Independent Auditors' Report

To the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Giles, Virginia, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Giles, Virginia, as of and for the year ended June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County of Giles, Virginia, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County of Giles, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the *Specifications for Audits of Counties*, *Cities*, *and Towns* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Specifications for Audits of Counties, Cities, and Towns, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include examining,
 on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of County of Giles, Virginia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Giles, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules related to pension and OPEB funding as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Giles, Virginia's basic financial statements. The accompanying other supplementary information and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the

schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical information but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Prolinsa, Faver, lop associates

In accordance with *Government Auditing Standards*, we have also issued our report dated April 24, 2025, on our consideration of the County of Giles, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County of Giles, Virginia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Giles, Virginia's internal control over financial reporting and compliance.

Reconciliation of the Statement of Revenues,

Expenditures, and Changes in Fund Balances of Governmental Funds $\label{eq:Funds} % \begin{center} \end{center} \begin{center} \end{center}$

To the Statement of Activities

For the Year Ended June 30, 2024

Amounts reported for governmental activities in the statement of activities are different because:			
Net change in fund balances - total governmental funds			\$ 4,470,933
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization			
of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the detail of items supporting this adjustment:			
Capital asset additions	Ś	1,874,656	
Assets transferred to the IDA	7	(763,250)	
Lease asset additions		2,339,533	
Depreciation expense/amortization expense		(1,487,350)	1,963,589
Revenues in the statement of activities that do not provide current financial resources are not reported as			
revenues in the funds. Increase (decrease) in unavailable revenue-property taxes	\$	20,017	
Increase (decrease) in unavailable revenue-opioid settlement	Ş	268,574	288,591
mercuse (decrease) in unavariable revenue opiolo sectionicie		200,374	200,371
The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to governmental			
funds, while the repayment of the principal of long-term obligations consumes the current financial resources			
of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these			
amounts are deferred and amortized in the statement of activities. This amount is the net effect of these			
differences in the treatment of long-term obligations and related items.			
Lease issuances	\$	(2,339,533)	
Payments of principal:			
Literary loans		483,000	
Lease revenue bonds		504,661	
Lease liabilities		88,938	
Finance purchases		132,000	
(Increase) decrease in landfill closure and postclosure monitoring costs		(1,820)	(1,132,754)
Some expenses reported in the statement of activities do not require the use of current financial resources			
and, therefore are not reported as expenditures in governmental funds.			
(Increase) decrease in compensated absences	\$	(197,904)	
Change in pension related items		7,363	
(Increase) decrease in accrued interest payable		10,979

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

A. Financial Reporting Entity

The County of Giles, Virginia (government) is a municipal corporation governed by an elected five-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended component units - The County has no blended component units.

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Giles County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board is presented as a governmental fund type and does not issue a separate financial report.

The Giles County Industrial Development Authority encourages and provides financing for industrial development in the County. The Industrial Development Authority board members are appointed by the Board of Supervisors. The Industrial Development Authority is fiscally dependent upon the County. The Industrial Development Authority is presented as an enterprise fund type and does not issue a separate financial report.

Related Organizations - The County's officials are also responsible for appointing the members of the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointment.

Jointly Governed Organizations - The County and the Counties of Bland, Carroll, Floyd, Grayson, and Wythe and the City of Radford participate in supporting the New River Valley Regional Jail Authority. The monthly payment made by the County to the Regional Jail is based on the number of prisoners housed for the County. For the year ended June 30, 2024, the County paid \$655,942 for the confinement of prisoners.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of net position is designed to display the financial position of the primary government (governmental and business-type activities). Governments report all capital assets, including infrastructure, in the government-wide statement of net position and report depreciation expense - the cost of "using up" capital assets - in the statement of activities. The net position of a government is broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they have been earned and they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures on general long-term debt, including lease and subscription liabilities, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions, including entering into contracts giving the government the right to use lease and subscription assets, are reported as expenditures in the governmental funds. Issuance of long-term debt and financing through leases and subscriptions are reported as other financing sources.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for un-collectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds. The General Fund includes the activities of the Dare Program, the Asset Forfeiture Fund, the Comprehensive Services Fund, the Social Services Fund, the Restitution Fund, the Rev Max Fund, and the Emergency Replacement Fund.

The County Capital Improvements Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

The School Board reports the following major funds:

The School Operating Fund is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from appropriations from the County and state and federal grants.

The School Activity Fund accounts for and reports all funds received from extracurricular school activities, such as entertainment, athletic contest, club dues, fundraisers, etc., and from any and all activities of the individual schools.

The government reports the following major proprietary funds:

The County operates a water and sewer system. The activities of the system are accounted for in the Utility fund.

The government reports the following internal service fund:

Internal Service Funds account for the financing of goods and services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. The Internal Service Funds consist of the Self-health Insurance Fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation: (Continued)

Additionally, the government reports the following fund types:

Fiduciary funds (trust and custodial funds) account for assets held by the government in a trustee capacity or as custodian for individuals, private organizations, other governmental units, or other funds. The Custodial funds consist of the Special Welfare fund. The Special Welfare fund accounts for those funds belonging to individuals entrusted to the local social services agency, such as foster care children. Fiduciary funds are not included in the government-wide financial statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise fund and the internal service funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance
 - 1. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts in demand deposits, and short-term investments with a maturity date within three months of the date acquired by the government. For purposes of the statement of cash flows, the government's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

2. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, other nonparticipating investments, and external investment pools are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction at year end.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e., the current portion of interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds" (i.e. the noncurrent portion interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

4. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable in two installments on June 5th and December 5th. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

5. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$90,985 for the General Fund at June 30, 2024 and is comprised solely of property taxes. The allowance amounted to approximately \$701,070 for the Water department at June 30, 2024 and is comprised solely of water billings and penalties.

6. Inventories and Prepaid Items

All inventories are valued at cost using first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

7. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

8. Capital Assets

Capital assets, are tangible and intangible assets, which include property, plant, equipment, lease, subscription and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County, Component Unit School Board, and Component Unit Industrial Development Authority as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)

8. Capital Assets (Continued)

As the County and Component Units construct or acquire capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost (except for intangible right-to-use lease and subscription assets, the measurement of which is discussed in more detail below). The reported value excludes normal maintenance and repairs, which are amounts spent in relation to capital assets that do not increase the asset's capacity or efficiency or increases its estimated useful life. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential on the date of the donation. Intangible assets follow the same capitalization policies as tangible capital assets and are reported with tangible assets in the appropriate capital asset class.

