City of Staunton Virginia

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2018

Christopher P. Morrill

Executive Director/CEO

November 30, 2019

To the Honorable Mayor, Members of City Council, and the Citizens of the City of Staunton, Virginia:

We are pleased to submit the City of Staunton's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019. This report has been prepared by the City's Finance Department. The report provides full disclosure of all financial information necessary to enable the reader to gain an understanding of the government's financial activities.

Management assumes full responsibility for the completeness and reliability of the information contained in their report, based upon a comprehensive framework of internal control that it has established for their purpose. Because the cost of internal control should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The government is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget *Uniform Guidance*. The Code of Virginia requires the City to have an annual audit conducted by an independent certified public accountant.

Brown Edwards & Company, LLP, Certified Public Accountants, has issued an unmodified opinion for the City of Staunton for fiscal year ending June 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

The City's management discussion and analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides for a narrative introduction, overview, and analysis of the City's basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Staunton was founded in 1747 and later chartered as a town by the Virginia General Assembly in 1761. The City was named for Lady Rebecca Stanton, wife of colonial Governor Sir William Gooch. Staunton was incorporated as a city in 1871. Staunton is the birthplace of the city manager form of government. Staunton appointed its first city manager, and the nation's first city manager, Charles E. Ashburner, in April 1908.

The City is governed by seven members of City Council for policymaking and legislative issues. Council members are elected at large for four-year terms. Council members elect the mayor. The city manager is appointed by City Council and is responsible for the general operations of the City and administering the policies and ordinances enacted by City Council. The city manager appoints all department directors for the various operating departments.

The Staunton City School Board is comprised of six members elected at large for four-year terms with the responsibility of the operation of the City school system. The School Board appoints a superintendent to administer the operations, policies, and procedures of the School Board. The local share of funding for the school system is appropriated through the budget process by City Council and provided through a transfer from the General Fund to the Education Fund.

116 W. Beverley Street P.O. Box 58 Staunton, Virginia 24402 540.332.3809 (office) 540.851.4017 (fax) www.staunton.va.us

Staunton is an independent city with local government taxing power providing the full range of municipal services. These services include public safety, recreation, parks and culture, education, health and social services, public works and utilities, sanitation, planning and zoning, community development, judicial administration, and general and financial administration services.

Staunton is located at the intersection of I-81 and I-64 in the Shenandoah Valley of Virginia. The City is 90 miles west of Richmond, 85 miles north of Roanoke, and just 150 miles southwest of Washington D.C. The City encompasses an area of 19.98 square miles with a population of approximately 24,300.

The City is located within 35 minutes of eleven colleges and universities: University of Virginia, James Madison University, Washington & Lee University, Virginia Military Institute, Mary Baldwin University, Bridgewater College, Eastern Mennonite University, Blue Ridge Community College, Piedmont Virginia Community College, Old Dominion University at the Blue Ridge Community College campus, and American National University at the Charlottesville and Harrisonburg campuses. The area also has several other specialized education centers: Shenandoah Valley Governor's School, four private high schools, and Valley Career and Technical Center for occupational trades/industrial education and training.

BUDGET PROCESS AND CONTROLS

Per City Code, the Chief Finance Officer serves as the budgetary control officer and shall assist the City Manager in developing and assembling the necessary information and planning and prioritizing financial commitments for the preparation of the annual budget. The City adopts a balanced budget for all funds. The *Code of Virginia* requires the City to adopt a balanced budget by May 15 for the School's Education Fund budget and June 30 for all other City funds. Budget control is maintained at the fund level. The City Manager, or designee, is authorized to transfer appropriations from any line item within each fund as needed to sufficiently fund any expenditure. All departments have on-line, real-time access to all line items within their operating budgets. Purchase orders for materials, supplies, and services are not released until adequate appropriations are available. Open encumbrances are reported as assigned or committed fund balances at the end of each fiscal year. City Council adopts an ordinance to approve budget amendments that require increased or decreased appropriations to the total adopted budget.

The City's budget team consists of the City Manager, Deputy City Manager, and Chief Finance Officer (CFO). The City Manager and the CFO review the current status of the economy and develop budget guidelines based on City Council's long-term financial and strategic plan, three-year priorities, and other factors for the upcoming fiscal year. City Council's three-year priorities for the future of Staunton are summarized below;

- Economic Development-to provide and support economic vitality through tourism and business development to provide employment and revenue growth,
- Education- to recruit and retain the best teachers and provide superb facilities,
- Culture-to promote and retain arts, performing arts, music, galleries, and museums,
- Inclusiveness- to develop a strategy to achieve more citizen engagement and promote a diverse society to enhance civic pride and ownership to improve Staunton's quality of life,
- Resilience-to protect the City's natural environmental resources and provide financial resources to safeguard the City's future,
- Responsive, Efficient Government-to include professional administration, prudent financial management, and the efficient and effective delivery of core services,
- Built Environment- to study changes to the City's land use policies and ordinances to enable more mixed-use development and to develop a long-term financing strategy for public facilities and infrastructure.

The CFO prepares the guidelines, instructions, and the forms for departments to submit their expenditure budget requests. The CFO is responsible for preparing all governmental and proprietary revenue estimates for tax revenues, state and federal revenues, proprietary fund revenues, and other revenues. After meeting with all departments and prioritizing all budget requests for new personnel, new operating expenditures, and capital requests, the CFO prepares the revenue and expenditure budget and submits the preliminary budget to the City Manager for review. The City Manager is responsible for submitting the proposed budget to City Council for review and discussion.

By a resolution adopted by City Council on May 24, 2012, the City Finance Department provides comprehensive financial management and support services to the School Board, and is responsible for all financial processes, budget, and the annual audit for the City and Staunton City Schools. The CFO works directly with the City Manager, the Superintendent of Schools and School Budget Director to prepare the annual budget. The Chief Finance Officer is appointed by the City Manager.

The City of Staunton and Staunton City Schools also share the City's Human Resources Department for recruitment and all personnel related processes and activities. The Chief Human Resources Officer serves as the department head of the human resources department for the Schools and the City. The Chief Human Resources Officer assists the budget team for the City and Schools with personnel budget requests relating to changes in staff requirements and employee pay increases. The Chief Human Resources Officer is appointed by the City Manager.

The City's CAFR includes all funds, and component unit agencies, boards and commissions for which the City is financially accountable. Financial accountability is defined as appointment of a voting majority of such an entity's Board, and either (a) the ability to impose its will, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the City. Based on the foregoing criteria, the financial activities of the Staunton City School Board and the Staunton Economic Development Authority are included in the financial statements for the reason indicated:

The Staunton City School Board was created as a separate legal entity by the City to oversee the operation and management of its publicly funded primary and secondary schools. The School Board creates a financial burden on the General Fund requiring approximately 24% of its funding for school operations and the issuance of all general obligation bonds. All members of the Board are elected by the City voters. City Council has the ability to impose its will upon the Board.

The Staunton Economic Development Authority was created as a separate legal entity by the City to promote economic development within the City. All members of the Board are appointed by City Council. The Economic Development Authority imposes a financial burden on the City.

LOCAL ECONOMY

The City's overall financial health is determined by several economic factors based on retail sales volume, consumer-based taxes, new residential and commercial construction permits, and property values and transactions. Other financial factors include state revenues, population trends, the unemployment rate, and the local tourism industry. The 2019 total taxable real estate assessed values increased 8.6%. Other local consumer-based tax revenue sources also increased from 2018. Meals tax on prepared foods increased 14.8% over 2018 as development within the Frontier Center were operational over the entire fiscal year. Lodging taxes increased 29% over 2018 as development at Staunton Crossing was operational over the entire fiscal year. A general increase in economic activity resulted in increases in consumer sales taxes. The local unemployment rate for June 2019 was 2.9%, which is well below the national average of 3.8% and equal to the statewide average of 2.9%. The City relies on its diverse property tax base consisting of manufacturing facilities, distribution centers, a fairly stable retail base, a large government workforce within the area, and a successful tourism market for the economic stability of the City.

LONG-TERM FINANCIAL PLANNING

Staunton City Council's Vision for 2025, revised on April 28, 2015, focuses on seven major principles; <u>Economic Development</u> to provide and support economic vitality through tourism, small business development, and commercial development to provide employment growth and revenue growth for the City; <u>Education</u> by recruiting and retaining the best teachers and providing superb facilities; <u>Culture</u> by promoting and retaining a vibrant, exciting, and welcoming community for the arts, performing arts, music, galleries, and museums; <u>Inclusiveness</u> for all citizens by developing a strategy to achieve more citizen engagement, promote a diverse society to enhance civic pride, and instill ownership to improve Staunton's quality of life; <u>Resilience</u> by protecting the City's natural environmental resources, and providing financial resources to safeguard the City's future; <u>Responsive</u>, <u>Efficient Government</u> to include professional administration, prudent fiscal management, and the efficient and effective delivery of core services; <u>Built Environment</u> to study changes to the City's land use policies and ordinances to enable more mixed use development within the City, and develop a long term financing strategy for public facilities and infrastructure.

Economic Strategy – The City's long-range economic strategy is to attract new commercial, manufacturing, and retail businesses and expand existing businesses. This strategy will strengthen, diversify, provide employment growth, increase the median household income level, and sustain and increase the local tax revenue base to provide quality governmental services to the citizens of Staunton.

City Safety Net Reserve – The City's fund balance fiscal policy, as revised by City Council, now requires a reservation of 15% of the City's total general fund operating budget as a cash safety net reserve, reported as committed fund balance in the general fund. The primary government reserve is currently \$8,891,250. These funds can be used only for major catastrophic events that would affect the public safety or major infrastructure of the City, or imposition of mandates by Federal and State governments. The City also adopted a policy to establish and maintain a contingency reserve in the amount of \$250,000, reported as unassigned fund balance in the general fund, to provide for unexpected declines in budgeted revenues or unanticipated emergency expenditures.

Capital Improvement Plan – The City approves a multi-year capital improvement plan and budget each year. The approved CIP plan and budget includes the City CIP and the School CIP plan. The City and School CIP budgets are appropriated each year by Council. The CIP funds are designated as multi-year funds in the accounting system and automatically carry forward the project balances to the next fiscal year for completion of the projects. Council is not required to re-appropriate funds each year for the balance of the same project appropriation.

The CIP plan is a five-year capital plan updated annually to account for project estimate updates, new and revised projects, and completed projects. The annual update to the CIP plan begins in October each year. The plan is presented to City Council and the Planning Commission in December each year. The plan is adopted in February during the budget process. The draft CIP plan is presented to City Council and the Planning Commission for review and suggestions. The Planning Commission will make recommendations and accept the CIP Plan based on the City's Comprehensive Plan. City Council approves the CIP after the Planning Commission's recommendations, and any other changes The CIP plan includes the funding sources for the proposed capital projects each year of the five-year plan. Funding sources are based on a five-year financial analysis of revenues and expenditures.

Once a project is completed, the balance of any remaining appropriated funds for the project is transferred to the CIP Undesignated Account to be held as contingency for other projects. Council approves the transfer of funds. Any transfer of appropriated funds from one project to another requires approval from City Council.

The City collaborates with the School Board to incorporate the School CIP plan and develop financing plans to pay for major improvements or renovations to school facilities.

The City prefers to finance capital projects with cash, or 'pay-as-you-go' funds, and federal and state grants. The City may use debt financing for projects by issuing general obligation or revenue bonds to finance projects. Any project requiring debt financing shall have a useful life equal to the term of the bond and adhere to the City's Debt Policy ratios and guidelines.

Debt Policy- Provides guidance and criteria for the issuance of debt so the City will not exceed affordable levels of indebtedness. This policy is intended to ensure debt is issued and managed prudently in order to maintain a sound fiscal position and protect the City's credit quality:

- 1. The City will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues except when approved justification is provided.
- 2. When the City finances capital improvements or other projects by issuing bonds, or entering into capital leases, it will repay the debt within a period not-to-exceed the expected useful life of the project.
- 3. When feasible, the City will explore the usage of special assessment, revenue, or other self-supporting bonds instead of general obligation bonds.
- 4. The City will retire tax anticipation debt, if any, annually, and will retire bond anticipation debt within six months after completion of the project.

The following debt ratios will be measured annually and will be measured as part of the debt issuance process. If the issuance of new debt causes the City to be out of compliance with one or more of the policies, staff must request an exception from City Council stating the justification and expected duration of the policy exception:

- 1. Direct net debt as a percentage of estimated assessed value of taxable property should not exceed four percent (4.0%). "Direct net debt" is defined as any and all debt that is tax-supported.
- 2. The ratio of debt service expenditures as a percent of total governmental fund expenditures should not exceed fifteen percent (15%).
- 3. Payout of aggregate outstanding tax-supported debt principal shall be no less than fifty percent (50%) repaid in 10 years.

MAJOR INITIATIVES

FY2019 Budget

City Council's commitment to prudent fiscal management has provided the framework for the City to prepare and adopt budgets in response to the economic conditions of the local, state, and national economies. The total fiscal year 2019 budget was adopted at \$113.7 million, an increase of 2.9% or \$ 3.2 million from the previous year. The fiscal year 2019 budget included a real estate tax rate held flat at \$.97 per \$100 of assessed value, the personal property tax rate held flat at \$2.90 per \$100 of assessed value, and the meals tax on prepared food remaining at 7%. The general fund budget increased 4.3% over the previous year. Property tax revenues were projected to increase by \$942,935, or 3.9%, and other local tax revenues were projected to increase 4.3% over the previous year's budget. The general fund budget increased its transfer to the education fund by 3.5%.

