December 4, 2012

The Honorable Members of the Board of Supervisors County of Surry, Virginia

Members of the Board:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of Surry County (the "County") for the fiscal year ended June 30, 2012. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the County as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain a reasonable understanding of the County's financial affairs have been included.

The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

In addition to these internal accounting controls, the County also maintains budgetary controls. These budgetary controls ensure compliance with provisions embodied in the adopted budget appropriated by the Board of Supervisors. All subsidiary funds are included in the appropriated budget.

As a recipient of federal and state financial assistance, the County is also responsible for maintaining internal controls that comply with applicable laws and regulations. The audit for fiscal year ended June 30, 2012 has been completed and no material internal control weaknesses or material violations of laws and regulations have been identified.

The County adopts an annual budget by July 1st each year as required by §15.2-2503, *Code of Virginia, 1950, as amended.* When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with §15.2-2507, *Code of Virginia, 1950, as amended.* The budget is implemented through Board-

Surry County Transmittal Letter – FY12
The Honorable Members of the Surry County Board of Supervisors

approved appropriations, with supplemental appropriations made as required. The Board of Supervisors has the authority, except for expenditures for mandated programs, to appropriate amounts greater than or less than the adopted budget.

Section 15.2-2511 of the *Code of Virginia, 1950, as amended* requires that local governments have their financial records audited annually as of the end of the fiscal year by independent certified public accountants. The independent audit provides reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2012 are free of material misstatement. Robinson, Farmer Cox Associates (RFCA) is contracted to perform this service and have issued an unqualified opinion on the County's financial statements for the fiscal year. The independent auditor's report is located at the front of the Financial Section of this report.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion & Analysis (MD&A). It can be found immediately following the report of the independent auditors. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Sections of the Report

The annual financial report is presented in four sections in accordance with general accepted accounting principles as set forth in the pronouncements of the Governmental Accounting Standards Board as follows:

- (1) The <u>Introductory Section</u> contains the County's organizational structure and this transmittal letter.
- (2) The <u>Financial Section</u> consists of the independent auditor's report, management's discussion and analysis, the basic financial statements, including the notes to the statements and required & other supplementary information.
- (3) The <u>Statistical Section</u> is unaudited and includes selected financial and demographic information generally presented on a multi-year basis.
- (4) The <u>Compliance Section</u> is comprised of the independent auditor's reports on internal control and compliance with applicable laws and regulations as required by the *U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non–Profit Organizations*, the Schedule of Expenditures of Federal Awards with related notes and the Schedule of Findings and Questioned Costs.

Profile of the Government and its Services

The County of Surry, formed in 1652, is located strategically in southeastern Virginia, 10 miles south of Williamsburg, 50 miles southeast of Richmond and 40 miles northwest of Norfolk. The County covers 306 square miles and has a population of 7,061. The greater portion of the County's land area remains rural, although areas of the County are experiencing moderate residential growth. The County is governed by a five-member Board of Supervisors elected by districts. The Board has overall administrative and legislative responsibilities including levying taxes, appropriating funds, approving and enforcing the County's Comprehensive Plan, making and enforcing ordinances and establishing policies. The County Administrator is appointed to implement the policy decisions of the Board and to direct the day to day activities of the County. In addition to the Board, other elected officials in the County government include the Clerk of Circuit Court, Commissioner of the Revenue, Commonwealth's Attorney, Sheriff and Treasurer.

Surry County Transmittal Letter – FY12

The Honorable Members of the Surry County Board of Supervisors

The operation of the public school system is vested in a five-member elected School Board. The Board of Supervisors makes monthly appropriations to the School Board based upon the adopted budget. Since the School Board is fiscally dependent on the County, the financial statements of Surry County Public Schools are included as a component unit of the County in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 14.

The County provides a range of municipal services including education, public safety (sheriff, animal control, building inspections, emergency services, volunteer fire departments and paid/volunteer rescue services), parks, recreation & cultural activities, public works, health and welfare administration, planning & community development and general administrative services. In addition, the County provides sewer services to approximately 107 residential and commercial customers in the Town of Dendron and 2 business customers in the Town of Surry. The operation of the wastewater system is an enterprise fund, which means that it should be self-supporting, and is accounted for separately from the County's general operating fund.

Long-Term Financial Planning

The County employs a financial advisor as necessary to plan for the long-term financial and capital needs of the County. The Capital Improvements Program (CIP) is the County's strategy for investing in facilities, equipment and other significant improvements. Current capital projects are funded through a combination of committed fund balance, debt proceeds and state grant funds. Revenue bonds are primarily used to fund water and sewer improvements. Debt service payments are budgeted in the County's annual operating budget. Debt service on the School Board Component Unit is now budgeted in the General Fund.

Financial policies relative to debt as a percentage of assessed value and general fund expenditures help guide the Board's policymaking decisions on financing capital projects. The County has adopted a policy that states that the net debt ratio as a percentage of assessed value shall not exceed 3%. The General fund balance represents available current financial resources, although the Board's current policy allows the use of only up to 25% of this amount. Uses of the unassigned fund balance are carefully evaluated to ensure that cash flow requirements are met and an overall sound financial position is maintained.

