#### Independent Auditors' Report

To the Honorable Members of The Board of Supervisors County of Prince Edward, Virginia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Prince Edward, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Prince Edward, Virginia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As described in Note 1 to the financial statements, in 2013, the County adopted new accounting guidance, GASB Statement Nos. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and 65, Items Previously Reported as Assets and Liabilities. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-8, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Prince Edward, Virginia's basic financial statements. The other supplementary information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Information (Continued)

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 4, 2014 on our consideration of the County of Prince Edward, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering County of Prince Edward, Virginia's internal control over financial reporting and compliance.

## To the Honorable Members of the Board of Supervisors To the Citizens of the County of Prince Edward, Virginia

The management of the County of Prince Edward, Virginia, presents this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2013. We encourage you to read this discussion and analysis in conjunction with the accompanying auditor's opinion on internal controls, the basic financial statements and the notes to the financial statements.

## Financial Highlights

## Government-wide Financial Statements

 The assets and deferred outflows of resources of the County's Primary Government accounts exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$11,815,384 (total net position). This was an increase of \$3,161,934 or 37% compared to the ending amount of \$8,653,452 on June 30, 2012. \$10,164,767of the net position is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

The Governmental activities net position was \$11,923,882 of the County's total, an increase of \$3,415,124 or 40% in comparison with net position of \$8,508,760 at June 30, 2012. Cash and cash equivalents for the Governmental Activities decreased from \$10,415,444 in FY12 to \$11,066,765 at the end of FY13. This is an increase of \$651,322 or 6%.

- The School Board's assets exceeded its liabilities by \$9,692,052 a decrease of \$502,457 when compared to the amount on June 30, 2012. However, \$9,385,808 of this amount reflects the School Board's net investment in capital assets leaving \$306,244 in unrestricted assets available to meet ongoing obligations. This is a decrease of \$61,062 or 17% in the School Board's unrestricted net position for the fiscal year.
- In 2009, the County began operating its own utility system. The system consists of water and sewer lines and a sewer pump station purchased from the Town of Farmville. Business-Type Activities net position was (\$108,498) which was a decrease of \$253,190. Unrestricted net position of Business-Type Activities decreased \$435,323 during the year ending with a positive balance of \$319,991 on June 30, 2013 as compared to \$755,314 on June 30, 2012.
- The combining long-term governmental obligations decreased \$800,330 during the current fiscal year. Details of this increase can be found under the long-term debt section of the management discussion and analysis and in Note 7 of the report. This increase includes premiums received on the bond issue that are not repaid but will be amortized.
- In 2013, the County adopted Statement 63 and Statement 65 of the Governmental Accounting Standards Board. More information on the adopted statement can be found in Note 1.
- The Piedmont Court Service Fund had been previously reported as an agency fund. In 2013, the fund was reclassified as a nonmajor special revenue fund. The effect of this reclassification can be found in Note 16.

## Financial Highlights: (Continued)

## Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported revenues exceeded expenditures by \$1,095,893 (Exhibit 5) before Other Financing Sources (Uses) and after making direct contributions totaling \$7,886,977 to the School Board.

- At the close of the current fiscal year, the County's Governmental funds reported ending fund balances of \$13,344,568 which is an increase of \$1,095,893 or 9% in comparison with the prior fiscal year.
- At the close of the current fiscal year, the unassigned fund balance for the General Fund was \$10,720,302 or 49% of total general fund expenditures excluding capital projects.

## **Overview of the Financial Statements**

The discussion and analysis are intended to serve as an introduction to the County's basic financial statements. These financial statements are comprised of three (3) components:

- 1. Government-wide financial statements.
- 2. Fund financial statements.
- 3. Notes to the financial statements.

This report also contains other information to supplement the basic financial statements. Local governmental accounting and financial reporting originally focused on funds which were designed to enhance and demonstrate fiscal accountability. Now to be accompanied by government-wide financial statements, the objective of operational accountability will also be met. These objectives will provide the public with both justification from the government that public monies have been used to comply with the desires of the elected officials and whether operating objectives have been met efficiently and effectively and can continue to be met in the future.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business. The statements include all assets and liabilities using the accrual basis of accounting. Both the financial overview and accrual accounting factors are used in the reporting of private-sector business. Government-wide financial reporting consists of two statements: (1) The Statement of Net position and (2) The Statement of Activities.

<u>The Statement of Net Position (exhibit one)</u> presents information on all of the County's assets and liabilities. The difference between assets and liabilities is reported as net position. Net position is presented in three categories: net investment in capital assets, restricted and unrestricted. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

<u>The Statement of Activities (exhibit two)</u> presents information showing how the County's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items which result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). This statement is focused on the gross and net cost of various government functions which are supported by general tax and other revenues. The statement of activities presents expenses before revenues, emphasizing that in government revenues are generated for the express purpose of providing services to the public.

## Overview of the Financial Statements: (Continued)

The Statement of Net Position and The Statement of Activities are both divided into two types of activities:

- 1. <u>Governmental Activities</u> Most of the County's basic services are reported in this column to include: General Administration, Courts, Social Services, Economic Development, and Capital Projects. Governmental activities are supported primarily by taxes, state and federal grants.
- 2. <u>Business-Type Activities</u> The County has two business-type activities: Water and Sewer. It is the intent of the County to recover all or a significant portion of the costs associated with providing these services through user fees and charges to customers receiving these services.
- 3. <u>Component Unit</u> The County has two component units, the Prince Edward County Public Schools and the Industrial Development Authority. While the Component Units are legally separate entities, the County of Prince Edward is financially accountable for them. A primary government is accountable for an organization if the primary government appoints the majority of the organization's governing body. Financial information for the component units is reported separately from the financial information presented for the primary government.

