Independent Auditors' Report

TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF CARROLL, VIRGINIA HILLSVILLE, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the County of Carroll, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Carroll, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the County of Carroll, Virginia, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 10, 2012, on our consideration of the County of Carroll, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Carroll, Virginia's, basic financial statements as a whole. The other supplementary information, supporting schedules, and other statistical information are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying

schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The other supplementary information, supporting schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The other statistical information has not been subjected to the auditing procedures applied by in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on it.

County of Carroll, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ (6,013,542)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.	5,333,838
The net effect of various miscellaneous transactions involving capital assets (I.e., sales, trade-ins, and donations) is to increase net assets.	(6,995)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	252,389
The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect	
of these differences in the treatment of long-term obligations and related items.	3,365,893
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	218,315
Change in net assets of governmental activities	\$ 3,149,898

COUNTY OF CARROLL, VIRGINIA

Notes to Financial Statements June 30, 2012

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity

The County of Carroll, Virginia is a political subdivision governed by an elected six-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - None

Discretely Presented Component Units- The component unit columns in the financial statements include the financial data of the County's discretely presented component units. The component units are reported in a separate column to emphasize that they are legally separate from the County.

The <u>Carroll County School Board</u> operates the elementary and secondary public schools in the County. School Board members are elected by popular vote. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type. The School Board does not issue separate financial statements.

The <u>Carroll County Public Service Authority</u> provides water and sewer service to County residents. The Public Service Authority is fiscally dependent upon the County because the County significantly funds Authority operations. In addition, the County Board appoints the Public Service Authority's Roard. A copy of the Public Service Authority's report can be obtained from the Public Service Authority.

The <u>Carroll County Industrial Development Authority</u> promotes industrial development in the County. The Authority is fiscally dependent upon the County. In addition, the Authority's Board is appointed by the County Board of Supervisors. A copy of the Industrial Development Authority's report can be obtained from the Industrial Development Authority.

Related Organizations - The County Board appoints board members to outside organizations, but the County's accountability for these organizations do not extend beyond making the appointments.

Jointly Governed Organizations:

The County along with the Counties of Wythe, Bland, Grayson, Smyth and the City of Galax participate in supporting the Mt. Rogers Community Services Board. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. For the fiscal year ended June 30, 2012, the County contributed \$142,180 to the Community Services Board.

The County along with the City of Galax participates in supporting the Galax-Carroll Regional Library. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. For the fiscal year ended June 30, 2012, the County contributed \$260,100 to the Library.

The County along with the County of Grayson and the City of Galax participate in supporting the Carroll-Grayson-Galax Regional Solid Waste Authority through user charges. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions.

The County along with the County of Grayson and the City of Galax participate in supporting the Twin Counties E-911 Program. The governing body of this organization is appointed by the respective governing bodies of the participating jurisdictions. Payments to the program totaled \$327,035 for the fiscal year ended June 30, 2012.

Notes to Financial Statements (continued) June 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of net assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide statement of net assets and will report depreciation expense – the cost of "using up" capital assets – in the statement of activities. The net assets of a government will be broken down into three categories – 1) invested in capital assets, net of related debt; 2) restricted; and 3)unrestricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (continued)

The County reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. Certain funds have been merged with the general fund for financial reporting purposes only.

The School Construction Fund is the County's only major capital projects fund. It accounts for and reports financial resources to be used for the acquisition or construction of major capital facilities of the school board.

Additionally, the County reports the following fund types:

Fiduciary funds (Trust and Agency Funds) account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. The Special Welfare, Solid Waste Authority, Twin County Airport, Performance Bonds Escrow and School Board Flexible Spending Arrangement Funds are reported as agency funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

2. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of December 6th. Real estate taxes are payable on December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$450,503 at June 30, 2012 and is comprised solely of property taxes.

5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	20-40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

D. Assets, liabilities, and net assets or equity (continued)

7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In accordance with the provisions of GASB 16, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

8. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issuad is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Fund Equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, <u>Fund Balance Reporting and Governmental Fund Type Definitions</u>. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaid expenditures) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund

The Board of Supervisors is the County's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is an action by the Board of Supervisors.

