

A photograph of Fort Mifflin, a large stone fortification with a grassy roof, situated in the water. The sky is a vibrant mix of orange, yellow, and purple, indicating a sunset or sunrise. The fort's reflection is visible in the calm water. An American flag flies on a tall pole behind the fort. Tree branches are visible in the upper corners of the frame.

**CITY OF HAMPTON, VIRGINIA
DEPARTMENT OF FINANCE
June 30, 2016**

THIS PAGE LEFT BLANK INTENTIONALLY

November 30, 2016

Honorable Mayor, Members of the City Council,
City Manager and the Citizens of the City of Hampton
Hampton, Virginia

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Hampton, Virginia (the City) for the fiscal year ended June 30, 2016. State law requires the City to publish, at the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with Government Auditing Standards by a firm of licensed certified public accountants. This report has been prepared by the Department of Finance and the report does comply with state law and guidelines of the Auditor of Public Accounts of the Commonwealth of Virginia.

The City's Management assumes full responsibility for the accuracy, completeness, and reliability of all information presented in this report. We believe the data, as presented, is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included. In order to provide reasonable, but not absolute, assurance regarding the data, the management of the City has designed a framework of internal accounting controls to protect the City's assets from loss of unauthorized use or disposition, provide reliability of financial records for preparing financial statements and maintain the accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and that the evaluation of costs and benefits requires estimates and judgments by management. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

State law requires that the financial statements of the City be audited by a certified public accountant. Cherry Bekaert LLP, Certified Public Accountants have audited the City's financial statements. As a result of an audit of the City's financial records and transactions of all funds, component units and departments of the City, Cherry Bekaert LLP has concluded that the financial statements are in compliance with generally accepted accounting principles and have issued an unmodified opinion on the City of Hampton's financial statements for the year ended June 30, 2016. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditor.

Profile of the City

Background

The City of Hampton, Virginia, settled in 1610, is the oldest English-speaking community in continuous existence in the United States. The City was incorporated on March 30, 1908 and has operated under its existing charter since December 16, 1952. Its boundaries were extended on July 1, 1952 through the annexation of Elizabeth City County and Phoebus. The City is comprised of 72 square miles, including 54.7 square miles of land and 17.3 square miles of water. Hampton is situated at the extreme southeastern tip of the

Lower Peninsula of Virginia. It is bounded on the west by the City of Newport News, on the north by York County and the City of Poquoson, on the east by the Chesapeake Bay and on the south by the Harbors of Hampton Roads. Hampton is part of the Norfolk-Virginia Beach-Newport News Metropolitan Statistical Area (MSA).

As of the July 1, 2015, current estimated population in Hampton was 138,626.

Hampton is an independent, full-service City with sole local government taxing authority within its boundaries. It is empowered by state statute to levy property taxes on real and personal property located within its boundaries. The governing body of the City is an elected City Council composed of a mayor and six (6) council members. The Mayor and City Council members are elected for four (4) year terms in general elections held every two (2) years. The City Council appoints the City Manager who acts as the Chief Executive Officer of the government. The City Manager serves at the pleasure of the Council and is charged with the responsibility of carrying out their policies, directing business procedures, and appointing and removing all department heads and city employees.

As a full-service city, Hampton provides a broad range of municipal services to its citizens. Those services include public safety, education, public works, refuse-collection, recreation, building inspection, public health, social services, planning, community development, etc. The City of Hampton and its citizens purchase their water and sewer service directly from Newport News Waterworks and Hampton Roads Sanitation District, respectively.

During fiscal year 2016, several awards and recognitions were received by the City of Hampton. They are listed below:

- The Hampton Division of Fire and Rescue was awarded Accredited Agency status by the Commission on Fire Accreditation (CFAI) for meeting the criteria established through the CFAI's voluntary self-assessment and accreditation program. The Hampton Division of Fire and Rescue is now one of only 220 agencies worldwide, with 11 others in Virginia, to achieve internationally Accredited Agency status with the CFAI and the Center for Public Safety Excellence, Inc (CPSE). Of further note, the City of Hampton is currently the only combination fire and rescue agency in the Commonwealth that is fully accredited and holds an ISO-1 rating.
- The City's Budget Department received the Government Finance Officers Association Distinguished Budget Presentation Award for the FY16 Budget document.
- For the fourteenth time Hampton was named as one of the most technologically-advanced cities in the nation by the Center for Digital Government in 2015. The survey focuses on results achieved by cities through the use of technology in operating efficiencies, realizing strategic objectives, innovative or creative solutions or approaches, effective collaboration and transparency measures.

Budgetary Systems

The annual budget serves as the foundation for the City of Hampton's financial planning and control functions. The City must appropriate funds for both the City and school system operation in accordance with state law. The appropriated budget is prepared by fund, function, (e.g. public safety) and department (e.g. fire). The City Manager is authorized to transfer budgeted amounts within the General Fund; however, revisions that alter the total appropriations for a department must be approved by City Council. Transfers within the School Operating Fund are under the control of the School Board.

Component Units

The financial reporting entity includes all funds of the primary government (the City), as well as its component units. Component units are legally separate entities for which the City is financially accountable. The City has included the financial data of four discrete component units which are legally separate entities: Hampton City School Board, Economic Development Authority (EDA), Coliseum Central Business Improvement District, Inc. and Downtown Hampton Development Partnership, Inc.

Economic Conditions and Outlook

Local Economy

The City's central location in the Norfolk-Virginia Beach-Newport News Metropolitan Statistical Area (MSA) affords its businesses the ability to take advantage of resources offered throughout the area. Hampton's many business amenities have attracted a long list of prosperous and well-known national and international companies. Manufacturing, technology, retail services, distribution, and federal installations comprise the major components of economic activity within the City.

The City's strategic location and economic development activities offer its residential civilian labor force a wide range of employment opportunities. Hampton businesses draw from the largest regional workforce between Washington, D.C. and Atlanta, with over 824,000 highly educated, skilled, and technically trained workers. Each year, over 13,000 trained and disciplined personnel exit the military. Many of these persons elect to stay in the area and look for private sector employment, and there are over 25,000 military spouses available to work. In addition, there are almost 100,000 students attending the region's eight universities and four community colleges with an estimated 14,000 graduates per year.

The effects of the economic downturn continue to impact the national, state, and regional economies. The federal government's budget sequestration also continues to be a drag on the region due to the large federal presence in the area. However, Hampton Roads is continuing to gradually recover with the region's economy, as measured by Gross Regional Product, expanding at a rate of 1.1% percent in 2015. The other legs of the regional economic stool, the tourism industry and the port, are seeing positive growth. Port growth has been a bright spot with General Cargo Tonnage increasing 4.8% from 2014 to 2015, while growth in the tourism industry has been solid with hotel revenue increasing 6.5% over the past year. Employment growth continues to be sluggish with civilian employment jobs increasing 0.9%. The region's unemployment rate has come down from 5.5% to 4.5%, compared to the 5.1% national rate. Hampton's unemployment rate has decreased to 5.4% as of June 2016, versus 6.3% last year.

There are other positive signs for the regional economy. The drag of sequestration may soon be relieved, as there appears to be a consensus building in Washington to relax budget-spending caps. Even with the spending caps in place, the budgets for Langley Air Force Base, NASA Langley Research Center and the Veterans Administration hospital in Hampton have all seen some budget growth recently. Prospects for continued growth at the port is also strong as its natural deep-water harbor is one of the few places on the east coast of the country that can take the largest container ships traveling the oceans today. Hampton, being in close proximity to the port and at the intersection of I-64 and I-664, is well situated to take advantage of future growth at the port. Hampton also continues to see positive results from tourist destinations like the Boo Williams SportsPlex and business at the Hampton Roads Convention Center continues to recover.

It also appears that the real estate market is beginning to stabilize after years of decline. For the second consecutive year, we have experienced an increase in real estate assessments. We are starting to see some stabilization in assessments driven by commercial and multifamily properties.

Economic Development

The City is home to two institutions of higher education: Hampton University and Thomas Nelson Community College. Hampton University has been educating scholars and leaders for over 140 years. Hampton University provides a broad range of technical, liberal arts, pre-professional, professional, and graduate degree programs and has over 6,000 students enrolled. It is located in Hampton Virginia's downtown area on the waterfront. The University is ranked among the top southern universities in the regional university category in the *2016 U.S. News and World Report – Best Colleges* rankings.

Thomas Nelson Community College offers planning and strategic partnerships with economic development entities on the Virginia Peninsula. Services include targeted workforce development, strategic planning, joint grant opportunities, pre-employment training, employer/industry customized training programs and availability of fully equipped training facilities including classrooms, labs, and flexible manufacturing and industrial training spaces. Old Dominion University's Peninsula Higher Education Center has combined with Thomas Nelson Community College to promote the advancement of knowledge here on the Peninsula. It is a state-of-the-art academic facility designed to support a wide array of graduate and undergraduate programs that meet the needs of the local community. Its location makes it convenient for residents to complete their bachelor degrees and for health and other professionals to complete their education through the doctorate level. The Peninsula Center offers 24 undergraduate and 25 graduate programs with over 200 classes scheduled each week.

The City of Hampton continued to amplify its economic development efforts to attract new businesses while expanding and retaining existing businesses thereby creating new jobs. Hampton's central location and its skilled workforce are two economic assets that allowed it to persevere through the recession and continue its economic prosperity during the recovery period. A diversified business community, fueled by the flow of private and federal funding, propels Hampton's stable growth.

The private sector accounted for more than \$73 million in new investment in the City (\$11.2 million in commercial and industrial investment and \$62.6 million in retail investment). It is also important to note that the commercial and industrial investments resulted

in 404 new jobs being created.

Hampton's newest retail development will take the aging Riverdale shopping center and reposition it into a shopping destination known as Riverpointe. The \$60 million redevelopment will include both new construction and rehabilitation of a 51 acre center. The development is a joint venture of Southeastern Development Associates and the Kroger Company. The center will be anchored by a 123,000 square foot Kroger Marketplace and a 91,000 square foot At Home Store.

Hampton's economic growth will continue as the City continues its focus on cultivating its primary industry clusters of aerospace, communications, homeland security and defense, advanced manufacturing, and medical. Utilizing assets such as the Hampton Roads Center North Business Park, a 220 acre shovel ready site for development, Hampton will continue to market to the national and international investment community to expand upon its economic development successes. Hampton citizens will also benefit as new high wage and high skilled jobs are created in the City. This in turn will facilitate and support the expansion of Hampton's retail assets.

The following charts highlight some of the fiscal year 2016 economic development activity:

<u>New Business</u>	<u>Sector</u>
IV Watch	Medical Equipment
Atlantic Railing Inc.	Manufacturing
Prillaman Crane & Rigging	Construction
3 Perez LLC	Restaurant
Oozlefinch Craft Brewing	Craft Brewery
Verizon Wireless	Retail
<u>Expansion Business</u>	<u>Sector</u>
TE Connectivity	Manufacturing
Shred-it-USA	Distribution
Aldi	Grocer
Lidl	Grocer

Military, Federal Research Facility and Veterans Medical Center

Langley Air Force Base celebrates its 100th anniversary in 2016 as the oldest continuously serving active installation in the United States and headquarters for the Air Combat Command. It is also home to the U.S. Air Force's First Fighter Wing with one-third of the Nation's Air Superiority Fighter Aircraft, the F-22 Raptors stationed on the installation along with two intelligence, surveillance and reconnaissance organizations. Covering 2,900 acres, Langley has more than 9,500 military personnel and approximately 3,250 civilian employees with a combined payroll of over \$697 million. For the fiscal year 2013-2014, Langley Air Force Base's economic impact analysis stated the base had a total economic impact of \$1.1 billion to the local community. Over the last two years investments at Langley Air Force Base totaled \$7.6 million for design work and \$62.1 million for construction. In addition, starting in early 2017, the base will begin the construction of a new fuel pier and hospital addition at an estimated cost of \$69.1 million. Furthermore, Langley will welcome the Virginia Air National Guard CYBER mission in 2017 adding upwards of 70 new jobs on the installation.

The National Aeronautics and Space Administration's NASA Research Center is located in Hampton adjacent to Langley Air Force Base. The Center is an important national resource serving inherent government functions such as aeronautics, science, space technology, human space exploration, climate research and the air transportation system. NASA Langley Research Center's Revitalization Strategy continues to make strong progress with their first 2 new buildings (HQ and Integrated Engineering Services Building) outperforming their design metrics and providing the Agency with outstanding capability. In 2017, NASA Langley will open the \$26 million Katherine G. Johnson Computational Research Facility and break ground on the \$95 million Measurement Systems Laboratory. Both new facilities will provide the Agency, Langley Research Center and the local Community with outstanding new

R&D capability to answer the future challenges of the Nation. In 2016, Langley employed 3,600 people. Approximately 1,900 were civil service employees and 1,700 were private-sector employees working on or near-site for companies that were contracted to provide support for NASA. NASA covers 788 acres with 166 buildings with a replacement value of \$3.5 billion. The Virginia Air and Space Center, located in downtown Hampton, serves as the official welcome center for NASA Langley. NASA Langley's economic output to Virginia was nearly \$1.1 billion which generated over 10,000 jobs throughout the Commonwealth of Virginia and Hampton Roads region in fiscal year 2015. Its impact on the Hampton Roads region was \$782 million supporting approximately 5,600 jobs. NASA Langley is celebrating its Centennial in 2017. Throughout 2017, NASA Langley will host a variety of events to celebrate this auspicious milestone.

The Hampton Veterans Affairs Medical Center (HVAMC) is located on 85 acres with 45 significant buildings. The center is undergoing \$50 million in capital improvements and has increased clinical space by more than 67,000 square feet, with the opening of the Chesapeake Community Based Outpatient Clinic. 28% of Hampton VAMC's 1800 staff members are residents of the City of Hampton with an operating budget of \$300 million. They are the fastest growing VA Medical Center in the Nation serving a population over 400,000. Veteran enrollment has increased by 27.2% in the past five years. More than 400 Housing and Urban Development VA supported housing vouchers have been made available to house homeless Veterans in the City of Hampton.

General Government Financial Operations

All general governmental operations are accounted for in the General, Special Revenue, Capital Projects and Debt Service Funds. Substantially all recurring revenues and expenditures are accounted for in the General Fund and the School Operating Fund (included in the Discretely Presented Component Unit-School Board financial statements).

Total revenues, expenditures, and other financing sources and uses, for the General and School Operating Funds are as follows:

	000's Omitted		Percent Increase
	2016	2015	(Decrease)
Revenues and Other Financing Sources:			
General Fund	\$326,862	\$317,220	3.04
School Operating	124,057*	123,849*	0.17
Total	450,919	441,069	2.23
Expenditures and Other Financing Uses:			
General Fund	253,892*	244,565*	3.81
School Operating	195,295*	197,160*	(0.95)
Total	(449,187)	(441,725)	1.69
Net change to fund balance	\$1,732	\$(656)	

*Excludes payments between the General Fund and School Operating Fund

The General Fund revenues and other financing sources increased by approximately \$9.6 million or 3.04% when compared to fiscal year 2015. The personal property tax rate was increased by City Council from \$4.25 to \$4.50 per \$100 of assessed values effective January 1, 2015. Personal property tax revenues increased by \$1.98 million over the previous fiscal year as a result of the rate increase and from growth in assessments. Real property tax collections increased by approximately \$0.6 million from an increase in assessments. In the other local taxes category, revenues increased by \$2.5 million. Meal taxes, sales and use and recordation taxes grew by \$.6 million, \$.3 million, and \$.3 million, respectively. Also, tobacco taxes increased by \$.5 million due to a rate increase from \$0.80 cents per pack to \$0.85 cents per pack in fiscal year 2016. Special assessment taxes increased by \$2.2 million as a result of the collection of delinquent assessments from previous years. Revenues from the Commonwealth increased by \$1.56 million primarily as a result of the City not having to absorb any revenue budget cuts from the Commonwealth in fiscal year 2016. In fiscal year 2015, the

City had to return \$678,208 to the Commonwealth for the City's share of state budget cuts to localities.

General Fund expenditures increased by approximately \$9.3 million or 2.9% when compared to fiscal year 2015 in the categories of general government, public safety, human services and transfers out to other funds. A general wage increase of 3% and implementation of a pay-scale adjustment for employees which became effective in January 2016 contributed to \$2.9 million of this increase. Special assessment expenses were \$1.6 million more than the budgeted amount; however, since this expense is a pass-through to other agencies, the expense results in a corresponding increase in revenues. Transfers to the Capital Projects Fund increased by \$3 million due primarily to increased activity in the Coliseum Central Strategic projects and the Self Contained Breathing Fire Equipment project.

