Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards Robinson, Farmer, Cox Associates

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

## Independent Auditors' Report

To the Honorable Members of the Town Council Town of West Point, Virginia West Point, Virginia

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, and each major fund of Town of West Point, Virginia, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinion**s

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, and each major fund of Town of West Point, Virginia, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Emphasis of Matter

As discussed in Note 5 and 16 to the financial statements, the 2016 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

## Change in Accounting Principle

As described in Note 1 to the financial statements, in 2016, the Town adopted new accounting guidance, GASB Statement Nos. 79 Certain External Investment Pools and Pool Participants and 82 Pension Issues – an amendment of GASB Statements No. 67, and No. 68. Our opinion is not modified with respect to this matter.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress on pages 4-8, 60-63, and 64-67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of West Point, Virginia's basic financial statements. The other supplementary information and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2016 on our consideration of Town of West Point, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of West Point, Virginia's internal control over financial reporting and compliance.

Robinson, Farmer, Cox Associates

Charlottesville, Virginia November 28, 2016, except for notes 5 and 16, as to which the date is March 22, 2017

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Town of West Point, Virginia we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2016.

## Financial Highlights

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$10,667,587 (net position). Of this amount, \$5,444,400 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year; the Town's funds reported ending fund balance of \$4,634,627, an increase of \$429,164 in comparison with the prior year. Approximately 67% of this total amount, \$3,087,553 is available for spending at the Town's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$3,087,553, or 41% percent of total general fund expenditures.

## **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to financial statements.

This report also contains required and other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's (1) assets and deferred outflows of resources and (2) liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

## Overview of the Financial Statements: (Continued)

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government administration, public safety, public works, education, community development, and parks, recreation and cultural activities.

The government-wide financial statements include not only Town of West Point, Virginia itself (known as the primary government), but also a legally separate school district and an Economic Development Authority. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Town of West Point, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories - governmental funds and proprietary funds.

<u>Governmental funds</u> - *Governmental funds* are used to account for essentially the same functions reported as Governmental activities in the government-wide financial statements. However, unlike the governmentwide financial statement, governmental fund financial statement focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because of the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains one individual governmental fund - the General Fund.

The Town adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

<u>Proprietary funds</u> - The Town maintains one proprietary fund - the Water and Sewer Fund. Proprietary funds use the accrual basis of accounting, similar to the private sector business.

<u>Notes to financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and the schedule of pension funding progress, and other supplementary information includes combining and individual financial statements for the discretely presented component units, a supporting schedule showing budgetary information and statistical information.

## **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a Town's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$10,667,587 at the close of the most recent fiscal year.

| Total liabilities, deferred<br>inflows and net position  | \$ | 14,774,397 \$             | <u>15,018,901</u> \$      | 4,678,759 \$            | 4,471,456 \$            | 19,453,156 \$              | 19,490,357              |  |  |

A large part of the Town's net position (\$5,224,187, or 49 percent) reflects its investment in capital assets (e.g., land, buildings and improvements, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

During the current fiscal year, the Town's net position experienced an increase in the governmental activities in the amount of \$443,175. The business-type activities net position decreased in the amount of \$66,910.

## Government-wide Financial Analysis: (Continued)

<u>Governmental Activities</u> - Governmental activities increased the Town's net position by \$443,175. Key elements of this increase are as follows:

| Town of West Point, Virginia<br>Statement of Activities<br>Governmental and Business-type Activities<br>Years Ended June 30, 2016 and 2015 |     |                   |    |                   |                   |              |                   |            |  |  |

#### Financial Analysis of the Town's Funds

As noted earlier, the Town used fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

## Financial Analysis of the Town's Funds: (Continued)

<u>Governmental Funds</u> - The focus of the Town's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a Town's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental fund reported ending fund balance of \$4,634,627 an increase of \$429,164 in comparison with the prior year. A significant portion of this fund balance, \$3,087,553 constitutes unassigned fund balance, which is available for spending at the Town's discretion. The remainder of fund balance is not available for new spending because it is either restricted, committed or assigned.

The general fund is the primary operating fund of the Town. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 41% of total general fund expenditures, while total fund balance represents 61% of that same amount.

