Independent Auditors' Report

To The Board of Supervisors County of Alleghany, Virginia Covington, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Alleghany, Virginia, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, *and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Alleghany, Virginia, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 25 to the financial statements, in 2021, the County adopted new accounting guidance, GASB Statement No. 84, Fiduciary Activities. Our opinion is not modified with respect to this matter.

Restatement of Beginning Balances

As described in Note 25 to the financial statements, in 2021, the County restated beginning balances to reflect the requirements of GASB Statement No. 84. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules related to pension and OPEB funding on pages 93-94 and 95-109 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Alleghany, Virginia's basic financial statements. The introductory section, other supplementary information, and other statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and other statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

Obinson, Fainer, Cox Association

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2021, on our consideration of the County of Alleghany, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County of Alleghany, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Alleghany, Virginia's internal control over financial reporting and compliance.

COUNTY OF ALLEGHANY, VIRGINIA

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2021

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity

The County of Alleghany, Virginia is a municipal corporation governed by an elected seven-member Board of Supervisors. The accompanying financial statements present the government and its component unit, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units - The component unit column in the financial statements include the financial data of the County's discretely presented component unit. It is reported in a separate column to emphasize that it is legally separate from the County.

The Alleghany County School Board operates the elementary and secondary public schools in the County. School Board members are appointed. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue separate financial statements.

Related Organizations - The County Board appoints board members to outside organizations, but the County's accountability for these organizations does not extend beyond making the appointments.

Jointly Governed Organizations - None

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

B. Government-wide and fund financial statements (Continued)

The statement of net position is designed to display financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide statement of net position and will report depreciation expense - the cost of "using up" capital assets - in the statement of activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditure on general long-term debt, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for un-collectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The County reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. The general fund includes the activities of the Law Library, Employee Function, Indoor Plumbing Rehab, Emergency Repair, Drug Asset Forfeiture, Courthouse Security, Children Coping with Divorce, Community Development Block Grant Funds, Asset Forfeiture, and Capital Improvements. Such funds have been merged for financial reporting purposes.

The *special law fund* is a major special revenue fund. It accounts for and reports revenues generated by the Jail that are restricted as to use.

The County reports the following major proprietary funds:

The County operates a sewage collection and treatment system and water distribution system. The activities of these systems are accounted for in the Water and Sewer Fund.

The *Internal Service Fund* accounts for the financing of goods and services provided by one department or agency to other departments or agencies of the County government. The self-insured health insurance plan is accounted for in this fund. The self-insurance plan was terminated on July 1, 2012 and the fund was closed as of June 30, 2021.

Additionally, the County reports the following fund types:

Fiduciary funds (Custodial Funds) account for assets held by the government in a trustee capacity or custodian for individuals, private organizations, other governmental units, or other funds. Custodial funds include the Special Welfare, Friends of Youth, Humane Society Capital Improvements, Human and Leisure Service, Jackson River Vocational Center, United Fire and Rescue Association, AHEDC, and Inmate Fund.

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

The School Board reports the following major fund types:

The School Operating Fund is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from appropriations from the County and state and federal grants.

The School Board reports the following non-major special revenue fund types:

The *Governor's School Fund* accounts for and reports all revenues and expenditures applicable to the general operations of the governor school, including state aid and charges for services.

The School Activity Fund accounts for and reports all funds received from extracurricular school activities, such as entertainment, athletic contests, club dues, fundraisers, etc., and from any and all activities of the individual schools.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance
 - 1. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Investments totaling \$1,309,165 are reported as cash and cash equivalents in the accompanying financial statements.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

2. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans). All other outstanding balances between funds are reported as either "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

4. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable on December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

5. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$177,777 at June 30, 2021 and is comprised of \$108,464 in property taxes and \$69,313 in water and sewer billings.

6. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

6. Inventories

All inventories are valued at cost using the weighted average method. Inventories of proprietary funds are recorded as expenses when purchased. Inventories of governmental funds are recorded as expenditures when purchased.

7. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment and infrastructure of the primary government, as well as the component unit, are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years |
|------------------------------------|---------|
| Buildings | 40 |
| Building improvements | 20 - 40 |
| Structures, lines, and accessories | 20 - 65 |
| Machinery and equipment | 5 - 12 |

8. Compensated Absences

Vested or accumulated vacation, sick, and holiday pay that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. No liability is recorded for non-vesting accumulating rights to receive benefits. All vacation, sick, and holiday pay is accrued when incurred in the government-wide and proprietary fund financial statements to the extent of amounts that are paid out to employees upon termination.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

9. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's and School Board's Retirement Plan and the additions to/deductions from the County's and School Board's Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI, HIC, and Teacher HIC, OPEB Plans and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

11. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Remainder of this page left blank intentionally.

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

12. Fund Balance

Fund balances, presented in the governmental fund financial statements, represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources reported in a governmental fund. The following classifications of fund balance describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

<u>Nonspendable</u> - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);

<u>Restricted</u> - amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers;

<u>Committed</u> - amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the Board of Supervisors prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Board adopts another ordinance to remove or revise the limitation;

<u>Assigned</u> - amounts a government intends to use for a specific purpose but do not meet the criteria to be classified as committed; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. Unlike commitments, assignments general only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment;

<u>Unassigned</u> - amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance / resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)

13. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred
 inflows of resources related to those assets. Assets are reported as restricted when
 constraints are placed on asset use either by external parties or by law through
 constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

14. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

15. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is comprised of certain items related to the measurement of the net pension (asset) liability and net OPEB liabilities and contributions to the pension and OPEB plans made during the current year and subsequent to the net pension (asset) liability and net OPEB liability measurement date. For more detailed information on these items, reference the related notes.

- D. Assets, liabilities, deferred outflows/inflows of resources and net position/fund balance (Continued)
 - 15. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30th and amounts prepaid on taxes due December 5th and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid on taxes due on December 5th are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension (asset) liability and net OPEB liabilities are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. All non-fiduciary funds have legally adopted budgets.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds. The School Operating Fund is integrated only at the level of legal adoption.
- 5. The Appropriations Resolution places legal restrictions on expenditures at the department level. Only the Board of Supervisors can revise the appropriation for each department. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2021

Note 2-Stewardship, Compliance, and Accountability: (Continued)

A. Budgetary information (Continued)

- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- 8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is part of the County's accounting system.

B. Excess of expenditures over appropriations

At June 30, 2021, courthouse security had expenditures that exceeded appropriations due to additional staff needed to meet COVID-19 social distancing guidelines. The Sheriff correction and detention had expenditures that exceeded appropriations due to the cost of housing inmates at other jails during the fiscal year. In addition, the children's services act department had expenditures that exceed appropriations.

C. Deficit fund balance

At June 30, 2021, there were no funds with deficit fund balance.

Note 3-Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard and Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). At year end, the County held corporate bonds and notes with a fair quality rating of less than AA (Standard and Poor's), which is in violation of the State Code.

Note 3-Deposits and Investments: (Continued)

The investments, as reported in the financial statements as of June 30, 2021, include negotiable certificate of deposits with an original maturity date over three months and have a balance of \$614,438. LGIP and money market funds are reported in the accompanying financial statements as cash and cash equivalents.

