Independent Auditors' Report

To the Honorable Members of the Town Council Town of Smithfield, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Town of Smithfield, Virginia, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities and each major fund of the Town of Smithfield, Virginia, as of and for the year ended June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows hereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Town of Smithfield, Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Smithfield, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties, Cities, and Towns*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Town of Smithfield, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Smithfield, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of Smithfield, Virginia's basic financial statements. The accompanying supporting schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supporting schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the statistical information but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2023, on our consideration of Town of Smithfield, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Town of Smithfield, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Smithfield, Virginia's internal control over financial reporting and compliance.

Charlottesville, Virginia

December 11, 2023

Management's Discussion and Analysis

As management of Town of Smithfield (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2023. Please read it in conjunction with the Town's basic financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$62.4 million (net position) of which governmental activities was \$39.7 million. Of this amount, \$15.0 million (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net position increased by \$4.3 million, of which the governmental activities accounted for an increase of \$2.7 million and business-type activities accounted for an increase of \$1.6 million.
- The total ending fund balance for the Town's governmental funds is \$13.0 million, an increase of \$2.0 million over the prior year. The ending fund balance of the general fund was \$12.7 million and is equal to 128% of the Town's fiscal year 2023 general fund expenditures.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$12.0 million, or 138% of general fund expenditures less any capital outlay expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide the readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. The statement of net position presents information on all of the Town's assets, liabilities, and deferred inflows/outflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of how the financial position of the Town may be changing. Increases in net position may indicate an improved financial position; however, even decreases in net position may reflect a changing manner in which the Town may have used previously accumulated funds.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, (e.g., uncollected taxes and earned but unused vacation leave).

Overview of the Financial Statements: (Continued)

<u>Government-wide financial statements: (Continued)</u>

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government administration, public safety, and public works. The business-type activities are for public utilities. The government-wide financial statements can be found on pages 17 through 19 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The Town maintains three governmental funds, a General Fund, a Special Revenue Fund, and a Capital Projects Fund. The Town adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 21 through 24 of this report.

The Town maintains one type of **Proprietary Fund**. The Town uses *enterprise funds*, which are used to report the same functions presented as *business-type activities* in the government-wide financial statements, to account for its public utilities. The basic proprietary fund financial statements can be found on pages 25 through 27 of this report.

Notes to financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28 through 75 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning budgetary comparisons for the general fund and the schedules related to pension and OPEB funding. Required supplementary information can be found on pages 77 through 88 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$39.7 million at the close of the most recent fiscal year. A large portion of the Town's net position (\$41.5 million, 67% of total) reflects its investment in capital assets (e.g., land, buildings, improvements, infrastructure, machinery and equipment, and vehicles) less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the Town's investment in capital assets are of a permanent nature as assets acquired are generally not sold or otherwise disposed of during their useful life).

The following table summarizes the Town's Statement of Net Position:

Town of Smithfield, Virginia
Summary of Net Position
As of June 30, 2023 and June 30, 2022

	Governi Activ		Busines Activi		Tot	al
	2023	2022	2023	2022	2023	2022

Net investment in capital assets Restricted Unrestricted	\$ 26,485,794 \$ 1,538,803 11,703,944	25,560,902 \$ 1,696,078 9,762,353	15,049,484 \$ 4,277,288 3,312,525	13,550,028 \$ 4,028,269 3,420,216	41,535,278 \$ 5,816,091 15,016,469	39,110,930 5,724,347 13,182,569
Total net position	\$ 39,728,541 \$	37,019,333 \$	22,639,297 \$	20,998,513 \$	62,367,838 \$	58,017,846

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net position, both for the Town as a whole, as well as for its separate governmental and business-type activities.

As noted previously, the Town's overall (government and business-type activities) net position increased by \$4.3 million during the current fiscal year. The overall increase is attributed primarily to an increase in operating grants and contributions in both the governmental and proprietary funds.

Government-wide Financial Analysis: (Continued)

Governmental activities increased the Town's net position by \$2,709,208. The following table summarizes the Town's Statement of Activities:

Town of Smithfield, Virginia
Changes in Net Position
For the Years Ended June 30, 2023 and June 30, 2022

Sewer fund			1,314,647	1,243,710	1,314,647	1,243,710
Total expenses	\$ 10,799,482 \$	9,956,489 \$	3,396,722 \$	3,308,288 \$	14,196,204 \$	13,264,777
Increase (decrease) in net position	\$ 2,709,208 \$	2,050,780 \$	1,640,784 \$	1,154,448 \$	4,349,992 \$	3,205,228
Net position - beginning of year	\$ 37,019,333 \$	34,968,553 \$	20,998,513 \$	19,844,065 \$	58,017,846 \$	54,812,618
Net position - end of year	\$ 39,728,541 \$	37,019,333 \$	22,639,297 \$	20,998,513 \$	62,367,838 \$	58,017,846

Business-type activities increased the Town's net position by \$1,640,784. Similar to how changes arise in the governmental activities, business-type activities also experience budgetary differences; however, as a public utility function comprises the Town's business-type activities there is more of a direct correlation to the revenues generated relative to the expenses incurred because of service demands.

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund: The focus of the Town's governmental fund is to provide information on near-term inflows, outflows, and the balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

In fiscal year 2023, the General Fund's operating revenues exceeded expenditures by \$1,681,461 and total fund balance increased \$2,042,106.

At the end of the current fiscal year, unassigned fund balance of the General Fund was \$11,967,594. The restricted fund balance was \$53,220, committed fund balance was \$588,686, and nonspendable fund balance was \$73,683 and consisted of prepaid items inventory and leases.

