Independent Auditors' Report

To the Members of the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units and the major funds of the County of Giles, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Giles, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units and the major funds of the County of Giles, Virginia as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2011, on our consideration of the County of Giles, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreement and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

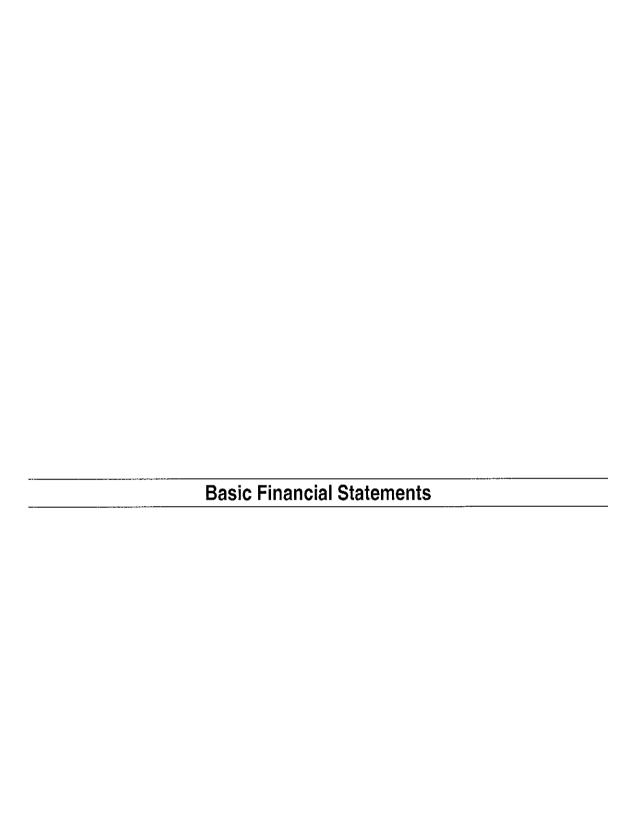

The County has elected to omit Management's Discussion and Analysis which is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America.

The budgetary comparison information and schedules of funding progress as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Giles, Virginia's basic financial statements. The introductory section, other supplementary information section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Giles, Virginia. The other supplementary section, budgetary comparison schedules and schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

County of Giles, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ (2,045,693)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

9,651,777

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

146,152

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(12,150,682)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

72,984

Change in net assets of governmental activities

\$ (4,325,462)

COUNTY OF GILES, VIRGINIA

Notes to the Financial Statements June 30, 2010

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Reporting Entity

The County of Giles, Virginia (government) is a municipal corporation governed by an elected five-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units – The County has no blended component units.

Discretely Presented Component Units – The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County. The County's Component Units do not prepare separate financial statements.

The Giles County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type and does not issue a separate financial report.

The Giles County Industrial Development Authority encourages and provides financing for industrial development in the County. The Industrial Development Authority board members are appointed by the Board of Supervisors. The Industrial Development Authority is fiscally dependent upon the County. The Industrial Development Authority is presented as an enterprise fund type and does not issue a separate financial report.

Related Organizations – The County's officials are also responsible for appointing the members of the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointment.

Jointly Governed Organizations – The County and the Counties of Bland, Carroll, Floyd, Grayson, and Wythe and the City of Radford participate in supporting the New River Valley Regional Jail Authority. The monthly payment made by the County to the Regional Jail is based on the number of prisoners housed for the County. For the year ended June 30, 2010, the County paid \$652,534 for the confinement of prisoners.

Notes to Financial Statements (Continued) June 30, 2010

Note 1-Summary of Significant Accounting Policies: (continued)

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Notes to Financial Statements (Continued) June 30, 2010

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds. The general fund includes the activities of the Dare Program, the Asset Forfeiture Fund, the Comprehensive Services Fund, the Social Services Fund, the Restitution Fund, the Rev Max Fund, and the Emergency Replacement Fund.

The *capital projects fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. Capital project funds consist of the County Capital Improvements Fund.

The government reports the following major proprietary funds:

The County operates a water distribution system. The activities of the system are accounted for in the water fund.

