INTRODUCTORY SECTION

Riverside Regional Jail

Colonel Carmen I. DeSadier Superintendent

September 26, 2019

The Board of Directors *Riverside Regional Jail Authority*

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the *Riverside Regional Jail Authority* (Jail Authority) for the fiscal year ended June 30, 2019. The report was prepared by the Super intendent and Finance Department in accordance with accounting principles generally accepted in the United States of America for governmental accounting and reporting as promulgated by the Governmental Accounting Standards Board. The responsibility for the accuracy of information and the completeness and fairness of the presentations, including all disclosures, rests with the undersigned management of the Jail Authority. The financial statements have been audited by the independent accounting firm of Brown Edwards & Company, L.L.P. whose reports are included herein.

We believe that the financial information, as presented, is accurate in all material respects and that it is presented in a manner designed to fairly set forth the financial position and results of operations as measured by the financial activity of the Jail Authority's Enterprise Funds (Operating and Canteen); and that all disclosures necessary to enable the reader to gain an understanding of the Jail Authority's financial activity have been included.

A brief history of the Jail Authority, its financial operations and selected accomplishments are presented below. In addition, Management's Discussion and Analysis precedes the basic financial statements.

PROFILE OF THE ORGANIZATION

The *Riverside Regional Jail Authority*, a political subdivision of the Commonwealth of Virginia, was created by Chapter 726 of the 1990 Acts of the General Assembly of Virginia, and was formed on June 21, 1990. The participating jurisdictions of the Jail Authority include the Cities of Colonial Heights, Hopewell and Petersburg and the Counties of Charles City, Chesterfield, Prince George and Surry. The Jail Authority is governed by a fourteen-member board, comprised of two members from each participating jurisdiction.

The general purpose of the Jail Authority is to maintain and operate a regional jail to meet the needs of the participating jurisdictions for additional jail facilities. The regional jail is located in the County of Prince George adjacent to the Petersburg Federal Correctional Institution and houses inmates primarily from member jurisdictions. If space is available, inmates from other jurisdictions, including state and federal inmates, are accepted.

A Nationally Accredited Jail

ECONOMIC CONDITON AND OUTLOOK

The shortfall of the projected average daily population has resulted in many challenges for the Jail Authority. The financial condition of the Jail Authority is primarily dependent upon the number of inmates housed at the facility. Due to this shortfall, the Jail Authority has experienced a negative change in net assets for the current fiscal year. The economic stability of the jail is based on the contractual obligation of each member jurisdiction to pay a per diem rate of \$40 per inmate per day.

Based on results of the mid-year budget projections denoting a shortfall, the Jail Authority assessed additional inmate housing fees (supplemental billing) in the amount of \$2,800,000 to member jurisdictions. To provide budget relief for the member jurisdictions, the Jail Authority elected to distribute the prior years' accumulated excess cash balances from the Rainy Day Fund to equal the additional supplemental billing fees. The additional fee of \$2,800,000 was received by June 30, 2019 from the member jurisdictions.

The outlook for population growth increased by .54% for the member jurisdictions in the past year according to the most recent United States Census data. The Jail Authority experienced a decrease in the total average daily population of inmates for fiscal year 2019. The average daily population for the member jurisdictions decreased 9.55% from the previous fiscal year.

MAJOR INITIATIVES

The Jail Superintendent, after seven years of service at the Jail Authority, retired on December 1, 2018. After a national recruitment effort, a new Superintendent was hired and began employment on May 13, 2019.

In order to demonstrate compliance in correctional facility management, the Jail Authority has undertaken a number of initiatives to ensure operations meet national standards for a local correctional facility.

- The Main Jail has been accredited by the American Correction Association (ACA), Adult Local Detention Standards (ALDF) for a three-year period in each of the following years: 1999, 2002, 2006, 2010, 2013 and 2016. The accreditation program is a professional peer review process based on national standards that have evolved since the founding of the ACA in 1870. ACA standards address services, programs and operations essential to effective correctional management. Standards set by ACA reflect practical up-to-date policies and procedures and function as a management tool for agencies and facilities throughout the world. The Jail Authority received a compliance score of 99.3 percent on the ACA audit that was conducted in May 2019.
- The Pre-Release Center was accredited for a three-year period in 2016 by the American Correctional Association (ACA), Adult Community Residential Standards (ACRS). The audit process for the Pre-Release Center is to enhance the Jail Authority's ability to compete for and maintain Federal Bureau of Prison contracts. The Jail Authority received a compliance score of 100 percent on the ACA audit that was conducted in May 2019.
- The Jail Authority received re-certification for compliance with the provisions of the Prison Rape Elimination Act (PREA) in May 2017. The certification is for a three-year period. During the inspection, it was noted by the PREA auditor that the Jail Authority was in full compliance with the PREA standards and in three of thirty-eight areas had found the Jail Authority exceeding the standards.
- In order to demonstrate compliance with the provision of appropriate correctional healthcare, the Jail Authority received initial accreditation from the National Commission on Correctional Healthcare (NCCHC) in March 2014. The Jail Authority received a re-accreditation from NCCHC in September 2017.
- The Jail Authority received unconditional certification to house adult and juvenile offenders from the Virginia State Board of Corrections in February 2019.

