#### **Independent Auditors' Report**

### THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF PATRICK, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the County of Patrick, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Patrick, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, *and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Patrick, Virginia, as of June 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 7, 2012, on our consideration of the County of Patrick, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, schedules of funding progress in accordance with auditing standards generally accepted in the United States of

America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Patrick, Virginia's financial statements as a whole. introductory section, other supplementary information, supporting schedules, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the County of Patrick, Virginia. The other supplementary information, supporting schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Patrick County, Virginia, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with the basic audited financial statements.

#### Financial Highlights:

- The assets of the County's governmental activities exceeded its liabilities at the close of the fiscal year by \$22,972,735 (net assets). Of this amount, \$13,246,806 was considered unrestricted.
- The assets of the County's business-type activities exceeded its liabilities at the close of the fiscal year by \$599,811 (net assets).
- The assets of the School Board component unit exceeded its liabilities at the close of the fiscal year by \$8,874,400 (net assets).
- The assets of the EDA component unit exceeded its liabilities at the close of the fiscal year by \$4,218,419 (net assets). Of this amount, \$2,299,423 was considered unrestricted.
- As of the close of the current fiscal year, the County's reported combined ending fund balance was \$11,051,990. Of the amount, \$7,656,625 was considered unassigned and \$3,395,365 was considered restricted.
- During the year, the County's governmental revenues exceeded expenditures by \$324,239.

#### Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

<u>Government-wide Financial Statements</u> - The Government-wide Financial Statements are designed to provide the readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the Government-wide Financial Statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Our governmental activities include general government, courts, public safety, sanitation, social services, education, cultural events, and recreation. Our business-type activities are for public utilities.

The Government-wide Financial Statements include, not only the County of Patrick, Virginia itself (known as the primary government), but also a PSA Fund (known as business-type activities) and a legally separate school board for which the County of Patrick, Virginia is financially accountable. The financial statements also include the Economic Development Authority, a discretely presented component unit that we do not control, but do exercise a significant financial relationship with.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Patrick, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the Government-wide Financial Statements. However, unlike the Government-wide Financial Statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains four individual governmental funds. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Capital Projects Fund, the Law Library Fund, and the Asset Forfeiture Fund, of which the General Fund and Capital Projects Fund are considered to be major funds. Individual fund data for each of two non-major funds are shown elsewhere in this report.

The County adopts an annual appropriated budget for its Governmental funds. Budgetary comparison statements have been provided to demonstrate compliance with this budget.

<u>Proprietary Funds</u> - The County maintains two proprietary funds. The PSA Fund accounts for activities similar to those found in the private sector. The Health Insurance Fund, an internal service fund, maintains funds for employee insurance premiums to pay health insurance claims.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds and expendable trust funds. We are responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's Government-wide Financial Statements because the County cannot use these assets to finance its operations. The county has three fiduciary funds: Special Welfare, Dehart Cemetery, and Sheriff's Fund.

<u>Notes to the Financial Statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and Fund Financial Statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison and presentation of combining financial statements for the discretely presented component units and the non-major funds.

#### Government-wide Financial Analysis

As noted earlier, net assets may serve as a useful indicator of a County's financial position. In the case of the of the County's Primary Government, assets exceed liabilities by \$23,572,546 at the close of the most recent fiscal year.

The largest portion of the County's net assets, \$10,530,290, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, infrastructure, and construction in progress), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining balance of net assets, \$13,042,256, may be used to meet the County's ongoing obligations.

The following table summarizes the County's Statement of Net Assets for 2012 and 2011.