Additionally, the government reports the following fund types:

Fiduciary funds account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. Agency funds consist of the special welfare fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise fund and the internal service funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, if any, as well as for its component units, are reported at fair value.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Notes to Financial Statements (Continued) June 30, 2010

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

2. Receivables and payables (continued)

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable in two installments on June 5th and December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$92,775 at June 30, 2010 and is comprised solely of property taxes. The allowance amounted to approximately \$57,473 for the Water department at June 30, 2010 and is comprised solely of water billings.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

6. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

6. Capital assets (continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. In the water and sewer fund, no interest was capitalized during the current year or prior year.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30

7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2010

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

9. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

11. Restricted Assets

Proceeds of the Authority's enterprise note payable as well as amounts due the general fund from the enterprise fund are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. As of June 30, 2010, \$717,836 is restricted by debt reserve requirements in the County's applicable bond covenants. In addition, customer deposits in the amount of \$26,472 are reported as restricted assets in the water and sewer fund.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statements of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds". The details of these \$(29,606,181) and \$(703,629) differences for the primary government and discretely presented component unit, respectively, are as follows:

The remainder of this page left blank intentionally.

Compensated absences	(530,822)	(451	(699)
Net adjustment to reduce fund balance-total governmental			
funds to arrive at net assets-governmental activities	\$ (29,606,181)	\$ (703,	,629)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of these \$9,651,777 and \$(334,937) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary Government	Component Unit School Board
Capital outlays Depreciation expense	\$ 11,044,867 (1,393,090)	\$ 313,375 (648,312)
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$ 9,651,777	\$ (334,937)

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of these \$(12,150,682) and \$99,670 differences in the primary government and discretely presented component unit, respectively, are as follows:

			ponent Unit
	Primary	So	chool
	Government	В	oard
Debt issued or incurred:	-		
Issuance of bond anticipation note	\$ (13,500,000)	\$	-
Other post-employment benefits	(31,718)		99,670
Accrued landfill closure/postclosure	(309)		
Total debt issued or incurred	\$ (13,532,027)	\$	99,670
Principal repayments:			
General obligation debt	\$ 1,160,388	\$	-
Revenue bonds	57,607		-
Lease agreements	163,350		-
Total principal repayments	\$ 1,381,345	\$	-
Net adjustment to increase net changes in fund balances-total			
governmental funds to arrive at changes in net assets of	\$ (12,150,682)	\$	99,670

The remainder of this page left blank intentionally.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of these \$72,984 and \$(5,140) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary vernment	Component Unit School Board			
Decrease (increase) in Compensated absences Decrease (increase) in Accrued interest	\$ (34,505) 107,489	\$	(5,140)		
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net assets of governmental activities	\$ 72,984_	\$	(5,140)		

Note 3-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.

Notes to Financial Statements (Continued) June 30, 2010

Note 3-Stewardship, Compliance, and Accountability: (continued)

A. Budgetary information (continued)

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements: (continued)

- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund), and the General Capital Projects Funds. The School Fund is integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure
 of monies are recorded in order to reserve that portion of the applicable appropriations, is not part of the
 County's accounting system.

B. Excess of expenditures over appropriations

For the fiscal year ended June 30, 2010, there was one department with expenditures in excess of appropriations. Reimbursement, Retirees, and Wellness expenditures exceeded appropriations in the amount of \$(13,537).

C. Deficit fund equity

At June 30, 2010, there were no funds with deficit fund equity.

Note 4-Deposits and Investments:

Deposits:

All cash of the County and its discretely presented component units is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. Seq. of the <u>Code of Virginia</u> or covered by federal depository insurance.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

The County had no investments at June 30, 2010 or for the year then ended.

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

		Pr Gove	ima ernn	•		Compo Unit	nt

Note 6-Interfund Transfers and Balances

Interfund transfers and remaining balances for the year ended June 30, 2010, consisted of the following:

Fund	Transfers In	Transfers Out
Primary Government:		
General Fund	\$ -	\$ 1,225,799
Water and Sewer Fund	1,225,799	-
Total	\$ 1,225,799	\$ 1,225,799
	Due From	Due To
General Fund	\$ 1,057,898	\$ -
Water and Sewer Fund	-	1,057,898
Total	\$ 1,057,898	\$ 1,057,898

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization. The General Fund advanced the Water Fund \$1,057,898 for the construction of capital assets with no repayment terms.