Proprietary Fund: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the water and sewer funds at the end of the year amounted to \$3,312,525. The total net position increased by \$1,640,784 from the prior year.

General Fund Budgetary Highlights

During the fiscal year, the Town's actual revenue was over budget by \$201,719 with the surplus generated by intergovernmental revenues from the Commonwealth and the sale of a parcel of land. Expenditures were under budget by \$1,638,757.

Capital Asset and Debt Administration

Capital assets: The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2023, amounts to \$47.1 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, infrastructure, and machinery and equipment as well as lease assets and construction in progress.

Town of Smithfield, Virginia Capital Assets (net of depreciation) As of June 30, 2023 and June 30, 2022

	(Governmental Activities		Business-type Activities				Total			
	202	23	2022	 2023		2022		2023		2022

Compensated absences	181,096	180,420	37,578	38,239	218,674	218,659
Total	\$ <u>4,080,658</u> \$	4,557,018 \$	2,248,916 \$	2,648,513 \$	6,329,574 \$	7,205,531

Debt associated with governmental activities decreased by \$476,360 while debt associated with business-type activities decreased by \$399,597.

The Town is subject to a statutory debt limitation. The legal debt margin is limited to 10% of total assessed value. The margin is computed as all bonded debt and long-term notes except for enterprise indebtedness over total assessed value of taxed real property. The Town was in compliance with debt limitation as of June 30, 2023.

Additional information on the Town's long-term obligations compliance can be found in Note 8.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Treasurer, Town of Smithfield, 310 Institute Street, Smithfield.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position As of June 30, 2023

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 12,954,373

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the Town as a whole.

29,860,898

Items related to measurement of the net pension asset and net OPEB liabilities are considered deferred outflows or deferred inflows of resources and will be recognized in pension and OPEB expense over future years. Certain deferred outflows represent a reduction in current expense for contributions to be recognized in a future period.

Deferred outflows - pension related Deferred outflows - OPEB related Deferred inflows - pension related Deferred inflows - OPEB related 511,005 230,621 (892,477) (260,562) (411,413)

\$

Pension assets are long-term assets and not available to pay for current-period expenditures and, therefore, are reported in the Statement of Net Position.

Net pension asset

1,222,501

Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue.

Unavailable revenue related to property taxes

195,514

Interest paid on long-term debt is not accrued in governmental funds, but rather is recognized when paid.

(12,674)

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. All liabilities - both current and long-term - are reported in the Statement of Net Position.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2023

Net change in fund balances - total governmental funds

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost	
of those assets is allocated over their estimated useful lives and reported as depreciation expense. Details	
supporting this adjustment are as follows:	

Capital outlay	\$	1,407,320	
Depreciation expense	_	(1,230,397)	176,923
The net effect of various miscellaneous transactions involving capital assets (i.e, sales and donations) increase or decrease net position.	s to		
Early disposal of lease vehicle		(30,092)	
Gain (loss) on exchange of capital assets		171,200	
Proceeds from sale of capital assets		(225,000)	(83,892)
Powerway in the statement of activities that do not provide current financial resources are not reported			

\$

2,033,430

2,709,208

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property tax revenue	20,394
----------------------	--------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Details supporting this adjustment are as follows:

Issuance of leases	\$ (135,645)	
Principal retired on general obligation bonds, leases and notes	 507,727	372,082

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Change in compensated absences	\$ (676)	
Change in net pension asset/liability	(121,808)	
Change in net OPEB liabilities	104,954	
Change in deferred inflows related to the net OPEB liabilities	(68,512)	
Change in deferred inflows related to the net pension liability	701,649	
Change in deferred outflows related to net pension liability	(371,521)	
Change in deferred outflows related to net OPEB liabilities	(55,929)	
Change in accrued interest payable	2,114	190,271

The notes to financial statements are an integral part of this statement.

Notes to Financial Statements As of June 30, 2023

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Narrative Profile

Town of Smithfield, Virginia (Town) is a political subdivision of the Commonwealth of Virginia governed by an elected seven member Town Council. The Town provides a full range of services for its citizens. These services include water and sewer services, public safety, recreational activities, community development and cultural events.

The financial statements of Town of Smithfield, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the Town's accounting policies are described below.

A. Financial Reporting Entity

Accounting principles generally accepted in the United States require financial statements to present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The Town has no component units that meet the requirements for blending. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. The Town does not have any discretely presented component units.

B. Government-wide and Fund Financial Statements

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board (GASB). The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities). Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense, the cost of "using up" capital assets, in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. The budgetary comparison schedules present the original budget, the final budget and the actual activity of the major governmental funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

accounting. However, debt service principal and interest expenditures on general long-term debt, including lease liabilities, as well as expenditures related to compensated absences, claims and judgments, postemployment benefits, and environmental obligations are recognized later based on specific accounting rules applicable to each, generally when payment is due. General capital asset acquisitions, including entering into contracts giving the government the right to use lease assets, are reported as expenditures in the governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, meals tax, transient occupancy tax and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

The following is a brief description of the specific funds used by the Town.

1. Governmental Funds:

Governmental Funds are those through which most governmental functions typically are financed.

- a. General Fund The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for services, and interest income. The General Fund is considered a major fund for reporting purposes.
- b. Special Revenue Fund Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The only special revenue fund is the Highway Maintenance Fund, which is considered a major fund.
- c. Capital Projects Fund The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Town Capital Projects Fund is considered a major fund.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

2. Proprietary Funds:

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of enterprise funds.