**Fund financial statements** - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of these funds can be placed in either of three (3) categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental funds</u> - A governmental fund is used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. However, government-wide financial statements are prepared on the accrual basis of accounting while governmental fund financial statements are prepared on the modified accrual basis of accounting. Thus, governmental fund financial statements focus on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Such information is useful in evaluating the County's ability to satisfy near-term financing requirements. Since the focus of governmental funds is narrower than that of government-wide financial statements, reconciliation between the two methods is provided in exhibits 4 and 6, respectively. By comparing the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements readers may better understand the long-term impact of the County's near-term financing decisions.

The County has three funds considered major governmental funds - the *General Fund*, *Landfill Construction Fund*, *and School Debt Service Fund*. In addition, the County has one fund considered non-major - the *Recreation Fund*. Information on these funds is contained in exhibits eleven and fourteen through seventeen. This data is then displayed in the governmental fund balance sheet (exhibit 3) and the governmental fund statement of revenues, expenditures, and changes in fund balance (exhibit 5).

<u>Proprietary funds</u> - *Proprietary funds* consist of enterprise funds which are established to account for the delivery of goods and services to the public. These funds use the accrual basis of accounting, similar to private businesses. The County has two proprietary funds (Water and Sewer) at this time.

Enterprise funds are used to report the same functions as the business-type activities in the government-wide financial statements. Water and Sewer Funds are presented on the statements as major funds (Exhibits 7 - 9). Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business. The intent of the governing body is to finance these services primarily through user charges and fees.

#### Overview of the Financial Statements: (Continued)

<u>Fiduciary funds</u> - *Fiduciary funds* account for assets held by the government as a trustee or agent for another organization. The County is responsible for ensuring the assets reported in these funds are used for their intended purposes. Fiduciary funds are not reflected in the government-wide statements since the funds are not available to support County activities. Information on these funds is contained in exhibits eighteen and nineteen.

<u>Notes to the financial statements</u> - Notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> - In addition to the basic financial statement and accompanying notes, this report presents certain required information supplements including budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

#### Government-wide Financial Analysis

As stated earlier in this discussion, net position may serve as a useful indicator of a County's financial position over time. For the County in FY2013, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$11,815,389 at the close of the fiscal year as presented in the Table below. This was an increase of \$3,161,934 or 37% over the FY2012 ending amount of \$8,653,452, as adjusted.

#### County of Prince Edward, Virginia

#### Schedule of Assets Liabilities and Net Position For the Years Ended June 30, 2013 and 2012

		Governmenta	l Activities	Business-type	e Activities	Total			
		2013	2012	2013	2012	2013	2012		
Current and other assets Capital assets	\$	28,558,885 \$ 13,719,676	14,641,575 \$ 12,270,397	368,100 \$ 4,075,051	899,197 \$ 4,162,016	28,926,985 \$ 17,794,727	15,540,772 16,432,413		
Total assets	\$	42,278,561 \$	26,911,972 \$	4,443,151 \$	5,061,213 \$	46,721,712 \$	31,973,185		
Long-term liabilities outstanding Current liabilities	\$	17,517,673 \$ 412,357	18,318,004 \$ 322,328	4,503,540 \$ 48,109	4,661,803 \$ 143,883	22,021,213 \$ 460,466	22,979,807 466,211		
Total liabilities	\$	17,930,030 \$	18,640,332 \$	4,551,649 \$	4,805,686 \$	22,481,679 \$	23,446,018		
Deferred inflows of resources: Unavailable revenue-property taxes	\$ <u>_</u>	12,424,649 \$	\$_	\$	<u> </u>	12,424,649 \$	-		
Net position: Net investment in capital assets Unrestricted	\$	2,079,106 \$ 9,844,776	1,520,646 \$ 6,750,994	(428,489) \$ 319,991	(499,787) \$ 755,314	1,650,617 \$ 10,164,767	1,020,859 7,506,308		
Total net position	\$	11,923,882 \$	8,271,640 \$	(108,498) \$	<u>255,527 \$</u>	11,815,384 \$	8,527,167		

At the end of FY2013, the County's net investment in capital assets is \$1,650,617. These capital assets are used to deliver services to County residents and business; and accordingly, these assets are not available for future spending. Although the important and needed investment in capital assets is reported net of related debt, it should be noted that resources needed to repay such debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

## Government-wide Financial Analysis: (Continued)

Restricted net position represents resources subject to external restrictions on how they may be used. The County had no restricted net position at the end of the fiscal year. The remaining balance of net position in the amount of \$10,654,767 may be used to meet the government's ongoing obligations. While the unrestricted net position amount is approximately \$10.1 million Prince Edward County has more than \$11 million in cash and cash equivalents that are unrestricted and are available to meet current obligations. The difference between the two amounts is due to the inclusion of capital assets and long-term liabilities in the net position amount.

<u>Governmental Activities</u> - Governmental activities increased Prince Edward County's net position by \$3,415,124. The key elements of this increase are found in exhibit 2 and 6 and the table below. Revenues increased from the previous year by \$3,075,461 and expenses increased \$861,272. The net effect was an increase in net position of \$3,415,124.

County of Prince Edward, Virginia

Revenues from governmental activities totaled \$25,676,408 with general property taxes (43.3%), operating grants and contributions (21.1%), capital grants and contributions (8.2%) and other local taxes (14.6%) comprising 86.8% of the County's revenues. Expenses for education (34.7%), health and welfare (16.8%), public safety (18.7%) and, public works (9.3%) account for 79.5% of total governmental expenses of \$22,261,284.

