INDEPENDENT AUDITOR'S REPORT

The Honorable Members of the Town Council Town of Marion, Virginia:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Marion, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit, the financial statements referred to above present fairly in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Marion, Virginia, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 18, 2012 on our consideration of the internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

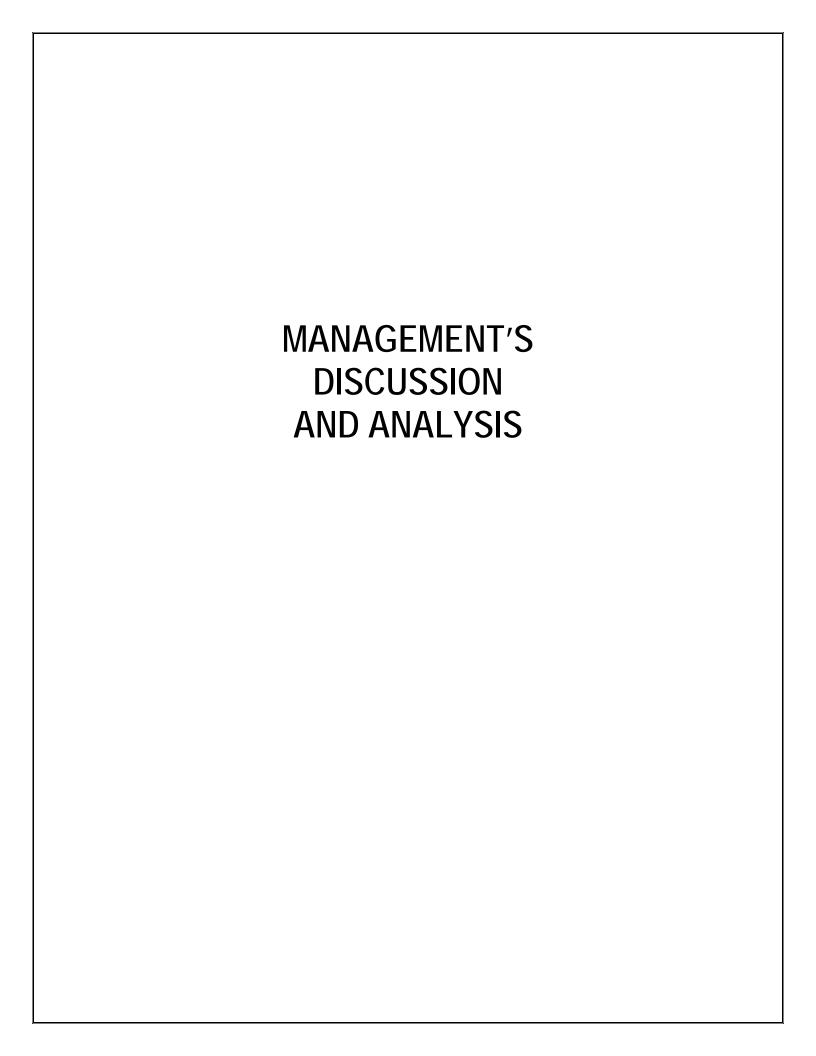

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages 4 through 12, and the Schedules of Funding Progress on page 55, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedules, listed in the Financial Section as Other Supplementary Information in the table of contents, and the Schedule of Expenditures of Federal Awards as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, listed in the Compliance Section in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The combining and individual nonmajor fund financial statements and schedules and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Section are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

Our discussion and analysis of the Town of Marion's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2012. Please read it in conjunction with the transmittal letter and the Town's financial statements.

Financial Highlights

The general fund is the chief operating fund of the Town. At the end of the 2011 fiscal year, the unassigned fund balance of the general fund was \$297,778 and the fund balance was restricted for debt service of \$85,205 and nonspendable for prepaid expenses of \$108,273. For the current fiscal year, 2012, the unassigned fund balance of the general fund was (\$48,743) and the fund balance was restricted for debt service of \$68,401, committed to parking garage of \$161,590, and nonspendable for prepaid expenses of \$110,678.

The total net assets of the Town of Marion's governmental activities were \$4,627,648 as of June 30, 2011. The total net assets for 2012 are \$6,495,715. An increase occurred due largely to purchase of capital assets.

The total net assets of the business-type activities were \$9,699,830 for fiscal year end 2011 and \$9,740,741 for the fiscal year end 2012 resulting in an increase of \$40,911. The water, sewer and swimming pool funds reported operating revenues of \$2,826,104. An increase in operating revenues of \$101,366 occurred from fiscal year 2012.

