Independent Auditors' Report

The Honorable Members of The Board of Supervisors County of Greene, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greene, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Greene, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties*, *Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greene, Virginia, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 11, 2013, on our consideration of the County of Greene, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Greene, Virginia's financial statements as a whole. The introductory section, other supplementary information and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the County of Greene, Virginia. The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on

Robinson, farmer, Cas Associates Charlottesville, Virginia

March 11, 2013

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Greene, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2012.

Financial Highlights

Government-wide Financial Statements

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$25,682,074 (net assets).
- Our combined long-term obligations decreased \$3,010,920 during the current fiscal year.

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported expenditures excess of revenues of \$3,679,697 (Exhibit 4) which includes contributions totaling \$9,729,200 to the School Board.

• As of the close of the current fiscal year, the County's funds reported ending fund balances of \$19,633,432, a decrease of \$3,679,697 in comparison with the prior year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

Overview of the Financial Statements (Continued)

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Greene, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Greene, Virginia is financially accountable. Financial information for this component unit is reported separately from the financial information present for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Greene, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories; governmental funds and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and in a separate exhibit following the governmental fund statement of revenues, expenditures and changes in fund balances. The County has three major governmental funds - the General Fund, the Debt Service Fund, and the School Capital Projects Fund.

<u>Fiduciary funds</u> - are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund statement can be found on page 14 of this report.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Overview of the Financial Statements (Continued)

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and a schedule of pension funding progress and other supplementary information including the presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$25,682,074 at the close of the most recent fiscal year.

County of Greene, Virginia's Net Assets

		Governmental Activities					
		2012	2011				
Current and other assets Capital assets	\$	33,091,250 \$ 52,016,732	35,649,324 49,527,741				
Total assets	\$	85,107,982 \$	85,177,065				
Long-term liabilities outstanding Current liabilities	\$	43,814,812 \$ 15,611,096	46,582,648 15,135,003				
Total liabilities	\$_	59,425,908 \$	61,717,651				
Net assets: Invested in capital assets, net of related debt Unrestricted	\$	11,734,104 \$ 13,947,970	11,202,620 12,256,794				
Total net assets	\$	25,682,074 \$	23,459,414				

At the end of the current fiscal year, the County's investment in capital assets net of related debt is \$11,734,104.

The County's net assets increased \$2,222,660 during the current fiscal year.

Government-wide Financial Analysis (Continued)

<u>Governmental Activities</u> - Governmental activities increased the County's net assets by \$2,222,660. Key elements of this increase are as follows:

County of Greene, Virginia's Changes in Net Assets For the Years Ended June 30, 2012 and 2011

		Governmental Activities			
	_	2012		2011	
Revenues:	_

Change in net assets	\$	2,222,660	\$	4,101,528	
Net assets, July 1, 2011	_	23,459,414		19,357,886	
Net assets, June 30, 2012	\$_	25,682,074	\$_	23,459,414	

Government-wide Financial Analysis (Continued)

Operating grants and contributions decreased by \$903,717 during the year, due primarily to a decrease in federal grants. Charges for services decreased \$507,565 due to fewer collections of water and sewer EDU's in 2012. All other revenues increased by a net of \$388,376. The County's contribution to the School Board totaled \$10,918,614 for the year compared to \$10,681,486 in the prior year, an increase of \$237,128.

For the most part, increases in expenditures closely paralleled inflation and growth in the demand for services.

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$19,633,432, a decrease of \$3,679,697 in comparison with the prior year.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were \$777,258 and can be briefly summarized as follows:

- \$501,966 in increases for public safety
- \$19,518 in increases for capital projects
- \$255,774 in other increases and decreases

Budgeted revenues of the general fund increased \$289,068, including increases of \$248,019 for intergovernmental revenues and \$41,049 of other increases.

Capital Asset and Debt Administration

• <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2012 totals \$52,016,732 (net of accumulated depreciation - Note 4). This investment in capital assets includes land, buildings and improvements, machinery and equipment and construction in progress.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term obligations</u> - At the end of the current fiscal year, the County had total long-term obligations outstanding of \$46,755,651. Of this amount \$43,379,673 comprises debt backed by the full faith and credit of the County. The County's total obligations decreased \$3,010,920 during the current fiscal year.

Additional information on the County of Greene, Virginia's long-term debt can be found in Note 5 of this report.

