This section of the annual financial report of the Virginia Public School Authority (the "Authority") presents an analysis of the Authority's financial performance during the fiscal year that ended on June 30, 2020. This information should be considered in conjunction with the information contained in the financial statements, which follow this section.

#### **Authority Activities and Highlights**

The Virginia Public School Authority, created by Chapter 11, Title 22.1, *Code of Virginia*, 1950, as amended, provides financing to localities under its pooled bond program. Under the program, the Authority issues its bonds and uses the proceeds to purchase a "pool" of general obligation bonds from localities (the "Local Issuers"). Each Local Issuer uses the proceeds for the purpose of financing capital projects for public schools.

The Authority's 1997 Resolution, adopted on October 23, 1997, serves as the primary instrument under which the Authority issues bonds for its pooled bond program. The 1997 Resolution bonds are secured first by payments from Local Issuers on their local school bonds; second, from amounts obtained under the State Aid Intercept Provision under which the Authority can intercept state appropriations to the locality; and third, from a sum sufficient appropriation. The sum sufficient appropriation is first from available Literary Fund monies and then from the Commonwealth's General Fund. During the fiscal year, the Authority issued a total of \$199,640,000 in bonds under the pooled bond program.

Also under its pooled bond program, the Authority has issued school tax credit bonds – Qualified School Construction Bonds ("QSCBs") and Qualified Zone Academy Bonds ("QZABs") – under a Master Indenture of Trust dated as of October 1, 2009. Qualified School Construction Bonds are tax credit bonds established under the American Recovery and Reinvestment Act of 2009 ("ARRA") and Qualified Zone Academy Bonds are tax credit bonds established in the Internal Revenue Code of 1986. Both QSCBs and QZABs provide the bondholder a federal tax credit in lieu of interest. These bonds are secured by payments from Local Issuers on their general obligation local school bonds, then from amounts obtained through the State Aid Intercept Provision, and then from any amounts received by the Authority pursuant to any current Appropriation Act Provision. It should be noted that the Authority can no longer issue QSCBs or QZABs since the Tax Cuts and Jobs Act of 2017 ("TCJA") repealed the ability to issue these types of bonds. The QSCBs and QZABs currently held by the Authority were issued under its 2009 Master Indenture of Trust prior to the TCJA.

In addition to its pooled bond program, the Authority also issues special obligation bonds under its stand-alone program and its technology and security program. Bonds issued under the stand-alone program are secured by the local school bonds purchased from one or more specific localities and by the State Aid Intercept Provision. The Authority acts as a conduit issuer under the stand-alone program. Under the School Technology and Security Notes Program, the Authority issues obligations to finance technology equipment purchases and fund a grant program for the purchase of security equipment for local public school systems within the Commonwealth. These obligations are payable from or otherwise secured by, appropriations by the General Assembly from the Literary Fund and now benefit from a sum sufficient appropriation from the Commonwealth's General Fund. The Authority issued \$60,265,000 under the school technology and security note program. The Authority also issued \$171,080,000 under the stand-alone program during fiscal year 2020.

#### **Overview of the Financial Statements**

This discussion and analysis is an introduction to the Authority's basic financial statements, which are comprised of two components: 1) fund financial statements, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements. The Authority is not required to present government-wide financial statements since all of its activity is reported in an enterprise fund, which would not change in measurement focus (economic resources) or basis of accounting (accrual) for government-wide statements.

The financial statements of the Authority offer short- and long-term financial information about its activities. The Statement of Net Position provides information about the nature and amounts of the Authority's cash, investments, and receivables (assets), deferred outflows of resources, and its obligations to creditors (liabilities). All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Fund Net Position. This statement measures whether the Authority successfully recovered all its costs through investment earnings, bond proceeds, appropriations from the Commonwealth, and the collection of receivables. The Statement of Cash Flows provides information on the Authority's cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financial activities.

#### **Financial Analysis of the Authority**

The Authority provides a vehicle for financing capital projects for primary and secondary public schools in the Commonwealth's counties, cities and towns. On local school bonds held by the Authority that were issued prior to March 26, 2009, localities pay interest 10 basis points (0.10%) above the rates paid by the Authority on corresponding maturities of its bonds. As a result of a policy change made by the Authority on March 26, 2009, local school bonds held by the Authority issued subsequent to March 26, 2009 pay interest 5 basis points (0.05%) above the rates paid by the Authority on corresponding maturities of its bonds. This revenue is deposited to the Authority's General Fund and used to pay the operating costs attributable to its financing programs, including costs of issuance and administration, such as rebate compliance expenses. The Department of the Treasury provides staff support for the Authority. The Authority owns no capital assets.

