#### CITY OF WILLIAMSBURG

#### Department of Finance

November 5, 2013

To the Honorable Mayor, Members of City Council, and Citizens of the City of Williamsburg:

The Comprehensive Annual Financial Report (CAFR) of the City of Williamsburg, Virginia for the fiscal year ended June 30, 2013, is submitted herewith in accordance with Section 15.2-2511 of the Code of Virginia. This report is designed in a manner to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds in conformity with accounting principles generally accepted in the United States of America (GAAP). We also believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs are included. This report has been prepared by the Department of Finance in accordance with all governmental accounting and financial reporting standards as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) where applicable, and the Commonwealth of Virginia's Auditor of Public Accounts (APA).

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects, and presents fairly the financial position and results of operations of the various funds of the City.

This report is intended to provide informative and relevant financial information for the citizens of the City, the City Council, investors, creditors and other concerned readers. All are encouraged to contact the Department of Finance with any comments or questions concerning this report.

The City's financial statements have been audited by Robinson, Farmer, Cox Associates, a firm of licensed certified public accountants. This is the seventh of a multi-year contract for professional auditing services with this firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Williamsburg financial statements for the fiscal year ended June 30, 2013, are fairly presented in conformity with generally accepted accounting principals (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the City's compliance with the financial and administrative requirements applicable to each of the City's major federal programs. These reports are available in the Compliance Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditor's report.

#### **Profile of the City**

The City of Williamsburg was established by the General Assembly of the Commonwealth of Virginia in 1699 and was incorporated by British Royal Charter in 1722. Today, it operates under the Council-Manager form of government substantially as established in the City Charter of 1932, and as an independent city under the Constitution and laws of the Commonwealth of Virginia. Policy-making and legislative authority are vested in a governing City Council consisting of the Mayor and four other members. The City Council members serve four-year staggered terms. The Mayor is chosen from among City Council members every two years. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for appointing the heads of the various departments.

Williamsburg encompasses some nine square miles located between the James and York Rivers on the Virginia Peninsula in Southeastern Virginia. The 2010 U.S. Census showed Williamsburg with a population of 14,068, up 17.2% from the 2000 U.S. Census. The City is home to two premier institutions: the College of William & Mary, established in 1693, and the Colonial Williamsburg Foundation recreating the days when Williamsburg was the Capital of Colonial Virginia, from 1699 to 1780.

The financial reporting entity includes all the funds of the City of Williamsburg. The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. In September, 2012, Ordinance #12-19 was approved by the Williamsburg City Council, effectively terminating the existing Williamsburg Redevelopment & Housing Authority (WRHA) Board of Commissioners, and appointing City Council members in their place. In February, 2013 a Memorandum of Understanding between the City and the WRHA was signed, effectively integrating services of existing City departments with WRHA. This change was made for operational assistance and administrative convenience, and also as a cost control measure. The WRHA operation is presented as a component unit of the City in the financial statements as of June 30, 2013.

The City provides the full range of municipal services including public safety, (police, fire and emergency medical services, parking garage), public works, (street construction and maintenance, landscaping, stormwater management, engineering, refuse collection, public cemetery), economic development, planning and zoning, code compliance, human services, parks and recreation, and general administrative services. In addition, the City provides water and sewer services to approximately 3,650 residential and 900 commercial customers, with user charges set by City Council to ensure adequate coverage of operating and capital expenses.

The City provides education jointly by contract with neighboring James City County for both localities through the Williamsburg-James City County Public Schools (W-JCC Schools). This strong partnership between the City and County governments has served the K-12 education needs of the jurisdictions for over 50 years. FY 2013 marked the first year of a restated contract for operating and capital funding of the joint School system, for fiscal years 2013 thru 2017. The contract essentially covers board membership, operational and capital funding allocations, use of School surplus funds, and equity interest in School property.

The City also provides library services jointly by contract with James City County through the Williamsburg Regional Library. The joint contract provides for board membership, operational funding, and responsibilities for repair and maintenance of facilities and grounds of the respective library building located in each locality. In June 2013, City Council approved an amendment to the joint contract to include neighboring York County. The agreement represents another step forward for regionalism in the Historic Triangle to benefit the citizens of all three jurisdictions.

The annual budget serves as the foundation for the City's financial planning and control. The budget process incorporates City Council strategic plan "Biennial Goals, Initiatives and Outcomes", and defines, communicates, and funds the City's programs and priorities. The completed budget is City Council's road map, and a primary management tool for the City Manager and Department Heads. The annual Budget Guide is a formal call for all departments of the City, and agencies associated with it, to prepare and submit an estimate of the resources required for the next fiscal year. It includes a set of procedures for building a comprehensive budget for the City Manager to submit to City Council each year. City Council is required to hold public hearings on the proposed budget and tax rates, and to adopt a final budget resolution no later than June 30<sup>th</sup>. The appropriated budget is prepared by fund, function (e.g., public works), and department (e.g., streets). Department heads may make transfers of appropriations within a department, with the approval of the City Manager. Budget amendments requiring changes in total fund appropriations require subsequent approval of City Council, and a public hearing if it exceeds one percent of the total expenditures adopted in the current year. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the required supplementary information other than management's discussion and analysis under the combining and individual funds tab of the report.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

#### **Economic Condition and Outlook:**

The economy of the City of Williamsburg is propelled by tourism and education. Tourism – including major attractions and the hospitality industry – continues to provide the most significant source of tax base for the city government. Within the city limits are 38 hotels/motels with approximately 4,000 rooms, 29 operating bed and breakfasts, and 109 restaurants.

The lynch pin of tourism is the Colonial Williamsburg Foundation, which operates the nation's most extensive living history museum. Encompassing 578 restored or reconstructed buildings and employing approximately 2,600, the Foundation interprets the 18<sup>th</sup> century history of America in Virginia's colonial capital. Other nearby attractions not located in the city include Jamestown (site of the first permanent English settlement in 1607), Yorktown (site of Washington's victory over Cornwallis in the Revolutionary War), and Busch Gardens and Water Country USA theme parks. These attractions draw a conservatively estimated 4 million ticketed visitors annually. Next to tourism, higher education drives the Williamsburg economy. The College of William and Mary, located within the city, is the nation's second oldest university. The College owns 18.3% of the land area of the city, currently enrolls about 8,200 students, and employs about 3,250 faculty and staff, including graduate assistants as well.

The City has seen a mix of economic activity over the last three fiscal years. For FY 2013, room tax receipts decreased .8%, after a minimal increase of .4% last year. Meal taxes were up 1.8% over last year, and have been on the rise since FY 2009. Revenues from \$2/night lodging tax, which are a pass-thru to the Williamsburg Area Destination Marketing Committee, were down 3.3% from last year. In total, these three significant taxes were up slightly by \$45K, or .4% over FY 2012. Another significant tax, dedicated to capital improvements within the City, is the 1% State sales tax. These taxes were up 8.0% over FY 2012 to \$4.5 Million, in part due to inclusion of delinquent multi-year collections since 2009 that were received during the year. Still, the economy will need to rebound much stronger in order to reach the \$4.9 Million and \$4.6 Million levels of 1% sales tax receipts collected in FY 2007 and FY 2008 respectively. Another encouraging sign is that business license revenues were up over \$47K (2.9%) from last year. In addition, revenues from the Prince George Parking Garage are up significantly over the past five fiscal years from increased usage. FY 2013 parking garage revenues are up over 35% from FY 2009. The City has also experienced revenue increases in bank stock, consumer utility, and recordation taxes over last year.

Although real estate values in Williamsburg have not experienced double-digit declines that communities in northern Virginia and other parts of the country have endured over the past several years, values declined 6.2% for Fiscal Year 2013. Overall, real estate assessments in the City declined three consecutive years since the highs of FY 2010 by 14%. The real estate tax rate was adjusted for FY 2013 from \$.54/100 to \$.57/100 in response to the decline in the tax base. On a positive note, assessed values for FY 2014 are up 3.7%, indicating a turnaround in both residential and commercial assessments. City staff continues to monitor the real estate assessment to sales ratio each month by tracking sales activity. That ratio is important in analyzing sales trends in neighborhoods, and is vital to the City Assessor's job of assessing properties at market value each year. As of October, 2013 the assessment to sales ratio of residential sales since July 1, 2013 is under 93%, indicating, on average, continuing recovery of real estate values in the City.

