**The Honorable Members of the Board of Supervisors
County of Surry, Virginia**

Members of the Board:

I am pleased to submit to you the Annual Financial Report of Surry County (the "County") for the fiscal year ended June 30, 2010. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management of the County. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the County's financial statements are free of any material misstatements and are fairly presented in conformity with Generally Accepted Accounting Principles (GAAP).

To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the County. We all believe that all disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included. It is important to add that staff is continuing its efforts to provide the highest standards of an internal control framework.

Section 15.2 2511 of the Code of Virginia requires that local governments have their financial records audited annually as of the end of the fiscal year by independent certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2010 are free of material misstatement. Robinson, Farmer Cox Associates (RFCA) performed this service and based upon the various audit testing performed, have issued an unqualified opinion on the County's financial statements for the year ended June 30, 2010. The independent auditor's report is located at the front of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion & Analysis (MD&A). It can be found immediately following the report of the independent auditors. The MD & A complements this letter of transmittal and should be read in conjunction with it.

Sections of the Report

The annual financial report is presented in four sections in accordance with general accepted accounting principles as set forth in the pronouncements of the Governmental Accounting Standards Board as follows:

- (1) Introductory Section – which contains the County's organizational structure and this transmittal letter
- (2) Financial Section – which consists of the independent auditor's report, management's discussion and analysis, the basic financial statements, including the notes to the statements, required supplementary information and other supplementary information.

- (3) Statistical Section – which is unaudited and includes selected financial and demographic information generally presented on a multi-year basis
- (4) Compliance Section – which is comprised of the independent auditor's reports on internal control and compliance with applicable laws and regulations as required by the *U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non –Profit Organizations*, the Schedule of Expenditures of Federal Awards with related notes and the Schedule of Findings and Questioned Costs.

Profile of the Government and its Services

The County of Surry, formed in 1652, is located strategically is southeastern Virginia, 10 miles south of Williamsburg, 50 miles southeast of Richmond and 40 miles northwest of Norfolk. The County covers 306 square miles and has a population of 7,119 persons (2006 U. S Census Bureau estimate). The greater proportion of the County's land area remains rural although areas of the County are experiencing moderate residential growth. The County of Surry employs the traditional five-member Board of Supervisors form of government elected by election districts. The Board has overall administrative and legislative responsibilities including levying County taxes, appropriating funds, approving and enforcing the County's Comprehensive Plan, making and enforcing ordinances and establishing policies and procedures. The County Administrator is appointed to carryout the policy decisions of the Board and to direct the day to day activities of the County. In addition to the Board, other elected officials in the County government include the Clerk of Circuit Court, Commissioner of the Revenue, Commonwealth's Attorney, Sheriff and Treasurer.

The operation of the public school system is vested in a five-member elected School Board. The Board makes an annual appropriation to the School Board based upon an approved budget. Since the School Board is fiscally dependent on the County, the financial statements of the Surry Public School System are included as a component unit of the County in accordance with GASB Statement No. 14.

The County provides a full range of municipal services to include education, public safety (sheriff, animal control, building inspections, emergency services, volunteer fire protection and paid/volunteer rescue services), parks, recreation & culture services and activities, public works, health and welfare administration, planning & community development and general administrative services. In addition, the county provides sewer services to approximately 131 residential and commercial customers in the Town of Dendron and four business customers in the Town of Surry. The Water & Sewer Fund account for these operations.

Long-Term Financial Planning

The County employs the services of a financial advisor as needed to guide them through the long-term financial planning needed to address capital projects needs of the County. The Capital Improvements Program (CIP) is the County's plan for investing in facilities, equipment and other significant improvements. Most of the current capital projects are funded through bank qualified loans and General Obligation Bonds issued by the County. Revenue bonds are primarily used to fund water and sewer improvements. Loan payments are usually repaid over twenty years, and the annual debt payment is called "debt service". Debt service is budgeted for and paid out of the County's annual operating budget. Debt service on the School Board Component Unit traditionally has been budgeted within the School Fund, but reflected as an operating expenditure from the General Fund for auditing purposes, since the School Division cannot

legally issue debt. Debt issued in FY 2009 for school related projects was budgeted under the General Fund as will all future debt associated with Education.