The School Board Operating Fund revenues increased by approximately \$206,000 or .11% over fiscal year 2015. State revenues increased by \$168,000. This increase resulted from an increase in student enrollment by 43 students from a total student population of 19,500 to 19,543. The largest state revenue increases were in salary supplements (\$1 million) and sales taxes (\$.375 million). The School Board experienced decreases in state revenues for Basic Aid (\$.739 million), Virginia Retirement System (\$277 million), K-3 Primary (\$.90 million), Special Education (\$.75 million) and Social Security Benefits (\$.26 million). The increase in federal revenues of \$.53 million is due to an increase in Impact Aid. The decrease in miscellaneous revenues is due to a decline in public surplus revenues.

The School Board Operating Fund expenditures decreased by \$1.8 million or .91% over fiscal year 2015 due mainly to a decrease in spending for technology, instruction and operation and maintenance. Expenditures for public transportation, administration/attendance and health increased from fiscal year 2015 to 2016. Technology expenditures decreased by approximately \$1.6 million. The decrease in technology expenditures was due primarily to a reduction in purchasing of computers and iPads. The expenditures for instruction and operation and maintenance decreased by approximately \$.572 million and \$.376 million, respectively. Instruction costs decreased due to a slight decline in supplies purchased in fiscal year 2016. Operation and maintenance expenditures decreased due to a reduction in contractual services. Administration, attendance and health expenditures increased by \$.430 million and public transportation expenditures increased by \$.331 million from 2015 to 2016.

The graphs of the 2016 General Fund and School Operating Fund revenues and expenditures are as follows:

Expenditures \$449,186,643

Long Term Financial Planning

In the years 2016-2020, \$211.3 million is scheduled for City and School projects. The following summarizes these projects:

• Education	\$37.3 million
• Hampton's Waterways	\$26.3 million
• Maintenance of Public Properties	\$61.5 million
• Master Plans	\$12.0 million
• Neighborhood Support	\$2.0 million
• Other Economic Development Support	\$2.4 million
• Other CIP Projects	\$9.9 million
• Public Safety	\$13.2 million
• Streets and Infrastructure	\$46.7 million

Financial Policies

In April 2007, the City Council amended its existing financial policies. The financial policies relate to general operating elements of the City. These policies are used as financial planning parameters during the annual budget process. The five (5) financial policies and the actual results are summarized below:

1. Debt Policy Limit. (a) General obligation debt shall not exceed 3% of the assessed value of all real estate within the City subject to taxation. At June 30, 2016, general obligation debt totaled \$251 million or 2.46% of taxable real estate value, which was within the policy parameter.
(b) General obligation bonded debt together with indirect debt, which includes certain revenue backed debt and subject-to-appropriation or moral obligation commitments, and debt of certain special purpose entities (i.e. Community Development Authority) shall not exceed 4.5% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2016, this would amount to \$430 million or 4% of the assessed value of all taxable real and personal property which was within the policy parameter.
(c) Debt of certain special purpose entities, such as community development authorities, shall not exceed 1% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2016, this would amount to \$94.5 million or .83% of the assessed value of all taxable real and personal property, which was within the policy parameter.
2. Debt Service Policy Limit. General obligation bonded debt and indirect debt shall not exceed 10% of the City's total General Fund and the School Operating Fund expenditures. At June 30, 2016, this would amount to \$37 million or 8.4% of total expenditures, which was within the policy parameter.
3. General Obligation Debt Retirement Policy. The City shall retire at least 60% of the principal balance of general bonded obligation debt within 10 years of the date the debt is issued. The City will retire approximately 76% of general bonded obligation debt in fiscal year 2026 that was outstanding as of June 30, 2016.
4. Equity Funding. A minimum of 2% to 6% of General Fund revenues will be applied to CIP capital projects each year. At June 30, 2016, capital expenditures were \$16 million which is 4.8% of General Fund revenues. Also, a minimum of 10% to 15% of CIP projects over a rolling five-year period are to be funded from General Fund revenues. For the five year period, 2016 through 2020, the City plans to use 39.8% of General Fund revenues on CIP projects.
5. Unassigned Fund Balance. The City will maintain an unassigned General Fund balance equal to 10% of total General Fund and School Operating Fund revenues. To the extent unassigned fund balance falls below the policy, the shortfall shall be replenished over a three-year period. The unassigned fund balance at June 30, 2016 was \$54.3 million or 12.1% of actual revenues.

The City is in compliance with the Financial Policy Guidelines.

Credit Ratings

The City's credit ratings are as follows: AA+ by Standard and Poor's, Aa1 by Moody's Investor Services and AA+ by Fitch Rating.

Major Initiatives and Accomplishments

Fort Monroe

Fort Monroe at Old Point Comfort is a National Historic Landmark and sits on a 565 acre island at the mouth of Hampton Roads with 3 miles of beaches, bayside boardwalk, 200 acres of parks and open space and spectacular views of the Chesapeake Bay. Today Fort Monroe still stands as the largest stone fortification and moat ever constructed in North America and is complete with 174 stately historic homes, over 1 million square feet of mainly historic non-residential space, a 332 slip marina, museum, the oldest operating lighthouse on the Chesapeake Bay, tremendous telecommunications infrastructure and convenient access to Interstate-64.

Fort Monroe's greatest asset is its history. The history of Old Point Comfort extends to the very beginning of the settlement of America. Captain John Smith and the early settlers visited Old Point Comfort before establishing the settlement in 1607. After surveying the area in 1608, Captain Smith pronounced this place a "little isle fit for a castle" and soon began the construction of Fort Algernourne in 1609 to protect the new settlement. This began a long line of fortifications on Old Point Comfort that culminated with the establishment of Fort Monroe as a response to the War of 1812, when the British sailed unencumbered to wreak havoc up the Virginia coast, culminating with the burning of Washington DC and the White House. Construction of Fort Monroe began in 1819 and

was completed in 1834.

The history of African Americans and the struggle for freedom is uniquely woven into the historic fabric of this place. The first Africans were brought to Old Point Comfort as indentured servants in 1619. The seminal event of the Civil War also took place at Fort Monroe, where the war was transformed into a war for freedom on May 27, 1861, by Major General Benjamin Butler's "contraband" decision or "Fort Monroe Doctrine" where he declared that any slave who reached union lines would be considered contraband of war and not be returned to slavery.

Fort Monroe was identified for closure by the 2005 Base Realignment and Closure Commission and was closed by the Army on September 15, 2011. Since that time, the Commonwealth of Virginia and City of Hampton have been preparing for closure and reuse of the Fort to mitigate the impact of the lost economic activity from the closure. Approximately 371 of the 565 acres of the property automatically reverts to Commonwealth ownership based on deed language when it was originally conveyed to the federal government in the 1800s. The Commonwealth and Army are in negotiations over the disposition of the "non-reversionary" acres. As part of the State's partnership with the City, it was agreed that the City would receive a Payment In Lieu Of Taxes (PILOT) to cover the costs of City services that Hampton provides to state controlled property at Fort Monroe. The PILOT is based on the City's real estate tax assessment and tax rate as if it were any other private property in the City, but excludes any property owned by the federal government or used by the City.

The key priority of the City and Commonwealth has been to keep a living and vibrant community throughout the transition. On November 1, 2011, President Barack Obama took action to declare 245 acres of Fort Monroe a National Monument that will be managed by the National Park Service. Studies have shown the presence of a National Park increased the value of surrounding properties approximately 20%. Coupled with the history of Fort Monroe, the presence of the national park will also generate tourism to the City. The Fort Monroe Authority has also been successfully renting out the historic homes and has attracted some commercial tenants as well. Most of the existing developed area of the Fort will be subject to the PILOT and, in essence, be added to the City's tax rolls. The Commonwealth is investing over \$22 million in infrastructure enhancements, upgrades and repairs. The intent is to ultimately market many of the properties for private investment and redevelopment. As properties are sold they will be added as revenue gains for the City's tax rolls as well.

Awards and Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to governmental units that publish an easily readable and efficiently organized Comprehensive Annual Financial Report that meets all generally accepted accounting principles and applicable legal requirements. The City of Hampton has received this award for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements. This report will also be submitted to the GFOA to determine its eligibility for a certificate.

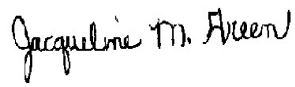

Acknowledgments

We acknowledge, with gratitude, the continued efficient and dedicated service rendered by the Finance Department staff and the assistance rendered by Cherry Bekaert LLP in keeping us in conformity with the rapidly changing accounting interpretations and principles. We also appreciate the responsible and progressive management program administered by your office and the members of the City Council.

Respectfully submitted,

Karl S. Daughtrey
Director of Finance

Executive Director/CEO

Report of Independent Auditor

Honorable Mayor and Members of City Council
City of Hampton, Virginia

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hampton, Virginia (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Downtown Hampton Development Partnership, Inc., which represents 1.4% and 0.3%, respectively, of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Downtown Hampton Development Partnership, Inc., is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. The financial statements of the Downtown Hampton Development Partnership, Inc. were not audited in accordance with *Government Auditing Standards and the Specifications of Audits of Counties, Cities and Town*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Reclassification

As described in Note 16 to the financial statements, effective July 1, 2015, the City reclassified the Net OPEB obligation for the line of duty program from the Risk Management Fund to the General Fund and Governmental Activities. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis ("MD&A") and additional required supplementary information other than MD&A, as presented in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual statements in Exhibits B – G, supplementary information in Schedules 1 – 15 and the statistical section in Tables I – XVI, as presented in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards in Schedule 5 is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual statements in Exhibits B – G and the supplementary information in Schedules 1 – 15 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the combining and individual statements in Exhibits B – G and the supplementary information in Schedules 1 – 15 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical section in Tables I – XVI have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the City of Hampton's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Hampton's internal control over financial reporting and compliance.

THIS PAGE LEFT BLANK INTENTIONALLY

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Hampton's (City's) Comprehensive Annual Financial Report (CAFR) presents Management's Discussion and Analysis (MD&A) of the City's financial performance during the fiscal year ended June 30, 2016. The MD&A should be read in conjunction with the transmittal letter and the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The General Fund, on a current financial resource basis, reported revenues in excess of expenditures and other financing sources and uses by \$1.9 million (Exhibit A-4) after making a \$71.1 million payment to Hampton City Schools, \$15.9 million transfer to Capital Projects, \$8.2 million transfer to Enterprise Funds, \$1.9 million to Special Revenue Funds and \$33.2 million to Debt Service Fund.
- On a government-wide basis for governmental activities, the City's net position increased by \$8.4 million (Exhibit A-2).
- In the City's business-type activities, on a government-wide basis, net position increased by \$6.4 million (Exhibit A-2).
- The City's net position, excluding component units, on the government-wide basis, totaled \$681.9 million at June 30, 2016. Of this amount, \$(83.2) million represents the unrestricted net deficit (unrestricted net position - Exhibit A-1).

USING THE FINANCIAL SECTION OF THE COMPREHENSIVE ANNUAL FINANCIAL REPORT

The Comprehensive Annual Financial Report consists of four (4) sections: *introductory, financial, statistical and financial compliance reports for federal funds*. The financial section consists of three (3) sections: *management's discussion and analysis; basic financial statements; and supplementary information*.

GOVERNMENT-WIDE STATEMENTS

The *government-wide financial statements* are designed to provide the reader with a broad overview of the City of Hampton's finances, in a manner similar to a private-sector business. The *Statement of Net Position* (Exhibit A-1) presents information on all of the City's assets, liabilities and deferred inflows/outflows of resources reported using the full accrual basis of accounting. The *Statement of Activities* (Exhibit A-2) presents all of the City's current year's revenues and expenses, regardless of when cash is received or paid.

The two government-wide statements report the City's net position and changes in net position. The City's net position presents financial information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in the City's net position are one indicator of whether its financial position is improving or deteriorating. However, other non-financial factors will need to be considered, such as changes in the City's property tax base and the condition of the City's infrastructure.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes).

In the *Statement of Net Position* (Exhibit A-1) and the *Statement of Activities* (Exhibit A-2), the City is divided into the following:

- Governmental activities – The City's basic municipal services are reported here, including general government, public safety, public works, human services, and culture and recreation. Property taxes, other local taxes and state and federal grants finance most of these activities.
- Business-type activities – The City charges fees to customers to help cover all or most of the cost of certain services it provides. The City's coliseum, steam plant, golf courses, museum, convention center, sewer and trash collection operations are reported in this section.
- Component units – The City includes four separate legal entities in its report – the Hampton City School Board, Hampton Economic Development Authority, Coliseum Central Business Improvement District, Inc. and Downtown Hampton Development Partnership, Inc. Although legally separate, these component units are important because the City is financially accountable for these entities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more information about the City's most significant funds – not the City as a whole. Funds are accounting units that the City uses to keep track of specific sources of funding and spending for particular purposes. The City of Hampton uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The City has three types of funds:

- **Governmental funds** – Most of the City's basic services are reported in governmental funds, which focus on (1) the inflows and outflows of cash and other financial assets that can readily be converted into cash and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements (Exhibits A-3, A-4 and A-5) provide a short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the future to finance the City's programs. Because this information does not address the long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statements that explains the relationship (or differences) between these statements. The city maintains nine individual governmental funds.
- **Proprietary funds** – Services for which the City charges customers a fee are generally reported in proprietary funds. These funds, like the government-wide statements, provide both long and short-term financial information. The City's enterprise funds (one type of proprietary fund) are its business-type activities, but the fund financial statements provide more detail and additional information, such as cash flow. The City maintains eight individual enterprise funds. The City uses four internal service funds (the other type of proprietary fund) to report activities that provide supplies and services for the City's other programs and activities. These funds provide for the accumulation of money to replace capital equipment used in the City's operations, maintenance services for the City's vehicle fleet, risk management and computer and telecommunication services. The basic proprietary funds financial statements can be found in Exhibits A-6, A-7 and A-8 of this report.
- **Fiduciary funds** – The City is the trustee, or fiduciary, for its employees' pension plan. All of the City's fiduciary activities are reported in separate statements of fiduciary net position and statements of changes in fiduciary net position. The City excludes these activities from the City's government-wide statements because the City cannot use these assets to finance its operations. Agency funds are City custodial funds used to provide accountability of client monies for which the City is custodian. The basic fiduciary funds financial statements can be found in Exhibits A-9 and A-10 of this report.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Table I
Summary of Statement of Net Position (In Thousands)
June 30, 2016 and 2015

	Governmental Activities		Business-type Activities		Total Primary Government		Component Units	
	2016	2015	2016	2015	2016	2015	2016	2015
Current and other assets	\$ 201,873	\$ 231,956	\$ 57,516	\$ 52,941	\$ 259,389	\$ 284,897	\$ 45,845	\$ 50,741

Long-term liabilities	450,752	468,162	101,199	104,511	551,951	572,673	221,186	222,531
Deferred inflows of resources	14,589	24,658	1,063	1,883	15,652	26,541	22,728	28,580
Total liabilities and deferred inflows of resources	537,001	566,735	109,568	114,651	646,569	681,386	264,278	277,252
Net position								
Investment in capital assets	637,860	634,537	70,137	70,321	707,997	704,858	28,163	29,487
Restricted	49,062	75,606	8,037	8,031	57,099	83,637	1,424	1,467
Unrestricted (deficit)	(108,850)	(140,469)	25,679	19,149	(83,171)	(121,320)	(198,302)	(207,892)
Total net position	\$ 578,072	\$ 569,674	\$ 103,853	\$ 97,501	\$ 681,925	\$ 667,175	\$ (168,715)	\$ (176,938)

The City's combined net position (which is the City's bottom line) increased by \$14.7 million in fiscal year 2016 which approximately 8.4% represents resources that are subject to external restrictions. Net investment in capital assets represents 104% of net position. These assets are used to provide services to citizens and consequently are not available for future spending. The City's unrestricted net deficit totals \$(83.2) million.

GOVERNMENTAL ACTIVITIES

For the fiscal year ended June 30, 2016, revenues from governmental activities totaled \$364 million. Revenues from governmental activities increased by \$13.2 million; primarily in capital grants and contributions. Capital grants and contributions totaled \$13 million, an increase of \$6 million over the prior year. The majority of funding in capital grants and contributions consists of federal and state funding for various road projects throughout the City.

Property taxes, the City's largest revenue source, were \$158 million, increasing \$2.1 million over fiscal year 2015 as a result of a rate increase for personal property taxes effective January 1, 2015. Program revenues for governmental activities totaled \$127 million. Program revenues are derived from the program itself and reduce the cost of the function to the City. One of the most significant of these revenues is the revenue category "Operating Grants and Contributions." These revenues totaled \$80.1 million for the year ended June 30, 2016 which is in line with the previous year.

The other taxes revenue category, which includes taxes on general sales, utilities purchases, cigarettes, hotel rooms, restaurant meals, amusements, and business and automobile licenses, totaled \$78.4 million, an increase of \$2.5 million over fiscal year 2015. The cigarette tax rate increased in fiscal year 2016 from \$.80 cents per pack to \$.85 cents per pack resulting in \$.547 million additional revenue. Motor vehicle tax, sales and use tax, and meal tax increased \$.126 million, \$.318 million and \$.600 million, respectively. In addition, \$.765 million in business license taxes were refunded in fiscal year 2015.