Economic Development

Staunton Crossing Development Park

Staunton Crossing, located at U.S. 250 and the interchange of Interstate Highways 81 and 64, is planned for a mix of corporate and professional offices, retail stores, restaurants, and lodging facilities. The project will be the largest business development property to support both office and retail development in the Shenandoah Valley region of the I-81 corridor through Virginia.

In September, 2016 the EDA sold approximately 25 acres of the Staunton Crossing development property for \$1.25 million. Construction began on the first phase of the development site in November, 2016. The development includes a Marriott Fairfield Inn and Suites and a Tru by Hilton hotel. Both hotels were open by November 2018. Multiple food options, a grocery center, and a fuel and convenience store center are all possibilities at the sight. The City will gain additional jobs and approximately \$1.0 million annually from property, meals, sales, and lodging tax revenues when the first phase is completed.

The City plans to demolish the existing vacant hospital buildings on the property by November 2019. Demolition is expected to cost \$3.5 million. The City was awarded a grant in the amount of \$431,200 from the Virginia Brownsfields Restoration and Economic Redevelopment Fund (VBAF) to support the removal and disposal of hazardous materials at the site. The demolition will allow the property to compete nationally for major industrial development for jobs and an increase the City's tax base.

The City was awarded \$8.7 million from the Virginia Department of Highways in November 2018 to complete the road extension from the entrance to provide access to the entire 275 acres at Staunton crossing. The road construction is expected to begin in 2020.

Frontier Center

Frontier Center is near the intersection of Interstates 81 and 64 and the first phase of the development, including construction for the road and infrastructure improvements, was completed in June 2018. Aldi, Bojangles, Chick-fil-A, and McDonalds opened during the summer of 2018 which has contributed to our year on year increase in meals and sales tax. The City has an agreement with the developer to start the second phase of development for a 200,000 square foot retail space.

Community Development

The City received official confirmation earlier this year from the U.S. Department of Housing and Urban Development (HUD) that it has been designated as a new entitlement community starting in federal fiscal year 2019.

Under this program designation, the City is eligible to receive more than \$354,000 during the fiscal year and can expect to receive grant funds in this approximate amount every year if funded by Congress.

The funds will help the City carry out a variety of community development activities, including the revitalization of neighborhoods, economic development, and improvement of community facilities and services, particularly for low-to-moderate income residents. The City can use the funds to assess and address housing and homeless needs, as well as services and facilities for persons with disabilities, HIV/AIDS, and the elderly.

AWARDS AND ACKNOWLEDGEMENTS

Economic Development

Economic strength, resilience, and attractiveness to future investment is built around a thoughtful, holistic strategy that weaves together economic development, placemaking, and livability. Winning high praise for decades of urban revitalization from everyone from the National Trust for Historic Preservation to Virginia Living magazine, Staunton continues to garner rankings and acclaim:

- "Why This Region of Virginia Could Be the South's New Foodie Hotspot" Vogue
- Best Places to Propose in the U.S. Expedia
- American Shakespeare Center Virginia's Not-To-Be-Missed Vacation Destination O Magazine
- Best Small Town Cultural Scene USA Today
- The South's Best Restaurants in Every State: The Shack Staunton, VA Southern Living

Parks and Recreation

In fiscal year 2019, the Parks and Recreation department undertook several major initiatives which included revamping the equipment of the Nature Park at Montgomery Hall Park, restoration of the Gypsy Hill Park entrance, and the repaving of Gypsy Hill Park. In addition, a new picnic shelter is planned for Montgomery Hall Park in fiscal year 2020.

The Horticulture Division of the Department of Parks and Recreation received a Tree City USA award from the National Arbor Day Foundation. Thanks to the City's efforts to make the care and planning of trees a priority, this is the 23rd year the City has achieved this award recognizing municipalities with active tree care and replacement programs.

Public Safety

Police Department-The Staunton Police Department received the 10th consecutive national accreditation award from the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA) in May, 2016. The department received its first accreditation award in 1985 as one of the first ten law enforcement agencies in the world accredited by CALEA. Accreditation ensures that police departments operate under a set of nationally accepted standards that are designed to provide citizens with professional law enforcement services. Citizens of the City of Staunton benefit from the accreditation process with the assurance that the police department maintains procedures to encourage, listen and respond to citizen requests, needs, complaints and inquiries. The Department goes through the accreditation process every four years.

Fire Department- Staunton Fire & Rescue provides round-the-clock fire suppression, emergency medical service, and special response operations to the city's 20 square miles, parts of Augusta County that immediately surround the city, and the campus of Mary Baldwin University. The department operates two fire stations in the City and handles more than 3,500 calls annually. The department proudly protects citizens, visitors and property from emergencies of all types— natural and human-made. Staunton Fire & Rescue achieved an extraordinarily rare advancement for a municipal fire department when it was recognized by the Insurance Services Office (ISO) for improving its fire insurance classification from a Class 5 to a Class 2. The rating reflects the effectiveness of a fire department's fire suppression program—its ability to receive and respond to fire alarms; sufficiently staff, equip and train its department; maintain a water supply system, and educate the community about fire risks. The entire department and several members have also been awarded several prestigious Governor's Fire Service Awards over the past few years. Staunton's fire department is also the only of its kind in Virginia to receive the Grinnell Mutual Life Safety Achievement award for a proactive approach to fire safety.

Public Works

The City's drinking water consistently meets all water quality standards and regulations. In the most recent Water Quality Report, Staunton's Water Treatment Plant achieved the Silver award through the VDH Office of Drinking Water Virginia Optimization Program. This program recognizes those who provide quality water that exceeds minimum regulatory standards and operate water systems in an exemplary manner.

Finance Department

Risk Management

The Risk Management Division of the Finance Department successfully completed 100% of the Virginia Municipal League's Insurance Program for risk management guidelines for the City and Staunton City Schools. These guidelines ensure the City and School's commitment to safety for its citizens and employees. As a result of completing the guidelines, the City and Staunton City Schools received a 5% discount on the liability and workers compensation insurance premiums for the fiscal year.

Distinguished Budget Presentation Award

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Distinguished Budget Presentation Award to the City of Staunton, Virginia, for its FY 2019 budget.

The GFOA established the Distinguished Budget Presentation Awards Program (Budget Awards Program) in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting and then to recognize individual governments that succeed in achieving that goal. Documents submitted to the Budget Awards Program are reviewed by selected members of the GFOA professional staff and by outside reviewers with experience in public-sector budgeting.

This was the second year that the City applied for the award.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Staunton, Virginia, for its Comprehensive Annual Financial Report for the fiscal years ended June 30, 1985 through 2018. A Certificate of Achievement for Excellence is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis was accomplished with efficient and dedicated services of the Finance Department. I would also like to thank the City Manager and the City Council for their interest and support in applying for both the Certificate of Achievement for Excellence in Financial Reporting as well as the Distinguished Budget Presentation Award.

Respectfully submitted,

Phillip M. Trayer Chief Financial Officer

To the Honorable Members of City Council City of Staunton, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Augusta Regional Landfill. The City's share of this undivided interest represents 68%, 69%, and 20%, respectively, of the assets, net position, and revenues of the Environmental Fund. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Augusta Regional Landfill, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities, and Towns* and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Auditor's Responsibility (Continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Matters (Continued)

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the other supplementary information, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditor in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2019 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Staunton's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year that ended June 30, 2019. The MD&A is in addition to the transmittal letter, located on pages iv-xi of this report. Readers are encouraged to review the information presented in the MD&A and the letter of transmittal to provide the user a more comprehensive view of the City's financial condition. The MD&A presents information for the government-wide financial statements and the fund financial statements. The MD&A provides the user with a narrative introduction, overview, and analysis of the basic financial statements for the City's financial performance as a whole.

FINANCIAL HIGHLIGHTS

Highlights for Government-wide Financial Statements

- The assets and deferred outflows of resources of the City of Staunton VA (City) exceeded its liabilities at the close of the most recent fiscal year by \$130.1 million (*net position*). Of this amount, \$30.2 million represents unrestricted net position, which may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net position increased \$8.1 million due to a combination of factors including increases in tax revenues and an overall decrease in expenditures/expenses.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$73.8 million, an increase of \$47.7 million in comparison with the prior year. The increase is due mainly to the issuance of debt during the fiscal year. Approximately 6.3% of this amount (\$4.6 million) is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund was \$15.9 million, or approximately 31.21% of total general fund expenditures.
- The City's total outstanding long-term debt increased by \$41.5 million during the current fiscal year because of the debt issued to finance the renovations at the City's only high school and the normal scheduled debt reduction.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis provided here is intended to serve as an introduction to the City of Staunton's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information intended to furnish additional detail to support the basic financial statements themselves.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the City of Staunton's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Staunton is improving or deteriorating.

The *statement of activities* presents information showing how the City of Staunton's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless* of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Staunton that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Staunton include general government, judicial, public safety, public works, education, health and welfare, parks and recreation, and community development. The business-type activities of the City of Staunton include water, sewer, storm water, environmental and parking operations.

The government-wide financial statements include not only the City of Staunton itself (known as the *primary government*), but also a legally separate school board and a legally separate economic development authority for which the City of Staunton is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 5-7 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Staunton can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Staunton maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund, which are considered to be major funds. Data from the other four governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 8-11 of this report.

Proprietary Funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprises funds to account for its water, sewer, storm water, environmental and parking operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for the management of inventory supplies and for its self-insured health plans for employer and employee health care costs. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sewer, storm water, environmental, which are considered to be major funds of the City. Conversely, the parking fund and both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the parking and internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The basic proprietary fund financial statements can be found on pages 12-15 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reported in the government-wide financial statements because the resources of those funds *are* not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City maintains one type of fiduciary fund. The *OPEB trust fund* is used to report resources held in trust for other post-employment benefits.

The fiduciary fund financial statements can be found on pages 16-17 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-82 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's progress in funding its obligation to provide pension and OPEB benefits to its employees. Required supplementary information can be found on pages 83-97 of this report.

he combining statements referred to earlier in connection with nonmajor governmental and proprietary funds and internal service funds are presented immediately following the required supplementary information on pensions and OPEB. Combining and individual fund statements and schedules can be found on pages 98-115 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. The following table reflects condensed information for the City's net position.

City of Staunton Summary Statements of Net Position June 30, 2019 and 2018

		nmental vities		ess-Type ivities	Total Primary Government

Total net position	\$ 58,171,859	\$51,650,167	\$ 71,971,489	\$ 70,434,214	\$ 130,143,348	\$ 122,084,381	

In the case of the City of Staunton, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$130.1 million at the close of fiscal year 2019.

By far, the largest portion of the City's net position (\$99.7 million or 76.57%) is the investment in capital assets (e.g. land, buildings, machinery, equipment, vehicles, and infrastructure), less any outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to citizens; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidated to pay for these liabilities.

An additional portion of the City's net position (less than 1%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$30.2 million or 23.22% is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The following tables summarize the City's change in net position for the current and previous year.

City of Staunton Changes in Net Position For the Years Ended June 30, 2019 and 2018

The City's overall net position increased \$8.1 million from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental and business-type activities.

Governmental Activities - Revenues

- The City's total revenues from governmental activities were \$66.2 million for the fiscal year ended June 30, 2019, an increase of \$3.2 million over the previous year.
- Property taxes, the largest source of general revenue, accounted for \$26.4 million or 39.9% of revenue in 2019. Assessed values increased 7.85% over 2018. This increase in assessments resulted in an increase in property tax revenues of \$1.1 million over 2018.
- Other taxes increased \$1.2 million from the prior fiscal year due to an increase in meals and lodging taxes.
- Operating grants and contributions increased \$1.8 million from the prior fiscal year due mainly to an increase in public safety grants (SAFER fire grant), public works grants (VDOT primary paving and regular street maintenance funds) and health and welfare (comprehensive services act) funds.
- Capital grants and contributions decreased \$1.3 million from the prior fiscal year due a decrease in public works related capital grants for the Frontier Crossing development project.

Governmental Activities - Revenues by Source

Fiscal Years Ended June 30, 2019 and 2018 (\$ In Millions)

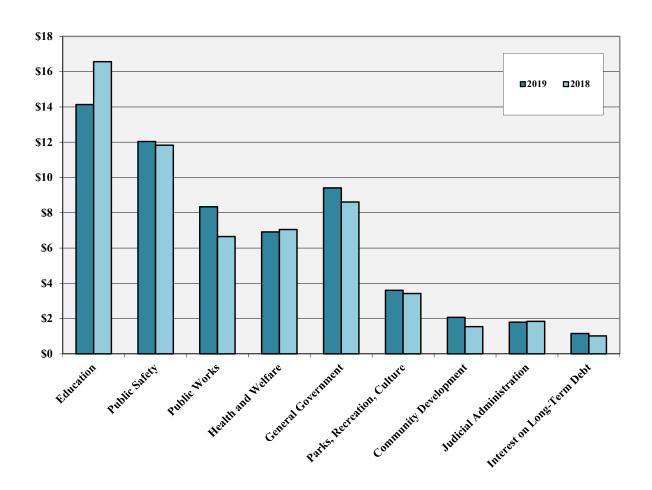

Governmental Activities - Expenses

- The total expenses from governmental activities were \$59.5 million for the year, an increase of \$1.6 million over the prior fiscal year.
- Education is the largest expense for the City at \$14.1 million or 23.8% of the total governmental activities. Education expense decreased \$2.4 million from the previous year because in fiscal year 2018, the City transferred back of the net book value of Shelburne Middle School as a result of the payoff of the debt associated with the school.
- Public Works increased \$1.7 million from the prior fiscal year mainly due to an increase in street maintenance costs.
- General government increased \$.8 million from the prior fiscal year due to increase in costs of the health fund and an increase in pension and OPEB costs.
- Community Development increased \$.5 million from the previous year due to the increase in funds contributed to the EDA to fund the increase in development agreement payments.