Financial Policies

Financial policies relative to debt as a percentage of assessed value and general fund expenditures help guide the Board's policy making decisions on financing capital projects. The County's imposed policy states that the net debt ratio as a percentage of assessed value should not exceed 3.0%. The actual percentage is less than 1%. The total ratio of debt service as a percentage of general fund expenditures is 5.6%, below the established guideline of 10%.

The General Fund fund balance is an important element in the financial position of the County. The General Fund's fund balance, which represents available current financial resources, totaled \$8.3 million at June 30, 2010. Uses of the fund balance are carefully evaluated to ensure that the balance will be sufficient to meet future obligations. In this case, a large portion (25% of general operating expenditures) is needed to finance operations of the County from July 1 through December 5 of each year. In addition, \$505,000 of this amount was committed to fund the FY2011 capital improvement budget. With the General Fund balance at \$8.3 million, the County continues to maintain a sound financial position.

Major Initiatives and Significant Events in Fiscal Year 2010

Capital Projects

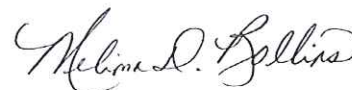

The County had completed or nearly completed all of its capital project initiatives which commenced in previous fiscal years (i.e. the courthouse/government center renovation project, acquisition of public safety equipment and fire station renovation, high school renovation project and the Elberon Heights Community Improvement project) and did not engage in new projects. The Broadband Development Initiative however, will continue in FY2010-1011 with \$200,000 in local funds allocated to the project matched with \$700,000 in state grant funds. The State funds were awarded to the County via a competitive application for Community Development Block Grant Funding in support of a broadband implementation project. The award was announced by the Governor of Virginia in June 2010. It is anticipated that construction will commence in the Spring/Summer of 2011. Also, local funds in the amount of \$255,000 have been committed in FY 2010-2011 for a third Solid Waste Convenience Station.

Acknowledgements

The preparation of this report could not be accomplished without the dedicated services of the Finance, Treasurer's and School Finance staff. We would like to express our appreciation to these departments and to the many other County departments who provided assistance to Robinson, Farmer, Cox Associates in preparation of a favorable financial report. We also give credit to the Board of Supervisors for their support, guidance and establishment of policies that further enhance sound financial management practices and operations.

Independent Auditor's Report

To The Honorable Members of the Board of Supervisors
County of Surry
Surry, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Surry, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2010, on our consideration of the County of Surry, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, budgetary comparison information, and the Schedules of Pension Funding Progress and Funding Progress for the Retiree Healthcare Plan as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Surry, Virginia's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Surry, Virginia. The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the County of Surry, Virginia Annual Financial Report presents our Management Discussion and Analysis of the County's financial activities during the fiscal year that ended on June 30, 2010. Please read it in conjunction with the transmittal letter in the beginning of this report and the County's basic financial statements, which follow this analysis.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements consist of three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements (Full Accrual)

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private sector companies (as required under governmental reporting-GASB Statement No. 34). Government wide financial statements consist of two statements: the Statement of Net Assets and the Statement of Activities which include all the government's assets, liabilities, revenues and expenses using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or expenditures are paid.

The **Statement of Net Assets** presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The **Statement of Activities** presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the primary event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the Statement of Net Assets and the Statement of Activities, the County is divided into three categories:

- *Governmental activities* – Includes most of the County's basic services such as public safety, general government and judicial administration, public works, health and welfare, community development and parks & recreation. These activities are financed by local tax revenue, state revenue including grants and federal revenue primarily for welfare administration and assistance.
- *Business-type activities* - The County charges user fees to customers to help cover the costs of certain services it provides. The County's Water & Sewer Fund is included here.
- *Component Unit* - The County's Public School System is included as a separate legal entity in this report. The County is financially accountable for this "component unit" and provides operating support from local tax revenue.

Surry County, Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS

Fund Financial Statements

Fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are used to keep track of specific sources of funding and spending for particular purposes. Some are required by state law; others are established to control and manage funds allocated for specific purposes. All of the funds of the County can be divided into two categories: governmental funds and proprietary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances.

The County maintains budgetary control over its operating funds. The primary objective of budgetary control is to ensure compliance with the legal provisions via budget resolutions embodied in the annual appropriated budget. Budgets are adopted on a fund level. To demonstrate compliance with the budget, a budgetary comparison statement is provided for the General Fund to include variance information. The County has two major governmental funds – the General Fund and the Capital Projects Fund.