Credit Risk of Debt Securities

The County has not adopted an investment policy for credit risk. The County's rated debt investments as of June 30, 2021 were rated by Standard and Poor's (S&P) or Moody's and the ratings are presented below using the Standard and Poor's rating scale.

| Rated Debt Investments | Fair Quality Ratings | | | | | |
|------------------------|----------------------|---------|---|-----|---------|--|
| | S&P | Moody's | | | | |
| | AAAm | Aa1 | | Aaa | | |
| Fidelity money market | \$ 1,307,705 | \$ | - | \$ | - | |
| LGIP | 1,460 | | - | | - | |
| Corporate bonds | - | | - | | 302,598 | |

431,582

1,954,630

County's Rated Debt Investments' Values

External Investment Pools

Municipal bonds

Government agency bonds

The value of the positions in the external investment pools (Local Government Investment Pool) is the same as the value of the pool shares. As LGIP is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP is an amortized cost basis portfolio. There are no withdrawal limitations or restrictions imposed on participants.

Interest Rate Risk

The County has not adopted an investment policy for interest rate risk. Investments subject to interest rate risk are presented below along with their corresponding maturities.

Investment Maturities (in years)

| Investment Type | _ | Fair Value | , , | 1 Year | 1-5 Years |
|-------------------------|-----|------------|-----|-----------|-----------------|
| Money market funds | \$ | 1,307,705 | \$ | 1,307,705 | \$ - |
| LGIP | | 1,460 | | 1,460 | - |
| Government agency bo | nds | 1,954,630 | | 605,124 | 1,349,506 |
| Corporate bonds | | 302,598 | | 100,957 | 201,641 |
| Municipal bonds | | 431,582 | | 130,844 | 300,738 |
| Certificates of deposit | | 614,438 | | 357,255 | 257,183 |
| | | | | | |
| Totals | \$ | 4,612,413 | \$ | 2,503,345 | \$ 2,109,068 |

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2021

Note 3-Deposits and Investments: (Continued)

Custodial Credit Risk

At year end, the County was not exposed to any custodial credit risk for deposits or investments. The County limits deposits to those banks fully collateralized under the Commonwealth's Security for Public Deposits Act. The County policy in regards to investments requires that all investments be held in the County's name.

Note 4-Fair Value Measurements:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The County maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1. Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at a measurement date
- Level 2. Directly or indirectly observable inputs for the asset or liability other than quoted prices
- Level 3. Unobservable inputs that are supported by little or no market activity for the asset or liability

Fair Value

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

The County has the following recurring fair value measurements as of June 30, 2021:

| | | | Measurement Using | | | |
|-------------------------|----|----------|-----------------------|-----------|--|--|
| | | | Quoted Prices in | | | |
| | | | Active Markets | | | |
| | | | for Identical Assets | | | |
| Investment | 6/ | /30/2021 | | (Level 1) | | |
| | | | | | | |
| Corporate Bonds | \$ | 302,598 | \$ | 302,598 | | |
| Municipal Bonds | | 431,582 | | 431,582 | | |
| Certificates of Deposit | | 614,438 | | 614,438 | | |
| Government Agency Bonds | 1 | ,954,630 | | 1,954,630 | | |
| | | | | | | |

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

| | Governmental Activities | | Business-Type Activities | | oonent Unit ool Board |
|----------------------------------|-------------------------|-----------|--------------------------|----|--------------------------|
| Local: | | | | | |
| City of Covington | \$ | 469,856 | \$ - | \$ | - |
| County of Bath | | 185,541 | - | | - |
| Town of Clifton Forge | | - | 333,023 | | - |
| Commonwealth of Virginia: | | | | | |
| Local sales tax | | 187,394 | - | | - |
| State sales tax | | 336,152 | - | | - |
| Categorical aid, shared expenses | | 289,039 | - | | - |
| Other categorical aid | | 81,114 | - | | - |
| Non-categorical aid | | 53,667 | - | | - |
| Virginia public assistance funds | | 52,135 | - | | - |
| Community Services Authority | | 337,008 | - | | - |
| Federal government: | | | | | |
| Virginia public assistance funds | | 99,109 | - | | - |
| Categorical aid | | 172,587 | - | | 292,106 |
| | \$ | 2,263,602 | \$ 333,023 | \$ | 292,106 |
| | | | | | |

Note 6-Transfers and Interfund Obligations:

Interfund transfers for the year ended June 30, 2021, consisted of the following:

| | Tr | Transfers In | | nsfers Out |
|------------------------------|----|--------------|----|------------|
| Primary Government: | | | | |
| General Fund | \$ | 343,807 | \$ | - |
| Internal Services Fund | | - | | 343,807 |
| Component Unit-School Board: | | | | |
| School Operating Fund | | 15,857 | | 123,502 |
| School Activity Fund | | 123,502 | | 15,857 |
| Total | \$ | 483,166 | \$ | 483,166 |

Transfers are used to (1) move revenues from the fund that statue or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in one fund to other fund(s) to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 6-Transfers and Interfund Obligations: (Continued)

Interfund balances at year end represent amounts that have been transferred between funds in a lending or borrowing capacity and are expected to be repaid by current administration. At June 30, 2021, there were no interfund balances.

Note 7-Component-Unit Obligations and Contributions:

Primary government contributions to the component unit for the year ended June 30, 2021, consisted of the following:

Component Unit:

School Board

\$11,531,793

At June 30, 2021, there were no component unit obligations.

Note 8-Long-Term Obligations:

Primary Government - Governmental Activities Obligations:

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2021.

| | Balance July 1, 2020 | | Increases/ Issuances | | Decreases/ Retirements | | Balance June 30, 2021 | |
|-----------------------------------|-------------------------|------------|-------------------------|-----------|---------------------------|-------------|--------------------------|------------|
| Direct borrowings and placements: | | | | | | | | |
| General obligation bonds | \$ | 2,048,092 | \$ | - | \$ | (541,736) | \$ | 1,506,356 |
| Premium on issuance | | 11,469 | | - | | (2,965) | | 8,504 |
| Literary loans | | 1,500,000 | | - | | (750,000) | | 750,000 |
| Capital leases | | 8,868,326 | | - | | (251,010) | | 8,617,316 |
| Compensated absences | | 353,535 | | 254,252 | | (265,151) | | 342,636 |
| Net pension liability | | 5,018,541 | | 3,795,707 | | (1,753,213) | | 7,061,035 |
| Net OPEB liability | | 586,014 | | 183,194 | | (178,381) | | 590,827 |
| Total | \$ | 18,385,977 | \$ | 4,233,153 | \$ | (3,742,456) | \$ | 18,876,674 |

Note 8-Long-Term Obligations: (Continued)

<u>Primary Government - Governmental Activities Obligations</u>: (Continued)

Annual requirements to amortize long-term obligations and related interest are as follows:

| Year Ending | Dire | Direct Borrowings and Placements | | | | |
|-------------|------|-----------------------------------------|----------|---------|--|--|
| June 30, | | Principal | Interest | | | |
| | - | | | | | |
| 2022 | \$ | 1,315,508 | \$ | 71,437 | | |
| 2023 | | 179,493 | | 38,507 | | |

| Total Long-term obligations | | | | | \$ | 11,477,006 | \$ 1 | ,025,869 |

^{*}As of June 30, 2021, only \$696,498 has been drawn down.

For the governmental activities, compensated absences, net OPEB liability, and net pension liability are generally liquidated by the General Fund.

The County's literary loans and VPSA Bonds are subject to the state aid intercept program. Under terms of the program, the County's State aid is redirected to bond holders to cure any event(s) of default.

In an event of default occurs with VPSA bonds, the principal of the bond(s) may be declared immediately due and payable to the register owner of the bond(s) by written notice to the County.