## Government-wide Financial Analysis: (Continued)

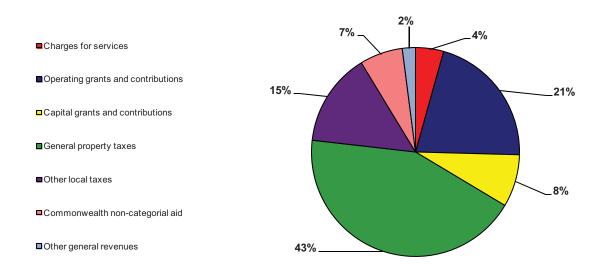

The chart below compares the revenues and expenses by program for governmental activities. In every category expenses outpace the revenues generated. This is common throughout the Commonwealth because most of the programs are not able to generate revenue. For those programs that can generate revenue (Recreation, Building Inspections etc.) the County has traditionally followed a policy of maintaining associated charges at a minimal level and funding the expenses from other revenue sources.

Expenses and Revenues - Governmental Activities

The Chart below portrays the Sources of Revenue for the Governmental Activities of the County.

#### **Revenues by Source - Governmental Activities**

Business-Type Activities decreased the County's net position by \$253,190.

## Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balances at the end of the fiscal year can be used to measure net resources available for expenditure. Governmental Funds reported a combined ending fund balance of \$13,344,568, an increase of \$1,095,893 when compared to the prior year. Approximately 80 percent (\$10,720,302) of the combined governmental fund balance is unassigned. The remaining 20% (\$2,624,266) of the combined fund balance is restricted or assigned to show it is not available for spending because it has been committed for future capital projects or debt service. Cash and cash equivalents in the amount of \$11,066,766 comprise 93% of the fund balance of the Governmental Funds. For the fiscal year cash and cash equivalents increased \$651,322 or 6%.

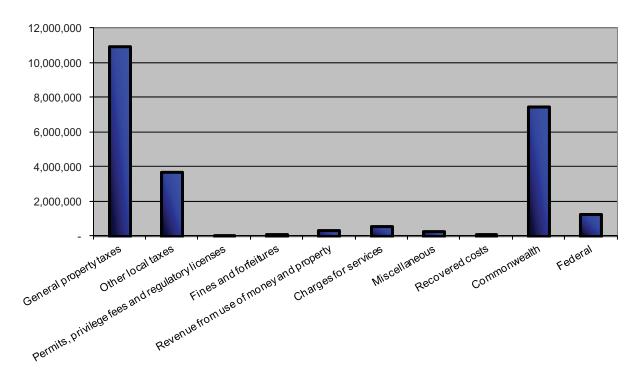

The General Fund is the primary operating fund of the County. The General Fund reports a fund balance at June 30, 2013 of \$10,722,276. This is an increase from the prior year of \$718,178.

The Landfill Construction Fund is used to pay expenses associated with the opening and closing of landfill cells. On June 30, 2013 the Landfill Construction Fund had a fund balance of \$1,482,743, an increase of \$257,668. This increase was the result of an increase in cash and cash equivalents as revenues exceeded expenses.

As a measure of the General Fund's liquidity, it is useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 49% of General Fund expenditures excluding capital projects. Total fund balance represents approximately the same percentage due to the minimal amount of reserved fund balance reported.

## General Fund Revenues and Other Sources by Category

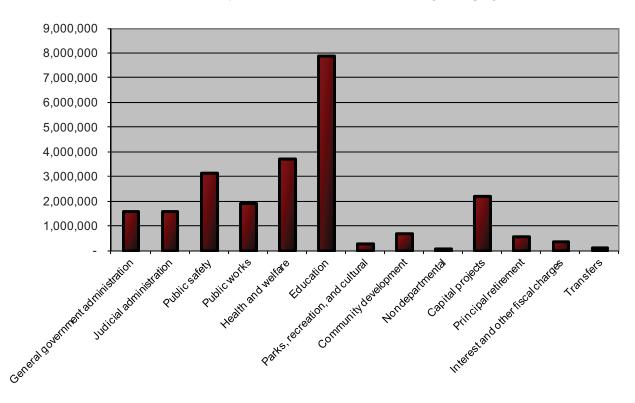

The following graph depicts General Fund revenues and other sources by categories. Total revenues and other sources are \$24,910,863.

#### General Fund Revenues and Other Sources By Category

## General Fund Revenues and Other Sources by Category

The graph below displays General Fund expenditures and other uses by category. Total expenditures and uses are \$24,192,685 including transfers out of the fund of \$110,153.

#### General Fund Expenditures and Other Sources By Category

## General Fund Budgetary Highlights

The final amended General Fund budget saw revenues increased by \$3,519,919 over the original budgeted amount. The final expenditure budget reflected an increase of \$3,869,674 when compared to the original budget. The revenue increases (decreases) were as follows:

- > \$90,000 in General Property Taxes
- > \$58,000 in Other Local Taxes
- > \$70,875 in Charges for Services
- > \$171,632 in Miscellaneous Revenues
- > \$14,000 in Recovered Costs
- > \$3,079,040 in intergovernmental revenues from the Commonwealth of Virginia
- > \$36,372 in intergovernmental revenues from the Federal Government.