Economic Factors and Next Year's Budgets and Rates

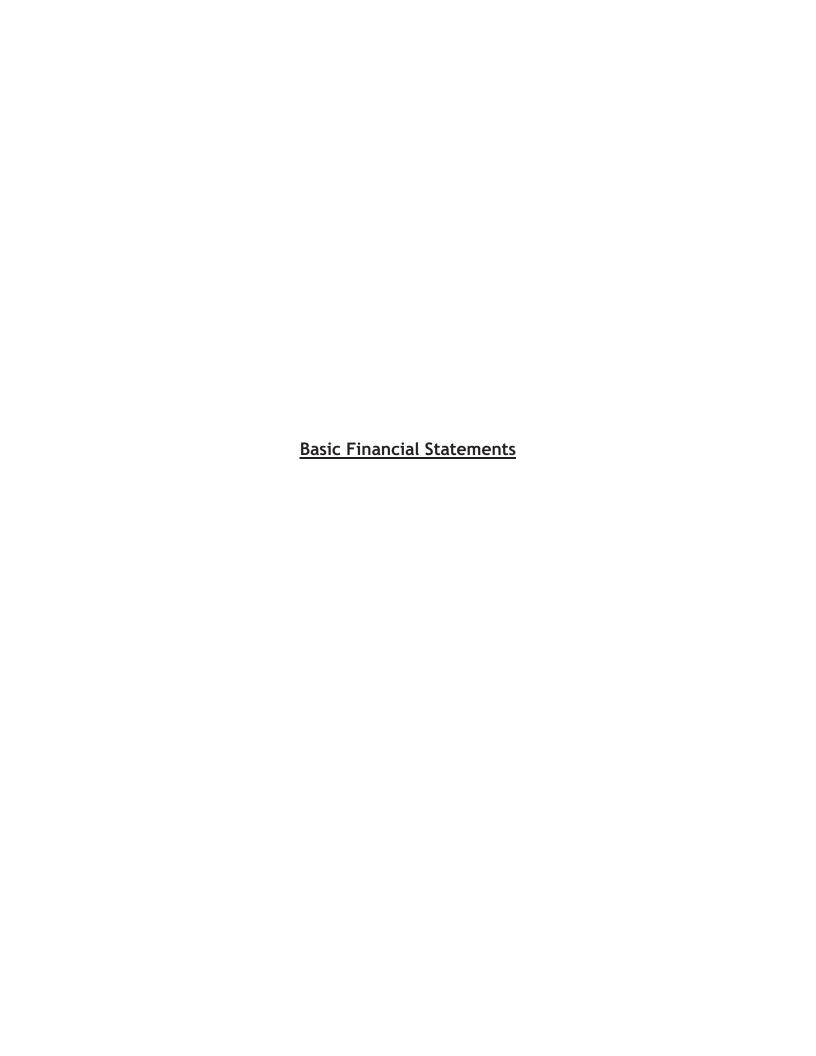

- The unemployment rate for the County is currently 5.5 percent, which is an increase from a rate of 5.0 percent a year ago. This compares favorably to the state's average unemployment rate of 5.7 percent and compares favorably to the national average rate of 8.2 percent.
- Residential growth continues to increase and broaden the demand for locally provided services such as schools, emergency service, social services, inspections, law enforcement, parks and recreation, solid waste, and libraries.
- Departments and agencies were held to level funding related to operational expenditures except in those circumstances where increases in expenditures were unavoidable.

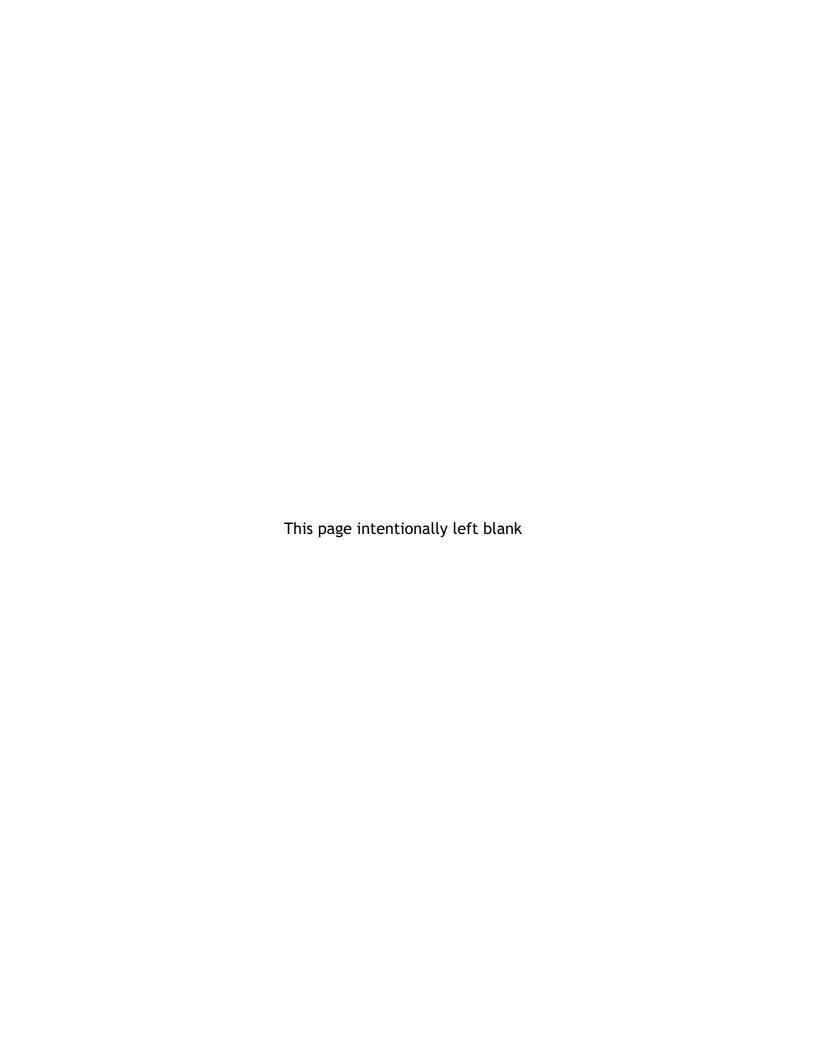

All of these factors were considered in preparing the County's budget for the 2013 fiscal year.

