

Comprehensive Annual
Financial Report
of the
City of Chesapeake, Virginia
for Fiscal Year Ended
June 30, 2010

Prepared by the
Chesapeake Department of Finance
Nancy C. Tracy, Director

City of Chesapeake, Virginia

Mission

The employees of the City of Chesapeake are committed to providing quality service to all Citizens equitably, in a responsive and caring manner.

Code of Ethics

We, the employees of the City of Chesapeake, are committed to the highest standards of ethical conduct that reflect:
Responsibility, Honesty, Respect, Fairness, Compassion, Integrity, and Loyalty

Acknowledgments....

The preparation of this report has been accomplished by the efficient and dedicated services of the staff of the Department of Finance and various departments who have been assisted by the independent auditors, Cherry, Bekaert & Holland, L.L.P. The contributions of all are invaluable and sincerely appreciated and clearly reflect the high standards which have been set by the City of Chesapeake.

The following Finance employees were instrumental in the preparation of this report:

Karla Amaya Gordon	Emilia Lonigro	Nancy Tracy
Bobbie Berger	Evon Madison	Louella Vess
Rannie Brown	Elizabeth Meinen	Tamara Walters
Donna Foreman	Loretta Mitchell	Dawn Werner
Pamela Hardesty	John Mundy	Bobbie Jo Whitaker
Donna Hildebrand	Victoria Reed	Karen Woodson
Jennifer Holmes	Anna Riddlehoover	
Robert Knowles	Rhonda Sommer	

It is also appropriate to thank the City Manager, Mayor and Members of City Council for making possible the excellent financial position of the City through their interest and support in planning and conducting the financial affairs of the City.

Chesapeake
VIRGINIA

December 6, 2010

To the Citizens of Chesapeake, Virginia:

The Comprehensive Annual Financial Report of the City of Chesapeake, Virginia (the City) for the fiscal year ended June 30, 2010, is hereby submitted. Responsibility for both accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the City and its component units. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included. Management's Discussion and Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The Reporting Entity and Its Services

The present City of Chesapeake was formed on January 1, 1963 by the merger of Norfolk County and the City of South Norfolk. This merger created the second largest city in the Commonwealth with 353 square miles, surrounded by the cities of Norfolk, Portsmouth, Virginia Beach, Suffolk, and the North Carolina state-line.

The City of Chesapeake derives its governing authority from a charter granted by the Virginia General Assembly. The City is organized under the Council-Manager form of government. The City Council is the legislative body of the City government with the Mayor as the presiding officer. The Mayor is elected on an at-large basis as are the eight remaining City Council members. The City Manager is appointed by the City Council and is responsible for the day to day administration of the City.

In accordance with the requirements of the Governmental Accounting Standards Board (GASB), the financial reporting entity consists of the primary government (the City of Chesapeake), as well as its component units, which are legally separate organizations for which the City Council is financially accountable. Financial accountability was determined on the basis of City Council's selection of governing authority, designation of management, ability to influence operations, and accountability for fiscal matters. Component units are discretely presented and are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of the primary government. Discretely presented component units qualifying for inclusion in this report are Chesapeake Public Schools, Chesapeake Mosquito Control Commission, Economic Development

Authority of the City of Chesapeake (the EDA), formerly known as the Industrial Development Authority, Chesapeake Port Authority, Chesapeake Airport Authority, and Elizabeth River Properties of Chesapeake, Inc. The activities of one component unit, CSB of Chesapeake, Inc. (CSBC, Inc.), are considered to be so intertwined with the City's activities that they are in substance part of the City's operations. Therefore, CSBC, Inc. is blended with the City's governmental activities. The Other Postemployment Benefits Trust Fund is where the City accounts for the costs of future benefits that are promised to employees after retirement in the form primarily of retiree health insurance benefits. This fiduciary-type component unit is included within the fiduciary fund financial statements.

The City provides a full range of general governmental services for its citizens. These services include law enforcement, fire protection, collection and disposal of refuse, water, sewer, and stormwater utility services, parks and recreation, libraries, and construction and maintenance of highways, streets, and other infrastructure. Other services provided include public education in grades kindergarten through twelfth, public health and social services, planning and zoning, mental health assistance, agricultural services, judicial activities, and general administrative services.

Cities in Virginia have jurisdiction over the entire area within their boundaries and operate independently of a county government since they are located outside any county boundaries.

Economic Condition and Outlook

The City and regions growth were predicted to experience the beginnings of a recovery in 2010; however this predicted growth did not materialize. Retail sales decreased from the prior year by 5% to \$2.89 billion according to the Virginia Department of Taxation. This retail contraction reflects the current economic conditions.

The regions diversity of the local economy and military presence have historically shielded it from the more dramatic shifts in the national and global economies. However, on August 9, 2010, U.S. Defense Secretary Robert Gates announced the planned closure of the Joint Forces Command (JFCOM) as a part of the Department of Defense's initiative to reduce certain types of military spending and reliance on defense contractors. JFCOM, located in the neighboring cities of Norfolk and Suffolk, is charged with training military personnel from the different service branches to work together effectively and is one of the military's ten combatant commands. According to the JFCOM website, JFCOM employs approximately 6,324 people with a majority based in the Hampton Roads region, including about 3,300 contractors with the remaining 3,024 split almost evenly between military and civilian workers. JFCOM has an operating budget of roughly \$703.9 million. The closure is expected to take place over the coming year.

The number of workers living in Chesapeake and the full economic impact to the City and the region have yet to be determined but may include displacement of employees (including the potential elimination of positions in the region) and related contracting and service firms. In response to Secretary Gates' announcement, the Governor of Virginia signed an executive order creating a commission to identify "the appropriate strategies to retain the military and national security facilities located in the Commonwealth and to identify operations and facilities that can be located within Virginia." On August 24, 2010, the Chesapeake City Council passed a resolution protesting the proposed closure of JFCOM and requested the Virginia congressional delegation and Governor to take

any and all actions necessary to preserve and maintain the joint forces command in Hampton Roads. Due to the efforts of the Regional Congressional delegation, while no final plan has been approved, the JFCOM reductions anticipated could be mitigated in terms of both timing for the proposed closure and relocation and the number of workers impacted.

Local unemployment for the City and State remains below the national rate. For the fiscal year ended June 30, 2010, the average unemployment rate was 6.8% in Chesapeake and 7.0% for the State, compared to 9.8% for the U.S.

Despite the economic uncertainties, Chesapeake continues to progress with more than \$135 million in investment and over 600 new jobs being generated as a result of the City's economic development business retention and attraction efforts. The City of Chesapeake is home to the largest concentration of the region's foreign businesses, with more than 90 firms representing at least 18 different countries. Nearly 50% of the international firms doing business in Hampton Roads are located in Chesapeake.

The 2009-2010 fiscal year includes the following new economic development highlights:

- Existing company investment and job creation of \$94.3 million and 459 jobs. New company investment resulted in \$40.7 million and 145 jobs. The majority of the economic development activity was concentrated in healthcare and professional business services.
- Chesapeake Regional Medical Center completed a \$6.5 million Emergency Department expansion.
- Several existing Chesapeake companies also renewed their office leases choosing to stay here and retain 1,145 jobs and occupy 473,200 total square feet.
- The FBI (Federal Bureau of Investigations) will relocate their regional headquarters to Chesapeake's Oakbrooke Business and Technology Center bringing a 131,463 square foot multi-story building and over 100 jobs.

For the first time in the City's 47-year history, Chesapeake has received the highest bond rating available, AAA, from Fitch Ratings Service. Fitch states "the City's excellent financial management and conservative debt structure" is responsible for the elevated ranking.

Major Initiatives

For the Year. City Council serves the citizens by striving to provide efficient City services, quality education, and balanced and planned development while maintaining a fiscally sound government. Management and City Council continue to work proactively to effectively manage resources and increasing costs.

During fiscal year 2010 the City achieved the following through its capital planning and improvement program:

- Advancing a preliminary plan of finance and strategy to undertake Dominion Boulevard improvements with strategic partners, VDOT (Virginia Department of Transportation) and FHWA (Federal Highway Administration).

- Other transportation improvements funding including replacement of the Gilmerton Bridge with a new vertical lift span, Rt. 17 Steel Bridge repairs and replacement of the Long Bridge.
- Implemented the Big Bin Recycling Program as requested by citizens and Council Members.
- Effectively pursued additional regulation of above ground liquid fertilizer storage tanks (over 100 thousand gallons) after the Allied tank collapse.
- Aggressively worked with Dominion Resources to provide water to citizens adjacent to the Battlefield Golf Course.
- Community facility improvements funding to include a new animal control bureau shelter and expansion of the Tidewater Community College Chesapeake campus, which are in their initial stages.

For the Future.

Financial Information

Chesapeake's future as a desirable community in which to live and work shows promise and opportunity. Its central location, 353 square miles of land in the heart of Hampton Roads, and a good transportation system will continue to contribute to Chesapeake's attractiveness as a well-balanced commercial center. The City's close port proximity and strong employee pool continue to encourage a strong international business presence. As a result of these qualities, the Chesapeake civilian labor force has grown from 96,292 in 2000 per the U.S. Census Bureau to 118,257 in 2010 per the U.S. Labor Statistics, an increase of 22.8% over the period.

The City is continuing its efforts to manage growth to achieve a balance between employment opportunities, its tax base, housing that meet the needs of a diverse population, and a healthy natural environment. The City plans to continue to make the best use of land resources and infrastructure so that growth will include revitalization and redevelopment, as well as development of new areas in a manner that will preserve rural, historic, and environmental assets. Such efforts have helped to better manage the City's annual growth rate from an average of 3.2% between 1985 and 1995 to an overall rate of 11.7%, or an average of 1.2% between 2000 and 2009. The growth rate between 2009 and 2010 was 1.01%, which was a larger increase than the .68% experienced between 2008 and 2009. The overall target for the City is to accommodate an annual population growth of between 1.5% and 2.5% which is deemed to be a reasonable amount of growth that fairly balances the interests of current City residents with future City residents.

One major tool used to manage growth is the City's Comprehensive Plan most recently adopted in March of 2005. The Forward Chesapeake 2026 Comprehensive Plan is a series of documents that established policies regarding the future development of the City. It establishes a vision for the future and identifies a strategy for achieving that vision, based on community input and values. Chesapeake's Comprehensive Plan includes an overall text policy document, a Land Use Plan, and a Master Transportation Plan. Implementation strategies are a component of the Plan, such as the coordination of capital improvements and other resources to achieve the Plan's goals. Major themes contained in the Plan's policies are growth management, community revitalization, and the maintenance of a high standard for community facilities and services.

Financial Information and Significant Financial Policies

The keystone to the City's ability to maintain its fiscal integrity is the continuing commitment of the City Council. This commitment is evidenced by the Council's adoption of its financial policies that are contained in the City publications such as the Annual Long Term Debt Report and annual budget document. These policies relate primarily to the integration of capital planning, debt planning, cash management, as a means of ensuring prudent and responsible allocation of the City's resources. From time to time, the City Council has amended these principles in order to address the changing economic conditions and management practices.

Internal Controls. City management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, The City of Chesapeake's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement.

Budgetary Controls. Budgetary controls are maintained to ensure compliance with legal provisions embodied in the annual appropriated budget approved by City Council. Activities of the General Fund, certain Special Revenue Funds, Debt Service Fund, Enterprise Funds, Chesapeake Mosquito Control Commission – Component Unit, and Public Schools – Component Unit are included in the annual appropriated budget. Project-length financial plans are adopted for the Capital Projects Funds, including the Public Schools – Component Unit Construction Fund, the Grants Fund, the Community Development Fund and certain other Special Revenue Funds. The legal level of budgetary control (level at which expenditures cannot exceed the appropriated amount) takes place at the fund level. City Council may authorize supplemental appropriations based on the availability of financial resources. The City Manager is authorized by City Council to make transfers between funds. Any revisions that alter total appropriations must be approved by City Council. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Although encumbered amounts lapse at year-end, the outstanding encumbrances are reviewed and generally re-appropriated as part of the following year's budget provided there is availability of funding at year-end.

Fund Structure. The City uses individual funds to maintain its financial records. These funds can be grouped into three broad classifications: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental Funds** - The City's governmental funds include the General Fund, the Debt Service Fund, the Capital Projects Fund, the Special Revenue Funds, and the Permanent Funds. The General Fund is the main operating fund of the City, and is used to account for all financial resources except those required to be accounted for in another fund. The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. The Capital Projects Fund is used to account for proceeds from public improvement bond issues, local funding sources, and construction grants and expenditures relating to capital projects. When capital projects are completed, the costs of the improvements are transferred from construction in progress to the appropriate fixed asset category. Special revenue funds have been established for programs that the City needs to track separately. There are seventeen special revenue funds for specific purposes, such as the Grants Fund, Virginia Public Assistance Fund, Interagency Consortium Fund and two Tax Increment Financing Funds (TIFs). In addition, CSBC, Inc., a blended component unit, is reported as a special revenue fund of the City. Permanent funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for specific purposes.
- **Proprietary Funds** - Proprietary funds are classified as enterprise funds or internal service funds. An enterprise fund is used to report an activity for which fees are charged to external users for goods or services. An internal service fund is used to centralize certain services and then allocate the cost of these services within the government. The City maintains separate enterprise funds for three distinct activities: Public Utilities, Chesapeake Expressway, and Stormwater Management. The City uses four internal service funds: Information Technology, City Garage, Self-Insurance, and Termination Benefits.
- **Fiduciary Fund** - The fiduciary fund is used to account for assets held by the City as trustee, as a custodian, or in a fiduciary capacity.

Fund Balance of General Fund. The General Fund fund balance is an important element in the financial position of the City. The fund balance is divided into reserved and unreserved portions, and the unreserved fund balance is subdivided into designated and undesignated portions. Reserved fund balance is used to reserve assets that are not available for current spending, and designated fund balance represents planned uses of current resources. Fund balance not only provides a reserve for emergencies, but it is a positive factor when the rating agencies consider bond ratings for the City. The City Charter requires that a minimum of six percent of total General Fund revenues must be set aside in the annual operating budget for emergency use and cash flow needs throughout the fiscal year. The June 30, 2010 designation for cash flow emergencies totaled \$32,100,281. In fiscal year 1999, City Council established an additional designation of fund balance for operating emergencies to be set at a minimum of five percent of total General Fund revenues. As of June 30, 2010, the designation for operating emergencies is \$26,783,568. In addition to the designation for cash flow emergencies and designation for operating emergencies, \$29,429,560 has been set aside in various reserves and other designations.

Fund Balance of the General Fund (Undesignated)

The undesignated General Fund fund balance, which represents available current financial resources, totaled \$41,699,790 at June 30, 2010, an increase of \$5,907,116 from the prior year. The change is primarily due to the use of reserved fund balance to fund various Schools capital projects, rather than using current resources. All uses of the undesignated fund balance are carefully evaluated to ensure that the balance will be sufficient for future needs. A healthy undesignated fund balance allows the City to provide adequate services for the citizens, plan for future projects, and retain its sound financial position. Additional information and analysis on the City's General Fund can be found in the Management Discussion and Analysis section of the report.