Overview of the Basic Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the Town of Marion's basic financial statements. The basic financial statements consists of 1) Government-wide Financial Statements; 2) Fund Financial Statements; and 3) Notes to the Financial Statement.

The government-wide financial statement includes the Statement of Net Assets and the Statement of Activities. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements present the information for governmental activities. These statements tell how these services were financed in the short term as well as what remains for future spending. Fund Financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

Historically, the primary focus of local government financial statements has been summarized fund type information on a current financial basis. This approach has been modified accrual basis in the basic financial statements presented. This year the report also presents the full accrual method

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

General revenues and transfers were \$6,741,222 for governmental activities. General revenues include property taxes, other local taxes, interest income, miscellaneous income, and transfers from other funds. Program revenues were \$2,503,846 for governmental activities. The source of the program revenues is from charges for services, operating grants and contributions, and capital grants and contributions. Total expenses for governmental activities were \$7,377,001, which included expense for general government, public safety, public works, culture and recreation, community development, and interest expense. The governmental activities exhibited a change in net assets of \$1,868,067.

Business-type activities

Business-type activities include the water, sewer, and swimming pool funds.

The total net assets for business-type activities was \$9,740,741 which includes invested in capital assets, net of related debt of \$8,061,600, reserved for debt service and bond covenants of \$429,406, and unreserved net assets of \$1,249,735.

Program revenues for business-type activities for the Town were \$2,826,104 for charges for services and \$226,252 for capital grants and contributions. Program revenues include charges for water and sewer usage, tap and connection fees, pool fees, and grants. The expenses incurred to provide these services were \$2,035,902. General revenues and transfers include interest income of \$3,618, recovered costs of \$130,179, and a transfer to other funds of \$(1,109,340). The change in net assets for business-type activities resulted in an increase to net assets of \$40,911.

The remainder of this page left blank intentionally.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

Financial Analysis of the Town's Funds Governmental Funds

The focus of the Town of Marion's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirement. In particular, unreserved or unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town of Marion's governmental funds reported combined ending fund balance of \$635,647. Fund balance includes \$110,678 nonspendable for prepaid expenses, \$68,401 restricted for debt service, \$162,041 restricted for specific purposes, \$161,590 committed to parking garage, \$327,029 assigned to golf course and (\$194,092) unassigned.

Total revenues were \$5,880,811 for governmental funds. The governmental funds revenues include property taxes, other local taxes, permits, fees, and licenses, fines and forfeitures, revenue from the use of money and property, charges for services, recovered costs, intergovernmental, and miscellaneous income.

Total expenses for governmental funds were \$11,312,365. These expenses are for general government, public safety, public works, culture and recreation, community development, debt service principal retirements and interest expense. This resulted in a deficiency before other financing sources of \$5,431,554 in the governmental funds. The governmental funds obtained other financing sources of \$1,109,340, which included operating transfer from the Water and Sewer Fund of \$1,131,633 and operating transfer to the Swimming Pool Fund of \$22,293, proceeds from debt of \$2,063,234, and contribution from nonprofit of \$2,294,760. After the other financing sources were received by the governmental funds, there was a change in fund balance of \$35,780 at June 30, 2012.

Proprietary Funds

The Town's proprietary funds statements provide the same type of information found in the government-wide financial statements, but in more detail.

Net assets for the water and sewer fund increased from \$9,489,812 to \$9,535,597. The balance is made up of \$7,850,155 in invested in capital assets, net of related debt, \$429,406 restricted for debt service and bond covenants, and \$1,256,036 unreserved.

Swimming pool fund net assets in the amount of \$205,144 are down from 2011. Operating expenses were \$57,057 for fiscal year 2011 and \$55,388 in fiscal year 2012. The net asset balance includes \$211,445 invested in capital assets, net of related debt, and deficit unreserved net assets balance of \$6,301.

Proprietary funds total operating revenues were \$2,826,104. Operating expenses for the proprietary funds was \$1,859,616. This resulted in an operating income of \$966,488. The proprietary funds had total non-operating expense of \$42,489, capital contribution of \$226,252, and net operating transfer out of \$1,109,340. This resulted in a change in net assets of \$40,911.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

General Fund Budgetary Highlights

Over the course of the year, the Town Council did not revise the budget.