12/12/2008

Note 9-Capital Lease Obligations:

The County has entered into a lease agreement as lessee for financing the acquisition of the administration building and several vehicles. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception dates.

The assets acquired through capital leases are as follows:

	•	Governmental Activities			
Asset:	· · · · · · · · · · · · · · · · · · ·				
Land	\$ 5,	000			
Building	210,	000			
Vehicles	244,	669			
Less: Accumulated Depreciation	(186,	310)			
Total	\$ 273,	359			

The lease obligations were paid in full during fiscal year June 30, 2010.

Discretely Presented Component Unit – Industrial Development Authority:

The Industrial Development Authority has entered into a lease agreement as lessee for financing the acquisition of the Long Airdox building. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of their future minimum lease payments as of the inception date.

The asset acquired through capital lease is a building held for resale with a cost of \$350,000. Depreciation is not being calculated and expensed due to the nature of the purchase.

The remaining lease obligations were paid in full during fiscal year June 30, 2010.

Note 10-Employee Retirement System and Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters and sheriffs) or at age 50 with at least 30 years of service for participating employers (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement. The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was 5.63% (excluding member contribution) of annual covered payroll.

Discretely Presented Component Unit - School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2010 was 11.09% (excluding member contribution) of the annual covered payroll.

Note 10-Employee Retirement System and Pension Plans: (continued)

C. Annual Pension Cost

For fiscal year 2010, the County of Giles, Virginia's annual pension cost of \$420,575 and \$196,089 was equal to the County of Giles, Virginia's required and actual contributions for the County and the School Board Non-Professionals, respectively.

	6/30/2010		196,089	100.00%		-

¹Employer and employee portions

Primary Government:

For fiscal year 2010, the County's annual pension cost of \$420,575 was equal to the County's required and actual contributions. The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both The investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period.

Note 10-Employee Retirement System and Pension Plans: (continued)

C. Annual Pension Cost (continued)

Discretely Presented Component Unit - School Board (Non-Professional Employees):

For fiscal year 2008, the School Board's annual pension cost of \$196,089 was equal to the School Board's required and actual contributions. The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) 7.50% investment rate of return, (b) projected salary increases ranging from 3.75% to 5.73% per year, and (c) 2.50% per year cost-of-living adjustments. Both (a) and (b) included an inflation component of 2.50%. The actuarial value of the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The School Board's unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

D. Funded Status and Funding Progress:

Primary Government:

As of June 30, 2009, the most recent actuarial valuation date, the plan was 89.94% funded. The actuarial accrued liability for benefits was \$17,365,436, and the actuarial value of assets was \$15,618,012, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,747,424. The covered payroll (annual payroll of active employees covered by the plan) was \$3,933,172, and ratio of the UAAL to the covered payroll was 44.43%.

Discretely Presented Component Unit - School Board (Non-Instructional):

As of June 30, 2009, the most recent actuarial valuation date, the plan was 72.63% funded. The actuarial accrued liability for benefits was \$5,321,168, and the actuarial value of assets was \$3,864,977, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,456,168. The covered payroll (annual payroll of active employees covered by the plan) was \$1,218,448, and ratio of the UAAL to the covered payroll was 119.51%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Note 10-Employee Retirement System and Pension Plans: (continued)

E. Discretely Presented Component Unit School Board

PROFESSIONAL EMPLOYEES:

Plan Description

The Giles County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. That report may be downloaded from the systems website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P. O. Box 2500, Richmond, Virginia 23218-2500.

Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the statute and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees was \$1,322,115, \$1,617,526, and \$1,749,891 for the fiscal years ended 2010, 2009, and 2008, respectively. Employer contributions represented 8.81% for July 2009 through March 2010 and zero (0.00%) for April through June 2010, 8.81%, and 10.30% of covered payroll for the fiscal years ended 2010, 2009, and 2008, respectively.

Note 11-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$3,458,646 is comprised of the following:

<u>Deferred Property Tax Revenue</u> – Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$3,237,884 at June 30, 2010.