Summary of Changes in Undesignated Fund Balance of the General Fund (in Millions)

Undesignated fund balance at June 30, 2009		\$ 35.8
Revenues		\$ 505.3
Expenditures:		
Current	\$ 220.9	
Other financing uses, net	<u>288.4</u>	(509.3)
Decrease in reserves and designations		<u>9.9</u>
Increase in undesignated fund balance		<u>5.9</u>
Undesignated fund balance at June 30, 2010		<u>\$ 41.7</u>

Single Audit. As a recipient of federal and state financial assistance, the City is also responsible for establishing and maintaining an adequate internal control structure to ensure and document compliance with applicable laws and regulations related to those programs. The internal control structure is subject to periodic evaluation by management and the City Auditor. As part of the City's Single Audit, tests were made to determine the adequacy of internal controls and of its compliance with applicable laws and regulations, including that portion related to federal awards. Although this testing is not sufficient to support an opinion on the City's internal control system or its compliance with laws, regulations, contracts, and grant agreements, the audit for the fiscal year ended June 30, 2010 disclosed no internal control material weaknesses or material violations of applicable laws and regulations.

Other Information

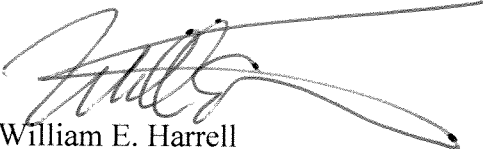

Independent Audit. The City's Charter, SEC 11.06, *Annual Audit* requires an audit by independent certified public accountants. The accounting firm of Cherry, Bekaert & Holland was selected by the City's Audit Selection Committee. In addition to meeting the requirements set forth in the City's Charter, the audit also was designed to meet the requirements of the federal Single Audit Act Amendment of 1996 and related OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. The Independent Auditors' Report on the Basic Financial Statements is included in the Financial Section of this report. The auditors' reports on internal controls and compliance can be found in the Compliance Section of this report.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2009. This was the 28th consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

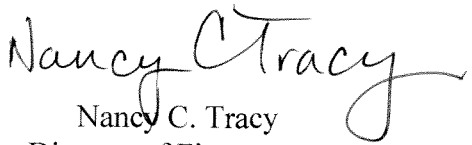

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments. The preparation of the Comprehensive Annual Financial Report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the Department has our sincere appreciation for the contributions made in the preparation of this report. Also deserving special commendation are all of the skilled, talented, and dedicated employees of the City of Chesapeake - the workforce of the City. We also express our sincere appreciation to the Mayor and City Council for their leadership, guidance, and establishment of policies for managing financial operations in a sound and progressive manner.

Very truly yours,

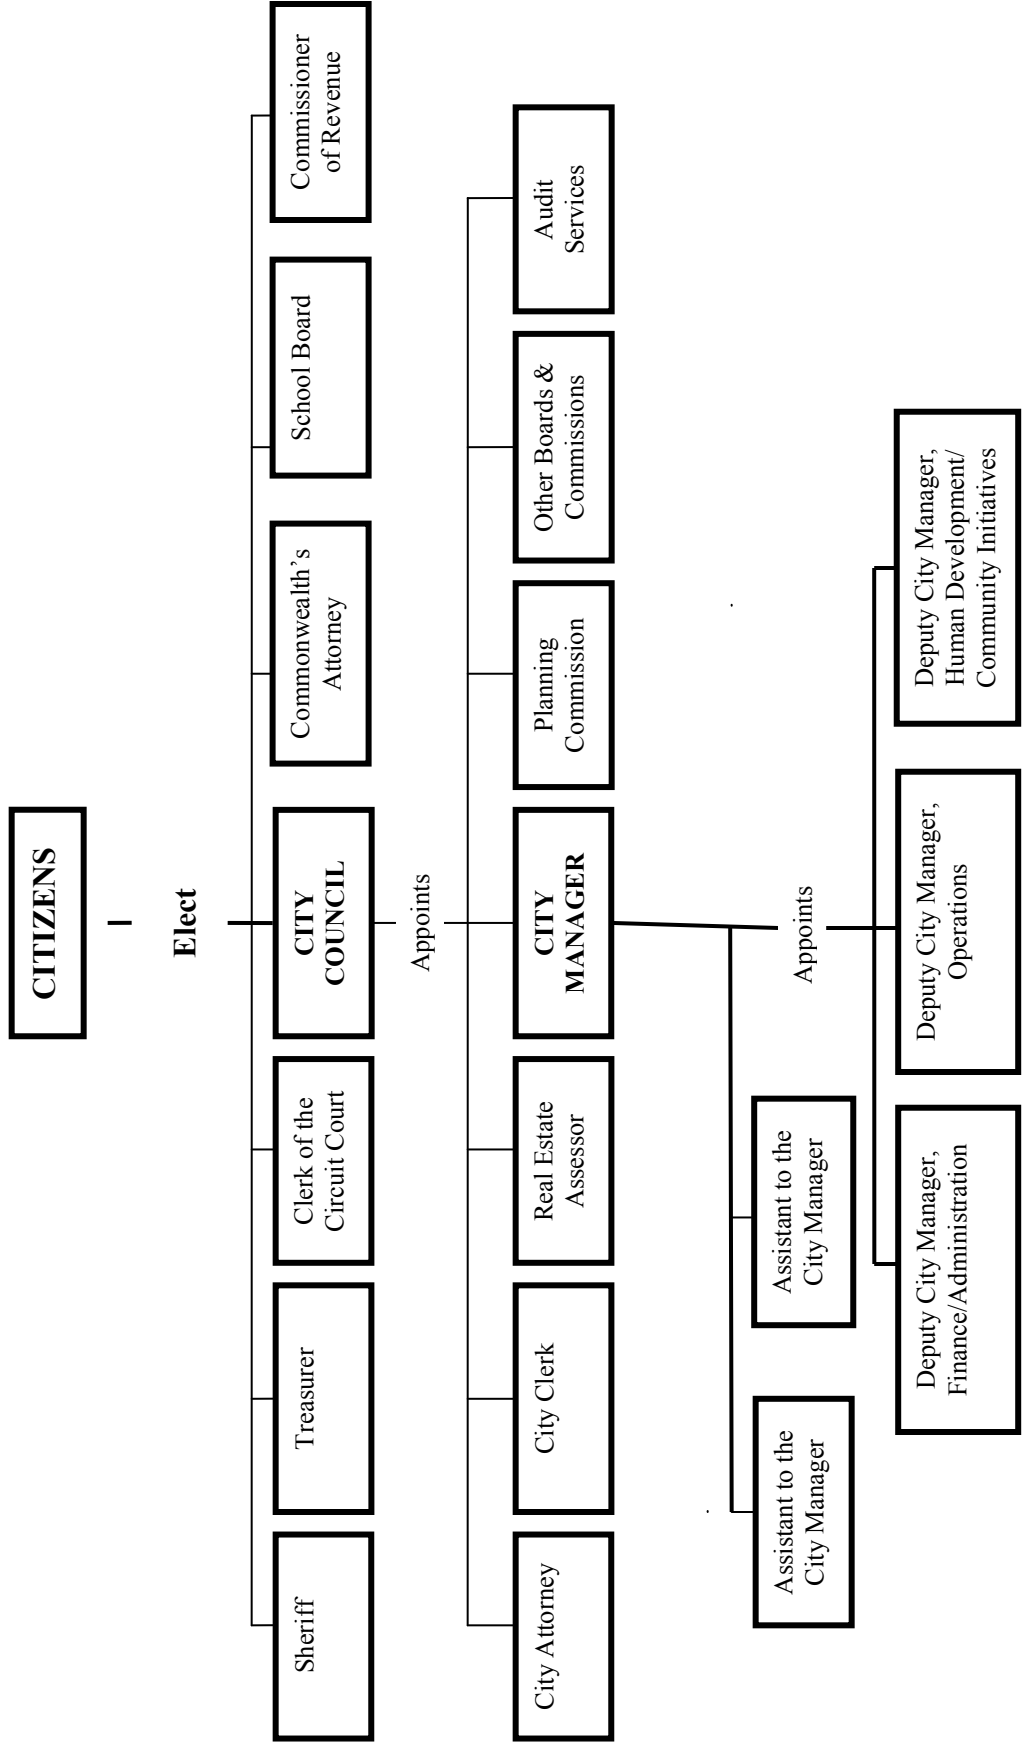

William E. Harrell

Independent Auditors' Report

The Honorable Members of the City Council
City of Chesapeake, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the individual and aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Chesapeake, Virginia, (the "City") as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Chesapeake Airport Authority and Elizabeth River Properties of Chesapeake, Inc., which represents 24% and 18%, respectively, of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for the Chesapeake Airport Authority and Elizabeth River Properties of Chesapeake, Inc., is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2010 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, the budgetary comparison schedule for the general fund, the Schedules of Funding Progress, and the Schedules of Employer Contributions are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit this information and express no opinion thereon.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund statements, budgetary comparison schedules, capital project expenditure schedules, statistical section, as well as the accompanying schedule of expenditures of federal awards as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, budgetary comparison schedules, capital project expenditure schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections of this report have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on them.

Cherry, Bekaert & Holland, L.L.P.

Management's Discussion and Analysis - (MD&A)

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis Year Ended June 30, 2010

The discussion and analysis of the City of Chesapeake's (the City's) financial performance provides an overall review of the City's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements to enhance their understanding of the City's financial performance.

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2010

- The assets of the City of Chesapeake, on a government-wide basis excluding component units, exceeded its liabilities at the close of fiscal year 2010 by \$1.332 billion (net assets). Of this amount, \$170.9 million is unrestricted.
- The City's total net assets increased by \$14.3 million from the prior year. The governmental net assets increased \$9.0 million and business-type net assets increased by \$5.3 million. The donation of infrastructure assets to the City, for governmental purposes of \$7.5 million and business-type purposes of \$3.4 million, contributed to the overall increase.
- At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$305.6 million, a decrease of \$8 million from the prior year. Approximately 76% or \$231.5 million of this amount is unreserved.
- The General Fund, on a current financial resources basis, reported a deficiency of revenues and other financing sources under expenditures and other financing uses of \$4 million. The original budget projected expenditures and other financing uses over revenue and other financing sources of \$13.7 million. Revised revenue projections indicated an impact in State revenues and softness in local revenues which resulted in an amended budget projecting a shortfall of \$27.9 million. Through continued efforts by City management to control costs, including a hiring freeze which has been in place for over 2 years, the City was able to minimize the shortfall in the General Fund despite declining revenues.
- At the end of the current fiscal year, undesignated fund balance for the General Fund was \$41.7 million, or 10.1% of total General Fund expenditures (including payments to Chesapeake Public Schools). Total reserved and designated fund balance totals \$88.3 million, a decrease of \$9.9 million from the prior year balance.
- Reserved fund balance of the General Fund decreased to \$26 million for 2010 from \$33 million for 2009. This primarily resulted from a decrease to the Schools Capital Project Reserve for \$14.5 million to fund Schools' capital projects in progress. The City Capital Project Reserve increased by \$4.2 million for future capital projects. The Road/Transportation reserve also increased by \$2.3 million. Other reserves were increased, including the reserves for encumbrances and the Treasurer's late license fees.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued Year Ended June 30, 2010

- The City's total bonded debt increased by \$12.4 million (approximately 2%) during the fiscal year. The City sold over \$12.2 million in general obligation bonds for Schools' purposes and \$36.4 million of water and sewer revenue bonds under a new Master Agreement of Trust to finance capital improvements to the water and sewer system. The City also sold \$2.6 million of general obligation tax increment Recovery Zone Economic Development bonds to fund various streetscape improvements in the South Norfolk Tax Increment Financing District. These issuances were offset by scheduled debt principal repayments amounting to \$38.9 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Chesapeake's basic financial statements. The City's basic financial statements comprise three components: *government-wide financial statements, fund financial statements, and notes to basic financial statements*. This report also contains other supplementary information in addition to the basic financial statements themselves.

The basic financial statements include statements that present different views of the City:

- The first two statements presented are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's *overall* financial status.
- The next statements are *fund financial statements* that focus on *individual parts* of the City's government, reporting the City's operations in *more detail* than the government-wide statements.
 - The *governmental fund* statements tell how *general government* services like public safety were financed in the *short-term* as well as what amounts remain for future spending.
 - *Proprietary fund* statements offer *short- and long-term* financial information about the activities the government operates *like businesses*, such as the public utilities (water and sewer) system.
 - The *fiduciary fund* statements provide information about the financial relationships in which the City acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.
- The final two statements are *other discretely presented component units' financial statements* that provide financial information about the City's discretely presented component units, other than the Chesapeake Public Schools, which are aggregated on the *government-wide financial statements*.

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

Figure A shows how the required parts of this *Management's Discussion and Analysis* and the City's *basic financial statements* are arranged and relate to one another.

Management's discussion and analysis (MD&A)

Government-wide financial statements ↔ Fund financial statements

Notes to the financial statements

Required supplementary information (RSI) (other than MD&A)

Notes to RSI

The government-wide statements, the Statement of Net Assets and the Statement of Activities, report information about the City of Chesapeake as a whole using accounting methods similar to those used by private-sector companies. These statements include *all* of the government's assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

government-wide statements report the City's net assets and how they have changed. Net assets – the difference between the City's assets and liabilities – are one way to measure the City's financial health, or *financial position*. Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating. Other non-financial factors such as changes in the City's property tax base and the condition of the City's roads and other infrastructure may need to be considered to assess the overall health of the City. In the Statement of Net Assets and the Statement of Activities, the City is divided into three categories:

- *Governmental activities* – Most of the City's basic services are included here, such as the police, fire, public works, public welfare, parks and recreation departments, and general administration. Property taxes, other taxes, and state and federal grants finance most of these activities.
- *Business-type activities* – The City charges fees to customers to help it cover the costs of certain services it provides. The City's water and sewer system, stormwater system, and Chesapeake Expressway toll road are included here.
- *Component units* – The City includes seven discretely presented component units, separate legal entities, in its report – the Chesapeake Public Schools, the Chesapeake Mosquito Control Commission, the Economic Development Authority of the City of Chesapeake, the Chesapeake Port Authority, Chesapeake Airport Authority, Elizabeth River Properties of Chesapeake, Inc., and South Norfolk Belharbour Waterfront Community Development Authority. Although legally separate, these component units are important because the City is financially accountable for them and provides operating funding.

Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year-to-year or government-to-government), and enhance the City's accountability.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds – not the City as a whole. Funds are accounting mechanisms that the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants; City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

The City has three kinds of funds:

- *Governmental funds* – Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided on a subsequent page that explains the relationship (or differences) between the government-wide and fund statements. The City includes in its governmental fund statements a blended component unit, CSB of Chesapeake, Inc. because it provides services entirely for the benefit of the City.
- *Proprietary funds* – Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short- and long-term financial information. The City's enterprise funds (one type of proprietary fund) are the same as its business-type activities, with the exception of the internal service funds' gain or loss allocation, but they provide more detail and additional information, such as cash flows. The City also uses internal service funds (another kind of proprietary fund) to report activities that provide supplies and services for the City's other programs and activities – such as the City Garage Fund and the Information Technology Fund.
- *Fiduciary funds* – The City is the trustee, or fiduciary, for certain donated funds. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose. These activities are reported in a separate Statement of Fiduciary Net Assets. The City excludes these activities from its government-wide financial statements because the City cannot use these assets to finance its operations. The City includes in its fiduciary fund statements the City of Chesapeake Other Postemployment Trust Fund (OPEB Trust Fund), a component unit of the City.

The Total Governmental Funds column requires reconciliation because of the different measurement focus from the government-wide statements (current financial resources versus total economic resources) which is reflected on the page following each statement. The flow of current financial resources will reflect bond proceeds and interfund transfers as other financing sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations (bonds and others) into the governmental activities column (in the government-wide statements).