Multi-Year Initiatives

Broadband Initiative: In 2010 the County was approved for a \$940,000 grant from the Virginia Department of Housing & Community Development (VDHCD) to support broadband infrastructure development. An approximately 4 mile fiber optic backbone network is currently being installed at 13 facilities in and around the Town of Surry, including the network. Approximately 20% of the network's fiber has been installed, all of which will be underground. The network will provide service at speed far in excess of Federal Communications Commission (FCC) minimums and services typically available in urban areas. Completion is anticipated to be late summer 2013.

Sanitation Authority: The County has initiated discussions with its 3 incorporated towns to create a sanitation authority, which would oversee operation, maintenance and upgrade of individual aging systems. Currently each governing body individually owns its municipal water and/or sewer systems. The creation of an authority would save public dollars through regionalism and cooperative procurement while implementing timely upgrades to those systems. The discussions are ongoing.

<u>Zoning Ordinance</u>: The County has almost completed a multi-year project involving the total revision and update of its zoning ordinance. This updated ordinance follows the objectives of the Comprehensive Plan while

Surry County Transmittal Letter - FY12

The Honorable Members of the Surry County Board of Supervisors

preserving the County's rural and agricultural character and resources. This ordinance has been developed with several important goals: unincorporated areas of the County have been divided into districts of distinct community character according to land use, intensity and open space; the location & use of buildings, structures and land for trade, industry and residences will be better regulated; traffic congestion will be lessened by limiting excessive numbers of intersections & other friction points; utilization of good civic design and arrangement of facilities to create an attractive & harmonious community; and protecting the local economy, property values & tax base by facilitating cost effective development. The new ordinance should be adopted in the fall 2012.

Capital Projects

The County has substantially completed a majority of the capital projects initiated in previous fiscal years. These projects included the courthouse construction & government center renovations, the acquisition of public safety equipment & fire station renovation, the high school construction & renovation project and the Elberon Heights Community Improvement Project. As noted earlier, the broadband development initiative is a multi-year project and will continue through FY13.

Acknowledgements

The preparation of this report could not be accomplished without the dedicated services of the Finance staff, as well as the Commissioner of the Revenue, Treasurer and their staffs. We would like to express our appreciation to these departments and to the many other County departments who provided assistance to Robinson, Farmer, Cox Associates in preparation of a favorable financial report. We also give credit to the Board of Supervisors for their support, guidance and establishment of policies that further enhance sound financial management practices and operations.

Independent Auditors' Report

To The Honorable Members of the Board of Supervisors County of Surry Surry, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Surry, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of June 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2012, on our consideration of the County of Surry, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Surry, Virginia's basic financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying account and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Richmond, Virginia December 4, 2012

BAICX-

As management of the County of Surry, Virginia we offer readers of the County's financial statements this overview and analysis of the County's financial activities for the fiscal year ended June 30, 2012. Readers are encouraged to consider this information in conjunction with that in the letter of transmittal.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's financial statements. The County's basic financial statements consist of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private sector companies (as required under governmental reporting, GASB Statement No. 34). Government wide financial statements consists of: the *Statement of Net Assets* and the *Statement of Activities*, which include all the government's assets, liabilities, revenues and expenditures using the accrual basis of accounting. All of the current year's transactions are taken into account regardless of when cash is received or expenditures are paid.

The *Statement of Net Assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *Statement of Activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the Statement of Net Assets and the Statement of Activities, the County is divided into three categories:

- Governmental activities include most of the County's basic services, such as public safety, general government & judicial administration, public works, health and welfare, community development and parks & recreation. These activities are financed by local tax revenue; other local revenue; state revenues, including grants; and federal revenues, primarily for welfare administration and public assistance.
- Business-type activities include user fees charged to customers to help cover the costs of certain services it provides. The County's Utilities Fund is included here.
- A Component Unit in the form of the school operating funds is included as a separate legal entity in this report. The County is financially accountable for this component unit and provides operating support from local tax revenue. The Cafeteria Fund is also reported here.

Fund Financial Statements

Fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are used to keep track of specific sources of funding and spending for particular purposes. Some are required by state law; others are established to control and manage funds allocated for specific purposes. All of the funds of the County can be divided into two categories: *governmental funds* and *proprietary funds*.

Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual

basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the focus of governmental funds is more narrow than that of the government-wide financial statements, reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances.

The County maintains budgetary control over its operating funds. The primary objective of budgetary control is to ensure compliance with the legal provisions via budget resolutions embodied in the annual appropriated budget. Budgets are adopted on a fund level. To demonstrate compliance with the budget, a budgetary comparison statement is provided for the General Fund to include variance information. The County's major governmental funds include the General Fund and the (County) Capital Projects Fund.