The County has not delegated authority to assign fund balance to anyone other than itself as of June 30, 2012.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 1-Summary of Significant Accounting Policies: (continued)

Assets, liabilities, and net assets or equity (continued)

9. Fund Equity (continued)

The County has designated unassigned fund balance into three categories. Unassigned for fiscal stability fund balance represents the funds designated for fiscal cash liquidity purposes (i.e. fiscal reserve) that will provide for sufficient cash flow to minimize the potential of short term tax anticipation borrowing. This amount shall be equal to but not less than 12% of the combined budgeted expenditures of the County General fund and the Carroll County School Board Operating Fund, net of the County's local share contribution to the School Board. The County must approve and adopt a plan to restore the fiscal stability fund balance to the target level within 24 months of falling below the threshold of 12%. Unassigned for grants fund balance represents the funds designated for grant matching and cash flow. This amount shall be equal to but not less than 2.5% of the budgeted expenditures of the County General Fund. Unassigned fund balance-no specification represents the funds available for increasing committed fund balances, assigning fund balances, increasing the unassigned for fiscal stability or unassigned for grants fund balances, purchase of capital items, or for use as beginning cash balance in support of the annual budget.

The County considers restricted fund balance to be spent when an expenditure is incurred for purposes for which restricted and unassigned, assigned, or committed fund balances are available, unless prohibited by legal documents or contracts. When an expenditure is incurred for purposes for which committed, assigned or unassigned amounts are available, the County considers committed fund balance to be spent first, then assigned fund balance, and lastly unassigned fund balance.

10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Note 2-Reconciliation of Government-Wide and Fund Financial Statements:

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statements of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these \$(45,376,023) and \$(2,679,510) differences for the primary government and discretely presented component unit, respectively, are as follows:

	(Primary Sovernment	omponent Unit hool Board
General obligation bonds	\$	(30,245,755)	\$ _
General obligation bond premium		(455,570)	-
General obligation bond discount		109,688	
Literary loans		(6,483,664)	-
Capital leases		(327,944)	-
Lease purchase revenue bond		(6,875,000)	-
Accrued interest payable		(437,791)	-
OPEB obligation		-	(1,790,814)
Compensated absences		(659,987)	(888,696)
Net adjustment to reduce fund balance-total governmental funds to arrive at net assets-governmental activities	\$	(45,376,023)	\$ (2,679,510)

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net* changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the governmental wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of these \$5,326,843 and \$(215,559) differences for the primary government and discretely presented component unit, respectively, are as follows:

	G	Primary overnment	Component Unit School Board			
Capital outlays Reversion of capital assets back to School Board (net) Depreciation expense Loss on the disposal of capital assets	\$	8,186,603 (685,130) (2,167,635) (6,995)	\$	101,578 685,130 (1,002,267)		
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	\$	5,326,843	\$	(215,559)		

Another element of that reconciliation states "the issuance of long-term obligations (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$3,365,893 difference in the primary government are as follows:

	_	Primary Government
Principal Payments or Other Reductions:		
General Obligation Bonds	\$	1,442,824
Bond Premium (amortization of)		66,461
Lease Purchase (Revenue Bond)		1,120,000
Literary Loans		680,167
Capital Lease	_	56,441
Net adjustment to increase (decrease) net changes in fund balances - total governmental funds to arrive at changes in net assets of		
governmental activities	\$	3,365,893

The remainder of this page left blank intentionally.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 2-Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of these \$218,315 and \$(122,320) differences for the primary government and discretely presented component unit, respectively, are as follows:

	Primary vernment	Component Unit School Board		
OPEB obligation	\$ -	\$	(285,100)	
Compensated absences	142,076		162,780	
Accrued interest	87,595		-	
Amortization of bond discount	(7,312)		-	
Amortization of issuance costs	 (4,044)			
Net adjustment to increase (decrease) net changes in fund				
balances-total governmental funds to arrive at changes in				
net assets of governmental activities	\$ 218,315	\$	(122,320)	

Note 3-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to April 1st, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the
 fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of
 financing them. All non-fiduciary funds have legally adopted budgets.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Only the Board of Supervisors can revise the appropriation for each department or category. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue
 Funds (except the School Fund), and the General Capital Projects Funds. The School Fund and School Construction Fund are
 integrated only at the level of legal adoption.
- All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- 8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the County's accounting system.