- In October 2017 the Riverside Regional Jail received a grant through the Department of Criminal Justice Services (DCJS) for an Addictions Recovery Grant Program (ARGP). The program serves female offenders who are within 90-120 days of release in conjunction with transitioning the Therapeutic Community female offenders who meet the same requirements as a part of extended release services. The ARGP, which began operation in January 2018, is a twelve week cohort holistic model that uses a peer recovery approach. The program is facilitated by a Certified Peer Recovery Specialist who provides recovery planning and goal setting. The program also established the Riverside Re-entry Advisory Council in order to network with local and surrounding stakeholders to assist with hard to place cases and use as a referral service for these returning citizens. The ARGP was renewed by DCJS for FY 2020.
- The REAL LIFE program is an opioid focused program at RRJ, with a goal of better preparing inmates who participate for release back into the community. Participants are screened for length of time to serve, three to six months, and drug use history. The twelve week program incorporates twelve step based opioid recovery classes with behavior modification education and training, and trauma therapy. Classes are held three days a week for five hours with approximately (15) fifteen participants per class. Upon release the participants will have access to re-entry services through the REAL LIFE Community Center. These participants will be followed in the community in order to ascertain the effectiveness of the program.

As of June 12, 2019 the Jail Authority, after review by the Virginia Board of Corrections of two inmate deaths in 2017, was placed on probationary certification for (3) three years for failure to comply with Board of Corrections regulations. Under the supervision of a new Jail Superintendent, remedial steps are underway that are designed to ensure compliance with Virginia Board of Corrections regulations, and ultimately, return the facility to normal certification.

The Jail Authority continues to remain committed to providing offenders an opportunity to address the underlying causes of criminal behavior. The facility publishes an Annual Programs Report documenting the various programs designed to provide offenders the opportunity to change. The Jail Authority is especially proud of efforts provided to veterans through the targeted programs offered in the Veterans Housing Unit with programs and services designed specifically for those offenders that have service in our Nation's Armed Services.

FINANCIAL CONTROLS

The accounting system of the Jail Authority is dependent upon a strong system of internal accounting controls to ensure that financial information generated is both accurate and reliable. The Jail Authority's internal controls are designed to ensure that the assets of the Jail Authority are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America.

Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments made by management.

All internal control evaluations occur with the above framework. We believe that the Jail Authority's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The Jail Authority maintains budgetary controls to ensure compliance with the annual budget approved by the Authority Board. The budget preparation process is initiated annually in August of each fiscal year (July 1 through June 30). The Director of Administrative Services, with input from other departments, prepares a Preliminary Budget for the Jail Authority Finance Committee to review. The Preliminary Budget must be submitted to the Jail Authority before January 1st of each year. The Jail Authority Finance Committee reviews the Preliminary Budget and adoption of the final budget must be completed by March 1st annually.

RELEVANT FINANCIAL POLICIES

The Jail Authority maintains (6) six polices to assist in maintaining a strong credit rating, liquidity strength and the ability to operate independently from the member jurisdictions. (Post Issue Compliance Policy, Audit Committee Policy, Capital Improvement Plan Policy, Debt Management Policy, Accounting and Auditing Complaints Policy and the Fund Policy)

LONG-TERM FINANCIAL PLANNING

As part of the annual budget process, estimated revenues and justification of those revenues are forecasted for future trends. The process focuses on operating revenues and expenses as well as debt service and investment income. The Jail Authority is committed to maintaining a sustainable long-term financial plan.

INDEPENDENT AUDIT

State statute requires an annual audit by independent certified public accountants. The public accounting firm of Brown, Edwards & Company, L.L.P. was selected by the Jail Authority's Audit Committee to perform the audit for the fiscal year ended June 30, 2019. The independent auditor's report on the financial statements is included in the financial section of this report.

AWARDS AND ACHIEVEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Riverside Regional Jail Authority for its comprehensive annual financial report for the fiscal year ended June 30, 2018. This was the twenty-first (21st) consecutive year that Riverside Regional Jail Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the requirements of the Certificate of Achievement program and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

This report reflects the strong financial policies enacted by the Jail Authority and the active participation of the Authority's Finance Committee. The Jail Authority's support and cooperation in planning and conducting the financial operations of the jail facility are appreciated and acknowledged.

The preparation of this report could not be accomplished without the efficient and dedicated efforts of the employees of the Riverside Regional Jail Authority. Of special mention are Christine Beach, Melissa Differ, Patricia Fazio, Michelle Jackson, Maria Montijo, and Sharyn Quick.

Respectfully Submitted,

2. De Sadier mer

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Riverside Regional Jail Authority Hopewell, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, the major fund, and the aggregate remaining fund information of the Riverside Regional Jail Authority (the "Authority") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Authorities, Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the major fund, and the aggregate remaining fund information of the Authority, as of June 30, 2019, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 11 to the financial statements, the Authority returned surplus funds to the member jurisdictions and subsequently assessed charges for the same amounts in order to increase its operating revenues. Our opinion is not modified with respect to that matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September ___, 2019 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Riverside Regional Jail Authority

Management's Discussion and Analysis (Unaudited)

September 26, 2019

As management of Riverside Regional Jail Authority (Jail Authority), we offer readers of the Riverside Regional Jail Authority's financial statements this narrative overview and analysis of the financial activities of the Riverside Regional Jail for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented and it should be read in conjunction with the letter of transmittal and the Jail Authority's financial statements, which follow in this analysis.

Financial Highlights

- The Jail Authority's change in net position was (\$151,365) as a result of this year's operating and non-operating financial activities.
- The Jail Authority's operating and non-operating revenues increased by \$207,544, or approximately 0.5%, and operating and non-operating expenses increased by \$2,657,932, or approximately 6.4%.
- The Jail Authority net investment in capital assets increased by \$992,202, or 1.5 %.
- The Jail Authority met its financial obligations with regard to the Series 2013 and Series 2015 bonds, making principal payments totaling \$3,630,000.
- The Jail Authority transferred approximately \$2,800,000 from the Rainy Day Fund to member jurisdictions during the fiscal year. The member jurisdictions then returned their funds in lieu of the Jail Authority increasing the per diem rate mid-year.
- The Jail Authority average daily population decreased by approximately 159 inmates, or 10.33%.

