### *Department of Finance*

November 10, 2015

To the Honorable Mayor, Members of City Council, and Citizens of the City of Williamsburg:

The Comprehensive Annual Financial Report (CAFR) of the City of Williamsburg, Virginia for the fiscal year ended June 30, 2015, is submitted herewith in accordance with Section 15.2-2511 of the Code of Virginia. This report is designed in a manner to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds in conformity with accounting principles generally accepted in the United States of America (GAAP). We also believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs are included. This report has been prepared by the Department of Finance in accordance with all governmental accounting and financial reporting standards as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) where applicable, and the Commonwealth of Virginia's Auditor of Public Accounts (APA).

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects, and presents fairly the financial position and results of operations of the various funds of the City.

This report is intended to provide informative and relevant financial information for the citizens of the City, the City Council, investors, creditors and other concerned readers. All are encouraged to contact the Department of Finance with any comments or questions concerning this report.

The City's financial statements have been audited by Robinson, Farmer, Cox Associates, a firm of licensed certified public accountants. This is the first year of a renewed multi-year contract for professional auditing services with this firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Williamsburg financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with generally accepted accounting principals (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the City's compliance with the financial and administrative requirements applicable to each of the City's major federal programs. These reports are available in the Compliance Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditor's report.

## **Profile of the City**

The City of Williamsburg was established by the General Assembly of the Commonwealth of Virginia in 1699 and was incorporated by British Royal Charter in 1722. Today, it operates under the Council-Manager form of government substantially as established in the City Charter of 1932, and as an independent city under the Constitution and laws of the Commonwealth of Virginia. Policy-making and legislative authority are vested in a governing City Council consisting of the Mayor and four other members. The City Council members serve four-year staggered terms. The Mayor is chosen from among City Council members every two years. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for appointing the heads of the various departments.

Williamsburg encompasses some nine square miles located between the James and York Rivers on the Virginia Peninsula in Southeastern Virginia. The 2010 U.S. Census showed Williamsburg with a population of 14,068, up 17.2% from the 2000 U.S. Census. The City is home to two premier institutions: the College of William & Mary, established in 1693, and the Colonial Williamsburg Foundation recreating the days when Williamsburg was the Capital of Colonial Virginia, from 1699 to 1780.

The financial reporting entity includes all the funds of the City of Williamsburg. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. In September, 2012 by ordinance the Williamsburg City Council effectively terminated the existing Williamsburg Redevelopment & Housing Authority (WRHA) Board of Commissioners, and appointed City Council members in their place. In February 2013 a Memorandum of Understanding between the City and the WRHA was signed, integrating services of existing City departments with WRHA. This change was made for operational assistance and administrative convenience, and also as a cost control measure. The WRHA operation is presented as a component unit of the City in the financial statements as of June 30, 2015.

The City provides the full range of municipal services including public safety, (police, fire and emergency medical services, parking garage), public works, (street construction and maintenance, landscaping, stormwater management, engineering, refuse collection, public cemetery), economic development, planning and zoning, code compliance, human and public housing services, parks and recreation, and general administrative services. In addition, the City provides water and sewer services to approximately 3,450 residential and 900 commercial customers, with user charges set by City Council to ensure adequate coverage of operating and capital expenses.

The City provides education jointly by contract with neighboring James City County for both localities through the Williamsburg-James City County Public Schools (W-JCC Schools). This strong partnership between the City and County governments has served the K-12 education needs of the jurisdictions for over 50 years. FY 2015 marked the third year of a restated contract for operating and capital funding of the joint School system, for fiscal years 2013 thru 2017. The contract essentially covers board membership, operational and capital funding allocations, use of School surplus operating and capital funds, and equity interest in School property.

The City also provides library services jointly by contract with James City County through the Williamsburg Regional Library. The joint contract provides for board membership, operational funding, and responsibilities for repair and maintenance of facilities and grounds of the respective library building located in each locality. In June 2013 City Council approved an amendment to the joint contract to include neighboring York County. The agreement represents another step forward for regionalism in the Historic Triangle to benefit the citizens of all three jurisdictions.

The annual budget serves as the foundation for the City's financial planning and control. The budget process incorporates City Council strategic plan "Biennial Goals, Initiatives and Outcomes," and defines, communicates, and funds the City's programs and priorities. The completed budget is City Council's road map, and a primary management tool for the City Manager and Department Heads. The annual Budget Guide is a formal call for all

departments of the City, and agencies associated with it, to prepare and submit an estimate of the resources required for the next fiscal year. It includes a set of procedures for building a comprehensive budget for the City Manager to submit to City Council each year. City Council is required to hold public hearings on the proposed budget and tax rates, and to adopt a final budget resolution no later than June 30<sup>th</sup>. The appropriated budget is prepared by fund, function (e.g., public works), and department (e.g., streets). Department heads may make transfers of appropriations within a department, with the approval of the City Manager. Budget amendments requiring changes in total fund appropriations require subsequent approval of City Council, and a public hearing if it exceeds one percent of the total expenditures adopted in the current year. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the required supplementary information other than management's discussion and analysis under the combining and individual funds tab of the report.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

### **Economic Condition and Outlook:**

The economy of the City of Williamsburg is propelled by tourism and education. Tourism – including major attractions and the hospitality industry – continues to provide the most significant source of tax base for the city government. Within the city limits are 36 hotels/motels with approximately 3,630 rooms, 23 operating bed and breakfasts, and 89 restaurants.

The lynch pin of tourism is the Colonial Williamsburg Foundation, which operates the nation's most extensive living history museum. Encompassing 578 restored or reconstructed buildings and employing approximately 2,700, the Foundation interprets the 18<sup>th</sup> century history of America in Virginia's colonial capital. Other nearby attractions not located in the city include Jamestown (site of the first permanent English settlement in 1607), Yorktown (site of Washington's victory over Cornwallis in the Revolutionary War), and Busch Gardens and Water Country USA theme parks. These attractions draw a conservatively estimated 4 million ticketed visitors annually. Next to tourism, higher education drives the Williamsburg economy. The College of William and Mary, located within the City, is the nation's second oldest university. The College owns 18.3% of the land area of the City, currently enrolls about 8,450 students, and employs about 2,800 faculty and staff, including graduate assistants as well.

The City has seen a mix of economic activity over the last three fiscal years. For FY 2015, room tax receipts increased \$91K, or 2.9% from last year. Meal taxes were up by \$373K, or 5.8% over last year, and have been on the rise since FY 2009. Revenues from \$2/night lodging tax, which are a pass-thru to the Williamsburg Area Destination Marketing Committee, were down \$8K, or -.7% from last year. In total, these three significant taxes were up \$456K, or 4.3% from FY 2014. Another significant tax, dedicated to capital improvements within the City, is the 1% State sales tax. These taxes were \$4.3 million for FY 2015, up 2.6% from last year's receipts. Still, the economy will need to rebound much stronger in order to reach the \$4.9 million and \$4.6 million levels of 1% sales tax receipts collected in FY 2007 and FY 2008 respectively. In addition, revenues from the Prince George Parking Garage are down slightly by \$3K, or 1% from last year.

Although real estate values in Williamsburg have not experienced double-digit declines that communities in northern Virginia and other parts of the country have endured during the recent recession, values declined about 14% from FY 2009 thru FY 2013. The real estate tax rate was adjusted for FY 2013 from \$.54/100 to \$.57/100 in response to the cumulative decline in the tax base. On a positive note, assessed values were up 3.6% and 2.9% for FY 2014 and FY 2015 respectively. City staff monitors the real estate assessment to sales ratio each month by closely tracking sales activity. The ratio is important in analyzing sales trends in neighborhoods, and is vital to the City Assessor's job of assessing properties at market value each year. As of October 2015 the City's assessment to sales ratio of residential sales since July 1<sup>st</sup>, 2015 continued to be under 98%, indicating, *on average*, continuing recovery of real estate values in the City. Real estate assessments for FY 2016, *on average*, are up 2.8%, indicating continued improvement in both residential and commercial values.

**Economic Development Activity** – Recent economic development activity in the City includes the following:

- Three commercial development projects are progressing: "Quarterpath at Williamsburg," a 350 acre mixed-use development in the southeast quadrant of the City will offer retail, Class-A office space, and a 40-bed acute care doctor's hospital operated by Riverside Health System, which opened in May 2013. The other two projects include the "Griffin Arms" and "Prince George Commons" mixed-use buildings, adjacent to one another on Prince George Street. Both provide 2<sup>nd</sup> floor housing with 1<sup>st</sup> floor commercial spaces and both have made use of the EDA's Forgivable Demolition Loan program. Griffin Arms is complete and has 9,000 s.f. of space, 4,000 s.f. of which is for commercial use. All commercial space is currently leased, with one restaurant open and another anticipated to open in mid-November. Prince George Commons is nearly finished with construction, and will have 16,400 s.f. of space, 8,680 s.f. of which is for commercial use. Renovations continue at 901 Capitol Landing Road for Copper Fox Distillery. Once open, it will supply 25 new jobs and 3 full time jobs.
- New businesses opening after renovating existing commercial space between July 1, 2014 and June 30, 2015 include Daily Donuts, Mayfair Inn & Suites, Revibe, Backyard Birder, Oishi Sushi King, Triangle, Ricks Cheese Steak Shop, The Rusty Cricket, La Terraza Mexican Grill, Retro Daddio, and Colonial Folk Art Studio & Gallery.
- New businesses opening in newly constructed space at the Shops at Second Street development on Richmond Road during FY 2015 include Second Street Floors and Cochon on 2<sup>nd</sup>.
- In collaboration with the Planning Department, the EDA introduced a new incentive for bike rack installation at City businesses during FY 2015. Eight businesses took advantage of the program during FY 2015, with a total of 15 bike rack installations.

Besides the Quarterpath project discussed above, most future development in the City continues to be infill and redevelopment. With this in mind, the City continues to implement an redevelopment program that includes a Forgivable Demolition Loan to encourage redevelopment projects. One project is currently utilizing this loan program, and five others have used it. The City has also recently created incentives to attract transformative development projects. City Council approved \$250,000 for FY 2015 for this initiative, and the Williamsburg Economic Development Authority has approved a policy governing the fund's use.