Note 8-Long-Term Obligations: (Continued)

Primary Government - Business-type Activities:

The following is a summary of long-term obligation transactions of the Enterprise Fund for the year ended June 30, 2021.

| | Balance July 1, 2020 | Increases/ Issuances | Decreases/ Retirements | Balance June 30, 2021 |
|-----------------------------------|-------------------------|-------------------------|---------------------------|--------------------------|
| Direct borrowings and placements: | | | | |
| Revenue bonds | \$11,284,204 | \$ 522,543 | \$ (1,047,429) | \$ 10,759,318 |
| Compensated absences | 84,319 | 57,743 | (63,239) | 78,823 |
| Net pension liability | 454,846 | 314,196 | (179,506) | 589,536 |
| Net OPEB liability | 53,112 | 14,978 | (18,761) | 49,329 |
| Total | \$ 11,876,481 | \$ 909,460 | \$ (1,308,935) | \$ 11,477,006 |

Annual requirements to amortize long-term obligations and related interest are as follows:

| Year Ending | Direct Borrowings and Placements | | | | |
|-------------|----------------------------------|------------|----|-----------|--|
| June 30, | | Principal | Ī | nterest | |

| Net Pension Liability | n/a | n/a | n/a | n/a | | 589,536 | | - |
| Net OPEB Liability | n/a | n/a | n/a | n/a | | 49,329 | | - |
| Total Other Obligations | | | | | \$ | 717,688 | \$ | 59,117 |
| Total Long-term obligations | | | | | \$ | 11,477,006 | \$ 1 | ,025,869 |

For the business-type activities, compensated absences, net OPEB liability, and net pension liability are generally liquidated by the Water and Sewer Fund.

VRA bonds require that the County maintain a debt service coverage ratio of at least 1.15. For the year ending June 30, 2021, the County was in compliance with this requirement.

In an event of default occurs with VRA and Rural Development bonds, the principal of the bond(s) may be declared immediately due and payable to the register owner of the bond(s) by written notice to the County.

Note 9-Long-term Obligations-Component Unit School Board:

| Total Long-Term Obligations | \$24,178,460 | \$ | 203,176 | |

Note 10-Pension Plans:

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of the public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. However, several entities whose financial information is not included in the primary government report participate in the VRS plan through the County of Alleghany and the participating entities report their proportionate information on the basis of a cost-sharing plan.

Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Benefit Structures

The System administers three different benefit structures for covered employees - Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.

Note 10-Pension Plans: (Continued)

Benefit Structures (Continued)

c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 - April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's contractually required employer contribution rate for the year ended June 30, 2021 was 12.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

Note 10-Pension Plans: (Continued)

Contributions (Continued)

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$971,412 and \$869,995 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net Pension Liability

At June 30, 2021, the County reported a liability of \$7,650,571 for its proportionate share of the net pension liability. The County's net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. In order to allocate the net pension liability to all employers included in the plan, the County is required to determine its proportionate share of the net pension liability. Creditable compensation as of June 30, 2020 and 2019 was used as a basis for allocation to determine the County's proportionate share of the net pension liability. At June 30, 2020 and 2019, the County's proportion was 98.0809% and 98.0921%, respectively.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Alleghany County's Retirement Plan and the Component Unit School Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan investment

expenses, including inflation*

Mortality rates:

All Others (Non-10 Largest) - Non-Hazardous Duty: 15% of deaths are assumed to be service related

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Note 10-Pension Plans: (Continued)

Actuarial Assumptions - General Employees (Continued)

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90

Post-Disablement:

Inflation

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years; 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) - Non-Hazardous Duty:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Lowered rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the Alleghany County's Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

2.50%

Salary increases, including inflation
3.50% - 4.75%
Investment rate of return
6.75%, net of pension plan investment expenses, including inflation*

Note 10-Pension Plans: (Continued)

Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits (Continued)

* Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Mortality rates:

All Others (Non-10 Largest) - Hazardous Duty: 45% of deaths are assumed to be service related Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 90% of rates; females set forward 1 year.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 1 year, 1.0% increase compounded from ages 70 to 90; females set forward 3 years.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years; unisex using 100% male.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) - Hazardous Duty:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|-----------------------------------------------------------------------|
| Retirement Rates | Increased age 50 rates, and lowered rates at older ages |
| | Adjusted rates to better fit experience at each year |
| Withdrawal Rates | age and service through 9 years of service |
| Disability Rates | Adjusted rates to better fit experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 10-Pension Plans: (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Long-Term Target Asset Allocation | Arithmetic Long-term Expected Rate of Return | Weighted Average Long-term Expected Rate of Return* |
|--------------------------------------|-----------------------------------|----------------------------------------------|-----------------------------------------------------|
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| Expec | ted arithmetic | nominal return* | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 10-Pension Plans: (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the County and Component Unit School Board (nonprofessional) was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever was greater. Through the fiscal year ended June 30, 2020, the rate contributed by the school division for the VRS Teacher Retirement Plan was subject to the portion of the VRS Boardcertified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | Rate | | | | | |
|------------------------------------------------------------|---------------------|-----|--------------------------|---------------------|--|--|
| | 1% Decrease (5.75%) | Cur | rent Discount (6.75%) | 1% Increase (7.75%) | | |
| County's proportionate share of the County Retirement Plan | | | | | | |
| Net Pension Liability (Asset) | \$12,697,805 | \$ | 7,650,571 | \$ 3,437,395 | | |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the County recognized pension expense of \$1,387,453. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

Note 10-Pension Plans: (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At June 30, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Primary Governmen | | | |
|---------------------------------------------------------------------------------------------------------------|-------------------|-------------------------|-----|------------------------|
| | | Deferred Outflows of | | Deferred Inflows of |
| | | Resources | _ | Resources |
| Differences between expected and actual experience | \$ | 428,006 | \$ | 202,652 |
| Changes in assumptions | | 521,255 | | - |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | | 4,739 | | 5,101 |
| Net difference between projected and actual earnings on pension plan investments | | 1,026,718 | | - |
| Employer contributions subsequent to the measurement date | | 971,412 | _ | - |
| Total | \$ | 2,952,130 | \$_ | 207,753 |

\$971,412 reported as deferred outflows of resources related to pensions resulting from the County's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| Year ended June 30 | Primary Government |
|--------------------|-----------------------|
| 2022 | \$ 408,967 |
| 2023 | 614,818 |
| 2024 | 422,663 |
| 2025 | 326,517 |
| Thereafter | - |

Note 10-Pension Plans: (Continued)

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2020-annual-report-pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Component Unit School Board (Nonprofessional)

Additional information related to the plan description, plan contribution requirements, actuarial assumptions, long-term expected rate of return, and discount rate is included in the first section of this note.

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

| | Component Unit School Board Nonprofessional |
|----------------------------------------------------------------------|---------------------------------------------------|
| Inactive members or their beneficiaries currently receiving benefits | 84 |
| Inactive members: Vested inactive members | 8 |
| Non-vested inactive members | 17 |
| Inactive members active elsewhere in VRS | 10 |
| Total inactive members | 35 |
| Active members | 79 |
| Total covered employees | 198 |

Contributions

The Component Unit School Board's contractually required employer contribution rate for nonprofessional employees for the year ended June 30, 2021 was 4.56% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

Note 10-Pension Plans: (Continued)

<u>Component Unit School Board (Nonprofessional)</u> (Continued)

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$79,793 and \$73,758 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net Pension Liability (Asset)

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The Component Unit School Board's (nonprofessional) net pension liability (asset) was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of June 30, 2019 rolled forward to the measurement date of June 30, 2020.

Changes in Net Pension Liability (Asset)

| Thereafter | _ |

Component Unit School Board (Professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system).

Additional Information regarding the plan description is included in the first section of this note.