The fiscal year 2013 budget increased from \$51,372,170 to \$52,476,202 or \$1,104,032 (2%).

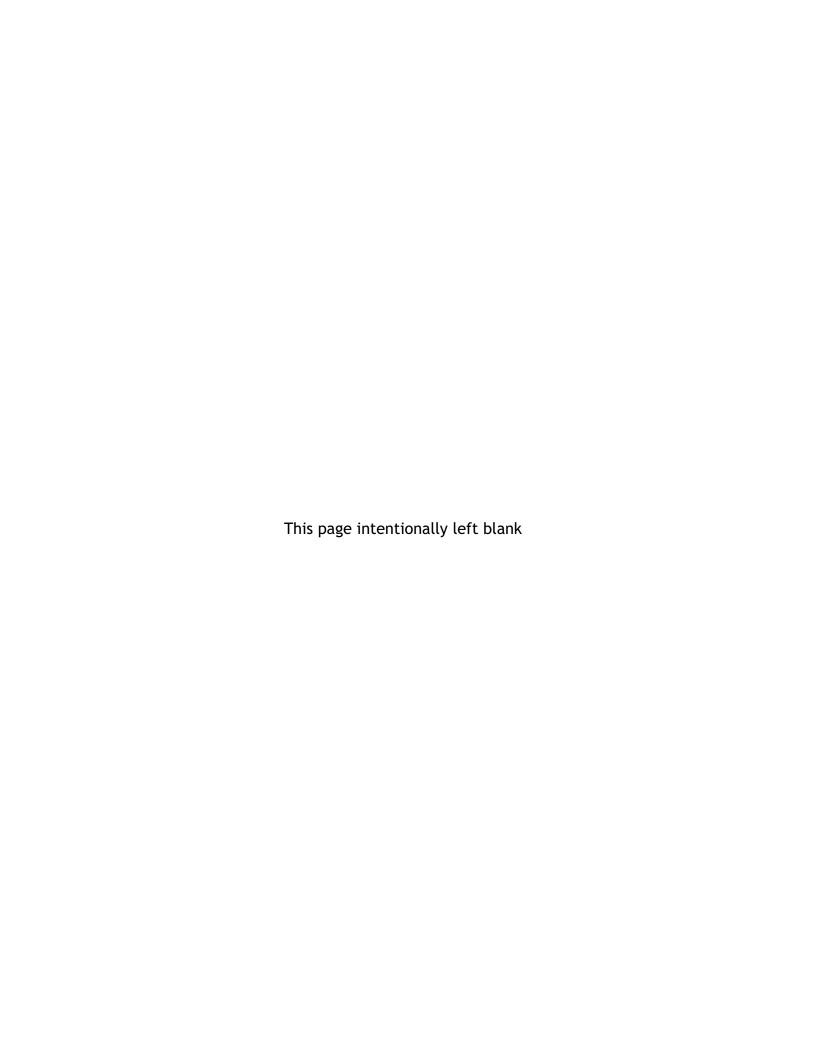

Requests for Information

This financial report is designed to provide a general overview of the County of Greene, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, P.O. Box 358, Stanardsville, Virginia 22973.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities - Governmental Funds
For the Year Ended June 30, 2012

			Primary Government Governmental
			Funds
Amounts reported for governmental activities in the statement of activities are different because:			
Net change in fund balance - total governmental funds		\$	(3,679,697)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. Details supporting this adjustment are as follows:			
Capital outlay	\$	4,188,954	
Depreciation expense	_	(998,275)	3,190,679
Transfer of joint tenancy assets from Primary Government to the Component Unit			(701,688)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Details of this item consist of the change in			
deferred taxes.			558,757
The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. A summary of items supporting this adjustment is as follows:			
Principal retired on general obligation bonds Principal retired on revenue bonds and premiums Principal retired on water and sewer bonds Principal retired on notes payable Principal retired on state literary fund loans Amortization of deferred amount on refunding Increase of landfill closure and postclosure liability Increase of other post-employment benefits liability Assumption of school capital lease by County	\$	209,917 1,010,328 9,097,475 470,448 81,135 700,000 (76,641) (10,433) (3,957) (179,931)	
Issuance of long-term obligations	_	(8,433,552)	2,864,789
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:			
	\$	(33,800)	//a /
Change in accrued interest payable	_	23,620	(10,180)
Change in net assets of governmental activities		\$	2,222,660

Statement of Fiduciary Net Assets June 30, 2012

ASSETS	 Agency Fund	
Cash and cash equivalents	\$ 35,963	
LIABILITIES		
Amounts held for social services clients	\$ 35,963	

Notes to Financial Statements As of June 30, 2012

Note 1—Summary of Significant Accounting Policies:

The County of Greene, Virginia was formed in 1702 and it is governed by an elected five member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include police and volunteer fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Greene, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Financial Statement Presentation

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model governments provide budgetary comparison information in their annual reports, including the requirement to report the government's original budget in addition to the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Greene, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended Component Units:

The County has no blended component units to be included for the fiscal year ended June 30, 2012.