The significant increase in budgeted revenues from the Commonwealth can be attributed primarily from grant funds received from the Tobacco Commission, Virginia Department of Transportation (VDOT) and Virginia Information Technology Agency (VITA)

## General Fund Budgetary Highlights: (Continued)

The Expenditure amendments were as follows:

- > \$113,329 increase in General government administration
- > \$63,646 increase in Judicial administration
- ➢ \$616,430 increase Public Safety
- > \$88,564 increase in Public Works
- > \$3,000 increase in Health and Welfare
- > \$23,000 increase in Parks, recreation, and cultural
- > \$230,912 increase in Community Development
- > (\$189,050) decrease in Nondepartmental
- > \$2,919,843 increase in Capital projects

As can be seen increases in Capital Projects and Public Safety accounted for approximately 91% of the increase in the budgeted expenditures. The majority of the increase in public safety is attributed to the regional jail.

The Route 786 project accounted for over 76% of the capital project increase.

#### Capital Asset and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental and enterprise operations as of June 30, 2013, is \$17,794,727 (net of accumulated depreciation) as listed below. This investment in capital assets includes land, buildings and improvements, and machinery and equipment.

County of Prince Edward, Virginia Capital Assets June 30, 2013 and 2012											
	Tota	al									
		2013	2012	2013	2012	2013	2012

Net capital assets	\$	, ,		- 4,075,051 \$	4,162,016 \$	2,000,004 17,794,727 \$	,				

Additional information on Prince Edward County's capital assets can be found in Note 4 of this report.

<u>Long-term debt</u> - At the close of FY2013, Prince Edward County had total outstanding obligations of \$22,021,213. Of this amount \$10,398,556 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources, i.e., revenue bonds, landfill closure and post-closure liability, retirement note obligation, compensated absences and net OPEB obligation.

During the fiscal year the County's long-term obligations decreased by \$800,330.

Additional information on the Prince Edward County's long-term obligations can be found in Note 7 of this report.

## Economic Factors Influencing FY2014 Budgets and Tax Rates

## Economic Factors Influencing FY2014 Budgets and Tax Rates

The recovering economy and the use of cash reserves allowed the County to balance the FY14 budget without increasing tax rates or decreasing service levels. The County's employment continues to lag both the Commonwealth and the nation. On June 30, 2013 the County's unemployment rate of 10.2% was higher than the state's rate of 5.5% and the national rate of 7.6%.

Overall local revenues were expected to increase by approximately \$250,000. The primary reason for the increase was a rise in the number of housing starts and an increase in the number and value of motor vehicles owned by County residents. Personal Property revenues increased by almost \$110,000 when compared to FY13. Increases in revenue estimates for real estate (\$107,000) and local sales and use tax (\$115,000) accounted for most of the remaining amount. All three are positive indicators the Prince Edward County's economy is recovering.

The greatest pressures on the County budget are the increase in costs associated with the regional jail and the ongoing reduction in funding from the Commonwealth. A large part of the increased cost with the regional jail is the reduction in revenues it is receiving from the Commonwealth. Before the recession the Commonwealth provided local governments a per diem of \$28 per inmate day, that rate today is \$12. The impact of this 57% reduction means the state has shifted almost \$2.5 million dollars in expenses to the local governments running the regional jail. Prince Edward County's portion of that amount is \$1 million. It is expected the Jail's expense to Prince Edward will be \$1.4 million. Additionally, over the last several years the Commonwealth has reduced funding for Constitutional Offices, registrars and schools. In FY14 the Commonwealth is continuing those reductions. The educational reductions have caused the School system to reduce the number of employees by 22 since 2008. The County has attempted to mitigate the most damaging of these state cuts by providing more local funding. Since 2007 the County's local expenditure per pupil has increased by \$1,084 or 41%.

The increased revenues and the use of cash reserves allowed the County to provide a 2% cost of living adjustment for employees to include personnel in Constitutional Offices and Social Services. The County also provided the Schools with an additional \$240,148 which allowed the Schools to provide a 2% pay increase and hire a mandated early reading specialist. This increase brings the County's local contribution to the Schools to \$8,346,800.

In order to balance the budget \$251,688 was budgeted for use from the fund balance of the General Fund.

## **Requests for Information**

This financial report is designed to provide a general overview of the County of Prince Edward's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administration Office, 111 South Street, Farmville, Virginia 23901.

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

Capital asset additions	\$ 2,249,385	
Net transfer of joint tenancy assets	(222,289)	
Depreciation expense	 (577,817)	1,449,279
evenues in the statement of activities that do not provide current financial resources are not		

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

The issuance of long-term notes receivable consumes the current financial resources of governmental funds, while the receipt of repayment of the principal of long-term notes receivable provides current financial resources to governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term notes receivable.

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

(Increase) decrease in landfill closure, postclosure and corrective action cost liability	\$ (68,521)	
Principal payments and premium amortization	971,274	902,753

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(Increase) decrease accrued interest payable	\$ 4,770	
(Increase) decrease in compensated absences	(66,223)	
(Increase) decrease in net OPEB obligation	 (36,200)	(97,653)
Change in net position of governmental activities	\$	3,415,124

### Note 1—Summary of Significant Accounting Policies:

### Financial Statement Presentation

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

### Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets, in the government-wide Statement of Net Position and will report depreciation expense-the cost of "using up" capital assets-in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements As of June 30, 2013 (Continued)

### Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget, final budget, and actual results.

### A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for general purpose financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organizations governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Prince Edward, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

### B. Individual Component Unit Disclosures

<u>Blended Component Units</u> - The County has no blended component units.