Proprietary funds consist of enterprise funds. Enterprise funds are established to account for the delivery of goods and services to the general public and use the accrual basis of accounting, similar to private sector business. The Water/Sewer Fund provides a centralized source for water/sewer services to County residents.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data included in the government-wide and fund financial statements. The notes also contain required supplementary information such as budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit that includes the School Fund and the Cafeteria Fund. The School Board does not issue separate financial statements.

Required Supplementary Information

In addition to basic financial statements and notes, this report also presents budgetary comparison schedules.

THIS SECTION INTENTIONALLY LEFT BLANK.

The *Statement of Net Assets* serves as a useful indicator over time of financial position. The County's governmental assets at June 30, 2012 exceeded liabilities by \$14.4 million, while business assets exceeded it's liabilities by \$5.6 million. The following table provides comparative information on the County's net assets as of June 30, 2011 and June 30, 2012.

	Government	tal Activities	Business-ty	pe Activities	To	tals
	2012	2011	2012	2011	2012	2011
Current and other assets Capital assets	\$ 14,964,125 20,266,232	\$ 13,011,163 20,996,469	\$ 10,508 6,455,614	\$ 8,696 6,664,789	\$ 14,974,633 26,721,846	\$ 13,019,859 27,661,258
Total assets	\$ 35,230,357	\$ 34,007,632	\$ 6,466,122	\$ 6,673,485	\$ 41,696,479	\$ 40,681,117
Current liabilities Long-term liabilities:	\$ 1,024,742	\$ 928,486	\$ 29,318	\$ 29,259	\$ 1,054,060	\$ 957,745
Due within one year	947,493	963,635	58,972	57,130	1,006,465	1,020,765
Due in more than one year	18,844,128	19,764,970	786,325	845,297	19,630,453	20,610,267
Total liabilities	\$ 20,816,363	\$ 21,657,091	\$ 874,615	\$ 931,686	\$ 21,690,978	\$ 22,588,777
Net assets: Invested in capital assets, net of related debt Unrestricted	\$ 2,631,382 11,782,612	\$ 2,422,090 9,928,451	\$ 5,610,317 (18,810)	\$ 5,762,362 (20,563)	\$ 8,241,699 11,763,802	\$ 8,184,452 9,907,888
Total net assets	\$ 14,413,994	\$ 12,350,541	\$ 5,591,507	\$ 5,741,799	\$ 20,005,501	\$ 18,092,340

Unrestricted net assets of governmental activities account for \$11.8 million or 81.7% of the County's net assets and is used to meet the County's ongoing obligations. The remaining balance of the County's governmental net assets is investment in capital assets (e.g. land, buildings, systems, machinery & equipment and infrastructure), less accumulated depreciation and any debt used to acquire those assets that remain outstanding at year-end. The County uses these capital assets to provide services to citizens, so they are not available for future spending.

The *Statement of Activities* illustrates the general revenue sources that support the various governmental operations. Governmental activities increased the County's net assets by \$2,063,453 from \$12.4 million to \$14.4 million at June 30, 2012. Key factors associated with the increase in net assets include:

- An increase of \$927,639 in general property taxes, primarily public service corporation taxes;
- An increase of \$185,282 in other local taxes, primarily local sales and business license taxes.

The net assets of the County's business-type activities decreased from \$5.7 million in FY2011 to \$5.6 million. This is primarily attributed to the depreciation of infrastructure. The County's general fund provided \$240,854 in operating support for the Utilities Fund in FY2012. The following table shows the revenues and expenditures of the governmental and business-type activities.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County of Surry uses fund accounting to ensure and demonstrate compliance with budgetary related legal requirements. The following is a financial analysis of the County's governmental funds.

The County's total revenues from the general fund were \$24.1 million for the fiscal year ended June 30, 2012. General Fund revenue increased by 6.3% from FY2011. General property taxes, the largest source of revenue, were \$20.0 million. It is composed of primarily public service corporation taxes (\$12.2 million), real estate taxes (\$6.4 million) and personal property taxes (\$1.2 million). Over 82% of the County's revenue from governmental activities is derived from property taxes as shown in the table of Revenue Classified by Source.

Other local taxes is comprised primarily of the local sales tax; business and vehicle licenses; utility consumption taxes; and recordation tax. The second largest local revenue source, other local taxes totaled \$878,104 in FY12. This represented an \$184,196, or 24.7% increase over the previous year due primarily to an increase in the local sales tax distributed by the state. Revenue from the use of money and property is associated with bank account interest rates and investments. A modest increase of \$2.5% reflects the slowly recovering economy.

