November 29, 2012

The Honorable Members of the School Board:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the School Board of Newport News, Virginia (the School Board or Newport News Public Schools), for the fiscal year ended June 30, 2012. The School Board is responsible for the accuracy, completeness and fairness of the data presented. We believe that the data presented is accurate in all material respects and presents fairly the financial position and results of operations of the School Board's various funds.

Management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the School Board are protected from loss, theft or misuse; and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

An annual audit of the books of accounts, financial records, and transactions of the School Board has been performed by Cherry, Bekaert & Holland, L.L.P., independent certified public accountants. The auditor's report, which includes their unqualified opinion on the basic financial statements of the School Board, is contained in this report.

Overview of the Report

We have divided the CAFR into four sections: introductory, financial, statistical and compliance. The Introductory Section includes helpful information on the School Board's structure. The Financial Section includes the auditor's report, management's discussion and analysis, government-wide financial statements, note disclosures, required supplementary information, supplementary information, and governmental fund financial statements. The Statistical Section is a compilation of tables that show multi-year financial, economic and demographic information. The Compliance section demonstrates our compliance with the requirements associated with Federal grants.

The report covers financial transactions of all services provided by the School Board.

School Board profile

The School Board of the City of Newport News, Virginia (the School Board) was established in 1898 to provide educational opportunities to the residents of the City of Newport News, Virginia (the City). The School Board is the elected body operating under the Constitution of Virginia and the *Code of Virginia*. The members of the School Board are elected by the citizens of the City to serve four-year terms. The School Board determines educational policy and employs a superintendent of schools to administer the public school system.

Smart, Safe Schools www.nnsthools.org The School Board provides a full range of public educational services to approximately 30,200 students from grades pre-kindergarten through the 12th grade.

The School Board receives funding from taxes collected and allocated by the City and state in addition to federal aid. School construction projects are funded by general obligation bonds, operating cash transfers and State Literary Loans approved by the Newport News City Council (the Council), as well as some state grants. The School Board itself has no power to levy and collect taxes, or to increase the budget. The Council annually appropriates funds to the School Board for educational expenditures, levies taxes, and issues debt on behalf of the School Board. The legal liability for general obligation debt remains with the City. Because of the relationship with the City, the School Board is considered a component unit of the city government as defined by accounting principles generally accepted in the United States of America (GAAP) for governmental entities.

The School Board provides educational services in 41 separate school facilities plus alternative services at three additional non-owned sites. The School Board's buildings range in age from eight years old to 92 years old, with approximately two-thirds of all facilities being at least thirty years old. However, many schools have received extensive renovations throughout their life.

The basic financial statements and supplementary data in this report include all funds administered by the School Board in conjunction with its mission of providing elementary and secondary public education.

Factors Affecting Financial Condition

Local economy. The School Board's boundaries are co-terminus with the City of Newport News ("the City" or "Newport News"). Huntington Ingalls Industries, Inc. is by far the largest employer and taxpayer of the City. Newport News also has a significant military presence, with numerous military installations located in or near the City. The City has a broad range of industrial parks and commercial centers supporting light industrial, research and technology and commercial and retail operations. These include the Oakland Industrial Park, Carleton Farm Industrial Park, Patrick Henry CommerCenter, Oyster Point of Newport News, Jefferson Center for Research and Technology, Copeland Industrial Park, and the Southeast Commerce Center. The City is well situated to maintain a diversified economy.

Budgetary Controls. The School Board maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Activities of the General Fund are included in the annual appropriated budget approved by City Council.

The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the fund level. In addition, certain controls are exercised administratively on the General Fund, such as the number of full-time equivalent (FTE) authorized positions and expenditure budgets by departments and individual line items. The School Board also maintains an encumbrance accounting system. Budgets are adopted on a basis consistent with GAAP, except that encumbrances are included as budgetary expenditures and that net revenues and expenditures for the medical self-insurance program are excluded from the budget comparison.

Annual legal operating budgets are adopted for the Workers' Compensation Fund and Textbook Special Revenue Fund and are therefore included in the budget and actual comparisons. Program budgets for other special revenue funds are administratively approved on a basis consistent with the related grant applications. Project and program budgets are utilized in the Capital Projects Funds and certain Special Revenue Funds where appropriations remain open and carry over to succeeding years.

Financial Highlights. The School Board continues to be in sound financial condition as demonstrated by the financial statements and schedules included in this report. The School Board has operated within the resources available while achieving many of its program goals.

The School Board is expected to continue to experience virtually no change in funding in the near future, while enrollment is expected to decrease only slightly. FY2013 General Fund funding is expected to increase by \$2.0 million (0.7% increase) as compared to the FY2012 budget. The State is providing \$0.4 million more funding and the City is providing \$1.2 million more for the upcoming year. However, the State increased the pension rate for teachers and professionals and the net \$0.4 million is really a combination of a \$3.8 million increase for fringe benefit costs (primarily the pension rate increase) and \$3.4 million decrease for in funding for all other programs. The forecast for FY2014 is not yet known. However, during FY2013 \$7.0 million in one-time Federal stimulus job funds were used to pay recurring payroll costs. Federal stimulus funds have now been used in their entirety and funding for compensation and related fringe benefits will be problematic in FY2014 without this Federal funding source.

Enrollment is expected to decrease by approximately one-half of one percent.

See the Management's Discussion and Analysis beginning on page 3 of the financial section of this report for an in-depth financial analysis.

Financial Resiliency. The School Board adopted a strategic plan to drive student success. Achieving the Academic Agenda for students requires a systemic, connected plan. To this end, the Board affirmed five strategic supports that are necessary to achieve student success. One of the supports is financial resiliency. Resilient school divisions evolve their planning process as needed to address new issues, keep up with best practices, and anticipate the changing needs of the organization created by economic conditions, community expectations, and state and federal regulations. NNPS will ensure long-term success by aligning current and future resources with the district's mission through: financial literacy for staff to identify, analyze and develop strategies to address issues; long-range planning; adoption of best business and operational practices; and community awareness of NNPS fiscal management.

Risk Management. The School Board's risk management program is designed to protect the investment of taxpayers by identifying and reducing risks that confront the School Board. Risk is managed with a combination of commercial insurance with small deductibles and self-insurance combined with reinsurance for large claims. Commercial insurance with small deductibles is maintained for general liability, property, and errors and omissions. The School Board participates with the City in a self-insurance program for vehicles (with re-insurance for claims over \$1 million). Self-insurance is maintained for employee health insurance (with reinsurance for individual claims over \$175 thousand and aggregate claims exceeding 110% of adjusted subscriber charges (maximum liability) and workers' compensation (no re-insurance contracted for).

Accomplishments and Awards

School Accreditation. Accreditation standards require all schools to meet objectives for achievement in English, mathematics, history, and science. High schools must also meet a graduation and completion index. To be fully accredited for the 2011-2012 school year, at least 70 percent of students must pass the SOL tests in English, math, history, and science (75% in English in grades three and five, and 50% in third grade science and history). Schools could also earn full accreditation for meeting the benchmarks based on a three year average or through alternative benchmarks. High schools must also attain a point value of at least 85 based on the Graduation and Completion Index. School accreditation for the 2011-2012 school-year was based on the achievement of students on the 2010-2011 administration of Standards of Learning tests.

Thirty two of our forty schools were fully accredited by the State.

Recognition:

- Newport News high schools are among more than 1,900 public high schools included in the Washington Post's High School Challenge in 2011. High schools are ranked by enrollment in, and access to, Advanced Placement and International Baccalaureate courses.
- Heritage and Menchville High Schools are named Blue Star Schools for students' performance on the Working in Support of Education (W!SE) Financial Literacy Certification Test. In order to win the designation, a school's students must have a 75 percent passing rate on the test with either a majority of students at a given grade level taking the test or an average score of 80 percent or higher by students who take the test.

In addition to the schools being honored, teachers at three schools have been named Gold Star Teachers because at least 90 percent of their students passed the W!SE test. The teachers are Linda Richardson at Denbigh High School, Tiffanie Smith at Heritage High School and Cynthia Earl at Menchville High School.

- The school district continues its third year of a new Dropout Prevention and Recovery program. Over 1,000 students who had dropped out have returned and are on track to earn a high school diploma or GED. Starting in middle school, intervention plans are implemented for youth who are at risk of dropping out, and the transition process for rising ninth graders was expanded.
- To provide additional class options, online courses are offered at all high schools. Students also have the option of receiving college credit through dual enrollment at Thomas Nelson Community College. Last year, 700 students took advantage of this option.
- Newport News Public Schools has 64 National Board Certified Teachers. National Board Certification is recognized nationally as a benchmark for teacher quality and is the highest credential in the profession.

- Over ninety-nine percent (99%) of the School Board's teachers are designated as highly qualified by federal No Child Left Behind standards.
- Deer Park Elementary School and Hilton Elementary School earned the 2012 Virginia Board of Education Excellence Award. The schools are among 188 schools in the Commonwealth selected to receive the award, the second-highest honor in the Virginia Index of Performance (VIP) awards for advanced learning and achievement. To qualify for the Excellence Award, schools must meet all state and federal achievement benchmarks for at least two consecutive years and make significant progress in increasing student achievement and expanding educational opportunities established by the state Board of Education.
- Nine Newport News students were recognized in the 2012 National Merit and National Achievement Scholarship programs.
- 228 students were named 2012 Advanced Placement Scholars, Scholars with Honor, or Scholars with Distinction, qualifying them for potential college credit. To receive this distinction, a student must receive grades of three or higher (out of five) on at least three Advanced Placement exams. Ten students were named National AP Scholars. National AP Scholars receive an average score of at least 4 on all AP exams and scores of 4 or higher on at least eight AP exams.

Awards:

Newport News Public Schools was awarded the Virginia School Plant Managers Association (VSPMA) Facilities Masters Award in 2011. The award recognizes school districts that meet national standards of excellence in facilities and maintenance operations. Newport News Public Schools is one of just two districts in Virginia to earn the award at the platinum level this year, the highest distinction a school district may receive. This award is earned by those who are recognized for providing access to information on inspections, efficient work orders systems and performance audits, while implementing new initiatives.

Newport News Public Schools' Dropout Prevention and Recovery Program and the "Spring Break: Make It Work" Program earned first place Magna Awards from the National School Boards Association for 2012. The Magna Awards honor best practices and innovative programs that advance student learning. The School Board is the only district in the nation that is recognized with two first place awards.