<u>Discretely Presented Component Units</u> - The component unit columns in the combined financial statements include the financial data of the County's component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Prince Edward County School Board operates the elementary and secondary public schools in the County. School Board members are appointed by the Board of Supervisors. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School board and provides significant funding to operate the public schools, since the School Board does not have separate taxing powers. The Prince Edward County School Board does not issue separate financial statements.

The Prince Edward County Industrial Development Authority was created as a political subdivision of the Commonwealth of Virginia by ordinance of the Board of Supervisors of Prince Edward County on October 21, 1971 pursuant to the provisions of the Industrial Development and Revenue Bond Act (Chapter 33, Section 15.2-4900), et. seq., of the <u>Code of Virginia</u> (1950), as amended. The Authority is authorized to issue revenue bonds; acquire, own, lease and dispose of properties to the end that such activities may promote industry and develop trade inducing enterprise to locate and remain in Virginia.

The Authority is governed by seven directors appointed by the Board of Supervisors of Prince Edward County. The Authority is fiscally dependent on the County. Complete financial statements of the Authority may be obtained at the Authority's administrative office.

Notes to Financial Statements	
As of June 30, 2013 (Continued)	

### Note 1—Summary of Significant Accounting Policies: (Continued)

#### C. Jointly Governed Organizations

The County, in conjunction with other localities, has created the Central Virginia Regional Library, the Piedmont Regional Jail, the Piedmont Regional Juvenile Detention Center, and Crossroads Community Services Board. The governing bodies of these organizations are appointed by the respective governing bodies of the participating jurisdictions. During the year, the County contributed \$192,156 to the regional library, \$44,235 to the juvenile detention center, and \$62,643 to the Crossroads Community Services Board.

#### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

### 1. <u>Governmental Funds</u>

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following governmental funds.

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues are used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for reporting purposes.

b. Special Revenue Fund

The Piedmont Court Services Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditures for the Piedmont Court. The Piedmont Court Services Fund is considered a nonmajor fund.

c. Capital Projects Fund

The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Landfill Construction Fund is considered a major fund. The Recreation Fund is considered a nonmajor fund.

d. Debt Service Fund

The Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should also be used to report financial resources being accumulated for future debt service. The School Debt Service Fund is considered a major fund.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

2. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds (Trust and Agency Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

3. <u>Proprietary Funds</u>

Proprietary Funds account for activities similar to those found in the private business sector. The measurement focus is upon determination of net income. Proprietary Funds consist of Enterprise Funds.

#### Enterprise Funds

Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the County is that the cost of providing services to the general public be financed or recovered through user charges. Currently the County's Water and Sewer Funds are accounted for as enterprise funds.

Proprietary funds distinguish operating revenues and expenses from *nonoperating items*. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenue the portion of tap fees and facility fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### E. <u>Budgets and Budgetary Accounting:</u>

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. The total appropriation can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments and between County departments (excluding the Constitutional Officers); however, the School Board is authorized to transfer budgeted amounts within the school system's categories.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### E. <u>Budgets and Budgetary Accounting:</u> (Continued)

- 5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund, Recreation Fund, Landfill Capital Projects Fund, and the Water and Sewer Funds of the primary government and the School Fund and School Cafeteria Fund and School Capital Projects Fund of the School Board.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all county units.
- 8. Budgetary data presented in the accompanying financial statements includes the original and legally amended budgets at June 30. Several supplemental appropriations were necessary during the year and at year end because they were not included in the original budget.
- 9. The following departments reported expenditures in excess of appropriations:
  - School cafeteria

### F. Cash and Cash Equivalents

For purposes of reporting cash flows for proprietary-type funds, cash and cash equivalents include cash on hand, money market funds, certificates of deposit and investments with maturities of three months or less from the date of acquisition.

The County maintains a pool of cash and investments in which each fund participates on a dollar equivalent and daily transaction basis. Interest is distributed monthly based on average monthly balances. The majority of funds in the County's accounts are invested at all times.

G. <u>Receivables and payables</u>

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans).

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$452,581 at June 30, 2013 and is comprised solely of property taxes.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable December 5th. The County bills and collects its own property taxes.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business—type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the year ended June 30, 2013.

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Structures, lines & accessories	50
Buildings	40
Building improvements	20-40
Vehicles	5
Office and computer equipment	5
Buses	8
Police vehicles	3

### I. <u>Compensated Absences</u>

Vested or accumulated vacation leave are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Government Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement.

### J. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued and premiums on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### K. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by formal Board action. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

L. <u>Retirement Plan</u>

Retirement plan contributions are actuarially determined and consist of current services costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension costs as they accrue.

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N. <u>Restricted Assets</u>

The County reports restricted assets of \$782,251 of which \$780,277 is to be used for debt service on QZAB bonds and \$1,974 is for retiree insurance.

### Note 1—Summary of Significant Accounting Policies: (Continued)

### O. Adoption of Accounting Principles

### <u>Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position,</u> <u>Statement No. 63 of the Governmental Accounting Standards Board</u>

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement, certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position". The net equity reported in the financial statements was not changed as a result of implementing this Statement and no restatement of prior balances is required.

# Items Previously Reported as Assets and Liabilities, Statement No. 65 of the Governmental Accounting Standards Board

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

### P. Upcoming Pronouncements

The Governmental Accounting Standards Board has issued Statement No. 68, Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27. This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements for fiscal years beginning after June 15, 2014. The County has not determined the impact of the pronouncement on its financial statements.

### Q. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in the component of net position.

### R. <u>Net Position Flow Assumption</u>

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Notes to Financial Statements As of June 30, 2013 (Continued)

### Note 2–Deposits and Investments:

#### Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### Investments:

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

#### Custodial Credit Risk (Investments):

The County has no policy regarding investment custodial credit risk.