<u>Prepaid Property Taxes</u> – Property taxes due subsequent to June 30, 2010, but paid in advance by the taxpayers totaled \$220,762 at June 30, 2010.

All Depreciation of the Component-Unit Industrial Development Authority was charged to Community Development.

Note 13-Assets Held for Resale:

Discretely Presented Component Unit-Industrial Development Authority:

The Industrial Development Authority has assets consisting of land and structures specifically held for resale that are not depreciated. At June 30, 2010 the value of these assets was \$1,788,079.

The following is a summary of transactions for these assets for the year ended June 30, 2010.

	Beginning Balance			Ending Balance	
Assets held for resale	\$ 2,138,079	\$ -	\$ (350,000)	\$ 1,788,079	

Note 14-Risk Management:

The County and its component unit – School Board are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its' component unit – School Board participate with other localities in a public entity risk pool for their coverage of general liability, property, and auto insurance with the VACO Risk Management Program. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit – School Board pay contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of the loss, deficit, or depletion of all available funds and/or excess insurance, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit – School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 15-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 16-Surety Bonds:

Primary Government:

Fidelity & Deposit (Company of	Marvland-Surety:
----------------------	------------	------------------

Charles Fraley, Clerk of the Circuit Court	\$	550,000
Sharlos Flaisy, Sieth of the Sheat South	Ψ	000,000
Gerald W. Duncan, Treasurer		400,000
Anne Chambers, Commissioner of the Revenue		3,000
William M. Millirons, Sheriff		30,000

Note 17-Landfill Post-closure Care Cost:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The County landfill has been closed. Total costs for landfill postclosure are estimated to be \$44,455. This amount is based on what it would cost to perform all postclosure care in 2010. Actual costs for postclosure monitoring may change due to inflation, deflation, changes in technology or changes in regulations. The County uses the Commonwealth of Virginia's financial assurance mechanism to meet the Department of Environmental Quality's assurance requirements for landfill post-closure costs.

Note 18-Restricted Net Assets:

Net assets have been restricted as required by bond agreements as follows:

Primary Government:

Governmental Activities:

Debt reserves

\$ 717,836

Note 19 – Lease Purchase Receivable – Industrial Development Authority:

On March 25, 2005, the Industrial Development Authority entered into a lease purchase agreement (as lessor) for the sale of property in the Mountain View Industrial Park to Rene Composites. Terms of the agreement call for monthly payments of \$16,187 through November 1, 2007. From December 1, 2007 through March 1, 2010 the monthly payment will be adjusted based on a new rate of interest as further described. Pursuant to terms of the agreement, interest accrues on the outstanding balance at 5.375% until November 1, 2007 at which time the rate is adjusted to 73% of the prime rate, however the rate shall not be adjusted above 6.785% or below 5.375% on that date. The new rate is 5.475% at November 1, 2007. The initial balance was \$850,000. As of June 30, 2010 the total amount due under the agreement was paid in full.

Note 20 – Construction Commitments:

The County entered into a contract with H.T. Bowling, Inc. for pedestrian improvements to Mountain Lake Ave./Tazewell Street totaling \$342,056. At year end, the amount outstanding on this contract totaled \$306,843.

The School Board entered into a contract with Avis Construction Co. for improvements to the Giles County Technology Center totaling \$5.972,000. At year end, the amount outstanding on this contract totaled \$446,731.

The School Board entered into a contract with Amber Contracting for stadium renovations totaling \$6,950,522. At year end, the amount outstanding on this contract totaled \$1,891,756.

The Industrial Development Authority entered into a contract with H.S. Williams Company, Inc. for a new shell building totaling \$867,880. At year end, the amount outstanding on this contract totaled \$45,639.

The Industrial Development Authority entered into a contract with J.M. Turner and Co., Inc. for a new shell building totaling \$1,742,544. At year end, the amount outstanding on this contract totaled \$404,544.