Land and construction in progress are not depreciated. The other tangible and intangible property, plant, equipment, lease assets, subscription assets, and infrastructure of the primary government, as well as the component units, is depreciated/amortized using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	40
Structures, lines, and accessories	20-40
Machinery and equipment	4-30
Subscription asset	3-5
Lease building improvements	40
Lease machinery and equipment	4-30

9. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. The County accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's and School Board's Retirement Plan and the additions to/deductions from the County's and School Board's Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)

11. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

12. Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called "fund balance". The County's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes:

- Nonspendable fund balance amounts that are either not in spendable form (such as inventory and prepaids) or are legally or contractually required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers;
- Committed fund balance amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the Board of Supervisors prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Board adopts another ordinance to remove or revise the limitation;
- Assigned fund balance amounts a government intends to use for a specific purpose but do not meet the criteria to be classified as committed; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

The Board of Supervisors is the highest level of decision making authority, and the formal action that is required to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board of Supervisors. The resolution must either be approved or rescinded as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

Notes to Financial Statements (Continued) June 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)

12. Fund Balance (Continued)

The Board of Supervisors has authorized the County Administrator as the official authorized to assign fund balance to a specific purpose as approved by the fund balance policy.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned and unassigned as they are needed.

The policy also authorizes and directs the Treasurer to prepare financial reports which accurately categorize fund balance. The County will maintain an unassigned fund balance in the general fund equal to 3% of the expenditures/operating revenues. The County considers a balance of less than 3% to be a cause for concern, barring unusual or deliberate circumstances.

13. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure/expense) until then. The County has items that qualify for reporting in this category. The items are comprised of certain items related to pension and OPEB. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has multiple types of items that qualify for reporting in this category. One item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount deferred and amortized over the shorter of the life of the refunded or refunding debt. Under a modified accrual basis of accounting, unavailable revenue representing property taxes and opioid settlement receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30th, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to pension, OPEB, leases and opioid settlements are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

14. Net Position

For government-wide reporting as well as in proprietary funds, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components: net investment in capital assets, restricted, and unrestricted.

Notes to Financial Statements (Continued) June 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)

14. Net Position (Continued)

- Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.
- Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of
 resources related to those assets. Assets are reported as restricted when constraints are placed on
 asset use either by external parties or by law through constitutional provision or enabling legislation.
- Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that does not meet the definition of the two preceding categories.

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

15. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI, HIC and Teacher HIC OPEB Plans and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In addition to the VRS related OPEB, the County and component units allow their retirees to stay on the health insurance plan after retirement. The retiree is required to pay the blended premium cost creating an implicit subsidy OPEB liability. In addition, retirees receive a monthly stipend towards their health insurance cost until the retiree is Medicare eligible.

16. Leases and Subscription-Based IT Arrangements

The County has various lease assets and subscription-based IT arrangements (SBITAs) requiring recognition. A lease is a contract that conveys control of the right to use another entity's nonfinancial asset. Lease recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases. A SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position/Fund Balance (Continued)
 - 16. Leases and Subscription-Based IT Arrangements (Continued)

Lessor

The County recognizes leases receivable and deferred inflows of resources in the government-wide and governmental fund financial statements. At commencement of the lease, the lease receivable is measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectible amounts. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the initial amount of the lease receivable, less lease payments received from the lessee at or before the commencement of the lease term (less any lease incentives).

Lessee

The County recognizes lease liabilities and intangible right-to-use assets (lease assets) with an initial value of \$5,000, individually or in the aggregate in the government-wide financial statements. At the commencement of the lease, the lease liability is measured at the present value of payments expected to be made during the lease term (less an lease incentives). The lease liability is reduced by the principal portion of payments made. The lease asset is measured at the initial amount of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. The lease asset is amortized over the shorter of the lease term or the useful life of the underlying asset.

Subscriptions

The County recognizes intangible right-to-use subscription assets (subscription assets) and corresponding subscription liabilities in the government-wide financial statements. At the commencement of the subscription, the subscription liability is measured at the present value of payments expected to be made during the subscription liability term (less any contract incentives). The subscription liability is reduced by the principal portion of payments made. The subscription asset is measured at the initial amount of the subscription liability payments made to the SBITA vendor before commencement of the subscription term, and capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. The subscription asset is amortized over the shorter of the subscription term or the useful life of the underlying IT asset.

Key Estimates and Judgments

Lease and subscription-based IT arrangement accounting includes estimates and judgments for determining the (1) rate used to discount the expected lease and subscription payments to present value, (2) lease and subscription term, and (3) lease and subscription payments.

- The County uses the interest rate stated in lease or subscription contracts. When the interest rate is not provided or the implicit rate cannot be readily determined, the County uses its estimated incremental borrowing rate as the discount rate for leases and subscriptions.
- The lease and subscription terms include the noncancellable period of the lease or subscription and certain periods covered by options to extend to reflect how long the lease or subscription is expected to be in effect, with terms and conditions varying by the type of underlying asset.
- Fixed and certain variable payments as well as lease or subscription incentives and certain other
 payments are included in the measurement of the lease receivable (lessor), lease liability (lessee), or
 subscription liability.

The County monitors changes in circumstances that would require a remeasurement or modification of its leases and subscriptions. The County will remeasure the lease receivable and deferred inflows of resources (lessor), the lease asset and liability (lessee) or the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the lease receivable, lease liability or subscription liability.

Notes to Financial Statements (Continued) June 30, 2024

Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary Information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budgets include proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures. The County Administrator is allowed to transfer appropriation amounts, with the exception of amounts appropriated for salaries in each department. Board approval is required to transfer departmental salary appropriations. Only the Board of Supervisors can revise (increase or decrease) total appropriations. The School Board is authorized to transfer appropriations within the school system's categories. Decentralized School Cafeteria Funds are not subject to appropriation, but are included within the School Fund actual data.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund and the General Capital Projects Funds. The School Fund is integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by Project. Several supplemental appropriations were necessary during this fiscal year.
- 8. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to commit that portion of the applicable appropriations, is not part of the County's accounting system.
- B. Excess of Expenditures Over Appropriations

Expenditures exceeded appropriations in the Water Fund at year end.