Newport News Public Schools has earned several awards in recognition of outstanding financial management and distinguished budget presentation. The school district earned an Outstanding Achievement Award from the Government Finance Officers Association for its Popular Annual Financial Report for the 2011 fiscal year. The School Board's comprehensive budget document earned the Government Finance Officers Association's Distinguished Budget Presentation Award for fiscal year 2011. In addition, the board's FY 2012 budget earned the Association of School Business Officials International Meritorious Budget Award for excellence in budget presentation.

Acknowledgements:

The preparation of the School Board's CAFR was accomplished with the dedicated services of personnel from the Accounting Office of the Business Department. This effort was led by Steven Kanehl, CPA, Accounting Supervisor, and supported by members of the Business Office.

Further appreciation is extended to each member of the School Board and the Superintendent for their interest and support in planning and conducting the financial operations of the School Board in a responsible manner.

Sincerely,

Mary Lou Roaseau, CPA

Assistant Superintendent - Business and Support Services

Independent Auditor's Report

The Honorable Members of the School Board of the City of Newport News, Virginia

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board of the City of Newport News, Virginia (the "School Board"), a component unit of the City of Newport News, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the School Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School Board's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Student Activity Funds, a fiduciary fund of the School Board. Those financial statements were audited by other auditors, whose report thereon has been furnished to us, and our opinions, insofar as it relates to the amounts included for the Student Activity Funds, are based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to previously present fairly, in all material respects, the financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board of the City of Newport News, Virginia, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2012, on our consideration of the School Board's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the

basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is also presented for the purpose of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements of the School Board. The combining and individual nonmajor fund financial statements and schedules, including the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic statements and, accordingly, we do not express an opinion or provide any assurance on it.

Cheng Bekaut + Holland, C.C. P.

Richmond, Virginia November 29, 2012

Management's Discussion and Analysis (Unaudited)

June 30, 2012

The following discussion and analysis of The School Board of the City of Newport News, Virginia's (the School Board) financial performance provides an overview of the School Board's financial activities as of and for the fiscal year ended June 30, 2012. The analysis focuses on the School Board's financial performance as a whole. Please read it in conjunction with the transmittal letter at the front of this report and the School Board's financial statements, which follow this section.

Financial Highlights for Fiscal Year (FY) 2012

The School Board, on a government-wide basis, had an increase in net assets of \$3.2 million to \$73.5 million.

Investment in capital assets, net of related debt, increased by \$5.6 million. This was due primarily to the completion of the science lab renovations in the middle and high schools of \$1.7 million, the purchase of 39 school buses at a cost of \$3.1 million and the renovation of high school cafeterias of \$1.4 million.

Restricted net assets increased by \$4.8 million primarily due to the establishment of the Workers' Compensation and Textbook funds less an expenditure of restricted net assets for school buses. Workers' compensation and textbook net assets of \$2.9 million and \$5.1 million respectively became restricted at July 1, 2011 and were previously reported as unrestricted. The funding is considered restricted by a legal annual appropriation made by the Newport News City Council. During FY2012 school bus purchases of \$1.3 million were made from restricted net assets and \$1.5 million of textbook purchases were made from restricted net assets. All other changes amounted to a \$0.4 million decrease to finish accounting for the change in restricted net assets.

Unrestricted net assets decreased by \$7.2 primarily due to the above \$2.9 million and \$5.1 million in net assets now shown as restricted for workers' compensation and textbooks.

The General Fund utilized all available resources to meet School Board needs; therefore no funds reverted to the City.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the School Board's basic financial statements.

This Comprehensive Annual Financial Report consists of three sections: introductory, financial and statistical. The financial section has four components – management's discussion and analysis (this section), the basic financial statements, required supplementary information, and supplementary information.

Management's Discussion and Analysis (Unaudited)

June 30, 2012

The School Board's financial statements consist of two kinds of statements that present different views of the School Board's financial activities.

- The Statement of Net Assets and Statement of Activities provide information on a government-wide basis. The statements present an aggregate view of the School Board's finances. The government-wide financial statements provide both long-term and short-term information about the School Board's overall financial status.
- The fund financial statements focus on the individual parts of the School Board, reporting School Board operations with more information and detail than the government-wide statements.

Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year to year, or government to government) and enhance the School Board's accountability. The notes to the financial statements explain some of the information in the statements and provide additional disclosures so that statement users have a complete picture of the School Board's financial activities and position. The required supplementary information further explains and supports the financial statements.

Government-Wide Financial Statements

The government-wide financial statements report information about the School Board as a whole using accounting methods similar to those used by private-sector companies. An important question one could ask about the School Board's finances is, "Is the School Board as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which are the government-wide statements, report information about the School Board as a whole and its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School Board's net assets and changes in them. The School Board's net assets, which are the difference between assets and liabilities, are one way to measure the School Board's financial position. Over time, increases or decreases in the School Board's net assets are indicators of whether or not its financial position is improving. Other factors will also need to be considered, such as the overall economy of the State and the City, from which most of the School Board's resources are derived.

Fund Financial Statements

Traditional users of government financial statements will find the fund financial presentation more familiar. The focus is on the School Board's most significant fund, the General Fund. The Grant Fund and the General Obligation Bond Fund are also considered major funds. All of the School Board's other funds are considered non-major funds. They are summarized into one total, but the details of each fund are also shown.

Management's Discussion and Analysis (Unaudited)

June 30, 2012

Financial Analysis of the School Board as a Whole

The School Board presents its financial statements under the reporting model required by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*.

The following table reflects the condensed net assets of the School Board:

	Tab Net A (In mi	ssets					
	FY	2012	FY	Y 2011	Change		
Current and other assets	\$	73.7	\$	77.5	\$	(3.8)	
Capital assets, net		76.0		73.8		2.2	
Total assets	\$	149.7	\$	151.3	\$	(1.6)	
Other liabilities	\$	30.1	\$	32.7	\$	(2.6)	
Long-term liabilities		46.1		48.3		(2.2)	
Total liabilities	\$	76.2	\$	81.0	\$	(4.8)	
Net assets:							
Invested in capital assets,							
net of related debt	\$	67.4	\$	61.8	\$	5.6	
Restricted		10.3		5.5		4.8	
Unrestricted		(4.2)		3.0		(7.2)	
Total net assets	\$	73.5	\$	70.3	\$	3.2	

The School Board's total net assets showed an increase of \$3.2 million (4.6%), increasing to \$73.5 million. This was comprised of an increase in invested in capital assets, net of related debt of \$5.6 million and an increase in restricted net assets of \$4.8 million and a decrease in unrestricted net assets of \$7.2 million.

Current and other assets decreased by \$3.8 million (4.9%). This was primarily due to three factors: 1. Payments for textbooks were \$1.2 million more than amounts received for that purpose. 2. The School Board paid \$1.3 million more for school buses than funding received in FY2012. The funding had been received in FY2011 and had resulted in a temporary increase to unrestricted net assets 3. Other liabilities, primarily for accounts payable, decreased as the School Board paid liabilities for large construction projects in progress at June 30, 2011 during FY2012

Capital assets (net of depreciation) increased by \$2.2 million (3.0%). This is the result of additions of \$9.3 million less depreciation expense of \$7.1 million. The largest component in additions was \$1.7 million more for construction of science lab renovations in the middle and high schools funded by Federal stimulus dollars (\$4.7 million was added in FY2011 for a grand total of \$6.4 million). In addition, 39 school buses were procured at a cost of \$3.1 million. Another large project was the upgrade to high school cafeterias costing \$1.4 million.

Management's Discussion and Analysis (Unaudited)

June 30, 2012

Other liabilities decreased by \$2.6 million (8.0%), primarily due to the payoff of \$1.4 million due at June 30, 2012 for the aforementioned science lab renovation project, \$0.9 million due for HVAC capital project renovations and \$0.5 million due for Todd Stadium capital project renovations. Long term liabilities decreased by \$2.2 million (4.6%) primarily due to \$3.4 million in principal payments on capital leases and facility notes payable offset by an increase in the amount owed for other post-employment benefits of \$1.2 million. Included in the principal payments was the early payoff of the capital lease on the Staff Support Center of \$0.4 million

The following table summarizes the changes in the School Board's net assets:

Table 2

Management's Discussion and Analysis (Unaudited)

June 30, 2012

For the fiscal year ended June 30, 2012, revenues from governmental activities (excluding charges for services and interest) totaled \$312.8 million. State Standards of Quality (SOQ) Funds account for \$135.8 million (43.4%) of the School Board's resources. These funds are based on student membership counts. The SOQ funds increased by \$2.8 million (2.1%) over FY 2011 due to the State contributing more for the cost of fringe benefits, primarily pension costs.

Local revenue from the City is shown net of the amount returned for debt service (to reflect bonded debt still outstanding and owed by the City for school capital assets). The detail is as follows:

Revenue to the General Fund	\$ 112,200,000
Less debt service returned to the City	(14,165,160)
Add Revenue General Obligation Bond Fund	8,947,255
Add Revenue General Capital Fund	1,860,000
Less net capital assets transferred	
tenancy-in-common	(10,088,045)
Net amount from City - Entity-wide	
statements	\$ 98,754,050

Revenue from the City in FY 2012 was \$98.8 million (31.0% of the total), a decrease of \$0.8 million. However, the City did increase revenue to the General Fund by \$3.0 million during FY2012, but the other adjustments detailed above offset that to result in a \$0.8 million decrease.

Federal revenue increased by \$0.2 million to \$5.4 million (1.7% of the total) in FY2012 due to the School Board qualifying for certain Department of Defense funding by having at least 20% of students have a federal connection.

Operating grants, which were comprised of approximately 65% from federal sources and 35% from state sources, totaled \$70.2 million (22.0% of the total). This category increased by \$1.4 million (2.0%).

Capital grants and contributions decreased by \$3.2 million due to Federal stimulus funding being used in FY2011 to renovate middle and high school science labs. That project was largely completed in FY2011.

Expenses for FY 2012 totaled \$315.7 million, a decrease of \$3.0 million (0.9%).

Academic services accounted for \$227.4 million (72.0%) of the School Board's total spending. A significant portion of this amount is for the salaries and benefits of teachers, teacher assistants and instructional administrators. This function decreased by \$3.4 million (1.5%). A large portion of the decrease was attributed to decreases in positions, vacancies and unfilled positions.

