#### INDEPENDENT AUDITORS' REPORT

To the Honorable Members of the Town Council Town of Richlands, Virginia

#### **Report on the Audit of the Financial Statements**

#### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Richlands, Virginia, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Town of Richlands, Virginia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Richlands, Virginia, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Richlands, Virginia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Richlands, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Richlands, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Richlands, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information on pages 5–17, 71, and 72–77 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Richlands, Virginia's basic financial statements. The accompanying supporting schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supporting schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2024, on our consideration of the Town of Richlands, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Richlands, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Richlands, Virginia's internal control over financial control over financial reporting and compliance.

Bestic, Lucker & Company, P.C.

Lebanon, Virginia March 18, 2024

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management Discussion and Analysis (MD&A) offers the readers of the Town of Richlands, Virginia (the Town) financial statements a narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2023.

## Financial Highlights for Fiscal Year 2023

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$21,380,093 (net position). At June 30, 2023, the Town had unrestricted net position of \$4,119,388.
- The Town's total net position increased by \$2,464,666 compared to an increase of \$2,965,930 in the prior year. The decrease from one year to the next is significantly attributable to a decrease in operating grants and contributions and a decrease in expenses partially offset by an increase in other local taxes in governmental activities. In business-type activities the decrease across years was due to a decrease in other revenue and an increase in expenses in the electric fund.
- The Town's total liabilities at the close of the current fiscal year were \$14,658,031, including \$10,939,646 in long-term obligations and \$2,143,100 in unearned revenue.
- Long-term obligations primarily represent amounts due on the Town's general obligation and revenue bonds, net pension liability and notes payable.
- Unearned revenue represents funding received in advance and carried over for use in the next fiscal year from Virginia Department of Transportation.
- As of the close of the current fiscal year, the Town's general fund reported an ending fund balance of \$4,271,176, an increase of \$1,596,167 from the prior year fund balance.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$4,009,337, or 58.03% of total general fund expenditures.
- At the end of the fiscal year June 30, 2023, the Town incurred expenses of \$23,985 for building improvements at the Town's water and wastewater treatment facilities. The expenses incurred are for the for the installation of new fluoride system equipment and engineering costs for upgrades and improvements to both facilities.
- At the close of the current fiscal year, the Town had construction in progress projects totaling \$1,167,766, which include construction of a new fluoride system at the water treatment plant (\$74,693), engineering services and construction for the water and wastewater treatment plant upgrade & improvements (\$1,063,469), and (\$29,504) for the Greenway Pavilion project.
- During the current fiscal year, the Town purchased several pieces of equipment including a backhoe and dump truck totaling \$510,113.

## Financial Highlights for Fiscal Year 2023 (Continued)

- In fiscal year 2020, the Town entered into a note payable for \$1,000,000, which was increased to \$1,200,000 in fiscal year 2021, to be used as interim financing for final design engineering services for the water and wastewater treatment plant upgrade & improvements; and has drawn down a total of \$1,055,059 at of the close of the prior fiscal year. During the current fiscal year the Town paid off the loan in full.
- The Town had one revenue bond at the end of the current fiscal year with a total balance of \$381,171.
- The Town had general obligation bonds at June 30, 2023 with an ending balance of \$1,185,723.

#### **Overview of the Financial Statements**

The discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements consist of three major components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Figure A shows how the required parts of this MD&A and the Town's basic financial statements are arranged and related to one another.

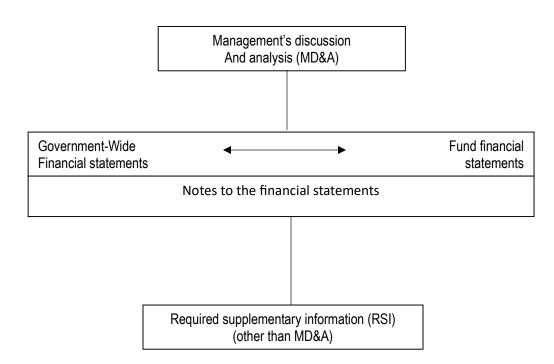

Figure A Required Components of Richland's Financial Statements

#### **Government-Wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. Government activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements can be found on page 18-19 of this report.

## **Fund Financial Statements**

The format of the fund financial statements will be more familiar to traditional users of the Town's financial statements. The fund financial statements provide more detailed information about the Town's most significant funds – not the Town as a whole. Funds are accounting mechanisms that the Town uses to keep track of specific sources of funding and spending for particular purposes. Separate financial statements are provided for governmental and proprietary funds. Major individual government funds and enterprise funds are reported as separate columns in the fund financial statements.

#### **Governmental Funds**

Governmental funds account for expendable financial resources other than those accounted for in the proprietary funds. The governmental fund measurement focus is upon determination of financial position and cash flows in and out and the balances that remain at year-end that is available for spending (rather than net income determination as would apply to a commercial enterprise). As a result, the governmental fund statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs.

The Town reports one major government fund:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, with the exception of those accounted for in another fund.

The basic governmental fund financial statements can be found on pages 20 and 22 of this report.

## Proprietary Funds

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### **Proprietary Funds (Continued)**

The Town reports the following major proprietary funds:

The electric fund accounts for the activities of the electric operations. The water and sewer fund accounts for the activities of the water operations.

The basic proprietary fund statements can be found on pages 24-26 of this report.

#### **Budgetary Comparison**

The Town adopts an annual appropriated budget for all government funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget and will disclose how accurately the governing body was able to forecast the revenues and expenditures of the Town.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the governmentwide and fund financial statements. The notes to the financial statements can be found on pages 27-70 of this report.

Table 1

#### **Government-Wide Financial Analysis**

#### **Statement of Net Position**

The following table reflects the Town's condensed net position:

	S	Summary of N As of June	let Position

Restricted	242,166	261,839	-	-	242,166	261,839		
Unrestricted	(3,612,252)	(2,056,952)	5,723,333	6,176,340	2,111,081	4,119,388		
Total net position	\$5,881,221	\$7,237,069	\$13,034,206	\$14,143,024	\$18,915,427	\$21,380,093		

#### Statement of Net Position (Continued)

Over time, net position may serve as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$21,380,093 at the close of fiscal year 2023. The largest portion of the Town's net position 79.51% reflects its net investment in capital assets (e.g., land, buildings, plant in service, machinery and equipment), less any outstanding related debt used to acquire those assets. The Town uses these capital assets to provide services to citizens and consequently, these assets are not available for future spending. Since the capital assets themselves cannot be used to pay the related debt, the resources needed to service this debt must be provided from other sources.

#### **Statement of Activities**

The following table shows the revenues and expenses of the Town's governmental and business-type activities:

		nmental ivities	Business-Type Activities				
	2022	2023	2022	2023			
Revenues:							
Program revenues:							
Charges for services	\$ 1,251,894	\$ 1,301,576	\$ 9,884,275	\$ 9,848,164

# Table 2Changes in Net PositionFor the Fiscal Year Ended June 30, 2023

## **Statement of Activities (Continued)**

During the current fiscal year, the Town's net position increased by \$2,464,666. This is comprised of an increase from governmental activities of \$1,355,848 and an increase in business type activities of \$1,108,818.

**Governmental activities** – Governmental activities increased the Town's net position by \$1,355,848. Additional factors are noted below.

Revenues from governmental activities totaled \$9,087,179, with charges for services (14.32%), other local taxes (30.74%) and operating grants & contributions (44.44%), being the major sources of revenues. Revenues increased in comparison to the previous year. The decrease in operating grants & contributions was a combination of a decrease in the amount of revenue from VDOT Street and Highway Maintenance funds that was recognized during the fiscal year and ARPA funds received in the current fiscal year.