#### Statement of Net Assets

	Bus	nmental and siness-type activities 2012	Busi	nmental and ness-type ctivities 2011
Current and other assets Capital and other assets	\$	18,939,789 51,501,357	\$	15,370,234 51,939,137

Current and other liabilities Long-term liabilities	\$	5,342,047 41,526,553	\$	6,021,855 43,273,160
Total Liabilities	\$	46,868,600	\$	49,295,015
Net assets: Invested in capital assets, net of related				
debt Ó Unrestricted	\$	10,530,290 13,042,256	\$	11,622,578 6,391,778
Total net assets	\$	23,572,546	\$	18,014,356

#### Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the County's governmental funds reported

combined ending fund balances of \$11,051,990. Approximately 30.7% of this total amount, \$3,395,365, constitutes restricted fund balance, which is not available for current spending since it has been restricted by external parties such as grantors, laws or legislation. The remaining balance, \$7,656,625, or 69.3% is unassigned, meaning there are no restrictions placed on the funds.

The general fund is the operating fund of the County. At the end of the current fiscal year, total fund balance of the general fund was \$7,656,625, all of which is considered unassigned.

Total governmental fund revenues increased \$1,710,020 and expenses decreased \$10,254,929 over prior year amounts. For fiscal year ended June 30, 2012, revenues exceeded expenses by \$324,239, as compared to the fiscal year ended June 30, 2011, expenses exceeded revenues by \$11,640,710.

#### General Fund Budgetary Highlights

There were differences between the original budget and the final amended budget for the current year.

#### Capital Assets and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental funds as of June 30, 2012 amounts to \$47,728,337 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, and construction in progress. Investment in capital assets for business-type activities amounts to \$3,773,020 (net of accumulated depreciation). This investment in capital assets is for public utilities. Capital asset activity for the school board as of June 30, 2012, amounts to \$8,885,487 (net of accumulated depreciation).

Additional information on the County of Patrick's capital assets can be found in Note 12 of this report.

<u>Long-term liabilities</u> - At the end of the current fiscal year, the County had total debt outstanding as follows:

Primary Government:	
Bonds and notes	\$ 8,902,901
Lease Revenue Notes	23,630,000
Bond Premiums	266,478
Bond Discount	(149,642)
Literary Loans	2,250,000
Capital Leases	3,102,671
Compensated Absences	508,687
OPEB Obligation	46,799
Total	\$ 38,557,894
Business-type Activities:	
Rural Development Loans	2,968,659
Total	\$ 2,968,659

Additional information on the County of Patrick's long-term debt can be found in Note 7 of this report.

Component Unit: School	
Board	
OPEB Obligation	\$ 457,431
Compensated Absences	391,312
Total	\$ 848,743

Additional information on the County of Patrick's long-term debt for the School Board can be found in Note 9 of this report.

#### **Economic Factors**

The June 2012 unemployment rate for the County of Patrick, Virginia was 7.7%, which is a decrease from the rate of 8.6% in June 2011.

#### Request for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, PO Box 466, Stuart, Virginia 24171.

## County of Patrick, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2012

Amounts reported for governmental activities in the statement of net assets are different because:
Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 11,051,990

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

47,728,337

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

809,425

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.

1,531,816

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

(38, 148, 832)

Net assets of governmental activities

\$ 22,972,736

#### County of Patrick, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2012

attributed for governmental activities in the statement of activities are different because.

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 3,698,468
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded	
depreciation in the current period.	63,645
The net effect of various miscellaneous transactions involving capital assets (I.e., sales, trade-ins, and donations) is to decrease net assets.	(1,536,234)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	127,014
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect	
of these differences in the treatment of long-term debt and related items.	3,318,107
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	(91,833)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.	502,995
Change in net assets of governmental activities	\$ 6,082,162

#### County of Patrick, Virginia

Notes to Financial Statements As of June 30, 2012

#### Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

#### A. Financial Reporting Entity

The County of Patrick, Virginia is a municipal corporation governed by an elected five-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

#### Blended component units - None

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Patrick County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue a separate financial statement.