Discretely Presented Component Units:

Greene County School Board

The Greene County School Board operates the elementary and secondary public schools in the County. School Board members are elected by the voters of the County for a term of four years. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools, since the School Board does not have separate taxing powers. The School Board does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2012.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures (Continued)

Discretely Presented Component Units: (Continued)

Greene County Economic Development Authority:

The Greene County Economic Development Authority was formed by the Greene County Board of Supervisors who appoint all Board members of the Authority. The Authority provides a source of financing for industries locating their facilities in the County. The Board of Supervisors cannot impose its will on the Authority, but since there is a potential financial benefit or burden in the relationship, as evidenced by the contributions from the County to the Authority, the Board of Supervisors is financially accountable for the Authority. Accordingly, the Authority is considered a component unit of the County and is included as a discrete presentation in the County's financial report. Financial statements for the Authority can be obtained from their Administrative Offices in Stanardsville, Virginia.

C. Other Related Organizations

Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

A. General Fund

The Fund accounts for and reports all financial resources not accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for services, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

B. School Capital Projects Fund

A fund that accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

C. Debt Service Fund

A fund that accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt services funds should also be used to report financial resources being accumulated for future debt service. Specifically, this fund includes VRA water and sewer bonds outstanding.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

2. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds (Trust and Agency Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the modified accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

3. Component Unit:

The Greene County School Board reports the following funds:

Governmental Funds:

<u>School Operating Fund</u> - This fund is the primary operating fund of the School Board and accounts for all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from charges for services, appropriations from the County of Greene, and state and federal grants. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes.

<u>School Cafeteria Fund</u> - This fund accounts for the operations of the School Board's food service program. Financing is provided primarily by food and beverage sales and state and federal grants. This fund is considered a non-major fund.

E. Budgets and Budgetary Accounting

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund and the Component Unit School Board.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

E. Budgets and Budgetary Accounting (Continued)

- 7. Appropriations lapse on June 30 for all county units.
- 8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

For the fiscal year ended June 30, 2012, a budget was not legally adopted for the Debt Service Fund, the School Capital Projects Fund, and the School Cafeteria Fund and, therefore, expenditures exceed appropriations in these funds for the fiscal year.

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

G. Investments

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments for the government, as well as for its component unit, are reported at fair value.

H. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$156,527 at June 30, 2012 and is comprised solely of property taxes.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable June 5th and December 5th. The County bills and collects its own property taxes.

I. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County and Component Unit - School Board as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Capital Assets (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2012 was immaterial.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	20-40
Vehicles	5
Police cars	3
Office and computer equipment	5
Buses	12

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

J. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

K. Fund Equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the County strives to maintain an unassigned fund balance to be used for unanticipated emergencies of approximately 20% of the actual GAAP basis expenditures and other financing sources and uses.

L. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current services costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension costs as it accrues.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Note 2—Cash and Cash Equivalents:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County and its Component Unit to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County does not have a policy regarding credit risk of debt securities. The County's rated debt investments as of June 30, 2012 were rated by <u>Standard & Poor's</u> and the ratings are presented below using the <u>Standard & Poor's</u> rating scale.

County's	Rate I	Debt l	'nvestments'	۷a	lues
----------	--------	--------	--------------	----	------

	Fair Quality Ratings
Rated Debt Investments	 AAA
State Non-Arbitrage Pool (SNAP)	\$ 599,267
Total	\$ 599,267

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 2—Cash and Cash Equivalents: (Continued)

Interest Rate Risk

The County does not have a policy regarding interest rate risk.

Investment Type	<u>_</u>	air Value	Less Than 1 Year
State Non-Arbitrage Pool (SNAP)	\$	599,267 \$	599,267
Total	\$	599,267 \$	599,267

External Investment Pools

The fair value of the positions in the State Non-Arbitrage Pool (SNAP) is the same as the value of the pool shares. The SNAP is an open-end management investment company registered with the Securities and Exchange Commission (SEC).

Note 3—Due From Other Governmental Units:

At June 30, 2012 the County has receivables from other governments as follows:

	_	Primary Government	 Component Unit
Commonwealth of Virginia: Local and state sales taxes	\$	279,437	\$ 487,731
Communication tax Public assistance		85,877 35,260	-

Note 6—Commitments and Contingencies:

Federal programs in which the County and its component unit participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the provisions of this circular, all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, future disallowances of current grant program expenditures, if any, would be immaterial.

Note 7—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries commercial insurance for all of these risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 8-Litigation:

At June 30, 2012, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

Note 9-Surety Bonds:

		Amount
Fidelity and Deposit Company of Maryland - Surety	_

Note 10-Defined Benefit Pension Plan:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of
 service credit. They may retire with a reduced benefit early at age 55 with at least 5 years of service
 credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 10—Defined Benefit Pension Plan: (Continued)

A. Plan Description

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School Board's non-professional employee contribution rates for the fiscal year ended 2012 were 8.24% and 7.51% of annual covered payroll, respectively.