Proprietary funds – Proprietary funds consist of enterprise funds. Enterprise funds are established to account for the delivery of goods and services to the general public and use the accrual basis of accounting, similar to private sector business. The Water and Sewer Fund provides a centralized source for water/sewer services to County residents.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes also contain required supplementary information such as budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Required Supplementary Information

In addition to basic financial statements and notes, this report also presents budgetary comparison schedules

MANAGEMENT'S DISCUSSION AND ANALYSIS

Statement of Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, governmental assets at June 30, 2010 exceeded liabilities by \$11.44 million while business assets exceed it's liabilities by \$5.8 million. The following table provides comparative information on the County's net assets as of June 30, 2009 and June 30, 2010. (Exhibit 1)

County of Surry, Virginia's Net Assets

Net Assets: Unrestricted net assets of governmental activities account for \$9.1 million or 80% of the County's net assets and is used to meet the County's ongoing obligations. The remaining balance of the County's governmental net assets (20%) is its investment in capital assets (e.g. land, buildings, systems, machinery and equipment, and infrastructure), less accumulated depreciation and any debt used to acquire those assets that remain outstanding at year-end. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Statement of Activities – Changes in Net Assets

The Statement of Activities illustrates the general revenue sources that support the various governmental operations.

Governmental Activities - Governmental activities decreased the County's net assets by \$428,600 from \$11.8 million to \$11.4 million at June 30, 2010 as shown on the Statement of Activities. Key factors associated with the decrease in net assets include:

- A decrease in general property and other local taxes of \$411,000 from \$18.48 million in FY 2009 to \$18.07 million in FY 2010;
- A decrease in operating grants and contributions of \$230,000 from \$2.54 million in FY 2009 to \$2.31 million in FY2010;
- A decline in other general revenues by \$131,000 from \$323,000 in FY2009 to \$192,000 in FY 2010;

However, operating grants and contributions for the capital fund in the amount of increased by \$536,000 to reflect state funds received for community housing improvement programs.

Surry County, Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS

Business Type Activities - The net assets of the County's business-type activities decreased slightly from \$5.99 million in FY 2009 to \$5.82 million. This is primarily attributed to an increase in the expenditures for business type activities, in this case continuing operations of the County's Water & Sewer Fund. The expenditure reflects the allocation of debt service for Water/Sewer activities to this fund as opposed to the Debt Service Fund. The County's general fund provided \$135,000 in operational support for the Water & Sewer Fund in FY 2010. The following table shows the revenues and expenses of the governmental and business type activities: (Exhibit 2)

Surry County, Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County of Surry uses fund accounting to ensure and demonstrate compliance with budgetary related legal requirements. The following is a financial analysis of the County's governmental funds.

Governmental Funds – Revenue Analysis

The County's total revenues from general fund were \$21.4 million for the fiscal year ended June 30, 2010, a decrease of \$684,000 or 3.10% from FY 2009. General property taxes, the largest source of revenue, were \$17.38 million. It is composed of primarily public service corporation taxes (\$10.34 million), real estate taxes (\$5.86 million) and personal property taxes (\$1.03 mil). Approximately 81% of the County's revenue from governmental activities is derived from property taxes as shown in the table of Revenue Classified by Source (Exhibit 3).

The other local taxes revenue category, which includes local sales and use taxes, business and automobile licenses, utility consumption and communication taxes and the recordation tax totaled \$643,424 and is the second largest local revenue source. This represented a 14.7% decrease over the previous year due to (1) the change in decal system in FY10 which meant no revenue collection for the year and (2) a reduction in sales tax revenue by \$70,000. Revenue from the use of money and property is associated with investments; a significant decrease is partly due to a continued decline in short-term interest rates along with the depletion of funds previously invested for capital expenditures.

	June 30, 2010		June 30, 2009		Increase/(Decrease)	
	Amount	% of Total	Amount	% of Total	Amount	% of Change

Total Revenues	21,385,915	100%	22,070,567	100%	(684,652)	-52.88%

Intergovernmental Revenue consisting of state and federal revenues totaled \$3.02 million during FY2010, decreased by \$219,000 or 6.76%. Revenue from the commonwealth for non categorical aid remained relatively constant in FY 2010 with the majority of this source consisting of the personal property tax relief reimbursement of \$677,907. Revenue for shared expenses of the constitutional offices and electoral board/registrar decreased by \$22,000 while other categorical aid consisting of welfare administration and federal & state grants and other aid declined by \$56,000 and \$152,000 respectively.