	June 3	June 3	30, 2011	Increase	/(Decrease)	
	Amount	% of Total	Amount	% of Total	Amount	% of Change
General Property Taxes	\$19,964,237	82.76%	\$18,768,963	82.68%	\$1,195,274	6.37%
Other Local Taxes	878,104	3.64%	692,822	3.05%	185,282	26.74%
Permits, Fees and Regulatory Licenses	50,542	0.21%	36,976	0.16%	13,566	36.69%
Fines & Forfeitures	18,091	0.07%	12,182	0.05%	5,909	48.51%
Revenue from Use of Money & Property	90,902	0.38%	88,728	0.39%	2,174	2.45%
Charges for Services	112,347	0.47%	124,238	0.55%	(11,891)	-9.57%
Miscellaneous & Recovered Cost	5,476	0.02%	36,869	0.16%	(31,393)	-85.15%
Intergovernmental:						
Commonwealth	2,126,006	8.81%	2,095,270	9.23%	30,736	1.47%
Federal	876,742	3.63%	844,787	3.72%	31,955	<u>3.78%</u>
Total Revenues	\$24,122,447	100%	\$22,700,835	100%	\$1,421,612	6.26%

Intergovernmental Revenues allocated by the state and federal governments totaled \$3.0 million during FY2012, an increase of \$62,691 or 2.1%. Revenue from the commonwealth for non-categorical aid increased by just fewer than 4.0%, or \$26,976, in FY12. Non-categorical aid is not earmarked for a specific program, so it may be used for general operation of the local government. The bulk of non-categorical aid is the state reimbursement for personal property tax relief of \$677,907. Shared expenses (the state share of the operation of the constitutional offices and electoral board/registrar increased by \$21,533, or 2.7%, while the other categorical aid consisting of welfare administration and federal & state grants moderately increased by \$14,260, or 1.1%.

Governmental Funds Expenditure Analysis

The following table of Expenditures by Function compares current year to prior year amounts. The accompanying analysis provides additional information on the County's expenditures by function that changed significantly over the prior year.

Expenditures by Function - Governmental Funds

	June 30, 2012		Jun	e 30, 2011	Increase/(Decrease)			
_	Amount	% of Total	Amount	% of Total	Amount	% of Change

Parks, Recreation & Cultural	490,216	2.26%	532,124	2.47%	(41,908)	-8.55%		
Community Development	403,859	1.86%	413,643	1.92%	(9,784)	-2.42%		
Debt Service: Principal Retirement	936,045	4.31%	1,069,826	4.96%	(133,781)	-14.29%		
Debt Service: Interest Payments	772,479	<u>3.56</u> %	813,512	<u>3.77</u> %	(41,033)	- <u>5.31</u> %		
Total Expenditures	21,724,307	100%	21,560,468	100%	163,839	0.75%		

The County's total general fund expenditures of \$21.7 million for the fiscal year ended June 30, 2012 covered a wide range of services, with 52.2% or \$11.3 million for education (payments to the School System, a component unit), 12.6% or \$2.7 million for public safety, 10.8% or \$2.3 million for health and welfare services, 7.9% or \$1.7 million for debt service and 6.0% or \$1.3 million related to general government administration. The remaining 10.5% include expenditures for public works, parks & recreation, community development and judicial administration. Expenditures for the fiscal year ended June 30, 2012 (excluding education) increased by 2.4% or \$238,954 from the previous year. The fiscal year saw moderate spending increases for projects dependent on non-local funding.

The General Fund is the primary operating fund of the County. Primarily, the County's ending fund balance at June 30th is used to fund financial obligations of the County from July 1st through December 5th of each year, when the County receives its largest influx of revenue in the form of general property taxes. Prior to December 5th only minimal revenues such as federal and state reimbursements, fees for services, permits and fines are routinely received. Therefore, not all of the \$11.4 million is available for spending at the County's discretion. In short, the County depends on its fund balance, or reserves for cash flow at certain times during the fiscal year.

The County's current policy has established a committed fund balance of 25% of General Fund appropriated expenditures. At June 30, 2012 the committed fund balance was \$5,788,537, or 50.9%, and the unassigned fund balance was \$5,591,064, or 49.1% of the total fund balance.

The Capital Projects Fund consists of the non-operating expenditures and reflects the capital needs of the County. Capital expenditures are not recurring, operating expenditures, but one-time significant expenditures for the construction of buildings & infrastructure or the purchase of large equipment & vehicles. The fund balance at June 30, 2012 was \$1,761,207.

The FY12 capital expenditures totaled \$367,937, including these projects:

- o A new roll-off truck in the sanitation department -- \$135,200, or 36.7%;
- o The broadband implementation project -- \$103,932, or 28.3;
- o Completion of the Surry County High School renovations -- \$51,878, or 14.1%;
- Parks & recreation community building upgrade -- \$31,074, or 8.4%;
- o Stabilization of various County-owned buildings -- \$24,965, or 6.8%; and
- o Miscellaneous small projects -- \$20,888, or 5.7%.

General Fund Budgetary Highlights

Surry County generally takes a conservative approach to financial management, staying well within budgetary limits for expenditures during the fiscal year. FY2012 had general fund operating expenditures of \$1.4 million below the revised budget. The County's budget was amended during the year to reflect grants, carryover of unspent appropriations from FY11 and other unanticipated revenues. The difference between the original adopted budget and the amended budget was \$141,406.

