Independent Auditor's Report

To The Honorable Members of the Board of Supervisors County of Lunenburg Lunenburg, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Lunenburg, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Lunenburg, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Lunenburg, Virginia, as of June 30, 2011, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 to the financial statements, the County of Lunenburg, Virginia adopted the provisions of *GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions,* effective July 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 18, 2012, on our consideration of the County of Lunenburg, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Lunenburg, Virginia's financial statements as a whole. The combining and individual fund financial statements and schedules, and other statistical information are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The other statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Richmond, Virginia January 18, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Lunenburg County County of Lunenburg, Virginia

As management of the County of Lunenburg, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2011. Please read it in conjunction with the County's basic financial statements, which follow this section.

Financial Highlights

Government-wide Financial Statements

The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$7,676,352 (net assets).

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures and other financing uses of \$764,331 (Exhibit 5) after making contributions totaling \$3,361,857 to the School Board.

- < As of the close of the current fiscal year; the County's funds reported ending fund balances of \$7,019,095, an increase of \$764,331 in comparison with the prior year.
- < At the end of the current fiscal year, unassigned fund balance for the general fund was \$4,493,954, or 38% of total general fund expenditures and other uses.
- The combined long-term obligations increased \$558,570 during the current fiscal year, mostly due to the issuance of a general obligation bond.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Lunenburg, Virginia itself (known as the primary government), but also a legally separate school district and industrial development authority for which the County of Lunenburg, Virginia is financially accountable. Financial information for the component units are reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Lunenburg, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has four major governmental funds – the General Fund, the County Special Revenue Fund, the County Debt Service Fund and the County Capital Projects Fund.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component units - School Board and Industrial Development Authority. Neither issues separate financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$7,676,352 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Assets:

County of Lunenburg, Virginia's Net Assets

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$7,019,095, an increase of \$764,331 in comparison with the prior year. Approximately 64% of this total amount constitutes unassigned General Fund balance, which is available for spending at the County's discretion.

The County Capital Projects Fund accounts for all major general public improvements. At the end of the fiscal year, the county had a fund balance of \$1,162,492.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were increases of \$4,700, due to a \$5,000 increase in budgeted parks and recreation expenditures and a \$300 decrease in budgeted community development expenditures.

During the year, revenues and other sources exceeded budgetary estimates by \$500,397 and budgetary estimates were greater than expenditures and other uses by \$179,535. The resulting positive variance for change in fund balance was \$679,932.

Capital Asset and Debt Administration

< <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2011 amounts to \$19,043,382 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total debt outstanding of \$15,425,449. Of this amount, \$9,674,469 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources (i.e., lease revenue bonds and capital leases).

The County's total debt increased by \$237,418 during the current fiscal year, mostly due to the issuance of a general obligation bond.

Additional information on the County of Lunenburg, Virginia's long-term debt can be found in the notes of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County was 8.7 percent compared to the state's average unemployment rate of 6.5 percent.
- < Inflationary trends in the region compare to national indexes.