Budgetary Highlights for 2011-2012

	GENERAL FUND BUDGET	GENERAL FUND ACTUAL	VARIANCE
Revenues	\$4,791,072	\$5,383,207	\$ 592,135
Expenditures	6,042,567	7,208,103	(1,165,536)

Significant variances in the adopted budget and actual expenditures are reflected in the areas of community development, debt principal retirement, and capital outlays. The variance in the budget revenues and actual revenues is attributed to intergovernmental revenues received for funding projects of the Town. These amounts are variable upon the receipt of grant and loan funding.

Capital Asset and Long-Term Debt Activity

Capital Assets

As of June 30, 2012 the Town had capital assets including land, buildings, construction in progress, land improvements, equipment, and infrastructure.

Major asset events during the fiscal year included the following:

STP Digester upgrade—Capital expenditures for the STP Digester upgrade were \$476,224 for the fiscal year ending June 30, 2012. The project was not completed by the end of the fiscal year and will be included in construction in progress at June 30, 2012.

STP Phase I WWTP Improvements—Capital expenditures for the project were \$576,044 for the fiscal year ending June 30, 2012. The project was not completed by the end of the fiscal year and will be included in construction in progress at June 30, 2012.

Streetscape—Capital expenditures for the project were \$422,678 for the fiscal year ending June 30, 2012. The project was not completed by the end of the fiscal year.

Golf Course—The Town purchased the golf course from Holston Hills Country Club, Inc. The fair market value for the golf course property and equipment was \$3,324,050.

Town of Marion, Virginia

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

Long-term Debt

At the end of the fiscal year, the Town had the following outstanding debt for business-type activities:

	Balance uly 1, 2011	Issuances Retirements					Balance June 30, 2012		
General obligation bonds OPEB liability Compensated absences	\$ 4,539,320 66,784 41,916	\$	877,586 34,797 2,316	\$	(294,148) - -	\$	5,122,758 101,581 44,232		
Total	\$ 4,648,020	\$	914,699	\$	(294,148)	\$	5,268,571		

The outstanding debt for governmental activities at June 30, 2012 is as follows:

Balance			Balance

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012

Known Facts, Decisions, or Conditions Expected to Have a Significant Effect on Next Year and Beyond Scheduled Major Projects

Sewer Treatment Plant Upgrade—The total project costs are estimated at \$704,055 with funding from Smyth County and the Town. The Town expects to receive a loan from Rural Development in the amount of \$606,000. The most pressing needs are the influent pump station, disinfection system and lab roof. The project is separated into phases. There will be three phases to this project based upon need.

Parking Garage—The parking garage is a joint project with Smyth County.

Downtown Streetscape—This project is connected with the 1908 School House project. This project includes Broad, N. Iron, and Main Street from Commerce to Pendleton Street. The total cost of the project is estimated to be \$493,867. The funding for this project will be provided 80% from Virginia Department of Transportation and 20% by Town from a Department of Housing and Community Development grant.

Signalization Upgrade—The project is funded by the Virginia Department of Transportation.

S. Church Street Drainage—The project consists of realigning drainage on S. Church Street. The project is to be funded by the Virginia Department of Transportation.

Chatham Hill Road Bridge—The project consists of upgrading the bridge with funding from Virginia Department of Transportation.

Housing Rehabilitation of Pearl Avenue and Buchanan Street—The project consists of rehabbing residences over a period of three years. The estimated cost of the project is \$751,190 with funding from Community Development Block Grant of \$715,190 and a contribution from Town of \$36,000.