Enterprise Funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services. The enterprise funds consist of the Water and Sewer Funds.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues consist of charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. On or before May 1 of each year, the Town Manager submits to Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public notice regarding the proposed budget is circulated in accordance with Virginia statute, and at least one public hearing is conducted at the Smithfield Center to obtain taxpayer comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an appropriation resolution. Town Council may approve supplemental appropriations.
- 4. The legal level of control is at the function level within an individual fund. The Town Manager is authorized to transfer budgeted amounts within departments within any fund; however, any revisions between departments, from the contingency line item, or that alter the total expenditures of any fund must be approved by Town Council.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Budgets and Budgetary Accounting: (Continued)

- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Highway Maintenance Fund, Water Fund and Sewer Fund.
- 6. The budgets for the General Fund, Highway Maintenance Fund, Water Fund and Sewer Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. A review of the presented budget comparisons herein will disclose how accurately Town Council was actually able to forecast the revenues and expenditures of the Town.
- 8. Appropriations lapse on June 30, unless carried forward by a resolution of Town Council.
- 9. Budgetary amounts as presented in the financial statements reflect budget revisions through June 30, 2023.
- 10. Expenditures exceeded appropriations in the Highway Maintenance Fund for the year ended June 30, 2023

E. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits, and short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

F. <u>Investments</u>

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

G. <u>Inventory and Prepaid Items</u>

All inventories, which consist of materials and supplies, are valued at cost using the weighted average method. Reported inventories are accounted for under the consumption method (i.e., recorded as expenditures when used) in the proprietary funds. The cost is recorded as an expenditure at the time individual inventory items are consumed. Quantities on hand at year end are recorded at cost on the balance sheet.

H. Allowance for Uncollectible Accounts

The Town calculates its allowances for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance for uncollectible taxes was \$33,205 at June 30, 2023. The allowance for uncollectible billings in the water and sewer funds are \$105,112 and \$66,021, respectively.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

I. Capital Assets

Capital outlays are recorded as expenditures of the governmental funds of the Town, and as assets in the government-wide financial statements to the extent that the Town's capitalization threshold of \$25,000 and estimated useful life of greater than one year is met. Contributed assets are reported at acquisition value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and 'maintenance are expensed as incurred. Depreciation is recorded on capital assets on a government-wide basis using the straight-line method and the following estimated useful lives:

Art Collections 15 Years
Buildings and Systems 10-50 Years
Vehicles 5-7 Years
Machinery and Equipment 3-30 Years
Infrastructure 30-65 Years
Improvements Other than Buildings 10-50 Years
Lease assets - vehicles 5 Years

Major outlays for capital assets and improvements are capitalized as projects are constructed.

J. Compensated Absences

Town employees are granted vacation and sick leave based on the employee's length of service and position. They may accumulate, subject to certain limitations, unused vacation and sick leave earned. Upon retirement, termination or death, employees may be compensated for certain amounts at their then current rate of pay. The accumulated annual sick and vacation leave estimated to be payable upon separation are recorded in the accompanying government-wide financial statements. The current amount of leave liability has been estimated. The balance of compensated absences has been reported as a long-term liability.

K. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

M. Intergovernmental Agreements

Water Services Agreement:

Effective June 5, 2018 the Town amended and extended an existing agreement with the County of Isle of Wight ("County") to provide water to certain areas of the County. Pursuant to the agreement, the County will pay the Town the prevailing rate per 1,000 gallons, as set by Isle of Wight County through its membership with the Western Tidewater Water Authority. Billing will be provided on a bi-monthly basis. After the close of the fiscal year, the Town and County will complete a true-up of usage, rates and annual billings. The agreement shall remain in place for a 10-year period commencing July 1, 2018.

Tourism Agreement:

The Town has a memorandum of understanding with Isle of Wight County to share the operating costs of the tourism center located in Smithfield. The tourism center is for the benefit of both Smithfield and Isle of Wight County. The total amount the Town expended related to this memorandum of understanding in fiscal year 2023 was \$288,912.

Erosion and Sediment Control Plan:

The Town has a memorandum of understanding with Isle of Wight County to develop an erosion and sediment control plan for each zoning permit that it issues. There were no expenditures related to this agreement in fiscal year 2023.

Fats, Oils, and Grease Control:

The Town, along with several other localities, has entered into a memorandum of understanding agreement with Hampton Roads Sanitation District related to control of the amounts of fats, oils, and grease draining into sanitary sewers from food service establishments. The total amount the Town expended during fiscal year 2023 was nominal and is not currently tracked or reported separately by the Town.

Law Enforcement Mutual Aid Agreement:

The Town has entered into a mutual aid agreement with several other localities to provide police and sheriff support across jurisdictional lines. There were no expenditures related to this agreement in fiscal year 2023.

Emergency Communications Center:

The Town has entered into a memorandum of understanding with other nearby localities to establish an emergency communications center to serve as a central dispatch facility for police, fire and EMS. The total amount the Town expended related to this memorandum of understanding in 2023 was \$369,456.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has one item that qualifies for reporting in this category. It is comprised of certain items related to pension and OPEB. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has multiple items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to pension, OPEB and leases are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

O. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's Retirement Plan and the additions to/deductions from the Town's Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI and LODA OPEB Plans and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Q. Net Position

The difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/ amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources
 related to those assets. Assets are reported as restricted when constraints are placed on asset use either by
 external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

R. Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called "fund balance." The Town's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes:

- Nonspendable fund balance amounts that are either not in spendable form (such as inventory and prepaids) or are legally or contractually required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers;
- Committed fund balance amounts that can be used only for the specific purposes determined by the adoption
 of an ordinance committing fund balance for a specified purpose by the Town Council prior to the end of the
 fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have
 been spent for the specified purpose or the Council adopts another ordinance to remove or revise the limitation;

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

R. Fund Balance: (Continued)

- Assigned fund balance amounts a government intends to use for a specific purpose but do not meet the criteria to be classified as committed; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance / resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment, which does not lapse at year-end, is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

S. Leases

The Town leases various assets requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases.