For the fiscal year ended June 30, 2016, expenses for governmental activities, excluding transfers, totaled \$347 million, an increase of \$5.4 million over the previous year. The majority of this occurred in the general government, public safety, and human services categories primarily due to a three percent general wage increase for employees combined with pay scale changes from the compensation study.

BUSINESS-TYPE ACTIVITIES

Business-type activities generated revenues of \$48.3 million, an increase of \$1.5 million when compared to the previous year. The majority of this change is attributed to a \$1 million increase in charges for services and a \$.45 million increase in capital grants and contributions revenues. The Solid Waste Fund experienced a \$4.2 million increase in revenues over the prior year resulting from the \$1.63 increase in the weekly residential solid waste user fee for recyclers. The Coliseum Fund reflected a decrease in charges for services totaling \$3.7 million due to fewer shows held in fiscal year 2016. The Refuse-Steam Plant experienced growth in steam plant usage fees and steam sales totaling \$.448 million and \$.200 million, respectively. Expenses for business-type activities totaled \$50.5 million, a decrease of \$3 million when compared to the previous year. The majority of this decrease is reflected in the culture and recreation category. The Coliseum Fund experienced a \$2 million decrease in promoter fees also due to fewer shows held in fiscal year 2016.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The General Fund's fund balance increased by \$1.9 million over fiscal year 2015. This increase is primarily due to unexpended appropriations for the year, primarily in the funding of uncompleted capital projects that were carried forward to fiscal year 2017 and from revenues exceeding the budget.

The Capital Projects Fund reflected a decrease in fund balance of \$29.9 million. This decrease in fund balance resulted from an increase in expenditures for capital projects that were funded by general obligation bonds issued in previous years.

The fund balance in the Stormwater Fund grew by \$1.2 million due to an increase in commercial fees from \$6.99 per 2,429 sq. ft. of impervious area per month to \$7.83 per 2,429 sq. ft. of impervious area per month. Residential fees also increased from \$6.99 per month to \$7.83 per month.

The Risk Management Fund net position increased by \$3.4 million. The net position was restated for \$2.1 million as a result of transferring the net OPEB Obligation for the line of duty program to the Governmental Activities.

The Solid Waste Fund experienced an increase in net position totaling \$2.6 million. This increase is due to an increase in the residential solid waste user fee in fiscal year 2016 for recyclers, from \$4.25 per week to \$5.88 per week.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, the City Council revised the budget on several occasions. City Council appropriated \$14.1 million from committed fund balance to fund uncompleted projects in the Capital Projects Fund. These projects were funded from the General Fund in fiscal year 2015 but the appropriations lapsed at the end of the fiscal year. Under the City's budget savings program, the remaining budget savings of \$2 million was rolled from fiscal year 2015 to fiscal year 2016. City Council adopted a budget savings program whereby departments will retain 65 percent of their end of the fiscal year budget savings, 10 percent will be put into an innovations pool and \$415,000 will be designated for drainage projects. In addition, the City reappropriated grant, donation, and other revenues.

Actual expenditures and transfers were \$12.9 million below the final budget. A significant amount of this variance (\$5.1 million) occurred in the general government function, specifically in non-departmental in the amount of \$1.1 million and retirement and employee benefits in the amount of \$1.7 million. Also contributing to this variance was unused budget savings under the City's budget savings program of \$2 million. A \$5.4 million variance was noted in transfers to other funds. The majority of this variance occurred from projects in the Capital Projects Fund that were at various stages of completion. Typically, funding for these projects is appropriated in the subsequent fiscal year.

Revenues came in at \$3.4 million over budget. This is primarily due to general property taxes tracking above budget by \$1.4 million due to unanticipated supplemental assessment increases for multi-family and commercial properties. Special Assessments exceeded the budget by \$1.6 million as a result of collections of past due assessments; however, since this revenue is a pass-through to other agencies, the revenue is offset by a corresponding increase in expenditures.

CAPITAL ASSETS

The total increase over fiscal year 2015 in the City's investment in capital assets for the current fiscal year is \$3.8 million. At the end of fiscal year 2016, the City had invested over \$1 billion in a variety of capital assets and infrastructure, as reflected in the following schedule:

Table III Capital Assets (In Thousands)

	<u>\$ 288</u>	<u>\$ 309</u>	<u>\$ 28,164</u>	<u>\$ 29,487</u>

The capital budget sets forth \$44.5 million to be spent during fiscal year 2017 in various projects including \$7.5 million in school building maintenance and technology projects, \$14.7 million in street and infrastructure projects and \$10.1 million in maintenance of public properties. Additional information about the City's capital assets can be found in Note 6 to the financial statements.

LONG-TERM DEBT

At the end of fiscal year 2016, the City had \$251.1 million in outstanding general obligation bonds and \$79.2 million in outstanding revenue bonds. More detailed information about the City's long-term liabilities is presented in Note 8 to the financial statements.

The Commonwealth of Virginia limits the amount of general obligation debt the City can issue to 10% of the assessed valuation of real property. As of June 30, 2016, the City's aggregate general obligation indebtedness is \$770 million below this limit.

---------------	-----------------	-----------------

NEXT YEAR'S BUDGET

The City's staff and City Council considered many factors when developing the fiscal year 2017 budget, with the economy as one of the major factors. The fiscal year 2017 approved budget for the General Fund is \$463.1 million, a 2.8% increase over fiscal year 2016. The most important priority for the fiscal year 2017 budget was to continue to address compensation by implementing adjustments to address the recommendations from the salary study commissioned in fiscal year 2015. One fee increase was approved in the fiscal year 2017 budget, the Public Right-Of Way Use Fee increased from \$1.05 per line per month to \$1.11 per line per month.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Karl S. Daughtrey, Director of Finance, 22 Lincoln Street, 7th Floor, Hampton, Virginia 23669, telephone (757) 727-6230.

Property taxes collected in advance	1,747,890					1,747,890
Unavailable revenue-program income					229,716	229,716
Unavailable revenue-stormwater fees					532,353	532,353
Total deferred inflows of resources	8,963,102				762,069	9,725,171
Fund balances:						
Nonspendable	25,804			43,613		69,417
Restricted	418,733	856,498	78,094	1,652,112	12,868,383	15,873,820
Committed	34,470,341	1,846,214		34,110,570		70,427,125
Assigned	6,249,710	3,682,723	436,796	1,777,871	41,695	12,188,795
Unassigned	54,300,746					54,300,746
Total fund balances	95,465,334	6,385,435	514,890	37,584,166	12,910,078	152,859,903
Total liabilities, deferred inflows of resources and fund balances	\$ 132,466,633	\$ 6,452,452	\$ 514,889	\$ 48,776,128	\$ 18,536,975	\$ 206,747,077

Reconciliation of Balance Sheet of Governmental Funds to the Statement of Net Position (Exhibit A-1)

Total fund balances of governmental funds	\$ 152,859,903
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital Assets used in governmental activities are not financial resources and therefore are not reported in the funds. (Note 6)	864,567,403
Other assets are not available to pay current-period expenditures and, therefore, are deferred in the funds.	7,983,464
Deferred charges on refunding are reported as deferred outflows of resources in the government-wide financial statements but are not reported in the governmental fund statements.	9,288,581
Deferred outflows of resources related to pensions are reported in the government-wide financial statements but are not reported in the governmental fund statements	18,549,318
Deferred inflows of resources related to pensions are reported in the government-wide financial statements but are not reported in the governmental fund statements	(12,840,923)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. Net position on Combining Statement of Net Position-Internal Service Funds (Exhibit E-1)	30,843,829
Internal service funds deferred outflows of resources related to pensions are reported in the government-wide financial statements but are not reported in the governmental fund statements	(302,575)
Internal service funds deferred inflows of resources related to pensions are reported in the government-wide financial statements but are not reported in the governmental fund statements	259,420
Other liabilities not paid from current-period revenues are not reported in the funds for:	
Accrued interest	(3,855,786)
Interfund balances related to amounts eliminated in the Statement of Net Position	(14,435,949)
Long-term liabilities, including bonds payable, are not due and payable in the current period and are therefore not reported in the funds. (Note 8)	(474,844,934)
Net position of governmental activities	<u>\$ 578,071,751</u>

The accompanying notes are an integral part of these financial statements.

Transfers in	230,327		33,237,203	18,573,299	3,186,017	55,226,846
Transfers out	(59,341,396)	(103,792)		(1,773,343)	(2,557,774)	(63,776,305)
Net other financing sources (uses)	<u>(59,111,069)</u>	<u>(103,792)</u>	<u>33,237,203</u>	<u>16,799,956</u>	<u>628,243</u>	<u>(8,549,459)</u>
Net change in fund balances	<u>1,857,735</u>	<u>97,074</u>	<u>(1,428)</u>	<u>(29,869,018)</u>	<u>1,104,550</u>	<u>(26,811,087)</u>
Fund balances, beginning of year, as restated (Note 16)	<u>93,607,599</u>	<u>6,288,361</u>	<u>516,318</u>	<u>67,453,184</u>	<u>11,805,528</u>	<u>179,670,990</u>
Fund balances, end of year	<u>\$ 95,465,334</u>	<u>\$ 6,385,435</u>	<u>\$ 514,890</u>	<u>\$ 37,584,166</u>	<u>\$ 12,910,078</u>	<u>\$ 152,859,903</u>

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities
(Exhibit A-2)**

Net change in fund balance - total governmental funds	\$ (26,811,087)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Loss on disposal of assets is not reported in the governmental funds but is reflected in the statement of activities.	
Capital acquisitions	21,163,006
Depreciation expense	(17,469,826)
Loss on disposal of assets	(1,589,053)
Donated assets are not reported in the governmental funds but are reflected in the statement of activities.	3,053,925
Revenues earned during the period that are not yet available are reported in the Statement of Activities, but not reported as revenues in the funds.	(1,801,444)
Proceeds from bond issuance and capital leases provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	
Debt decrease for compensated absences	208,514
Net other postemployment benefits liability	(4,704,065)
Repayment of debt principal	23,865,507
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities.	3,180,794
Expenses incurred during the period related to liabilities that are still outstanding and not yet due at year-end for accrued interest	(223,768)
Amortization of premiums	1,876,708
Change in net pension liability, which is recognized as an expense in the Statement of Activities as compared to the pension contributions reported in the governmental funds	<u>7,648,599</u>
Change in net position of governmental activities	<u>\$ 8,397,810</u>

The accompanying notes are an integral part of these financial statements.

June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

In 1610, the construction of Fort Henry and Fort Charles at the mouth of Hampton Creek marked the beginnings of Hampton. In 1619, the settlers chose an English name for the community, Elizabeth City. The settlement was known as Hampton as early as 1680 and in 1705, Hampton was recognized as a town. The City of Hampton (the City) was first incorporated in 1849 and classified as a city of the second class in 1908. In 1952 Hampton, the independent town of Phoebus and Elizabeth City County, encompassing Buckroe and Foxhill, were consolidated under one municipal government and classified as a city of the first class.

The following is a summary of the significant accounting policies.

Reporting Entity

The accompanying financial statements present the City and its component units. These statements conform to accounting principles generally accepted in the United States of America (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). Accordingly, the City follows GAAP; and presents a Comprehensive Annual Financial Report, which includes the Management's Discussion and Analysis, Government-wide (Statement of Net Position and Statement of Net Activities) Financial Statements and Budgetary Comparison Schedules.

Component Unit Disclosures

The component units discussed in the following section are included in the City's reporting entity because the City is financially accountable for these organizations, as defined within GAAP. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, and whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The discretely presented component units are: Hampton City School Board, Hampton Economic Development Authority, Coliseum Central Business Improvement District, Inc. and Downtown Hampton Development Partnership, Inc. All of these component units are considered major. They are reported as a separate column in Exhibits A-1 and A-2 and are also presented in detail in Exhibits A-11 and A-12.

Hampton City School Board

The Hampton City School Board (School Board) is a legally separate entity which oversees the operations of and establishes educational policies for the City's public school system. Seven School Board members are elected by the voters of the City of Hampton. The School Board has no power to levy taxes or issue bonds. Its budget is subject to approval by the City Council; however, Council only approves, rejects, or modifies the single amount requested by the School Board. The City provides operating and capital funding to the School Board. Therefore, the School Board is fiscally dependent and imposes specific financial burdens on the City. Combining statements for the School Board are presented in Exhibits G-1 through G-3. The School Board does not issue separate financial statements.

Hampton Economic Development Authority

The Hampton Economic Development Authority (EDA) is a public corporation established under the Industrial Development and Revenue Bond Act of the Commonwealth of Virginia, together along with ordinances adopted by the City Council. The EDA was established to promote and develop trade within the City by inducing manufacturing, industrial and commercial enterprises to locate or remain in the City. The EDA is included as a discretely presented component unit because the City appoints the governing body of the EDA, funds the EDA's operating and capital budgets and it receives all of the revenues derived from EDA land sales. The EDA does not issue separate financial statements.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Coliseum Central Business Improvement District, Inc.

The Coliseum Central Business Improvement District, Inc. (Coliseum BID) was incorporated on January 22, 1996, to promote, develop and market the Coliseum Central Business District in the City. Coliseum BID was created by action of the City Council under provisions of the *Code of Virginia*. An additional tax is assessed on commercial real estate located in the District to provide funds for the economic development of the District. City Council levies the additional tax for the District and provides other funding for operations. Coliseum BID is included in the City's reporting entity because it is fiscally dependent and it imposes specific financial burdens on the City. A copy of the separately issued financial statements for Coliseum BID may be obtained by writing to Coliseum BID, 2021 Cunningham Drive, Suite 101, Hampton, Virginia 23666 or by calling (757) 826-6351.

Downtown Hampton Development Partnership, Inc.

The Downtown Hampton Development Partnership, Inc. (Downtown Hampton) was incorporated on August 15, 1995, to promote, develop, and market the Downtown Hampton Business Improvement District. Downtown Hampton was created by action of the City Council under provisions of the *Code of Virginia*. The City assesses an additional tax on the value of the commercial real estate located in the District to provide funds for the economic development of the District. City Council levies the additional tax for the District and provides other funding for operations. Downtown Hampton is included in the City's reporting entity because it is fiscally dependent and it imposes specific financial burdens on the City. A copy of the separately issued financial statements for Downtown Hampton may be obtained by writing to Downtown Hampton Development Partnership, 756 Settlers Landing Road, Hampton, Virginia 23669 or by calling (757) 727-1271.

Other Related Organizations

The financial statements of the following public organizations, commissions, authorities and boards are not included in the reporting entity. These organizations are political subdivisions created under the laws of the Commonwealth of Virginia. Their governing boards are appointed, at least in part, by the City. The City's responsibility in most instances is limited to pro rata representation through appointments to the governing boards. The individual governing boards of the organizations appoint management, establish budgetary control and are accountable for their own fiscal affairs including deficits, debt service, operating costs, etc. The City is not financially accountable for these organizations.

Peninsula Airport Commission

The Peninsula Airport Commission (PAC) operates the Newport News/Williamsburg International Airport. Board membership is allocated among and appointed by the various localities. The PAC's operating and capital expenditures, including debt service, are financed by its operations and contributions from the participating localities. The City has no budgetary authority, is not responsible for deficits or debt service and cannot set rates for services or uses of the airport facilities.

Other

There are certain other agencies and commissions that service the City of Hampton and surrounding localities whose board membership is allocated among and appointed by the various localities. These agencies include: Hampton Roads Transit (HRT), Hampton Roads Planning District Commission (HRPDC), Virginia Peninsula Public Service Authority (VPPSA), Hampton Roads Economic Development Alliance (HREDA) and the Peninsula Council for Workforce Development (PCFWD). Expenditures of these agencies are financed by federal and state grants, fees, and contributions. During the year ended June 30, 2016, the City provided operating and capital support of \$4,436,857 to HRT, \$153,505 to HRPDC, \$10,250 to VPPSA, \$129,846 to HREDA and \$74,435 to PCFWD.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Jointly Governed Organizations

Hampton-Newport News Community Services Board

The City of Hampton has one jointly governed organization, the Hampton-Newport News Community Services Board (CSB). The CSB operates as an agent for the Cities of Hampton and Newport News in the establishment and operation of community mental health, mental retardation and substance abuse programs as provided for in Chapter 10 of Title 37.1 of the Code of Virginia, relating to the Virginia Department of Mental Health and Mental Retardation. The CSB designates its own management and adopts its own budget. The operations are financed principally by state and federal funds. The City provided operating support of \$1,570,662 to the CSB during fiscal year 2016.

Government-wide and Fund Financial Statements

The government-wide reporting model (Exhibits A-1 and A-2) includes financial statements prepared using full accrual accounting for all government activities. The government-wide financial statements, the Statement of Net Position and the Statement of Activities, report information on all of the nonfiduciary activities of the City and its component units. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for services. The Primary Government is reported separately from certain legally separate component units for which the Primary Government is financially accountable.