C. Deficit Fund Balance

At June 30, 2024, there were no funds with a deficit fund balance.

Note 3-Deposits and Investments:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and Collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Notes to Financial Statements (Continued) June 30, 2024

Note 3-Deposits and Investments: (Continued)

Investments:

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard and Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). At June 30, 2024, the County had no investments.

Note 4-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

		Primary Government		Component Unit
	-	Governmental Activities		School Board
Commonwealth of Virginia:	-			
Local sales tax	\$	424,959	\$	-
State sales tax		-		519,671
Categorical aid		18,658		-
Shared expenses		204,564		-
Non-categorical aid		39,422		-
Virginia public assistance funds		129,871		-
Community services act		170,153		-
Federal Government:				
Virginia public assistance funds		196,535		-
School grants		-		2,763,896
Categorical aid	_	3,340	_	-
Totals	\$	1,187,502	\$	3,283,567

Note 5-Interfund Transfers:

Interfund transfers for the year ended June 30, 2024, consisted of the following:

Fund		ransfers In	Transfers Out			
Primary Government:						
General Fund	\$	-	\$	4,945,577		
Utility Fund		1,146,608		-		
County Capital Improvements Fund		3,192,429		93,460		
Health Insurance Fund		700,000		-		
Total	\$	5,039,037	\$	5,039,037		

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 5-Interfund Transfers: (Continued)

Fund		ansfers In	Transfers Out			
Component Unit School Board:						
School Operating Fund	\$	55,201	\$	362,430		
School Activity Fund		362,430		55,201		
Total	\$	417,631	\$	417,631		

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Note 6-Long-Term Obligations:

Primary Government - Governmental Activities Indebtedness:

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2024:

	Balance July 1, 2023		Increases/ Issuances		_	Decreases/ etirements	Balance June 30, 2024		
Direct Borrowings and Placements:

The County's VPSA general obligation bonds and literary loan are subject to the State Aid Intercept Program. Under terms of the program, the County state aid is redirected to bond holders to cure any event(s) of default.

If an event of default occurs with VRA, NBB, or BB&T, the principal of the bond(s) may be declared immediately due and payable to the registered owner of the bond(s) by written notice to the County.

Lease agreements are structured to require the return or vacancy of leased assets as a result of default for non-payment.

⁽a) - annual principal installments shown; no interest for this revenue bond

Note 8-Pension Plans:

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Notes to Financial Statements (Continued) June 30, 2024

Note 8-Pension Plans: (Continued)

Benefit Structures

The System administers three different benefit structures for covered employees - Plan 1, Plan 2 and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit. Hazardous duty employees (law enforcement officers, firefighters, and sheriffs) are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. Hazardous duty employees are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. Hazardous duty employees may retire with a reduced benefit as early as age 50 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees, 1.85% for sheriffs and regional jail superintendents, and 1.70% or 1.85% for hazardous duty employees as elected by the employer. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 8-Pension Plans: (Continued)

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia, as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Employees Covered by Benefit Terms

As of the June 30, 2022 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Primary Government*	Component Unit School Board Nonprofessional
Inactive members or their beneficiaries currently receiving benefits	138	47
Inactive members: Vested inactive members	30	6
Non-vested inactive members	49	20
Inactive members active elsewhere in VRS	83	25
Total inactive members	162	51
Active members	140	36
Total covered employees	440	134

^{*}Employees for Component Unit IDA included in Primary Government totals above

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The County's contractually required employer contribution rate for the year ended June 30, 2024 was 12.26% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$882,351 and \$813,163 for the years ended June 30, 2024 and June 30, 2023, respectively.

Notes to Financial Statements (Continued) June 30, 2024

Note 8-Pension Plans: (Continued)

Contributions (Continued)

The Component Unit Industrial Development Authority's (IDA) contractually required employer contribution rate for the year ended June 30, 2024 was 12.26% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit IDA were \$22,321 and \$20,567 for the years ended June 30, 2024 and June 30, 2023, respectively.

The Component Unit School Board's (nonprofessional) contractually required employer contribution rate for nonprofessional employees for the year ended June 30, 2024 was 6.41% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$37,417 and \$37,072 for the years ended June 30, 2024 and June 30, 2023, respectively.

Net Pension Liability (Asset)

The net pension liability (asset) (NPL) is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. The County's, Component Unit IDA's, and Component Unit School Board's (nonprofessional) net pension (asset) liabilities were measured as of June 30, 2023. The total pension liabilities used to calculate the net pension (asset) liabilities were determined by an actuarial valuation performed as of June 30, 2022 and rolled forward to the measurement date of June 30, 2023.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the County's and Component Unit School Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation 2.50%

Salary increases, including inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan investment

expenses, including inflation

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*				
34.00%	6.14%	2.09%				
15.00%	2.56%	0.38%				
14.00%	5.60%	0.78%				
14.00%	5.02%	0.70%				
16.00%	9.17%	1.47%				
4.00%	4.50%	0.18%				
2.00%	7.18%	0.14%				
1.00%	1.20%	0.01%

Notes to Financial Statements (Continued) June 30, 2024

Note 8-Pension Plans: (Continued)

Long-Term Expected Rate of Return (Continued)

* The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

**On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing median return of 7.14%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the County, Component Unit IDA, and Component Unit School Board (nonprofessional) was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2023, the alternate rate was the employer contribution rate used in FY2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2022 actuarial valuations. Through the fiscal year ended June 30, 2023, the rate contributed by the school division for the VRS Teacher Retirement Plans will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 112% of the actuarially determined contribution rate. From July 1, 2023 on, participating employers and school divisions are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2023-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Component Unit School Board (professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information related to the plan description, plan contribution requirements, long-term expected rate of return, and discount rate is included in the first section of this note.

Contributions

The contribution requirement for active employees is governed by \$51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2024 was 16.62% of covered employee compensation. This was the General Assembly approved rate, which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School Board were \$2,636,255 and \$2,454,134 for the years ended June 30, 2024 and June 30, 2023, respectively.

Notes to Financial Statements (Continued) June 30, 2024

Note 8-Pension Plans: (Continued)

Component Unit School Board (professional) (Continued)

Contributions (Continued)

In June 2023, the Commonwealth made a special contribution of approximately \$147.5 million to the VRS Teacher Retirement Plan. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a non-employer contribution.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the school division reported a liability of \$15,685,371 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2023 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2022, and rolled forward to the measurement date of June 30, 2023. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2023, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2023, the school division's proportion was 0.15519% as compared to 0.14487% at June 30, 2022.

