Independent Accountant's Report

We have examined management's assertion and criteria, included in the accompanying letter, regarding the completeness and accuracy of the census data sent to the actuary of the Virginia Retirement System (the System) for the year ended June 30, 2013. Management is responsible for the assertion regarding the System's compliance with those requirements. Our responsibility is to express an opinion on management's assertion about the System's compliance based on our examination.

Our examination was conducted in accordance attestation standards established by the American Institute of Certified Public Accountants, and accordingly, included examining, on a test basis, evidence supporting management's assertion about the System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, management's assertion that the Virginia Retirement System complied with the aforementioned requirements based on the criteria set forth in the accompanying letter from management, is fairly stated, in all material respects.

Our report is intended solely for the information and use of the Virginia Retirement management, the Virginia Retirement Board of Trustees, the Commonwealth Joint Legislative Audit and Review Commission, and the Virginia Retirement System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

The census data provided by the Virginia Retirement System to the Plans' actuary, Cavanaugh and Macdonald Consulting, LLC, and used to prepare the actuarial valuations as of June 30, 2013 is complete and accurate based on the accumulation of census data reported by participating employers for the period from July 1, 2012 to June 30, 2013.