Business and support services were the next highest cost category with a total of \$34.6 million (11.0% of the total). Much of these expenses relate to the operation (utilities and insurance), maintenance, and cleaning of our 44 regular schools, alternative school sites, and administrative offices. This category showed a \$1.1 million (3.3%) increase. This was due to cash capital projects, primarily funded by purchase orders issued in FY2011 but the work was not undertaken and completed until FY2012. Among the largest projects were paving, asbestos testing and abatement, LED lighting replacement and locker replacement.

Transportation services are the third largest cost category, with expenses of \$18.7 million (5.9% of the total). This category showed an increase of \$1.3 million (7.0%). Increased fringe benefit costs for health

Management's Discussion and Analysis (Unaudited)

June 30, 2012

insurance, city pension, and OPEB accounted for about two-thirds of the increase and increased fuel costs due to rising prices accounted for most of the remaining one-third.

Child nutrition services are the fourth largest cost category, with expenses of \$14.1 million (4.5% of the total). This category showed an increase of \$0.3 million (2.2%). Most of this increase was related to increased health insurance and food costs.

Capital Assets

At the end of FY 2012, the School Board had invested \$76.0 million in capital assets, as reflected in the following schedule. This net amount reflects historical cost of \$161.3 million and accumulated depreciation of \$85.2 million. In addition, the School Board and the City hold assets in-common (AHTIC) a net of \$146.9 million of capital assets, which are reflected in the financial statements of the City (historical cost of \$204.6 million net of accumulated depreciation of \$57.7 million). Most school buildings and improvements undertaken in the past 20 years, for which City bonded debt has been issued, are included. (The City has also net bonded debt outstanding related to School Board projects of approximately the same net amount). The following table shows the capital assets recorded on the School Board's books at year end.

Table 3
Capital Assets, Net
(In millions)

FY	Z 2012	F	Y 2011	Change	
Φ.	2.5	Φ.	2.5	Ф	
\$		\$		\$	- (4.6)
	0.1		4.7		(4.6)
	46.8		46.3		0.5
	50.9		43.0		7.9
	60.9		57.8		3.1
	(85.2)		(80.5)		(4.7)
\$	76.0	\$	73.8	\$	2.2
	\$ \$	0.1 46.8 50.9 60.9 (85.2)	\$ 2.5 \$ 0.1 \$ 46.8 50.9 60.9 (85.2)	\$ 2.5 \$ 2.5 0.1 4.7 46.8 46.3 50.9 43.0 60.9 57.8 (85.2) (80.5)	\$ 2.5 \$ 2.5 \$ 4.7 \$ 46.8 46.3 50.9 43.0 60.9 57.8 (85.2) (80.5)

Construction in progress decreased by \$4.6 million due to the completion of the science lab renovation in middle and secondary schools funded by Federal stimulus money. Building improvements increased primarily due to the science lab renovation of \$6.5 million and \$1.4 million for secondary school cafeteria improvements. Equipment and vehicles increased by \$3.1 million due to the procurement of 39 school buses. Accumulated depreciation increased by \$4.7 million, primarily due to depreciation expense of \$7.1 million offset by retirements of \$2.4 million. See note 4 to the financial statements for additional information.

Management's Discussion and Analysis (Unaudited)

June 30, 2012

Long-Term Liabilities

The School Board cannot issue bonded debt. Our long-term liabilities are related to capital leases on equipment, capital facility notes payable, compensated absences, workers' compensation claims payable (under our self-insurance program), other post-employment benefits and incurred but not reported claims under our self-insured employee health insurance program. Our long-term liabilities had a net decrease of \$2.2 million. Principal payments on capital facility notes payable and capital leases reduced debt by \$3.4 million. Amount owed for other post-employment benefits increased by \$1.2 million. See note 6 in the notes to basic financial statements for additional information.

Financial Analysis of the School Board's Funds

For the fiscal year ended June 30, 2012, the governmental funds had a combined fund balance of \$43.6 million. This is a decrease of \$1.2 million as compared to June 30, 2011. The primary reason for the decrease was several transactions in other governmental funds. The General Capital Fund purchased school buses and used \$1.3 million in funding received in FY2011. In addition, the Textbook Fund spent \$1.2 million more than received in current year resources. However, the Child Nutrition Fund had a \$0.8 million increased due to increased meals provided and an increased meal reimbursement rate from the Federal government.

See pages 14 and 15 of the basic financial statements for additional detail.

Management's Discussion and Analysis (Unaudited)

June 30, 2012

General Fund Budgetary Highlights

Table 4
General Fund Budget to Actual Summary (non-GAAP basis)

Year ended June 30, 2012 (In millions)

	Original Budget	Amended Budget	Actual	Variance		
Revenues:						
State	\$ 160.8	\$ 160.8	\$ 158.4	\$ (2.4)		
City	112.2	112.2	112.2	-		
Federal	4.1	4.1	5.4	1.3		
Other	1.9	1.9	1.9			
Total revenues	279.0	279.0	277.9	(1.1)		
Expenditures and transfers:						
Expenditures	264.8	264.8	264.0	(0.8)		
Transfers	14.2	14.2	14.2			
Total expenditures						
and transfers	279.0	279.0	278.2	(0.8)		
Change in fund balance	\$ -	\$ -	\$ (0.3)	\$ (0.3)		

The School Board saved \$0.3 million in prior year purchase orders (not part of the budget basis) to offset the \$0.3 million decrease in fund balance shown above.

Revenues from the state were \$2.4 million less than the budget due to less State basic aid. Lower enrollment than budgeted resulted in a shortfall of \$1.7 million and sales tax revenue was \$0.4 million less than budgeted were the primary reasons. Federal revenues were \$1.3 million more than the budget due to increased Impact Aid funds of \$1.0 million, Department of Defense funding budgeted at \$0.2 million and Medicaid funding of \$0.1 million.

Expenditures were \$0.8 million less than budgeted primarily due to savings related to leaving many vacancies open during the year and savings in utility costs.

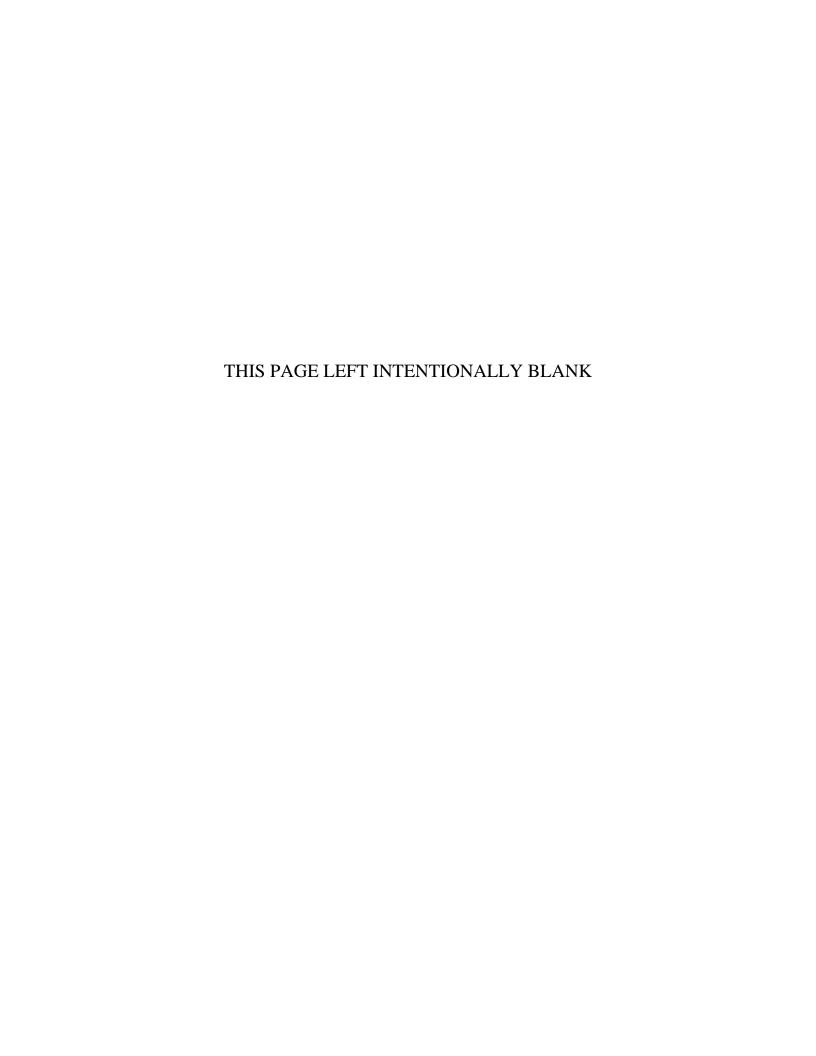

Economic Factors

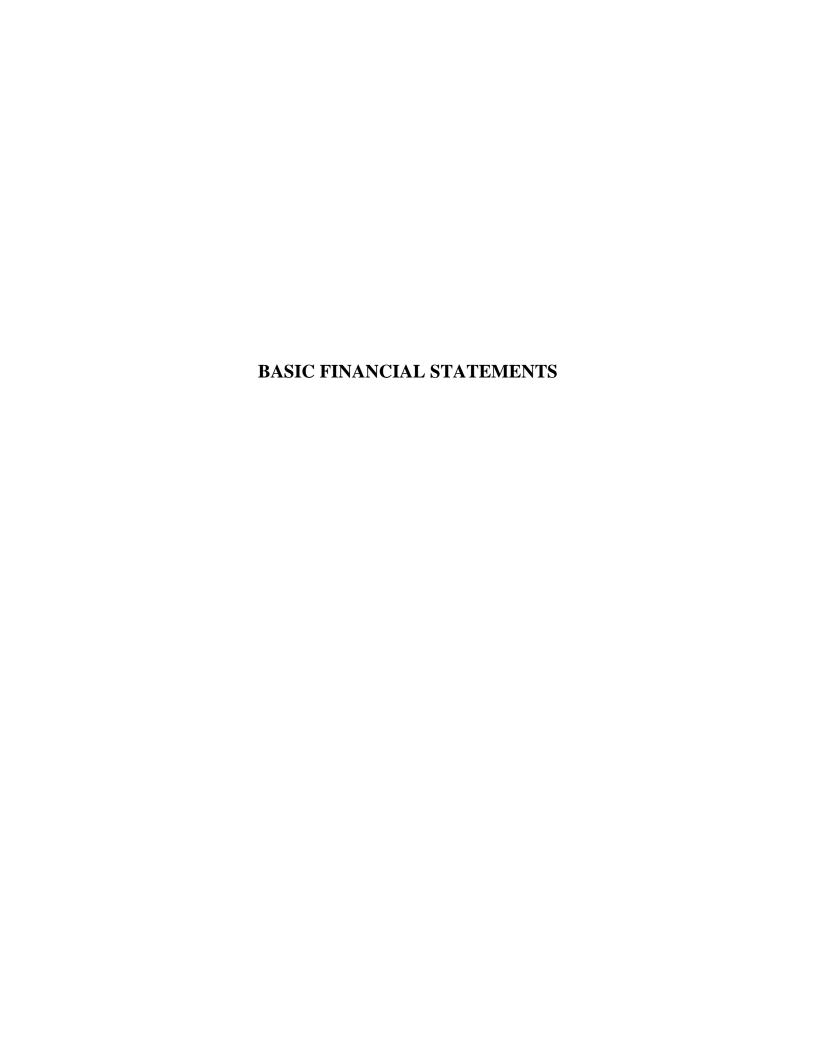

The School Board is financially dependent upon the state and city governments. State funding is primarily dependent upon income and sales tax both of which are expected to show very slow growth in the near term. The City is dependent upon property tax revenue, expected to be virtually flat in the near term. FY2013 General Fund funding is expected to increase by \$2.0 million (0.7%) as compared to the FY2012 budget. The State is providing \$0.4 million (0.2%) more funding and the City is providing \$1.2 million (1%) more for the upcoming year. However, the State increased the pension rate for teachers and professionals and the net \$0.4 million is really a combination of a \$3.8 million increase for fringe benefit costs (primarily the pension rate increase) and \$3.4 million decrease for in funding for all other programs.