## General Fund Budgetary Highlights

The Town's General Fund expended \$7,619,267 during the year, which was \$165,599 less than what was budgeted.

## Capital Asset and Debt Administration

<u>Capital assets</u> - The Town's investment in capital assets for its governmental funds as of June 30, 2016 totals \$8,952,217 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, construction in progress, and machinery and equipment.

\* School Board capital assets are jointly owned by the Town (primary government) and the component unit school board. The Town share of the School Board capital assets is in proportion to the debt owed on such assets by the Town. The Town reports depreciation on these assets as an element of its share of the costs of the public school system.

Additional information on the Town's capital assets can be found in the footnotes to these financial statements.

<u>Debt</u> - Of the total principal balance at the end of the year, \$7,285,404 was for General Obligation Bonds, and \$125,011 was for State Literary Loans payable. The Town's total outstanding debt principal decreased by \$333,907.

Annual requirements to amortize all long-term debt and related interest and other information relative to the Town's debt can be found in the notes to financial statements.

## Contact the Town's Financial Management

This financial report is designed to provide a general overview of the Town's finances for all of those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Town Treasurer, P. O. Box 152, West Point, Virginia 23181.

Reconciliation of Statement of Revenues, Expenditures, and Change in Fund Balance of Governmental Fund to the Statement of Activities Year Ended June 30, 2016

| Amounts reported for governmental activities in the Statement of Activities are different because:   |                             |           |
|--|-----------------------------|-----------|
| Net change in fund balance - total governmental fund   | \$                          | 429,164   |
| Governmental funds report capital outlays as expenditures. However, in the Statement<br>of Activities the cost of those assets is allocated over their estimated useful lives and<br>reported as depreciation expense. This is the amount by which depreciation exceeded<br>capital outlays in the current period. Details supporting this adjustment are as follows:<br>Capital outlay<br>Depreciation expense  | 57,875<br>(238,215)         | (180,340) |
| Transfer of joint tenancy assets from Primary Government to the Component Unit School Board  |                             | (180,907) |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.   |                             | 5,760     |
| Increase (decrease) in deferred inflows related to the measurement of the net pension liability  |                             | 72,498    |
| The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term obligations and related items and details are as follows: |                             |           |
| Principal retired on general obligation bonds<br>Principal retired on literary fund loans  | \$<br>254,547<br>29,500     | 284,047   |
| Pension contributions subsequent to the measurement date will be a reduction to/increase in the net pension liability in the next fiscal year and, therefore, are not reported in the funds.   |                             | 1,538     |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:   |                             | 1,536     |
| Change in compensated absences<br>Change in net pension liability<br>Change in proportional share  | \$<br>(272)<br>6,430<br>929 |           |
| Change in accrued interest payable   | <br>4,328                   | 11,415    |
| Change in net position of governmental activities  | \$                          | 443,175   |

| Increase/(Decrease) in compensated absences  |    | (1,586)                |
|  |    | 100.110                |
| Net cash provided by (used for) operating activities   | \$ | 400,119                |

## NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Town of West Point, Virginia is governed by an elected seven member Town Council. The Town provides a full range of services for its citizens. These services include police and fire protection; sanitation services; recreational activities; cultural events; and education.

## **Financial Statement Presentation**

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the Town's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

## Government-wide and Fund Financial Statements

<u>Government-wide Financial Statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components units. For the most part, effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets, in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

| Notes to | Financ | cial Statements |
|----------|--------|-----------------|
| June 30, | 2016 ( | (Continued)     |

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

## A. The Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for general-purpose financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in the reporting entity. These financial statements present Town of West Point, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are in substance, part of the primary government's operations and data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

#### B. Individual Component Unit Disclosures

*Blended Component Units:* The Town has no blended component units to be included for the fiscal year ended June 30, 2016.

#### Discretely Presented Component Units:

*School Board:* The West Point School Board members are elected by the citizens of Town of West Point. The School Board is responsible for the operations of the Town's School System and is fiscally dependent upon the Town. The Town has the ability to approve its budget and any amendments. The primary funding of the School Board is from the General Fund of the Town. The School Fund does not issue a separate financial report. The financial statements of the School Board are a discretely presented component unit of the Town financial statements for the fiscal year ended June 30, 2016.

