	an Audit of Financial Statements Performed in Accordance with <i>Government</i>	97-98

November 19, 2012

To Honorable Mayor, Members of Town Council and Citizens Town of Purcellville, Virginia

I am pleased to present the Town of Purcellville's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2012. These statements are presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report was prepared by the Town's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the Town. The report identifies the Town's financial position and results of operations as measured by the financial activity of its various funds over the past fiscal year. We believe the data contained in the report is accurate in all material aspects.

The management of the Town is responsible for establishing and maintaining an internal control structure to ensure the protection of Town assets. These controls are evaluated each year by both the independent auditors and management staff. The Town also maintains budgetary controls to ensure compliance with the annual appropriated budget approved by the Town Council no later than the close of the previous fiscal year. Activities of the general fund, the two utility enterprise funds and capital project funds are included in the Town's annual budget. When necessary, the Town Council approves amendments to the adopted budget. Budgetary compliance is reported and monitored at the departmental level.

The Town Charter and Code of Virginia §15.2-2511 requires an annual audit performed by independent certified public accountants of the Town's financial affairs. The Town has contracted with Robinson, Farmer, Cox and Associates, Certified Public Accountants to provide audit services in a five-year contract. Robinson, Farmer, Cox and Associates has issued an unqualified opinion on the Town's financial statements for the year ended June 30, 2012. The independent auditor's report is located on page 1 and 2 of this report.

Also included in this report is a section titled Management's Discussion and Analysis (MD&A) which begins on page 3. The MD&A will provide additional analysis and overview of the financial statements contained in this report.

Profile of the Town:

The Town of Purcellville was incorporated in 1908 and is located in Loudoun County, Virginia. The Town's corporate limits encompass approximately 3.15 miles positioned in Northern Virginia about 60 miles west of Washington, D.C. The Town's population is 7,829, a significant increase over the 2000 population of 3,584. The Town is operated based on a council-manager form of government. The Town provides a full range of municipal services including police protection, refuse collection, construction and maintenance of streets and other infrastructure, parks and recreational facilities, zoning inspection services and general administrative services. The Town also maintains and operates two enterprise funds for the purpose of production, distribution and treatment of water and wastewater on behalf of the residents of the Town.

Financial Condition and Economic Outlook:

The Town Council's commitment to long term financial planning allowed the Town to end fiscal year 2012 in strong financial condition. Several tools are employed to strategically manage the Town's resources and priorities. A Town Council Strategic Planning Session is held in the summer to review and define organizational priorities. These decisions ultimately affect the annual budget development process that allocates expenditures and revenues for the next fiscal year. The staff and Council work through the winter and spring months to complete the budget plan for the next fiscal year and the Town has successfully received the GFOA Distinguished Budget Presentation Award for the past three years. In addition, the Town Council adopted "Fiscal Policy Guidelines" based on best financial practices and recommendations by its outside financial advisor, Davenport and Company, Inc. Council uses these guidelines as target reference points when considering new initiatives such as program expansion and issuance of debt. Another strategic tool is the Town's Performance Management Plan that defines core organizational values and purpose, goals and objectives, and performance measures for programs, departments and individual employees. Throughout the year, the Town Manager and department heads continued to closely monitor the budget plan and manage expenditures. The budget specialist prepares budget execution reports each quarter as a management tool for department heads and the Town Manager.

The Town ended fiscal year 2012 with an unassigned fund balance in the governmental fund of \$3.4 million. This amount exceeds the Town's fund balance policy target of \$3 million or 30% of total general fund revenues. This strong fund balance represents 37% of the budgeted general fund expenditures for fiscal year 2013. In accordance with the fiscal year 2012 budget plan, the Town utilized cash reserves to fund about \$420,000 in capital projects and about \$520,000 for operating expenditures.

Following the recent recession, the Town saw a second year of growth in its real property assessments which increased by 2.3% in 2012. Preliminary forecasts for 2013 show a moderate increase in existing property values as well as continued commercial development. Currently underway are the renovation of the Loudoun Valley Shopping Center, the new Purcellville Gateway shopping center and new Bank of Clark County. We also expect continued redevelopment of commercial properties along Main Street and Hirst Road. The Town Council adopted a tax rate of .225 for 2012, slightly lower than the equalized rate. The Town Council also increased the meal tax rate from 4% to 5%, effective July 1, 2012.

In fiscal year 2012, revenue in both utility funds was less than budget projections. This combined with a planned draw on cash reserves resulted in a decline in nets assets by \$133,633 in the water fund and \$945,857 in the sewer fund. The Town will continue to work with its rate study consultants to evaluate and modify user fees each year to ensure the fiscal condition of the utility funds.

The Town's population and commercial growth over the last decade has driven capital investment needs and debt in the general and utility funds. The Town maintains a 5-year Capital Improvement Plan (CIP) that describes all capital projects and their fiscal impact (cost and funding sources). Most of the planned projects are now complete or winding down and the CIP plan is relatively modest for the next five years.

Major Initiatives/Awards:

The following is a partial listing of a significant initiatives and achievements accomplished across all departments in 2012:

- Successfully moved Town operations to the New Town Hall.
- Received third GFOA Distinguished Budget Presentation Award for fiscal year 2012.
- Received fourth GFOA Certificate of Achievement for fiscal year 2011 CAFR.
- Received the 2012 Siemens Sustainable Community Award for the small community category and received \$20,000 worth of tree plantings.
- Received fourth Virginia Department of Health's Excellence in Waterworks Operations/Performance Award.
- Received ICMA Certification of Distinction for performance measurement.
- Received a Historic Design Excellence Award from Loudoun County for the renovations of the New Town Hall at 221 South Nursery Ave.
- Received the VML Go Green Award.
- Received third place in the 2010 Virginia Chief's Traffic Safety Challenge.
- Unveiled the First Responders Monument at Fireman's Field on the 10th anniversary of 9/11.
- Established a Tourism Zone for the purpose of offering incentives to attract business investment and job creation.
- Created a Fireman's Field Tax District ordinance.
- Developed the Purcellville web dashboard to keep citizens updated regarding Town accomplishments.
- Implemented a Town Intranet for internal staff communications.
- Hired the Town's first full time Town Attorney.
- Hired a local firm to assist with the public information outreach program.
- As part of the Downtown Enhancement Project, dedicated the Centennial Square with personalized bricks and a time capsule.
- Instituted a new paperless agenda program to improve operational efficiency and green initiative.
- Established the Community Garden.
- Organized and hosted the second Loudoun Grown Expo and first Purcellville Wine and Food Festival.
- Secured a funding grant from Loudoun County to complete upgrades at Fireman's Field.