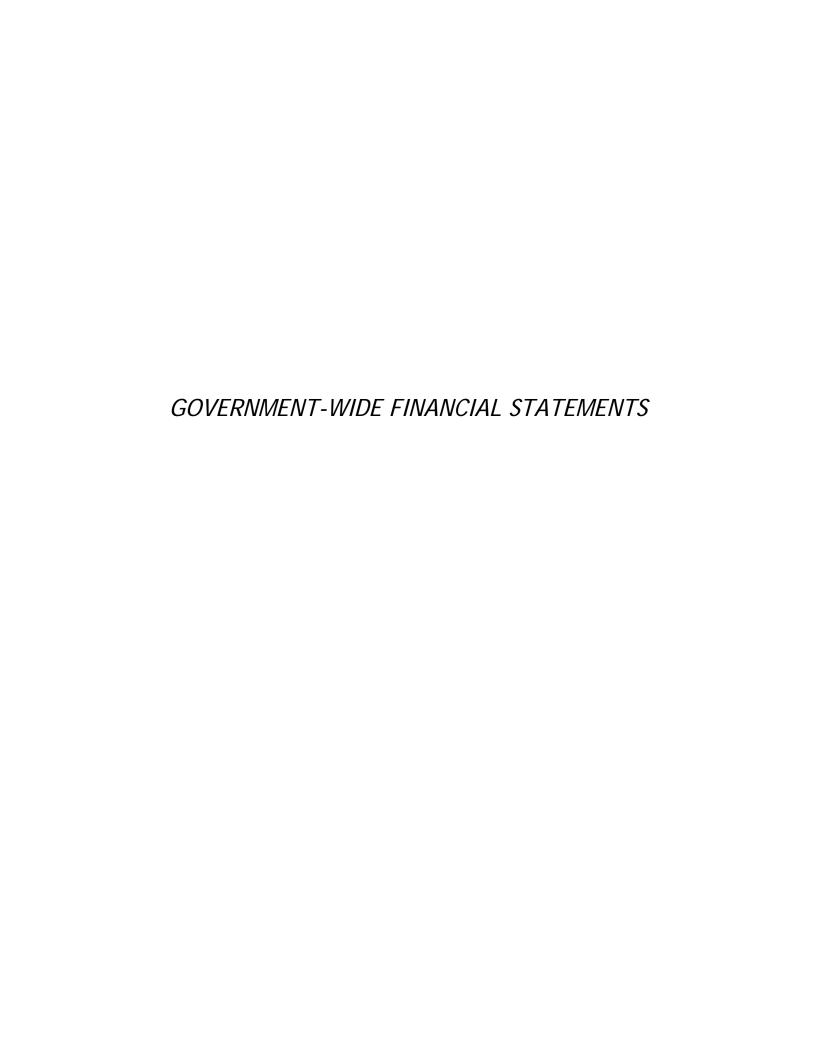

All of these factors were considered in preparing the County's budget for the 2012 fiscal year.

The fiscal year 2012 budget increased by approximately 3 percent. All tax rates remained the same as in 2011 with the exception of real estate tax, which increased from \$0.33 to \$0.36, and farm machinery tax, which decreased from \$1.20 to \$0.60.

Requests for Information

This financial report is designed to provide a general overview of the County of Lunenburg, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, 11413 Courthouse Road, Lunenburg, Virginia 23952.

County of Lunenburg, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2011

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 7,019,095

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

19,043,382

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

448,225

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

Lease revenue bonds\$ (5,679,766)General obligation bonds(9,938,925)Capital leases(71,214)Landfill postclosure liability(2,805,039)Compensated absences(56,556)

Accrued interest payable (282,850) (18,834,350)

\$ 7,676,352

Net assets of governmental activities

County of Lunenburg, Virginia Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2011

Amounts reported for governmental activities in the Statement of Activities are different because: Net change in fund balances - total governmental funds \$ 764,331 Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment: Capital outlay \$ 248,471 Transfer of joint tenancy assets (707,854)Depreciation expense (519,810)(979, 193)Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. 33,942 The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. The following is a summary of items supporting this adjustment: \$ Principal retirement on lease revenue bonds 207,359 Principal retirement on general obligation bonds 707,854 Issuance of general obligation bonds (1,188,500)Principal retirement on capital leases 22,369 Increase of landfill postclosure liability (341,237)(592, 155)Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. (Increase) decrease in interest payable \$ 15,695 Amortization of bond issuance premium 13,942 19,644 (Increase) decrease in accrued leave 49,281

The notes to the financial statements are an integral part of this statement.

Notes to Financial Statements
As of June 30, 2011

Note 1—Summary of Significant Accounting Policies:

The County of Lunenburg, Virginia (the "County") is governed by an elected seven member Board of Supervisors. The County provides a full range of services for its citizens. These services include police, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Lunenburg, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Lunenburg (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize that it is legally separate from the government.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures

Blended Component Units. The County has no blended component units at June 30, 2011.

Discretely Presented Component Units. The School Board members are elected by the citizens of Lunenburg County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2011.

The Industrial Development Authority of Lunenburg County is responsible for industrial and commercial development in the County. The Authority consists of five members appointed by the Board of Supervisors. The Authority is fiscally dependent on the County, and therefore, it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2011. The Industrial Development Authority of Lunenburg County does not issue a separate financial report.

C. Other Related Organizations Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General Fund, County Special Revenue Fund, County Debt Service Fund, and County Capital Projects fund as major governmental funds.

<u>General Fund</u> - The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

<u>Special Revenue Funds</u> - Special revenue funds account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditure for specified purposes other than debt service or capital projects.