For the year ended June 30, 2024, the school division recognized pension expense of \$1,592,664. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions. Beginning with the June 30, 2022 measurement date, the difference between expected and actual contributions is included with the pension expense calculation.

At June 30, 2024, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	-	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$	1,347,387	\$ 612,110
Change in assumptions		711,073	-
Net difference between projected and actual earnings on pension plan investments		-	1,019,866
Changes in proportion and differences between employer contributions and proportionate share of contributions		891,571	457,689
Employer contributions subsequent to the measurement date	_	2,636,255	 -
Total	\$_	5,586,286	\$ 2,089,665

Note 8-Pension Plans: (Continued)

Component Unit School Board (professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$2,636,255 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2025	\$ (241,258)
2026	(827,400)
2027	1,451,805
2028	477,219

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation	2.50%
Salary increases, including inflation	3.50% - 5.95%
Investment rate of return	6.75%, net of pension plan investment expenses, including inflation

Mortality rates:

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Component Unit School Board (professional) (Continued)

Actuarial Assumptions (Continued)

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post-	Update to Pub-2010 public sector mortality tables. For
1	1 '
retirement healthy, and disabled)	future mortality improvements, replace load with a
	modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set
	separate rates based on experience for Plan 2/Hybrid;
	changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and
	service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2023, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

	-	Teacher Employee Retirement Plan
Total Pension Liability	\$	57,574,609
Plan Fiduciary Net Position		47,467,405
Employers' Net Pension Liability (Asset)	\$	10,107,204
Plan Fiduciary Net Position as a Percentage	-	
of the Total Pension Liability		82.45%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

The long-term expected rate of return and discount rate information previously described also apply to this plan.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 10-Health Insurance - Pay-as-you-go (OPEB Plan):

The County and Component Unit-IDA administer a cost-sharing defined benefit healthcare plan. Several entities participate in the defined benefit healthcare plan through the County of Giles, Virginia and the participating entities report their proportionate information on the basis of a cost-sharing plan.

The School Board administers a single-employer defined benefit healthcare plan. The plan provides postemployment health care benefits to all eligible permanent employees who meet the requirements under the School Board's pension plan. The plan does not issue a publicly available financial report.

Benefits Provided

The County of Giles and Component Unit-IDA administer a cost-sharing defined benefit healthcare plan. The Component Unit - School Board administers a single-employer healthcare plan. The Plan provides for participation by eligible retirees and their dependents in the health insurance programs available to County, IDA, and School Board employees. The Plan will provide retiring employees the option to continue health insurance offered by the County, IDA, and School Board. Any County and IDA eligible retiree and spouse may receive this benefit until he/she has reaches the earlier of sixty five years of age or death. Coverage for the spouse ends at the earliest of the retiree's death, the retiree's attainment of age 65, the spouse's death, and the spouse's attainment of age 65. The School Boards coverage ends at the earlier of attainment of age 65 and death unless the participant enrolls in the Medicare supplement plan. If a participant enrolls in the Medicare supplement plan, coverage may continue for life. A spouse may continue coverage after the death of the retiree at their own cost.

For the County and IDA, to be eligible for this benefit a retiree must meet at least one of the following criteria: attained age 50 and 10 years of service, attained age 55 and 5 years of service, or disabled with no age or service requirements. For the School Board, to be eligible for this benefit a retiree must meet at least one of the following criteria for those hired before July 1, 2010: attained age 50 and 10 years of service, attained age 65 and 5 years of service, if hired after July 1, 2010 age plus service is at least 90 or age 60 with at least 5 years of service, or disabled with no age or service. The benefits, employee contributions and the employer contributions are governed by the Board of Supervisors and the School Board and can be amended through the Board of Supervisors and the School Board action respectively.

Plan Membership

At June 30, 2024 (measurement date), the following employees were covered by the benefit terms:

		Component
	Primary	Unit-School
	Government*	Board
Total active employees with coverage	151	362
Total retirees and spouses with coverage	7	22
Total	158	384

^{*}Employees for Component Unit IDA and Giles PSA included in Primary Government totals above

Notes to Financial Statements (Continued) June 30, 2024

Note 10-Health Insurance - Pay-as-you-go (OPEB Plan): (Continued)

Contributions

The board does not pre-fund benefits; therefore, no assets are accumulated in a trust fund. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis. The funding requirements are established and may be amended by the County Board. The amount paid by the County for OPEB as the benefits came due during the year ended June 30, 2024 was \$77,641. The amount paid by the IDA for OPEB as the benefits came due during the year ended June 30, 2024 was \$1,313. The amount paid by the School Board for OPEB as the benefits came due during the year ended June 30, 2024 was \$256,822.

Total OPEB Liability

The County's, Industrial Development Authority's, and School Board's total OPEB liability was measured as of June 30, 2024. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2023.

Actuarial Assumptions

The total OPEB liability in the January 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Primary Government and Component Unit - Industrial Development Authority:

Actuarial Cost Method	Entry Age Normal
Healthcare Cost Trend Rates	3.10% in 2023 increasing to 6.60% in 2024 then decreasing to an ultimate rate of 3.90% over 49 years
Salary Increases	5.35% to 3.50% depending on years of service; 4.75% to 3.50% for public safety employees depending on years of service
Discount Rate	3.65% for fiscal year ending June 30, 2023 3.93% for fiscal year ending June 30, 2024
Inflation	2.50%

Mortality Rates - General Employees

Pre-Retirement - Pub-2010 Amount Weighted General Employee Rates projected generationally females set forward 2 years. 25% of deaths are assumed to be service-related.

Post-Retirement - Pub-2010 Amount Weighted General Healthy Retiree Rates projected generationally; 110% of rates for females.

Post-Disablement - Pub-2010 Amount Weighted General Disabled Rates projected generationally; males and females set forward 3 years.

Beneficiaries and Survivors - Pub-2010 Amount Weighted General Contingent Annuitant Rates projected generationally; 110% of rates for males and females.

Base rates are projected generationally with a Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

Actuarial Assumptions (Continued)

Mortality Rates - Public Safety

Pre-Retirement - Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males: 105% of rates for females set forward 2 years. 35% of deaths are assumed to be service-related.