Governmental Activities - Expenses by Function

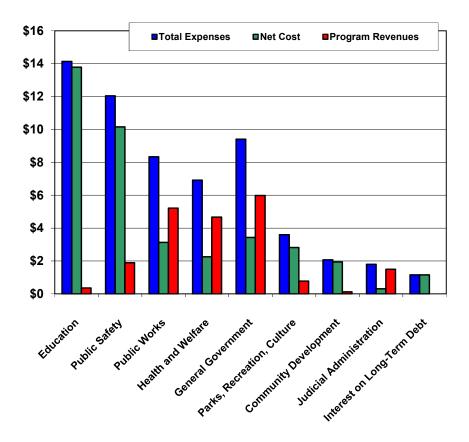

Fiscal Years Ended June 30, 2019 and 2018

(\$ In Millions)

Governmental Activities - Expenses, Net Costs, and Program Revenues

(\$ In Millions)

Program revenues are those revenues directly related to the individual expense functions such as user fees and charges, restricted grants, and contributions. Program revenues for the current fiscal year totaled \$20.5 million and general revenues totaled \$45.7 million.

The net cost of services represents the amount of tax or other revenue required to support these functions. The Education function requires the largest amount of general revenue support at 35.37%, a decrease of \$2.76 million from the previous year. Public works net cost of service increased \$1.9 million from the previous year due to the decrease in capital related grants. General government net cost of service increased \$.8 million due to an increase in costs of the health fund and increase in pension costs.

	\$	59,465,947	\$	38,971,993	\$	58,532,931	\$	38,684,678	

Business-Type Activities

For the City's business-type activities, the results for the current fiscal year were positive in that overall net position increased to reach an ending balance of \$72 million. The total increase in net position for business-type activities was \$1.5 million or 2.2% over the prior fiscal year. The growth, in large part, is attributable to an overall decrease of expenses of business-type activities of \$.9 million. The decrease is due mainly to a decrease in pension and OPEB costs, a decrease in utility line repair and maintenance costs, and the decrease due to golf operations reverting to the general fund. There was also an increase of \$.2 million in investment earnings and a \$.3 million increase in charges for services resulting from new water and sewer connections and facility fees.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Staunton uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City Council.

At June 30. 2019, the City's governmental funds reported combined ending fund balances of \$73.8 million, an increase of \$47.7 million in comparison with the prior year. Approximately 6.28% of this amount (\$4.6 million) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder was nonspendable (\$97,630); restricted for particular purposes (\$.3 million); committed for particular purposes (\$8.9 million); or assigned for particular purposes (\$59.9 million).

General Fund

The General Fund is the chief operating fund of the City of Staunton. At the end of the current fiscal year, unassigned fund balance of the general fund was \$4.65 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 9.11 percent of total general fund expenditures, while total fund balance represents approximately 31.9 percent of that same amount.

The fund balance of the City's general fund increased \$.7 million during the current fiscal year. Property tax revenues increased \$.9 million due to increased assessed value. Other local taxes increased \$1.2 million due to an increase in sales, meals, and lodging taxes collected. Intergovernmental revenues increased \$1 million due to an increase in state street maintenance and primary paving funds, state child services act funding and federal SAFER grant funding.

General Fund actual expenditures were \$50.8 million versus the revised budget totaling \$53.4 million. The contribution to the Component Unit School Board was the largest expense at \$13.2 million. Expenditure savings of \$2.5 million was spread through each governmental function, but significant savings in the general government function was due to decreases in personnel costs because of vacancies in personnel positions and significant savings in the health and welfare function was a result of actual child services act expenses being less than expected.

Capital Projects Fund

The City's Capital Improvements Fund, which includes the Bond construction fund, is used to report transactions related to the financing resources and expenditures for the acquisition or construction of capital facilities for the General Fund. Proprietary capital projects are reported in the appropriate proprietary fund. The City uses annual operating revenues of the General Fund, fund balance transfers from the General Fund, bond proceeds, or grants as resources to fund capital projects. With the exception of grant resources, the General Fund transfers funds to the Capital Improvements Fund when appropriated by the governing body. The General Fund transferred \$3.4 million in FY 2019 to the City Capital Improvement Fund for projects still in progress. The City updates the capital improvements plan on an annual basis.

General Fund Budgetary Highlights

City Council revised the current City Budget two times during the year which included two amendments to the General Fund budget. These budget amendments included:

- Budget Amendment Number 1 \$3,454,136. This amendment appropriated \$184,571 from prior year funds for the balance of grant programs, restricted donations and mandated state program carry-over funds for programs not completed at the end of the prior fiscal year. This amendment also included additional appropriations of \$244,565 for additional grant funds, donations and recovered costs. The amendment also included appropriations of prior year unassigned fund balance of \$2,700,000 to be transferred to the CIP fund to be held in an undesignated CIP account until City Council approves the FY2019-2023 CIP in February 2019, and \$325,000 to be transferred to the Debt service fund to increase the required 1% debt reserve and for the balance of the FY2019 debt payments for Staunton Crossing which were cut from the original FY2019 budget.
- Budget Amendment Number 2 \$1,226,420. The amendment included additional appropriations of \$976,420 made up of \$869,150 in additional grant funds, \$97,290 in donations, and \$9,980 in recovered costs. This amendment also appropriated \$250,000 from the general contingency reserve to fund anticipated increases to children's services act expenditures.

CAPITAL ASSETS

The City of Staunton's investment in capital assets for its governmental activities and business-type activities as of June 30, 2019 amounts to \$130.4 million (net of depreciation). This investment in capital assets includes land, buildings and systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges as well as utility line infrastructure. Total net capital assets are \$56.2 million for the governmental activities, and \$74.2 million for the business-type activities. The total increase in capital assets for the current fiscal year was \$.7 million or .6%.

Major capital asset events (other than normal depreciation costs) during the current fiscal year included the following for governmental activities:

Addition of \$3.6 million for construction in progress, mainly for the renovations to the high school.
 Additionally, golf operations reverted to the general fund. Asset with a net book value of approximately \$358,000 were moved from business-type activities to governmental activities.

Major capital asset events (other than normal depreciation costs) during the current fiscal year included the following for business-type activities:

Addition of \$1.8 million of improvements to the City's two parking garages were added to capital assets.

• Additional information regarding capital assets can be found in Note 5 in the notes to the financial statements.

- The *Code of Virginia* limits the amount of general obligation debt the City may issue to ten percent of its total assessed taxable value of real estate which is \$202.5 million for the City. The City currently has net bonded debt payable of \$90.7 million. The current legal margin for creating additional debt for the City of Staunton is \$111.8 million.
- Additional information regarding outstanding debt can be found in Note 6 in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The FY 2020 general fund budget was adopted at \$59.3 million, an increase of \$2.7 million over the \$56.6 million budget for FY 2019.
- The Real Estate tax rate is \$.95/\$100 of assessed value. The January 1, 2019 taxable real estate assessment reflected an increase of 7.67% and projected to generate an additional \$1.03 million in revenue for 2020. The Personal property tax rate is \$2.90/\$100 of assessed value and personal property taxes are projected to generate an additional \$.3 million in revenue for 2020.
- Meals and sales tax are expected to generate an additional \$.8 million due mainly to increase in sales from the Frontier Center.
- Funding from the Commonwealth constitutes 20.9% of the total general fund budget and is projected to increase \$.5 million over 2019, from \$11.9 million to \$12.4 million. The largest categories of state funding are health and welfare, children's services act and street and highway maintenance.
- A 3% cost of living adjustment for all full-time and part-time employees will be effective the first payroll of July, 2019. The General Fund increase for wages and benefits for FY 2020 is \$.7 million. The City added a 1 position in the FY 2020 General Fund budget for a traffic engineering crew leader. The total FTE count for the City is 308 full-time employees, a net increase of 3 positions.
- The General Fund budgeted transfer to the City Capital Improvement Fund is \$.8 million for FY 2020, an increase of \$150,000 from FY 2019.
- The General Fund transfer to the Debt Service Fund increased \$21,665 over FY 2019 to \$4.8 million. The City will reduce its total outstanding debt by \$4.5 million in 2020.
- The General Fund transfer to the Education Fund increased 4.9%, or \$650,000, to help fund an average 3% pay increase for school employees which will be effective with the July 2019 pay check.
- As of September 2019, the unemployment rate for the City of Staunton was 2.3%. Staunton's rate is slightly lower than the state's average unemployment rate of 2.5% and well below the national average of 3.3%.

All these factors were considered in preparing the FY 2020 budget to finance the cost of programs and services provided to citizens.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the Finance Department, City of Staunton, 116 W. Beverley Street, Staunton, Virginia 24401, 540-332-3809, or at trayerpm@ci.staunton.va.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2019

Year Ended June 30, 2019		
Net changes in fund balances - Governmental Funds		\$ 47,664,488
Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:		
Governmental funds report the cost of capital assets acquired as current expenditures while the statement of activities reports depreciation expense to allocate those expenditures over the life of the assets.		
Depreciation	\$ (3,035,869)	4 000 44
Capital expenditures	4,134,311	1,098,442
In the statement of activities, only the gain or loss on the disposal of capital assets is reported, while in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital asset.		(1,634)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes	\$ 47,711	
Interest	4,678	59.702
Other operating revenues	 6,313	58,702
Payments on loans receivable are revenues in the governmental funds, but decrease long term assets in the statement of position Jail buy in		(577,345)
Debt proceeds provide current financial resources to governmental funds, but debt issuances increase long term liabilities in the statement of net position. Principal repayments are expenditures in governmental funds, but reduce long term liabilities in the statement of net position. Proceeds from the issuance of debt GO bond and literary loan payments	\$ (46,089,862) 2,597,575	(43,492,287)
Governmental funds report interest on long term debt as expenditures when payments are made, while the statement of activities reports interest expense on the accrual basis.		(147,255)
Governmental funds report employer contributions to other postemployment benefit as expenditures. However, in the statement of activities the cost of other postemployment benefits earned net of employee contributions is reported as OPEB expense. Employer OPEB contributions OPEB expense	\$ 595,029 (553,235)	41,794
Governmental funds report employer pension contributions as expenditures. However, in the		,
statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense. Employer pension contributions Pension expense	\$ 1,756,264 (378,465)	1,377,799
Some expenses reported in the statement of activities do not require the use of current resources, and therefore are not reported as expenditures in governmental funds.		
Compensated absences and claims payable Amortization of bond discount and deferred amount	\$ (94,776) (41,207)	(135,983)
The net income of internal service funds is reported within governmental activities on the statement of activities.		803,262
Transfer to Golf Fund from governmental activities-to cover residual deficit from closing of golf fund		(168,291)
Change in net position - Governmental Activities		\$ 6,521,692

Note 1. Summary of Significant Accounting Policies

The City of Staunton, Virginia (the "City"), is named for Lady Stanton, wife of Governor Gooch. The City was initially established as a town in 1761, and later incorporated as a city by an act of the Virginia General Assembly in 1871. The City has an area of 19.98 square miles and a population of approximately 24,200. The City provides a full range of municipal services, including general government administration, public safety and judicial administration, education, health and welfare services, recreation, planning and community development, and water, sewer, and refuse utilities. The City is a political subdivision of the Commonwealth of Virginia and operates under the Council-Manager form of government. Staunton was the first city in the United States to utilize this form of government.

A. The Financial Reporting Entity

Discretely Presented Component Units: Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, or whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. They are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City.

City of Staunton School Board

The City of Staunton School Board (School Board) was created as a separate legal entity by the City to oversee the operation and management of its publicly funded primary and secondary schools. The members of the School Board are elected by the voters. The School Board does not have the authority to levy taxes and is fiscally dependent on the City to provide the significant funding to operate and maintain the public school system. In addition, the City has final approval of the school budget and must approve any debt issues related to the schools.

The component unit School Board is governmental in nature. The Schools have several funds. As a result, the complete activity of the School Board is included in the discretely presented component unit column of the government-wide financial statements. Individual fund statements are included as supplementary information. Separate financial statements of the School Board are not available.

Staunton Economic Development Authority

The Staunton Economic Development Authority (EDA) was established under the Industrial Development and Revenue Bond Act of the *Code of Virginia* and has the responsibility to promote industry and develop trade by inducing manufacturing, industrial, and other commercial enterprises to locate or remain in the City. The City appoints all seven members of the EDA's Board of Directors. In addition, the City has incurred debt to provide capital grants and other property to the EDA. As a result, the EDA imposes a financial burden on the City. Separate financial statements of the EDA are not available.