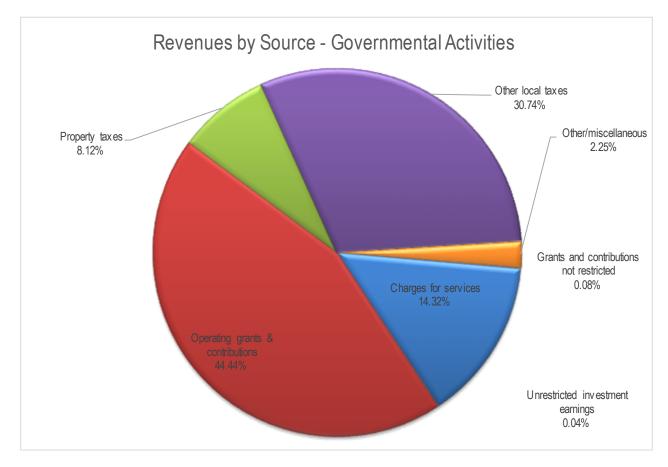

Expenses for governmental activities totaled \$7,147,892 with general governmental (15.95%), public safety (48.04%), public works (28.41%), accounting for approximately 92.39% of total governmental expenses. General government expenses administration decreased by \$32,589, public safety decreased by \$189,198, public works expenses decreased by \$100,622, parks, recreation and culture increased by \$141,580, and community development decreased by \$34,818. The decrease in expenses for public works was largely due to a reduction in salaries and benefits expenses. The decrease in public safety expenses was due to a decrease in employee benefit and grant-related expenses partially offset by an increase in salaries. The decrease in general administration was due primarily to reduced salaries and employee benefit expenses. The increase in parks, recreation, and culture was driven by capital asset related expenses.

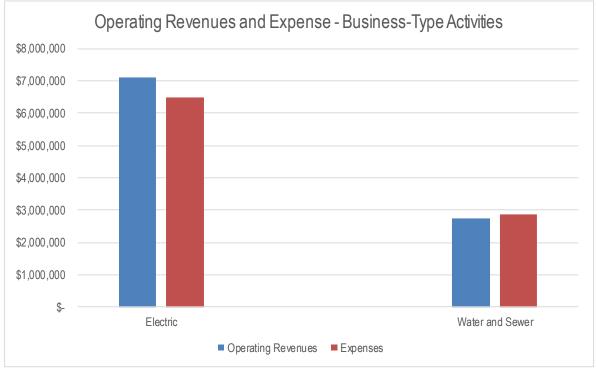

**Business-type activities** – Net position of the business-type activities was \$14,143,024 at June 30, 2023. This was an increase of \$1,108,818 from the prior year net position, as opposed to an increase of \$814,388 in the prior year. This is as a result of a decrease in revenues and an increase in expenses offset by an increase in transfers in.

Total revenues for the business-type activities totaled \$9,882,367, of which \$9,848,164 is charges for services. Expenses totaled \$9,356,988.

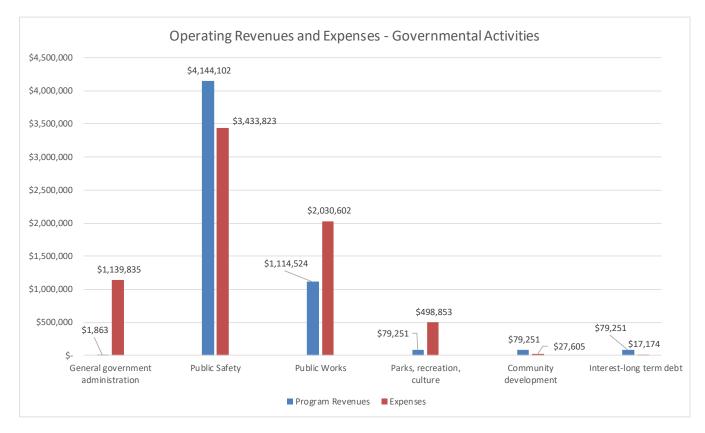

- Operating revenues decreased from the prior year by \$421,201.
- Proprietary operating expenses increased from the prior year by \$313,403.

# Statement of Activities (Continued)

## **Statement of Activities (Continued)**

## Financial Analysis of the Government's Funds

The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **Governmental Funds**

The focus of the Town's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

The general fund is the government's primary operating fund. At the end of the current fiscal year, the Town's general fund reported an ending fund balance of \$4,271,176, including an unassigned fund balance of \$4,009,337. Unassigned fund balance represents approximately 58.03% of total fund expenditures.

The fund balance of the Town's general fund increased during the current fiscal year by \$1,596,167 from current year activities. Total revenues increased by \$17,953 due primarily to an increase in other local taxes offset by a decrease in operating grants and contributions. Total expenditures decreased by \$215,389, which is significantly due to a decrease in salaries and benefits.

## **Proprietary funds**

The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the electric and water and sewer funds amounted to \$4,436,396 and \$1,739,944, respectively. The total increase in net position was \$1,108,820 during the current fiscal year.

#### Electric fund

The electric fund net position increased by \$472,892 from current year activities in fiscal year 2023 compared to a prior year increase of \$1,279,738. The decrease from one year to the next was a result of a decrease in revenues and an increase in expenses.

#### Water and Sewer fund

The water and sewer fund net position decreased by \$635,926 from current year activities in fiscal year 2023 compared to the prior year decrease of \$465,350. The increase in the change in net position was a result of an increase in operating revenues and a decrease in operating expenses.

#### General Fund Budgetary Highlights

Differences between the budgeted amounts versus the actual amounts are noted below:

- Actual revenues were more than budgeted revenues by \$3,159,069. The increase is the result of an increase in intergovernmental revenues, mostly from ARPA.
- Actual expenditures were less than budgeted expenditures by \$103,181. This is a result of a combination of decreases in general government administration, public safety, and public works.

## General Fund Budgetary Highlights (Continued)

#### General Fund Condensed Budget vs. Actual Fiscal Year ended June 30, 2023

	Budgeted				
		Actual			
	Original Final				
Revenues	\$ 5,929,791	\$ 5,929,791	\$ 9,088,860		
Expenditures	7,012,434	7,012,434	6,909,253		
Other Financing Sources	589,748	589,748	(579,442)		
Change in Fund Balance	\$ (492,895)	\$ (492,895)	\$ 1,600,165		

#### Capital Asset and Debt Administration

#### **Capital Assets**

The Town's net investment in capital assets for its governmental and business-type activities as of June 30, 2023, amounts to \$16,998,866. The net investment in capital assets includes land, construction in progress, buildings and improvements, improvements other than buildings, equipment, and public domain infrastructure additions in the current fiscal year.

Major capital asset events during the current year included the following:

- Capital asset acquisitions in governmental activities totaled \$539,717 (gross) in the current fiscal year. This
  was for machinery and equipment (\$510,113). Completed construction in progress resulted in asset additions
  of buildings and system (\$29,604).
- Capital asset acquisitions in business-type activities totaled \$56,885 in the current fiscal year. This was for construction in progress (\$23,985) and machinery and equipment (\$32,900).

Total	\$ 9,980,146	\$ 9,618,038	\$ 10,064,865	\$ 9,533,578					

Additional information on the Town's capital assets can be found in Note 12 on pages 59-60 of this report.

#### Long-term debt

At the end of the current fiscal year, the Town had total bonded debt outstanding of \$1,566,894. Of this amount, \$381,170 is comprised of one revenue bond and the remaining balance of \$1,185,724 are general obligation bonds.