#### Economic Development Activity - Recent economic development activity in the City includes the following:

- Two large commercial development projects continue: "High Street Williamsburg," a \$250 million, 50-acre mixed-use retail and apartment project, adjacent to the Richmond Road business corridor; and "Quarterpath at Williamsburg," a 350 acre mixed-use development in the southeast quadrant of the City that is to include retail and Class A office space. A 40-bed acute care doctor's hospital operated by Riverside Health System opened there in May 2013. An adjacent new development, the 100,000 s.f. Quarterpath Shopping Center, is completely occupied and tenants include Wells Fargo Bank, Towne Bank, and anchor Harris Teeter grocery store.
- New businesses opening after renovating existing commercial space between January and October 2013 include Body Kneeds, Hair Body & Soul, Reptile Ranch Inc, Sub Shop, Triangle Home Improvement LLC, Advance Auto Parts, Music Together Williamsburg, Re/Max All American, Roberts Furniture & Mattress, We Do It 4U Laundry Services, Elements Massage & Bodywork LLC, Fatboys Cheesesteaks, Jen Clark Photography, Legends Bistro, R.P. Wallace & Sons General Store, The Original Astronomical Pancake House, Utopia, 1st Class Real Estate, Beautiful Brows By Anne, Ryan Homes, Stars and Stripes Forever, The Smokey Griddle Pancake House, Bradleys Toy & Hobby Supply, Folk of the Wood, Silverios, Wilson-Bennett Technology Inc, Barber & Beauty Shop of Williamsburg, Peninsula Radiological Associated LTD, Red Roof Inn, Royal Inn, Structural Health Therapy Inc, Mobility & Homeowners Service Co of Williamsburg LLC, Blackbird Bakery, DeModna Law P.L.C., Greenfield Assisted Living of Williamsburg LLC.
- New businesses opening in new space between January and October 2013 include Riverside Doctors Hospital and Cook Out Williamsburg.
- Second Street Boutiques, a mixed-use redevelopment project at 301 Second Street continues and includes 29 condominiums and 13,250 s.f. of retail space.
- Two new mixed-use projects, Griffin Arms and Prince George Commons, are planned for Prince George Street. Construction on Griffin Arms has begun and will be completed in the fall of 2014; Griffin Arms is 9,000 s.f. of space for 7 apartments, 4 retail establishments, and 1 restaurant. The Housing Authority-owned "Triangle Building" on Armistead Ave. will be fully occupied March 1, 2014, as a result of new tenant The Jewish Mother.
- A former gas station on Second Street is being redeveloped as a 7-11 convenience store.

Besides the Riverside Health System project discussed above, most future development in the City continues to be infill and redevelopment. With this in mind, the City continues to implement an existing business program, new business recruitment, and promotion of the City as a premier business location. The Economic Development Authority enacted a Demolition Program to encourage redevelopment projects. Six redevelopment projects are utilizing this forgivable-loan program. The City also created an incentive district to attract creative economy businesses to a seven block area of Midtown. Eight new qualified businesses have located in this district, creating 42 new jobs. Business investment and expansion continues in the City, with a positive impact on the City's real estate property and retail sales taxbases.

#### **Budget Policies**

The City's adopted Financial Planning Policies include requirements for <u>balanced budgets</u> and <u>long-range planning</u>. The FY 2013 General Fund operating budget was initially approved in May, 2012 with a transfer from reserves of \$199,587. As shown in the Management's Discussion and Analysis section of this report, the operating surplus for the year ended June 30, 2013 was \$1.3 Million. Long-range planning is part of the budget process each year, and included (1) Planning Commission review of current and future capital projects; (2) consideration of revenue, expenditure, and service implications of continuing existing programs, or adding new programs; (3) condition assessment of major buildings, roads, sidewalks, bridges, water lines, vehicles, and equipment; (4) maintaining, as a minimum, the City's 35% of total operating revenues as its unassigned fund balance, which can only be used for emergencies, non-recurring expenditures, or major capital purchases that cannot be acquired on a pay-as-you-go basis.

Revenue policies taken into consideration during the budget process included annual review of tax rates, collection rates, and identification of all revenue and grant options available to the City. In addition, user fees and charges were reviewed in order to ensure keeping pace with service delivery. Building permit and inspection fees, as well as all recreation program charges, were also reviewed during the budget process.

Expenditure policies which also contributed to the positive operating outcome of FY 2013 include financing all current operating expenditures with current revenues. Budgetary control was enhanced during FY 2013 by integrating the City's performance measurement dashboard system to the live accounting system for key staff, in order to have current line-item budget balances available on demand at their desktops.

#### **Long-Term Financial Planning**

**Major Operating Revenues** - The City of Williamsburg takes pride in providing a high level of public services to its residents at a reasonable cost. The real estate tax rate of  $57\phi$  per \$100 of assessed value continues to be one of the lowest city tax rates in Virginia. Prior to FY 2009, room and meal taxes provided the largest source of funding for City services since the mid-1980s. Rising property assessments brought revenues that surpassed room and meal taxes during FY 2009 for the first time, when most local governments began to feel the effects of the current recession. Though declining for two years from the highs of FY 2008, room and meal taxes have tracked upward since FY 2010, when room nights sold in the City were at an all-time low. Room and meal tax collections have surpassed real estate tax receipts since FY 2012. This is attributable more to increased meal rather than room taxes, and from reduced overall real estate property assessments for the third consecutive year. Room and meal taxes accounted for 29.9% of the General Fund operating revenues for FY 2013, compared to 39.7% in FY 2000¹.

<sup>&</sup>lt;sup>1</sup> Not including the \$2/night lodging tax, which is dedicated for tourism promotion.

Real estate taxes made up for 28.4% of total revenues in FY 2013, compared to 19.9% in FY 2000. This shifting of tax base is more pronounced when comparing actual tax revenues. Room and meal taxes increased from \$9.7 Million to \$9.8 Million, a .9% increase. Real estate taxes increased from \$4.5 Million in FY 2000 to \$9.3 Million in FY 2013, an increase of 107% over the same period. The FY 2012 real estate tax base decreased 5.0% from the prior year, with the FY 2013 values declining another 6.2%. As noted previously, City assessments, on average, have continued to be higher than sales during the past few years, and continue to rebound. The City's total personal property tax collections, including State reimbursement for the Car Tax program, increased .7% from last year. Further information on personal property taxes is included in Management's Discussion and Analysis.

Other local taxes, such as utility, business license, bank stock, and recordation taxes, increased 3.4% for FY 2013 over last year.

Total revenue from the Commonwealth decreased slightly by 1.2% for FY 2013. Although reimbursement for street maintenance costs increased by \$71K, or 4.8% over last year because of increased lane mileage in the City, other VDOT grants and sales tax for education receipts declined this year. This trend may change if, and when, State revenues return to the levels previously experienced during robust economic times.

Business growth and economic development initiatives mentioned above, along with investment by new and existing businesses in the City, will help to strengthen the City's real estate, personal property, and retail sales tax bases in the next few years.

**Major Operating Expenditures -** The economy continues to challenge the City's ability to provide the type and quality of services our residents are accustomed to, and at relatively low tax rates. Total approved full-time positions were reduced from 183 in FY 2012 to 182.5 in FY 2013, with the elimination of one full-time position, and shifting one temporary part-time position to a permanent status.

Personnel Costs – Employee benefit costs have increased substantially over the past several years. Healthcare benefits are analyzed each year relative to increases in premiums, and adjustments are recommended, if necessary, during the budget process. Beginning July 1, 2012, the City ended its self-insured healthcare plan, which was administered by Anthem, and now is offering employee & family coverage through the State's Local Choice healthcare plan. This move was in response (1) to limit exposure by joining a traditional insurance plan, with partial risk absorbed by the overall plan, which is made up of thousands of employees statewide; and (2) to reduce overall healthcare premiums by offering employees two different deductible plans.

The City is a member locality of the Virginia Retirement System (VRS). Pension costs are compensation-based, with funding rates set by VRS actuaries bi-annually. Significant increases in defined-benefit pension costs around the country have forced a variety of pension reform initiatives, as liabilities continue to outpace assets backing these long-term benefits. Pension reform by the Virginia General Assembly in 2011 has impacted localities and school districts by mandating employee contributions and changes in various components of benefit formulas. In addition, the Governmental Accounting Standards Board has adopted Statement No. 68, *Accounting and Financial Reporting for Pensions*, which applies to governments that provide pension benefits to their employees. These new financial reporting standards are required for the year ending June 30, 2015. Although no merit pay adjustments were made during FY 2013, a one-time adjustment to employee base salaries was made. Effective July 1, 2012, all local government employees covered by the Virginia Retirement System were mandated to pay their 5% employee portion of pension costs. In order to keep employees whole, a pay adjustment of 5.7% was approved. The City's employer share of pension costs was reduced accordingly.

Debt Service - In June 2012 the City advance refunded its Series 2005 General Obligation bonds in the amount of \$5,180,000. The City's General Fund will achieve an overall savings of approximately \$266,000 with this refinancing, while repaying the obligation in the same eight-year timeframe as the original issue. The City's credit ratings with Standard & Poor's (AA+) and Moody's (Aa1) were both affirmed during the process. In affirming its AA+ rating, Standard & Poor's based its analysis on:

- Tourism-based local economy and additional access to the diverse Hampton Roads economy,
- Sizable and diverse property tax base with good income,
- Consistently strong finances despite a reliance on tourism-related local taxes, and
- Low debt with moderate additional capital needs.

The City signed a long term agreement with the City of Newport News in March 2009 to increase the City's future safe yield water capacity. The agreement guarantees up to a 1 million gallons per day additional supply of raw water from Newport News Waterworks for the next 25 years, in the event the City needs it in periods of drought. Funding of the \$12.5 Million agreement was originally achieved with a \$10 Million bank-qualified borrowing and \$2.5 Million from Utility Fund reserves. In October 2010 the loan was refinanced, lowering the interest rate to approximately 2.75% and will achieve interest cost savings of \$783,000 over the 17 year loan life. Even with this favorable and timely financing arrangement, future debt service payments will also require continued water rate increases. Another future, but as yet unknown, cost to the Utility Fund will be full-compliance with the Hampton Roads-wide Consent Order on sanitary sewer overflows.

City staff has formulated financing strategies over the past few years with the City's financial advisors, Davenport and Co., LLC, in order to stay on schedule with major projects. Since 2004 the City's financial policies include maintaining a minimum of 35% of total General Fund operating revenues as its operating fund balance. A detailed analysis of the City's fund balance is presented in the Management's Discussion and Analysis section of this report.

#### **Independent Audit**

The State Code of the Commonwealth of Virginia requires an annual audit of the books of account, financial records, and transactions of the City. This requirement has been complied with and the unqualified opinion of Robinson, Farmer, Cox Associates, independent certified public accountants, has been included in this report.

#### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a <u>Certificate of Achievement for Excellence in Financial Reporting</u> to the City of Williamsburg, Virginia, for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2012. This was the 27<sup>th</sup> consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, with contents conforming to program standards. This report satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The City also received the GFOA's <u>Distinguished Budget Presentation Award</u> for its annual budget document for the past 21 years. In order to qualify for the Distinguished Budget Presentation Award, the City's Budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

Both of these prestigious awards serve to continually improve the City's annual financial reports and budget documents by implementing professional suggestions from GFOA staff and reviewers across the country.

In addition to the above awards, the City of Williamsburg was recently awarded the International City/County Management Association (ICMA) Center for Performance Measurement Certificate of Excellence. The certificate program assesses a local government's performance management program and encourages analysis of results by comparing to peers and gauging performance over time. Performance management aids in cost reduction, program prioritization, and quality improvement. It also encourages accountability and transparency. Criteria for the Certificate of Excellence included:

 Reporting of performance data to the public through budgets, newsletters, and/or information provided to elected officials

- Data verification efforts to ensure reliability
- Use of performance data in strategic planning and operational decision-making
- Sharing of performance measurement knowledge with other local governments through presentations, site visits, and other networking
- Commitment to tracking and reporting to the public
- Surveying of both residents and employees

The City was awarded the first two tiers of the CPM Certificate program, the <u>Certificate of Achievement</u>, and <u>Certificate of Distinction</u>, in early years. This is the second year the top-tier <u>Certificate of Excellence</u> was awarded to the City.

#### **Acknowledgements**

The preparation of this report has been accomplished with the efficient and dedicated services of the City Department of Finance. We would like to express our appreciation to all members of the departments who assisted and contributed in its preparation. In addition, the accounting firm of Robinson, Farmer, Cox Associates, is to be congratulated for their substantial contributions, by way of design, counsel, and interpretation of recent guidelines, planning, and implementation of the requirements of all GASB standards. We also wish to express thanks to the Mayor and members of City Council for their unfailing support in planning and conducting the financial operations of the City of Williamsburg in a responsible and progressive manner.

Respectfully Submitted,

Jackson C. Tuttle City Manager

Philip F. Serra CPFO Director of Finance

#### Independent Auditors' Report

To The Honorable Members of the City Council City of Williamsburg
Williamsburg, Virginia

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Williamsburg, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Williamsburg, Virginia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As described in Note 1 to the financial statements, in 2013, the City adopted new accounting guidance, GASB Statement Nos. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-16, budgetary comparison information, and schedule of pension funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Williamsburg, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

#### Other Information (continued)

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

Robinson, Farma, Cox assocites

In accordance with *Government Auditing Standards*, we have also issued our report dated October 25, 2013, on our consideration of the City of Williamsburg, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Williamsburg, Virginia's internal control over financial reporting and compliance.

Richmond, Virginia October 25, 2013

The Management's Discussion and Analysis (MD&A) offers readers of the City's financial statements a narrative overview and analysis of the City's financial activities for the fiscal year ended June 30, 2013. Readers are encouraged to consider the information presented here in conjunction with additional information furnished in our letter of transmittal, and in the financial statements and notes to the financial statements (which immediately follow this discussion).

#### **FINANCIAL HIGHLIGHTS**

- The assets of the City of Williamsburg exceeded its liabilities at June 30, 2013 by \$114.7 Million.
  Capital assets (net of depreciation and related debt) account for 70% of this amount, with a value of \$80.2 Million. The remaining net position may be used to meet the government's ongoing obligations to citizens and creditors, without legal restriction.
- The City's total net position increased by \$4.2 Million, of which the governmental activities increased by \$4.0 Million, and business-type activities increased by \$.2 Million.
- The City's governmental funds reported combined ending fund balances of \$30.9 Million, an increase of \$2.7 Million from the prior year. Fund balances are further categorized as *Nonspendable* (\$1.2 Million for real property owned by the City and held for resale), *Restricted* (\$.3 Million for the Public Assistance Fund), *Assigned* (\$18.0 Million for carryover and future capital projects), and *Unassigned* (\$11.4 Million). The unassigned fund balance is equal to the City Council reserve policy of 35% of total General Fund operating revenues for FY 2013, and effectively represents the City's rainy day fund. The Assigned category includes \$4.3 Million of prior year carryover capital projects, and also \$13.8 Million to fund future capital projects included in the City's five-year capital improvement program.
- Total General Fund (including 1% Sales Tax) revenues were \$37.4 Million for FY 2013, up by \$.5 Million from last year. General property tax receipts were \$11.5 Million, down 1% from last year. Other local taxes were up 3.40%, mostly from increased sales taxes, business licenses, bank stock taxes, and recordation taxes. Room taxes decreased slightly by \$27K, while meal taxes were up about \$113K over last year.
- Total General Fund expenditures, including capital projects, were down 4.3% at \$34 Million for FY 2013. Capital projects and debt service payments accounted for \$3.3 Million in spending for the year, reduced from last year's level of \$4.8 Million.
- The City's General Fund debt decreased by \$.7 Million during FY 2013. This is due to scheduled repayment of the City's two general obligation bonds.
- In October 2012 the Williamsburg City Council members were appointed as the Board of Commissioners of the Williamsburg Redevelopment & Housing Authority (WRHA). With the fiscal dependence, by way of City staff involvement in the areas of payroll, accounts payable, and other managerial responsibilities, the WRHA is presented in this report as a Discretely Presented Component Unit of the City. Financial information is included herein for WRHA's latest fiscal year ending September 30, 2012.
- Business-type activities (Utility Fund) reported net position at June 30, 2013 of \$22.1 Million. Capital
  assets (net of depreciation and related debt) account for 81% of this amount, with the remaining net
  position of \$4.2 Million available without restriction. The Utility Fund reports combined cash and
  investments at year-end of \$4.1 Million, with total current liabilities of \$1.4 Million, including the
  current portion of bonds payable.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and budgetary comparison, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

#### **Government-wide Financial Statements**

There are two government-wide financial statements, which are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities include general government, judicial, public safety, public works, health and welfare, education, parks and recreation, cultural, community development, and debt service. The sole business-type activity of the City of Williamsburg is the water utility.

The government-wide financial statements (Exhibits 1 and 2) include not only the City itself (known as the *primary government*), but also a legally separate Housing Authority for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The <u>Statement of Net Position</u> presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. However, this is just one indicator of financial health of the City. Other indicators include the condition of the City's infrastructure systems (roads, drainage systems, bridges, etc.), changes in property tax base, and general economic conditions within the City.

The <u>Statement of Activities</u> presents information showing how the government's net position changed during the most recent fiscal year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants, and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on taxes for funding. All changes in net position are reported using the accrual basis of accounting, similar to the method used by most private-sector companies. The accrual basis of accounting requires that revenues be reported when they are earned and expenses are reported when the goods and services are received, regardless of the timing of the cash flow. Items such as uncollected taxes, unpaid vendor invoices for items received before June 30, 2013, and earned but unused vacation and sick leave will be included in the statement of activities as revenue and expense, even though the cash associated with these items will not be received or distributed until after June 30, 2013.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Williamsburg, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Williamsburg can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Governmental Funds are used to account for most, if not all, of a government's tax-supported activities. Proprietary Funds are used to account for a government's business type activities, where all or part of the costs of activities are supported by fees and charges that are paid directly by those who benefit from the activities. Fiduciary Funds are used to account for resources that are held by the government as a trustee or agent for parties outside of the government. The resources of fiduciary funds cannot be used to support the government's own programs.

Governmental Funds. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances present separate columns of financial data for the General Fund. (GASB Statement No. 34 defines a major fund as a fund who's assets, liabilities, revenues or expenditures comprise: 1) at least 10% of the total dollar amount of the same category within either all government or all enterprise funds, as appropriate; and, 2) at least 5% of the total dollar amount of all governmental and enterprise funds combined for the same category. The General Fund is always considered a major fund.) The governmental fund financial statements can be found immediately following the government-wide financial statements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements' use of accrual accounting, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements in comparison to near-term resources available.

Because the focus of governmental fund financial statements is narrower than that of government-wide financial statements, it is useful to compare information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to the governmental activities column in the government-wide statements, in order to facilitate this comparison.

The City maintains budgetary controls over its operating funds. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Budgets for governmental funds are established in accordance with state law, and are adopted on a fund level. Personnel services are budgeted by fulltime positions. Capital outlays are approved on an item-by-item basis or project basis. A budgetary comparison statement is provided for the General Fund to demonstrate compliance with the budget. Major fund budgetary variance statements are included with the basic financial statements. Non-major fund information follows the notes to the financial statements. Budgetary variances for the General Fund are discussed in some detail later in this section.

*Proprietary Funds.* The City uses an enterprise fund to account for its water utility operations. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements.

Proprietary fund statements follow the governmental fund statements in this report. They provide the same type of information as the government-wide financial statements, only in more detail, since both apply the accrual basis of accounting. The proprietary fund financial statements provide information for the Water Utility Fund, which is considered to be the only major proprietary fund of the City. There are no reconciling differences from the Proprietary Fund Statement of Net Position to the business-type activity column on the Government-Wide Statement of Net Position.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City of Williamsburg has one type of fiduciary funds - Agency Funds (which are clearing accounts for assets held by the City in its role as custodian until the funds are allocated to the organizations or government agencies to which they belong). The Statement of Fiduciary Net Position can be found following the proprietary fund financial statements.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI) concerning the (1) General Fund revenues, expenditures, and changes in fund balances-budget and actual; and (2) the City's progress in funding its obligations to provide pension benefits to its current and future retirees. This required supplementary information can be found at Exhibit 11 and 12 of this report.