### Condensed Statement of Net Position (in millions)

	Enterprise Fund						
	2020		2020			2	2019
Current assets	\$	28		\$	27		
Noncurrent assets		3,835			3,789		
Total assets		3,863			3,816		
Total deferred outflows		84			93		
Current liabilities		505			495		
Noncurrent liabilities		3,413			3,406		
Total liabilities		3,918			3,901		
Net position:							
Restricted for debt service		1			-		
Unrestricted		28			8		
Total net position (deficit)	\$	29		\$	8		

Total assets increased during the year by \$47 million, or 1.2 percent. This is primarily due to a \$25 million increase due to principal payments received on Qualified School Construction Bonds (to be held for future payment on the Authority's bonds), an \$11 million increase in the fair value of long-term investments, and receipt of proceeds for new Educational Technology Notes of \$68 million. These receipts were offset by current year payments to localities from Educational Technology Notes' new and existing proceeds of \$57 million. Total liabilities increased by \$17 million, or 0.4 percent, during the same period as a result of an increase in net outstanding bonds and notes payable of \$30 million and an increase in amounts due to localities of \$11 million, offset by a decrease in outstanding premium on bonds sold of \$24 million. Additionally, the deferred outflow of resources decreased by \$9 million due to current year refunding activity and current year amortization of amounts deferred in prior years. Accordingly, an increase of \$21 million is reflected in net position.

#### **Debt Administration**

As a financing entity, the whole business of the Authority is debt administration. The Authority issues bonds, pursuant to its pooled bond programs, to finance capital projects approved by the local governing bodies of counties, cities, and towns of the Commonwealth of Virginia. Such bonds are secured by general obligation bonds of the participating local issuers, which provide payment of principal and interest when due. Obligations issued pursuant to the school technology and security notes programs, in conjunction with the Board of Education, are paid from, and secured by, appropriations made from the Literary Fund. The following table summarizes bond issuance activity during the year under each program:

### Summary of Authority Bond Obligations (in millions)

	tstanding 6/30/19	ssued ng Year	etired ng Year	standing at /30/20
Pooled Bond Programs <sup>1</sup>	\$ 2,682	\$ 200	\$ (232)	\$ 2,650

Notes Programs	190	60	(63)	187
Special Obligation Bonds	689	 171	 (106)	 754
Total	\$ 3,561	\$ 431	\$ (401)	\$ 3,591

<sup>&</sup>lt;sup>1</sup> Includes 1997 Resolution and School Tax Credit bonds.

The Authority obtains bond ratings from Moody's Investors Service (Moody's), S&P Global Ratings (S&P) and Fitch Ratings, Inc. (Fitch). The table below summarizes the ratings on outstanding Authority bonds.

#### **Virginia Public School Authority Bond Ratings**

	Moody's	S&P	Fitch
Pooled Bond Programs <sup>1</sup>	- Aa1	AA+	AA+
School Technology and Security Notes	Aa1	AA+	AA+

<sup>&</sup>lt;sup>1</sup> 1997 Resolution Bonds

Since the Authority's bond programs are either backed by state appropriations (School Technology and Security Notes Program) or carry the credit support of the State Aid Intercept Provision (Pooled Bond Program), the bond ratings are a direct reflection of the Commonwealth's triple-A rating from each of the three rating agencies.

#### **Future Impact to Financial Position**

On October 15, 2020, the Authority issued \$106,510,000 of Special Obligation School Financing Bonds, Prince William County Series 2020. The Bonds were used to purchase general obligation school bonds of the County which were issued to finance the costs of various school capital improvement projects.

On November 10, 2020, the Authority issued \$142,195,000 of School Financing and Refunding Bonds (1997 Resolution), Series 2020B, and \$320,840,000 of School Financing Refunding Bonds (1997 Resolution), Series 2020C (Federally Taxable). The 2020B Bonds will be used to purchase certain general obligation local school bonds to finance capital projects for schools and to refund to refund certain previously issued Authority Bonds. The 2020C Bonds will be used to refund certain maturities of previously issued Authority Bonds.