Contributions

The contribution requirement for active employees is governed by \$51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2021 was 16.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$1,793,222 and \$1,758,888 for the years ended June 30, 2021 and June 30, 2020, respectively.

Note 10-Pension Plans: (Continued)

<u>Component Unit School Board (Professional)</u> (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the school division reported a liability of \$19,283,685 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020 the school division's proportion was 0.13250% as compared to 0.13684% at June 30, 2019.

For the year ended June 30, 2021, the school division recognized pension expense of \$1,398,631. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2021, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Component Unit School | | | | |
|--------------------------------|----------------------------------------------------|----------------------|--|--|
| Board (professional) | | | | |
| Deferred Outflows of Resources | Deferred Inflov of Resources | | | |
| - | \$ 1,130,32 | .1 | | |

Note 10-Pension Plans: (Continued)

<u>Component Unit School Board (Professional)</u> (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: (Continued)

\$1,793,222 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

| Year ended June 30 | | Component Unit School Board (professional) |
|--------------------|----|--------------------------------------------------|
| 2022 | \$ | (587,905) |
| 2023 | · | 21,588 |
| 2024 | | 337,691 |
| 2025 | | 349,260 |
| 2026 | | (46,324) |
| Thereafter | | - |

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

| Inflation | 2.50% |
|---------------------------------------|----------------------------------------------------------------------|
| Salary increases, including inflation | 3.50% - 5.95% |
| Investment rate of return | 6.75%, net of pension plan investment expenses, including inflation* |

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Note 10-Pension Plans: (Continued)

Component Unit School Board (Professional) (Continued)

Actuarial Assumptions (Continued)

Mortality rates:

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 75 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with Scale BB to 2020; 115% of rates for males and females.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 10-Pension Plans: (Continued)

<u>Component Unit School Board (professional)</u> (Continued)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2020, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):c

| | Teacher Employee Retirement Plan |
|----------------------------------------------------------------------------|-------------------------------------|
| Total Pension Liability Plan Fiduciary Net Position | \$ 51,001,855 36,449,229 |
| Employers' Net Pension Liability (Asset) | \$ 14,552,626 |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | 71.47% |
| of the rotal refision Liability | /1.4//0 |

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

The long-term expected rate of return and discount rate information previously described also apply to this plan.

Note 11-Other Postemployment Benefits - Health Insurance:

Component Unit School Board:

Plan Description

In addition to the pension benefits described in Note 10, the Component Unit School Board administers a single-employer defined benefit healthcare plan, The Alleghany County Public Schools Plan. The plan provides postemployment health care benefits to all eligible permanent employees who meet the requirements under the Component Unit School Board's pension plans. The plan does not issue a publicly available financial report.

Benefits Provided

The Component Unit School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees of the School Board and their dependents in the health insurance programs available to School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the School Board. An eligible School Board retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have a minimum of 15 years of service with the Virginia Retirement System. The benefits, employee contributions and the employer contributions are governed by the School Board and can be amended through School Board action.

Plan Membership

At June 30, 2021 (measurement date), the following employees were covered by the benefit terms:

| Total active employees | 339 |
|---------------------------|-----|
| Total retirees | 14 |
| Total spouses of retirees | 3 |
| Total | 356 |

Contributions

The board does not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the Component Unit School Board. The amount paid by the Component Unit School Board for OPEB as the benefits came due during the year ended June 30, 2021 was \$107,180.

Total OPEB Liability

The Component Unit School Board's total OPEB liability was measured as of June 30, 2021. The total OPEB liability was determined by an actuarial valuation performed as of July 1, 2019, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Note 11-Other Postemployment Benefits - Health Insurance: (Continued)

Component Unit School Board: (Continued)

Actuarial Assumptions

The total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.50% per year as of June 30, 2020

2.50% per year as of June 30, 2021

Salary Increases The salary increase rate consist of an inflation of 2.50%, a productivity

component of 1.00%, and a variable merit component that is dependent

on years of services.

Discount Rate 2.21% as of June 30, 2020

2.16% as of June 30, 2021

The mortality rates for pre-retirement was calculated using RP-2014 Employee to age 80, Health Annuitant Rates at ages 81 and older projected with Scale BB to 2020; males setback 1 year, 85% of rates; females setback 1 year. 25% of deaths are assumed by service-related. The mortality rates for post-retirement was calculated using RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with Scale BB to 2020; males set forward 1 year; females setback 1 year with 1.5% increase compounded from ages 70 to 85. The mortality rates for post-disablement was calculated using RP-2014 Disabled Life Mortality Rates projected with Scale BB to 2020; males 115% of rates; females 130% of rates.

The date of the most recent actuarial experience study for which significant assumptions were based is not available.

Discount Rate

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended June 30, 2021, the Component Unit School Board recognized OPEB expense in the amount of \$76,431. At June 30, 2021, the Component Unit School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | _ | Deferred Outflows of Resources | Deferred Inflows of Resources |
|----------------------------------------------------|----|--------------------------------|-------------------------------|
| Differences between expected and actual experience | \$ | - | \$ 122,828 |
| Changes in assumptions | | 83,701 | 4,682 |
| Total | \$ | 83,701 | \$ 127,510 |

Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense in future reporting periods as follows:

| _ | Year Ended June 30 | _ | |
|---|--------------------|----|----------|
| | | | |
| | 2022 | \$ | (13,256) |
| | 2023 | | (15,274) |
| | 2024 | | (15,279) |
| | Thereafter | | - |

Note 11-Other Postemployment Benefits - Health Insurance: (Continued)

Component Unit School Board: (Continued)

Additional disclosures on changes in total OPEB liability, related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, safety belt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,616 as of June 30, 2021.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Contributions

The contribution requirements for the GLI Plan are governed by \$51.1-506 and \$51.1-508 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2021 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the GLI Plan from the County were \$43,192 and \$41,043 for the years ended June 30, 2021 and June 30, 2020, respectively.

Contributions to the GLI Plan from the Component Unit School Board (nonprofessional) were \$10,297 and \$9,911 for the years ended June 30, 2021 and June 30, 2020, respectively.

Contributions to the GLI Plan from the Component Unit School Board (professional) were \$60,403 and \$60,161 for the years ended June 30, 2021 and June 30, 2020, respectively.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

County of Alleghany, Virginia GLI Plan

At June 30, 2021, the entity reported a liability of \$640,156 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.0384% as compared to 0.0393% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$26,748. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

Component Unit School Board (nonprofessional) GLI Plan

At June 30, 2021, the entity reported a liability of \$154,535 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.0926% as compared to 0.0936% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$4,144. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Component Unit School Board (professional) GLI Plan

At June 30, 2021, the entity reported a liability of \$938,053 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was 0.0562% as compared to 0.0582% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$11,721. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB (Continued)

At June 30, 2021, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

| | Primary G | iove | | Component Unit (nonprofe | | | School Board onal) | | |
|-----------------------------------------------------------------------------------|--------------------------------------|------|-------------------------------------|--------------------------------------|-------------------------------------|----|--------------------------------------|----|-------------------------------------|
| | Deferred Outflows of Resources | | Deferred Inflows of Resources | Deferred Outflows of Resources | Deferred Inflows of Resources | | Deferred Outflows of Resources | | Deferred Inflows of Resources |
| Differences between expected and actual experience \$ | 41,061 | \$ | 5,750 \$ | 9,912 \$ | 1,388 | \$ | 60,167 | \$ | 8,425 |
| Net difference between projected and actual earnings on GLI OPEB plan investments | 19,230 | | - | 4,642 | - | | 28,178 | | - |
| Change in assumptions | 32,016 | | 13,366 | 7,728 | 3,227 | | 46,913 | | 19,587 |
| Changes in proportionate share | 20,113 | | 23,438 | - | 7,430 | | - | | 91,129 |
| Employer contributions subsequent to the measurement date | 43,192 | | | 10,297 | - | _ | 60,403 | | <u>-</u> |
| Total \$ | 155,612 | \$ | 42,554 \$ | 32,579 \$ | 12,045 | \$ | 195,661 | \$ | 119,141 |

