fully fund the ARC each year.

Note 9. Other Post-Employment Benefits (Continued)

Funding Policy-School Board

The contribution requirements of the School Board healthcare plan members and School Board are established and may be amended by the School Board. During fiscal year 2016, the School Board paid approximately 71% of the existing rate for subscriber only coverage and the retiree paid the remaining 29% plus any additional premium for spouse or dependent coverage.

GASB Statement No. 45 requires recognition of the current expense of OPEB based on the School Board's annual required contribution, but does not require funding of the related liability. For the fiscal year ended June 30, 2016, the School Board contributed \$275,000 to the School Board's healthcare plan for health insurance and contributed \$64,000 to the Virginia Pooled OPEB Trust. The contribution to the trust and contributions to the healthcare plan combine to over fund the annual required contribution of \$339,000 for fiscal year 2016. It is the School Board's intent to fully fund the annual required contribution each year.

Annual OPEB Cost

The City and School Board's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The City and School Board's annual OPEB cost, amounts contributed to the plan, and changes in the net OPEB Obligation for fiscal year 2016 is as follows:

	Primary Government		 Component Unit – School Board
Annual Required Contribution (ARC)	\$	648,000	\$ 339,000
Interest on Net OPEB Obligation		-	-
Net OPEB Obligation Adjustment			
Annual OPEB Cost		648,000	339,000
Actual Contribution		(648,000)	 (339,00)
Increase (decrease) in net OPEB Obligation		-	-
Net OPEB Obligation July 1, 2015		-	 (14,000)
Net OPEB Obligation, June 30, 2016	\$		\$ (14,000)

Note 9. Other Post-Employment Benefits (Continued)

Fiscal Year Ending	Annual OPEB Cost		Percentage of Annual OPEB Cost Contributed	 Net OPEB Obligation
Primary Government				
June 30, 2014	\$	495,000	100%	\$ -
June 30, 2015	\$	648,000	100%	\$ -
June 30, 2016	\$	648,000	100%	\$ -
Component Unit -School				
Board				
June 30, 2014	\$	297,000	100%	\$ -
June 30, 2015	\$	339,000	100%	\$ (14,000)
June 30, 2016	\$	339,000	100%	\$ (14,000)

Funded Status and Funding Progress

As of July 1, 2013, the actuarial valuation date applicable to FY16, the City's OPEB plan was 6% funded. The actuarial accrued liability for benefits was \$6,306,000 and the actuarial value of assets was \$390,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$5,916,000. The covered payroll (annual payroll of active employees covered by the City plan) was \$11,179,000, and the ratio of the UAAL to the covered payroll was 53%.

As of July 1, 2013, the actuarial valuation date applicable to FY16, the School Board's OPEB plan was 10.9% funded. The actuarial accrued liability for benefits was \$3,010,000 and the actuarial value of assets was \$328,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,682,000. The covered payroll (annual payroll of active employees covered by the School Board plan) was \$12,820,000, and the ratio of the UAAL to the covered payroll was 20.9%.

Actuarial Valuations

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities.

Note 9. Other Post-Employment Benefits (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive Plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the City/School Board and Plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

For both the City and the School Board, the ARC for fiscal year 2015 was determined as part of the July 1, 2013 actuarial valuation using the entry age normal cost method. Significant actuarial assumptions used in the valuation include:

- a. A rate of return on the investment of present and future assets of 7.5% per year with an inflation rate of 2.5%.
- b. An annual healthcare cost trend rate of 8% initially, which decreases at a rate of .5% per year until an ultimate rate of 5% is reached.
- c. The UAAL for the City is being amortized as a level percentage of payroll on an open basis over 20 years. The remaining amortization period at June 30, 2013 is 20 years. The UAAL for the School Board is being amortized as a level percentage of payroll on an open basis over 15 years. The remaining amortization period at June 30, 2013 is 15 years.

Note 10. Commitments and Contingencies

State and Federal Programs:

The City is the recipient of Federal and State grants which are subject to audit to determine compliance with their requirements. City management believes that any required refunds will be immaterial.

Legal Matters:

The City is a potential defendant in litigation involving claims for damages of various types. City officials estimate that any ultimate liability not covered by insurance will be immaterial.