The School Board's contributions for professional employees were \$957,961, \$586,770 and \$1,713,408 to the teacher cost-sharing pool for the fiscal years ended June 30, 2012, 2011 and 2010, respectively. The contribution rate was 8.81% from July 2009 through March 2010, zero (0.00%) for April through June 2010, 3.93% in 2011 and 6.33% in 2012.

C. Annual Pension Cost

For fiscal year 2012, the County's annual pension cost of \$379,987 was equal to the County's required and actual contributions.

Three-Year Trend Information for County - Primary Government

		Annual	Percentage		Net
Fiscal Year		Pension	of APC		Pension
Ending (1)		Cost (APC)	Contributed	_	Obligation
June 30, 2010	Ś	384,107	100%	\$	_
June 30, 2011	*	365,916	100%	•	-
June 30, 2012		379,987	100%		-

(1) Employer contribution only

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 10—Defined Benefit Pension Plan: (Continued)

C. Annual Pension Cost (Continued)

For fiscal year 2012, the County and School Board's annual pension cost for the School Board's non-professional employees was \$126,647, which was equal to the School Board's required and actual contributions.

Three-Year Trend Information for School Board (Non-professional)

	Annual	Percentage	Net
Fiscal Year	Pension	of APC	Pension
Ending (1)	 Cost (APC)	Contributed	 Obligation
June 30, 2010	\$ 130,078	100%	\$ -
June 30, 2011	126,982	100%	-
June 30, 2012	126,647	100%	-

(1) Employer contribution only

The FY2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County and School Board's unfunded actuarial accrued liabilities are being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2009 was 20 years.

D. Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation date, the County's plan was 85.02% funded. The actuarial accrued liability for benefits was \$14,454,082, and the actuarial value of assets was \$12,288,812, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,165,270. The covered payroll (annual payroll of active employees covered by the plan) was \$4,360,644, and the ratio of the UAAL to the covered payroll was 49.65%.

As of June 30, 2011, the most recent actuarial valuation date, the School Board Non-professional's plan was 83.08% funded. The actuarial accrued liability for benefits was \$6,984,796, and the actuarial value of assets was \$5,803,049, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,181,747. The covered payroll (annual payroll of active employees covered by the plan) was \$1,683,034, and ratio of the UAAL to the covered payroll was 70.22%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 11—Interfund Balances and Transfers:

Interfund transfers for the year ended June 30, 2012 consisted of the following:

Fund		Transfers In	 Transfers Out
County: General fund Debt Service fund	\$	154,334 -	\$ - 154,334
Total County	\$	154,334	\$ 154,334
Component Unit School Board: School Operating Fund School Cafeteria Fund	\$	- 585,425	\$ 585,425 -
Total Component Unit School Board	\$	585,425	\$ 585,425

Transfers are used: to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 12-Deferred/Unearned Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$11,580,646 is comprised of the following:

A. <u>Deferred Property Tax Revenue</u>

Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$10,770,094 at June 30, 2012.

B. Prepaid taxes

Property taxes due subsequent to June 30, 2012 but paid in advance by the taxpayers totaled \$810,552 as of June 30, 2012.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 13—Due to/From Primary Government/Component Units:

Fund		Receivable	Payable
Primary Government - General Fund Component Unit - School Board	\$	- \$ 1,470,431	1,470,431 -
Total	\$_	1,470,431 \$	1,470,431

The purpose of the obligation between the County and School Board is to report the balance of local appropriations unspent at year-end due back to the respective funds.

Note 14—Landfill Closure and Postclosure Care Costs:

The County operates a solid waste landfill in such a manner as to comply with laws and regulations administered by the United States Environmental Protection Agency and Virginia Department of Waste Management. The \$445,149 reported as landfill closure and post closure liability at June 30, 2012, represents \$405,149 for closure and post closure care liability and \$40,000 for underground tank coverage. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County will also demonstrate financial assurance of an additional one million dollars as a result of the statistically significant exceedance of groundwater Protection Standards. The County intends to fund future costs from funds accumulated for this purpose in the General Fund.

The County has demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 15—Other Postemployment Benefits Program-Health Insurance:

County:

Background

Beginning in fiscal year 2009, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other postemployment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to postemployment health-care and non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the County accrue the cost of the retiree health subsidy and other postemployment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of postemployment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

County: (Continued)

A. Plan Description

In addition to the pension benefits described in Note 10, the County provides postretirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the County with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and have 15 years of service with the County, may elect to remain on the County's insurance plan, at their own cost, until age 65 when they become eligible for Medicare, at which time benefits cease. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

B. Funding Policy

Eligible retirees from the County may elect to remain on the County's health and dental insurance plans, at their expense, until they reach age 65 or become eligible for Medicare. Retirees' spouses may also remain on the County Plan at the retiree's expense.

C. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding, that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year, the County's amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$ 6,000
Interest on net OPEB obligation	719
Adjustment to annual required contribution	 (2,262)
Annual OPEB cost (expense)	\$ 4,457
Contributions made	 (500)
Increase in net OPEB obligation	\$ 3,957
Net OPEB obligation - beginning of year	 19,190
Net OPEB obligation - end of year	\$ 23,147

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

For 2012, the County's expected cash payment of \$500 was \$3,957 less than the OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years are as follows:

Fiscal	Annual	of Annual	Net
Year	OPEB	OPEB Cost	OPEB
Ended	 Cost	Contributed	Obligation
June 30, 2010	\$ 6,395	0% \$	12,795
June 30, 2011	6,395	0%	19,190
June 30, 2012	4,457	11.22%	23,147

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011 is as follows:

Actuarial accrued liability (AAL)	\$ 42,500
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	42,500
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	4,425,800
UAAL as a percentage of covered payroll	0.96%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

County: (Continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2011 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5.50 percent after 5 years. Both rates included a 3.00 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five year-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was 30 years.

F. Cost Method

The projected unit credit method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have nor normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

School Board:

A. Plan Description

In addition to the pension benefits described in Note 10, the School Board provides postretirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the School Board with full VRS benefits (i.e. 50 years of age and 30 years of continuous service) and have 15 years of service with the School Board, may elect to remain on the School Board's insurance plan, at their own cost, until age 65 when they become eligible for Medicare, at which time benefits cease. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

B. Funding Policy

Eligible retirees from the School Board may elect to remain on the School Board's health insurance plan, at their expense, indefinitely. Retirees' spouses and other dependents may also remain on the plan at the retiree's expense.

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table show the components of the annual OPEB cost for the year, the School Board's amount actually contributed to the plan, and changes in the School Board's net OPEB obligation:

Annual required contribution	\$ 234,500
Interest on net OPEB obligation	17,934
Adjustment to annual required contribution	(25,928)
Annual OPEB cost (expense)	\$ 226,506
Contributions made	(445,485)
Increase in net OPEB obligation	\$ (218,979)
Net OPEB obligation - beginning of year	 670,430
Net OPEB obligation - end of year	\$ 451,451

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

School Board: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

For 2012, the School Board's expected cash payment of \$445,485 was \$226,506 more than the OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years are as follows:

Fiscal Year Ended	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$ 223,415	0% \$	447,015
June 30, 2011	223,415	0%	670,430
June 30, 2012	226,506	196.68%	451,451

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011 is as follows:

Actuarial accrued liability (AAL)	\$ 2,225,900
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	2,225,900
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	17,014,800
UAAL as a percentage of covered payroll	13.08%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and then plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 15—Other Postemployment Benefits Program-Health Insurance: (Continued)

School Board: (Continued)

E. Actuarial Methods and Assumptions (Continued)

In the June 30, 2011 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5.5 percent after 5 years. Both rates included 3.0 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was 30 years.

F. Cost Method

The projected unit credit method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

G. Interest Assumptions

	Unfunded
Discount rate	4.00%
Health cost trend assumption	6.30% graded to 4.70% over 70 years
Payroll growth	None assumed

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 16—Other Postemployment Benefits Program (OPEB) Health Insurance Credit Program:

County:

Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Localities may elect to provide an additional health insurance credit of \$1 per month for each full year of the retired members' creditable service, not to exceed a maximum monthly credit of \$30. The enhanced credit is available for constitutional officers and their employees, local social services employees, and general registrars and their employees. Whereas the \$1.50 health credit cost is borne by the Commonwealth, the costs of such additional health insurance credit shall be borne by the locality.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 10.

Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the <u>Code of Virginia</u> and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2012 was .12% of annual covered payroll.

Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 16—Other Postemployment Benefits Program (OPEB) Health Insurance Credit Program: (Continued)

County: (Continued)

Annual OPEB Cost and Net OPEB Obligation (Continued)

For 2012, the County's contribution of \$5,534 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 were as follows:

		Annual	Percentage	Net
		OPEB	of OPEB	OPEB
Fiscal Year Ending	<u>.</u>	Cost	Contributed	Obligation
		_		
June 30, 2012	\$	5.534	100%	-

Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 90,274
Actuarial value of plan assets	71,311
Unfunded actuarial accrued liability	18,964
Funded ratio (actuarial value of plan assets/AAL)	78.99%
Covered payroll (active plan members)	1,813,647
UAAL as a percentage of covered payroll	1.05%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 16—Other Postemployment Benefits Program (OPEB) Health Insurance Credit Program: (Continued)

County: (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2011 was 30 years.