Lessee

The Town recognizes significant lease liabilities and intangible right-to-use lease assets (lease assets) with an initial value of \$25,000, in the government-wide financial statements. At the commencement of the lease, the lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease liability is reduced by the principal portion of payments made. The lease asset is measured at the initial amount of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. The lease asset is amortized over the shorter of the lease term or the useful life of the underlying asset.

Lessor

The Town recognizes leases receivable and deferred inflows of resources in the government-wide and governmental fund financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

S. Leases (Continued)

Key Estimates and Judgments

Lease accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate stated in lease contracts. When the interest rate is not provided or the implicit
 rate cannot be readily determined, the Town uses its estimated incremental borrowing rate as the discount rate
 for leases.
- The lease term includes the noncancellable period of the lease and certain periods covered by options to extend
 to reflect how long the lease is expected to be in effect, with terms and conditions varying by the type of
 underlying asset.
- Fixed and certain variable payments as well as lease incentives and certain other payments are included in the measurement of the lease liability (lessee) or lease receivable (lessor).

The Town monitors changes in circumstances that would require a remeasurement or modification of its leases. The Town will remeasure the lease asset and liability (lessee) or the lease receivable and deferred inflows of resources (lessor) if certain changes occur that are expected to significantly affect the amount of the lease liability or lease receivable.

NOTE 2—DEPOSITS AND INVESTMENTS:

Deposits

All deposits of the Town are held in banks covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (Act) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

As of June 30, 2023, the Town had the following investments:

Town's Rated Debt Investments						
Standard & Rated Debt Investments Value Poor's Ratin						
		AA+f/s1				
VACo/VML Virginia Investment Pool	\$	535,627				
Total	\$	535,627				

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Town has measured fair value of the above investments at the net asset value (NAV).

Redemption Restrictions

The Town is limited to two VACO/VML Virginia Investment Pool withdrawals per month which require a five day notice.

Investment Credit Policy

The Town's investment policy permits the Town to invest any and all funds belonging to the Town or in the Town's control in the following:

- 1. U.S. Government Obligations Stocks, bonds, notes and other evidences of indebtedness of the United States, its agencies or government sponsored corporations. These securities can be held directly or in the form of a registered money market or mutual funds provided that the portfolio of the fund is limited to such evidences of indebtedness.
- 2. Municipal Obligations Stocks, bonds, notes and other evidences of indebtedness of the Commonwealth of Virginia, or of any county, city, town, district, authority or public body of the Commonwealth of Virginia with an investment grade from two of the rating agencies of at least A by Moody's, A by S&P, or A by Fitch.
- 3. Overnight, term or open Repurchase agreements collateralized by U.S. Treasury/Agency Securities. The repurchase agreement should have a term to maturity of not greater than (90) days. The collateral for overnight or one day repurchase agreements is required to be at least 100% of the value of the repurchase agreement.
- 4. Corporate Notes Issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States that has a minimum "Aa" long-term debt rating by Moody's Investor's Service and a minimum "AA" long-term debt rating by Standard & Poor's. The amount invested in any single issuing corporation will not exceed five percent (5%) of the total funds available for investment (based on book value at the date of acquisition).
- 5. Negotiable Certificates of Deposit and Bank Deposit Notes of domestic banks and domestic offices of foreign banks. Must have a rating of at least A-1 by Standard & Poor's and P-1 by Moody's Investor Service, Inc., for maturities of one year or less and a rating of at least "AA" by Standard & Poor's and "Aa" by Moody's Investor Service for maturities over one year and not exceed five years.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Investment Credit Policy: (Continued)

- 6. Commercial paper Unsecured short-term debt of U.S. corporations may be purchased if the following conditions are met:
 - a) The maturity is no greater than two hundred-seventy (270) days;
 - b) No more than five percent (5%) of the total funds available for investment (based on book value on the date of acquisition) may be invested in commercial paper;
 - c) The amount invested in any single issuing corporation will not exceed five percent (5%) of the total funds available for investment (based on book value on the date of acquisition);
 - d) The issuing corporation, or its guarantor, has a net worth of at least \$50 million;
 - e) The net income of the issuing corporation, or its guarantor, has averaged \$3 million per year for the previous five years; and
 - f) The issuing corporation, or its guarantor, has a short-term debt rating of no less than "A-1" (or its equivalent) by at least two of following; Moody's Investors Service, Standard & Poor's, Fitch Investor's Service and Duff and Phelps.
- 7. Registered Investment Companies (Mutual Funds) Shares in open-end investment funds provided such funds are registered under the Federal Investment Company Act of 1940, invest exclusively in the securities permitted under this investment policy, provided that the fund is rated "AAm" or "AAm-G" or better by Standard & Poor's Corporation, or equivalent by other rating agencies. The fund must also be properly registered for sale under the Securities Act (Section 13.1-501 et. seq.) of the Code of Virginia.
- 8. State Pool The pooled investment fund (known as the Virginia Local Government Investment Pool or "LGIP") as provided for in Section 2.2-4600 et seq. of the Code of Virginia.
- 9. VACo/VML Virginia Investment Pool This pooled investment fund as provided for in Sections 2.2-4501, 15.2-1500, and 15.2-1300 of the Code of Virginia.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Interest Rate Risk

This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. The Town's investment policy requires that no investment maturity or duration exceed five years.

	_	Investment Maturity*			
Investment Type		Fair Value	1-5 Years		
VACo/VML Virginia Investment Pool	\$_	535,627 \$	535,627		
Total investments	\$	535,627 \$	535,627		

^{*} Weighted average maturity in years.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The Town's investment policy states that all securities and investments shall be in the name of the Town.