*Economic Development Authority:* The Economic Development Authority of the Town was established to promote industry and commercial enterprises to locate in the Town. The Authority draws its corporate powers from the Virginia Code section 15.1-1376, which defines it as a corporate body. The Authority consists of 8 members, all of which are appointed by the Primary Government for limited terms. The Primary Government can impose its will on the Authority as exemplified by approving its debt issues. These factors warrant its inclusion in the Town's reporting entity as a discretely presented component unit. The Authority does not issue a separate financial report.

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## C. Other Related Organizations Included in the Town's Financial Report

None

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

In the fund financial statements, financial transactions and accounts of the Town are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

# NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

## 1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

## General Fund

The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

## 2. Proprietary Funds

Proprietary funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary funds consist of enterprise funds.

## Enterprise Funds

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Town reports the following major enterprise fund:

<u>Water and Sewer Fund</u> - This fund is used to account for water and sewer services of the Town.

## 3. Discretely Presented Component Units

## Town of West Point Public Schools

Town of West Point Public Schools (School Board) is responsible for elementary and secondary education within the Town. The Schools are fiscally dependent upon the Town because the Town Council approves the annual budget of the Schools, levies the necessary taxes to finance the Schools' operations and approves the borrowing of money. Separate financial statements for the School Board are not issued.

# NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

## 3. Discretely Presented Component Units: (Continued)

- a. <u>School Operating Fund</u> accounts for and reports revenues and expenditures relating to the operation of Town of West Point Public Schools. Revenues are derived from the General Fund and from state and federal funds. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes.
- b. <u>School Cafeteria Fund</u> accounts for and reports revenues and expenditures relating to the operation of school cafeterias. Revenues are derived from state and federal funds. The School Cafeteria Fund is considered a major fund of the School Board for financial reporting purposes.
- c. <u>School Construction Fund</u> accounts for and reports school construction and related expenditures of the public school system. The School Construction Fund is considered a major fund of the School Board for financial reporting purposes.

## E. Budgets and Budgetary Accounting

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements.

- 1. Prior to March 30, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. The Town Manager is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund. The School Fund and School Cafeteria are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. All appropriations lapse on June 30, for all Town units. Supplemental appropriations were necessary during the year.
- 8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### F. Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### G. Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs) and external investment pools are measured at amortized cost. All other investments are reported at fair value. Investments in custody of others include assets held by a trustee.

## H. <u>Receivables and Payables</u>

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$186,891 at June 30, 2015 and is composed of the allowance for uncollectible property taxes of \$66,772 and utility accounts of \$120,119.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable on August 5<sup>th</sup>. The Town bills and collects its own property taxes.

## I. Inventory

Inventory consists of commercial property held for resale. Inventories are valued at cost.

## J. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$2,500 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## J. Capital Assets: (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2016 was immaterial.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

| Assets   | Years |
|--|-------|
| Water and wastewater treatment systems         | 50    |
| Buildings                                      | 40    |
| Building improvements                          | 20-40 |
| Vehicles                                       | 3-5   |
| Office and computer equipment, other equipment | 5-10  |
| Buses  | 12    |

#### K. <u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has one item that qualifies for reporting in this category. It is comprised of contributions to the pension plan made during the current year and subsequent to the net pension asset or liability measurement date, which will be recognized as a reduction of the net pension asset or liability next fiscal year. For more detailed information on this item, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items that gualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30 and amounts prepaid on the 2<sup>nd</sup> half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid on the 2<sup>nd</sup> half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments and changes in proportion and differences between employer contributions and proportionate share of contributions. For more detailed information on these items, reference the pension note.

## NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## L. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's Retirement Plan and the additions to/deductions from the Town's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### M. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Government Accounting Standards No. 16, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

## N. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the governmental activities and business-type activities, or proprietary fund type Statement of Net Position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## O. Fund Equity

The Town reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

## O. Fund Equity: (Continued)

- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Town Council establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

The Town Council has established a minimum unassigned fund balance in the General Fund to be no less than 10% of the expenditures budgeted in the general fund (excluding capital projects) or \$2,000,000, whichever is greater.