Statement of Net Position

The Statement of Net Position (Exhibit A-1) is designed to display the financial position of the Primary Government (governmental and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense in the Statement of Activities. The net position of a government is displayed in three categories – net investment in capital assets, restricted and unrestricted. Also included in the Statement of Net Position are long term debt and obligations.

Statement of Activities

The government-wide Statement of Activities (Exhibit A-2) reports expenses and revenues in a format that focuses on the cost of each of the City's functions. The expenses of the individual functions are compared to the revenues directly generated by the function through user fees or intergovernmental grants.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment is offset by program revenues. Program revenues include charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and grants and contributions that are restricted to meet the operational and/or capital requirements of a particular function or segment. Taxes and other items that are not included in program revenues are classified as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City reports the following major governmental funds: the General, Economic Development Special Revenue, Debt Service and Capital Project funds. The major enterprise funds are: Convention Center, The Hamptons, Virginia Air and Space Center Museum, and Wastewater Management funds.

Basis of Accounting

The basis of accounting applied to a fund and the discretely presented component units is determined by the measurement focus. Basis of accounting refers to when revenues, expenditures (governmental) or expenses (proprietary), transfers and the related assets and liabilities are recognized in the accounts and reported in the financial statements.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

The government-wide financial statements, all Proprietary Funds, the Pension Trust Fund, and Discretely Presented Component Units are accounted for using the economic resources measurement focus. This measurement focus is the same as that used by commercial enterprises. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructures, including bridges and roads, and general obligation debt). The accrual basis of accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

The accrual basis of accounting is followed in the government-wide financial statements, the Internal Service, Enterprise, Fiduciary Funds and the Discretely Presented Component Units. Under this method of accounting, revenues are recognized when earned and expenses are recognized when the related liability is incurred. Proprietary funds distinguish operating revenues and expenses from non-operating items. Generally, operating revenues and expenses result from services provided by or producing and delivering goods in connection with the proprietary fund's principal operations.

All Governmental Funds are accounted for using the current financial resources measurement focus and modified accrual basis of accounting. This means that generally only current assets and current liabilities are reflected on their balance sheets. Their operating statements present increases (revenues and other financing resources) and decreases (expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, followed by the General, Special Revenue, Debt Service, and Capital Projects Funds, revenues are recognized when they become both measurable and available to finance operations of the current year. Revenues considered susceptible to accrual consist primarily of property taxes, certain grants and sales and utility taxes. Accordingly, real and personal property taxes are recorded as revenue when levied and billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unearned revenue. Revenues from federal, state, and other grants, used to fund specific City expenditures, are recorded at the time of receipt of notification of the grant. Revenues from general purpose grants are recognized in the period to which the grant applies. Sales and utility taxes collected by the State or utility companies and subsequently remitted to the City are recognized as revenue upon collection by the State or utility company, which is generally in the month preceding receipt by the City. Licenses, permits, fines and rents are recorded as revenue when received. Expenditures, other than interest and principal on long-term debt, are recorded as the related liabilities are incurred, if measurable. Interest and principal on long-term debt are recognized when due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

The City's procedures for establishing the budgetary data reflected in the financial statements for the General Fund and School Operating Fund are as follows:

1. The City Manager submits to the City Council a recommended budget no later than April 15th, for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted by City Council to obtain taxpayer comments.
3. The budget is legally enacted through the passage of an ordinance by City Council no later than May 15th.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

4. The City Manager or his/her designee is authorized to transfer budgeted amounts within departments within the General Fund. Revisions that alter the total appropriations for a department must be approved by City Council. Therefore, the level of control at which expenditures may not exceed appropriations is the total expenditure level of each department. Transfers within the School Operating Fund are under the control of the School Board.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and School Board Component Unit Operating Fund.
6. Budgets for the City General Fund and School Board Operating Fund are legally adopted on a basis consistent with Generally Accepted Accounting Principles.

Budgeted amounts are as originally adopted or as amended by City Council and the School Board during fiscal year 2016. Unencumbered appropriations lapse at year-end in the General and School Operating Funds. Appropriations which are encumbered at year-end are carried forward into the following year's appropriation to allow liquidation of the encumbrances.

An annual budget is not adopted for the Debt Service Fund because effective control is alternatively achieved through general obligation bond indenture provisions. Annual budgets are not employed for Capital Projects Fund and Special Revenue Funds because each program grant or capital project is approved separately.

General Property Tax Calendar

Real property is assessed at fair market value as of July 1 of each year; personal property and public service corporation properties (real and personal) are assessed as of January 1 of each year. Taxes are levied on a fiscal-year basis for real property and a calendar year basis for personal property. Taxes are due and payable in two equal installments on June 5th and December 5th.

Penalties are assessed at 10% of the tax due for real estate and personal property which are not paid by the due date. Interest at 10% per year for real and personal property is charged on unpaid tax installments. A lien is recorded on all real property with delinquent real estate taxes not paid within three years.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and School Operating Fund. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed or assigned will be reported within committed or assigned fund balance, as appropriate.

Investments

Investments of the Hampton Employees' Retirement System are stated at fair value, except for short-term investments which are stated at cost. All other City investments are generally stated at fair value, except for short-term cash equivalents, which are stated at cost.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Receivables

Receivables of the General Fund are stated net of an allowance for uncollectible taxes of \$1,376,805. Management has determined that the allowance is sufficient to provide for any losses that may be sustained on realization of the accounts receivable.

Inventories

The inventories reflected in the Enterprise Funds and School Funds consist principally of food items and items held for resale and are valued at cost (first-in, first-out). The General Fund's inventory consists of consumable supplies valued at cost (first-in, first-out). The Internal Service Funds' inventories consist principally of expendable items held for consumption and are valued by the average-cost method. Inventories are recognized as expenditures when consumed or sold.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Land Held for Resale

Land held for resale by EDA is stated at cost or, if donated, at acquisition value as of the date received. Development costs of the EDA are added to the cost of the land when incurred. Total land and development costs are allocated to total saleable acreage under development and are charged to expenses on a prorated basis when the land is sold.

Interfund Activity

Activity between funds that represents lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (current portion) or "advances to/from other funds" (non-current portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as internal balances (see note 3).

Restricted Assets

Restricted assets represent the following invested assets set aside in The Hamptons (Golf Course), Virginia Air and Space Center (Museum), Convention Center, and discretely presented component unit – EDA:

	Convention Center	Component Unit- EDA
Restricted Assets		
Cash:		
Operating and Maintenance Account	\$	\$ 173,428
Operating/Capital Reserve Fund	1,938,027	686,094
Bond Fund	22,255	
Debt Service Reserve Fund	389,728	564,093
Investments:		
Operating Reserve Fund	6,600,333	
Bond Fund	1,637,580	
Debt Service Reserve Fund	6,795,367	
	<u>\$ 17,383,290</u>	<u>\$ 1,423,615</u>

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

The assets for Convention Center and EDA are classified as restricted since their use is limited by the Bond Trust Indenture.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and intangible assets (e.g., easements and computer software), are reported at historical cost, or estimated historical cost if actual cost is not available, less accumulated depreciation for the Primary Government in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets, other than computer equipment, computer software, and infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$2,500 and an estimated useful life greater than one year. Computer equipment and computer software are capitalized when the initial, individual cost exceeds \$1,000 and \$5,000, respectively. Infrastructure assets that meet the capitalization threshold, generally \$10,000, are capitalized and reported in the government-wide financial statements. Major outlays for capital assets and improvements are capitalized as projects are constructed. Historical cost of self-constructed infrastructure includes direct labor, direct materials and overhead costs allocated based on direct labor hours charged to the project. Capital assets capitalized at a lower threshold continue to be reported on the basis of past practice. The cost of normal maintenance and repairs that do not add to the value or materially extend asset lives are not capitalized. Donated capital assets are recorded at acquisition value at the date of donation. When assets are retired or otherwise disposed of, the related cost and accumulated depreciation are eliminated and any resulting gain or loss is reflected as non-operating revenue or expense.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	10-40
Improvements other than buildings	10-50
Equipment and computer software	3-20
Exhibits	7-10
Infrastructure	5-75
Landfill	Percentage of completion

The City capitalizes interest costs on funds borrowed to finance the construction of capital assets in the proprietary funds.

The Landfill in the Solid Waste fund is recorded at cost and amortized using the straight-line method based on tonnage received in relation to total expected capacity.

The Hampton Employees' Retirement System capitalizes equipment, other than computer equipment, over \$2,500. Computer equipment having a cost of \$1,000 or more is capitalized. Capital assets are recorded at cost and depreciation is recorded using the straight-line method over the estimated useful lives of the assets. The estimated useful life of equipment is 3 – 20 years.

The capital assets of the discretely presented component units – School Board, Economic Development Authority, Downtown Hampton Development Partnership, Inc., and the Coliseum Central Business Improvement District, Inc. are stated at cost. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets.

Deferred outflows/inflows of resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. One of the deferred outflows

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

resources is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other deferred outflows of resources are related to pensions which consist of employer contributions subsequent to the measurement date and changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized in accordance with GAAP.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items, which arise only under a modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, unavailable revenue and property taxes collected in advance are reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from three sources: property taxes, charges for services and program income. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The governmental funds report revenues collected in advance from one source: property taxes. These amounts are deferred and recognized as an inflow of resources when the taxes are levied.

The other deferred inflows of resources are related to pensions which consist of differences between expected and actual experience, net difference between projected and actual earnings on pension plan investments, and changes in proportion and differences between employer contributions and proportionate share of contributions. These amounts are deferred and amortized in accordance with GAAP.

Fund Balance

Fund balance is essentially the difference between the assets and liabilities reported in a governmental fund. There are five separate components of fund balance, each of which identifies the extent to which the City is bound to honor constraints on the specific purpose for which amounts can be spent. The five categories are as follows:

Nonspendable Fund Balance – Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Examples would be inventory, long term receivables, or a fund that is legally or contractually required to be maintained intact such as a permanent fund.

Restricted Fund Balance – Includes amounts that can be spent only for specific purposes as stipulated by constraints imposed by either external creditors, grantors, laws or regulations of other governments or they are imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – Includes amounts that can only be used for specific purposes pursuant to a formal action of the government's highest level of decision-making authority.

Authority to Commit – Commitments for specific purposes require a formal action (resolution) of the City Council. A majority vote is required to approve or remove a commitment. Committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (resolution).

Assigned Fund Balance – Includes amounts intended to be used by the City of Hampton for a specific purpose but do not meet the criteria to be classified as restricted or committed. The intent should be expressed by the governing body itself or an official or committee that the governing body has delegated the authority to assign amounts to be used for specific purposes.

Authority to Assign – The City Council's fund balance policy has delegated to the City Manager and Director of Finance the authority to assign amounts to be used for specific purposes; however, before the assigned funds can be spent, such amounts, excluding appropriations related to encumbrances that are carried forward to the subsequent fiscal year, must be appropriated by City Council.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Unassigned Fund Balance – The residual classification for the General Fund. This category represents fund balance that has not been restricted, committed or assigned to specific purposes within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the City of Hampton to consider restricted amounts to have been spent first.

When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

The City will maintain a minimum unassigned fund balance in the General Fund equal to 10% of the total revenues for the General and School Operating Funds. To the extent the minimum unassigned fund balance falls below policy, the shortfall shall be replenished over a three-year period.

A schedule of fund balances by specific purpose is provided below:

	General	Economic Development	Debt Service	Capital Projects	Other Governmental Funds	Total Governmental Funds
Fund Balances:						
Nonspendable:						
Inventory	\$ 25,804	\$	\$	\$	\$	\$ 25,804

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Net Position(deficit) - Enterprise Funds and Internal Service Funds

The net position(deficit) at June 30, 2016 in the Enterprise Funds are as follows:

	<u>Primary Government</u>	<u>Discretely Presented Component Units</u>
Wastewater Management	\$ 54,278,066	\$
The Hamptons Golf Course	(3,229,731)	
Museum	12,370,832	
Hampton Roads Convention Center	5,431,221	
Non-Major Enterprise:		
Hampton Coliseum	8,865,530	
The Woodlands Golf Course	515,499	
Solid Waste	7,141,694	
Refuse-Steam Plant	4,043,632	
Component Units:		
School Board		(199,139,658)
Economic Development Authority		28,157,319
Coliseum Central Business Improvement District, Inc.		1,289,029
Downtown Hampton Development Partnership, Inc.		978,566

The deficit in The Hamptons Golf Course Fund is primarily attributed to accumulated depreciation charges on capital assets and current year net operating losses. Net operating losses before depreciation are usually funded in the succeeding year by transfers from the General Fund.

The net position in the Internal Service Funds are as follows:

Internal Service:	
Equipment Replacement	\$ 18,041,824
Fleet Management	(932,460)
Risk Management	12,728,515
Information Technology	1,005,950

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's and School Board's retirement plans (Plans) and the addition to/deductions from the Plans' net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS) and Hampton Employees' Retirement System (HERS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused annual and sick leave benefits, which will be utilized in future periods or will be paid to employees upon separation from City service. In governmental fund types, the cost of annual and sick benefits is recognized when payments are made to employees. The current and long-term liability for accrued annual and sick leave benefits at June 30, 2016 has been reported in the government-wide statements, representing the City's commitment to fund such costs from future operations. Proprietary fund types accrue annual and sick leave benefits in the period they are earned. Such benefits are included in accounts payable and other liabilities in the government-wide statements. In prior years, the General, Federal Grants, Community Development and Stormwater Management Funds have been used to liquidate the liability for compensated absences.

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise each fund's assets, liabilities, deferred inflows/outflows of resources, fund balance or net position, revenues and expenditures or expenses.

2. BASIS OF PRESENTATION - FUND ACCOUNTING:

The following is a description of the funds included in the accompanying financial statements.

General Fund

The General Fund is the City's primary operating fund. The General Fund accounts for all revenues and expenditures of the City, which are not accounted for in the other funds. Revenues are primarily derived from general property taxes, other local taxes, revenues from other governmental units and recovered costs. A significant part of the General Fund's revenue is transferred to other funds, principally to fund the operations of the City public schools and debt service requirements of the City. Expenditures include, among other things, those for general government, public safety, highways and streets, culture and recreation, health and human services.

Debt Service Fund

The Debt Service Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for principal and interest. Primary resources of the Debt Service Fund are derived from transfers from the General Fund and the proceeds from the issuance of refunding bonds.

Capital Projects Fund

The Capital Projects Fund accounts for all general City and School construction projects and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays which are financed through general obligation debt and general operating funds, with the exception of projects related to Enterprise and Internal Service Funds.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

The Federal Grants Fund accounts for revenues and expenditures of all federal, state and recovery act grants awarded to the City except the Community Development entitlement. The Federal Grants Fund also accounts for program income and matching requirements related to all awarded City grants. Federal grants received by the Component Unit - School Board are included in the discretely presented component unit.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

2. BASIS OF PRESENTATION - FUND ACCOUNTING , continued:

The Community Development Fund accounts for revenues and expenditures related to entitlements received by the City under the Community Development Act of 1974, administered by the United States Department of Housing and Urban Development, to foster the development of the Healthy Neighborhoods Initiative. Other revenues include program income that is generated from repayments of loans, the sale of rehabilitated homes and the Revolving Loan Fund.

The Economic Development Fund was established to finance the costs of capital investments, improvements, expenditures and any other approved expenditure, which will assist economic development and improve the physical appearance of the City. Revenues are earned from land sales, special assessments, projects financed by the fund and rental receipts.

The Stormwater Management Fund accounts for revenues and expenditures related to maintaining the storm drainage system and the quality of our surface waters. Revenues are derived from a service charge levied on all developed property in the City.

The Pembroke Complex Fund accounts for the receipts and disbursements related to the operations of the Pembroke Community Service Center. The facility is owned by the Hampton Redevelopment and Housing Authority and maintained by the City from the rents charged to the various tenants of the building.

The Law Library Fund accounts for receipts and disbursements of funds specifically held for the purpose of purchasing law books. Revenues are derived from a court case fee, which is legally mandated to support the operations of the law library.

Enterprise Funds

Enterprise Funds, (Exhibit A-6, A-7 and A-8), are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs of operating and providing services to the general public are completely or partially financed from user fees; or (b) where the governing body has determined that the periodic determination of net results of operations is appropriate for management control and accountability.

The City's Enterprise Funds account for the operations of the Hampton Coliseum, The Woodlands Golf Course, The Hamptons (Golf Course), Solid Waste, the Virginia Air and Space Center (Museum), Convention Center, Wastewater Management, and the Refuse-Steam Plant. Revenues of the Hampton Coliseum, Woodlands Golf Course, The Hamptons, the Solid Waste Fund, the Refuse-Steam Plant Fund and the Wastewater Management Fund are derived primarily from user fees. The Convention Center Fund revenues are derived from user fees and meal and lodging taxes. The Museum's operating revenue is derived from donations and user fees, including federal funds from the National Aeronautics and Space Administration for educational/user fee subsidy. The Museum fund accounts for all operational and revenue bond trust activity.