Changes in fair value of investments recognized as a component of interest income	:	11,403,120

The accompanying notes to the financial statements are an integral part of this statement.

AS OF JUNE 30, 2020

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

The Virginia Public School Authority (the "Authority" or "VPSA") was created by Chapter 11, Title 22.1, *Code of Virginia*, 1950, as amended (the "Enabling Act"). The Authority provides financing to localities through the sale of its bonds. With the proceeds of its bonds, the Authority purchases a predetermined number of general obligation bonds issued by localities. The Enabling Act authorizes the Authority to purchase local school bonds issued by counties, cities, and towns under the provisions of Section 15.2-2600, et seq., *Code of Virginia* (the "Public Finance Act of 1991"). The Enabling Act further authorizes the Authority to issue bonds which are payable from the funds of the Authority including:

- 1) principal and interest received on local school bonds held by the Authority;
- 2) proceeds from the sale of such local school bonds;
- 3) any moneys transferred from the Literary Fund or funds appropriated from the General Assembly; and
- 4) a reserve fund(s) created from bond proceeds pledged to secure designated bonds.

Currently, the Authority has pooled bonds outstanding under its 1997 Resolution. Bonds issued under the 1997 Resolution are secured by local school bonds purchased, the State Aid Intercept Provision, and a "sum sufficient appropriation," first from available Literary Fund monies and then from the Commonwealth's General Fund.

The Authority also has Qualified School Construction Bonds and Qualified Zone Academy Bonds outstanding, which also fall under the pooled bond program. These bonds are taxable, but they expect to receive a 100% interest rate subsidy from the federal government. They are secured by general obligation local school bonds in a pool pledged to their security. As a result of the Federal Sequestration, the actual December 15, 2019 and June 15, 2020 payments were reduced by 5.9%. Therefore, the localities are not receiving the full benefit of the tax credit.

In addition to its pooled bond program, the Authority also issues special obligation bonds under its stand-alone program. Bonds issued under the stand-alone program are secured by the local school bonds purchased from one or more specific localities and by the State Aid Intercept Provision. The Authority acts as a conduit issuer under the stand-alone program.

As directed by the General Assembly, the Authority has also issued obligations to finance technology and security equipment purchases for local public school systems within the Commonwealth. These obligations are payable from, or otherwise secured by, appropriations by the General Assembly from the Literary Fund and the Commonwealth's General Fund.

A separate report is prepared for the Commonwealth of Virginia which includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The Authority is a component unit of the

Commonwealth of Virginia and is included in the basic financial statements of the Commonwealth.

The accounting and reporting policies of the Authority conform to generally accepted accounting principles (GAAP) applicable to governmental units as prescribed by the Governmental Accounting Standards Board (GASB), the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Authority's significant policies.

#### B. Basis of Accounting

The accompanying financial statements are reported using the economic resources measurement focus and the accrual basis of accounting under which revenues are recognized when they are earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. The cash basis of accounting is used during the year. The financial statements are prepared on the accrual basis at the end of the fiscal year by the Authority.

#### C. Fund Accounting

The activities of the Authority are accounted for in an enterprise fund, used to account for governmental operations that are financed and operated in a manner similar to private business enterprises. Enterprise fund accounting is used where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate. All fund accounts of the Authority are presented in total on the financial statements.

#### D. Bond Issuance Costs, Discounts, and Premiums

Costs associated with issuing debt, which are either offset by fees collected over the life of the respective pooled bond issues from local issuers, or reimbursed directly by localities participating in stand-alone issues, are expensed in the year incurred. The net original issue discount or premium (after distributing the allocable share to various participating localities), for each bond issuance, is also expensed or recorded as revenue in the year incurred unless it exceeds 1% of the amount of bonds issued. In that case, the net original issue discount or premium is deferred and amortized, on a straight-line basis, over the life of the outstanding debt.

#### 2. DETAILED NOTES

#### A. Cash, Cash Equivalents and Investments (Unrestricted and Restricted)

Cash and Cash equivalents of \$147,605,895 are held by the Treasurer of Virginia. Cash equivalents of \$84,635,621 and investments of \$92,800,913 are held by U.S. Bank. Cash is defined as demand deposits, non-negotiable time deposits, and certificates of deposit. Cash equivalents are defined as investments with an original maturity of less than three months.