The County's investments at June 30, 2013 were held by the County or in the County's name by the County's custodial banks.

#### Credit Risk of Debt Securities:

The County's investment policy allows for any investments which are in accordance with the <u>Code of</u> <u>Virginia</u>. The County's rated debt investments as of June 30, 2013 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

County's Rated Debt Investments Values									
Rated Debt Investments Fair Quality Ratings									
		AAA							
US Government Money Market									
U.S. Agencies Securities	\$	162,438							
Total	\$	162,438							

#### Concentration of Credit Risk:

The County's investment policy states the importance of diversification within its portfolio. Excessive concentration of any type of investment or excessive transactions with a financial institution is prohibited.

The County had no concentration of credit risk at June 30, 2013.

# Note 2-Deposits and Investments: (Continued)

# Interest Rate Risk:

The County's investment policy prohibits investments that have a maturity date of greater than five years. Investments with a maturity date of between six months and five years are authorized on an individual basis determined by the time required to make a withdrawal without incurring penalties.

The County had no interest rate risk at June 30, 2013.

# Note 3-Due From Other Governmental Units:

Amounts due from other governments are detailed as follows:

### Note 5-Defined Benefit Pension Plan:

### A. Plan Description

Name of Plan:	Virginia Retirement System (VRS)
Identification of Plan:	Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity:	Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2013 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.

Notes to Financial Statements As of June 30, 2013 (Continued)

### Note 5–Defined Benefit Pension Plan: (Continued)

### A. <u>Plan Description: (Continued)</u>

• Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplier. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2012-annual-report.pdf</u> by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

# B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund their participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School Board's contribution rates for the fiscal year ended 2013 were 12.25% and 8.54% of annual covered payroll, respectively.

# Note 5–Defined Benefit Pension Plan: (Continued)

# B. Funding Policy: (Continued)

The School Board's contribution for professional employees were \$1,498,019, \$1,488,380, and \$1,167,485, to the teacher cost-sharing pool for the fiscal years ended June 30, 2013, 2012 and 2011, respectively and these contributions represented 11.66%, 6.33%, 3.93%, respectively, of current covered payroll.

# C. Annual Pension Cost:

For fiscal year 2013, the County's annual pension cost of \$606,081 was equal to the County's required and actual contributions.

_	Three-Year Trend for County - Primary Government									
_	Fiscal Year Ending		Annual Pension Cost (APC) (1)	Percentage of APC Contributed		Net Pension Obligation				
	June 30, 2011	\$	465,177	100%	\$	-				
	June 30, 2012		459,960	100%		-				
	June 30, 2013		606,081	100%		-				

(1) Employer portion only

For fiscal year 2013, the School Board's annual pension cost for the Board's non-professional employees was \$317,612 which was equal to the School Board's required and actual contributions.

Three-Year Trend for County - Component Unit School Board									
Fiscal Year Ending		Annual Pension Cost (APC)	Percentage of APC Contributed		Net Pension Obligation				
June 30, 2011	\$	48,116	100%	\$	-				
June 30, 2012		49,272	100%		-				
June 30, 2013		78,939	100%		-

(1) Employer portion only

Notes to Financial Statements
As of June 30, 2013 (Continued)

### Note 5–Defined Benefit Pension Plan: (Continued)

### C. Annual Pension Cost: (Continued)

The FY2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

### D. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the County's plan was 70.39% funded. The actuarial accrued liability for benefits was \$20,418,591, and the actuarial value of assets was \$14,372,076, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,046,515. The covered payroll (annual payroll of active employees covered by the plan) was \$4,546,371, and ratio of the UAAL to the covered payroll was 133.00%.

As of June 30, 2012, the most recent actuarial valuation date, the School Board's plan was 79.83% funded. The actuarial accrued liability for benefits was \$3,630,049, and the actuarial value of assets was \$2,897,722, resulting in an unfunded actuarial accrued liability (UAAL) of \$732,327. The covered payroll (annual payroll of active employees covered by the plan) was \$837,809, and ratio of the UAAL to the covered payroll was 87.41%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

### Note 6–Compensated Absences:

In accordance with GASB statement 16 "Accounting for Compensated Absences," the County has accrued the liability arising from compensated absences.

County employees earn vacation and sick leave at various rates. The County had outstanding compensated absences as follows:

Primary Government \$ 568,295

#### Note 8-Litigation:

At June 30, 2013, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

### Note 9-Contingent Liabilities:

Federal programs in which the County and its component unit participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of State and Local Governments and Non-Profit Organizations*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

### Note 10-Surety Bonds:

Fidelity and Deposit Company of Maryland - Surety County Administrator	2,000

Notes to Financial Statements As of June 30, 2013 (Continued)

### Note 11-Landfill Closure and Postclosure Care Cost:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County records a portion of this closure and postclosure care liability in each period based on landfill capacity as of each balance sheet date. The County opened a new cell in 2008. The amounts reported as closure and postclosure care liabilities at June 30, 2013 were \$1,895,862 and \$1,855,682, respectively. Furthermore, the County reports \$347,659 as corrective action liability. These amounts are based on what it would cost to perform all closure and postclosure care in 2013. Actual cost may be higher due to inflation, changes in technology or changes in regulation.

The County has demonstrated financial assurance requirements for closure, postclosure and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code. The County intends to fund these costs from accumulated funds held in the general fund.

#### Note 12–Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and natural disasters. The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of losses. Settled claims from these risks have not exceeded commercial coverage.