\$43,192, \$10,297, and \$60,403 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

| Year Ended June 30 | | Primary Government | Component Unit School Board (nonprofessional) | Component Unit School Board (professional) | | |
|--------------------|----|--------------------|-----------------------------------------------|--------------------------------------------|--|--|
| | | , - | , , | / / | | |
| 2022 | \$ | 11,978 | \$ 579 | \$ (9,921) | | |
| 2023 | | 17,408 | 1,890 | (1,964) | | |
| 2024 | | 21,031 | 3,086 | 9,009 | | |
| 2025 | | 17,561 | 3,830 | 18,244 | | |
| 2026 | | 2,030 | 821 | 1,352 | | |
| Thereafter | | (142) | 31 | (603) | | |

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

Inflation 2.50%

Salary increases, including inflation:

Teachers 3.50%-5.95% Locality - General employees 3.50%-5.35% Locality - Hazardous Duty employees 3.50%-4.75%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

Mortality Rates - Teachers

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 70 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; 115% of rates for males and females.

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of OPEB liabilities

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Teachers (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Mortality Rates - Non-Largest Ten Locality Employers - General Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Non-Largest Ten Locality Employers - General Employees (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Retirement Rates | Lowered retirement rates at older ages and extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Mortality Rates - Non-Largest Ten Locality Employers - Hazardous Duty Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 90% of rates; females set forward 1 year.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 1 year with 1.0% increase compounded from ages 70 to 90; females set forward 3 years.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years; unisex using 100% male.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Non-Largest Ten Locality Employers - Hazardous Duty Employees (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| Retirement Rates | Increased age 50 rates and lowered rates at older ages |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2020, NOL amounts for the GLI Plan is as follows (amounts expressed in thousands):

| | | GLI OPEB |
|---------------------------------------------|-----|-----------|
| | | Plan |
| Total GLI OPEB Liability | \$ | 3,523,937 |
| Plan Fiduciary Net Position | | 1,855,102 |
| GLI Net OPEB Liability (Asset) | \$ | 1,668,835 |
| Plan Fiduciary Net Position as a Percentage | · _ | |
| of the Total GLI OPEB Liability | | 52.64% |

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Long-Term Target Asset Allocation | Arithmetic Long-term Expected Rate of Return | Weighted Average Long-term Expected Rate of Return* |
|--------------------------------------|--------------------------------------------|-------------------------------------------------------|-----------------------------------------------------|
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| Expec | ted arithmetic | nominal return* | 7.14% |

*The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2020, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | Rate | | | | | |
|---------------------------------|------|------------|-------|--------------|----|------------|
| | 19 | % Decrease | Curre | ent Discount | 19 | 6 Increase |
| | | (5.75%) | | (6.75%) | | (7.75%) |
| County's proportionate | | | | | | |
| share of the GLI Plan | | | | | | |
| Net OPEB Liability | \$ | 841,535 | \$ | 640,156 | \$ | 476,618 |
| Component Unit School Board's | | | | | | |
| (nonprofessional) proportionate | e | | | | | |
| share of the GLI Plan | | | | | | |
| Net OPEB Liability | \$ | 203,148 | \$ | 154,535 | \$ | 115,056 |
| Component Unit School Board's | | | | | | |
| (professional) proportionate | | | | | | |
| share of the GLI Plan | | | | | | |
| Net OPEB Liability | \$ | 1,233,142 | \$ | 938,053 | \$ | 698,412 |

Note 12-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI Plan Fiduciary Net Position

Detailed information about the GLI Plan's Fiduciary Net Position is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to \$51.1-1400 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the Teacher HIC Plan OPEB, including eligibility, coverage, and benefits is described below:

Eligible Employees

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

Benefit Amounts

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Contributions

The contribution requirements for active employees is governed by \$51.1-1401(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2021 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher HIC Plan were \$135,185 and \$138,831 for the years ended June 30, 2021 and June 30, 2020, respectively.

Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB

At June 30, 2021, the school division reported a liability of \$1,721,571 for its proportionate share of the VRS Teacher Employee HIC Program Net OPEB Liability. The Net VRS Teacher Employee HIC OPEB Liability was measured as of June 30, 2020 and the total VRS Teacher Employee HIC OPEB liability used to calculate the Net VRS Teacher Employee HIC OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The school division's proportion of the Net VRS Teacher Employee HIC OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC OPEB plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the school division's proportion of the VRS Teacher Employee Health Insurance Credit was 0.1392% as compared to 0.1360% at June 30, 2019.

For the year ended June 30, 2021, the school division recognized VRS Teacher Employee HIC OPEB expense of \$102,961. Since there was a change in proportionate share measurement dates, a portion of the VRS Teacher Employee HIC Net OPEB expense was related to deferred amounts from changes in proportion.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Teacher Employee HIC OPEB Liabilities, Teacher Employee HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB (Continued)

At June 30, 2021, the school division reported deferred outflows of resources and deferred inflows of resources related to the VRS Teacher Employee HIC Program OPEB from the following sources:

| | Deferred Outflow of Resources | vs Deferred Inflows of Resources |
|-------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| Differences between expected and actual experience | \$ - | \$ 22,990 |
| Net difference between projected and actual earnings on Teacher HIC OPEB plan investments | 7,62 | 9 - |
| Change in assumptions | 34,03 | 9,406 |
| Change in proportionate share | - | 187,365 |
| Employer contributions subsequent to the measurement date | 135,18 | 5 - |
| Total | \$ 176,84 | 7 \$ 219,761 |

\$135,185 reported as deferred outflows of resources related to the Teacher Employee HIC OPEB resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Teacher Employee HIC OPEB Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Teacher Employee HIC OPEB will be recognized in the Teacher Employee HIC OPEB expense in future reporting periods as follows:

| 2022 | \$ (38,024) |
|------|----------------|
| 2023 | (37,268) |
| 2024 | (37,522) |
| 2025 | (32,490) |

Year Ended June 30

2026 (19,139) Thereafter (13,656)

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions

The total Teacher Employee HIC OPEB liability for the VRS Teacher Employee HIC Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation 3.50%-5.95%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

Mortality Rates - Teachers

Pre-Retirement:

RP-2014 White Collar Employee Rates to age 80, White Collar Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020.

Post-Retirement:

RP-2014 White Collar Employee Rates to age 49, White Collar Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males 1% increase compounded from ages 70 to 90; females set back 3 years with 1.5% increase compounded from ages 65 to 70 and 2.0% increase compounded from ages 75 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; 115% of rates for males and females.

