# ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

#### **INDEPENDENT AUDITORS' REPORT**

# TO THE HONORABLE MEMBERS OF THE TOWN COUNCIL TOWN OF GLASGOW. VIRGINIA

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Glasgow, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Glasgow, Virginia, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedule of pension funding progress on pages 39 and 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Glasgow, Virginia's basic financial statements. The individual fund financial statements, supporting schedules and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements and supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financials statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and supporting schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 27, 2015, on our consideration of the Town of Glasgow, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Glasgow, Virginia's internal control over financial reporting and compliance.

Net position of governmental activities

2,204,766

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2014

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds \$ 661,577

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenues in the funds. This amount represents unavailable revenue.

58,842

Long-term liabilities, including compensated absences, are not due and payable in the current period and, therefore, are not reported in the funds.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ 512

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period.

(21,452)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This amount represents unavailable revenue.

27,172

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

8,328

Change in net position of governmental activities

#### TOWN OF GLASGOW, VIRGINIA

# NOTES TO FINANCIAL STATEMENTS JUNE 30, 2014

#### NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of the Town conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

#### A. The financial reporting entity

Town of Glasgow, Virginia (government) is a municipal corporation governed by an elected six-member Town Council. The accompanying financial statements present the primary government of the Town.

#### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities). Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense – the cost of "using up" capital assets – in the Statement of Activities. The net position of a government will be broken down into three categories – 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> – Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the Town.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The *general fund* is the Town's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in another fund.

The Town reports the following non-major governmental fund:

The *flood fund* accounts for capital projects activity of the Town. It is reported as such.

The Town reports the following major proprietary funds:

The *water fund* accounts for the activities of the Town's water system. The fund reports the operations of the Town's water distribution system.

The *sewer fund* accounts for the activities of the Town's sewer system. The fund reports the operations of the Town's sewage treatment plant, sewage pumping station and collection system.

#### C. Measurement focus, basis of accounting, and financial statement presentation (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise funds are charges to customers for sales and services. The water and sewer funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### D. Assets, liabilities, deferred outflows/inflows of resources and net position or fund balance

#### 1. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### 2. Investments

Investments for the government are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

#### 3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

# D. Assets, liabilities, deferred outflows/inflows of resources and net position or fund balance (continued)

#### 4. Property Taxes

The Town collects real property and personal property taxes annually. Real property and personal property is assessed by the County of Rockbridge Commissioner of Revenue annually on property owned on January 1<sup>st</sup>. Town Council adopts tax rates each year as a part of the budget process. Real and personal property taxes are levied as of January 1<sup>st</sup> and are due on December 5<sup>th</sup> of each year. Penalties accrue on the unpaid balances at this date. Interest is charged on unpaid balances beginning December 6<sup>th</sup>. Unpaid real property taxes constitute a lien against the property. The Town bills and collects its own property taxes.

#### 5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$2,500 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

The Town has elected to record infrastructure costs beginning with costs incurred in 1980.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current or previous year.

Property, plant, and equipment of the Town, is depreciated using the straight line method over the following estimated useful lives:

| Assets                  | <u>Years</u> |
|-------------------------|--------------|
| Buildings               | 40           |
| Buildings improvements  | 40           |
| Machinery and equipment | 3-10         |
| Infrastructure          | 30           |

# D. Assets, liabilities, deferred outflows/inflows of resources and net position or fund balance (continued)

#### 6. Capital Assets (continued)

Maintenance, repairs and minor equipment are charged to operations when incurred. Expenditures that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of land, buildings or equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

#### 7. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items are recorded as expenditures/expenses when consumed rather than when purchased.

#### 8. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. In accordance with the provisions of *Governmental Accounting Standards* No. 16, Accounting for Compensated Absences, no liability is recorded for nonvested accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. The Town accrues salary-related payments associated with the payment of compensated absences.

#### 9. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

# D. Assets, liabilities, deferred outflows/inflows of resources and net position or fund balance (continued)

#### 10. Fund Equity

The Town reports fund balance in accordance with GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

#### 11. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

# D. Assets, liabilities, deferred outflows/inflows of resources and net position or fund balance (continued)

#### 12. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### 13. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Town did not have any deferred outflows of resources as of June 30, 2014.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town only has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balances sheet. The governmental funds report unavailable revenue from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Town had \$58,842 in deferred inflows of resources as of June 30, 2014.

#### 14. Upcoming Pronouncements

The GASB has issued Statement No. 68, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27." This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014. The Town has not determined the impact of this pronouncement on its financial statements.

