Independent Auditors' Report

THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF GRAYSON, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Grayson, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Grayson, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Grayson, Virginia, as of June 30, 2011, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 to the financial statements, the County of Grayson, Virginia adopted the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, effective July 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2011 on our consideration of the County of Grayson, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

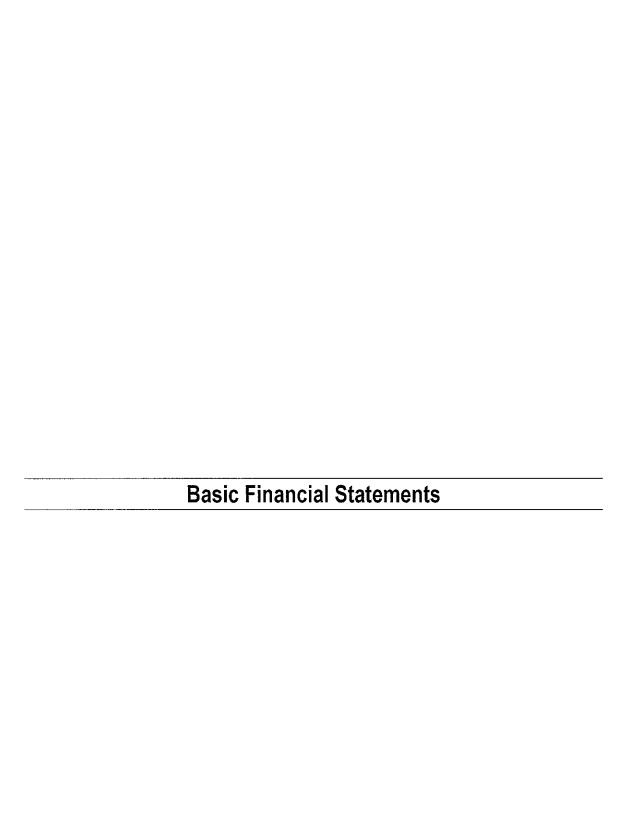

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the schedules of funding progress in accordance with auditing standards

generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Grayson, Virginia's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

County of Grayson, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2011

Amounts reported for governmental activities in the statement of net assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds	\$ 6,134,880
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	24,676,484
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	670,180
Internal service funds are used by management to charge the costs of certain activities, such as self insured health insurance plan, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the	
statement of net assets.	276,047
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.	(20,112,787)

The notes to the financial statements are an integral part of this statement.

County of Grayson, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 524,080
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.	2,441,781
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	56,813
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	141,291
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	(284,543)
Internal service funds are used by management to charge the costs of certain activities, such as self insured health insurance plan, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	(50,054)
Change in net assets of governmental activities	\$ 2,829,368

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Reporting Entity

The County of Grayson, Virginia is a political subdivision governed by an elected five-member Board of Supervisors. The accompanying financial statements present the government and its component unit, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - The County has no blended component units.

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Grayson County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The Grayson County School Board does not prepare separate financial statements.

Related Organizations - The County has no related organizations.

Jointly Governed Organizations:

- The County of Grayson and the Counties of Wythe, Bland, Carroll, and Smyth, along with the City of Galax, participate in supporting the Mount Rogers Community Services Board. For the fiscal year ended June 30, 2011, the County contributed \$43,200.
- The County of Grayson, along with the County of Wythe, participates in supporting the Wythe/Grayson Regional Library. For the fiscal year ended June 30, 2011, the County contributed \$51,993.
- 3. The County of Grayson, along with the County of Carroll and the City of Galax, participates in the Carroll-Grayson-Galax Solid Waste Authority. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. Operating expenses of the Authority are offset by user fees and no local contribution was required of the County of Grayson for the fiscal year ended June 30, 2011.

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

A. Reporting Entity (Continued)

Jointly Governed Organizations: (Continued)

4. The County of Grayson, along with the City of Galax, participates in supporting the Galax-Grayson Emergency Medical Service. Each locality appoints two members to the Service's Board. For the fiscal year ended June 30, 2011, no contribution was made by the County to the Service.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eliqibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The County reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds. The general fund includes the activities of the E-911, Law Library, Recreation Donation, and Asset Forfeiture Funds.

The Industrial Development and Community Development funds are reported as the County's major *special* revenue funds. Both funds account for and report the proceeds of specific revenues sources that are restricted or committed to expenditure for specified industrial and community development purposes other than debt service or capital projects.