Using this Annual Report

The Financial Section of this Annual Report consists of the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the Basic Financial Statements, and the Compliance Report. The Financial Statements also include notes that explain in more detail some of the information in the financial statements.

The MD&A serves as an introduction to the basic financial statements and supplementary information along with management's examination and analysis of the financial condition and performance.

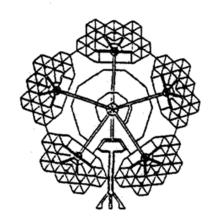

The Jail Authority maintains two enterprise funds, Operating and Canteen. This is an accounting method that is similar to that used by private sector companies. The Statement of Net Position includes the nature and amounts of investments in resources (assets), deferred outflows of resources, obligations to creditors (liabilities), and deferred inflows of resources. The Statement of Revenues, Expenses and Changes in Fund Net Position report all of the current year's revenue and expenses. This statement measures the success of the Jail Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered all its costs through its user fees and other charges, profitability, and credit worthiness. The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the cash receipts, cash payments, and net changes in cash resulting from operations, investing, and capital and noncapital financing activities. The notes to the financial statements provide required disclosures and other information about the Jail Authority's accounting policies, significant account balances and activities, obligations, commitments, segment information, contingencies and subsequent events, if any.

Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of Riverside Regional Jail Authority, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$118,593,535 at June 30, 2019. The Jail Authority's total Operating Fund net position decreased by \$41,805 as compared to last year and the Canteen Fund net position decreased by decreased by \$109,560. Our detailed analysis that follows focuses on the change in net position and the resulting changes in assets and liabilities of both the Operating Fund and Canteen Fund in the aggregate.

| | | | | | | | | |

Inmate housing revenue decreased by \$148,348, or (0.6%) primarily due to a significant decline in the average daily population of the member jursidictions' inmate housing. During the fiscal year, the Jail Authority completed a transfer of \$2,800,000 from the Rainy Day Fund to the member localities for the inmate housing supplemental billing. Operating expenses remain steady due to close monitoring of the daily operational expenses.

The Jail Authority's Work Release revenues increased 31.4% due to a higher number of inmates participating in the work release program. The investment income increased \$648,075, or 197.5% due to unrealized gains on investments for the Fund Balance Reserve Account and Capital Improvement Fund.

Capital Asset and Debt Administration

Capital Assets

At the end of fiscal year 2019, the Jail Authority had \$139,421,859, net of depreciation, invested in a broad range of capital assets (Operating and Canteen Funds), including land, buildings, vehicles, office, and computer equipment. This amount represents a net decrease (including additions and deletions) of \$2,947,710 over last year. Depreciation expense was \$3,991,243 for fiscal year 2019.

The following table summarizes the Jail Authority's capital assets, net of accumulated depreciation, as of June 30, 2019 and 2018 for Operating and Canteen Funds combined.

| | 2019 | 2018 |
|--|-------------------|----------------|
| Buildings | \$ 135,160,184 | \$ 138,138,627 |
| Furniture and equipment | 3,378,872 | 3,321,255 |
| Land | 322,584 | 322,584 |
| Land improvements | 109,899 | 119,740 |
| Vehicles | 155,825 | 150,861 |
| Computers and software | 294,495 | 316,502 |
| Total capital assets (net of accumulated depreciation) | \$ 139,421,859 | \$ 142,369,569 |

The following table summarizes the changes in capital assets for both Operating and Canteen Funds. These changes are presented in more detail in the schedule in Note 4 to the financial statements.

| | 2019 | 2018 |
|--|--|------------------------------------|
| Balance at beginning of year | \$ 193,204,609 | \$ 192,745,298 |
| Additions Deletions Accumulated depreciation | 1,153,491 (281,130) (54,655,111) | 466,722 (7,411) (50,835,040) |
| Balance at end of year | <u>\$ 139,421,859</u> | \$ 142,369,569 |

This year major, capital asset additions included the following:

- Fixtures, furniture and equipment
- Roofing replacement
- Vehicles

Long-Term Debt

At year-end, the Jail Authority had bonded debt of \$72,245,000 outstanding as compared to fiscal year 2018 outstanding bonds in the amount of \$75,875,000. Additional information on the bonds is contained in Note 5.

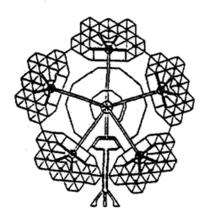

Economic Factors and Next Year's Budgets and Rates

- The per diem rate increased to \$43 for member jurisdictions.
- The Fiscal Year 2020 Budget takes into consideration the decline in the inmate average daily population.
- The Jail Authority plans to maintain its 2020 Annual Budget with limited increases in expenses primarily due to concerted efforts to address projected staff retirements and staff turnover.

All of these factors were considered in preparing the Jail Authority's budget for the 2020 fiscal year.

Contacting the Jail Authority's Financial Management

The financial report is designed to provide our customers, bondholders and creditors with a general overview of the Jail Authority's financial position and to demonstrate the Jail Authority's accountability for revenues received. Questions concerning information provided in this report or requests for additional financial information should be directed to the Jail Authority's Director of Administrative Services at 804-524-6604 or Riverside Regional Jail Authority, 500 FOLAR Trail, North Prince George, Virginia 23860. E-mail requests may be sent to: creid@rrjva.org.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 1. Summary of Significant Accounting Policies

Reporting entity:

The Riverside Regional Jail Authority (the "Authority") is a political subdivision of the Commonwealth of Virginia created by Chapter 726 of the 1990 Acts of the General Assembly of Virginia and was formed on June 21, 1990. The purpose of the Authority is to maintain and operate a regional jail to meet the needs of the participating jurisdictions for additional jail facilities.