Internal Service Funds

The Internal Service Funds account for the services provided to substantially all City departments or other governmental units on a cost-reimbursement basis. The City's internal service funds include Equipment Replacement, Fleet Services, Risk Management and Information Technology.

The Equipment Replacement Fund owns all on-road rolling stock of the City and leases the equipment to the various operating departments. Leasing income is used for replacement of the equipment. The Fleet Services Fund accounts for the operation of the City's central automotive maintenance service facility. The Risk Management Fund accounts for the costs of providing insurance coverage and certain self-insured liabilities of the City and the School Board. The Information Technology Fund accounts for the costs of providing the following services: personal computer support, mailing and telecommunications services.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

2. BASIS OF PRESENTATION - FUND ACCOUNTING , continued:

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and other governmental units. The Fiduciary Funds consist of the Hampton Employees' Retirement System (HERS), Special Welfare and Other Agency Funds.

HERS pension trust fund (Exhibits A-9 and A-10) accounts for the revenues and expenses related to the City-sponsored retirement plan, which is administered by a board of trustees appointed by City Council. The Special Welfare Fund is an agency fund that accounts for receipts and disbursements for special assistance programs and activities sponsored by the City's Social Services department. The Other Agency Fund accounts for amounts held in trust by the City for others such as the Peninsula Drug Task Force.

3. INTERFUND BALANCES:

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" or "advances to/from other funds" in the fund statements or as "internal balances" in the Statement of Net Position. All residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

The \$629,406 due to the General Fund from the Risk Management Fund is from the transfer of the line of duty program to governmental activities. The \$1,100,000 due to the Convention Center Fund from the General Fund is for operating support for the year. The General Fund's due from of \$13,723,028 is primarily to cover negative cash balances for several funds. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur and (2) payments between the funds are made.

Interfund Receivables and Payables:

<u>Primary Government:</u>	<u>Due From</u>	<u>Due To</u>
General Fund	\$ 13,723,028	\$ 2,911,857
Capital Projects	2,979,783	6,434,368
Non-Major Governmental Funds	1,512,812	3,186,165

4. DEPOSITS AND INVESTMENTS:

For purposes of reporting cash flows, cash and cash equivalents including demand deposits, certificates of deposit, money market funds and repurchase agreements.

Deposits

On June 30, 2016, the carrying value of the City's deposits was \$25,870,075 and the bank balance was \$8,545,541. All of the bank balances are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. The Commonwealth of Virginia Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and notifying local governments of compliance by financial institutions. All deposits are considered fully collateralized.

Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of states and local governments, obligations of international development banks, "prime quality" commercial paper and certain corporate notes, repurchase agreements, certificates of deposit in United States banks, State Treasurer's Local Government Investment Pool (LGIP), and the State Non-Arbitrage Program (SNAP).

Investments for the City are primarily reported at fair value. The State Treasurer's LGIP operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

The LGIP and SNAP are money market funds that are reported at amortized cost.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

4. DEPOSITS AND INVESTMENTS , continued:

HERS Investments

Investments are stated at fair value except for short-term investments. These are reported at cost, which approximates fair value. The fair value of mutual funds traded on a national securities exchange is determined by using the last reported sales price on the last business day of the fiscal year; listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked prices. The Bank of New York Mellon serves as custodian of HERS investments.

Investment Policy

The City's investment policy requires that all investments and investment practices meet or exceed all statutes and guidelines governing the investment of public funds in Virginia, including the Code of Virginia and the guidelines established by the State Treasury Board. State statutes limit investment in commercial paper to no more than 35% of the total portfolio, with not more than 5% per issuer. The City's investment policy addresses credit risk, custodial credit risk, interest rate risk, and concentration of risk, in which instruments are to be diversified and maturities timed in accordance with anticipated needs in order to minimize any exposure to fair value losses. The City's policy does not address foreign currency risk.

HERS Investment Policy

The Board of Trustees of the System has the full power to invest and reinvest the trust funds in accordance with Section 28-47 of the City Code, as amended. It requires the Board of Trustees to invest the assets with the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims. In addition, the investments are required to be diversified so as to minimize the risk of losses under the circumstances it is clearly prudent not to do so. All investments shall be clearly marked to indicate ownership by the System. The HERS investments are held by the Bank of New York Mellon.

Credit Risk

The City's investment policy requires all bonds or notes of the Commonwealth of Virginia, states, or political subdivisions of any state of the U.S., or asset-backed securities have at least AAA ratings by two rating agencies, one of which must be Moody's Investor Services (Moody's) or Standard & Poor's (S&P). Repurchase agreements must be collateralized by Treasury or Agency obligations of which the market value is at least 102% of the purchase price of the security. Certificates of deposit of domestic banks must have at least A-1 rating by S&P and P-1 by Moody's for maturities less than 1 year, and AA by S&P and Aa by Moody's for maturities over one year and not exceeding 3 years. Commercial paper must be rated "Prime Quality" with at least a P-1 rating by Moody's, A-a rating by S&P, and Duff and Phelps within its rating of D-1. Corporate notes and bonds must have a rating of at least A by S&P, and A by Moody's. The City also invested funds during the year with the State Treasurer's Local Government Investment pool, a 2a7 like pool, and the SNAP, both rated AAAm by Standard & Poor's.

HERS Credit Risk

HERS manages its credit risk by limiting investments in domestic bonds to those rated investment grade or better.

HERS Concentration of Credit Risk

HERS manages its exposure to concentrations of credit risk by limiting investments in domestic bonds for a single Non U.S. Government security to no more than 5% of the Plan's total investments. With the exception of passively managed investment vehicles seeking to match the returns of a broadly diversified market index, no single investment pool or mutual fund shall comprise more than 20% of the Plan's total investments.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

4. DEPOSITS AND INVESTMENTS , continued:

U. S. Government Securities

The City invested in U. S. Government Securities which consisted of FHLB and FCAR discount notes. U. S. Government Securities are subject to interest rate risk.

Custodial Credit Risk

All securities purchased for the City shall be held by the City or by the City's designated third party custodian. Securities are only purchased from brokerage firms/institutions that are under the Commonwealth of Virginia's supervision and located in the Commonwealth of Virginia.

HERS Custodial Credit Risk

HERS limits its exposure to custodial credit risk by maintaining its investments in custodial accounts. Securities that exist in book entry form are held in trust by the custodian in the name of the Plan.

Interest Rate Risk

As a means of limiting exposure to fair value losses arising from rising interest rates, the City manages the investment maturities of operating funds to coincide with the City's projected cash flow needs. Bond proceeds are invested in compliance with the specific requirements of the bond covenants.

The City limits U.S. Treasury securities, U.S. Agency securities, and corporate notes to maturities of less than five years; bankers' acceptances to maturities of less than 180 days; and commercial paper to maturities of less than 270 days.

HERS Interest Rate Risk

HERS does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Interest rate risk is monitored by measuring the weighted average duration of the portfolio.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

4. DEPOSITS AND INVESTMENTS , continued:

In fiscal year 2016, the City implemented Statement No. 72 of the Governmental Accounting Standards Board, Fair Value Measurement and Application, which requires the City to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. Statement No. 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. Level 1 inputs are quoted prices for identical assets or liabilities in active markets. Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for asset or liability.

Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs and Level 3 inputs are significant unobservable inputs (the City does not value any of its investments using Level 3 inputs).

The following is a summary of the fair value hierarchy for investments of the City as of June 30, 2016:

	Investments at Fair Value June 30, 2016	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Construction in Progress

Several capital projects were in various stages of completion on June 30, 2016. In accordance with the City's accounting policies and practices, these projects will remain in construction in progress until completion, at which time they will be transferred into the various capital asset accounts in the government-wide statements, Enterprise Fund and Discretely Presented Component Units. At June 30, 2016, construction in progress by project was comprised as follows:

Governmental Activities

	Project Authorization	Expended to June 30, 2016
Infrastructure	\$ 44,173,792	\$ 17,916,426
Construction and renovation	4,927,865	1,572,882

	<u>\$ 2,100,000</u>	<u>\$ 329,232</u>

7. BUDGETARY - GAAP REPORTING RECONCILIATION:

The City adopts an annual budget for the General Fund, but does not adopt an annual budget for any of the Special Revenue Funds except for the Stormwater Management Fund. Resources are provided for and appropriated individually throughout the year as they become available to the City. The Pearl Young Fund, a fund previously reported as a Special Revenue Fund but now is reported as a part of the General Fund for GAAP purposes, does not have a legally adopted budget. Therefore, the Pearl Young Fund has not been included in Exhibit A-5 Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual. Therefore, the General Fund budget basis is different from GAAP.

Reconciliation to the General Fund statements (GAAP):	
Exhibit A-5 Fund balances, June 30, 2016 (Budget basis)	\$ 95,398,011
Pearl Young Fund's fund balances	67,323
Exhibit A-4 Fund balances, June 30, 2016 (GAAP)	<u>\$ 95,465,334</u>

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS

8. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT:

The following is a summary of the changes in general obligation debt and other indebtedness during the year ended June 30, 2016:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Bonds payable:					
Serial bonds	\$ 270,229,570	\$	\$ (22,336,163)	\$ 247,893,407	\$ 21,738,152
Unamortized premium and discount	35,831,048		(2,764,195)	33,066,853	2,755,100
Capital leases	8,290,093		(1,491,905)	6,798,188	1,673,541
Capital leases - Internal Service Funds	3,603,820		(884,513)	2,719,307	874,060
Compensated absences	7,608,845	3,299,363	(3,545,316)	7,362,892	3,545,316
Compensated absences - Internal Service Funds	159,635	82,697	(63,137)	179,195	63,137
Claims and judgements - Internal Service Funds	10,668,203	492,089	(6,354,155)	4,806,137	3,559,162
Net OPEB obligation - Line of Duty Benefits	2,411,934	762,903	(53,597)	3,121,240	
Net pension liability - Internal Service Funds	2,195,795	214,690		2,410,485	
Net OPEB obligation - Healthcare Benefits	40,096,145	7,034,728	(3,039,969)	44,090,904	
Net pension liability	127,657,263	4,854,187		132,511,450	
	<u>\$ 508,752,351</u>	<u>\$ 16,740,657</u>	<u>\$ (40,532,950)</u>	<u>\$ 484,960,058</u>	<u>\$ 34,208,468</u>
Governmental activities long-term liabilities	<u>\$ 508,752,351</u>	<u>\$ 16,740,657</u>	<u>\$ (40,532,950)</u>	<u>\$ 484,960,058</u>	<u>\$ 34,208,468</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but is recognized as an expenditure when due.

Balances at June 30, 2016

Long-term liabilities (detail above)	\$ 484,960,058
Less debt - Internal Service Fund	<u>(10,115,124)</u>
Combined adjustment	<u>\$ 474,844,934</u>

Section 148 of the Internal Revenue Code of 1986 requires public entities to refund interest earned in excess of interest paid over the first five years outstanding on tax exempt borrowings. The regulations are applicable to borrowings incurred subsequent to August 1986. The City has calculated the rebate due as of June 30, 2016 and reflected the liability, if any, in the governmental activities column of the Statement of Net Position.

In prior years, the General Fund has been used to liquidate the net OPEB obligations.

Enterprise Funds

On June 13, 2012, the City issued \$33,750,000 in Convention Center Refunding Revenue Bonds, Series 2012A with interest ranging from 4.826% to 5.125%. The proceeds of the bonds were used to refund a portion of the City's Convention Center Revenue Bonds, Series 2002.

On June 2, 2011 the City issued \$52,460,000 in Convention Center Refunding Revenue Bonds, Series 2011 with interest ranging from 2.922% to 5.125%. The proceeds of the bonds were used to refund a portion of the City's Convention Center Revenue Bonds, Series 2002.

Convention Center Revenue Bonds (Bonds) in the amount of \$106,305,000 were issued November 1, 2002 with interest ranging from 3.50% to 5.25%. The proceeds of the Bonds were used to finance the cost of the construction of a convention center, to retire a \$7,585,000 Revenue Bond Anticipation Note issued in connection with the project and to pay interest on the Series 2002 Bonds. The bonds are payable solely from and collateralized by, revenues derived by the City from ownership and operation of the project.

In prior years, the City defeased certain revenue bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On June 30, 2016, no defeased bonds were outstanding.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

8. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT , continued:

Revenue bond debt service requirements to maturity are as follows:

Fiscal year ending June 30	Principal	Interest
2017	\$ 2,555,000	\$ 3,917,435
2018	2,680,000	3,791,388
2019	2,815,000	3,656,104
2020	2,960,000	3,511,919
2021	3,110,000	3,360,150
2022-2026	18,095,000	14,258,818
2027-2031	23,370,000	9,085,801
2032-2036	23,620,000	2,451,394
	<u>\$ 79,205,000</u>	<u>\$ 44,033,009</u>

In April 2005, the City issued \$53,210,000 in General Obligation Public Improvement Bonds, Series 2005A with interest ranging from 3.00% to 5.00%. The Refuse-Steam Plant used \$2,000,000 of the bond proceeds to finance the mandated replacement of the air pollution retrofit.

On April 1, 2002, the City issued \$30,155,000 in General Obligation Public Improvement Bonds, Series 2002 with interest ranging from 4.25% to 5.00%. The Refuse-Steam Plant used \$5,000,000 of the bond proceeds to finance an air pollution control system.

All of these general obligation bonds are expected to be repaid from the resources of the Refuse-Steam Plant Fund; therefore, the bonds are accounted for in this fund.

Debt service on the foregoing debt is payable during future fiscal years ending June 30 as follows:

General Obligation Bonds		
Year	Principal	Interest
2017	\$ 391,848	\$ 159,692
2018	411,834	140,099
2019	431,976	119,507

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

8. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT , continued:

Discretely Presented Component Unit-EDA:

On September 7, 2001, the EDA issued Lease Revenue Bonds in the amount of \$11,286,888. The proceeds from the bond issue were used to finance the construction of the Peninsula Workforce Development Center. The bonds are payable from revenues generated from the lease of the building with the lease term being equivalent to the life of the bond issue. On each January 1 and July 1 beginning January 1, 2002, to and including July 1, 2021, the EDA shall pay semi-annual installments of principal and interest in the amount of \$495,030.

Details at June 30, 2016 are as follows:

	2002 Revenue Bonds
	<u>Tax-Exempt</u>
Outstanding Debt	\$ 4,335,288
Interest	6.17%
Years of maturity	2017- 2022

Discretely Presented Component Unit-School Board:

On February 8, 2013, the School Board entered into a master maintenance and sales lease agreement with Ricoh Business Solutions. The lease is payable in monthly installments of \$4,190 at an interest rate of 4.1%. At June 30, 2016 the outstanding balance on the lease is \$33,523.

On March 27, 2013, the School Board entered into a master lease purchase agreement with Wells Fargo to purchase forty-nine copiers. The lease is payable in monthly installments of \$6,361 at an interest rate of 3.85%. At June 30, 2016 the outstanding balance on the lease is \$56,344.

Internal Service Funds:

The City is self-insured for workmen's compensation benefits and general liability insurance claims. At June 30, 2016, the liability for existing claims amounted to \$4,806,137. Workmens' compensation benefit claims are payable weekly or monthly through 2023.

The City has several capital lease obligations reflected in the Internal Service Funds for equipment purchases. The following is a description of those capital lease obligations:

Equipment Replacement Fund:

On July 9, 2009, the City entered into a master lease purchase agreement with SunTrust Equipment Finance and Leasing Corporation to purchase rolling-stock equipment. During fiscal year 2010, the City financed a fire truck through this agreement. The lease is payable in 14 quarterly remaining equal installments of \$16,899 at an interest rate of 4.52%. At June 30, 2016 the outstanding balance on the lease is \$217,691. On June 25, 2012 the City extended the term under this master lease purchase agreement and financed the replacement of eight fire trucks. The lease is payable in 12 quarterly equal installments of \$216,134 at an interest rate of 2.24%. At June 30, 2016, the outstanding balance on the lease is \$2,501,616.

Debt service on the foregoing debt payable during fiscal years ending June 30 is as follows:

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

8. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT , continued:

On April 23, 2015, the City issued \$46,770,000 in General Obligation Public Improvement Bonds, Series 2015A with interest rates ranging from 3.5% to 5.0% and \$56,250,000 in General Obligation Public Improvement Refunding Bonds, Series 2015B with an interest rate of 5.0%. The proceeds of the 2015B Bonds were used to refund portions of the City's Series 2007 General Obligation Bonds in the amount of \$63,320,000 and the remaining balance will be used to finance the cost of general capital improvement projects of the City. Interest on the Bonds is due and payable semi-annually on each March 1 and September 1.