Concentration of Investment Credit Risk

The Town's investment policy requires the following diversification to mitigate concentration of investment credit risk:

- 1. The portfolio will be diversified with no more than five percent of its value invested in the securities of any single issuer. This limitation shall not apply to securities of the Commonwealth of Virginia, the U.S. Government, insured certificates of deposit, the Commonwealth of Virginia Local Government Investment Pool, and the VACo/VML Virginia Investment Pool.
- 2. The maximum percentage of the portfolio (book value at the date of acquisition) permitted in each eligible security is as follows:

U.S. Government Obligations	100% maximum
Registered Money Market Mutual Funds	100% maximum
State of Virginia LGIP	100% maximum
Repurchase Agreements	50% maximum
Commercial Paper	5% maximum
Negotiable Certificates of Deposit/Bank Notes	75% maximum
Municipal Obligations	20% maximum
Corporate Notes	15% maximum
Bank Deposits	100% maximum

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Restricted and Designated Cash

Restricted cash and cash equivalents of the Town's governmental funds and business-type activities at June 30, 2023, are detailed as follows:

			Highway	Business-typ	e Activities
	_	General	Maintenance	Water	Sewer
Pinewood Heights escrow	\$	15,729 \$	- \$	- \$	-
Police Department		37,491	-	-	-
Highway maintenance		-	136,139	-	-
Debt service		-	-	985,522	-
Compliance escrow		-	-	-	3,032,068
Customer deposits				80,418	
Total	\$	53,220 \$	136,139 \$	1,065,940 \$	3,032,068

The Town designates cash and cash equivalents for the following purposes. The cash and cash equivalents are designated by actions of the Town Council and therefore do not meet the criteria for restricted.

			Business-type	Activities	Total Primary
	_	General	Water	Sewer	Government
Special projects	\$	581,669 \$	- \$	- \$	581,669
Windsor Castle		7,017	-	-	7,017
Escrow	_		761,811	1,590,289	2,352,100
Total	\$	588,686 \$	761,811 \$	1,590,289 \$	2,940,786

NOTE 3—RECEIVABLES:

Accounts receivable are detailed as follows:

	Governmental Activities	_	Business-type Activities
Property taxes Consumer utility taxes Consumption taxes Transient occupancy tax	\$ 2,562,387 30,942 6,352 81,356	\$	- - -
Meals tax Water and sewer billings	348,618	_	- 880,082
Total Allowance for uncollectibles	\$ 3,029,655 (33,205)	-	880,082 (171,133)
Net receivables	\$ 2,996,450	\$	708,949

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 4—DUE FROM/TO OTHER GOVERNMENTS:

Details of amounts due from/to other governments as of June 30, 2023 are as follows:

Governmental Activities:	_	Due From	_	Due To
Commonwealth: Communications Tax Urban Funds Other	\$_	26,079 40,338 1,795	\$	- - -
Due from/to Commonwealth	\$_	68,212	\$	
Isle of Wight County: Local Sales Tax Fines Other	\$_	92,569 5,026 91,387	\$	- - 430,033
Due from/to Isle of Wight County	\$_	188,982	\$	430,033
Total Governmental Activities	\$_	257,194	\$	430,033
Business-type Activities:				
Isle of Wight County	\$_	3,818	\$	-

All amounts due from other governments are expected to be collected or paid within one year.

NOTE 5—INTERFUND RECEIVABLES AND PAYABLES:

Interfund receivable and payable balances are considered short-term in nature. All balances result from the time-lag between the dates that reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made. At June 30, 2023, the balances are as follows:

		Interfund	Interfund
	_	Receivable	Payable
Primary Government:		_	
Governmental Funds:			
General Fund	\$	1,951,652 \$	1,525,566
Highway Fund		2,032,026	1,877,066
Capital Projects Fund		8,151	43
Enterprise Funds:			
Water Fund		346,762	1,358,509
Sewer Fund	_	748,310	325,717
Total	\$	5,086,901 \$	5,086,901

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 6—CAPITAL ASSETS:

The following is a summary of changes in capital assets:

Governmental Activities:		Balance July 1, 2022	Additions	Deletions	Balance June 30, 2023
Capital assets not being depreciated:	\$	10,206,158 \$	- \$	53,800 \$	10,152,358
Construction in progress	_	1,275,016	580,284		1,855,300
Total capital assets not being depreciated	\$_	11,481,174 \$	580,284 \$	53,800 \$	12,007,658
Capital assets being depreciated:					
Art collections	\$	118,466 \$	- \$	- \$	118,466

NOTE 7—LINE OF CREDIT:

On July 31, 2012, the Town entered into an agreement with Farmers Bank for a line of credit of \$1,000,000 in order to assist the Town in financing capital projects. Effective January 13, 2023 Farmers Bank was acquired by TowneBank, who is now the other party to the line of credit. The variable interest rate is calculated based on the Wall Street Journal Prime Rate. At June 30, 2023, the interest rate being charged to the Town was 8.5%. There was no activity during the year or balance outstanding. The unsecured line was renewed through September 30, 2023.

NOTE 9—COMPENSATED ABSENCES:

Annual Leave Accrual

Each employee earns annual leave on a monthly basis for each month of service. The rate at which annual leave is accrued is dependent upon the length of the employee's service with the Town.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 9—COMPENSATED ABSENCES:

Annual Leave Accrual: (Continued)

In lieu of taking regular vacation, an employee may request, before April 1, to be paid at his regular hourly rate for up to five days of unused earned leave. The payout is made on the first payroll in July. Leave not taken or time for which the employee has not been compensated may be carried over to the next year. However, no more than 10 days may be carried over.