Contacting the School Board's Financial Management

This financial report is designed to provide our citizens, taxpayers, local business owners, parents and vendors with a general overview of the School Board's finances and to demonstrate the School Board's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Mary Lou Roaseau, Assistant Superintendent – Business and Support Services, 12465 Warwick Boulevard, Newport News, Virginia 23606, telephone (757) 591-4511. In addition, there is much nonfinancial information on our schools, curriculum and programs on the School Board's website at www.sbo.nn.k12.va.us.

(1) Summary of Significant Accounting Policies

Narrative Profile

The School Board of the City of Newport News, Virginia (the School Board) was established in 1898 to provide educational opportunities to the residents of the City of Newport News, Virginia (the City). The School Board is the elected body operating under the Constitution of Virginia and the *Code of Virginia*. The members of the School Board are elected by the citizens of the City to serve four-year terms. The School Board determines educational policy and employs a superintendent of schools to administer the public school system.

(a) Financial Reporting Entity

The School Board receives funding from taxes collected and allocated by the City and state in addition to federal aid. School construction projects are funded by general obligation bonds and State Literary Loans approved by the Newport News City Council (the Council), as well as some state grants. The School Board itself has no power to levy and collect taxes, or to increase the budget. The Council annually appropriates funds to the School Board for educational expenditures, levies taxes, and issues debt on behalf of the School Board. The legal liability for general obligation debt remains with the City. Because of the relationship with the City, the School Board is considered a component unit of the city government as defined by accounting principles generally accepted in the United States of America (GAAP) for governmental entities.

(b) Basis of Presentation

The School Board's financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements: The statement of net assets and the statement of activities display information about the School Board as a whole, except for fiduciary funds. These statements are reflected on a full accrual basis of accounting and economic resources measurement focus, which incorporates long-term assets as well as long-term liabilities. Transfers are eliminated to avoid "doubling up" revenues and expenditures. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The statement of net assets presents the financial condition of the governmental activities of the School Board at year end. The School Board does not have any business-type activities. The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore identifiable to a particular function. Expenses are grouped in the following categories: Academic services, Transportation services, Business and support services, Child nutrition services, Technology services, Human resources, Administration and Interest on capital debt.

Notes to Basic Financial Statements
June 30, 2012

Program revenues include charges paid by the recipient for the goods or services offered by the program or from grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Charges for services include adult education, summer school tuition and cafeteria sales. Revenues not classified as program revenues are presented as general revenues of the School Board. This includes funding provided by the Commonwealth of Virginia related to their adopted Standards of Quality (SOQ). SOQ funds take into account funding for all educationally related functions of the School Board and are based upon student enrollment and prevailing average costs throughout the state. We have shown these revenues as general revenues as the intricacies of the funding formula do not permit a breakdown by function. The comparison of direct expenses with program revenues identifies the extent to which the governmental function is self-financing or draws from the general revenues of the School Board. The School Board does not allocate indirect expenses. When both restricted and unrestricted resources are available for use, it is the School Board's policy to use restricted resources first.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation.

Fund Financial Statements: During the year, the School Board segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements present financial information of the School Board at this more detailed level. The focus of governmental fund financial statements is on major funds, each displayed in a separate column. The School Board has identified the General Fund, the Grant Fund and the General Obligation Bond Fund of its governmental funds as major.

The accounts of the School Board are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. The fund statements are presented on a current financial resources measurement focus and the modified accrual basis of accounting. The acquisition, use and balances of the School Board's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is based upon the determination of changes in financial position, rather than upon net income determination.

The School Board reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in another fund. Revenues are primarily from intergovernmental revenues.

Grant Fund – The Grant Fund accounts for the proceeds of federal and state operating and capital grants which are received for a designated purpose.

General Obligation Bond Fund – This fund accounts for proceeds of general obligation bonds issued by the City of Newport News to construct or purchase capital assets.

Notes to Basic Financial Statements
June 30, 2012

Additionally, the School Board reports the following governmental and fiduciary funds:

Special Revenue Funds – Special Revenue Funds account for revenue derived from specific revenue sources (other than major capital projects) that are restricted to expenditures for specified purposes. In FY 2012 the School Board established the Workers' Compensation Fund and Textbook Fund.

Capital Projects Funds – Capital Projects Funds are used to account for financial resources received and used for the acquisition, construction, or improvement of capital facilities or maintenance of the school plant (other than those financed by the other funds).

Fiduciary Funds – Fiduciary Funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. The School Board has two Fiduciary Funds. The OPEB Trust Fund accounts for the resources the School Board uses to pay other post-employment benefits. The other Fiduciary Fund is an Agency Fund, the Student Activity Fund, which accounts for the student activity monies maintained on behalf of the students at each school. Fiduciary Funds are not included in the government-wide financial statements.

(c) Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting and economic resources measurement focus. Governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting and have no measurement focus. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Under the modified accrual basis of accounting, revenues are recorded when subject to accrual (i.e., both measurable and available). Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The School Board considers collections within 60 days of year end as available. Sales tax revenue is accrued when the underlying sales transaction has taken place and is remitted to the School Board within 60 days of the sales transaction. Federal impact aid revenue is recognized as earned based upon entitlements calculated using eligible student data and federally authorized payment provisions based upon the federal fiscal year with an allowance to recognize adjustments for prior years. Expenditures, other than principal and interest on long-term debt which is recorded when due, are recorded when the related fund liability is incurred.

Notes to Basic Financial Statements
June 30, 2012

In applying the subject to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the School Board; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the accrual criteria are met.

Under the accrual basis of accounting, revenues are recognized when earned. Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Expenses are recognized at the time they are incurred.

(d) Encumbrances

The School Board employs encumbrance accounting under which obligations in the form of purchase orders, contracts and other commitments for the expenditure of funds are reported as reservations of fund balances, since they do not constitute expenditures or liabilities. Appropriations with outstanding commitments or encumbrances are carried into the following year. According to the City of Newport News Code, unexpended, unencumbered appropriations lapse at the end of the year.

(e) Cash, Cash Equivalents, and Investments

Cash and temporary investments are pooled with the cash and investments of the City, except for petty cash of \$2,445. The School Board utilizes the pooled cash investment method wherein income from the investment of pooled cash is allocated to the various funds based on the percentage of cash and cash equivalents of each fund to the total pooled cash and cash equivalents. Investments that are held for more than one year to maturity are stated at fair value while investments that are held for less than one year to maturity are stated at amortized cost. The cash in the Agency Fund represents the Student Activity Fund cash balances in the separate bank accounts maintained by the individual schools. The investments in the OPEB Trust Fund are valued at fair value and maintained in the Virginia Association of Counties/Virginia Municipal League (VACO/VML) OPEB Pooled Trust Fund.

(f) Receivables and Due from Other Governments

Amounts due from the Commonwealth of Virginia consist primarily of May and June sales tax, receivables from state entitlements and reimbursement of grants expenditures. Amounts due from federal government are for reimbursement of grants expenditures. Receivables consist primarily of amounts due from students and other customers of the School Board. All amounts should be collected within one year.

Notes to Basic Financial Statements
June 30, 2012

(g) Inventories

Inventories consist of consumable materials and supplies held for future consumption. Inventory is accounted for under the purchases method. The cost is recorded as an expenditure at the time inventory is purchased. Quantities on hand at year-end are recorded on the Government Funds balance sheet at cost on a first-in, first-out basis with an offsetting reserve to fund balance.

(h) Prepaid Items

A prepaid item of \$12,147,599 represents healthcare premiums paid in advance on deposit with our third-party claims administrator. The School Board's healthcare program is self-insured (see note 8 (a) for further information). Premiums paid in prior years have been more than actual claims and expenses. The premiums have been left on deposit to pay future healthcare premiums. The funds are accounted for on the consumption method.

(i) Capital Assets

General capital assets have been acquired for general school purposes. Capital outlays are recorded as expenditures in the governmental funds and as assets in the government-wide financial statements to the extent the School Board capitalization threshold is met.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated assets are recorded at estimated fair market value on the date received. The capitalization threshold for equipment, improvements and buildings is \$5,000. Land and textbooks are capitalized regardless of value. The School Board has no infrastructure assets.

Under Virginia law, certain property maintained by the School Board is subject to tenancy-incommon with the City, if the City incurred a financial obligation for the property which is payable over more than one fiscal year. The School Board and the City have agreed that such property will be carried on the City's financial statements until the outstanding debt is repaid. At June 30, 2012, the City holds capital assets related to school property with a net book value of \$146,860,165.

Depreciation is recorded on general capital assets on a government-wide basis. All reported capital assets except land and construction in progress are depreciated. Depreciation is computed using the straight-line method with half year convention over the following useful lives:

Description	Estimated useful lives
Buildings	60 years
Improvements	25 years
Machinery and equipment	5-20 years

Notes to Basic Financial Statements
June 30, 2012

(j) Compensated Absences

School Board employees are granted vacation and sick pay in varying amounts as services are provided. They may accumulate, subject to certain limitations, unused vacation leave, and upon retirement, termination or death, may be compensated for certain amounts at their then current rates of pay. Upon termination for reasons other than retirement, School Board employees are not paid for accumulated sick leave. Upon retirement, sick leave may be taken in cash at \$30 per day depending upon employment status (maximum payment of \$5,000) or obtain additional service credit towards their retiree health insurance subsidy. A liability for these amounts is reported in governmental funds only if they have become payable as a result of resignations and retirements.