## The Town's Long-term Bond Debt Fiscal Year ended June 30, 2023

Fiscal year 2022 Business-Type Activities:	Beginning Balance	Additions	Reductions	Ending Balance			
General Obligation Bonds Revenue Bonds	\$ 1,360,113 470,858	\$ - -	\$     87,195 44,844	\$ 1,272,918 426,014

Fiscal year 2023 Business-Type Activities: General Obligation Bonds Revenue Bonds	\$ 1,272,918 426,014	\$ - -	\$    87,194 44,844	\$    1,185,724 381,170			
Total	\$ 1,698,932	\$ -	\$ 132,038	\$ 1,566,894			

Additional information on the Town's long-term liability can be found in Note 5 on pages 37-40 of this report.

## Economic Factors and Next Year's Budget Rates -

- The unemployment rate as of June 2023 for the County of Tazewell, in which the Town resides, is 4.1%, which is the same as the average for 2022 of 4.1%. This compares to the state's unemployment rate of 2.6% and the national rate of 3.6%.
- The Town is located in the AEP Zone of PJM Interconnection, LLC ("PJM"). The Town is also a member of American Municipal Power ("AMP") and has purchased block power from the PJM market through AMP to meet a portion of its energy needs. Additionally, through AMP, the Town is participating in several generation assets including: 2.588 MW of the Prairie State Coal plant unit #1 and unit #2 PSEC are in full commercial operation, 1.5 MW in the AMP Hydroelectric run-of-the river project (Cannelton, Smithland, and Willow Island) located on the Ohio River and 2.2 MW in the Fremont energy campus project that is in full commercial operation. The Town also purchases 0.5 MW of capacity and associated energy from Southeastern Power Administration ("SEPA") through a Purchase Power Agreement ("PPA") that is cancelable by either party. Exposure to the volatile energy commodity market will be greatly reduced by providing over 50% of the Town's load requirements from these projects. The Town will continue to monitor the effects of current economic conditions on energy costs in relation to powering water and wastewater plant facilities and rising costs of raw materials needed to maintain the Town and its infrastructure.
- The Town's Water and Wastewater Treatment Facilities are between 25-30 years old with equipment nearing
  its useful life. Thompson & Litton Engineering Firm has prepared a Water and Wastewater Asset
  Management/Capital Improvements Plan as well as a preliminary engineering report for the rehabilitation of
  the water and wastewater treatment plants. Because of the needed improvements and upgrades to both
  plants; the Town increased the water and sewer rates for the fiscal year 2022 based on recommendations
  from a Water and Sewer Rate Analysis Report. The Town has applied for funding through Virginia Department
  of Health (VDH) for the water treatment plant improvements and upgrades; and has also applied for funding
  through the Virginia Department of Environmental Quality for upgrades and improvements at the Wastewater
  Treatment Plant.
- The downturn in the area economy from the retirement of coal industry related jobs and companies has
  resulted in a negative economic impact for downtown Richlands and surrounding areas. The Town is working
  diligently on several projects to revitalize downtown and to stimulate growth and downtown development. The
  Richlands Council, Planning Commission and Richlands Industrial Development Authority are working
  together on several projects that will promote growth and stability in downtown Richlands through tourism and
  community development efforts. The Town has applied for grant funding and plans to apply for additional
  grants for the following projects.
  - The Downtown Clinch River Walk Trail
  - DHCD Planning Grant
  - DHCD Revitalization Grant
  - Cumberland Plateau Company Economic and Community Development Grant
- The Town hopes to capitalize on upcoming tourism attractions along our Town border and within Tazewell County. An All-terrain vehicle (ATV) and Jeep trail recently opened. The trail head is adjacent to the Town of Richlands boundary and based on research by the trail development organization will draw many visitors from various states. The trail is unique in the fact that it is the only trail that accommodates Jeeps.
- The Town received the first installment of the American Rescue Plan Act (ARPA) funds during fiscal year 2021 and the second installment in early fiscal year 2023.

All these factors were considered in preparing the Town's budget for fiscal year 2024.

Unassigned fund balance in the general fund was \$4,009,337 as of June 30, 2023. The Town has these funds available to be utilized in order to meet any additional obligations to its citizens or to fund future capital projects.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Finance, Town of Richlands, 200 Washington Square, Richlands, VA 24641.

Fund balances - beginning		2,675,009	
Fund balances - ending	\$	4,271,176	

## Town of Richlands, Virginia Reconciliation of the Statement of Revenues, Expenditures, and changes in Fund Balances of Governmental Fund to the Statement of Activities For the Year Ended June 30, 2023

Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balances - total governmental fund		\$ 1,596,167
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded the depreciation expense in the current period. Capital outlays Depreciation expense	\$ 539,716 (901,825)	(362,109)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		
Property taxes		(1,681)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Debt issued or incurred: Issuance of notes payable Principal repayments:	\$ -	
Note Payable	64,697	
Capital lease	 79,048	143,745
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.		
Change in compensated absences	\$ 52,283	
Decrease (increase) in arbitrage rebate liability	-	
Change in accrued interest payable	(381)	
Change in pension related items	23,586	
Change in OPEB related items	 (95,762)	 (20,274)
Change in net position of governmental activities		\$ 1,355,848

## Town of Richlands, Virginia Statement of Cash Flows Proprietary Funds For the Year Ended June 30, 2023

	Wate	r and Sewer	Electric	Total
CASH FLOWS FROM OPERATING ACTIVITIES				
Receipts from customers and users	\$	2,741,031	\$ 7,191,348	\$9,932,379
Payments to suppliers		(948,146)	(5,659,183)	(6,607,329)
Payments to and for employees		(1,323,596)	(368,928)	(1,692,524)
Net cash provided by (used for) operating activities		469,289	1,163,237	1,632,526
CASH FLOWS FROM NONCAPITAL FINANCING ACTIVITIES			(170,005)	500 (00
Transfers from (to) other funds		756,404	(172,965)	583,439
Net cash provided (used) by noncapital financing activities		756,404	(172,965)	583,439
CASH FLOWS FROM CAPITAL AND RELATED FINANCING ACTIVITIES				
Additions to utility plant		(52,141)	(4,744)	(56,885)
Proceeds from the sale of surplus		184	501	685
Principal payments on general obligation and revenue bonds		(132,038)	-	(132,038)
Principal payments on notes payable		(1,055,059)	-	(1,055,059)
Interest expense		(56,637)	-	(56,637)
Net cash provided by (used for) capital and related financing activities		(1,295,691)	(4,243)	(109,900)
CASH FLOWS FROM INVESTING ACTIVITIES				
Interest income		3,491	9,786	13,277
Net cash provided by (used for) investing activities		3,491	9,786	13,277
Net increase (decrease) in cash and cash equivalents		(66,507)	995,815	929,308
Cash and cash equivalents - beginning (including restricted of \$299,472)		2,334,209	3,900,788	6,234,997
Cash and cash equivalents - ending (including restricted of \$299,472)	\$	2,267,702	\$ 4,896,603	\$ 7,164,305
Reconciliation of operating income (loss) to net cash				
provided by (used for) operating activities:				
Operating income (loss)	\$	(68,157)	\$635,113	\$566,956
Adjustments to reconcile operating income (loss) to net cash	<u> </u>	<u> </u>		
provided by (used for) operating activities:				
Depreciation	\$	519,079	\$69,093	\$588,172
(Increase) decrease in accounts receivable		(11,526)	77,651	66,125
(Increase) decrease in other receivables		60,878	-	60,878
(Increase) decrease in deferred outflows of resources		58,831	10,945	69,776
(Increase) decrease in prepaid items		(12,089)	(16,007)	(28,096)
Increase (decrease) in customer deposits		(95)	(958)	(1,053)
Increase (decrease) in accounts payable		(23,175)	372,440	349,265
Increase (decrease) in accrued wages		290	1,027	1,317
Increase (decrease) in compensated absences		1,662	1,447	3,109
Increase (decrease) in net pension liability		42,535	36,487	79,022
Increase (decrease) in deferred inflows of resources		(98,944)	(24,001)	(122,945)
T otal adjustments		537,446	528,124	1,065,570
Net cash provided by (used for) operating activities	\$	469,289	\$ 1,163,237	\$ 1,632,526

#### Note 1-Summary of Significant Accounting Policies:

The financial statements of the Town of Richlands, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

A. Financial reporting entity:

The Town is a municipal corporation governed by an elected seven-member Town Council. The accompanying financial statements present the government. Related organizations, if any, are described below.