The Authority is governed by a fourteen-member board, comprised of the local Sheriff and an individual appointed by the governing body of each jurisdiction.

Measurement focus and basis of accounting:

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) and deferred outflows/inflows of resources are included on the Statement of Net Position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The Authority reports one major proprietary fund, the Operating Fund. This fund is used to account for the activities necessary for operating the jail facility. This fund does not account for funds collected from or held for inmates. The nonmajor Canteen Fund accounts for inmate charges.

The Authority distinguishes *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are charges for services for inmate housing, fees collected from inmates, and revenue from the State Compensation Board. Operating expenses include salaries, wages and fringe benefits, medical services and supplies, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

The Authority also reports a custodial fund to account for monies held on behalf of inmates. Custodial funds use the economic resources measurement focus and the accrual basis of accounting.

Cash and cash equivalents:

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, money market investments, and short-term investments with original maturities three months or less from the date of acquisition.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

Revenue recognition and accounts receivable:

Operating revenues are recognized as revenue when billed. Per diem charges and reimbursements from the Commonwealth of Virginia are billed monthly. Unbilled revenues through year end are accrued. Given the Authority's relationship with its member jurisdictions and prior history, no allowance has been established for uncollectible accounts.

Capital assets:

Capital assets, if purchased or constructed, are recorded at cost. It is the Authority's policy to capitalize capital assets with a cost basis of \$5,000 or more. Items below this threshold are expensed in the period acquired. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is recognized. Maintenance and repairs which do not increase the capacity or efficiency of the item or extend its useful life are expensed.

The Authority provides for depreciation using the straight-line method over the following estimated useful lives:

| Buildings & improvements | 10 - 60 years |
|------------------------------|---------------|
| Land improvements | 15 years |
| Furniture & equipment | 10 years |
| Vehicles | 5 years |
| Computer hardware & software | 3 - 10 years |

Compensated absences:

The Authority grants vacation and sick leave in varying amounts as services are provided. Employees are compensated, with limits, for unused vested vacation leave upon termination, retirements, or death. Compensation for unused vacation leave is limited to twice an employee's annual accrual. Employees may accumulate an unlimited amount of sick leave, which is forfeited upon separation from the Authority, except when separation is the result of retirement. Employees who retire with at least five or more years of continuous Riverside Regional Jail service are eligible for a lump sum payment for up to (25) twenty-five percent of their unused sick leave balance. Employees with 1,000 hours or less of unused sick leave will receive a lump sum payment not to exceed \$5,000. Employees with more than 1,000 hours of unused sick leave will receive a lump sum payment not to exceed \$7,500. Employees who are required to work overtime and holidays earn compensatory and holiday leave, respectively.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

Pensions and Other Postemployment Benefits (OPEB):

For purposes of measuring all financial statement elements related to pension and OPEB plans, information about the fiduciary net position of the Authority's Plans and the additions to/deductions from the Authority's Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred outflows/inflows of resources:

In addition to assets, the statements that present net position report a separate section for deferred outflows of resources. These items represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statements that present net position report a separate section for deferred inflows of resources. These items represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

The Authority has the following items that qualify for reporting as deferred inflows or outflows:

- Deferred loss on refunding. A deferred loss on refunding is a deferred outflow which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Contributions subsequent to the measurement date for pensions and OPEB are always a deferred outflow; this will be applied to the net pension or OPEB liability in the next fiscal year.
- Differences between expected and actual experience for economic/demographic factors and changes of assumptions in the measurement of the total pension or OPEB liability. This difference will be recognized in pension or OPEB expense over the expected average remaining service life of all employees provided with benefits in the plan and may be reported as a deferred inflow or outflow as appropriate.
- Changes in proportion and differences between the Authority's contributions and its proportionate share of contributions for OPEB are deferred and amortized over the average expected remaining service lives of all employees provided with group life insurance benefits, and may be reported as a deferred inflow or outflow as appropriate
- Difference between projected and actual earnings on pension and OPEB plan investments. This difference will be recognized in pension or OPEB expense over the closed five year period and may be reported as a deferred outflow or inflow as appropriate.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

Net position:

Net position is the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction, or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Operating Fund amounts are restricted in accordance with the Master Indenture. Restrictions on Canteen Fund net position are imposed by §53.1-127.1 of the *Code of Virginia*.

Unrestricted net position represents the remaining net position not included as the previous two categories. The Authority has internally designated a portion of unrestricted net position for the following purposes and amounts: Fund balance reserve, \$8,850,940; rainy day fund, \$1,573,495; capital improvements fund, \$8,639,836; operating fund, \$6,928,496; and arbitrage reserve, \$56,059.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Fair value measurement:

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Level 2 investments are valued using a matrix pricing technique, which is based on the investments' benchmark quoted prices.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 2. Deposits and Investments

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in amount from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize the Authority to invest in obligations of the United States or agencies thereof; obligations of the Commonwealth of Virginia or political subdivisions thereof; obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, the State Treasurer's Local Government Investment Pool (LGIP), and the Commonwealth of Virginia State Non-Arbitrage Program (SNAP). Both the LGIP and SNAP are not registered with the SEC but are overseen by the Treasurer of Virginia and the State Treasury Board. The value of the Authority's position in the pools is the same as the value of the pool shares and is stated at amortized cost in accordance with GASB Statement 79, which approximates fair value.