<u>Capital Projects Funds</u> - The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The County also reports Courthouse Renovations and the School Construction Funds as major Capital Projects Funds.

<u>Debt Service Fund</u> - The Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should also be used to report financial resources being accumulated for future debt service.

The County reports the following nonmajor governmental funds:

2. <u>Fiduciary Funds (Trust and Agency Funds)</u> - account for assets held by the County in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$349,076 at June 30, 2011 and is comprised solely of property taxes.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

H. Capital Assets (Continued)

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Building Improvements	40
Furniture, Vehicles, and Office Equipment	5-20
Buses	10

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as expenses in the Statement of Activities and long-term obligations in the Statement of Net Assets. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service costs over a 30-year period. The County's policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Fund Equity (Continued)

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

The remainder of this page left blank intentionally.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Fund Equity (Continued)

Total Fund Balances	\$ 5,422,003 \$	434,600	\$	1,162,492 \$	7,019,095

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction, or improvement of those assets.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; However, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. All appropriations expire as of June 30 each year.

Note 3—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Notes to Financial Statements (Continued) As of June 30, 2011

Note 3—Deposits and Investments: (Continued)

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2011 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

	 Fair Quality Ratings							
	 AAA	AA	AA+	AA-				
State Non-Arbitrage Pool	\$ 1,162,492 \$	- \$	- \$	-				
Corporate Debt	-	-	78,858	76,155				
Municipal/Public Bonds	 862,713	25,008	251,068	50,048				
Total	\$ 2,025,205 \$	25,008 \$	329,926 \$	126,203				

Interest Rate Risk

Investment Maturities (in years)								
Investment Type		Fair Value		Less Than 1 Year				
Municipal/Public Bonds Corporate Debt	\$	1,188,837 155,013	\$	1,188,837 155,013				
Total	\$	1,343,850	\$	1,343,850				

External Investment Pools

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the SNAP is the same as the value of the pool shares.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 4—Due to/from Other Governments:

At June 30, 2011, the County has receivables from other governments as follows:

		Primary Government	Component Unit School Board
Other Local Governments:			
Lunenburg County School Board	\$	291,489	\$ -
Commonwealth of Virginia:			
Local sales tax		50,546	-
Welfare		29,300	-

Total minimum lease payments	\$	75,528
Less: amount representing interest		(4,314)
	·	
Present value of minimum lease payments	\$	71,214

Notes to Financial Statements (Continued) As of June 30, 2011

Note 9—Closure and Postclosure Costs:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years. The \$2,805,039 was reported as landfill closure and postclosure care liability at June 30, 2011, and it represents the cumulative amount to date based on the estimated capacity of the landfill. The County will recognize the remaining amount of the total estimated cost of closure and postclosure care of \$3,116,710 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2011. The County expects to close the landfill in the year 2012. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

The County has demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 10—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$473,613 is comprised of the following:

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2011 but paid in advance by the taxpayers totaled \$25,388 at June 30, 2011.

<u>Deferred Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$448,225 at June 30, 2011.

Note 11—Commitments and Contingent Liabilities:

Federal programs in which the County and its discretely presented component units participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 12—Litigation:

At June 30, 2011, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

Note 13 -Risk Management:

The County and Component Unit School Board are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County participates with other Virginia localities in public entity risk pools for the provision of insurance coverage. The County receives workers' compensation, liability and property loss coverage through the Virginia Association of Counties Group Self Insurance Risk Pool. The School Board receives its workers' compensation coverage from the School Systems of Virginia and all other coverage from commercial carriers. The County pays an annual premium to the pool for insurance through member premiums. There have been no reductions in any insurance coverage from the previous year and settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

Primary Government and Discretely Presented Component Unit-School Board:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of
 service credit. They may retire with a reduced benefit early at age 55 with at least five years of
 service credit or age 50 with at least ten years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with a least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the members plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 14 — Defined Benefit Pension Plan (Continued):

Primary Government and Discretely Presented Component Unit-School Board: (continued)

A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1, of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950) as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the report may be obtained from the VRS Website at: http://varetire.org/Pdf/Publications/2010-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County and School Board non-professional's contribution rate for the fiscal year ended 2011 was 9.42% and 6.08% of annual covered payroll, respectively.