Capital Asset and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2012 totaled \$20.3 million (net of accumulated depreciation). This represents a net decrease of \$730,237due to completed construction in progress and related equipment. The investment in capital assets includes land, buildings, infrastructure and machinery & equipment. Additional information on the County's capital assets can be found in Note 5 of this report.

<u>Long-Term Debt</u> - At the end of the current fiscal year, the County had total debt outstanding of \$20.6 million, excluding bond premiums, compensated absences, other post-employment benefits (OPEB) and landfill post-closure liability. Of this amount, \$2.7 million comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources through revenue bonds and lease revenue bonds.

The amount of debt outstanding related to School Board activities is \$2.8 million of the total outstanding general obligation bonds of the governmental activities.

During the current fiscal year, the County's total debt decreased by \$994,114, excluding compensated absences, OPEB and landfill post-closure liability.

Additional information on the County of Surry, Virginia's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budget and Rates

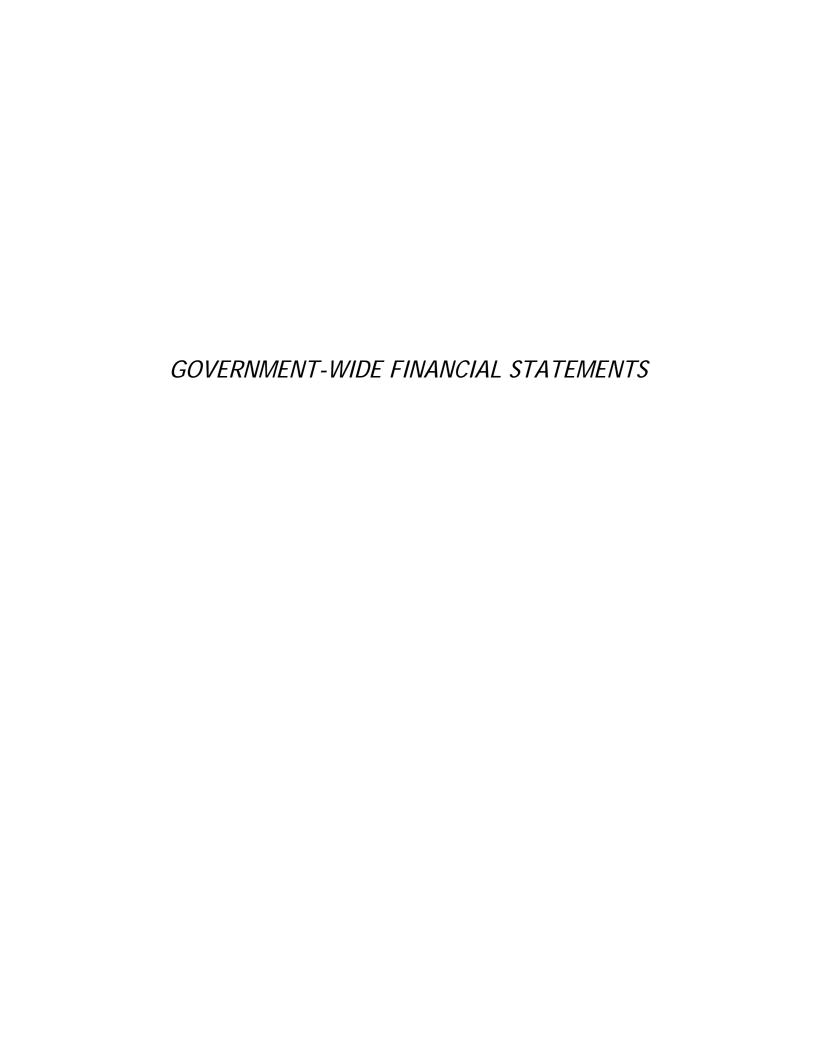

- The average unemployment rate for the County for the fiscal year ending June 30, 2012 was 7.0%, a decrease of 0.6% from the same period last year. Generally, the County's unemployment rate has tracked slightly above the state's average.
- The FY13 operating budget for all funds is \$42.0 million, a decrease of .4% from the FY12 budget.
- Tax rates for future periods are dependent on the effects of fluctuations in the assessed valuations of real property. For 2012, the real property tax rate remained at \$0.73 per \$100 of assessed value.

Requests for Information

This financial report is designed to provide all those with an interest in the County's finances with a general overview of the finances and to demonstrate the County's stewardship of public funds. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, Post Office Box 65, Surry, Virginia 23883.