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net assets (assets exceeding liabilities) may serve over time as a useful indicator of a government's financial position. In the case of the City of Chesapeake, assets exceeded liabilities by \$1.332 billion at the close of fiscal year 2010. By far the largest portion of the City's net assets (74%) reflects its investment in capital assets (e.g., land, buildings, equipment, and infrastructure); less accumulated depreciation and less any related outstanding debt used to acquire those assets. The City uses these assets to provide services to its citizens and consequently, these assets are not available for future spending. The resources needed to repay the debt related to these capital assets must be provided from other sources.

Statement of Net Assets

The following table reflects the condensed Net Assets:

Table 1
Summary of Net Assets
June 30, 2010 and 2009
(in millions)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2010	2009	2010	2009	2010	2009

Total liabilities and net assets	\$ 1,490.0	1,494.6	625.7	589.4	2,115.7	2,084.0

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued **Year Ended June 30, 2010**

Approximately 13% or \$175.2 million of the City's net assets are subject to external restrictions. The remaining balance of *unrestricted net assets* (\$170.9 million or 13%) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, for the primary government as a whole. In addition, all categories of net assets for its separate governmental and business-type activities are positive balances except for unrestricted net assets for business-type activities of (\$1.2) million. All categories reported positive balances in 2009. Total unrestricted net assets decreased by \$16.4 million or 8.8% less than the prior year. Total restricted net assets increased \$33.0 million or 23.1 %, largely due to bond proceeds restricted for capital projects, rate increases for fees collected in the business-type activities that must be spent on those specific activities and unspent incremental tax revenues generated in designated commercial areas of the City to fund improvements in those areas. Lastly, net assets invested in capital assets, net of related debt, decreased \$2.2 million or less than 1%. The City's total net assets increased by \$14.3 million or 1.1% during the fiscal year.

Governmental Activities

Net assets of the City's governmental activities increased by \$9.0 million, as shown on the Statement of Activities, accounting for 63% of the total growth in net assets of the City. This increase was largely due to \$10.3 million in capital grants and contributions. Interest earnings fell 48% or \$3.6 million. Total donated land and infrastructure assets, which include roads, were \$7.5 million, reported in the Public Works function. Expenses decreased by 3.2%, including decreases in certain functional areas, primarily public safety and education. Revenues for governmental activities decreased 2.9% from the prior year, with a 0.3% decrease in property tax revenues versus a 0.5% increase from fiscal year 2008 to 2009.

Business-type Activities

The net assets of the City's business-type activities increased from \$368.7 million to \$374 million. These resources cannot be used to make up for any net asset deficit in governmental activities. The City generally can only use these net assets to finance the continuing operations of its enterprise operations, which include the Public Utilities, Stormwater Management, and the Chesapeake Expressway enterprise funds. One element of this increase was due to deeded and donated assets from developers in the amount of \$3.4 million. Revenues decreased 8.3% for business-type activities primarily due to the decrease in Public Utilities capital grants and contributions. Expenses increased approximately 3.2%, due primarily to stormwater cave-in repairs, and renewal and replacement expenses on the Expressway.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

Governmental Activities

The City's total revenues from governmental activities were \$590.7 million for the fiscal year ended June 30, 2010. The largest source (52%) of revenue (\$307.2 million for fiscal year 2010) for the City is property taxes, composed of real estate and personal property taxes. Revenue from property taxes experienced a 0.3% decrease from the prior year. There was 0.5% increase between 2008 and 2009. The 2009-2010 real estate tax rate of \$1.04 per \$100 of assessed value with an additional \$.01 for the Mosquito Control Commission remained the same as 2008-2009.

Revenues from other taxes make up 19% of the City's resources and decreased 1.7% from the prior fiscal year, reflecting a slow-down in consumer activity and activity in the real estate market. Approximately 62% of the City's revenue from governmental and business-type activities comes from some type of tax, and 4% comes from fees charged for services in governmental activities.

The City's expenses for governmental activities cover a wide range of services, with 15% or \$87.1 million for fiscal year 2010 related to public safety and 37% or \$213.6 million for fiscal year 2010 for education (including payments to the Public Schools, a component unit). Overall, expenses for governmental activities decreased by 3.2% which includes a 5.7% decrease in education.

Expenses and Program Revenues – Governmental Activities (in millions) Year Ended June 30, 2010

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

Revenues by Source – Governmental Activities – Year Ended June 30, 2010

Business-Type Activities

Net assets for the City's business-type activities increased by \$5.3 million largely as a result of operating and capital grants as well as charges for services. The increase in net assets accounted for 37% of the total growth in the City's net assets. Charges for services including water and sewer utility fees, stormwater fees, and toll revenues made up 94% of total revenues for business-type activities. The overall net increase in expenses for all business-type activities was 3.2% which resulted largely from increased costs for stormwater cave-in repairs, and renewal and replacement expenses on the Expressway.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The City of Chesapeake uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of Chesapeake's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unreserved fund balance may serve as a useful measure of net resources available at the end of a fiscal year. For the fiscal year ended June 30, 2010, the governmental funds reported combined ending fund balances of \$305.6 million, a decrease of \$8 million over the prior year. Included in this are the following major transactions in governmental funds for the year ended June 30, 2010:

- \$42 million spent in the Capital Projects Fund to fund infrastructure improvements including Tidewater Community College expansion, critical repairs and replacement of City bridges, the purchase of equipment for each fire fighter to comply with federally mandated OSHA regulations, Phase II of the design and initial site work for the jail expansion, and the Human Resource/Payroll System.
- \$205.7 million contributed by the City in operating and capital funds to finance the Public Schools' operations and capital construction. Additionally, the City paid \$34.6 million in debt service for the Public Schools.
- \$10.2 million of tax revenues generated by increased property values within the City's Greenbrier and South Norfolk Tax Increment Financing Districts.
- \$33.1 million principal debt retired, plus \$14.8 million of new borrowing.
- The City contributed \$7.8 million to the OPEB Trust Fund, including \$2.3 million considered pay-as-you-go. The OPEB Trust Fund was established in fiscal year 2008 during the City's implementation of Governmental Accounting Standards Board ("GASB") Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans* (GASB 43) and (GASB 45).

Approximately \$234 million of the combined total fund balances constitutes *unreserved fund balance*, which generally is available for spending at the government's discretion. City Council has designated portions of this unreserved fund balance at June 30, 2010 in the following amounts and for the following purposes:

- \$32.1 million for General Fund cash flow emergencies (6% of revenue required by City Charter)
- \$26.8 million for operating emergencies (City Council policy of an additional 5%)
- \$38.3 million for debt service
- \$7 million for various other purposes

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued Year Ended June 30, 2010

The remainder of the unreserved fund balance at June 30, 2010, not designated for a specific purpose, includes \$41.7 million in the General Fund, the City's chief operating fund. This amount represents 10.1% of total General Fund expenditures, as a measure of the General Fund's liquidity. Total fund balance of the General Fund decreased by \$4 million for fiscal year 2010. The General Fund had an increase in undesignated fund balance from operations amounting to \$5.9 million. This increase represents an excess of revenues over expenditures of \$93.2 million and other financing uses of \$97.2 million with the remainder of the increase in the General Fund undesignated fund balance due to City Council's approved use of reserves and designations. Capital Projects reserved fund balance increased \$24 million from last year. This increase is for encumbrances made for several projects including Smart Traffic Phase 4, Deep Creek Park, the Animal Service Facility, the Human Resource/Payroll System and various bridge repairs and replacements.

The General Fund experienced an overall 2.5% decrease in revenue. Investment income was down 34% due to a decrease in interest rates as well as lower cash balances available for investment. Miscellaneous local revenue decreased by \$3.5 million primarily due to the creation of a new proffer revenue fund which collected \$2.3 million in revenue previously recorded in the General Fund. A one time settlement of \$1.2 million was received in FY 2009, also contributing to the revenue variance from the prior fiscal year. Intergovernmental revenues from the Commonwealth of Virginia decreased \$6.7 million. The decrease in this revenue source was primarily due to decreased non-categorical state aid and a change in funding for a portion of the Sheriff's office revenue from state funds to American Reinvestment and Recovery Act funds. Expenditures decreased overall 3.3% from the fiscal year 2009 level. One causal factor to this decrease is a 39% decrease in the public works category. This decrease is mainly attributable to the creation of a new Solid Waste Disposal and Recycling Fund where revenue generated from the solid waste and recyclable materials collection and disposal fee were recorded. In addition, a capital outlay decreased by 83% due to a one time non-recurring land acquisition in 2009. There was an increase of 5.5% in the education category for payments to Chesapeake Public Schools.

The Debt Service Fund ended the year with \$39 million in total fund balance, an increase of \$2 million from 2009. The unreserved fund balance is \$38.3 million, which has been designated by City Council for the payment of debt service. The following major transactions were recorded in the Debt Service Fund during the year:

- Proceeds of over \$12.2 million of General Obligation School bonds issued through the Virginia Public School Authority (VPSA) to partially fund the construction of an addition to a high school.
- Proceeds of \$2.6 million of Recovery Zone Economic Development Bonds were issued by VML/VACo through the Finance Recovery Act Pool I to fund various streetscape improvements.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued **Year Ended June 30, 2010**

The City spent \$42 million in the Capital Projects Fund to fund major capital projects, including City infrastructure improvements, critical repairs to City buildings, the design and initial site work for the jail expansion and other community facilities.

Proprietary Funds

The City of Chesapeake's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. Generally, the City can only use the net assets of these funds to finance continuing operations of the enterprise operations.

Restricted net assets of the Public Utilities Enterprise Fund at the end of the year amounted to \$73.2 million. Growth in net assets was \$7.1 million, partially resulting from the booking of deeded and donated utility improvements from developers in the amount of \$3.4 million. The increase in net assets prior to the impact of this transaction was \$3.5 million. Proceeds of \$36.4 million of water and sewer system revenue bonds (\$32.5 million taxable – Build America Bonds and \$3.9 million tax-exempt) were issued to finance capital improvements to the water and sewer system. Approximately \$7.76 million was spent on various water and sewer renewal and replacement capital projects.

The Chesapeake Expressway toll road reported operating revenues for fiscal year 2010 totaling \$7.1 million versus \$6.9 million for 2009. Operating expenses for the year amounted to \$9.2 million, with \$4.6 million from depreciation expense. Net assets decreased by \$4.6 million, with the Chesapeake Expressway Fund covering interest expense of \$2.0 million on the toll road revenue bonds. A principal payment on the bonds was also paid in the amount of \$430,000. Additionally, the fund made repayments of \$1,493,505 to the Commonwealth of Virginia for Toll Facility Revolving funds that helped fund the initial construction of the toll road.

The Stormwater Management Fund, an enterprise fund, had \$39.7 million in total net assets at June 30, 2010, up from \$34.1 million in 2009. Income from operations was \$5.8 million. Any fees collected in excess of current operating needs are restricted for use on future stormwater projects around the City. Approximately \$2.2 million was spent on various stormwater, dredging, and drainage improvement projects during the year. Effective January 1, 2007, City Council approved an increase in stormwater utility fees from \$2.55 to \$5.55 per month per ERU (equivalent residential unit), with subsequent increases for 2008 to \$6.35, 2009 to \$6.85 and 2010 to \$7.35.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund Year Ended June 30, 2010

	Original Budget	Amended Budget	Actual
Revenues:			
Taxes	\$ 402,414,191	397,614,191	403,910,678
Intergovernmental	82,577,437	80,924,241	80,288,539
Other	21,045,545	19,886,414	21,155,142
Total	506,037,173	498,424,846	505,354,359
Expenditures and transfers:			
Expenditures *	232,266,854	234,134,039	220,912,885
Transfers (net)	287,518,573	292,148,298	288,422,052
Total	519,785,427	526,282,337	509,334,937
Change in fund balance	\$ (13,748,254)	(27,857,491)	(3,980,578)

*The City's budget ordinance includes, as part of the original budget for expenditures, the amount of \$.79 million for encumbrances reappropriated from June 30, 2009.

Differences between the original budget and the final amended budget for the City's General Fund amounted to \$6.5 million (net increase in appropriations and transfers) and include the following major changes:

- Deappropriation of \$1.9 million to accommodate lower than originally expected revenues;
- Deappropriation of \$6.1 million of local and state revenue (using fund balance of \$3.7 million and reduction of transfer to Schools Operating funds of \$2.4 million)
- Appropriation of \$4.7 million from the General Fund undesignated fund balance from prior year end resources to fund primarily high priority transportation projects (\$2.3 million), Economic Development Incentive Grant program (\$.75 million), and Fire Department overtime needs (\$.9 million);
- Appropriation of \$2.2 million to the Termination Benefits internal service fund;
- Appropriation of \$1.1 million from the school lock box for payment of school non-subsidized bonds debt service.

Actual total revenues exceeded the amended budget by \$6.9 million, primarily due to general property taxes exceeding budget by \$6.1 million. Revised revenue projections indicated an impact in State revenues and softness in local revenues so the original budget for general property taxes was de-appropriated \$6.1 million. Although revenue projections indicated revenue shortness, total general property tax revenues came in 2% over budget. Charges for services

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued Year Ended June 30, 2010

exceeded the amended budget by approximately \$460,000 largely due to more collections by the jail and sheriff. Expenditures were significantly below the amended budget by \$13.2 million. The general government category returned 7% of its budget, partially due to City Council and Human Resources contingencies that were not required. Additionally, the City Treasurer and Sheriff's office returned significant dollar amounts. No operating departments exceeded their budget in 2010, as all departments were encouraged to be conservative in their spending for the fiscal year and salaries were controlled through the hiring freeze. Although the amended budget called for a reduction of \$27.9 in fund balance, the actual higher revenues and lower expenditures resulted in a smaller decrease of \$4 million.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City of Chesapeake's investment in capital assets for its governmental and business-type activities as of June 30, 2010, amounts to approximately \$1.6 billion (net of accumulated depreciation). This investment includes land, development rights, municipal and school buildings and improvements, drainage and water/sewer systems, machinery and equipment, roads, bridges, and construction in progress. The total change in the City's investment in capital assets for the current year was a net decrease of .4% or \$5.8 million (a decrease of .3% for governmental activities and a decrease of .57% for business-type activities).

Major capital asset events during the fiscal year included the following:

- Construction in progress totaled \$83.2 million for governmental activities at the end of the fiscal year.
- Construction in progress totaled \$20.2 million for business-type activities, which includes Public Utility and Stormwater projects.

The City's fiscal year 2011 capital budget calls for \$107.1 million for capital projects, including \$9.7 million for Butts Station Operation Relocation, \$35.9 million for the Greenbrier and South Norfolk Tax Increment Financing Districts improvements, \$4.5 million for Public Safety Network Ops Center, \$3.6 million for George Washington Highway Improvements, \$6.6 for Portsmouth Boulevard, \$16 million for Dominion Boulevard, \$14.8 million for water and sewer projects. The City plans to issue \$66 million in bonds with other funding provided by local and State funds and funds on hand.

Long-term Debt

At the end of the current fiscal year, the City of Chesapeake had total bonded debt outstanding (including literary loans and the installment purchase agreement) of \$538,107,791. Of this amount, \$481,317,791 comprises debt backed by the full faith and credit of the City, \$36,385,000 is debt secured by revenues of the Water and Sewer System, and \$20,405,000 is debt secured by revenues of the Chesapeake Expressway Fund.