#### NOTE 2—RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS:

# A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance—total* governmental funds and net position—governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including compensated absences, are not due and payable in the current period and therefore are not reported in the funds." The details of this (\$3,182) difference are as follows:

| Compensated absences   | \$ | (3,182) |
|--|----|---------|
| Net adjustment to reduce fund balance-total governmental funds | to |         |
| arrive at net position-governmental activities                 | \$ | (3,182) |

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances—total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this (\$21,452) difference are as follows:

| Capital outlay   | \$ | 8,357    |
|--|----|----------|
| Depreciation expense   |    | (29,809) |
|  |    |          |
| Net adjustment to increase (decrease) net changes in fund balances |    |          |
| total governmental funds to arrive at changes in net position of   | f  |          |
| governmental activities  | \$ | (21,452) |

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The Town had no long-term debt in its governmental funds for the year ended June 30, 2014.

#### NOTE 2—RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS: (CONTINUED)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$8,328 difference are as follows:

| Decrease in compensated absences  | \$_ | 8,328 |
|---|-----|-------|
| Net adjustment to increase (decrease) net changes in fund balances total governmental funds to arrive at changes in net position of |     |       |
| governmental activities   | \$_ | 8,328 |

#### NOTE 3—STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

#### A. Budgetary Information

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. All funds have legally adopted budgets.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. The appropriation for each department or category can be revised only by the Town Council. The Town Manager is authorized to transfer budgeted amounts within general government departments.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all Town units.
- 8. All budgetary data presented in the accompanying financial statements is the revised budget as of June 30.

#### NOTE 3—STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY: (CONTINUED)

#### **B.** Excess of Expenditures Over Appropriations

For the year ended June 30, 2014, the following departments had expenditures which exceeded appropriations:

|                    |                                   |                            | Expenditures over |
|--------------------|-----------------------------------|----------------------------|-------------------|
| Fund               | Function                          | Department                 | Appropriations    |
| General            | General government administration | Town Council               | \$<br>848         |
| General            | General government                |                            |                   |
|                    | administration                    | Finance & Admin            | 19,356            |
| General            | General government                |                            |                   |
|                    | administration                    | Insurance                  | 1,649             |
| General            | Public safety                     | Town sergeant              | 13,737            |
| General            | Public safety                     | Rescue Squad               | 9,000             |
| General            | Health and welfare                | Tax relief for the elderly | 2,370             |
| General            | Non-departmental                  | Miscellaneous              | 10,989            |
| General            | Capital projects                  | Capital outlay             | 18,038            |
| Total General Fund |                                   |                            | \$<br>75,987      |

Excess of

#### C. Deficit Fund Equity

At June 30, 2014, there were no funds with deficit fund equity.

#### **NOTE 4—INTERFUND OBLIGATIONS:**

Interfund receivables/payables are the net result of temporary overdrafts in the operating and payroll bank accounts of one fund which is offset by positive amounts in other funds. At June 30, 2014:

| Fund         | _  | Due From | _  | Due To  |
|--------------|----|----------|----|---------|
| General Fund | \$ | 232,518  | \$ | 39,264  |
| Water Fund   |    | 188,922  |    | -       |
| Sewer Fund   |    | -        |    | 399,553 |
| Flood Fund   |    | 17,377   |    |         |
| Total        | \$ | 438,817  | \$ | 438,817 |

#### NOTE 5—DUE FROM OTHER GOVERNMENTAL UNITS:

Amounts due from other governmental units at June 30, 2014, are as follows:

| Commonwealth of Virginia: |              |
|---------------------------|--------------|
| PPTRA                     | \$<br>21,462 |
| Sales tax                 | 6,784        |
| Rolling stock             | 11,228       |
| Communications tax        | 3,548        |
| Fire programs             | 1,000        |
| Mobile home               | <br>75       |
| Total                     | \$<br>44,097 |

#### **NOTE 7—LONG-TERM OBLIGATIONS:**

### Changes in Long-Term Obligations:

The following is a summary of long-term obligation transactions of the Town for the year ended June 30, 2014:

|                                | _   | Balance<br>July 1,<br>2013 |     | Additions | <br>Reductions   | Balance<br>June 30,<br>2014 |
|--------------------------------|-----|----------------------------|-----|-----------|------------------|-----------------------------|
| Governmental Activities        |     |                            |     |           |                  |                             |

| Total long-term obligations   | \$_ | 251,405         | \$   | -                                |

#### NOTE 8—COMPENSATED ABSENCES:

Town employees earn sick leave at the rate of five days per year plus one day for each year of service. Sick time does not accumulate and is not paid upon retirement. Vacation leave is earned based on years of service. Up to five days may be carried over each calendar year. Any additional accrued vacation time is paid at the end of the year. Upon separation or retirement, a full-time employee shall be paid for all accrued annual leave, up to the maximum allowed. The Town has outstanding accrued compensated absences totaling \$9,281.