Sick Leave

Each employee is eligible for eight hours of sick leave per month beginning the first month of employment. Unused sick leave may be accumulated and carried forward to succeeding years. Upon retirement, each employee who has completed three years of continuous service is eligible to receive payment for unused sick leave hours at 25% of the employee's hourly rate at the time of termination, not to exceed \$2,500.

At June 30, 2023, accumulated vacation and sick leave for the governmental activities amounted to \$181,096 of which \$85,501 is short-term.

At June 30, 2023, accumulated vacation and sick leave for the business-type activities amounted to \$37,578 of which \$16,044 is short-term.

NOTE 10—PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the Town are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Benefit Structures

The System administers three different benefit structures for covered employees – Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 10—PENSION PLAN: (CONTINUED)

Benefit Structures: (Continued)

- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age and service equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 –April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age and service equal 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 10—PENSION PLAN: (CONTINUED)

Employees Covered by Benefit Terms

As of the June 30, 2021 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Primary Government
Inactive members or their beneficiaries currently receiving benefits	29
Inactive members: Vested inactive members	16
Non-vested inactive members	25
Inactive members active elsewhere in VRS	38
Total inactive members	79
Active members	64
Total covered employees	172

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Town's contractually required employer contribution rate for the year ended June 30, 2023 was 8.83% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$284,481 and \$292,302 for the years ended June 30, 2023 and June 30, 2022, respectively.

Net Pension Liability (Asset)

The net pension asset (NPA) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The Town's net pension asset was measured as of June 30, 2022. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation performed as of June 30, 2021, and rolled forward to the measurement date of June 30, 2022.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 10—PENSION PLAN: (CONTINUED)

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the Town's Retirement Plan was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation 2.50%

Salary increases, including inflation 3.50% – 5.35%

Investment rate of return 6.75%, net of pension plan investment

expenses, including inflation

Mortality rates:

All Others (Non-10 Largest) - Non-Hazardous Duty: 15% of deaths are assumed to be service related

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 10—PENSION PLAN: (CONTINUED)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	5.71%	1.94%
Fixed Income	15.00%	2.04%	0.31%
Credit Strategies	14.00%	4.78%	0.67%
Real Assets	14.00%	4.47%	0.63%
Private Equity	14.00%	9.73%	1.36%
MAPS - Multi-Asset Public Strategies	6.00%	3.73%	0.22%
PIP - Private Investment Partnership	3.00%	6.55%	0.20%
Total	100.00%		5.33%
		Inflation	2.50%
	Expected arith	metic nominal return**	7.83%

^{*}The above allocation provides a one-year expected return of 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the Town was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer

^{**}On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 10—PENSION PLAN: (CONTINUED)

Discount Rate (Continued)

contribution rate from the June 30, 2021 actuarial valuations, whichever was greater. From July 1, 2022 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability (Asset)

		Primary Government						
		Increase (Decrease)						
	_	Total Pension Liability (a)	_	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a) - (b)			
Balances at June 30, 2021	\$_	12,879,691	\$_	14,509,573 \$	(1,629,882)			
Changes for the year:								
Service cost	\$	406,094	\$	- \$	406,094			
Interest		884,036		-	884,036			
Differences between expected								
and actual experience		(682,398)		-	(682,398)

A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at https://www.varetire.org/Pdf/Publications/2022-annual-report.pdf by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS:

Group Life Insurance (GLI) Plan (OPEB Plan):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,984 as of June 30, 2023.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Contributions

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2023 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Plan from the Town were \$19,098 and \$17,869 for the years ended June 30, 2023 and June 30, 2022, respectively.

In June 2022, the Commonwealth made a special contribution of approximately \$30.4 million to the Group Life Insurance Plan. This special payment was authorized by a budget amendment included in Chapter 1 of the 2022 Appropriation Act, and is classified as a non-employer contribution.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

At June 30, 2023, the Town reported a liability of \$183,143 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2022 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2021 and rolled forward to the measurement date of June 30, 2022. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the Group Life Insurance Plan for the year ended June 30, 2022 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2022, the participating employer's proportion for the Town was .01520% as compared to .01570% at June 30, 2021.

For the year ended June 30, 2023, the Town recognized GLI OPEB expense of \$7,513. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2022, NOL amounts for the GLI Plan is as follows (amounts expressed in thousands):

	 GLI OPEB Plan
Total GLI OPEB Liability	\$ 3,672,085
Plan Fiduciary Net Position	 2,467,989
GLI Net OPEB Liability (Asset)	\$ 1,204,096
Plan Fiduciary Net Position as a Percentage	
of the Total GLI OPEB Liability	67.21%

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Long-term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	5.71%	1.94%
Fixed Income	15.00%	2.04%	0.31%
Credit Strategies	14.00%	4.78%	0.67%
Real Assets	14.00%	4.47%	0.63%
Private Equity	14.00%	9.73%	1.36%
MAPS - Multi-Asset Public Strategies	6.00%	3.73%	0.22%
PIP - Private Investment Partnership	3.00%	6.55%	0.20%
Total	100.00%		5.33%
		Inflation	2.50%
	Expected arith	metic nominal return**	7.83%

^{*}The above allocation provides a one-year return of 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2022, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2022 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

^{**}On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

GLI Plan Fiduciary Net Position

Detailed information about the GLI Plan's Fiduciary Net Position is available in the separately issued VRS 2022 Annual Comprehensive Financial Report (Annual Report). A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at https://www.varetire.org/Pdf/Publications/2022-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Line of Duty Act (LODA) Program:

Plan Description

The Virginia Retirement System (VRS) Line of Duty Act Program (LODA) was established pursuant to §9.1-400 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. The LODA Program provides death and health insurance benefits to eligible state and local government employees, including volunteers, who die or become disabled as a result of the performance of their duties as a public safety officer. In addition, health insurance benefits are provided to eligible survivors and family members. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System). Participating employers made contributions to the program beginning in FY 2012. The employer contributions are determined by the System's actuary using anticipated program costs and the number of covered individuals associated with all participating employers.