The Lunenburg County School Board professional employees current rate is 3.93%, The contribution requirements of plan members and Lunenburg County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ending June 30, 2011, 2010, and 2009 were \$317,915, \$654,847, and \$732,608, respectively, and equal to the required contributions for each year.

C. Annual Pension Cost

For fiscal year 2011, the County's annual pension cost of \$204,076 (which does not include the portion of the employee share assumed by the employer which was \$108,320) was equal to the County's required and actual contributions.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 14 — Defined Benefit Pension Plan (Continued):

Primary Government and Discretely Presented Component Unit-School Board: (continued)

C. Annual Pension Cost (Continued)

For fiscal year 2011, the County School Board's annual pension cost for the Board's non-professional employees was \$38,365 (which does not include the portion of the employee share assumed by the Board which was \$31,715) which was equal to the Board's required and actual contributions.

Three Year Trend Information

Fiscal Year Ending	 Annual Pension Cost (APC) (1)	Percentage of APC Contributed	 Net Pension Obligation
County:			
June 30, 2011	\$ 204,076	100%	\$ -
June 30, 2010	186,124	100%	-
June 30, 2009	188,165	100%	-
School Board:			
Non-Professional:			
June 30, 2011	\$ 38,365	100%	\$ -
June 30, 2010	45,223	100%	-
June 30, 2009	46,891	100%	-

(1) Employer portion only

The fiscal year 2011 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 14 — Defined Benefit Pension Plan (Continued):

Primary Government and Discretely Presented Component Unit-School Board: (continued)

D. Funded Status and Funding Progress:

As of June 30, 2010, the most recent actuarial valuation date, the plan was 77.33% funded. The actuarial accrued liability for benefits was \$10,960,885, and the actuarial value of assets was \$8,476,586, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,484,299. The covered payroll (annual payroll of active employees covered by the plan) was \$2,151,666, and ratio of the UAAL to the covered payroll was 115.46%.

As of June 30, 2010, the most recent actuarial valuation date, the School Board's Non-Professional plan was 89.32% funded. The actuarial accrued liability for benefits was \$2,037,276, and the actuarial value of assets was \$1,819,679, resulting in an unfunded actuarial accrued liability (UAAL) of \$217,597. The covered payroll (annual payroll of active employees covered by the plan) was \$676,124, and ratio of the UAAL to the covered payroll was 32.18%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

All Social Services Employees-Blanket Bond	1,000,000

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions:

A. Plan Description

Beginning in fiscal year 2009, the School Board implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB) offered to retirees. The standard addresses how local governments should account for and report their costs related to post-employment health care and other non-pension benefits, such as the School Board retiree health benefit subsidy. Historically, the School Board subsidy was funded on a pay-as-you-go basis, but GASB Statement No. 45 requires that the School Board accrue the cost of the retiree health subsidy and other post-employment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the School Board. This funding methodology mirrors the funding approach used for pension benefits.

Health benefits include medical and dental. The retirees are responsible for 100% of the premiums. Benefits end at the age of 65.

B. Funding Policy

The School Board's retirees pay 100% of the premiums. The Schools currently have 12 retirees on their plan.

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The School Board has elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in compliance with GASB parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions (Continued):

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the School Board. The following table shows the components of the School Board's annual OPEB cost for the year, the estimated amount contributed to the plan, and changes in the School Board's net OPEB obligation to the Retiree Health Plan:

	 SCHOOLS
Annual required contribution	\$ 67,300
Interest on net OPEB obligation	628
Adjustment to annual required contribution	(908)
Annual OPEB cost (expense)	\$ 67,020
Estimated Contributions made	 (48,300)
Increase in net OPEB obligation	 18,720
Net OPEB obligation-beginning of year	15,700
Net OPEB obligation-end of year	\$ 34,420

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2011 and preceding year were as follows:

Fiscal			Percentage of	Percentage of		
Year		Annual Annual OPEB			OPEB	
Ended		OPEB Cost	OPEB Cost Contributed		Obligation	
Schools: 6/30/2009 6/30/2010 6/30/2011	\$	71,500 71,500 67,020	83.64% 94.41% 72.07%		11,700 15,700 34,420	

D. Funded Status and Funding Progress

As of January 1, 2011, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$571,600, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$6,051,700, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 9.45%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions (Continued):

E. Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

F. Cost Method

In the January 1, 2011 actuarial valuation, the projected unit credit method with linear pro-ration to assumed benefit commencement was used.