Post-Retirement - Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years.

Post-Disablement - Pub-2010 Amount Weighted General Disabled Rates projected generationally; 95% of rates for males set back 3 years; 90% of rates for females set back 3 years.

Beneficiaries and Survivors - Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years.

Base rates are projected generationally with a Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

Component Unit-School Board:

Actuarial Cost Method	Entry Age Normal
Healthcare Cost Trend Rates	3.10% in 2023 increasing to 6.60% in 2024 then decreasing to an ultimate rate of 3.90% over 49 years
Salary Increases	5.35% to 3.50% depending on years of service; 5.95% to 3.50% for teachers depending on years of service
Discount Rate	3.65% for fiscal year ending June 30, 2023 3.93% for fiscal year ending June 30, 2024
Inflation	2.50%

Mortality Rates - Teachers

Pre-Retirement - Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males. 5% of deaths are assumed to be service-related.

Post-Retirement - Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females.

Post-Disablement - Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females.

Beneficiaries and Survivors - Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally.

Base rates are projected generationally with a Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates.

Notes to Financial Statements (Continued) June 30, 2024

Note 10-Health Insurance - Pay-as-you-go (OPEB Plan): (Continued)

Discount Rate

The discount rate used when OPEB plan investments are insufficient to pay for future benefit payments is based on the Bond Buyer General Obligation 20-Bond Municipal Index. The final equivalent single discount rate used for this year's valuation is 3.93% as of the end of the fiscal year with the expectation that the County, IDA, and School Board will continue contributing the Actuarially Determined Contribution and paying the pay-go cost.

Changes in Total OPEB Liability

	Primary Government	Component Unit- Industrial Development Authority	Component Unit- School Board
	Total OPEB Liability	Total OPEB Liability	Total OPEB Liability

Thereafter	-	-	-

Additional disclosures on changes in total OPEB liability, related ratios, and employer contributions can be found in the required supplementary information following the notes to the financial statements.

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to \$51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan):

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, seatbelt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$9,254 as of June 30, 2024.

Contributions

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2024 was 0.54% of covered employee compensation. This rate was the final approved General Assembly rate, which based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability.

Contributions to the GLI Plan from the County were \$41,110 and \$37,831 for the years ended June 30, 2024 and June 30, 2023, respectively.

Contributions to the GLI Plan from the Component Unit-Industrial Development Authority were \$1,040 and \$946 for the years ended June 30, 2024 and June 30, 2023, respectively.

Contributions to the GLI Plan from the Component Unit-School Board (nonprofessional) were \$4,136 and \$3,991 for the years ended June 30, 2024 and June 30, 2023, respectively.

Contributions to the GLI Plan from the Component Unit-School Board (professional) were \$90,068 and \$83,408 for the years ended June 30, 2024 and June 30, 2023, respectively.

In June 2023, the Commonwealth made a special contribution of approximately \$10.1 million to the Group Life Insurance Plan. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a special employer contribution.

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Plan OPEB

At June 30, 2024, the County reported a liability of \$356,634 for its proportionate share of the Net GLI OPEB Liability.

At June 30, 2024, the Component Unit-Industrial Development Authority reported a liability of \$8,918 for its proportionate share of the Net GLI OPEB Liability.

At June 30, 2024, the Component Unit-School Board (nonprofessional) reported a liability of \$37,658 for its proportionate share of the Net GLI OPEB Liability.

At June 30, 2024, the Component Unit-School Board (professional) reported a liability of \$786,390 for its proportionate share of the Net GLI OPEB Liability.

The Net GLI OPEB Liability was measured as of June 30, 2023 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2022, and rolled forward to the measurement date of June 30, 2023. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2023 relative to the total of the actuarially determined employer contributions for all participating employers.

At June 30, 2023, the County's proportion was 0.0297% as compared to 0.0300% at June 30, 2022.

At June 30, 2023, the Component Unit-Industrial Development Authority proportion was 0.0007% as compared to 0.0010% at June 30, 2022.

At June 30, 2023, the Component Unit-School Board (nonprofessional) proportion was 0.0031% as compared to 0.00300% at June 30, 2022.

At June 30, 2023, the Component Unit-School Board (professional) proportion was 0.0656% as compared to 0.0619% at June 30, 2022.

For the year ended June 30, 2024, the County recognized GLI OPEB expense of \$15,581. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

For the year ended June 30, 2024, the Component-Unit Industrial Development Authority recognized GLI OPEB expense of \$390. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

For the year ended June 30, 2024, the Component-Unit School Board (nonprofessional) recognized GLI OPEB expense of \$4,474. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

For the year ended June 30, 2024, the Component-Unit School Board (professional) recognized GLI OPEB expense of \$32,909. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Actuarial Assumptions

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be references in the VRS Annual Report.

Inflation 2.50%

Salary increases, including inflation:

Teachers 3.50%-5.95% Locality - General employees 3.50%-5.35% Locality - Hazardous Duty employees 3.50%-4.75%

Investment rate of return 6.75%, net of investment expenses,

including inflation

Mortality Rates - Teachers

Pre-Retirement:

Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement:

Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-Disablement:

Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors:

Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement Scale:

Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021.

Notes to Financial Statements (Continued) June 30, 2024

NET GLI OPEB Liability

The net OPEB liability (NOL) for the Group Life Insurance Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2023, NOL amounts for the Group Life Insurance Plan are as follows (amounts expressed in thousands):

	GLI OPEB Plan		
Total GLI OPEB Liability	\$	3,907,052	
Plan Fiduciary Net Position		2,707,739	
GLI Net OPEB Liability (Asset)	\$	1,199,313	
Plan Fiduciary Net Position as a Percentage			
of the Total GLI OPEB Liability		69.30%	

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
MAPS - Multi-Asset Public Strategies	4.00%	4.50%	0.18%
PIP - Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
Total	100.00%		5.75%
		Inflation	2.50%
	Expected arithmet	8.25%	

^{*}The above allocation provides a one-year return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

^{**}On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 11-Group Life Insurance (GLI) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2023, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 113% of the actuarially determined contribution rate. From July 1, 2023 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	Rate					
	1% Decrease (5.75%)		Current Discount (6.75%)		1% Increase (7.75%)	
County's proportionate share of the GLI Plan Net OPEB Liability	\$	528,641	\$	356,634	\$	217,563
Component Unit-Industrial Development Authority's proportionate share of the GLI Plan Net OPEB Liability	\$	13,219	\$	8,918	\$	5,440
Component Unit-School Board (Nonprofessional)'s proportionate share of the GLI Plan Net OPEB Liability	\$	55,822	\$	37,658	\$	22,973
Component Unit-School Board (Professional)'s proportionate share of the GLI Plan Net OPEB Liability	\$	1,165,675	\$	786,390	\$	479,735