Note 10. Commitments and Contingencies (Continued)

EDA Commitments

In June 2014, the EDA entered into an agreement with a developer concerning the property at the intersection of US Route 250, Cochran Parkway, and South Frontier Drive. This agreement included an economic development grant equal to a percentage share of the incremental increase in taxes generated for sixteen fiscal years commencing with the beginning of the fiscal year in which the City approves the first occupancy permit for new building construction on the property. To fund this grant, the EDA entered into a contribution agreement with the City evidencing the City's conditional obligation to provide the Authority sums to fund the Grant portion of the development agreement. The source of City funds shall be incremental taxes generated by the development of the property.

Commonwealth Opportunity Fund

In May 2016, the City and EDA were notified of the award of a Commonwealth Opportunity Grant in the amount of \$250,000. The funds are expected to be received and disbursed to the related local business during FY2017. The required local match for the grant is \$282,100. Local enterprise zone grants from the City, through the EDA, for 5 years are expected to serve as the required local match. If the enterprise zone grants do not equal the required match at the end of 5 years, the City, through the EDA, will pay the necessary amounts to the local business to meet the match requirements.

Construction and Other Significant Commitments including Encumbrances

The City has entered into construction contracts, which include several water, sewer and storm water related projects as well as street related projects. As of June 30, the City had outstanding construction contracts totaling \$856,404 that will be financed from operating funds and bond issue proceeds. Other significant commitments include the encumbrances outstanding for the general fund and nonmajor funds as shown below.

	enstruction mmitments	Encumbrances			
Water fund Stormwater fund	\$ 130,680 308,633	\$	-		
General fund	-		1,298,416		
Capital Improvements Fund	417,091		43,919		
Nonmajor funds	 <u> </u>		2,465		
	\$ 856,404	\$	1,344,800		

Note 11. General Property Taxes

The City levies real estate taxes on all real estate within its boundaries, except that exempted by statute. These levies are assessed biannually as of January 1 on the estimated market value of the property. January 1 is also the date an enforceable, legal claim to the receivable applies. The City reassesses all property biannually. Public utility property is assessed by the Commonwealth.

Real estate taxes are billed in semiannual installments, 75% due June 20 and 25% due December 5. For the current fiscal year the real estate taxes budgeted for and reported as revenue in the fund financial statements include those assessed as of January 1, 2015 and due December 5, 2015 as well as the portion of the January 1, 2016 assessment due June 20, 2016, less an allowance for uncollectibles and less taxes not collected within 45 days of year end plus collections of previously delinquent taxes. The tax rate for the January 1, 2015 and 2016 levies was \$.95 per \$100 of assessed value. Real estate taxes receivable, assessed as of January 1, 2016 and due December 5, 2016, are reflected in the accompanying financial statements as a receivable and are offset by deferred inflows of resources, in the amount of \$1,944,559, which is consistent with the City's budget ordinance. Real estate taxes paid in advance as of June 30, 2016 are also included in deferred inflows of resources, in the amount of \$2,286,166 since they are not intended to finance the current fiscal year.

The City levies personal property taxes on motor vehicles and tangible personal business property. These levies are assessed as of January 1 and are due December 5. During fiscal year 2016, the personal property taxes budgeted for and reported as revenue in the fund financial statements include the January 1, 2015 assessment due December 5, 2015, less an allowance for uncollectibles, plus collections on previously delinquent taxes. The 2015 tax rate for machinery and tools was \$1.24 per \$100 of assessed value. The 2015 tax rate for all other personal property was \$2.75 per \$100 of assessed value.

Note 12. Restricted Assets

Restricted assets as of June 30 consist of cash and cash equivalents and amounts due from other governments that are restricted for certain purposes as follows:

	Governmental Activities	Business Type Activities		
Customer deposits	\$ 7,000	\$ 278,413		
Receivable for share of debt	-	2,757,042		
Landfill sinking fund	-	2,156,684		
Total	\$ 7,000	\$ 5,192,139		

Note 13. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for all risks of loss including property, theft, auto liability, general liability, and construction insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage for each of the past three years. There was no reduction in insurance coverage during 2016. In addition, the City provides various surety bond coverage as required under regulations and at industry-recommended levels.