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"). Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice will pledge collateral that ranges in amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Section 2.2-4500 and Section 2.2-4501 of the *Code of Virginia* outline the instruments in which public sinking funds and other public funds may legally invest. The Authority adheres to these general guidelines unless bond resolutions require more restrictive investment policies.

Custodial credit risk for cash equivalents and investments is the risk that, in the event of a failure of the counterparty, the Authority will not be able to recover the value of its cash equivalents and investments. All cash equivalents and investments of the Authority are held in the Authority's name and are therefore not exposed to custodial credit risk.

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Authority has elected to disclose the risk for its debt investments using the segmented time distribution method.

The Authority's cash equivalents are valued at amortized cost, which approximates fair value, and its investments are valued at fair value. Fair values are based upon quoted market prices (level 1 inputs, in accordance with GASB Statement No. 72, Fair Value Measurement and Application). Details of cash equivalents and investments are presented below.

### Summary of Cash, Cash Equivalents, and Investments (Dollars in Thousands)

	Investment Maturities (in years)									
	June 30,							More	Than	S&P
	2020	Less T	han 1	1	-5	6-	10	1	0	Rating
Cash	\$ 94	\$	-	\$	-	\$	-	\$	-	N/A

Money Market Accounts <sup>1</sup>	113,198	113	,198		-		-		-	AAAm
State Non-Arbitrage Program ® 2	118,949	118	,949						-	AAAm
Total cash, cash equivalents, and investments	\$ 325,042	\$ 232	,147	\$	582	\$62	,007	\$ 30	),212	

- The Authority invests certain short-term cash balances held within its accounts in the JP Morgan US Government Money Market Fund. This is a rated fund, which maintains a policy of investing all assets in U.S. Treasury obligations and repurchase agreements backed by those obligations. The Authority also invests certain short-term cash balances held within the First American Government Obligation Fund which seeks to provide maximum current income and daily liquidity by purchasing U.S. government securities and repurchase agreements collateralized by such obligations.
- The Virginia State Non-Arbitrage Program® (SNAP®) offers a professionally-managed money market mutual fund, which provides issuers with a temporary pooled investment vehicle for proceeds pending expenditure, and with record keeping, depository and arbitrage rebate calculation services. SNAP® is in compliance with all of the standards of GASB Statement No. 79 and elects to report its investments for financial reporting at amortized cost. Participants in SNAP® should also report their investments in SNAP® at amortized cost.

The Authority does not limit the amount that may be invested in any one issuer. The Authority had investments of five percent or more in the State Non-Arbitrage Program<sup>®</sup> (37%), the First American Government Obligation Fund (26%), US Government Treasury Strips (28%), and the JP Morgan US Government Money Market Fund (9%).

#### B. Local School Bonds

The Authority purchases bonds from (makes loans to) various localities throughout the Commonwealth, which are issued to finance the construction of local public school facilities. These bonds are recorded at a purchase price that is equal to the face value of the bonds. Local school bonds purchased under the 1997 Resolution are held in a pledge account of the General Pledge Fund established under its bond resolution. Local school bonds purchased under the stand-alone program are deposited in separate purchase funds established for each issue. Assets of the Authority that are held or received in purchase funds, pledge funds, or debt service funds are classified as restricted assets because their use is limited to the purpose of the funds in which they reside, in accordance with applicable bond resolutions. The local school bonds are held and pledged to repay the Authority's bonds.

The interest rates on the local school bonds are determined by the Authority and fixed at the time of sale of the Authority bonds issued to fund the acquisition of the local school bonds. On local school bonds held by the Authority that were issued prior to March 26, 2009, the interest rate on each maturity of the local bonds is ten basis points (0.10%) higher than the interest rate paid by the Authority on the corresponding maturity on its bonds. As a result of a policy change made by the Authority on March 26, 2009, local school bonds issued by localities subsequent to March 26, 2009, and held by the Authority, will pay interest 5 basis points (0.05%) above the rates paid by the Authority on corresponding maturities of its bonds.

Local school bonds held by the Authority as of June 30, 2020 are shown on the following page.