City of Chesapeake's Outstanding Debt General Obligation Bonds, Revenue Bonds, Literary Loans and Installment Purchase Agreement June 30, 2010 and 2009 (in millions)

	Governmental Activities		Business-Type Activities		Total	
	2010	2009	2010	2009	2010	2009

Total	\$ 370.0	389.0	168.1	136.7	538.1	525.7

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued Year Ended June 30, 2010

Chesapeake's total bonded debt increased by \$12.4 million during the fiscal year. The City sold over \$12.2 million in general obligation bonds for School purposes. The City also sold \$36.4 million water and sewer system revenue bonds. \$2.6 million general obligation tax increment Recovery Zone Economic Development Bonds were issued to fund various streetscape improvements. These issuances were offset by debt principal repayments amounting to \$38.9 million. Principal outstanding on lease revenue bonds backed by the City's general obligation pledge in the amount of \$4.3 million, issued by a blended component unit, CSB of Chesapeake, Inc., have been reported with the City's total debt outstanding for governmental activities. An installment purchase agreement in the amount of \$1.3 million is also included in the City's debt at June 30, 2010. This debt instrument was used to finance the City's purchase of development rights under the Open Space and Agricultural Preservation (OSAP) program, in which the landowner will be paid interest on a semi-annual basis for a period of years until the actual purchase takes place.

In fiscal year 2010, Fitch Rating Service assigned the City of Chesapeake the highest bond rating available, "AAA," the first in the City's history.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation of real property. The current debt limitation for the City of Chesapeake is \$2,547,913,348 which is significantly in excess of the City's total outstanding debt subject to the legal debt limit.

Additional information on the City of Chesapeake's long-term debt can be found in Note 6 of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The average unemployment rate for fiscal year 2010 for the City of Chesapeake is 6.8%, which is up from the 3.3% in 2009. This compares to the state's average unemployment rate of 7% and the average national rate of 9.8% for the same time period.
- Chesapeake's annual population growth rate was 1.01% between 2009 and 2010, which was a larger increase than the .68% experienced between 2008 and 2009. This is a decrease also over the 1.2% average annual growth rate that has occurred over the past decade.
- The effects of worsening national, state and local economic conditions, evidenced locally by reduced real estate transactions, home values, construction permits and vehicle registrations, prompted a focus on core service delivery for the next three to five years. The City's real estate tax base decreased .4% for 2010 versus 3% growth for 2009.

CITY OF CHESAPEAKE, VIRGINIA

Management's Discussion and Analysis, Continued
Year Ended June 30, 2010

- To help address the identified School and City capital requirements, funds continue to be reserved in the General Fund for Schools Future Capital Projects (School Capital Reserve) and City Future Capital Projects (City Capital Reserve), to provide resources for future debt service and cash funding for projects.
- Rate increases, approved in prior fiscal years, for the Stormwater and Public Utility funds continue to provide resources for critical maintenance and operations in these areas.

All of these factors were considered in preparing Chesapeake's budget for the 2011 fiscal year. During the current fiscal year, undesignated fund balance in the General Fund increased from \$35.8 million to \$41.7 million. The fiscal year 2011 operating budget includes a planned use of General Fund fund balance of \$27.1 million. The general real estate tax rate was unchanged at \$1.04 per \$100 value, exclusive of .01 for the Mosquito Control Commission.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance, 306 Cedar Road, Chesapeake, Virginia 23322.

Balance Sheet
Governmental Funds
June 30, 2010

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Ending fund balance - governmental funds	\$ 305,627,777
--	----------------

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds. Total capital assets used in governmental activities as reported in footnote 4 to the financial statements also include assets of \$35,546,478 associated with the internal service funds as indicated below.

Capital assets	1,069,466,314
----------------	---------------

Governmental funds report the effect of issuance costs when the debt is issued. These costs are deferred in the Statement of Net Assets.	1,243,457
--	-----------

Some of the City's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures, and therefore, are deferred in the funds.	28,008,945
--	------------

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets as detailed below. The total amount included in governmental activities does not include the portion allocable to business-type activities of \$1,229,016 as noted on Schedule E.

Capital assets	35,546,478	
Long-term debt	(34,042,335)	
Other assets and liabilities	<u>30,098,269</u>	31,602,412

Unmatured interest payable reported in governmental activities will not be paid with current financial resources, and therefore, is not reported in the funds.	(5,445,200)
--	-------------

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. Total long-term obligations for governmental activities as reported in footnote 6 to the financial statements also include long-term obligations of \$34,042,335 associated with the internal service funds as indicated above.

Long-term debt related to assets	(423,905,995)	
Long-term debt not related to assets	<u>(48,335,007)</u>	(472,241,002)

Net assets of governmental activities	\$ 958,262,703
--	-----------------------

CITY OF CHESAPEAKE, VIRGINIA

Schedule D, Continued

Statement of Revenues, Expenditures, and Changes in Fund Balances

Governmental Funds

Year Ended June 30, 2010

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities**

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds		\$	(7,948,295)
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The Statement of Activities also includes expenses which relate to current-year closed projects that included assets that are no longer capitalizable at the time of project closure. In addition, donated assets and gains and losses on disposal of assets are not reported in governmental funds, but are reported as revenues (expenses) in the Statement of Activities. This represents the net effect of the donated assets plus the difference between depreciation expense and capital outlay expenditures. The details of this difference are as follows:</p>			
	Depreciation expense	(39,918,584)	
	Capital outlay expenditures	42,001,704	
	Donated assets	7,530,738	
	Noncapitalizable assets related to closed projects	(8,307,017)	
	Asset transfers	218,024	
	Loss on disposal	(57,468)	
			1,467,397
<p>Because some revenues will not be collected for several months after the City's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds. Deferred revenues increased by this amount this year.</p>			
			2,266,094
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, refunding costs, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related accounts. The details of this difference are as follows:</p>			
	Debt issued (and related costs)	(19,877,065)	
	Principal repayments	38,945,828	
			19,068,763
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of the changes in:</p>			
	Accrued interest	(432,100)	
	Compensated absences	891,352	
	Net pension obligation	1,146	
	Net other post employment benefit obligation	(5,759,014)	
			(5,298,616)
<p>Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenues (expenses), excluding capital contributions from the primary government, of certain activities of the internal service funds are reported with governmental activities.</p>			
			(503,435)
Change in net assets of governmental activities		\$	9,051,908

The notes to the financial statements are an integral part of this statement.

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Summary of Significant Accounting Policies***The Reporting Entity***

The City of Chesapeake, Virginia (the City) was formed on January 1, 1963, under the provision of Chapter 211 of the Acts of Assembly of 1962, by the merger of the former City of South Norfolk and the County of Norfolk. The City is comprised of six boroughs; one borough representing the former City of South Norfolk and five boroughs representing the five magisterial districts of the former County of Norfolk.

The City's reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board and either (a) the ability to impose will by the primary government, or (b) the possibility that the component unit will provide a financial benefit or impose a financial burden on the primary government.

The accompanying financial statements present the City (the primary government) and its component units. The financial data of the component units are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

All of the City's component units are discretely presented except the CSB of Chesapeake, Inc. (CSBC, Inc.) which is blended with the City's governmental activities and the City of Chesapeake Other Postemployment Benefits Trust Fund (OPEB Trust Fund) which is a fiduciary-type component unit. Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, or whose relationships with the City are such that exclusion would cause the City's financial statements to be misleading. These component units are reported in separate columns to emphasize that they are legally separate from the City. All of the City's component units have a fiscal year end of June 30. The following component units are discretely presented in the City's financial statements:

- The Chesapeake Public Schools (the Schools) are responsible for elementary and secondary education within the City. All nine members of the School Board are elected. The City Council approves the annual budget of the Public Schools, levies the necessary taxes to finance the Public Schools' operations, and approves the borrowing of money and the issuance of bonds. Separate audited financial statements are available from the Chesapeake Public Schools at 312 Cedar Road, Chesapeake, Virginia 23322.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

- The Economic Development Authority of the City of Chesapeake (the EDA) was established under the Industrial Development and Revenue Bond Act, *Code of Virginia*. The EDA is responsible for promoting industry and developing trade by inducing manufacturing, industrial, and commercial enterprises to locate or to remain in the City. The City Council appoints the members of the Board of the EDA. The EDA issued lease revenue bonds for two major construction projects for which the City is the lessor. The City also appropriates funds annually to pay the administrative expenses of the EDA. Separate audited financial statements for the EDA are available through the City's Department of Economic Development at 676 Independence Parkway, Suite 200, Chesapeake, Virginia 23320.
- The Chesapeake Airport Authority (the Airport Authority) was established by action of the General Assembly to operate the Chesapeake Airport and its ancillary operations. The City Council appoints the members of the Board of the Airport Authority, appropriates funds annually to pay administrative expenses of the Authority, and funds operating deficits as necessary. The City has also provided the Airport Authority with a loan which is still outstanding. In addition, the Airport Authority issued revenue bonds for which the City has a non-binding obligation to appropriate sufficient funds if a deficit exists in the debt service reserve account for these bonds. Separate audited financial statements are available from the Chesapeake Airport Authority at 1777 West Road, Chesapeake, Virginia 23323.
- The Chesapeake Port Authority (the Port Authority) was established by action of the General Assembly to promote trade and commerce in the City and the Commonwealth and to develop adequate, modern, and efficient seaports and harbors. The City Council appoints the members of the Board of the Port Authority and appropriates funds annually to pay administrative expenses of the Port Authority. The Port Authority does not issue separate audited financial statements.
- The Chesapeake Mosquito Control Commission (the Commission) manages the City's insecticide program. The Commission has seven appointed commissioners. The City finances the operations of the Commission through incremental property taxes of \$.01 per \$100 of assessed value for real estate properties and \$.08 per \$100 of assessed value for personal property. The Commission does not issue separate audited financial statements.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

- Elizabeth River Properties of Chesapeake, Inc. (ERPC) is a not-for-profit corporation organized under Section 501 (c)(3) of the Internal Revenue Code. ERPC provides housing for individuals served by the City's Community Services Department. The Community Services' Board of Directors, whose members are appointed by City Council, appoints the members of the Board of ERPC and appropriates funds annually to provide rental assistance to individuals served by Community Services. The Community Services Board has also transferred funds to ERPC to be used for the purchase of additional residences for individuals serviced by Community Services. Separate audited financial statements are available through the City's Department of Community Services at 224 Great Bridge Boulevard, Chesapeake, Virginia 23320.
- The South Norfolk Belharbour Waterfront Community Development Authority (CDA) was created by City Council on January 22, 2008 as a separate political entity pursuant to express authority given under Virginia law. The purpose of the Belharbour CDA is to assist in the funding, planning, establishing, acquiring, constructing or reconstructing, enlarging, extending, equipping, operating and maintaining public improvements in the Belharbour area. The board members, appointed by City Council, serve a four year term. As of June 30, 2010 no financial transactions were executed by the CDA; therefore, no financial statements for the CDA are included within the City's Comprehensive Annual Financial Report as of June 30, 2010.

Blended component units are entities that are legally separate from the City, but which provide services entirely, or almost entirely, to the City or otherwise exclusively benefit the City. Activities of blended component units are considered to be so intertwined with the City's that they are, in substance, part of the City's operations. CSBC, Inc. is considered to be a blended component unit in the City's financial statements. CSBC, Inc. was organized for the purpose of owning and financing a building to be used as a community services building by the City. CSBC, Inc. issued lease revenue bonds backed by the City's general obligation pledge. The City Council appoints the members of the Board of Directors and appropriates funds annually to pay rent on the building which CSBC, Inc. then uses to pay debt service on the bonds. No distinction is made between the activities of CSBC, Inc. and the City. As a result, CSBC, Inc. is reported as a special revenue fund in the City's financial statements. It does not issue separate audited financial statements.

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

Fiduciary-type component units are entities that are legally separate from the City, but are included within the fiduciary fund financial statements, where no distinction is made between component units and fiduciary funds of the City. The OPEB Trust Fund is a fiduciary-type component unit of the City established for the purpose of accumulating and investing assets to fund other postemployment benefits obligations. The City Council appoints the members of the OPEB Trust Fund Finance Board and appropriates funds annually to pay current retiree health insurance premiums and prefund future benefits. The OPEB Trust Fund is included as a fiduciary fund in the City's financial statements.

Government-wide and Fund Financial Statements

The government-wide financial statements report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from certain legally separate discretely presented component units for which the primary government is financially accountable.

Separate government-wide financial statements are also provided for other discretely presented component units which are aggregated in the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or activity is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Included in direct expenses are certain indirect costs that have been allocated to the various programs. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued***Measurement Focus, Basis of Accounting, and Financial Statement Presentation***

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The fiduciary fund financial statements are custodial in nature, do not involve the measurement of results of operations, and use the accrual basis of accounting.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are susceptible to accrual (i.e. both measurable and available). Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period, usually within 60 days after year end. Expenditures, other than interest on long-term debt which is recorded when due, are recorded when the related fund liability is incurred.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the accrual criteria are met.

In the fund financial statements, real and personal property taxes are recorded as revenues and receivables when levied and billed, net of allowances for uncollectible amounts. Property tax receivables not collected within 45 days after year end are reflected as deferred revenues. Sales and utility taxes, which are collected by the Commonwealth of Virginia or utility companies by year end and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the Commonwealth of Virginia or utility company, which is generally in the month preceding receipt by the City.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

Licenses and permits, fines and forfeitures, charges for services, and miscellaneous revenues (except interest on temporary investments) are recorded as revenues when received in cash because they are generally not measurable until actually received.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the accumulation of resources for the payment of principal, interest, and related costs on long-term debt of governmental funds.

The *Capital Projects Fund* is used to account for financial resources to be used for the acquisition or construction of most major capital facilities other than those financed by proprietary funds.

The City reports the following major proprietary funds:

The *Public Utilities Fund* accounts for the operation of the City's water and sewer departments.

The *Chesapeake Expressway Fund* accounts for the operation of the Chesapeake Expressway toll road.

The *Stormwater Management Fund* accounts for the operation of the City's stormwater utility and to fund the required improvements to stormwater quality.

Operations of the proprietary funds are designed to be primarily self-supporting through user charges. These funds service their own debt and construction projects and record the acquisition of their depreciable assets and land.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

Additionally, the City reports the following fund types:

Nonmajor governmental funds:

Special Revenue Funds account for revenues and expenditures related to programs that are restricted in nature for specific purposes. Examples include providing services to mental health, mental retardation and substance abuse programs, juvenile detention services, emergency call center services, activities of the Community Development Block Grant Program, individual grant programs, tax increment financing districts, and rendering economic aid to certain qualifying citizens under several different programs. The Proffers Fund was created in 2010 to account for cash proffers provided to the City from developers for specific purposes.

Permanent Funds account for the investment of funds donated to the City whose principal must be maintained in perpetuity.

Nonmajor proprietary funds:

An *Enterprise Fund* accounts for the activities of the Jordan Bridge. The Jordan Bridge, located at Poindexter Street in South Norfolk west of I-464, crosses the southern branch of the Elizabeth River. On October 14, 2008, the City Council passed a resolution to close the bridge on Saturday, November 8, 2008. The City conveyed the Jordan Bridge and land on one side of the river to Figg Bridge Development and Britton Hill Partners. They will finance, design, build, operate, maintain and own a new bridge across the Elizabeth River in the same corridor as the Jordan Bridge. There will be no expenditures of any city, state or federal funds. During 2010, all remaining Jordan Bridge assets were transferred to Public Works or disposed of and the fund was closed. The remaining fund balance was transferred to the General fund to reimburse the General fund for debt service payments made on the Jordan Bridge's behalf and to the Capital Projects fund for future capital projects.