Group Life Insurance Plan Fiduciary Net Position

Detailed information about the Group Life Insurance Plan's Fiduciary Net Position is available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2023-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 12-Component Unit - School Board's (Nonprofessional) Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Political Subdivision Health Insurance Credit (HIC) Plan was established pursuant to §51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of participating political subdivisions are automatically covered by the VRS Political Subdivision HIC Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information about the Political Subdivision HIC Plan OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The Political Subdivision Retiree HIC Plan was established July 1, 1993 for retired political subdivision employees of employers who elect the benefit and retire with at least 15 years of service credit. Eligible employees include fultime permanent salaried employees of the participating political subdivision who are covered under the VRS pension plan. These employees are enrolled automatically upon employment.

Benefit Amounts

The Political Subdivision Retiree HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired political subdivision employees of participating employers. For employees who retire, the monthly benefit is \$1.50 per year of service per month with a maximum benefit of \$45.00 per month. For employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is \$45.00 per month.

Notes to Financial Statements (Continued) June 30, 2024

Note 12-Component Unit - School Board's (Nonprofessional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2022 actuarial valuation, the following employees were covered by the benefit terms of the HIC OPEB plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	7
Inactive members: Inactive members active elsewhere in VRS Total inactive members	25 25
Active members	36
Total covered employees	68

Contributions

The contribution requirements for active employees is governed by \$51.1-1402(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. The Component Unit - School Board's (Nonprofessional) contractually required employer contribution rate for the year ended June 30, 2024 was 1.74% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the Component Unit - School Board (Nonprofessional) to the HIC Plan were \$13,327 and \$12,858 for the years ended June 30, 2024 and June 30, 2023, respectively.

Net HIC OPEB Liability

The Component Unit-School Board's (Nonprofessional) net HIC OPEB liability was measured as of June 30, 2023. The total HIC OPEB liability was determined by an actuarial valuation performed as of June 30, 2022, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Actuarial Assumptions

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2022, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2023.

Inflation 2.50%

Salary increases, including inflation:

Locality - General employees 3.50%-4.75%

Investment rate of return 6.75%, net of investment expenses,

including inflation

Notes to Financial Statements (Continued) June 30, 2024

Note 12-Component Unit - School Board's (Nonprofessional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
MAPS - Multi-Asset Public Strategies	4.00%	4.50%	0.18%
PIP - Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
Total	100.00%		5.75%
		Inflation	2.50%
	Expected arithmet	ic nominal return**	8.25%

^{*}The above allocation provides a one-year expected return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

^{**}On June 15, 2023, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 12-Component Unit - School Board's (Nonprofessional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total HIC OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2023, the rate contributed by the entity for the HIC OPEB was 100% of the actuarially determined contribution rate. From July 1, 2023 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the HIC OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total HIC OPEB liability.

HIC Plan Data

Information about the VRS Political Subdivision Health Insurance Credit Plan is available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2023-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 13-Component Unit - School Board's (Professional) Health Insurance Credit (HIC) Plan (OPEB Plan):

Plan Description

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit (HIC) Plan was established pursuant to \$51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee HIC Plan. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The HIC is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for the Teacher HIC OPEB, including eligibility, coverage, and benefits is described below:

Eligible Employees

The Teacher Employee Retiree HIC Plan was established July 1, 1993 for retired Teacher Employees covered under VRS who retire with at least 15 years of service credit. Eligible employees include full-time permanent (professional) salaried employees of public school divisions covered under VRS. These employees are enrolled automatically upon employment.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 13-Component Unit - School Board's (Professional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Benefit Amounts

The Teacher Employee HIC Plan is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For Teacher and other professional school employees who retire, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount. For Teacher and other professional school employees who retire on disability or go on long-term disability under the Virginia Local Disability Program (VLDP), the monthly benefit is either: \$4.00 per month, multiplied by twice the amount of service credit, or \$4.00 per month, multiplied by the amount of service earned had the employee been active until age 60, whichever is lower.

HIC Plan Notes

The monthly HIC benefit cannot exceed the individual premium amount. Employees who retire after being on long-term disability under VLDP must have at least 15 years of service credit to qualify for the HIC as a retiree.

Contributions

The contribution requirements for active employees is governed by \$51.1-1401(E) of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2024 was 1.21% of covered employee compensation for employees in the VRS Teacher Employee HIC Plan. This rate was the final approved General Assembly rate, which was based on an actuarially determined rate from an actuarial valuation as of June 30, 2021. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee HIC Plan were \$201,820 and \$186,740 for the years ended June 30, 2024 and June 30, 2023, respectively.

In June 2023, the Commonwealth made a special contribution to approximately \$4 million to the VRS Teacher HIC Plan. This special payment was authorized by Chapter 2 of the Acts of Assembly of 2022, Special Session I, as amended by Chapter 769, 2023 Acts of Assembly Reconvened Session, and is classified as a special employer contribution.

Teacher Employee HIC Plan OPEB Liabilities, Teacher Employee HIC Plan OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Teacher Employee HIC Plan OPEB

At June 30, 2024, the school division reported a liability of \$1,875,032 for its proportionate share of the VRS Teacher Employee HIC Plan Net OPEB Liability. The Net VRS Teacher Employee Health Insurance Credit Plan OPEB Liability was measured as of June 30, 2023 and the total VRS Teacher Employee HIC Plan OPEB liability used to calculate the Net VRS Teacher Employee HIC Program OPEB Liability was determined by an actuarial valuation performed as of June 30, 2022 and rolled forward to the measurement date of June 30, 2023. The school division's proportion of the Net VRS Teacher Employee HIC Plan OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee HIC Plan OPEB plan for the year ended June 30, 2023, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2023, the school division's proportion of the VRS Teacher Employee HIC Program was 0.15480% as compared to 0.14458% at June 30, 2022.

For the year ended June 30, 2024, the school division recognized VRS Teacher Employee HIC Plan OPEB expense of \$143,489. Since there was a change in proportionate share between measurement dates a portion of the VRS Teacher Employee HIC Plan Net OPEB expense was related to deferred amounts from changes in proportionate share and differences between actual and expected contributions.