Awards and Acknowledgements:

The Town received its forth Certificate of Achievement for the fiscal year 2011 Comprehensive Annual Financial Report by the Government Finance Officers Association (GFOA), Certificate for Excellence in Financial Reporting Program. The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

The preparation of this report on a timely basis could not have been accomplished without the dedicated service of the entire Finance Department. We would also like to thank the Town Council for their interest and commitment regarding the financial management of the Town.

Sincerely,

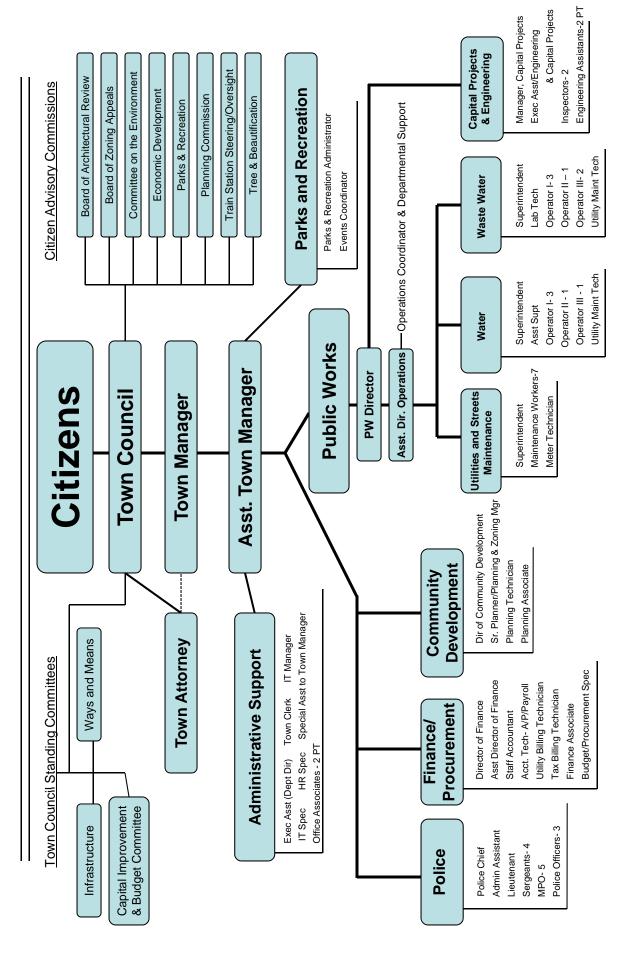

Robert W. Lohr, Jr.

Town of Purcellville Virginia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2011

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

Independent Auditors' Report

TO THE HONORABLE MEMBERS OF THE TOWN COUNCIL TOWN OF PURCELLVILLE, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund, of the Town of Purcellville, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Purcellville, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Purcellville, Virginia, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2012 on our consideration of the Town of Purcellville, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Purcellville, Virginia's financial statements as a whole. The introductory section, supporting schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Charlottesville, Virginia
November 7, 2012

Town of Purcellville, Virginia Management's Discussion and Analysis

As management of the Town of Purcellville (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2012. Please read it in conjunction with the Town's basic financial statements, which follow this section.

Financial Highlights

- The assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$59.5 million (net assets). Of this amount, \$12.4 million (unrestricted net assets) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net assets decreased by \$1,020,477, of which the governmental activities accounted for a \$59,013 increase and business-type activities accounted for \$1,079,490 decrease.
- The unassigned ending fund balance for the Town's general fund was \$3.4 million, a decrease of approximately \$1 million from the prior year. This ending fund balance is equal to 39% of the Town's fiscal year 2012 general fund operating budget.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$3.4 million, or 46% of governmental fund expenditures less any capital outlay projects funded with bond proceeds.
- The Town's total debt decreased by \$1.5 million during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide the readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. The *statement of net assets* presents information on all of the Town's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of how the financial position of the Town may be changing. Increases in net assets may indicate an improved financial position; however, even decreases in net assets may reflect a changing manner in which the Town may have used previously accumulated funds.

The statement of activities presents information showing how the Town's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g., uncollected taxes and earned but unused vacation leave).

Overview of the Financial Statements: (Continued)

Government-wide financial statements: (Continued)

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government administration, public safety, and public works. The business-type activities are for public utilities. The government-wide financial statements can be found on pages 15 through 17 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and governmental activities.

The Town maintains two governmental funds, a General Fund and a Capital Projects fund. The Town adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 20 through 23 of this report.

The Town maintains one type of *Proprietary Fund*. The Town uses *enterprise funds*, which are used to report the same functions presented as *business-type activities* in the government-wide financial statements, to account for its public utilities. The basic proprietary fund financial statements can be found on pages 24 through 26 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27 through 50 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents *required* supplementary information concerning budgetary comparisons for the general fund and the schedule of funding in progress relating to the Town's participation in its defined benefit pension plan. Required supplementary information can be found on pages 53 and 54 of this report.

Overview of the Financial Statements: (Continued)

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$59.5 million at the close of the most recent fiscal year. A large portion of the Town's net assets (\$47.1 million, 79% of total) reflects its investment in capital assets (e.g., land, buildings, improvements, infrastructure machinery and equipment, and vehicles), less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the Town's investment in capital assets are of a permanent nature as assets acquired are generally not sold or otherwise disposed of during their useful life).