## P. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## Q. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### R. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

## S. Adoption of Accounting Principles

#### Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application

The Town implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. The Statement generally requires investments to be measured at fair value. The Statement requires the Town to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. The Statement establishes a hierarchy of inputs used to measure fair value. There was no material impact on the Town's financial statement as a result of the implementation of Statement No. 72.

## Governmental Accounting Standards Board Statement No. 79, Certain External Investment Pools and Pool Participants

The Town implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. There was no material impact on the Town's financial statement as a result of the implementation of Statement No. 79.

# Governmental Accounting Standards Board Statement No. 82, Pension Issues -an amendment of GASB Statements No. 67, No. 68, and No. 73

The Town early implemented provisions of the above Statement during the fiscal year ended June 30, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. No restatement was required as a result of this implementation.

## NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

#### T. Upcoming Pronouncements

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017.

Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, addresses a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015.

## NOTE 2-DEPOSITS AND INVESTMENTS:

## **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

## NOTE 3-DUE FROM OTHER GOVERNMENTS:

|   | -  | Primary<br>Government | <br>Component Unit<br>School Board |
|---|----|-----------------------|------------------------------------|
| Commonwealth of Virginia:               |    |                       |                                    |
| Local sales tax                         | \$ | 27,095                | \$<br>-                            |
| Other state grants                      | _  | -                     | <br>49,928                         |
| Total due from other governmental units | \$ | 27,095                | \$<br>49,928                       |

## NOTE 4-DUE TO/FROM PRIMARY GOVERNMENT/COMPONENT UNITS:

| Fund                                | Cor | Due To<br>mponent Unit |    | m Primary<br>rnment |
|-------------------------------------|-----|------------------------|----|---------------------|
| Primary Government:<br>General      | \$  | 950,703                | §  |                     |
| Component Unit:<br>School Operating | \$  |                        | \$ | 950,703             |

## NOTE 5-INTERFUND TRANSFERS:

Interfund transfers for the year ended June 30, 2016, consisted of the following:

| Fund   | 1  | Transfers In | <br>Transfers Out |
|--|----|--------------|-------------------|
| Primary Government:  |    |              |                   |
| General Fund   | \$ | 205,197      | \$<br>-           |
| Water and Sewer Fund   |    | -            | <br>205,197       |
| Total  | \$ | 205,197      | \$<br>205,197     |
|  |    | *            | *                 |
| * Transfers between these funds were previously recorded in the amount of \$275,706 in previously issued statements and were restated to \$205,197 |    |              |                   |
| Discretely Presented Component Unit- School Board:   |    |              |                   |
| School Operating Fund  | \$ | -            | \$<br>140,216     |
| School Cafeteria Fund  | _  | 140,216      | <br>-             |
| Total  | \$ | 140,216      | \$<br>140,216     |

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in the other funds in accordance with budgeting authorization.

Notes to Financial Statements June 30, 2016 (Continued)

# NOTE 6-CAPITAL ASSETS:

A summary of capital asset activity for the fiscal year ended June 30, 2016 is as follows:

| Governmental Activities:         Capital assets not being depreciated:           Land         \$ 869,546 \$ - \$ - \$ 869,546           Total capital assets not being depreciated:         \$ 869,546 \$ - \$ - \$ 869,546           Capital assets being depreciated:         \$ 869,546 \$ - \$ - \$ 869,546           Buildings and improvements         \$ 3,447,668 \$ 35,000 \$ - \$ 3,482,668           Equipment         1,889,504 22,875 - 1,912,379           Jointly owned assets         5,496,322 - 180,907 \$ 107,0462           Less accumulated depreciated         \$ 00,833,494 \$ 57,875 \$ 180,907 \$ 10,710,462           Less accumulated depreciation:         \$ 901,475 \$ 108,313 \$ - \$ 1,009,788           Buildings and improvements         \$ 901,475 \$ 108,313 \$ - \$ 1,047,121           Jointly owned assets         1,374,384 112,737 - 1,487,121           Jointly owned assets         1,377 \$ 238,215 \$ - \$ 2,627,791           Total capital assets         \$ 2,389,576 \$ 238,215 \$ - \$ 2,627,791           Total capital assets         \$ 9,313,464 \$ (180,340) \$ 180,907 \$ 8,082,671           Net capital assets governmental activities         \$ 9,313,464 \$ (180,340) \$ 180,907 \$ 8,082,671           Buildings and improvements         \$ 6,000,934 \$ - \$ \$ 6,000,934           Equipment         \$ 367,305 \$ - \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ 6,000,934           Land         \$ 367,305 \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ | Primary Government:                         | _   | Balance<br>July 1,<br>2015 |        | Additions |            | Deletions |     | Balance<br>June 30,<br>2016 |