# Note 13-Other Postemployment Benefits - Health Insurance:

# County:

# <u>Background</u>

Beginning in fiscal year 2009, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 45 for other post-employment benefits (OPEB) offered to retirees. This standard addresses how local governments should account for and report their costs related to postemployment health-care and non-pension benefits, such as the County's retiree health benefit subsidy. Historically, the County's subsidy was funded on a pay-as-you go basis, but GASB Statement No. 45 requires that the County accrue the cost of the retiree health subsidy and other postemployment benefits during the period of the employees' active employment, while the benefits are being earned, and disclose the unfunded actuarial accrued liability in order to accurately account for the total future cost of post-employment benefits and the financial impact on the County. This funding methodology mirrors the funding approach used for pension benefits.

### A. Plan Description:

In addition to the pension benefits described in Note 5, the County provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from County service at age 60 or older and have 30 years of service with the County, may elect one of two health insurance options through the County's plan. On one plan the County pays 100% of the premium, up to age 65, at which time coverage ceases. The other plan requires the retiree to pay 100% of the premium; however, the retiree may remain on the plan indefinitely. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

# B. Funding Policy:

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For participating retirees the County pays 100% of the health insurance premium for retirees up to Medicare eligibility. Retirees may opt to choose an Advantage 65 plan, which they are required to cover 100% of the premium for. Retirees pay 100% of spousal premiums. Coverage ceases when retirees reach the age of 65, with the exception of the Advantage 65 plan which can continue indefinitely.

# Note 13–Other Postemployment Benefits - Health Insurance: (Continued)

# County: (Continued)

# Background (Continued)

# C. Annual OPEB Cost and Net OPEB Obligation:

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year, the County's amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$	37,600 3,500 (3,700)
Annual OPEB cost (expense)	\$	37,400
Contributions made	_	(1,200)
Increase in net OPEB obligation	\$_	36,200
Net OPEB obligation - beginning of year	_	88,600
Net OPEB obligation - end of year	\$	124,800

For 2013, the County's expected cash payment of \$1,200 was \$36,200 less than the OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

Fiscal	Annual OPEB	Percentage of Annual OPEB Cost	Net OPEB
Year Ended	 Cost	Contributed	Obligation
June 30, 2011 June 30, 2012 June 30, 2013	\$ 33,100 34,800 37,400	7.85% \$ 12.64% 3.21%	58,200 88,600 124,800

### Note 13–Other Postemployment Benefits - Health Insurance: (Continued)

### County: (Continued)

### D. Funded Status and Funding Progress:

The funded status of the plan as of July 1, 2012, the date of the most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$ 481,500
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	481,500
Funded ratio (actuarial value of plan assets / AAL)	0%
Covered payroll (active plan members)	4,947,603
UAAL as a percentage of covered payroll	9.73%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

### E. Actuarial Methods and Assumptions:

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012 most recent actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5 percent after 5 years. Both rates included a 2.50 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2012 was 30 years.

Notes to Financial Statements As of June 30, 2013 (Continued)

### Note 13–Other Postemployment Benefits - Health Insurance: (Continued)

### County: (Continued)

### E. Actuarial Methods and Assumptions: (Continued)

#### Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

#### Interest Assumptions

	Unfunded
Discount rate	4.0%
Health cost trend assumption	8.0%
Payroll growth	2.5%

### Note 13–Other Postemployment Benefits - Health Insurance: (Continued)

### School Board:

### A. <u>Plan Description:</u>

In addition to the pension benefits described in Note 5, the School Board provides post-retirement healthcare insurance benefits for employees who are eligible for retirement benefits. Individuals who retire from the School Board at age 60 with 30 years of service or age 65 with 5 years of service receive a \$1.50 credit per year of service (capped at \$45 per month) toward the retiree's health insurance premium. The retiree is responsible for the remaining premium. Coverage ceases at age 65 unless a Medicare Complementary plan is chosen. The retiree's spouse can receive benefits under the plan with the premium to be paid by the retiree.

### B. Funding Policy:

The School Board establishes employer contribution rates for plan participants as part of the budgetary process each year. The School Board also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. Retirees receive a credit for each year of service (capped at \$45 per month) which offsets the cost of their premium. Retirees are responsible for the remaining premium and the premium of their spouse. Coverage ceases when retirees reach the age of 65 unless Medicare Complementary coverage is selected.

### C. Annual OPEB Cost and Net OPEB Obligation:

The School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the annual OPEB cost for the year, the School Board's amount actually contributed to the plan, and changes in the School Board's net OPEB obligation:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$	176,600 2,900 (3,000)
Annual OPEB cost (expense)	\$	176,500
Contributions made	_	(83,700)
Increase in net OPEB obligation	\$	92,800
Net OPEB obligation - beginning of year	_	71,900
Net OPEB obligation - end of year	\$	164,700

# Note 13–Other Postemployment Benefits - Health Insurance: (Continued)

# School Board: (Continued)

# C. <u>Annual OPEB Cost and Net OPEB Obligation: (Continued)</u>

For 2013, the School Board's expected cash payment of \$83,700 was \$92,800 less than the OPEB cost. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

Fiscal Year Ended	_	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2011	\$	108,400	79.24% \$	71,300
June 30, 2012		109,800	99.45%	71,900
June 30, 2013		176,500	47.42%	164,700

# D. Funded Status and Funding Progress:

The funded status of the plan as of July 1, 2012 the date of the most recent actuarial valuation, is as follows:

Actuarial accrued liability (AAL)	\$ 1,955,000
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	1,955,000
Funded ratio (actuarial value of plan assets / AAL)	0%
Covered payroll (active plan members)	12,307,397
UAAL as a percentage of covered payroll	15.88%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

# E. <u>Actuarial Methods and Assumptions:</u>

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and then plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

### Note 13–Other Post-Employment Benefits Program: (Continued)

#### School Board: (Continued)

#### E. Actuarial Methods and Assumptions: (Continued)

In the July 1, 2012 most recent actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 4.00 percent investment rate of return and an annual healthcare cost trend rate of 10.00 percent initially, reduced by decrements to an ultimate rate of 5 percent after 5 years. Both rates included a 2.50 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2012 was 30 years.