**Budget Policies**

The City's adopted Financial Planning Policies include requirements for balanced budgets and long-range planning. The FY 2015 General Fund operating budget was initially approved in May, 2014 with a transfer from reserves of \$210,654. As shown in the Management's Discussion and Analysis section of this report, the operating surplus for the year ended June 30, 2015 was \$1.4 million. Long-range planning is part of the budget process each year, and included (1) Planning Commission review of current and future capital projects; (2) consideration of revenue, expenditure, and service implications of continuing existing programs, or adding new programs; (3) condition assessment of major buildings, roads, sidewalks, bridges, water lines, vehicles, and equipment; (4) maintaining, as a minimum, the City's 35% of total operating revenues as its unassigned fund balance, which can only be used for emergencies, non-recurring expenditures, or major capital purchases that cannot be acquired on a pay-as-you-go basis.

Revenue policies taken into consideration during the budget process included annual review of tax rates, collection rates, and identification of all revenue and grant options available to the City. In addition, user fees and charges were reviewed in order to ensure keeping pace with service delivery. Building permit and inspection fees, as well as all recreation program charges, were also reviewed during the budget process.

Expenditure policies which also contributed to the positive operating outcome of FY 2015 include financing all current operating expenditures with current revenues. Budgetary control was enhanced during the year by expanding the City's performance measurement dashboard system, linked to the live accounting system, to key staff. Useful and timely line-item budget information is available on demand at department heads' and other key employees' desktops.

## Long-Term Financial Planning

**Major Operating Revenues** - The City of Williamsburg takes pride in providing a high level of public services to its residents at a reasonable cost. The real estate tax rate of 57¢ per \$100 of assessed value continues to be one of the lowest city tax rates in Virginia. Prior to FY 2009, room and meal taxes provided the largest source of funding for City services since the mid-1980s. Rising property assessments brought revenues that surpassed room and meal taxes during FY 2009 for the first time, when most local governments began to feel the effects of the recent recession. Real estate taxes made up for 28.9% of total revenues in FY 2015, compared to 19.9% in FY 2000. This shifting of tax base is more pronounced when comparing actual tax revenues. During that 15-year period room and meal taxes increased from \$9.2 million to \$10.0 million, a 9.5% increase. Real estate taxes increased from \$4.5 million in FY 2000 to \$9.9 million in FY 2015, an increase of 118%. The FY 2015 real estate tax base increased 2.6% from the prior year, with next year's FY 2016 values increasing another 2.8%. The City's total personal property tax collections, including State reimbursement for the Car Tax program, decreased 2.4% from last year. Much of the loss is from the tax exempt status of the former Hospitality House hotel purchased by the College of William & Mary's for student housing.

Though declining for two years from the highs of FY 2008, room and meal taxes tracked upward from FY 2010 to FY 2013, and declined about 1.9% during FY 2014. On a positive note room and meal taxes received during FY 2014 were about 8% higher than the all-time lows of FY 2010, and briefly surpassed real estate taxes in FY 2012 & FY 2013. This trend is attributable to increased meal rather than room taxes, and from reduced real estate values from FY 2010 thru FY 2013. The gap between room and meal tax receipts and real estate taxes for FY 2014 was just over \$100K. Room and meal taxes again surpassed real estate taxes during FY 2015 by approximately \$123K. Room and meal taxes accounted for 29.3% of the General Fund operating revenues for FY 2015, compared to 39.7% in FY 2000<sup>1</sup>.

Revenue trends for other local taxes were strong compared to last year. The 1% State sales tax receipts were \$4.3 million, up \$133K, or 2.7% over last year. Business license taxes were up slightly by \$56K. Bank stock taxes were up 17%, recordation taxes were up 51%, and tobacco taxes were up almost 6% over last year. Utility taxes were down slightly by less than 1%. Total other local taxes collected for FY 2015, including room & meal taxes, were up about \$744K, or 4.2% over FY 2014.

Total revenue from the Commonwealth increased overall by 3.1% for FY 2015. Reimbursement for street maintenance costs increased by \$43K, or 2.8%, over last year because of increased state funding per lane mileage.

<sup>1</sup> Not including the \$2/night lodging tax, which is dedicated for tourism promotion.

State sales tax for education receipts increased \$128K, or 13.1% this year.

Business growth and economic development initiatives mentioned above, along with investment by new and existing businesses in the City, will help to strengthen the City's real estate, personal property, and retail sales tax bases in the next few years.

A more detailed analysis of revenue trends is included in Management's Discussion and Analysis.

**Major Operating Expenditures** - The economy continues to challenge the City's ability to provide the type and quality of services our residents are accustomed to, and at relatively low tax rates. Total approved full-time positions increased from 189 in FY 2014 to 190 in FY 2015, with the addition of one position in the Codes Compliance department.

**Personnel Costs** – Employee benefit costs have increased substantially over the past several years. Healthcare benefits are analyzed each year relative to increases in premiums, and adjustments are recommended, if necessary, during the budget process. Beginning July 1, 2012, the City ended its self-insured healthcare plan, which was administered by Anthem, and now is offering employee & family coverage through the State's Local Choice healthcare plan. This move was in response (1) to limit exposure by joining a traditional insurance plan, with partial risk absorbed by the overall plan, which is made up of thousands of employees statewide; and (2) to reduce overall healthcare premiums by offering employees two different deductible plans.

The City is a member locality of the Virginia Retirement System (VRS). Pension costs are compensation-based, with funding rates set by VRS actuaries bi-annually. Significant increases in defined-benefit pension costs around the country have forced a variety of pension reform initiatives, as liabilities continue to outpace assets backing these long-term benefits. Pension reform by the Virginia General Assembly in 2011 has impacted localities and school districts by mandating employee contributions and changes in various components of benefit formulas. Note 13 of the financial statements includes extensive information on all VRS pension options, including the new Hybrid pension plan which was effective in January, 2014. In addition, the Governmental Accounting Standards Board has adopted Statement No. 68, *Accounting and Financial Reporting for Pensions*, which applies to governments that provide pension benefits to their employees. The comprehensive requirements of GASB Statement No. 68 are included in Note 13 of the financial statements.

**Debt Service** - In December, 2013 City Council approved a \$5 million bank-qualified loan with Carter Bank for financing the construction and equipping of a new governmental and community multipurpose facility to be known as the Stryker Center, located at 412 North Boundary Street. The loan is fixed at 2.60% for the 15-year term.

In April 2014 Standard & Poor's rating agency raised its long-term rating of the City's general obligation (GO) bonds from "AA+" to "AAA", its highest level. According to S & P, the rating reflects their view of the City's *"very strong economy, very strong budgetary flexibility, strong budgetary performance, very strong liquidity, very strong management, and very strong debt and contingent liability profile"*.

City staff continues to analyze market conditions, and formulate financing strategies with financial advisors, Davenport and Co., LLC, in order to stay on schedule with major projects. Since 2004 the City's financial policies include maintaining a minimum of 35% of total General Fund operating revenues as its operating fund balance. A detailed analysis of the City's fund balance is presented in the Management's Discussion and Analysis section of this report.

### **Independent Audit**

The State Code of the Commonwealth of Virginia requires an annual audit of the books of account, financial records, and transactions of the City. This requirement has been complied with and the unqualified opinion of Robinson, Farmer, Cox Associates, independent certified public accountants, has been included in this report.

### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Williamsburg, Virginia, for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014. This was the 29<sup>th</sup> consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must

publish an easily readable and efficiently organized comprehensive annual financial report, with contents conforming to program standards. This report satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the past 23 years. In order to qualify for the Distinguished Budget Presentation Award, the City's Budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device. Both of these prestigious awards serve to continually improve the City's annual financial reports and budget documents by implementing professional suggestions from GFOA staff and reviewers across the country.

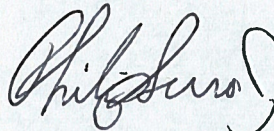

### **Acknowledgements**

The preparation of this report has been accomplished with the efficient and dedicated services of the City Department of Finance. We would like to express our appreciation to all members of the departments who assisted and contributed in its preparation. In addition, the accounting firm of Robinson, Farmer, Cox Associates, is to be congratulated for their substantial contributions, by way of design, counsel, and interpretation of recent guidelines, planning, and implementation of the requirements of all GASB standards, especially Statement No. 68. We also wish to express thanks to the Mayor and members of City Council for their unfailing support in planning and conducting the financial operations of the City of Williamsburg in a responsible and progressive manner.

Respectfully Submitted,

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Williamsburg, Virginia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of Williamsburg, Virginia, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## *Change in Accounting Principle*

As described in Note 1 to the financial statements, in 2015, the City adopted new accounting guidance, GASB Statement Nos. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* and 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

## *Other Matters*

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension funding progress on pages 4-17, 77, and 78-80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Williamsburg, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

*Other Information (continued)*

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

*Other Reporting Required by Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2015, on our consideration of City of Williamsburg, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Williamsburg, Virginia's internal control over financial reporting and compliance.

THIS PAGE LEFT BLANK INTENTIONALLY

The Management's Discussion and Analysis (MD&A) offers readers of the City's financial statements a narrative overview and analysis of the City's financial activities for the fiscal year ended June 30, 2015. Readers are encouraged to consider the information presented here in conjunction with additional information furnished in our letter of transmittal, and in the financial statements and notes to the financial statements (which immediately follow this discussion).

## FINANCIAL HIGHLIGHTS

### Government-wide:

- The City's assets and deferred outflows exceeded its liabilities and deferred inflows (net position) at the close of Fiscal Year 2015 by \$104 Million. The unrestricted portion of net position is \$24.5 Million for the Governmental Activities, and \$3.1 Million for the Business-type Activities, for a total of \$27.6 Million. In the current year, the unrestricted net position decreased \$7.2 Million in the Governmental Activities, and \$1.4 Million in the Business-type Activities. This is due to the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68* in recording the beginning net pension liability and the beginning deferred outflow of resources, contribution subsequent to the measurement date, for the City's defined benefit pension plan.
- The City's total net position decreased by \$11.5 million over the prior fiscal year, of which the governmental activities decreased by \$10.3 million, and business-type activities decreased by \$1.2 million. In the governmental activities, total revenues increased \$1.1 Million, or 2.9%, while expenses increased \$64K, or .2% from the prior fiscal year. In the business-type activities, total revenues exceeded expenses by \$327K before the effects of a change in accounting principle. Net position was restated for a change in accounting principle under GASB Statement No. 68 and GASB Statement No. 71, which require governments to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This restatement decreased net position in the governmental activities and the business-type activities by \$11.9 Million and \$1.6 Million respectively.