Notes to Financial Statements (continued) June 30, 2012

Note 3-Stewardship, Compliance, and Accountability: (continued)

B. Deficit fund equity

At June 30, 2012, there were no funds with deficit fund equity.

C. Appropriations

Appropriations were sufficient to cover expenditures in all funds.

Note 4-Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporations (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities:

The County has not adopted an investment policy for credit risk. The County's rated debt investments as of June 30, 2012 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

County's Rated Debt Investments' Values

Rated Debt Investments	Fair Quality Ratings					
	AAAm					
LGIP	\$	2,183,333				
SNAP		7,784,567				
	\$	9,967,900				

Concentration of Credit Risk:

At June 30, 2012, the County did not have any investments meeting the GASB 40 definition requiring concentration of credit risk disclosures that exceeded 5% of total investments.

External Investment Pools:

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC).

The fair value of the position in the external investment pool (Local Government Investment Pool) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC rule 2a-7.

Interest Rate Risk:

There are no interest rate risk disclosures required for the year ended June 30, 2012.

Note 5-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Primary Government		Component Unit School Board		
Local Authorities:			***

^{*}VPSA (Virginia Public School Authority), QSCB (ARRA-Qualified School Construction Bond)

The 2011 issuance of the ARRA funded Qualified School Construction Bond contains a face interest rate of 4.50%. However, it contains a federal tax credit resulting in federal revenue to offset the entire interest payment. Therefore, the effective interest rate is 0.00%.

For financial reporting purposes the lease purchase agreements are treated as revenue bonds of the County as title to the property has passed to the County. The Industrial Development Authority acts as a conduit for these obligations and does not retain the asset or related liability.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 8-Capital Leases:

Primary Government:

The County has entered into a lease agreement with Carroll County Industrial Development Authority to finance the acquisition of school buses for the School Board. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of minimum lease payments at the date of inception.

The assets acquired through capital lease are as follows:

	 Machinery & Equipment
Machinery and equipment Less: Accumulated depreciation	\$ 434,900 (117,108)
Net Asset	\$ 317,792

The future minimum lease obligation and the net present value of minimum lease payments as of June 30, 2012, were as follows:

Year Ending	Capital				
June 30,	_	Lease			
2013	\$	65,626

Note 10-Employee Retirement System and Defined Benefit Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave, and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1.
 Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least five years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are
 covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their
 normal Social Security retirement age with at least five years of service credit or when the sum of their age and
 service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service
 credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2012

Note 10-Employee Retirement System and Defined Benefit Pension Plans: (continued)

A. Plan Description (continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Primary Government:

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County of Carroll, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Carroll, Virginia's contribution rate for the fiscal year ended 2012 was 9.06% of annual covered payroll.

Discretely Presented Component Unit - School Board (Non-Professional Employees):

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County of Carroll, Virginia is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County of Carroll, Virginia's contribution rate for the fiscal year ended 2012 was 7.80% of annual covered payroll.

C. Annual Pension Cost

For fiscal year 2012, the County of Carroll, Virginia's annual pension cost of \$562,870 and \$198,487 was equal to the County of Carroll, Virginia's required and actual contributions for the County and the School Board Non-Professionals, respectively.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2012

Note 10-Employee Retirement System and Defined Benefit Pension Plans: (continued)

C. Annual Pension Cost (continued)

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County of Carroll, Virginia's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County of Carroll, Virginia's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the unfunded actuarial accrued liability (UAAL) was 20 years.