Blended Component Units – None

Discretely Presented Component Units – None

Related Organizations – None

Jointly Governed Organizations - None

B. Government-wide and fund financial statements:

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position is designed to display the financial position of the primary government (governmental and business-type activities). Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense – the cost of "using up" capital assets – in the Statement of Activities. The net position of a government will be broken down into three categories – 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

## Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation:

Budgetary Comparison Schedules demonstrate compliance with the adopted budget, which is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. The budgetary comparison schedules present the original budget, the final budget, and the actual activity of the major governmental funds.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as is the proprietary fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the Town.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

## Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

The Town reports the following major governmental fund:

The general fund is the Town's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. All general tax revenue and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from the general fund.

The Town reports the following major proprietary funds:

Proprietary funds account for operations that are financed in a manner similar to private business enterprises. The proprietary funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary funds consist of enterprise funds.

The Town operates a sewage collection and treatment system and a water distribution system. The activities of the systems are accounted for in the water and sewer fund.

The Town operates an electric distribution system. The activities of the system are accounted for in the electric fund.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance:
  - 1. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

#### 2. Prepaid Expenses

Prepaid expenses are for payments made by the Town in the current fiscal year to provide services occurring in the subsequent fiscal year.

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." All other outstanding balances between funds are "advances to/from other funds." All trade and property tax receivables are shown net of an allowance for uncollectibles. The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis.

4. Allowance for Uncollectible Accounts

For the General Fund, the allowance amounted to approximately \$9,461 for real estate taxes, \$43,462 for personal property taxes, \$29,118 for garbage billings, and \$345,848 for EMS billings at June 30, 2023. For the Proprietary Funds, the allowance amounted to approximately \$56,347 for water and sewer billings and \$111,905 for electric billings at June 30, 2023.

5. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of December 31st. Taxes are payable in December of the following fiscal year. The Town bills and collects its own property taxes.

6. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance: (Continued)

#### 7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The Town accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

#### 8. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current or previous year.

Property, plant, and equipment and infrastructure of the primary government is depreciated using the straightline method over the following estimated useful lives:

Assets	<u>Years</u>
Buildings	40-50
Plant, equipment, and system	10-50
Infrastructure	20-25
Machinery and equipment	3-20

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance: (Continued)
  - 9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Town has one item that qualifies for reporting in this category. It is comprised of certain items related to the measurement of the net pension liability and net OPEB liability and contributions to the pension and OPEB plans made during the current year and subsequent to the net pension liability and net OPEB liability measurement date. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30 and prepaid tax amounts and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, prepaid amounts are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability and net OPEB liability are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

### 10. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements longterm obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance: (Continued)
  - 11. Pensions

The Virginia Retirement System (VRS) Political Subdivision Retirement Plan is a multi-employer, agent plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Political Subdivision Retirement Plan and the additions to/deductions from the Political Subdivision Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

12. Other Postemployment Benefits (OPEB)

The Virginia Retirement System (VRS) Line of Duty Act Program (LODA) is a multiple-employer, cost-sharing plan. The Line of Duty Act Program was established pursuant to § 9.1-400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Line of Duty Act Program provides death and health insurance benefits to eligible state employees and local government employees, including volunteers, who die or become disabled as a result of the performance of their duties as a public safety officer. In addition, health insurance benefits are provided to eligible survivors and family members. For purposes of measuring the net Line of Duty Act Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Line of Duty Act Program OPEB, and Line of Duty Act Program OPEB expense, information about the fiduciary net position of the Virginia Retirement System (VRS) Line of Duty Act Program OPEB Plan and the additions to/deductions from the VRS Line of Duty Act Program OPEB Plan's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 13. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

- Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources
  related to those assets. Assets are reported as restricted when constraints are placed on asset use either
  by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance: (Continued)
  - 13. Net Position (Continued)

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

14. Concentration of Credit Risk

The Town has a credit risk associated with water, sewer, and electric fund accounts receivable due to geographic proximity of the Town's customers. The risk is mitigated by the large number of customers and relatively low individual balances.

#### 15. Fund Balance

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts that can be spent only for the specific purposes stipulated by external
  resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be
  changed or lifted only with the consent of the resource providers;
- Committed fund balance amounts that can be used only for the specific purposes determined by the
  adoption of an ordinance committing fund balance for a specified purpose by the Town Council prior to
  the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until
  the resources have been spent for the specified purpose or the Council adopts another ordinance to
  remove or revise the limitation;
- Assigned fund balance amounts a government intends to use for a specific purpose but do not meet
  the criteria to be classified as committed; intent can be expressed by the governing body or by an official
  or body to which the governing body delegates the authority. Unlike commitments, assignments general
  only exist temporarily. In other words, an additional action does not normally have to be taken for the
  removal of an assignment. Conversely, as discussed above, an additional action is essential to either
  remove or revise a commitment;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only
  reported in the general fund. Additionally, any deficit fund balance within the other governmental fund
  types is reported as unassigned.

### Note 1-Summary of Significant Accounting Policies: (Continued)

15. Fund Balance (Continued)

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Town establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

#### Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

- 1. The Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The General fund has a legally adopted budget.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the fund level. Only the Town Council can revise the appropriation for each fund. The Town Manager is authorized to transfer budgeted amounts within general government departments.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all Town units. The Town does not appropriate funds for the purchase of assets with debt financing unless the proceeds are received and disbursed directly by the Town. The Town does appropriate funds for the repayment of debt on financed assets.
- 8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the Town's accounting system.
- 9. Expenditures related to finance assets in which the Town will appropriate funds for the repayment of debt; however, funds are not appropriated for payments made by third parties

#### Note 2-Stewardship, Compliance, and Accountability: (Continued)

B. Excess of expenditures over appropriations

For the year ending June 30, 2023, expenditures do not exceed appropriations for the general fund. In the water/sewer fund there was a negative budget variance of \$38,479; however, once noncash depreciation of \$519,079 was eliminated, the variance was positive. In addition, expenditures did not exceed appropriations in the electric fund.

#### C. Deficit fund balance

At June 30, 2023, no funds reported a negative fund balance; however, unrestricted net position for Governmental Activities was negative at year end.

#### Note 3-Deposits and Investments:

#### Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits.

#### Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard and Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2- 4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

The investments, as reported in the financial statements as of June 30, 2023, consist of nonnegotiable certificates of deposit with original maturity dates of 12 and 13 months, respectively, and have a balance of \$222,651 and \$329,839 at year end.