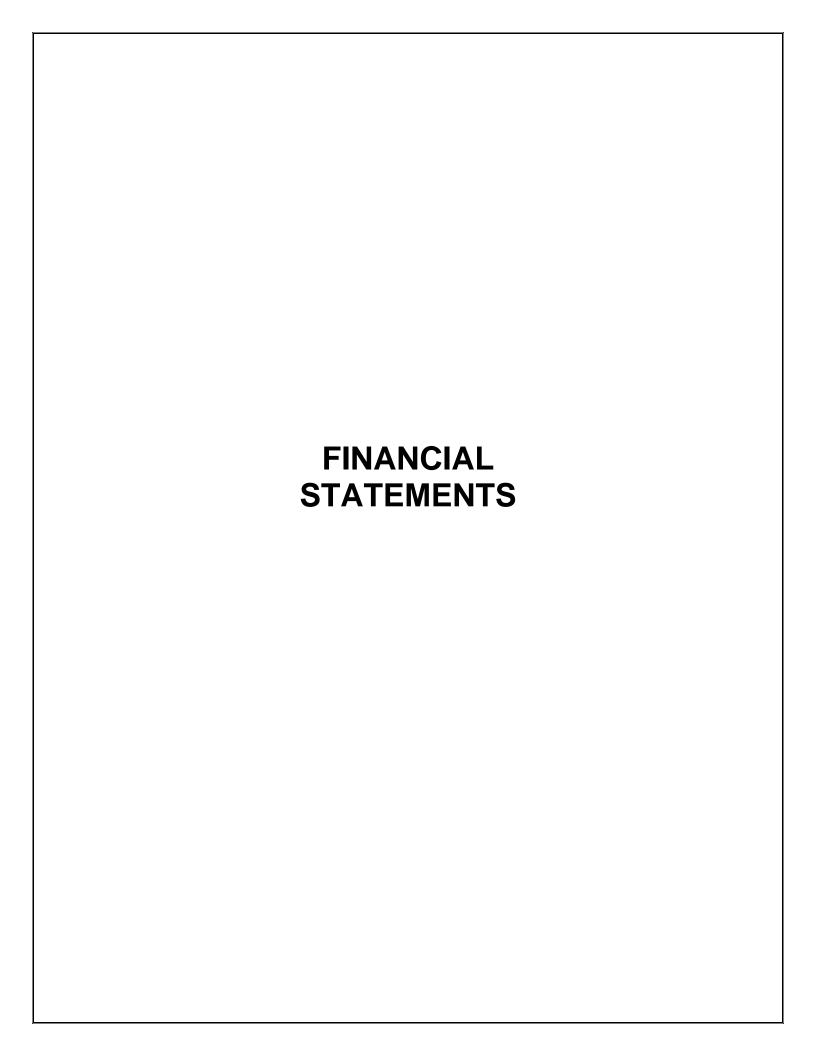

Baughman Avenue Bridge—The project consists of upgrading the bridge. The estimated cost is \$800,000 with funding from the Virginia Department of Transportation.

Water Leak Analysis Repairs—The project consists of identifying significant leaks in the Town water system. Funding for the project is to come from Virginia Department of Health.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. Town of Marion, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of net assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

635,647

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

9,334,999

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

43,524

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

(3,518,455)

Net assets of governmental activities

Exhibit 6

Town of Marion, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

35,780

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

3,649,426

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

25,608

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(1,731,948)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(110,799)

Change in net assets of governmental activities

\$ 1,868,067

Notes to the Financial Statements For The Year Ended June 30, 2012

Note 1-Summary of Significant Accounting Policies:

The financial statements of the Town conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). The more significant accounting policies established by GAAP and used by the Town are discussed below.

A. Reporting Entity:

The Town of Marion, Virginia (the Town) was incorporated in 1832. The Town operates under a council-manager form of government and provides the following services as authorized by its charter: public safety, development services, culture, community development, water services, sewer services, and industrial development. The accompanying financial statements present the government.

Blended Component Units - None

Discretely Presented Component Units - None

Related Organizations - None

Jointly Governed Organizations - None

B. Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

C. Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the Town.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds. All general tax revenue and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from the general fund.

The Town operates a sewage collection and treatment system and a water distribution system. The activities of the systems are accounted for in the water and sewer fund. In addition to the water and sewer fund, the Town has a swimming pool fund that is operated as a proprietary fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and enterprise fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary funds consist of a cemetery fund for perpetual care.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

- D. Assets, liabilities, and net assets or equity:
 - 1. Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable December 6. The Town bills and collects its own property taxes.

3. Allowance for Un-collectible Accounts

The Town calculates its allowance for un-collectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance for governmental activities amounted to approximately \$87,502 for property taxes and \$6,048 for garbage billings at June 30, 2012. The allowance for business-type activities amounted to approximately \$79,631 for water and sewer billings at June 30, 2012.

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity: (continued)

4. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets, not including infrastructure assets, with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of three years. Infrastructure assets capitalized have an original cost of \$5,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current or previous year.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	20-50
Water and Sewer System	30-50
Infrastructure	20-35
Machinery and equipment	5-10
Improvements	10-20

6. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The Town accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity: (continued)

7. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

10. Concentration of Credit Risk

The Town has a credit risk associated with water and sewer fund accounts receivable due to geographic proximity of the Town's customers. The risk is mitigated by the large number of customers and relatively low individual balances.