The Patrick County Economic Development Authority (EDA) was created to acquire, own, lease and dispose of properties to the end that such activities may promote industry and develop trade by inducing enterprises to locate and remain in Patrick County, Virginia. The Authority is also authorized to issue revenue bonds for the purpose of obtaining and constructing facilities. The Authority is governed by eight directors appointed by the Board of Supervisors of Patrick County, Virginia. A separate financial statement may be obtained by contacting the EDA.

#### Related Organizations - None

#### Jointly Governed Organizations:

- 1. The County and the City of Martinsville participate in supporting the Blue Ridge Regional Library. For the fiscal year ended June 30, 2012, the County contributed \$261,982 to the Library.
- 2. The County and the County of Franklin and the City of Martinsville participate in supporting the Piedmont Regional Community Services Board. For the fiscal year ended June 30, 2012 the County contributed \$42,213 to the Community Services Board.

#### Note 1-Summary of Significant Accounting Policies: (continued)

#### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of net assets is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide statement of net assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

#### Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. The General Fund includes the activities of the Courthouse Maintenance, Contingency, Inmate Medical, CAP Depreciation, VPA, CSA, Dare, Sheriff's Vending, Capital Projects and Courthouse Security Funds.

The School Capital Projects fund is used to account for and report financial resources to be used for the acquisition or construction of major capital facilities of the School Board.

The Jail Construction Capital Projects fund is used to account for and report financial resources to be used for the acquisition or construction of major capital facilities of the Patrick County Sheriff's Office.

The government reports the following nonmajor governmental funds:

Special Revenue Funds account for the proceeds of specific revenue sources (other than those dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The Law Library and Asset Forfeiture Funds are reported as nonmajor special revenue funds.

Capital Projects Funds account for and report financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by Proprietary Funds. The Park Construction Fund is reported as a nonmajor capital projects fund.

#### Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

Additionally, the government reports the following fund types:

Internal Service Funds account for the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The Internal Service Funds consist of the Self-health Insurance Fund.

Fiduciary Funds (Trust and Agency Funds) account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. Agency funds include the Special Welfare, DeHart Cemetery and the Jail Canteen fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between departments of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

Remaining portion of this page left blank intentionally

#### Note 1-Summary of Significant Accounting Policies: (continued)

#### D. Assets, liabilities, and net assets or equity

#### 1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

#### Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, if any, are offset by a fund balance nonspendable account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### 3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable on June 5<sup>th</sup> and December 5<sup>th</sup>. Personal property taxes are due and collectible annually on December 5<sup>th</sup>. The County bills and collects its own property taxes.

#### 4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$80,957 at June 30, 2012 and is comprised solely of property taxes.

#### 5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Note 1-Summary of Significant Accounting Policies: (continued)

#### D. Assets, liabilities, and net assets or equity (continued)

#### 6. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment and infrastructure of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	40
Structures, lines, and accessories	20-40
Machinery and equipment	5-30

#### 7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

#### 8. Long-term obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

#### Note 1-Summary of Significant Accounting Policies: (continued)

#### D. Assets, liabilities, and net assets or equity (continued)

#### 8. Long-term obligations (continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 9. Fund equity

Fund balances, presented in the governmental fund financial statements, represent the difference between assets and liabilities reported in a governmental fund. GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental funds. This standard (implemented in 2011) has not affected the total amount of reported fund balances but has substantially changed the categories and terminology used to describe their components. GASB Statement No. 54 requires that fund balances be classified into categories based upon the type of restrictions imposed on the use of funds. The County of Patrick, Virginia evaluated its funds at June 30, 2012 and classified fund balance into the following five categories:

<u>Non-spendable</u> - amounts that cannot be spent because they are not in spendable form, such as prepaid items and inventory or are required to be maintained intact (corpus of a permanent fund).

<u>Restricted</u> - amounts that are restricted by external parties such as creditors or imposed by grants, law or legislation

<u>Committed</u> - amounts constrained to specific purposes by the government itself, using its highest level of decision making authority, which the County of Patrick, Virginia considers to be the Board of Directors; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

<u>Assigned</u> - amounts that have been allocated by committee action where the government's intent is to use the funds for a specific purpose. The County of Patrick, Virginia considers this level of authority to be the Board of Directors or any Committee granted such authority by the Board of Directors.