#### **NOTE 9—PENSION PLAN:**

#### A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Members earn one month of service credit for each month they are employed and they and their employer are paying contributions to VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

Within the VRS Plan, the System administers three different benefit plans for local government employees – Plan 1, Plan 2, and, Hybrid. Each plan has different eligibility and benefit structures as set out below:

#### **VRS - PLAN 1**

- 1. Plan Overview VRS Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- **2. Eligible Members** Employees are in VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 3. **Hybrid Opt-In Election** VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under VRS Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 1 or ORP.

#### NOTE 9—PENSION PLAN: (CONTINUED)

#### A. Plan Description (Continued)

#### **VRS - PLAN 1 (CONTINUED)**

- 4. Retirement Contributions Members contribute up to 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.
- 5. Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.
- 6. Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.

Members are always 100% vested in the contributions that they make.

**7.** Calculating the Benefit - The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.

An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

- **8. Average Final Compensation** A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
- 9. Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.7% or 1.85% as elected by the employer.

#### NOTE 9—PENSION PLAN: (CONTINUED)

#### A. Plan Description (Continued)

#### **VRS - PLAN 1 (CONTINUED)**

- 10. Normal Retirement Age Age 65.
- 11. Earliest Unreduced Retirement Eligibility Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit at age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.
  - Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.
- **12.** Earliest Reduced Retirement Eligibility Members may retire with a reduced benefit as early as age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.
- **13.** Cost-of-Living Adjustment (COLA) in Retirement The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.
- **14.** Eligibility For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.
  - For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.
- **15. Exceptions to COLA Effective Dates** The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:
  - The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
  - The member retires on disability.
  - The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
  - The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
  - The member dies in service and the member's survivor or beneficiary is eligible for a
    monthly death-in-service benefit. The COLA will go into effect on July 1 following one full
    calendar year (January 1 to December 31) from the date the monthly benefit begins.

#### A. Plan Description (Continued)

#### **VRS - PLAN 1 (CONTINUED)**

**16. Disability Coverage** - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

#### VRS - PLAN 2

- 1. Plan Overview VRS Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- **2. Eligible Members** Employees are in VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- **3. Hybrid Opt-In Election** VRS Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under VRS Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 2 or ORP.

Retirement Contributions – Same as VRS Plan 1-Refer to Section 4.

# A. Plan Description (Continued)

#### **VRS - PLAN 2 (CONTINUED)**

- 5. Creditable Service Same as VRS Plan 1- Refer to Section 5.
- **6. Vesting** Same as VRS Plan 1–Refer to Section 6.
- 7. Calculating the Benefit Same as VRS Plan 1–Refer to Section 7.
- **8. Average Final Compensation -** A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.
- **9. Service Retirement Multiplier -** Same as Plan1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.
- **10. Normal Retirement Age -** Normal Social Security retirement age.
- 11. Earliest Unreduced Retirement Eligibility Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.
  - Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.
- **12. Earliest Reduced Retirement Eligibility -** Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.
- **13.** Cost-of-Living Adjustment (COLA) in Retirement The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.
- 14. Eligibility Same as VRS Plan 1–Refer to Section 14.
- **15.** Exceptions to COLA Effective Dates Same as VRS Plan 1–Refer to Section 15.
- **16. Disability Coverage** Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.
  - Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.
  - VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.
- 17. Purchase of Prior Service Same as VRS Plan 1–Refer to Section 17.

#### A. Plan Description (Continued)

#### HYBRID RETIREMENT PLAN

- 1. Plan Overview The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as VRS Plan 1 and VRS Plan 2 members who were eligible and opted into the plan during a special election window. (See "Eligible Members")
  - The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula.
  - The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.
  - In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.
- **2. Eligible Members** Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:
  - State employees\*
  - School division employees
  - Political subdivision employees\*
  - Judges appointed or elected to an original term on or after January 1, 2014
  - Members in VRS Plan 1 or VRS Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan's effective date for opt-in members was July 1, 2014
- **3.** \*Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:
  - Members of the State Police Officers' Retirement System (SPORS)
  - Members of the Virginia Law Officers' Retirement System (VaLORS)
  - Political subdivision employees who are covered by enhanced benefits for hazardous duty employees

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under VRS Plan 1 or VRS Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select VRS Plan 1 or VRS Plan 2 (as applicable) or ORP.