#### NOTE 8-PENSION PLAN:

## Plan Description

All full-time, salaried permanent employees of the Town and employees of public school divisions are automatically covered by VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

| RETIREMENT PLAN PROVISIONS  |   |  |  |  |  |  |  |
|---|---|--|--|--|--|--|--|
| PLAN 1  | PLAN 2  | HYBRID RETIREMENT PLAN   |  |  |  |  |  |
| About Plan 1<br>Plan 1 is a defined benefit plan.<br>The retirement benefit is based<br>on a member's age, creditable<br>service and average final<br>compensation at retirement using<br>a formula. Employees are eligible<br>for Plan 1 if their membership<br>date is before July 1, 2010, and<br>they were vested as of January 1,<br>2013. | About Plan 2<br>Plan 2 is a defined benefit plan.<br>The retirement benefit is based<br>on a member's age, creditable<br>service and average final<br>compensation at retirement using<br>a formula. Employees are eligible<br>for Plan 2 if their membership<br>date is on or after July 1, 2010,<br>or their membership date is<br>before July 1, 2010, and they<br>were not vested as of January 1,<br>2013. | <ul> <li>About the Hybrid Retirement<br/>Plan</li> <li>The Hybrid Retirement Plan<br/>combines the features of a<br/>defined benefit plan and a<br/>defined contribution plan. Most<br/>members hired on or after<br/>January 1, 2014 are in this plan,<br/>as well as Plan 1 and Plan 2<br/>members who were eligible and<br/>opted into the plan during a<br/>special election window. (see<br/>"Eligible Members")</li> <li>The defined benefit is based<br/>on a member's age,<br/>creditable service and<br/>average final compensation<br/>at retirement using a<br/>formula.</li> <li>The benefit from the<br/>defined contribution<br/>component of the plan<br/>depends on the member and<br/>employer contributions<br/>made to the plan and the<br/>investment performance of<br/>those contributions.</li> </ul> |  |  |  |  |  |

| RETIREMENT PLAN PROVISIONS (CONTINUED)   |   |  |  |  |  |  |
|--|---|--|--|--|--|--|
| PLAN 1   | PLAN 2  | HYBRID RETIREMENT PLAN   |  |  |  |  |
| About Plan 1 (Cont.)   | About Plan 2 (Cont.)  | About the Hybrid Retirement<br>Plan (Cont.)  |  |  |  |  |
|  |   | <ul> <li>In addition to the monthly<br/>benefit payment payable<br/>from the defined benefit<br/>plan at retirement, a<br/>member may start receiving<br/>distributions from the<br/>balance in the defined<br/>contribution account,<br/>reflecting the contributions,<br/>investment gains or losses,<br/>and any required fees.</li> </ul>  |  |  |  |  |
| <ul> <li>Eligible Members</li> <li>Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</li> <li>Hybrid Opt-In Election</li> <li>VRS non-hazardous duty covered</li> <li>Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement</li> <li>Plan during a special election window held January 1 through April 30, 2014.</li> <li>The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.</li> <li>If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.</li> </ul> | Eligible Members<br>Employees are in Plan 2 if their<br>membership date is on or after<br>July 1, 2010, or their membership<br>date is before July 1, 2010, and<br>they were not vested as of<br>January 1, 2013.<br>Hybrid Opt-In Election<br>Eligible Plan 2 members were<br>allowed to make an irrevocable<br>decision to opt into the Hybrid<br>Retirement Plan during a special<br>election window held January 1<br>through April 30, 2014.<br>The Hybrid Retirement Plan's<br>effective date for eligible Plan 2<br>members who opted in was July<br>1, 2014.<br>If eligible deferred members<br>returned to work during the<br>election window, they were also<br>eligible to opt into the Hybrid<br>Retirement Plan. | <ul> <li>Eligible Members</li> <li>Employees are in the Hybrid<br/>Retirement Plan if their<br/>membership date is on or after<br/>January 1, 2014. This includes: <ul> <li>Political subdivision<br/>employees*</li> <li>School division employees</li> <li>Members in Plan 1 or Plan 2<br/>who elected to opt into the<br/>plan during the election<br/>window held January 1-April<br/>30, 2014; the plan's<br/>effective date for opt-in<br/>members was July 1, 2014.</li> </ul> </li> <li>*Non-Eligible Members<br/>Some employees are not eligible<br/>to participate in the Hybrid<br/>Retirement Plan. They include: <ul> <li>Political subdivision<br/>employees who are covered<br/>by enhanced benefits for<br/>hazardous duty employees.</li> </ul> </li> </ul> |  |  |  |  |