<u>Unassigned</u> -this category is for any balances that have no restrictions placed upon them; positive amounts are only reported in the general fund.

#### Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

#### 10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

#### 11. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in government-wide statements.

#### Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between fund balance-total governmental funds and net assets-governmental activities as reported in the government-wide statements of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these \$(38,148,832) and \$(848,743) differences for the primary government and discretely presented component unit, respectively, are as follows:

		Primary	Component Unit
	سيه	Government	School Board
Bonds and Notes	\$	(8,902,901) \$	-
Lease revenue note		(23,630,000)	<b>.</b>
Unamortized premium		(266,477)	-

Capital Leases		(3,102,671)	-
Accrued interest		(595,895)	-
OPEB Obligation		(46,799)	(457,431)
Compensated absences		(508,687)	(391,312)
Bond issue discount		149,642	-
Bond cost of issuance	_	1,004,956	
Net adjustment to reduce fund balance-total governmental			
funds to arrive at net assets-governmental activities	\$_	(38,148,832)	(848,743)

#### Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of these \$63,645 and \$(889,607) differences for the primary government and discretely presented component unit, respectively, are as follows:

	_	Primary Government		Component Unit School Board
Capital outlays Asset disposals Depreciation expenses	\$	1,441,779 (7,365) (1,370,769)	\$	124,824 (397,018) (617,413)
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$ <u>_</u>	63,645	\$	(889,607)

Another element of that reconciliation states "The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins, casualty, and donations) is to increase net assets". The details of this (\$1,536,234) difference in the primary government are as follows:

	_	Primary Government
Net book value of elementary school destroyed by fire	\$_	(1,536,234)
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net assets of governmental activities	\$	(1,536,234)

#### Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities: (continued)

Another element of that reconciliation states "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$3,318,107 difference in the primary government are as follows:

		Primary
		Government
Principal repayments:		
General obligation debt	\$	834,205
Literary loans		195,000
Capital lease		156,222
Note Payable - Patrick EDA	_	2,132,680
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net		
assets of governmental activities	\$_	3,318,107

(Increase) decrease in bond issuance costs		(37,072)		-
(Increase) decrease in accrued interest	_	3,450		<u>.                                    </u>
Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at changes in net				
assets of governmental activities	\$_	(91,833)	\$_	(91,013)

# Note 3-Stewardship, Compliance, and Accountability:

#### A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The following funds have legally adopted budgets: General Fund and the School Operating Fund.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.

Notes to Financial Statements As of June 30, 2012 (Continued)

# Note 3-Stewardship, Compliance, and Accountability: (Continued)

#### A. Budgetary information (continued)

- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund), Debt Service Funds, and the General Capital Projects Funds. The School Operating Fund and School Capital Projects Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- Budgetary data presented in the accompanying financial statements is the revised budget as of June 30, and the original budget adopted by the Board of Supervisors.
- Excess of expenditures over appropriations
   For fiscal year ended June 30, 2012, there were not any funds/departments that over expended appropriations.
- 10. Deficit fund equity
  At June 30, 2012, there were no funds with deficit fund equity.

#### Note 4-Deposits and Investments:

#### Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Notes to Financial Statements As of June 30, 2012 (Continued)

Note 4-Deposits and Investments: (Continued)

Credit Risk of Debt Securities:

The County has not adopted an investment policy for credit risk.

The County's and School's rated debt investments as of June 30, 2012 were rated by Standard and Poor's and/or an equivalent national rating organization and the ratings are presented below using the Standard and Poor's rating scale.