Net Teacher Employee HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee HIC Plan represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2023, NOL amounts for the VRS Teacher Employee HIC Plan is as follows (amounts expressed in thousands):

	_	Teacher Employee HIC OPEB Plan
Total Teacher Employee HIC OPEB Liability	\$	1,475,471
Plan Fiduciary Net Position		264,054
Teacher Employee Net HIC OPEB Liability (Asset)	\$	1,211,417
Plan Fiduciary Net Position as a Percentage		
of the Total Teacher Employee HIC OPEB Liability		17.90%

The total Teacher Employee HIC OPEB liability is calculated by the System's actuary, and the plan's fiduciary net position is reported in the System's financial statements. The net Teacher Employee HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Notes to Financial Statements (Continued) June 30, 2024

Note 13-Component Unit - School Board's (Professional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-Term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	6.14%	2.09%
Fixed Income	15.00%	2.56%	0.38%
Credit Strategies	14.00%	5.60%	0.78%
Real Assets	14.00%	5.02%	0.70%
Private Equity	16.00%	9.17%	1.47%
MAPS - Multi-Asset Public Strategies	4.00%	4.50%	0.18%
PIP - Private Investment Partnership	2.00%	7.18%	0.14%
Cash	1.00%	1.20%	0.01%
Total	100.00%		5.75%
		Inflation	2.50%
	Expected arithmet	ic nominal return**	8.25%

^{*}The above allocation provides a one-year return of 8.25%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 7.14%, including expected inflation of 2.50%.

^{**}On June 15, 2023, the VRS Board elected a long-term rate of 6.75% which was roughly at the 45th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.14%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2024

Note 13-Component Unit - School Board's (Professional) Health Insurance Credit (HIC) Plan (OPEB Plan): (Continued)

Discount Rate

The discount rate used to measure the total Teacher Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ended June 30, 2023, the rate contributed by each school division for the VRS Teacher Employee HIC Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2023 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the Teacher Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total Teacher Employee HIC OPEB liability.

Sensitivity of the School Division's Proportionate Share of the Teacher Employee HIC Net OPEB Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the VRS Teacher Employee HIC Plan net HIC OPEB liability using the discount rate of 6.75%, as well as what the school division's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

				Rate		
	19	% Decrease	Curr	ent Discount	•	1% Increase
		(5.75%)		(6.75%)		(7.75%)
School division's proportionate share of the VRS Teacher Employee HIC OPEB						
Plan Net HIC OPEB Liability	\$	2,120,870	\$	1,875,032	\$	1,666,705

Teacher Employee HIC OPEB Fiduciary Net Position

Detailed information about the VRS Teacher Employee HIC Plan's Fiduciary Net Position is available in the separately issued VRS 2023 Annual Comprehensive Financial Report (Annual Report). A copy of the 2023 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/pdf/publications/2023-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Assets transferred to the IDA from the general government totaled \$763,250.

All Depreciation/amortization of the Component Unit-Industrial Development Authority was charged to Community Development.

Note 16-Inventories/Assets Held for Resale:

Discretely Presented Component Unit-Industrial Development Authority:

The Industrial Development Authority has assets consisting of land and structures specifically held for resale that are not depreciated. At June 30, 2024, the value of these assets was \$1,657,220.

The following is a summary of transactions for these assets for the year ended June 30, 2024.

	Beginning Balance	Incre	eases	Decr	eases	Ending Balance			
Inventories/ Assets held for resale	\$ 1,657,220	\$	-	\$	-	\$	1,657,220		
Total	\$ 1,657,220	\$	-	\$		\$	1,657,220		

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 17-Leases Receivable:

Discretely Presented Component Unit-Industrial Development Authority:

The following is a summary of lessor activity of the Component Unit-Industrial Development Authority for the year ended June 30, 2024.

	Beginning	Increases/	Decreases/	Ending	Interest
	Balance	Issuances	Retirements	Balance	Revenue
Leases receivable	\$1,535,239	\$2,299,526	\$ (294,223)	\$3,540,542	\$ 28,935

Lease revenue recognized during the year was \$292,424.

Details of leases receivables:

Lease	Start	End	Payment	Ending	Am	ount Due
Description	Date	Date	Frequency	Balance	Withi	n One Year
Health Department Lease	5/1/2018	4/30/2028	Monthly	\$ 149,196	\$	37,527
Nanosonic	10/1/2020	9/30/2030	Monthly	1,047,311		164,877
Farm Bureau	7/1/2011	6/30/2026	Monthly	64,918		31,917
DSS Lease	4/1/2024	3/1/2044	Monthly	2,279,117		82,839
Total				\$ 3,540,542	\$	317,160

The Discretely Presented Component Unit-Industrial Development Authority used discount rates ranging from 1.14% - 10.00% for the leases noted above.

Note 18-Risk Management:

The County and its component units are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County and its component units participate with other localities in a public entity risk pool for their coverage of general liability, property, and auto insurance with VAcorp. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The County and its component units pay contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of the loss, deficit, or depletion of all available funds and/or excess insurance, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County and its component units continue to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 19-Contingent Liabilities:

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Pursuant to the provisions of this guidance all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Notes to Financial Statements (Continued) June 30, 2024

Note 20-Surety Bonds:

Primary Government:

Fidelity & Deposit Company of Maryland-Surety:

Sherry E. Gautier, Clerk of the Circuit Court	\$ 550,000
Angela L. Higginbotham, Treasurer	400,000
Lisa Corell, Commissioner of the Revenue	3,000
W. Morgan Millirons, Sheriff	30,000

Note 21-Landfill Postclosure Liability:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The County landfill has been closed. Total costs for landfill postclosure are estimated to be \$56,969. This amount is based on what it would cost to perform all postclosure care in 2024. Actual costs for postclosure monitoring may change due to inflation, deflation, changes in technology or changes in regulations. The County uses the Commonwealth of Virginia's financial assurance mechanism to meet the Department of Environmental Quality's assurance requirements for landfill post-closure costs. The County demonstrated financial assurance requirements for closure, postclosure care, and corrective action costs through the submission of a Local Governmental Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

Note 22-Litigation:

As of June 30, 2024, there were no matters of litigation involving the County which would materially affect the County's financial position should any court decisions on pending matters not be favorable.