The School Construction fund is reported as the County's major *capital projects fund*. This fund accounts for and reports financial resources that restricted, committed or assigned to expenditure for capital outlays for schools, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

The County reports the following major proprietary funds:

The County operates a water distribution system. The activities of the system are accounted for in the Fairview Water Fund.

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

The *internal service fund* accounts for goods or services provided to other departments within the County on a cost reimbursement basis. The County has a self insured health insurance plan for employees.

Additionally, the County reports the following fund types:

Fiduciary funds account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. Agency funds include the Special Welfare, Building Code, ASAP, and Regional Library funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and enterprise fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's internal service funds are charges to customers for sales and services. Operating expenses for internal service funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

- D. Assets, liabilities, and net assets or equity
 - 1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, and net assets or equity (Continued)

Deposits and investments (Continued)

short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable on December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$177,222 at June 30, 2011 and is comprised solely of property taxes.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, and net assets or equity (Continued)

6. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	<u>Years</u>
Buildings	40
Building improvements	40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30

7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, and net assets or equity (Continued)
 - 8. Long-term obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund equity

Fund balances, presented in the governmental fund financial statements, represent the difference between assets and liabilities reported in a governmental fund. GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds. This new standard (implemented in 2011) has not affected the total amount of reported fund balances but has substantially changed the categories and terminology used to describe their components. GASB Statement No. 54 requires that fund balances be classified into categories based upon the type of restrictions imposed on the use of funds. The County of Grayson, Virginia evaluated its funds at June 30, 2011 and classified fund balance into the following five categories:

Nonspendable -items that cannot be spent because they are not in spendable form, such as prepaid items and inventory.

<u>Restricted</u> -items that are restricted by external parties such as creditors or imposed by grants, law or legislation

<u>Committed</u> -items that have been committed by formal action by the entity's "highest level of decision-making authority"; which the County of Grayson, Virginia considers to be the Board of Directors.

<u>Assigned</u> -items that have been allocated by committee action where the government's intent is to use the funds for a specific purpose. The County of Grayson, Virginia considers this level of authority to be the Board of Directors or any Committee granted such authority by the Board of Directors.

<u>Unassigned</u> -this category is for any balances that have no restrictions placed upon them.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, and net assets or equity (Continued)

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statements of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these (\$20,112,787) and (\$1,140,843) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary Government		Component Unit	
General Obligation bonds Premium on bond OPEB obligation ERIP liability Lease revenue note Capital leases Interest payable Landfill accrued closure and post-closure monitoring costs	\$	(1,209,496) (65,897) (60,600) - (18,300,000) (24,948) (277,472) (55,155)	\$	- (339,600) (527,925) - - -
Compensated absences Net adjustment to reduce fund balance-total governmental funds to arrive at net assets-governmental activities	\$	(119,219)	\$ ((273,318)

Notes to Financial Statements June 30, 2011

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, and net assets or equity (Continued)

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statements of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these (\$20,112,787) and (\$1,140,843) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary Government		Component Unit	
General Obligation bonds Premium on bond	\$	(1,209,496) (65,897)	\$	-

Notes to Financial Statements June 30, 2011

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities. (Continued)

Another element of that reconciliation states "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of these \$141,291 and \$28,839 differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary Government		Component Unit	
Principal repayments:				
General obligation bonds	\$	75,505	\$	-
Lease revenue anticipation note		2,200,000		-
Capital leases		82,640		~

Debt Issued or incurred:				
Lease revenue anticipation note		(2,200,000)		
OPEB obligation		(16,200)		(45,600)
Accrued landfill closure/postclosure liability		(654)		-
Net adjustment to increase net changes in fund balances-total governmental funds to arrive at changes in net assets of				
governmental activities	\$	141,291		28,839

Notes to Financial Statements June 30, 2011

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities. (Continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of these (\$284,543) and (\$53,502) differences for the primary government and discretely presented component unit, respectively, are as follows:

		Primary Government		Component Unit	
Bond premium amortization (Increase) decrease in compensated absences Accrued interest	\$	4,393 (11,464) (277,472)	\$	- (53,502) -	
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net assets of governmental activities	\$	(284,543)	\$	(53,502)	

Note 3-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to April 1st, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The following funds have legally adopted budgets: General Fund and the School Operating Fund
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.