### Fund Level:

- Total General Fund (including 1% Sales Tax) revenues were \$39.4 million for FY 2015, up by \$1 million from last year. General property tax receipts were \$12.2 million, up 1.2% from last year. Other local taxes were up 4.2%, mostly from increased sales taxes, business licenses, bank stock taxes, and recordation taxes. Room taxes increased by \$91K, or 2.9%, with meal taxes up by \$373K (5.8%) over last year.
- Total General Fund expenditures, including capital projects, were up 8.7% at \$39.5 million for FY 2015. Capital projects and debt service payments accounted for \$7.4 million in spending for the year, up from last year's level of \$4.7 million.
- The City's General Fund debt decreased overall by \$988K during FY 2015, with scheduled ongoing debt principal being paid down.
- The City's governmental funds reported combined ending fund balances of \$36.4 million, a decrease of \$918K from the prior year. Fund balances are further categorized as *Nonspendable* (\$1.9 million for real property owned by the City and held for resale), *Restricted* (\$1.8 million for the General Fund, and \$416K for the Public Assistance Fund), *Assigned* (\$20.3 million for carryover and future capital projects), and *Unassigned* (\$12 million). The unassigned fund balance is equal to the City Council reserve policy of 35% of total General Fund operating revenues for FY 2015, and effectively represents the City's rainy day fund. The Restricted category includes \$1.8 million of borrowed funds for construction of the Stryker Center. The Assigned category includes \$4.9 Million of prior year carryover capital projects, and also \$15.4 Million to fund future capital projects included in the City's five-year capital improvement program.

- In October 2012 the Williamsburg City Council members were appointed as the Board of Commissioners of the Williamsburg Redevelopment & Housing Authority (WRHA). With the fiscal dependence, by way of City staff involvement in the areas of payroll, accounts payable, and other managerial responsibilities, the WRHA is presented in this report as a Discretely Presented Component Unit of the City. Financial information is included herein for WRHA's latest fiscal year ending September 30, 2014.
- Business-type activities (Utility Fund) reported net position at June 30, 2015 of \$21.1 million. Capital assets (net of depreciation and related debt) account for 85% of this amount, with the remaining net position of \$3.1 million available without restriction. The Utility Fund reports combined cash and investments at year-end of \$4.5 million, with total current liabilities of \$1.5 million, including the current portion (due within one year) of compensated absences and bonds payable.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and budgetary comparison, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### Government-wide Financial Statements

There are two government-wide financial statements, which are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities include general government, judicial, public safety, public works, health and welfare, education, parks and recreation, cultural, community development, and debt service. The sole business-type activity of the City of Williamsburg is the water utility.

The government-wide financial statements (Exhibits 1 and 2) include not only the City itself (known as the *primary government*), but also a legally separate Housing Authority for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The Statement of Net Position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, this is just one indicator of financial health of the City. Other indicators include the condition of the City's infrastructure systems (roads, drainage systems, bridges, etc.), changes in property tax base, and general economic conditions within the City.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants, and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on taxes for funding. All changes in net position are reported using the accrual basis of accounting, similar to the method used by most private-sector companies. The accrual basis of accounting requires that revenues be reported when they are earned and expenses are reported when the goods and services are received, regardless of the timing of the cash flow. Items such as uncollected taxes, unpaid vendor invoices for items received before June 30, 2015, and earned but unused vacation and sick leave will be included in the statement of activities as revenue and expense, even though the cash associated with these items will not be received or distributed until after June 30, 2015.

**Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Williamsburg, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Williamsburg can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Governmental Funds are used to account for most, if not all, of a government's tax-supported activities. Proprietary Funds are used to account for a government's business type activities, where all or part of the costs of activities are supported by fees and charges that are paid directly by those who benefit from the activities. Fiduciary Funds are used to account for resources that are held by the government as a trustee or agent for parties outside of the government. The resources of fiduciary funds cannot be used to support the government's own programs.

*Governmental Funds.* The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances present separate columns of financial data for the General Fund. (GASB Statement No. 34 defines a major fund as a fund whose assets, liabilities, revenues or expenditures comprise: 1) at least 10% of the total dollar amount of the same category within either all government or all enterprise funds, as appropriate; and, 2) at least 5% of the total dollar amount of all governmental and enterprise funds combined for the same category. The General Fund is always considered a major fund.) The governmental fund financial statements can be found immediately following the government-wide financial statements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements' use of accrual accounting, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements in comparison to near-term resources available.

Because the focus of governmental fund financial statements is narrower than that of government-wide financial statements, it is useful to compare information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to the governmental activities column in the government-wide statements, in order to facilitate this comparison.

The City maintains budgetary controls over its operating funds. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Budgets for governmental funds are established in accordance with state law, and are adopted on a fund level. Personnel services are budgeted by fulltime positions. Capital outlays are approved on an item-by-item basis or project basis. A budgetary comparison statement is provided for the General Fund to demonstrate compliance with the budget. Major fund budgetary variance statements are included with the basic financial statements. Non-major fund information follows the notes to the financial statements. Budgetary variances for the General Fund are discussed in some detail later in this section.

*Proprietary Funds.* The City uses an enterprise fund to account for its water utility operations. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements.

Proprietary fund statements follow the governmental fund statements in this report. They provide the same type of information as the government-wide financial statements, only in more detail, since both apply the accrual basis of accounting. The proprietary fund financial statements provide information for the Water Utility Fund, which is considered to be the only major proprietary fund of the City. There are no reconciling differences from the Proprietary Fund Statement of Net Position to the business-type activity column on the Government-Wide Statement of Net Position.

*Fiduciary Funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because

the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City of Williamsburg has one type of fiduciary funds - Agency Funds (which are clearing accounts for assets held by the City in its role as custodian until the funds are allocated to the organizations or government agencies to which they belong). The Statement of Fiduciary Net Assets can be found following the proprietary fund financial statements.

### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI) concerning the (1) General Fund revenues, expenditures, and changes in fund balances-budget and actual; and (2) the City's progress in funding its obligations to provide pension benefits to its current and future retirees. This required supplementary information can be found at Exhibit 11 through 14 of this report.

The combining financial statements for nonmajor special revenue funds and fiduciary funds immediately follow the required supplementary information at exhibits 15 through 19 of this report.

This report also contains a statistical section that supplements the basic financials statements by presenting detail trend information to assist the users in assessing the economic condition of the City. We encourage readers to review the statistical section to better understand the City's operations, services, and financial condition.

The last section of this report contains a compliance section, including the City's Schedule of Expenditures of Federal Awards and related notes, and the independent auditors' required reports on compliance and internal control.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

### Statement of Net Position

As noted earlier, changes in net position may serve over time as a useful indicator of a City's financial position. The City's net position totaled \$104.1 million at June 30, 2015. The following table reflects the condensed Government-Wide Statement of Net Position:

#### City of Williamsburg, Virginia - Summary of Net Position

	Governmental Activities		Business-Type Activities		Total	
	2015	2014	2015	2014	2015	2014
Current and Other Assets	\$ 38,140,860	\$ 38,864,952	\$ 5,537,274	\$ 5,446,811	\$ 43,678,134	\$ 44,311,763
Capital Assets	67,668,671	66,921,126	24,801,444	25,253,309	92,470,115	92,174,435

<b>Total Net Position</b>	<b>\$ 82,923,820</b>	<b>\$ 93,198,972</b>	<b>\$ 21,124,599</b>	<b>\$ 22,344,307</b>	<b>\$ 104,048,419</b>	<b>\$ 115,543,279</b>

**City of Williamsburg, Virginia****Management's Discussion and Analysis**

The City of Williamsburg's total assets were \$136.2 million as of June 30, 2015. The largest portion, \$76.4 million (56.1%), reflects its investment in capital assets (e.g., land, building, machinery, and equipment), less any related debt used to acquire assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Of the remaining City assets, approximately \$36.7 million is accounted for in cash, cash equivalents, and pooled investments, \$3.4 million in accounts and notes receivable, and amounts due from other governmental units, with the remainder spread among miscellaneous assets.

At June 30, 2015, outstanding liabilities were \$30.5 million, with \$18.8 million in general obligation bonds payable and compensated absences. Of the bonds payable, \$2.3 million is due within one year, with the remainder due at various dates until 2028. Additional information on the City's long term debt obligations is included in Note 8 in the notes to the financial statements. Included in other liabilities above are \$1.4 million in accounts payable, \$144K in accrued liabilities, and \$138K in customer deposits payable. In addition, net pension liability totaling \$11.2 million is included in the Statement of Net Position, as required by GASB Statement No. 68.

At June 30, 2015, the City had positive balances in all categories of net position, for the government as a whole, and for its separate governmental and business-type activities.

The following schedule summarizes the Statement of Activities of the primary government for the fiscal years ended June 30, 2015 and 2014:

**City of Williamsburg, Virginia - Summary of Changes in Net Position**

	<b>Governmental Activities</b>		<b>Business-Type Activities</b>		<b>Total</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>

Community Development	4,666,769	4,684,339	-	-	4,666,769	4,684,339
Interest expense	207,260	175,563	-	-	207,260	175,563
Water	-	-	6,827,214	6,042,928	6,827,214	6,042,928
<b>Total Expenses</b>	<b>37,962,967</b>	<b>37,898,698</b>	<b>6,827,214</b>	<b>6,042,928</b>	<b>44,790,181</b>	<b>43,941,626</b>
Increase in net position	1,626,979	596,961	326,721	257,657	1,953,700	854,618
Net position - beginning, as adjusted	<u>\$81,296,841</u>	<u>\$92,602,011</u>	<u>\$20,797,878</u>	<u>\$22,086,650</u>	<u>\$102,094,719</u>	<u>\$114,688,661</u>
Net position - ending	<u>\$82,923,820</u>	<u>\$93,198,972</u>	<u>\$21,124,599</u>	<u>\$22,344,307</u>	<u>\$104,048,419</u>	<u>\$115,543,279</u>

**Governmental Activities – Revenues**

The City's total revenues from governmental activities were \$39.6 million for FY 2015, an increase of \$1.1 million from last year. Percentages of FY 2015 governmental revenues by source are as follows:

Taxes are the largest City revenue source – property and other local taxes accounted for 77% of the City's governmental activities. General property tax receipts were \$12.3 million, up 2.7% from last year, with property values finally turning positive for the second year in a row following a three year decline totaling about 14% during the recession. Other local taxes totaled \$18.4 million during FY 2015, and were up 4.2% from the prior year.

**Governmental Activities – Expenses**

The Summary of Changes in Net Position shows total expenses for all of the City's governmental activities for FY 2015 were level with last year at \$37.9 million. The City's FY 2015 budget included a 1% overall merit pay increase for all employees.