#### Local school bonds:

Held in 1997 Pledge Account	\$ 2,337,026,714
Held in 2009 Purchase Fund (Qualified School Construction Bonds)	28,744,415
Held in 2010 Purchase Fund (Qualified School Construction Bonds)	32,720,000
Held in 2011-1 Purchase Fund (Qualified School Construction Bonds)	36,876,953

Total	\$ 95,156,000	\$ 28,388,200	\$ 123,544,200

#### D. <u>Technology and Security Notes</u>

Periodically, the Authority issues Technology and Security Notes, the proceeds of which are used to make grants to school divisions for the purchase of educational technology and security equipment. The proceeds are invested in the Virginia State Non-Arbitrage Program<sup>®</sup> until requisitioned by localities. The following schedule details the notes that have been issued which still have either bonds outstanding or funds remaining to be disbursed to localities as of June 30, 2020.

#### Technology and Security Notes

#### E. Qualified Zone Academy Bonds

On October 31, 2012, the Authority issued \$2,014,104 for the City of Roanoke as a QZAB, as part of the School Tax Credit Bonds (Direct Payment) Series 2012-1. On December 30, 2014, the Authority issued \$3,816,000 for the Cities of Franklin and Petersburg as QZABs, as part of the School Tax Credit Bonds (Direct Payment) Series 2014-1. On November 30, 2016, the Authority issued \$2,350,000 for the Cities of Covington and Danville as QZABs, as part of the School Tax Credit Bonds (Direct Payment) Series 2016. These bonds were issued pursuant to Section 1297E of the Internal Revenue Code of 1986, as amended, and the Authority purchased certain general obligation school bonds of the Cities of Roanoke, Franklin, Petersburg, Covington, and Danville to finance capital projects for public schools.

The localities will make annual principal payments to the Authority on the anniversary date of each issuance. Such payments received by the Authority will be held in trust and invested in accordance with the funding agreements, until the QZABs mature. The final annual principal payments on the 2012 QZAB, the 2014 QZABs, and the 2016 QZABs are due December 15, 2034, December 1, 2024, and December 1, 2031, respectively, at which dates the QZABs will mature.

#### F. Qualified School Construction Bonds

In prior years, the Authority has issued Qualified School Construction Bonds and has used the proceeds to purchase general obligation school bonds issued by certain localities. The bonds have been issued as "qualified school construction bonds" in accordance with Section 54F of the Internal Revenue Code of 1986, as amended. The total amount outstanding under this program as of June 30, 2020 is \$353,400,000 (which includes the 2012 QZAB detailed under Note 2E that was issued as part of the 2012 School Tax Credit Bonds). These bonds are non-interest bearing; however, a taxpayer who holds such bonds during a taxable year will be allowed a federal income tax credit for such taxable year in accordance with the structure established at issuance.

#### G. Direct Placement Bonds

The Authority has issued the 2014-1 Qualified Zone Academy Bond (QZAB) in the amount of \$3,816,000, and the 2016 QZAB, in the amount of \$2,350,000, as direct placement bonds. These bonds were issued as QZABs within the meaning of Sections 54A and 54E of the Internal Revenue Code of 1986, as amended.

The bonds are non-interest bearing bonds. The owner of the bonds is entitled to a tax credit on each tax credit allowance date equal to one-fourth of the product of the principal amount of the bonds owned, times the applicable tax credit rate.

Should the 2014-1 QZAB become disqualified as a QZAB, it shall bear interest at the tax credit rate on each tax credit allowance date, beginning on the first such date after the disqualification date. Not later than 60 days after the disqualification date, the Authority shall pay to the owner of the 2014-1 Bonds the amount which, after taking into account all penalties, fines, interest and additions to federal income tax (including lost tax credits) that are imposed on the owner of the 2014-1 Bonds as a result of the determination of disqualification, would restore the owner of the 2014-1 Bonds to the same after-tax yield on the 2014-1 Bonds that the owner would have realized had the determination of disqualification not occurred.

From and after an event of default under the Master Indenture, the 2014-1 Bonds shall bear interest at the default rate, payable on demand by the owner of the 2014-1 Bonds.