Through the Virginia Municipal League, the City and School Board have joined together with other Virginia public bodies in the Virginia Municipal League Insurance programs pools currently operating as a common risk management and insurance programs for members in Virginia. The City and School Board pay an annual premium to VML Insurance Programs for its workers' compensation and employer's liability, general liability, excess property, crime, and automobile coverage. The agreement for formation of the VML Insurance Programs Pool provides that it will be self-sustaining through member premiums. Workers' compensation coverage provides the benefits as set forth in the Virginia Workers' Compensation Act. VML Insurance programs will reinsure through commercial insurance companies for claims in excess of \$5 million for general liability, and \$5 million for automotive liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

As of June 1, 2003, the City discontinued its self-insured worker's compensation arrangement and began insurance coverage with the Virginia Municipal League. As of June 30, 2016, the City still retains a liability related to workers compensation claims outstanding at the time of the policy change. The City reimburses VML as needed for claims payments on these old outstanding claims in excess of any reinsurance amounts. The City has not established a separately funded reserve for such claims. The portion currently due and payable is \$4,034 and is reported in the General Fund.

As of January 1, 2015, the City and School system established a self-insured health insurance program. Premiums are developed based upon estimates from the claims processor that should cover administrative expenses, stop loss insurance premiums, and claims. Stop loss provisions limit catastrophic claims in excess of \$150,000. At June 30, incurred but not reported claims for the City and Schools are estimated to be \$1,000,000.

Changes in the claims liability amount in fiscal years 2014, 2015 and 2016 were as follows:

Year Ended June 30,	 Beginning Liability			Cla	aim Payments	En	ding Liability
2014	\$ 76,996	\$	103,575	\$	124,048	\$	56,523
2015	\$ 56,523	\$	3,193,391	\$	2,640,589	\$	609,325
2016	\$ 609,325	\$	6,974,969	\$	6,519,212	\$	1,065,083

Note 14. Landfill Closure and Post-closure Care Costs

The City and two other localities share the costs of landfill operations through undivided interests in the Augusta Regional Landfill. The City and the County of Augusta share the costs of an old landfill operation (Permit 21), which was closed in 2003. The costs of a second landfill operation (Permit 585), which was begun in fiscal year 1999, are shared between the cities of Staunton and Waynesboro and the County of Augusta.

State and federal laws and regulations require the Augusta Regional Landfill to place a final cover or cap on a landfill cell when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Under the cost sharing agreement, the City will bear 39.67% of such costs for Permit 21 and 26.04% of such costs for Permit 585. The cost sharing percentage of Permit 585 is adjusted each year based on usage by each locality. The remainder of the Permit 585 costs will be borne by the County and the City of Waynesboro. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each fiscal year ending date.

The \$1,145,505 reported as landfill closure liability at June 30, 2016 represents the cumulative amount reported to date based on the use of 90% of the estimated capacity of the Permit #585 (Phases 1-3) landfill and the stockpile financial assurance liability. The \$963,227 reported as post-closure monitoring liability at June 30, 2016, represents the cumulative amount reported to date based on the use of 100% of the estimated capacity of the Permit #21 landfill and 90% of the estimated capacity of the Permit #585 (Phases 1-3) landfill. Total closure and post-closure care costs and post-closure monitoring costs accrued at June 30, 2016 for both joint ventures are \$2,108,732.

The City will recognize the majority of the remaining estimated cost of closure and post-closure care and post-closure monitoring of \$159,224 for Permit #585 (phases 1-3) landfill as the remaining estimated capacity is filled over the next 18 to 24 months and \$792,157 for the newly constructed Phase 4 cell as the remaining estimated capacity is filled over the next 6 to 8 years.

The City uses the financial test method of demonstrating assurance for closure and post-closure care. The amount for the Permit #21 landfill is based on what it would have cost to perform all post-closure care in 2004 and has been inflated annually at the DEQ-approved inflation rate. The amounts for the Permit #585 landfill were re-evaluated in March 2008 based on what it would cost to perform all closure and post-closure care in 2008 and approved by the Virginia Department of Environmental Quality as part of a permit to expand the landfill beyond the first three phases. These costs have been inflated at the DEQ-approved inflation rate since 2009. Actual costs for both permitted landfills may be different due to actual inflation or deflation, changes in technology, or changes in laws or regulations.

Each participating locality is required to submit to the Virginia Department of Environmental Quality by December 30 of each year financial assurance they can meet their allocated financial responsibility for the Augusta Regional Landfill (see Note 1). Each locality met this requirement for calendar year 2015.

Note 15. Community Development

Staunton Crossing:

In November 2009, the City and the EDA entered into an agreement with the Commonwealth of Virginia to purchase approximately 278 acres of land owned by the Commonwealth, known as the Western State Hospital (WSH) campus, for \$15 million. The EDA also agreed to deed approximately 66 acres of EDA land to the Commonwealth to re-locate and build a new mental health hospital.