The combining financial statements for nonmajor special revenue funds and fiduciary funds immediately follow the required supplementary information at exhibits 13 through 17 of this report.

This report also contains a statistical section that supplements the basic financials statements by presenting detail trend information to assist the users in assessing the economic condition of the City. We encourage readers to review the statistical section to better understand the City's operations, services, and financial condition.

The last section of this report contains a compliance section, including the City's Schedule of Expenditures of Federal Awards and related notes, and the independent auditors' required reports on compliance and internal control.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### **Statement of Net Position**

As noted earlier, changes in net position may serve over time as a useful indicator of a City's financial position. The City's net position totaled \$114.7 Million at June 30, 2013. The following table reflects the condensed Government-Wide Statement of Net Position:

#### City of Williamsburg, Virginia - Summary of Net Position

	<b>Governmental Activities</b>		<b>Business-Type Activities</b>			Total				
		<u>2013</u>	<u>2012</u>	<u>2013</u>		<u>2012</u>		<u>2013</u>		<u>2012</u>
Current and Other Assets Capital Assets	\$	32,392,095 68,275,202	\$ 30,378,183 67,716,149	\$ 5,069,569 25,940,251	\$	5,425,961 26,047,737	\$	37,461,664 94,215,453	\$	35,804,144 93,763,886
Total Assets	\$	100,667,297	\$ 98,094,332	\$ 31,009,820	\$	31,473,698	\$	131,677,117	\$	129,568,030
Long-term Liabilities Other Liabilities	\$	6,931,255 1,134,031	\$ 7,627,688 1,738,646	\$ 8,204,569 718,601	\$	8,784,297 812,346	\$	15,135,824 1,852,632	\$	16,411,985 2,550,992
Total Liabilities Net Position:		\$8,065,286	\$9,366,334	\$8,923,170		\$9,596,643		\$16,988,456		\$18,962,977
Invested in Capital Assets, net of related debt Unrestricted		62,277,812 30,324,199	60,919,382 27,808,616	 17,888,271 4,198,379		17,403,766 4,473,289		80,166,083 34,522,578		78,323,148 32,281,905
Total Net Position	\$	92,602,011	\$ 88,727,998	\$ 22,086,650	\$	21,877,055	\$	114,688,661	\$	110,605,053

The City of Williamsburg's total assets were \$131.7 Million as of June 30, 2013. The largest portion, \$94.2 Million (71.6%), reflects its investment in capital assets (e.g., land, building, machinery, and equipment), less any related debt used to acquire assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Of the remaining City assets, approximately \$31.9 Million is accounted for in cash, cash equivalents, and pooled investments, \$2.7 Million in accounts and notes receivable, and amounts due from other governmental units, with the remainder spread among miscellaneous assets.

At June 30, 2013, outstanding liabilities were \$17 Million, with \$15.1 Million in general obligation bonds payable and compensated absences. Of the bonds payable, \$1.9 Million is due within one year, with the remainder due at various dates until 2027. Refer to Note 8 in the notes to the financial statements for more information on the City's long term debt obligations. Included in other liabilities above are \$1.2 Million in accounts payable, \$8,050 in accrued liabilities, and \$110,727 in deposits payable to customers.

At June 30, 2013, the City had positive balances in all categories of net position, for the government as a whole, and for its separate governmental and business-type activities.

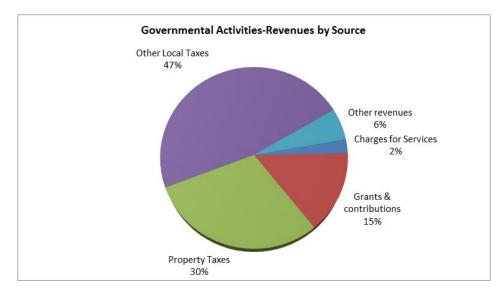

The following schedule summarizes the Statement of Activities of the primary government for the fiscal years ended June 30, 2013 and 2012:

#### City of Williamsburg, Virginia - Summary of Changes in Net Position

	Governmental Activities		Business Activit	· · ·	Total

#### **Governmental Activities – Revenues**

The City's total revenues from governmental activities were \$40.1 million for FY 2013, an increase of \$2.6 million over last year. Percentages of FY 2013 governmental revenues by source are as follows:

Taxes are the largest City revenue source – property and other local taxes accounted for 74% of General Fund revenues. Real property tax receipts were \$9.3 Million, down 1.2% from last year, and consistent with the decline in FY 2013 property assessments for the third consecutive year, even with the tax rate increasing slightly from \$.54/\$100 to \$.57/\$100 for FY 2013. Personal property tax receipts were level with last year. The State's 1% sales taxes were \$4.5 Million, up about 8% over last year, and skewed by delinquent taxes collected and remitted by the State during FY 2013. Consumer utility tax receipts were level this year. Bank stock taxes experienced a 46% increase over last year. Although room taxes were down less than 1%, meal taxes generated \$6.4 Million, and were up 1.8% over last year. The \$2 lodging taxes, which are passed-thru to the Williamsburg Area Destination Marketing Committee (WADMC), were down 3.2% for the year.

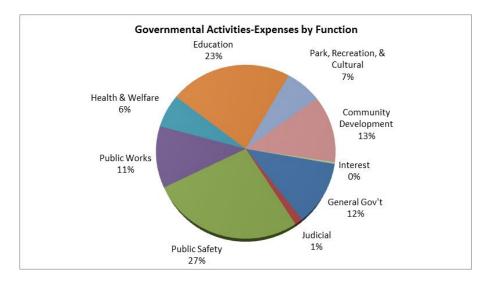

#### **Governmental Activities – Expenses**

Highlights of expense activity for governmental funds include:

- Overall expenses increased slightly by \$17K from last year.
- General government expenses increased 4.6% to \$4.3 Million, largely from an increase in the amount of depreciation expense for FY 2013 in the government-wide statements.
- Public works expenses decreased 8.1%, due to lower capital improvements spending during the year compared to last year.
- Public Safety, and Parks and Recreation expenses were level with last year.
- Education expenses were up 5.8% due to increased operating and capital projects costs compared to last year.

The Summary of Changes in Net Position shows total expenses for all of the City's governmental activities for FY 2013 were \$36.1 Million, level with last year. The City's FY 2013 budget included a one-time pay adjustment of 5.7% to compensate for State mandated employee contributions to the Virginia Retirement System beginning July 1, 2012. The City's self-insured healthcare plan, which was administered by Anthem, was terminated as of June 30, 2012, and replaced with Anthem's Local Choice program, which is administered by the Commonwealth of Virginia.

Public Safety spending, making up the largest percentage of expenses for the governmental activities, increased only \$33K during FY 2013.

**Business-type activities** - The Utility Fund is the City's only business-type activity. The utility rate structure recovers as much as possible of the operating expenses incurred to meet service demands through user charges. Changes in the fund's net position is the difference between revenues and expenses, which for FY 2013 resulted in a slight increase \$209K. Highlights include:

- Operating revenue for the Utility Fund was up \$251K, or 4.3% for FY 2013. Total water consumption for FY 2013 was .992 billion gallons, down from 1.02 billion gallons last year.
- Total operating expenses were up slightly by \$84K, or 1.4%.
- Investment earnings were approximately \$30K, level with last year.

#### FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Williamsburg uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The following is a financial analysis of the City's governmental and proprietary funds.

#### **Governmental Funds Revenues - Analysis**

The Governmental Funds consist of the General Fund, Public Assistance Fund, and the Law Enforcement Block Grant Fund. The general governmental functions are contained in the General Fund, the City's chief operating fund. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. On June 30, 2013, total fund balance of the General Fund was approximately \$30.6 Million. Of that amount, *Nonspendable* fund balance was approximately \$1.2 Million, consisting of prepaid expenditures and current market value of City-owned property for sale. *Assigned* fund balance was \$18.0 Million, representing a combination of appropriations carried over for capital projects of \$4.2 Million and future capital projects of \$13.8 Million. The remainder of \$11.4 Million is shown as *Unassigned* fund balance.

The following provides more detailed information about major General Fund operating revenue collections during FY 2013:

- **General Property Taxes** –This consists of real and personal property tax receipts. Real property tax receipts were \$9.3 Million, down 1.1% from last year. Personal property tax receipts for individuals and businesses totaled \$2.6 Million, including reimbursement for the State's Car Tax relief block grant program, and were up slightly by 1.6% from last year.
- Other Local Taxes Overall these revenues increased 3.4% from last year. Sales taxes were up 8.0% from last year, as were consumer utility taxes up 3.6%. Room taxes were down slightly by .8% from last year, while meal taxes were up 1.8% for the year.

- Revenue from the Use of Money and Property Interest earnings were \$108K for the year, down from last year's \$125K. The average interest rate on certificate of deposits declined slightly during the year, and the average yield on deposits and investments was approximately .50%. Prince George Parking Garage receipts were \$284K, up 7.9% for the year.
- Charges for Services This category consists largely of EMS medical transport fees, recreation
  programs and facility rentals, and cemetery lots and fees. Overall revenues in this category were
  \$950K, up by 4.5% from last year.
- **Miscellaneous/Recovered Costs** These include reimbursements for Utility Fund overhead charges, public safety overtime, stormwater management fees, and James City County's reimbursed portion of annual Arts Commission grants under miscellaneous receipts.
- Intergovernmental Overall, intergovernmental revenues were \$5.6 Million, down 5.5% from last year, largely due to FEMA and Virginia Department of Transportation grants received last year for specific projects. Grantor's, rolling stock, sales tax for education, and rental car taxes were down slightly from last year. State highway maintenance payments were \$1.55 Million, up 4.8% for the year.