The specific information for LODA OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

All paid employees and volunteers in hazardous duty positions in Virginia localities as well as hazardous duty employees who are covered under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers' Retirement System (Valors) are automatically covered by the LODA Program. As required by statute, the Virginia Retirement System (the System) is responsible for managing the assets of the program.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Line of Duty Act (LODA) Program: (Continued)

Benefit Amounts

The LODA program death benefit is a one-time payment made to the beneficiary or beneficiaries of a covered individual. Amounts vary as follows: \$100,000 when a death occurs as the direct or proximate result of performing duty as of January 1, 2006, or after; \$25,000 when the cause of death is attributed to one of the applicable presumptions and occurred earlier than five years after the retirement date; or an additional \$20,000 benefit is payable when certain members of the National Guard and U.S. military reserves are killed in action in any armed conflict on or after October 7, 2001.

The LODA program also provides health insurance benefits. The health insurance benefits are managed through the Virginia Department of Human Resource Management (DHRM). The health benefits are modeled after the State Employee Health Benefits Program plans and provide consistent, premium-free continued health plan coverage for LODA-eligible disabled individuals, survivors and family members.

Contributions

The contribution requirements for the LODA are governed by §9.1-400.1 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Each employer's contractually required employer contribution rate for the LODA Program for the year ended June 30, 2023 was \$681.64 per covered full-time-equivalent employee. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021 and represents the pay-as-you-go funding rate and not the full actuarial cost of the benefits under the program. The actuarially determined pay-as-you-go rate was expected to finance the costs and related expenses of benefits payable during the year. Contributions to the LODA Program from the entity were \$12,955 and \$13,728 for the years ended June 30, 2023 and June 30, 2022 respectively.

LODA OPEB Liabilities, LODA OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the LODA OPEB

At June 30, 2023, the Town reported a liability of \$377,244 for its proportionate share of the Net LODA OPEB Liability. The Net LODA OPEB Liability was measured as of June 30, 2022 and the total LODA OPEB liability used to calculate the Net LODA OPEB Liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward to the measurement date of June 30, 2022. The entity's proportion of the Net LODA OPEB Liability was based on the entity's actuarially determined pay-as-you-go employer contributions to the LODA OPEB plan for the year ended June 30, 2022 relative to the total of the actuarially determined pay-as-you-go employer contributions for all participating employers. At June 30, 2022, the entity's proportion was .09970% as compared to .10940% at June 30, 2021.

For the year ended June 30, 2023, the entity recognized LODA OPEB expense of \$45,818. Since there was a change in proportionate share between measurement dates, a portion of the LODA OPEB expense was related to deferred amounts from changes in proportion.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Line of Duty Act (LODA) Program: (Continued)

LODA OPEB Liabilities, LODA OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the LODA OPEB: (Continued)

At June 30, 2023, the entity reported deferred outflows of resources and deferred inflows of resources related to the LODA OPEB from the following sources:

	_	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	28,983 \$	70,506
Net difference between projected and actual earnings on LODA OPEB plan investments		-	1,613
Change in assumptions		105,203	93,046
Change in proportionate share		45,066	57,452
Employer contributions subsequent to the measurement date		12,955	
Total	\$	192,207 \$	222,617

\$12,955 reported as deferred outflows of resources related to the LODA OPEB resulting from the entity's contributions subsequent to the measurement date will be recognized as a reduction of the Net LODA OPEB Liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the LODA OPEB will be recognized in LODA OPEB expense in future reporting periods as follows:

Year Ended June 30	
2024	\$ (4,916)
2025	(4,881)
2026	(4,845)
2027	(1,090)
2028	(1,929)
Thereafter	(25,704)

Actuarial Assumptions

The total LODA OPEB liability was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Line of Duty Act (LODA) Program: (Continued)

Actuarial Assumptions: (Continued)

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Top 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change

Net LODA OPEB Liability

The net OPEB liability (NOL) for the LODA Program represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2022, NOL amounts for the LODA Program are as follows (amounts expressed in thousands):

	_	LODA Program	
Total LODA OPEB Liability	\$	385,669	
Plan Fiduciary Net Position		7,214	
LODA Net OPEB Liability (Asset)	\$	378,455	
Plan Fiduciary Net Position as a Percentage	=		
of the Total LODA OPEB Liability		1.87%	

The total LODA OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

<u>Line of Duty Act (LODA) Program: (Continued)</u>

Long-Term Expected Rate of Return

The long-term expected rate of return on LODA OPEB Program's investments was set at 3.69% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS Pooled Investments' 6.75% assumption. Instead, the assumed annual rate of return of 3.69% was used since it approximates the risk-free rate of return. This Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Bond Buyer General Obligation 20-year Municipal Bond Index as of the measurement date of June 30, 2022.

Discount Rate

The discount rate used to measure the total LODA OPEB liability was 3.69%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS Statutes and that they will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2022, the rate contributed by participating employers to the LODA OPEB Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly.