On April 24, 2013, the City issued \$38,865,000 in General Obligation Public Improvement Bonds, Series 2013 with interest ranging from 2% to 5%. The proceeds of the bonds will be used to finance the cost of general capital improvements of the City, including construction of a new courthouse.

On June 20, 2012, the City issued \$26,390,000 in General Obligation Public Improvement Refunding Bonds, Series 2012A (Tax-Exempt) and \$18,380,000 General Obligation Public Improvement Refunding Bonds, Series 2012B (Taxable) with interest rates ranging from .51% to 5%. The proceeds of the bonds were used to refund portions of the City's Series 2002, 2002A, 2004 and 2005A General Obligation Bonds.

On July 8, 2010, the City issued \$2,545,000 in General Obligation Virginia Public School Authority Qualified School Construction Bonds, Series 2010C with interest payable at the rate of 5.31% per annum. The proceeds of the bonds were used to pay for the cost of lighting upgrades in the City schools.

On March 3, 2010, the City issued \$65,595,000 in General Obligation Public Improvement and Refunding Bonds, Series 2010A with interest ranging from 2% to 5% and \$7,190,000 in General Obligation Public Improvement Direct Pay Build America and Recovery Zone Economic Development Bonds, Series 2010B with interest ranging from 4.34% to 5.63%. The proceeds of the bonds were used to refund portions of the City's Series 1998, 2002, 2002A, 2005A, and 2007 General Obligation Bonds and the remaining balance will be used to finance the cost of general capital improvement projects of the City.

On October 25, 2007, the City issued \$145,815,000 in General Obligation Public Improvement and Refunding Bonds, Series 2008 with interest ranging from 4.00% to 5.00%. The proceeds of the bonds were used to refund bond anticipation notes issued by the City in April 2007 in the amount of \$29,540,000 and the remaining balance will be used to finance the cost of general capital improvement projects of the City.

On April 6, 2005, the City issued \$53,210,000 in General Obligation Public Improvement Bonds, Series 2005A with interest ranging from 3.00% to 5.00% and \$10,000,000 in Taxable General Obligation Public Improvement Bonds, Series 2005B with an interest rate of 5.04%. The proceeds of the Bonds will be used to finance capital improvements in the City.

On August 20, 2004, the City issued \$29,630,000 in General Obligation Public Improvement Refunding Bonds, Series 2004 with interest ranging from 2.00% to 5.00%.

In prior years, the City defeased certain general obligation bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On June 30, 2016, \$93,725,000 of bonds outstanding are considered defeased.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

8. GENERAL OBLIGATION AND OTHER LONG-TERM DEBT , continued:

Capital Leases:

On February 27, 2009, the City entered into an equipment lease/purchase agreement for \$14,506,267 for the purpose of upgrading and replacing the existing radio system of the City and to provide infrastructure site improvements to the City's 911 Center and three transmit/receive sites. The lease is to be repaid in 8 remaining semi-annual installments at an interest rate of 1.1742%. The final payment is due March 1, 2020.

Debt service on the foregoing debt during future years is as follows:

Year	Capital Leases	
	Principal	Interest
2017	\$ 1,673,541	\$ 74,946
2018	1,688,314	60,174
2019	1,708,138	40,350
2020	1,728,195	20,292
	<u>\$ 6,798,188</u>	<u>\$ 195,762</u>

Debt Limit:

The Commonwealth of Virginia imposes a legal limit of 10% of assessed valuation on the amount of general obligation borrowings which may be issued by the City. As of June 30, 2016, the City's aggregate general obligation indebtedness was \$251,130,000, which is \$770,467,580 less than the State limit.

Overlapping Debt:

There are no overlapping or underlying tax jurisdictions.

9. DEFINED BENEFIT PENSION PLANS:

The City contributes to two pension plans for its employees, HERS and VRS. HERS covers all full-time salaried employees who were first hired prior to July 1, 1984 and VRS covers all full-time salaried employees.

The City's aggregate totals reported for all pension plans were as follows: \$147,278,749 net pension liabilities, \$477,899,510 pension assets, \$20,338,317 deferred outflows of resources, \$13,925,085 deferred inflows of resources and \$11,620,226 pension expense.

Plan Description - HERS:

HERS is a single employer public employee defined benefit pension plan established and administered by the City to augment the retirement benefits provided to full-time permanent City and School Board employees under VRS.

HERS was established as a separate trust fund in 1966 and became non-contributory on January 1, 1975. The authority to establish and amend benefit provisions of HERS is governed by statute as set out in Chapter 28 of the City Code. All full-time permanent employees of the City and School Board, who are members of VRS and have credit with HERS for service rendered prior to July 1,

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

9. DEFINED BENEFIT PENSION PLANS , continued:

1984, are members. HERS was closed to new entrants effective July 1, 1984.

HERS provides retirement benefits as well as death-in-service and disability benefits. All benefits vest after five years of credited service. Employees who retire on or after age 60 with five or more years of credited service or upon attaining age 55 with 25 or more years of credited service (age 50 for public safety officers) are entitled to an annual benefit, payable monthly for life, in an amount equal to 2% of their final average compensation for each of the first 20 years of credited service, plus 2-1/4% for each year of service thereafter, offset by an assumed VRS benefit equal to 1-1/2% of their average final compensation for credited service with VRS resulting for City of Hampton service. Final average compensation is the employee's average salary, excluding overtime, over the three highest consecutive years of credited service as a member. Employees with five years of credited service may retire on or after 55 (age 50 for public safety officers) and receive a reduced retirement benefit. Additionally, a plan amendment passed in 1999 allows for early retirement at age 50 for school and general members having at least 10 years of credited service.

Effective July 1, 2001, a plan amendment provided for a one-time cost of living adjustment of 3.5% to the gross monthly retirement benefits for retired members and beneficiaries who were receiving retirement benefits on that date and hired prior to July 1, 1999. COLAs are not automatic under the plan.

HERS is considered a part of the City's reporting entity and is included in the City's financial reports as a pension trust fund. HERS issues a publicly available financial report that includes financial statements and required supplementary information for HERS. The financial report may be obtained by writing to City of Hampton, Finance Department, 22 Lincoln Street, Hampton, Virginia, 23669 or by calling (757) 727-6230.

Employees Covered by Benefit Terms - HERS:

As of the June 30, 2015, the following employees were covered by the benefit terms of the pension plan :

	<u>Number</u>
Inactive members or their beneficiaries	
currently receiving benefits	2,602
Vested inactive members	446
Active members	<u>96</u>
Total	<u><u>3,144</u></u>

Contributions - HERS:

The contribution requirements of plan members, the City and School Board are established and may be amended by City Council. Plan members do not contribute. The City and Component Unit – School Board are required to contribute an actuarially determined amount.

Net Pension Liability - HERS:

The City of Hampton's and Component Unit - School Board's net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions: The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

9. DEFINED BENEFIT PENSION PLANS , continued:

assumptions, applied to all periods included in the measurement:

Inflation	3.50%
Salary increases	5% per annum for all members of the plan
Investment rate of return	7.50%, net of investment expenses, annually

Mortality rates were based on the RP-2000 Combined Annuitant and Non-Annuitant Health Mortality Table projected with Scale AA to 2010. The actuarial assumptions used for the June 30, 2016 valuation were based on the results of an experience study for the period July 1, 2005 through June 30, 2009.

The long-term expected rate of return on pension plan investments using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation and adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity- Large	44%	7.20%
U.S. Equity-Small and Mid	9%	8.90%
International Equity	10%	7.40%
Fixed Income	37%	2.10%
Total	100%	

The discount rate used to measure the total pension liability was 7.50 percent. A formal cash flow projection was not performed; however, the assumption was made that the City and School Board will continue the historical and legally required practice of contributing to the plan based on an actuarially determined contribution, reflecting a payment equal to the normal cost plus an amount necessary to amortize the remaining unfunded actuarial liability as a level dollar amount over a closed 8 year period, plus layers of future actuarial gains and losses over separate fixed 10 year periods. Based on that assumption, the pension plans' fiduciary net position was projected to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2020	679,031	781,626

Pension Plan Fiduciary Net Position - HERS

Detailed information about the pension plan's fiduciary is available in the separately issued HERS financial report.

Plan Description - VRS:

The City and School Board contribute to the VRS, an agent and cost-sharing multiple-employer defined benefit pension plan administered by the VRS.

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan, a cost-sharing multiple-employer defined benefit plan, upon employment. All full-time, salaried permanent employees of the City and nonprofessional employees of the School Board are automatically covered by the VRS Retirement Plan, an agent multiple-employer defined benefit plan, upon employment. These plans are administered by the Virginia Retirement System (System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefits structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

9. DEFINED BENEFIT PENSION PLANS, continued:

Employees Covered by Benefit Terms - VRS Retirement Plan

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number	
	City	School Board Nonprofessional Employees
Inactive members or their beneficiaries currently receiving benefits	1,455	237
Inactive members:		
Vested inactive members	310	23
Non-vested inactive members	690	120
Inactive members active elsewhere in VRS	546	59
Total inactive members	1,546	202
Active members	1,868	337
Total covered employees	4,869	776

Contributions - VRS:

The contribution requirement for active employees is governed by Title 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions and school divisions by the Virginia General Assembly. Employees are required to contribute 5% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

For the Teacher Retirement Plan, each school division's contractually required contribution rate for the year ended June 30, 2016 was 14.06% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013 adjusted for transfer in June 2015 of \$192,884,000 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarial rate for the Teacher Retirement Plan was 18.20%, however, it was reduced to 17.64% as a result of the transfer. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of Title 51.1-145 of the *Code of Virginia*, as amended, the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2016. Contributions to the Teacher Retirement Plan from the School Board were \$14,808,006 and \$15,356,866 for the years ended June 30, 2016 and June 30, 2015, respectively.

For the VRS Retirement Plan, the City's and School Board's nonprofessional employees contractually required contribution rates for the year ended June 30, 2016 were 18.44% and 10.81% of covered employee compensation, respectively. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013. This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$16,241,604 and \$15,816,817 for the years ended June 30, 2016

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

9. DEFINED BENEFIT PENSION PLANS , continued:

and June 30, 2015, respectively. Contributions to the pension plan from the School Board were \$427,758 and \$411,361 for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability - VRS Retirement Plan

The City and School Board's nonprofessional employees net pension liabilities were measured as of June 30, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - VRS Teacher Retirement Plan

At June 30, 2016, the School Board reported a liability of \$180,096,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The School Board's proportion of the Net Pension Liability was based on the School Board's actuarially determined employer contributions to the pension plan for the year ended June 30, 2015 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2015, the School Board's proportion was 1.43% as compared to 1.50% at June 30, 2014.

For the year ended June 30, 2016, the School Board recognized pension expense of \$12,391,860. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$	\$ 2,480,000
Net difference between projected and actual earnings on pension plan investments		11,029,000
Changes in proportion and differences between Employer contributions and proportionate share of contributions	1,979,000	8,379,000
Employer contributions subsequent to the measurement date	14,808,006	
	<u>\$ 16,787,006</u>	<u>\$ 21,888,000</u>

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

9. DEFINED BENEFIT PENSION PLANS , continued:

\$14,808,006 was reported as deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2017	\$ (6,230,000)
2018	\$ (6,230,000)
2019	\$ (6,230,000)
2020	\$ (79,000)
2021	\$ (1,140,000)

Actuarial Assumptions - VRS Teacher Retirement Plan

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5 percent
Salary increases, including Inflation	3.5 percent – 5.95 percent
Investment rate of return	7.0 percent, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GAAP purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females were set back 5 years.

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females were set back 3 years.

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the four-year period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

9. DEFINED BENEFIT PENSION PLANS , continued:

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long- Term Expected Rate of Return	Weighted Average Long- Term Expected Rate of Return
U.S. Equity	19.50%	6.46	1.26%
Developed Non U.S. Equity	16.50%	6.28	1.04%
Emerging Market Equity	6.00%	10.00	0.60%
Fixed Income	15.00%	0.09	0.01%
Emerging Debt	3.00%	3.51	0.11%
Rate Sensitive Credit	4.50%	3.51	0.16%
Non Rate Sensitive Credit	4.50%	5.00	0.23%
Convertibles	3.00%	4.81	0.14%
Public Real Estate	2.25%	6.12	0.14%
Private Real Estate	12.75%	7.10	0.91%
Private Equity	12.00%	10.41	1.25%
Cash	1.00%	(1.50)	(0.02)%
Total	100.00%		5.83%
	Inflation		2.50%
			8.33%

* Expected arithmetic nominal return

*Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the school division and political subdivision will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions and political subdivisions are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement and VRS Retirement Plans' Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/PDF/Publications/2015-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan

At June 30, 2016, the City reported a payable of \$1,218,486 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2016.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

10. DEFERRED COMPENSATION PLAN:

The City provides an approved deferred compensation plan, under Section 457 of the Internal Revenue Code, which is administered by the ICMA Retirement Corporation. All City employees are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, ICMA Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency. However eligible active plan participants may borrow funds from their plan account balance.

The City provides an approved governmental profit-sharing plan & trust, under Section 401 of the Internal Revenue Code, which is administered by the ICMA Retirement Corporation. The City Manager and/or Interim City Manager are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in a trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, ICMA Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

11. JOINT VENTURE:

The Hampton Roads Regional Jail Authority (the Authority), a political subdivision of the Commonwealth of Virginia, was created through an agreement by the cities of Hampton, Newport News, Norfolk and Portsmouth (the member jurisdictions). The Authority has the responsibility to finance the acquisition, construction and operation of a regional jail facility for the benefit of the member jurisdictions. Each member jurisdiction is responsible for paying the Authority a per diem charge, as established in the Authority's annual budget, for the care, maintenance and subsistence of prisoners from the member jurisdictions. The member jurisdictions have agreed to commit to the Authority its prisoners equal to its initial guaranteed capacity as follows: Hampton, 175 prisoners or 15.56%; Newport News, 200 prisoners or 17.78%; Norfolk, 250 prisoners or 22.22%; Portsmouth, 250 prisoners or 22.22%; Chesapeake, 250 prisoners or 22.22%. The Authority shall make adjustments to the per diem charge as and when necessary to reconcile projected revenues and expenditures to actual revenues and expenditures and to comply with any revenue or other covenant related to the Bonds.

The Authority opened the jail facility on March 16, 1998. Summarized financial information for the Authority for fiscal year ending June 30, 2015 is below. This information shows the jail is well able to meet its obligations. The City does not currently expect a financial benefit from its participation in this joint venture.

Revenues and other sources	\$ 35,985,854
Expenditures and other uses	<u>(35,731,760)</u>
Change in fund equity	254,094
Net position, as adjusted, July 1, 2014	<u>8,409,960</u>
Net position, June 30, 2015	<u><u>\$ 8,664,054</u></u>

The revenue bonds issued by the Authority are limited obligations of the Authority payable solely from net revenues and other funds derived from the ownership and operation of the regional jail. Separate financial statements are available from the Hampton Roads Regional Jail Authority at 2690 Elmhurst Lane, Portsmouth, Virginia 23701-2745.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

12. COMMITMENT AND CONTINGENCIES:

Grants:

The City receives grant funds, principally from the U.S. government, for construction and various other programs. Expenditures from certain of these funds are subject to audit by the grantor, and the City is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the City, no material refunds will be required as a result of expenditures disallowed by grantors.

Leases:

The City leases various types of equipment under capital lease agreements (see Note 8). Under an operating lease, the City leases the Pembroke Community Service Center building from the Hampton Redevelopment and Housing Authority at an annual rent of \$367,103. In addition, the City leases space under operating leases for use as branches of the City's public library.

The City also leases various City properties to other governmental agencies and businesses under operating lease agreements. Included in Capital Assets are the following amounts that are applicable to the operating leases:

Land	\$	28,366
Buildings		14,341,277
Improvements		4,199,967
Less accumulated depreciation		(9,634,103)
Capital Assets, net	\$	<u>8,935,507</u>

A summary of future minimum rental payments under the operating leases at June 30, 2016 is as follows:

<u>Year Ending June 30,</u>	<u>Operating Leases</u>	<u>Future Rental Income</u>
2017	\$ 920,946	\$ 287,549
2018	846,974	273,220
2019	824,968	248,968
2020	832,506	216,284
2021	687,306	29,929
2022-2026	1,454,906	36
2027-2031	124,842	
	<u>\$ 5,692,448</u>	<u>\$ 1,055,986</u>

The City's rental expense and rental income for the year ended June 30, 2016 amounted to \$1,612,433 and \$224,339, respectively.

The City has entered into several agreements relating to development projects along the downtown waterfront. These agreements involve commitments by the City to make certain loan principal and interest payments, capital expenditures, including land acquisition, and site improvements, to induce private development on the waterfront.

The City has entered into a three-party agreement with the Hampton Redevelopment and Housing Authority (HRHA) and private developers related to the Harbour Center in the downtown area. The future lease commitment for this project is \$758,102 for the lease of the garage facility through December 2017. (A portion of the garage lease payments will be offset by fees charged for parking.)