#### **Governmental Funds Expenditures - Analysis**

The following table represents Governmental expenditures by function, including capital projects, compared to prior year amounts.

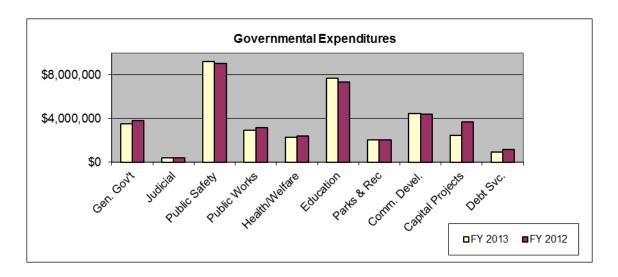

## Expenditures By Function Governmental Funds

Interest	140,392	0.39%	250,284	<u>0.70%</u>	(109,892)	- <u>43.91</u> %
Total Expenditures	\$35,800,086	100.00%	\$37,350,314	104.33%	(\$1,550,228)	-4.15%

The City's FY 2013 budget included a 5.7% pay increase for employees to compensate for State mandated requirement for employees to pay their own 5% contribution to the Virginia Retirement System. The City's Virginia Retirement System employer contribution rate, which is set for two-year increments based on the latest actuarial valuation, was 16.29% of covered payroll for FY 2013.

The following analysis provides additional information on the City's expenditures by function that changed significantly over the prior year.

- **General Government Administration** Down \$271K, or 7.2% from last year. The major reduction in expenditures stems from approximately \$310K included last year for settle-up payments to Anthem when the City's self-insured healthcare plan was terminated.
- **Judicial Administration** The City funds judicial offices with James City County in the jointly owned Courthouse, according to a population-based formula each year. The City's share of expenditures totaled \$398K, up 7.3% from last year.
- Public Safety This category includes several departments, and overall increased 1.6% over last year. Police department spending was up 3.1% over last year, mostly from increases in salaries, benefits, and other operational costs. E-911 contracted services were up slightly by 2.7% for the year, consistent with the national consumer price index, which the contractual amount is based on each year. Fire department spending was up 4.8%, mostly from higher personnel costs during FY 2013. Juvenile detention services are provided by the Middle Peninsula Juvenile Detention Commission, which operates the 48-bed Merrimac Center. Days used by City kids during FY 2013 totaled 354 compared to 856 last year. Juvenile detention costs for FY 2013 were \$73K compared to \$151K last year.
- Public Works Streets and engineering expenditures were \$1.3 Million, up 2.4% from last year, mostly for increased salaries, benefits, and electricity costs. Refuse collection was up .7%, while maintenance of building and grounds was up 4.9%. Landscaping costs were \$508K, down significantly from last year's \$772K, which included debris removal costs associated with Hurricane Irene in August, 2011.
- **Health & Welfare** Local health department costs were \$184K, down 9.5% from last year. Contributions to the Colonial Behavioral Health were \$245,860, level with the past four years. Local public assistance programs directly provided by the City were up slightly by 3.2%.
- Education Education costs were \$7.7 Million, up 4.6% from last year. The City's share of the jointly operated Williamsburg-James City County Schools for Fiscal Year 2013 was 9.17%. FY 2013 was the first of a five year renegotiated joint agreement, with operating funding based on the City's share of student population multiplied by a 14% factor, then averaged over the past three years. Also under that agreement the City funding at the same rate for approved capital projects. The City's share of school capital costs paid during the year was \$532K, and included new projects and others carried forward from prior years.
- Parks, Recreation and Cultural Parks and recreation costs were up 1.4% due mostly to personnel cost increases. Library expenditures were up 5.1% over last year.
- Community Development Planning expenditures were up 7.3% from last year, due to increased personnel and comprehensive plan costs. Contributions to outside agencies were \$3.7 Million, including pass-thru funding of the \$2 lodging taxes to the Williamsburg Area Destination Marketing Committee. Arts Commission expenditures were up level with last year.
- Capital Projects Capital project spending varies each year depending on the 5-year program. City project spending totaled \$2.4 Million for FY 2013. Capital projects included street resurfacing, sidewalk construction, stormwater management projects, school improvements, and vehicles. More information is provided under the Capital Asset section below.
- Principal and Interest payments –Total principal payments during FY 2013 totaled \$758K, while
  interest payments on outstanding debt totaled \$140K. Details of long term debt obligations are
  included in the notes to the financial statements.

#### **Budget Variances**

Included in the Final Budget column of the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual - are carryover funds for Capital Projects. Since all planned projects rarely are completed by fiscal year end, this carryover is required in order to complete planned and previously approved projects.

General Fund operating revenues were over budget by approximately \$248K for FY 2013, while operating expenditures were approximately \$1.1 Million under budget. Although many revenue sources were slightly lower than budgeted, many sources, including business licenses, meal taxes, bank stock taxes, and recordation taxes ended the year higher than budgeted. On the expenditure side, major contributing departments that were underspent for FY 2013 were fire, police, planning, and the subsidy for public assistance.

#### **Fund Balance**

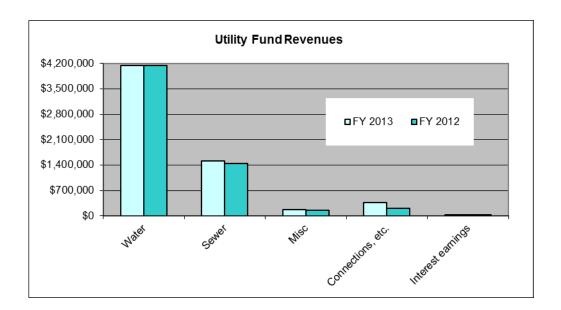

Total Fund Balance for the General Fund increased from \$27.8 Million to \$30.6 Million for the year. Of that, (1) \$1.2 Million is *nonspendable*, and represents prepaid items, and City-owned land held for resale; (2) \$18 Million is *assigned* for subsequent years' carryover capital expenditures. This category includes \$4.3 Million of prior year carryover capital projects for sidewalk construction projects, stormwater management improvements, Prince George Street reconstruction, underground wiring, and school capital projects. The remaining \$13.8 Million of assigned fund balance will fund future capital projects included in the City's five-year capital improvement program; (3) and \$11.4 Million is *unassigned*.

#### **General Fund Reserve Policy**

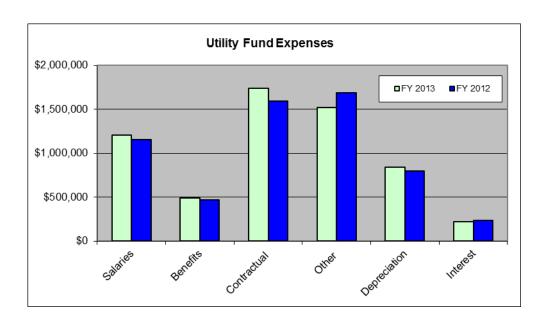

At June 30, 2013 the *unassigned* fund balance of \$11.4 Million is 35% of FY 2013 operating revenues, consistent with the City's fund balance reserve policy.

#### **Enterprise Funds Revenue/Expense Analysis**

The business-type activity (water and sewer services of the Utility Fund) revenues for the year were \$6.2 Million, up 4.2% from last year. Water rates increased 6% in July 2012 from \$4.30 to \$4.55 per 1,000 gallons. Water revenues were up slightly by \$5,724, about .1% over last year. Even with an increase in water rates, revenues were only up slightly, due to lower city-wide water consumption during the year. Total water consumption during the year was .992 billion gallons, compared to 1.015 billion gallons in FY 2012, a reduction of 2.3%.

Tap, connection, and availability fees are unpredictable and dependent on development activity, and were down significantly from past years due to a slowdown in development activity. The City received \$162,040 this year from contracts with cell-phone providers using water tanks as a base for telecommunications equipment. Interest earnings were \$29K, and level from last year. Utility Fund expenses totaled \$5.8 Million for the year, up 1.7% from last year. Depreciation charges now include a portion of the 25-year amortization of the total \$12.5 Million cost of the Newport News Water agreement, classified as intangible water rights in the Utility Fund. Operating income for the year was \$397K, up from \$241K reported last year. Total net position of the Utility Fund increased by the net income for FY 2013 of \$210K, leaving the fund's ending total net position at \$22.1 Million.

#### **ORIGINAL AND FINAL AMENDED BUDGETS**

By separate resolution, the General Fund FY 2013 budget was amended in February and June, 2013, resulting in a net increase of \$53,488 from the original budget. The General Fund's capital improvement budget was increased by \$1,375,060 to carry forward the remaining appropriations for projects that were continued from the prior year, and also by a \$63,502 increase from grants used for fire equipment.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

The City of Williamsburg's total investment in capital assets, including construction in progress, for its governmental and business type activities as of June 30, 2013, was \$94.2 Million (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery and equipment, and recreation and park facilities. Major capital assets of the Utility Fund consist of all assets used to provide water and sewer services to City residents, including the major investment of the Waller Mill Reservoir and all properties adjacent to this watershed, and intangible water rights with the Newport News water agreement.