Notes to Financial Statements June 30, 2011

Note 3-Stewardship, Compliance, and Accountability: (Continued)

A. Budgetary information (Continued)

- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund), Debt Service Funds, and the General Capital Projects Funds. The School Fund and School Capital Projects Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- 8. All budgetary data presented in the accompanying financial statements is the revised budget as of June 30.
- 9. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriations, is not part of the County's accounting system.

B. Excess of expenditures over appropriations

For fiscal year ended June 30, 2011, expenditures did not exceeded appropriations.

C. Deficit fund equity

At June 30, 2011, there were no funds with deficit fund equity.

Note 4-Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board.

Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank,

Notes to Financial Statements June 30, 2011

Note 4-Deposits and Investments: (Continued)

Investments: (Continued)

"prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities:

The County has adopted an investment policy for credit risk.

The County's rated debt investments as of June 30, 2011 were rated by Standard and Poor's and/or an equivalent national rating organization and the ratings are presented below using the Standard and Poor's rating scale.

Rated Debt Investments		Fair Quality Ratings				
	AAA			AAAm		AAm
LGIP	\$	-	\$	2,981,268	\$	_
SNAP		_		205,738		-

(1) In custody of County Administrator's Office

Concentration of Credit Risk:

At June 30, 2011, the County did not have any investments meeting the GASB 40 definition requiring concentration of credit risk disclosures that exceeded 5% of total investments.

Interest Rate Risk:

At June 30, 2011, the County did not have any investments meeting the GASB 40 definition requiring interest rate risk disclosures.

The fair value of the positions in the external investment pool (Local Government Investment Pool (LGIP) and State Non Arbitrage Pool (SNAP)) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Note 11-Employee Retirement System and Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service
 credit. They may retire with a reduced benefit early at age 55 with at least 10 years of service credit
 or age 50 with at least five years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010
 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit
 beginning at their normal Social Security retirement age with at least five years of service credit or
 when the sum of their age and service equals 90. They may retire with a reduced benefit as early as
 age 60 with at least five years of service credit.

Notes to Financial Statements June 30, 2011

Note 11-Employee Retirement System and Pension Plans: (Continued)

A. Plan Description (Continued)

• Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2010-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County of Grayson, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Grayson, Virginia's contribution rate for the fiscal year ended 2011 was 14.61% of annual covered payroll.

Notes to Financial Statements June 30, 2011

Note 11-Employee Retirement System and Pension Plans: (Continued)

B. Funding Policy

Discretely Presented Component Unit - School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2011 was 7.50% of annual covered payroll.

C. Annual Pension Cost

For fiscal year 2011, the County of Grayson, Virginia's annual pension cost of \$488,648 and \$90,260 was equal to the County of Grayson, Virginia's required and actual contributions for the County and the School Board Non-Professional, respectively.

Ihi	ree-Year Trend	Informa	ition			
	Fiscal	Annual		Percentage	Ne	et
	Year	F	Pension	of APC	Pens	sion

	6/30/2010		96,805	100.00%		-
	6/30/2009		99,761	100.00%		-

¹ Employer portion only

The FY 2011 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County of Grayson, Virginia's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County of Grayson, Virginia's and the School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Notes to Financial Statements June 30, 2011

Note 11-Employee Retirement System and Pension Plans: (Continued)

D. Funding Status and Funding Progress

Primary Government:

As of June 30, 2010, the most recent actuarial valuation date, the plan was 71.30% funded. The actuarial accrued liability for benefits was \$19,167,412 and the actuarial value of assets was \$13,666,549, resulting in an unfunded actuarial accrued liability (UAAL) of \$5,500,863. The covered payroll (annual payroll of active employees covered by the plan) was \$3,378,670, and ratio of the UAAL to the payroll was 162.81%.

<u>Discretely Presented Component Unit – School Board (Non-Professional Employees)</u>:

As of June 30, 2010, the most recent actuarial valuation date, the plan was 81.44% funded. The actuarial accrued liability for benefits was \$4,535,472, and the actuarial value of assets was \$3,693,744, resulting in an unfunded actuarial accrued liability (UAAL) of \$841,728. The covered payroll (annual payroll of active employees covered by the plan) was \$1,222,230, and the ratio of the UAAL to the covered payroll was 68.87%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial liability (AAL) for benefits.