D. Funded Status and Funding Progress

Primary Government:

As of June 30, 2011, the most recent actuarial valuation date, the plan was 76.31% funded. The actuarial accrued liability for benefits was \$27,224,178, and the actuarial value of assets was \$20,774,479, resulting in an unfunded actuarial accrued liability (UAAL) of \$6,449,699. The covered payroll (annual payroll of active employees covered by the plan) was \$6,347,244, and ratio of the UAAL to the covered payroll was 101.61%.

<u>Discretely Presented Component Unit - School Board (Non-Professional Employees):</u>

As of June 30, 2011, the most recent actuarial valuation date, the plan was 82.42% funded. The actuarial accrued liability for benefits was \$9,103,822, and the actuarial value of assets was \$7,503,256, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,600,566. The covered payroll (annual payroll of active employees covered by the plan) was \$2,495,060, and ratio of the UAAL to the covered payroll was 64.15%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

E. Discretely Presented Component Unit - School Board (Professional Employees)

Plan Description

The Carroll County School Board contributes to the Virginia Retirement System (VRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System. VRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the State legislature. The system issues a publicly available comprehensive annual financial report that includes financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the School Board is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The School Board's contribution to the statewide cost sharing pool for professional employees, not including the 5.00% member contribution, was \$1,239,333, \$765,893, and \$1,744,737, for the fiscal years ended 2012, 2011, and 2010, respectively. Required employer contributions represented 6.33%, 3.93%, and 8.81% for July 2009 through March 2010, and 0,00% for April through June 2010, of covered payroll for the fiscal years ended 2012, 2011, and 2010, respectively.

Notes to Financial Statements (continued) June 30, 2012

Note 12-Other Postemployment Benefits (OPEB) Program:

From an accrual accounting perspective, the cost of post-employment health care benefits (OPEB), like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in future years when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the School Board recognizes the cost of post-employment health care in the year when the employee services are rendered, reports the accumulating liability, and provides information useful in assessing potential demands on the County's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Component Unit: School Board

A. Plan Description

The County of Carroll's Component Unit – School Board administers a single-employer healthcare plan ("the Plan"). The Plan provides for participation by eligible retirees of the School Board and their dependents in the health insurance programs available to School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the School Board. An eligible School Board retiree may receive this benefit until the retiree is eligible to receive Medicare. To be eligible for this benefit a retiree must have 10 years of service with the School Board and the employee must be eligible to retire from the School Board under the Virginia Retirement System. The benefits, employee contributions and the employer contributions are governed by the School Board and can be amended through School Board action. The Plan does not issue a publicly available financial report.

B. Funding Policy

The School Board currently pays for post-retirement health care benefits on a pay-as-you-go basis. The School Board currently has 743 employees that are eligible for the program. In addition, for retirees of the School Board, 100 percent of premiums are the responsibility of the retiree. The rates were as follows at June 30, 2012:

Participants	Total Premium
Employee	\$470-490
Employee / Spouse	\$870-907
Family	\$1,269-1,323

The Board is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed twenty nine years.

C. Annual OPEB Cost and Net OPEB Obligation

The School Board's annual other post employment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if pain on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the School Board's net OPEB obligation to the plan.

Annual required contribution	\$ 595,000
Interest on net OPEB obligation	60,200
Adjustment to annual required contribution	 (62,700)
Annual OPEB cost (expense)	 592,500
Contributions made	307,400
Increase in net OPEB obligation	285,100
Net OPEB obligation - beginning of year	 1,505,714
Net OPEB obligation - ending of year	\$ 1,790,814

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2012

Note 12-Other Postemployment Benefits (OPEB) Program: (Continued)

Component Unit: School Board (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012and the two preceding years were as follows:

			Percentage of		
Fiscal		Annual	Annual OPEB Cost	1	Vet OPEB
Year Ended	OPEB Cost		Contributed	Obligation	
6/30/2010	\$	914,314	35%	\$	1,183,314
6/30/2011		570,900	44%		1,505,714
6/30/2012		592,500	52%		1,790,814
					, .,