Major capital project fund activities during the current fiscal year included the following:

#### **Governmental Funds:**

- Various City streets were resurfaced during the year at a cost of \$383,576.
- Sidewalk construction projects on five city streets totaled \$50,660.
- Information technology upgrades, pc replacement program, phone system, and mobile data terminals were completed at a cost of \$181,800.
- Kiwanis Park improvements, including tennis and basketball court resurfacing, and tree removal for the future fourth softball field, were completed at a cost of \$65,000.
- School project costs, including renovations to existing facilities, were paid during the year in the amount of \$532,640.
- Vehicles were replaced citywide under the replacement plan for \$638,984, including a medic unit for the fire department in the amount of \$218,375.

The budget balances of any appropriated capital projects not completed at year end are carried forward to the next fiscal year, as provided for in the City's financial policies. Carryover funds for capital projects totaled approximately \$4.3 Million at year end.

#### **Utility Fund:**

- Three properties totaling 2 acres on Oak Tree Road in York County were acquired for watershed protection at a cost of \$105,729.
- One property totaling 1.75 acres was acquired on Mooretown Road in York County for watershed protection for \$23,500.
- Condition assessment of the City's sanitary sewer system, which is mandated by the EPA, continued during the year costing \$686,708.

Additional information on the City of Williamsburg's capital assets can be found in the Note 6-Capital Assets, on pages 45 – 47 of the Notes to the Financial Statements section of this report.

#### **Long-Term Debt**

At June 30, 2013, the City of Williamsburg's total outstanding bonded debt was \$13.4 Million. Bonds payable for Governmental Activities were \$5.7 Million, while business-type activities owed \$7.7 Million at year end. The full faith and credit of the government backs these instruments.

The City's total bonded debt decreased \$1.3 Million during FY 2013. The City's remaining capacity for debt at June 30, 2013 was approximately \$148 million.

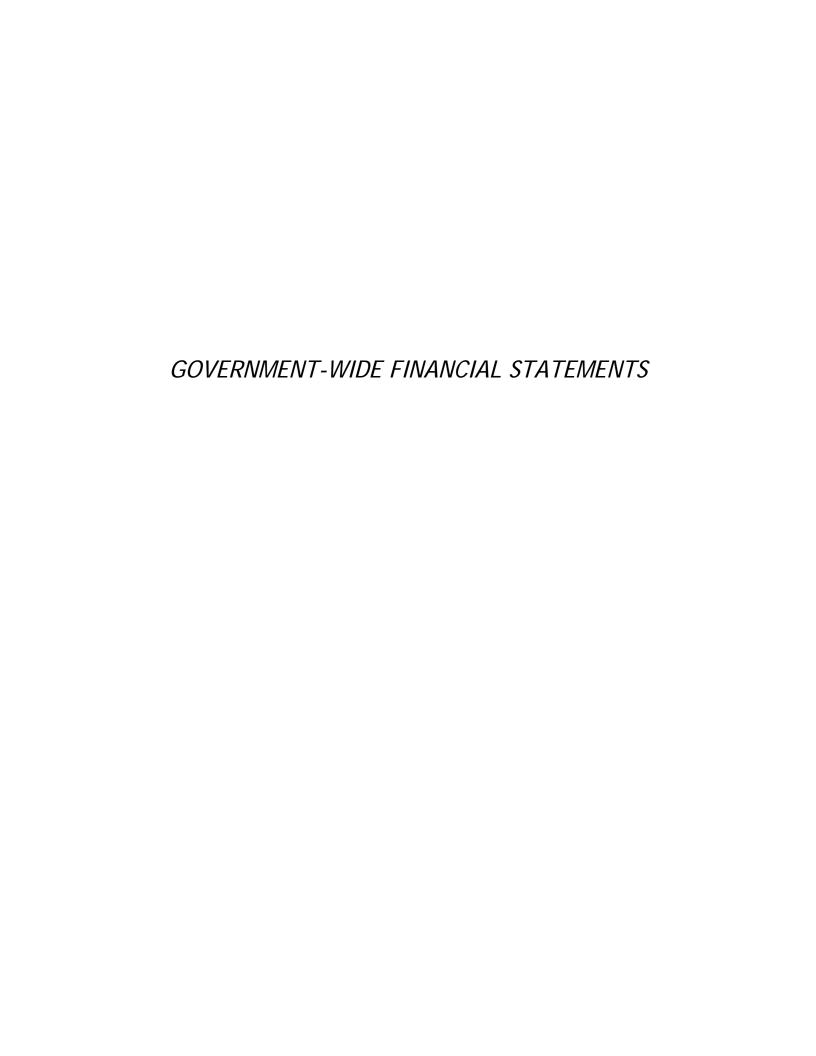

City staff continues to work with financial advisors, Davenport and Company, to analyze all aspects of capital project borrowing needs in order to secure the best interest rates if and when future borrowing is necessary. Additional information on the City's long-term debt can be found under *Financial Highlights* on the first page of this Management's Discussion and Analysis, and in Note 8 to the financial statements—Long-Term Obligations, on pages 48 – 50 of this report

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Williamsburg's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, City of Williamsburg, 401 Lafayette St., Williamsburg, VA 23185

resources and fund balances	\$	32,078,379	\$	316,735	\$	32,395,114

## City of Williamsburg, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Position June 30, 2013

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 30,919,126

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

68,275,202

Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as deferred inflows of resources in the funds. The following is a summary of items suporting this adjustment:

Unavailable revenue - property taxes

373,637

Premiums related to the issuance of long-term debt are reported when the debt is first issued in the governmental funds, whereas these amounts are deferred and amortized in the statement of net position.

Deferred premium on refunding

(312,163)

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

General obligation bonds Accrued interest payable \$ (5,685,227)

(34,699)

Compensated absences (933,865) (6,653,791)

Net position of governmental activities

\$ 92,602,011

# City of Williamsburg, Virginia Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities

For the Year Ended June 30, 2013

	F	Amounts reported fo	r governmenta	l activities in	the statement of	of activities are	different because:
--	---	---------------------	---------------	-----------------	------------------	-------------------	--------------------

Amounts reported for governmental activities in the statement of activities are different because	se:			
Net change in fund balances - total governmental funds			\$	2,710,937
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment:				
Capital outlay	\$ 3,	951,522		
Depreciation expense	(3,	335,785)		615,737
The net effect of various miscellaneous transactions involving capital assets (i.e., sales,				
trade-ins, and donations) is to increase net position.				(56,684)
Revenues in the statement of activities that do not provide current financial resources are				
not reported as revenues in the funds.				56,766
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. The following is a summary of items supporting this adjustment:  Principal retirement on general obligation bonds  Amortization of premium		758,761 40,616		799,377
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:  (Increase) decrease in compensated absences (Increase) decrease in accrued interest payable	\$ (	(102,944) (23,071)		(126,015)
Change in net position of governmental activities			\$	4,000,118
			_

#### Notes to Financial Statements As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies:

The City of Williamsburg, Virginia (the "City") was established by the General Assembly of the Commonwealth of Virginia in 1699 and was incorporated by British Royal Charter in 1722. The City is a municipal corporation governed by an elected mayor and four-member council. The accompanying financial statements present the government and the entities for which the government is considered to be financially accountable.

#### **Financial Statement Presentation**

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

#### **Government-wide and Fund Financial Statements**

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities). Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

#### A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the City of Williamsburg (the primary government) and its component unit. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

#### B. <u>Individual Component Unit Disclosures</u>

Blended Component Unit - The City has no blended component units to be included for the fiscal year ended June 30, 2013.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### B. Individual Component Unit Disclosures (Continued)

Discretely Presented Component Units - The Williamsburg Redevelopment and Housing Authority (WRHA) is responsible for operating a low income housing program in the City which provides housing for eligible families, for operating redevelopment and conservation programs and for delivering of services to citizens of low income housing and urban renewal areas through the encouragement and development of social and economic opportunities. The Commissioners of the Authority are appointed by City Council. Effective October 8, 2012, the City of Williamsburg replaced the Commissioners of the Authority with the members of City Council. The Authority is fiscally dependent on the City as the City is now involved in the day-to-day operations of the WRHA, including the processing of their payroll, accounts payable and other managerial functions and therefore, it is included in the City's financial statements as a discrete presentation for the year ended June 30, 2013. WRHA's fiscal year of October 1 to September 30 differs from the City's fiscal year of July 1 to June 30. A copy of the separately issued financial statements may be obtained for the WRHA by writing to Williamsburg Redevelopment and Housing Authority, 401 Lafayette Street, P.O. Box 411, Williamsburg, VA 23185 or by calling (757) 220-3477.

#### C. Other Related Organizations

Not included in the City's financial statements are certain entities created as separate governments under the laws of the Commonwealth of Virginia. These agencies are separate legal entities having governmental character and sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the City, although certain members of their governing bodies are appointed by the City Council. Specific information on the nature of the individual agencies and description of their financial transactions affecting the City are provided in the following paragraphs:

1. The City of Williamsburg - County of James City, Virginia Joint Public Schools - Under the terms of an agreement dated January 14, 1954, and subsequently revised, between the governing bodies and the school boards of the City of Williamsburg, Virginia and the County of James City, Virginia, effective July 1, 1955, the two localities consolidated the operations of their schools. The latest agreement was amended April 24, 2012 for Fiscal Years 2013 through 2017. That agreement provides that the City's share of operational costs will be equivalent to the percentage of City students each year, times an addon factor, then averaged over the two past fiscal year funding shares. The add-on factor for Fiscal Years 2013 through 2017 is as follows:

Fiscal Year	Factor
2013	1.14
2014	1.14
2015	1.14
2016	1.14
2017	1.14

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### C. Other Related Organizations (Continued)

2. The City of Williamsburg - County of James City, Virginia Joint Public Schools (Continued)

Summary financial information on the school operations (General Fund) as of June 30, 2013, is as follows:

Total assets	\$	14,316,972
Liabilities Fund equity and other credits		12,486,959 1,830,013
Total liabilities, fund equity, and other credits	\$	14,316,972
Revenues Expenditures and other financing uses	•	111,965,107 111,577,083
Excess of expenditures and other financing uses over revenues	\$	388,024
Fund balance, beginning		1,441,989
Fund balance, ending	\$	1,830,013

General long-term obligations of the joint school operations consists of liabilities for early retirement, compensated absences, and obligations under capital leases. Each participating government is responsible for its own debt related to school properties.