Should the 2016 QZAB become disqualified as a QZAB, it shall be subject to extraordinary mandatory redemption prior to its fixed maturity date, in whole or in relevant part, within ninety (90) days after the disqualification notice date, at a redemption price equal to 100% of the principal amount of the Bonds called for redemption, plus the redemption premium, plus the amount which, after taking into account all penalties, fines, interest and additions to federal income tax (including lost tax credits taken by the owner prior to the

disqualification notice date) that are imposed on the owner of this Bond as a result of the determination of disqualification, would restore the owner of this Bond to the same after-tax yield on this Bond that the owner would have realized had the determination of disqualification not occurred.

The Authority also issued its Series 2020A Pooled Bonds as direct placement bonds. These bonds are secured by the State Aid Intercept Provision and a sum sufficient appropriation from the Commonwealth. Therefore, there are no other default provisions related to these bonds.

#### H. Defeasance of Debt

From time to time, when interest rates indicate that it would be favorable to do so, the Authority has issued refunding bonds to defease outstanding bonds. These refundings have placed the proceeds of the new bonds in irrevocable trusts with escrow agents to provide for all future debt service on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included on the Authority's financial statements.

The Authority issued one series of refunding bonds during fiscal year 2020. The proceeds of the refunding bonds were placed with an escrow agent to provide for all future debt service on the defeased bonds. Accordingly, the liability for the defeased bonds is not included on the Authority's financial statements. Any savings realized as a result of this refunding will be passed through, on a pro rata basis, to the issuers of the related underlying local school bonds in accordance with the Authority's Enabling Legislation. The following table reflects the refunding activity during the year.

Refunding Bonds Issued During Fiscal Year 2020

Refunding Issue	Refunded Issue	Maturities Defeased	Am	ount Defeased
Prince William 2019B	2011	2027, 2030-2031	\$	6,960,000
Prince William 2019B	2012	2030-2032		9,840,000
Prince William 2019B	2013	2029-2033		14,990,000
2019D	2013B	2027-2040		19,815,000
Tot	\$	51,605,000		

The issuance under the 1997 Resolution of the Authority's Series 2019D bonds refunded certain outstanding bonds under the 1997 resolution. This debt defeasance resulted in an accounting loss of \$1,905,000. Total debt service payments over the next 21 years will be reduced by \$1,368,833. Present value savings of \$1,130,466 reflect the True Interest Cost of each component of the refunding at the discount rate.

On October 29, 2019, under the Authority's stand-alone program, Prince William County issued \$34,610,000 of its school financing and refunding bonds, a portion of which was used to refund \$31,790,000 of the Authority's 2011, 2012, and 2013 Series Prince William County bonds. Total debt service payments over the next 15 years will be reduced by \$3,485,184 resulting in a present value savings of \$2,953,220 discounted at the rate of 2.6384485 percent.

On June 18, 2020, Prince William County issued its own refunding bonds. Some of the proceeds were used to refund selected maturities of the Authority's 2011, 2014 and 2015 Series Prince William County bonds in a total of 34,895,000.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 23, "Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities," as amended by GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities," the difference between the reacquisition price and the net carrying amount of the bonds defeased with refunding debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of Interest and Fiscal Charges over the shorter of the remaining life of the refunded debt or the life of the new debt.

At June 30, 2020, \$324,420,000 of bonds outstanding are considered defeased for financial reporting purposes.

#### I. Local School Bond Credits

Beginning in fiscal year 2015, the Authority modified its process for returning refunding savings to localities. Previously, these savings had been returned to localities in the form of lump sum payment when refunding bonds were issued. This process negatively impacted the Authority's net position. Under the current process, the Authority has calculated credit amounts to be returned to each locality annually as savings are actually achieved. The savings accrue to the Authority over time and the return of refunding savings to localities is now consistent with the timeframe in which the savings are earned by the Authority. As of June 30, 2020, the total remaining credits to be paid to the impacted localities over the next twenty years is \$62 million.

#### J. Payments to/from the Literary Fund

In fiscal year 2020, after final rebate computations on the School Educational Technology Notes XIV, the residual earnings of \$340,682 on the related bond proceeds were paid to the Literary Fund, which had been the source of the debt service appropriation for these Notes.

The Authority received \$7,321,218 from the Literary Fund to pay interest on the various outstanding Educational Technology and Security Notes.