The following table summarizes the Town's Statement of Net Assets:

Town of Purcellville, Virginia Summary of Net Assets As of June 30, 2012

		Governn Activi		Business Activi	• .	Total			
		ACTIVI	ties	ACTIVI	lies	Total			
	_	2012	2011	2012	2011	2012	2011		
Current and other assets	\$	8,346,252 \$	13,501,067 \$	8,504,058 \$	11,670,600 \$	16,850,310 \$	25,171,667		
Capital assets	-	52,787,492	48,353,868	58,286,464	57,959,526	111,073,956	106,313,394		
Total assets Long-term liabilities	\$	61,133,744 \$	61,854,935 \$	66,790,522 \$	69,630,126 \$	127,924,266 \$	131,485,061		
outstanding	\$	20,609,569\$	21,158,073 \$	44,422,266 \$	45,443,265\$	65,031,835 \$	66,601,338		
Other liabilities	_	2,445,671	2,680,658	878,725	920,309	3,324,396	3,600,967		
Total liabilities	\$	23,055,240 \$	23,838,731 \$	45,300,991 \$	46,363,574 \$	68,356,231 \$	70,202,305		
Net assets: Invested in capital assets,									
net of related debt	\$	33,175,084\$	30,838,249 \$	14,149,999\$	12,743,081 \$	47,325,083 \$	43,581,330		
Unrestricted	_	4,903,420	7,181,242	7,339,532	10,523,471	12,242,952	17,704,713		
Total net assets	\$	38,078,504 \$	38,019,491 \$	21,489,531 \$	23,266,552 \$	59,568,035 \$	61,286,043		

At the end of the current fiscal year, the Town is able to report positive balances in both categories of net assets, both for the Town as a whole, as well as for its separate governmental and business-type activities.

As noted previously, the Town's overall (government and business-type activities) net assets decreased by \$1,020,477 during the current fiscal year. The overall decrease is attributed to a decrease in business-type activities current assets.

Government-Wide Financial Analysis: (Continued)

Governmental activities increased the Town's net assets by \$59,013. The following table summarizes the Town's Statement of Activities:

Town of Purcellville, Virginia Changes in Net Assets As of June 30, 2012

Government-Wide Financial Analysis (Continued)

Generally, net asset changes are for the difference between revenues and expenses. The Town saw a slight increase in net assets of governmental activities of \$59,013 in 2012.

Business-type activities decreased the Town's net assets by \$1 million, due in a large part to an accounting adjustment for prior year loan proceeds. Similar to how changes arise in the governmental activities, business-type activities also experience budgetary differences; however, as a public utility function comprises the Town's business-type activities there is more of a direct correlation to the revenues generated relative to the expenses incurred because of service demands.

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental fund: The focus of the Town's *governmental fund* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Town's 2012 general fund revenues were \$1.9 million less than 2011. This decrease can be attributed to the fact that 2011 included the final \$2 million installment of Loudoun County Settlement funds. Excluding this non-recurring revenue item, there was a slight uptick in revenue in 2012. The 2012 general fund expenditures increased by \$334 thousand over 2011 due to modest increases in operating expenses and debt service.

The Town ended 2012 with a total fund balance of \$5.8 million, a decrease over 2011 as the Town used restricted reserves such as loan proceeds and Loudoun County Settlement to complete capital projects. Of this amount, \$3,427,576 was unassigned and available for future spending.

Proprietary funds: Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The total net assets of the water and sewer funds were \$21.5 million. Unrestricted net assets at the end of the year were \$7.3 million, a decrease from the prior year.

General Fund Budgetary Highlights

General Fund revenues exceeded budget projections by \$37,797 in 2012. Positive trends were seen in the categories of property tax, sales tax, business license tax and meals tax.

The 2012 expenditures were less than budget by \$250 thousand. While costs associated with the new Town Hall building and legal expenses were higher than expected, savings in the categories of street maintenance, refuse collection and community development more than offset this increase. A portion of the surplus for the public works street maintenance is associated with state funding and \$66,503 has been restricted and will be re-appropriated in 2013 per state spending requirements.

Capital Asset and Debt Administration

Capital assets: The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2012, amounts to \$111 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, and machinery and equipment as well as construction in progress.

Capital assets, net of accumulated depreciation, are illustrated in the following table:

Town of Purcellville, Virginia

<u>Capital Asset and Debt Administration: (Continued)</u>

Debt associated with governmental activities decreased by \$545,217 in 2012 due to payments of principal. No new loans were added in 2012.

The debt associated with business-type activities decreased by \$1,020,999 in 2012 due to payments of principal. No new loans were added in 2012.

The Town is subject to a statutory debt limitation. The legal debt margin is limited to 10% of total assessed value. The margin is computed as all bonded debt and long-term notes except for enterprise indebtedness over total assessed value of taxed real property. The Town was in compliance with debt limitation as of June 30, 2012.

Additional information on the Town's long-term debt and compliance can be found in Note 5.

Economic Factors and Next Year's Budgets and Rates

Purcellville is a vibrant community on the western edge of the Northern Virginia region at the foot of the Blue Ridge Mountains. The attraction of the picturesque Western Loudoun wine and farm country combined with rewarding employment opportunities available to the east continue to attract new residents and business enterprise. The Town's estimated population is now 7,829, more than double the 2000 population of 3,584. Loudoun County has one of the lowest unemployment rates in the country at 4.2% and a high per capita income level of \$55,468.