Note 1. Summary of Significant Accounting Policies (Continued)

A. The Financial Reporting Entity (Continued)

Related organizations:

The City also participates in the following entities:

Augusta Regional Landfill

The City, along with the City of Waynesboro and County of Augusta, participates in the Augusta Regional Landfill (the "Landfill"). The Landfill is a hybrid undivided/joint interest venture formed to develop regional refuse disposal, including the development of facilities and systems for recycling, waste reduction, and disposal alternatives with the ultimate goal of acquiring, financing, constructing, and operating/maintaining regional solid waste disposal areas, systems, and facilities. The City's share of revenues, expenses, assets, and liabilities are reported in the City's Environmental fund.

Middle River Regional Jail Authority

The City, in conjunction with the City of Waynesboro and the County of Augusta, participates in the Middle River Regional Jail Authority. Capital and operating costs are allocated annually based on the percentage of prisoners from each member jurisdiction over the previous three calendar years. In accordance with the service agreement, the Authority has divided its charges to member jurisdictions into an operating component and a debt service component. The City paid the Authority \$1,590,705 for the current year. This entity is not included in the City's financial statements.

B. Government-wide and Fund Financial Statements

The government-wide financial statements consist of a statement of net position and a statement of activities that report information on all the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements, as well as the proprietary fund financial statements, report all their activities using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they become both measurable and available. Accordingly, real and personal property taxes are recorded as deferred revenue and receivables when levied, net of allowances for uncollectible amounts. Real and personal property taxes recorded at June 30 and received within the first 45 days after year-end are included in tax revenues, with the related amount reduced from deferred revenues. Sales and utility taxes, which are collected by the State or utility companies and subsequently remitted to the City, are recognized as revenues and amounts receivable when the underlying exchange transaction occurs, which is generally one or two months preceding receipt by the City. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of Federal, State and other grants for the purpose of specific funding are recognized when earned or at the time of the specific reimbursable expenditure. Revenues from general-purpose grants are recognized in the period in which the grant applies. Investment earnings are recorded when earned, as are unbilled accounts receivable in the enterprise funds. All other revenue items are considered to be measurable and available only when the government receives cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund and is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The City has established the Capital Improvements Fund for this purpose.

Additionally, the City reports the following individual non-major governmental funds:

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The City has established the following non-major special revenue funds: Blue Ridge Court Services Fund, Community Development Fund and the State and Federal Grants Fund.

Debt Service Funds are used to account for resources and payments made for principal and interest on long-term general obligation debt of governmental funds. The City has established the Debt Service Fund for this purpose.

Proprietary Funds are used to account for the City's ongoing activities similar to those found in the private sector. The City reports the following major proprietary funds:

The Water Fund accounts for the operations of the City's water distribution system.

The **Sewer Fund** accounts for the operations of the City's wastewater collection system.

The **Stormwater Fund** accounts for the operation of the City's storm water system.

The *Environmental Fund* accounts for the operations of the City's refuse collection and participation in a regional landfill operation.

Additionally, the City reports the following individual non-major proprietary funds:

The *Parking Fund* accounts for the operations of the City's parking garage and lot system.

The *Golf Fund* accounts for the operations of the City's Gypsy Hill Golf Course. The golf fund was closed as of 6/30/2018 and operations reverted to the general fund 7/1/2018.

Internal Service Funds are used to account for employee health benefits and goods and services provided to other departments on a cost reimbursement basis and they derive their funding from charges assessed to the user departments and employees. The City has established the Health Insurance Fund and the Inventory Fund for these purposes. These funds are included in the governmental activities for government-wide reporting purposes. The excess revenues or expenses for the funds are allocated to the appropriate functional activity.

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent for individuals, other governmental units, or other funds. *The OPEB Trust Fund* accounts for the assets held for, and costs of, other post-employment benefits (OPEB). It is accounted for in the same manner as a proprietary fund type. Measurement focus is upon determination of the change in net position.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's proprietary funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating revenues for the City's enterprise funds and internal service fund consist of charges to customers for goods and services. Operating expenses for these funds include the costs of sales and service, administrative expenses and depreciation of capital assets. Any revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position

Cash and Cash Equivalents

The City maintains an internal cash management pool in which the primary government and component units share. Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments are stated at fair value. The reported value of the state-sponsored investment pool is the same as the fair value of the pooled shares and is reported within the guidelines of GASB 79.

Receivables and Allowance for Uncollectible Accounts

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance for uncollectible accounts is calculated using historical collection data, specific account analysis and management's judgment. The allowance at June 30 consisted of the following:

General Fund (property taxes)	\$ 678,181
General Fund (other local taxes)	11,316
Water Fund (charges for services)	37,317
Sewer Fund (charges for services)	47,501
Stormwater Fund (charges for services)	17,979
Parking Fund (charges for services)	3,465
Environmental Fund (charges for services)	 32,990
	\$ 828,749

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Inventory

Inventory is generally recorded at cost. Inventory in the internal service fund consists of expendable supplies held for consumption. The costs are recorded as expenditures or expenses when consumed rather than when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads and bridges) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of at least 3 years (2 years for component unit school board). All capital assets are valued at historical cost or estimated historical cost, if actual cost was not available. Donated capital assets are recorded at their estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives. No depreciation is taken in the year of acquisition for infrastructure assets. For constructed assets, all associated costs necessary to bring such assets to the condition and location necessary for their intended use are initially capitalized as construction in progress and are transferred to the appropriate asset class when the assets are substantially complete and ready for use.

ASSETS	Estimated Useful Life
Buildings/building improvements	10-50 years
Land improvements	10-50 years
Infrastructure	20-50 years
Utility transmission lines and mains	50 years
Furniture and equipment	3-10 years
Vehicles	3-10 years

Depreciation of landfill cell development and site costs is recorded based on remaining units of capacity.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statements that present financial position report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expenses/expenditures) until then. The government has several items that qualify for reporting in this category. The first is the deferred charge on refunding which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the life of the refunded debt. The second consists of contributions subsequent to the measurement date for pensions and OPEB; these amounts will be applied to the net pension and net OPEB liability in the next fiscal year. Lastly are various components of outflows for pensions and OPEB, which may include the net difference between projected and actual earnings on pension or OPEB plan investments, changes in proportion and differences between employer contributions and the proportionate share of employer contributions, changes in assumptions, and the net difference between expected and actual experience in the pension and OPEB plans. These items will be recognized in pension or OPEB expense either 1) over a closed five-year period or 2) amortized over the average expected remaining service lives of all employees.

In addition to liabilities, the statements that present financial position report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has several items that qualify for reporting in this category. The first item occurs only under the modified accrual basis of accounting; this item, *unavailable revenue*, is reported only on the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes and other receivables not collected within 45 days of year end. These unavailable revenue amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Also reported as deferred inflows are various components of inflows for pensions and OPEB, which may include the net difference between projected and actual earnings on pension or OPEB plan investments, changes in proportion and differences between employer contributions and the proportionate share of employer contributions, changes in assumptions, and the net difference between expected and actual experience in the pension and OPEB plans. These items will be recognized in pension or OPEB expense either 1) over a closed five-year period or 2) amortized over the average expected remaining service lives of all employees.

Compensated Absences

All liabilities for compensated absences are accrued when incurred in the government-wide and proprietary financial statements. In governmental funds a liability for these amounts is reported only if they have matured; for example, as a result of employee resignations and retirements.

City Employees

City employees earn general leave based on length of service. In the event of resignation or retirement, a City employee is compensated at his or her then current rate of pay for accumulated general leave, up to a 480 hour maximum (640 hour maximum for fire personnel). There is no liability for unpaid accumulated major illness leave since the City does not have a policy to pay any amounts when employees separate from service. Exempt employees who resign or retire, who have accumulated at least 360 hours (45 days) of general leave, have their entire pay out deposited to the 401(a) plan.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Component Unit School Board Employees

School Board employees on twelve-month contracts earn vacation leave based on length of service and can carry over an unlimited number of accumulated vacation leave days to a succeeding fiscal year. In the event of resignation or retirement, provided the employee gives the required notice, the employee is compensated at his or her then current rate of pay for accumulated vacation leave, up to a 480 hour maximum.

All School Board employees may accrue unlimited days of sick leave at the rate of one day per month of employment. Upon retirement, VRS Plan 1 and 2 employees with at least ten years of service, with the previous five consecutive years having been with the School Board, and that are qualified to retire under the terms of the Virginia Retirement System, are compensated for all days of accumulated sick leave at the rate of \$20 per day. VRS hybrid employees with at least ten years of service, with the previous five consecutive years having been with the School Board, and that are qualified to retire under the terms of the Virginia Retirement System, are compensated for a maximum of 90 days at \$20 per day.

For any terminating school board employee, accumulated vacation and sick leave amounts that, individually or combined, total \$15,000 or greater are paid directly into the 403b plan.

Unearned Revenue

In the Water fund, unearned revenue consists of cell tower rental fees which apply to subsequent periods.

In the General fund, unearned revenue consists of cell tower rental fees and golf membership fees which apply to subsequent periods.

In the School Board component unit, unearned revenue consists of summer school fees which apply to subsequent periods.

Long-Term Obligations

In the government-wide financial statements (and proprietary fund types in the fund financial statements), long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method or bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period but not as long-term liabilities. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Repayments and issuance costs are reported as debt service expenditures.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Pensions

The Virginia Retirement System (VRS) Political Subdivision and School Division Non-professional Retirement Plan is a multi-employer, agent plan. The Virginia Retirement System (VRS) Teacher employee Retirement Plan is a multiple employer, cost-sharing plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Political Subdivision and School Division's Retirement Plan and the Teacher Employee Retirement Plan, as well as the additions to/deductions from both Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS).

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Health Insurance Credit Program

The Political Subdivision Health Insurance Credit Program is a multiple-employer, agent defined benefit plan. The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit Program is a multiple-employer, cost-sharing plan. Both plans provide a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers and for retired teachers. The Health Insurance Credit Programs were established pursuant to §51.1-1400 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. For purposes of measuring the net Health Insurance Credit Programs OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Programs OPEB, and OPEB expense, information about the fiduciary net position of the Programs; including and the additions to/deductions from the Program's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Group Life Insurance

The Virginia Retirement System (VRS) Group Life Insurance Program is a multiple employer, cost sharing plan. It provides coverage to state employees, teachers, and employees of participating political subdivisions. The Group Life Insurance Program was established pursuant to §51.1-500 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring the net Group Life Insurance Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Group Life Insurance Program OPEB, and Group Life Insurance Program OPEB expense, information about the fiduciary net position of the Virginia Retirement System (VRS) Group Life Insurance program OPEB and the additions to/deductions from the VRS Group Life Insurance Program OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Encumbrances

The City uses encumbrance accounting, wherein purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign that portion of fund balance.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Net Position

Net position in the government-wide and proprietary financial statements is classified as net investment in capital assets; restricted; and unrestricted. Net position is reported as restricted when there are limitations imposed on its use through enabling legislation or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations. Restricted net position arose from contributions and grants required to be used for specific purposes.

The component unit school board had a negative net position totaling \$15,875,460 at June 30, 2019 as a result of recognizing the net pension and OPEB liabilities. This deficit is not expected to be recovered in the near term.

Fund Balance Policies

The following fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used.

Nonspendable Fund Balance: includes amounts that cannot be spent because they are either not in spendable form such as inventories, property acquired for resale, prepaid amounts, or amounts that are legally or contractually required to remain intact.

<u>Restricted Fund Balance:</u> includes amounts that have constraints placed on their use by external sources such as creditors (debt covenants), grantors, contributors, or laws or other regulations of other governments. Restricted fund balance can also be imposed by law through constitutional provisions or enabling legislation.

<u>Committed Fund Balance:</u> includes amounts that can only be used for specific purposes determined by a formal action of City Council. City Council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned Fund Balance: includes amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The City Council has by resolution authorized the finance director to assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment.

<u>Unassigned Fund Balance</u>: includes amounts not assigned to other funds, or restricted, committed or assigned within the same fund. Unassigned fund balance includes all spendable amounts not contained in the other classifications and is technically available for any purpose. The general fund is the only fund that reports positive unassigned fund balance. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceeds the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Note 1. Summary of Significant Accounting Policies (Continued)

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position (Continued)

Fund Balance Policies (Continued)

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Stabilization Arrangement:

City Council has formally adopted by resolution a requirement to establish and maintain a safety net reserve equal to a minimum of 15% of the subsequent fiscal year's adopted expenditure budget for the general fund and all other major operating funds, including water, sewer, storm water, and environmental. In the adopted resolution, the safety net reserve is to be reported as committed fund balance. The safety net reserve at June 30, 2019 for the general fund is \$8,891,250. The specific and non-routine circumstances allowing the use of the safety net reserve include:

- 1. Damage from unanticipated natural disasters or unseen infrastructure damage such as water or sewer system deterioration, bridge repair, etc. exceeding \$100,000 in damages.
- 2. Imposition of mandates by Federal and State governments such as water, sewer, and landfill regulations, construction of court and jail facilities, etc. exceeding \$100,000 in costs.
- 3. Court decisions resulting in unbudgeted expenditures, in excess of \$100,000.
- 4. Acts of terrorism against the City destroying the City's infrastructure or causing a financial hardship to provide services to citizens, in excess of \$100,000.

Funds to be used from the safety net reserve must be appropriated through the annual budget ordinance or by a budget amendment ordinance approved and adopted by City Council.

City council also formally adopted by resolution a requirement to establish and maintain a general contingency amount of \$250,000 in the General Fund, categorized as unassigned fund balance.

Estimates

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities, and reported revenues, expenditures, and expenses. Actual results could differ from those estimates.

Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and are described as follows.