Internal Service Funds account for central computer and information technology services, central fleet management services for City-owned

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

vehicles, services of the City's self-insurance program, and the termination benefits program provided to other departments, agencies, or components units of the City on a cost-reimbursement basis.

Fiduciary funds:

The *Special Welfare Agency Fund* accounts for the transfer of funds provided by the Virginia Public Assistance Fund for aid to dependent children. The City acts in an agent capacity for these individual dependent children.

The *Other Postemployment Benefits (OPEB) Trust Fund* accounts for assets accumulated to fund other postemployment benefit obligations of the City. The component unit acts in a trustee capacity for retirees and beneficiaries receiving these benefits.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting* (Statement No. 20), the government-wide financial statements and the fund financial statements of the proprietary fund types follow all applicable GASB pronouncements as well as all Financial Accounting Standards Board (FASB) pronouncements and predecessor APB Opinions and Accounting Research Bulletins (ARB) issued on or before November 30, 1989 that do not contradict or conflict with GASB pronouncements. Under paragraph 7 of Statement No. 20, the City has elected not to apply FASB pronouncements issued after November 30, 1989.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's public utility function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for sales and services. The Public Utilities Enterprise Fund also recognizes certain rental fees as operating revenue. Operating expenses for proprietary funds include

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

In all funds, when both restricted and unrestricted resources are available for a particular use and have not been earmarked for other purposes, it is the City's policy to use restricted resources first for any allowable costs. After restricted resources have been depleted, unrestricted resources are used as they are needed unless the City determines and documents otherwise.

Cash and Temporary Investments

The City maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the Statement of Net Assets or Balance Sheet as "Cash and temporary investments." In addition, the City has restricted deposits held by trustees for future retirements of bonds at the appropriate call date, retirements of certain certificates of participation at maturity, and construction projects.

Cash and temporary investments are stated at fair value, which is based on quoted market prices. For U.S. Government securities with maturity dates of less than one year, the investments are valued at amortized cost. Because the City uses the pooled cash investment method, individual fund overdrafts are reclassified as due to/due from other funds or internal balances for financial statement purposes. Income from the investment of pooled cash is allocated to the various funds based on the percentage of cash and temporary investments of each fund to the total pooled cash and temporary investments.

For purposes of the statement of cash flows, all highly liquid debt instruments and certificates of deposit, with original maturities of three months or less from the date of purchase, are grouped into cash and temporary investments. The cash and investment pool discussed above is considered cash, since it has the same characteristics as a demand deposit account.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" or "advances to/from other funds" in the fund statements. All residual balances

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

In the fund statements, long-term interfund advances and advances to component units are recorded as receivables with corresponding reservations of fund balance by the advancing fund.

Provisions for uncollectible advances to component units are based upon the terms of the notes, which are non-interest bearing, unsecured with the City. Provisions have been made for the EDA advance of \$1,319,095 and the Port Authority advance of \$944,407.

Provisions for uncollectible water, sewer, stormwater, community services client fees, emergency medical bills, solid waste and miscellaneous invoices are based upon a historical analysis of uncollected accounts and are applied as a percentage of delinquent/terminated accounts in the year end accounts receivable balance.

Provision for uncollectible property taxes is based upon a historical percentage of accounts written off applied to the total levies of all years carried in taxes receivable.

The two major sources of property taxes are described below as reported in the fund financial statements:

Real Estate

Each year as of July 1, the City levies real estate taxes on all real estate within its boundaries, except that exempted by statute. Real estate taxes are levied on the estimated market value of the property and become a lien on real property the first day of the levy year. The City follows the practice of reassessing all property annually.

Real estate taxes are collected in quarterly payments due September 30, December 30, March 30, and June 5. During the fiscal year, the current year real estate taxes reported as revenue are the levies on assessed valuation on July 1, 2009, less an allowance for uncollectible amounts and taxes not collected within 45 days after year end. The tax rate for 2010 was \$1.04 per \$100 of assessed value with an additional \$.01 per \$100 of assessed value for mosquito control services.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

Personal Property

The City levies personal property taxes on motor vehicles and tangible personal business property. These levies are made each year as of January 1 with payment due the following June 5. The current year personal property taxes reported as revenue are the levies on assessed valuation at January 1, 2010 less an allowance for uncollectible amounts and taxes not collected within 45 days after year end. The tax rate for 2010 was \$4.00 per \$100 of assessed value with an additional \$.08 per \$100 of assessed value for mosquito control services.

Inventories and Prepaids

Inventory consists of expendable materials and supplies held for future consumption and are valued using the weighted average cost method. All inventories of governmental funds and proprietary funds are recorded under the consumption method as expenditures or expenses when consumed, rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include land, intangible assets, buildings, improvements, equipment, vehicles, and infrastructure assets (i.e. roads, bridges, drainage, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Drainage infrastructure assets are capitalized in the Stormwater Management Fund to the extent they are funded with stormwater fees. All other drainage is capitalized in the governmental activities column in the government-wide financial statements.

Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

improvements are capitalized as projects are constructed. \$357,582 of interest expense was capitalized during fiscal year ended June 30, 2010 in the Public Utilities Fund.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Capital Assets	Useful Lives
Buildings	10-50 years
Improvements other than buildings	10-45 years
Software, equipment and vehicles	3-50 years
Infrastructure	10-50 years

Vacation, Sick Pay, and Accrued Overtime Leave

City employees are granted vacation, sick pay and accrued overtime leave in varying amounts as services are provided. Employees may accumulate, subject to certain limitations, unused vacation, sick pay and accrued overtime leave earned and, upon retirement, termination, or death, may be compensated for certain amounts at their most current rate of pay. The costs of accumulated vacation and overtime leave are accrued as a liability as the benefits are earned by employees if attributable to services already rendered and compensation through paid time off or some other means is probable. Sick leave liability is accrued as the benefits are earned by employees if it is probable the City will compensate the employees for the benefits through cash payments conditioned upon the employees' termination or retirement. These liabilities are accounted for in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and retirements.

Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable Statement of Net Assets. Bond premiums and discounts, as well as issuance and refunding costs, are deferred and amortized over the life of the bonds using the straight-line method. Beginning with the 2007B Series of bonds issued, the effective interest method is applied to that and all subsequent bond premiums and discounts for all issuances where the straight line method is materially different than the effective interest

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(1) Continued

method. Bonds payable are reported net of the applicable bond premium or discount and refunding costs. Bond issuance costs are reported as other assets and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance and refunding costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances and refunding costs are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Encumbrances

Encumbrances outstanding at year end represent the estimated amount of the expenditures required to complete contracts, purchase orders, and other commitments in process of completion at fiscal year end. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. However, fund balances in the fund financial statements at year end have been accordingly reserved.

Designated Fund Balances

The City charter requires that a minimum of 6% of the total General Fund revenue be designated for emergency use and cash flow needs throughout the fiscal year. In addition, the City Council has established that an additional 5% of the total General Fund revenue be designated for emergency operating purposes.

Net Assets

The government-wide statement of net assets reports \$61,966,212 of expendable restricted net assets for other purposes, of which \$36,947,059 is restricted by enabling legislation.

(2) Deposits and Investments

Deposits

All cash of the City is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et seq. of the *Code of*

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(2) Continued

Virginia, or covered by federal depository insurance. The carrying value of pooled deposits, as of June 30, 2010 is \$334,514,501 including petty cash of \$44,660 and cash in the special welfare fiduciary fund of \$11,700. Cash of \$1,331,909 is being held by the Commonwealth of Virginia.

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof (including Government sponsored enterprise (obligations), obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP). Money market accounts and mutual funds with underlying securities which are within the parameters described above are also allowable. Money Market Mutual funds have a fair market value equivalent to \$1.00 per share. Statutes limit the localities to a maximum percentage of total investments of 50% for repurchase agreements, 40% for banker’s acceptances, 35% for commercial paper or 20% for corporate notes. Investments in Virginia State Non-Arbitrage Program (SNAP) and the Evergreen Money Market Mutual funds are SEC registered open-ended mutual funds. The Local Government Investment Pool (LGIP) is a 2a7 “like” investment pool (as defined by GASB 31). The Virginia Public School Authority bond covenants require the bond proceeds to be invested with the Virginia State Non-Arbitrage Program which is monitored by the Virginia Treasury Board. These external investment pools are considered pooled investments in nature and are not evidenced by securities that exist in physical or book entry form. Shares purchased through the external investment pools maintain a fair value equal to the share value within these funds. The Local Government Investment Pool is audited by the Auditor of Public Accounts, and is under the supervision of the Virginia Treasury Board.

Credit Risk

Generally credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by nationally recognized statistical rating organizations. Presented below is the minimum rating required by the Virginia State Code, the City’s investment policy, or the debt agreements as well as the actual investment ratings as of June 30, 2010.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

(2) Continued

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The City of Chesapeake investment policy requires all certificates of deposit and time deposits of banks and savings and loan institutions located in the State of Virginia that are under the Virginia statute of public funds to be approved depositories by the State Treasury Board. These certificates of deposit and time deposits must be federally insured to the maximum extent possible and/or collateralized under the Virginia Security for Public Deposit Act, Section 2.5-4400 et seq. of the *Code of Virginia*.

Custodial Credit Risk – Investments

Investment custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments. The City of Chesapeake investment policy requires securities be purchased only from brokerage firms/institutions with offices that are under the Commonwealth of Virginia's supervision and located in the Commonwealth of Virginia. The City holds no investments that are at risk.

Concentration of Credit Risk

The City places no limit on the amount that can be invested in any one issuer beyond that stipulation by Virginia State Code. At June 30, 2010, the City was holding certificates of deposits in TowneBank of \$114,000,000 which represented 28.30%; United Central Bank of \$66,000,000 which represented 16.38%; SunTrust of \$25,000,000 which represented 6.21%; and Monarch Bank for \$21,181,000 which represented 5.26% of the City's total investments. The City held no other investments by any one issuer that represented over five percent of the City's total investments, other than U.S. Treasury securities, mutual funds, and external investment pools.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits U.S. Treasury and U.S. Agency securities to maturities of less than five years; guaranteed investment contracts to maturities of less than 30 years; banker's acceptances to maturities of less than 180 days; commercial paper to maturities of less than 270 days; and corporate notes to maturities of less than five years.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

June 30, 2010

(2) Continued

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements. These debt agreements limit U.S. Agency securities to maturities of less than five years and guaranteed investment contracts to maturities of less than 30 years.

The City assumes all investments will be held until maturity or until called at their par value. However, an investment may be sold at an earlier date to meet certain obligations or if the investment's credit quality drops. This makes the City's investments sensitive to market rate fluctuations. To mitigate the impact of market rate fluctuations, the City maintains enough liquidity to meet its short-term needs with a smaller portion invested in long-term government-sponsored organizations and high-quality corporate notes.

Foreign Currency Risk

The City of Chesapeake OPEB Trust invests in US dollars dominated mutual funds that may invest in international stocks, bonds, and other assets. Although the assets of the funds are all held in US dollars, the market value of the assets may fluctuate in part due to changes in foreign currency exchange rates.

Amounts Relating to Component Units

The cash and investments of the Public Schools, the Mosquito Control Commission component units, and the OPEB fiduciary trust fund have been pooled with the cash and investments of the primary government and, therefore, are included in the above information. The remaining component units, with cash and investments amounting to \$2,484,288, have been excluded because risk information is not available.

In April 2010, the City announced that it was offering eligible employees an opportunity to participate in a Voluntary Retirement Incentive Program (the Program) for the 2nd consecutive year. Eligible employees were given a deadline of June 7, 2010 to commit to the Program. Incentive payments are based on annual salary groupings and will be made within 30 days of when the person actually retires. A total of 46 employees elected to participate in the Program. The City accrued \$714,631 in the Termination Benefits internal service fund for all incentive payments not yet paid at June 30, 2010 for those employees who had committed to the Program.

Capital assets, net	\$ 1,108,016,049	27,780,626	(30,783,883)	1,105,012,792

Historically, the City has recorded all intangible assets as capital assets. In order to clarify the different types of fixed assets, in accordance with GASB 51, a separate category for certain types of intangibles has been created. Land easements and right of ways were transferred to the newly created intangible category.

(5) Deferred Revenues

Deferred revenues represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable but not available. Deferred revenues for the primary government's fund-based financial statements at June 30, 2010 are comprised of the following:

	General Fund	Special Revenue Funds	Enterprise Funds
Taxes	\$ 23,484,768	-	-
Personal Property Tax Relief Act	3,209,133	-	-
Emergency medical service fees	1,315,044	-	-

The *Code of Virginia*, Section 22, sets forth the powers and responsibilities of the local school boards. School boards in Virginia have no taxing authority, but they are authorized to borrow money from the Commonwealth and to sell local school bonds through the City to the Virginia Public School Authority (VPSA).

In February 2002, the Virginia General Assembly passed Senate Bill 276 which was subsequently signed by the Governor of Virginia, that provides that localities have a tenancy in common with the school board whenever a locality incurs a financial obligation for school property which is payable over more than one fiscal year. As a result, the City records on its Statement of Net Assets certain school property that is purchased with City long-term obligations. However, the Schools are still tasked with all care, management, and control over these properties.

- (d) In May 2010, the City sold \$12,280,000 of general obligation school bonds to the Virginia Public School Authority at a true interest cost of 3.82% and a net premium of \$978,896. The bonds were issued to partially fund the construction of an addition to a high school.
- (e) In April 2010, the City sold \$3,860,000 of water and sewer system revenue bonds (tax-exempt) with a true interest cost of 1.78% and a premium of \$119,980 and \$32,525,000 of water and sewer system revenue bonds (taxable – Build America Bonds) with a true interest cost of 3.88%. The bonds were issued to finance capital improvements to the water and sewer system. Revenues of the Public Utilities Enterprise Fund will be used as set forth in the new Master Agreement of Trust to fund operations and maintenance and debt service on the revenue bonds. Build America Bonds are expected to receive federal reimbursement of 35% of interest paid over the life of the bonds under the American Recovery and Reinvestment Act.
- (f) In March 2010, the City sold a \$2,555,000 general obligation tax increment bond with a true interest cost of 3.28%. VML/VACo issued Recovery Zone Economic Development Bonds through the Finance Recovery Act Pool I. The bond was issued to fund various streetscape improvements including, but not limited to, landscaping, pavement materials, lighting, signage and relocating overhead utilities in the South Norfolk Revitalization District. The Pool issuer is authorized to receive a refundable credit with each interest payment date in an amount of 45% of the interest payable on such date. A proportionate share of the credit will be used by the City to reduce its debt service payments. In accordance with GAAP, the City appropriates the annual gross debt service and records the allocated interest reimbursement as revenue.
- (g) On February 26, 2003, City Council adopted an ordinance establishing the Open Space and Agricultural Preservation Program (OSAP). The purpose of the program is to encourage and promote the conservation of open space and agricultural land to preserve the rural character of Chesapeake. In January 2007, the City entered into its initial Installment Purchase Agreement in the amount of \$1,342,284 for the acquisition of development rights through the purchase of preservation easements on land meeting the eligibility criteria. The agreement provides for the payment of the principal balance in a single installment due in 2032, with interest on the unpaid balance payable semi-annually until that date. This obligation represents general obligation debt that will be repaid from maturing zero coupon Treasury securities.