Effective July 2, 2011, all future retirees will have their retiree health insurance subsidy based on years of service rather than sick leave balance. Anyone that retired effective July 1, 2011 could have elected to use their sick leave under the old policy for OPEB contributions or the new policy. That election pertained only to that one date.

(k) Fund Balance Items

The School Board has implemented GASB Statement 54 employing new terminology and classifications for fund balance items.

Non-spendable items – This category includes the resources of imprest funds and inventories not available for appropriation.

Restricted items – This category includes resources restricted by another government.

- The Workers' Compensation special revenue fund shows a restricted fund balance of \$2,832,915. City Council appropriation restricts the use of these funds for workers' compensation for the School Board's self-insured workers' compensation plan.
- The Textbook special revenue fund shows a restricted fund balance of \$3,217,438.
 City Council appropriation restricts the use of these funds for textbooks. The School Board intends to purchase textbooks in the upcoming years based upon a six-year replacement cycle for most subjects.
- The Child Nutrition Services special revenue fund shows restricted fund balance of \$2,830,425 representing the portion of the fund balance provided over the years from Federal and State grants restricted for the purpose of providing students with nutritional meal services.
- The Adult Education special revenue fund shows restricted fund balance of \$257,944
 representing the portion of the fund balance provided over the years from Federal
 grants restricted for the purpose of providing adult citizens of the community with
 educational services.

Notes to Basic Financial Statements
June 30, 2012

- The State Construction capital projects fund fund-balance of \$1,117,194 is restricted by the Commonwealth of Virginia to capital outlay and repayment of debt issued for capital outlay.
- The General Capital capital-projects fund fund-balance of \$12,662 is restricted by the City of Newport News for capital outlay.

Assigned to items – Assigned items represents management of the School Board's intent to use certain resources for assigned purposes. The Superintendent is authorized and has made the following assignments as of June 30, 2012.

- A total of \$377,386 is assigned to provide adult education services in the community as represented in the Adult Education special revenue fund.
- A total of \$999,650 is assigned to provide students attending the School Board's schools with a nutritious breakfast and lunch meeting the regulations of the United States Department of Agriculture and the Commonwealth of Virginia as represented in the Child Nutrition Services special revenue fund.
- A total of \$18,769,581 is assigned to meet contractual obligations. The School Board has purchase orders outstanding with vendors in this amount and expects the vendors to deliver the goods and services in the upcoming fiscal year. The amounts are \$11,441,732 in the General Fund, \$6,263,957 in the General Obligation Bond Fund, \$10,862 in the Workers' Compensation special revenue fund, \$689,523 in the Textbook special revenue fund, \$351,277 in the Child Nutrition Services special revenue fund, \$4,172 in the Adult Education special revenue fund and \$8,058 in the State Construction capital projects fund.
- A total of \$12,147,599 is assigned to the employee self-insured health insurance plan. Funds equal to this amount are on deposit with our contracted health insurance provider and shown as a prepaid item in the asset section of the balance sheet. Claims have been less than the premiums paid.

Unassigned items – Represents the remainder of the School Board's equity in governmental fund-type balances. This is the residual fund balance in the General Fund or negative residual fund balance of other governmental fund-types. The balance at June 30, 2012 for all funds is zero.

Resource flow assumption – The flow assumption between restricted and unrestricted resources is a pro-rata basis determined by the amount of funding provided by each source.

(l) Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed.

Notes to Basic Financial Statements
June 30, 2012

All interfund transactions, except interfund services provided and used, and reimbursements, are reported as transfers. Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

All interfund balances, which are short-term in nature, result from the time lag between the dates that reimbursable expenditures occur and payments between funds are made.

(2) Cash and Cash Equivalents

All of the \$35,298,375 of School Board cash and cash equivalents (except for \$2,445 of imprest funds) are maintained on deposit with the Treasurer of the City of Newport News. All of the funds are available for immediate School Board use. See the City of Newport News Comprehensive Annual Financial Report for additional details. A copy may be obtained from The City of Newport News, Finance Department, 2400 Washington Avenue, Newport News, VA 23607.

(3) Due To/Due From and Transfers In and Out

Interfund receivables, payables and transfers as of and for the year ended June 30, 2012 are as follows:

Funds	Due from other funds		Due to other funds		Γransfers in	Transfers out		
General Fund	\$	12,500,000	\$	-	\$ 	\$ 8,349,505		
Grant Fund		-		12,500,000	-	-		
Other governmental funds:								
Special revenue		-		-	8,349,505	-		
Total all funds	\$	12,500,000	\$	12,500,000	\$ 8,349,505	\$ 8,349,505		

The amounts that are due to other funds are to provide for cash to pay for expenditures of the Grant Fund until such time as revenue is received in cash.

A transfer of \$2,943,486 was made from the General Fund to the Workers' Compensation Fund to establish that Fund as of the start of the fiscal year. A transfer of \$5,406,019 was made from the General Fund to the Textbook Fund to establish that fund as of the start of the fiscal year. During the year, \$333,260 in funding was transferred from the General Fund to the Textbook Fund to purchase textbooks.

Notes to Basic Financial Statements
June 30, 2012

(4) Capital Assets, Net

A summary of changes in capital assets follows:

		Balance						Balance	
	July 1, 2011		Increases		Decreases		June 30, 2012		
Capital assets not being depreciated:									
Land	\$	2,505,084	\$	-	\$	-	\$	2,505,084	
Construction in progress		4,709,058		1,857,706		6,462,656		104,108	
Total capital assets not being depreciated		7,214,142		1,857,706		6,462,656		2,609,192	
Other capital assets:								-	
Buildings		46,332,342		516,660		-		46,849,002	
Improvements		42,996,178		7,937,104		-	50,933,282		
Machinery and Equipment		57,777,980		5,507,343		2,409,763		60,875,560	
Total other capital assets		147,106,500		13,961,107		2,409,763		158,657,844	
Less accumulated depreciation for:									
Buildings		26,585,253		766,099		-		27,351,352	
Improvements		14,898,582		2,047,290		-		16,945,872	
Machinery and Equipment		39,051,370		4,278,003		2,382,456		40,946,917	
Total accumulated depreciation		80,535,205		7,091,392		2,382,456		85,244,141	
Other capital assets, net		66,571,295		6,869,715		27,307		73,413,703	
Totals	\$	73,785,437	\$	8,727,421	\$	6,489,963	\$	76,022,895	

Depreciation was charged to governmental functions as follows:

Academic services	\$ 3,488,296
Transportation services	1,397,234
Business and support services	1,546,364
Child nutrition services	102,690
Technology services	81,034
Human resources	326,631
Administration	 149,143
Total governmental activities depreciation expense	\$ 7,091,392

Notes to Basic Financial Statements

June 30, 2012

Loss on disposal of assets of \$27,307 is charged \$16,506 to the Transportation services function and \$10,801 to the Business and support services function.

Construction in progress is composed of the following at June 30, 2012:

	Project Authorization	Through June 30, 2012	Balance of Authorization	Future Requirements
Total School projects	\$ 16,237,251	\$ 3,014,124	\$ 13,223,127	\$ -

Expended through June 30, 2012 includes \$2,910,016 in construction in progress transferred to the City under the AHTIC provisions. The balance of authorization of \$13,223,127 includes \$6,263,957 encumbered by existing purchase orders with vendors for projects in progress.

(5) Leases

(a) Operating Leases

The School Board leases three buildings. Two buildings are leased under non-cancelable operating leases and one on a month-to-month operating lease. Total costs for such leases were approximately \$624,933 for the year ended June 30, 2012. In addition, the School Board leased copiers on an operating lease on a month-to-month basis when the capital lease for the existing copiers expired at the end of February 2012. The total cost for the copier operating lease was \$188,457 for the year ended June 30, 2012. The copier month-to-month lease ceased on August 1, 2012 when the new copiers were delivered (see Subsequent Event note 13). The future minimum lease payments for these leases are as follows:

Year ending June 30:	
2013	\$ 576,561
2014	580,980
2015	565,488
2016	570,086
2017	239,180
2018-2021	 243,963
	\$ 2,776,258

For one of the leased buildings the School Board has the option to renew annually ten times for one additional year from FY2019 through FY2028 with an annual lease cost of \$248,843 in FY2019 and increasing by two percent per year up through the final year of renewal at \$297,390 in FY2028.

Notes to Basic Financial Statements
June 30, 2012

(b) Capital Leases

The School Board had entered into three lease agreements for financing the acquisition of property and equipment. One of the machinery and equipment leases was completed during the year and a capital lease for buildings was paid off early during the fiscal year. Only one capital lease for machinery and equipment remains at June 30, 2012. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. See Note 13 for a subsequent event for machinery and equipment capital lease agreement which occurred in FY2013.

The net book value of assets acquired through capital leases as of June 30, 2012 is as follows:

Macinery and equipment	\$ 972,182
	972,182
Less accumulated depreciation	 (299,757)
	\$ 672,425

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2012, were as follows:

Year ending June 30:		
2013	\$	225,540
2014		225,540
Total minimum lease payments		451,080
Less amounts representing interest		(27,163)
Present value of minimum capital lease payments	\$	423,917

Notes to Basic Financial Statements
June 30, 2012

(6) Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2012 follows:

	Balance July 1, 2011		Additions		Reductions		Balance June 30, 2012		Due Within One Year	
Compensated absences	\$	3,806,866	\$	2,245,450	\$	2,096,925	\$	3,955,391	\$	593,309
Workers' compensation claims		1,964,500		642,228		542,228		2,064,500		412,900
Capital leases payable		1,629,988		-		1,206,071		423,917		205,691
Capital facility notes payable		10,375,037		-		2,146,401		8,228,636		-
Other Post Employment Benefits		27,758,185		7,143,166		5,926,175		28,975,176		-
Incurred but not reported										
health claims		2,771,701		27,513,144		27,784,845		2,500,000		2,500,000
Totals	\$	48,306,277	\$	37,543,988	\$	39,702,645	\$	46,147,620	\$	3,711,900

The capital facility notes payable provided financing for a fiber wide-area-network linking all School Board computers as well as a variety of energy conservation and water savings improvements including lighting fixture replacement, lighting controls, HVAC replacement and controls, roof replacements and plumbing fixture replacements.