- Level 1 inputs are quoted prices in active markets for identical assets;
- Level 2 inputs are significant other observable inputs;
- Level 3 inputs are significant unobservable inputs.

Note 2. Deposits and Investments

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that range in amount from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Investment policy

In accordance with the *Code of Virginia* and other applicable law, including regulations, the City's investment policy (Policy) permits investments in U.S. Treasury Securities, U.S. agency securities, prime quality commercial paper, non-negotiable certificates of deposit and time deposits of Virginia banks, negotiable certificates of deposit of domestic banks, banker's acceptances with domestic banks, Commonwealth of Virginia and Virginia Local Government Obligations, obligations of states other than Virginia, obligations of World Bank, the Asian and African Development Banks, corporate notes or bonds rated in the AAA or AA category, money market funds regulated by the SEC, repurchase agreements collateralized by the U. S. Treasury/Agency securities, the Virginia State Non-Arbitrage Program or other authorized Arbitrage Investment Management programs, and the State Treasurer's Local Government Investment Pool (the Virginia LGIP).

Pursuant to Sec. 2.1-234.7 of the *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings and the carrying value of the position in LGIP is the same as the value of the pool shares (i.e., the LGIP maintains a stable net asset value of \$1 per share) in accordance with GASB 79.

The Policy limits investment maturities to five years maximum maturity for any investment, unless specifically disclosed in writing to City Council.

Note 2. Deposits and Investments (Continued)

Investment policy (Continued)

As of June 30, the City's investments consisted of the following:

Investment Type		Fair Value	S & P Credit Rating		
Primary Government		Tan value	Kating		
	_				
Money Market Funds	\$	45,399	Not Rated		
Federal Agency Bonds and Notes		10,088,849	AA+		
US Treasury Bills		297,402	AA+		
Corporate Bonds/Notes		1,133,540	AA- to AAA		
VA State Non-Arbitrage Program		43,833,104	AAAm		
Local Government Investment Pool (LGIP)		1,547,843	AAAm		
Total primary government		56,946,137			
Component Unit School Board					
Local Government Investment Pool (LGIP)		364,744	AAAm		
Total Component Unit School Board		364,744			
Grand total	\$	57,310,881			

Credit Risk:

As required by state statute or by the City, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following: Moody's Investors Service, Standard & Poor's, and Fitch Investor's Service, provided that the issuing corporation has a net worth of at least \$50 million and its long-term debt is rated "A" or better by Moody's and Standard & Poor's. Banker's acceptances and certificates of deposit maturing in less than one year must have a short-term debt rating of at least "A-1" by Standard & Poor's and "P-1" by Moody's Investor Service.

Concentration of Credit Risk:

The City had the following investments at June 30 that exceeded 5 percent of the total investment balance. These investments were not considered by management to represent a risk to the City.

Issuer	Percent of Total Portfolio
Federal Home Loan Bank	5.10%
Federal Home Loan Mortgage Corp	6.63%

C & D Cradit

Note 2. Deposits and Investments (Continued)

<u>Interest Rate Risk:</u> In accordance with the City's investment policy, the City manages its exposure to declines in fair value by limiting the average maturity of its investment portfolio to less than 3 years.

The carrying values and weighted average maturity of investments were as follows:

Investment Type		Fair Value	Weighted Average Maturity (years)
Money Market Funds	\$	45,399	N/A
Federal Agency Notes and Bonds		10,088,849	.80
US Treasury Bills		297,402	.41
Corporate Bonds/Notes		1,133,540	.28
VA State Non-Arbitrage Program		43,833,104	.21
Local Government Investment Pool (LGIP)		1,912,587	.23
	\$	57,310,881	

The above items are reflected in the financial statements as follows:

				Component Units				
		Primary		-				
	Government School Board					EDA		
Deposits and investments:								
Cash on hand	\$	13,118	\$	50	\$	-		
Deposits		41,331,129		6,001,453		497,125		
Investments		56,946,137		364,744		-		
	\$	98,290,384	\$	6,366,247	\$	497,125		
Statement of net position:								
Cash and cash equivalents	\$	40,240,893	\$	6,366,247	\$	497,125		
Investments		11,565,189		-		-		
Restricted-cash and cash equivalents		46,484,302		-		-		
	\$	98,290,384	\$	6,366,247	\$	497,125		

Fair Value:

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The City has the following recurring fair value measurements as of June 30, 2019:

	 Level 2
Debt securities	
U.S. Agency securities	\$ 10,386,251
Corporate bonds	 1,133,540
	\$ 11,519,791

Debt securities classified in Level 2 of the fair value hierarchy are valued with significant other observable inputs, which include matrix pricing by a service, which is widely accepted as industry practice.

Note 3. Due From Other Governmental Units

Amounts due from other governments at June 30 were as follows:

		Primary Government				Component Unit
	Governmental Activities		Business-type Activities-			School Board
Various state and federal grants Virginia revolving loans Regional jail buy-in	\$	2,865,641 - 3,736,893	\$	2,120,658	\$	2,563,157
	\$	6,602,534	\$	2,120,658	\$	2,563,157

Virginia Revolving Loans:

The City's Sewer fund reports loans receivable for the Augusta County Service Authority's share of the Middle River Wastewater Treatment Plant Virginia Revolving Loans. The Service Authority reimburses the City for its share of the debt service on these loans as each loan payment is due.

At June 30, principal amounts and related interest outstanding on each loan were as follows:

Principal		Interest
\$ 224,212	\$	53,181
744,689		156,829
 1,151,757		96,494
\$ 2,120,658	\$	306,504
\$	\$ 224,212 744,689 1,151,757	744,689 1,151,757

Regional Jail Buy-in

Effective July 1, 2015, the City entered into an agreement with the Counties of Augusta and Rockingham and the Cities of Waynesboro and Harrisonburg, where the County of Rockingham and City of Harrisonburg agreed to "buy-in" to the Middle River Regional Jail Authority. The total purchase price was \$21,543,588. The purchase price was determined pursuant to an arm's length negotiation and calculated based in part upon the original replacement cost of the jail and an assumed usage of 250 beds by the buyers.

The City's share of the purchase price was 31.17% or \$6,715,136. The purchase price is to be paid to the City over 10 years in equal annual installments of \$670,964, which includes interest calculated at 2.17% per annum.

Governmental Activities

	 Principal	Interest
Amount receivable within 1 year	\$ 589,874	\$ 81,091
Amount receivable within 2 to 5 years	2,490,305	193,551
Amount receivable beyond 5 years	 656,714	 14,251
	\$ 3,736,893	\$ 288,893

Note 4. Interfund Transfers and Obligations

Primary Government:

Transfers Out	Transfers In							
	Capital Projects Fund			Nonmajor Nonmajor Governmental Business-Type Funds Funds			e Total	
General Fund	\$	3,391,050	\$	5,147,750	\$	21,025	\$	8,559,825
Total	\$	3,391,050	\$	5,147,750	\$	21,025	\$	8,559,825

Transfers between the general fund and other nonmajor governmental and proprietary funds were primarily to support debt service, capital projects, and operating costs.

Component Unit School Board:

Transfers Out		Transfers In				
				Nonmajor		
	E	Education				
		Fund		Funds		Total
Education fund	\$	-	\$	1,148,315	\$	1,148,315
Nonmajor governmental funds		92,356		-		92,356
Total	\$	92,356	\$	1,148,315	\$	1,240,671

All transfer activities of the School Board component unit were made to support current operations.

Interfund Advances:

In the School Board Component Unit, the Education Fund has a receivable in the amount of \$603,835 from the State Operated Programs Fund for an advance to cover a cash deficit. The advance is expected to be collected in the subsequent year when grant reimbursements are received.

Note 5. Capital Assets

Primary Government:

Capital asset activity for the primary government is as follows:

	Jı	Balance ane 30, 2018		Additions		Deletions	Jı	Balance une 30, 2019

6- · <i>1</i> . 11. 11. 11.	_	- ,,	=	.,,	_	-,	=	, , /

Additions to the accumulated depreciation of governmental activities differ from depreciation expense for governmental activities due to internal service fund depreciation in the amount of \$3,398; the transfer of a fully depreciated asset from the environmental fund in the amount of \$17,899; the transfer of assets from the closing of the golf fund in the amount of \$415,305; and the reactivation of a previously retired asset in the amount of \$4,792.

^{*}School Board capital assets are jointly owned by the City (primary government) and the Component Unit – School Board. The City reports the School Board capital assets as long as debt is owed on such assets by the City. When debt is completely paid off, the entire capital asset balance less accumulated depreciation reverts to the school board. The City reports depreciation on its share of these assets as an element of its share of the costs of the public school system.

Total capital assets, net	\$ 10,578,316 \$	(416,092) \$	_	\$ 10,162,224

^{*}School Board capital assets are jointly owned by the City (primary government) and the Component Unit – School Board. The City reports the School Board capital assets as long as debt is owed on such assets by the City. When debt is completely paid off, the entire capital asset balance less accumulated depreciation reverts to the school board. The City reports depreciation on its share of these assets as an element of its share of the costs of the public school system.

Note 7. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the City of Staunton (the "Political Subdivision") and permanent non-professional employees (non-teachers) of the City of Staunton (the "School Division") are automatically covered by VRS Retirement Plan upon employment. This plan is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria a defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The School Division (School) was the fiscal agent for a separate legal entity, the Shenandoah Valley Regional Alternative Education Program - Genesis ("Genesis"). Genesis participated in VRS through inclusion in the School's pension plan. This participation has been considered a cost sharing relationship for Genesis. The Genesis program was dissolved as of June 30, 2019. As a result, all employees that were included with the School's pension plan were re-employed with the School Board. Therefore, the School has included the proportionate share of the Genesis' participation in the School's pension plan in the School's pension related balances.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are available at

- https://www.varetire.org/members/benefits/defined-benefit/plan1.asp,
- https://www.varetire.org/members/benefits/defined-benefit/plan2.asp,
- https://www.varetirement.org/hybrid.html

Employees Covered by Benefit Terms

As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	City
Inactive members or their beneficiaries currently receiving benefits	284
Inactive members:	
Vested inactive members	47
Non-vested inactive members	64
Inactive members active elsewhere in VRS	121
Total inactive members	232
Active members	281
Total covered employees	797

Note 7. Defined Benefit Pension Plan (Continued)

	School Non- Professional
Inactive members or their beneficiaries currently receiving benefits	47
Inactive members:	
Vested inactive members	7
Non-vested inactive members	32
Inactive members active elsewhere in VRS	14
Total inactive members	53
Active members	42
Total covered employees	142

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The political subdivision's and school division's contractually required contribution rate for the year ended June 30, 2019 was 15.68% and 7.39%, respectively, of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the political subdivision were \$2,001,376 and \$2,082,997 for the years ended June 30, 2019 and June 30, 2018, respectively. Contributions to the pension plan from the school division were \$85,079 and \$91,000 for the years ended June 30, 2019 and June 30, 2018, respectively.

Net Pension Liability

The net pension liability is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2017 rolled forward to the measurement date of June 30, 2018.

Note 7. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions

Inflation

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

2.50%

including inflation*

General Employees - Salary increases, including inflation	3.50 – 5.35%
Public Safety Employees with hazardous duty benefits – Salary increases, including inflation	3.50 – 4.75%
Investment rate of return	7.00%, net of pension plan investment expense,

Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: General employees -15 to 20% of deaths are assumed to be service related. Public Safety Employees -70% of deaths are assumed to be service related. Mortality is projected using the applicable RP-2014 Mortality Table Projected to 2020 with various set backs or set forwards for both males and females.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees – Largest 10 – Non-Hazardous Duty and All Others (Non 10 Largest): Update mortality table; lowered retirement rates at older ages, changed final retirement from 70 to 75; lowered disability rates, no change to salary scale, increased rate of line of duty disability from 14% to 20%.

Public Safety Employees – Largest 10 – Hazardous Duty and All Others (Non 10 Largest): Update mortality table; adjustment to rates of retirement by increasing rate at 50 and lowering rate at older ages; adjusted rates of withdrawal and disability to better fit experience; changes to line of duty rates, and no changes to salary scale.

Note 7. Defined Benefit Pension Plan (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00 %	4.54 %	1.82 %
Fixed Income	15.00	.69	.10
Credit Strategies	15.00	3.96	.59
Real Assets	15.00	5.76	.86
Private Equity	15.00	9.53	1.43
Total	100.00 %		4.80 %
	Inflation		2.50 %
*Expected a	rithmetic nominal return		7.30 %

^{*} The above allocation provides a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions, political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2018, the alternate rate was the employer contribution rate used in the FY 2012 or 90% of the actuarially determined employer contribution rate from the June 30, 2015, actuarial valuations, whichever is greater. From July 1, 2018 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Total	\$	85,677	\$	83,102	

Note 7. Defined Benefit Pension Plan (Continued)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)</u>

The \$2,001,376 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Increase (Reduction) to Pension Expense			
2020	\$	(541,282)		
2021 2022 2023		(267,829) (624,765) (53,861)		

The \$85,079 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Increase (Reduction) to Pension Expense	
2020	\$	(27,694)
2021		(9,183)
2022		(42,154)
2023		(3,473)

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plans is also available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan-City

At June 30, 2019, approximately \$224,415 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

Note 7. Defined Benefit Pension Plan (Continued)

Payables to the Pension Plan-School Division

At June 30, 2019, approximately \$6,919 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Pool

General Information about the Teacher Cost Sharing Plan

Plan Description

All full-time, salaried permanent (professional) employees of Virginia public school divisions, including City of Staunton, (the "School Division"), are automatically covered by the VRS Teacher Retirement Plan upon employment. This multiple employer, cost sharing plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employers pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously funded service.