Total Other Obligations					\$ 2,227,504	\$ 104,422
Total Long-term Obligations					\$ 3,794,399	\$ 236,460

Revenue bonds are secured by revenue of the water/sewer fund.

The Town's general obligation bonds are subject to the State intercept program under which State funds may be withheld and remitted to bond holders upon the event of default.

In the event of default, outstanding amounts on bonds (all types) and notes payable may become due and payable at the option of the bondholder(s) and lender.

Other obligations of the electric and water/sewer fund are typically liquidated by those funds.

## Note 6-Capital Lease:

The Town has entered into capital leases for the purchase of Cisco Core Switches and Dell servers. These lease agreements qualify as capital leases for accounting purposes and therefore have been recorded at the present value of future minimum lease payments as of the inception date. Total capital assets acquired through capital leases are as follows:

Cisco core switches	\$ 132,867
Dell Servers	104,014
Total capital assets	236,881
Accumulated depreciation	(102,744)
Net book value of capital assets	\$ 134,137

Present value of future minimum lease payments:

Year Ending	Capital		
June 30,		Leases	
2024	\$	80,877	
Total minimum lease payments		80,877	
Less: amount representing interest		(1,955)	
Present value of future minimum lease payments	\$	78,922	

#### Note 7-Pension Plan:

#### Plan Description

All full-time, salaried permanent (professional) employees of the Political Subdivision are automatically covered by a VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

## Note 7-Pension Plan: (Continued)

	RETIREMENT PLAN PROVISIONS						
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN					
About Plan 1	About Plan 2	About the Hybrid Retirement Plan					
Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, service credit and average final compensation at retirement using a formula.	Same as Plan 1.	<ul> <li>The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan.</li> <li>The defined benefit is based on a member's age, service credit and average final compensation at retirement using a formula.</li> <li>The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.</li> <li>In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contributions, investment gains or losses, and any required fees.</li> </ul>					
Eligible Members Employees are in Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013, and they have not taken a refund. Hybrid Opt-In Election VRS non-hazardous duty-covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan's effective date for eligible Plan 1 members who opted in was July 1, 2014.	Eligible Members Employees are in Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013. Hybrid Opt-In Election Eligible Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014. The Hybrid Retirement Plan's effective date for eligible Plan 2 members who opted in was July 1, 2014.	Eligible Members Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes: • Political subdivision employees* • Members in Plan 1 or Plan 2 who elected to opt into the plan during the election window held January 1- April 30, 2014; the plan's effective date for opt-in members was July 1, 2014 *Non-Eligible Members Some employees are not eligible to participate in the Hybrid Retirement Plan.

## Note 7-Pension Plan: (Continued)

PLAN 1	PLAN 2 HYBRID RETIREMENT PLAN				
Service Credit	Service Credit Service Credit				
Service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.	Same as Plan 1.	Defined Benefit Component: Under the defined benefit component of the plan, service credit includes active service. Members earn service credit for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional service credit the member was granted. A member's total service credit is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit. Defined Contributions Component: Under the defined contribution component, service credit is used to determine vesting for the employer contribution portion of the plan.			
Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of service credit. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.	Vesting Same as Plan 1.	Vesting Defined Benefit Component: Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of service credit. Plan 1 or Plan 2 members with at least five years (60 months) of service credit who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.			
Members are always 100% vested in the contributions that they make.					

## Note 7-Pension Plan: (Continued)

PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Vesting - continued	Vesting - continued	<ul> <li>Vesting – continued Defined Contributions Component: Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.</li> <li>Members are always 100% vested in the contributions that they make.</li> <li>Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.</li> <li>After two years, a member is 50% vested and may withdraw 50% of employer contributions.</li> <li>After three years, a member is 75% vested and may withdraw 75% of employer contributions.</li> <li>After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.</li> <li>Distributions not required, except as governed by law.</li> </ul>
<b>Calculating the Benefit</b> The basic benefit is determined using the average final compensation, service credit and plan multiplier. An early retirement reduction is applied to this amount if the member is retiring with a reduced benefit. In cases where the member has elected an optional form of retirement payment, an option factor specific to the option chosen is then applied.	<b>Calculating the Benefit</b> See definition under Plan 1.	Calculating the BenefitDefined Benefit Component:See definition under Plan 1.Defined Contribution Component:The benefit is based on contributionsmade by the member and anymatching contributions made by theemployer, plus net investmentearnings on those contributions.

## Note 7-Pension Plan: (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2021, actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	40
Inactive members: Vested inactive members	3
Non-vested inactive members	9
Active elsewhere in VRS	11
Total inactive members	23
Active members	79
Total covered employees	142

#### Contributions

The contribution requirement for active employees is governed by § 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The Town's contractually required employer contribution rate for the year ended June 30, 2023, was 23.80% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$711,558 and \$682,160 for the years ended June 30, 2023, and June 30, 2022, respectively.

#### Net Pension Liability

The net pension liability (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For the Town, the net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2021, rolled forward to the measurement date of June 30, 2022.

### Note 7-Pension Plan: (Continued)

Actuarial Assumptions – General Employees

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation	2.50%
Salary increases, including inflation	3.50% - 5.35%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

Actuarial Assumptions – General Employees (Continued)

Mortality rates:

All Others (Non 10 Largest) – Non-Hazardous Duty: 15% of deaths are assumed to be service related

#### Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years.

Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

## Note 7-Pension Plan: (Continued)

Actuarial Assumptions - General Employees (Continued

The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Non-Hazardous Duty:

Mortality Rates (pre-retirement, postretirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Actuarial Assumptions - Public Safety Employees with Hazardous Duty Benefits

The total pension liability for Public Safety employees with Hazardous Duty Benefits in the Political Subdivision Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021:.

Inflation Salary increases, including inflation Investment rate of return 2.50% 3.50% – 4.75% 6.75%, net of pension plan investment expenses, including inflation

### Note 7-Pension Plan: (Continued)

Actuarial Assumptions – Public Safety Employees with Hazardous Duty Benefits (Continued

Mortality rates:

All Others (Non 10 Largest) – Hazardous Duty: 45% of deaths are assumed to be service related

Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males; 105% of rates for females set forward 2 years.

#### Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males; 105% of rates for females set forward 3 years.

Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally with a Modified MP-2020 Improvement Scale; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally with a Modified MP-2020 Improvement Scale; 110% of rates for males and females set forward 2 years.

Mortality Improvement:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Hazardous Duty:

Mortality Rates (pre-retirement, postretirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. Increased disability life expectancy. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

## Note 7-Pension Plan: (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34%	5.71%	1.94%
Fixed Income	15%	2.04%	0.31%
Credit Strategies	14%	4.78%	0.67%
Real Assets	14%	4.47%	0.63%
Private Equity	14%	9.73%	1.36%
MAPS - Multi-Asset Public Strategies	6%	3.73%	0.22%
PIP - Private Investment Partnership	3%	6.55%	0.20%
Total	100%	-	5.33%
		Inflation	2.50%
	Expect	ed arithmetic nominal return*	7.83%

\* The above allocation provides a one-year expected return of 7.83%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.72%, including expected inflation of 2.50%.