## A. Plan Description (Continued)

#### **HYBRID RETIREMENT PLAN (CONTINUED)**

4. Retirement Contributions - A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

#### 5. Creditable Service

<u>Defined Benefit Component</u> - Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

<u>Defined Contribution Component</u> - Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

#### 6. Vesting

<u>Defined Benefit Component</u> - Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. VRS Plan 1 or VRS Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

<u>Defined Contribution Component</u> - Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.

Members are always 100% vested in the contributions that they make.

Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.

- After two years, a member is 50% vested and may withdraw 50% of employer contributions.
- After three years, a member is 75% vested and may withdraw 75% of employer contributions.
- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.

Distribution is not required by law until age 70½.

#### A. Plan Description (Continued)

#### **HYBRID RETIREMENT PLAN (CONTINUED)**

#### 7. Calculating the Benefit

<u>Defined Benefit Component</u> – Same as VRS Plan 1–Refer to Section 7.

<u>Defined Contribution Component</u> - The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

- **8.** Average Final Compensation Same as VRS Plan 2–Refer to Section 8. It is used in the retirement formula for the defined benefit component of the plan.
- 9. Service Retirement Multiplier The retirement multiplier is 1.0%.

For members that opted into the Hybrid Retirement Plan from VRS Plan 1 or VRS Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

#### 10. Normal Retirement Age

Defined Benefit Component – Same as VRS Plan 2–Refer to Section 10.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

#### 11. Earliest Unreduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

#### 12. Earliest Reduced Retirement Eligibility

<u>Defined Benefit Component</u> - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

<u>Defined Contribution Component</u> - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

#### A. Plan Description (Continued)

#### **HYBRID RETIREMENT PLAN (CONTINUED)**

## 13. Cost-of-Living Adjustment (COLA) in Retirement

<u>Defined Benefit Component</u> – Same as VRS Plan 2–Refer to Section 13.

<u>Defined Contribution Component</u> – Not Applicable.

- **14.** Eligibility Same as VRS Plan 1 and VRS Plan 2–Refer to Section 14.
- **15. Exceptions to COLA Effective Dates** Same as VRS Plan 1 and VRS Plan 2–Refer to Section 15.
- **16. Disability Coverage** Eligible political subdivision and school division members (including VRS Plan 1 and VRS Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.

State employees (including VRS Plan 1 and VRS Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

Hybrid members (including VRS Plan 1 and VRS Plan 2 opt-ins) covered under VSDP or VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

#### 17. Purchase of Prior Service

Defined Benefit Component - Same as VRS Plan 1 and VRS Plan 2-Refer to Section 17.

Defined Contribution Component – Not Applicable.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended 2014 was 3.97% of annual covered payroll.

#### C. Annual Pension Cost

For fiscal year 2014, the Town's annual pension cost of \$8,384 was equal to the Town's required and actual contributions.

| Fiscal           | Annual     | Percentage  | Net        |
|------------------|------------|-------------|------------|
| Year             | Pension    | of APC      | Pension    |
| Ending           | Cost (APC) | Contributed | Obligation |
| June 30, 2014 \$ | 9,281      | 100%        |            |
| June 30, 2013    | 12,003     | 100%        | -          |
| June 30, 2012    | -          | 100%        | -          |

The FY 2014 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

#### D. Funded Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the Town's plan was 150.13% funded. The actuarial accrued liability for benefits was \$402,352, and the actuarial value of assets was \$604,048, resulting in an unfunded (excess funded) actuarial accrued liability (UAAL) of (\$201,696). The covered payroll (annual payroll of active employees covered by the plan) was \$221,631, and ratio of the UAAL to the covered payroll was (91.01%).

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

#### NOTE 10—DEPOSITS AND INVESTMENTS:

#### Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### Investments

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

# Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Town's investing activities are managed under the custody of the Treasurer. The Town has not adopted a policy regarding credit risk of debt securities.

The Town's rated debt investments as of June 30, 2014 were rated by Moody's and/or an equivalent national rating organization and the ratings are presented below using the Moody's rating scale.

| Town's Rated Debt Investments' Value |
|--------------------------------------|
|--------------------------------------|

|                                  | <br>                |

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2014 (CONTINUED)

#### NOTE 10—DEPOSITS AND INVESTMENTS: (CONTINUED)

#### **External Investment Pool**

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

#### NOTE 11—RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. The Town also provides a risk management program for workers' compensation. Premiums are paid by the general fund and all other funds and are available to pay claims, claim reserves and administrative costs of the program.