Highlights of expense activity for governmental funds include:

- General Government Administration expenses were down slightly by 1.7%.
- Public Safety expenses were down 3.4% due to lower capital spending.
- Public Works expenses increased 11.7%, due largely to street and sidewalk construction and other capital improvements projects during the year compared to last year.
- Parks, Recreation, and Cultural expenses were up 2.3% over last year.
- Education expenses in total were down less than 1%, with operating costs up by 4.4%, but lower spending on capital projects during the year.

**Business-type activities** - The Utility Fund is the City's only business-type activity. The utility rate structure recovers as much as possible of the operating expenses incurred to meet service demands through user charges. Change in the fund's net position is the difference between revenues and expenses, which for FY 2015 resulted in an increase of \$326K. More operating information for the Utility Fund operation is shown below in the Funds section of this discussion.

## FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Williamsburg uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The following is a financial analysis of the City's governmental and proprietary funds.

### Governmental Funds Revenues - Analysis

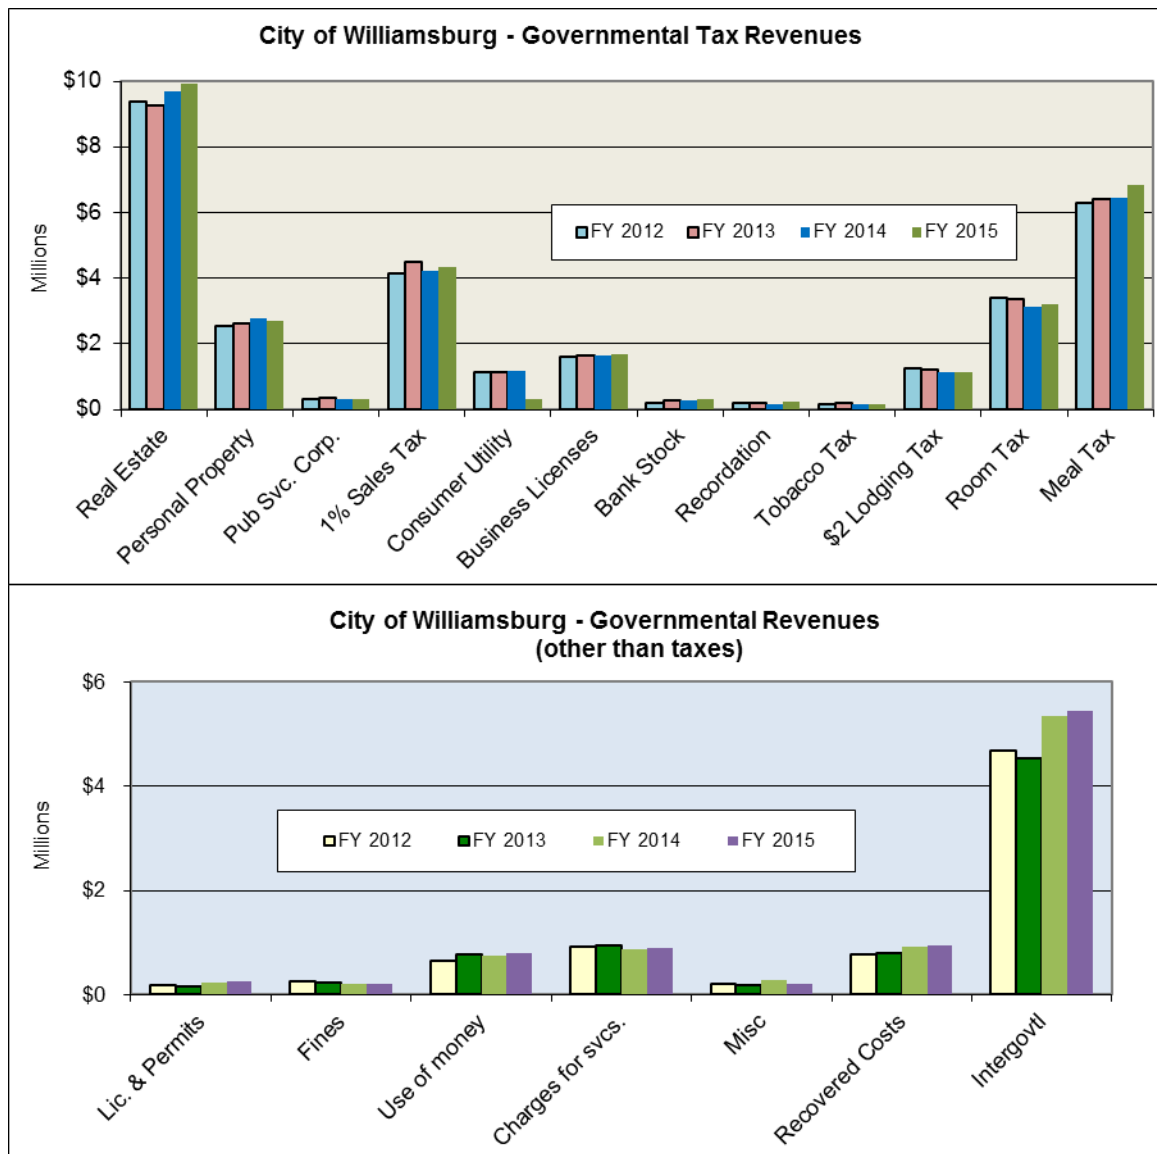

<b>Revenues Classified by Source Governmental Funds</b>						
Revenues by Source	June 30, 2015		June 30, 2014		Increase/(Decrease)

The Governmental Funds consist of the General Fund, Public Assistance Fund, and the Law Enforcement Block Grant Fund. The general governmental functions are contained in the General Fund, the City's chief operating fund. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. On June 30, 2015, total fund balance of the General Fund was approximately \$36 million. Of that amount, *Nonspendable* fund balance was approximately \$1.9 million, consisting of prepaid expenditures and current market value of three City-owned properties for sale. *Restricted* fund balance was \$1.75 million, representing remaining borrowed funds held in escrow for construction of the Stryker Center. *Assigned* fund balance was \$20.3 million,

representing a combination of appropriations carried over for capital projects of \$4.5 million and future capital projects of \$15.8 million. The remainder of \$12.0 million is shown as *Unassigned* fund balance.

The following provides more detailed information about major General Fund operating revenue collections during FY 2015:

- **General Property Taxes** –This consists of real and personal property tax receipts. Real property tax receipts were \$9.9 million, up 2.4% from last year. Personal property tax receipts for individuals and businesses totaled \$2.7 million, including reimbursement for the State's Car Tax relief block grant program, and were down by 2.5% from last year.
- **Other Local Taxes** - Overall these revenues increased 4.2% from last year. Local 1% share of the State sales tax receipts were up 2.7% from last year. Consumer utility taxes were level with last year. Business licenses were up 3.4%. Room taxes were \$3.2 million, up slightly by 2.9%, while meal taxes totaling \$6.8 million were up by 5.8% for the year. The \$2 lodging taxes, which are passed-thru to the Williamsburg Area Destination Marketing Committee (WADMC), were down 1% for the year. Bank stock taxes were \$319K, up about 17% over last year. Recordation taxes were \$250K for the year, up 51%. Overall, increases in local taxes above are positive signs of an improving local economy.

- **Revenue from the Use of Money and Property** – Interest earnings were \$138K for the year, up from last year's \$113K. An additional \$4 Million in certificates of deposit were added in January 2015 to the City's investment portfolio to increase interest earnings. Still, the average yield on deposits and investments for FY 2015 was level at approximately .50%, as higher yielding CDs matured during the year. Prince George Parking Garage receipts were \$318K, down about 1% from last year.
- **Charges for Services** – This category consists largely of EMS medical transport fees, recreation programs and facility rentals, and cemetery lots and fees. Overall revenues in this category were \$898K, up by 3.8% from last year, mostly from increased courthouse maintenance costs compared to last.
- **Miscellaneous/Recovered Costs** – These include reimbursements for Utility Fund overhead charges, public safety overtime, stormwater management fees, and James City County's reimbursed portion of annual Arts Commission grants under miscellaneous receipts.
- **Intergovernmental** – Overall, intergovernmental revenues were \$6.5 million, up 1% from last year, largely due to increases in sales tax for education, grantor's, and rental car taxes from last year. State highway maintenance payments were \$1.62 million, up 2.8% for the year.

### Governmental Funds Expenditures - Analysis

The following table represents Governmental expenditures by function, including capital projects, compared to prior year amounts.

#### Expenditures By Function Governmental Funds

Expenditures by Function	June 30, 2015		June 30, 2014		Increase/(Decrease)	
	Amount	Percent of Total	Amount	Percent of Total	Amount	Percent of Change
General Government	\$3,493,522	8.47%	\$3,403,525	8.25%	\$89,997	2.64%
Judicial Administration	400,605	0.97%	411,806	1.00%	(11,201)	-2.72%
Public Safety	9,643,183	23.37%	9,615,798	23.31%	27,385	0.28%
Public Works	2,936,678	7.12%	2,914,416	7.06%	22,262	0.76%
Health and Welfare	2,255,020	5.47%	2,306,790	5.59%	(51,770)	-2.24%
Education	8,540,794	20.70%	8,181,450	19.83%	359,344	4.39%
Parks, Recreation, and Cultural	1,965,487	4.76%	2,022,325	4.90%	(56,838)	-2.81%
Community Development	4,599,954	11.15%	4,591,577	11.13%	8,377	0.18%
Capital Projects	6,180,712	14.98%	3,820,162	9.26%	2,360,550	61.79%
Principal Retirement	988,147	2.40%	683,990	1.66%	304,157	44.47%
Interest	252,415	0.61%	213,216	0.52%	39,199	18.38%
Total Expenditures	<u>\$41,256,517</u>	<u>100.00%</u>	<u>\$38,165,055</u>	<u>92.51%</u>	<u>\$3,091,462</u>	<u>8.10%</u>

The City's FY 2015 budget included a 1% allowance for employee merit pay increases. The employer contribution rate during FY 2015 for all full-time employees covered by the Virginia Retirement System was 17.04% of salary, with covered employees contributing their 5% share above the employer rate. There was no increase in premiums for healthcare coverage with Anthem for FY 2015.

The following analysis provides additional information on the City's expenditures by function that changed significantly over the prior year.

