Notes to the Financial Statements

Year Ended June 30, 2021

#### Organization, Description of the Entity and Its Activities

The Economic Development Authority of the Town of Clarksville, Virginia, A Component Unit of the Town of Clarksville, Virginia, (the "Authority") was created by a resolution of the Town Council of Clarksville, Virginia (the "Town") dated June 4, 1974 in accordance with Chapter 33, Title 15.1, of the Code of Virginia of 1950, as amended (the "Act"). The purpose of the Authority shall be to promote economic and industrial development in the greater Clarksville area.

The Authority is a separate and distinct entity from the Town of Clarksville, Virginia and is, in accordance with the Act, a political subdivision of the Commonwealth of Virginia.

A seven-member Board appointed by the Town Council of the Town of Clarksville, Virginia governs the Authority. The directors are to serve staggered terms of four years each. Currently, there are seven members appointed to the Board.

In addition, the Authority is authorized to issue revenue bonds for the purpose of obtaining and constructing facilities. The Authority may retain liability under the bonds or it may be assumed by the enterprise for which facilities are constructed. Collection of revenues pledged to liquidate the bonds may be assigned to a trustee. The revenue bonds are not deemed to constitute a debt or pledge of the faith and credit of the Commonwealth of Virginia or any municipality thereof. The bonds are payable solely from revenues generated from the lease of the facilities constructed and may be secured by a deed of trust on those facilities.

The Authority is a component unit of the financial reporting entity of the Town of Clarksville, Virginia. The Town has agreed to provide funding as needed to meet operating shortfalls.

#### Significant Accounting Policies

#### Financial Statement Presentation

The accompanying financial statements conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB).

The Authority applies all GASB pronouncements as well as the Financial Accounting Standards Board (FASB) Statements and Interpretations, APB Opinions and Accounts Research Bulletins issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements.

#### Net Investment in Direct Financial Leases

The Authority may acquire and improve properties and retain title to them. Where bargain purchase options or other lease provisions do not reasonably assure transfer of title at the completion of a lease to a tenant, the Authority accounts for activities in its role as lessor as either capital leases or operating leases. The Authority does not have any investment in direct financing leases.

#### Basis of Accounting

The Authority's accounting system is organized and operated on a fund basis. A fund records cash and other financial resources, together with all related liabilities, obligations, reserves, and residual equity, which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Proprietary Funds account for activities similar to those found in the private sector. The measurement focus is upon determination of net income. The Authority utilizes one type of Proprietary Fund with that being an Enterprise Fund.

Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the Authority is that the cost of providing services to the general public be financed or recovered through user charges. In the Authority's operation, costs are represented by interest expense and financing cost, while user charges consist of interest income earned on receivables.

The Authority utilizes the accrual basis of accounting under which revenues are recorded in the period earned and expenses are recorded when the related liabilities are incurred.

The Authority may realize its assets and liquidate its liabilities in operating cycles, which range from very short to very long periods. The accompanying financial statements are presented in a nonclassified format because working capital concepts are not indicative of its operating cycle.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## Cash Equivalents

*Deposits*. All cash of the Authority is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et seq. of the Code of Virginia or covered by Federal Depository Insurance.

<u>2021</u> <u>2020</u>

In planning and performing our audit of the financial statements, we considered the Economic Development Authority of the Town of Clarksville, Virginia, a Component Unit of the Town of Clarksville, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Economic Development Authority of the Town of Clarksville, Virginia, a Component Unit of the Town of Clarksville, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the Economic Development Authority of the Town of Clarksville, Virginia, a Component Unit of the Town of Clarksville, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