#### County's Rated Debt Investments' Values

Rated Debt Investments	Fair Quality Ratings			
		AAAm		ated
LGIP	\$	4,178,882	\$	-
SNAP		277,627		-
Total	\$	4,456,509	\$	-

#### Concentration of Credit Risk:

At June 30, 2012, the County did not have any investments meeting the GASB 40 definition requiring concentration of credit risk disclosures that exceeded 5% of total investments.

#### Interest Rate Risk:

At June 30, 2012, the County did not have any investments meeting the GASB 40 definition requiring interest rate risk disclosures.

#### External Investment Pools:

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the external investment pool (Local Government Investment Pool (LGIP)) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

# Note 8-Capital Lease:

### Primary Government:

The County has entered into a lease agreement to finance the acquisition of energy efficient equipment to be used by the public schools. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of minimum lease payments at the date of inception.

The asset acquired through capital lease is as follows:

Energy Efficient Equipment	\$ 3,142,372
Less: Accumulated depreciation	(52,086)
Net Asset	\$ 3,090,286

The future minimum lease obligation and the net present value of the minimum lease payments as of June 30, 2012, are as follows:

# Note 10-Employee Retirement System and Defined Benefit Pension Plans:

#### A. Plan Description

Name of Plan:

Virginia Retirement System (VRS)

Identification of Plan:

Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension

Plan

Administering Entity:

Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are
  covered under Plan 1. Non-hazardous duty members are eligible for an unreduced
  retirement benefit beginning at age 65 with at least five years of service credit or age 50
  with at least 30 years of service credit. They may retire with a reduced benefit early at
  age 55 with at least five years of service credit or age 50 with at least 10 years of service
  credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements As of June 30, 2012 (Continued)

#### Note 10-Employee Retirement System and Defined Benefit Pension Plans: (Continued)

#### A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at <a href="http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf</a> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### B. Funding Policy

#### Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County of Patrick, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Patrick, Virginia's contribution rate for the fiscal year ended 2012 was 16.35% of annual covered payroll.

#### Discretely Presented Component Unit - School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution rate for the fiscal year ended 2012 was 13.29% of annual covered payroll.

# Note 10-Employee Retirement System and Defined Benefit Pension Plans: (Continued)

#### C. Annual Pension Cost

For Fiscal year 2012, the County of Patrick, Virginia's annual pension cost of \$512,460 and \$142,755 was equal to the County of Patrick, Virginia's required and actual contributions for the County and the School Board Non-Professionals, respectively.

Three-Year Trend Information

	Fiscal Year Ending	Annual Pension Cost (APC) <sup>1</sup>		Percentage of APC Contributed	Per	Net nsion gation

	6/30/2012		142,755	100.00%		-

<sup>&</sup>lt;sup>1</sup> Employer portion only

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County of Patrick, Virginia's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County of Patrick, Virginia's and the School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Notes to Financial Statements As of June 30, 2012 (Continued)

#### Note 10-Employee Retirement System and Defined Benefit Pension Plans: (Continued)

#### D. Funded Status and Funding Progress

#### Primary Government:

As of June 30, 2011, the most recent actuarial valuation date, the plan was 74.83% funded. The actuarial accrued liability for benefits was \$18,732,390, and the actuarial value of assets was \$14,016,695, resulting in an unfunded actuarial accrued liability (UAAL) of \$4,715,695. The covered payroll (annual payroll of active employees covered by the plan) was \$4,477,663, and ratio of the UAAL to the covered payroll was 105.32%.

#### Discretely Presented Component Unit - School Board (Non-Professional Employees):

As of June 30, 2011, the most recent actuarial valuation date, the plan was 78.67% funded. The actuarial accrued liability for benefits was \$6,584,754, and the actuarial value of assets was \$5,180,213, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,404,541. The covered payroll (annual payroll of active employees covered by the plan) was \$1,644,214, and ratio of the UAAL to the covered payroll was 85.42%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

# E. Discretely Presented Component Unit-School Board (Professional Employees)

#### Plan Description

The Patrick County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia. The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <a href="http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf</a> or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### **Funding Policy**

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees, not including the 5.00% member contribution, was \$777,609, \$485,273, and \$1,102,082 for the fiscal years ended 2012, 2011, and 2010, respectively. Required employer contributions represented 6.33%, 3.93%, and 8.81% of covered payroll for the fiscal years ended 2012, 2011, and 2010, respectively.