# Plan Description (Continued)

The system issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the most recent report may be obtained from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2015-annual-report-pdf">http://www.varetire.org/Pdf/Publications/2015-annual-report-pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

# Employees Covered by Benefit Terms

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

|  | Primary<br>Government |
|--|-----------------------|
| Inactive members or their beneficiaries currently receiving benefits | 9                     |
| Inactive members:<br>Vested inactive members                         | 7                     |
| Non-vested inactive members  | 25                    |
| Inactive members active elsewhere in VRS                             | 26                    |
| Total inactive members   | 58                    |
| Active members   | 33                    |
| Total covered employees  | 100                   |

## Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The Town's contractually required contribution rate for the year ended June 30, 2016 was 8.08% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$111,092 and \$109,477 for the years ended June 30, 2016 and June 30, 2015, respectively.

# Net Pension Liability

The Town's and net pension liability was measured as of June 30, 2015. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

# Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Town's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

| Inflation                             | 2.5%   |
|---------------------------------------|--|
| Salary increases, including inflation | 3.5% - 5.35%   |
| Investment rate of return             | 7.0%, net of pension plan investment expense, including inflation* |

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

## NOTE 8-PENSION PLAN: (CONTINUED)

#### Actuarial Assumptions - General Employees (Continued)

All Others (Non 10 Largest) - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

#### Actuarial Assumptions - Public Safety Employees

The total pension liability for Public Safety employees in the Town's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

| Inflation                             | 2.5%   |
|---------------------------------------|--|
| Salary increases, including inflation | 3.5% - 4.75%   |
| Investment rate of return             | 7.0%, net of pension plan investment expense, including inflation* |

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

## Long-term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy)    | Target<br>Allocation | Arithmetic<br>Long-term<br>Expected<br>Rate of Return | Weighted<br>Average<br>Long-term<br>Expected<br>Rate of Return |
|---------------------------|----------------------|---|--|
| U.S. Equity               | 19.50%               | 6.46%   | 1.26%  |
| Developed Non U.S. Equity | 16.50%               | 6.28%   | 1.04%  |
| Emerging Market Equity    | 6.00%                | 10.00%  | 0.60%  |
| Fixed Income              | 15.00%               | 0.09%   | 0.01%  |
| Emerging Debt             | 3.00%                | 3.51%   | 0.11%  |
| Rate Sensitive Credit     | 4.50%                | 3.51%   | 0.16%  |
| Non Rate Sensitive Credit | 4.50%                | 5.00%   | 0.23%  |
| Convertibles              | 3.00%                | 4.81%   | 0.14%  |
| Public Real Estate        | 2.25%                | 6.12%   | 0.14%  |
| Private Real Estate       | 12.75%               | 7.10%   | 0.91%  |
| Private Equity            | 12.00%               | 10.41%  | 1.25%  |
| Cash                      | 1.00%                | -1.50%  | -0.02%   |
| Total                     | 100.00%              |   | 5.83%  |
|                           |                      | Inflation   | 2.50%  |
|                           | *Expected arithme    | tic nominal return                                    | 8.33%  |

\* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

# Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Town Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) of the Town and using the discount rate of 7.00%, as well as what the Town's and net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

|                               |    | Rate                               |              |           |  |  |  |
|-------------------------------|----|------------------------------------|--------------|-----------|--|--|--|
|                               | _  | 1% Decrease Current Discount 1% In |              |           |  |  |  |
|                               | _  | (6.00%)                            | (7.00%)      | (8.00%)   |  |  |  |
| Town                          | _  |                                    |              |           |  |  |  |
| Net Pension Liability (Asset) | \$ | 712,653                            | \$ 77,270 \$ | (437,801) |  |  |  |

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the Town recognized pension expense of \$20,261. At June 30, 2016, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Primary Government     |    |           |  |  |
|--|------------------------|----|-----------|--|--|
|  | Deferred Deferred      |    |           |  |  |
|  | Outflows of Inflows of |    |           |  |  |
|  | Resources              |    | Resources |  |  |
| Differences between expected and actual  |                        |    |           |  |  |
| experience \$  | -                      | \$ | 35,117    |  |  |
| Net difference between projected and actual<br>earnings on pension plan investments                  | -                      |    | 90,737    |  |  |
| Employer contributions subsequent to the   |                        |    |           |  |  |
| measurement date   | 111,092                |    | -         |  |  |
| Total \$   | 111,092                | \$ | 125,854   |  |  |
| earnings on pension plan investments<br>Employer contributions subsequent to the<br>measurement date |                        | \$ | -         |  |  |

\$111,092 reported as deferred outflows of resources related to pensions resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

|                    | Primary        |
|--------------------|----------------|
| Year ended June 30 | <br>Government |
| 2017               | \$<br>(53,889) |
| 2018               | (52,425)       |
| 2019               | (35,597)       |
| 2020               | 16,056         |
| Thereafter         | -              |

Notes to Financial Statements June 30, 2016 (Continued)

## NOTE 8-PENSION PLAN: (CONTINUED)

## Component Unit School Board (professional)

## Plan Description

Additional information related to the plan description, plan contribution requirements, long-term expected rate of return, and discount rate is included in the first section of this note.

## Contributions

Each School Division's contractually required contribution rate for the year ended June 30, 2016 was 14.06% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013. The actuarial rate for the Teacher Retirement Plan was 18.20%. This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of §51.1-145 of the Code of Virginia, as amended the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2016. Contributions to the pension plan from the School Board were \$670,955 and \$647,883 for the years ended June 30, 2016 and June 30, 2015, respectively.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the school division reported a liability of \$7,655,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2015 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2015, the school division's proportion was 0.061% as compared to 0.063% at June 30, 2014.

For the year ended June 30, 2016, the school division recognized pension expense of \$494,000. Since there was a change in proportionate share between June 30, 2014 and June 30, 2015, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

| Thereafter         |    | (37,000)  |
|                    |    |           |

# Component Unit School Board (professional) (Continued)

# Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

| Inflation                             | 2.5%   |
|---------------------------------------|--|
| Salary increases, including inflation | 3.5% - 5.95%   |
| Investment rate of return             | 7.0%, net of pension plan investment expense, including inflation* |

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

# Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females set back 5 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 3 years

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

## Component Unit School Board (professional) (Continued)

## Long-term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy)    | Target<br>Allocation | Arithmetic<br>Long-term<br>Expected<br>Rate of Return | Weighted<br>Average<br>Long-term<br>Expected<br>Rate of Return |
|---------------------------|----------------------|---|--|
| U.S. Equity               | 19.50%               | 6.46%   | 1.26%  |
| Developed Non U.S. Equity | 16.50%               | 6.28%   | 1.04%  |
| Emerging Market Equity    | 6.00%                | 10.00%  | 0.60%  |
| Fixed Income              | 15.00%               | 0.09%   | 0.01%  |
| Emerging Debt             | 3.00%                | 3.51%   | 0.11%  |
| Rate Sensitive Credit     | 4.50%                | 3.51%   | 0.16%  |
| Non Rate Sensitive Credit | 4.50%                | 5.00%   | 0.23%  |
| Convertibles              | 3.00%                | 4.81%   | 0.14%  |

|                           |                      | Inflation   | 2.50%  |
| *[                        | Expected arithme     | tic nominal return                                    | 8.33%  |

\* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

## Component Unit School Board (professional) (Continued)

# Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

|  | Rate             |    |           |              |  |  |  |
|--|------------------|----|-----------|--------------|--|--|--|
|  | <br>(6.00%)      |    | (7.00%)   | (8.00%)      |  |  |  |
| School division's proportionate<br>share of the VRS Teacher<br>Employee Retirement Plan<br>Net Pension Liability (Asset) | \$<br>11,202,000 | \$ | 7,655,000 | \$ 4,735,000 |  |  |  |

## Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf</u>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

## NOTE 10-UNEARNED/DEFERRED/UNAVAILABLE REVENUE:

Unearned, deferred and unavailable revenue represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. As of June 30, 2016, unearned, deferred and unavailable revenue consisted of the following:

<u>Unavailable property tax revenue</u>: Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$106,288 at June 30, 2016.

<u>Prepaid property taxes</u>: Property taxes due subsequent to June 30, 2016 but paid in advance by the taxpayers totaled \$11,201 at June 30, 2016.

Other unearned items: Other amounts consist of unearned grant funds totaling \$10,715 at June 30, 2016.

## NOTE 11-CONTINGENT LIABILITIES:

The Town participates in a number of federally assisted grant programs. These programs remain subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, Town management believes such disallowances, if any, will not be significant.

## TOWN OF WEST POINT, VIRGINIA

Notes to Financial Statements June 30, 2016 (Continued)

#### NOTE 12-RISK MANAGEMENT:

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town carries commercial insurance for all of these risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## NOTE 13-SURETY BOND INFORMATION:

|  | <br>Amount    |
|--|---------------|
| United States Fidelity and Guaranty Company                                  |               |
| Surety Bond - Mayor  | \$<br>100,000 |

Notes to Required Supplementary Information Year Ended June 30, 2016

In 2015, Covered Employee Payroll (as defined by GASB 68) included the total payroll for employees covered under the pension plan whether that payroll is subject to pension coverage or not. This definition was modified in GASB Statement No. 82 and now is the payroll on which contributions to a pension plan are based. The ratios presented use the same measure.

**Changes of benefit terms** - There have been no actuarilly material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan member for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced duty benefits. Because this was a new benefit and the number of new participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2015 are not material.

**Changes of assumptions** - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Component Unit School Board - Professional Employees

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates withdrawals for 3 through 9 years of service
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities - Discretely Presented Component Unit - School Board Year Ended June 30, 2016

|  |                           | Component<br>Unit<br>School<br>Board |
|--|---------------------------|--------------------------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:   |                           |                                      |
| Net change in fund balances - total governmental funds   | \$                        | 45,806                               |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded (did not excced) depreciation in the current period. |                           |                                      |
| Capital outlay<br>Depreciation expense   | \$<br>29,803<br>(559,635) | (529,832)                            |
| Transfer of joint tenancy assets from Primary Government to the Component<br>Unit - School Board   |                           | 180,907                              |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.<br>Increase (decrease) in deferred inflows related to the measurement of the  |                           |                                      |
| net pension liability  |                           | 320,000                              |
| Pension contributions subsequent to the measurement date will be a reduction to/increase in the net pension liability in the next fiscal year and, therefore, are not reported in the funds.   |                           | 22.072                               |
| therefore, are not reported in the funds.  |                           | 23,072                               |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount reflects the change in compensated absences, and net pension liability.   |                           |                                      |
| Change in compensated absences<br>Change in net pension liability  |                           | (5,463)<br>(43,000)                  |
| Change in net position of governmental activities  | \$                        | (8,510)                              |

## Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the Town Council Town of West Point, Virginia West Point, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, and each major fund of Town of West Point, Virginia, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Town of West Point, Virginia's basic financial statements, and have issued our report thereon dated November 28, 2016.

## Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of West Point, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of West Point, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of West Point, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Town of West Point, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