Incurred but not reported health claims represent an estimate of healthcare claims incurred by our employees as of June 30, 2012 but not yet paid by our third-party claims administrator. As we are self-insured for healthcare claims we consider the entire amount a current liability and in fact the claims are paid in a matter of a few weeks after June 30, 2012 as the medical providers submit their claims to the third-party administrator.

Long-term liabilities are normally paid from the General Fund, including Other Post-Employment Benefits.

The annual requirements to pay principal and interest at a rate of 4.05% on capital notes payable due to PNC Equipment Finance (formerly National City Commercial Capital) at June 30, 2012 are as follows (note that the payment normally due in FY2013 was paid in June 2012). The next payment is due in FY2014 (July 2013).

	Principal		I	nterest
FY2013	\$	-	\$	-
FY2014		2,262,131		333,260
FY2015		2,380,794		241,643
FY2016		2,395,930		145,221
FY2017		1,189,781		48,186
Totals	\$	8,228,636	\$	768,310

(7) Defined Benefit Retirement Plans and Other Post-Employment Benefits

(a) Newport News Employees' Retirement Fund (NNERF)

1. Plan Description

The NNERF is a single employer, defined benefit, public employee retirement system established and administered by the City to provide pension benefits for employees of the local government, including the School Board. For those school teachers and administrative support personnel employed by the Newport News School Board, the City plan is a supplement to the Virginia Retirement System. The fund has been closed to new School Board hires and rehires effective July 1, 2009 and since March 1, 2010 for new City hires.

NNERF is a separate pension trust fund and is considered part of the City's financial reporting entity. The City issues a publicly available financial report that includes financial statements and required information for NNERF. That report may be obtained by writing to NNERF, 2400 Washington Avenue, Newport News, VA 23607.

Full-time regular employees hired on or before July 1, 2009 for the School Board and March 1, 2010 for the City are members of this fund. Employees hired after the above dates are in the Virginia Retirement System, a cost sharing and an agent multiple-employer defined benefit plan as discussed in note 7 (b). For the years ended June 30, 2012 and 2011, the total payroll of the City and the School Board was approximately \$338.3 million and \$342.9 million respectively, with approximately \$248.5 million and \$261.8 million covered by NNERF. At June 30, 2012, NNERF membership consisted of:

	Retirees	Vested	Active	Active	
	and	Terminated	Employees	Employees	
	Beneficiaries	Employees	Vested	Non-Vested	Total
City general	1,030	600	1,139	217	2,986
City police and fire	726	223	705	206	1,860
Public utilities	213	107	239	35	594
School VRS	2,288	952	2,362	318	5,920
School Non-VRS	750	169	669	117	1,705
Total	5,007	2,051	5,114	893	13,065

Notes to Basic Financial Statements
June 30, 2012

NERF provides retirement benefits as well as death and disability benefits. All benefits vest after five years of credited service. Employees who retire at or after age 60 (50 for police officers, firefighters and deputy sheriffs) with five years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2.0% of their final average compensation for each year of credited service accumulated to February 28, 2010 and 1.85% on and after March 1, 2010. Final average compensation means the average rate of salary received during the highest paid 36 consecutive months of credited service. Employees with 30 years (25 for police officers, firefighters and deputy sheriffs) credited service may retire at any age with full benefits. Employees (other than police officers, firefighters and deputy sheriffs) with 25 years of service may retire prior to age 60 and receive a reduced benefit. Covered employees do not contribute to NNERF.

Benefits and contribution provisions are established by City Ordinance and may be amended only by the City Council. An actuarial service is employed to advise the City Council and the Retirement Board of the contributions necessary to fund the benefits.

2. Concentrations

There are no significant investments (other than U.S. Government and U.S. Government-guaranteed obligations) in any one organization that represents 5% or more of net assets available for benefits.

3. Contributions Required and Contributions Made

NNERF funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age actuarial cost method. The amortization period for the unfunded actuarial accrued liability has been reduced from 40 years to 30 years to comply with the requirements of GASB Statement No. 27. The unfunded actuarial accrued liability is amortized as a closed 30-year level dollar amount from July 1, 2011.

Contributions for normal costs totaling \$32,786,062 and \$27,398,599 were made by the employer during the year ended June 30, 2012 and 2011. The percentage of employer contributions to current year covered payroll was 15.6% and 10.5% for the fiscal year ending June 30, 2011.

Notes to Basic Financial Statements
June 30, 2012

The percentage of normal cost to current year covered payroll was 5.40% and 5.07% for fiscal years ending June 30, 2012 and 2011, respectively. The employer's annual pension cost and net pension obligation to NNERF for 2012 and 2011 were as follows:

(000's omitted)

	2012			2011
Annual Required Contribution (ARC)	\$	55,011	\$	56,662
Interest on net pension obligation		13,543		11,353
Adjustment to ARC		(14,749)		(12,355)
Annual pension cost		53,805		55,660
Contributions made		(32,786)		(27,399)
Increase in net pension obligation		21,019		28,261
Net pension obligation (asset), beginning of year		174,750		146,489
Net pension obligation (asset), end of year	\$	195,769	\$	174,750

The annual required contribution for the current year was determined as part of the June 30, 2012 actuarial valuation using the entry age actuarial cost method. The amortization method used is closed. The actuarial assumptions included (a) 7.75% investment rate of return (net of administrative expenses) (b) projected salary increases of 5.00% per year and (c) 1.9% per year cost-of-living adjustments. All assumptions include an inflation component of 2.8%. The assumptions did not include funding of other post-retirement benefit. The actuarial value of assets was determined under the average value method.

Schedule of Funding Progress (in millions):

The funded status of the plan as of June 30, 2012, 2011 and 2010 was as follows:

					Ove	e rfunde d			
Actuarial	Ac	tuarial		Actual	(ur	ıfunde d)			UAAL as a
valuation	va	due of	a	ccrued	a	ccrued	Funde d	Covered	percentage of
date	a	ssets	liabi	lity (AAL)	liabil	ity (AAL)	ratio	payroll	covered payroll
June 30, 2012	\$	679.6	\$	1,176.4	\$	(496.8)	57.8%	\$ 48.5	199.9%
June 30, 2011		641.4		1,144.6		(503.2)	56.0%	261.8	192.2%
June 30, 2010		638.4		1,110.6		(472.2)	57.5%	283.1	166.8%

Notes to Basic Financial Statements

June 30, 2012

4. Three-Year Trend Information

(000's omitted)

Fiscal year ended	Annual Pension Cost (APC)		Percentage of APC contributed	ol	t pension oligation (asset)
June 30, 2012	\$	53,805	60.9%	\$	195,769
June 30, 2011		55,660	49.2%		174,750
June 30, 2010		40,094	52.8%		146,489

(b) Virginia Retirement System:

1. Plan Description

The School Board contributes to the Virginia Retirement System (VRS or the System), an agent and cost-sharing multiple-employer defined benefit pension plan administered by the System.

In addition, VRS administers a single employer plan for all School Board non-professional employees hired on or after July 1, 2009. Those hired between July 1, 2009 and June 30, 2010 are under the provisions of Plan 1 described above and those hired on or after July 1, 2010 are under the provisions of Plan 2 described below.

All full-time eligible permanent employees of the School Board must participate in the VRS. Benefits vest after five years of service. Members earn one month of service credit for each month they are employed and their employer is paying into VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with an unreduced benefit as early as age 55 with at least 10 years of service credit or age 50 with at least five years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.

Notes to Basic Financial Statements

June 30, 2012

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation (AFC) multiplied by the member's total service credit. Under Plan 1, AFC is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, AFC is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier is 1.70%. At retirement, members can elect the Basis Benefit, the Survivor Option, a Partial-Lump-Sum Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with reduced benefits.

Retirees are eligible for an annual cost-of-living adjustment (COLA) beginning in their second year of retirement. Under Plan 1, the COLA cannot exceed 5.00%, under Plan 2, COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the *Code of Virginia* (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for VRS. A copy of that report may be obtained from the VRS Web site at www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

2. Funding Policy

Members of all plans are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5.00% of their annual reported compensation to the VRS. All or part of the 5.00% member contribution may be assumed by the employer. This 5% member contribution has been assumed by the School Board except that employees hired or rehired on or after July 1, 2010 and have no prior VRS credited service will be required to contribute the 5% member contribution. Effective July 1, 2012 all other employees hired before July 1, 2010 must contribute 1% of the 5% with the School Board paying the remaining 4%. The School Board is required to contribute the remaining amounts necessary to fund their participation in the VRS using the actuarial bases specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The contribution rate for the fiscal year ended 2012 was 6.33% of covered annual payroll for the School Board for professional employees, not including the 5% contributed for members hired before July 1, 2010. The contribution rate for the single employer plan for non-professional employees was 8.39% not including the 5% contributed for members hired before July 1, 2010.

Notes to Basic Financial Statements
June 30, 2012

3. Annual Pension Cost

For 2012, the annual pension cost of \$17.5 million for the School Board was equal to the required and actual contributions.

The annual required contributions for the agent multiple employer plan were determined as part of the June 30, 2012 actuarial valuation. The actuarial assumptions included (a) a rate of return on investment of 7.5% (b) projected salary increases ranging from 3.50% to 5.6% per year, and (c) cost-of-living adjustments of 2.5%. Both (a) and (b) included an inflation component of 2.5%. The actuarial values of the respective entities' assets are equal to the modified market value of the assets. This method was determined using techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis within a period of 20 years.

The annual required contributions for the single employer plan were determined as part of the June 30, 2011 actuarial valuation. The actuarial assumptions included (a) a rate of return on investment of 7.0% (b) projected annual cost-of-living adjustments of 2.50% and salary increases that range between 3.75% and 5.60% depending upon the member's service and classification). Liabilities were determined under the Entry Age Normal actuarial cost method. There is no unfunded actuarial accrued liability at June 30, 2012 but if there is one in the future it would be amortized as a level percentage of payroll on an open basis within a period of 20 years.