The Town is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The Town pays Virginia Municipal Group contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### NOTE 12—COMMITMENTS:

On March 7, 1989, the Town of Glasgow entered into a 40-year contract with the County of Rockbridge and the Rockbridge County Public Service Authority whereby the parties agreed to share the costs of upgrading Glasgow's wastewater treatment facility as well as the operating costs of the expanded facility. In effect, the agreement provided for the expansion of the facility from a daily wastewater capacity of approximately 125,000 gallons to 495,000 gallons. The mutually agreed upon costs of upgrading the facility was borne 65% by the Town and 35% by the County or Authority. The ownership of the facility and all loans incurred for construction are solely those of the Town of Glasgow; however, 35% of the costs of debt service and operations are being borne by the County or Authority. The contract also provides for renewal terms totaling up to 50 years at the option of the County or Authority.

# **NOTE 13—LITIGATION:**

At June 30, 2014, there were no matters of litigation involving the Town for which would materially affect the Town's financial position should any court decisions on pending matters not be favorable to the Town.

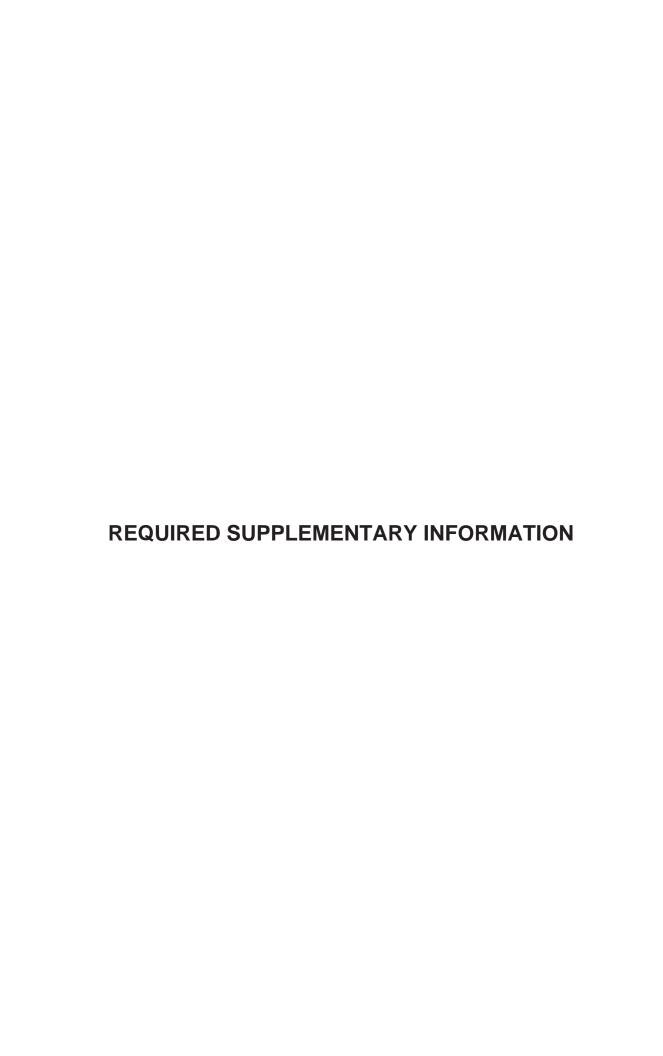

## **NOTE 14—CONSTRUCTION CONTRACTS OUTSTANDING:**

The Town had the following material contract outstanding at June 30, 2014:

|                           | _  | Original<br>Contract<br>Amount | Amount<br>Spent<br>to Date | _  | Amount of<br>Contract<br>Remaining<br>at Year End |
|---------------------------|----|--------------------------------|----------------------------|----|---|
| Water system improvements | \$ | 2,462,234 \$                   | 508,566                    | \$ | 1,953,668   |

# **NOTE 15—SUBSEQUENT EVENT:**

On March 1, 2015 the Town's Virginia Water Facilities Revolving Loan Series 2014 was modified to increase the principal available under the loan by \$569,989. The additional loan principal will be used to fund water line improvements and variance issuance costs. The revised principal amount of the loan per the financing agreement is \$3,377,489.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

# TO THE HONORABLE MEMBERS OF THE TOWN COUNCIL TOWN OF GLASGOW, VIRGINIA

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Glasgow, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town of Glasgow, Virginia's basic financial statements, and have issued our report thereon dated April 27, 2015.

# **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town of Glasgow, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Glasgow, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Glasgow, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town of Glasgow, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

Robinson, Farmer, lax Associates

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