Credit risk:

The Authority's policy limits investments to instruments specified in Section 26-40 of the Code of Virginia.

Interest rate risk:

Interest rate risk is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates. The Authority does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The operating funds of the Authority are by nature short-term and are not considered to have investment rate risk.

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 2. Deposits and Investments (Continued)

As of June 30, 2019, the Authority's deposits and investments consisted of the following:

| | | S&P Credit | Weighted Average |
|---|---------------|---------------|---------------------|
| Туре | Fair Value | Rating | Maturity |
| Deposits: | | | |
| Cash in bank | \$ 12,497,068 | N/A | N/A |
| Cash on hand | 900 | N/A | N/A |
| Money market | 5,449,695 | N/A | N/A |
| Total deposits | 17,947,663 | | |
| Investments – Level 1: U.S. Treasury notes | 1,768,607 | AA+ | 0.86 years |
| Investments – Level 2: Federal agency bonds and notes | 12,262,944 | AA+ | 1.35 years |
| Investments reported at amortized cost: Virginia State Non-Arbitrage Program | 16,843,540 | AAAm | 1 day |
| Total investments | 30,875,091 | | |
| Total deposits and investments | \$ 48,822,754 | | |

Reconciliation of deposits and investments to Exhibits 1 and 4:

| | Exhibit 1 | E | xhibit 4 | Total |

| 2023 | 4,305,0 | 2,639,088 | 6,944,088 | | |
| 2024 | 4,520,0 | 2,427,688 | 6,947,688 | | |
| 2024-2028 | 26,055,0 | 8,560,053 | 34,615,053 | | |
| 2029-2033 | 25,540,0 | 2,146,058 | 27,686,058 | | |
| | | | | | |
| | \$ 72,245,0 | <u>\$ 24,844,826</u> | \$ 97,089,826 | | |

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 5. Long-Term Liabilities (Continued)

Details of long-term indebtedness are as follows:

| | Issue Date | Maturity Date | Authorized and Issued | Average Interest Rate | Amount Outstanding |
|---|---------------|------------------|--------------------------|-----------------------------|-----------------------|
| Series 2015 Jail Facility Revenue Bonds Series 2013 Jail Facility | 03/12/2016 | 07/01/2032 | \$ 44,765,000 | 3.67% | \$ 43,365,000 |
| Revenue Bonds | 06/27/2013 | 07/01/2032 | \$ 44,025,000 | 4.27% | 28,880,000 |
| | | | | | \$ 72,245,000 |

The Authority's debt agreements contain certain financial covenants for which the Authority was in compliance at June 30, 2019.

Note 6. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the Authority (the "Political Subdivision") are automatically covered by the VRS Retirement Plan upon employment. This plan is an agent multiple-employer defined benefit plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are available at:

- https://www.varetire.org/members/benefits/defined-benefit/plan1.asp,
- https://www.varetire.org/members/benefits/defined-benefit/plan2.asp,
- <u>https://www.varetirement.org/hybrid.html</u>.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

| | Number |
|--|--------|
| Inactive members or their beneficiaries currently receiving benefits | 66 |
| Inactive members: | |
| Vested inactive members | 41 |
| Non-vested inactive members | 245 |
| Inactive members active elsewhere in VRS | 160 |
| Total inactive members | 446 |
| Active members | 351 |
| Total covered employees | 863 |

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The political subdivision's contractually required contribution rate for the year ended June 30, 2019 was 7.31% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the political subdivision were \$1,079,205 and \$1,243,197 for the years ended June 30, 2019 and June 30, 2018, respectively.

Net Pension Asset

The net pension liability is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2017 rolled forward to the measurement date of June 30, 2018.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

| Inflation | 2.50% |
|--|--|
| General Employees – Salary increases, including inflation | 3.50 - 5.35% |
| Public Safety Employees with hazardous duty benefits – Salary increases, including inflation | 3.50 - 4.75% |
| Investment rate of return | 7.00%, net of pension plan investment expense, including inflation* |

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.00%. However, since the difference was minimal, and a more conservative 7.00% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.00% to simplify preparation of pension liabilities.

Mortality rates: General employees -15 to 20% of deaths are assumed to be service related. Public Safety Employees -60% of deaths are assumed to be service related. Mortality is projected using the applicable RP-2014 Mortality Table Projected to 2020 with various set backs or set forwards for both males and females.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees – Largest 10 – Non-Hazardous Duty and All Others (Non 10 Largest): Update mortality table; lowered retirement rates at older ages, changed final retirement from 70 to 75; lowered disability rates, no change to salary scale, increased rate of line of duty disability from 14% to 20%.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions (Continued)

Public Safety Employees – Largest 10 – Hazardous Duty and All Others (Non 10 Largest): Update mortality table; adjustment to rates of retirement by increasing rate at 50 and lowering rate at older ages; adjusted rates of withdrawal and disability to better fit experience; changes to line of duty rates, and no changes to salary scale.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Target Allocation | Arithmetic Long-Term Expected Rate of Return | Weighted Average Long-Term Expected Rate of Return |
|------------------------|----------------------|--|---|
| Public Equity | 40.00 % | 4.54 % | 1.82 % |
| Fixed Income | 15.00 | 0.69 | 0.10 |
| Credit Strategies | 15.00 | 3.96 | 0.59 |
| Real Assets | 15.00 | 5.76 | 0.86 |
| Private Equity | 15.00 | 9.53 | 1.43 |
| Total | 100.00 % | | 4.80 % |
| | Inflation | | 2.50 % |
| * Expected arith | metic nominal return | | 7.30 % |