- 2. Williamsburg Regional Library The Library is a joint operation of the City of Williamsburg and the County of James City, Virginia, operating under a contract dated January 14, 1999. It receives funding from the Commonwealth of Virginia, the federal government, York County, and some private sources. The Library's board is split between City and County appointees. The Library's management is independent from City and County control. During the current fiscal year, the City contributed \$819,506 to the Library's operating budget, or 15.05% of its net appropriated support. Separate financial statements are prepared and are available, which reflect the details of its operations.
- 3. Other Agencies Certain agencies and commissions service both the City of Williamsburg and surrounding localities. Board membership is allocated among the localities and their governing bodies make appointments. These agencies include: Hampton Roads Planning District Commission (HRPDC), Peninsula Alliance for Economic Development (PAED), Colonial Behavioral Health, Virginia Peninsula Regional Jail, Group Home Commission, Middle Peninsula Juvenile Detention Commission, Peninsula Agency on Aging, Community Action Agency, Crossroads, Hampton Roads Partnership, Virginia Peninsula Public Service Authority, and the Williamsburg Area Arts Commission.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The City's fiduciary funds are presented in the fund financial statements by type and have no measurement focus but use the accrual basis of accounting for asset and liability recognition. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the City.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

#### 1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The City reports the General Fund as a major governmental fund.

The General Fund is the primary operating fund of the City. This fund is used to account for and report all financial transactions and resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income.

Special Revenue Funds account for and report the proceeds of specific revenue sources that are restricted, committed, or assigned to expenditure for specified purposes other than debt service or capital projects requiring separate accounting because of legal or regulatory provisions or administrative action. Special Revenue Funds consist of the following non-major funds: Virginia Public Assistance Fund and Law Enforcement Block Grant Fund. The Virginia Public Assistance Fund accounts for the Social Services programs of the City and is funded primarily through intergovernmental revenues.

#### 2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The City's major Enterprise Fund consists of the Utility Fund.

#### 3. Fiduciary Funds

Fiduciary Funds (Trust and Agency Funds) account for assets held by the City unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Private Purpose Trust and Agency Funds. Private Purpose Trust Funds utilize the accrual basis of accounting as described in the Proprietary Funds Presentation. Agency funds utilize the accrual basis of accounting described in the Proprietary Fund Presentation. Agency funds include the Williamsburg Regional Library, the Williamsburg Tricentennial Fund, Colonial CASA Fund, Economic Development Authority, and the Farmer's Market Fund. Fiduciary funds are not included in the government-wide financial statements.

#### E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

#### F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements with maturities of three months or less from the date of acquisition are reported in the accompanying financial statements as cash and cash equivalents.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$705,977 at June 30, 2013 and is comprised of property taxes of \$67,442 water and sewer charges of \$91,612, and ambulance recovery fees of \$546,923.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property				
Levy	July 1	January 1				
Due Date	December 1 / June 1	December 1				
Lien Date	July 1	January 1				

The City bills and collects its own property taxes. The City follows the practice of reassessing real estate annually and personal property annually.

#### H. Capital Assets

Capital assets, which include property, plant and equipment, infrastructure, and intangibles are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the City as land, buildings, infrastructure, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation. Intangible assets lack physical substance and have a nonfinancial nature and initial useful life extending beyond a single reporting period.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized asset as of June 30, 2013 was immaterial.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### H. Capital Assets (Continued)

Property, plant and equipment, infrastructure, and intangibles of the primary government are depreciated (including amortization of intangible assets) using the straight-line method over the following estimated useful lives.

Assets	Years
Buildings	40
Improvements other than buildings	20
Infrastructure	
Roads	30
Bridges and culverts	50
Water/sewer system	40
Machinery and equipment	3-10
Intangibles	40

#### I. Compensated Absences

Vested or accumulated vacation leave is recognized as an expenditure and liability of the governmental fund that will pay it when it is matured. Thus, the only portion of a compensated absences liability that is reported in the governmental funds would be the amount of reimbursable unused vacation leave or sick leave payable to employees who had terminated their employment as of June 30<sup>th</sup>. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

#### J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The City's policy is to fund pension cost as it accrues.

#### K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### L. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

### M. <u>Financial Reporting of Deferred Outflows of Resources</u>, <u>Deferred Inflows of Resources</u>, <u>and Net Position</u>, Statement No. 63 of the Governmental Accounting Standards Board

The City has implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. The Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position." The net equity reported in the financial statements has not changed as a result of implementing this Statement and no restatement of prior balances is required.

#### N. Deferred Outflow/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then. The City does not have any deferred outflows of resources as of June 30, 2013.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reported a deferred inflows of resources for property taxes unavailable at June 30, 2013.

### O. <u>Items Previously Reported as Assets and Liabilities</u>, <u>Statement No. 65 of Governmental Accounting Standards</u> Board

The City early implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### P. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

#### Q. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

#### R. Prepaid Items

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

#### S. Inventory

Inventory is valued at cost using the weighted average method. Inventory consists of expendable supplies held for consumption and is recorded as expenditures when used (consumption method). Inventory in the General Fund includes land purchased by the City and held for resale. These amounts are valued at their estimated fair market value.

#### T. Fund Equity

The City Council adopted a fund balance policy on June 9, 2011 in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by the City Manager to which the governing body delegates the authority;

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 1—Summary of Significant Accounting Policies: (Continued)

#### T. Fund Equity (Continued)

Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported
in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the City's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the City Manager, who has been given the delegated authority by the City Council to assign amounts for a specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the City strives to maintain an unassigned fund balance to be used for unanticipated emergencies equal to a minimum of 35% of General Fund operating revenue as shown in the City's most recent comprehensive annual financial report.

The details of governmental fund balances, as presented in aggregate on Exhibit 3, are as follows:

				Non-Major Special Revenue Funds				
		General Fund	•	Virginia Public Assistance Fund		Law Enforcement Block Grant Fund	-	Total
Fund Balances:	_				_		_	
Nonspendable:								
Prepaid Items	\$	12,518	\$	-	\$	-	\$	12,518

	_	40			-			

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

- 1. The City Charter requires the City Manager to submit to the City Council an annual budget for the ensuing fiscal year at least 60 days prior to the beginning of such fiscal year.
- 2. A public hearing on the budget is held after a synopsis of the budget is published in a local newspaper of general circulation. After a public hearing, the City Council may change any item in the budget (other than debt service or items required by law). A budget resolution must be adopted by the City Council prior to June 30 or as soon thereafter as is practicable.
- 3. The City utilizes the budget resolution of budgetary control whereby City Council adopts budgets for estimated revenues and expenditures on a departmental basis for the General Fund and Special Revenue Funds. Adopted budgets may be amended or superseded by action of City Council.
- 4. Budgets are also adopted by City Council for the Enterprise Funds. Budget to actual comparisons for these funds are not presented herein since there is no legal requirement for such presentation.
- 5. All operating budgets include proposed expenditures and the means of financing them. The City Manager has the authority to transfer amounts within the departments, so long as the total appropriation for a department is not adjusted. Budgeted amounts as presented in the financial statements reflect reallocations within budget categories through June 30, 2013.
- 6. Appropriation control is maintained at the department level. Appropriations lapse at year end. Encumbrances and reserved fund balances outstanding at year end are re-appropriated in the succeeding year.
- 7. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 8. The City utilizes a Finance and Audit Committee to assist City Council in carrying out its oversight responsibilities as they relate to financial reporting, internal controls and compliance with laws and regulations.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 2—Stewardship, Compliance, and Accounting: (Continued)

#### **Expenditures and Appropriations**

Expenditures exceeded appropriations in the following departments:

Department	Final Budget		
General Fund:			
Registrar	\$ 90,863	\$ 95,699	\$ 4,836
Juvenile detention commission	60,000	73,006	13,006
Highways, streets, bridges and sidewalks	1,041,474	1,057,026	15,552
Engineering	265,300	269,532	4,232
Local health department	181,769	184,171	2,402
Transportation programs for elderly	3,900	5,084	1,184
Arts commission	171,470	172,470	1,000
Principal retirement	664,649	758,761	94,112
Virginia Public Assistance Fund:			
Comprehensive services	212,500	244,926	32,426
Law Enforcement Block Grant Fund:			
Other protection	12,040	12,065	25

#### Note 3—Deposits and Investments:

#### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and saving institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

At year-end the carrying value of the City's deposits with banks and savings institutions was \$30,704,873 and the bank balance was \$31,522,405. Of the bank balance \$31,522,405 was covered by Federal depository insurance. Of the Bank balance \$14,182,626 was uninsured and uncollateralized in banks or savings and loans not qualifying under the Act at June 30, 2013.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 3—Deposits and Investments: (Continued)

#### Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

#### Credit Risk of Debt Securities

The City's rated debt investments as of June 30, 2013 were rated by <u>Standard and Poor's</u> and the ratings are presented below using the <u>Standard and Poor's</u> rating scale. The City's investment policy has an emphasis on high credit quality and known marketability. Holdings of commercial paper are not allowed to exceed thirty-five percent of the investment portfolio, and not more than 5% per issuer.