Governmental Funds Expenditure Analysis

The following table of Expenditures by Function compares current year to prior year amounts (Exhibit 4). The accompanying analysis provides additional information on the County's expenditures by function that changed significantly over the prior year.

Total Expenditures	22,017,386	100%	20,910,007	100%	1,107,379	5.03%

The County's total general fund expenditures of \$22.0 million for the fiscal year ended June 30, 2010 cover a wide range of services, with 52.5% or \$11.57 million for education (payments to the School System, a component unit), 11% or \$2.44 million for public safety, 9.9% or \$2.19 million for health and welfare services, 9.4% or \$2.07 million for debt service; 6.5% or \$1.44 million related to general government administration, and 4.12% or \$906,000 for public works. The remaining 6.29% include expenditures for other services to include parks & recreation, community development and judicial administration. Expenditures for the fiscal year ended June 30, 2010 (excluding education) increased by 4.3% or \$453,000 from the previous year. This is due to the increase in the debt service obligation for the acquisition of public safety equipment, building improvements and the school renovation project. The FY10 obligation was \$928,000 more in FY10; however, decreases in various categories of the general fund totaling \$486,000 defrayed the impact of the net increase.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The **General Fund** is the primary operating fund of the County. At the end of the current fiscal year, fund balance was \$8,353,210, a decrease of \$1,391,471 from the prior year. Primarily, the County's ending fund balance at June 30th is used to fund financial obligations of the County from July through December 5th of each year at which time the County receives its largest payment of revenue. From July 1st, the beginning of its fiscal year, to December 5th, only a small percentage of the County's total revenue for fiscal year is received. This percentage includes portions of federal and state reimbursements, fees for services, permits and fines, and a very small amount of tax payments. Therefore, not all of the \$8.3 million is available for spending at the County's discretion.

Please note the following regarding the General Fund:

- The FY 2011 budget includes a provision for the use of \$505,000 of the fund balance remaining at the conclusion of FY 2010 to finance capital project expenditures of the County. The use of unassigned fund balance was restricted to funding capital expenditures only, which minimizes the impact on available fund balance. This is consistent with fund balance policy.
- As a measure of the general fund's liquidity, it may be useful to compare the fund balance to total fund expenditures. The fund balance of the general fund represents 38% of total general fund expenditures for FY10 and 30% of the total general operating budget for FY2011 which is within the County's policy of maintaining a committed fund balance of at least 25% of the general and capital projects (pay as you go) funds.

The **Capital Projects Fund** consists of the non-operating expenditures to reflect the capital needs of the County (i.e. building improvement projects, technology improvements, special projects and studies, highway improvements, etc.). The fund's balance of \$1.8 million primarily reflects the remaining assets available for both locally funded and financed capital projects.

Surry County, Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS

Any balances after the completion of these projects could remain to fund additional capital projects in the future on a pay as you go basis.

Please note the following regarding the Capital Projects Fund:

- Total expenditures in the fund for FY2010 were \$3,341,000 comprised of the following:
 - 91% or \$3.1 million represent expenditures for projects financed via debt; proceeds are reimbursed to the County. Of this amount, \$153,000 represented expenditures associated with the courthouse/government center expansion and renovation project, expenditures for the public safety project was \$429,000 and \$2.45 million was expended for the High School Renovation Project.
 - Projects associated with reimbursed based grants represent 6.0% of the total capital project expenditures or \$211,000
 - The remaining 3% represents projects financed by the County on a pay-as-you-go basis.

General Fund Budgetary Highlights

Surry County generally takes a conservative approach to financial management, staying well within budgetary limits for expenditures during the fiscal year. Fiscal year 2010 had general fund operating expenditures (excludes capital, social service expenditures and contribution to education) of \$758,000 below the revised budget. The County's budget was amended during FY2010 to reflect grants, carry forward of unspent appropriations from FY 2009 and other unanticipated revenues. The overall difference between current fiscal year original budget and the final amended budget was \$175,506. The net increase in expenditure allocation is primarily associated with following:

- Judicial Administration increased by \$13,440 for the following reasons:
 - \$8,940 in records preservation grants
 - \$4,500 in part time funds
- Public Safety increased by \$98,009 for the following reasons:
 - \$16,352 to Fire and Rescue agencies in Fire Program grant funds
 - \$ 7,650 in Four- For- Life funds for the Surry Rescue Squad
 - \$74,007 to Emergency Services due to the allocation of various state and federal grants related to Homeland Security, Radiological Preparedness and Fire Safety.
- Health & Welfare increased by \$33,347 to reflect the receipt of federal funds awarded under the American Recovery and Reinvestment Act (ARRA) for workforce development.
- An increase of \$31,153 spread throughout various other department for insurance recoveries, parks and recreation fees not budgeted, donations and other miscellaneous sources.