#### K. Arbitrage Earnings

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August 1986 calculate and rebate arbitrage earnings to the federal government. The U.S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. The Authority and the issuers of local school bonds purchased by the Authority must comply with the rebate regulations in order for the Authority's bonds to maintain a tax-exempt status. The regulations require the excess of the aggregate amount earned on investments purchased with the bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield to be rebated to the federal government.

Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least every five years over the life of the bonds. Some Authority bonds may be exempt from the rebate requirement if they meet statutory exceptions per the rebate regulations. The Authority may also elect, on or before the date of the bond issue, to pay a penalty in lieu of rebate if it does not meet certain expenditure schedules. If such an election is made and if the Authority (local issuer) meets the expenditure schedule, the Authority (local issuer) retains any arbitrage earnings. The Authority, to date, has not elected penalty in lieu of rebate due to the difficulty in estimating local issuer's expenditure schedules. Rebate and penalty payments are calculated and paid by the Authority as required by law on bond issues that do not meet the statutory exceptions. Rebate installments must be paid no later than 60 days after the computation date.

In most cases, rebate liability is payable by local issuers whose local school bonds were purchased by the Authority. During the year, the Authority's rebate calculation agent, or the locality's rebate calculation agent in the case of special obligation stand-alone bonds, calculate rebate liability or penalty in lieu of rebate if selected by a locality. Rebate calculations were performed for the following issues during the year:

	Computation	Computation			
Bond Issue	Time Frame	Date	Liab	oility	 Fee
(97 Resolution) 2003D	Final	8/1/2019	\$	-	\$ -
(97 Resolution) 2009A	Final	8/1/2019		-	400

(Qualified Zone Academy Bonds) 2014-1	5 Year	12/15/2019		-	1,875
Educational Technology and					
School Security Notes Series III	Final	4/15/2020		*	2,400

<sup>\*</sup> VPSA's Series 2015 Notes (Series III) did not have a rebate liability, but did owe a yield reduction payment in the amount of \$98,911.94. This amount was reimbursed to VPSA from DOE in August 2020.

The Authority paid \$17,550 to its rebate calculation agent for services provided in connection with the above rebate calculations.

#### L. Subsequent Events

On October 15, 2020, the Authority issued \$106,510,000 of Special Obligation School Financing Bonds, Prince William County Series 2020. The Bonds were used to purchase general obligation school bonds of the County which were issued to finance the costs of various school capital improvement projects.

On November 10, 2020, the Authority issued \$142,195,000 of School Financing and Refunding Bonds (1997 Resolution), Series 2020B, and \$320,840,000 of School Financing Refunding Bonds (1997 Resolution), Series 2020C (Federally Taxable). The 2020B Bonds will be used to purchase certain general obligation local school bonds to finance capital projects for schools and to refund its School Financing Bonds (1997 Resolution) Refunding Series 2010C. The 2020C Bonds will be used to refund certain maturities of its School Financing Bonds (1997 Resolution) Series 2012C, 2012D, and 2013A, its School Financing Refunding Bonds (1997 Resolution) Refunding Series 2012A, and its Special Obligation School Financing Bonds, Warren County Series 2014.

#### M. Risk Management

The Authority is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Department of the Treasury participates in insurance plans maintained by the Commonwealth of Virginia on behalf of the Authority. The risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bond, automobile, and air and watercraft plans. The Department of the Treasury pays premiums to this Department for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

## Staci A. Henshaw, CPA Auditor of Public Accounts

### Commonwealth of Virginia

#### Auditor of Public Accounts

P.O. Box 1295 Richmond, Virginia 23218

December 15, 2020

The Honorable Ralph S. Northam Governor of Virginia

The Honorable Kenneth R. Plum Chairman, Joint Legislative Audit and Review Commission

Board of Commissioners
Virginia Public School Authority

#### INDEPENDENT AUDITOR'S REPORT

#### **Report on Financial Statements**

We have audited the accompanying financial statements of the **Virginia Public School Authority** (Authority), a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

www.apa.virginia.gov | (804) 225-3350 | reports@apa.virginia.gov

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Virginia Public School Authority as of June 30, 2020, and the changes in its financial position and its cash flows for the year ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 1 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying supplementary information, such as the Detail of Long-Term Indebtedness, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The Detail of Long-Term Indebtedness is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Detail of Long-Term Indebtedness is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated December 15, 2020, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the Authority's internal control over financial reporting and compliance.