City's Rated Debt Investmen	nts' Values	
Rated Debt Investments	Fair	Quality Ratings
		AAAm
Local Government Investment Pool	\$	3,907,315
Total	\$	3,907,315

#### **External Investment Pools**

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7. The dollar weighted average maturity of the LGIP portfolio may not exceed 60 days.

Notes to Financial Statements (Continued) As of June 30, 2013

#### *Note 4—Due from Other Governments:*

At June 30, 2013, the City has receivables from other governments as follows:

	Primary Government			
Other Local Governments:				
County of James City	\$	6,710		
Williamsburg-James City County Public Schools		79,627		
Williamsburg Redevelopment and Housing Authority		1,370		
Commonwealth of Virginia:				
Communications tax		116,296		
CSA pool funds		47,701		
Local sales tax		1,094,983		
Recordation tax		18,733		
Social services		38,441		
State sales tax		161,083		
Other		15,508		
Federal Government:				
Social Services		58,198		
Total	\$	1,638,650		

#### *Note 5—Interfund Obligations:*

Details of the Primary Government's interfund receivables and payables as of June 30, 2013 are as follows:

	In	terfund	Interfund				
Fund	Re	ceivables	P	ayables			
General	\$	27,893	\$	-			
Virginia Public Assistance		-		3,019			
Proprietary		-		24,874			
Total	\$	27,893	\$	27,893			

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

## Notes to Financial Statements (Continued) As of June 30, 2013

2024 - 2027		338,482		26,334		2,341,517			182,166		
					•						
Total	\$	5,685,227	\$	724,298	\$	7,714,772	\$	\$	1,893,265		

## Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 8-Long-Term Obligations: (Continued)

Details of long-term indebtedness are as follows:

Long-Term Obligations, Governmental Activities:	 Total Amount
General Obligation Bonds:  The City authorized and issued a \$5,180,000 general obligation refunding bond in	
June 2012 for the purpose of refunding a Series 2005 general government obligation. The bond is payable in annual principal installments plus semi-annual interest payments at a various coupon rates, 2.00% thru 4.00%. Payments are due the first day October and April. Payments began October 1, 2012 and end April 1, 2020. Carrying value of debt allocable is \$4,570,000 plus amortized premium of \$264,412.	\$ 4,834,412
The City authorized and issued a \$10,635,000 general obligation refunding bond in October 2010 for the purpose of refunding a Series 2002 general government obligation and a Series 2009 enterprise fund obligation. The bond is payable in annual principal installments plus semi-annual interest payments at various coupon rates, 2.005 thru 4.50%. Payments are due the first day of May. Payments began May 1, 2011 and end May 1, 2027. Carrying value of the debt allocable to general government is \$1,115,227 plus unamortized premium fo \$47,751.	1,162,978

#### Note 9—Unearned and Unavailable Revenue:

Unearned and unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unavailable revenue of \$373,637 and unearned revenue of \$339,198 totaling \$712,835 is comprised of the following:

<u>Unavailable Property Tax Revenue:</u> Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$373,637 at June 30, 2013.

<u>Unearned Revenue:</u> Property taxes due subsequent to June 30, 2013, but paid in advance by the tax payers totaled \$3,350 at June 30, 2013. Additional unearned revenue representing state personal property tax relief and courthouse maintenance funds not available for funding of current expenditures totaled \$300,721 at June 30, 2013. The Special Revenue Funds report \$35,127 in unearned revenue related to summer youth program funds received but not expended at June 30, 2013.

The Utility Fund reports unearned revenue representing a lease agreement paid in advance by Crossroads Community Youth Home totaling \$153,000 at June 30, 2013.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 10—Commitments and Contingencies:

Federal programs in which the City participates were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by the audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

#### *Note 11—Litigation:*

At June 30, 2013, there were no matters of litigation involving the City or which would materially affect the City's financial position should any court decisions on pending matters not be favorable to such entities.

#### *Note 12—Risk Management:*

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City joined together with other local governments in Virginia to form the Virginia Municipal Liability Pool, a public entity risk pool currently operating as a common risk management and insurance program for participating local governments. The City pays annual premiums to the pool for its property, theft, auto liability, and general liability coverage. Settled claims for the City resulting from these risks have not exceeded insurance coverage for each of the past three years. There was no reduction in insurance coverage during fiscal year 2013.

The City is also a participating member in the Virginia Municipal Group Self Insurance Association. This non-profit entity provides workers' compensation coverage in compliance with the Virginia Workers' Compensation Code. Each Association member jointly and severally agrees to assume, pay and discharge any liability. The City pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid.

In the event of a loss deficit and depletion of all available excess insurance, the pool may assess all members in the proportion, which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. In addition, the City provides various surety bond coverage as required under regulations and at industry recommended levels.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 13—Defined Benefit Pension Plan:

#### Primary Government:

#### A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least five years of service credit or age 50 with at least ten years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2013 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with a least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the members plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplier. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 13—Defined Benefit Pension Plan: (Continued)

#### A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1, of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950) as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the report may be obtained from the VRS website at: <a href="http://varetire.org/Pdf/Publications/2012-annual-report.pdf">http://varetire.org/Pdf/Publications/2012-annual-report.pdf</a> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

#### B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the City is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The City's contribution rate (including member contribution) for the fiscal year ended 2013 was 21.29% of annual covered payroll.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 13—Defined Benefit Pension Plan: (Continued)

#### C. Annual Pension Cost

For fiscal year ended June 30, 2013, the City's annual pension cost of \$1,503,579 was equal to the City's required and actual contributions.

Three-Year Trend Information for City

Fiscal Year Ending	Co	Annual Pension ost (APC) (1)	Percentage of APC Contributed	Pe	Net nsion igation
June 30, 2011 June 30, 2012	\$	1,439,993 1,466,239	100% 100%	\$	-
June 30, 2013		1,503,579	100%		-

#### (1) Employer and employee portions

The fiscal year 2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the City's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The City's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 13—Defined Benefit Pension Plan: (Continued)

#### D. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the plan was 71.02% funded. The actuarial accrued liability for benefits was \$59,788,018, and the actuarial value of assets was \$42,461,720, resulting in an unfunded actuarial accrued liability (UAAL) of \$17,326,298. The covered payroll (annual payroll of active employees covered by the plan) was \$8,824,465, and ratio of the UAAL to the covered payroll was 196.34%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

#### Note 14-Surety Bonds:

Surety bonds covered the following constitutional officers and City employees at June 30, 2013:

	1	Amount
Travelers Casualty and Surety Company of America		
Philip F. Serra, Director of Finance	\$	500,000
Judy Nightingale Fuqua, Commissioner of the Revenue		3,000
Betsy Woolridge, Clerk of Circuit Court		103,000
Robert Deeds, Sheriff		30,000
Employees of Constitutional officers - blanket bond		1,000,000
Police Department - blanket bond		100,000
All City of Williamsburg employees except Constitutional		
Officers and their subordinates and the Police Department		100,000

#### Note 15-Upcoming Pronouncements:

The GASB has issued Statement No. 68, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27." This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statement No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014. The City has not determined the impact of this pronouncement on its financial statements.

Notes to Financial Statements (Continued) As of June 30, 2013

#### Note 16-Restatement of Beginning Net Position:

The following adjustment was made to beginning net position at July 1, 2012:

	Governmental Activities
Net position as previously reported at June 30, 2012	\$ 88,727,998
Adjustment to expense issuance costs on debt previously deferred and amortized in accordance with implementation of GASB 65 on July 1, 2012	(126,105)
Net position as restated at July 1, 2012	\$ 88,601,893

#### REQUIRED SUPPLEMENTARY INFORMATION

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

To The Honorable Members of the City Council City of Williamsburg
Williamsburg, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Williamsburg Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City of Williamsburg, Virginia's basic financial statements, and have issued our report thereon dated October 25, 2013.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Williamsburg Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Williamsburg, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Williamsburg, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Williamsburg, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

To The Honorable Members of the City Council City of Williamsburg Williamsburg, Virginia

#### Report on Compliance for Each Major Federal Program

We have audited the City of Williamsburg, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Williamsburg, Virginia's major federal programs for the year ended June 30, 2013. The City of Williamsburg, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

The City of Williamsburg, Virginia's basic financial statements include the operations of the Williamsburg Redevelopment and Housing Authority, a discretely presented component unit, which received \$516,080 in federal awards which is not included in the schedule during the year ended June 30, 2013. Our audit, described below, did not include the operations of the Williamsburg Redevelopment and Housing Authority, a discretely presented component unit, because the component unit engaged auditors to perform a separate audit in accordance with OMB Circular A-133.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Williamsburg, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Williamsburg, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Williamsburg, Virginia's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the City of Williamsburg, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

#### Report on Internal Control Over Compliance

Management of the City of Williamsburg, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Williamsburg, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Williamsburg, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to schedule of expenditures of federal awards.

# City of Williamsburg, Virginia Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2013

#### Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Williamsburg, Virginia under programs of the federal government for the year ended June 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents on a selected portion of the operations of the City of Williamsburg, Virginia, it is not intended to be and does not present the financial position, changes in net position, or cash flows of the City of Williamsburg, Virginia.

#### Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

#### Note 3 - Relationship to Financial Statements

Federal expenditures, revenues, and capital contributions are reported in the City's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General fund	\$ 51,766
Virginia public assistance fund	597,497
Law enforcement block grant fund	11,496
Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$ 660,759