Capital Asset and Debt Administration

Capital assets - The County's investment in capital assets for its governmental operations as of June 30, 2010 amounts to \$21.96 million (net of accumulated depreciation). This represents a net increase of \$1.99 million (net of depreciation) primarily related to the completed construction projects and related equipment subject to depreciation. The investment in capital assets includes land, buildings, systems, and machinery and equipment. Additional information on the County's capital assets can be found in the notes of this report.

Surry County, Virginia
MANAGEMENT'S DISCUSSION AND ANALYSIS

Long-Term Debt

At the end of the current fiscal year, the County had total debt outstanding of \$20.6 million (excluding claims payable, compensated absences, OPEB and landfill liability). Of this amount, \$14.4 comprises debt backed by the full faith and credit of the County via bank loans payables. The remainder of the County's debt represents bonds secured solely by specified revenue sources through revenue bonds.

The amount of debt related to School Board activities comprises \$3.3 million of the total outstanding obligation of the primary government.

During the current fiscal year, the General Fund obligations of the County and School Board decreased by \$1.22 million (excludes compensated absences, OPEB and landfill liability).

Additional information on the County of Surry, Virginia's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budget and Rates

- The unemployment rate at December 2009 was 7.6% up from 5.6% in December 2008. Virginia's average unemployment rate for the same period was 6.9%. The average unemployment rate for the County for the fiscal year ending June 30, 2010 was 8.8%, an increase of 1.2 percent from the same period last year. Virginia's average rate for June 2010 was 7.0%. Generally, the County's unemployment rate has tracked slightly above the state's average.
- The fiscal year 2011 operating budget for all funds is \$27.3 mil, a decrease of 3.8% from the fiscal year 2010 budget.
- For 2011, the real estate tax rate increased from \$0.70 per \$100 of assessed value to \$0.73 and the personal property tax rate increased to \$4.00 per \$100 of assessed value from \$3.50.

Reconciliation of Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2010

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds \$ (3,640,748)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment:

Capital outlay	\$ 3,189,683	
Depreciation	(836,332)	
Transfer of joint tenancy assets to Component Unit from Primary Government	(357,424)	1,995,927

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 51,465

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. The following is a summary of items supporting this adjustment:

Principal retired on capital leases	\$ 123,373	
Principal retired on school general obligation bonds	380,000	
Principal retired on revenue bond payable	183,804	
Principal retired on bank loan payable	515,000	
Bond premium amortization	3,484	
Decrease (increase) in landfill postclosure liability	(65,986)	1,139,675

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

The following is a summary of items supporting this adjustment:

Decrease (increase) in accrued leave	\$ (1,762)	
Decrease (increase) in OPEB liability	(5,434)	
Decrease (increase) in interest payable	32,277	25,081

Change in net assets of governmental activities \$ (428,600)

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements As of June 30, 2010

Note 1—Summary of Significant Accounting Policies:

The County of Surry, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Surry, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Management's Discussion and Analysis - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Assets - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

COUNTY OF SURRY, VIRGINIA

As of June 30, 2010

Note 1—Summary of Significant Accounting Policies: (Continued)

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary Comparison Schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Surry (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended Component Unit. The County has no blended component units at June 30, 2010.

Discretely Presented Component Units. The School Board members are elected by the citizens of Surry County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2010.

C. Other Related Organizations Included in the County's Financial Report

None

Excluded from the County's Annual Financial Report

District 19 Community Services Board

The District 19 Community Services Board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by the participating jurisdictions which include the Cities of Colonial Heights, Emporia, Hopewell, Petersburg and the Counties of Surry, Greensville, Surry, Prince George and Sussex. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Surry County contributed \$56,867 to the District 19 Community Services Board for the fiscal year ended June 30, 2010.