The following simplifying assumptions were made:

Retirement age for active employees-Retirement age was estimated based on tables used for the VRS pension valuation and assumed that participants begin to retire when they become eligible to receive healthcare benefits.

Mortality-Life expectancies were based on mortality tables from the RP-2000 Combined Healthy mortality tables for males and females.

Coverage elections - The actuary assumed that 30% of eligible retirees who qualify will elect coverage.

Based on the historical and expected returns of the School Board's short-term investment portfolio, a discount rate of 4.0% was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was thirty years.

Notes to Financial Statements (Continued) As of June 30, 2011

NOTE 17-Other Post-Employment Benefits (OPEB):

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 14.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2011, 2010, and 2009 were \$48,537, \$64,656, and \$89,809, respectively and equaled the required contributions for each year.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To The Honorable Members of the Board of Supervisors County of Lunenburg Lunenburg, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Lunenburg, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County of Lunenburg, Virginia's basic financial statements and have issued our report thereon dated January 18, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Lunenburg, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Lunenburg, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Lunenburg, Virginia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and guestioned costs to be a material weakness (2011-01).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Lunenburg, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the County of Lunenburg, Virginia, in a separate letter dated January 18, 2012.

The County of Lunenburg, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the County of Lunenburg, Virginia's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To The Honorable Members of the Board of Supervisors County of Lunenburg Lunenburg, Virginia

Compliance

We have audited County of Lunenburg, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Lunenburg, Virginia's major federal programs for the year ended June 30, 2011. The County of Lunenburg, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Lunenburg, Virginia's management. Our responsibility is to express an opinion on the County of Lunenburg, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments*, and *Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Lunenburg, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Lunenburg, Virginia's compliance with those requirements.

In our opinion, the County of Lunenburg, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the County of Lunenburg, Virginia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Lunenburg, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Lunenburg, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a control deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, and Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

County of Lunenburg, Virginia

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2011

Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Lunenburg, Virginia under programs of the federal government for the year ended June 30, 2011. The information in this Schedule is presented in accordance with the requirements of the OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Because the Schedule presents only a selected portion of the operations of the County of Lunenburg, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Lunenburg, Virginia.

Note B - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note C - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note D - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:		
General Fund	\$	672,319
County Debt Service Fund	_	55,980
Total primary government	\$	728,299
Component Unit Public Schools:		
School Operating Fund	\$	3,287,955
School Special Revenue Fund	_	50,840
Total component unit public schools	\$	3,338,795
Total federal expenditures per basic financial		
statements	\$_	4,067,094
BAB's subsidy	\$ _	(55,980)
Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$	4,011,114

County of Lunenburg, Virginia Schedule of Findings and Questioned Costs For the Year Ended June 30, 2011

Section II-Financial Statement Findings

2011-01

Financial Reporting

Condition: The County's year end general ledger reports do not reconcile to the audited

financial statements.

Criteria: Internal controls should be in place that provides assurance that audited financial

statements reconcile to the County's internal documents.

Effect: Audited financial statements, including related footnotes, may contain an undetected

material misstatement.

Cause: Procedures have not been fully implemented to provide the necessary internal

controls over financial reporting.

Recommendation: The County maintains its general ledger on a cash basis during the fiscal year. After

the close of the fiscal year, the County generally converts its ledger to a reporting basis by recording current year accruals and reversing accruals from the previous year. Accruals for the fiscal year ended June 30, 2010 were reversed from the general ledger by County staff, but accruals for the year ended June 30, 2011 were not posted. Therefore, the County's year-end general ledger reports did not reconcile to the FY11 audited financial statements. The County is in the processing of addressing its general ledger inadequacies, including the purchase of integrated general software and hardware. In the interim, we recommend the County consider employing a governmental accounting consultant, that is independent of the County's Auditor, to assist with preparation of year end working trial balances.

Management's

Response: The County is considering corrective action for FY12.

Section III-Federal Award Findings and Questioned Costs

None

County of Lunenburg, Virginia Schedule of Prior Year Findings and Questioned Costs For the Year Ended June 30, 2011

There were no prior year Federal Award Findings and Questioned Costs. There were Financial Statement Findings in the prior year. A description of the prior year Financial Statement Findings is included in the Audited Annual Financial Report for the fiscal year ended June 30, 2010.