E. Discretely Presented Component Unit School Board

PROFESSIONAL EMPLOYEES:

Plan Description

The Grayson County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2008annurept.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements June 30, 2011

Note 11-Employee Retirement System and Pension Plans: (Continued)

E. Discretely Presented Component Unit School Board (Continued)

PROFESSIONAL EMPLOYEES: (Continued)

Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All of part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees was \$808,351, \$848,995, and \$897,826, for the fiscal years ended 2011, 2010, and 2009, respectively. Employer contributions represented 8.93% for the entire fiscal year 2011, 13.81% from July 2009 through March 2010 and 0.00% from April to June 2010, and 8.81% for the entire fiscal year 2009.

Note 12-Other Postemployment Benefits:

A. Plan Description

The Grayson Postemployment Healthcare Plan (The "Plan") is a single-employer defined benefit healthcare plan administered by the County. The Plan provides health insurance benefits to eligible retirees and their spouses. To be eligible, employees must meet the age and service criteria for immediate retirement benefits under VRS, which requires that the employee be age 50 with 10 years of service, or be age 55 with 5 years of service, or permanently, totally disabled and injured in the line of duty. Additionally, the employee must be of full-time status in VRS and must be covered by the active plan at the time of retirement or disability. The benefit provisions, including employer and employee contributions, are governed by the County and can be amended through Board of Supervisor action. The Plan does not issue a publicly available financial report. Additionally, the School System had an Early Retirement Incentive Program that gave employees the option to retire at an earlier age with sufficient years of service. The program is no longer available, but benefits are still being paid. The plan can be amended by School Board action and does not issue a publicly available report.

B. Funding Policy

The Grayson County Government establishes employer medical contribution rates for all medical plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will be partially funded or fully funded in the upcoming fiscal year. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the County. For fiscal year 2011, the County contributed \$35,000 in total for current premiums and prefunding amounts while the School Board contributed \$229,600 for the same.

For retirees, 100 percent of premiums for both the employee and spouse are the responsibility of the retiree. Coverage under the plan ceases when the employee reaches age 65. For retirees under the Early Retirement Incentive Plan, the School Board pays \$386.07 toward monthly premiums.

Notes to Financial Statements June 30, 2011

Note 12-Other Postemployment Benefits: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

		County	Sc	hool Board	Total
Annual required contribution	\$	52,700	\$	285,500 \$	338,200
Interest on net OPEB obligation		1,800		11,800	13,600
Adjustment to annual required contribution		(3,300)		(22,100)	(25,400)
Annual OPEB cost (expense)	-	51,200		275,200	326,400
Actual contributions		(35,000)		(229,600)	(264,600)
Increase in net OPEB obligation		16,200		45,600	61,800
Net OPEB obligation - beginning of year		44,400		294,000	338,400
Net OPEB obligation - end of year	\$	60,600	\$	339,600 \$	400,200

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB Cost	Net OPEB
Year Ended	OPEB Cost	Contributed	Obligation
6/30/2011	\$ 326,400	81%	\$ 489,301
6/30/2010	273,200	41%	338,400
6/30/2009	270,000	34%	177,000

D. Funded Status and Funding Progress

Primary Government:

As of July 1, 2010, the most recent actuarial valuation date, the actuarial accrued liabilities (AAL) were \$399,900, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$3,382,000, and ratio of the UAAL to the covered payroll was 11.8%.

Notes to Financial Statements June 30, 2011

Note 12-Other Postemployment Benefits: (Continued)

D. Funded Status and Funding Progress (Continued)

Component Unit – School Board:

As of July 1, 2010, the most recent actuarial valuation date, the actuarial accrued liabilities (AAL) were \$2,658,100, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$10,750,800, and ratio of the UAAL to the covered payroll was 24.7%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2010, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 4.0 percent investment rate of return per annum. An annual healthcare cost trend rate of 10 percent initially, reduced by decrements of 0.5 percent until an ultimate rate of 5 percent is reached. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2011, was 30 years.

Note 14-Risk Management:

The County and its component unit – School Board are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component unit – School Board participate with other localities in a public entity risk pool for their coverage of general liability and auto insurance with the Virginia Municipal Liability Pool. Each member of each of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit – School Board pay the Virginia Municipal Group contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit – School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements June 30, 2011

Note 15-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 16-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland-Surety:	
Susan Herrington, Clerk of the Circuit Court	\$ 500,000
Fields R. Young, Jr., Treasurer	400,000

Richard A. Vaughan, Sheriff	30,000
All Social Services employees-blanket bond	100,000
Travelers Casualty and Surety Company of America:	_
Board of Supervisors	\$ 100,000
County Administrator's Office	100,000
Component Unit – School Board:	
Virginia School Board Association:	_
All School Board employees-blanket bond	\$ 250,000

Note 17-Landfill Closure and Post-closure Care Cost:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site after closure. \$55,155 is the total estimated post-closure care liability at June 30, 2011. This represents the cumulative amount based on the use of 100% of the estimated capacity of the landfill and is based on what it would cost to perform all remaining closure and post-closure in 2011. Actual costs for post-closure monitoring may change due to inflation, deflation, changes in technology or changes in regulations.