Note 23 - Commitments and Contingencies:

The County and component units have obligated funds for the projects described below as of June 30, 2024:

		,	Amount of			
	Amount of		Contract	Accounts	R	etainage
Project:	Contract	0	utstanding	Payable	I	Payable
Macy McClaugherty Elementary/Middle School Renovations	\$ 8,346,300	\$	5,328,093	\$ 2,867,297	\$	150,910
Giles High School Stadium Lights	160,000		62,000	98,000		-

Note 24 - Subsequent Events:

On September 27, 2024, the remnants of Hurricane Helene provided substantial rainfall which resulted in significant flooding. As of the release of these financial statements, the financial impact of the damages and resulting repairs has not been determined.

The County approved a bond financing resolution in September 2024 totaling \$10,175,000. Proceeds from the issuance will be used for County and Component unit-School Board capital projects.

In December of 2024, the Component unit-School Board awarded construction contracts for various projects totaling approximately \$31.5 million.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2024

Note 25 - Deficit Net Position:

The School Board reports deficit net position of \$6,813,615 due to net pension and OPEB liabilities totaling \$24,545,918. These liabilities will be funded by increased contributions over time and on a pay-as-you-go basis for the Stand-alone Health Benefit OPEB.

The County reports deficit net position - net investment in capital assets at the end of the fiscal year. This is due to debt funded projects that are being depreciated over a shorter period than the amortization of related debt.

Note 26 - Upcoming Pronouncements:

Statement No. 101, Compensated Absences, updates the recognition and measurement guidance for compensated absences. It aligns the recognition and measurement guidance under a unified model and amends certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

Statement No. 102, Certain Risk Disclosures, provides users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024.

Statement No. 103, Financial Reporting Model Improvements, improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

 $^{^*}$ Excludes contributions (mandatory and match on voluntary) to the defined contribution portion of the Hybrid plan.

County of Giles, Virginia Notes to Required Supplementary Information Pension Plans

For the Year Ended June 30, 2024

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) - Non-Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement	Update to Pub-2010 public sector mortality tables. For future
healthy, and disabled)	mortality improvements, replace load with a modified Mortality Improvement Scale MP 2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

All Others (Non-10 Largest) - Hazardous Duty:

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. Increased disability life expectency. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience and changed final retirement age from 65 to 70
Withdrawal Rates	Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty
Disability Rates	No change
Salary Scale	No change
Line of Duty Disability	No change
Discount Rate	No change

Component Unit School Board - Professional Employees:

Mortality Rates (pre-retirement, post-retirement) healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Schedule is intended to show information for 10 years. Prior to 2017, the IDA's information was consolidated in the County's totals and presented in the County's report. Therefore sufficient information to allocate the prior year balances is not available. Additional years will be included as they become available.

County of Giles, Virginia Notes to Required Supplementary Information Group Life Insurance (GLI) Plan For the Year Ended June 30, 2024

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions - The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2021. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Teachers

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all
Withdrawal Rates	Adjusted rates to better fit experience at each age and service decrement through 9 years of service
Disability Rates	No change
Salary Scale	No change
Discount Rate	No change

Non-Largest Ten Locality Employers - General Employees

Mortality Rates (pre-retirement, post-retirement healthy, and disabled)	Update to Pub-2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, and *Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Giles, Virginia, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the County of Giles, Virginia's basic financial statements, and have issued our report thereon dated April 24, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Giles, Virginia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Giles, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Giles, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs, as item 2024-001, that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Giles, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County of Giles, Virginia's Response to Findings

olinan, Fainer, Cox Associates

Government Auditing Standards requires the auditor to perform limited procedures on the County of Giles, Virginia's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The County of Giles, Virginia's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Board of Supervisors County of Giles, Virginia Pearisburg, Virginia

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the County of Giles, Virginia's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Giles, Virginia's major federal programs for the year ended June 30, 2024. The County of Giles, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County of Giles, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements*, *Cost Principles*, *and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County of Giles, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County of Giles, Virginia's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County of Giles, Virginia's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County of Giles, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of

internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County of Giles, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County of Giles, Virginia's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County of Giles, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County of Giles, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards:

Note 1 -- Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of County of Giles, Virginia under programs of the federal government for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of County of Giles, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of County of Giles, Virginia.

Note 2 -- Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.
- (3) The County did not elect the 10% de minimis indirect cost rate because they only request direct costs for reimbursement.

Note 3 -- Food Distribution

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. For the year ending June 30th, Giles County reported the use of \$100,377 in commodities.

Note 4 -- Loans and Loan Guarantees

 $The \ County \ did \ not \ have \ any \ loans \ or \ loan \ guarantees \ which \ are \ subject \ to \ reporting \ requirements \ for \ the \ current \ year.$

Note 5 -- Subrecipients:

The County did not have any subrecipients for the year ended June 30, 2024.

Intergovernmental federal revenues per the basic financial statements:

Note 6 -- Relationship to the Financial Statements:

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

5		
Primary government:		
General Fund - Intergovernmental Revenue	\$	3,315,170
Less: Payments in lieu of taxes		(225, 195)
Total primary government	\$	4,235,674

Auditee qualified as low-risk auditee		No

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2024

Section II - Financial Statement Findings 2024-001

Criteria: Identification of a material adjustment to the financial statements that was not detected by

the entity's internal controls indicates that a material weakness exists.

Condition: The financial statements, as presented for audit, did not contain all necessary adjustments to

comply with generally accepted accounting principles (GAAP).

Cause: The School Board and Industrial Development Authority (IDA) did not identify and post all

material year end closing/adjusting entries.

Effect: There is a reasonable possibility that a misstatement of the IDA's and School Board's financial

statements will not be prevented or detected by the IDA's and School Board's internal controls

over financial reporting.

Recommendation: The IDA and School Board should review the auditor's proposed audit adjustments for 2024 and

develop a plan to ensure the trial balances and related schedules are accurately presented for

audit.

Management's Response: Management will review the auditor's proposed audit adjustments for 2024 and will develop a

plan of action with the IDA and School Board to ensure that all adjusting entries are made

prior to final audit fieldwork next year.

Section III - Federal Award Findings and Questioned Costs

There are no federal award findings and questioned costs to report.

Summary Schedule of Prior Audit Findings For the Year Ended June 30, 2024

No Prior Year Findings Reported