11. Prepaid Expenses

Prepaid expenses are for payments made by the Town in the current fiscal year to provide services occurring in the subsequent fiscal year.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The detail of this \$(3,518,455) difference for the primary government is as follows:

		Primary
	G	overnment
General obligation bonds and loans payable	\$	(3,067,547)
Accrued interest		(5,660)
OPEB liability		(273,695)
Compensated absences		(171,553)
Net adjustment to reduce fund balance-total governmental funds		
to arrive at <i>net assets-governmental activities</i>	\$	(3,518,455)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The detail of this \$3,649,426 difference for the primary government is as follows:

	G	overnment
Capital outlays Depreciation expense	\$	3,995,708 (346,282)
Net adjustment to increase (decrease) <i>net changes in fund</i> balances - total governmental funds to arrive at changes in net assets of governmental activities	\$	3,649,426

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities: (continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The detail of this \$(110,799) difference for the primary government is as follows:

	Primary Governme		
(Increase) Decrease in Compensated absences (Increase) Decrease in OPEB liability (Increase) Decrease in Accrued interest	\$	(20,508) (88,649) (1,642)	
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net assets of governmental activities	\$	(110,799)	

The remainder of this page left blank intentionally.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 3-Stewardship, Compliance, and Accountability:

A. Budgetary information

The Town charter establishes the fiscal year as the twelve-month period beginning July 1st. The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

- Prior to April 1, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. Only the Town Council can revise the appropriation for each department or category.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30 for all Town units.

B. Deficit fund equity

At June 30, 2012, the CDBG Gilman Street Fund had a deficit fund equity of \$(32,951) and the Streetscape Fund had a deficit fund equity of \$(112,398). These funds are combined with non- major funds and reflected as an other governmental fund in the financial statement.

Note 4-Deposits and Investments:

Deposits:

All cash of the Town is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act (a multiple financial institution collateral pool), Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance. Under the Act, banks holding public deposits in excess of the amounts insured by FDIC must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the State Treasury Board. Savings and Loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. Deposits covered by the Act are considered insured since the Treasury Board is authorized to make additional assessments.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2012

Note 4-Deposits and Investments: (continued)

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). The Town has two bond sinking accounts that are invested in U.S. Bank. The Town escrows the amounts monthly that are paid to the lender on a yearly basis.

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Primary			
	Government			
Commonwealth of Virginia:				
Local sales tax	\$	32,220		
Communication tax		22,712		
Non-categorical aid		4,965		
Community development block grant		51,920		
Virginia department of transportation grant		41,579		
Total	\$	153,396		

Note 6-Interfund Transfers:

Interfund transfers for the year ended June 30, 2012, consisted of the following:

Fund		ransfers In	Transfers Out		
Primary Government:					
General Fund	\$	1,062,332	\$	-	
Other Governmental Funds		47,008		-	
Water and Sewer Fund		-		(1,131,633)	
Swimming Pool Fund		22,293			
Total	\$	1,131,633	\$	(1,131,633)

Note 8-Employee Retirement System and Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees—Plan 1 and Plan 2:

Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning
at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit.
They may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age
50 with at least 10 years of service credit.

Note 8-Employee Retirement System and Pension Plans: (continued)

A. Plan Description (continued)

- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010
 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit
 beginning at their normal Social Security retirement age with at least five years of service credit or
 when the sum of their age and service equals 90. They may retire with a reduced benefit as early as
 age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning
 at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit.
 These members include sheriffs, deputy sheriffs and hazardous duty employees of political
 subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may
 retire with a reduced benefit as early as age 50 with at least five years of service credit. All other
 provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Plan (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP, or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500

Note 8-Employee Retirement System and Pension Plans: (continued)

B. Funding Policy

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended 2012 was 20.49% of annual covered payroll.

C. Annual Pension Cost

Primary Government:

For fiscal year ended June 30, 2012, the Town's annual pension cost of \$529,511 was equal to the Town's required and actual contributions. The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases also include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Three-Year Trend Information

	Year F		Annual Pension est (APC) ¹	Percentage of APC Contributed	Pe	Net nsion gation
Primary Government:						
Town	6/30/2012	\$	529,511	100.00%	\$	-
	6/30/2011	\$	510,639	100.00%		-
	6/30/2010	\$	483,251	100.00%		-

¹ Employer portion only

Note 8-Employee Retirement System and Pension Plans: (continued)

D. Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation date, the plan was 65.34% funded. The actuarial accrued liability for benefits was \$14,406,362 and the actuarial value of assets was \$9,412,677, resulting in an unfunded actuarial accrued liability (UAAL) of \$4,993,685. The covered payroll (annual payroll of active employees covered by the plan) was \$2,501,429, and ratio of the UAAL to the covered payroll was 199.63%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 10-Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue totaling \$710,792 is comprised of the following:

<u>Property Taxes</u> - Property tax revenue representing uncollected tax billings not available for funding current expenditures.