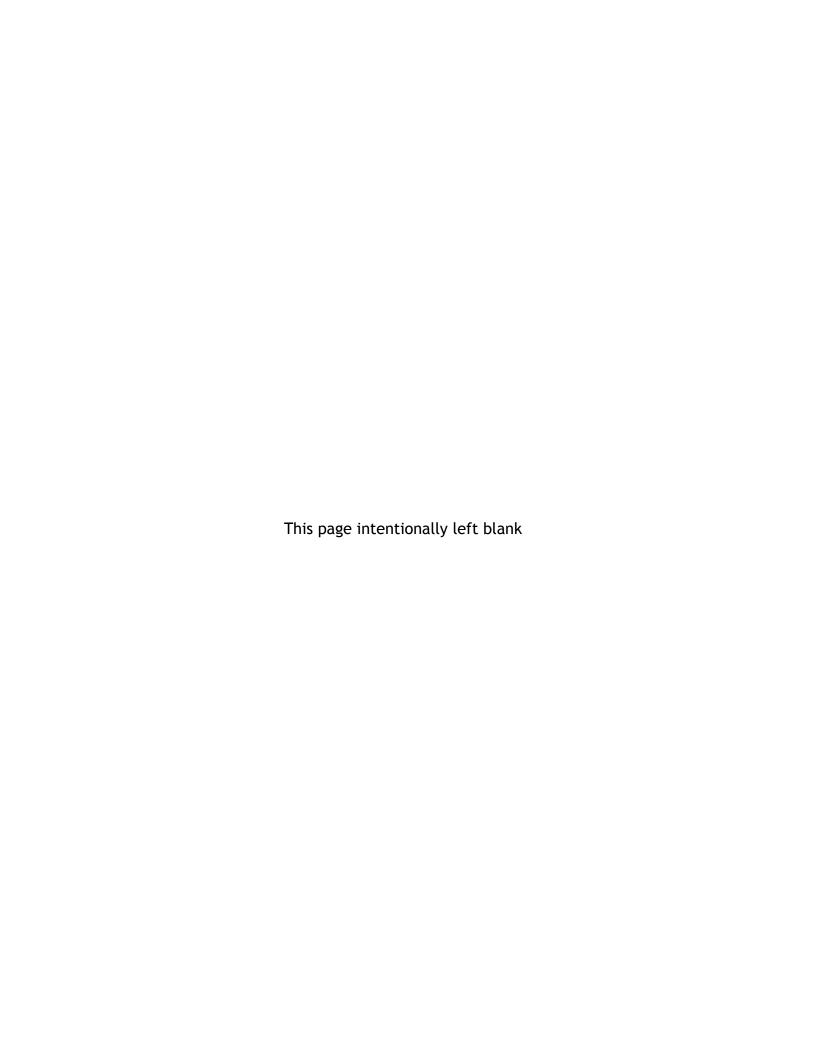

The Town experienced positive growth in real property assessments in 2012 with an overall 2.3% increase in value composed of a 1.69% increase in existing properties and .61% increase in new construction. Preliminary forecast for 2013 assessments indicate continued moderate but positive growth for both existing property values and new construction associated with the redevelopment of the Loudoun Valley Shopping Center, the new Purcellville Gateway shopping center and the new Bank of Clark County.

For tax year 2012, the Town Council adopted a .225/\$100 real estate tax rate, slightly less than the equalized rate. The Council also increased the meals tax rate from 4% to 5% during the FY13 budget process, effective July 1, 2012. All other rates were unchanged.

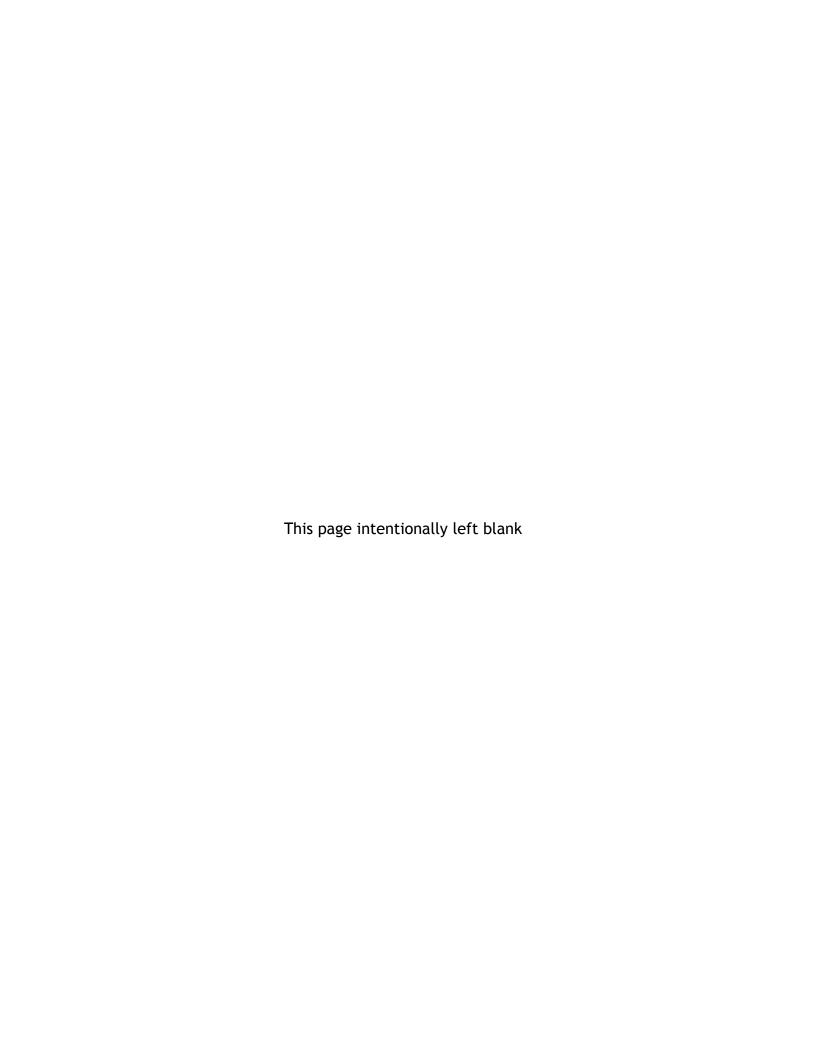

The Town continues to assess utility rates annually based on models prepared by the Town's utility rate consultant. Factors such as forecasted new connections, operating expenditures, capital improvement plan expenditures and debt service, and historical usage trends are analyzed to update the Town's rate structure.