The System administers three different benefit structures for covered employees in the VRS Teacher Retirement Plan – Plan 1, Plan 2, and Hybrid. The provisions and features of the plans, as well as all actuarial assumptions, are substantially the same as those described in Note 7.

Data in this note excludes Genesis Regional Alternative Education Program.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

Each school division's contractually required contribution rate for the year ended June 30, 2019 was 15.68% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017.

The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$ 2,664,870 and \$2,728,291 for the years ended June 30, 2019 and June 30, 2018, respectively.

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the school division reported a liability of \$25,034,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2018 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018, the school division's proportion was .21287% as compared .21545% at June 30, 2017.

For the year ended June 30, 2019, the school division recognized pension expense of \$1,226,000. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2019, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between expected and actual experience	\$	-	\$	2,141,000	
Change in assumptions		299,000		-	
Net difference between projected and actual earnings					
on pension plan investments		-		531,000	
Changes in proportion and differences between					
Employer contributions and proportionate					
share of contributions		189,000		848,000	
Employer contributions subsequent to the					
measurement date		2,728,289			
Total	\$	3,216,289	\$	3,520,000	

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The \$2,728,289 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	`	Increase Reduction) o Pension Expense
2020	\$	(521,000)
2021		(669,000)
2022		(1,262,000)
2023		(453,000)
2024		(127,000)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2018, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

	 Teacher Employee Retirement Plan
Total Pension Liability	\$ 46,679,555
Plan Fiduciary Net Position	 34,919,563
Employers' Net Pension Liability (Asset)	\$ 11,759,992
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	74.81%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Note 8. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability of the school division using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	 1.00% Decrease (6.00%)	 Current Discount Rate (7.00%)	 1.00% Increase (8.00%)
School division's proportionate share of the VRS Teacher Employee Retirement plan net pension liability	\$ 38,240,000	\$ 25,034,000	\$ 14,103,000

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Teacher Cost Sharing Pension Plan

At June 30, 2019, approximately \$89,075 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

Note 9. Other Post-Employment Benefits

The City and School Board provide OPEB for retirees through a single-employer defined benefit plan. The City has established a joint trust fund with the School Board to fund the cost of OPEB. The joint trust fund was established by the City and School Board with the Virginia Pooled OPEB Trust Fund (Trust), sponsored by the Virginia Municipal League and the Virginia Association of Counties. The Trust is established as an investment vehicle for participating employers to accumulate assets to fund OPEB. Plans are segregated and restricted in a trust, in which (a) contributions to the plan are irrevocable, (b) assets are dedicated to providing benefits to retirees and their beneficiaries, and (c) assets are legally protected from creditors of the employer or plan administrator, for the payment of benefits in accordance with terms of the plan.

Note 9. Other Post-Employment Benefits (Continued)

Trust Fund Investments

Investment decisions for the fund's assets are made by the Board of Trustees. The Board of Trustees established investment objectives, risk tolerance and asset allocation policies in light of the investment policy, market and economic conditions, and generally prevailing prudent investment practices. The Board of Trustees also monitors the investments to ensure adherence to the adopted policies and guidelines. In addition, the Trustees review, monitor, and evaluate the performance of the investments and its investment advisors in light of available investment opportunities, market conditions and publicly available indices for the generally accepted evaluation and measurement of such performance. The investment objective of the Fund is to maximize total long-term rate of return with reasonable risk by seeking capital appreciation and, secondarily, principal protection.

The long-term expected rate of return on OPEB investments was determined using an arithmetic model in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Equities	59.00 %	11.85 %	8.37 %
Fixed Income	21.00	6.40	2.92
Diversified Hedge Funds	10.00	8.77	5.29
Real Assets	10.00	8.52	5.04
Total	100.00 %		21.62 %
	Inflation		3.48 %

Note 9. Other Post-Employment Benefits (Continued)

<u>Concentrations.</u> There are no investments in any one organization that represent 5 percent or more of the OPEB Trust's fiduciary net position.

<u>Rate of return.</u> For the year ended June 30, 2019 the annual money-weighted rate of return on investments, net of investment expense, was +4.67 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Additional investment information for the Trust can be obtained by writing to VML/VACo Finance Program, 1108 East Main Street, Richmond, Virginia 23219.

Plan Description

Medical insurance benefits are available to eligible City retirees, their spouses and dependents. Retirees are eligible to participate in the City's health insurance plan if they: a) meet VRS requirements for service retirement or disability retirement and will immediately be receiving a retirement annuity from VRS, b) currently participate in the City's health insurance program, and c) are under age 65 and not eligible for Medicare.

Plan Membership-City

Inactive members or their beneficiaries currently receiving benefits	47
Active members	278
Total covered employees	325

Medical insurance benefits are available to eligible School Board retirees, their spouses and dependents. Retirees are eligible to participate in the Board's health insurance plan if they: a) are eligible for VRS retirement with at least 10 years VRS experience, the last 5 years of which are with the Staunton City School Board, b) have participated in the Board's health insurance program for all of the 5 years immediately preceding retirement, and c) are under age 65.

Plan Membership-School Board

Inactive members or their beneficiaries currently receiving benefits	30
Active members	423
Total covered employees	453

Current year health insurance claims are paid out of current City and School Board funds. The difference between the actuarial calculated annual required contribution and the current year claims is contributed to the trust.

Note 9. Other Post-Employment Benefits (Continued)

Funding Policy

Current year health insurance claims are paid out of current City and School Board funds. The difference between the actuarial calculated annual required contribution and the current year claims is contributed to the trust.

City

The contribution requirements of the City healthcare plan members and City are established and may be amended by the City Council. During fiscal year 2019, the City paid an average of 83% for the various types of health insurance coverage. The retiree is required to pay the remaining amount.

For the fiscal year ended June 30, 2019, the City contributed \$414,000 to the City's healthcare plan for health insurance and contributed \$187,000 to the Virginia Pooled OPEB Trust. The contribution to the trust and the City contributions to the healthcare plan combine to fully fund the annual required contribution (ARC) of \$601,000 for fiscal year 2019. It is the City's intent to fully fund the ARC each year.

School Board

The contribution requirements of the School Board healthcare plan members and School Board are established and may be amended by the School Board. During fiscal year 2019, the School Board paid approximately 71% of the existing rate for subscriber only coverage and the retiree paid the remaining 29% plus any additional premium for spouse or dependent coverage.

For the fiscal year ended June 30, 2019, the School Board contributed \$402,000 to the School Board's healthcare plan for health insurance and contributed \$141,000 to the Virginia Pooled OPEB Trust. The contribution to the trust and contributions to the healthcare plan combine to over fund the annual required contribution of \$543,000 for fiscal year 2019. It is the School Board's intent to fully fund the annual required contribution each year.

Net OPEB Liability

The City and School Board's total net OPEB liability of \$6,612,000 and \$2,681,000, respectively, was measured as of July 1, 2018 and was determined by an actuarial valuation performed as of July 1, 2018.

Note 9. Other Post-Employment Benefits (Continued)

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases, including inflation 2.5%

Healthcare cost trend rates 0.0% for fiscal year end 2018, 2% for fiscal year 2019

(to reflect actual experience), then 6.5% for fiscal year 2020, then decreasing .25% per year to an ultimate rate

of 4.5%

Investment rate of return 7.5%

Mortality rates RP-2014 Mortality table, fully generational with base year

2006, projected using two-dimensional mortality improvement

scale MP-2018

Discount Rate

For both the City and the School Board, the discount rate used was 6.59%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Note 10. Other Postemployment Benefits Liability - Virginia Retirement System Plans

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the City of Staunton (the "Political Subdivision" and the City of Staunton School Board (the School Division") also participate in various cost-sharing and agent multi-employer other postemployment benefit plans, described as follows.

Plan Descriptions

Group Life Insurance Program

All full-time teachers and employees of political subdivisions and public school divisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment.

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp.

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Teacher Employee Health Insurance Credit Program

All full time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit (HIC) Program. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

Specific information about the Teacher HIC is available at https://www.varetire.org/retirees/insurance/healthinscredit/index.asp

The GLI and Teacher HIC are administered by the VRS along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Both of these plans are considered multiple employer, cost sharing plans.

General Employee Health Insurance Credit Program – School Division

The General Employee Health Insurance Credit Program (HIC) is available for all full time, salaried employees of local government entities other than Teachers. The General Employee HIC provides all the same benefits as the Teacher HIC, except that this plan is considered a multi-employer agent plan. The School division non-professional employees are covered in this plan, but the political subdivision employees are not.

As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the General Employee Health Insurance Credit Program:

	Number
Inactive members or their beneficiaries currently receiving benefits	21
Inactive members:	
Vested inactive members	1
Non-vested inactive members	-
Inactive members active elsewhere in VRS	
Total inactive members	22
Active members	42
Total covered employees	64

Note 10. Other Postemployment Benefits Liability - Virginia Retirement System Plans (Continued)

Contributions

Contributions to the VRS OPEB programs were based on actuarially determined rates from actuarial valuations as of June 30, 2017. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

Group Life Insurance Program-City

Governed by:	Code of Virginia 51.1-506 and 51.1-508 and may be impacted as a result of funding provided to school divisions and governmental agencies by the Virginia General Assembly.
Total rate:	1.31% of covered employee compensation. Rate allocated 60/40; 0.79% employee and 0.52% employer. Employers may elect to pay all or part of the employee contribution.
June 30, 2019 Contribution	\$76,785
June 30, 2018 Contribution	\$72,824

Group Life Insurance Program-School Division

Governed by:	Code of Virginia 51.1-506 and 51.1-508 and may be impacted as a result of funding provided to school divisions and governmental agencies by the Virginia General Assembly.
Total rate:	1.31% of covered employee compensation. Rate allocated 60/40; 0.79% employee and 0.52% employer. Employers may elect to pay all or part of the employee contribution.
June 30, 2019 Contribution	\$96,556
June 30, 2018 Contribution	\$95,777

Teacher Health Insurance Credit Program

Governed by:	Code of Virginia 51.1-1401(E) and may be impacted
	as a result of funding provided to school divisions by
	the Virginia General Assembly.
Total rate:	1.20% of covered employee compensation.
June 30, 2019 Contribution	\$208,798
June 30, 2018 Contribution	\$212,605

General Employee Health Insurance Credit Program – School Division

Governed by:	Code of Virginia 51.1-1402(E) and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	.65% of covered employee compensation.
June 30, 2019 Contribution	\$7,483
June 30, 2018 Contribution	\$7,334

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liabilities were measured as of June 30, 2018 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations as of that date. The covered employer's proportion of the net OPEB liabilities were based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers.

Group Life Insurance Program-City

June 30, 2019 proportionate share of liability	\$1,118,000
June 30, 2018 proportion	.07365%
June 30, 2017 proportion	.07217%
June 30, 2019 expense	\$9,000

Group Life Insurance Program-School Division Professional employees

June 30, 2019 proportionate share of liability	\$1,382,000
June 30, 2018 proportion	.09095%
June 30, 2017 proportion	.09260%
June 30, 2019 expense	\$3,000

Group Life Insurance Program-School Division Non-professional employees

June 30, 2019 proportionate share of liability	\$90,000
June 30, 2018 proportion	.00592%
June 30, 2017 proportion	.00579%
June 30, 2019 expense	\$3,000

Teacher Health Insurance Credit Program

June 30, 2019 proportionate share of liability	\$2,713,000
June 30, 2018 proportion	.21373%
June 30, 2017 proportion	.21573%
June 30, 2019 expense	\$210,000

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Since there was a change in proportionate share between measurement dates, a portion of the OPEB expense above was related to deferred amount from changes in proportion.

<u>General Employee Health Insurance Credit Program – School Division</u>

Changes in net OPEB liability of the General Employee Health Insurance Credit Program were as follows:

	Increase (Decrease)				
		Total OPEB Liability (a)	1	Plan Fiduciary Net Position (b)	 Net OPEB Liability (a) – (b)
Balances at June 30, 2017	\$	100,343	\$	26,702	\$ 73,641
Changes for the year:

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions based on an actuarial valuation date of June 30, 2017, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018:

Inflation	2.5%
Salary increases, including inflation: • Locality- general employees	3.5 – 5.35%
 Locality – hazardous duty employees Teachers 	3.5 – 4.75% 3.5 – 5.95%
Healthcare cost trend rates: • Under age 65 • Ages 65 and older	7.75 – 5.00% 5.75 – 5.00%
Investment rate of return, net of expenses, including inflation*	GLI & HIC: 7.0%

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed percent above. However, since the difference was minimal, and a more conservative investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be the percent noted above to simplify preparation of OPEB liabilities.

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 7.

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Net OPEB Liabilities

The net OPEB liabilities represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2018, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

	Group Life Insurance Program	Teacher Employee HIC OPEB Plan				
Total OPEB Liability	\$ 3,113,508	\$ 1,381,313				
Plan fiduciary net position						
	1,594,773	111,639				
Employers' net OPEB						
liability (asset)	\$ 1,518,735	\$ 1,269,674				
Plan fiduciary net position						
as a percentage of total						
OPEB liability	51.22%	8.08%				

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

Group Life Insurance and Health Insurance Credit Programs

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

	Arithmetic Long-Tern Expected Target Rate of		Weighted Average Long-Term Expected Rate of
Asset Class (Strategy)	Allocation	Return	Return
Public Equity	40.00 %	4.54 %	1.82 %
Fixed Income	15.00	0.69	0.10
Credit Strategies	15.00	3.96	0.59
Real Assets	15.00	5.76	0.86
Private Equity	15.00	9.53	1.43
Total	100.00 %		4.80 %
	Inflation		2.50 %
*Expected a	nrithmetic nominal return		7.30 %

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

* The above allocation provides for a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.5%.