The WSH campus land was transferred to the EDA during fiscal year 2010 for development. The EDA intends to contract with and sell the land to developers to develop the multi-use site into commercial, retail, and office property. Any proceeds from the land's disposition will be paid to the City to reduce the City's debt related to the project.

In October 2012 and January 2013, the City issued \$10 million and \$5 million, respectively, in bank qualified debt to pay for the property.

The land was recorded as inventory by the EDA at its estimated fair value of \$14,000,000 at the time of its acquisition. During FY 2015 and 2016, existing buildings were demolished to in order to facilitate the sale of a portion of the property. The adjusted inventory value includes the cost of these demolitions and is reported at \$14,191,586 as of June 30, 2016.

The amount due back to the City is still reported at \$14,000,000, the original estimated fair value. In fiscal year 2016 the City's management concluded that no material decline in the property's value had occurred.

The property is strategically located at the interchange of Interstate 81 and Interstate 64 in the City. While owned by the State, the WSH campus produced no tax revenue to the City. City officials believe that the private development of this site will increase the City's tax base and generate significant local real estate, meals, lodging, and sales taxes.

Subsequent to June 30, the EDA sold approximately 25 acres of the property at a price of \$1.25 million. These funds will be transferred to the City to reduce the amount due back to the City for the value of the property.

Frontier Center:

In March, 2016, the City entered into an agreement with the developer intending to develop real estate at the intersections of US Route 250, George Cochran Parkway and South Frontier Drive. The developer has committed to make public improvements which include water lines, sewer lines and storm drainage facilities and road improvements. The total estimated costs of these improvements is \$2,573,858. The City has received notice of award of \$1,000,000 revenue sharing grant for road improvements. The developer contributed the remaining amount of \$1,573,858. Since no work has begun on the projects, the amount is reported as unearned revenue in the financial statements.

Note 16. Operating Lease

In August 2013, the City, as a lessee, entered into an operating lease for certain office facilities. A summary of future minimum lease payments under such operating leases is as follows:

Year Ending June 30,	
2017	\$ 41,751
2018	42,586
2019	43,438
2020	44,306
2021	45,193
2022-2027	290,782
Total	\$ 508,056

Note 17. Fund Balance

The following schedule provides details for the categories of fund balance for governmental funds as of June 30, 2016:

	Im General		Capital Improvements		Nonmajor		School Board

Note 18. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective.

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other than Pensions improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement will be effective for the year ending June 30, 2017.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement will be effective for the year ending June 30, 2018.

GASB Statement No. 77, *Tax Abatement Disclosures*, requires governments to disclose information about the nature and magnitude of tax abatements granted to a specific taxpayer, typically for the purpose of economic development. This does not cover programs that reduce the tax liabilities of broad classes of taxpayers, such as senior citizens or veterans, and which are not the product of individual agreements with each taxpayer. The Statement does not consider issues related to recognition. This Statement will be effective for the year ending June 30, 2017.

GASB Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans addresses a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. This Statement will be effective for the year ending June 30, 2017.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals. This Statement will be effective for the year ending June 30, 2017.

GASB Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14 clarifies the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial

Note 18. New Accounting Standards (Continued)

Reporting Entity, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organizations Are Component Units. This Statement will be effective for the year ending June 30, 2017.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements* provides recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. This Statement will be effective for the year ending June 30, 2018.

GASB Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73 addresses certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets that are not within the scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement will be effective for the year ending June 30, 2017, except for certain provisions regarding assumptions for plans with a measurement date that differs from the employer's reporting date – those provisions are effective for the year ending June 30, 2018.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2016

Note 1. Budgetary Comparison Schedule – General Fund

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets for states and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons.

Prior to April 1, the City Manager submits to the Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain citizen comments. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

The Appropriations Resolution places legal restrictions on expenditures at the fund level. Only the Council can revise the appropriation for each fund. The City Manager is authorized, within the Appropriations Resolution, to transfer budgeted amounts within any City fund and the School Board is authorized to transfer budgeted amounts within the school system's budget. Appropriations lapse on June 30, for all City funds, except for carry-forward requests approved by Council and project balances in the Capital Improvements Fund.

Appropriated annual budgets are legally adopted and budgetary integration is employed as a management control device during the year for all governmental funds. The budgetary data, as presented in the Required Supplementary Information for all major funds with annual budgets, compares the expenditures with the amended budgets. All budgets are adopted on a basis substantially consistent with generally accepted accounting principles (GAAP) and are presented on the modified accrual basis of accounting. All governmental funds have legally adopted annual budgets, except the CIP fund, which operates with project length budgets.