Requests for Information

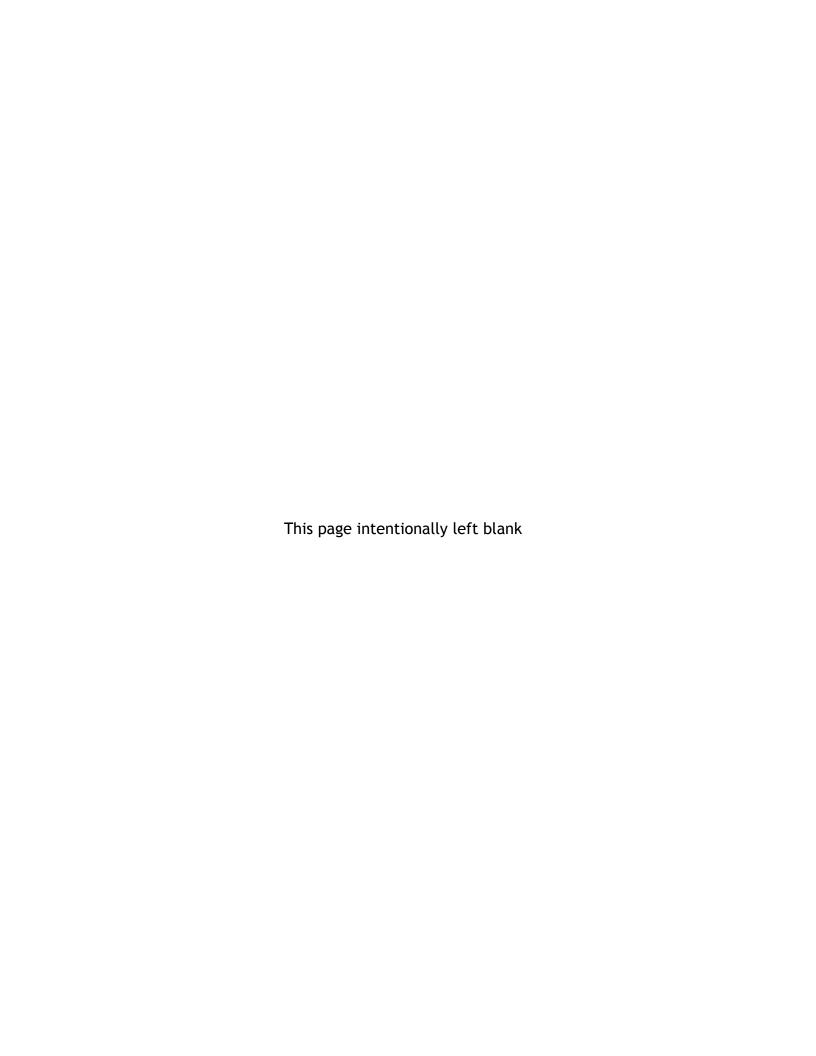

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town Manager, Town of Purcellville, 221 S. Nursery Ave., Purcellville, VA 20132.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ (4,934,509)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Details supporting this adjustment are as follows:

 Capital outlay
 \$ 6,084,868

 Depreciation expense
 (1,629,026)
 4,455,842

A loss on the sale of capital assets is only reported in the statement of activities and not in the governmental funds because it does not reduce financial resources.

(22,218)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

644,001

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Details supporting this adjustment are as follows:

Principal retired on general obligation bonds 587,460
Principal retired on notes payable 85,000
Amortization of bond issuance costs (28,459)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase)/decrease in compensated absences24,878(Increase)/decrease in other post retirement benefit obligations(152,121)(Increase)/decrease in accrued interest payable11,651(115,592)

Change in net assets of governmental activities

Notes to Financial Statements As of June 30, 2012

Note 1—Summary of Significant Accounting Policies:

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for general purpose financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organizations governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the Town of Purcellville, Virginia.

Individual Component Unit Disclosures

The Town has no component units.

Related Organizations

The Town has no related organizations.

Jointly Governed Organizations

The Town has no jointly governed organizations.

B. Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the primary government. The effect of interfund activity has been removed from these statements with the exception of the amounts related to interfund services provided and used. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit, if applicable. Governments will report all capital assets, in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Government-wide and Fund Financial Statements: (Continued)

<u>Statement of Activities</u> - The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The Town applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes which are collected by the state or utilities and subsequently remitted to the Town are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the Town. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In the fund financial statements, financial transactions and accounts of the Town are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

 Governmental Funds account for the expendable financial resources, other than those accounted for in Proprietary and Similar Trust Funds. The Governmental Fund measurement focus is on determination of financial position and changes in financial position, rather than upon net income determination. The individual Governmental Funds are:

a. General Fund

The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. The General Fund is considered a major fund for reporting purposes.

b. Capital Projects Fund

The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Town Capital Improvements Fund is considered a major fund.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

2. Proprietary Funds account for activities similar to those found in the private business sector. The measurement focus is upon determination of net income. Proprietary Funds consist of Enterprise Funds.

Enterprise Funds

Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the Town is that the cost of providing services to the general public be financed or recovered through user charges. Currently the Town's Water and Sewer Funds are accounted for as enterprise funds.

Proprietary funds distinguish operating revenues and expenses from *nonoperating items*. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. The enterprise funds also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets and Budgetary Accounting

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. The appropriation for each fund can be revised only by the Town Council.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) except that enterprise fund budgets are adopted on the modified accrual basis of accounting.
- 7. Appropriations lapse on June 30 for all Town units.
- 8. All budgetary data presented in the accompanying financial statements is as amended and approved by Town Council.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Budgets and Budgetary Accounting: (Continued)

9. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is not part of the Town's accounting system.

E. Cash and Cash Equivalents

For the purposes of the Statement of Cash Flows, cash and cash equivalents are defined as short term highly liquid investments that are both readily convertible to known amounts of cash and investments with original maturities of 90 days or less.

F. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectibles. The Town its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$21,928 at June 30, 2012 and is comprised solely of property taxes.

G. Restricted Assets

Proceeds from bonds issued for general and enterprise funds are classified as restricted assets on the Balance Sheet and Statement of Net Assets because their use is limited to future capital outlay. These funds are maintained in a separate bank account under the care of a trustee.

H. Investments

Investments are stated at fair market value. Certificates of deposits, money market mutual funds and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

I. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the Town as land, buildings, infrastructure, vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life is not included in the capital assets of the Government-wide statements or capitalized in the proprietary funds.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Capital Assets: (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets for the year ended June 30, 2012 was immaterial.