County of Surry, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2012

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 13,331,082

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Capital assets, cost	\$ 30,175,457	
Less: accumulated depreciation	(9,909,225)	20,266,232

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

916,491

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

General obligation bonds	\$ (2,804,229)	
Revenue bond payable	(1,440,621)	
Bank loan payable	(13,390,000)	
Compensated absences	(215,398)	
OPEB Liability	(25,928)	
Landfill postclosure care	(1,915,445)	
Accrued interest payable	(308,190)	(20,099,811)

Net assets of governmental activities

\$ 14,413,994

Reconciliation of Statement of Revenues,

Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities

For the Year Ended June 30, 2012

Amounts reported for governmental activities in the Statement of Activities are different because:

Amounts reported for governmental activities in the Statement of Activities are different bed	ause	:		
Net change in fund balances - total governmental funds			\$	1,876,039
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and report as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment:	ed			
Capital asset additions	\$	435,647		
Depreciation expense		(825,885)		
Activity related to joint tenancy assets of Component Unit and Primary Government		(339,999)		(730,237)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.				
Increase(decrease) in deferred property taxes	\$	(39,516)		(39,516)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. The following is a summary of items supporting this adjustment				
Principal retired on school general obligation bonds	\$	180,000		
Principal retired on revenue bond payable		196,045		
Principal retired on bank loans payable		560,000		
Bond premium amortization		3,484		
Decrease (increase) in landfill postclosure liability		(21,456)		918,073
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental fund: The following is a summary of items supporting this adjustment:	S .			
Decrease (increase) in accrued leave	\$	25,658		
Decrease (increase) in OPEB liability		(6,747)		
Decrease (increase) in interest payable		20,183		39,094
			,

Notes to Financial Statements As of June 30, 2012

Note 1—Summary of Significant Accounting Policies:

The County of Surry, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Surry, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

<u>Financial Statement Presentation</u>

The County's financial report is prepared in accordance with GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-Wide and Fund Financial Statements

<u>Government-Wide Financial Statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Surry (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

B. Individual Component Unit Disclosures

Blended Component Unit. The County has no blended component units at June 30, 2012.

Discretely Presented Component Units. The School Board members are elected by the citizens of Surry County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2012.

The Surry County Industrial Development Authority is responsible for industrial and commercial development in the County. The Authority consists of five members appointed by the Board of Supervisors. The Authority is fiscally dependent on the County, as the County is involved in the day-to-day operations of the IDA, and therefore, it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2012. The Authority does not issue a separate financial report.

C. Other Related Organizations Included in the County's Financial Report

None

Excluded from the County's Annual Financial Report

District 19 Community Services Board

The District 19 Community Services Board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by the participating jurisdictions which include the Cities of Colonial Heights, Emporia, Hopewell, Petersburg and the Counties of Surry, Greensville, Prince George and Sussex. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Surry County contributed \$56,867 to the District 19 Community Services Board for the fiscal year ended June 30, 2012.

Riverside Regional Jail

The Riverside Regional Jail is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by respective governing bodies of the participating jurisdictions. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General and County Capital Project Funds as major governmental funds.

<u>General Fund</u> - is the primary operating fund of the County. This fund is used to account and report all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

<u>Capital Projects Fund</u> - The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The County also reports the County Capital Projects Fund as a major fund.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

1. Governmental Funds (Continued)

The County reports the following non-major governmental funds:

<u>Special Revenue Funds</u> - Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Special Revenue Funds consist of the following funds: Healthcare Center, Family and Children Grant, Indoor Plumbing, E-911 and Economic Development. These funds are merged for financial statement purposes.

<u>Fiduciary Funds - (Trust and Agency Funds)</u> - Account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds which consists of the Special Welfare Fund, the Crater AAA Fund, and the Emergency Food and Shelter Fund. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

2. <u>Proprietary Funds</u> - accounts for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

<u>Enterprise Funds</u> - Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The County's Enterprise Funds consist of the Water and Sewer Fund, which account for the operations of sewage pumping stations and collection systems, and the water distribution system, as well as, construction.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

G. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. noncurrent portion of interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$67,794 at June 30, 2012 and is comprised of property taxes of \$58,849 and water and sewer charges of \$8,945.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Buildings	40
Buildings and Improvements	40
Furniture, Vehicles, Office and Computer Equipment	5-20
Buses	10

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of *Governmental Accounting Standards No. 16, Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Fund Equity (Continued)

- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the County strives to maintain a committed fund balance to be used for ongoing expenditure obligations of approximately 25% of the actual budgeted operating expenditures.

The details of governmental fund balances, as presented in aggregate on Exhibit 3, are as follows:

			County			
		General	Capital		Other	
		Fund	Projects		Funds	Total
Fund Balances:	•					
Committed to:						
Ongoing expenditure obligations	\$	5,788,537	\$ -	\$	- \$	5,788,537
Capital Improvements		-	1,761,207		-	1,761,207
DEA Task Force		-	-		99,317	99,317
Economic Development		-	-		118,671	118,671
Total Committed Fund Balance	\$	5,788,537	\$ 1,761,207	\$	217,988 \$	7,767,732
Unassigned Fund Balance	\$	5,591,064	\$ -	\$	(27,714) \$	5,563,350

Notes to Financial Statements (Continued) As of June 30, 2012

Note 1—Summary of Significant Accounting Policies: (Continued)

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse on June 30, for all County units.