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

12. COMMITMENT AND CONTINGENCIES , continued:

A summary of future minimum rent payments under the operating lease with Harbour Center at June 30, 2016 is as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2017	\$ 505,401
2018	252,701
	<u>\$ 758,102</u>

Self-Insurance:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City established a Risk Management Fund (internal service fund) to account for and finance its uninsured risks of loss except for medical claims which are accounted for in the General Fund.

The City and the Hampton City Schools are self-insured for a portion of their risk up to the following self-insured levels per occurrence:

	<u>City</u>	<u>School Board</u>
Workers' Compensation	\$ 1,000,000	\$ 1,000,000
General Liability	1,000,000	1,000,000
Property Coverage	100,000	100,000
Medical Claims	100,000 per person/plan year	100,000

The City purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have exceeded this commercial coverage in one of the past three years.

All funds of the City participate in the program and make payments to the Risk Management and General Fund based on historical cost information. The unrestricted net position of \$12,728,332 at June 30, 2016 is designated as a reserve for claims in the Risk Management Fund. The City accrues claims and judgments as incurred by a review of all claims on a case-by-case basis. Claims incurred, but not reported, were considered in the determination of the claims liability.

Changes in the Funds' claims liability amount in fiscal years 2016 , 2015 and 2014 were:

<u>Risk Management Fund</u>	<u>Claims Liability</u> <u>July 1</u>	<u>Incurred</u> <u>Claims</u>	<u>Claims</u> <u>Payment</u>	<u>Claims Liability</u> <u>June 30</u>
Fiscal Year 2016	\$ 10,668,203	\$ 492,089	\$ 6,354,155	\$ 4,806,137
Fiscal Year 2015	2,153,808	10,228,672	1,714,277	10,668,203
Fiscal Year 2014	5,355,903	867,525	4,069,620	2,153,808

<u>General Fund</u>	<u>Claims Liability</u> <u>July 1</u>	<u>Incurred</u> <u>Claims</u>	<u>Claims</u> <u>Payment</u>	<u>Claims Liability</u> <u>June 30</u>
Fiscal Year 2016	\$ 575,585	\$ 15,445,558	\$ 15,478,261	\$ 542,882
Fiscal Year 2015	726,963	16,070,517	16,221,895	575,585
Fiscal Year 2014	613,007	16,145,018	16,031,062	726,963

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

12. COMMITMENT AND CONTINGENCIES , continued:

Various claims and lawsuits are pending against the City. In the opinion of City management, the resolutions of these cases would not involve a substantial liability to the City.

Letters of Credit:

Old Point National Bank issued a standby Letter of Credit totaling \$3,000,000 on behalf of the EDA in connection with its commitment under certain agreements for the development of the Bass Pro Project. The City has agreed to pay the EDA for any draws by the beneficiary under the Letter of Credit. During the fiscal year ended June 30, 2016, no draws were made under the Letters of Credit. The Letter of Credit expires January 15, 2020. Any draws under the Letters of Credit are charged interest at prime rate.

Encumbrances

Encumbrances outstanding at year-end represent the estimated amount of expenditures required to complete contracts, purchase orders and other commitments in process of completion at year-end. Outstanding encumbrances as of June 30, 2016 were as follows:

General Fund	\$ 1,721,603
Capital Projects Funds	13,761,506
Special Revenue - Economic Development Fund	34,705
Other Governmental Funds	664,274
Total Encumbrances	<u>\$ 16,182,088</u>

13. POST-RETIREMENT HEALTH CARE BENEFITS:

Plan Description:

The City and Component Unit - Hampton City School Board (School Board) each administer a single-employer defined benefit healthcare plan in addition to the pension benefits described in Note 9. The City and School Board Other Postemployment Benefit Plans provide post-retirement health care benefits, in accordance with the Personnel Policies and Procedures, to all full-time, salaried permanent employees and public safety officers who retire on or after attaining age 55 and 50 respectively, with at least 5 years of service, as well as to employees who qualify for a disability retirement. Currently, 703 City retirees meet these eligibility requirements. Hampton City School Board employees accumulate an unlimited number of sick leave days. The School Board's post-retirement health care plan allows employees at retirement, instead of taking payment for these sick leave days, the employee may elect to take a specified credit toward their post retirement health insurance costs. During fiscal year 2016, 53 employees were participating in this plan and the cost was \$81,754. Separate, stand-alone statements are not issued for this plan.

Funding Policy:

The City Council and Hampton School Board has the authority to establish and amend the funding policy of their respective plans. The employer's contribution ranges from 0% to 100% of the premiums based on the retiree's years of continuous health care coverage and the health care option selected by the retirees. The employer contributions are financed on a pay-as-you-go basis. During fiscal year 2016, the City contributed \$3,039,969, or approximately 55% of total premiums for post-retirement health care benefits. Plan members receiving benefits contributed \$2,455,802 or approximately 45% of total premiums. Member contributions are 3% of covered payroll. The School Board contributed \$995,817 in fiscal year 2016 or approximately 41% of total premiums.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

13. POST-RETIREMENT HEALTH CARE BENEFITS, continued:

Annual OPEB Cost and Net OPEB Obligation:

The City and School Board's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding, that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) on an open basis over thirty years.

The following table shows the components of the City and School Board's annual OPEB cost for the year, the amount actually contributed to the plans and changes in the net OPEB obligation:

	City of Hampton	Component Unit School Board
Annual required contribution	\$ 7,749,651	\$ 572,058
Interest on net OPEB obligation	1,603,846	405,989
Adjustment to ARC	(2,318,769)	(586,961)
Annual OPEB cost	7,034,728	391,086
Contributions made	(3,039,969)	(995,817)
Increase in OPEB obligation	3,994,759	(604,731)
Net OPEB obligation - beginning of year	40,096,145	10,149,729
Net OPEB obligation - end of year	<u>\$ 44,090,904</u>	<u>\$ 9,544,998</u>

The City and School Board's annual OPEB cost, employer contributions, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014, 2015 and 2016 are as follows:

City of Hampton

Fiscal year ended	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2014	\$ 6,356,196	\$ 2,283,544	36%	\$ 36,908,428
June 30, 2015	6,036,241	2,848,524	47%	40,096,145
June 30, 2016	7,034,728	3,039,969	43%	44,090,904

Component Unit-School Board

Fiscal year ended	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2014	\$ 1,404,274	\$ 486,681	35%	\$ 9,640,643
June 30, 2015	913,113	404,027	44%	10,149,729
June 30, 2016	391,086	995,817	255%	9,544,998

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

13. POST-RETIREMENT HEALTH CARE BENEFITS, continued:

Funded Status and Funding Progress:

Based on the most recent actuarial valuation dated June 30, 2016 for the City and School Board, the funded status of the plans were as follows:

	<u>City</u>	<u>School Board</u>
Actuarial accrued liability (AAL)	\$ 76,101,599	\$ 5,518,728
Actuarial value of plan assets		
Unfunded actuarial accrued liability (UAAL)	<u>\$ 76,101,599</u>	<u>\$ 5,518,728</u>
Funded ratio (actuarial value of plan assets/AAL)	0 %	0 %
Covered payroll (active plan members)	\$ 89,403,642	\$ 111,797,254
UAAL as a percentage of covered payroll	85 %	5 %

Actuarial Methods and Assumptions:

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, following the notes as required supplementary information, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2016 actuarial valuation for the City and School Board, the projected unit credit (PUC) cost method was used. The objective under PUC is to fund each participant's benefits under the plan as they would accrue. The unfunded actuarial liability is amortized as an open level dollar amount over a period of 30 years. The actuarial assumptions included a future inflation rate of 2.5%. A discount rate of 4% per annum net of expenses was used for an unfunded plan. For the City's pre-medicare, the healthcare cost trend rates ranged from an initial rate of 7.5% to an ultimate rate of 5% for 2020. For the City's medicare eligible, the healthcare cost trend rates ranged from an initial rate of 5.50% to an ultimate rate of 5% for 2017. Retiree medical contributions are assumed to increase at the same rates as incurred claims. For the School Board, healthcare cost trend rates ranged from an initial rate of 7.5% to an ultimate rate of 5% for 2020.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS:

Plan Description:

The City administers a single-employer defined benefit Line of Duty Benefits Plan. The Commonwealth of Virginia's Line of Duty Act (LODA) requires state and local governments to provide death benefits and continued health, dental and vision insurance coverage to eligible hazardous duty employees and volunteers (law enforcement and firefighters) and their dependents if they are killed or disabled in the line of duty. The insurance coverages continue until death, recovery, or return to full active duty for hazardous duty employees. For spouses or other dependents, the insurance coverages continue until death, marriage or coverage by an alternative insurance. For death in the line of duty, there is a \$100,000 death benefit paid to the deceased's beneficiary or estate. All LODA eligibility determinations are conducted and investigated by the State Comptroller in accordance with the state code. Separate, stand-alone statements are not issued for this plan.

Funding Policy

The LODA requires the City to pay 100% of all line of duty benefits including the employee's share of insurance coverages. The employer contributions are financed on a pay-as-you-go basis. During fiscal year 2016, the City contributed \$53,597 for line of duty benefits.

Annual OPEB Cost and Net OPEB Obligation:

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GAAP. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) on an open basis over thirty years.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plans and changes in the net OPEB obligation:

	City OPEB LODA Benefits
Annual required contribution	\$ 805,909
Interest on net OPEB obligation	96,477
Adjustment to ARC	<u>(139,483)</u>
Annual OPEB cost	\$ 762,903
Contributions made	<u>(53,597)</u>
Increase in net OPEB obligation	709,306
Net OPEB obligation - beginning of year	\$ 2,411,934
Net OPEB obligation - end of year	<u><u>\$ 3,121,240</u></u>

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS: , continued

The City's annual OPEB cost, employer contributions, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014, 2015 and 2016 are as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB Cost</u>	<u>Employer Contributions</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2014	\$ 901,083	\$ 106,456	12 %	\$ 1,540,461
June 30, 2015	\$ 944,192	\$ 72,719	8 %	\$ 2,411,934
June 30, 2016	\$ 762,903	\$ 53,597	7 %	\$ 3,121,240

Funded Status and Funding Progress:

Based on the most recent actuarial valuation dated June 30, 2016 for the City, the funded status of the plan was as follows:

	<u>City of Hampton OPEB LODA Benefits</u>
Actuarial Accrued liability (AAL)	\$ 8,240,854
Actuarial value of plan assets	
Unfunded actuarial accrued liability (UAAL)	<u>\$ 8,240,854</u>
Funded ratio (actuarial value of plan assets/AAL)	0 %
Covered payroll (active plan members)	\$ 31,215,772
UAAL as a percentage of covered payroll	26 %

Actuarial Methods and Assumptions:

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, following the notes as required supplementary information, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

14. OTHER POSTEMPLOYMENT LINE OF DUTY BENEFITS: , continued

with the long-term perspective of the calculations.

In the June 30, 2015 actuarial valuation for the City, the projected unit credit (PUC) cost method was used. The objective under PUC is to fund each participant's benefits under the plan as they would accrue. The unfunded actuarial liability is amortized as an open level dollar amount over a period of 30 years. The actuarial assumptions include a future inflation rate of 2.5% a year. A discount rate of 4% per annum net of expenses was used for an unfunded plan. Healthcare cost trend rates ranged from an initial rate of 5.5% for medicare eligible and 7.5% for pre-medicare for to an ultimate rate of 5% for 2017.

15. LEASE RECEIVABLES:

The EDA issued Revenue Bonds (Note 8) to construct the Peninsula Workforce Development Center (PWDC). Under terms of agreements with this organization, revenue generated from the lease of the building is used to make the bond payments with the lease term being equivalent to the life of the bond. As of June 30, 2016, future lease receivable is \$4,950,297 from PWDC.

The minimum lease payments for the next future years are:

2017	\$ 990,059
2018	990,059
2019	990,059
2020	990,059
2021	990,061
Total	<u>\$ 4,950,297</u>

As of June 30, 2016, the balance of unearned interest income associated with the PWDC is \$842,396.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2016

16. RESTATEMENT OF BEGINNING NET POSITION

Beginning fund balance for the General Fund and net position for the Risk Management Fund and Governmental Activities were restated as the Net OPEB obligation for the line of duty program was transferred from the Risk Management Fund to Governmental Activities. This change had the following effect on the beginning net position as previously reported:

General Fund

Fund balance, beginning of year	\$ 93,318,193
Unspent line of duty premiums	<u>289,406</u>
Fund balance, beginning of year, as restated	<u><u>\$ 93,607,599</u></u>

Risk Management Fund

Net position, beginning of year	\$ 7,231,388
Net OPEB obligation- Line of Duty	2,411,934
Unspent line of duty premiums	<u>(289,406)</u>
Net position, beginning of year, as restated	<u><u>\$ 9,353,916</u></u>

**Governmental Activities - Internal
Service Funds**

Net position, beginning of year	\$ 25,540,507
Net OPEB obligation- Line of Duty	2,411,934
Unspent line of duty premiums	<u>(289,406)</u>
Net position, beginning of year, as restated	<u><u>\$ 27,663,035</u></u>

Notes to Schedule:

- 1) Benefit Changes: There have been no significant changes to the benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component was adopted in 2012. The hybrid plan applies to most new employees hired on January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the Plan after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.
- 2) Changes in assumptions: Changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the Plan for the four-year period ending June 30, 2012. Changes were made the mortality table, decrease in rates of service retirement, decrease in rates of disability retirement, reduced rates of salary increase by .25% per year, increase in rates of withdrawal.
- 3) GAAP requires 10-year trend information. Fiscal year 2015 is the first year of implementation.

Payments from City	71,112,223			71,112,223
Net increase(decrease) in fair value of investments	160			160
Total revenues	<u>194,669,232</u>	<u>10,470,282</u>	<u>15,317,437</u>	<u>220,456,951</u>
EXPENDITURES				
Education	<u>194,860,572</u>	<u>10,414,632</u>	<u>15,438,832</u>	<u>220,714,036</u>
Excess (deficiency) of revenues over (under) expenditures	<u>(191,340)</u>	<u>55,650</u>	<u>(121,395)</u>	<u>(257,085)</u>
OTHER FINANCING SOURCES (USES)				
Transfer from:				
Food Services Fund	500,000			500,000
School Operating Fund			434,102	434,102
Reimbursable Projects Fund	7,686			7,686
Transfer to:				
School Operating Fund		(500,000)	(7,686)	(507,686)
Reimbursable Projects Fund	(434,102)			(434,102)
Total other sources (uses), net	<u>73,584</u>	<u>(500,000)</u>	<u>426,416</u>	
Excess (deficiency) of revenues and other sources over (under) expenditures and other uses	(117,756)	(444,350)	305,021	(257,085)
Fund balance - July 1	<u>4,549,913</u>	<u>5,392,703</u>	<u>704,864</u>	<u>10,647,480</u>
Fund balance - June 30	<u>\$ 4,432,157</u>	<u>\$ 4,948,353</u>	<u>\$ 1,009,885</u>	<u>\$ 10,390,395</u>
Reconciliation of the School Board's Combining Statement of Revenues, Expenditures and Changes in Fund Balances to the Combining Statement of Activities (Exhibit A-12)				
Net change in fund balances - total school funds				\$ (257,085)
Amounts reported for governmental activities in the Statement of Activities are different because:				
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.				
Capital acquisitions				757,519
Depreciation expense				(1,904,717)
In the Statement of Activities, the loss on disposal of capital assets is reported. However, in the governmental funds, only the proceeds from sales increase financial resources. The change in net position differs from the change in fund balance by the net book value of the capital assets abandoned.				(40,470)
Decrease in capital leases are not reported as expenditures in the governmental funds.				122,927
Increase in other postemployment benefit liability reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds.				604,731
Decrease in compensated absences reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds.				(5,812)
Decrease in net pension liability reported in Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds				217,366
Decrease in deferred inflows of resources related to pensions reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds				5,851,753
Increase in deferred outflows of resources related to pensions reported in the Statement of Activities does not provide current financial resources and, therefore, is not reported in the governmental funds				1,467,140
Change in net position of governmental activities				<u>\$ 6,813,352</u>

Notes:

(A) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards of the City and Component Unit School Board. The City of Hampton single audit reporting entity is defined in Note 1, Reporting Entity, to the City's basic financial statements.

The Schedule of Expenditures of Federal Awards does not include federal funding of \$223,000 in the General Fund. This amount represents indirect costs from other federally assisted programs administered by the City and is included in the federal revenue.

(B) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.

(C) Indirect Cost

The City has elected to not use the 10% de minimis indirect cost rate.

(1) Public Service assessed values are furnished by the State Corporation Commission of Virginia with no indication of assessment rate or actual value. The State mandated conversion of personal property to real estate for taxing purposes whereby personal property values are converted at 5% a year over a 20-year period. State Corporation Commission has changed reporting the assessments for real estate (land) and personal property at the real estate rate.