Depreciation for capital assets is computed over the following useful lives using the straight line method.

Buildings	50 Years
Utility Plant & Lines	50 Years
Automobiles	5-7 Years
Machinery and Equipment	7-10 Years
Infrastructure	75 Years
Improvements Other than Buildings	20 Years

J. Compensated Absences

Vested or accumulated vacation leave is reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards Board Statement No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

K. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental and business-type activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Allowance for Uncollectible Accounts

The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowances amounted to approximately \$5,276 at June 30, 2012 for uncollectible local property taxes.

M. Property Taxes

Real property is assessed by Loudoun County, Virginia at its value on January 1 and is payable semiannually on December 5th and June 5th. Personal property taxes are assessed by Loudoun County, Virginia as of January 1 and are payable on June 5th. Taxes attach as an enforceable lien as of the date assessed. The Town bills and collects its own property taxes based on the assessed values provided by the County.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

O. Restricted & Unrestricted Net Assets

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

P. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Q. Prepaid Items

The consumption method is used to account for prepaid items. Payments to vendors reflecting costs applicable to future accounting periods and are recognized proportionately over the period the service is provided.

R. Fund Equity

Beginning with fiscal year 2011, the Town implemented GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint:
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

R. Fund Equity: (Continued)

In accordance with GASB Statement 54, when fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the Town strives to maintain an unassigned fund balance of \$4 million or 75% of the total General Fund revenues, whichever is greater.

Note 2—Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Custodial Credit Risk (Investments):

To protect the Town against potential fraud, the investment policy states that the assets of the Town shall be secured through third-party custody and safe-keeping procedures. Collateralized securities, such as repurchase agreements, shall be purchased using the delivery vs. payment procedure.

The Town's investments at June 30, 2012 were held by the Town or in the Town's name by the Town's custodial banks.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 2—Deposits and Investments: (Continued)

Credit Risk of Debt Securities:

The Town's investment policy states that no individual investment shall be undertaken that jeopardizes the capital position of the Town or does not bear the full faith and credit of the United States government or is not fully collateralized or insured.

The Town's rated debt investments as of June 30, 2012 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

Town's Rated Debt Investments							
Rated Debt Investments Value	_	Fair Quality Ratings					
		AAAm					
Local Government Investment Pool State Non-Arbitrage Pool	\$	2,008,437 1,212,246					
Total	\$	3,220,683					

Interest Rate Risk:

The Town does not have an investment policy regarding the interest rate risk of investments.

Investment Maturities (in years)									
Investment Type		Fair Value		1-5 Years					
Local Government Investment Pool State Non-Arbitrage Pool	\$	2,008,437 1,212,246	\$	2,008,437 1,212,246					
Total	\$	3,220,683	\$ _	,					

External Investment Pools

The fair value of the positions in the external investment pools (Local Government Investment Pool and State Non-Arbitrage Pool) are the same as the value of the pool shares. As these pools are not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury.

Defeased Debt - Current Refundings

On May 21, 2008 the Town issued General Obligation Public Improvement and Refunding Bonds, Series 2008 in the amount of \$19,961,100 to current refund the 1999 and 1996 General Obligation Bonds and provide financing for general government and enterprise fund capital projects. The refunding Series 2008 bonds were issued at an interest rate of 4.46% to refund the Series 1999 and 1996 bonds with interest rates of 5.00% and 5.75%, respectively. The refunding portion of the new bonds amounted to \$7,535,398 to defease the outstanding debt of the Series 1999 and 1996 bonds in the amount of \$6,529,101 and \$1,006,297. As a result of the current refunding, the Town reduced its future debt service requirements for the 1999 and 1996 bonds in the amount of \$1,400,720 and \$227,909, respectively which resulted in an economic gain of \$401,202 and \$88,100.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 5—Long—Term Obligations: (Continued)

<u>Defeased Debt - Current Refundings: (Continued)</u>

On November 30, 2010 the Town issued General Obligation Refunding Bonds, Series 2010 in the amount of \$4,241,000 to refund the 2008 and 2009 General Obligation Bonds. The refunding Series 2010 bond was issued at an interest rate of 3.03% to refund the Series 2008 and 2009 bonds with interest rates of 4.125% and 4.87%, respectively. The refunding portion of the new bonds amounted to \$4,142,633 to defease the outstanding debt of the Series 2008 and 2009 bonds in the amounts of \$1,142,633 and \$3,000,000. As a result of the refunding, the Town reduced its future debt service requirements for the 2008 and 2009 bonds in the amount of \$4,769,254, which resulted in an economic gain of \$453,271.

Defeased Debt - Advance Refundings

On October 15, 2010 the Town issued General Obligation Public Improvement and Refunding Bonds, Series 2010 (VRA) in the amount of \$1,655,000 to advance refund the 2000 General Obligation Bonds. The refunding Series 2010 bonds were issued at an interest rate 2.5433% to refund the Series 2000 bonds with an interest rate ranging from of 4.80% to 5.60%. These funds were deposited in an irrevocable trust with an escrow agent to provide funds to call the 2000 bond. As a result of the advance refunding, the Town reduced its future debt service requirements for the 2000 bond in the amount of \$271,714, which resulted in an economic gain of \$237,845.

Note 6—Compensated Absences:

In accordance with GASB Statement 16 "Accounting for Compensated Absences," the Town has accrued liabilities arising from compensated absences.

Town employees earn annual leave at various rates. No benefits or pay is received for unused sick leave upon termination, except for employees who retire under VRS from the Town in good standing are paid for 25% of their sick leave balance. Accumulated vacation is paid upon termination. The Town's General Fund has outstanding accrued leave pay totaling \$295,937 and the Enterprise Funds have outstanding accrued leave pay of \$81,051.

Note 7—Defined Benefit Pension Plan:

A. Plan Description:

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 7-Defined Benefit Pension Plan:

A. Plan Description: (Continued)

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit as early at age 55 with at least five years of service credit or age 50 with at least ten years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at http://www.varetire.org/Pdf/Publications/2011-Annual-Report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 7—Defined Benefit Pension Plan: (Continued)

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended June 30, 2012 was 15.27% of the annual covered payroll.