(6) Continued

- (h) In December 2003, the CSB of Chesapeake, Inc., a blended component unit reported as a special revenue fund of the City, issued a \$4,940,000 lease revenue bond with a fixed interest rate of 4.39%. The City has pledged its full faith and credit for this obligation, which was incurred to construct the Community Services Board building. The holding bank may require prepayment of this bond on January 1, 2014, with at least 90 days written notice to the City. Therefore, although the bond has a maturity of July 1, 2030, the remaining principal is reflected as being due in 2014. At June 30, 2010, \$4,285,000 was outstanding.
- (i) In July 1999, the City sold \$21,630,000 Chesapeake Expressway Toll Road Revenue Bonds with a stated interest rate of 5.625%. An original issue discount of \$314,414 was offered, for a true interest rate on the issue of 5.824%. The bonds, together with state and federal funds, financed a \$116 million toll road project. This toll road began operations in 2001. Revenues of the Chesapeake Expressway Enterprise Fund are used as set forth in the indenture of trust to fund operations maintenance, and debt service on the toll road revenue bonds.

In addition, the City entered into a “City-State Agreement” with the Virginia Department of Transportation (VDOT), in which the City will repay with interest certain contributions provided by VDOT, once all funding requirements for the toll road revenue bonds have been met per the indenture and the project generates sufficient net revenues. State contributions to be repaid as of June 30, 2010 amounted to \$65,828,257. Revenues generated from the project were used to make a \$1,493,505 repayment of Toll Facilities Revolving Account (TFRA) payment to VDOT. No payment schedule has been established.

- (j) In July 1997, the Commonwealth Transportation Board issued \$33,075,000 of Commonwealth of Virginia transportation program revenue bonds. The net proceeds were used to finance the City’s Oak Grove Connector project. These bonds are not obligations of the City. However, at the time of issuance, the City entered into a Supplemental Payments Agreement (SPA) with the Commonwealth Transportation Board to make annual payments equal to the debt service payments on these bonds based on the original terms of the bonds including principal amount of \$33,075,000, interest rates ranging from 5.00% to 5.25%, and a maturity date of 2022. In May 2006 the Commonwealth Transportation Board refunded the bonds maturing in the years 2008 – 2022 in the amount of \$23,830,000. The Supplemental Payments Agreement has been adjusted accordingly to reflect a total debt service savings of \$1,615,054 including principal savings in the amount of \$670,000. The SPA is being paid from recordation tax revenues of the City which have been set aside for such purpose in the

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements

(6) Continued

Transportation Improvement Program Set-Aside Fund for the account of the City. The SPA states that if the City's portion of State recordation taxes dedicated by the City Council to pay the debt service for the project is not sufficient to cover the projected annual debt service on the bonds, the City will allocate, on an annual basis, subject to appropriation, certain local revenues to pay an amount equal to the annual debt service on the bonds, less the City's share of State recordation taxes already dedicated to the Set-Aside Fund. Payments on the SPA are not secured by a pledge of the City's full faith and credit. The City made a \$1,190,000 principal payment from the Transportation Improvement Program Set-Aside Fund on the SPA during the year.

The following table summarizes the City's debt service requirements for the SPA as of June 30, 2010.

Fiscal year ending June 30:	Principal	Interest
2011	\$ 1,240,000	986,750
2012	1,305,000	924,750
2013	1,365,000	859,500
2014	1,435,000	791,250
2015	1,505,000	719,500
2016-2020	8,750,000	2,388,250
2021-2022	4,135,000	312,750
Total payments	\$ 19,735,000	6,982,750

- (k) In November 1996, the City financed a new Chesapeake Circuit Court building through financing arrangements with the EDA, a component unit of the City. Under the arrangement, the EDA issued \$24,460,000 in public facility lease revenue bonds to finance the construction, and the City leases the building from the EDA. The scheduled payments that the City makes to the trustee are used to pay debt service on the bonds. The 20-year schedule of rent payments due under this agreement is included in the City's capital leases to component unit. At June 30, 2010, \$11,655,000 was outstanding.
- (l) In June 1994, the City financed a 320-bed addition to the City jail through a financing agreement with the EDA. Under the arrangement, the EDA issued \$30,205,000 tax-exempt lease revenue bonds to finance the expansion, and the City leases the jail from the EDA. In March 2005, the EDA issued \$16,765,000 of public facility lease revenue bonds to refund all of the remaining outstanding 1994 bonds. The scheduled payments that the City makes to the trustee are used to pay debt service on the bonds.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(6) Continued

The 20-year schedule of rent payments due under this agreement is included in the City's capital leases to component unit. At June 30, 2010, the amount owed by the City under this capital lease obligation was \$7,995,000.

In addition, the Commonwealth of Virginia has agreed to reimburse the City for a portion of the capital costs and financing costs of the City jail project. This agreement was signed in June 1994. At that time, total reimbursement to the City was projected to be \$16,078,836, to be reimbursed on an installment basis for 20 years, and subject to General Assembly approval. In April 2004, March 2005 and August 2008, portions of the debt related to the City jail project were refunded. The Commonwealth has the right under the agreement to modify the reimbursement installments in the event of a refunding, but an adjusted schedule has not yet been received from the Commonwealth. Total reimbursements of \$13,380,673 have been received by the City as of June 30, 2010. The current year reimbursement was \$833,289.

- (m) In April 2003, the City agreed to pay \$808,075 to the City of Norfolk for an under-billing of treated water. The payments, without interest, began in fiscal year 2004 and were made over seven years. The final payment was made during 2010.
- (n) Section 148 of the Internal Revenue Code of 1986 requires public entities to refund interest earned in excess of interest paid over the first five years outstanding on tax exempt borrowings. The regulations are applicable to borrowings incurred subsequent to August 1986. The City has calculated the rebate due as if June 30, 2010 was the settlement date, and reflected the liability, if any, in either the Public Utilities Fund, Chesapeake Expressway Fund, or the governmental activities column of the Statement of Net Assets, depending on the bond issue and timing of payment.

The fund balance in the Debt Service Fund, where interest earnings are accumulated for all applicable obligations, has been reserved in an amount equal to the liability in the Statement of Net Assets.

- (o) The future payments by year of accumulated vacation, sick pay, and accrued overtime leave, arbitrage, net pension obligation, net OPEB obligation and liability for self-insurance losses are not determinable. However, amounts due within one year for each of these liabilities have been estimated with the exception of the net pension obligation and the net OPEB obligation, which cannot be estimated. The accumulated vacation, sick pay and accrued overtime leave liability is generally liquidated by the fund for which the employee works. The arbitrage liability for governmental

(Continued)

(6) Continued

activities is generally liquidated by the Debt Service Fund. The net pension obligation and net OPEB obligation are generally liquidated by the General Fund, and the liability for Self-Insurance losses is liquidated by the Self-Insurance Fund.

- (p) In October 1996, the City entered into a Section 108 loan in the amount of \$3,100,000. These funds were used for Community Development and will be repaid in annual installments through August 2011 with remaining interest rates ranging from 6.46% to 6.78%. In September 2003, the City drew an additional \$720,000 against the original \$3,800,000 Section 108 Loan Guarantee authorization, approved by City Council in 1996. Principal payments are due August 1, 2010 and August 1, 2011 in the amounts of \$330,000 and \$390,000 respectively. Interest is paid quarterly on the unpaid principal balance on the first day of February, May, August, and November. The interest rate is equal to 20 basis points (0.2 percent) above the applicable three-month London Interbank Offered Rate (LIBOR). Future debt service payments for the September 2003 draw are based on the interest rate of 0.74% effective June 30, 2010.

The following is a schedule of projected future loan payments:

Fiscal year ending June 30:	Principal	Interest
2011	\$ 365,000	4,683
2012	390,000	722
Total payments	\$ 755,000	5,405

- (q) Under a City charter amendment approved by the General Assembly of Virginia during 1994, City Council may authorize issuance of bonds or notes in any calendar year in an amount not to exceed \$4,500,000 plus the amount of all bonds and notes retired in the prior calendar year, provided that the amount of such bonds or notes together with existing indebtedness of the City does not exceed 8% of the assessed valuation of real estate in the City subject to taxation, as shown by the last preceding assessment for taxes. The charter bond authorization for the calendar year ended December 30, 2009 was \$39,065,000. Any bonds or notes in excess of this amount must either be intended to refund other debt or be supported by a referendum, except as noted in Chapter 6, Section .05 of the City Code. Contractual obligations, other than bonds and notes, are excluded from the City's annual borrowing limit. The total charter bonds authorized but unissued are \$223,855,097 as of June 30, 2010.

(6) Continued

Project. The bonds are being repaid through City lease payments on the facility. The remaining interest rates on the bonds vary from 5.25% to 6.25%. At June 30, 2010, \$11,655,000 remains outstanding, of which all are callable.

On June 1, 1994, the EDA issued \$30,205,000 of Lease Revenue Bonds to finance construction of the City of Chesapeake Jail Project. The bonds are being repaid through City lease payments on the facility. In March 2005, the EDA issued \$16,765,000 of public facility lease revenue refunding bonds, to refund the remaining outstanding 1994 Public Facility Lease Revenue Bonds of \$18,050,000. At June 30, 2010, \$7,995,000 remains outstanding, of which none are callable.

In October 1998, the City entered into a support agreement with the Chesapeake Airport Authority, to provide a non-binding obligation of the City to consider certain appropriations to the Airport Authority in conjunction with the Airport Authority's issuance of \$2,500,000 Airport Revenue Bonds. The bonds, issued in January 1999, funded the acquisition, construction, and equipping of airplane hangers and related facilities at the Chesapeake Municipal Airport. The City's support extends only to the debt service reserve account for these bonds, as required under the master indenture, to appropriate sufficient funds if a deficit exists in the debt service reserve account. At June 30, 2010, \$1,535,000 remains outstanding, of which all is callable.

(7) Advances and On Behalf Of Payments

The City has made the following advances and on behalf of payments:

Component Unit – Chesapeake Airport Authority

In September 2008, the City Council authorized the restructuring of two previous advances made to the Airport Authority with different repayment terms. The restructuring allowed both note terms to run simultaneously, with a 15-year repayment. The remaining balances of the two notes were cancelled and a new note for \$439,100 was executed. Semi-annual payments of \$13,500 began in fiscal year 2009 with a final balloon payment of \$47,600 on June 15, 2023. A reservation of fund balance has been made in the General Fund for \$162,920 and in the Debt Service Fund for \$222,180 for the balance outstanding at June 30, 2010 of \$385,100.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(7) Continued

The General Fund also budgeted and made payments of \$335,027 on behalf of the Airport Authority during fiscal year 2010. The City does not intend to collect these payments from the Airport Authority, as they were not part of a note or loan.

Component Unit – Chesapeake Port Authority

The General Fund has advanced \$944,407 to the Port Authority to provide working capital. The City has recorded a valuation allowance of an equal amount because the timing and certainty of collection is unknown. In addition, the General Fund made payments of \$7,121 on behalf of the Port Authority during fiscal year 2010. The City does not intend to collect these payments from the Port Authority.

Component Unit – Economic Development Authority of the City of Chesapeake

On May 13, 1986, the City Council approved an advance to the EDA in a maximum amount of \$1,500,000. At June 30, 2010, \$1,319,095 is outstanding in the General Fund. The City has recorded a valuation allowance of an equal amount because the timing and certainty of collection is unknown. In addition, the City budgeted and made payments of \$930,344 on behalf of the Authority during fiscal year 2010. The City does not intend to collect these payments from the EDA.

Advances from the primary government to its component units as reported on the Statement of Net Assets as of June 30, 2010 is summarized as follows:

Advances to Airport Authority	\$	385,100
Advance to Port Authority		944,407
Advance to EDA		1,319,095
Total advances to component units		2,648,602
Less allowance for uncollectible amounts		(2,263,502)
Net advances to component units	\$	385,100

(8) Interfund Balances and Transfers

Interfund balances and transfers between governmental funds and interfund balances and transfers between enterprise funds are not included in the government-wide Statement of Net Assets or the government-wide Statement of Activities.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(8) Continued

Individual fund interfund receivable and payable balances for the primary government at June 30, 2010 are as follows:

Due To Other Funds	Due From Other Funds	
	Capital Projects Fund	Nonmajor Governmental Funds
General Fund	\$ -	153,077
Debt Service Fund	187,557	-
Total interfund balances	\$ 187,557	153,077

These interfund balances are a result of individual fund overdrafts of pooled cash reported as a receivable to the General Fund and temporary capital project funding. The amount due from the nonmajor governmental funds of \$153,077 is due within one year.

In addition, the City purchased the Chesapeake Conference Center and one acre of land for a parking facility on July 1, 1998 with accumulated reserves in the Debt Service Fund, which were not already dedicated to the repayment of the debt. City Council authorized the purchase and the repayment of \$9,142,398 of funds advanced. The funds are accruing interest and began being repaid to the Debt Service Fund from the Conference Center Special Revenue Fund surpluses beginning in fiscal year 2001, subject to annual appropriation by City Council. The amount repaid in the current year was \$1,000,000.

Individual fund interfund transfers for the primary government were made for budgeted operating, debt service, and capital purposes. In the year ended June 30, 2010, City Council approved transfers totaling \$2,118,183 to the Capital Projects Fund. Included in these transfers were funding for various capital projects, which came from prior years resources. Major projects included \$800,000 for high priority renewal and replacement of facilities, \$350,000 for the Dominion Boulevard financing study, and \$200,000 for enterprise wide technology improvements.

Notes to Basic Financial Statements
June 30, 2010

(8) Continued

Interfund transfers for the year ended June 30, 2010 are as follows:

Transfers To Other Funds	Transfers From Other Funds							
	General Fund	Capital Projects Fund	Nonmajor Governmental Funds	Chesapeake Expressway Fund	Stormwater Management Fund	Nonmajor Enterprise Fund	Internal Service Funds	Total
General Fund	\$ -	3	840,162	-	-	2,024,192	113,851	2,978,208
Debt Service Fund	47,791,256	2,151,686	2,058,537	-	-	-	-	52,001,479
Capital Projects Fund	2,118,183	-	1,925,492	476,412	15,002	400,000	20,146	4,955,235
Nonmajor governmental funds	49,890,110	2,300,000	360,554	-	-	-	732,642	53,283,306
Internal Service Funds	339,826	-	86,277	-	-	-	-	426,103
Total	\$ 100,139,375	4,451,689	5,271,022	476,412	15,002	2,424,192	866,639	113,644,331
Transfer of general capital assets: From Jordan Bridge Fund								218,024
Total transfers out								113,862,355

In the fund financial statements, total transfers in of \$113,644,331 are less than total transfers out of \$113,862,355 because of the treatment of transfers of capital assets from the enterprise funds. During the year, existing capital assets related to the Jordan Bridge Fund, with a book value of \$218,024, were transferred to governmental funds. No amounts were reported in the governmental funds as the amount did not involve the transfer of financial resources. However the enterprise funds did report a transfer out for the capital resources donated.

(9) Leases

The City and the Schools, a component unit, lease certain property under noncancelable capital leases and certain facilities under noncancelable operating leases with scheduled rent increases. At June 30, 2010, the City's capital assets from governmental activities include \$54,665,000 of buildings leased from component units, \$4,490,443 of leased construction in progress and leased equipment of \$9,173,088. Current year amortization expense for leased assets is \$3,478,976 and is included in depreciation expense. Accumulated amortization expense for these assets is \$21,517,800.