\* On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

#### Note 7-Pension Plan: (Continued)

### **Discount Rate**

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2022, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rates. For the June 30, 2021, actuarial valuations, whichever was greater. From July 1, 2022, on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability

	Increase (Decrease)					
	Total		Plan		Net	
		Pension		Fiduciary		Pension
		Liability	N	let Position		Liability
		(a)		(b)		(a) - (b)

Balances at June 30, 2022	\$	15,759,863	\$	8,417,767	\$	7,342,096

## Note 7-Pension Plan: (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town using the discount rate of 6.75%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate				
	1% Decrease	nt 1% Increase			
	(5.75%)	(6.75%)	(7.75%)		
Town Net Pension Liability	\$ 9,404,058	\$ 7,342,09	6 \$5,655,362		

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2023, the Town recognized pension expense of \$695,911. At June 30, 2023, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	214,670	\$	354,593
Change in assumptions		389,342		-
Net difference between projected and actual earnings on pension plan investments		-		234,130
Employer contributions subsequent to the measurement date		711,558		_
Total	\$	1,315,570	\$	588,723

## Note 7-Pension Plan: (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

\$711,556 reported as deferred outflows of resources related to pensions resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2024	\$ 103,173
2025	6,548
2026	(151,785)
2027	57,354
2028	-
Thereafter	-

#### Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2022 Annual Report. A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2022-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

#### Note 8-Line of Duty Act (LODA) Program:

#### Plan Description

All paid employees and volunteers in hazardous duty positions in Virginia localities and hazardous duty employees who are covered under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers' Retirement System (VaLORS) are automatically covered by the Line of Duty Act Program (LODA). As required by statute, the Virginia Retirement System (the System) is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in FY 2012. The employer contributions are determined by the System's actuary using anticipated program costs and the number of covered individuals associated with all participating employers.

## Note 8-Line of Duty Act (LODA) Program: (Continued)

The specific information for LODA OPEB, including eligibility, coverage and benefits is described below:

### Eligible Employees

The eligible employees of the LODA Program include paid employees and volunteers in hazardous duty positions in Virginia localities as well as hazardous duty employees who are covered under VRS, SPORS, or VaLORS.

## **Benefit Amounts**

The Line of Duty Act Program (LODA) provides death and health insurance benefits for eligible individuals:

- *Death:* The Line of Duty Act program death benefit is a one-time payment made to the beneficiary or beneficiaries of a covered individual. Amounts vary as follows:
  - \$100,000 when a death occurs as the direct or proximate result of performing duty as of January 1, 2006, or after.
  - \$25,000 when the cause of death is attributed to one of the applicable presumptions and occurred earlier than five years after the retirement date.
  - An additional \$20,000 benefit is payable when certain members of the National Guard and U.S. military reserves are killed in action in any armed conflict on or after October 7, 2001.
- Health Insurance: The Line of Duty Act program provides health insurance benefits:
  - The health insurance benefits are managed through the Virginia Department of Human Resource Management (DHRM). The health benefits are modeled after the State Employee Health Benefits Program plans and provide consistent, premium-free continued health plan coverage for LODA-eligible disabled individuals, survivors and family members.

#### Contributions

The contribution requirements for the LODA Program are governed by § 9.1-400.1 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Each employer's contractually required employer contribution rate for the LODA Program for the year ended June 30, 2023, was \$681.84 per covered full-time-equivalent employee. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021, and represents the pay-as-you-go funding rate and not the full actuarial cost of the benefits under the program. The actuarially determined pay-as-you-go rate was expected to finance the costs and related expenses of benefits payable during the year. Contributions to the LODA Program from the entity were \$36,128 and \$38,017 for the years ended June 30, 2023, and June 30, 2022, respectively.

#### Note 8-Line of Duty Act (LODA) Program: (Continued)

LODA OPEB Liabilities, LODA OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the LODA OPEB

At June 30, 2023, the entity reported a liability of \$992,764 for its proportionate share of the Net LODA OPEB Liability. The Net LODA OPEB Liability was measured as of June 30, 2022, and the total LODA OPEB Liability used to calculate the Net LODA OPEB Liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward to the measurement date of June 30, 2022. The entity's proportion of the Net LODA OPEB Liability was based on the entity's actuarially determined pay-as-you-go employer contributions to the LODA OPEB plan for the year ended June 30, 2022, relative to the total of the actuarially determined pay-as-you-go employer contributions for all participating employers. At June 30, 2022, the entity's proportion was 0.23121% as compared to 0.27614% at June 30, 2021.

For the year ended June 30, 2023, the entity recognized LODA OPEB expense of \$126,445. Since there was a change in proportionate share between measurement dates, a portion of the LODA OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2023, the entity reported deferred outflows of resources and deferred inflows of resources related to the LODA OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	76,271	\$	185,546
Net difference between projected and actual earnings on LODA OPEB program investments		-		4,246
Change in assumptions		276,854		244,862
Changes in proportionate share		36,961		93,976
Employer contributions subsequent to the measurement date		30,683		
Total	\$	420,769	\$	528,630

### Note 8-Line of Duty Act (LODA) Program: (Continued)

LODA OPEB Liabilities, LODA OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the LODA OPEB (Continued)

\$30,6838 reported as deferred outflows of resources related to the LODA OPEB resulting from the entity's contributions subsequent to the measurement date will be recognized as a reduction of the Net LODA OPEB Liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the LODA OPEB will be recognized in LODA OPEB expense in future reporting periods as follows:

Year Ended June 30	
2023	\$ (7,067)
2024	(6,976)
2025	(6,880)
2026	(2,363)
2027	(9,301)
Thereafter	(105,955)

#### Actuarial Assumptions

The total LODA OPEB liability was based on an actuarial valuation as of June 30, 2021, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2022.

Inflation	2.50%
Salary increase, including inflation- Locality employees	N/A
Medical cost trend rates assumption- Under age 65 Ages 65 and older	7.00% - 4.75% 5.375% - 4.75&
Year of ultimate trend rate Under age 65 Ages 65 and older	Fiscal year ended 2028 Fiscal year ended 2023
Investment rate of return	3.69%, including inflation*

\*Since LODA is funded on a current-disbursement basis, the assumed annual rate of return of 2.16% was used since it approximates the risk-free rate of return.

#### Note 8-Line of Duty Act (LODA) Program: (Continued)

Actuarial Assumptions: (Continued)

Mortality Rates - Non-Largest Ten Locality Employers with Public Safety Employees

#### Pre-Retirement:

Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years.

#### Post-Retirement:

Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3years.

#### Post-Disablement:

Pub-2010 Amount Weighted General Disabled Rates projected generationally;95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

#### Beneficiaries and Survivors:

Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years.

#### Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is75% of the MP-2020 rates.

The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (pre-retirement, postretirement healthy, and disabled)	Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Top 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change

#### Note 8-Line of Duty Act (LODA) Program: (Continued)

Net LODA OPEB Liability

The net OPEB liability (NOL) for the Line of Duty Act Program (LODA) represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the Measurement Date of June 30, 2022, NOL amounts for the Line of Duty Act Program (LODA) are as follows (amounts expressed in thousands):

Total LODA OPEB Liability	\$385,669
Plan Fiduciary Net Position	7,214
LODA Net OPEB Liability (Asset)	<u>\$378,455</u>

Plan fiduciary Net Position as a Percentage of the Total LODA OPEB Liability 1.87%

The total LODA OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

#### Long-Term Expected Rate of Return

The long-term expected rate of return on LODA OPEB Program's investments was set at 3.69% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS Pooled Investments' 6.75% assumption. Instead, the assumed annual rate of return of 3.69% was used since it approximates the risk-free rate of return. This Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Fidelity Fixed Income General Obligation 20-year Municipal Bond Index as of the measurement date of June 30, 2022.

#### Discount Rate

The discount rate used to measure the total LODA OPEB liability was 3.69%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS Statutes and that they will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2022, the rate contributed by participating employers to the LODA OPEB Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly.