Notes to Financial Statements As of June 30, 2012 (Continued)

#### Note 11-Deferred/Unearned Revenue:

Governmental funds report *deferred revenue* in connection with receivables for revenues not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unearned</u>	Deferred
Deferred property taxes receivable	\$ 3,235,331 \$	4,044,605
Prepaid taxes	909,490	909,490
Total deferred/unearned revenue for governmental funds	\$ 4,144,821 \$	4,954,095

#### Note 13-Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County participates with other localities in a public entity risk pool for their coverage of general liability, property, crime and auto insurance with the Virginia Association of Counties Risk Pool. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County pays the Risk Pool contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit - School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### Note 14-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

# Note 16-Other Post-Employment Benefits (OPEB) Health Insurance:

#### A. Plan Description

The County of Patrick and Patrick County's Component Unit - School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees and their dependents in the health insurance programs available to County and School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the County and School Board. An eligible retiree may receive this benefit until the retiree is eligible to receive Medicare.

To be eligible for this benefit, public safety and general employees hired before July 1, 2010 must meet at least one of the following criteria: attained age 50 and 30 years of service, attained age 55 and 5 years of service, or disabled with no age or service requirements. General employees hired on or after July 1, 2010 must meet at least one of the following criteria: attained age plus years of service equal to or greater than 90 points, attained age 60 and 5 years of service, or disabled with no age or service requirements. In addition, the School System has an Early Retirement Incentive Program that allows retirees to continue working and receive special benefits for seven years if they retire after age 50 with 20 years as a participant of the Virginia Retirement System and have a minimum of 10 years of full-time employment with Patrick County School System. The benefits, employee contributions and the employer contributions are governed by the Board of Supervisors and the School Board and can be amended through the Board of Supervisors and the School Board action, respectively. The Plan does not issue a publicly available financial report.

# B. Funding Policy

The County and School Board currently pay for the post-retirement health care benefits on a pay-as-you-go basis. The County and School Board currently have 82 and 238 employees that are eligible for the program. In addition, for retirees of the County, 100 percent of premiums are the responsibility of the retiree. The School System pays \$345.84 toward the monthly medical premium for retirees while they participate in the Early Retirement Incentive Program. For employees who receive the Virginia Retirement System Health Insurance Credit, the School System's contribution is reduced by this credit. Each Incentive participant must pay the amount of the premium in excess of \$345.84.

Note 16-Other Post-Employment Benefits (OPEB) Health Insurance: (Continued)

#### B. Funding Policy (Continued)

Health benefits include Medical, Dental, and Vision coverage for retirees and eligible spouses/dependents. Retirees are eligible to choose one of the following medical options through the County and School Board. The rates are as follows:

		Retiree and	Retiree and	Retiree and	
	Employee	Spouse	Child	Children	Family
PPO 1000 Wellness	5 545.84 \$	1,095.84 \$	690.84 \$	945.84 \$	1,345.84
PPO 1000 Non- Wellness	620.84	1,170.84	765.84	1,020.84	1,420.84
PPO 2000 Wellness	442.87	965.40	632.42	854.58	1,193.98
PPO 2000 Non- Wellness	517.87	1,040,40	707.42	929.58	1,268.98
Dental	29.98	59.73	59.73	95.66	95.66
Vision	11.65	17.59	16.75	26.45	26.45

#### C. Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual OPEB cost (expense) is based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2012, the County's annual OPEB cost (expense) of \$22,484 exceeded its contribution of \$10,300. The obligation calculation is as follows:

Annual required contribution	\$	23,100
Interest on net OPEB obligation		1,385
Adjustment to annual required contribution		(2,001)
Annual OPEB cost (expense)	_	22,484
Contributions made		10,300
Increase in net OPEB obligation	_	12,184
Net OPEB obligation - beginning of year	_	34,615
Net OPEB obligation - end of year	\$	46,799

# Notes to Financial Statements As of June 30, 2012 (Continued)

# Note 16-Other Post-Employment Benefits (OPEB) Health Insurance: (Continued)

# C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years were as follows:

	Percentage of						
Fiscal	Annual	Annual OPEB Cost	Net OPEB				
Year Ended	OPEB Cost	Contributed	Obligation				
	_						
6/30/2012 \$	22,484	46%	46,799				
6/30/2011	22,702	46%	34,615				
6/30/2010	24,563	56%	11,500				

For 2012, the School Board's annual OPEB cost (expense) of \$259,228 exceeded its contribution of \$147,950. The obligation calculation is as follows:

Annual required contribution	\$	265,400
Interest on net OPEB obligation		13,846
Adjustment to annual required contribution	_	(20,018)
Annual OPEB cost (expense)		259,228
Contributions made		147,950
Increase in net OPEB obligation	_	111,278
Net OPEB obligation - beginning of year		346,153
Net OPEB obligation - end of year	\$	457,431

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB Cost	Net OPEB
Year Ended	OPEB Cost	Contributed	Obligation
6/30/2012	\$ 259,228	56%	457,431
6/30/2011	261,075	57%	346,153
6/30/2010	277,078	54%	242,578

# Notes to Financial Statements As of June 30, 2012 (Continued)

Note 16-Other Post-Employment Benefits (OPEB) Health Insurance: (Continued)

#### D. Funded Status and Funding Progress

The funded status of the Plan for the County as of January 1, 2011, the date of most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$ 184,800
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 184,800
Funded ratio (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 3,043,300
UAAL as a percentage of covered payroll	6.07%

The funded status of the Plan for the School Board as of January 1, 2011, the date of the most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$ 2,098,300
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 2,098,300
Funded ratio (actuarial value of plan assets / AAL)	0.00%
Covered payroll (active plan members)	\$ 8,588,600
UAAL as a percentage of covered payroll	24.43%

Actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

Notes to Financial Statements As of June 30, 2012 (Continued)

#### Note 16-Other Post-Employment Benefits (OPEB) Health Insurance: (Continued)

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

#### E. Actuarial Methods and Assumptions (Continued)

As of January 1, 2011, the most recent actuarial valuation date, the projected unit of credit actuarial cost method was used. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility. The actuarial assumptions included: inflations at 2.5 percent, plus productivity component of 1.25 percent, and investments rate of return at 4.00 percent, and a health care trend rate of 6.40 percent graded to 4.70 percent over 80 years. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2012 was 29 years.

# Note 17-VRS Health Insurance Credit Program - Other Post-Employment Benefits (OPEB):

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 10.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 0.60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2012, 2011, and 2010 were \$73,707, \$74,087, and \$101,224, respectively and equaled the required contributions for each year.

Notes to Financial Statements As of June 30, 2012 (Continued)

#### Note 18-School Board Early Retirement Incentive Program:

The Patrick County School Board offers all eligible full-time employees an early retirement incentive plan. Early retirement is available to those contracted employees who are members of the Virginia Retirement System (VRS) and are eligible to retire with the VRS. The employee must have attained age 50 and not having attained age 65. The employee must have a minimum of 20 years as a participant in the VRS with a minimum of 10 years full-time employment with the Patrick County School Board, including a minimum of five years of full-time employment with Patrick County immediately preceding application for the early retirement program. Additionally, the current full-time employee must be in good standing with the Patrick County School Board and the reason for termination of employment must be retirement. Finally, participants must be approved by the School Board based on availability of funds in the Board's annual budget. The program allows for several different methods of payment depending upon the number of months the participant wishes to be paid. The School Board reserves the right to amend or terminate the program.