For fiscal year ended 2012, the Town's annual pension cost of \$405,985 (does not include the portion of the employee share assumed by the Town which was \$197,656) was equal to the Town's required and actual contributions.

C. Annual Pension Cost and Net Pension Obligation:

Three-Year	Trand	Information	n
THEE-TEAT	1101	miormatio	

Fiscal Year Ending	 Annual Pension Cost (APC)	Percentage of APC Contributed	 Net Pension Obligation
06/30/12	\$ 405,985	100%	\$ -
06/30/11	376,339	100%	-
06/30/00	306,673	100%	-

The FY2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

D. Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation date, the plan was 81.72% funded. The actuarial accrued liability for benefits was \$8,641,576 and the actuarial value of assets was \$7,061,806, resulting in an unfunded actuarial liability (UAAL) of \$1,579,770. The covered payroll (annual payroll of active employees covered by the plan) was \$3,867,344, and the ratio of the UAAL to covered payroll was 40.85%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 8-Deferred/Unearned Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue is comprised of the following:

A. Deferred Property Tax Revenue

Deferred revenue representing deferred property tax revenues totaled \$1,182,226 at June 30, 2012.

B. Prepaid Property Taxes

Property taxes due subsequent to June 30, 2012, but paid in advance by the taxpayers totaled \$6,013 at June 30, 2012.

C. Build America Bond Subsidy

At June 30, 2012, the Build America Bond subsidy deferred to be recognized upon bond maturity totaled \$15,952.

D. Parks and Recreation

Wine festival revenue deferred to 2013 when earned totaled \$6,000 at June 30, 2012.

Note 9-Risk Management:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town joined together with other local governments in Virginia to form the Virginia Municipal Group Self Insurance Association, a public entity risk pool currently operating as a common risk management and insurance program for participating local governments. The Town pays an annual premium to the association for its workers compensation insurance coverage. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The Town continues to carry commercial insurance for all other risks of loss, including general liability and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 10-Interfund Transfers:

Interfund transfers for the year ended June 30, 2012 consisted of the following:

Fund		Transfers In		Transfers Out
Primary Government: General Fund	Ś	1,270,560	Ś	4,567,672
Capital Projects Fund	•	4,567,672	*	154,656
Water Fund		-		557,952
Sewer Fund	_	-		557,952
Total	\$	5,838,232	\$	5,838,232

Transfers were made for capital projects, debt service, and administrative charge-backs.

Note 11—Commitments:

At June 30, 2012 the Town had the following commitments outstanding:

Vendor	Project	 Oustanding Commitment
E.E. Lyons	Downtown Streetscapes Phase 1	\$ 139,106
Arthur Construction	North 21st Street Sidewalk	155,993
Lane Construction Corporation	Southern Collector Road	3,553,803
RK&K	Southern Collector Road	406,647
GeoConcepts Engineering	Southern Collector Road	132,580
Kimley-Horn and Associates	Southern Collector Road	96,540
CH2M Hill	Water Resource Study	102,510
Michael Baker, Jr., Inc.	Intake Structure	78,920

Note 12—Other Post-Employment Benefits Program:

Background

Beginning in fiscal year 2009, the Town implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to post-employment health-care and non-pension benefits, such as the Town's retiree health benefit subsidy. Historically, the Town's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the Town accrue the cost of the retiree health subsidy and other post-employment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the Town. This funding methodology mirrors the funding approach used for pension benefits.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 12-Other Post-Employment Benefits Program: (Continued)

A. Plan Description:

In addition to the pension benefits described in Note 9, the Town provides a single-employer defined benefit post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from Town service with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and 15 years of service with the Town, will receive a subsidy contribution from 50% - 100% based on years of service, for their health insurance. The retiree's spouse can also receive benefits under the plan.

B. Funding Policy:

The Town establishes employer contribution rates for plan participants as part of the budgetary process each year. The Town also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For participating retirees the Town pays 50%, 75%, or 100% of the health insurance premium for retirees with 15-19, 20-24, or 25 plus years of service, respectively. For retirees at levels of service less than 25 years, the retiree pays 100% of spousal premiums. The Town pays 100% of spousal premiums for retirees with more than 25 years of service.

C. Annual OPEB Cost and Net OPEB Obligation:

The annual cost of other post-employment benefits (OPEB) under GASB 45 is called the annual required contribution or ARC. The estimated pay as you go cost for OPEB benefits is \$210,500 for fiscal year 2012. The Town did not make a payment towards this obligation during the fiscal year. The Town is required to contribute the annual required contribution of the employer (ARC) an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) as a level percentage of payroll or an open basis over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments, Town contributions, and credit for the implicit rate subsidy made during the year for the retirees of the Town. The following table shows the components of the Town's annual OPEB cost for the year, the estimated annual contributions to the plan, and changes in the Town's net OPEB obligation to the Retiree Health Plan:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$ 210,500 23,517 (21,100)
Annual OPEB cost (expense)	\$ 212,917
Estimated contributions made	(12,200)
Increase in net OPEB obligation	\$ 200,717
Net OPEB obligation - beginning of year	587,929
Net OPEB obligation - end of year	\$ 788,646

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 12—Other Post-Employment Benefits Program: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

For 2012, the Town's expected cash payment of \$12,200 was \$200,717 less than the OPEB cost. The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years are as follows:

	Percentage									
	Annual	of Annual	Net							
	OPEB	OPEB Cost	OPEB							
Fiscal Year Ended	 Cost	Contributed	Obligation							
June 30, 2010	\$ 212,547	5.83% \$	387,347							
June 30, 2011	213,882	6.22%	587,929							
June 30, 2012	212,917	5.73%	788,646							

Funded Status and Funding Progress

The funded status of the plan as of January 1, 2012 is as follows:

Actuarial accrued liability (AAL)	\$ 1,650,700
Actuarial value of plan assets	-
Unfunded actuarial accrued liability	1,650,700
Funded ratio (actuarial value of plan assets / AAL)	0%
Covered payroll (active plan members)	4,088,000
UAAL as a percentage of covered payroll	40.38%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets consistent with the long-term perspective of the calculations.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 12-Other Post-Employment Benefits Program: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

In the January 1, 2012 actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.2% initially, reduced by decrements to an ultimate rate of 4.80% after 83 years. Both rates included a 3.75% inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at January 1, 2012, was 30 years.