4. Schedule of Funding Progress (in thousands):

Schedules of Funding Progress and Employer Contributions for both the agent multiple employer plan and the single employer plan are combined and are as follows:

	Annual	Percentage		
Fiscal year	Pension	of APC	Net pe	nsion
<u>ending</u>	Cost (APC)	contributed	obliga	tion
June 30, 2012	\$ 17,536,019	100.0%	\$	-
June 30, 2011	14,086,314	100.0%		-
June 30, 2010	18,446,055	100.0%		_

Notes to Basic Financial Statements
June 30, 2012

(c) Other Post-Employment Benefits (OPEB) Trust Funds

1. Plan Description

In FY 2000, an OPEB fund was established to accumulate assets to pay for other postemployment benefits. The fund was administered by the City to provide health, dental and life insurance benefits for City and School Board retirees. During FY 2010, the School Board established a separate Trust Fund apart from the City and all assets belonging to the School Board were transferred to this new fund. The plan is a singleemployer plan. Benefits and contribution provisions are established by the School Board and may be amended only by the School Board. An actuarial service is employed to advise the School Board of the contributions necessary to fund the benefits.

The School Board provides health and dental insurance for their retirees under the school's group plans. The School Board annually determines the retiree's contribution to participate in the medical plans. The total contribution is based on the active premium rates. The retiree's portion of the active rate is based on the retiree's accumulated sick leave at retirement. Retirees with maximum accumulated sick leave will pay what an active employee would pay. Retirees with minimal accumulations would pay most of the total active premium rate.

Approximately 462 School Board retirees are grandfathered to participate in the City OPEB Fund's sponsored life insurance coverage paid for by the School Board. The premiums are not material. These retirees have elected supplemental coverage under the City OPEB fund.

The OPEB Trust Fund does not issue a separate report.

2. Contributions Required and Contributions Made

OPEB funding policy provides for periodic employer contributions at actuarially determined rates, that expresses as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. A level percentage of payroll with a 30-year amortization period is used for purposes of computing the minimum accrual under GASB 45. The projected unit credit method is used for cost calculations.

Notes to Basic Financial Statements

June 30, 2012

Contributions to normal costs totaling \$1.1 million were made during the year ended June 30, 2012. The School Board's annual OPEB cost for the current year and past two years are as follows:

(In millions)

	2012		2	011	2	010
Annual Required Contribution (ARC)	\$	7.4	\$	7.1	\$	7.0
Interest on net pension obligation		2.1		2.2		2.1
Adjustment to ARC		(2.4)		(2.5)		(2.1)
Annual pension cost		7.1		6.8		7.0
Actual Contribution		5.9		7.6	-	5.3
Increase (decrease in net OBEP obligation		1.2		(0.8)		1.7
Net OBEP obligation, beginning of year		27.8		28.6		26.8
Net OBEP obligation, end of year	\$	29.0	\$	27.8	\$	28.5

3. Funding Status and Funding Progress

The funded status of the plan as of June 30, 2012 and the past two years was as follows:

(In millions)

	2012		2	2011	2010	
Actuarial value of assets	\$	8.8	\$	6.8	\$	3.3
Actuarial Accrued Liability (AAL)		83.8		77.8		132.7
Unfunded AAL (UAAL)	\$	75.0	\$	71.0	\$	129.4
Funded ratio		10.0%		8.7%		2.4%
Covered payroll	\$	136.7	\$	147.0	\$	181.0
UAAL as a percentage of covered payroll		54.9%		48.3%		71.5%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Notes to Basic Financial Statements

June 30, 2012

4. Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the city and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial valuation date 6/30/11

Actuarial cost method Projected Unit Credit

Amortization method Level Dollar Closed

Amortization period 29 years

Asset valuation method Market Value

Actuarial assumptions:

Investment rate of return 7.75%
Projected salary increases NA%
Healthcare inflation rate 5.00%

(8) Self-Insurance

(a) Medical Benefits

The School Board is self-insured for its medical benefits through the General Fund for employees up to \$175,000 per employee per year and 110% of adjusted subscriber charges (maximum liability) for the year (\$28,715,656 for 2012). Claims in excess of the limitation are covered by third-party insurance. Expenditures are charged to the fund to which the employees' payroll expenditure is charged at amounts that approximate what third-party insurers would have charged. The insurance coverage is substantially the same as in prior fiscal years.

Claims processing and payments for the medical claims are made through a third-party administrator. The settlement using reinsurance did not exceed insurance for fiscal years 2012 or 2011. The School Board uses the information provided by the third-party administrator to aid in the determination of self-insurance liabilities. Amounts due in future years on claims as of June 30, 2012 are recognized as a long-term liability due within one year in the statement of net assets. Changes in the incurred but not reported amount during the fiscal years ended June 30, 2012 and 2011 were as follows:

Notes to Basic Financial Statements
June 30, 2012

	 2012	 2011
Claims payable at beginning of year	\$ 2,771,701	\$ 2,430,625
Claims and changes in estimates	27,603,144	29,025,010
Claim payments	(27,874,844)	(28,683,934)
Claims payable at end of year	\$ 2,500,001	\$ 2,771,701

(b) Workers' Compensation

The School Board self-insures for workers' compensation through the Workers' Compensation special revenue fund. Expenditures are charged to the various departments at amounts that approximate what third-party insurers would have charged. Amounts due in future years on claims made as of June 30, 2012 are accounted for as long-term liabilities. The following is a reconciliation of changes in workers' compensation claims payable for years ended June 30, 2012 and 2011:

	 2012	 2011		
Claims payable at beginning of year	\$ 1,964,500	\$ 1,597,852		
Claims and changes in estimates	814,428	1,046,121		
Claim payments	(714,428)	(679,473)		
Claims payable at end of year	\$ 2,064,500	\$ 1,964,500		

A loss analysis was conducted by Oliver-Wyman, Incorporated on this fund. The total actuarially computed liability as of June 30, 2012 was determined to be approximately \$2.0 million.

(c) Other

The School Board insures for property losses with self-insured retention per occurrence of \$25,000 for basic, \$5,000 for floods, and \$25,000 for earthquakes. The School Board is self-insured for losses resulting from vehicular accidents of up to \$1,000,000 in conjunction with a fund established by the City of Newport News. Claims in excess of the self-insured retention limitation are covered by third-party insurance.

Included in the fund balance of the General Fund of the School Board are reserved and designated fund balances related to self-insurance activities.

Notes to Basic Financial Statements
June 30, 2012

(9) Contingent Liabilities

(a) Litigation

The School Board is involved in several lawsuits arising in the ordinary course of operations. It is the opinion of School Board management, based on the advice of the School Board attorney, that any losses incurred as a result of claims existing as of June 30, 2012 will not be material to the financial statements.

(b) Grants

The School Board received grant funds, principally from the state and federal government, for instructional and various other programs. Expenditures from these grants are subject to audit by the grantor, and the School Board is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the School Board, any refunds that may be required as a result of expenditures disallowed by the grantors will not be material to the financial statements.

(10) Related Organizations

Not included in the School Board's financial statements are certain Parent-Teacher Associations (PTAs), Parent-Teacher-Student Associations (PTSAs) and athletic and band booster clubs. These agencies provide services to students and employees of the School Board, but are separate legal entities having sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the School Board. The School Board does not account for these entities as component units or joint ventures; as these entities are not material to the School Board, it does not maintain an ongoing financial interest or have responsibility for these entities.

(11) Related-Party Transaction

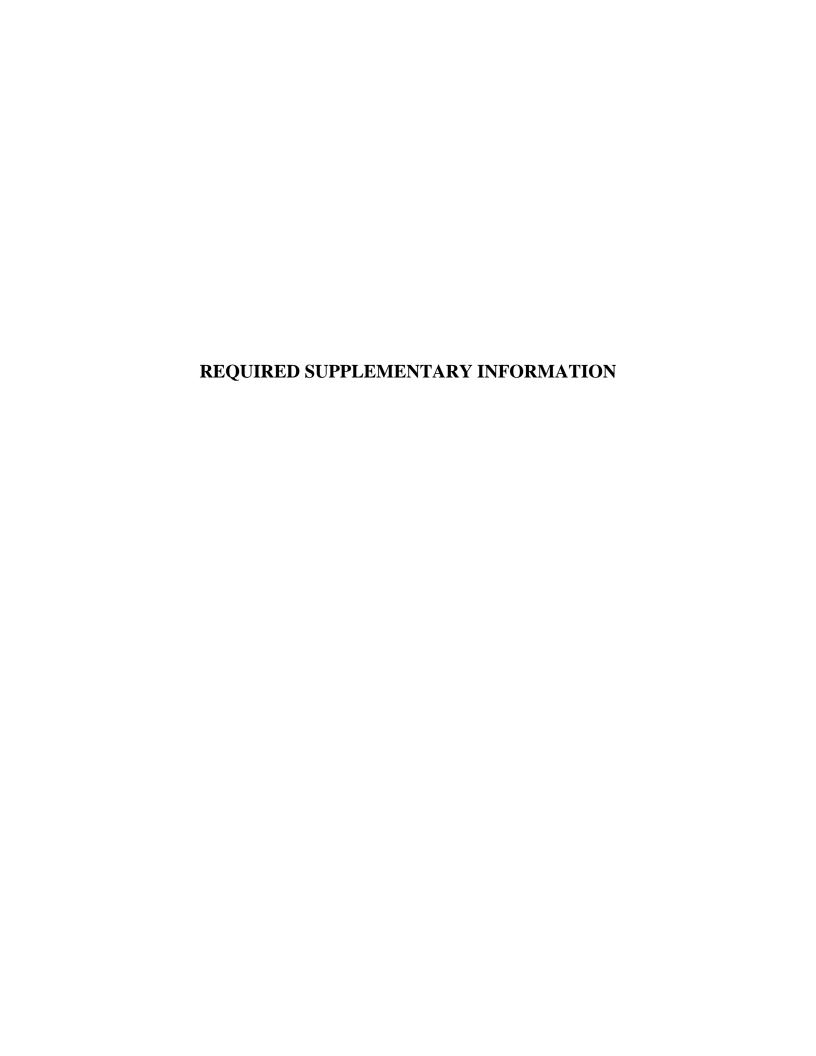

The School Board operates by authority of the charter of the City. The City provides annual appropriations to the School Board for operating the school system and is obligated for all bonded indebtedness relations to the School Board. The City is also the custodian of the majority of the School Board's cash and temporary investments and also provides a defined benefit pension plan to employees hired before July 1, 2009. The City provides services to the School Board, primarily 800 megahertz radio repairs and radio purchases and services related to the vehicle self-insurance program, through the City's General Fund. The School Board is charged based on established fee schedules or a shared cost formula. The City provides school police officers at no charge to the School Board. The total value of the services provided by the City and reimbursed by the School Board during the year ended June 30, 2012 was \$465,679. The School Board provides fiber WAN services and fiber WAN installation to the City during the year ended June 30, 2012 at charges of \$251,304. Amounts due to and due from the City of Newport News for services are negligible. Amounts are generally settled on a monthly basis. The City of Newport News Parks & Recreation Department provides services to children and citizens after regular school hours in School Board buildings at no rental charge.