* The above allocation provides for a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the longterm expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.5%.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions, political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2018, the alternate rate was the employer contribution rate used in the FY 2012 or 90% of the actuarially determined employer contribution rate from the June 30, 2015, actuarial valuations, whichever is greater. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability (Asset)

| | Increase (Decrease) | | | | | |
|--|---------------------|--------------------------------------|----|--|----|--|
| | | Total Pension Liability (a) | | Plan Fiduciary Net Position (b) | I | Net Pension Liability (Asset) (a) – (b) |

| Balances at June 30, 2018 | \$ | 43,679,667 | \$ | 51,575,313 | \$ | (7,895,646) |

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

Sensitivity of the Net Pension Asset to Changes in the Discount Rate

The following presents the net pension asset of the political subdivision using the discount rate of 7.00%, as well as what the political subdivision's net pension asset would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

| | 1.00% Decrease (6.00%) | - | Current Discount Rate (7.00%) | 1.00% Increase (8.00%) |
|--|----------------------------------|-------|-------------------------------------|----------------------------------|
| Political subdivision's net pension liability (asset) | \$ (1,074,717) | \$ | (7,895,646) | \$ (13,475,200) |

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions</u>

For the year ended June 30, 2019, the political subdivision recognized pension expense (income) of \$(678,946). At June 30, 2019, the political subdivision reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | | Deferred Inflows of Resources | |
|---|--------------------------------------|-----------|-------------------------------------|-----------|
| Differences between expected and actual experience | \$ | - | \$ | 1,431,117 |
| Changes of assumptions | | - | | 278,758 |
| Net difference between projected and actual earnings on pension plan investments | | - | | 477,013 |
| Employer contributions subsequent to the measurement date | | 1,079,205 | | |
| Total | \$ | 1,079,205 | \$ | 2,186,888 |

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 6. Defined Benefit Pension Plan (Continued)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions (Continued)</u>

The Authority reported as deferred outflows of resources related to pensions resulting from the Political Subdivision's contributions subsequent to the measurement date which will be recognized as an increase of the Net Pension Asset in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30, | (F t | Increase (Reduction) to Pension <u>Expense</u> | | | |
|------------------------------|---------|---|--|--|--|
| 2020 2021 2022 2023 | \$ | (779,774) (743,752) (623,717) (39,645) | | | |
| Thereafter | | - | | | |

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plans is also available in the separately issued VRS 2017 Comprehensive Annual Financial Report (CAFR). A copy of the 2017 VRS CAFR may be downloaded from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</u>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan

At June 30, 2019, \$146,857 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the Authority also participates in the VRS Group Life Insurance (GLI) cost-sharing multiemployer other postemployment benefit plan.

Plan Description

All full-time employees of political subdivisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance (Continued)

Plan Description (Continued)

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at <u>https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp</u>

Contributions

Contributions to the VRS OPEB program were based on actuarially determined rates from actuarial valuations as of June 30, 2017. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

Group Life Insurance Program

| Governed by: | Code of Virginia 51.1-506 and 51.1-508 and may be impacted | | | | |

| June 30, 2018 Contribution | \$80,855 | | | | |

<u>OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB</u>

The net OPEB liabilities were measured as of June 30, 2018 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations as of that date. The covered employer's proportion of the net OPEB liabilities were based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance (Continued)

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB (Continued)

Group Life Insurance Program

| June 30, 2019 proportionate share of liability | \$1,242,000 |
|--|-------------|
| June 30, 2018 proportion | 0.08176% |
| June 30, 2018 proportion | 0.07675% |
| June 30, 2019 expense | \$11,855 |

Since there was a change in proportionate share between measurement dates, a portion of the OPEB expense above was related to deferred amount from changes in proportion.

At June 30, 2019, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Group Life Insurance Program

| | 0 | Deferred utflows of Aesources | Deferred Inflows of Resources | | |
|---|----|-------------------------------------|-------------------------------------|---------|--|
| Differences between expected and actual experience | \$ | 61,000 | \$ | 22,000 | |
| Change of assumptions | | - | | 52,000 | |
| Net difference between projected and actual earnings on | | | | | |
| OPEB plan investments | | - | | 40,000 | |
| Changes in proportion | | 70,000 | | 44,000 | |
| Employer contributions subsequent to the | | | | | |
| measurement date | | 78,493 | | - | |
| Total | \$ | 209,493 | \$ | 158,000 | |

The deferred outflows of resources related to OPEB resulting from the Authority's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

NOTES TO FINANCIAL STATEMENTS June 30, 2019

| 2020 | \$ | (15,000) |
| 2021 | | (15,000) |
| 2022 | | (15,000) |
| 2023 | | (4,000) |
| 2024 | | 13,000 |
| Thereafter | | 9,000 |

Group Life Insurance Program

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions based on an actuarial valuation date of June 30, 2017, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018:

| Inflation | 2.5% |
|--|----------------------------|
| Salary increases, including inflation: Locality- general employees Locality – hazardous duty employees | 3.5 - 5.35% 3.5 - 4.75% |
| Investment rate of return, net of expenses, including inflation* | 7.0% |

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed percent above. However, since the difference was minimal, and a more conservative investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be the percent noted above to simplify preparation of OPEB liabilities.