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of OPEB liabilities.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Teachers: (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post- retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Net Teacher Employee HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2020, NOL amounts for the VRS Teacher Employee HIC Plan is as follows (amounts expressed in thousands):

| | _ | Teacher Employee HIC OPEB Plan |
|----------------------------------------------------------------------------------------------|------|--------------------------------------|
| Total Teacher Employee HIC OPEB Liability Plan Fiduciary Net Position | \$ | 1,448,676 144,160 |
| Teacher Employee Net HIC OPEB Liability (Asset) | \$ _ | 1,304,516 |
| Plan Fiduciary Net Position as a Percentage of the Total Teacher Employee HIC OPEB Liability | ty | 9.95% |

The total Teacher Employee HIC OPEB liability is calculated by the System's actuary, and the plan's fiduciary net position is reported in the System's financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Long-Term Target Asset Allocation | Arithmetic Long-term Expected Rate of Return | Weighted Average Long-term Expected Rate of Return* |
|--------------------------------------|--------------------------------------------|-------------------------------------------------------|-----------------------------------------------------|
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| Expec | cted arithmetic | nominal return* | 7.14% |

*The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 13-Teacher Employee Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2020, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

Sensitivity of the School Division's Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

| | Rate | | | | | |
|---------------------------------|------|------------|-----|---------------|----|-------------|
| | 1 | % Decrease | Cur | rent Discount | | 1% Increase |
| | | (5.75%) | | (6.75%) | | (7.75%) |
| School division's proportionate | | | | | | |
| share of the VRS Teacher | | | | | | |
| Employee HIC OPEB Plan | | | | | | |
| Net HIC OPEB Liability | \$ | 1,927,119 | \$ | 1,721,571 | \$ | 1,546,870 |

Teacher Employee HIC OPEB Fiduciary Net Position

Detailed information about the VRS Teacher Employee HIC Plan's Fiduciary Net Position is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan):

Plan Description

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to \$51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. Effective July 1, 2017, all full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include full-time permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

Benefit Amounts

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. There is no HIC for premiums paid and qualified under LODA; however, the employee may receive the credit for premiums paid for other qualified health plans. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

| | Number |
|-------------------------|--------|
| Inactive members: | |
| Vested inactive members | 5 |
| Active members | 79 |
| Total covered employees | 84 |

Contributions

The contribution requirements for active employees is governed by §51.1-1402(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The Component Unit School Board's (nonprofessional) contractually required employer contribution rate for the year ended June 30, 2021 was 0.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the Component Unit School Board (nonprofessional) to the HIC Plan were \$11,593 and \$11,413 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net HIC OPEB Liability

The Component Unit School Board's (nonprofessional) net HIC OPEB liability was measured as of June 30, 2020. The total HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2019, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

Actuarial Assumptions

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation:

Locality - General employees 3.50%-5.35%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

Mortality Rates - Non-Largest Ten Locality Employers - General Employees

Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates to 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Life Mortality Table projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of the OPEB liabilities.

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

Mortality Rates - Non-Largest Ten Locality Employers - General Employees (Continued)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP- 2014 projected to 2020 |
|-------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Retirement Rates | Lowered retirement rates at older ages and extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Long-Term Target Asset Allocation | Arithmetic Long-term Expected Rate of Return | Weighted Average Long-term Expected Rate of Return* |
|--------------------------------------|--------------------------------------------|-------------------------------------------------------|-----------------------------------------------------|
| Public Equity | 34.00% | 4.65% | 1.58% |
| Fixed Income | 15.00% | 0.46% | 0.07% |
| Credit Strategies | 14.00% | 5.38% | 0.75% |
| Real Assets | 14.00% | 5.01% | 0.70% |
| Private Equity | 14.00% | 8.34% | 1.17% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.04% | 0.18% |
| PIP - Private Investment Partnership | 3.00% | 6.49% | 0.19% |
| Total | 100.00% | | 4.64% |
| | | Inflation | 2.50% |
| Expe | cted arithmetic | nominal return* | 7.14% |

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2020, the rate contributed by the entity for the HIC OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

Changes in Net HIC OPEB Liability

| | Increase (Decrease) | | | | |
|------------------------------|---------------------|-------------------|-------------------|-------------------|--|
| | | Total HIC OPEB | Plan Fiduciary | Net HIC OPEB | |

| OPEB Liability | \$ | 93,320 | \$ | 80,976 | \$ | 69,793 |

HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB

For the year ended June 30, 2021, the Component Unit School Board (nonprofessional) recognized HIC Plan OPEB expense of \$30,251. At June 30, 2021, the Component Unit School Board (nonprofessional) reported deferred outflows of resources and deferred inflows of resources related to the Component Unit School Board's (nonprofessional) HIC Plan from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|-----------------------------------------------------------------------------------|--------------------------------|-------------------------------|
| Differences between expected and actual experience \$ | 51,268 | \$ 15,762 |
| Net difference between projected and actual earnings on HIC OPEB plan investments | 943 | - |
| Change in assumptions | 1,786 | - |
| Employer contributions subsequent to the measurement date | 11,593 | <u>-</u> |
| Total | 65,590 | \$ 15,762 |

Note 14-Health Insurance Credit (HIC) Plan-Component Unit School Board (nonprofessional) (OPEB Plan): (Continued)

HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIC Plan OPEB (Continued)

\$11,593 reported as deferred outflows of resources related to the HIC OPEB resulting from the Component Unit School Board's (nonprofessional) contributions subsequent to the measurement date will be recognized as a reduction of the Net HIC OPEB Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in future reporting periods as follows:

| Year Ended June 30 | | |
|--------------------|----|---------|
| 2022 | \$ | 14,458 |
| 2023 | * | 14,460 |
| 2024 | | 12,673 |
| 2025 | | (2,879) |
| 2026 | | (477) |
| Thereafter | | - |

HIC Plan Data

Information about the VRS Political Subdivision HIC Plan is available in the separately issued VRS 2020 Comprehensive Annual Financial Report (Annual Report). A copy of the 2020 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2020-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 15-Aggregate Other Postemployment Benefits Information:

Note 16-Line of Duty Act (LODA) (OPEB Benefits):

The Line of Duty Act (LODA) provides death and healthcare benefits to certain law enforcement and rescue personnel, and their beneficiaries, who were disabled or killed in the line of duty. Benefit provisions and eligibility requirements are established by title 9.1 Chapter 4 of the <u>Code of Virginia</u>. Funding of LODA benefits is provided by employers in one of two ways: (a) participation in the Line of Duty and Health Benefits Trust Fund (LODA Fund), administered by the Virginia Retirement System (VRS) or (b) self-funding by the employer or through an insurance company.

The County has elected to provide LODA benefits through an insurance company. The obligation for the payment of benefits has been effectively transferred from the County to VACORP. VACORP assumes all liability for the County's LODA claims that are approved by VRS. The pool purchases reinsurance to protect the pool from extreme claims costs.

The current-year OPEB expense/expenditure for the insured benefits is defined as the amount of premiums or other payments required for the insured benefits for the reporting period in accordance with the agreement with the insurance company for LODA and a change in liability to the insurer equal to the difference between amounts recognized as OPEB expense and amounts paid by the employer to the insurer. The County's LODA coverage is fully covered or "insured" through VACORP. This is built into the LODA coverage cost presented in the annual renewals. The County's LODA premium for the year ended June 30, 2021 was \$46,232.

Note 17-Capital Assets:

Capital asset activity for the year ended June 30, 2021 was as follows:

Primary Government:

| | Beginning | | | Ending |
|---------------------------------------------|-----------------|----------------|----------------|-----------------|
| | Balance | Increases | Decreases | Balance |
| Governmental Activities: | | | | |
| Capital assets, not being depreciated: | | | | |

Note 18-Capital Leases:

The County has entered into capital leases for the purchase of radio equipment and four fire trucks. These lease agreements qualify as capital leases for accounting purposes and therefore have been recorded at the present value of future minimum lease payments as of the inception date.