Discount Rate

The discount rate used to measure the GLI and HIC OPEB liabilities was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the political subdivision and school division, as well as what the political subdivision and school division's net OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

		1.00% Decrease (6.00%)	Current Discount Rate (7.00%)	1.00% Increase (8.00%)		
GLI Net OPEB liability-City	\$	1,461,000	\$ 1,118,000	\$	839,000	
GLI Net OPEB liability-School division nonprofessional	\$	118,000	\$ 90,000	\$	68,000	
GLI Net OPEB liability-School division professional	\$	1,806,000	\$ 1,382,000	\$	1,038,000	
Teacher HIC Net OPEB liability	\$	3,031,000	\$ 2,713,000	\$	2,443,000	
General Employee HIC Net OPEB liability – School Division	\$	82,798	\$ 74,414	\$	66,968	

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

OPEB Plan Fiduciary Net Position

Information about the various VRS OPEB plan fiduciary net position is available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the OPEB Plan

At June 30, 2019, the following amounts were payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

•	Group Life Insurance-political subdivision	\$ 6,494
•	Group Life Insurance-school division-non professional	322
•	Group Life Insurance-school division-professional	2,301
•	Teacher Employee Health Insurance Credit	5,309
•	General Employee Health Insurance Credit	402

Note 12. Commitments and Contingencies

State and Federal Programs:

The City is the recipient of Federal and State grants which are subject to audit to determine compliance with their requirements. City management believes that any required refunds will be immaterial.

Legal Matters:

The City is a potential defendant in litigation involving claims for damages of various types. City officials estimate that any ultimate liability not covered by insurance will be immaterial.

EDA Commitments

In June 2014, the EDA entered into an agreement with a developer concerning the property at the intersection of US Route 250, Cochran Parkway, and South Frontier Drive. This agreement included an economic development grant equal to a percentage share of the incremental increase in taxes generated for sixteen fiscal years commencing with the beginning of the fiscal year in which the City approves the first occupancy permit for new building construction on the property. To fund this grant, the EDA entered into a contribution agreement with the City evidencing the City's conditional obligation to provide the Authority sums to fund the Grant portion of the development agreement. The source of City funds shall be incremental taxes generated by the development of the property.

Commonwealth Opportunity Fund

In May 2016, the City and EDA were notified of the award of a Commonwealth Opportunity Grant in the amount of \$250,000. The funds were received and disbursed to the related local business during FY2017. The required local match for the grant is \$282,100. Local enterprise zone grants from the City, through the EDA, for 5 years are expected to serve as the required local match. If the enterprise zone grants do not equal the required match at the end of 5 years, the City, through the EDA, will pay the necessary amounts to the local business to meet the match requirements.

Construction and Other Significant Commitments including Encumbrances

The City has entered into construction contracts, which include several water, sewer and storm water related projects as well as street related projects. As of June 30, the City had outstanding construction contracts totaling \$42,073,142 that will be financed from operating funds and bond issue proceeds. Other significant commitments include the encumbrances outstanding for the general fund and nonmajor governmental funds as shown below.

	mmitments	Encu	umbrances
Storm Water fund General fund Capital Improvements Fund Nonmajor funds	\$ 72,140 29,950 41,971,052	\$	661,940 51,352 75,026
romajor rands	\$ 42,073,142	\$	788,318

Note 13. General Property Taxes

The City levies real estate taxes on all real estate within its boundaries, except that exempted by statute. These levies are assessed biannually as of January 1 on the estimated market value of the property. January 1 is also the date an enforceable, legal claim to the receivable applies. The City reassesses all property biannually. Public utility property is assessed by the Commonwealth.

Real estate taxes are billed in semiannual installments, 75% due June 20 and 25% due December 5. For the current fiscal year, the real estate taxes budgeted for and reported as revenue in the fund financial statements include those assessed as of January 1, 2018 and due December 5, 2018 as well as the portion of the January 1, 2019 assessment due June 20, 2019, less an allowance for uncollectibles and less taxes not collected within 45 days of year end plus collections of previously delinquent taxes. The tax rates for the January 1, 2018 and 2019 levies were \$.97 and \$.95 per \$100 of assessed value. Real estate taxes receivable, assessed as of January 1, 2019 and due December 5, 2019, are reflected in the accompanying financial statements as a receivable and are offset by deferred inflows of resources, in the amount of \$2,220,267, which is consistent with the City's budget ordinance. Real estate taxes paid in advance as of June 30, 2019 are also included in deferred inflows of resources, in the amount of \$2,549,936 since they are not intended to finance the current fiscal year.

The City levies personal property taxes on motor vehicles and tangible personal business property. These levies are assessed as of January 1 and are due December 5. During fiscal year 2019, the personal property taxes budgeted for and reported as revenue in the fund financial statements include the January 1, 2018 assessment due December 5, 2018, less an allowance for uncollectibles, plus collections on previously delinquent taxes. The 2018 tax rate for machinery and tools was \$1.24 per \$100 of assessed value. The 2018 tax rate for all other personal property was \$2.90 per \$100 of assessed value.

Note 14. Restricted Assets

Restricted assets as of June 30 consist of cash and cash equivalents and amounts due from other governments that are restricted for certain purposes as follows:

	Governmental	Business Type
	Activities	 Activities
Customer deposits	\$ 7,000	\$ 317,411
Receivable for share of debt	-	2,120,658
Unspent bond proceeds	43,422,170	249,731
Landfill sinking fund	 -	2,487,990
Total	\$ 43,429,170	\$ 5,175,790

Note 15. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City carries commercial insurance for all risks of loss including property, theft, auto liability, general liability, and construction insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage for each of the past three years. There was no reduction in insurance coverage during 2019. In addition, the City provides various surety bond coverage as required under regulations and at industry-recommended levels.

Note 15. Risk Management (Continued)

Through the Virginia Municipal League, the City and School Board have joined together with other Virginia public bodies in the Virginia Municipal League Insurance programs pools currently operating as a common risk management and insurance programs for members in Virginia. The City and School Board pay an annual premium to VML Insurance Programs for its workers' compensation and employer's liability, general liability, excess property, crime, and automobile coverage. The agreement for formation of the VML Insurance Programs Pool provides that it will be self-sustaining through member premiums. Workers' compensation coverage provides the benefits as set forth in the Virginia Workers' Compensation Act. VML Insurance programs will reinsure through commercial insurance companies for claims in excess of \$5 million for general liability, and \$5 million for automotive liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

As of June 1, 2003, the City discontinued its self-insured worker's compensation arrangement and began insurance coverage with the Virginia Municipal League. As of June 30, 2019, the City still retains a liability related to workers compensation claims outstanding at the time of the policy change. The City reimburses VML as needed for claims payments on these old outstanding claims in excess of any reinsurance amounts. The City has not established a separately funded reserve for such claims. The portion currently due and payable is \$1,331 and is reported in the General Fund. The long-term liability is estimated to be \$246,524.

As of January 1, 2015, the City and School system established a self-insured health insurance program. Premiums are developed based upon estimates from the claims processor that should cover administrative expenses, stop loss insurance premiums, and claims. Stop loss provisions limit catastrophic claims in excess of \$150,000. At June 30, incurred but not reported claims for the City and Schools are estimated to be \$700,000.

Changes in the claims liability amount in fiscal years 2017, 2018 and 2019 were as follows:

		Claims and					
	Beginning	Changes in					
Year Ended June 30,	 Liability	 Estimates	Cla	aim Payments	Ending Liability		
2017	\$ 1,065,083	\$ 5,380,675	\$	5,653,485	\$	792,273	
2018	\$ 792,273	\$ 5,316,995	\$	5,155,386	\$	953,882	
2019	\$ 953,882	\$ 5,509,239	\$	5,515,266	\$	947,855	

Note 16. Landfill Closure and Post-closure Care Costs

The City and two other localities share the costs of landfill operations through undivided interests in the Augusta Regional Landfill. The City and the County of Augusta share the costs of an old landfill operation (Permit 21), which was closed in 2003. The costs of a second landfill operation (Permit 585), which was begun in fiscal year 1999, are shared between the cities of Staunton and Waynesboro and the County of Augusta.

State and federal laws and regulations require the Augusta Regional Landfill to place a final cover or cap on a landfill cell when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Under the cost sharing agreement, the City will bear 39.67% of such costs for Permit 21 and 25.11% of such costs for Permit 585. The cost sharing percentage of Permit 585 is adjusted each year based on usage by each locality. The remainder of the Permit 585 costs will be borne by the County and the City of Waynesboro. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each fiscal year ending date.

Note 16. Landfill Closure and Post-closure Care Costs (Continued)

The \$1,367,520 reported as landfill closure liability at June 30, 2019 represents the cumulative amount reported to date based on the use of 90.3% of the estimated capacity of the Permit #585 (Phases 1-3) landfill, 30.7% of the estimated capacity of the Permit #585 Phase 4 landfill and the stockpile financial assurance liability. The \$937,253 reported as post-closure monitoring liability at June 30, 2019, represents the cumulative amount reported to date based on the use of 100% of the estimated capacity of the Permit #21 landfill and 90.3% of the estimated capacity of the Permit #585 (Phases 1-3) landfill and 30.7% of the estimated capacity of the Permit #585 Phase 4 landfill. Total closure and post-closure care costs and post-closure monitoring costs accrued at June 30, 2019 for both joint ventures are \$2,304,773.

The City will recognize the majority of the remaining estimated cost of closure and post-closure care and post-closure monitoring of \$157,603 for Permit #585 (phases 1-3) landfill as the remaining estimated capacity is filled over the next 18 to 24 months and \$562,667 for the newly constructed Phase 4 cell as the remaining estimated capacity is filled over the next 6 to 8 years.

The amount for the Permit #21 landfill is based on what it would have cost to perform all post-closure care in 2004 and has been inflated annually at the DEQ-approved inflation rate. The amounts for the Permit #585 landfill were re-evaluated in March 2008 based on what it would cost to perform all closure and post-closure care in 2008 and approved by the Virginia Department of Environmental Quality as part of a permit to expand the landfill beyond the first three phases. These costs have been inflated at the DEQ-approved inflation rate since 2009. Actual costs for both permitted landfills may be different due to actual inflation or deflation, changes in technology, or changes in laws or regulations.

Each participating locality is required to submit to the Virginia Department of Environmental Quality by December 30 of each year financial assurance they can meet their allocated financial responsibility for the Augusta Regional Landfill (see Note 1). The City uses the financial test method of demonstrating assurance for closure and post-closure care. Each locality met this requirement for calendar year 2018.

Note 17. Community Development

Staunton Crossing:

In November 2009, the City and the EDA entered into an agreement with the Commonwealth of Virginia to purchase approximately 278 acres of land owned by the Commonwealth, known as the Western State Hospital (WSH) campus, for \$15 million. The EDA also agreed to deed approximately 66 acres of EDA land to the Commonwealth to re-locate and build a new mental health hospital.

The WSH campus land was transferred to the EDA during fiscal year 2010 for development. The EDA intends to contract with and sell the land to developers to develop the multi-use site into commercial, retail, and office property. Any proceeds from the land's disposition will be paid to the City to reduce the City's debt related to the project.

In October 2012 and January 2013, the City issued \$10 million and \$5 million, respectively, in bank qualified debt to pay for the property.

The land was recorded as inventory by the EDA at its estimated fair value of \$14,000,000 at the time of its acquisition. As a result of a partial sale of property during fiscal year 2017, the adjusted inventory value was reported at \$12,970,053 as of June 30, 2017 and remains the same as of June 30, 2019.

In fiscal year 2019, the City's management concluded that no material declines in the property's value had occurred and the amount due back to the City is still valued at \$12,750,000.

Note 17. Community Development (Continued)

The property is strategically located at the interchange of Interstate 81 and Interstate 64 in the City. While owned by the State, the WSH campus produced no tax revenue to the City. City officials believe that the private development of this site will increase the City's tax base and generate significant local real estate, meals, lodging, and sales taxes.