- **General Government Administration** – Up \$90K, or 2.6% from last year, mostly from added costs associated with the merit pay increase, including costs for VRS pension, healthcare, and FICA match.
- **Judicial Administration** – The City funds judicial offices with James City County in the jointly owned Courthouse, according to a population-based formula each year. The City's share of expenditures totaled \$400K, down 2.7% from last year.
- **Public Safety** – This category includes several departments, and overall increased slightly by .3% over last year. Police department spending was down 1.3% from last year, mostly from savings in part-time wages, general liability insurance, fuel, and other operational costs. E-911

contracted services were up slightly by 1.6% for the year, consistent with the national consumer price index, which the contract with neighboring York County is based on each year. Fire department spending was up 2.2%, mostly from higher personnel costs compared to the prior year. Juvenile detention services are provided by the Middle Peninsula Juvenile Detention Commission, which operates the 48-bed Merrimac Center. Days used by City kids during FY 2015 totaled 315 compared to 464 last year. Juvenile detention costs, which are based on per diems, were \$62K compared to \$105K last year.

- **Public Works** – Overall costs were up .8% over last year. Streets and engineering expenditures were \$1.3 million, up 1.9% from last year, mostly from increased personnel costs. Refuse collection was up 9.5%, while maintenance of building and grounds was up 2.8%. Landscaping costs were \$538K, up 2% from last year.
- **Health & Welfare** – Local health department costs were \$180K, down 1.6% from last year. Contributions to the Colonial Behavioral Health were \$255K, up 1.8% from the prior year.
- **Education** – Education costs were \$8.5 million, up 4.4% from last year. The City's share of the jointly operated Williamsburg-James City County Schools for Fiscal Year 2015 was 9.68%. FY 2015 was the third of a five year renegotiated joint agreement, with operating funding based on the City's share of student population multiplied by a 14% factor, then averaged over the past three years. The City also funds approved capital projects at that same rate. The City's share of school capital costs paid during the year was \$591K, and included new projects and others carried forward from prior years.
- **Parks, Recreation and Cultural** – Parks and recreation costs of \$1.1 million were 5.3% lower than last year, and attributable mostly to reduced part-time wages associated with a reduction in recreation programs offered during FY 2015. Library expenditures of \$827K were up by \$7K over last year, and are based on a joint contract with the counties of James City and York.
- **Community Development** – Planning expenditures were up 5.7% from last year, due mostly to increased personnel and professional services for mapping. Contributions to outside agencies were \$2.6 million, not including pass-thru funding of the \$2 lodging taxes to the Williamsburg Area Destination Marketing Committee, and level with last year. Arts Commission expenditures of \$120K were level with last year.
- **Capital Projects** – Capital project spending varies each year depending on the 5-year program. City project spending totaled \$6.2 million for FY 2015. Capital projects included Stryker Center, street resurfacing, sidewalk construction, stormwater management projects, school improvements, and vehicles. More information is provided under the Capital Asset section below.
- **Principal and Interest payments** – Total principal payments during FY 2015 totaled \$988K, while interest payments on outstanding debt totaled \$252K. Details of long term debt obligations are included in the notes to the financial statements.

**Budget Variances**

Included in the Final Budget column of the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual - are carryover funds for Capital Projects. Since all planned projects rarely are completed by fiscal year end, this carryover is required in order to complete planned and previously approved projects.

General Fund operating revenues were over budget by approximately \$487K for FY 2015, while operating expenditures were \$952K under budget, for an operating surplus of \$1.44 Million. Although many revenue sources were slightly lower than budgeted, many sources, including all property taxes, business licenses, room and meal taxes, bank stock taxes, recordation taxes, and electrical, plumbing, and mechanical permits ended the year higher than budgeted. On the expenditure side, major contributing departments that were underspent for FY 2015 included fire, police, clerk of council, and streets.

**Fund Balance**

Total Fund Balance for the General Fund decreased from \$37.0 million to \$36.0 million for the year. Of that, (1) \$1.9 Million is *nonspendable*, and represents prepaid items and City-owned land held for resale; (2) \$1.8 Million is *restricted*, as it is the remainder of funds specifically borrowed for construction of the Stryker Center; (3) \$20.3 Million is *assigned* for subsequent years' carryover capital expenditures. This category includes \$6.7 Million of prior year carryover capital projects for street resurfacing, corridor improvements, vehicles, sidewalk construction projects, stormwater management improvements, and school capital projects. The remaining \$13.6 Million of assigned fund balance will fund future capital projects included in the City's five-year capital improvement program; (3) and \$12.0 million is *unassigned*.

**General Fund Reserve Policy**

At June 30, 2015 the *unassigned* fund balance of approximately \$12.0 million is 35% of FY 2015 operating revenues, consistent with the City's fund balance reserve policy.

**Enterprise Funds Revenue/Expense Analysis**

The business-type activity (water and sewer services of the Utility Fund) operating revenues for the year were \$7.1 million, up 13.8% from last year. Water rates increased 3% in July 2014 from \$4.80 to \$4.95 per 1,000 gallons. Highlights include:

- Total billed water consumption for FY 2015 was 866 million gallons, up about 4% from 832 million gallons last year.
- Water revenues were \$4.5 million, up 7.9%.
- Sewer revenues were \$1.95 million, up by 23.6%.
- Total operating expenses were up \$798K, or 13.7%.
- Skewing the high increase (23.6%) in sewer revenues noted above, and the 13.7% increase in operating expenses for the year are collection of sewer fees and remittance to HRSD, related to a billing change for a meter at the College of William & Mary. Previously the College was billed directly for those sewer charges by HRSD.
- Investment earnings were approximately \$28K, down slightly from last year because of reduced overall earnings rates on certificates of deposit.

Tap, connection, and availability fees are unpredictable and dependent on development activity, and were up during FY 2015. The City received \$166K this year from contracts with cell-phone providers using water tanks as a base for telecommunications equipment. Interest earnings were level with last year at \$28K. Utility Fund operating expenses totaled \$6.6 million for the year, up 13.7% from last year. Depreciation charges include a portion of the 25-year amortization of the total \$12.5 million cost of the Newport News Water agreement, classified as intangible water rights in the Utility Fund. Operating income for the year was \$501K, up from \$433K reported last year. Total net position of the Utility Fund increased by the net income for FY 2015 of \$326K, leaving the fund's ending total net position at \$21.1 million.

#### ORIGINAL AND FINAL AMENDED BUDGETS

By separate resolution, the General Fund FY 2015 budget was amended in April, 2015 by \$1,445,000 for purchase of two motel properties as an economic development initiative. Also in June, 2015, supplemental appropriations were approved by City Council, for equipment grants totaling \$87,040. In

addition, the General Fund's capital improvement budget was increased by \$8,361,173 to carry forward remaining appropriations for projects that were continued from the prior year.

**CAPITAL ASSET AND DEBT ADMINISTRATION****Capital Assets**

The City of Williamsburg's total investment in capital assets, including construction in progress, for its governmental and business type activities as of June 30, 2015, was \$92.5 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery and equipment, and recreation and park facilities. Major capital assets of the Utility Fund consist of all assets used to provide water and sewer services to City residents, including the major investment of the Waller Mill Reservoir and all properties adjacent to this watershed, and intangible water rights with the Newport News water agreement.

Major capital project fund activities during the current fiscal year included the following:

Governmental Funds:

- Annual street resurfacing program continued during the year at a cost of \$340K.
- Sidewalk construction projects totaled \$307K.
- Work continued on the Stryker Center, with approximately \$3 Million paid during FY 2015 from escrowed funds from the borrowing in December 2013.
- Information technology upgrades, pc replacement program, and network enhancements were completed at a cost of \$60K.
- Economic development initiatives included the purchase of the former White Lion Inn and Country Hearth Inn & Suites on Capitol Landing Road, in the amount of \$1.45 Million.
- Underground wiring on Page Street, completed last fiscal year, was finally billed by Va Power in the amount of \$630K and paid during FY 2015.
- School project costs, including renovations to existing facilities, were paid during the year in the amount of \$591K.
- Vehicles were replaced citywide under the replacement plan for \$247K.

The budget balances of any appropriated capital projects not completed at year end are carried forward to the next fiscal year, as provided for in the City's financial policies. Carryover funds for capital projects totaled approximately \$6.7 million, including \$2.2 million for the Stryker Center, at year end.

Utility Fund:

- Capital equipment repairs/replacement at the City's water treatment plant totaled about \$82K during FY 2015.
- A dump truck was replaced during the year at a cost of \$73K.
- Water tanks were painted at a cost of \$478K.
- York Street sewer lines were replaced from Quarterpath Road to the Historic Area during the year for \$249K.

Additional information on the City of Williamsburg's capital assets can be found in the Note 6-Capital Assets, on pages 44 – 46 of the Notes to the Financial Statements section of this report.

**Long-Term Debt**

At June 30, 2015, the City of Williamsburg's total outstanding bonded debt was \$15.6 million. Bonds payable for Governmental Activities were \$9.0 million, while business-type activities owed \$6.6 million at year end. The full faith and credit of the government backs these instruments. The City's total bonded debt decreased \$1.6 million. The City's remaining capacity for debt at June 30, 2015 is approximately \$158 million.

City staff continues to work with financial advisors, Davenport and Company, to analyze all aspects of capital project borrowing needs in order to secure the best interest rates if and when future borrowing is

necessary. Additional information on the City's long-term debt can be found under *Financial Highlights* on the first page of this Management's Discussion and Analysis, and in Note 8 to the financial statements—Long-Term Obligations, on pages 47 – 49 of this report

**Requests for Information**

This financial report is designed to provide a general overview of the City of Williamsburg's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, City of Williamsburg, 401 Lafayette St., Williamsburg, VA 23185

City of Williamsburg, Virginia  
Reconciliation of the Balance Sheet of Governmental Funds  
To the Statement of Net Position  
June 30, 2015

---

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds	\$ 36,405,838
--	---------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	67,668,671
---	------------

Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as deferred inflows of resources in the funds. The following is a summary of items supporting this adjustment:

Unavailable revenue - property taxes	\$ 255,683	
Items related to measurement of net pension liability	(2,835,608)	(2,579,925)

Pension contributions subsequent to the measurement date will be a reduction to the net pension liability in the next fiscal year and, therefore are not reported in the funds.	1,459,692
---	-----------

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

General obligation bonds	\$ (9,013,090)	
Deferred issuance premium	(227,948)	
Net pension liability	(9,882,531)	
Accrued interest payable	(36,106)	
Compensated absences	(870,781)	(20,030,456)

Net position of governmental activities	\$ 82,923,820
---	---------------

Fund balances - ending	<u>\$ 35,977,127</u>	<u>\$ 428,711</u>	<u>\$ 36,405,838</u>

The notes to the financial statements are an integral part of this statement.