Employees may participate in the plan for a maximum of seven years or until the appropriate age for receipt of social security benefits, whichever occurs first. The School Board funds the plan on a pay as you go basis. As of June 30, 2012, the unfunded balance of the early retirement incentive plan totaled \$628,788.

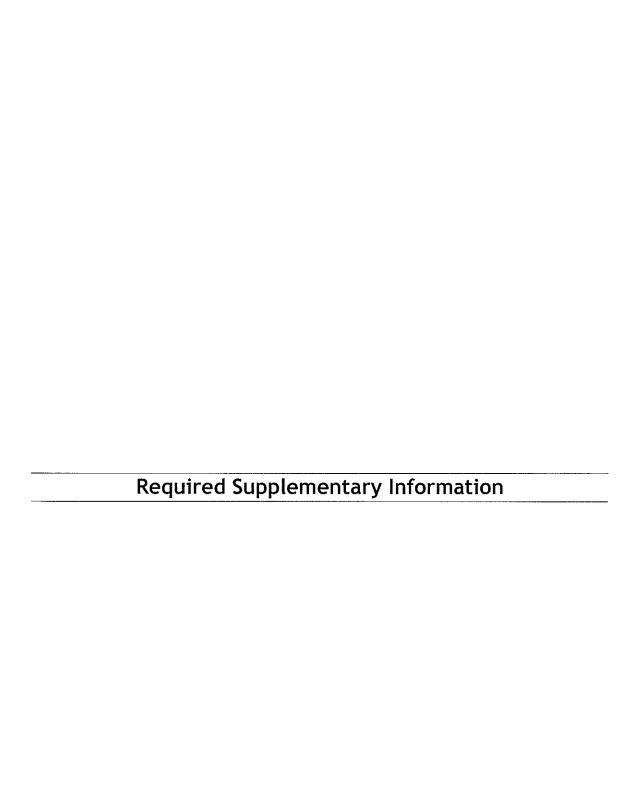

#### Note 19 - Litigation:

At June 30, 2012, there were no matter of litigation involving the County which would materially affect the County's financial position should any court decision on pending matters not be favorable.

#### Note 19 - Commitments and Contingencies:

The County was involved in major construction projects during the fiscal year as presented below, along with the anticipated funding source.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

### THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS County of Patrick, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Patrick, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County of Patrick, Virginia's basic financial statements and have issued our report thereon dated December 7, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the Specifications for Audits of Counties, Cities, and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

#### Internal Control over Financial Reporting

Management of the County of Patrick, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Patrick, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Patrick, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Patrick, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Patrick, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Patrick, Virginia in a separate letter dated December 7, 2012.

The County of Patrick, Virginia's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the County of Patrick, Virginia's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

Independent Auditors' Report on Compliance with Requirements that Could Have a Direct and Material Effect on Each Major Program and Internal Control

Over Compliance in Accordance with OMB Circular A-133

THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS County of Patrick, Virginia

#### Compliance

We have audited the County of Patrick, Virginia's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the County of Patrick, Virginia's major federal programs for the year ended June 30, 2012. The County of Patrick, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Patrick, Virginia's management. Our responsibility is to express an opinion on the County of Patrick, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Patrick, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Patrick, Virginia's compliance with those requirements.

In our opinion, the County of Patrick, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### Internal Control Over Compliance

Management of the County of Patrick, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Patrick, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Patrick, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

### County of Patrick, Virginia Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2012

#### Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Patrick, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Patrick, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Patrick, Virginia.

#### Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

#### Note 3 -- Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of commodities received and disbursed. At June 30, 2012, the County had no food commodities in inventory.

#### Note 4 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:	
General Fund	\$ 833,681
Less: Payment in lieu of taxes	 (19,922)
Total primary government:	\$ 813,759
Component Unit School Board:
