INTRODUCTORY SECTION

THIS PAGE LEFT BLANK INTENTIONALLY

December 12, 2022

The Honorable Members of the School Board
and the Citizens of the City of Portsmouth, Virginia

We are pleased to submit the Annual Comprehensive Financial Report (“ACFR”) for the City of Portsmouth, Virginia School Board (“School Board” or “PPS”), as of and for the fiscal year ended June 30, 2022. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the management of the School Board. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Governmental Activities and various funds of the School Board. All disclosures necessary to enable the reader to gain an understanding of the School Board’s financial activities have been included.

For financial reporting, the School Board is a component unit of the City of Portsmouth, Virginia (“City”), and accordingly, the financial position and results of operations of the School Board are also reflected in the financial statements included in the City’s ACFR. An annual audit of the books of accounts, financial records, and transactions of all the departments of the school division has been performed by Clifton Larson Allen LLP, Certified Public Accountants. The auditor’s report of independent auditor, which include their unmodified opinion on the basic financial statements of the school division, are included herein.

Accounting principles generally accepted in the United States of America (“GAAP”) requires that management provide a narrative introduction, overview, and analysis to accompany the Basic Financial Statements in the form of Management’s Discussion and Analysis (“MD&A”). This Transmittal Letter is designed to complement the MD&A and should be read in conjunction with it.

The School Board is required to undergo an annual compliance or “single” audit in conformity with the provisions of the uniform guidance. Information related to this single audit, including the Schedule of Expenditures of Federal Awards, findings and recommendations, if any, and auditors’ report on internal control over financial reporting and on compliance and other matters, are included in the City’s ACFR.

The Reporting Entity and Organization

Founded in 1752 and incorporated by the Virginia General Assembly in 1858, the City of Portsmouth, Virginia is an urban core city situated at the center of Hampton Roads, the country’s 33rd largest Metropolitan Statistical Area with over 1.5 million residents. The City encompasses 29.9 square miles of real property of which 54% is tax exempt due in large part to military installations. Over 250 years old, the City is the home to one of the world’s greatest natural harbors, situated on the James and Elizabeth Rivers, which empty into the Chesapeake Bay. It is bordered by the cities of Chesapeake, Suffolk, and Norfolk to the South, West, and East, respectively.

In accordance with the requirements of GAAP as promulgated by the Governmental Accounting Standards Board (“GASB”), the financial reporting entity consists of a Primary Government (City of Portsmouth), and its component units, which are legally separate organizations. The School Board is considered a component unit of the City and the financial position and results of operations of the School Board are also presented in the City’s ACFR. The School Board has no component units for financial reporting purposes. The School Board is fiscally dependent, i.e., it does not have taxing and borrowing authority. It derives most of its funding from the City and the Commonwealth of Virginia allocations.

The School Board's responsibility is the education of elementary and secondary students within the City. The nine-member School Board is elected by the Portsmouth citizens and its members serve a four-year term. The School Board is entrusted with the responsibility of hiring the school division's superintendent who is the executive and administrative head of the public school division. The City Council approves the School Board's operating budget, levies the necessary taxes to finance their portion of the operations, and approves the borrowing of money and issuance of bonds when necessary. The City Council is prohibited from exercising any control over specific expenditures within the operating budget of the School Board. However, City Council may exercise control in total by major categories (e.g. Instruction; Administration, Attendance and Health; Pupil Transportation; Operations and Maintenance; and Technology) as prescribed by the Code of Virginia, as amended.

Economic Condition and Outlook

Economic Condition and Outlook Old Dominion University, in partnership with Dragas Center for Economic Analysis and Policy recently published the State of the Region - Hampton Roads 2022 report. According to the report, the economy in Hampton Roads (which includes the City of Portsmouth) indicates an uncertain future in 2023. Inflation will continue to consume personal, business and Department of Defense (DoD) purchasing power. As we look back over the last 12 months, Russia's invasion of Ukraine shocked the stock markets and added to a global surge in energy prices and an upward trend in inflation around the world. Many of the jobs that were lost in 2020 during the pandemic have come back, but our recovery is not complete. There have been an increase in employment since August 2021, as compared to the pre-pandemic peak. However, employment in May 2022 is still almost 50,000 personnel below the pre-pandemic peak. In the summer of 2022, the unemployment rate reached approximately 3%. Subsequently, there were almost 45,000 fewer residents working or searching for a job in May 2022 when compared to February 2020, which is a decline of almost 5%. Projected growth from 2021 to 2022 appeared promising but it is dependent upon COVID-19 cases, locally and nationally. As of Spring 2022, Virginia was on track to completely recover in job growth. By the fall of 2022 but Hampton Roads' current situation of job growth may take an additional 18 to 24 months to recover all the lost jobs. An economic downturn is also displayed by losses in output and closure of businesses. In addition, the economic downturn is also displayed due to the inflation and the disrupted supply-chain shock. In August 2021, nearly 11,805 workers in Hampton Roads filed for unemployment. Unemployment claims continue to fall during most of 2021. In 2021 initial average monthly unemployment claims were approximately 13,672. In January 2022, 2,611 unemployment claims were filed but most recent data has less than 2,000 unemployment claims. Hampton Roads unemployment rate has decreased from 4.6 percent to 3.3 percent in May 2022. Total nonfarm employment growth for the Hampton Roads Area was down -3.0% during the period of February 2020 – May 2022. According to the U.S. Bureau of Labor Statistics, employment increased in two industry sectors, declined in eight of twelve and remained the same in one.

The largest job gain during the period of May 2019 – May 2022 is mining, logging and construction with an increase of 900 jobs. The second largest increase occurred in transportation, warehouse and utilities with an increase of 600 jobs. Within the City of Portsmouth, the latest unemployment rate is 4.8%, down from 6.6% in 2021. Approximately 40% of economic activity in Hampton Roads is in relation to the Department of Defense (DoD). Defense spending continues to be the primary driver to the Hampton Roads economy. Due to the impact of inflation, DoD purchasing power will be reduced by billions of dollars by FY 2027. The inflation impact on DoD will be noticeable and DoD will not be able to sustain the current status of operations, maintenance and investments. Hampton Roads estimated defense spending slightly increased from \$20 to \$25.3 billion from 2017 to 2022. Even though the region's total number of military employees and federal civilian workers are declined, personnel costs increased over the period. It should come as no surprise that defense spending in Hampton Roads also represents a substantial percentage of defense spending nationally – total spending in Hampton Roads represents 3.4% of total defense spending across the country.

The Port of Virginia (the Port) activity continues to remain as a significant contributor the annual economic annual growth of the United States, Virginia, and Hampton Roads. Annually, port-related business and activity directly and indirectly contribute to Virginia's economy and account for more than 437,000 jobs and \$27 billion in labor income. In fiscal year 2022, the port helped drive businesses to invest \$1.3 billion resulting in the commitment to net-zero carbon emissions by 2040. Import and export loaded twenty-foot equivalent units (TEUs) flows have increased in 2022, in comparison to 68,594 loaded TEUs in Jul 2020 and 97,665 loaded TEU export traffic in May 2022. Loaded TEU import flows, on the other hand, increased

from 87,669 in May 2020 to 166,907 in May 2022. Some ports struggled to move cargo traffic over the past year, the Port of Virginia traffic increased with minimal delays. Total TEU traffic increased from 201,837 in May 2020 to 340,119 in May 2022. The Port of Virginia market share has remained steady over the last decade and it has continued to make improvements.

In 2022, hotel revenues in Hampton Roads went up by 19% as compared to 2019 in the beginning four months of the year. The hotel industry has fully recovered in Hampton Roads and it is working on recovery in Virginia. Hotel bookings in Hampton Roads were up by 85% in March/April timeframe as compared to earlier in the year. The hotel industry revenues in Hampton Roads has exceeded the state and the nation. The hotel industry for Virginia has not fully recovered due to the pandemic. The hotel revenues for the state are 3.5% below the data from April 2019. The expectation is the state hotel industry will continue to recover in the future.

According to the 2021, Decennial Census Count from the U.S. Census Bureau, Portsmouth had a population estimate of 97,840, of which 52.6% were African-American, 38.9% were Caucasian, and 4.2% were other nationalities. Major City employers include Norfolk Naval Shipyard, Naval Medical Center - Portsmouth, U.S. Fifth Coast Guard District Command, City of Portsmouth, and PPS. Within PPS, there are approximately 2,159 employees. PPS served 12,815 students in 13 elementary schools (12 are Title I schools), 3 middle schools, 3 high schools, 3 Pre-K centers, 1 alternative school, 1 adult learning center. In addition to traditional instructional settings for students in grades K-12, the division offers a number of magnet and enrichment programs, a Career and Technical Education program, and has a partnership with Tidewater Community College (Portsmouth Campus) to offer the First College and Early College programs. Projected March 31st average daily membership of K-12 students for FY2022-23 is estimated to be 12,771. Along with general education, PPS serves special education needs. School-wide, approximately 11.3% of all students received special education services.

The average age of school buildings, within the district, is 50 years. Numerous school building additions and improvements have been completed subsequent to the initial construction of school buildings. The average school building addition and improvement is 14 years.

PPS is funded from local (City of Portsmouth), state, and federal resources. State and City funds are the two largest sources of revenue and represent approximately 98% of the total budget. PPS does not have the authority to levy taxes to directly support education; as such the school division is fiscally dependent on the City. State monies are determined based on the school division's Average Daily Membership ("ADM") and the local composite index, which measures a school division's ability to pay education costs to meet the Commonwealth's Standard of Quality ("SOQ"). Federal monies primarily consist of Impact Aid from the United States Government. Significant funding is also received from federal grants.

The most recent recession and slow recovery of the region's and state's economy continues to have an effect on the funding of the school division. State funding for FY2021-22 was \$4.4 M more than the previous year. The outlook for FY2022-23 shows the school division expects an overall increase in state revenue of \$7.1 million. This is due to an increase in Basic-Aid and Sales Tax from the state. There is no expected increase in City funding. Since the state budget is completed every two years, information is not available to reasonably project future state revenues. The next biennium budget will be for fiscal years 2022-2024 and will have an impact on all funds. As such, the overall division budget currently projects slight decreases beyond FY2022-23.

To aid in long-term financial planning, the annual budget is utilized to reflect PPS' diverse plans by assigning resources to meet the goals of its Five Year strategic plan. One of the five goals attributed to finance is ensuring fiscal stability through sound fiscal practices and ensuring the facilities are of the highest quality. Aiming to improve academics and school safety as well as retain and attract dedicated personnel, the PPS approved budget for fiscal year 2021-22 maintained a consumer-driven high deductible plan decreasing projected health benefit costs. With declining enrollment and the low locality composite index, funding may pose a challenge on the timeline of completing the goals, however, the division is committed to make the best use of resources to meet these goals where possible.

Beyond FY2022-23, the school division expects an overall decrease in revenue. However, PPS is committed to utilizing the best financial practices and seeking innovating methods in providing quality education to the students within the City of Portsmouth. Anticipated declines in ADM are expected based on historical trends and future projections of the City and the state population performed by Weldon Cooper. Without increased or new revenue, school operations and educational programs will have to be analyzed

and restructured based on fiscal constraints. Additionally, the ability to add new programs may be hindered. The division will continue to pursue new grants and make operational changes throughout the school system to provide the best educational experience for our student body.

Standards of Learning

Due to COVID-19 the Virginia Department of Education ("VDOE") waived accreditation ratings for both the 2020-21 and 2021-2022 accreditation years. The calculation of school accreditation will resume with the 2022-2023 ratings based on data from 2021-2022.

Major Initiatives and Recognition

Science – Technology – Engineering – Mathematics (STEM) Pathways

Portsmouth Public Schools has been awarded EVERFI's Empowered Seal, a designation only granted to the top 10 percent of K-12 public school divisions in the United States and Canada that demonstrate an exemplary commitment to whole-child education utilizing digital programs. According to EVERFI, the Empowered Seal honors and elevates the visibility of those school districts meeting high standards for student wellness, and serves as a signal of this commitment to their communities. PPS specifically utilizes modules for digital citizenship, financial literacy, STEM and career readiness, and social emotional well-being to help students across the division and support their development in these areas.

Along with the recognition, PPS students will also have an opportunity to participate in the Empowered Seal Scholarship contests being held this fall and upcoming spring. Ten students will be selected as winners, with two students winning a \$1,000 scholarship and eight students each winning a \$500 scholarship.

Churchland Elementary School and Churchland Academy Elementary School have both been recognized as "Best Elementary Schools" in the country by the U.S. News and World Report, which has ranked more than 47,000 public elementary schools across the country. This is the first time U.S. News & World Report has ranked elementary schools. According to the report, schools were assessed based on student proficiencies in mathematics and reading that were measured by state assessment tests. Additionally, while half of the ranking formula was the data, the other half was the results in the context of socioeconomic demographics. In other words, U.S. News & World Report wrote, "the top-ranked schools are high achieving ones that succeeded in educating all of their students." To qualify for "Best Elementary School" honor, schools had to place among the top 30 percent in the state.

High

The Manor High School Army Junior ROTC (AJROTC) program was visited by the Army 4th Brigade for inspection and evaluation.

The Manor Mustang Battalion again received the highest rating which is "Honor Unit of Distinction" and was granted an immediate additional \$40,000.00 for materials, supplies and equipment for the program.

An Honor Unit with Distinction (HUD) is one that has demonstrated exceptional performance in all areas of program operation. In order to be awarded this rating, the JROTC program must score between 90-100% on the annual Unit Report, and 95-100% on the JROTC Program of Accreditation.

I. C. Norcom High School will be featured in Chrysler Museum exhibit as Norcom is located where the historic Franklin D. Lawrence Stadium was located. The stadium, previously known as the Portsmouth Stadium, was the region's site for the national Negro League, the segregated baseball league that was active from 1920-1960. Norcom's bus ramp is located exactly where the stadium's home plate was located.

Career and Technical Education/First College/Early College/Dual Enrollment

Portsmouth Public Schools (PPS) has an exemplary CTE and Dual Enrollment Program. PPS was awarded the State and Region 2 CTE Advisory Committee Award from Virginia Department of Education (VDOE) and Virginia's Community Colleges (VCC) annual Creating Excellence Awards program. PPS students also attended the State Leadership and Recognition Conference where they advanced to the National Leadership Conference in San Diego CA and competed in Interpersonal Communication and Career Investigation at the national level. Sixty (60) CTE students were involved in the WINDSday Campaign. They learned about the Hampton Roads Off-Shore Energy Industry and how to pursue skilled trade positions to include welding, structural fitting, engineers and accountants. The GO-TEC program is a pilot program in the Middle Schools in Spring 2023 and Fall 2023 to help with career exploration opportunities in manufacturing, cybersecurity, precision machining and additional careers. Some additional proposed skill trade opportunities that students will get certifications and meet different companies are ship repair and marine electrical.

The PPS CTE was awarded grant funds from the Claude Moore Scholars Grant to create healthcare education programs for high school students to increase the critical need for talent and skill in the healthcare industry. The grant planning is taking place in 2021-2023 and expected implementation is in 2023-2024. In 2021-2022, 114 students participated in Early College as compared to 102 students in the previous year. An increase of 12 students participating in Early College. All three PPS high schools offer courses and pathways in careers. The PPS CTE and Dual Enrollment Program continues to elevate and increase opportunities for success for all students.

Division-Wide

The Portsmouth Public Schools (PPS) was named an Excellence in Workforce Readiness Award Winner by the Virginia School Boards Association (VSBA) at the annual VSBA Conference on Education. PPS took home third place in the state for school divisions with student populations above 10,001 students for its Health Sciences Career Development Program. In PPS, the Health Sciences Career Development Program provides students classroom instruction and clinical practice in preparation for work in the health field. Students prepare to assist physicians and therapists in hospitals, nursing homes, clinics, through hands-on clinical experiences at health facilities. According to the VSBA, this awards program was created in 2018 by the VSBA Task Force on Workforce Readiness to highlight exemplary programs in Virginia's Public Schools focused on preparing the state's future workforce.

Graduation Results

The Class of 2022 earned more than \$11.3 million in merit-based scholarships. From that same graduating class, 306 seniors graduated as honor graduates and 139 students earned college credit during their time as part of PPS First College Academy. In addition, another 27 students graduated with their completed associate's degree before they graduated high school thanks to their participation in the Early College Academy.

Financial Information

Management is responsible for establishing and maintaining an internal control structure which is designed to provide reasonable, but not absolute, assurance. Reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits require estimates and judgments by management. A component of internal control structure should increase the probability that material errors or fraud, that may occur, are detected in a timely manner by employees in the normal course of performing their duties.

The School Board management maintains budgetary controls to ensure compliance with the annual appropriated budget adopted by the School Board and City Council. The level of budgetary control is established at the individual fund level. The school division maintains an encumbrance accounting system as a method of accomplishing budgetary control. City Council maintains an ordinance that states all unspent appropriations under any ordinance appropriating funds for the School Board budget lapses at the end of the fiscal year and reverts to the governing body appropriating funds for use the following fiscal year. Encumbered amounts lapse at year-end; however, after review, they generally are re-appropriated by City Council as a part of the following year's budget.

The School Board has adopted budgets for the following funds - General, Textbooks, Grants, Food Services, and Risk Management. The School Board and the City Council adopt the School Operating Budget each May, for the upcoming fiscal year.

The City provided an appropriation of \$63 million for education in addition to the Commonwealth of Virginia SOQ payments in FY2021-22.

The School Board is "fully insured" for auto liability and for general liability through the Virginia Association of Counties Group Self Insurance Risk Pool (VACoRP). For Workers' Compensation, the School Board carries an excess policy, with a self-insured retention of \$500,000. Workers' Compensation claims are handled by VACoRP, a third-party claims administrator. For health insurance, the School Board is self-insured and utilizes Optima Health as the third party claims administrator. The School Board carries excess loss insurance with a specific stop loss limit of \$400,000 and aggregate stop loss coverage at 125% of expected medical claims during a single policy year.

The City Treasurer is the custodian of pooled cash and temporary investments, and funds held for student activity accounts and related investments with the exception of funds under the trust account for Other Postemployment Benefits (OPEB). Our financial institution keeps a minimum required balance in a general depository account and invests the excess in an Institutional Money Market Fund. The investments are in compliance with industry-standard requirements for money market funds for quality, maturity, and diversification on investments. Interest earned is allocated among all the pooled cash funds based on General Ledger cash balances at the end of each month.

Awards

Certificate of Excellence

The Association of School Business Officials ("ASBO") awarded the School Board its *Certificate of Excellence in Financial Reporting* for the ACFR for the fiscal year ended June 30, 2020. The Certificate of Excellence is valid for a period of one year only. This is the fifteenth consecutive year that PPS has achieved this prestigious award.

The Financial Reporting Award was designed by ASBO to enable school business officials to achieve a high standard of financial reporting. The award is only conferred to school systems that have met or exceeded the standards of the program. Since its inception in 1972, the program has gained the distinction of being a prestigious national award recognized by accounting professionals, underwriters, securities analysts, bond rating agencies, state and federal agencies, and education, teacher, and citizen groups.

ASBO, founded in 1910, is a professional association, which provides programs and services to promote the highest standards of school business management practices, professional growth, and the effective use of educational resources.

Certificate of Achievement

The Government Finance Officers Association ("GFOA") of the United States and Canada awarded a *Certificate of Achievement for Excellence in Financial Reporting* to PPS for its ACFR for the fiscal year ended June 30, 2021. This is the fifteenth consecutive year that PPS has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the School Board must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current ACFR continues to meet the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

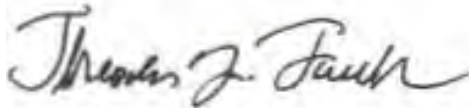

Acknowledgements

We would like to express our sincere gratitude to the personnel in the Department of Finance who participated in the preparation of this report, and to our independent auditors, Clifton Larson Allen LLP. Appreciation is also extended to the School Board and to its administration, whose continuing support is vital to the financial health of the school system.

Respectfully submitted,

EXPEDITION 2025:

PURPOSE • PROMISE • SUCCESS

The Five Year Strategic Plan was adopted in 2019-2020 school year and provides the framework to drive the decision making of the School Board to fulfill its mission each year. The main goals include the following:

1. **Curriculum, Instruction and Assessment:** *Provide educational opportunities to assure all students achieve high academic growth.* The major objectives are to ensure graduates will be College and Career Ready, that highly effective, research based curriculum, instruction and assessment practices are implemented, and provide equitable opportunities using curriculum to support and challenge all students.
2. **Social-Emotional Development:** *Strengthen practices and policies focused on social-emotional development.* The major objectives are to implement social-emotional learning lessons and strategies, and provide learning environments that foster inclusivity and connectedness and encourage social and emotional wellness for all.
3. **High-Quality Personnel:** *Recruit, retain, and develop highly qualified personnel.* The main objectives include providing a competitive compensation package comparable to other school districts of similar size and revenues, strengthen the teacher and leader recruitment pipeline, provide practical, research-based, and differentiated professional learning opportunities aligned to the district's strategic plan and school improvement plans
4. **Family and Community Engagement:** *Strengthen school, family, and community involvement and perceptions.* The main objectives include partnering with families to strengthen understanding of academic standards, student progress, social-emotional development and support and the importance of teachers and families working together, implementing practices to increase positive perception of schools among families and community members.
5. **Finance and Operations:** *Ensure fiscal stability through sound financial practices and ensure high-quality school facilities.* The main objectives include aligning financial management with best practices as identified by industry standards and PPS regulations, financial reviews that consist of internal and external reviews that included the beginning of year and end of year budgets aligned to the strategic plan, and ensure School facilities will be safe and inviting places for students, families, staff, and the community.

The full text of the Strategic Plan, including measurable objectives and action steps for each goal, is available in a separate publication on the Portsmouth Public Schools website, <http://ppsk12.us/>. Click the "About PPS" tab, and choose Strategic Plan from menu.

School Board of the City of Portsmouth, Virginia
Portsmouth, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Portsmouth Public Schools (the "School Board"), a component unit of the City of Portsmouth, Virginia, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, schedules of employer contributions, schedules of changes in net pension liability, schedule of employer's share of net pension liability, schedule of changes in net OPEB liability, and schedule of employer's share of net OPEB liabilities, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

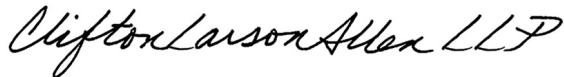

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Members
School Board of the City of Portsmouth, Virginia

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2022 on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School Board's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2022

This section of the City of Portsmouth, Virginia School Board's ("School Board" or "PPS") annual financial report presents our discussion and analysis of the School Board's financial performance during the fiscal year ("FY") ended June 30, 2022. Please read it in conjunction with the financial statements, which follow this section.

Financial Highlights for Fiscal Year Ended June 30, 2022 (FY2022)

PPS' financial status, as reflected in total net position (deficit), increased 24.7% to \$(56.8) million.

On the Statement of Net Position – Governmental Activities, total liabilities at June 30, 2022 totaled \$119.5 million. Current liabilities amount to \$16.4 million. The bulk of the current liabilities of \$9.3 million are related to accrued payroll and accompanied taxes, while the majority of the noncurrent liabilities is related to a decrease in net pension liability of \$89.9 million.

On a government-wide basis for governmental activities, the School Board's revenues of \$198.8 million exceeded expenses of \$173.9 million by \$24.8 million.

The School Board's Governmental funds reported total fund balances of \$30.5 million at June 30, 2022. Of this amount, \$1.3 million is nonspendable (i.e. inventories and prepaid items), \$11.4 million is restricted (e.g., federal and state grantor agencies, food services, textbook adoptions), \$831k is committed to Student Activity, \$2.9 million is assigned (e.g., athletics, instruction, administration, attendance and health, pupil transportation, operations and maintenance, technology) and \$14.1 million is unassigned in the General fund.

Overview of the Financial Statements

This Annual Comprehensive Financial Report has four component sections: *management's discussion and analysis* (presented here), *the basic financial statements*, *required supplementary information*, and *other supplementary information*.

There are two types of financial statement presentations - one for the School Board as a whole (government-wide), and one for the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the School Board's overall financial status on an economic resource focus. The remaining statements are fund financial statements that focus on a current financial resource basis and individual parts of the School Board's operations in more detail than the government-wide financial statements.

Also included in the financial statements, are *notes* that explain some of the information, and provide more detailed data. Following the statements is a section of *required supplementary information* that further explains and supports the information in the financial statements.

The chart on the following page summarizes the major features of the School Board's financial statements and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Major Features of the School Board's Government-Wide and Fund Financial Statements:

	Government-Wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire school system	Activities of the school system that are not proprietary or fiduciary, such as General, Text Books, Grants, Food Services, and Capital Projects Funds	Activities the school system operates similar to private businesses, such as the Risk Management Fund	Instances in which the school system is the trustee or agent for resources outside of the government, such as the OPEB Trust and Student Activities Fund
Required financial statements	Statement of Net Position	Balance Sheet	Statement of Net Position	Statement of Net Position
	Statement of Activities	Statement of Revenues, Expenditures, and Changes in Fund Balances	Statement of Revenues, Expenses, and Changes in Fund Net Position Statement of Cash Flows	Statement of Changes in Net Position (OPEB Trust Fund only)
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All receipts and disbursements during year, when cash is received or paid, rather than when an obligation is incurred

Government-Wide Statements

The government-wide statements report information about the School Board as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the School Board's assets, deferred outflows, liabilities, and deferred inflows, while the Statement of Activities reports the School Board's revenues and expenses, regardless of when cash is received or paid. Both of the statements are prepared using the full accrual basis of accounting, which is similar to private-sector accounting.

The two government-wide statements report the School Board's net position and how they have changed. Net position, the difference between the School Board's assets and deferred outflows and liabilities and deferred inflows, is one way to measure the School Board's financial health or position.

Over time, increases or decreases in the School Board's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the School Board, you need to consider additional non-financial factors such as changes in the student population and the condition of school properties.

The government-wide financial statements of the School Board include only governmental activities, as the School Board does not have business-type activities. Most of the School Board's basic services are included here, such as administration, instruction, attendance and health, pupil transportation, information technology, and operations and maintenance. State aid, Federal aid, and State and Federal grants finance most of these activities.

Fund Financial Statements

The fund statements focus on the major funds of the School Board, rather than the entity as a whole. These financial statements are presented on a modified accrual basis and are accounting devices that the School Board uses to keep track of specific sources of funding and spending for particular purposes.

The School Board has three types of funds:

- *Governmental Funds* – Most of the School Board's basic activities are included in governmental funds, which focus on: (1) how cash and other financial assets can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps a reader determine whether there are more or fewer financial resources that can be spent in the near-term future to finance the School Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, this additional information is provided in reconciliations after the governmental funds statements to explain the relationship (or differences) between them.
- *Proprietary Funds* – Services for which the School Board charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. The School Board uses an internal service fund. Internal service funds are used for goods or services provided by a central service department or agency to other departments, agencies, or to other unrelated governmental units, usually on a cost reimbursement basis. The Risk Management and Insurance Fund accounts for the payment of claims and legal fees, if necessary, on public liability claims arising from the operations of the School Board.
- *Fiduciary Funds* – The School Board maintains an agency fund which is custodial in nature (assets equal liabilities) and does not involve measurements of the results of operations. The School Board's agency fund is the Student Activities Fund, which accounts for the student activity monies maintained on behalf of the students by the school principals at each school. The OPEB trust fund is used to report resources that are required to be held in a trust for members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or employee benefit plans.

Financial Analysis of the School Board as a Whole

Following is a discussion of the major financial highlights of the School Board's financial statements:

Net Position

June 30,
(in thousands of dollars)

	2022	2021
Current and other assets	\$ 48,445	\$ 39,645
Capital assets	46,186	49,753
Net OPEB asset	8,917	10,794
Total assets	<u>103,548</u>	<u>100,192</u>
Deferred outflows related to pensions	29,056	36,220
Deferred outflows related to OPEB	7,292	5,901
Total deferred outflows of resources	<u>36,348</u>	<u>42,121</u>
Other liabilities	16,418	18,672
Long-term debt outstanding	103,155	176,307
Total liabilities	<u>119,573</u>	<u>194,979</u>
Deferred inflows related to pensions	61,370	12,139
Deferred inflows related to OPEB	15,732	16,789
Total deferred inflows of resources	<u>77,102</u>	<u>28,928</u>
Net position:		
Net investment in capital assets	46,186	49,753
Restricted	20,346	4,134
Unrestricted (deficit)	(123,310)	(135,481)
Total net position (deficit)	<u>\$ (56,778)</u>	<u>\$ (81,594)</u>

The School Board liabilities and deferred inflows of resources exceeded assets and deferred outflow of resources by \$(56.8) million, representing an increase of \$24.7 million from the net position at June 30, 2021. Total assets increased by 3% due to General Fund cash and temporary investments. The Code of Virginia prohibits school districts from issuing general obligation debt. As a result, capital assets of the School Board, for which the City has incurred general obligation debt, are reflected in the City's financial statements. All School Board capital assets, which are not secured by debt, are reported in the School Board's financial statements.

The largest drivers for the deficit is due to reporting the OPEB and net pension liability. The net pension liability for PPS as of June 30, 2022 is \$80.9 million. The net other postemployment liability for PPS as of June 30, 2022 is \$18.9 million.

Readers desiring more information on the School Board's pension plans are referred to Note 5 in the basic financial statements. Readers desiring more information on the School Board's other postemployment benefit plans are referred to Note 8 in the basic financial statements.

Changes in Net Position

The breakdown of program revenue is as follows: 98% comes from operating contributions, while the remaining program revenue is from charges for services. In the prior year, operating contributions represented 93% of program revenues. Total general revenues for FY2022 were \$151.7 million, consisting primarily of grants and contributions not restricted to specific programs. City appropriations make up approximately 39% of these revenues. The majority of the rest of the grants and contributions not restricted to specific programs are derived from State and Federal funds.

June 30,
(in thousands of dollars)

	<u>2022</u>	<u>2021</u>
Revenues:		
Program revenues:		
Charges for services	\$ 1,042	\$ 2,661
Operating grants and contributions	46,100	37,110
General revenues:		
Interest and investment earnings	58	44
Grants and contributions not restricted	150,188	152,849
Miscellaneous	1,410	991
Total revenues	<u>198,798</u>	<u>193,655</u>
Program expenses:		
Instruction	122,422	132,376
Administration, attendance, and health services	10,845	10,938
Pupil transportation	6,158	5,346
Operations and maintenance	16,805	15,927
Information technology	9,004	14,399
Food services	7,685	6,046
Capital Outlay	239	
Student Activity	824	323
Total program expenses	<u>173,982</u>	<u>185,355</u>
Change in net position	24,816	8,300
Beginning net position (deficit)	(81,594)	(89,894)
Ending net position (deficit)	<u>\$ (56,778)</u>	<u>\$ (81,594)</u>

Charges for services decreased by \$1.6 million from the previous year. This decrease is primarily due to a reduction of \$1.2 million in revenue previously received from the City of Portsmouth Department of Parks and Recreation for meals prepared by Food Services and distributed to citizens. In addition, there was a decrease of \$0.4 million in revenue received from the Virginia Medical Assistance program as occurred in previous years.

Operating grants and contribution combined with grants and contributions not restricted, in the general revenues section, increased by \$8.9 million over the previous fiscal year. This is primarily due to \$3 million provided by Commonwealth of Virginia to supplement 5% salary increase and revenue generated from the National School Lunch program which paused for a portion of FY2020 and all of FY2021 due to implications of COVID pandemic.

Total program expenses decreased by \$11.4 million from the previous fiscal year in which \$10.3 million is attributable to pension contribution and pension expenses. In addition, \$1.1 million is due to reduction of OPEB expenses for FY22.

Financial Analysis of the School Board's Funds

Governmental Funds

The School Board's combined fund balance for the governmental funds was \$30.6 million as of June 30, 2022. The current year compared to last year is as follows:

Fund Balance Comparison

June 30,
(in thousands of dollars)

	2022	2021
Fund:		
General	\$ 18,312	\$ 16,288
Grants	3,157	2,168
Food services	3,202	(1,015)
Textbook	5,080	1,966
Student Activity	831	709
Total combined fund balance	\$ 30,582	\$ 20,116

There were several factors that contributed to the change in fund balances:

General Fund

End of the year assigned fund balance increased from \$1.0 million to \$2.9 million from the previous year while the unassigned fund balance decreased slightly from \$14.2 million to \$14.1 million. The increase in the assigned fund balance is primarily due to decline in spending as a result of supply disruption. Also, the City permitted the School Board to retain unspent appropriations totaling \$3.6 million; this was not done in the past. The total fund balance at June 30, 2022 for the General Fund represents 60.1 percent of the total combined fund balance for all governmental funds.

Grants Fund

During FY2022, the School Board's Grants Fund (a multi-year fund) received \$19.4 million in revenues and \$1.3 million required local match from the General Fund for total funding of \$20.7 million. Total grant expenditures totaled \$19.7 million. The excess of revenues over expenditures (including local match requirements) caused fund balance to increase by approximately \$.9 million from FY2021. Spending within the Grants Fund was fairly consistent with FY2022.

Food Services Fund

During FY2022, the School Board's Food Services Fund received \$12.6 million in revenues and transfers in and incurred \$8.40 million in expenditures. The excess of revenues, (including transfers) under expenditures caused fund balance to increase by \$4.2 million from FY2021. The Fund balance increase is primarily attributable to the City Council re-appropriation in the amount of \$2.4 million utilized to remove the FY21 net deficit in excess of \$1 million.

Textbook Fund

During FY2022, the School Board's Textbook Fund received \$1.0 million in revenues and \$2.3 million in required local match from the General Fund for total funding of \$3.3 million. Total expenditures incurred were \$.3 million. The excess of revenues over expenditures caused fund balance to increase by \$3 million from FY2021. This was primarily due to fewer textbook adoptions in FY2022 compared to FY2021.

Student Activity Fund

During FY2022, the School Board's Student Activity Fund received \$.9 million in revenues and incurred \$.8 million in expenditures. The excess of revenues over expenditures (excluding other financing uses) caused fund balance to increase by \$122k from FY2021. The Fund balance increase is primarily attributable to carryforward funds and revenue earned from extracurricular activities.

Internal Service Funds

Risk Management Fund

The Risk Management Fund net position increased from \$1.4 million in FY2021 to becoming a net position of \$1.5 million in FY2022. The increase in net position is directly related to the reduction of health insurance and worker's compensation claims in FY2022.

General Fund Budgetary Highlights

The Superintendent presents the proposed PPS budget to the School Board in January. The School Board conducts a series of public hearings and workshop sessions before adopting the proposed budget. The School Board's proposed budget is then forwarded to the City Council for inclusion in the City's proposed budget to be approved in May. Throughout FY2022, the School Board monitors its total budget; however, the School Board delegates authority, to the Division Superintendent, to move budget amounts, within each category, to meet the changing needs of the School Board. Budget amounts, which need to be moved between categories, must receive School Board and City Council approval prior to movement. The School Board's administration manages actual spending of revenue received.

The following table presents a summary comparison of the General Fund's original and final budgets with actual performance, net of other financing sources and uses, for the fiscal year ended June 30, 2022.

General Fund Fiscal Year 2022 (in thousands of dollars)				
	Original Budget	Amended Budget	Actual (Budgetary Basis)	Amended Budget Versus Actual Variance
Revenues:				
Intergovernmental	\$ 166,115	\$ 169,215	\$ 168,809	-0.2%
Other revenues	1,962	1,962	1,021	-48.0%
Total	168,077	171,177	169,830	-0.8%
Expenditures and transfers:				
Instruction	\$ 120,511	\$ 120,721	\$ 114,571	-5.1%
Administration, attendance, and health	11,153	11,153	10,323	-7.4%
Pupil transportation	6,665	8,165	7,817	-4.3%
Operations and maintenance	17,735	19,125	17,905	-6.4%
Information technology	8,391	8,391	8,613	2.6%
Transfers	3,622	3,622	8,004	121.0%
Total	168,077	171,177	167,233	-2.3%
Change in fund balance	\$ -	\$ -	\$ 2,597	100.0%

During fiscal year 2022, the amendment to the General Fund's budget was an increase to expenditures for the carryover of encumbrance obligations from fiscal year 2022. Actual intergovernmental revenues were less than the final amended budget by .2% or \$406 thousand. Actual other revenues, as compared to the amended budget revenues, decreased by -48.0% or \$941 thousand. This is due to dual enrollment refunds and medical assistance program revenue not yet received during the fiscal year.

Actual expenditures and transfers, as compared to the amended budget, decreased 2.5% or \$4 million. The decrease in expenditures is related to fluctuation between projected and actual costs, vacant positions, decline in student enrollment and turnover.

Capital Assets

As of June 30, 2022, the School Board had \$46.2 million in capital assets, net of depreciation. Most of the assets are in school buildings and land. Of the equipment, most of these assets are the school bus fleet and maintenance vehicles.

Capital Assets

June 30,

(net of depreciation, in thousands of dollars)

	<u>2022</u>	<u>2021</u>
Land	\$ 6,086	\$ 6,086
Buildings and improvements	35,247	37,723
Equipment	<u>4,853</u>	<u>5,944</u>
Total	<u>\$ 46,186</u>	<u>\$ 49,753</u>

Buildings and Improvements decreased due to FY2022 depreciation on existing building assets. Equipment decreased due to the net of \$1.1 million of new assets, equipment disposals, and FY2022 depreciation on new and existing equipment. Readers desiring more information on capital assets are referred to Note 3 in the basic financial statements.

Economic Factors

Efforts to mitigate instructional disruption due to the COVID-19 pandemic continues to be a major focus. Despite economic challenges and reduction in student enrollment, the fiscal year 2023 approved operating budget maintains existing programs that support PPS student achievement goals and conserves financial resources.

In June 2022, the unemployment rate was 4.5% for Portsmouth, 2.8% for Virginia, and 3.6% for the U.S. The City had a per capita income of \$47,944 in 2021 (most recent information available), which was 28% less than the per capita income for the state at \$66,305, and 25% less than the per capita income for the nation at \$64,143 (U.S. Bureau of Economic Analysis). Portsmouth's median income has been increasing year over year with the growth of the city and the region. In 2021, the reported median income for Portsmouth was \$54,020, while Virginia's median family income was \$80,615. The national median family income for the United States for FY 2021 was \$70,784, an increase over the national median family income in FY 2020 of \$71,186.

Factors Influencing Future Budgets

- Employee healthcare costs
- Employee postemployment benefits
- Inadequate state and federal aid
- Unfunded state and federal mandates
- Competitive salaries and pay raises
- Global and national economic conditions
- Fluctuations in student enrollment
- Impact of COVID-19

Contacting the School Board's Financial Management

This financial report is designed to provide citizens, taxpayers, parents, guardians, and creditors with a general overview of the School Board's finances, and to demonstrate the School Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City of Portsmouth, Virginia, School Board, Superintendent's Office, 801 Crawford Street, 3rd Floor, Portsmouth, Virginia 23704.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2022

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements presented for the City of Portsmouth, Virginia School Board ("School Board") are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units, as prescribed by the Governmental Accounting Standards Board ("GASB"). The School Board's significant accounting and reporting policies are described below.

The Financial Reporting Entity

The School Board is considered a component unit of the City of Portsmouth, Virginia ("City"). The School Board has no component units. Component units are legally separate entities for which a Primary Government is financially accountable. Financial accountability ordinarily involves meeting both of the following criteria: (a) the primary government is accountable for the component unit, and (b) the Primary Government is able to impose its will upon the component unit (or there is a possibility that the component unit may provide specific financial benefits or impose specific financial burdens on the primary government). The information included in these basic financial statements will also be included in the City's basic financial statements because of the significance of the School Board's financial relationship with the City.

The School Board determines educational policy and employs a Superintendent of Schools to administer the School Board's policies. The members of the School Board are elected by the citizens of the City. The School Board is responsible for elementary and secondary education for the City.

Basis of Financial Statement Presentation and Fund Accounting

The accounting policies of the School Board are in conformity with GAAP as applicable to governmental units. GASB is the organization that establishes financial and accounting standards for local and state governments nationwide. The School Board's basic financial statements consist of government-wide statements, including a Statement of Net Position and the Statement of Activities; fund financial statements, which provide more detailed level of financial information; and notes to the financial statements, which provide a comprehensive narrative information.

Government-Wide Financial Statements - The Statement of Net Position and the Statement of Activities display information about the School Board as a whole, except for fiduciary funds. These statements are reflected on a full accrual basis of accounting and economic resources measurement focus, (which incorporates long-term assets as well as long-term liabilities.)

The Statement of Net Position presents the financial condition of the governmental type activities of the School Board at year-end. The School Board does not have any business-type activities. The government-wide Statement of Activities reflects both the gross and net cost per functional category that is otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues (charges for services, operating and capital grants, and contributions). The program revenues must be directly associated with the function or a business-type activity. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items such as grants not specific to a program, and not properly included among program revenues are reported as general revenues.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School Board does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The effect of interfund services provided and used, for example, risk management and insurance services, are not eliminated in the process of consolidation.

Fund Financial Statements - The accounts of the School Board are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues, and expenditures. The fund statements are presented on a current financial resources measurement focus and the modified accrual basis of accounting. Since the governmental funds statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented, which briefly explains the adjustments necessary to reconcile the fund financial statements to the government-wide financial statements.

Governmental Funds - Governmental Funds are those through which most governmental functions of the School Board are financed. The acquisition, use and balances of the School Board's expendable financial resources and the related liabilities are accounted for through governmental funds. Governmental fund types use the "flow of current financial resources" measurement focus. This means that, generally, only current assets and current liabilities are reflected on their balance sheets. Their operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. The measurement focus is based upon the determination of changes in financial position, rather than upon net income determination. The School Board reports the following major governmental funds:

General Fund - The General Fund (School Operating Fund) is the general operating fund of the School Board. It is used to account for all financial resources except those required to be accounted for in another fund. Revenues are primarily from other governments (intergovernmental revenues).

School Activity Fund - The School Activity Fund is a special revenue fund used to account for, and report the proceeds of specific revenue sources that are restricted or committed for specific purposes.

School Grants Fund - The School Grants Fund is a special revenue fund which accounts for federal, state, and other grants associated with school programs.

School Food Services Fund - The School Food Services Fund is a special revenue fund which accounts for the operations of the cafeterias operating in each school. Revenues include federal and state funds, donated commodities, charges for services, and other sales.

School Textbook Fund - The School Textbook Fund is a special revenue fund which accounts for state funding for the acquisition of textbooks.

Additionally, the School Board reports the following fund types:

Internal Service Fund - The Internal Service Fund accounts for the financing of services provided by one fund to other funds of the School Board. The Risk Management Fund accounts for the payment of medical and workmen's compensation claims and legal fees, if necessary, on public liability claims arising from the operations of the School Board. Operating revenues include charges for services. Operating expenses include cost of services. The Internal Service Fund is included in governmental activities for government-wide reporting purposes.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The excess revenue or expenses for the funds are allocated to the appropriate functional activity.

Fiduciary Funds - Fiduciary Funds are used to account for assets held by the School Board in a trustee capacity or as an agent for individuals, private organizations, and other governments. The Fiduciary Funds of the School Board is the School other postemployment benefits ("OPEB") Trust Fund. The School Board OPEB fund has a trust fund that holds the assets contributed for the costs of the School Board's OPEB provided to retirees for health care. Fiduciary Funds are not included in the government-wide financial statements.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long-term assets and liabilities are included in the government-wide statements. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. The School Board generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets plus deferred outflows of resources and all liabilities plus deferred inflows of resources associated with the operation of these activities are included on the Statement of Net Position. Non-current assets (i.e., land, buildings, improvements, and other capital assets) and long-term liabilities (i.e., actuarial claims payable, compensated absences, pension, and OPEB liabilities) are included in this statement. Revenues are documented when earned and expenses are recorded when a liability is incurred irrespective of the timing of the associated cash flows.

The government-wide Statement of Activities is presented on the accrual basis of accounting. Program revenues consists of charges for services, operating grants and contributions, and capital grants and contributions. General revenues are comprised of unrestricted purpose grants and contributions from the City, state, and federal government. Expenses directly attributable to program (i.e., Instruction, Food Service, Pupil Transportation) are defined on this statement. The effect of interfund revenue has been eliminated from these statements.

The Governmental Funds' statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues, including grants, charges for services, and interest income, are recorded as soon as they are both measurable and available. Revenues are recorded when they are collectible within the current period or within forty-five days of year-end to be used to pay current liabilities. Expenditures, other than compensated absences, pension, OPEB, and interest and principal on long-term debt, which is recorded when due, are recorded when the fund liability is incurred, if measurable. Depreciation is an allocated cost expense and is not recorded in the governmental funds. Due to the difference in measurement focus in comparison to government-wide statements, reconciliations are presented to detail the dissimilarities.

Proprietary funds are reported utilizing economic resources measurement focus. All assets and liabilities related with the operation of these funds are included on the Statement of Net Position. Proprietary fund, net position is separated into restricted, unrestricted, and invested in capital assets. Proprietary funds' operating statement presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The operating revenues are charges for services provided to other departments on a cost reimbursement basis and the costs to provide these services are reported as operating expenses. For services which range over more than one fiscal period, such as insurance, the change in actuarially determined insurance liability from

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

one year to the next is reported as an operating expense. Nonoperating expenses in the proprietary funds are generated from the transfer due to Primary Government. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The statement of cash flows presents the cash inflows and outflows of the proprietary activities.

Fiduciary funds use the economic resources measurement focus and are reported using the accrual basis of accounting. However, custodial funds included in fiduciary funds do not involve the measurement of results of operations as they are custodial in nature, reported as assets and related liabilities.

Receivables and Due from Other Governments

Amounts due from the Commonwealth of Virginia consist primarily of June sales tax, receivables from state entitlements, and reimbursement of grants expenditures. Amounts due from the federal government are for reimbursement of grants expenditures. Receivables consist primarily of amounts due from students and other customers of the School Board. All amounts should be collected within one year.

Inventory

Inventory is valued at cost (first-in, first-out). Inventory consists of consumable materials and supplies held for future consumption. Under the consumption method of accounting, the cost is recorded as an expenditure in the General Fund at the time individual inventory items are purchased. Reported inventories are equally offset by a fund balance designation, which indicates the inventories do not constitute "available spendable resources."

The School Food Service Fund's inventory includes United States Department of Agriculture ("USDA") commodities under the Donated Commodity Program. This program provides free agricultural products for utilization of school lunch preparation. The contributions are recorded in the financial statements as revenue upon receipt at delivery and expenditures at the time product consumption based on estimated market value provided by USDA.

Capital Assets

Capital outlays are recorded as expenditures in the governmental funds and as assets in the government-wide financial statements to the extent the School Board's capitalization threshold of \$5,000 is met.

Depreciation and amortization is recorded on general capital assets on a government-wide basis using the straight-line method over the following estimated useful lives:

Buildings and Improvements	20 - 50 years
Equipment	5 - 30 years
Intangible assets	5 years

All capital assets are capitalized at cost (or estimated historical cost) at the completion of each project and updated for additions and retirements during the year. Donated assets are recorded at acquisition value. The School Board has no infrastructure assets.

Under Virginia law, certain property maintained by the School Board is subject to tenancy in common with the City, if the City has incurred a financial obligation for the property, which is payable over more than one fiscal year. The School Board and the City have agreed that such property, having a net book value of \$118,856,430, is carried on the City's financial statements until the outstanding debt is repaid.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources

The School Board recognizes deferred outflows and inflows of resources. A deferred outflow of resources is a consumption of net assets that is applicable to a future reporting period. Deferred outflows of resources for amounts related to pensions and OPEB are reported in the government-wide Statement of Net Position related to changes in actuarial assumptions, pension/OPEB trust investment returns that exceed projected earnings, change in the proportionate share of total VRS Teachers' Pool liability, VML-VACo and VRS OPEB programs, actual economic experience that is different than estimated, and pension/OPEB contributions made subsequent to the measurement date. Changes in deferred outflows of resources are amortized over the remaining service life of all plan participants with the exception of investment experience amounts, which is deferred and amortized over a closed five-year period.

A deferred inflow of resources is an acquisition of net assets that is applicable to a future reporting period. Deferred inflows of resources in the governmental funds' Balance Sheet represent unavailable revenue for amounts billed and not collected. Deferred inflows of resources in the government-wide Statement of Net Position represent unearned revenues for amounts received in advance of meeting timing requirements or amounts collected in advance of the fiscal year to which they apply. Deferred inflows of resources are also reported for amounts related to pensions and OPEB in the government-wide Statement of Net Position. The Statement of Net Position reports deferred outflows and inflows of resources related to pensions and OPEB (See Exhibit I and Note 5, 8).

Pensions

The Virginia Retirement System (the "VRS") Teacher Retirement Plan is an independent agency of the Commonwealth of Virginia. The VRS Teacher Retirement Plan is a multiple employer cost-sharing plan, and the Nonprofessional Retirement Plan is a multi-employer agent plan. The Board of Trustees (the "Board") is responsible for the general administration and operation of the defined benefit pension plans and other employee benefit plans. The Board has full power to invest and reinvest the trust funds of the VRS through the adoption of investment policies and guidelines that fulfill the Board's investment objective to maximize long-term investment returns while targeting an acceptable level of risk. For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions and pension expense, information about the fiduciary net position of the VRS Teacher (Professional) Retirement Plan and the School Board Nonprofessional Retirement Plan, and the additions to/deductions from the VRS Teacher (Professional) Retirement Plan's and School Board Nonprofessional Retirement Plan's net fiduciary position, have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

The VRS is an independent agency of the Commonwealth of Virginia. The VRS Group Life Insurance plan, Health Insurance Credit Plan, and Virginia Local Disability Plan are multiple employer cost-sharing plans. The Board of Trustees (the "Board") is responsible for the general administration and operation of the defined benefit pension plans and other employee benefit plans. The Board has full power to invest and reinvest the trust funds of the VRS through the adoption of investment policies and guidelines that fulfill the Board's investment objective to maximize long-term investment returns while targeting an acceptable level of risk. For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the plans, and the additions to/deductions from the plans' net fiduciary position, have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School Board administers a single-employer defined benefit healthcare plan. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the plan and additions to/deductions from the Employer's fiduciary net position is determined under GAAP. For this purpose, benefit payments are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Compensated Absences

School Board employees are granted vacation and sick pay in varying amounts as services are provided. They may accumulate, subject to certain limitations, unused vacation pay earned, and upon retirement, termination, or death, may be compensated as salary related payments for certain amounts at their then current rates of pay. After five consecutive years of service, employees, upon retirement, termination, or death, may be compensated at a daily rate of \$20 for each unused sick leave day earned, provided that the funds have been included in the approved annual budget.

Fund Balances/Net Position

Fund balance is categorized, within one of the five classifications listed below, based primarily on the extent to which the School Board is bound to observe constraints imposed upon the use of resources in the governmental funds.

- The *non-spendable fund balance* category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.
- The *restricted fund balance* is reported as restricted when constraints are placed on the use of resources either externally by creditors, grantors, contributors, laws and regulations, or through enabling legislation.
- The *committed fund balance* classification includes amounts that can be used only for the specific purposes determined by a formal action (resolution) of the School Board – the highest level of authority and requires a similar formal action to remove the commitment.
- The *assigned fund balance* classification is intended to be used by the School Board for specific purposes but does not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by School Board or the delegate – an authority delegated by appropriate action such as a resolution.
- The *unassigned fund balance* is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

A fund balance of the School Board may be committed for a specific purpose, by formal action of the School Board, e.g., the School Board approving a contract for construction of a school facility would commit that fund balance for construction of the specific school. When it is appropriate for a fund balance to be assigned, the School Board has delegated the authority to the Superintendent or his designee to assign the fund balance. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net position in government-wide financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through state statute.

Minimum Fund Balance Policy

The School Board does not have a minimum fund balance policy.

Statement of Cash Flows

For purposes of the Statement of Cash Flows, investments with original maturities of three months or less from the date of purchase are grouped into cash and temporary investments and are considered cash equivalents.

Use of Estimates

Management, by the School Board, has made a number of estimates and assumptions, relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities, to prepare these financial statements in conformity with GAAP. Management believes any differences between these estimates and actual results should not materially affect the School Board's reporting of its financial position.

Governmental Accounting Standards Board (GASB) Pronouncements

The GASB issued Statement 87, Leases, in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The School Board has evaluated this pronouncement and determined it wasn't applicable to PPS.

The GASB issued Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, in June 2018. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for periods beginning after December 15, 2020. Management has completed their assessment and determined no impact of these requirements. The School Board has determined that this pronouncement is not applicable to PPS.

The GASB issued Statement No. 91, Conduit Debt Obligations, in May 2019. This Statement provides a single method of reporting conduit debt obligations and clarifies that these obligations are not government liabilities. The Statement also addresses leases that are sometimes associated with conduit debt issuances. And requires the disclosure of the outstanding principal balance of all conduit debt, along with a description of each type of conduit debt commitment (and organized by these types). The requirements of this Statement are effective for periods beginning after December 15, 2020. The School Board has determined that this pronouncement is not applicable to PPS.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

The GASB issued Statement No. 92, *Omnibus 2020*, on February 5, 2020. This Statement is intended to cover accounting and financial reporting issues identified during the implementation and application of some of its earlier pronouncements. This Statement includes modifying the effective date of Statement No. 87, *Leases*, to address concerns regarding interim financial reports; along with reporting of intra-entity transfers of assets between a primary government employer and a component unit defined-benefit pension plan or defined benefit other postemployment benefit (OPEB) plan. The requirements of this Statement are effective for reporting periods beginning after June 15, 2020. The School Board has determined that this pronouncement is not applicable to PPS.

The GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*, to provide guidance to state and local governments on the transition away from existing interbank offered rates (IBORs) to other reference rates. The most common rate used in practice is the London Interbank Offered Rate (LIBOR). LIBOR is expected to cease to exist in its current form at the end of 2021. The removal of LIBOR as an appropriate benchmark interest rate is effective under Statement No. 93 for reporting periods ending after December 31, 2021. All other requirements of Statement No. 93 are effective for reporting periods beginning after June 15, 2020. The School Board has determined that this pronouncement is not applicable to PPS.

The GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangement* on April 20, 2020. The statement is intended to improve the accounting and financial reporting guidance for public-private and public-public partnership arrangements (P3s) and availability payment arrangements (APAs). This Statement is effective for fiscal years beginning after June 15, 2022. The School Board has determined that this pronouncement is not applicable to PPS.

The GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements* in May 2020. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements. The requirements of this Statement are effective for periods beginning after June 15, 2022. The Board continues to evaluate the impact of this statement on the Board Financial statements.

The GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32* in June 2020. This Statement provides guidance regarding the financial reporting of defined contribution pension. The School Board has determined that this pronouncement is not applicable to PPS.

NOTE 2. DEPOSITS AND INVESTMENTS

The School Board maintains individual segregated bank accounts for the School Grants and School Food Services funds. The General, Textbook, and Risk Management funds share a pooled cash account. The cash balances of the School Activity Funds reported in the Governmental Funds of the balance sheet, consist of individual demand accounts maintained by the schools.

NOTE 2. DEPOSITS AND INVESTMENTS (Continued)

Deposits

At June 30, 2022, the carrying value of the School Board's deposits with banks and savings institutions was \$41,947,059 and the bank balance was \$40,631,141. The bank balances of the School Board's deposits were covered by Federal Depository Insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"). Under the Act, banks holding public deposits in excess of the amounts insured by Federal Deposit Insurance Corporation must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. The State Treasury is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and for notifying local governments of compliance by banks. If any member financial institution fails, the entire collateral becomes available to satisfy claims of the School Board. If the value of the pool's collateral is inadequate to cover a loss, additional amounts would be assessed on a pro rata basis to the members (banks) of the pool. Therefore, these deposits are considered collateralized and, as a result, are considered insured.

Summary of Deposits and Investments

Cash and cash equivalents	\$ 41,947,059
---------------------------	---------------

The School Board has exposure to a number of risks as described below:

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of the failure of a depository financial institution, the School Board will not be able to recover its deposits or collateral securities that are in the possession of an outside party. All deposits of the School Board are maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-400 et seq. of the Code of Virginia. The School Board does not have any policies related to this risk.

Custodial Credit Risk – Investments

Investment custodial credit risk is the risk that, in the event of the failure of the counterparty, the School Board will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The School Board does not have any policies related to this risk.

Concentrations of Credit Risk

State Statute limits the percentage of the portfolio that can be invested in commercial paper of a single issuer to no more than 5%. The City's policy does not set additional credit concentration limits and the School Board does not have any policies related to this risk. As of June 30, 2022, the School Board's portfolio held with the City Treasurer complied with the State Statute.

Interest Rate Risk

Interest rate risk is the risk of losses resulting from decreases in fair value due to increasing interest rates. See the School Board's policy for investing below.

Foreign Currency Risk

The School Board's OPEB Trust invests in U.S. dollars denominated through mutual funds that may invest in international stocks, bonds, and other assets. Although the assets of the funds are all held in U.S. dollars, the market value of the assets may fluctuate in part due to changes in foreign currency exchange rates. See the summary of the OPEB investments at the end of the investment policy section below.

NOTE 2. DEPOSITS AND INVESTMENTS (Concluded)

Investments

State statutes authorize the City to invest in obligations of the United States or agencies thereof, securities unconditionally guaranteed by the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, bankers’ acceptances, repurchase agreements, certificates of deposit, and the State Treasurer’s Local Government Investment Pool (LGIP). The pension and OPEB trust funds are also authorized to invest in common stocks and marketable debt securities which mature within twenty years with credit ratings no lower than Baa when measured by Moody’s Investors Service, Inc., or BBB when measured by Standard and Poor’s Financial Services, LLC, or Fitch Investors Service rating services.

Investment Policy

The primary goal of the investment policy is to maximize return on an investment while minimizing risk to the investment. The City’s investment policy addresses custodial credit risk, interest rate risk, concentration of risk, and credit risk, in which instruments are to be diversified and maturities timed according to anticipated needs in order to minimize any exposure. The City’s policy does not address foreign currency risk. The City’s investment policy requires that all investments and investment practices meet or exceed all statutes and guidelines governing the investment of public funds in Virginia, including the Investment Code of Virginia and the guidelines established by the State Treasury Board and GASB. The policy specifically states that the City shall limit investments to those allowed under the Virginia Security for Public Deposits Act, Sec. 2.2-4400 et seq. of the Code of Virginia. The City Treasury is responsible for diversifying the use of investment instruments to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. It is the policy of the City to concentrate its investment efforts to banks located in the Commonwealth of Virginia which are under the Virginia statutes for public funds and all banks must be approved by depositories by the State Treasury Board. The City’s policy is to invest only in “prime quality” commercial paper, with a maturity of two hundred seventy days or less, or issuing corporations organized under the laws of the United States, or any state thereof including paper issued by banks and bank holding companies. Prime quality shall be as rated by Moody’s Investors Services, Inc. within its ratings of prime 1 or prime 2, or by Standard and Poor’s, Inc. within its ratings of A-1 or A-2, or by Fitch Investors Service within its ratings of F-1 and F-2. The maximum percentage of funds to be invested in any one issue shall not exceed 5% of the total portfolio.

Fair Value of Investments

The School Board’s OPEB trust fund participates in the Virginia Pooled OPEB Trust. Funds of participating jurisdictions are pooled and invested in the name of the Virginia Pooled OPEB Trust. The Board of Trustees of the Virginia Pooled OPEB Trust establishes investment objectives - risk tolerance and asset allocation policies in light of market and economic conditions. As of June 30, 2021, excluding the pooled funds, there were no other investments. Accordingly, there is no credit risk, concentration of credit risk or interest rate risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Virginia Pooled OPEB Trust (Trust) will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The entire balance of the pooled funds in the OPEB Fund is uninsured and uncollateralized. The VML/VACo Pooled OPEB Trust categorizes their investments within the fair value hierarchy established by GAAP. A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the Net Asset Value (“NAV”) per share (or its equivalent) of the investment.

Investments in the VML/VACo Pooled OPEB Trust are valued using the NAV per share, which is determined by dividing the total value of the Trust by the number of outstanding shares. The NAV per share changes with the value of the underlying investments in the Trust. Generally, VML/VACo Pooled OPEB Trust participants may redeem their investment at the end of a calendar quarter upon 90 days’ written notice.

At June 30, 2022, the School Board’s share in this pool was \$15,966,980, as reported on Exhibit VIII.

NOTE 3. CAPITAL ASSETS – NET

A summary of changes in capital assets for the year ended June 30, 2022 follows:

	Balance June 30, 2021	Increases	Decreases	Balance June 30, 2022
Governmental activities:				
Capital assets not being depreciated				
Land	6,085,707	\$ -	\$ -	\$ 6,085,707
Total capital assets - not being depreciated	6,085,707	-	-	6,085,707
Capital assets being depreciated/amortized				
Buildings and improvements	93,535,748	-	-	93,535,748
Equipment	29,732,410	238,639	1,163,705	28,807,344
Intangible assets	422,270	-	57,300	364,970
Total capital assets - being depreciated/amortized	123,690,428	238,639	1,221,005	122,708,062
Less accumulated depreciation/amortization				
Buildings	55,812,251	2,476,506	-	58,288,757
Equipment	23,788,850	1,274,128	1,109,356	23,953,622
Intangible assets	422,270	-	57,300	364,970
Total accumulated depreciation/amortization	80,023,371	3,750,634	1,166,656	82,607,349
Other capital assets - being depreciated/amortized - net	43,667,057	(3,511,995)	54,349	40,100,713
Governmental activities capital assets - net	\$ 49,752,764	\$ (3,511,995)	\$ 54,349	\$ 46,186,420

Depreciation and amortization expense was charged to functions as follows:

Governmental activities	
Instruction	\$ 2,880,690
Administration, attendance and health services	7,988
Pupil transportation	416,873
Operations and maintenance	261,383
Information technology	88,051
Food services	95,649
Total governmental activities depreciation expense	\$ 3,750,634

NOTE 4. LONG-TERM LIABILITIES

Long-term liabilities are normally paid from the General Fund or the Internal Service Fund.

	Amounts Payable at Beginning of Year	Increase in Liabilities	Decrease in Liabilities	Amounts Payable at End of Year	Amounts Due Within One Year
Accrued vacation pay	\$ 3,240,862	\$ 1,810,120	\$ (1,742,265)	\$ 3,308,717	\$ 1,191,148
Accrued sick leave	1,497,557	415,623	(462,271)	1,450,909	406,286
Workmen's compensation claims payable	632,030	3,302,245	(3,191,660)	742,615	522,548
Medical claims payable	1,277,000	17,718,506	(17,970,506)	1,025,000	1,025,000
Net pension liability	152,632,823	-	(71,715,892)	80,916,931	-
Net OPEB liability	20,370,433	1,514,537	-	21,884,970	-
Total	<u>\$179,650,705</u>	<u>\$ 24,761,031</u>	<u>\$ (95,082,594)</u>	<u>\$109,329,142</u>	<u>\$ 3,144,982</u>

Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities in the governmental funds. All liabilities, both current and long-term, are reported in the Statement of Net Position. Compensated absences, medical claims, and net pension liabilities and net OPEB liabilities are generally liquidated by the fund for which the employee works. In prior years, General, Grants, and Food Services funds were used to liquidate net pension liability and postemployment liabilities. Workmen's compensation claims are generally liquidated by the Risk Management Fund.

The future payments by year of accrued vacation pay, accrued sick leave, and claims payable are not determinable.

NOTE 5. DEFINED BENEFIT PENSION PLANS

Plan Description

All full-time, salaried permanent (professional) employees of public School Boards are automatically covered by the VRS Teacher Retirement Plan upon employment and additional employees of participating employers are automatically covered by VRS (nonprofessional) Retirement Plan upon employment. Both plans are administered by the VRS along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

VRS administers three different benefit structures for covered employees in the VRS Teacher Retirement Plan – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criterion. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table on the following pages:

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

RETIREMENT PLAN PROVISIONS BY PLAN STRUCTURE		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.</p>	<p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.</p>	<p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan.</p> <ul style="list-style-type: none"> • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions. • In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.
<p>Eligible Members Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013, and they have not taken a refund.</p>	<p>Eligible Members Members are in Plan 2 if their membership date is from July 1, 2010, to December 31, 2013, and they have not taken a refund. Members are covered under Plan 2 if they have a membership date prior to July 1, 2010, and they were not vested before January 1, 2013.</p>	<p>Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:</p> <ul style="list-style-type: none"> • School Board employees • Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1 – April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

RETIREMENT PLAN PROVISIONS BY PLAN STRUCTURE		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Hybrid Opt-In Election VRS Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p> <p>Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan, and remain as Plan 1 or ORP.</p>	<p>Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p>	
<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Member contributions are tax- deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions Same as Plan 1.</p>	<p>Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan.</p> <p>Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

RETIREMENT PLAN PROVISIONS BY PLAN STRUCTURE		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Service Credit Service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p>	<p>Service Credit Same as Plan 1.</p>	<p>Service Credit <i>Defined Benefit Component:</i> Under the defined benefit component of the plan, service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p> <p>Defined Contributions Component: Under the defined contribution component, service credit is used to determine vesting for the employer contribution portion of the plan.</p>
<p>Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of service credit. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.</p>	<p>Vesting Same as Plan 1.</p>	<p>Vesting Defined Benefit Component: Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of service credit. Plan 1 or Plan 2 members with at least five years (60 months) of service credit who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.</p> <p>Defined Contribution Component: Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan. Members are always 100% vested in the contributions that they make. Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.</p>

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

RETIREMENT PLAN PROVISIONS BY PLAN STRUCTURE		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
		<ul style="list-style-type: none"> • After two years, a member is 50% vested and may withdraw 50% of employer contributions. • After three years, a member is 75% vested and may withdraw 75% of employer contributions. • After four or more years, a member is 100% vested and may withdraw 100% of employer contributions. Distributions not required, except as governed by law.
Calculating the Benefit The basic benefit is determined using the average final compensation, service credit and plan multiplier. An early retirement reduction is applied to this amount if the member is retiring with a reduced benefit. In cases where the member has elected an optional form of retirement payment, an option factor specific to the option chosen is then applied.	Calculating the Benefit See definition under Plan 1.	Calculating the Benefit <u>Defined Benefit Component:</u> See definition under Plan 1. <u>Defined Contributions Component:</u> The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.
Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.	Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.	Average Final Compensation Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.
Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for members is 1.70%.	Service Retirement Multiplier Same as Plan 1 for service earned, purchased or granted prior to January 1, 2013. The retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.	Service Retirement Multiplier <u>Defined Benefit Component:</u> The retirement multiplier for the defined benefit component is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans. <u>Defined Contributions Component:</u> Not applicable.
Normal Retirement Age Age 65.	Normal Retirement Age Normal Social Security retirement age.	Normal Retirement Age <u>Defined Benefit Component:</u> Same as Plan 2. <u>Defined Contributions Component:</u> Members are eligible to receive distributions upon leaving employment, subject to restrictions.

RETIREMENT PLAN PROVISIONS BY PLAN STRUCTURE		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Purchase of Prior Service Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave, or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement, and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.</p>	<p>Purchase of Prior Service Same as Plan 1.</p>	<p>Purchase of Prior Service <u>Defined Benefit Component:</u> Same as Plan 1, with the following exceptions:</p> <ul style="list-style-type: none"> • Hybrid Retirement Plan members are ineligible for ported service. <p><u>Defined Contributions Component:</u> Not applicable.</p>

VRS Teacher (Professional) Retirement Plan Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to School Boards by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Employees are required to contribute 5.00% of their compensation toward their retirement. Each School Board's contractually required contribution rate, for the year ended June 30, 2022, was 16.62% of covered employee compensation. This rate was based on an actuarially determined rate, from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School Board were \$13,558,488 and \$13,639,527 for the years ended June 30, 2022 and June 30, 2021, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the School Board reported a liability of \$76,676,112 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to measurement date of June 30, 2021. The School Board's proportion of the net pension liability was based on the School Board's actuarially determined employer contributions to the pension plan for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the School Board's proportion was 0.98770% as compared to 0.98224% at June 30, 2020.

For the year ended June 30, 2022, the School Board recognized pension expense of \$(154,750). Since there was a change in proportionate share between the measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 6,530,807
Net difference between projected and actual earnings on pension plan investments	-	48,319,234
Changes of assumptions	13,433,454	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	581,467	2,003,629
Employer contributions subsequent to the measurement date	13,558,488	-
	<u>\$ 27,573,409</u>	<u>\$ 56,853,670</u>

\$13,558,488 reported as deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:

2023	\$ (10,576,224)
2024	(8,937,313)
2025	(9,867,190)
2026	(13,472,620)
2027	14,598
Total	<u>\$ (42,838,749)</u>

VRS Nonprofessional Retirement Plan Employees Covered by Benefit Terms

As of the June 30, 2021 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	<u>377</u>
Inactive members:	
Vested inactive members	51
Non-vested inactive members	140
Inactive members active elsewhere in VRS	<u>77</u>
Total inactive members	<u>268</u>
Active members	<u>334</u>
Total covered employees	<u>979</u>

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)**Contributions**

The contribution requirement for active employees is governed by Section 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The School Board's contractually required contribution rate for the year ended June 30, 2022 was 10.75% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2020. The actuarial rate for the School Board's plan was 11.52%.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School Board were \$766,929 and \$759,591 for the years ended June 30, 2022 and June 30, 2021, respectively.

Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GAAP, less that employer's fiduciary net position. For The School Board, the net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2020, rolled forward to the measurement date of June 30, 2021.

Changes in Net Position Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance at June 30, 2020	\$ 41,268,488	\$ 31,577,381	\$ 9,691,107
Changes for the fiscal year:			
Service cost	644,553	-	644,553
Interest	2,687,000	-	2,687,000
Changes of assumptions	1,279,576		1,279,576
Difference between expected and actual experience	(588,445)	-	(588,445)
Contributions - employer	-	762,490	(762,490)
Contributions - employee	-	320,410	(320,410)
Net investment income	-	8,411,421	(8,411,421)
Benefit payments, including refunds of employee contributions	(2,922,149)	(2,922,149)	-
Administrative expenses	-	(22,131)	22,131
Other changes	-	782	(782)
Net changes	1,100,535	6,550,823	(5,450,288)
Balance at June 30, 2021	\$ 42,369,023	\$ 38,128,204	\$ 4,240,819

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended June 30, 2022, the School Board recognized pension expense of \$115,124. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 379,120
Changes of assumptions	715,886	-
Net difference between projected and actual earnings	-	4,137,012
Employer contribution subsequent to the measurement date	766,929	-
Total	<u>\$ 1,482,815</u>	<u>\$ 4,516,132</u>

\$766,929 reported as deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:

2023	\$ (712,462)
2024	(857,460)
2025	(961,777)
2026	(1,268,547)
2027	-
Thereafter	-
Total	<u>\$ (3,800,246)</u>

Actuarial Assumptions - VRS Teacher Retirement Plan

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.5%
Salary increases, including inflation	3.5% – 5.95%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

Mortality Rates:**Pre-retirement:**

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally;
110% of rates for males

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

Post-retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Actuarial Assumptions – VRS Nonprofessional Retirement Plan

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.5%
Salary increases, including inflation	3.5% – 5.35%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

Mortality Rates:

(Non 10 Largest) – 15% of deaths are assumed to be service related.

Pre-retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years.

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

Post-retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110 % of rates for males; 105% of rates for females set forward 3 years

Post-disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back for 3 years; 90 % of rates for females set back 3 years.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Long-Term Expected Rate of Return

The long-term expected rate of return on pension system investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension system investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public equity	34.00%	5.00%	1.70%
Fixed income	15.00%	0.57%	0.09%
Credit strategies	14.00%	4.49%	0.63%
Real assets	14.00%	4.76%	0.67%
Private equity	14.00%	9.94%	1.39%
MAPS – Multi-Asset Public Strategies	6.00%	3.29%	0.20%
PIP-Private Investment Partnership	3.00%	6.84%	0.21%
Total	100.00%		4.89%
	Inflation		2.50%
	* Expected arithmetic nominal return		7.39%

NOTE 5. DEFINED BENEFIT PENSION PLANS (Continued)

*The above allocation provides a one-year expected return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

*On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2021, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuations, whichever was greater. From July 1, 2021 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School Board's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the School Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School Board's proportionate share of the VRS:			
Teacher (Professional) Employee Retirement Plan Net Pension Liability	\$ 147,980,746	\$ 76,676,112	\$ 18,018,528
School Board's (Nonprofessional) Employee Retirement Plan Net Pension Liability	\$ 8,856,894	\$ 4,240,819	\$ 349,503

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2021 Annual Report. A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the Pension Plan

There were no payables to the pension plans as of June 30, 2022.

NOTE 5. DEFINED BENEFIT PENSION PLANS (Concluded)***Combining Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The VRS Professional plan and the VRS Nonprofessional plan are reported separately herein since each plan has distinctive characteristics, reporting requirements, and valuations. The impact of total pension requirements on the net position of PPS is combined and summarized in the schedule:

	Virginia Retirement System		
	Professional Plan	Non-Professional Plan	Combined Totals
Net pension liability	\$ 76,676,112	\$ 4,240,819	\$ 80,916,931
Pension expense	(154,750)	115,124	(39,626)
<i>Deferred outflows of resources:</i>			
Changes of assumptions	13,433,454	715,886	14,149,340
Changes in proportion & difference between employer contributions & proportionate share of contributions	581,467	-	581,467
Employer contributions subsequent to the measurement date	13,558,488	766,929	14,325,417
Total deferred outflows of resources	27,573,409	1,482,815	29,056,224

Net difference between projected and actual earnings on pension plan investments	48,319,234	4,137,012	52,456,246
Changes in proportion and difference between employer contributions and proportionate share of contributions	2,003,629	-	2,003,629
Total deferred inflows of resources	\$ 56,853,670	\$ 4,516,132	\$ 61,369,802

NOTE 6. OTHER LIABILITIES, COMMITMENTS, AND CONTINGENCIES***Risk Management***

The School Board is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The School Board is self-insured for a portion of these risks. The School Board maintains internal service funds for workers' compensation claims, disability claims, and health insurance benefits. The School Board's property and liability insurance program is provided through membership in the Virginia Association of Counties Group Self-Insurance Pool. Member jurisdictions contribute to the pool based on their risk exposures and past claims experience. The self-insurance coverage for workers' compensation is \$500,000 per occurrence. Commercial insurance is purchased to cover any liability above these self-insured levels for specific losses. The Risk Management Fund services all claims of risk of loss to which the School Board is exposed.

The School Board has no significant reduction in insurance coverage from prior years. Our coverage amounts increase each year with the addition of new technology and new vehicles. Our insurance premiums remain relatively flat despite the increase in our blanket property coverage limits. This insurance coverage is substantially the same as in the prior fiscal year. There were no settlements within the past three years which exceeded coverage. All funds of the School Board participate in the Risk Management Fund.

NOTE 6. OTHER LIABILITIES, COMMITMENTS, AND CONTINGENCIES (Continued)

A loss analysis was conducted by Glicksman Consulting, LLC on this fund. The total actuarially computed liability as of June 30, 2022 was determined to be \$742,615 (undiscounted) and recorded in the internal service fund and the government-wide statements, accordingly.

Changes in the fund's claim liability amount for fiscal years ended June 30 were:

	2022	2021
Claims payable - beginning of year	\$ 632,030	\$ 694,982
Claims and changes in estimates	3,302,245	3,366,365
Claims payments and changes in estimates	(3,191,660)	(3,429,317)
Claims payable - end of year	<u>\$ 742,615</u>	<u>\$ 632,030</u>

Self-Insured Health Care Benefits Plan

Effective January 1, 2015, the School Board established a Self-Insured Health Care Benefits Plan ("Self-Insured Health Plan") for all School Board employees and retirees. The Self-Insured Health Plan policy year is based on a calendar year. Beginning July 1, 2015, the Self-Insured Health Plan is accounted for within the Risk Management fund with employer and employee premiums, medical claims, administrative costs, wellness program costs, and other health plan costs and reserves recorded in the Risk Management fund. Prior to July 1, 2015, the Self Insured Health Plan was accounted for within the General Fund.

Expenditures charged to various School Board departments are based on expected claims liability and administrative costs for a full calendar year as provided by the third-party healthcare benefit consultant. Medical claim expenses paid, on behalf of each individual employee covered during a single policy year, are covered by excess loss insurance with a specific stop loss limit of \$350,000. The Self-Insured Health Plan also has aggregate stop loss coverage at 120% of expected medical claims during a single policy year.

Claims processing and payments for all healthcare claims are made through a third-party administrator. The School Board uses information provided by the third-party administrator and healthcare benefit consultant to aid in the determination of health self-insurance liabilities. The computed liability as of June 30, 2022 was \$1,025,000 (undiscounted), as follows:

	Balance as of July 1	Claims and Changes in Estimates	Claim Payments	Balance as of June 30
Medical Claims				
2021-2022	\$ 1,277,000	\$ 17,718,506	\$ (17,970,506)	\$ 1,025,000
2020-2021	1,255,000	18,776,380	(18,754,380)	\$ 1,277,000

Litigation

The School Board has no pending litigations arising out of the ordinary course of operations.

Grants

The School Board received grant funds, principally from the State and federal government, for instructional and various other programs. Expenditures from these grants are subject to audit by the grantor, and the School Board is contingently liable to refund amounts received in excess of allowable expenditures. Based on prior experience, School Board management believes such refunds, if any, will not be significant.

NOTE 6. OTHER LIABILITIES, COMMITMENTS, AND CONTINGENCIES (Concluded)***Encumbrance***

The School Board has outstanding purchase orders representing goods or services not received as of June 30, 2022. These amounts are encumbrances of FY2021-2022 budgeted funds and are not reflected in the accompanying financial statements. The encumbrances are as follows:

	Amounts
General Fund	\$ 366,728
School Grant Fund	70,047
Food Services	89,061
	<u>\$ 525,836</u>

NOTE 7. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivable and payable balances at June 30, 2022, which are considered short-term in nature, are as follows:

	Due from Other Funds	Due to Other Funds
General Fund	\$ -	\$ 6,388
School Grants Fund	5,501	-
School Food Services Fund	887	-
	<u>\$ 6,388</u>	<u>\$ 6,388</u>

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the year ended June 30, 2022 consisted of the following:

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (3) account for excess charges for services to self-health insurance account over actual self-health insurance expenditures.

	Transfers from Other Funds	Transfers to Other Funds
General Fund	\$ -	\$ 6,003,942
School Grants Fund	1,271,605	-
School Food Services Fund	2,400,000	-
School Textbook Fund	2,332,337	-
	<u>\$ 6,003,942</u>	<u>\$ 6,003,942</u>

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS *Plan Description*

School Board OPEB Plan

Plan Description

The School Board administers a single-employer defined benefit healthcare plan. It provides medical insurance benefits to eligible retirees and their spouses in accordance with the school's personnel policies and procedures. A trust was established for the purpose of accumulating and investing assets to fund other postemployment benefits obligations. Amounts contributed to the Trust by the School Board are irrevocable and must be used solely to discharge the School Board's obligations for other postemployment benefits and pay for reasonable expenses of the Trust. The OPEB Trust is included as a fiduciary fund in the School Board's financial statements. Separate stand-alone statements are not issued for the plan.

Plan Membership

As of the June 30, 2022, membership consisted of the following:

Inactive employees currently receiving benefits	24
Active employees	1,766
	<hr/>
	1,790
	<hr/>

Benefits Provided

Retirees age 55 or older, with a minimum of 25 years of service with PPS, and employed as a regularly scheduled employee are eligible to participate in Retiree Health Insurance Premium Contribution Plan (RHIPCP). Effective July 1, 2018, eligible retiring employees receive \$3,000 to offset the cost of health insurance premiums in retirement.

Contributions

The contribution requirements of plan members and the School Board are established and may be amended by the School Board. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the School Board. For the year ended June 30, 2022, the School Board made no further contributions to the plan to pay current benefits and to prefund benefits.

Plan Investments

Investment Policy

The primary purpose of this statement of Investment Policy is to provide a clear understanding of policy of management and oversight of the School Board's OPEB Trust's (the "Trust") investment objectives, performance goals and risk tolerance.

Responsibilities

The OPEB Trust committee establishes investment policy and retains investment managers to implement asset class decisions and allocations.

The OPEB Trust committee has appointed Wells Fargo to assist in providing guidance of the administration of Trust's assets, investment selection, performance monitoring, and evaluation.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Objectives

Objectives of the Investment Policy are as follows:

1. To invest assets of the Trust in a judicious manner to provide retirement benefits to eligible participants.
2. To provide for funding and anticipated withdrawals on a continuing basis for payment of benefits and reasonable expenses of operation of Trust.
3. Subject to performance expectations over the long-term to minimize principal fluctuation.

Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of June 30, 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Real Rate of Return
Core Bonds	5.0%	2.6%
Core Plus	11.0%	2.9%
Liquid Absolute Return	4.0%	3.3%
US Large Cap Equity	21.0%	7.1%
US Small Cap Equity	10.0%	8.5%
International Developed Equity	13.0%	8.0%
Emerging Market Equity	5.0%	9.2%
Long/Short Equity	6.0%	5.7%
Private Equity	10.0%	10.5%
Core Real Estate	10.0%	6.6%
Opportunistic Real Estate	5.0%	9.6%
Total	100.0%	

The sum of each target allocation times its long-term expected real rate is 9.7%.

Net OPEB Liability

The components of the net OPEB liability(asset) of the School Board at June 30, 2022 calculated in accordance with GAAP were as follows:

Total OPEB liability	\$ 7,050,068
Plan fiduciary net position	(15,966,980)
Net OPEB asset	<u>\$ (8,916,912)</u>

Plan fiduciary net position as a percentage of the total OPEB liability	226.48%
---	---------

The net OPEB liability(asset) shown above reflects presentation within the School Board's Statement of Net Position in accordance with GAAP.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)***Changes in Net OPEB Liability***

Changes in net OPEB liability(asset) calculated in accordance with GAAP are as follows:

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Asset (a) - (b)
Balance at June 30, 2021	\$ 6,962,175	\$ 17,756,189	\$ (10,794,014)
Changes for the fiscal year:			
Service cost	131,581	-	131,581
Interest	624,168	-	624,168
Experience (gains/losses)	553,937	-	553,937
Change in actuarial assumptions	(632,710)	-	(632,710)
Contributions/benefit paid from general operating funds	-	443,633	(443,633)
Net investment income	-	(1,624,252)	1,624,252
Benefit payments, including refunds of employee contributions	(589,083)	(589,083)	-
Administrative expenses	-	(19,507)	19,507
Net changes	87,893	(1,789,209)	1,877,102
Balance at June 30, 2022	\$ 7,050,068	\$ 15,966,980	\$ (8,916,912)

Actuarial Assumptions – Total OPEB Liability

The Employer's OPEB liability was measured as of as of June 30, 2022. The Total OPEB Liability was determined by an actuarial valuation as of June 30, 2022 and rolled forward using the following actuarial assumptions:

Inflation	2.75%
Salary increases	5.0% (for purposes of allocating liability)
Investment rate of return	9.7% (including inflation)
20-year Aa Municipal bond rate	4.09%
Mortality	Public Teacher 2010 Headcount weighted mortality; Spouses and all others; Public General 2010 Employee and Healthy Retiree, Headcount weighted
Improvement Scale	MP-2021

Long-Term Expected Rate of Return

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For the year ended June 30, 2022, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expense was 9.18%.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)***Discount Rate***

The discount rate used to measure the total OPEB liability was 9.70%. The projection of cash flows used to determine the discount rate assumed that Employer contributions will be made at rates equal to the most recent recommended contribution expressed as a percentage of covered payroll. Based on those assumptions, the Plan's fiduciary net position was projected to be sufficient to make all projected future benefit payments of current Plan participants. For projected benefits that are covered by projected assets, the long-term expected rate was used to discount the projected benefits. From the year that benefit payments were not projected to be covered by the projected assets (the "depletion date"), projected benefits were discounted at a discount rate reflecting a 20-year AA/Aa tax-exempt municipal bond yield. A single equivalent discount rate that yields the same present value of benefits is calculated. This discount rate is used to determine the Total OPEB Liability.

Sensitivity of the Net OPEB Asset to Changes in the Discount Rate

The following presents the net OPEB asset of the School Board, as well as what the School Board's net OPEB asset would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

	1.00% Decrease (8.70)	Current Discount Rate (9.70)	1.00% Increase (10.70)
Net OPEB Liability (Asset)	\$ (8,482,550)	\$ (8,916,912)	\$ (9,313,130)

Sensitivity of the net OPEB Asset to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB asset of the School Board, as well as what the School Board's net OPEB asset would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	1.00% Decrease (3.50)	Current Discount Rate (4.50)	1.00% Increase (5.50)
Net OPEB Liability (Asset)	\$ (9,309,527)	\$ (8,916,912)	\$ (8,477,408)

OPEB Expense and Deferred Outflows of Resources and Deferred inflows of Resources Related to OPEB

For the year ended June 30, 2022, the School Board recognized OPEB expense of \$802,155. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Experience losses	\$ 490,557	\$ 7,135,512
Changes in assumptions	2,418,127	5,387,239
Investment earnings losses	1,131,651	-
Total	\$ 4,040,335	\$ 12,522,751

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Year Ending June 30:

2023	\$ (1,182,504)
2024	(1,108,065)
2025	(1,267,303)
2026	(697,389)
2027	(1,346,728)
Thereafter	(2,880,427)
Total	<u>\$ (8,482,416)</u>

Actuarial Methods

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the School Board's annual required contributions are subject to continued revision as actual results are compared with past expectations and new estimates are made about the future. The Actuarially Determined Contribution is calculated by the actuary and is the sum of the current year's normal cost plus and amount necessary to amortize the unfunded liability over a closed period and is presented in the Schedule of Employer OPEB Contribution in the required supplementary information following the notes to the financial statements.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective.

Significant Changes Since Prior Valuation

In the June 30, 2022 actuarial valuation, the discount rate was increased from 9.18% to 9.70% based on mortality improvement updated from MP-2019. The Pre-65 Medical Inflation was updated from 7.25% graded down to 4.5% based on national surveys of expected medical trend. Salary scale changed from 2.0% to 5.0%.

Retirement benefit payments are typically concentrated at the beginning of the fiscal year with very few payments spread over the year. Payments are made from the VACo/VML pooled OPEB trust Fund. A Consumer Directed Health Plan (CDHP) option with high deductible was added to retiree plan option.

School Board VRS OPEB Plans

The School Board participates in a cost-sharing multiple employer Group Life Insurance Program, a Teacher Employee Health Insurance Credit Program, a Political Subdivision Employee Virginia Disability Program, and a Teacher Employee Virginia Local Disability Program offered by the VRS.

VRS issues a publicly available Annual Financial Report that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org>, or by writing to VRS' Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

The actuarial assumptions and long-term expected rate of return are the same for the VRS OPEB programs. As such, the presentation of the actuarial assumptions and long-term expected rate of return are combined below. Specific information for the OPEB plans will be presented after this section.

Actuarial Assumptions

The actuarial assumptions used to determine the Total OPEB Liability (TOL) as of June 30, 2021 were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020 adopted by the Board of Trustees at its April 20, 2021 meeting. The (TOL) was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.5%
Salary increases, including inflation –	
General state employees	3.5% – 5.35%
Teachers	3.5% – 5.95%
Investment rate of return	6.75%, net of investment expenses, including inflation

Mortality Rates – Teachers

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally;
110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected
generationally; males set forward 1 year; 105% of rates for females

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally;
110% of rates for males and females

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)**Mortality Rates – Non-Largest Ten Locality Employers - General Employees****Pre-Retirement:**

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81, and older projected with Scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50, and older projected with Scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Life Mortality Table projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (Pre-retirement, post-retirement healthy, and disabled)	Updated to a more current mortality table – RP-2014 projected to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final retirement age from 70 to 75.
Withdrawal Rates	Adjusted termination rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	Lowered disability rates
Salary Scale	No change
Line of Duty Disability	Increased rate from 14 to 15%
Discount Rate	Decrease rate from 7.00% to 6.75%

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the system's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of system's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS – Multi Asset Public strategies	6.00%	3.29%	0.20%
PIP –Private Investment Partnership	3.00%	6.84%	0.21%
Total	100.00%		4.89%
Inflation			2.50%
			7.39%

* Expected arithmetic nominal return

*The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

VRS Group Life Insurance Program

Plan Description

All full-time, salaried permanent teachers and employees of participating political subdivisions are automatically covered by the VRS Group Life Insurance Program ("GLIP") upon employment. This plan is administered by the VRS, along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLIP OPEB liability.

The specific information for GLIP, including eligibility, coverage, and benefits, is set out in the table below:

GLIP PLAN PROVISIONS
<p>Eligible Employees</p> <p>GLIP was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the program.</p> <p>Basic group life insurance coverage is automatic upon employment. Coverage end for employees who leave their position before retirement eligibility or who take a refund of their member contributions and accrued interest.</p>

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Benefit Amounts

The benefits payable under GLIP have several components.

- **Natural Death Benefit** – The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled.
- **Accidental Death Benefit** – The accidental death benefit is double the natural death benefit
- **Other Benefit Provisions** – In addition to the basic natural and accidental death benefits, the program provides additional benefits provided under specific circumstances. These include:
 - Accidental dismemberment benefit
 - Safety belt benefit
 - Repatriation benefit
 - Felonious assault benefit
 - Accelerated death benefit option

Reduction in benefit Amounts

The benefit amounts provided to members covered under GLIP are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value.

Minimum Benefit Amount and Cost-of-Living Adjustment (COLA)

For covered members with at least 30 years of service credit, there is a minimum benefit payable under the Group Life Insurance Program. The minimum benefit was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,722 as of June 30, 2022.

Contributions

The contribution requirements for GLIP are governed by Section 51.1-506 and Section 51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to School Boards by the Virginia General Assembly. The total rate for GLIP was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% X 60%) and the employer component was 0.54% (1.34% X 40%). Employers may elect to pay all or part of the employee contribution, however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2022 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contribution to GLIP from the School Board for nonprofessional employees were \$39,465 and \$40,131 for the years ended June 30, 2022 and June 30, 2021, respectively. Contribution to GLIP from the School Board for professional employees were \$469,589 and \$472,040 the years ended June 30, 2022 and June 30, 2021, respectively.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to GLIP

At June 30, 2022, the School Board reported a liability of \$419,137 for its proportionate share of the Net GLI OPEB Liability for nonprofessional employees. At June 30, 2022, the School Board reported a liability of \$4,929,408 for its proportionate share of the Net GLI OPEB Liability for professional employees. The Net GLI OPEB Liability was measured as of June 30, 2021 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

GLIP for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the participating employer's proportion was 0.03600% as compared to 0.03746% at June 30, 2020 for nonprofessional employees. At June 30, 2021, the participating employer's proportion was 0.42339% as compared to 0.41762% at June 30, 2020 for professional employees.

For the year ended June 30, 2022, the School Board recognized GLI OPEB expense of \$(3,273) for nonprofessional employees. For the year ended June 30, 2022, the School Board recognized GLI OPEB expense of \$140,428 for professional employees. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB for professional employees from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Investment Experience	\$ -	\$ 1,176,544
Difference between expected and actual experience	562,216	37,559
Net difference between projected and actual earnings on GLI OPEB program investments	-	-
Change in assumptions	271,757	674,448
Changes in proportion	71,045	181,260
Employer contributions subsequent to the measurement date	469,589	-
	<u>\$ 1,374,607</u>	<u>\$ 2,069,811</u>

\$469,589 reported as deferred outflows of resources related to GLIP resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2022 for professional employees. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ending June 30:

2023	\$ (304,363)
2024	(227,532)
2025	(202,964)
2026	(370,895)
2027	(59,039)
Thereafter	-
Total	<u>\$ (1,164,793)</u>

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB for nonprofessional employees from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Investment Experience	\$ -	\$ 100,039
Difference between expected and actual experience	47,804	3,194
Change in assumptions	23,107	57,347
Changes in proportion	-	65,879
Employer contributions subsequent to the measurement date	39,465	-
	<u>\$ 110,376</u>	<u>\$ 226,459</u>

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

\$39,465 reported as deferred outflows of resources related to GLIP resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2022 for nonprofessional employees. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Year Ending June 30:

2023	\$ (41,093)
2023	(34,216)
2025	(29,655)
2026	(40,191)
2027	(10,393)
Thereafter	-
Total	<u>\$ (155,548)</u>

Net Group Life Insurance OPEB Liability – VRS

The net OPEB liability ("NOL") for the GLIP represents the program's total OPEB liability determined in accordance with GASB Statement No.74, less the associated fiduciary net position. As of June 30, 2021, NOL amounts for the Group Life Insurance Program is as follows (amounts expressed in thousands):

	Group Life Insurance OPEB Program
Total GLI OPEB Liability	<u>\$ 3,577,346</u>
Plan Fiduciary Net Pension	<u>2,413,074</u>
Employers' Net GLI OPEB Liability	<u>\$ 1,164,272</u>

Plan Fiduciary Net Position as a Percentage of the Total GLI OPEB Liability 67.45%

The total GLI OPEB liability is calculated by the VRS's actuary and each plan's fiduciary net position is reported in the VRS's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No.74 in the VRS's notes to the financial statements and required supplementary information.

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2021, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)***Sensitivity of the School Board's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate***

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1.00% Decrease (5.75)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School Board's proportionate share of GLIP Net OPEB Liability - Professional	\$ 7,202,044	\$ 4,929,408	\$3,094,151
School Board's proportionate share of GLIP Net OPEB Liability - Nonprofessional	\$ 612,375	\$ 419,317	\$ 263,089

Group Life Insurance Program Fiduciary Net Position

Detailed information about the Group Life Insurance Program's Fiduciary Net Position is available in the separately issued VRS 2021 *Annual Comprehensive Financial Report* (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

VRS Health Insurance Credit Program-Professional***Plan Description***

All full-time, salaried permanent (professional) employees of public School Boards are automatically covered by the VRS Teacher Employee Health Insurance Credit Program ("HICP"). This plan is administered by VRS. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the HICP, including eligibility, coverage, and benefits, is set out in the table below:

HICP PLAN PROVISIONS - PROFESSIONAL
Eligible Employees HICP was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees are enrolled automatically upon employment. They include: <ul style="list-style-type: none"> • Full-time permanent (professional) salaried employees of public School Boards covered under VRS.
Benefit Amounts HICP provides the following benefits for eligible employees: <ul style="list-style-type: none"> • <u>At Retirement</u> – For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. • <u>Disability Retirement</u> – For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: <ul style="list-style-type: none"> ○ \$4.00 per month, multiplied by twice the amount of service credit, or ○ \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)**HICP Notes:**

- The monthly Health Insurance Credit (HIC) benefit cannot exceed the individual premium amount.
- Employees who retire after being on long-term disability under VLDP must have at least 15 year of service credit to qualify for the HIC as a retiree.

Contributions

The contribution requirement for active employees is governed by Section 51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to School Boards by the Virginia General Assembly. Each School Board's contractually required employer contribution rate for the year ended June 30, 2022 was 1.21% of covered employee compensation for employees HICP. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2020. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School Board to HICP were \$1,046,555 and \$1,052,700 for the years ended June 30, 2022 and June 30, 2021, respectively.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HICP - Professional

At June 30, 2022, the School Board reported a liability of \$12,626,727 for its proportionate share of the net HICP OPEB liability. The net HICP OPEB liability was measured as of June 30, 2021 and the total HICP OPEB liability used to calculate the Net HICP OPEB liability was determined by an actuarial valuation performed as of June 30, 2020 and rolled forward to the measurement date of June 30, 2021. The School Board's proportion of the net HICP OPEB liability was based on the School Board's actuarially determined employer contributions to HICP for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2022, the School Board's proportion of HICP was 0.92801% as compared to 0.97597% at June 30, 2021.

For the year ended June 30, 2022, the School Board recognized HICP OPEB expense of \$911,907. Since there was a change in proportionate share between June 30, 2020 and June 30, 2021, a portion of the HICP OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to HICP from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 220,335
Net difference between projected and actual earnings on HIC OPEB program investments	-	166,332
Change in assumptions	341,323	50,746
Changes in proportion	86,531	407,634
Employer contributions subsequent to the measurement date	1,046,555	
	<u>\$ 1,474,409</u>	<u>\$ 845,047</u>

\$1,046,555 reported as deferred outflows of resources related to HICP resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net HICP OPEB liability in the Fiscal Year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HICP will be recognized in the HICP OPEB expense in future reporting periods as follows:

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)**Year Ending June 30:**

2023	\$ (131,888)
2024	(133,776)
2025	(101,651)
2026	(55,473)
2027	(6,282)
Thereafter	11,877
Total	<u>\$ (417,193)</u>

HICP OPEB Liability

The net HICP OPEB liability represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2021, the amounts for the HICP is as follows (amounts expressed in thousands):

	Teacher Employee HIC OPEB Program
Total Teacher Employee HIC OPEB Liability	<u>\$ 1,477,874</u>
Plan Fiduciary Net Pension	194,305
Teacher employee Net HIC OPEB Liability	<u>\$ 1,283,569</u>

Plan Fiduciary Net Position as a Percentage of the Total HIC OPEB Liability	13.15%
---	--------

The total HICP liability is calculated by the system's actuary, and the plan's fiduciary net position is reported in the System's financial statements. The net HICP OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the system's notes to the financial statements and required supplementary information.

VRS Health Insurance Credit Program – NonProfessional***Plan Description***

All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision Health Insurance Credit Program upon employment. This plan is administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision Health Insurance Credit Program OPEB, including eligibility, coverage and benefits is set out in the table below:

HICP PLAN PROVISIONS - NONPROFESSIONAL
Eligible Employees The Political Subdivision Retiree Health Insurance Credit Program was established July 1, 1993, for retired political subdivision employees of employers who elect the benefit and who retire with at least 15 years of service credit. Eligible employees are enrolled automatically upon employment. They include: <ul style="list-style-type: none"> • Full-time permanent (nonprofessional) salaried employees of public School Boards covered under VRS.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Benefit Amounts

HICP provides the following benefits for eligible employees:

- **At Retirement** – For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month.
- **Disability Retirement** – For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

Health Insurance Credit Program Notes:

- The monthly Health Insurance Credit benefit cannot exceed the individual premium amount.
- No Health Insurance Credit for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans.
- Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the Health Insurance Credit as a retiree.

VRS Non-professional HIC Employees Covered by Benefit Terms

As of the June 30, 2021, actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

	<u>Number</u>
Active members	311
Inactive members	<u>169</u>
Total covered employees	<u>480</u>

Contributions

The contribution requirement for active employees is governed by Section 51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to School Boards by the Virginia General Assembly. Each School Board's contractually required employer contribution rate for the year ended June 30, 2022 was 0.90% of covered employee compensation for employees HICP. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2020. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the School Board to HICP were \$64,233 and \$63,626 for the years ended June 30, 2022 and June 30, 2021, respectively.

During the 2020 session, House Bill 1513 was enacted. This bill required the addition of Health Insurance Credit benefits for non-teacher employees effective July 1, 2021. While benefit payments became effective July 1, 2021, employers were required to pre-fund the benefits beginning July 1, 2020. The bill impacted 95 employers and resulted in approximately \$2.5 million of additional employer contributions in FY 2021.

Net HIC OPEB Liability

The net Non-Professional Health Insurance Credit OPEB liability was measured as of June 30, 2021. The total Health Insurance Credit OPEB liability was determined by an actuarial valuation performed as of June 30, 2020, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)***Changes in Net HIC OPEB Liabilities***

	Total HIC OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net HIC OPEB Liability (a) - (b)
Balance at June 30, 2020	<u>\$ 897,571</u>	<u>\$ -</u>	<u>\$ 897,571</u>
Changes for the fiscal year:			
Service Cost	12,245	-	12,245
Interest	60,586	-	60,586
Assumption Changes	20,995	-	20,995
Contributions - employer	-	63,628	(63,628)
Net investment income	-	8,483	(8,483)
Administrative expenses	-	(282)	282
Net changes	<u>93,826</u>	<u>71,829</u>	<u>21,997</u>
Balance at June 30, 2021	<u>\$ 991,397</u>	<u>\$ 71,829</u>	<u>\$ 919,568</u>

OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HICP- Non-Professional

For the year ended June 30, 2022, the School Board recognized HICP OPEB expense of \$74,478. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to HICP from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on HIC OPEB program investments	\$ -	\$ 5,076
Change in assumptions	16,223	-
Employer contributions subsequent to the measurement date	64,233	-
	<u>\$ 80,456</u>	<u>\$ 5,076</u>

\$64,233 reported as deferred outflows of resources related to HICP resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net HICP OPEB liability in the Fiscal Year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in future reporting periods as follows:

2023	\$ 3,503
2024	3,503
2025	3,503
2026	638
Total	<u>\$ 11,147</u>

Discount Rate

The discount rate used to measure the total Non-Professional employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

Through the fiscal year ending June 30, 2021, the rate contributed by each school division for the VRS Non-Professional Employee Health Insurance Credit Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2021, on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Employee HIC OPEB liability.

Sensitivity of the School Board's Proportionate Share of the Net HICP OPEB Liability to Changes in the Discount Rate

The following presents the School Board's proportionate share of the net HICP OPEB liability using the discount rate of 6.75%, as well as what the School Board's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School Board's proportionate share of HICP Net			
OPEB Liability - Professional	\$ 14,214,194	\$ 12,626,727	\$ 11,283,350
School Board's proportionate share of HICP Net			
OPEB Liability – Non-Professional	\$ 1,015,221	\$ 919,568	\$ 837,401

Teacher and Political Subdivision Employee HIC OPEB Fiduciary Net Position

Detailed information about the VRS Teacher Employee Health Insurance Credit Program's Fiduciary Net Position is available in the separately issued VRS 2021 *Annual Comprehensive Financial Report* (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

VRS Virginia Local Disability Program (VLDP)***Plan Description***

All full-time, salaried permanent teachers and general employees; including local law enforcement officers, firefighters, or emergency medical technicians of political subdivisions who do not provide enhanced Hazardous duty benefits; who are in the VRS Hybrid Retirement Plan benefit structure and whose employer has not elected to opt out of the VRS-sponsored program are automatically covered by the VRS VLDP. This plan is administered by VRS. Political subdivisions are required by Title 51.1 of the Code of Virginia, as amended, to provide short-term and long-term disability benefits for their Hybrid employees either through a local plan or through VLDP.

The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

VLDP PLAN PROVISIONS – PROFESSIONAL & NONPROFESSIONAL
Eligible Employees VLDP was implemented January 1, 2014 to provide short-term and long-term disability benefits for non-work-related and work-related disabilities for employees with Hybrid retirement benefits.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

<p>Eligible employees are enrolled automatically upon employment, unless their employer has elected to provide comparable coverage. They include:</p> <ul style="list-style-type: none">• Political subdivision (nonprofessional) – Full-time general employees; including local law enforcement officers, firefighters, or emergency medical technicians who do not have enhanced hazardous duty benefits; of public political subdivisions covered under VRS.• Teachers (professional) – Teachers and other full-time permanent salaried employees of public School Board covered under VRS.
<p>Benefit Amounts</p> <p>VLDP provides the following benefits for eligible employees:</p> <p><u>Short-Term Disability –</u></p> <ul style="list-style-type: none">• The program provides a short-term disability benefit beginning after a seven-calendar-day waiting period from the first day of disability. Employees become eligible for non-work-related short-term disability coverage after one year of continuous participation in VLDP with their current employer.• During the first five years of continuous participation in VLDP with their current employer, employees are eligible for 60% of their pre-disability income if they go out on non-work-related of work-related disability.• Once the eligibility period is satisfied, employees are eligible for higher income replacement levels. <p><u>Long-Term Disability –</u></p> <ul style="list-style-type: none">• VLDP program provides a long-term disability benefit beginning after 125 workdays of short-term disability. Members are eligible if they are unable to work at all or are working fewer than 20 hours per week.• Members approved for long-term disability will receive 60% of their pre-disability income. If approved for work-related long-term disability, the VLDP benefit will be offset by the workers' compensation benefit. Members will not receive a VLDP benefit if their workers' compensation benefit is greater than the VLDP benefit.
<p>VLDP Notes:</p> <ul style="list-style-type: none">• Members approved for short-term or long-term disability at age 60 or older will be eligible for a benefit, provided they remain medically eligible.• VLDP Long-Term Care Plan is a self-funded program that assists with the cost of covered long-term care services.

Contributions

Professional – The contribution requirement for active Hybrid employees is governed by Section 51.1-1178(C) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to School Boards by the Virginia General Assembly. Each School Board's contractually required employer contribution rate for the year ended June 30, 2021 was 0.47% of covered employee compensation for employees in VLDP. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions were \$144,190 and \$138,323 for the years ended June 30, 2022 and June 30, 2021, respectively.

Nonprofessional – The contribution requirement for active Hybrid employees is governed by Section 51.1-1178(C) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to political subdivisions by the Virginia General Assembly. Each school board's contractually required employer contribution rate for the year ended June 30, 2021 was 0.83% of covered employee compensation for employees in VLDP. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions were \$30,544 and \$27,450 for the years ended June 30, 2022 and June 30, 2021, respectively.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to VLDP***

Professional – At June 30, 2022, the School Board reported an asset of \$30,790 for its proportionate share of the net VLDP OPEB liability. The net VLDP OPEB liability was measured as of June 30, 2021 and the total VLDP OPEB liability used to calculate the net VLDP OPEB liability was determined by an actuarial valuation as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The School Board's proportion of the net VLDP OPEB liability was based on the School Board's actuarially determined employer contributions to the VLDP OPEB plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the School Board's proportion of VLDP was 3.81170% as compared to 4.61204% at June 30, 2020.

For the year ended June 30, 2022, the school board recognized VLDP OPEB expense of \$103,608. Since there was a change in proportionate share between June 30, 2020 and June 30, 2021 a portion of the VRS Teacher Employee Virginia Local Disability Program Net OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related VLDP from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change in assumptions	\$ 16,712	\$ -
Change in proportionate share	-	1,042
Net difference between projected and actual earnings		-
on VLDP OPEB program investments	-	24,498
Difference between expected and actual experience	15,396	17,111
Employer contributions subsequent to the measurement date	144,190	-
	<u>\$ 176,298</u>	<u>\$ 42,651</u>

\$144,190 reported as deferred outflows of resources related to VLDP resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net VLDP OPEB liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Teacher Employee VLDP OPEB will be recognized in the Teacher Employee VLDP OPEB expense in future reporting periods as follows:

Year Ending June 30:

2023	\$ (4,931)
2024	(4,960)
2025	(4,919)
2026	(5,860)
2027	957
Thereafter	<u>9,170</u>
Total	<u>\$ (10,543)</u>

Nonprofessional – At June 30, 2022, the school board reported an asset of \$8,334 for its proportionate share of the net VLDP OPEB liability. The net VLDP OPEB liability was measured as of June 30, 2021 and the total VLDP OPEB liability used to calculate the net VLDP OPEB liability was determined by an actuarial valuation as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The School Board's proportion of the net VLDP OPEB liability was based on the School Board's actuarially determined employer contributions to the VLDP OPEB plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2022, the School Board's proportion of VLDP was 0.78550% as compared to 0.82328% at June 30, 2021.

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

For the year ended June 30, 2022, the School Board's recognized VLDP OPEB expense of \$22,671. Since there was a change in proportionate share between June 30, 2020 and June 30, 2021, a portion of the VRS Political Subdivision Employee Virginia Local Disability Program Net OPEB expense was related to deferred amounts from changes in proportion. At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to VLDP from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change in assumptions	\$ 283	\$ 2,260
Investment Experience	-	-
Difference between expected and actual experience	4,951	12,486
Net difference between projected and actual earnings on VLDP OPEB program investments	-	4,650
Change in proportionate share	146	1,031
Employer contributions subsequent to the measurement date	30,544	-
	<u>\$ 35,924</u>	<u>\$ 20,427</u>

\$30,530 reported as deferred outflows of resources related to VLDP resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the net VLDP OPEB liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to VLDP will be recognized in VLDP OPEB expense in future reporting periods as follows:

Year Ending June 30:

2023	\$ (2,085)
2024	(2,069)
2025	(2,146)
2026	(4,025)
2027	(1,414)
Thereafter	(3,308)
Total	<u>\$ (15,047)</u>

Net VLDP OPEB Liability

The net VLDP OPEB liabilities represents the program's total OPEB liability determined in accordance with GAAP, less the associated fiduciary net position. As of June 30, 2021, NOL amounts for the VRS Teacher and Political Subdivision Employee Virginia Local Disability Program is as follows (amounts expressed in thousands):

	Teacher Employee VLDP OPEB Plan	Political Subdivision Employee VLDP OPEB Plan
Total Employee VLDP OPEB Liability	\$ 4,884,000	\$ 5,156,000
Plan Fiduciary Net Pension	5,590,000	6,166,000
Employee Net VLDP OPEB Liability	<u>\$ (706,000)</u>	<u>\$ (1,010,000)</u>
Plan Fiduciary Net Position as a Percentage of the total Employee VLDP OPEB Liability	114.46%	119.59%

NOTE 8. POSTEMPLOYMENT HEALTHCARE BENEFITS (Continued)

The total Teacher Employee VLDP OPEB liability is calculated by the VRS's actuary, and the plan's fiduciary net position is reported in the VRS's financial statements. The net Teacher Employee VLDP OPEB liability is disclosed in accordance with the requirements of GAAP in the VRS's notes to the financial statements and required supplementary information.

Discount Rate

The discount rate used to measure the total VLDP OPEB liabilities was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2021, the rate contributed by the School Board VLDP will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2021 on, all agencies are assumed to contribute 100% of the actuarially determined contribution rates, which was 100% of the actuarially determined contribution rate. From July 1, 2021, the School Board will continue to contribute 100% of the actuarially determined contribution rates. VLDP OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total VLDP OPEB liabilities.

Sensitivity of the School Board's Proportionate Share of the VLDP OPEB Liability to Changes in the Discount Rate

The following presents the proportionate share of the net VLDP OPEB liability using the discount rate of 6.75%, as well as the net VLDP OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School Board's proportionate share of VLDP Net OPEB Liability - Professional	\$ (4,620)	\$ (30,790)	\$ (53,796)
School Board's proportionate share of VLDP Net OPEB Liability - Nonprofessional	\$ (4,465)	\$ (8,334)	\$ (11,690)

Teacher Employee & Political Subdivision VLDP OPEB Fiduciary Net Position

Detailed information about the VRS Teacher and Political Subdivision Employee Virginia Local Disability Program's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Contribution as a Percentage of Covered Payroll	0.50%	-0.50%	-0.01%	1.39%	0.34%	0.89%

Schedule is intended to show information for 10 years. Since 2022 is the sixth year for this presentation, only five additional years of information is available. However, additional years will be included as they become available.

Notes to schedule:

Methods and Assumptions used to determine contribution rate:

Measurement Date	6/30/2022
Timing	Actuarially determined contribution rates are calculated based on the actuarial valuation one year prior to the beginning of the plan year.
Actuarial Cost Method	Projected Unit Credit (level dollar)
Amortization method	Level percent, open
Remaining amortization period	20 years
Discount rate	9.70% for June 30, 2022 liability and 2023 contribution
Payroll growth	5.0%
Return on plan assets	9.7%
Mortality rate	Teachers – Public Teacher 2010 Employee and Healthy Retiree, headcount weighted, 2021 improvement All others and spouses – Public General 2010 Employee and Healthy Retiree, headcount weighted, 2021 improvement
Asset valuation method	Market value

SCHEDULE OF OPEB INVESTMENT RETURNS (UNAUDITED)

Year Ended June 30, 2022

	2022	2021	2020	2019	2018	2017
Annual money-weighted rate of return, net of investment expense	9.70%	9.18%	9.06%	4.44%	6.00%	6.00%

Schedule is intended to show information for 10 years. Since 2022 is the sixth year for this presentation, only five additional years of information is available. However, additional years will be included as they become available.

VRS GROUP LIFE INSURANCE PROGRAM
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Year Ended June 30, 2022

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Professional

Mortality Rates (Pre-retirement, postretirement healthy, and disabled)
Retirement Rates
Withdrawal Rates
Disability Rates
Salary Scale
Discount Rate

Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Adjusted rates to better fit experience at each year age and service through 9 years of service
No change
No change
No change

Nonprofessional

Mortality Rates (Pre-retirement, postretirement healthy, and disabled)
Retirement Rates
Withdrawal Rates
Disability Rates
Salary Scale
Line of Duty Disability
Discount Rate

Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Lowered disability rates
No change
No change
No change

See notes to required supplementary information.

**Notes to Required Supplementary Information
For the Year Ended June 30, 2022**

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Professional

Mortality Rates (Pre-retirement, postretirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

See notes to required supplementary information.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Year Ended June 30, 2022

1. BUDGETS AND BUDGETARY ACCOUNTING

The budget data reflected in the financial statements was created by the School Board using the procedures which follow:

- 1) The School Board submits to the City Council of the City a proposed operating budget for the General and Special Revenue Funds for the forthcoming fiscal year by April 1. The legal level of budgetary control rests at the fund level for the General and Special Revenue Funds. Management control is exercised over the budgets at the budgetary line item level.
- 2) The budgets are legally enacted through passage of an ordinance by the City Council forty-five days prior to the end of the current fiscal year.
- 3) The School Board is authorized to make transfers between budgetary line items; however, revisions that alter the total expenditures of the total budget must be approved by the City Council.
- 4) The General Fund and Special Revenue Fund have a legally adopted annual budget. The General Fund and Special Revenue Fund budgets are adopted on a basis consistent with accounting principles generally accepted in the United States, except for the recognition of encumbrances and inventory as expenditures. Budgets related to the School Construction Fund are adopted on a project basis.
- 5) The School Board employs encumbrance accounting under which obligations in the form of purchase orders, contracts and other commitments for the expenditure of funds are reported as reservations of fund balances, since they do not constitute expenditures or liabilities. Appropriations with outstanding commitments or encumbrances are requested for re-appropriation and carried forward into the subsequent year. According to the City of Portsmouth, Virginia Code, unexpended, unencumbered appropriations lapse at the end of the year.

THIS PAGE LEFT BLANK INTENTIONALLY

STATISTICAL SECTION

(Unaudited)

This part of the City of Portsmouth, Virginia School Board's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health as shown on pages 89 through 103.

Financial Trends

These schedules contain trend information to help the reader comprehend how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, food service sales.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Members

School Board of the City of Portsmouth, Virginia
Portsmouth, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the Specifications for Audits of Counties, Cities, and Towns issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board of Portsmouth, Virginia (the "School Board"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated December 12, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

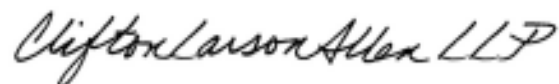

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