#### Cost Method

The entry age normal cost method is used to determine the plan's funding liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active participant as if the plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under these methods, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

#### Interest Assumptions

	Unfunded
Discount rate	4.0%
Health cost trend assumption	8.0%
Payroll growth	2.5%

#### Note 14-Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The County does not have any deferred outflows of resources as of June 30, 2013.

Notes to Financial St	atements
As of June 30, 2013 (	(Continued)

# Note 14–Deferred Outflows/Inflows of Resources: (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The County has deferred inflows of resources at June 30, 2013 of \$13,959,346, which is solely unavailable revenue from property taxes.

The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources.

# Note 15-Interfund Transfers:

Fund	 Transfers In	Transfers Out
General Fund School Debt Service Fund	\$ - \$ 110,153	110,153 -
Total	\$ 110,153 \$	110,153

Interfund transfers for the year ended June 30, 2013 consisted of the following:

Transfers were made for operational expenditures.

# Note 16-Fund Balance/Net Position Restatements:

Beginning fund balance and net position at June 30, 2013 have been restated for the following purpose:

	F	Fund Balance

#### Note 17–Notes Receivable:

The County provided an equipment loan to Paris Ceramics. America, LLC in January 2009 in the amount of \$164,000. The loan bears simple interest at 3% and is payable over 7 years with a balloon in 5 years. At June 30, 2013, this note had an outstanding balance of \$72,238.

The County refinanced a building loan to Paris Ceramics. America, LLC for economic development in August 2010 in the amount of \$840,000. The loan bears no interest and is to be paid over 20 years in monthly installments of \$3,500 commencing January 1, 2011 with final payment due December 1, 2030. At June 30, 2013, this note had an outstanding balance of \$738,000.

The County provided an equipment loan to Paris Ceramics America, LLC in May 2012 in the amount of \$170,000. The loan bears simple interest at 5% and is payable over 7 years. At June 30, 2013, this note had an outstanding balance of \$143,562.

The County received an energy conservation block grant from the Department of Mines, Minerals and Energy on behalf of STEPS, Inc. in the amount of \$668,002. The grant was paid to STEPS, Inc. to fund an energy efficiency contract in the amount of \$719,268. The difference between the grant award and the contract was loaned to STEPS, Inc. in the amount of \$51,266. Payment is expected during 2014. The loan bears no interest. The outstanding balance on the note receivable at June 30, 2013 was \$51,266.

### Note 18–Unavailable Revenue:

Unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unavailable revenue totaling \$13,986,829 is comprised of the following:

<u>Unavailable Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$13,959,346 (including 2<sup>nd</sup> half billings of \$12,397,166 not due until December 5) at June 30, 2013.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2013 but paid in advance by the taxpayers totaled \$27,483 at June 30, 2013.

## **REQUIRED SUPPLEMENTARY INFORMATION**

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Contents	Tables
Financial Trends These tables contain trend information to help the reader understand how the the County's financial performance and well-being have changed over time.	1 - 6
Revenue Capacity These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.	7 - 10
Debt Capacity These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.	11 - 12
Demographic and Economic Information This table offers demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.	13
Operating Information These tables contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.	14-15

*Sources:* Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

(1) Commencing in 2007 all consumer utility taxes including E-911 taxes, as they relates to communication companies were remitted to the Commonwealth. The County receives a payment from the Commonwealth representing the respective share of the communication taxes.

(2) Effective for the FY 2010 audit report, communications tax is reported as non-categorical state aid.

## Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

## To the Board of Supervisors County of Prince Edward, Virginia County of Prince Edward, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of County of Prince Edward, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County of Prince Edward, Virginia's basic financial statements, and have issued our report thereon dated February 4, 2014.

## Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Prince Edward, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Prince Edward, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Prince Edward, Virginia's Edward, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether County of Prince Edward, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

## To the Board of Supervisors of Prince Edward County County of Prince Edward, Virginia

## Report on Compliance for Each Major Federal Program

We have audited County of Prince Edward, Virginia's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of County of Prince Edward, Virginia's major federal programs for the year ended June 30, 2013. County of Prince Edward, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Prince Edward, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Prince Edward, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Prince Edward, Virginia's compliance.

## Opinion on Each Major Federal Program

In our opinion, County of Prince Edward, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

## Report on Internal Control Over Compliance

Management of County of Prince Edward, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Prince Edward, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Prince Edward, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2013

#### Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Prince Edward, Virginia under programs of the federal government for the year ended June 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Prince Edward, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Prince Edward, Virginia.

#### Note 2 - Summary of Significant Accounting Policies

(1) Expenditures on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-81, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

#### Note 3 - Food Donation

Nonmonetary assistance is reported in the Schedule at fair market value of the commodities received and disbursed.

#### Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government: General Fund	Ş	1,299,635
Less: Amounts not recorded on Schedule of Expenditures of Federal Awards Payment in Lieu of Taxes	_	(24,759)