Note 21-Other Post-Employment Benefits

From an accrual accounting perspective, the cost of post-employment health care benefits (OPEB), like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in future years when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the County recognizes the cost of post-employment health care in the year when the employee services are rendered, reports the accumulating liability, and provides information useful in assessing potential demands on the County's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

A. Plan Description

The County of Giles and Giles County's Component Unit – School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees and their dependents in the health insurance programs available to County and School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the County and School Board. Any County eligible retiree and spouse may receive this benefit until he/she has reaches the earlier of sixty five years of age or death. Coverage for the spouse ends at the earliest of the retiree's death, the retiree's attainment of age 65, the spouse's death, and the spouse's attainment of age 65. The School Boards coverage ends at the earlier of attainment of age 65 and death unless the participant enrolls in the Medicare supplement plan, coverage may continue for life. A spouse may continue coverage after the death of the retiree at their own cost.

For the County, to be eligible for this benefit a retiree must meet at least one of the following criteria: attained age 50 and 10 years of service, attained age 55 and 10 years of service, or disabled with no age or service requirements. For the School Board, to be eligible for this benefit a retiree must meet at least one of the following criteria: attained age 50 and 10 years of service, attained age 65 and 5 years of service, or disabled with no age or service. The benefits, employee contributions and the employer contributions are governed by the Board of Supervisors and the School Board and can be amended through the Board of Supervisors and the School Board action respectively. The Plan does not issue a publicly available financial report.

B. Funding Policy

The County and School Board currently pay for the post-retirement health care benefits on a pay-as-you-go basis. The County and School Board currently have 93 and 405 employees that are eligible, respectively, for the program. In addition, the County pays up to \$450.00 per month for retirees with at least 30 years of service with the County and up to \$225.00 per month for retirees with at least 20 years of service with the County. The County does not make contributions to the medical premium for retirees with less than 20 years of service. For the year Beginning July1, 2008, the County pays \$18.17 per month toward the dental premium if the retiree has at least 30 years of service and has selected the 1000 Anthem option. Retirees must pay the difference between the premium and the employer contribution. Any additional premium to cover a spouse and dependents is paid by the retiree. In addition, the School Board pays for retirees under age 65 who have at least 30 years of service with the System, the System contributes a monthly amount equal to the Retiree Only premium of the Key Advantage 300 plan (\$427.00 as of 7/1/2008). Once the retiree reaches age 65, all employer contributions stop. Retirees under age 65 who have less than 30 years of service with the System receive no contribution from the System. Retirees with under 30 years of service may enter a 30 Day Employment

Note 21-Other Post-Employment Benefits: (continued)

B. Funding Policy: (continued)

program. The System makes contributions for participants in the 30 Day Employment Program as though they had 30 years of service. All retirees are responsible for providing the difference between the premium and the amount contributed by the System.

Health benefits include Medical, Dental, and Vision coverage for retirees and eligible spouses/dependents. Retirees are eligible to choose one of the following medical options through the County. The rates are as follows:

Medical & Dental	Ar	nthem 500	An	them 1000
Employee Only	\$	474.54	\$	431.83
Employee & Spouse		1,062.96		967.29
Employee & Child		645.37		587.29
Employee & Dependents		939.58		855.02
Family		1,437.84		1,308.44

Health benefits include Medical, Dental, and Vision coverage for retirees and eligible spouses/dependents. Retirees are eligible to choose one of the following medical options through the School Board. The rates are as follows:

	Key Advantage		Key Advantage	
Medical & Dental	Dental 30		E	xpanded
Employee Only	\$	427.00	\$	480.00
Employee & Spouse		790.00		888.00
Employee & Dependents		790.00		888.00
Family		1,153.00		1,296.00

^{*}The Medicare supplement plan premium is \$117.00

The County and School Board are required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Note 21-Other Post-Employment Benefits: (continued)

C. Annual OPEB Cost and Net OPEB Obligation

For 2010, the County's annual OPEB cost (expense) of \$53,410 did not equal the ARC of \$53,300. The obligation calculation is as follows:

Annual required contribution	\$	53,300
Interest on net OPEB obligation		800
Adjustment to annual required contribution		(690)
Annual OPEB cost (expense)	_	53,410
Contributions made		(19,800)
Increase in net OPEB obligation	_	33,610
Net OPEB obligation - beginning of year		20,000
Net OPEB obligation - end of year	\$	53,610

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 were as follows:

		Percentage of		
Fiscal	Annual	Annual OPEB Cost		Net OPEB
Year Ended*	OPEB Cost	Contributed	_	Obligation
6/30/2010 \$	53,410	37%	\$	53,610
6/30/2009	51,000	39%		20,000
*Only two years a	vailable			

For 2010, the School Board's annual OPEB cost (expense) of \$401,130 did not equal the ARC of \$399,200. The obligation calculation is as follows:

Annual required contribution	\$	399,200
Interest on net OPEB obligation		14,064
Adjustment to annual required contribution		(12,134)
Annual OPEB cost (expense)		401,130
Contributions made		(500,800)
Increase in net OPEB obligation	_	(99,670)
Net OPEB obligation - beginning of year		351,600
Net OPEB obligation - end of year	\$ _	251,930

Note 21-Other Post-Employment Benefits: (continued)

C. Annual OPEB Cost and Net OPEB Obligation: (continued)

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 were as follows:

		Percentage of		
Fiscal	Annual	Annual OPEB Cost		Net OPEB

D. Funded Status and Funding Progress

The funded status of the Plan for the County as of June 30, 2009, is as follows:

Actuarial accrued liability (AAL)	\$ 568,800
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 568,800
Funded ration (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 4,241,600
UAAL as a percentage of covered payroll	13.41%

The funded status of the Plan for the School Board as of June 30, 2009, is as follows:

Actuarial accrued liability (AAL)	\$ 6,200,800
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 6,200,800
Funded ration (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 13,580,000
UAAL as a percentage of covered payroll	45.66%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, morality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Note 21-Other Post-Employment Benefits: (continued)

D. Funded Status and Funding Progress: (continued)

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2009, actuarial valuation, the projected unit of credit actuarial cost method was used. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility the actuarial assumptions included: inflations at 2.5 percent, plus productivity component of 1.25 percent, and investments rate of return at 4.50 percent, and a health care trend rate of 10.00 percent graded to 5.00 percent over 10 years. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2009 was 29 years.

Note 22-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit:

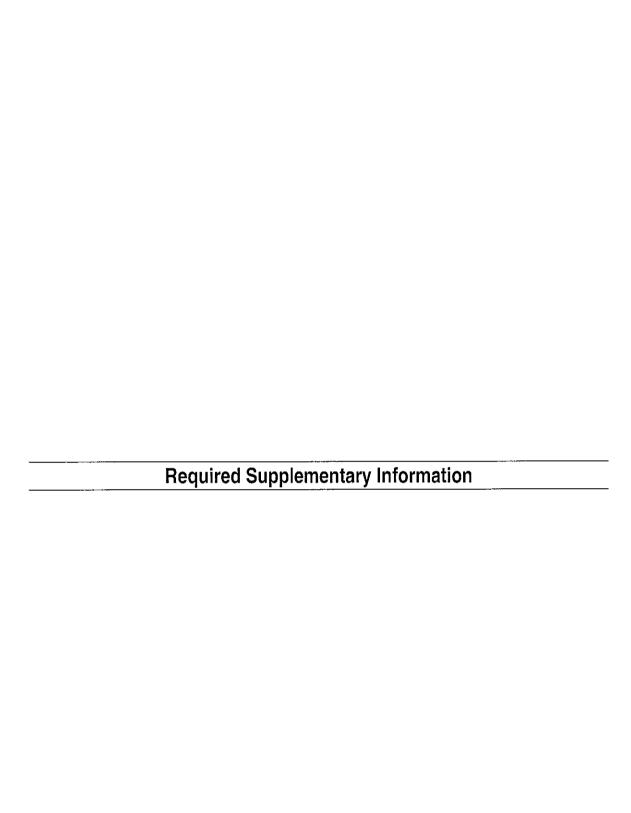

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.04% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2010 was \$13,750 and equaled the required contributions.

DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD MAJOR GOVERNMENTAL FUNDS

<u>School Operating Fund</u> - The School Operating Fund is a special revenue fund that accounts for the operations of the County's school system. Financing is provided by the State and Federal governments as well as contributions from the General Fund.