Expenditures and Appropriations

Expenditures did not exceed appropriations in any funds at June 30, 2012.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 3—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2012 were rated by <u>Standard & Poor's</u> and the ratings are presented below using the <u>Standard & Poor's</u> rating scale.

Locality's Rated Debt Investments' Values							
Rated Debt Investments	Qı	Fair nality Ratings					
		AAAm					
Local Government Investment Pool	\$	12,315,751					
Total	\$	12,315,751					

Notes to Financial Statements (Continued) As of June 30, 2012

Note 3—Deposits and Investments: (Continued)

External Investment Pools

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As the LGIP is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Note 4—Due to/from Other Governments:

At June 30, 2012, the County has receivables due from other governments as follows:

	Primary Government	Component Unit School Board

Notes to Financial Statements (Continued) As of June 30, 2012

Note 5—Capital Assets: (Continued)

Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, 1950, as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Surry, Virginia for the year ended June 30, 2012, is that school financed assets in the amount of \$2,745,000 are reported in the Primary Government for financial reporting purposes.

A summary of proprietary fund property, plant, and equipment at June 30, 2012 follows:

	Balance uly 1, 2011	Additions	Deletions		Balance June 30, 2012

Notes to Financial Statements (Continued) As of June 30, 2012

Note 8—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$936,519 is comprised of the following:

<u>Deferred Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$916,491 at June 30, 2012.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2012 but paid in advance by the taxpayers totaled \$20,028 at June 30, 2012.

Note 9— Commitments and Contingent Liabilities:

Federal programs in which the County and its discretely presented component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 10—Litigation:

At June 30, 2012, there were no matters of litigation involving the County that would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

Note 11 —Risk Management:

The County, the Component Unit School Board, and the Component Unit - IDA are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the government carries insurance.

The County and the School Board are members of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County and School Board pay Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 11 —Risk Management: (Continued)

The County and School Board also participates with other localities in a public entity risk pool for their coverage of general liability and auto insurance with Virginia Municipal League and public officials liability with the Virginia Association of Counties Group Self Insurance Risk Pool. The County and School Board pay an annual premium to the pools for general insurance through member premiums. The County and School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 12 — Defined Benefit Pension Plan:

Primary Government and Discretely Presented Component Unit-School Board:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of
 service credit. They may retire with a reduced benefit early at age 55 with at least five years of
 service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010
 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit
 beginning at their normal Social Security retirement age with at least five years of service credit or
 when the sum of their age and service equals 90. They may retire with a reduced benefit as early as
 age 60 with a least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the members plan apply.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 12 — Defined Benefit Pension Plan: (Continued)

Primary Government and Discretely Presented Component Unit-School Board: (Continued)

A. Plan Description (Continued)

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1, of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950) as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Website at: http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2012 was 9.33% of annual covered payroll.

The School Board's contributions for professional employees were \$490,114, \$313,302, and \$706,462 to the teacher cost-sharing pool for the fiscal years ended June 30, 2012, 2011, and 2010 respectively and these contributions represented 6.33%, 3.93%, and 8.81%, respectively, of current covered payroll.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 12 — Defined Benefit Pension Plan: (Continued)

Primary Government and Discretely Presented Component Unit-School Board: (Continued)

C. Annual Pension Cost

For the fiscal year 2012, the County's annual pension cost of \$249,356 (which does not include the portion of the employee share assumed by the employer which was \$159,843) was equal to the County's required and actual contributions.

For the fiscal year 2012, the County School Board's annual pension cost for the Board's non-professional employees was \$62,721 (which does not include the employee portion assumed by the School Board of \$44,232), was equal to the Board's required and actual contributions.

June 30, 2010		69,628	100%		-	

⁽¹⁾ Employer portion only

The fiscal year 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 12 — Defined Benefit Pension Plan: (Continued)

Primary Government and Discretely Presented Component Unit-School Board: (Continued)

D. Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation date, the plan was 79.92% funded. The actuarial accrued liability for benefits was \$15,258,959, and the actuarial value of assets was \$12,194,714, resulting in an unfunded actuarial accrued liability (UAAL) of \$3,064,245. The covered payroll (annual payroll of active employees covered by the plan) was \$3,297,064, and ratio of the UAAL to the covered payroll was 92.94%.

As of June 30, 2011, the most recent actuarial valuation date, the School Board's Non-Professional plan was 80.26% funded. The actuarial accrued liability for benefits was \$5,522,300, and the actuarial value of assets was \$4,432,064, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,090,236. The covered payroll (annual payroll of active employees covered by the plan) was \$936,670, and the ratio of the UAAL to the covered payroll was 116.39%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to Financial Statements (Continued) As of June 30, 2012

Note 14 —Landfill Closure and Postclosure Care Cost:

The \$1,915,445 reported as landfill postclosure liability at June 30, 2012, represents the estimated liability for postclosure monitoring. This amount is based on what it would cost to perform all postclosure care in 2012 over a remaining period of 25 years. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County has demonstrated financial assurance requirements for closure, postclosure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

The remainder of this page left blank intentionally

Notes to Financial Statements (Continued) As of June 30, 2012

Note 15 —Postemployment Benefits Other Than Pensions:

Plan Description

The County allows retirees that retire at the age of 50 with at least 30 years of service to remain on their health insurance plan. Health benefits include medical, dental and vision. The retiree is responsible for 100% of the premium. Benefits are for the life of the retiree and spouse. The spouse can continue coverage after the death of the retiree. At age 65 the retiree can only enroll in the Key Advantage 65 medical option.