The future minimum capital and operating lease payments and the present value of minimum capital lease payments for governmental activities (including capital leases to component units) as of June 30, 2010 are as follows:

	Capital	Operating
Fiscal years:		
2011	\$ 7,193,847	820,368
2012	6,455,329	746,017

(10) Retirement Plans***Plan Description***

The City and the Schools contribute to the Virginia Retirement System (the VRS), an agent and cost-sharing, multiple-employer defined benefit pension plan administered by the Virginia Retirement System. All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with five years of service (age 60 with five years of service for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.7% of their average final compensation (AFC) for each year of credited service (1.85% for public safety sworn employees). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living increases limited to 5% per year beginning in their second year of retirement. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS plan also provides death and disability benefits. Title 51.1 of the *Code of Virginia*

(10) Continued

(1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The VRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be received by writing the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500 or it may be downloaded from their web site at <http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf>.

Funding Policy

Plan members are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5% of their annual reported compensation to the VRS. The City and Schools have assumed this 5% member contribution through fiscal year 2010. During the 2010 session of the Virginia General Assembly, new legislation was passed that allowed localities to vote to implement new provisions to VRS for employees hired on or after July 1, 2010, that meet certain criteria. This new plan option, titled VRS Plan 2, stipulated that a locality may elect to require employees hired on or after July 1, 2010, to pay their own member contribution of 5% of their salary on a pre-tax basis to partially fund their retirement rather than the localities paying the member share on the employee's behalf. The City Council voted on June 22, 2010, to adopt this provision for new eligible employees hired on or after July 1, 2010. The City will continue to pay the 5% member contribution for all employees hired prior to July 1, 2010, and will pay the locality share for all employees. All the Schools' employees will continue to have their 5% member contribution paid by the employer. In addition, the City and the Schools are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The City's employees' contribution rate for the fiscal year ended June 30, 2010 was 15.97% of annual covered payroll.

The Schools employees' contribution rate for professional employees for July 2009 through March 2010 was 13.81 % of covered payroll and the payment of the contribution rate was zero for April through June 2010.

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(10) Continued

The following table relates to the Schools' contribution rate for professional employees:

		Annual Required Contributions	Actual Amount Contributed in Dollars	Actual Amount Contributed in Percent
2010	\$	24,340,176	24,340,176	100%
2009		30,721,581	30,721,581	100%
2008		32,881,785	32,881,785	100%

Annual Pension Cost

For the year ended June 30, 2010, the City's and the Schools' annual pension cost and net pension obligation were as follows:

		City	Schools
Annual required contribution	\$	22,331,787	3,098,864
Interest on net pension obligation		119,226	7,268
Adjustment to annual required contribution		(120,372)	(7,057)
Annual pension cost		22,330,641	3,099,075
Less contributions made		22,331,787	3,098,864
Increase (decrease) in net pension obligation		(1,146)	211
Net pension obligation at June 30, 2009		1,589,678	96,901
Net pension obligation at June 30, 2010	\$	1,588,532	97,112

The required contributions were determined as part of the June 30, 2007 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) an investment rate of return (net of administrative expenses of 7.50%), (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% per year for employees eligible for enhanced benefits available to law enforcement officers, firefighters and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both (a) and (b) also included an inflation component of 2.50%. The actuarial value of the City's and the Schools' assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The City's and the Schools' unfunded actuarial accrued liabilities are being amortized as a level percentage of payroll on an open basis over 20 years.

Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the funded status of the plan was as follows:

	City	Schools
Actuarial accrued liability (AAL)	\$ 640,334,257	75,675,711
Less actuarial value of plan assets	528,016,411	59,853,949
Unfunded actuarial accrued liability (UAAL)	\$ 112,317,846	15,821,762
Funded ratio (actuarial value of plan assets/AAL)	82.46%	79.09%
Covered payroll	\$ 145,156,607	20,917,830
UAAL as a percentage of covered payroll	77.38%	75.64%

The Schedule of Funding Progress, presented as RSI following the Notes to the Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

(11) Other Postemployment Benefits***Plan Description***

The City's Pre-Medicare and Post-Medicare Medical Plans are single-employer defined benefit plans that provide access to medical and dental insurance benefits to eligible retirees and their dependents. The Post-Medicare Medical Plan is closed to employees hired July 1, 2007 or after. Plan membership as of June 30, 2010, consisted of 2,903 active service participants and 535 retirees and beneficiaries currently receiving benefits. There are no retirees entitled to benefits but not currently receiving them, because if they do not choose to continue coverage at the time of retirement, then they are no longer

(11) Continued

eligible to participate. The City's administrative regulations outline the benefits provided and criteria for eligibility. City Ordinance established the City of Chesapeake Other Postemployment Benefits (OPEB) Trust for the purpose of accumulating and investing assets to fund other postemployment benefits obligations. Amounts contributed to the Trust by the City are irrevocable and must be used solely to discharge the City's obligations for other postemployment benefits and pay for reasonable expenses of the Trust. The OPEB Trust is included as a fiduciary fund in the City's financial statements.

Significant Accounting Policies

The OPEB Trust is a fiduciary-type component unit of the City. Fiduciary funds use the flow of economic resources measurement focus and the accrual basis of accounting. Contributions are recognized in the period in which amounts are due, and benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value using a variety of methods, including quoted market prices, net asset value or third party assessment.

Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City's administrative regulations. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the City Council-approved Operating Budget. For fiscal year 2010, the City contributed \$7,839,357 to the plan, including \$2,345,809 for current premiums (60% of total premiums) and an additional \$5,493,548 to prefund benefits. Plan members receiving benefits contributed \$1,564,267, or 40% of the total premiums, through their required monthly contributions. Member contributions are 1.02% of covered payroll. Costs to administer current benefits are paid from the general fund.

The City's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

trend. Amounts determined regarding the funded status of the plan and the City's annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial values of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Method and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective.

In the actuarial valuation for fiscal year ending June 30, 2010 (dated July 1, 2010), the projected unit credit actuarial cost method was used. The actuarial assumptions included a 5.0% investment rate of return (discount rate) and an annual healthcare cost trend rate of 9.3% initially, reduced by 0.2 – 0.4% each year to an ultimate rate of 4.5% after seventeen years. The City's unfunded actuarial accrued liabilities (UAAL) are being amortized as a level dollar amount on an open basis within a period of 30 years.

Discretely presented component unit - Public Schools:***Plan Description***

The Schools' Pre-Medicare and Post-Medicare Medical Plans are single-employer defined benefit plans that provide medical and dental insurance benefits to eligible retirees and their dependents. Plan membership as of July 1, 2009, consisted of 5,532 active service participants and 1,321 retirees and beneficiaries currently receiving benefits. The Schools' administrative policies and regulations outline the benefits provided and criteria for eligibility. City Ordinance established the Schools' Other Postemployment Benefits (OPEB) Trust for the purpose of accumulating and investing assets to fund other postemployment benefits obligations. The School Board, in accordance with this election, has agreed to become part of the Virginia Pooled OPEB Trust Fund ("the Trust"). Amounts contributed to the Trust by the Schools are

(11) Continued

irrevocable and must be used solely to discharge the Schools' obligations for other postemployment benefits and pay for reasonable expenses of the Trust. The OPEB Trust is included as a fiduciary fund in the Schools' financial statements.

Significant Accounting Policies

The OPEB Trust is a fiduciary-type component unit of the Schools. Fiduciary funds use the flow of economic resources measurement focus and the accrual basis of accounting. Contributions are recognized in the period in which amounts are due, and benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value based on quoted market prices.

Funding Policy

The contribution requirements of plan members and the Schools are established and may be amended by the School Board. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the School Board. For fiscal year 2010, the Schools contributed \$10,700,540 to the plan, including \$5,660,540 for current premiums (62% of total premiums) and an additional \$5,040,000 to pre-fund benefits. Plan members receiving benefits contributed \$3,536,762, or 38% of the total premiums, through their required monthly contributions. Costs to administer current benefits are paid from the Schools' general fund.

Annual OPEB Cost and Net OPEB Obligation

The Schools' annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

(13) Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with *Internal Revenue Code* Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are held in trust for the participants. Therefore, the assets are not included in the accompanying financial statements as of June 30, 2010.

(14) Commitments

Lake Gaston Pipeline Project

On November 10, 1987, the City Council authorized the City Manager to execute a contract with the City of Virginia Beach pertaining to the design, construction and operation of a project to provide facilities for withdrawal and transportation of water from Lake Gaston to the City and to the City of Virginia Beach. Upon execution of the contract, the City agreed to purchase a one-sixth (1/6) ownership interest in the project and, accordingly, will be entitled to use water transported by the project in proportion to its ownership interest. The City will fund one-sixth of any and all costs relating to the acquisition, design, construction and operation of the Project except for certain costs related to normal maintenance and operation that fluctuate and which will be funded based upon the amount of water pumped through the pipeline. As of June 30, 2010, the City has incurred cumulative costs of \$24,819,500 related to the design and construction of the pipeline. These costs are capitalized in the Public Utilities Fund.

Capital Improvements Program

The City Council adopted a five-year capital improvements program on May 11, 2010 the total estimated cost of which amounted to \$408,748,935 to be funded from anticipated state and federal funds, debt financing, local fees and funds on hand, both appropriated and unappropriated. The first year of the plan was appropriated on the same date.

VSPA Borrowing		36,581,300
	\$	408,748,935

The City is currently conducting a traffic and revenue study for a toll road system that would include (1) the Chesapeake Expressway (currently operated as a toll-revenue supported enterprise fund of the City) and (2) an improved Dominion Boulevard (currently being designed). As proposed, the improved Dominion Boulevard would convert an existing 3.3 mile two-lane arterial highway with a draw bridge crossing at the Southern Branch of the Elizabeth River to a four-lane tolled freeway with a fixed bridge at a height that would not impede boat traffic on the river. The current estimated project cost is \$350 million and is not currently reflected in the City's approved 2011-2015 Capital Improvement Program described above. Any decision whether to construct the project and how to finance the project will be dependent upon the results of the traffic and revenue study, the availability and cost of various funding sources and other factors.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(15) Contingent Liabilities***Self-Insurance***

The City is exposed to various risks of loss related to civil torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Accordingly, during fiscal year 1987, the City established a Self-Insurance Fund (an Internal Service Fund) to account for and finance its uninsured risk of loss. Under this program, the Self-Insurance Fund provides coverage for up to: a) \$1,500,000 per claim for general and automobile liability claims; b) \$1,000,000 per workers' compensation claim; and c) \$100,000 per claim for most other types of exposures including public official and law enforcement officer liability. For liability claims, the excess of each of these limits up to \$5,000,000 is covered by commercial insurance policies. During fiscal year 2010, one settlement using commercial insurance exceeded our insurance coverage limits by \$50,000, all other settlements remained within the limits of our commercial insurance policy. For workers' compensation claims, the excess of the limit up to \$25,000,000 is covered by commercial insurance policies. The Self-Insurance Fund also provides for injured employees that are permanently and totally disabled. Indemnity for these injured workers is 2/3 salary for 500 weeks and lifetime medical care. The insurance coverage is substantially the same as in prior fiscal years.

All funds of the City participate in the self-insurance program and make payments to the Self-Insurance Fund based on actuarial estimates of the amounts needed to pay prior-year and current-year claims and to establish a reserve for catastrophic losses. The City uses an actuary to aid in the determination of self-insurance liabilities. The actuary also provides guidance regarding the appropriate fund balance reserves to be maintained. Interfund premiums are recorded as operating revenues in the Self-Insurance Fund and as expenditures or expenses in the funds charged.

The claims liability of \$30,849,738 reported in the Self-Insurance Fund at June 30, 2010 is based on the requirements of the GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*. It requires that a liability for claims should be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The claims liability includes an amount for claims that have been incurred but not reported (IBNR).

Notes to Basic Financial Statements
June 30, 2010

(15) Continued

Changes in the Self-Insurance Fund's liability amount during the fiscal years ended June 30, 2010 and 2009 were as follows:

		Beginning Balance	Claims and Changes in Estimates	Claims Payments	Ending Balance
2009-2010	\$	30,374,299	8,670,595	8,195,156	30,849,738
2008-2009	\$	26,810,497	10,465,038	6,901,236	30,374,299

The Schools, a component unit, is self-insured for its workers' compensation, health and dental insurance. Workers' compensation has a \$600,000 limit per claim. Health insurance has a specific stop loss limit of \$300,000 per member covering both medical and drug expenses. Dental care has a cap at 120% of expected claims as calculated by the third-party administrator. Commercial insurance is purchased to cover other types of losses. The insurance coverage is substantially the same as in prior fiscal years. Claims processing and payments for workers' compensation and dental claims are made through a third-party administrator. The settlements using commercial insurance did not exceed insurance coverage for each of the past three years. Amounts due in future years on claims as of June 30, 2010 are recognized as a long-term liability. The Schools use the information provided by the third-party administrator to aid in the determination of self-insurance liabilities. The total computed liability as of June 30, 2010 is \$10,994,551.

Changes in the Schools' self-insurance program liability amount during the fiscal years ended June 30, 2010 and 2009 were as follows:

		Beginning Balance	Claims and Changes in Estimates	Claims Payments	Ending Balance
2009-2010	\$	9,506,631	57,500,411	56,012,491	10,994,551
2008-2009	\$	3,814,311	40,156,582	34,464,262	9,506,631

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(15) Continued***Litigation***

The City has been put on notice of several potential claims by surrounding residents of the Battlefield Golf Club, a golf course constructed by a private entity using fly ash from Dominion Power's energy facility in Chesapeake. Fly ash is associated with contaminants such as arsenic, lead and mercury. An engineering firm hired by the City found elevated levels of lead and other contaminants at the site. A full environmental assessment is slated to be completed by the City very soon. The United States Environmental Protection Agency is also conducting water quality tests on, and in the vicinity of, the golf course. Residents living near the golf course filed suit against Dominion Power, the contractor that delivered the fly ash to the site, its subcontractors and the owner of the golf course.

There are approximately 400 potential claims which could total millions in damages. The plaintiffs seek over one billion dollars from Dominion Power. However, the likelihood of recovery by the residents against the City is very low. The City's approval of the golf course through the issuance of a conditional use permit was based on information provided by Dominion Power. It is also to be noted that the Virginia Department of Environmental Quality approved use of fly ash at this location. The City should have immunity against such claims. The defendant in this matter is Dominion Power.

Southeastern Public Service Authority

Southeastern Public Service Authority (SPSA) is a joint venture of the cities of Chesapeake, Franklin, Norfolk, Portsmouth, Suffolk and Virginia Beach and the counties of Isle of Wight and Southampton, created for the purpose of providing, operating and maintaining a regional system for the collection, transfer, processing and disposal of solid waste refuse. On April 29, 2010, the City executed a new guaranty agreement with SPSA, along with all of its other member communities. Under the new agreement, the Cities of Chesapeake, Franklin, Norfolk, Portsmouth, Suffolk and Virginia Beach and the Counties of Isle of Wight and Southampton agree to guarantee the remainder of SPSA's debt not to exceed \$50,000,000 in the aggregate. The City's applicable percentage is 22.49%. Any amounts expended by the City to pay debt service on behalf of SPSA will be required to be repaid by SPSA. The change in the City's guaranty agreement resulted in part from the sale of SPSA's Waste-to-Energy facilities to Wheelabrator Technologies, Inc. on April 29, 2010, allowing the principal amount of SPSA's outstanding indebtedness to be reduced to \$75 million from \$218 million.