## Note 8-Line of Duty Act (LODA) Program: (Continued)

Sensitivity of the Covered Employer's Proportionate Share of the Net LODA OPEB Liability to Changes in the Discount Rate

The following presents the covered employer's proportionate share of the net LODA OPEB liability using the discount rate of 3.69%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a discount rate that is one percentage point lower 2.69% or one percentage point higher 4.69% than the current rate:

	1.00	% Decrease 1.21%	Current Discount Rate 2.21%		1.00% Increase 3.21%	
Covered Employers Proportionate Share of the LODA Net OPEB Liability	\$	1,133,231	\$	992,764	\$	877,846

Sensitivity of the Covered Employer's Proportionate Share of the Net LODA OPEB Liability to Changes in the Health Care Trend Rate

Because the Line of Duty Act Program (LODA) contains provisions for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. The following presents the covered employer's proportionate share of the net LODA OPEB liability using health care trend rate of 7.00% decreasing to 4.75%, as well as what the covered employer's proportionate share of the net LODA OPEB liability would be if it were calculated using a health care trend rate that is one percentage point lower (6.00% decreasing to 3.75%) or one percentage point higher (8.00% decreasing to 5.75%) than the current rate:

	 6 Decrease reasing to 3.75%	 t Discount Rate creasing to 4.75%	 0% Increase ecreasing to 5.75%
Covered Employers Proportionate Share of the LODA Net OPEB Liability	\$ 836,620	\$ 992,764	\$ 1,188,750

#### LODA OPEB Fiduciary Net Position

Detailed information about the Line of Duty Act Program (LODA) Fiduciary Net Position is available in the separately issued VRS 2022 Annual Comprehensive Financial Report (Annual Report). A copy of the 2022 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2022-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

#### Note 9-Unearned Revenue:

Unearned revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unearned revenue totaling \$2,143,100 is comprised of the following:

Miscellaneous – Funding received in advance and carried over for use in the next fiscal year from the Department of Transportation totaling \$2,143,100.

#### Note 10-Unavailable Revenue:

Unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available under the accrual basis, assessments for future periods are deferred. Unavailable revenue totaling \$102,797 is comprised of the following:

Property Taxes - Property tax revenue representing uncollected tax billings not available for funding current expenditures of \$84,689.

Prepaid Property Taxes – Property taxes due subsequent to June 30, 2023, but paid in advance by the taxpayers totaled \$18,108.

#### Note 11-Restricted Fund Balance/Net Position:

Fund balance and net position were restricted for the following purposes at year end:

Purpose		Amount		
Bick Creek Payments	\$	62,412		
Public Safety Funds		49,791		
Fire Program Funds		69,764		
Restricted Donations		41,081		
Asset Forfeiture/Policing Funds		38,791		
Total	\$	261,839		

# Note 12-Capital Assets:

Capital asset activity for the year ended June 30, 2023, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental Activities:				
Capital assets, not being depreciated:

Business - type activities:	
Water and sewer	\$519,079
Electric	69,093
Total depreciation expense - business-type activities	\$588,172

### Note 13-Interfund Activity:

Interfund transfers for the year ended June 30, 2023, consisted of the following:

Fund	Tr	ansfers In	Tra	Transfers Out			
General Fund	\$	583,439	\$	-			
Water and Sewer Fund		-		(756,404)			
Electric Fund		-		172,965			
Total	\$	583,439	\$	(583,439)			

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the one fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

There were no interfund obligations at June 30, 2023.

### Note 14-Risk Management:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town participates with other localities in a public entity risk pool for their coverage of property, general liability and auto insurance with the Virginia Risk Sharing Association (Pool). Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The Town pays the Pool contributions and assessments into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit, or depletion of all available resources, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The Town continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

### Note15–Contingent Liabilities:

Grant funds are subject to audit by the funding agencies to determine compliance with various grant requirements. Should any expenditure be disallowed, they must be refunded to the granting agencies. Any liability for reimbursement, which may arise as the result of these audits is believed to be immaterial.

### Note 16–Electric Power Agreement:

The Town is a participant in American Municipal Power-Ohio, Inc. (AMP-Ohio), a nonprofit corporation, organized to own and operate facilities for the generation, transmission, and distribution of electrical power. Other participants in AMP-Ohio are political subdivisions which operate electric systems in Ohio, Michigan, Pennsylvania, Virginia, and West Virginia. As a participant, the Town has agreed to purchase specified kilowatts of power at AMP-Ohio's incurred cost through December 31, 2057. In accordance with this agreement the Town remits funds to an escrow account for the payment of power bills.

### Note 17–Pledged Revenues:

The Town has pledged future water and sewer customer revenues to repay water and wastewater revenue bonds. Proceeds from the bonds provided financing for the construction of the water and sewer systems.

### Note 18–Electric Rate Stabilization Plan:

The Town entered into a rate stabilization plan with American Municipal Power, Inc. to reduce the effects of volatility in energy markets. As of June 30, 2023, the Town carried a balance of \$302,638 in an escrow account maintained for the Town's benefit. This amount has been reported in the financial statements as a prepaid item.

### Note 19-Service Agreements:

On September 3, 2003, the Town and Tazewell County Public Service Authority (TCPSA) entered into an agreement to share the costs of construction and operation of a water transmission facility known as Kent's Ridge Road Project. The project was financed by two thirty-year, interest-free loans from the Virginia Resources Authority (VRA). The loans are secured by a pledge of revenues from the Town's water and wastewater systems and by a pledge of the Town's full faith and credit. Also, County of Tazewell, Virginia has undertaken, to the extent permitted by law, a non-binding but moral obligation to pay such amounts as may be needed, with respect to the notes, for the payment of principal and interest pursuant to the terms of the agreement. The Town has recorded an amount due from the TCPSA of \$882,228 at year end for their share of debt service payments.

The Town has also entered into separate agreements with the TCPSA and Town of Cedar Bluff, Virginia to provide water treatment. The agreements allocate operating costs and the cost of construction based on usage (or an estimate thereof).

The Town; Town of Cedar Bluff, Virginia; and Tazewell County Public Service Authority (TCPSA) entered into an agreement dated March 15, 1989, whereby each of the parties would participate in the allocation of capacity and costs with respect to the design, construction, operation and maintenance of a regional wastewater treatment facility. The Town is responsible for the operation of the facility. The Town is also responsible for budgeting and financing subject to agreed upon procedures by the three participants. Monthly user charges are paid by the participants for their share of the cost of the project and are recognized as charges for services in the accompanying financial statements.

### Note 19-Service Agreements: (Continued)

Payments received by the Town during the fiscal year for the aforementioned agreements are as follow:

Entity	Amounts
Town of Cedar Bluff	\$ 153,696
Tazewell County PSA	715,944
Tazewell County PSA - loan payments	60,660
Total	\$930,300

Note 20-Pandemic Funding and Subsequent Event:

The COVID-19 pandemic and its impact on operations continues to evolve. Specific to the Town, COVID-19 impacted various parts of its 2023 operations and financial results including, but not limited to, costs for emergency preparedness and shortages of personnel. Federal relief has been received through various programs. Management believes the Town is taking appropriate actions to mitigate the negative impact. The extent to which COVID-19 may impact operations in subsequent years remains uncertain, and management is unable to estimate the effects on future results of operations, financial condition, or liquidity for fiscal year 2024.

### ARPA Funding

On March 11, 2021, the American Rescue Plan (ARPA) Act of 2021 was passed by the federal government. A primary component of the ARPA was the establishment of the Coronavirus State and Local Fiscal Recovery Fund (CSLFRF). Local governments are to receive funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered approximately 12 months later.