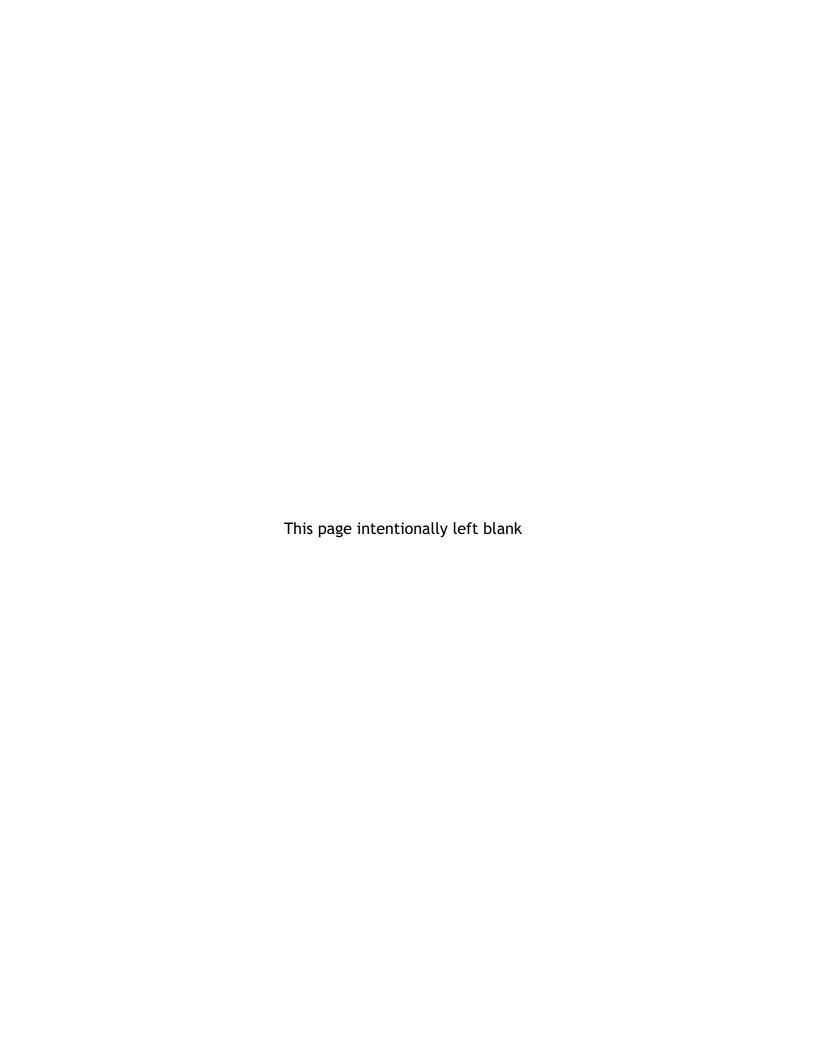

School Board:

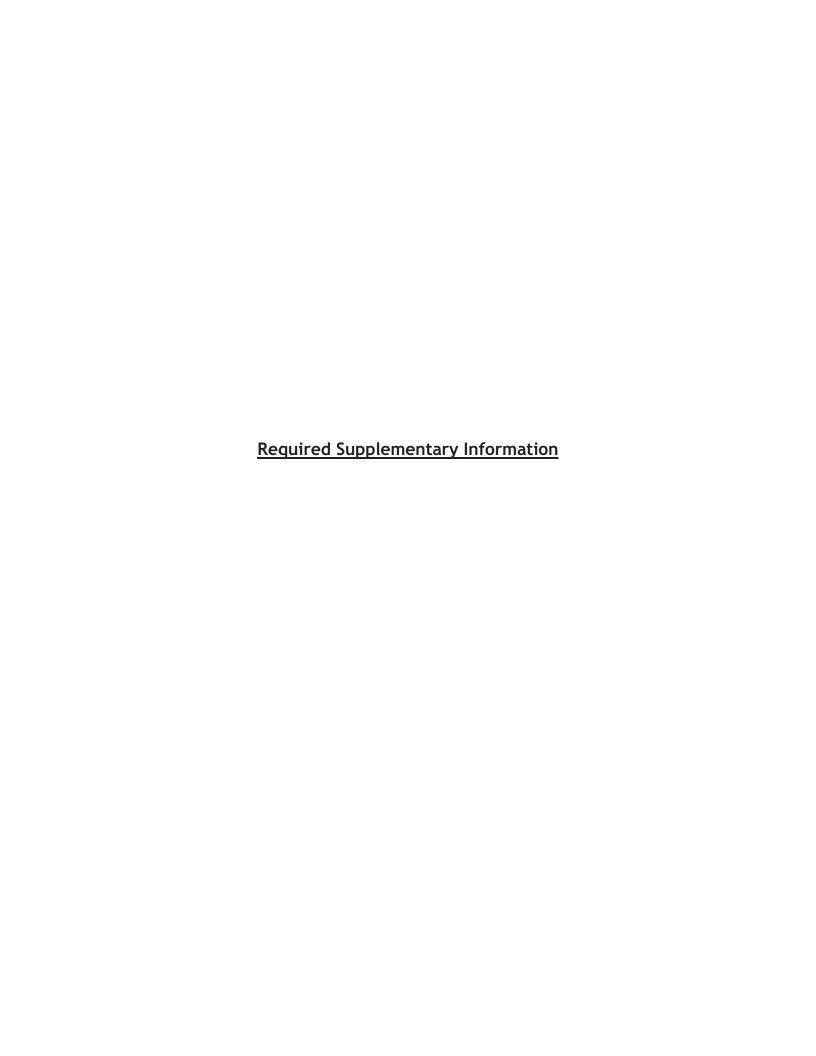

<u>Professional Employees - Discretely Presented Component Unit School Board</u>

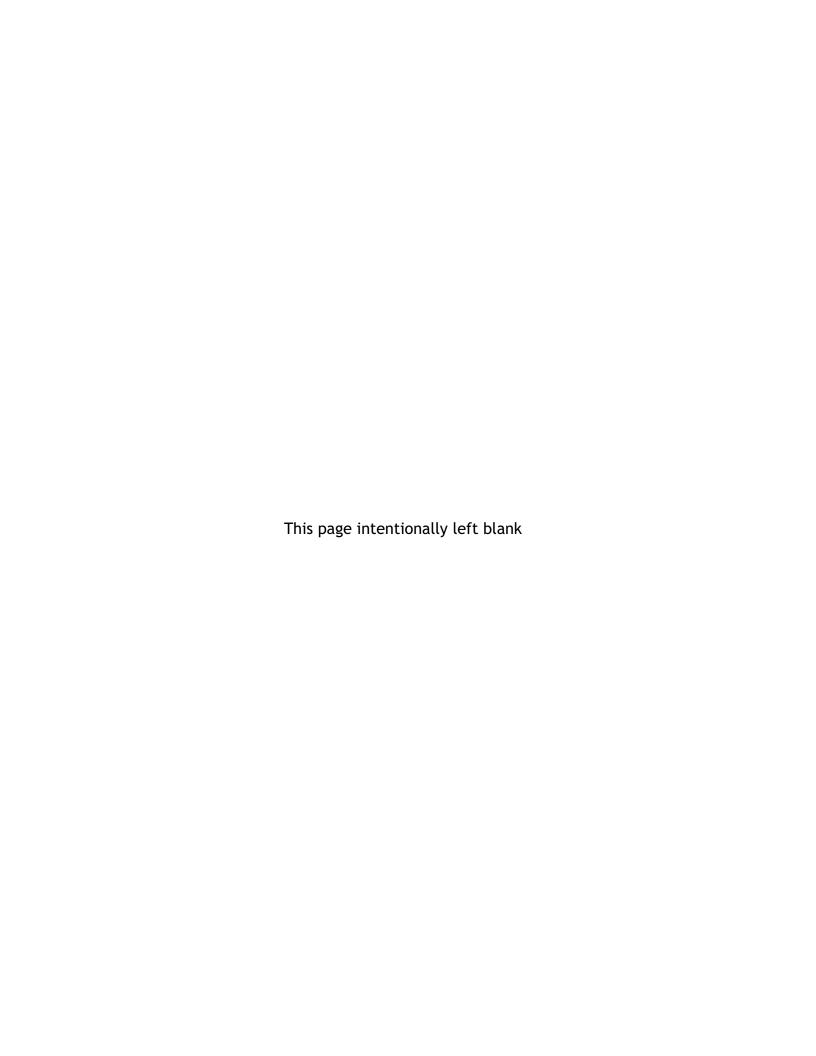

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2012 was \$90,802 and equaled the required contribution for the year.

Reconciliation of Schedule of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities - Discretely Presented Component Unit - School Board For the Year Ended June 30, 2012

		Component Unit School Board
Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds		\$ 67,415
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period computed as follows:		
Capital additions Superior Sup	822,622 (634,336)	188,286
The issuance of capital leases provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. A summary of items supporting this adjustment is as follows:		
Principal retired on capital lease obligations Issuance of long-term obligations Capital lease assumed by County Principal retired on early retirement obligations	66,629 (768,605) 179,931 38,994	(483,051)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount reflects the changes in accrued leave, other postemployment benefits, and accrued interest payable.		
Change in compensated absences Change in other postemployment benefits Change in accrued interest payable	72,707 218,979 (5,813)	285,873
Transfer of joint tenancy assets from Primary Government to the Component Unit		701,688
Change in net assets of governmental activities		\$ 760,211

A PROFESSIONAL LIMITED LIABILITY COMPANY

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of The Board of Supervisors County of Greene, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Greene, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Greene, Virginia's basic financial statements and have issued our report thereon dated March 11, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

Management of County of Greene, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Greene, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Greene, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Greene, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Greene, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Greene, Virginia, in a separate letter dated March 11, 2013.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To the Honorable Members of The Board of Supervisors County of Greene, Virginia

Compliance

We have audited County of Greene, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Greene, Virginia's major federal programs for the year ended June 30, 2012. The County of Greene, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Greene, Virginia's management. Our responsibility is to express an opinion on County of Greene, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Greene, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Greene, Virginia's compliance with those requirements.

In our opinion, County of Greene, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the County of Greene, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered County of Greene, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Greene, Virginia's internal control over compliance.

<u>Internal Control Over Compliance: (Continued)</u>

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2012

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Greene, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Becasuse the schedule presents only a selected portion of the operations of the County of Greene, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Greene, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State*, *Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

, ,	
General Fund \$	1,228,483
Less Payment in lieu of taxes	(40,295)
Total primary government \$	1,188,188
Component Unit School Board:	
School Operating Fund \$	2,513,689
Less BAB subsidy	(131,157)
Total component unit school board \$	2,382,532
Total federal expenditures per basic financial statements \$	3,570,720
Total federal expenditures per the Schedule of Expenditures	
of Federal Awards \$	3,570,720

Schedule of Findings and Questioned Costs Year Ended June 30, 2012

Section I - Summary of Auditor's Results