Notes to Financial Statements June 30, 2011

Note 18-Notes Receivable:

Primary Government:

Industrial Development Fund:

On June 5, 2008, the County loaned \$150,000 to US 58 Holdings LLC. The loan is payable in 120 monthly installments of \$1,380.21 starting with the first payment due on August 15, 2008. The note bears interest at the rate of 2%. The outstanding balance at June 30, 2011 was \$113,698.

Community Development Fund:

On October 11, 2000, the County loaned \$200,000 to Grayson Investment, LLC. Interest only payments of 2% are due in annual installments for the first two years. Thereafter, principal and interest payments of \$3,505 are payable in 60 monthly installments until the entire principal balance, together with accrued interest, is paid in full. The outstanding balance at June 30, 2011 was \$64,247.

Note 19-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue on Exhibit 3 is comprised of the following:

<u>Deferred Property Tax Revenue</u> – Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$10,725,547.

<u>Prepaid Property Taxes</u> – Property taxes due subsequent to June 30, 2011, but paid in advance by the taxpayers totaled \$21,385 at June 30, 2011.

On the Statement of Net Assets, unearned revenue consists of prepaid property taxes, as well as \$10,055,367 in property taxes levied January 1 but not due until December 5, 2011.

Note 20-School Board Early Retirement Incentive Plan:

The Grayson County School Board offers all eligible full-time employees an early retirement incentive plan. Early retirement is available to those contracted employees who are members of the Virginia Retirement System (VRS) and are eligible to retire with the VRS. The employee must have attained age 52 and not having attained age 65. Professional employees must have 30 years of service with the last 10 years being with the Grayson County School System. Support personnel must have at least 20 years of service with the last 10 years being with the Grayson County School System. There were three benefit options that each employee could choose from, with years of service being a determining factor in the options available. The School Board reserves the right to amend or terminate the program.

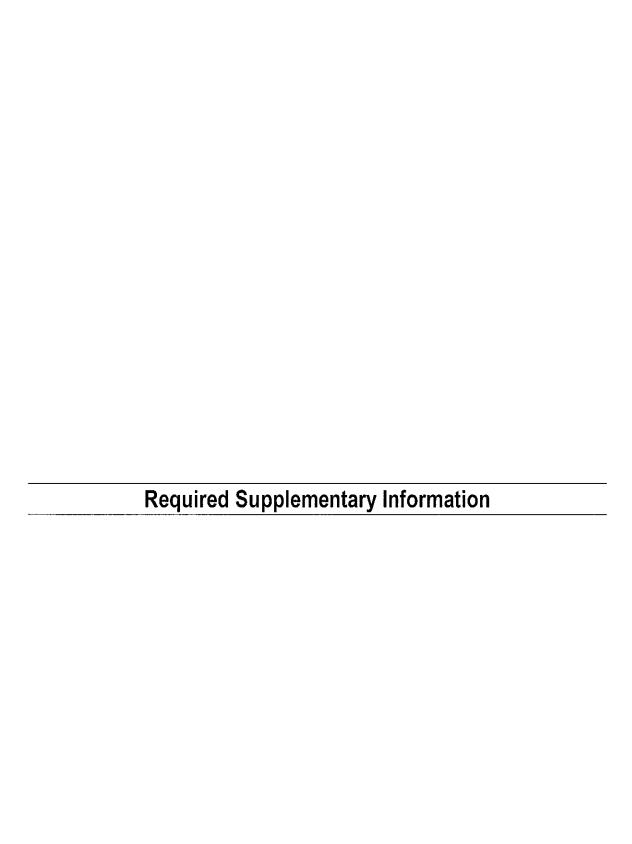

Notes to Financial Statements June 30, 2011

Note 20-School Board Early Retirement Incentive Plan: (continued)

Employees may participate in the plan for a maximum of 14 years or until the appropriate age for receipt of social security benefits, whichever occurs first. In the event of the retiree's death, the balance of the ERIP owed will be paid to the retiree's estate. The School Board funds the plan on a pay as you go basis. As of June 30, 2011, the unfunded balance of the early retirement incentive plan totaled \$527,925.