City of Williamsburg, Virginia  
Reconciliation of Statement of Revenues,  
Expenditures, and Changes in Fund Balances of Governmental Funds  
To the Statement of Activities  
For the Year Ended June 30, 2015

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ (918,344)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded the depreciation expense in the current period. The following is a summary of items supporting this adjustment:

Capital outlay	\$ 4,007,539	
Depreciation expense	<u>(3,259,994)</u>	747,545

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	29,703	
Changes in deferred inflows related to the measurement of the net pension liability	<u>(2,835,608)</u>	(2,805,905)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. The following is a summary of items supporting this adjustment:

Principal retirement on general obligation bonds	\$ 988,147	
Amortization of premium	<u>41,610</u>	1,029,757

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

The following is a summary of items supporting this adjustment:

Change in compensated absences	\$ 91,089	
Change in net pension liability	3,399,062	
Change in deferred outflows related to pension payments subsequent to the measurement date	80,230	
Change in accrued interest payable	<u>3,545</u>	<u>3,573,926</u>

Change in net position of governmental activities		<u><u>\$ 1,626,979</u></u>

## CITY OF WILLIAMSBURG, VIRGINIA

### Notes to Financial Statements As of June 30, 2015

---

#### Note 1—Summary of Significant Accounting Policies:

---

The City of Williamsburg, Virginia (the "City") was established by the General Assembly of the Commonwealth of Virginia in 1699 and was incorporated by British Royal Charter in 1722. The City is a municipal corporation governed by an elected mayor and four-member council. The accompanying financial statements present the government and the entities for which the government is considered to be financially accountable.

#### Financial Statement Presentation

Management's Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

#### Government-wide and Fund Financial Statements

Government-wide financial statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

*The remainder of this page left blank intentionally*

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the City of Williamsburg (the primary government) and its component unit. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

*Blended Component Unit* - The City has no blended component units to be included for the fiscal year ended June 30, 2015.

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

B. Individual Component Unit Disclosures (Continued)

*Discretely Presented Component Units* - The Williamsburg Redevelopment and Housing Authority (WRHA) is responsible for operating a low income housing program in the City which provides housing for eligible families, for operating redevelopment and conservation programs and for delivering of services to citizens of low income housing and urban renewal areas through the encouragement and development of social and economic opportunities. The Commissioners of the Authority are the members of City Council. The Authority is fiscally dependent on the City. The City is involved in the day-to-day operations of the WRHA, including the processing of their payroll, accounts payable and other managerial functions and therefore, the WRHA is included in the City's financial statements as a discrete presentation for the year ended June 30, 2015. WRHA's fiscal year of October 1 to September 30 differs from the City's fiscal year of July 1 to June 30. A copy of the separately issued financial statements may be obtained for the WRHA by writing to Williamsburg Redevelopment and Housing Authority, 401 Lafayette Street, P.O. Box 411, Williamsburg, VA 23185 or by calling (757) 220-3477.

C. Other Related Organizations

Not included in the City's financial statements are certain entities created as separate governments under the laws of the Commonwealth of Virginia. These agencies are separate legal entities having governmental character and sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the City, although certain members of their governing bodies are appointed by the City Council. Specific information on the nature of the individual agencies and description of their financial transactions affecting the City are provided in the following paragraphs:

1. The City of Williamsburg - County of James City, Virginia Joint Public Schools - Under the terms of an agreement dated January 14, 1954, and subsequently revised, between the governing bodies and the school boards of the City of Williamsburg, Virginia and the County of James City, Virginia, effective July 1, 1955, the two localities consolidated the operations of their schools. The latest agreement was amended April 24, 2012 for Fiscal Years 2013 through 2017. That agreement provides that the City's share of operational costs will be equivalent to the percentage of City students each year, times an add-on factor, then averaged over the two past fiscal year funding shares. The add-on factor for Fiscal Years 2015 through 2017 is as follows:

Fiscal Year	Factor
2015	1.14
2016	1.14
2017	1.14

Notes to Financial Statements (Continued)  
As of June 30, 2015

*Note 1—Summary of Significant Accounting Policies: (Continued)*

C. Other Related Organizations (Continued)

1. The City of Williamsburg - County of James City, Virginia Joint Public Schools (Continued)

Summary financial information on the school operations (General Fund) as of June 30, 2015, is as follows:

Total assets	<u>\$ 15,855,421</u>
Liabilities	14,312,549
Fund equity and other credits	<u>1,542,872</u>
Total liabilities, fund equity, and other credits	<u>\$ 15,855,421</u>
Revenues	\$ 119,975,793
Expenditures and other financing uses	<u>121,470,240</u>
Excess of expenditures and other financing uses over revenues	\$ (1,494,447)
Fund balance, beginning	<u>3,037,319</u>
Fund balance, ending	<u>\$ 1,542,872</u>

General long-term obligations of the joint school operations consists of liabilities for early retirement, compensated absences, pensions, and obligations under capital leases. Each participating government is responsible for its own debt related to school properties.

2. Williamsburg Regional Library - The Library is a joint operation of the City of Williamsburg and the Counties of James City and York, Virginia, operating under a contract dated September 26, 2013. It receives funding from the Commonwealth of Virginia, the federal government, and some private sources. The Library's board is split between City and County appointees. The Library's management is independent from City and County control. During the current fiscal year, the City contributed \$827,166 to the Library's operating budget, or 14.42% of its net appropriated support. Separate financial statements are prepared and are available, which reflect the details of its operations.
3. Other Agencies - Certain agencies and commissions service both the City of Williamsburg and surrounding localities. Board membership is allocated among the localities and their governing bodies make appointments. These agencies include: Hampton Roads Planning District Commission (HRPDC), Colonial Behavioral Health, Virginia Peninsula Regional Jail, Colonial Group Home Commission, Middle Peninsula Juvenile Detention Commission, Peninsula Agency on Aging, Community Action Agency, Virginia Peninsula Public Service Authority, Greater Williamsburg Partnership, and the Williamsburg Area Arts Commission.

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

**D. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The City's fiduciary funds are presented in the fund financial statements by type and have no measurement focus but use the accrual basis of accounting for asset and liability recognition. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the City.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The City reports the General Fund as a major governmental fund.

The General Fund is the primary operating fund of the City. This fund is used to account for and report all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income.

Special Revenue Funds account for and report the proceeds of specific revenue sources that are restricted, committed, or assigned to expenditure for specified purposes other than debt service or capital projects requiring separate accounting because of legal or regulatory provisions or administrative action. Special Revenue Funds consist of the following non-major funds: Virginia Public Assistance Fund and Law Enforcement Block Grant Fund. The Virginia Public Assistance Fund accounts for the Social Services programs of the City and is funded primarily through intergovernmental revenues.

2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The City's major Enterprise Fund consists of the Utility Fund.

3. Fiduciary Funds

Fiduciary Funds (Trust and Agency Funds) account for assets held by the City unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Private Purpose Trust and Agency Funds. Private Purpose Trust Funds and Agency Funds utilize the accrual basis of accounting as described in the Proprietary Funds Presentation. Agency funds include the Williamsburg Regional Library, the Williamsburg Tricentennial Fund, Economic Development Authority, and the Farmers Market Fund. Fiduciary funds are not included in the government-wide financial statements.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements with maturities of three months or less from the date of acquisition are reported in the accompanying financial statements as cash and cash equivalents.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Notes to Financial Statements (Continued)  
As of June 30, 2015

*Note 1—Summary of Significant Accounting Policies: (Continued)*

G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as “advances to/from other funds.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$220,932 at June 30, 2015 and is comprised of property taxes of \$55,998 water and sewer charges of \$100,084, and ambulance recovery fees of \$64,850.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	<u>Real Property</u>	<u>Personal Property</u>
Levy	July 1	January 1
Due Date	December 1 / June 1	December 1
Lien Date	July 1	January 1

The City bills and collects its own property taxes. The City follows the practice of reassessing real estate annually and personal property annually.

H. Capital Assets

Capital assets, which include property, plant and equipment, infrastructure, and intangibles are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the City as land, buildings, infrastructure, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation. Intangible assets lack physical substance and have a nonfinancial nature and initial useful life extending beyond a single reporting period.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2015 was immaterial.

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

H. Capital Assets (Continued)

Property, plant and equipment, infrastructure, and intangibles of the primary government are depreciated (including amortization of intangible assets) using the straight-line method over the following estimated useful lives.

Assets	Years
Buildings	40
Improvements other than buildings	20
Infrastructure	
Roads	30
Bridges and culverts	50
Water/sewer system	40
Machinery and equipment	3-10
Intangibles	40

I. Compensated Absences

Vested or accumulated vacation leave is recognized as an expenditure and liability of the governmental fund that will pay it when it is matured. Thus, the only portion of a compensated absences liability that is reported in the governmental funds would be the amount of reimbursable unused vacation leave or sick leave payable to employees who had terminated their employment as of June 30<sup>th</sup>. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as “terminal leave” prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The City’s policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item that qualifies for reporting in this category. It is comprised of contributions to the pension plan made during the current year and subsequent to the net pension asset or liability measurement date, which will be recognized as a reduction of the net pension asset or liability next fiscal year. For more detailed information on these items, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2<sup>nd</sup> half installments levied during the fiscal year but due after June 30<sup>th</sup>, and amounts prepaid on the 2<sup>nd</sup> half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2<sup>nd</sup> half installments levied during the fiscal year but due after June 30<sup>th</sup> and amounts prepaid on the 2<sup>nd</sup> half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments. For more detailed information on these items, reference the pension note.

M. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

N. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

O. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's Retirement Plan and the additions to/deductions from the City's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Q. Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in the financial statements using the consumption method.

R. Inventory

Inventory is valued at cost using the weighted average method. Inventory consists of expendable supplies held for consumption and is recorded as expenditures when used (consumption method). Inventory in the General Fund includes land purchased by the City and held for resale. These amounts are valued at their estimated fair market value.

S. Fund Equity

The City Council reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

S. Fund Equity (Continued)

other purpose unless the government takes the same highest level action to remove or change the constraint;

- Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by the City Manager to which the governing body delegates the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the City's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the City Manager, who has been given the delegated authority by the City Council to assign amounts for a specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the City strives to maintain an unassigned fund balance to be used for unanticipated emergencies equal to a minimum of 35% of General Fund operating revenue as shown in the City's most recent comprehensive annual financial report.

T. Adoption of Accounting Principles

Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*:

The City implemented the financial reporting provisions of the above Statements for the fiscal year ended June 30, 2015. These Statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures related to pensions. Note disclosure and required supplementary information requirements about pensions are also addressed.

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 1—Summary of Significant Accounting Policies: (Continued)*

---

T. Adoption of Accounting Principles (Continued)

The requirements of this Statement will improve financial reporting by improving accounting and financial reporting by state and local governments for pensions. The implementation of the statements resulted in a restatement of net position as detailed in Note 16.

