Public Notice - Delay of FY25 Audit Completion

Section 15.2-2510 of the Code of Virginia requires local governments to submit the Comparative Report Transmittal Forms and their audited Annual Financial Reports to the Auditor of Public Accounts by December 15 each year.

Due to unforeseen staffing changes and shortages within the Finance Department, the Isle of Wight County's submission for the fiscal year ended June 30, 2025, missed the required deadline of December 15, 2025.

The County understands the importance of complying with this requirement and takes seriously its duty to provide timely and accurate financial information to its stakeholders. The County is working diligently with the respective component unit to resolve the outstanding issue and expects to be able to submit its required annual filing no later than February 28, 2026.