Accordingly, the Budgetary Comparison Schedule for the General Fund present actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with legally adopted budgets as amended. Original, final budget, actual revenue and expenditures, and variances between final budget and actual for the General Fund are presented on Exhibit 10.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2016

Note 2. Schedules of Changes in Net Pension Liability and Pension Contributions

Changes of Benefit Terms

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this was a new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2015 are not material.

Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 –LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) – Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) – LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Teacher cost-sharing pool

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

OTHER SUPPLEMENTARY INFORMATION

THIS PAGE INTENTIONALLY BLANK

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Blue Ridge Court Services Fund – This fund accounts for the activities of Blue Ridge Court services, which provides parole and probation services. Financing is provided by charges for services and state and federal funds.

State and Federal Grants Fund – This fund accounts for state and federal grant programs of the City. Financing is provided by state and federal funds, along with local matching funds. These funds may be used only for specific purposes.

Community Development Fund – This fund is used to account for the proceeds of federal Community Development grants and other federal and state source revenue for community development. Expenditures are restricted by terms of the grants to community development activities. Community Development Block Grants (CDBG) for general government purposes are also reported in this fund.

Debt Service Fund is used to account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

NONMAJOR INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services to other departments of the City on a cost reimbursement basis.

Health Insurance Fund – This fund is a self-insured fund used to account for employee health care costs.

Inventory Fund – This fund accounts for the sale of goods to other departments of the City.

DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD

Major Funds

Special Revenue Funds:

Education Fund – This fund is used to account for the operations and maintenance of the six city owned schools. Financing is provided by state and federal funds, and by appropriations from the City's general revenues. State and federal education funds received may be used only for this purpose. Annual appropriations from general revenues were restricted by the Appropriations Resolution to education expenditures.

Nonmajor Funds

Special Revenue Funds:

School Cafeteria Fund – This fund is used to account for the operation and maintenance of the cafeterias of the six City owned schools. Financing is provided primarily from charges for services and federal and state lunch subsidies. Such funds are limited to expenditure for cafeteria operations and maintenance by federal and state law.

Textbook Fund – This fund is used to account for the purchase and sale of school textbooks. Financing is provided primarily by state subsidies and the required local match. Funds so received are limited by the Commonwealth to expenditure only for school textbooks.

State Operated Programs Fund – This fund is used to account for revenues and expenditures associated with the operation of education programs in certain state-run hospital and juvenile detention facilities. The state contracts with the School Board to provide education programs to persons in those facilities who are required by law to receive the benefit of public education. The education programs are fully funded by state operating grants with occasional funding by federal operating grants. Thus, revenues equal the expenditures that are composed primarily of staff salaries and fringe benefits, along with moderate amounts of educational materials and purchase of services.

Capital Projects Funds:

School Construction Fund – This fund is used to account for the construction of school facilities and other major capital projects. Financing is provided by transfers from the General Fund and certain state revenues, limited to expenditure for school capital projects.

Agency Fund:

Genesis Fund – This fund is used to account for the operations, in a fiscal agent capacity, of a regional alternative education program for the Cities of Staunton, Harrisonburg, and Waynesboro, and the County of Augusta. Receipts consist of state education funds and tuition payments from the participating localities, and are restricted to use only for this regional program.

DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2016

Amounts reported for governmental activities in the statement of activities (Exhibit C-2) are different because:

Net changes in fund balances - school board component unit		\$	270,358
Governmental funds report the cost of capital assets acquired as current			
expenditures while the statement of activities reports depreciation			
expense to allocate those expenditures over the life of the assets.			
Depreciation	\$ 303,6	92	
Capital expenses	(628,5	58)	
			(324,866)
Revenues in the statement of activities that do not provide current financial			
resources are not reported as revenue in the funds.			16,390
Governmental funds report employer pension contributions as expenditures. However			
in the statement of activities the cost of pension benefits earned net of employee contributions			
is reported as pension expense.			
Employer pension contributions	2,413,1	18	
Pension expense	(1,428,5		984,525
Some expenses reported in the statement of activities do not require the use of current			
resources and therefore are not reported as expenditures in governmental funds.			
Compensated absences			650
		ø	047.057
Change in net position of governmental activities		\$	947,057

DISCRETELY PRESENTED COMPONENT UNIT – EDA

The Economic Development Authority of the City of Staunton, VA (EDA) was created as a political subdivision of the Commonwealth of Virginia by ordinance of the City Council of Staunton, VA on January 26, 1984, pursuant to the provisions of the Industrial Development and Revenue Bond Act (Chapter 33, Section 15.1-1373. et seq., of the Code of Virginia (1050) as amended). The original name was the Industrial Development Authority of the City of Staunton, VA. The name was formally changed to the Economic Development Authority of the City of Staunton, VA effective July 26, 2010.