Note 11-Risk Management:

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Town participates with other localities in a public entity risk pool for their coverage of property, general liability and auto insurance with the Virginia Municipal Liability Pool. Each member of each of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The Town pays the Virginia Municipal Group contributions and assessments into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit, or depletion of all available resources, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The Town continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 14 – Restricted Cash and Cash Equivalents

Restricted cash of \$256,838 is reflected in the financial statements for the business-type activities. The \$256,838 represents the amount set aside for debt service in the water and sewer fund.

Note 15 - Restricted Investments

Restricted investment of \$68,401 is reflected in the financial statements for the governmental activities. The \$68,401 represents the amount set aside to cover the requirements set forth by Virginia Resource Authority in connection with the general obligation bond. Restricted investment of \$172,568 is reflected in the financial statements for the business-type activities. The \$172,568 represents the amount set aside to cover the requirements set forth by Virginia Resource Authority in connection with the general obligation bond.

Note 16 – Contingencies

The Town participates in certain federal and state assisted grant programs. Grant funds are subject to audit by the funding agencies to determine compliance with various grant requirements. Should any expenditure be disallowed, they must be refunded to the granting agencies. Any liability for reimbursement, which may arise as the result of these audits, is not believed to be material.

Note 17 – Compensated Absences

The Town's policies regarding vacation time permit employees to accumulate earned but unused vacation leave. Town employees with up to five years of service earn vacation at the rate of one day for each month. After five years, thirteen vacation days are earned annually; after ten years, fourteen days vacation is earned; after fifteen years an employee earns fifteen days vacation; after twenty years, sixteen days vacation are earned. The employees also earn an additional one-half day vacation time when employees go 90 days and are accident free. No benefits or pay is received for unused sick leave upon termination. However, upon retirement with 30 years of VRS service, the Town will pay 25% of all accumulated and unused sick pay up to \$2,500. No sick leave will be accrued at June 30, 2012 due to the difficulty in estimating the number of employees who may retire with 30 years of VRS service.

Master Redevelopment Fund		-	1,000
Total	\$	708,441	\$ 708,441

Note 20 – Other Post-Employment Benefits

The Governmental Accounting Standards Board (GASB) has issued its Statement No. 45, *Accounting and Financial Reporting by Employers for Postretirement Benefit Plans Other Than Pensions.* The Statement establishes standards for the measurement, recognition, and display of other post-employment benefits (OPEB) expense and related liabilities in the financial statements. The cost of post-employment healthcare benefits should be associated with the period in which the cost occurs, rather than in the future years when it will be paid. The Town adopted the requirements of GASB Statement No. 45 during the year ended June 30, 2010. Recognition of the liability accumulated from prior years will be phased in over 30 years commencing with the 2010 liability.

The Authority meets the requirements to use the alternative measurement method and elects to use the alternative measurement method.

The remainder of this page left blank intentionally

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 20 - Other Post-Employment Benefits (continued)

Annual Other Post-Employment Benefit Cost and Net OPEB Obligation

For the fiscal year ended June 30, 2012, the Town's annual OPEB costs of \$88,649 for governmental activities and \$34,797 for business-type activities, respectively, were equal to the Annual Required Contribution (ARC).

	vernmental Activities	Business-type Activities		
Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$ 84,647 4,002 -	\$	33,861 936 -	
Annual OPEB cost Contributions made	 88,649 -		34,797	
Increase in net OPEB obligation Net OPEB obligation-beginning of year	 88,649 185,046		34,797 66,784	
Net OPEB obligation-end of year	\$ 273,695	\$	101,581	

The Town's annual OPEB cost for governmental activities, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation are as follows. The Town's first year for implementing GASB No. 45 was June 30, 2010.

Fiscal Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2012	88,649	0%	273,695
June 30, 2011	94,524	0%	185,046
June 30, 2010	90,522	0%	90,522

The Town's annual OPEB cost for business-type activities, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation are as follows. The Town's first year for implementing GASB No. 45 was June 30, 2010.