Cost Method

The projected unit credit (PUC) cost method is used to determine the plan's funding liabilities and costs. A PUC accrued benefit is determined for each active member of the Plan on the basis of the member's benefit projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

The actuarial liability and the normal cost for termination benefits, disability benefits, and preretirement spouse's death benefits are determined in a similar manner by projecting the member's average final compensation to each assumed date of termination, disablement, or death. The actuarial liability and normal cost for the supplemental benefits are based upon the present value of the expected supplement expected to be paid to those covered employees attaining eligibility. The actuarial liability for inactive members is determined to be the actuarial present value of the pension and supplemental benefits expected to be paid.

Interest Assumptions

	<u>Unfunded</u>
Investment rate of return	4.00%
Health cost trend assumption	7.20%
Payroll growth	3.75%

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 13—Operating Leases:

The Town has operating leases with various companies for cell towers. Future minimum lease payment receipts are as follows:

Year Ending June 30,	_	Amount
2013	\$	63,287 34,488
2015	_	26,901
Total	\$_	124,676

Note 14—Restatement of Beginning Net Assets:

Beginning net assets of the sewer fund was restated to reclassify loan proceeds previously recorded as revenue. Details of the adjustment are as follows:

Beginning net assets, July 1, 2011	\$ 15,563,112
Adjustment for loan proceeds	(697,530)
Beginning net assets, July 1, 2011, as adjusted	\$ 14,865,582

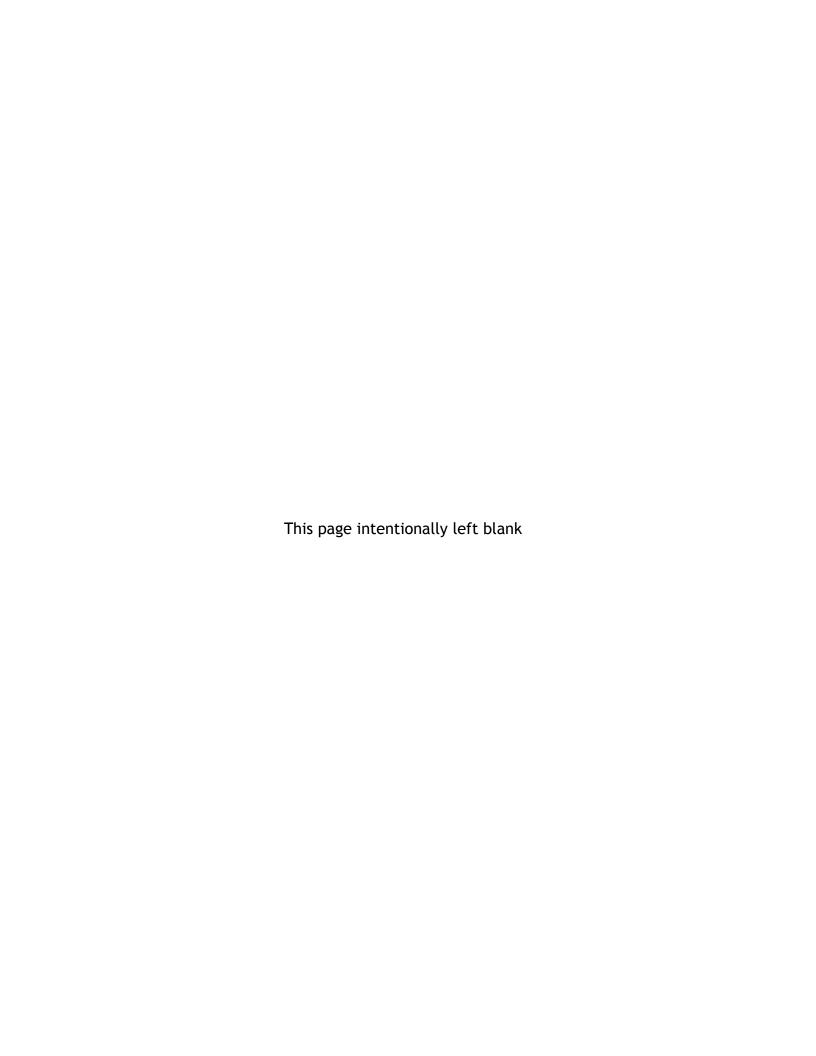

Note 15-Subsequent Events:

On July 3, 2012, the Town executed the sale of the former town hall in the amount of \$1,326,000.

REQUIRED SUPPLEMENTARY INFORMATION

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Direct and Overlapping Governmental Activities Debt As of June 30, 2012

Governmental Unit	_	Debt Outstanding	Estimated Percentage Applicable (1)	Estimated Share of Overlapping Debt
Debt repaid with property taxes: County of Loudoun Subtotal, overlapping debt	\$_	1,004,330 \$	1.77% \$	17,743
Town of Purcellville, direct debt			\$	19,719,736
Total direct and overlapping debt			\$	19,737,479

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This table estimates the portion of the outstanding debt of those overlapping government's that is borne by the residents and businesses of the Town of Purcellville. This process recognizes that, when considering the Town's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the Town's taxable assessed value that is within the government's boundaries and dividing it by the County's total taxable assessed value.

Ratio of Net General Bonded Debt to Assessed Value and Net Bonded Debt Per Capita Last Ten Fiscal Years

		Ratio of Net General	Net

ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO THE HONORABLE MEMBERS OF THE TOWN COUNCIL TOWN OF PURCELLVILLE, VIRGINIA

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Purcellville, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the Town of Purcellville, Virginia's basic financial statements and have issued our report thereon dated November 7, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Town of Purcellville, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Town of Purcellville, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Purcellville, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Town of Purcellville, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Purcellville, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Town Council, and others within the entity, and is not intended to be and should not be used by anyone other than these specified parties.