The EDA is governed by seven directors appointed by the City Council. It is authorized to acquire, own, lease, and dispose of properties to the end that such activities may promote industry and develop trade by inducing enterprises to locate and remain in Staunton.

STATISTICAL SECTION

Financial Trends – These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity – These tables contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

Debt Capacity – These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information – These tables offer demographic and economic indicators to help the reader understand the environment with which the City's financial activities take place and to help make comparison over time and with other governments.

Operating Information – These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Note: For presentation purposes, the impact of new GASB statements is applied prospectively.

City of Staunton Assessor's Office.

Notes:

- -Property in the City of Staunton is reassessed every other year.
- -The City assesses all real property at 100% of actual value, therefore the actual assessed value equals the taxable assessed value.
- -Tax rates are per \$100 of assessed value.
- -Includes real estate and downtown service district taxes
- -This schedule includes assessments made during the calendar year, January through December. The current calendar year includes taxes assessed in May but due 75% in June and 25% in December.
- -There are no overlapping governments and therefore are no overlapping tax rates

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Members of City Council City of Staunton, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the *Specifications for Audits of Counties, Cities, and Towns*, and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 30, 2016.

Our report includes reference to other auditors who audited the financial statements of the Augusta Regional Landfill as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or on compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under Government Auditing Standards and which is described as item 2016-001 in the accompanying schedule of findings and questioned costs.

City of Staunton's Response to Findings

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Brown, Edwards Company, S. L. P.

Harrisonburg, Virginia November 30, 2016

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Members of City Council City of Staunton, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Staunton, Virginia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Staunton, Virginia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Harrisonburg, Virginia November 30, 2016

SUMMARY OF COMPLIANCE MATTERS June 30, 2016

As more fully described in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the City's compliance with certain provisions of the laws, regulations, contracts, and grants shown below.

STATE COMPLIANCE MATTERS

Code of Virginia

Budget and Appropriation Laws
Cash and Investment Laws
Conflicts of Interest Act
Local Retirement Systems
Debt Provisions
Procurement Laws
Economic Development Opportunity Funds
Sheriff Internal Controls
Uniform Disposition of Unclaimed Property Act

State Agency Requirements
Education
Urban Highway Maintenance

FEDERAL COMPLIANCE MATTERS

Compliance Supplement for Single Audits of State and Local Governments

Provisions and conditions of agreements related to federal programs selected for testing.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2016

A. SUMMARY OF AUDITOR'S RESULTS

- 1. The auditor's report expresses an **unmodified opinion** on the financial statements.
- 2. **No significant deficiencies** relating to the audit of the financial statements are reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. **No instances of noncompliance** material to the financial statements were disclosed.
- 4. **No significant deficiencies** relating to the audit of the major federal award programs were reported in the Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance in Accordance with the Uniform Guidance.
- 5. The auditor's report on compliance for the major federal award programs expresses an **unmodified opinion**.
- 6. The audit disclosed **no audit findings relating to major programs.**
- 7. The major programs of the City are:

Foster Care – Title IV-E 93.658
Title I 84.010

- 8. The **threshold** for distinguishing Type A and B programs was \$750,000.
- 9. The City was determined to be a low-risk auditee.

B. FINDINGS - FINANCIAL STATEMENT AUDIT

None.

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

None.

D. FINDINGS AND QUESTIONED COSTS – COMMONWEALTH OF VIRGINIA

2016-001: Weldon Cooper Survey

Condition:

The City entered \$568,894 for total emergency snow removal expenditures on the report submitted in March 2016. The correct amount was \$468,894.

Recommendation:

The City should perform a review of the Weldon Cooper Survey prior to submission.

Management's Response:

Management concurs with this comment. Although the total eligible emergency snow removal expenditures were reported correctly, the total expenditure figure contained a typographical error resulting in the amount being reported incorrectly. We will implement additional review processes to prevent errors such as this in the future.