Fiscal Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2012	34,797	0%	101,581
June 30, 2011	33,860	0%	66,784
June 30, 2010	32,924	0%	32,924

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 20 – Other Post-Employment Benefits (continued)

Funding Status and Funding Progress

The funding status of the plan as of June 30, 2012 was as follows:

		ernmental ctivities		iness-type ctivities
	Φ.		ф	
Actuarial Accrued Liability (AAL) Actuarial Value of Plan Assets	\$	917,989 -	\$	215,871 -
Unfunded Actuarial Accrued Liability (UAAL)		917,989		215,871
Funded Ratio (Actuarial Value of Plan Assets/AAL) Covered Payroll (Active Plan Members)		0% 2,351,230		0% 479,217
UAAL as a Percentage of Covered Payroll		39.04%		45.05%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 20 – Other Post-Employment Benefits (continued)

Actuarial Methods and Assumptions (continued)

The entry age normal cost method was used to determine liabilities under the alternative measurement method. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility. Active employees are assumed to retire at age 62 which is the historical average age of retirement for employees of the Town. Active employees age 62 or older who have qualified postemployment benefits under the plan are assumed to retire in the first projected year. A healthcare plan that includes both retirees and active employees contains a blended rate. The rate used in the calculation is the age-adjusted premium less the contribution from the retiree or blended premium. The actuarial assumptions for the Town included: inflation at 3% and an investment rate of return of 4%. The expected rate of increase in healthcare insurance premiums is based on the Getzen model promulgated by Society of Actuaries. Using the level percent of payroll method, the payroll growth rate has been set to the inflation rate. Life expectancies at the calculation date are based on the most recent mortality tables published by the National Center for Health Statistics. The 2004 United States Life Tables for Males and the United States Life Tables for Females were used. Life expectancies that include partial years were rounded to the nearest whole year. The calculation of postemployment health insurance coverage for each year is based on the assumption that all participants will live until their expected age as displayed in the mortality tables. The probability that an employee will remain employed until the assumed retirement age was determined using non-group specific age-based turnover data provided in Table 1 in paragraph 35b of GASB Statement 45. The unfunded accrued liability is being amortized over 30. years. The remaining amortization period at June 30, 2012 is 27 years.

Plan Description

The Town provides post-employment medical coverage for retired employees through a single-employer defined benefit plan. The Town may change, add or delete coverage as they deem appropriate and with the approval of the Town Council. The plan does not grant retirees vested health benefits.

A retiree, eligible for post-retirement medical coverage, is defined as a full-time employee who retires directly from the Town and is eligible to receive an early or regular retirement benefit from the VRS. Employees applying for early or regular retirement are eligible to continue participation in the Retiree Health Plans sponsored by the Town. Employees at the Town are allowed to stay on the plan until death of the employee or eligibility for Medicare coverage. The employee pays 50% of the required premium for single coverage. The employee pays 100% for spouse or dependent health care insurance premiums.

Funding Policy

The Town currently funds post-employment health care benefits on a pay-as-you-go basis. During fiscal year 2012, the Town had not designated any funding for the OPEB liability.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 21 – GASB 54 Fund Balance Reporting and Governmental Fund Type Definitions:

Purpose

The Town Council of the Town of Marion is dedicated to maintaining an appropriate level of fund balance sufficient to mitigate current and future financial risks and to ensure stable tax rates; and, therefore, formally establishes this policy for the Town's Fund Balance. This policy also authorizes and directs the Finance Director to prepare financial reports which accurately categorize fund balance as required by GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

Components of Fund Balance

Fund balance is the difference between the assets and liabilities reported in a governmental fund. The following five fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which the resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed
 by the governing body or by an official or body to which the governing body delegates the authority; for all funds
 except the general fund, assigned fund balance is the residual fund balance classification;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

Committed Fund Balance Policy

The Town Council is the Town's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Town Council. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

Assigned Fund Balance Policy

The Town Council has authorized the Town's Finance Director as the official authorized to assign fund balance to a specific purpose as approved by this fund balance policy.

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 21 – GASB 54 Fund Balance Reporting and Governmental Fund Type Definitions: (continued)

Minimum Unassigned Fund Balance Policy

The Town does not maintain an unassigned fund balance policy.

Resource Flow Policy

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Prepaid expenses 110,678 Total \$ 110,678 Restricted Fund Balance Balance Debt service and bond convenants 68,401 DARE 1,311

Assigned Fund Balance Balance
Golf Course 327,029
Total \$ 327,029

Notes to Financial Statements (Continued) For The Year Ended June 30, 2012

Note 22 – New Accounting Standard:

The Governmental Accounting Standards Board (GASB) has issued the following statements which are not yet effective.

GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple—Employer Plans* contains provisions related to the frequency and timing of measurements. This statement will be effective for periods beginning after September 30, 2012.

GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* improves financial reporting by addressing the issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. This statement will be effective for periods beginning after September 30, 2013.

GASB Statement No. 63, *Reporting Deferred Outflows, Deferred Inflows, and Net Position* provides reporting on deferred outflows, inflows, and net position. This statement will be effective for periods beginning after September 30, 2013.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* amends the financial reporting elements previously classified as assets and liabilities to be consistent with the definitions of Concept Statement 4. This statement will be effective for periods beginning after September 30, 2014.

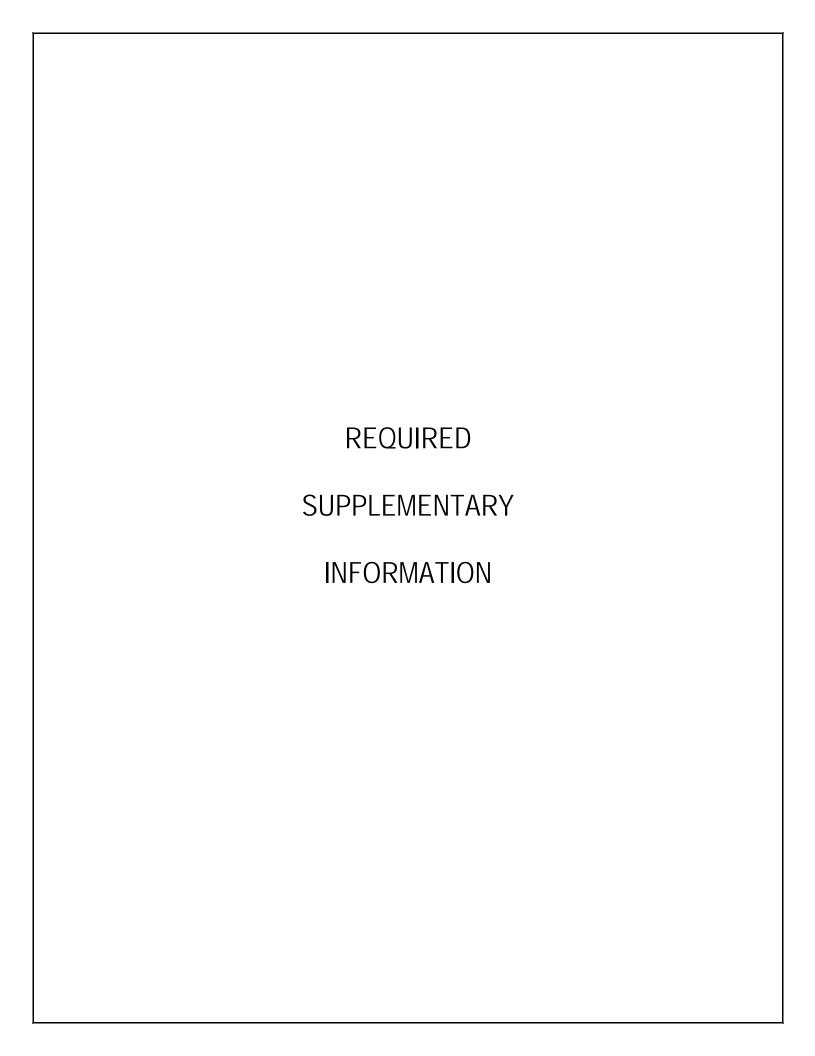

Management has not yet evaluated the effects, if any, of adopting these standards, but does not expect them to be material.

Note 23 – Subsequent Events

The health department awarded the Town a grant in the amount of \$90,900 on the Edwynne Water Line Replacement.

Note 24 – Contribution from Nonprofit

The Town purchased a golf course from Holston Hills Country Club, Inc., a nonprofit organization. The statement of activities reports a contribution from nonprofit of \$2,294,760 which represents the difference between the purchase price of the golf course and the fair market value of the property received from the nonprofit.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Members of the Town Council Town of Marion, Virginia:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Marion, Virginia (the Town) as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated December 18, 2012. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audit of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

Management of the Town is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Marion's internal control over reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government*

Auditing Standards.				
This report is intended for the information of the members of the Town Council, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than the specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Members of the Town Council Town of Marion, Virginia:

Compliance

We have audited Town of Marion's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2012. The Town of Marion's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Town of Marion's management. Our responsibility is to express an opinion on the Town of Marion's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Town of Marion believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Town of Marion's compliance with those requirements.

In our opinion, the Town of Marion, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control over Compliance

The management of the Town of Marion is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Town of Marion's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Marion's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Town Council, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