*Note 2—Stewardship, Compliance, and Accounting:*

---

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. The City Charter requires the City Manager to submit to the City Council an annual budget for the ensuing fiscal year at least 60 days prior to the beginning of such fiscal year.
2. A public hearing on the budget is held after a synopsis of the budget is published in a local newspaper of general circulation. After a public hearing, the City Council may change any item in the budget (other than debt service or items required by law). A budget resolution must be adopted by the City Council prior to June 30 or as soon thereafter as is practicable.
3. The City utilizes the budget resolution of budgetary control whereby City Council adopts budgets for estimated revenues and expenditures on a departmental basis for the General Fund and Special Revenue Funds. Adopted budgets may be amended or superseded by action of City Council.
4. Budgets are also adopted by City Council for the Enterprise Funds. Budget to actual comparisons for these funds are not presented herein since there is no legal requirement for such presentation.
5. All operating budgets include proposed expenditures and the means of financing them. The City Manager has the authority to transfer amounts within the departments, so long as the total appropriation for a department is not adjusted. Budgeted amounts as presented in the financial statements reflect reallocations within budget categories through June 30, 2015.
6. Appropriation control is maintained at the department level. Appropriations lapse at year end. Encumbrances and committed fund balances outstanding at year end are re-appropriated in the succeeding year.
7. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
8. The City utilizes a Finance and Audit Committee to assist City Council in carrying out its oversight responsibilities as they relate to financial reporting, internal controls and compliance with laws and regulations.

CITY OF WILLIAMSBURG, VIRGINIA

Notes to Financial Statements (Continued)  
As of June 30, 2015

*Note 2—Stewardship, Compliance, and Accounting: (Continued)*

Expenditures and Appropriations

Expenditures exceeded appropriations in the following departments:

Department	Final Budget	Actual	Over exceed Amount
General Fund:			
City Manager	\$ 546,792	\$ 582,544	\$ (35,752)
Commissioner of revenue	208,048	208,548	(500)
Regional Jail	1,176,790	1,180,761	(3,971)
Engineering	255,101	261,626	(6,525)
Stormwater operations	-	971	(971)
Refuse collection	609,500	627,432	(17,932)
Maintenance of general buildings and grounds	467,945	479,915	(11,970)
Cemeteries	65,285	65,700	(415)

*Note 3—Deposits and Investments:*

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and saving institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits of the Williamsburg Redevelopment and Housing Authority, a discretely presented component unit, are considered fully collateralized.

At year-end the carrying value of the City’s deposits with banks and savings institutions was \$36,883,907 and the bank balance was \$37,897,370. Of the bank balance, \$37,897,370 was covered by Federal Depository Insurance Corporation. Of the Bank balance, \$16,102,372 was uncollateralized in banks or savings and loans not qualifying under the Virginia Security for Public Deposits Act at June 30, 2015.

Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP).

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 3—Deposits and Investments: (Continued)*

---

Credit Risk of Debt Securities

The City's rated debt investments as of June 30, 2015 were rated by *Standard and Poor's* and the ratings are presented below using the *Standard and Poor's* rating scale. The City's investment policy has an emphasis on high credit quality and known marketability. Holdings of commercial paper are not allowed to exceed thirty-five percent of the investment portfolio, and not more than 5% per issuer.

City's Rated Debt Investments' Values	
<u>Rated Debt Investments</u>	<u>Fair Quality Ratings</u>
	<u>AAAm</u>
Local Government Investment Pool	<u>\$ 2,392,286</u>
Total	<u><u>\$ 2,392,286</u></u>

External Investment Pools

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7. The dollar weighted average maturity of the LGIP portfolio may not exceed 60 days.

*The remainder of this page left blank intentionally*

CITY OF WILLIAMSBURG, VIRGINIA

Notes to Financial Statements (Continued)  
As of June 30, 2015

*Note 4—Due from Other Governments:*

At June 30, 2015, the City has receivables from other governments as follows:

	Governmental Activities
Other Local Governments:	
County of James City	\$ 9,873
Williamsburg-James City County Public Schools	130,925
Williamsburg Redevelopment and Housing Authority	114,000
Commonwealth of Virginia:	
Communications tax	117,651
VDOT	199,347
CSA pool funds	27,753
Local sales tax	783,179
Recordation tax	19,619
Shared expenses	8,477
Social services	27,188
State sales tax	190,857
Mapping grant	17,117
Other	7,107
Federal Government:	
Local law enforcement block grant	2,215
DOJ Bulletproof vest grant	2,588
Social Services	48,661
Total	<u>\$ 1,706,557</u>

*Note 5—Interfund Obligations:*

Details of the Primary Government's interfund receivables and payables as of June 30, 2015 are as follows:

Fund	Interfund Receivables	Interfund Payables
General	\$ 49,841	\$ -
Virginia Public Assistance	-	15,361
Utility	-	34,480
Total	<u>\$ 49,841</u>	<u>\$ 49,841</u>

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

*Note 9—Unearned and Unavailable Revenue:*

Unearned and unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unavailable revenue of \$255,683 and unearned revenue of \$465,164 totaling \$720,847 is comprised of the following:

Unavailable Property Tax Revenue: Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$255,683 at June 30, 2015.

Unearned Revenue: Unearned revenue representing state personal property tax relief, courthouse maintenance funds, and other amounts not available for funding of current expenditures totaled \$250,989 at June 30, 2015 and were reported in the general fund. The Special Revenue Funds reports \$65,148 in unearned revenue related to summer youth program funds received but not expended at June 30, 2015.

The Utility Fund reports unearned revenue representing a lease agreement paid in advance by Crossroads Community Youth Home totaling \$144,000 at June 30, 2015.

CITY OF WILLIAMSBURG, VIRGINIA

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 10—Commitments and Contingencies:*

---

Federal programs in which the City participates were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by the audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

The City was committed on the following construction contracts at June 30, 2015:

	Project	Contractor	Amount of Contract	Contract Outstanding at 6/30/2015
Utility Fund	Cleaning and repairing water storage tank	Utility Service Co., Inc.	\$ 482,700	\$ 48,270
General Fund	Stryker Building replacement	Daniel & Company, Inc.	5,763,823	2,536,270

*Note 11—Litigation:*

---

At June 30, 2015, there were no matters of litigation involving the City or which would materially affect the City's financial position should any court decisions on pending matters not be favorable to such entities.

*Note 12—Risk Management:*

---

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City joined together with other local governments in Virginia to form the Virginia Municipal Liability Pool, a public entity risk pool currently operating as a common risk management and insurance program for participating local governments. The City pays annual premiums to the pool for its property, theft, auto liability, and general liability coverage. Settled claims for the City resulting from these risks have not exceeded insurance coverage for each of the past three years. There was no reduction in insurance coverage during fiscal year 2015.

The City is also a participating member in the Virginia Municipal Group Self Insurance Association. This non-profit entity provides workers' compensation coverage in compliance with the Virginia Workers' Compensation Code. Each Association member jointly and severally agrees to assume, pay and discharge any liability. The City pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid.

*Note 12—Risk Management: (Continued)*

---

In the event of a loss deficit and depletion of all available excess insurance, the pool may assess all members in the proportion, which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. In addition, the City provides various surety bond coverage as required under regulations and at industry recommended levels. Settlements have not exceeded commercial insurance coverage in any of the three past years.

**Note 13—Pension Plan:****Plan Description**

All full-time, salaried permanent employees of the City are automatically covered by VRS Retirement Plan upon employment. This plan is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p><b>About Plan 1</b> Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p><b>About Plan 2</b> Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p><b>About the Hybrid Retirement Plan</b> The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members")</p> <ul style="list-style-type: none"> <li>• The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.</li> <li>• The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.</li> </ul>

**Note 13—Pension Plan: (Continued)****Plan Description (Continued)**

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
About Plan 1 (Continued)	About Plan 2 (Continued)	About the Hybrid Retirement Plan (Continued) <ul style="list-style-type: none"> <li>• In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.</li> </ul>
<p><b>Eligible Members</b> Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p> <p><b>Hybrid Opt-In Election</b> VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p>	<p><b>Eligible Members</b> Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p> <p><b>Hybrid Opt-In Election</b> Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.</p> <p>The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.</p> <p>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</p>	<p><b>Eligible Members</b> Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:</p> <ul style="list-style-type: none"> <li>• Political subdivision employees*</li> <li>• Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014.</li> </ul> <p><b>*Non-Eligible Members</b> Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:</p> <ul style="list-style-type: none"> <li>• Political subdivision employees who are covered by enhanced benefits for hazardous duty employees.</li> </ul>

**Note 13—Pension Plan: (Continued)****Plan Description (Continued)**

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p><b>Hybrid Opt-In Election (Cont.)</b> Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p><b>Hybrid Opt-In Election (Cont.)</b> Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.</p>	<p><b>*Non-Eligible Members (Cont.)</b> Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>
<p><b>Retirement Contributions</b> Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p><b>Retirement Contributions</b> Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016.</p>	<p><b>Retirement Contributions</b> A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>

**Note 13—Pension Plan: (Continued)****Plan Description (Continued)**

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p><b>Creditable Service</b> Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.</p>	<p><b>Creditable Service</b> Same as Plan 1.</p>	<p><b>Creditable Service</b> <u><b>Defined Benefit Component:</b></u> Under the defined benefit component of the plan, creditable service includes active service. <p>Cost-of-Living Adjustment (COLA) in Retirement (Cont.)</p> <p><u>Exceptions to COLA Effective Dates:</u> The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:</p> <ul style="list-style-type: none"> <li>• The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.</li> <li>• The member retires on disability.</li> <li>• The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).</li> <li>• The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.</li> <li>• The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.</li> </ul>	<p>Cost-of-Living Adjustment (COLA) in Retirement (Cont.)</p> <p><u>Exceptions to COLA Effective Dates:</u> Same as Plan 1</p>	<p>Cost-of-Living Adjustment (COLA) in Retirement (Cont.)</p> <p><u>Exceptions to COLA Effective Dates:</u> Same as Plan 1 and Plan 2.</p>

**Note 13—Pension Plan: (Continued)****Plan Description (Continued)**

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p><b>Disability Coverage</b> Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.</p> <p>VSDP members are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.</p>	<p><b>Disability Coverage</b> Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.</p> <p>VSDP members are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.</p>	<p><b>Disability Coverage</b> Employees of political subdivisions (including Plan 1 and Plan2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.</p> <p>Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.</p>
<p><b>Purchase of Prior Service</b> Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.</p>	<p><b>Purchase of Prior Service</b> Same as Plan 1.</p>	<p><b>Purchase of Prior Service</b> <u>Defined Benefit Component:</u> Same as Plan 1, with the following exceptions:</p> <ul style="list-style-type: none"> <li>• Hybrid Retirement Plan members are ineligible for ported service.</li> <li>• The cost for purchasing refunded service is the higher of 4% of creditable compensation or average final compensation.</li> <li>• Plan members have one year from their date of hire or return from leave to purchase all but refunded prior service at approximate normal cost. After that one-year period, the rate for most categories of service will change to actuarial cost.</li> </ul> <p><u>Defined Contribution Component:</u> Not applicable.</p>

**Note 13—Pension Plan: (Continued)****Plan Description (Continued)**

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2014-annual-report.pdf> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Employees Covered by Benefit Terms**

As of the June 30, 2013 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	<u>191</u>
Inactive members:	
Vested inactive members	40
Non-vested inactive members	43
Inactive members active elsewhere in VRS	<u>112</u>
Total inactive members	<u>195</u>
Active members	<u>178</u>
Total covered employees	<u><u>564</u></u>

**Contributions**

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The City's contractually required contribution rate for the year ended June 30, 2015 was 17.04% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from them were \$1,649,556 and \$1,558,890 for the years ended June 30, 2015 and June 30, 2014, respectively.