D. Funded Status and Funding Progress

The funded status of the Plan as of July 1, 2011, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 5,616,800
Actuarial value of plan assets	\$ -
Unfunded actuarial accrued liability (UAAL)	\$ 5,616,800
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (active plan members)	\$ 22,049,100
UAAL as a percentage of covered payroll	25.47%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far in the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information, as it becomes available, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2011, the most recent actuarial valuation date, the projected unit of credit actuarial cost method was used. Under this method, future benefits are projected and the present value of such benefits is allocated from date of hire to date of eligibility. The actuarial assumptions included: inflation at 2.5%, and investment rate of return at 4%, and a health care trend rate of 9% decreasing .5% per year until an ultimate rate of 5.0% is reached. The UAAL is being amortized as a level percentage over the remaining amortization period, which at June 30, 2012, was 29 years.

Notes to Financial Statements (continued) June 30, 2012

Note 13-Other Post-Employment Benefits (OPEB)-VRS Health Insurance Credit:

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 0.60% of annual covered payroll. The School Board's contributions to VRS for the year ended June 30, 2012 were \$117,472 and equaled the required contributions.

Note 14-Risk Management:

The County and its component unit – School Board are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component unit – School Board participate with other localities in a public entity risk pool for their coverage of general liability, property, crime and auto insurance with the VACO Insurance Program. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component unit – School Board pay the program contributions and assessments based upon classification and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit or depletion of all available excess insurance, the pool may assess all members in the proportion in which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component unit – School Board continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 15-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Note 16-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland-Surety:	
Carolyn H. Honeycutt, Clerk of the Circuit Court	\$ 1,525,000
Bonita Williams, Treasurer	400,000
Fran A. McPherson, Commissioner of the Revenue	3,000
John B. Gardner, Sheriff	30 000

Note 17-Payroll Expenses:

All full-time employees of the Component Unit – Public Service Authority are paid through the County and the Authority reimburses the County for these expenses. Part-time employees are paid by the Public Service Authority along with any overtime pay that the Public Service Authority Board approves.

Notes to Financial Statements (continued) June 30, 2012

Note 18-School Board Early Retirement Incentive Program:

SunTrust administers an early retirement incentive program for the Component Unit – School Board employees. Early retirement is available to those contracted employees who are members of the Virginia Retirement System (VRS) and are eligible to retire with the VRS. The employee must have been employed with Carroll County School System for 10 consecutive years, immediately preceding retirement and must not be eligible for disability retirement benefits from the VRS and/or Social Security. Finally, participants must be approved by the School Board and must have a bonafide separation from service of at least 30 days. The program allows for several different methods of payment depending upon the number of months the participant wishes to be paid. SunTrust holds a trust account to fund these incentive payments. During fiscal year 2010, the School Board implemented an additional benefit of \$400 in health insurance premiums per month for seven years. Both programs require the employee to work for twenty days of each year to receive the benefit; therefore, there is a commitment and not a liability. Twelve employees agreed to participate in the plan, creating an unfunded commitment of \$288,000. The School Board reserves the right to amend or terminate these programs.

Note 19-Deferred (Unearned) Revenue:

Governmental funds report deferred revenue in connection with receivables for revenues not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	<u>Unavallable</u>	<u>Unearned</u>
Delinquent property taxes receivable	\$ 3,220,477 \$	-
Prepaid taxes	 	-
Total deferred/unearned revenue for governmental funds	\$ 3,220,477 \$	-