Note 18. Operating Lease

In August 2013, the City, as a lessee, entered into an operating lease for certain office facilities. A summary of future minimum lease payments under such operating leases is as follows:

Year Ending June 30,	
2020	\$ 44,241
2021	45,125
2022	46,028
2023	46,948
2024	47,887
2025-2027	 149,486
Total	\$ 379,715

Note 19. Fund Balance

The following schedule provides details for the categories of fund balance for governmental funds as of June 30, 2019:

		In	Capital approvements	ì	Nonmajor	School Board
	 General		Fund		vernmental	Component Unit
Nonspendable						
Prepaids	\$ 97,630	\$	-	\$	-	\$ 3,460
Total Nonspendable	\$ 97,630	\$		\$		\$ 3,460
Restricted:						
Donor purposes	\$ 25,439	\$	_	\$	-	\$ 29,133
Programs	225,514		-		14,987	87,867
Total restricted	\$ 250,953	\$		\$	14,987	\$ 117,000
Committed:						
Stabilization arrangement	\$ 8,891,250	\$		\$		\$ <u>-</u>
Assigned:

Unassigned	\$ 4,630,500	\$	_	\$		\$

Note 20. Tax Abatements

Economic Development Incentive Programs – The City is subject to tax abatements granted by the Staunton Economic Development Authority. The EDA is authorized under Virginia Code Section 15.2-4905 to make grants to businesses for the purpose of promoting economic development for the City. Development agreements between the EDA and developers are accompanied by contribution agreements between the City and the EDA to fund the development agreements. The contribution agreements are authorized under Virginia Code Section 15.2-953, which authorizes gifts, donations and appropriations to Economic Development Authorities for the purposes of promoting economic development in the City. Agreements can take the form of tax grants based on the rehabilitated real estate programs or as reimbursement for some portion of sales, meals and/or lodging taxes generated by the development. Developer agreements are analyzed on a case by case basis to determine what tax abatements would be most advantageous to the EDA/City in attracting new businesses with the related tax increases offset by any payment back to the developer.

	Amount of
Tax Abatement Program	 Taxes Abated
Economic Development Incentive Programs	
Incremental taxes-Frontier	\$ 388,155
Incremental taxes-Villages	23,799
Real estate tax abatement-Villages	 69,339
Total	\$ 481,293

Note 21. Prior Period Adjustment

The following is a summary of the restatement to fund balance and net position resulting from errors in previously reported accounts receivable.

	 Water Fund	 Activities
Balance, as previously reported, June 30, 2018 To correct errors in previously recorded accounts	\$ 20,305,432	\$ 70,512,668
receivable	 (78,454)	 (78,454)
Balance, as restated, June 30, 2018	\$ 20,226,978	\$ 70,434,214

Note 22. Subsequent Events

During fiscal year 2020, the City plans to advance refinance the General Obligation Public Improvement and Refunding Bond Series 2007, the 2008 Literary Note-McSwain Elementary, and the 2008 Literary Note-Ware Elementary. The anticipated cost savings is approximately \$1,300,000 over a 15-year period.

During fiscal year 2020, The City intends to place a deposit and purchase property to be used as a public safety complex. The purchase price of the property is estimated to be \$2,500,000.

Note 23. Conduit Debt Obligation-EDA

In March 2019, the EDA issued Industrial Revenue Bonds for the purpose of obtaining and constructing facilities deemed to be in the public interest. The bonds are payable solely from the revenues of the projects and do not constitute an obligation of the Commonwealth of Virginia, the City, the EDA or any political subdivision thereof. All of the EDA's rights (other than indemnification and its fees) are assigned to a Trustee to administer the bonds for the benefit of bondholders. The EDA neither receives nor disburses funds. Deeds of trust or letters of credit secure outstanding bond obligations; although the EDA provides a conduit to execute such transactions, it does not retain either the benefits of asset ownership or the liability for bond liquidation. Accordingly, the EDA does not recognize associated assets, liabilities, income, or interest expense in its financial statements. Approximately \$2,500,000 of such conduit bonds were outstanding at June 30, 2019.

Note 24. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective.

The GASB issued **Statement No. 84**, *Fiduciary Activities* in January 2017. This Statement establishes standards of accounting and financial reporting for fiduciary activities. The requirements of this Statement are effective for periods beginning after December 15, 2018.

The GASB issued **Statement No. 87**, *Leases* in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after December 15, 2019.

The GASB issued **Statement No. 90**, Majority Equity Interests, an amendment of GASB Statements No. 14 and No. 61 in August 2018. This Statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for periods beginning after December 15, 2018. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

The GASB issued **Statement No. 91**, Conduit Debt Obligations in May 2019. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

BUDGETARY COMPARISON SCHEDULE – GENERAL FUND Year Ended June 30, 2019

	Original Budget	Final Budget	Actual	Variance with Final Budget Positive (Negative)

The covered payroll amounts above are for the entity's fiscal year - i.e. the covered payroll on which required contributions were based for the same year.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

Note 1. Budgetary Comparison Schedule – General Fund

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets for states and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons.

Prior to April 1, the City Manager submits to the Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budgets include proposed expenditures and the means of financing them. Public hearings are conducted to obtain citizen comments. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

The Appropriations Resolution places legal restrictions on expenditures at the fund level. Only the Council can revise the appropriation for each fund. The City Manager is authorized, within the Appropriations Resolution, to transfer budgeted amounts within any City fund and the School Board is authorized to transfer budgeted amounts within the school system's budget. Appropriations lapse on June 30, for all City funds, except for carry-forward requests approved by Council and project balances in the Capital Improvements Fund.

Appropriated annual budgets are legally adopted and budgetary integration is employed as a management control device during the year for all governmental funds. The budgetary data, as presented in the Required Supplementary Information for all major funds with annual budgets, compares the expenditures with the amended budgets. All budgets are adopted on a basis substantially consistent with generally accepted accounting principles (GAAP) and are presented on the modified accrual basis of accounting. All governmental funds have legally adopted annual budgets, except the CIP fund, which operates with project length budgets.

Accordingly, the Budgetary Comparison Schedule for the General Fund present actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with legally adopted budgets as amended. Original, final budget, actual revenue and expenditures, and variances between final budget and actual for the General Fund are presented on Exhibit 10.

Note 2. Schedules of Changes in Net Pension Liability and Pension Contributions and Net OPEB liability and OPEB contributions VRS plans

Changes of Benefit Terms

<u>Pension:</u> There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

Other Postemployment Benefits (OPEB): There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

Note 2. Schedules of Changes in Net Pension Liability and Pension Contributions and Net OPEB liability and OPEB contributions VRS plans

Changes of Assumptions (Continued)

The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the System for the four-year period ending June 30, 2016:

Largest 10 – Non-Hazardous Duty:

- Update mortality table
- Lowered in rates of service retirement
- Update withdrawal rates to better fit experience
- Lowered in rates of disability retirement
- No changes to salary rates
- Increase Line of Duty Disability rates
- Applicable to: Pension, GLI OPEB, and HIC OPEB

Largest 10 – Hazardous Duty/Public Safety Employees:

- Update mortality table
- Lowered rates of retirement at older ages
- Update withdrawal rates to better fit experience
- Increased disability rates
- No changes to salary rates
- Increased Line of Duty disability rates
- Applicable to: Pension and GLI OPEB

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table
- Lowered rates of retirement at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience
- Lowered disability rates
- No changes to salary rates
- Increased Line of Duty disability rates.
- Applicable to: Pension, GLI OPEB, and HIC OPEB

All Others (Non 10 Largest) – Hazardous Duty/Public Safety Employees:

- Update mortality table
- Increased retirement rate at age 50 and lowered rates at older ages
- Update withdrawal rates to better fit experience
- Update disability rates to better fit experience
- No changes to salary rates
- Lowered Line of Duty rate
- Applicable to: Pension and GLI OPEB

Teacher cost-sharing pool

- Update mortality table
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience
- Update disability rates to better fit experience
- No changes to salary rates
- Applicable to: Pension, GLI OPEB, and HIC OPEB

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

Note 3. Schedules of Changes in Net OPEB Liability and OPEB Contributions

Changes of Assumptions

The last full actuarial valuation for both the City and School Board was performed as of July 1, 2017.

The valuation was updated as of July 1, 2018. The following items have changed:

- The termination and retirement tables have been updated to be consistent with the June 30, 2018 VRS Comprehensive annual financial report.
- The mortality table has been updated to the RP-2014, fully generational with base year 2006, projected using two-dimensional mortality improvement scale MP-2018.
- The discount rate was decreased from 7.5% to 6.59%.
- Medical trend rates were assumed to increase 2% to 9% for 2019, decrease to 6.5% for 2020, then decrease .25% per year to an ultimate rate of 4.5%

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Blue Ridge Court Services Fund – This fund accounts for the activities of Blue Ridge Court services, which provides parole and probation services. Financing is provided by charges for services and state and federal funds.

Grants Fund – This fund accounts for state and federal grant programs of the City. Financing is provided by state and federal funds, along with local matching funds. These funds may be used only for specific purposes.

Community Development Fund – This fund is used to account for the proceeds of federal Community Development grants and other federal and state source revenue for community development. Expenditures are restricted by terms of the grants to community development activities. Community Development Block Grants (CDBG) for general government purposes are also reported in this fund.

Debt Service Fund is used to account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

THIS PAGE INTENTIONALLY BLANK

DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD

Major Funds

Special Revenue Funds:

Education Fund – This fund is used to account for the operations and maintenance of the six city owned schools. Financing is provided by state and federal funds, and by appropriations from the City's general revenues. State and federal education funds received may be used only for this purpose. Annual appropriations from general revenues were restricted by the Appropriations Resolution to education expenditures.

Nonmajor Funds

Special Revenue Funds:

School Cafeteria Fund – This fund is used to account for the operation and maintenance of the cafeterias of the six City owned schools. Financing is provided primarily from charges for services and federal and state lunch subsidies. Such funds are limited to expenditure for cafeteria operations and maintenance by federal and state law.

Textbook Fund – This fund is used to account for the purchase and sale of school textbooks. Financing is provided primarily by state subsidies and the required local match. Funds so received are limited by the Commonwealth to expenditure only for school textbooks.

State Operated Programs Fund – This fund is used to account for revenues and expenditures associated with the operation of education programs in certain state-run hospital and juvenile detention facilities. The state contracts with the School Board to provide education programs to persons in those facilities who are required by law to receive the benefit of public education. The education programs are fully funded by state operating grants with occasional funding by federal operating grants. Thus, revenues equal the expenditures that are composed primarily of staff salaries and fringe benefits, along with moderate amounts of educational materials and purchase of services.

Capital Projects Funds:

School Construction Fund – This fund is used to account for the construction of school facilities and other major capital projects. Financing is provided by transfers from the General Fund and certain state revenues, limited to expenditure for school capital projects.

Agency Fund:

Genesis Fund – This fund is used to account for the operations, in a fiscal agent capacity, of a regional alternative education program for the Cities of Staunton, Harrisonburg, and Waynesboro, and the County of Augusta. Receipts consist of state education funds and tuition payments from the participating localities, and are restricted to use only for this regional program.

DISCRETELY PRESENTED COMPONENT UNIT – EDA

The Economic Development Authority of the City of Staunton, VA (EDA) was created as a political subdivision of the Commonwealth of Virginia by ordinance of the City Council of Staunton, VA on January 26, 1984, pursuant to the provisions of the Industrial Development and Revenue Bond Act (Chapter 33, Section 15.1-1373. et seq., of the Code of Virginia (1050) as amended). The original name was the Industrial Development Authority of the City of Staunton, VA. The name was formally changed to the Economic Development Authority of the City of Staunton, VA effective July 26, 2010.

The EDA is governed by seven directors appointed by the City Council. It is authorized to acquire, own, lease, and dispose of properties to the end that such activities may promote industry and develop trade by inducing enterprises to locate and remain in Staunton.

STATISTICAL SECTION

Financial Trends – These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity – These tables contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

Debt Capacity – These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information – These tables offer demographic and economic indicators to help the reader understand the environment with which the City's financial activities take place and to help make comparison over time and with other governments.

Operating Information – These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Note: For presentation purposes, the impact of new GASB statements is applied prospectively.

City of Staunton Assessor's Office.

Notes:

- -Property in the City of Staunton is reassessed every other year.
- -The City assesses all real property at 100% of actual value, therefore the actual assessed value equals the taxable assessed value.
- -Tax rates are per \$100 of assessed value.
- -Includes real estate and downtown service district taxes.
- -This schedule includes assessments made during the calendar year, January through December. The current calendar year includes taxes assessed in May but due 75% in June and 25% in December.
- -There are no overlapping governments and therefore are no overlapping tax rates.

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH **GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of City Council City of Staunton, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the Specifications for Audits of Counties, Cities, and Towns, and the Specifications for Audits of Authorities, Boards, and Commissions, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Staunton, Virginia (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 25, 2019.

Our report includes reference to other auditors who audited the financial statements of the Augusta Regional Landfill as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or on compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may

exist that were not identified. Given these limitations we did not identify any deficiencies in internal
control that we consider to be material weaknesses. However, material weaknesses may exist that
have not been identified.
Your Success is
Our

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Brown, Edwards & Company, S. L. P. CERTIFIED PUBLIC ACCOUNTANTS

Harrisonburg, Virginia November 25, 2019

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Members of City Council City of Staunton, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Staunton, Virginia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Staunton, Virginia, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SUMMARY OF COMPLIANCE MATTERS June 30, 2019

As more fully described in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the City's compliance with certain provisions of the laws, regulations, contracts, and grants shown below.

STATE COMPLIANCE MATTERS

Code of Virginia
Budget and Appropriation Laws
Cash and Investment Laws
Conflicts of Interest Act
Local Retirement Systems
Debt Provisions
Procurement Laws
Sheriff Internal Controls

State Agency Requirements
Education
Urban Highway Maintenance

Uniform Disposition of Unclaimed Property Act

FEDERAL COMPLIANCE MATTERS

Compliance Supplement for Single Audits of State and Local Governments

Provisions and conditions of agreements related to federal programs selected for testing.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2019

A. SUMMARY OF AUDITOR'S RESULTS

- 1. The auditor's report expresses an **unmodified opinion** on the financial statements.
- 2. **No significant deficiencies** relating to the audit of the financial statements are reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements were disclosed.