**Note 13—Pension Plan: (Continued)****Net Pension Liability**

The City's net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2013, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

**Actuarial Assumptions - General Employees**

The total pension liability for General Employees in the City's Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

## Largest 10 - Non-LEOS:

## Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

## Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

## Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

## All Others (Non 10 Largest) - Non-LEOS:

## Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

## Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

## Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

**Note 13—Pension Plan: (Continued)****Actuarial Assumptions - General Employees (Continued)**

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

## Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

## All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

**Actuarial Assumptions - Public Safety Employees**

The total pension liability for Public Safety employees in the City's Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

Inflation	2.5%
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

***Note 13—Pension Plan: (Continued)***

---

***Actuarial Assumptions - Public Safety Employees (Continued)***

Mortality rates: 60% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

All Others (Non 10 Largest) - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

**Note 13—Pension Plan: (Continued)****Long-Term Expected Rate of Return**

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
		Inflation	2.50%
		*Expected arithmetic nominal return	8.33%

\* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

**Note 13—Pension Plan: (Continued)****Discount Rate**

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the City Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

**Changes in Net Pension Liability**

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at June 30, 2013	\$ 60,748,163	\$ 45,740,713	\$ 15,007,450
Changes for the year:			
Service cost	\$ 1,182,529	\$ -	\$ 1,182,529
Interest	4,155,774	-	4,155,774
Contributions - employer	-	1,558,890	(1,558,890)
Contributions - employee	-	478,336	(478,336)
Net investment income	-	7,179,163	(7,179,163)
Benefit payments, including refunds of employee contributions	(2,759,933)	(2,759,933)	-
Administrative expenses	-	(38,979)	38,979
Other changes	-	379	(379)
Net changes	\$ 2,578,370	\$ 6,417,856	\$ (3,839,486)
Balances at June 30, 2014	\$ 63,326,533	\$ 52,158,569	\$ 11,167,964

**Note 13—Pension Plan: (Continued)*****Sensitivity of the Net Pension Liability to Changes in the Discount Rate***

The following presents the net pension liability of the City using the discount rate of 7.00%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate		
	(6.00%)	(7.00%)	(8.00%)
City Net Pension Liability	\$ 18,950,147	\$ 11,167,964	\$ 4,664,088

***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended June 30, 2015, the City recognized pension expense of \$922,571. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 3,203,167
Employer contributions subsequent to the measurement date	1,649,556	-
Total	\$ 1,649,556	\$ 3,203,167

**Note 13—Pension Plan: (Continued)*****Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)***

\$1,649,556 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30</u>	
2016	\$ (800,792)
2017	(800,792)
2018	(800,792)
2019	(800,791)
Thereafter	-

**Note 14—Surety Bonds:**

Surety bonds covered the following constitutional officers and City employees at June 30, 2015:

	<u>Amount</u>
<u>Travelers Casualty and Surety Company of America</u>	
Philip F. Serra, Director of Finance	\$ 500,000
Judy Nightengale Fuqua, Commissioner of the Revenue	3,000
Betsy Woolridge, Clerk of Circuit Court	103,000
Robert Deeds, Sheriff	30,000
Employees of Constitutional officers - blanket bond	1,000,000
Police Department - blanket bond	100,000
All City of Williamsburg employees except Constitutional Officers and their subordinates and the Police Department	100,000

Notes to Financial Statements (Continued)  
As of June 30, 2015

---

*Note 15-Upcoming Pronouncements:*

---

Statement No. 72, *Fair Value Measurement and Application*, amends the definitions of fair value used throughout GASB literature to be consistent with the definition and principles provided in FASB Accounting Standards Codification Topic 820, *Fair Value Measurement*. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. No formal study or estimate of the impact of this standard has been performed.

Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68 and amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement for pension plans that are within the scope of Statement 67 or for pensions that are within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2015. No formal study or estimate of the impact of this standard has been performed.

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. No formal study or estimate of the impact of this standard has been performed.

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017. No formal study or estimate of the impact of this standard has been performed.

Notes to Financial Statements (Continued)  
As of June 30, 2015

*Note 15-Upcoming Pronouncements: (Continued)*

Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, objective is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively. No formal study or estimate of the impact of this standard has been performed.

Statement No. 77, *Tax Abatement Disclosures*, will increase the disclosure of tax abatement agreements to disclose information about the agreements. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015. No formal study or estimate of the impact of this standard has been performed.

*Note 16: Restatement of Net Position:*

The implementation of GASB 68 resulted in the following restatement of Net Position:

	Governmental Activities	Business-type Activities
Net position as previously reported at June 30, 2014	\$ 93,198,972	\$ 22,344,307
Adjustment to record GASB 68 Net pension liability as reported by VRS at the beginning of the year	(13,281,593)	(1,725,857)
Adjustment to record GASB 68 deferred outflows of resources related to the Net pension liability as reported by VRS at the beginning of the year	1,379,462	179,428
Net position as restated at July 1, 2014	\$ <u>81,296,841</u>	\$ <u>20,797,878</u>

Schedule of Components of and Changes in Net Pension Liability and Related Ratios  
For the Year Ended June 30, 2015

	<u>2014</u>
Total pension liability	
Service cost	\$ 1,182,529
Interest	4,155,774
Benefit payments, including refunds of employee contributions	<u>(2,759,933)</u>
Net change in total pension liability	\$ 2,578,370
Total pension liability - beginning	60,748,163
Total pension liability - ending (a)	<u><u>63,326,533</u></u>
Plan fiduciary net position	
Contributions - employer	\$ 1,558,890
Contributions - employee	478,336
Net investment income	7,179,163
Benefit payments, including refunds of employee contributions	(2,759,933)
Administrative expense	(38,979)
Other	<u>379</u>
Net change in plan fiduciary net position	\$ 6,417,856
Plan fiduciary net position - beginning	45,740,713
Plan fiduciary net position - ending (b)	<u><u>52,158,569</u></u>
City's net pension liability - ending (a) - (b)	\$ 11,167,964
Plan fiduciary net position as a percentage of the total pension liability	82.36%
Covered-employee payroll	\$ 9,570,924
City's net pension liability as a percentage of covered-employee payroll	116.69%

Schedule is intended to show information for 10 years. Since 2015 is the first year for this presentation, no other data is available. However, additional years will be included as they become available.

Schedule of Employer Contributions  
For the Year Ended June 30, 2015

Date	Contractually Required Contribution (1)	Contributions in Relation to Contractually Required Contribution (2)	Contribution Deficiency (Excess) (3)	Employer's Covered Employee Payroll (4)	Contributions as a % of Covered Employee Payroll (5)
2015	\$ 1,649,556	\$ 1,649,556	\$ -	\$ 9,695,347	17.04%

Schedule is intended to show information for 10 years. Since 2015 is the first year for this presentation, no other data is available. However, additional years will be included as they become available.

Notes to Required Supplementary Information  
For the Year Ended June 30, 2015

---

Changes of benefit terms - There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

### Tables

#### Financial Trends

These tables contain trend information to help the reader understand how the the City's financial performance and well-being have changed over time.

1 - 4

#### Revenue Capacity

These tables contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

5 - 9

#### Debt Capacity

These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue debt in the future.

10 - 12

#### Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.

13-14

#### Operating Information

These tables contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

15-17

*Sources:* Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

Notes: Property in the City of Williamsburg is reassessed every year. Code of Virginia § 58.1-3201

requires that annual assessments of real estate shall be made at 100 percent fair market value.

Estimated actual taxable value is calculated by dividing taxable assessed value by 100%

The set amount of receipts from the State's Personal Property Tax Relief Act may skew the collection rate, depending on the relief rate set by the City each year.

## Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

---

To The Honorable Members of the City Council  
City of Williamsburg  
Williamsburg, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Williamsburg, Virginia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Williamsburg, Virginia's basic financial statements, and have issued our report thereon dated November 10, 2015.

### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Williamsburg, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Williamsburg, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Williamsburg, Virginia's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Williamsburg, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by OMB Circular A-133

To The Honorable Members of the City Council  
City of Williamsburg  
Williamsburg, Virginia

### Report on Compliance for Each Major Federal Program

We have audited the City of Williamsburg, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Williamsburg, Virginia's major federal programs for the year ended June 30, 2015. The City of Williamsburg, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### *Management's Responsibility*

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on compliance for each of the City of Williamsburg, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Williamsburg, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Williamsburg, Virginia's compliance.

## Report on Internal Control over Compliance

Management of City of Williamsburg, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Williamsburg, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Williamsburg, Virginia's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to schedule of expenditures of federal awards.

City of Williamsburg, Virginia  
Notes to Schedule of Expenditures of Federal Awards  
For the Year Ended June 30, 2015

---

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Williamsburg, Virginia under programs of the federal government for the year ended June 30, 2015. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents on a selected portion of the operations of the City of Williamsburg, Virginia, it is not intended to be and does not present the financial position, changes in net position, or cash flows of the City of Williamsburg, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Relationship to Financial Statements

Federal expenditures, revenues, and capital contributions are reported in the City's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General fund	\$ 10,180
Virginia public assistance fund	698,648
Law enforcement block grant fund	<u>4,803</u>

Total federal expenditures per the Schedule of Expenditures of Federal Awards	<u><u>\$ 713,631</u></u>