Riverside Regional Jail

The Riverside Regional Jail is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by respective governing bodies of the participating jurisdictions. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued) As of June 30, 2010

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General and Capital Project Funds as major governmental funds.

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

Capital Projects Funds - Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

Proprietary Funds - Account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

Enterprise Funds - Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The County's Enterprise Funds consist of the Water & Sewer Fund.

Governmental Funds (Continued)

The County reports the following non-major governmental funds:

Special Revenue Funds: Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Fiduciary Funds - (Trust and Agency Funds) - Account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$134,675 at June 30, 2010 and is comprised of property taxes of \$121,625 and water and sewer charges of \$13,050.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	<u>Real Property</u>	<u>Personal Property</u>
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	40
Furniture, Vehicles, Office and Computer Equipment	5-20
Buses	10

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

COUNTY OF SURRY, VIRGINIA

Note 1—Summary of Significant Accounting Policies: (Continued)

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued)

As of June 30, 2010

Note 2—Stewardship, Compliance, and Accounting: (Continued)

3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. Appropriations lapse on June 30, for all County units.

Expenditures and Appropriations

Expenditures did not exceed appropriations in any funds at June 30, 2010.

Note 3—Deposits and Investments:

Deposits

All cash of the primary government and its discretely presented component unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Notes to Financial Statements (Continued)

As of June 30, 2010

Note 8—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$733,566 is comprised of the following:

Deferred Property Tax Revenue - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$727,888 at June 30, 2010.

Prepaid Property Taxes - Property taxes due subsequent to June 30, 2010 but paid in advance by the taxpayers totaled \$5,678 at June 30, 2010.

Note 9— Commitments and Contingent Liabilities:

Federal programs in which the County and its discretely presented component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

The following construction contracts were outstanding at June 30, 2010:

<u>Project</u>	<u>Contractor</u>	<u>Contract Amount</u>	<u>Amount Outstanding</u>
High School Renovations	E.T. Gresham Co. Inc	\$ 2,441,520	\$ 287,206

Note 10—Litigation:

At June 30, 2010, there were no matters of litigation involving the County that would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued) As of June 30, 2010

Note 11 –Risk Management:

The County and the Component Unit School Board are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County and the School Board are members of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County and School Board pay Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County and School Board also participates with other localities in a public entity risk pool for their coverage of general liability and auto insurance with Virginia Municipal League and public officials liability with the Virginia Association of Counties Group Self Insurance Risk Pool. The County and School Board pay an annual premium to the pools for general insurance through member premiums. The County and School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 12 –Defined Benefit Pension Plan:

Primary Government and Discretely Presented Component Unit-School Board:

A. Plan Description

Name of Plan:	Virginia Retirement System (VRS)
Identification of Plan:	Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity:	Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <http://www.varetire.org/pdf/publications/2009-Annual-Report.pdf> or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County's and School Board's non-professional contribution rates for the fiscal year ended 2010 was 8.89% and 8.56% of annual covered payroll, respectively.

The Surry County School Board professional employees current rate is 8.81% of annual covered payroll. The contribution requirements of plan members and Surry County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ending June 30, 2010, 2009, and 2008 were \$706,462, \$701,587, and \$779,186, respectively, and equal to the required contributions for each year.

C. Annual Pension Cost

For the fiscal year 2010, the County's annual pension cost of \$408,608 (which includes the portion of the employee share assumed by the County which was \$167,462) was equal to the County's required and actual contributions.

For the fiscal year 2010, the County School Board's annual pension cost for the Board's non-professional employees was \$120,010 (which includes the portion of the employees share assumed by the County which was \$50,382) which was equal to the Board's required and actual contributions.

(1) Employer portion only

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

D. Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the plan was 88.57% funded. The actuarial accrued liability for benefits was \$13,506,372 and the actuarial value of assets was \$11,962,239, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,544,133. The covered payroll (annual payroll of active employees covered by the plan) was \$3,336,404, and ratio of the UAAL to covered payroll was 46.28%.