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 6.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance (Continued)

Net OPEB Liability

The net OPEB liabilities represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2018, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

| | Group Life Insurance Program |
|---|------------------------------------|
| Total OPEB liability | \$ 3,113,508 |
| Plan fiduciary net position | \$ 1,594,773 |
| Employers' net OPEB liability (asset) | \$ 1,518,735 |
| Plan fiduciary net position as a percentage of total OPEB liability | 51.22% |

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

Group Life Insurance Program

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance (Continued)

Long-Term Expected Rate of Return (Continued)

| Asset Class (Strategy) | Target Allocation | Arithmetic Long-Term Expected Rate of Return | Weighted Average Long-Term Expected Rate of Return |
|------------------------|----------------------|--|---|
| Public Equity | 40.00 % | 4.54 % | 1.82 % |
| Fixed Income | 15.00 | 0.69 | 0.10 |
| Credit Strategies | 15.00 | 3.96 | 0.59 |
| Real Assets | 15.00 | 5.76 | 0.86 |
| Private Equity | 15.00 | 9.53 | 1.43 |
| Total | 100.00 % | | 4.80 % |
| | Inflation | | 2.50 % |
| *Expected arithm | netic nominal return | | 7.30 % |

* The above allocation provides for a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.5%.

Discount Rate

The discount rate used to measure the GLI OPEB liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 7. Other Postemployment Benefits Liability – VRS Group Life Insurance (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the Authority, as well as what the Authority's net OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

| | 1.00% Decrease | Current Discount | 1.00% Increase |
|------------------------|-------------------|---------------------|-------------------|
| | (6.00%) | Rate (7.00%) | (8.00%) |
| GLI Net OPEB liability | \$ 1,622,767 | \$ 1,242,000 | \$ 932,335 |

OPEB Plan Fiduciary Net Position

Information about the various VRS OPEB plan fiduciary net position is available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2017 VRS CAFR may be downloaded from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</u>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the OPEB Plan

At June 30, 2019, \$15,960 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll.

Note 8. Interfund Balances and Transfers

The following interfund receivables and payables are included in the fund financial statements at June 30, 2019:

| | | Due | | | | | |
|----------------|------|----------|------|-------------|----------------|--------|--|
| | | | Inma | te Accounts | Total Due From | | |
| | Cant | een Fund | Cust | odial Fund | Other Funds | | |
| Due To | | | | | | | |
| Operating Fund | \$ | 1,298 | \$ | 47,689 | \$ | 48,987 | |
| Canteen Fund | | - | | 29,587 | | 29,587 | |
| | \$ | 1,298 | \$ | 77,276 | \$ | 78,574 | |

Amounts due to the Operating Fund include general and administrative charges and various reimbursements. Amounts due to the Canteen Fund include charges for goods and services provided to inmates.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 9. Deferred Compensation Plan

The Authority has a deferred compensation plan under which the participants may defer a portion of their annual compensation subject to Internal Revenue Code Section 457 limitations. Any contributions made to the deferred compensation plan are not available to employees until termination, retirement, death, or unforeseeable emergency. Contributions to the plan are administered by a third party administrator. In compliance with the provisions of the IRC Section 457(g), the plan assets are in custodial accounts for the exclusive benefit of the plan's participants and beneficiaries. Consequently, these assets and the related liability are not reported in the accompanying financial statements.

Note 10. Risk Management

The Authority's risk management program involves maintaining comprehensive insurance coverage and identifying and monitoring loss exposure. The Authority's comprehensive property, boiler and machinery, automobile, business interruption, inland marine insurance, Line of Duty Act, and worker's compensation is provided through the Virginia Municipal League Insurance Programs (VML). The purpose of VML is to create and administer group self-insurance pools for political subdivisions of the Commonwealth of Virginia pursuant to the authority provided in Chapter 27 of Title 15.2 of the *Code of Virginia*. The VML is managed by a nine member Supervisory Board who is elected by members at their annual meeting. Annual rates are based on estimated claims and reserve requirements. Pool deficits, should they materialize, will be eliminated through the levy of an additional assessment upon Association members.

General liability and faithful performance of duty bond coverages are provided by the Commonwealth of Virginia, Department of General Services and the Division of Risk Management. There was no reduction in insurance coverage for the year ended June 30, 2019 or claims not covered by existing policies. Claims have not exceeded coverage for the last four fiscal years.

The Authority is self-insured for health insurance purposes and has retained Anthem Blue Cross and Blue Shield to administer the program. The Authority currently reports these activities in the Operating Fund. Significant claims, over \$90,000, are covered by commercial insurance.

Claims liabilities are based on estimates of the ultimate cost of reported claims, related claim adjustment expenses and an estimate for claims incurred but not reported (IBNR) based on historical experience. The following represents the change in approximate aggregate liabilities for the fund:

| Fiscal Year | Beginning Liability | Claims and Changes in Estimates | Claim Payments | Ending Liability (Asset) |
|--------------|----------------------------|---|------------------------------|------------------------------------|
| 2019 2018 | \$ 215,119 188,279 | \$ 2,266,766 2,415,713 | \$ 2,506,182 2,388,873 | \$ (24,297) 215,119 |

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 11. Return of Surplus Funds to Member Jurisdictions

Due to a revenue shortfall during the fiscal year, the Authority's Board adopted a resolution in March of 2019 directing the Superintendent to return \$2,800,000 of surplus funds to the member jurisdictions, and then to assess a charge to the member jurisdictions for the same amount in lieu of a mid-year per diem increase. This action was taken in order to meet the revenue covenant required by the indenture of the revenue bonds described in Note 5.

Note 12. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective.

The GASB issued **Statement No. 87**, *Leases* in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after December 15, 2019.

The GASB issued **Statement No. 88**, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* in March 2018. This Statement improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowing and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. The requirements of this Statement are effective for periods beginning after June 15, 2018.