Federal Award Programs

The City and the Schools participate in a number of federal award programs. Although they have been audited in accordance with the provisions of OMB Circular A-133, these programs are still subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, management believes such disallowances, if any, will not be significant.

Pollution Remediation

Previously, the City had recorded an obligation in the Self Insurance fund in the amount of \$1,102,150 to cover a claim asserted by the Environmental Protection Agency (EPA) for its response costs associated with analysis and cleanup of the Wingfield Point Subdivision in the Deep Creek area of the City. On April 10, 2010, the City entered into a Memorandum of Agreement with the U. S. Environmental Protection Agency, Region III to resolve the alleged liability at the site with the performance of in-kind services by creating a living shoreline along Shuffletown Creek, a tributary to the Southern Branch of the Elizabeth River. These in-kind services, estimated at a cost of approximately \$382,518, will be accomplished with funds already established in an existing capital project and therefore, the Self Insurance Fund has been relieved of the potential liability.

(16) Fund Deficits

The Self-Insurance Fund, an Internal Service Fund, had a net asset deficit of \$16,476,149 at June 30, 2010. This deficit will be funded by future internal billings to other funds of the City.

The Chesapeake Expressway Fund, an Enterprise Fund, had a net asset deficit of \$16,403,072 at June 30, 2010. The deficit is primarily due to depreciation expense which began in 2001 when the Chesapeake Expressway was capitalized. Principal payments on Chesapeake Expressway debt began in January 2007. The deficit will be reduced as future toll revenue is collected.

(Continued)

CITY OF CHESAPEAKE, VIRGINIA

Notes to Basic Financial Statements
June 30, 2010

(16) Continued

The Community Development Fund, a Special Revenue Fund, had a fund balance deficit of \$10,255 at June 30, 2010. This deficit will be funded by future intergovernmental revenues.

The Chesapeake Port Authority, a component unit, had a net asset deficit of \$944,097 at June 30, 2010. This deficit consists of an advance of \$944,407 to the Port Authority from the General Fund to provide working capital. The City has recorded a valuation allowance of an equal amount because the timing and certainty of collection is unknown.

(17) Subsequent Events

Long-term Debt Issuance

On August 24, 2010, the City sold \$6,085,000 of general obligation public improvement bonds, \$2,045,000 general obligation tax increment financing bonds for the Greenbrier district, \$1,815,000 general obligation tax increment financing bonds for the South Norfolk district and \$20,625,000 general obligation water and sewer refunding bonds. All of these bonds are tax-exempt. Maturities on the refunding bonds range from December 1, 2021 to December 1, 2025. Maturities on all of the other tax-exempt bonds range from December 1, 2011 to December 1, 2017.

In addition, on August 24, 2010, the City sold the following taxable Build America Bonds: \$33,460,000 of general obligation public improvement bonds, \$4,935,000 general obligation tax increment financing bonds for the Greenbrier district and \$4,505,000 general obligation tax increment financing bonds for the South Norfolk district. Maturities on these bonds range from December 1, 2018 to December 1, 2030.

Tax Refund

On August 17, 2010 a Motion for Refund was filed by Perdue Farms, Inc., Perdue Agribusiness, Inc., and Perdue Grain & Oilseed, L.L.C, (Perdue) with the Chesapeake Circuit Court to request a refund of local personal property taxes in the amount of \$615,837 for tax years 2002-2006. This Motion is based on the argument that Perdue is entitled to the refund under state law pending trial on the merits. If Perdue prevails on the merits of case, Perdue will be entitled to keep all or some portion of the refund. If the City prevails on the merits of the case, the refunded amount will be returned to the City. The issues to be ultimately determined by the Circuit Court include 1) whether Perdue as a “manufacturer” is exempt from business license tax under Virginia law, and 2) whether Perdue’s personal property, other than machinery and tools used in manufacturing, is not subject to local taxation. On November 4, 2010, the Circuit Court directed that the requested refund of taxes be made to Perdue prior to December 31, 2010, while awaiting the trial on the merits of the case. Prior to the date of November 4, 2010, the expectation of the refund had not been deemed probable.

CITY OF CHESAPEAKE, VIRGINIA

Note to Required Supplementary Information
June 30, 2010

(1) Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

Annual budget requests of the General Fund, Special Revenue Funds (except the Community Development Fund, Grants Fund, Open Space Agriculture Preservation Fund, and CSB of Chesapeake, Inc., a blended component unit), Debt Service Fund, and Enterprise Funds (excluding construction funds) for the ensuing fiscal year are submitted to the City Manager by department or agency heads during the second quarter of the fiscal year. The City Manager reviews the requests and meets with department heads to discuss the requests. The Capital Projects Funds, Utility Construction Funds, Stormwater Management Construction Fund, Chesapeake Expressway Construction Fund, Grants Fund, Open Space Agriculture Preservation Fund, and the Community Development Fund utilize project budgets in lieu of legally adopted annual budgets. The City Council does not adopt a budget for CSB of Chesapeake, Inc.

Section 5.02 of the City Charter states that “the City Manager shall submit to the Council an operating budget and a budget message at least 90 days prior to the beginning of each fiscal year”. This budget includes the Public Schools’ budget request as adopted by the School Board which is by law a separate and autonomous “body politic”. The City Manager can recommend a revision only in the total estimated resources and requirements in the School Board budget request. The City Council makes an annual appropriation to the Public Schools but is prohibited from exercising any control over specific expenditures of the Public Schools’ operating funds.

The budget is required to be adopted at the fund level by a majority vote of the City Council at least 47 days prior to the end of the current fiscal year.

After work sessions and public hearings, the City Manager’s recommended budget may be amended by the City Council as necessary, and an appropriations ordinance, tax levy and other revenue enhancements as may be necessary to balance the budget are adopted. Tax rates are established prior to the beginning of the fiscal year.

The City Council may authorize supplemental appropriations during the fiscal year based on the availability of financial resources. The City Manager is

CITY OF CHESAPEAKE, VIRGINIA

Note to Required Supplementary Information
June 30, 2010

(1) Continued

authorized by City Council to make transfers between funds. Any revisions that alter total appropriations must be approved by City Council. The legal level of budgetary control rests at the fund level.

Each appropriation in a legally adopted annual budget lapses at the close of the fiscal year to the extent that it has not been expended or encumbered. Because encumbrances outstanding at year end are reappropriated under the following year's budget adoption process, encumbrances are considered expenditures (for budgetary purposes) in the year that the expenditure is incurred.

Appropriations for funds utilizing capital or project budgets do not lapse at year end but are multi-year and continue until the purpose of the appropriation has been fulfilled or abandoned. Appropriations under the capital improvement program are considered abandoned if three years pass without any disbursement or encumbrance of the appropriation. The level of budgetary control is on a project basis with additional controls being exercised administratively, as reasonable and necessary.

The General Fund budget is adopted on a modified accrual basis consistent with accounting principles generally accepted in the United States of America.

The original budget includes the adjustments necessary to bring forward the reappropriated encumbrances as authorized in the annual budget resolution.

VIRGINIA

General Fund

General Fund – To account for all revenues and expenditures of the City which are not accounted for in other funds. Revenues are primarily derived from general property taxes, other local taxes, charges for services, and revenue from state and federal grants.

A significant part of the General Fund's revenue is transferred to component units and other funds, principally to fund operations of the Chesapeake Public Schools, the Virginia Public Assistance Fund, the Community Services Fund, the Solid Waste Disposal and Recycling Fund, the Parks and Recreation Fund, debt service requirements for the City and Public Schools, and to fund construction projects.

Chesapeake
VIRGINIA

Special Revenue and Permanent Funds

Special Revenue Funds:

Tax Increment Financing Funds – To account for incremental tax revenues generated in designated commercial areas of the City, Greenbrier and South Norfolk, and to fund improvements in the relevant areas through the use of those revenues.

Virginia Public Assistance Fund – To account for the rendering of economic aid to qualifying citizens.

Community Services Fund – To account for revenues and expenditures to provide services for mental health, mental retardation, and substance abuse programs.

Conference Center Fund – To account for the operation of the City's Conference Center and the City's Conventions and Tourism programs.

Chesapeake Juvenile Services Fund – To account for revenues and expenditures related to the operation of a regional detention facility.

Interagency Consortium Fund – To account for revenues and expenditures of the delivery system for severely emotionally and/or behaviorally disturbed children.

Solid Waste Disposal & Recycling Fund – To account for revenues and expenditures to collect and dispose of solid waste and recyclable materials.

E-911 Operations Fund – To account for revenues and expenditures related to the emergency call center.

Parks and Recreation Fund – To account for revenues and expenditures related to the parks and recreation activities.

Community Corrections Fund – To account for revenues and expenditures under the Virginia Community Corrections Act.

Fee Supported Activities Fund – To account for revenues and expenditures related to fee supported activities.

Grants Fund – To account for revenues and expenditures related to specific grant activities.

Community Development Fund – To account for revenues and expenditures under the Community Development Block Grant Program.

Open Space Agriculture Preservation Fund – To account for the revenues and expenditures related to the purchase of development rights from willing sellers who own qualified agriculture land or open space.

Proffers Fund – To account for cash proffers provided to the City from developers for specific purposes.

Housing Trust Fund – To account for revenues and expenditures to provide services for temporary and permanent housing.

CSB of Chesapeake, Inc. – To account for the issuance of debt and the rental of a community services facility for the Community Services Board.

Permanent Funds:

Poor Fund and Carney Fund – To account for the investment of funds donated to the City. The expenditures of the income earned by these endowments are to be used for education.

VIRGINIA

Nonmajor Enterprise Fund

Jordan Bridge Fund – To account for the operation of the Jordan Bridge which was donated to the City by the South Norfolk Bridge Commission. This fund is designed to be primarily self-supporting through user charges.

On October 14, 2008, the City Council passed a resolution to close the bridge on Saturday, November 8, 2008. The City conveyed the Jordan Bridge and land on one side of the river to Figg Bridge Development and Britton Hill Partners. During 2010, all remaining Jordan Bridge assets were transferred to Public Works or disposed of. The remaining fund balance was transferred to the General fund to reimburse the General fund for debt service payments made on the Jordan Bridge's behalf and to the Capital Projects fund for future capital projects. The fund closed as of June 30, 2010.

Property taxes	\$ 3,921,025
Investment income	60,539
Other	65,126
Total revenues	4,046,690
EXPENDITURES	
Other salaries and wages	2,201,074
Other fringe benefits	810,915
Other repairs and supplies	798,431
Insurance premiums	278,994
Capital outlay	163,073
Other	374,103
Total expenditures	4,626,590
Deficiency of revenues under expenditures	(579,900)
Fund balance - beginning	6,026,986
Fund balance - ending	\$ 5,447,086

Reconciliation to Change in Net Assets:

Governmental funds report capital outlay as expenditures. However, when reporting net assets, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Deficiency of revenues under expenditures	\$ (579,900)
Depreciation expense	(246,242)
Loss on disposal	(7,763)
Capital outlay expenditures	163,073
Change in Net Assets	\$ (670,832)

Chesapeake
VIRGINIA

STATISTICAL SECTION

This part of the City of Chesapeake's Comprehensive Annual Financial Report presents detailed information as a context for understanding how the information in the financial statements, note disclosures, and required supplementary information depicts the government's overall financial health.

Financial Trends – These schedules contain information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity – These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

Debt Capacity – These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year. The City implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information begin in that year.

¹ Assessment of Real Estate is 100 percent of fair market value.

² The general City real estate tax levy is currently 1.04 per \$100 assessed value. An additional \$0.01 per \$100 assessed value is imposed for mosquito control services.

³ The general City personal property tax levy is currently \$4.00 per \$100 assessed value. An additional \$0.08 per \$100 assessed value is imposed for mosquito control services.

⁴ Boats and vehicles are assessed using 100% of the loan value from a recognized pricing guide. Boats and vehicles that are not found in a recognized pricing guide are assessed as a percentage of their original cost. Airplanes, business personal property, and machinery and tools are assessed at 20% of their original cost. Farm equipment is assessed at 12% of its original cost.

⁵ The general tax rate on boat assessments was reduced to \$.01 per \$100 effective January 1, 2006.

⁶ Mobile home assessments are based on per square foot values provided by a recognized pricing guide.

⁷ The Direct tax rate is calculated using a weighted formula that includes the City's current tax rates of \$1.04 for real property and \$4.00 for personal property.

¹ Includes tax collections recorded by Chesapeake Mosquito Control Commission, a component unit.

² Effective 1999, collections include amount reimbursed by the State for Personal Property Tax under the Personal Property Tax Relief Act (PPTRA) of 1998.

³ Effective 2006, tax collections include amounts recorded by the Tax Increment Financing Funds.

⁴ Tax receivables as of June 30 less allowance for uncollectible amounts.

⁵ Delinquent tax detail is not presently available to allocate collections to the year of the origination of the levy.

¹ Gross revenues are defined as exclusive of interest and less fifty percent (50%) of connection fees for the Water and Sewer System under the 1987 bond resolution for all revenue bonds issued prior to fiscal year 2010. In fiscal year 2010, under the new Master Agreement of Trust (MAT), the definition of revenues for the Water and Sewer System includes interest, 100% of connection fees, and the Build America Bonds subsidy reimbursement. Capital grants have been excluded from the calculation.

² Operating expenses are exclusive of depreciation and amortization and renewal and replacement costs.

³ As of June 30, 2005, all revenue bonds for Public Utilities had been refunded as general obligation bonds, and in addition to the City's general obligation pledge, the bonds are secured on a junior lien basis by the pledge of water and sewer system revenues. New revenue bonds were issued in April 2010.

⁴ Per the 2010 Water Sewer MAT, net revenue shall be sufficient in each fiscal year to equal 120% (or 1.2) of annual debt service for senior debt.

⁵ The Chesapeake Expressway opened on May 31, 2001.

⁶ Net toll revenues shall be at least 1.25 times aggregate debt service on outstanding senior bonds for each such fiscal year.

**Independent Auditors' Report on Internal Control over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

The Honorable Members of the City of Council
City of Chesapeake, Virginia

We have audited the basic financial statements of the City of Chesapeake, Virginia (the "City") as of and for the year ended June 30, 2010, and have issued our report thereon dated December 6, 2010. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.. Other auditors audited the financial statements of the Chesapeake Airport Authority and Elizabeth River Properties of Chesapeake, Inc., as described in our report on the City of Chesapeake, Virginia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Elizabeth River Properties of Chesapeake, Inc. were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests discovered no instances of noncompliance and other matters that are required to be reported in accordance with the *Government Auditing Standards*.

This report is intended for the information of management, the City Council, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Cherry, Bekaert & Holland, L.L.P.

Virginia Beach, Virginia
December 6, 2010

**Independent Auditors' Report on Compliance with Requirements
That Could Have a Direct and Material Effect on Each Major Federal Program
and Internal Control over Compliance in Accordance with OMB Circular A-133**

The Honorable Members of the City Council
City of Chesapeake, Virginia

Compliance

We have audited the compliance of the City of Chesapeake, Virginia (the "City") with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on its major federal programs for the year ended June 30, 2010. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City of Chesapeake complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the City of Chesapeake is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs.

In planning and performing our audit, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The report is intended for the information of the Board of Supervisors, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Cherry, Bekaert & Holland, L.L.P.