Total capital assets acquired through the capital leases are as follows:

| Radio equipment | \$7,232,737 |
|----------------------------------|-------------|
| Fire trucks | 1,800,000 |
| Total capital assets | \$9,032,737 |
| Accumulated depreciation | (384,182) |
| Net book value of capital assets | \$8,648,555 |

Note 18-Capital Leases: (Continued)

Present value of future minimum lease payments:

| Year Ending | Capital |
|------------------------------------------------|------------------|
| June 30, | Lease |
| | |
| 2022 | \$ 501,998 |
| 2023 | 941,758 |
| 2024 | 926,093 |
| 2025 | 910,434 |
| 2026 | 894,772 |
| 2027-2031 | 4,215,441 |
| 2032-2034 | 1,705,543 |
| Total minimum lease payments | \$ 10,096,039 |
| Less: amount representing interest | (1,478,723) |
| Present value of future minimum lease payments | \$ 8,617,316 |

Note 19-Unearned and Deferred/Unavailable Revenue:

Unearned and deferred/unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Under the accrual basis of accounting, assessment for future periods are deferred.

| | \$ | 1,795,406 | \$ 2 | 2,353,515 |

Note 20-Risk Management:

The County and its component unit - School Board are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component unit - School Board participate with other localities in a public entity risk pool for their coverage of general liability and public officials liability with the Virginia Association of Counties group self insurance risk pool and VaCoRP. Each member of each of these risk pools jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit - School Board pay VACO and VaCoRP contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pools, claims and awards are to be paid. In the event of a loss deficit or depletion of all available excess insurance, the pools may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit - School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 21-Commitments and Contingencies:

Federal programs in which the County and its component unit participate were audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Pursuant to the provisions of this regulation all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

The County provides certain shared services to the City of Covington, Virginia. At year end, the County believes approximately \$880,213 is due to the County from this City in accordance with the shared services agreement. The County has refrained from recording a receivable for this amount as it cannot be reasonably estimated how much (if any) of this amount will be received.

The County had no major outstanding contracts at June 30, 2021.

Note 22-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland - Surety:

| Debbie Byer, Clerk of the Circuit Court | \$ 103,000 |
|---------------------------------------------------|------------|
| Teresa Brown, Treasurer | 400,000 |
| Valerie Bruffey, Commissioner of the Revenue | 3,000 |
| Kevin Hall, Sheriff | 30,000 |

| All School Board em | ployees: | blanket bor | nd | Ş | 250, | 000 |
|---------------------|----------|-------------|----|---|------|-----|
|---------------------|----------|-------------|----|---|------|-----|

Note 23-Litigation:

At June 30, 2021, there were no matters of litigation involving the County which would materially affect the County's financial position should any court decisions on pending matters not be favorable.

Note 24-Tax Abatements:

The County entered into an economic incentive tax abatement agreement with Love's Travel Stops & Country Stores (Love's) in June of 2015 in accordance with the *Code of Virginia*, 1950 as amended. Terms of the agreement require the County to remit the aggregate sum of all real estate, personal property, sales and meals taxes collected from Love's to the Industrial Development Authority of Alleghany County (IDA) within three months of the end of each calendar year for a period of ten years or until the taxes remitted reach \$907,488. The IDA will subsequently transfer funds received from the County to Love's. Terms of the agreement require Love's to invest \$8,500,000 in site improvements and employ 31 individuals (working at least 30 hours per week) with a cumulative hourly wage of not less than \$9.00 per hour plus benefits. Taxes remitted under the agreement are prorated if the aforementioned targets are not achieved by Love's. A complete copy of the tax abatement agreement is maintained at the County Offices. For the year ending, June 30, 2021, no amounts were due under the agreement as capital investment thresholds in the agreement have not been achieved.

Note 25-Adoption of Accounting Principle:

The County implemented the financial reporting provisions of Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*, during the fiscal year ended June 30, 2021. This Statement establishes criteria for identifying fiduciary activities of all state and local governments for accounting and financial reporting purpose and how those activities should be reported. The implementation of this Statement resulted in the following restatement:

| | Fu | nd Balance | | | | | | | Ne | et Position | | | | | | |

Note 26-COVID-19 Pandemic Subsequent Event:

The COVID-19 pandemic and its impact on operations continues to evolve. Specific to the County, COVID-19 impacted various parts of its 2021 operations and financial results including, but not limited to, costs for emergency preparedness and shortages of personnel. Federal relief has been received through various programs. Management believes the County is taking appropriate actions to mitigate the negative impact. The extent to which COVID-19 may impact operations in subsequent years remains uncertain, and management is unable to estimate the effects on future results of operations, financial condition, or liquidity for fiscal year 2022.

Note 26-COVID-19 Pandemic Subsequent Event: (Continued)

CARES Act Funding

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed by the federal government to alleviate some of the effects of the sharp economic downturn due to the COVID-19 pandemic, which included direct aid for state and local governments from the federal Coronavirus Relief Fund (CRF).

Each locality received its CRF allocations based on population in two equal payments, with the second and final round of funding being received during fiscal year 2021. The County received total CRF funding of \$2,747,560. In addition, the School Board received CRF funding from the Virginia Department of Education in the amount of \$315,420. As a condition of receiving CRF funds, any funds unexpended as of December 31, 2021 will be returned to the federal government. Unspent CRF funds in the amount of \$328,328 are reported as unearned revenue as of June 30.

ARPA Funding

On March 11, 2021, the American Rescue Plan (ARPA) Act of 2021 was passed by the federal government. A primary component of the ARPA was the establishment of the Coronavirus State and Local Fiscal Recovery Fund (CSLFRF). Local governments are to receive funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered approximately 12 months later.

On May 17, 2021, the County received its share of the first half of the CSLFRF funds. As a condition of receiving CSLFRF funds, any funds unobligated by December 31, 2024, and unexpended by December 31, 2026, will be returned to the federal government. Unspent funds in the amount of \$1,443,191 from the initial allocation are reported as unearned revenue as of June 30.

ESF Funding

The CARES Act also established the Education Stabilization Fund (ESF) and allocated \$30.75 billion to the U.S. Department of Education. The ESF is composed of three primary emergency relief funds: (1) a Governor's Emergency Education Relief (GEER) Fund, (2) an Elementary and Secondary School Emergency Relief (ESSER) Fund, and (3) a Higher Education Emergency Relief (HEER) Fund. The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act) was signed into law on December 27, 2020 and added \$81.9 billion to the ESF. In March 2021, the American Rescue Plan Act (ARP Act), in support of ongoing state and institutional COVID-19 recovery efforts, added more than \$170 billion to the ESF. The School Board is receiving this funding from the Virginia Department of Education on a reimbursement basis.

Note 27-Upcoming Pronouncements:

Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

Note 27-Upcoming Pronouncements: (Continued)

Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, provides guidance for reporting capital assets and the cost of borrowing for a reporting period and simplifies accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

Statement No. 92, *Omnibus 2020*, addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics such as leases, assets related to pension and postemployment benefits, and reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. The effective dates differ by topic, ranging from January 2020 to periods beginning after June 15, 2021.

Statement No. 93, Replacement of Interbank Offered Rates, establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates (IBORs) in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The requirements of this Statement, except for removal of London Interbank Offered Rate (LIBOR) as an appropriate benchmark interest rate and the requirements related to lease modifications, are effective for reporting periods beginning after June 15, 2020. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All requirements related to lease modifications in this Statement are effective for reporting periods beginning after June 15, 2021.