Note 21-Restatement of Beginning Net Assets:

	Sc	hool Board
Beginning Net Assets, as previously reported	\$	5,762,338
Increase in ERIP liability		(602,364)
Beginning Net Assets, as restated	\$	5,159,974

Fund balances - beginning	•	269,464
Fund balances - ending	\$	1,205
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:		
Net change in fund balances - total governmental funds - per above	\$	(268,259)
Governmental funds report capital outlays as expenditures. However, in the statement of		
activities the cost of those assets is allocated over their estimated useful lives and reported		
as depreciation expense. This is the amount by which the capital outlays exceeded		
depreciation in the current period.		56,026
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has		
any effect on net assets. Also, governmental funds report the effect of issuance costs,		
premiums, discounts, and similar items when debt is first issued, whereas these amounts		
are deferred and amortized in the statement of activities. This amount is the net effect		
of these differences in the treatment of long-term debt and related items.		(60,262)
Some expenses reported in the statement of activities do not require the use of current		
financial resources and, therefore are not reported as expenditures in governmental funds.		(53,502)
minimum variation and managed and managed in garantimation in an arrangement and arrangement arrangement and arrangement arrangement and arrangement a		(,

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF GRAYSON, VIRGINIA

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Grayson, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County of Grayson, Virginia's basic financial statements and have issued our report thereon dated November 17, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the County of Grayson, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Grayson, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Grayson, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the County of Grayson, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Supervisors and others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material

Effect on Each Major Program and on Internal Control Over

Compliance in Accordance with OMB Circular A-133

To the Members of the Board of Supervisors County of Grayson, Virginia

Compliance

We have audited the County of Grayson, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County of Grayson, Virginia's major federal programs for the year ended June 30, 2011. The County of Grayson, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Grayson, Virginia's management. Our responsibility is to express an opinion on the County of Grayson, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Grayson, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Grayson, Virginia's compliance with those requirements.

In our opinion, the County of Grayson, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule findings and guestioned costs as item 2011-1.

Internal Control Over Compliance

Management of the County of Grayson, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Grayson, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing

an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Grayson, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items 2011-1. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The County of Grayson, Virginia's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County of Grayson, Virginia's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

See accompanying notes to schedule of expenditures of federal awards.

County of Grayson, Virginia Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2011

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Grayson, Virginia under programs of the federal government for the year ended June 30, 2011. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-138µdits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Grayson, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Grayson, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB A-&ast Principles for State, Local, and Indian Tribal Governments wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:	
Primary government:	
General Fund	\$ 1,863,268
Fairview Water Fund	141,433
Total primary government	\$ 2,004,701
Component Unit Schools:	
School Operating Fund	\$ 4,201,9 <u>61</u>
T. (1) 1 . (1) . (2)	000 000
Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$ 6,206,662

County of Grayson, Virginia

Section II - Financial Statement Findings

There are no financial statement findings to report.

County of Grayson, Virginia

Schedule of Findings and Questioned Costs Year Ended June 30, 2011

Section III - Federal Award Findings and Questioned Costs

2011-1

Program Titles: Special Education Cluster

1003g School Improvement Grant

CFDA Numbers: 84.027/84.173

84.388

Compliance Requirement: Cash Management

Finding Type: Noncompliance

Criteria:

Per single audit requirements, reimbursement requests should be submitted at a minimum quarterly.

Condition: A review of reimbursement requests disclosed requests that were not being made in a timely manner.

Context: All reimbursement requests that related to the year under audit were reviewed for each program (seven

and five for the Special Education Cluster and 1003g School Improvement Grant, respectively). Of the reimbursement requests reviewed, it was noted that all Special Education Cluster reimbursements were made on the same date, for a period covering 18 months. Of the 1003g reimbursement requests reviewed,

four covered a time period of greater than three months.

Cause: Lack of appropriate procedures over cash management to ensure that reimbursement requests are

submitted at least quarterly.

Effect: Reimbursements of local funds expended for Federal programs are not being received in a timely manner.

Recommendation: Management should establish a policy requiring reimbursement requests for Federal programs to be

submitted at a minimum of quarterly.

Management's

Response and Corrective Action: Management of the School Board has acknowledged that a cash management policy is necessary and is

working to have this implemented in the next year.

Section IV - Status of Prior Audit Findings and Questioned Costs

There were no prior findings reported.