County of Giles, Virginia Balance Sheet Discretely Presented Component Unit - School Board June 30, 2010

		School Operating <u>Fund</u>
ASSETS		0.500.077
Cash and cash equivalents	\$	2,522,077
Cash in custody of others		193,619
Receivables (net of allowance for uncollectibles):		
Accounts receivable		15,086
Due from other governmental units		845,879

Net change in fund balances	\$	251,006
Fund balances - beginning	*	1,378,330
Fund balances - ending	\$	1,629,336
	<u> </u>	
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because	:	
Net change in fund balances - total governmental funds - per above	\$	251,006
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.		(334,937)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		99,670
Some expenses reported in the statement of activities do not require the use of current		
financial resources and, therefore are not reported as expenditures in governmental funds.		(5,140)
Change in net assets of governmental activities	\$	10,599

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Members of the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, the major fund, and the aggregate remaining fund information of the County of Giles, Virginia as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements and have issued our report thereon dated January 10, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications of Audits for Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Giles, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Giles, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Giles, Virginia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not necessarily designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses (reference 2010-1, 2010-2).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Giles, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County of Giles, Virginia's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the County of Giles, Virginia's responses and, accordingly, we express no opinion on them.

We noted certain matters that we reported to management of the County of Giles, Virginia in a separate letter dated January 10, 2011.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 Independent Auditors' Report

To the Members of the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

Compliance

We have audited the County of Giles, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County of Giles, Virginia's major federal programs for the year ended June 30, 2010. The County of Giles, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Giles, Virginia's management. Our responsibility is to express an opinion on the County of Giles, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Giles, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Giles, Virginia's compliance with those requirements.

In our opinion, the County of Giles, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the County of Giles, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Giles, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Giles, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Giles County, Virginia under programs of the federal government for the year ended June 30, 2010. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133. Because the Schedule presents only a selected portion of the operations of Giles County, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Giles County, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2010 Giles County, Virginia had food commodities totaling \$53,313 in inventory.

Note 4 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

General Fund Water Fund - Contributions in Aid of Construction	\$	1,223,184 290,785
Total primary government	_\$	1,513,969
Component Unit Schools: School Operating Fund	_\$	3,515,432

County of Giles, Virginia

Schedule of Findings, Responses and Questioned Costs Year Ended June 30, 2010

Section II - Financial Statement Findings

2010-1	
Criteria:	Per Statement on Auditing Standards 115, identification of a material adjustment to the financial statements that was not detected by the entities internal control indicates that a material weakness may exist.
Condition:	The financial statements, as presented for audit, did not contain all necessary adjustments to comply with generally accepted accounting principles (GAAP). As such, the auditor proposed adjustments that were material to the financial statements.
Effect of Condition:	There is more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County's internal controls over financial reporting.
Cause of Condition:	The County has historically relied on the auditors for assistance in preparing the financial statements and related adjustments. As the consultant gains knowledge of the County's books, misstatements that are material will decline.
Recommendation:	Management has and continues to work towards making all necessary entries and adjustments.
Management's Response:	The County continues to hire a consultant to compile year-end financials. As the consultant becomes more familiar with the County's books, misstatements material to the financials will decrease to immaterial amounts.
2010-2	
Criteria:	A key concept of internal controls is the segregation of duties. No one employee should have access to both accounting records and related assets.
Condition:	The County (including Social Services) and the School Board lack proper segregation of duties over the following functions: Collections in the Treasurer's office, Accounts Payable and Payroll at the County; Accounts Payable and Payroll at the School Board; and Accounts Payable and Payroll in the Department of Social Services.
Cause of Condition:	The County, Social Services, and School Board lack the funding to fully support a completely segregated finance department.
Effect of Condition:	There is more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal controls over financial reporting.

County of Giles, Virginia

Schedule of Findings, Responses and Questioned Costs Year Ended June 30, 2010

2010-2 (continued)

Recommendation:

Management should further try to segregate duties amongst current staff to help alleviate risk

created by improper segregation of duties.

Management's Response:

Management acknowledges that internal controls over the functions listed above lack proper segregation of duties; however, to alleviate same would require additional staff. Due to cost

constraints, the County and School Board have decided not to address the aforementioned

internal control deficiency.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.