On June 30, 2021, the Town received its share of the first half of the CSLFRF funds. As a condition of receiving CSLFRF funds, any funds unobligated by December 31, 2024, and unexpended by December 31, 2026, will be returned to the federal government. The Town elected to use the lost revenues and payroll standard allowance and recognized the first half as revenue in the fiscal year ending June 30, 2022. The Town received the second half of the funds early in fiscal year 2022.

### Note 21-Upcoming Pronouncements:

Statement No. 99, *Omnibus 2022*, enhances the comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The effective dates differ based on the requirements of the Statement, ranging from April 2022 to reporting periods beginning after June 15, 2023.

Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62, enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for reporting periods beginning after June 15, 2023.

Statement No. 101, *Compensated Absences*, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2023.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

### Town of Richlands, Virginia Notes to Required Supplementary Information Pension Plan For the Year Ended June 30, 2023

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non 10 Largest) – Non-Hazardous Duty:	
Mortality Rates (pre-retirement, post-retirement healthy,	Update to PUB2010 public sector mortality tables. For
and disabled)	future mortality improvements, replace load with a
	modified Mortality Improvement Scale MP-2020.
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set
	separate rates based on experience for Plan 2/Hybrid;
	changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each year age
	and service through 9 years of service
Disability Rates	No Change
Salary Scale	No change
Line of Duty Disability	No Change
Discount Rate	No Change

	Net LODA OPEB	NetL	_ODA OPEB	E	Employee	Covered-Employee Payroll	Percentage of Total
Date	Liability (Asset)	Lial	oility (Asset)		Payroll*	(3)/(4)	LODA OPEB Liability
(1)	(2)		(3)		(4)	(5)	(6)
2022	0.26232%	\$	992,764	\$	1,568,645	63.29%	1.87%
2021	0.27614%		1,217,754		1,494,696	81.47%	1.68%
2020	0.27524%		1,152,748		1,479,088	77.94%	1.02%
2019	0.28920%		1,037,717		1,426,561	72.74%	0.79%
2018	0.28230%		885,000		1,369,285	64.63%	0.60%
2017	0.26300%		691,000		1,312,173	52.66%	1.30%

Schedule is intended to show information for 10 years. Since 2022 is the sixth year for this presentation, there are only six years available. However, additional years will be included as they become available.

The contributions for the Line of Duty Act Program are based on the number of participants in the program using a per capita-based contribution versus a payroll-based contribution. Therefore, covered-employee payroll is the relevant measurement, which is the total payroll of the employees in the OPEB plan.

2018		30,071		30,071		-	1,369,285	2.20%
2017		28,369		28,369		-	1,312,173	2.16%

\*The contributions for the Line of Duty Act Program are based on the number of participants in the Program using a per capita-based contribution versus a payroll-based contribution. Therefore, covered-employee payroll is the relevant measurement, which is the total payroll of employees in the OPEB plan.

### Town of Richlands, Virginia Notes to Required Supplementary Information Line of Duty Act (LODA) Program For the Year Ended June 30, 2023

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2021, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020. Changes to the actuarial assumptions as a result of the experience study are as follows:

Mortality Rates (pre-retirement, post-retirement healthy,	Update to PUB2010 public sector mortality tables.
and disabled)	Increased disability life expectancy. For future mortality
	improvements, replace load with a modified Mortality
	Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final
	retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age
	and service to rates based on service only to better fit
	experience and to be more consistent with Locals Top
	10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change

Employees in the Non-Largest Ten Locality Employers with Public Safety Employees

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Members of the Town Council Town of Richlands, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Town of Richlands, Virginia, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Town of Richlands, Virginia's basic financial statements and have issued our report thereon dated March 18, 2024.

### **Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Town of Richlands, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Richlands, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Richlands, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2023-001 that we consider to be material weaknesses.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Town of Richlands, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and questioned costs as items 2023-001.

### Town of Richlands, Virginia's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Town of Richlands, Virginia's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Town of Richlands, Virginia's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Members of the Town Council Town of Richlands, Virginia

### Report on Compliance for Each Major Federal Program

### **Opinion on Each Major Federal Program**

We have audited Town of Richlands, Virginia's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Town of Richlands, Virginia's major federal programs for the year ended June 30, 2023. Town of Richlands, Virginia's major federal programs of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Town of Richlands, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Town of Richlands, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Town of Richlands, Virginia's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Town of Richlands, Virginia's federal programs.

### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Town of Richlands, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Town of Richlands, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

• Exercise professional judgment and maintain professional skepticism throughout the audit.

• Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Town of Richlands, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

• Obtain an understanding of Town of Richlands, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Town of Richlands, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2023-001. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Town of Richlands, Virginia's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Town of Richlands, Virginia's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Department of Justice Pass Through Payments: Virginia Department of Criminal Justice Services Edward Byrne Memorial Justice Assistance Grant Program Total Department of Justice	16.738	5,682
Executive Office of the President: Pass Through Payments: Appalachia HIDTA High Intensity Drug Trafficking Areas Grant Total Executive Office of the President	95.001	<u> </u>
Total Expenditures of Federal Awards		\$ 2,741,689

Notes to the schedule of expenditures of federal awards:

### **Basis of Presentation**

The schedule of expenditures of federal awards includes the federal award activity of the Town of Richlands under programs of the federal government for the year ended June 30, 2023. The information in this schedule is presented in accordance with the requirements of Title 2 US Code of Federal Regulations Part 200 Uniform Administrative Requirement, Cost Principle and Audit Requirement for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Town, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the Town.

#### **Summary of Significant Accounting Policies**

Expenditures on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for changes made to reflect amounts in accordance with generally accepted accounting principles.

### Subrecipients

The Town did not have any subrecipients for the year ended June 30, 2023.

### **De Minimus Cost Rate**

The Town did not elect to use the 10% de minimus cost rate.

### **Major Program**

\* Denotes a major program.

### Town of Richlands, Virginia Schedule of Findings and Responses For the Year Ended June 30, 2023

### Section I – Summary of Auditors' Results

Financial Statements	
Type of auditors' report issued:	Unmodified
Internal control over financial reporting:	
Were there any material weaknesses in internal control reported at the financial statement level (C	GAGAS) Yes
Were there any significant deficiencies in internal control reported at the financial statement Level (GAGAS)?	None reported
Was there any reported material noncompliance at the financial statement level (GAGAS)?	Yes

# Section II – Financial Statement Findings

<u>2023-001</u> (Material Weakness)	
Criteria:	The State Highway Funds are intended to be expended in the year in which they are received. Recipients should have internal controls in place to ensure that funds are expended in the time period intended.
Condition:	At June 30,2023, the Town had accumulated deferred revenue of \$2.143 million of State Highway Funds. These funds accumulated as a result of budgeted underspending in the grant over several years. While the Town has a process for tracking the spent and unspent portions of the grant, they failed to incorporate this information into the budget process.
Effect of Conditions:	The Town is out of compliance with the terms of the grant. There is a reasonable possibility that a material misstatement of the financial statements could occur if the funds are disallowed by the grant.
Recommendation:	The Town should incorporate the status of the unspent funds into budget planning in future years. The Town should identify projects that qualify under the program and expend the accumulated funds as soon as practicable.
Managements' Response:	Management is in the process of identifying projects and contracting for their completion. The status of unspent funds will be considered as a part of future budgeting processes.
Drier Veer Eindinge	

# **Prior Year Findings**

2022-001 In the prior period the Town had significant deferred revenue as a result of budgeted underspending of State Highway Funds. This finding recurs in the current year audit as finding 2023-001.