The GASB issued **Statement No. 89**, *Accounting for Interest Cost Incurred before the End of a Construction Period* in June 2018. This Statement enhances the relevance and comparability of information about capital assets and the cost of borrowing for a period and simplifies accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for periods beginning after December 15, 2019. The requirements of this Statement should be applied prospectively.

The GASB issued **Statement No. 90**, *Major Equity Interests, an amendment of GASB Statements No. 14 and No. 61* in August 2018. This Statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 12. New Accounting Standards (Continued)

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for periods beginning after December 15, 2018. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

The GASB issued **Statement No. 91**, *Conduit Debt Obligations* in May 2019. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

REQUIRED SUPPLEMENTARY INFORMATION

SCHEDULE OF CHANGES IN NET PENSION LIABILITY (ASSET) AND RELATED RATIOS

| | Plan Year Ended June 30, | | | | | | |
|--|--------------------------|-------------|----|----------------|----------------|-------------|----------------|

| 2018 | | 80,855 | | 80,855 | - | | 15,564,457 | 0.52% | |

Schedule is intended to show information for 10 years. Since 2018 is the first year for this presentation, no earlier data is available. However, additional years will be included as they become available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

Note 1. Changes of Benefit Terms

Pension

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

Other Postemployment Benefits (OPEB)

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Note 2. Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the System for the four-year period ending June 30, 2016:

Largest 10 – Non-Hazardous Duty:

- Update mortality table
- Lowered in rates of service retirement
- Update withdrawal rates to better fit experience
- Lowered in rates of disability retirement
- No changes to salary rates
- Applicable to: Pension and GLI OPEB

Largest 10 – Hazardous Duty:

- Update mortality table
- Lowered rates of retirement at older ages
- Update withdrawal rates to better fit experience
- Increased disability rates
- No changes to salary rates
- Applicable to: Pension and GLI OPEB

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

Note 2. Changes of Assumptions (Continued)

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table
- Lowered rates of retirement at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience
- Lowered disability rates
- No changes to salary rates
- Applicable to: Pension and GLI OPEB

All Others (Non 10 Largest) – Hazardous Duty:

- Update mortality table
- Increased retirement rate at age 50 and lowered rates at older ages
- Update withdrawal rates to better fit experience
- Update disability rates to better fit experience
- No changes to salary rates
- Applicable to: Pension and GLI OPEB

This part of the Riverside Regional Jail Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's financial health.

Financial Trends

These tables contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time.

Tables 1-2

Revenue Capacity

These tables contain information to help the reader assess the factors affecting the Authority's ability to generate its revenues.

Tables 3 - 4

Debt Capacity

These tables present information to help the reader assess the affordability of the Authority's current level of outstanding debt and the Authority's ability to issue additional debt in the future.

Tables 5 - 6

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place and to help make comparisons over time and with other governments.

Tables 7 - 8

Operating Information

These tables contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.

Tables 9 - 11

Other Information

The table presents a summary of insurance coverage in force separated by type and insurance company.

Table 12

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

(1) Nonoperating revenues include payments from vendor contracts and exclude interest income on bond accounts. Operating revenues include repayments of member jurisdiction transfers, as described in Note 11.

(2) Operating expenses exclude depreciation, interest expense, bond issuance amortization, and transfers to member jurisdictions.

(3) Total debt service requirements have been reduced by interest income on bond accounts, and reflect principal and interest payments required for the next fiscal year.

RATIOS OF OUTSTANDING DEBT BY TYPE

| Fiscal Year | Total Outstanding Revenue Bonds | | Debt as a Percentage of Personal Income (1) | Amount of Debt Per Capita | |

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors Riverside Regional Jail Authority Hopewell, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Authorities*, *Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the business-type activities, the major fund, and the aggregate remaining fund information of the Riverside Regional Jail Authority (the "Authority"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated October 4, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify one deficiency in internal control, described in the accompanying schedule of findings and responses, that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SUMMARY OF COMPLIANCE MATTERS June 30, 2019

As more fully described in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the Authority's compliance with certain provisions of laws, regulations, contracts, and grants shown below:

STATE COMPLIANCE MATTERS

<u>Code of Virginia</u>: Cash and Investment Laws Conflicts of Interest Act Debt Provisions Inmate Canteen Funds Local Retirement Systems Procurement Laws Uniform Disposition of Unclaimed Property Act

SCHEDULE OF FINDINGS AND RESPONSES June 30, 2019

A. FINDINGS – FINANCIAL STATEMENT AUDIT

2019-001: ACCOUNTING FOR NON-RECURRING TRANSACTIONS (MATERIAL WEAKNESS)

Criteria:

Occasionally, the Authority is required to evaluate the accounting and reporting implications of unusual or nonrecurring transactions.

Condition:

During the current year, a material non-recurring transaction was reported incorrectly in interim financial statements until it was adjusted as a result of audit procedures performed on the annual financial statements.

In this case, the return of surplus funds to member jurisdictions totaling \$2.8 million was recorded as a reduction of net position instead of an entry to expenses. Direct journal entries to net position should only be made for prior period adjustments, such as for the implementation of new accounting standards or to correct errors related to prior year amounts reported. All activity must be reflected in the revenue and expense accounts in order to be in accordance with Generally Accepted Accounting Principles (GAAP).

Recommendation:

The Authority has many resources available for consultation when such transactions occur. We suggest that management consult with these resources to ensure all such transactions are properly recorded in accordance with GAAP at their inception.

Views of Responsible Officials/Management Response:

The Jail Authority concurs with the finding and the recommended procedures have been implemented to consult with available resources to properly record such transactions.