The Surry County Public Schools allow retirees that retire with a combined age and years of service that total at least 85 to remain on the health insurance plan. Health benefits include medical, dental and vision. The retiree is responsible for 100% of the premium. Benefits are for the life of the retiree and spouse as long as its continuous coverage. The spouse can continue coverage after the death of the retiree.

Funding Policy

The County and School Board's retirees pay 100% of the premiums directly to Anthem BCBS. The Schools and County currently have no retirees on their plan.

Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in accordance with GASB 45 parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County and School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County and School Board's net OPEB obligation to the Retiree Health Plan:

		COUNTY	SCHOOLS
Annual required contribution	\$	8,600	\$ 30,500
Interest on net OPEB obligation		465	847
Adjustment to annual required contribution		(418)	(760)
Annual OPEB cost (expense)	\$	8,647	\$ 30,587
Estimated Contributions made		(1,900)	(8,600)
Increase in net OPEB obligation	,	6,747	21,987
Net OPEB obligation-beginning of year		19,181	47,256
Net OPEB obligation-end of year	\$	25,928	\$ 69,243

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued) As of June 30, 2012

Note 15 —Postemployment Benefits Other Than Pensions: (Continued)

Annual OPEB Cost and Net OPEB Obligation (Continued)

The County and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2010, 2011 and 2012 were as follows:

Fiscal Year Ended	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	-	Net OPEB Obligation
County:				
6/30/2012	\$ 8,647	21.97%	\$	25,928
6/30/2011	8,147	7.36%		19,181
6/30/2010	10,434	47.92%		11,634
Schools:				
6/30/2012	\$ 30,587	28.12%	\$	69,243
6/30/2011	28,987	10.00%		47,256
6/30/2010	30,369	71.78%		21,169

Funded Status and Funding Progress

As of January 1, 2011, the most recent actuarial valuation date, the County's actuarial accrued liability for benefits was \$81,800, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$2,927,300, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 2.79 percent.

As of January 1, 2011, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$280,700, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$8,886,400, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 3.16 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued) As of June 30, 2012

Note 15 —Postemployment Benefits Other Than Pensions: (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees-Retirement age was estimated based on tables used for the VRS pension valuation and assumed that participants begin to retire when they become eligible to receive healthcare benefits.

Mortality-Life expectancies were based on mortality tables from the RP-2000 Combined Healthy mortality tables for males and females projected to 2012 using Scale AA.

Coverage elections - The actuary assumed that 20% of eligible retirees will elect coverage and that 20% of retirees who elect coverage will cover a spouse.

Based on the historical and expected returns of the County and School Board's short-term investment portfolio, a discount of 4.0% was used. In addition, the projected unit credit actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2012 was thirty years.

Note 16-Other Post-Employment Benefits (OPEB):

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

COUNTY OF SURRY, VIRGINIA

Notes to Financial Statements (Continued) As of June 30, 2012

Note 16-Other Post-Employment Benefits (OPEB): (Continued)

A. Plan Description (Continued)

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 12.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2012 was \$44,656 and equaled the required contributions for each year.

Statistical Section

Contents	<u>Tables</u>
Financial Trends These tables contain trend information to help the reader understand how the the County's financial performance and well-being have changed over time.	1 - 4
Revenue Capacity These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.	5-8
Debt Capacity These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.	9-11
Demographic and Economic Information These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.	12-13
Operating Information These tables contain information about the County's operations and resources to help the reader understand how the County's financial information relate to the services the County provides and the activities it performs.	14-16

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF SURRY SURRY, VIRGINIA

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Surry, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Surry, Virginia's basic financial statements and have issued our report thereon dated December 4, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of County of Surry, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Surry, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Surry, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Surry, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Surry, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Surry, Virginia, in a separate letter dated December 4, 2012.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

Independent Auditor's Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF SURRY SURRY, VIRGINIA

Compliance

We have audited County of Surry, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Surry, Virginia's major federal programs for the year ended June 30, 2012. The County of Surry, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Surry, Virginia's management. Our responsibility is to express an opinion on the County of Surry, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments*, *and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Surry, Virginia's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Surry, Virginia's compliance with those requirements.

In our opinion, the County of Surry, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the County of Surry, Virginia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Surry, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Surry, Virginia's internal control over compliance.

Internal Control Over Compliance (Continued)

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a control deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, and Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

County of Surry, Virginia Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2012

Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Surry, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Surry, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Surry, Virginia.

Note B - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note C - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of commodities received or disbursed.

Note D - Relationship to Financial Statements