Statement No. 94, *Public-Private and Public-Public Partnerships and Availability of Payment Arrangements*, addresses issues related to public-private and public-public partnership arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code (IRC) Section 457 Deferred Compensation Plans - an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement. No 32, (1) increases consistency and comparability related to reporting of fiduciary component units in certain circumstances; (2) mitigates costs associated with the reporting of certain plans as fiduciary component units in fiduciary fund financial statements; and (3) enhances the relevance, consistency, and comparability of the accounting and financial reporting for Section 457 plans that meet the definition of a pension plan and for benefits provided through those plans. The effective dates differ based on the requirements of the Statement, ranging from June 2020 to reporting periods beginning after June 15, 2021.

COUNTY OF ALLEGHANY, VIRGINIA

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2021

Note 27-Upcoming Pronouncements: (Continued)

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Current year and prior year contributions for County and Component Unit School Board (professional) are from County and School Board records. Current year contributions for Component Unit School Board (nonprofessional) are from School Board records and prior year contributions are from the VRS actuarial valuation performed each year.

Schedule is intended to show information for 10 years. Prior to 2015 the County information reported in the County's report included participants that are not reported in the County's report. Therefore, no additional data is currently available for the County.

County of Alleghany, Virginia Notes to Required Supplementary Information Pension Plans

For the Year Ended June 30, 2021

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) - Non-Hazardous Duty:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Lowered rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |
| | |

All Others (Non 10 Largest) - Hazardous Duty:

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Increased age 50 rates, and lowered rates at older ages |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better fit experience |
| Salary Scale | No change |
| Line of Duty Disability | Decreased rate from 60.00% to 45.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Component Unit School Board - Professional Employees

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

County of Alleghany, Virginia Notes to Required Supplementary Information Group Life Insurance (GLI) Plan For the Year Ended June 30, 2021

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Teachers

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| Retirement Rates | Lowered rates at older ages and changed final retirement from 70 to 75 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | Adjusted rates to better match experience |
| Salary Scale | No change |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Non-Largest Ten Locality Employers - General Employees

| Mortality Rates (pre-retirement, post-retirement healthy, and disabled) | Updated to a more current mortality table - RP-2014 projected to 2020 |
|-------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Retirement Rates | Lowered retirement rates at older ages and extended final retirement age from 70 to 75 |
| Withdrawal Rates | Adjusted termination rates to better fit experience at each age and service year |
| Disability Rates | Lowered disability rates |
| Salary Scale | No change |
| Line of Duty Disability | Increased rate from 14.00% to 15.00% |
| Discount Rate | Decreased rate from 7.00% to 6.75% |

Non-Largest Ten Locality Employers - Hazardous Duty Employees

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To The Board of Supervisors County of Alleghany, Virginia Covington, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Alleghany, Virginia as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the County of Alleghany, Virginia's basic financial statements and have issued our report thereon dated December 13, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Alleghany, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Alleghany, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Alleghany, Virginia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2021-002 to be a material weakness.

Internal Control over Financial Reporting (continued)

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2021-001 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Alleghany, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Alleghany, Virginia's Response to Findings

Robinson, Fainer, Cox Associates

County of Alleghany, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. County of Alleghany, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To The Board of Supervisors County of Alleghany, Virginia Covington, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Alleghany, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Alleghany, Virginia's major federal programs for the year ended June 30, 2021. County of Alleghany, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Alleghany, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Alleghany, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County of Alleghany, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, the County of Alleghany, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the County of Alleghany, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County of Alleghany, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Alleghany, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Note A -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the County of Alleghany, Virginia under programs of the federal government for the year ended June 30, 2021. The information in the Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Alleghany, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Alleghany, Virginia.

Note B -- Summary of Significant Accounting Policies:

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.
- (3) The County did not elect to use 10% de minimis indirect cost rate because they only request direct costs for reimbursement.

Note C -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note D -- Outstanding Balance of Federal Loans

The County has not received any federal funding through loans.

Note E -- Relationship to the Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

| Primary government: | |
|-------------------------------------------------------------------------------|------------------|
| General Fund-Intergovernmental | \$ 15,383,640 |
| Less: Revenue from the Commonwealth | (10,469,248) |
| Less: Payments in Lieu of Taxes | (407,011) |
| Component Unit School Board: | |
| School Operating Fund-Intergovernmental | 26,619,556 |
| Less: Revenue from Local Governments | (11,531,793) |
| Less: Revenue from the Commonwealth | (12,467,490) |
| Governor's School Fund-Intergovernmental | 117,666 |
| Less: Revenue from the Commonwealth | (117,666) |
| Total federal expenditures per the Schedule of Expenditures of Federal Awards | \$ 7,127,654 |

County of Alleghany, Virginia

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2021

Section II - Financial Statement Findings

Finding 2021-001 (Significant Deficiency)

Criteria: An organization should prepare reconciliations to ensure amounts reported in the

financial statements are materially correct.

Condition: The County's Department of Social Services failed to document reconciliations of the

special welfare ledger to the County's books.

Cause of Condition: The Department experienced turnover and new employees are still in the process of

learning their roles and responsibilities.

Effect of Condition: The subsidiary ledger does not agree with the bank statement or related

reconciliation.

Recommendation: The Social Services Department should begin reconciling the Special Welfare Ledger to

the Treasurer's account for same.

Management's

Response: Management concurs with the finding and will begin reconciling activity and balances

on a monthly basis.

Finding 2021-002 (Material Weakness)

Criteria: Identification of adjustments to the financial statements that were not detected by

the entity's internal controls indicates that a material weakness may exist.

Condition: Material adjustments were identified that were necessary for the County's financial

report to be presented in accordance with current reporting standards.

Cause of Condition: During the closing process, the County failed to identify all year end accounting

adjustments necessary for the accounts to be prepared in accordance with current

reporting standards.

Effect of Condition: There is a reasonable possibility that a material misstatement of the entity's financial

statements will not be prevented or detected by the entity's internal controls over

financial reporting.

Recommendation: Overall, the County did a good job of identifying and recording closing entries We

recommend that the County perform an analytical review of balances (current and

prior year) in the future to identify any necessary final adjustments.

Management's

Response: The County's current staff has a good understanding of the County's books and

accounting processes. The County will develop a process to review year end balances

in the future to identify any necessary adjustments.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.

| I IIIUIIIZ ZUZU-UU I | Finding | 2020-001 |
|----------------------|---------|----------|
|----------------------|---------|----------|

Finding Type: Significant Deficiency

Condition: The County's Department of Social Services failed to document reconciliations of the

Department expenditures to their requests for reimbursement of same from the Commonwealth for several months in the 2020 fiscal year. In addition, the

Department did not reconcile the special welfare ledger to the County's books.

Recommendation: The Social Services Department should begin reconciling monthly expenses reported

to the State against actual expenses and should begin reconciling the Special Welfare

Ledger to the Treasurer's account for same.

Current Status: The finding was partially corrected during the year. The Department began preparing

reconciliations of their expenses to the books, but did not reconcile the Special Welfare Ledger to the County's fund and related bank statement for same. The

finding is partially repeated as 2021-001 in the current year.

Corrective Action: Management will begin reconciling balances on a monthly basis.

Finding 2020-002

Finding Type: Material weakness

Condition: The audit identified material adjustments that were necessary for the County's

financial report to be presented in accordance with current reporting standards.

Recommendation: The County should perform an analytical review of balances (current and prior year)

in the future to identify any necessary final adjustments.

Current Status: County Staff is still learning the nuances of governmental financial reporting and

while improvements were noted, material entries were recommended by the auditors to ensure the financial statements were prepared in accordance with financial reporting standards. Accordingly, the finding 2020-002 is recurring in the fiscal year

2021 as 2021-002 as a material weakness.

Corrective Action: County staff will continue to gain an understanding of current reporting standards.