Sensitivity of the Covered Employer's Proportionate Share of the Net LODA OPEB Liability to Changes in the Discount Rate

The following presents the covered employer's proportionate share of the net LODA OPEB liability using the discount rate of 3.69%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a discount rate that is one percentage point lower 2.69% or one percentage point higher 4.69% than the current rate:

	Discount Rate				
	_	1% Decrease (2.69%)	Current (3.69%)	1% Increase (4.69%)	
Town's proportionate share of the LODA	_				
Net OPEB Liability	\$	430,621 \$	377,244 \$	333,576	

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 11—OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

Line of Duty Act (LODA) Program: (Continued)

Sensitivity of the Covered Employer's Proportionate Share of the Net LODA OPEB Liability to Changes in the Health Care Trend Rate:

Because the LODA Program contains a provision for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. The following presents the covered employer's proportionate share of the net LODA OPEB liability using the health care trend rate of 7.00% decreasing to 4.75%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a health care trend rate that is one percentage point lower (6.00% decreasing to 3.75%) or one percentage point higher (8.00% decreasing to 5.75%) than the current rate:

	_	Health Care Trend Rates							
	_	1% Decrease (6.00% decreasing to 3.75%)	Current (7.00% decreasing to 4.75%)	1% Increase (8.00% decreasing to 5.75%)					
Town's proportionate share of the LODA									
Net OPEB Liability	\$	317,910 \$	377,244 \$	451,718					

LODA OPEB Fiduciary Net Position

Detailed information about the LODA Program Fiduciary Net Position is available in the separately issued VRS 2022 Annual Comprehensive Financial Report (Annual Report). A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at https://www.varetire.org/pdf/publications/2022-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 12—CONTINGENT LIABILITIES:

Federal assisted grant programs:

The Town participates in a number of federally assisted grant programs. These programs remain subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, would be immaterial.

General Obligation Bonds:

General obligation bonds have been recorded in the Enterprise Funds from which repayment is anticipated. The General Fund has a contingent liability for repayment of the aforementioned bonds, should the Enterprise Funds be unable to repay the obligations.

NOTE 13—LEGAL DEBT MARGIN:

The Commonwealth of Virginia imposes a legal limit of 10% of assessed valuation of real estate on the amount of general obligation borrowings that may be issued by the Town. At June 30, 2023, the Town's aggregate general obligation indebtedness was \$118,496,613 less than the Commonwealth of Virginia's limit. Reference Table 11 in the Other Statistical Information.

NOTE 14—RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. Property, liability and worker's compensation coverage are provided through the Virginia Municipal League Insurance Programs (VML). The Town reports the majority of its risk management expenditures in the General Fund with some allocation to the Water and Sewer Funds accordingly.

The Town maintains surety coverage for principal officials through the VML. Surety coverage is provided under the general liability coverage with a limit of \$5,000,000. All elected officials, appointed officials, members of all appointed governing bodies; employees and volunteers are covered while acting within the scope of their duties with the Town.

Notes to Financial Statements As of June 30, 2023 (Continued)

NOTE 15—LEASES RECEIVABLE:

The Town leases various property including recreational facilities. The Town recognized lease revenue and interest revenue in the amounts of \$45,767 and \$11,541, respectively under these lease agreements.

A description of the lease arrangements is as follows:

Lease Description	End Date	Discount Rate	-	Lease Receivable June 30, 2023	-	Deferred Inflow of Resources June 30, 2023
Lease of Sports Complex	1/31/2033	2.07%	\$	303,881	\$	297,072
Lease of Windsor Castle Park	1/31/2033	2.07%	_	234,924	_	230,289
			\$_	538,805	\$	527,361

NOTE 16—UPCOMING PRONOUNCEMENTS:

Statement No. 99, *Omnibus 2022*, addresses (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The effective dates differ based on the requirements of the Statement, ranging from April 2022 to for fiscal years beginning after June 15, 2023.

Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62, provides more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability for accounting changes and error corrections. The requirements of this Statement are effective for fiscal years beginning after June 15, 2023.

Statement No. 101, Compensated Absences, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

Implementation Guide No. 2021-1, Implementation Guidance Update—2021, with dates ranging from reporting periods beginning after June 15, 2022 to reporting periods beginning after June 15, 2023.

Implementation Guide No. 2023-1, *Implementation Guidance Update—2023*, effective for fiscal years beginning after June 15, 2023.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Required Supplementary Information

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Notes to Required Supplementary Information Pension Plan For the Year Ended June 30, 2023

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

To the Honorable Members of the Town Council Town of Smithfield, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Smithfield, Virginia, as of and for the year ended June 30, 2023 and the related notes to the financial statements, which collectively comprise the Town of Smithfield, Virginia's basic financial statements, and have issued our report thereon dated December 11, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Smithfield, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Smithfield, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Smithfield, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Smithfield, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Honorable Members of the Town Council Town of Smithfield, Virginia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Town of Smithfield, Virginia's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Town of Smithfield, Virginia's major federal programs for the year ended June 30, 2023. Town of Smithfield, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Town of Smithfield, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Town of Smithfield, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Town of Smithfield, Virginia's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Town of Smithfield, Virginia's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Town of Smithfield, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Town of Smithfield, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Town of Smithfield, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Town of Smithfield, Virginia's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report on internal control
 over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the
 effectiveness of Town of Smithfield, Virginia's internal control over compliance. Accordingly, no such opinion is
 expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Report on Internal Control over Compliance: (Continued)

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2023

Note 1 - General

The accompanying Schedule of Expenditures of Federal Awards ("Schedule") includes the federal award activity of the Town of Smithfield, Virginia under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town of Smithfield, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Smithfield, Virginia.

Note 2 - Basis of Accounting

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Indirect Cost Rate

The Town did not elect to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 4 - Subrecipients

No awards were passed through to subrecipients.

Note 5 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the Town's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:		
General Fund	\$	1,460,302
Highway Fund		206,925
Water Fund		809,834
Sewer Fund	_	369,162
Total Federal revenues per financial statements	\$	2,846,223
	_