14-2-3-21-61-

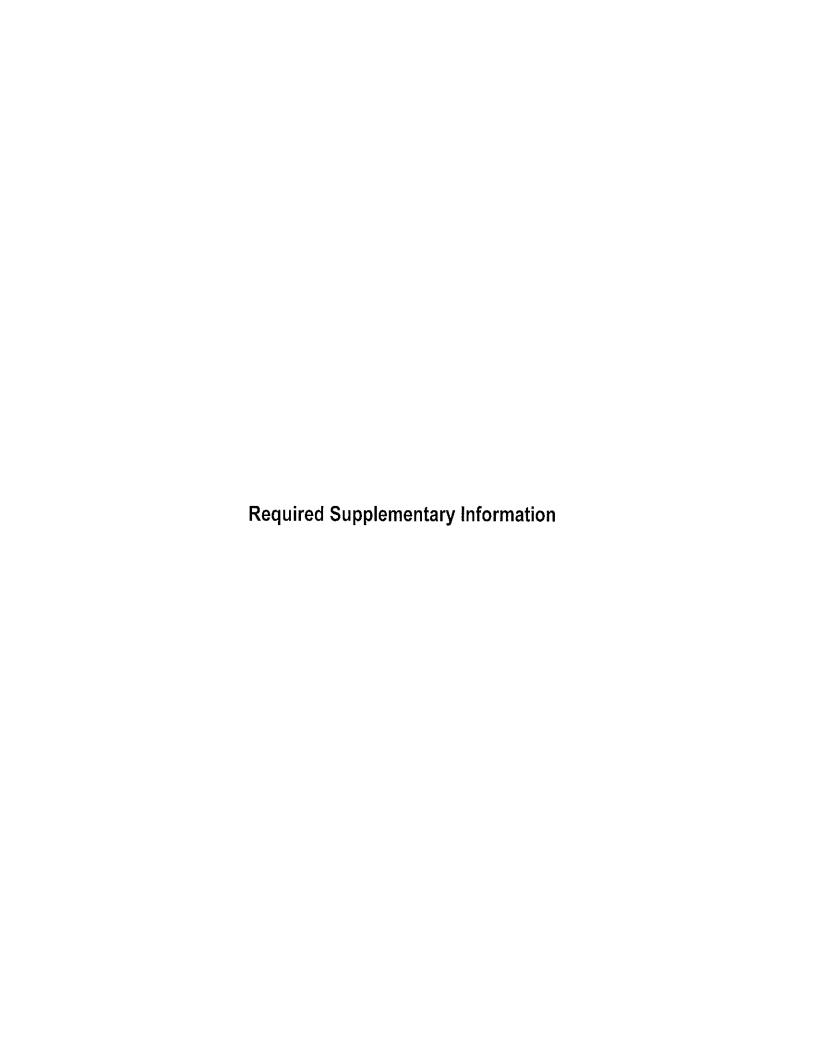

Note 20-Commitments and Contingencies:

The School Board has obligated funds for the projects described below as of June 30, 2012:

	Original	Ar	mount Paid		Remaining	Accounts	F	tetainage
	 Contract	As	of 6/30/2012	Co	ontract Amount	 Payable		Payable
Phase III Schools	\$ 14,884,384	\$	7,755,659	\$	7,128,725	\$ 1,677,591	\$	298,061

Note 21-Restatement of Beginning Equity:

	Primary	Government
	Governmental	<u>School</u>
	<u>Activities</u>	Construction Fund

DISCRETELY PRESENTED COMPONENT UNIT - SCHOOL BOARD

MAJOR GOVERNMENTAL FUNDS

<u>School Operating Fund</u> - The School Operating Fund is a special revenue fund that accounts for the operations of the County's school system. Financing is provided by the State and Federal governments as well as contributions from the General Fund.

County of Carroll, Virginia Balance Sheet Discretely Presented Component Unit - School Board June 30, 2012

	School Operating <u>Fund</u>
ASSETS Cash and cash equivalents Investments Due from other governmental units Prepaid items Restricted assets:	\$ 1,232,765 117,242 1,709,967 402,384
Temporarily restricted: Cash and cash equivalents Investments Total assets	\$ 180,188 58,517 3,701,063
LIABILITIES AND FUND BALANCES Liabilities: Accounts payable Salaries payable Due to primary government Total liabilities	\$ 102,080 1,072,815 2,071,929 3,246,824
Fund balances: Nonspendable: Prepaid expenses Restricted: Cafeteria operations Committed:	\$ 402,384 238,705
Textbook purchases Unassigned: Total fund balances Total liabilities and fund balances	\$ 215,534 (402,384) 454,239 3,701,063
Amounts reported for governmental activities in the statement of net assets (Exhibit 1) are different because: Total fund balances per above	\$ 454,239
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	3,934,189
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.	(2,679,510)
Net assets of governmental activities	\$ 1,708,918