CITY OF HAMPTON, VIRGINIA

Source: City Department of Finance.

(1) Personal property is assessed on a calendar year basis. The taxes levied are due in two installments on June 5 and December 5. Changes in the tax rate are implemented on the same basis. When a rate change is enacted by City Council, the first half of the fiscal year's tax levy is at the old rate and the second half is at the new rate. The personal property tax rate was increased from \$4.25 per \$100 to \$4.50 per \$100 levied effective January 1, 2015.

(2) Machinery and tool taxes are assessed, levied and due on the same basis as other property taxes. In fiscal year 2006, the tax rate for machinery and tools was changed to \$3.50 per \$100 levied.

(2) Restated Fund Balance.

(3) (\$9,748) and (\$1,801) shown for FY12 and FY13 respectively, depicts an accounting deficit, but not a budget deficit. All expenditures were supported by budget revenues.

(4) Excel Fund merged with General Fund in FY12.

(5) Contributions to the schools are reflected in total expenditures.

CITY OF HAMPTON, VIRGINIA**Debt Ratios****As of June 30, 2016**

	<u>Amount</u>	<u>Per Capita</u>	<u>Ratio to Assessed Value</u>
Gross Direct Debt	\$ 251,130,000	\$ 1,811.56	2.46 %

Source: Finance Department, City of Hampton, Virginia

(1) Per capita amounts are based on a 2016 population of 138,626, as provided by the Weldon Cooper Center for Public Service.

(2) Assessed value of total real property is \$10,216 billion as of June 30, 2016.

STATISTICAL SECTION

The following section of the City's comprehensive annual financial report provides detailed statistical information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

CONTENTS

<u>Financial Trends</u>	I-IV
These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
<u>Revenue Capacity</u>	V-VIII
These tables contain information to help the reader assess the City's most significant local revenue source, the property tax.	
<u>Debt Capacity</u>	IX-XI
These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and its ability to issue additional debt in the future.	
<u>Demographic and Economic Information</u>	XII-XIII
These tables offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
<u>Operating Information</u>	XIV-XVI
These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services it provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

Note:

- (1) The decrease in business-type activities for fiscal year 2008 is attributable to the reclassification of HRHA from a blended component unit in the business-type activities to a discretely presented component unit.
- (2) The increase in net investment in capital assets for fiscal year 2011 is due to the related debt decreasing at a greater rate than the decrease in net position. The decrease in restricted assets for fiscal year 2011 is due to the decrease in debt service.

- (2) In 2008 HRHA was reclassified from a blended component unit to a discretely presented component unit.
- (3) Highways and streets expenses increased \$4.1 million due to additional road improvements.
- (4) Culture and recreation capitalized \$3.1 million of expenses for capital projects that included the Buckroe Pier and the Hampton Teen Center.
- (5) Education payments to the school district \$32.7 million for SOQ programs per State Law. Budgeted \$36.4 million local contribution in excess of State Requirement.
- (6) Interest on the 2008 Bonds came due in FY09 and was over \$8 million.
- (7) Capital contributions for FY2008 included contributions for prior years.
- (8) Alcoholic beverage tax revenue was cut from the budget of all localities in FY09.
- (9) Rate of return decreased in FY10 due to the economy.
- (10) Land sale of \$1.5M reflected in FY09.
- (11) There were no miscellaneous changes that could not be applied to another category.
- (12) Emergency 911 telephone tax is included in state aid.
- (13) Franchise license tax is included in the Communication sales tax beginning FY11.

Notes:

¹The City was able to lower the real estate tax rate from \$1.14 per \$100 assessed value in 2007 to \$1.06 per \$100 assessed value in 2008 due to significant growth in assessments. The City lowered the real estate tax rate again in 2012 to \$1.04 per \$100 assessed value.

²In fiscal year 2009, Personal Property Tax Relief Act revenue was reclassified as noncategorical state revenue, decreasing the general property taxes in this table.

³Other taxes include: short-term rental, recordation, lodging and transit, amusement, motor vehicle, bank stock, license - pari-mutuel, public right of way, and franchise taxes.

Notes:

¹Public service assessed values are furnished by the State Corporation Commission of Virginia with no indication of assessment rate or actual value. The state mandated conversion of personal property to real estate for taxing purposes whereby personal property values are converted at 5% a year over a 20-year period. State Corporation Commission has changed reporting the assessments for real estate (land) and personal property at the real estate rate.

²The state requires all real estate to be assessed at 100% of its appraised value. There is no state statute or city charter limitation on the tax rate. The latest State Department of Taxation comparison of sales to appraisal indicates a true rate of 98.5% for 2015. We assumed the sales to appraisal ratio would be 100% for fiscal year 2016.

Report of Independent Auditor on Compliance for Each Major Federal Program and on Internal Control over Compliance Required by the Uniform Guidance

Honorable Mayor and Members of City Council
City of Hampton, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Hampton, Virginia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Hampton, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2016-002 and 2016-003. Our opinion on each major federal program is not modified with respect to these matters.

The City of Hampton, Virginia's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subject to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

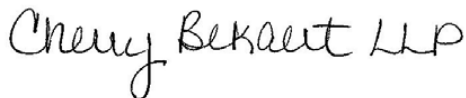

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2016-003 that we consider to be a significant deficiency.

The City's response in the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Virginia Beach, Virginia
November 30, 2016

**Report of Independent Auditor on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

To the Honorable Mayor and Members of City Council
City of Hampton, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hampton, Virginia (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 30, 2016. That report included an emphasis paragraph indicating that the fund balance of the General Fund and the Governmental Activities' and Risk Management Funds' net position balances as of June 30, 2015 have been restated. Our report includes a reference to other auditors who audited the financial statements of the Downtown Hampton Development Partnership, Inc. as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors. The financial statements of the Downtown Hampton Development Partnership, Inc. were not audited in accordance with *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described at 2016-001 in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency.

Compliance and Other Matters

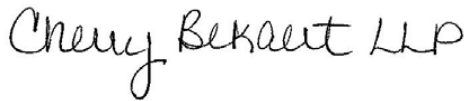

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and one instance of noncompliance that is required to be reported under the *Specifications for Audits of Counties, Cities and Towns*, which are described in the accompanying schedule of findings and questioned costs as item 2016-004.

City of Hampton, Virginia's Response to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Virginia Beach, Virginia
November 30, 2016

City of Hampton, Virginia
Schedule of Findings and Questioned Costs

Year Ended June 30, 2016

A. Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued on the financial statements:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified:	No
Significant deficiencies identified:	Yes
Noncompliance material to the financial statements noted?	No

Federal Awards:

Type of auditor's report issued on compliance for major programs:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified:	No
Significant deficiencies identified:	Yes
Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?	Yes
Identification of major federal programs:	

<u>Program Description</u>	<u>CFDA #</u>
U.S. Department of Agriculture Food and Nutrition Service State Administrative Matching Grants for the Supplemental Nutrition Assistance Program	10.561
U.S. Department of Education Office of Special Education and Rehabilitative Services Special Education Cluster (IDEA)	84.027/84.173
U.S. Department of Education Office of Elementary and Secondary Education Supporting Effective Instruction State Grant	84.367
Department of Health and Human Services Administration for Children and Families Adoption Assistance	93.659
Social Services Block Grant	93.667
Department of Housing and Urban Development Office of Community Planning and Redevelopment Community Development Block Grant Program, Entitlement Grant	14.218
National Aeronautics and Space Administration NASA Steam Plant	43.Unknown
U.S. Department of Agriculture Child Nutrition Cluster	10.553/10.555/10.556/10.559

A. Summary of Auditor's Results (continued)

Dollar threshold to distinguish between Types A and B Programs:	\$1,436,336
The City of Hampton was qualified as a low risk auditee?	No

B. Findings – Financial Audit

2016-001 Significant Deficiency – Accounting and Reporting

Criteria:

All expenditures should be recorded in the correct period.

Statement of Condition:

During the current year, an invoice in the amount of \$54,316 was not properly accrued as of year-end to the Wastewater Management fund.

Cause:

The total of the invoice was under the threshold set by the City for accrual at year-end.

Effect or Potential Effect:

Because of the adjustment, the financial statements were misstated.

Recommendation:

We recommend management set lower thresholds to verify expenditures are appropriately accrued at year-end.

Views of Responsible Officials:

- **Contact Person:** Karl Daughtrey, Director of Finance
- **Corrective Action and Anticipated Completion Date:**

As a part of the year-end close of the City's accounting records, we required departments to enter all of their invoices for the fiscal year 2016 by July 21, 2016. Some vendors did not submit their invoices to the departments prior to the invoice processing due date. The Finance Department staff reviewed the fiscal year 2017 check registers to identify expenditures that potentially should have been recorded in the fiscal year 2016. Based on the fund, we used a threshold amount, provided by our current Auditor, to determine if the expenditure was significant, and therefore should be moved from the fiscal year 2017 to the fiscal year 2016.

The Auditor discovered one invoice for the Waste Management Fund for \$54,316 that had not been recorded in the fiscal year 2016. We did not record this invoice because it did not meet or exceed the \$60,000 threshold amount. This expenditure represented less than 1% of total expenditures for this fund.

Commencing with the fiscal year 2017 audit, we will revise our year-end procedures to include lower threshold amounts, based on a percentage of total expenditures, for determining which expenditures should be recorded as accounts payable in the current fiscal year.

C. Findings and Questioned Costs - Major Federal Awards

2016-002 Non Material and Non Compliance – Reporting

Program:

Community Development Block Grants/Entitlement Grants (CFDA Number 14.218 – U.S. Department of Housing and Urban Development (HUD))

Criteria:

Per Part 4 of the June 2016 Compliance Supplement, grantees are responsible completing and submitting the C04PR03 (Activity Summary Report) and the C04PR26 (CDBG Financial Summary) reports within 90 days after the end of the grantee's program year on an annual basis.

Statement of Condition:

The City failed to submit the necessary reports within 90 days after the end of the program year.

Perspective Information:

The C04PR03 and C04PR26 reports were selected for testing. Both reports were completed; however, they were completed after the 90 day period. The C04PR03 was submitted to the HUD after the 90 day period, but the C04PR26 was never submitted to the HUD.

Cause:

Due to turnover in staff and hiring a new employee during the current year.

Effect or Potential Effect:

Reporting requirements are not met by the City

Questioned Costs:

No questioned costs were identified as a result of this finding.

Recommendation:

We recommend management ensure that all reports are completed and submitted to the HUD within the 90 days after the program year.

Views of Responsible Officials:

- **Contact Person:** Terry O'Neill
- **Corrective Action and Anticipated Completion Date:**

For fiscal year 2016, the Department of Housing and Urban Development (HUD) required the City to submit the Consolidated Annual Performance and Evaluation Report (CAPER) via an online process. The new Integrated Disbursements and Information System (IDIS) CAPER template did not allow for the C04PR03 and C04PR26 reports to be uploaded. Therefore, staff did not include these two reports, because it appeared that these documents were not required under the new reporting system. After the CAPER was filed, HUD Field Office staff contacted the Community Development Department (CDD) staff to request the C04PR26 report and we submitted this report to them. Since HUD staff did not request a copy of the C04PR03 report, we did not file this report.

The CDD staff will electronically file the C04PR03 and C04PR26 reports along with the submission of the CAPER by the required deadline for the 2017 reports. In addition, we will add the reporting requirements to our annual reporting checklist.

2016-003 Non Material, Non Compliance and Significant Deficiency – Subrecipient Monitoring (Repeat Finding)

Program:

Community Development Block Grants/Entitlement Grants (CFDA Number 14.218 – U.S. Department of Housing and Urban Development)

Criteria:

In accordance with 2 CFR sections 200.330, 331, and .501(h), grantees must monitor subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved.

Statement of Condition:

During fiscal year 2016, the City demonstrated some but not all required monitoring activities over the following areas:

- Annual audit of the sub-recipient
- Submission of HUD 60002 report, if applicable
- Program income
- Environmental reviews and rehabilitation requirements

Perspective Information:

Based on testing perform, review of support, and discussions with the staff responsible for subrecipient monitoring, we noted that there were no specific guidelines or standards set by the City to monitor the subrecipient's compliance with all requirements, including program income, reporting, and special tests and provisions.

Cause:

Due to personnel turnover and change in staff, the required subrecipient monitoring was not properly implemented and executed.

Effect or Potential Effect:

The subrecipient could potentially be noncompliant.

Questioned Costs:

No questioned costs were identified as a result of this finding.

Recommendation:

We recommend management create an annual checklist to help aid subrecipient monitoring. We also recommend that the agreement between the City and subrecipient list out specific details that describes the subrecipient's responsibility.

Views of Responsible Officials:

- **Contact Person:** Terry O'Neill
- **Corrective Action and Anticipated Completion Date:**

We strongly disagree with the Auditor's comment that the City failed to demonstrate required monitoring activities during fiscal year 2016.

Although we did not have a formal checklist for conducting subrecipient monitoring, we conducted the following monitoring activities for the subrecipient Hampton Redevelopment and Housing Authority (HRHA) during fiscal year 2016:

- 1) We evaluated the subrecipient's risk of non-compliance by completing the City's Subrecipient Risk Assessment Matrix form.
- 2) Of the 30 properties rehabbed, acquired or demolished by HRHA, City staff reviewed four of these files. The files were reviewed for evidence of program eligibility and project completion. There were no significant discrepancies found within the files.
- 3) The Site Acquisition Review Committee, comprised of City Codes, Neighborhood, Planning, Public Works, Economic Development and City Attorney staff, reviewed and approved 75 properties acquired by HRHA with CDBG and/or Home funds. In addition, 12 properties purchased with CDBG and/or Home funds were approved for demolition of the structure on the property by HRHA.
- 4) HRHA submitted timesheets bi-annually to the City for their staff. City staff reviewed the timesheets to ensure the time and amount charged for each staff member was reasonable and was captured under the correct CDBG eligible activities.
- 5) For each expenditure reimbursement submitted by HRHA to the City, City staff reviewed the information to ensure the cost was allowable, the documentation supported the amount requested and that there were funds available to process the request for reimbursement. In addition, all reimbursement requests were reviewed and approved by a second reviewer.
- 6) The program goals and performance measures established for the subrecipient were reviewed and monitored in concert with the submissions of the CDBG application, CDBG Annual Plan and CAPER.
- 7) City staff attended the monthly HRHA Board meetings and were available for the discussions on the audit, financial and performance reports. The HRHA audit report was reviewed by City staff to identify any deficiencies in the report.
- 8) City staff attended HRHA development celebrations (ground breakings, ribbon cuttings, open houses, etc.), to discuss the project progress with HRHA field staff.

The City was monitored by the HUD field office in 2014 and 2015 for programmatic activities and the City's financial processes and reports. During each review, HUD monitored both HRHA and City files related to CDBG and Home programs. No significant findings were reported by HUD for this period.

We will create a comprehensive subrecipient monitoring checklist by March 30, 2017. In addition, we will maintain a file of all the monitoring activities conducted during the fiscal year.

We currently have a subrecipient agreement with HRHA that details the responsibilities of each party. This agreement is very comprehensive and is consistent with other Cities' subrecipient agreements. Therefore, we believe that our current agreement is already in compliance with the auditor's recommendation to list out specific details that describes the subrecipient's responsibility.

D. Findings and Questioned Costs – Commonwealth of Virginia Compliance

2016-004 Nonmaterial Noncompliance – Conflict of Interest

Criteria:

In accordance with Section 2.2-3115 of the Code of Virginia, certain local officials must file semi-annual disclosure forms with the following filing deadlines: December 15, 2015 for May 2015 – October 2015 and June 15, 2016 for November 2015 – April 2016.

Statement of Condition:

An elected official's Statement of Economic Interest was filed with the City after the December 15, 2015 deadline.

Perspective Information:

Out of a sample of 22 individuals, there was 1 instance where the Statement of Economic Interest was not filed timely.

Cause:

The individual left early the day the form was required to be filed due to illness and forgot to submit the form. The form was filed the very next day.

Effect or Potential Effect:

Civil penalty in an amount equal to \$250.

Questioned Costs:

Non-financial finding.

Recommendation:

We recommend that the City send timely reminders to necessary individuals prior to the deadlines for the disclosure forms.

Views of Responsible Officials:

- **Contact Person:** Linda Smith, Clerk of Court
- **Corrective Action and Anticipated Completion Date:**

The Statement of Economic Interest was initially prepared and executed for filing on December 14, 2015. The mail run was missed that day, and the form was submitted the next day due to the responsible individual being ill on the date of the deadline. This action was simply an oversight.

E. Resolution of Prior Year's Findings**2015-001:**

Status: Corrected

2015-002:

Status: Not corrected; current year finding noted at 2016-003.

2015-003:

Status: Corrected

2015-004:

Status: Corrected

2015-005:

Status: Corrected