As of June 30, 2009, the most recent actuarial valuation date, the School Board's Non-Professions plan was 89.87% funded. The actuarial accrued liability for benefits was \$5,007,073 and the actuarial value of assets was \$4,499,615, resulting in an unfunded actuarial accrued liability (UAAL) of \$507,458. The covered payroll (annual payroll of active employees covered by the plan) was \$1,032,553 and ratio of the UAAL to the covered payroll was 49.15%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Note 14 –Landfill Closure and Postclosure Care Cost:

The \$1,875,601 reported as landfill postclosure liability at June 30, 2010, represents the estimated liability for postclosure monitoring. This amount is based on what it would cost to perform all postclosure care in 2010 over a remaining period of 25 years. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County has demonstrated financial assurance requirements for closure, postclosure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 15 –Postemployment Benefits Other Than Pensions:

Plan Description

The County allows retirees that retire at the age of 50 with at least 30 years of service to remain on their health insurance plan. Health benefits include medical, dental and vision. The retiree is responsible for 100% of the premium. Benefits are for the life of the retiree and spouse. The spouse can continue coverage after the death of the retiree. At age 65 the retiree can only enroll in the Key Advantage 65 medical option.

The Surry County Public Schools allows retirees that retire with a combined age and years of service that total at least 85 to remain on the health insurance plan. Health benefits include medical, dental and vision. The retiree is responsible for 100% of the premium. Benefits are for the life of the retiree and spouse as long as its continuous coverage. The spouse can continue coverage after the death of the retiree.

Funding Policy

The County and School Board's retirees pay 100% of the premiums directly to Anthem BCBS. The Schools currently have 3 retirees and 1 spouse on their plan. The County also has 3 retirees and 1 spouse on their plan.

Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in accordance with GASB 45 parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County and School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County and School Board's net OPEB obligation to the Retiree Health Plan:

	COUNTY	SCHOOLS
Annual required contribution	\$ 10,400	\$ 30,300

Funded Status and Funding Progress

As of January 1, 2009, the most recent actuarial valuation date, the County's actuarial accrued liability for benefits was \$113,300, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$3,081,000, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 3.68 percent.

As of January 1, 2009, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$341,700, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$8,304,100, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 4.11 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The

Actuarial Methods and Assumptions (Continued)

The following simplifying assumptions were made:

Retirement age for active employees-Retirement age was estimated based on tables used for the VRS pension valuation and assumed that participants begin to retire when they become eligible to receive healthcare benefits.

Mortality-Life expectancies were based on mortality tables from the RP-2000 Combined Healthy mortality tables for males and females projected to 2010 using Scale AA.

Coverage elections -The actuary assumed that 20% of eligible retirees will elect coverage and that 20% of retirees who elect coverage will cover a spouse.

Based on the historical and expected returns of the County and School Board's short-term investment portfolio, a discount of 4.0% was used. In addition, the projected unit credit actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 was thirty years.

Amounts reported for governmental activities in the Statement of Net Assets (Exhibit 1) are different because:

Total fund balances per above \$ 62,353

Capital assets used in governmental activities are not financial resources and, therefore,
are not reported in the funds. 11,505,896

Long-term liabilities, including compensated absences, are not due and payable in the current
period and, therefore, are not reported in the funds. (116,885)

Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:

Net change in fund balances - total governmental funds - per above \$ 43,946

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment:

Capital outlay	\$ 461,706	
Depreciation expense	1,165,223	
Transfer of joint tenancy assets to Component Unit from Primary Government	<u>(1,730,582)</u>	(103,653)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS
COUNTY OF SURRY
SURRY, VIRGINIA

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County of Surry, Virginia's basic financial statements and have issued our report thereon dated December 8, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Surry, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Surry, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Surry, Virginia's internal control over financial reporting.

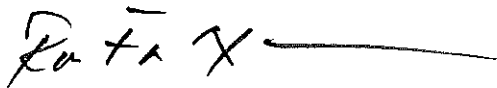

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Surry, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133 Independent Auditors' Report

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS
COUNTY OF SURRY
SURRY, VIRGINIA

Compliance

We have audited County of Surry, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Surry, Virginia's major federal programs for the year ended June 30, 2010. The County of Surry, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Surry, Virginia's management. Our responsibility is to express an opinion on the County of Surry, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Surry, Virginia's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Surry, Virginia's compliance with those requirements.

In our opinion, the County of Surry, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

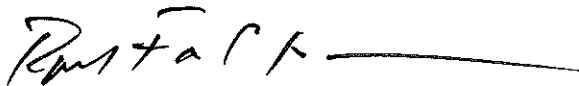

Management of the County of Surry, Virginia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Surry, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Surry, Virginia's internal control over compliance.

Internal Control Over Compliance (Continued)

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a control deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, and Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