At June 30, 2012, the City owed the School Board \$6,823,693 for capital projects funding.

Notes to Basic Financial Statements
June 30, 2012

(12) Subsequent Event

The School Board entered into a contract with Ricoh Americas Corporation on June 27, 2012 to provide the school division with approximately 141 copiers for the school division under the terms of a five-year lease. Equipment was not delivered as of June 30, 2012, hence no accounting entry was made. Subsequent to June 30, 2012 the copiers were delivered. The School Board is accounting for this transaction as a capital lease. In FY2013, other financial source – capital lease proceeds and a corresponding capital outlay expenditure were recorded at \$1,072,755. Repayment will be made over a 60-month term at a nominal interest rate of 4.1%. Annual payments will total \$237,658 to include principal and interest and will be paid from the General Fund.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2012

(1) Budgetary Data

The budgetary data reflected in the required supplementary information was established by the School Board using the following procedures:

- (i) On or before April 1, the School Board submits to the City Council of the City proposed operating budgets for the General Fund for the forthcoming fiscal year. The operating budgets include proposed expenditures and other financing uses and the means of financing them.
- (ii) A public hearing on the City budget, which includes the School Board, is held after a synopsis of the budget is published in a local newspaper of general circulation. An appropriation ordinance must be adopted by the City Council by May 15.
- (iii) The School Board and Superintendent may amend the budget or make transfers between functions and budgetary line items without City Council approval. However, the School Board may not make transfers or expend any sum of money in excess of City Council appropriations, at the fund level, without the consent of the City Council. The legal level of budgetary control for the general fund is the fund level; however, management control is exercised over the budget at the budgetary line item level. Appropriations, except for encumbrances and reserved fund balances, lapse at year end. Encumbrances and reserved fund balances outstanding at year end are re-appropriated in the succeeding year.
- (iv) Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP), except that encumbrances are included as budgetary expenditures and that net revenues and expenditures for the medical self-insurance program are excluded from the budget comparison.

Annual legally adopted operating budgets are not adopted for any other Special Revenue Funds. Program budgets for these funds are approved by executive departments on a basis consistent with the related grant applications. Project and program budgets are utilized in the Capital Projects Funds and certain Special Revenue Funds where appropriations remain open and carry over to succeeding years.

(2) Intergovernmental Revenue – City of Newport News

A reconciliation of intergovernmental revenue follows:

City of Newport News budget appropriations\$ 112,200,000Less amounts recorded by City of Newport News(14,165,160)City of Newport News revenue - GAAP basis\$ 98,034,840

THE SCHOOL BOARD OF THE CITY OF NEWPORT NEWS, VIRGINIA NONMAJOR GOVERNMENTAL FUNDS

June 30, 2012

Special Revenue Funds:

Workers' Compensation – to account for the School Board's payment of worker compensation claims. Funding is provided primarily by transfers in from funds for which employees are paid.

Textbook – to account for textbook purchases. Funding is provided primarily by the Commonwealth of Virginia along with a required match by the School Board.

Child Nutrition – to account for the operation of the School Board's food service operation, primarily for students.

Adult Education – to account for general adult education classes with an educational purpose devoted primarily to instruction.

Capital Projects Funds:

State Construction – The Commonwealth of Virginia provided grant funding to be used for construction/renovation of school buildings. The funding has stopped but the fund still exists until the remaining resources are expended.

General Capital – to account for capital project funding provided by the City of Newport News from operating cash used to purchase school buses.

STATISTICAL SECTION

(Unaudited)

The School Board does not have the authority to levy taxes or to issue bonded debt in its name. Therefore, the following statistical tables dealing with these functions are omitted from this Comprehensive Annual Financial Report.

Schedule of Property Tax Levies and Collections

Schedule of Property Valuations – Assessed Valuations

Schedule of Property Tax Rates

Legal Debt Limit

Construction and Property Values and Bank Deposits

STATISTICAL SECTION

(Unaudited)

This part of the School Board's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	S-1
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	
The School Board does not have the ability to generate its own revenue, but instead receives revenue generated by the City of Newport News, the Commonwealth of Virginia and the Federal government.	
Debt Capacity	S-7
The School Board cannot issue general obligation bonded debt. The debt for capital leases and facility notes payable is provided.	
Demographic and Economic Information	S-8
The schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Information	S-10
These schedules contain service and capital asset data to help the reader understand how the information of the government's financial report relates to the services the government provides and the activities it performs.	

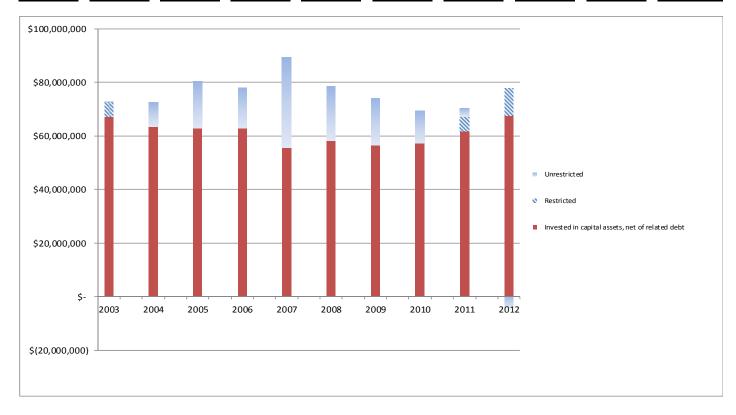

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Standards of Learning – Percentage of Students with a Passing Score – School Board and State Last Four Fiscal Years

Miscellaneous Statistics

June 30, 2012

City of Newport News General Information

Date of incorporation (first Charter adopted):

Consolidation with Warwick City:

July 1, 1958

Form of government:

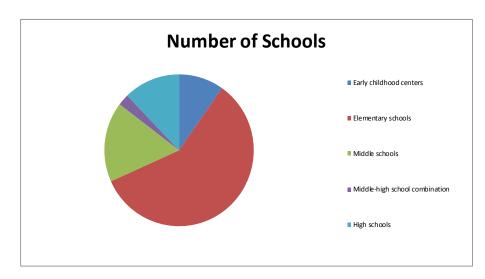

Council-Manager (seven member council)

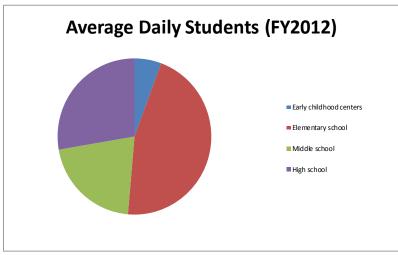

Area – square miles:

69 square miles

The School Board of the City of Newport News

Number of schools:		Average daily students (FY2012):	
Early childhood centers	4	Early childhood centers	1,662
Elementary schools	24	Elementary school	13,416
Middle schools	7	Middle school	6,150
Middle-high school combination	1	High school	8,135
High schools	5		
Total	41	Total	29,363

Demographic Statistics

Last Ten Fiscal Years

Fiscal Year	(1) Population	(2) Personal Income (In thousands)	(3) Per Capita Income	(4) School Enrollment	(5) Unemployment Rate (%)
2003	181,640	\$ 4,598,879	\$ 23,654	31,535	4.9%
2004	185,200	4,872,092	23,986	31,358	5.2%
2005	185,240	5,086,295	25,233	30,827	4.8%
2006	186,000	5,225,657	26,782	30,635	4.2%
2007	186,000	5,500,739	28,436	30,218	3.4%
2008	187,200	5,941,588	28,990	29,441	4.0%
2009	193,212	6,011,449	30,423	29,022	6.5%
2010	193,172	5,946,073	30,781	28,613	8.0%
2011	180,719	Not Available	33,120	28,183	7.6%
2012	179,611	Not Available	32,921	27,701	7.4%

Note 1 - In FY 2006 and FY2007, we have an elementary-middle school combination and in FY2008 we have a Notes:

middle-high school combination; although one physical building, we have treated it as separate buildings for the purposes

of this statistical table.

Note 2 - Average age is based upon the year the building was first constructed.

In many cases, the buildings have received additions and/or extensive

renovations, such as roof, window and HVAC replacements.

However, the following schools have received such an extensive renovation, that the age of the building is based upon the year of renovation, rather than the year of original construction:

An Achievable Dream Middle and High School, (2007 instead of 1951), Crittenden Middle School (1994 instead of

1949, and Washington Middle School (2006 instead of 1929)

Data for prior years is not available

Operational Statistics

	(1)	(2)	(2)	(3) Percentage of
Fiscal Year	Cost per Student	Elementary Student/ Teacher Ratio	Secondary Student/ Teacher Ratio	Students on Free/Reduced Lunch
2003	\$7,549	13.1	12.6	46.1%
2004	\$7,788	13.2	12.8	47.2%
2005	\$8,696	12.8	13.1	48.2%
2006	\$9,712	12.8	13.0	50.3%
2007	\$10,075	12.0	12.9	48.8%
2008	\$10,565	11.6	13.4	48.8%
2009	\$11,032	12.7	12.0	51.4%
2010	\$10,946	12.1	11.6	53.2%
2011	\$10,582	13.5	12.6	54.0%
2012	\$11,135	14.1	12.7	59.1%

Independent Auditor's Report on Internal Control over Financial Reporting

And on Compliance and Other Matters Based on Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable Members of the School Board of the City of Newport News, Virginia

We have audited the financial statements of the School Board of the City of Newport News, Virginia (the "School Board") as of and for the year ended June 30, 2012, and have issued our report thereon dated November 29, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Other auditors audited the financial statements of the Student Activity Funds, a fiduciary fund of the School Board. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

Management of the School Board is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the School Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be a material weakness, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the School Board in a separate letter.

This report is intended solely for the information and use of the members of the School Board, management, federal and state awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report On Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

The Honorable Members of the School Board of the City of Newport News, Virginia

Compliance

We have audited the compliance of the School Board of the City of Newport News, Virginia (the "School Board"), with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The School Board's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the School Board's management. Our responsibility is to express an opinion on the School Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School Board's compliance with those requirements.

In our opinion, the School Board, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of the School Board is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School Board's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a possibility that material compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the members of the School Board, management, federal and state awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