County of Carroll, Virginia Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds - Discretely Presented Component Unit - School Board For the Year Ended June 30, 2012

	<u>Fund</u>
REVENUES Revenue from the use of money and property \$	35,514
Charges for services	1,097,615
Miscellaneous	173,640
Recovered costs	815,402
Intergovernmental revenues:	•
Local government	8,202,690
Commonwealth	24,463,582
Federal	5,560,127

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Honorable Members of the Board of Supervisors County of Carroll, Virginia Hillsville, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Carroll, Virginia as of and for the year ended June 30, 2012, which collectively comprise the County of Carroll, Virginia's basic financial statements and have issued our report thereon dated December 10, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the Specifications for Audits of Counties, Cities and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the County of Carroll, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Carroll, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Carroll, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Carroll, Virginia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses [2012-1].

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Carroll, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the County of Carroll, Virginia in a separate letter dated December 10, 2012.

County of Carroll, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit County of Carroll, Virginia's response and accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, and the Board of Supervisors, and others within Carroll County, Virginia, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable Members of the Board of Supervisors County of Carroll, Virginia Hillsville, Virginia

Compliance

We have audited the compliance of the County of Carroll, Virginia's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the County of Carroll, Virginia's major federal programs for the year ended June 30, 2012. The County of Carroll, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Carroll, Virginia's management. Our responsibility is to express an opinion on County of Carroll, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Carroll, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of County of Carroll, Virginia's compliance with those requirements.

In our opinion, the County of Carroll, Virginia complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the County of Carroll, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Carroll, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Carroll, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Supervisors, management, others within the organization, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

County of Carroll, Virginia Schedule of Expenditures of Federal Awards (Continued) For the Year Ended June 30, 2012

Federal Grantor/State Pass - Through Grantor/ Program or Cluster Title	Federal CFDA Number	Pass-through Entity Identifying Number	Federal Expenditures
Department of Education: (Continued) Pass Through Payments: (Continued) Department of Education: (Continued) English Language Acquisition State Grants Improving Teacher Quality State Grants	84.365 84.367	60512 61480	\$ 23,722 223,898
Total Department of Education			\$ 4,018,778
Total Expenditures of Federal Awards			\$ 7,281,817

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Carroll County, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of Carroll County, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Carroll County, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2012 Carroll County, Virginia had food commodities totaling \$0 in inventory.

Note 4 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government: General Fund Less: Payment in lieu of taxes	\$ 1,738,436 (16,746)
Total primary government	\$ 1,721,690
Component Unit Schools: School Operating Fund	\$ 5,560,127
Total federal expenditures per the basic financial statements	\$ 7,281,817

COUNTY OF CARROLL, VIRGINIA

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2012

Section II -- Financial Statement Finding

20	1	2.	1

Criteria: Per Statement on Auditing Standards 115, an auditee should have sufficient controls in

place to produce financial statements in accordance with applicable standards. Furthermore, reliance on the auditor to propose adjustments necessary to comply with

reporting standards is not a component of such controls.

Condition: The financial statements as presented for the audit did not contain all necessary

adjustments to comply with generally accepted accounting principles (GAAP). As such,

the auditor proposed adjustments that were material to the financial statements.

Cause of Condition: The County does not have proper controls in place to notice and correct errors in closing

year end financial statements.

Effect of Condition: There is more than a remote likelihood that a material misstatement of the financial

statements will not be prevented or detected by the County's internal controls over financial

reporting.

Recommendation: The County should review the auditors' proposed audit adjustments for 2012 and develop

a plan to ensure the trial balances and related schedules are accurately presented for

audit.

Management's

Response:

To address this condition, the County would have to hire an employee or consultant with expertise in the preparation of governmental financial statements. The additional costs

associated with same can not be justified at this time.

Section III – Federal Award Findings and Questioned Costs

None

Section IV - Status of Prior Audit Findings and Questioned Costs

Financial Statement Finding 2011-1 is recurring in the current year. There were no prior audit findings related to federal awards.
