## Report of Independent Auditor

To the Board of Trustees  
Virginia Investment Pool Trust Fund  
Richmond, Virginia

### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the accompanying financial statements of the Virginia Investment Pool Trust Fund (the "Trust"), as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective fiduciary net position of the Trust, as of June 30, 2022 and 2021, and the respective changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America ("GAAP").

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### ***Required Supplementary Information***

GAAP require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information***

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Trust's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 23 2022, on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Cherry Bekaert LLP". The script is cursive and fluid, with the letters "Cherry" and "Bekaert" being more prominent than "LLP".

## **MANAGEMENT’S DISCUSSION AND ANALYSIS (UNAUDITED)**

*JUNE 30, 2022 and 2021*

---

This management’s discussion and analysis provides an overview of the financial position and the results of activities of the Virginia Investment Pool Trust Fund (“Trust”), as of and for the fiscal years ended June 30, 2022 and June 30, 2021. Management offers the following discussion and analysis as a narrative introduction to the basic financial statements, which includes comparative information, as of and for the fiscal year-ended June 30, 2020, where applicable. This narrative is intended as a supplement and should be read in conjunction with the basic financial statements, accompanying notes, and supplementary information, which follow this section.

The Trust was established in 2013 under the Joint Exercise of Powers statute of the Commonwealth of Virginia (“Commonwealth”) by founding participants, the City of Chesapeake, Virginia and the City of Roanoke, Virginia. The Trust operates under the Virginia Investment Pool Trust Fund Agreement (“Trust Agreement”), which was adopted by the Board of Trustees on September 13, 2013. The Trust is an Internal Revenue Code Section 115 (“IRC § 115”) governmental trust. The Trust was created to provide political subdivisions of the Commonwealth of Virginia with an investment vehicle to pool their funds and to invest such funds in one or more investment portfolios under the direction and daily supervision of a professional fund manager. Income of the Trust is tax-exempt under IRC § 115.

The Virginia Association of Counties (“VACo”) and the Virginia Municipal League (“VML”) jointly sponsor the Trust, which operates as the VACo/VML Virginia Investment Pool. Primary benefits of participation in the Trust include professional investment management of trust assets, competitive rates of return, two highly-rated portfolios, and convenient, secure online access. The Trust offers two investment portfolios: the Virginia Investment Pool 1-3 Year High Quality Bond Fund (“VIP 1-3 Year Bond Fund”) and the Virginia Investment Pool Stable Net Asset Value Liquidity Pool (“VIP Liquidity Pool”). The VIP 1-3 Year Bond Fund is designed for surplus funds that can be invested in longer duration securities relative to the VIP Liquidity Pool, which is designed for daily cash liquidity. Participants hold individual trust accounts wherein they can monitor the performance of their investments.

The Virginia Local Government Finance Corporation (“VLGFC”), operating as VML/VACo Finance (“Administrator”), provides day-to-day administration of the Trust pursuant to a Memorandum of Agreement.

### **Overview of the Financial Statements**

The components of the financial statements and the required supplementary information are prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Government Accounting Standards Board (“GASB”).

This overview serves as an introduction to the Trust’s basic financial statements. The Trust’s basic financial statements include the following:

- The *Statements of Fiduciary Net Position* presents the Trust’s assets and liabilities. The difference between the assets and liabilities is reported as the net position restricted for pool participants. Over time, changes in net position may serve as a useful indicator of whether the financial position of the Trust is improving or deteriorating.
- The *Statements of Changes in Fiduciary Net Position* presents information showing how the Trust’s net position changed during the period. This statement includes additions and deductions that occurred during the fiscal year. Additions include participant contributions and investment earnings. Deductions include participant withdrawals and administrative expenses.
- The *Notes to Financial Statements* provide additional information that is essential for understanding the financial data provided in the financial statements and are an integral part of the financial statements.

**VIRGINIA INVESTMENT POOL TRUST FUND**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

*JUNE 30, 2022 and 2021*

The summarized financial information presented below is for the three years ended June 30.

	<b>Fiscal Year 2022</b>	<b>Fiscal Year 2021</b>	<b>Fiscal Year 2020</b>
Total Assets	\$ 2,204,459,807	\$ 2,268,973,118	\$ 2,373,620,645
Total Liabilities	25,189,260	185,394	82,127
Net position, June 30	<u>2,179,270,547</u>	<u>2,268,787,724</u>	<u>2,373,538,518</u>
Total Additions	1,614,711,017	1,834,214,483	2,484,661,527
Total Deductions	1,704,228,194	1,938,965,276	1,639,660,193
Change in net position	<u>(89,517,177)</u>	<u>(104,750,793)</u>	<u>845,001,334</u>
Net position, July 1	2,268,787,724	2,373,538,518	1,528,537,184
Change in net position	(89,517,177)	(104,750,793)	845,001,334
Net position, June 30	<u>\$ 2,179,270,547</u>	<u>\$ 2,268,787,725</u>	<u>\$ 2,373,538,518</u>

**Financial Highlights – Fiscal Year 2022**

- The combined total net position held in trust for pool participants was \$2,179.3 million at June 30, 2022, representing a decrease of \$89.5 million, or (4.0%), from the net position as of June 30, 2021. The decrease was due to several factors: Investments at Fair Value declined by \$363.3 million; Contributions Receivable declined by \$45.8 million; and, Withdrawal Payables increased \$25.0 million. Offsetting this was an increase in Cash and Cash Equivalents of \$343.0 million.
- Cash and cash equivalents increased by \$343.1 million from \$379.0 million at June 30, 2021 to \$722.1 million at June 30, 2022. The increase in cash position is largely a result of the increase in VIP Liquidity Pool Repurchase Agreements (presented as cash equivalents) at June 30, 2022 of \$415.0 million compared to June 30, 2021 of \$116.6 million, representing an increase of \$298.4 million. Additionally, the VIP Liquidity Pool had a net increase in money market investments of \$251.4 million at June 30, 2022.
- Contributions from participants during fiscal year-ended 2022 totaled \$1,623.3 million, a 11.3% decrease in contributions from participants of \$1,830.4 million during fiscal year 2021. The decrease is attributed to the VIP 1-3 Year Bond Fund which experienced a decrease from prior year of \$16.0 million, and the VIP Liquidity Pool which experienced a decrease from prior year of \$191.1 million, or 10.62%.
- Contributions receivable were \$6.0 million, resulting from participant contributions in transit with a trade date of June 30, 2022, compared to \$51.8 million as of June 30, 2021. The June 30, 2022 trades settled to the bank on July 1, 2022.
- Interest income decreased 4.7% during fiscal year 2022 compared with fiscal year 2021, coming in at \$7.1 million during fiscal year 2022 versus \$7.5 million for fiscal year-ended 2021. Conversely, interest receivables increased during fiscal year 2022 with a year-ending balance of \$2.3 million compared to fiscal year 2021 ending balance of \$0.8 million.

## VIRGINIA INVESTMENT POOL TRUST FUND

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

JUNE 30, 2022 and 2021

---

- The Trust's fair value of investments depreciated \$14.9 million in fiscal year 2022, compared to net depreciation of \$2.9 million in fiscal year 2021. This change is largely attributable to the VIP 1-3 Year Bond Fund, which experienced a net depreciation in the fair value of investments of \$13.9 million in fiscal year 2022, compared to fiscal year 2021, which experienced a net depreciation of \$2.7 million. In fiscal year 2022, the VIP Liquidity Pool experienced net depreciation in the fair market value of investments of \$1.0 million, compared to fiscal year 2021, in which it experienced net depreciation of \$0.1 million. As discussed later, the return for the VIP 1-3 Year Bond Fund in fiscal year 2022 was (3.19%) compared to 0.27% for fiscal year 2021.
- Participant withdrawals during the fiscal year-ended 2022 totaled \$1,703.7 million compared with participant withdrawals of \$1,938.4 million during fiscal 2021 for a decrease of \$234.7 million, or (12.1%). The lower withdrawal activity is attributed to the VIP Liquidity Pool, which experienced a decrease in withdrawals of \$236.5 million, or (12.4%). The VIP 1-3 Year Bond Fund experienced an increase of \$1.7 million in withdrawals from prior year, from \$23.4 million for fiscal year-ended June 30, 2021 to \$25.2 million in fiscal year-ended June 30, 2022.
- Withdrawals payable were \$25.0 million, resulting from participant withdrawals in transit with a trade date of June 30, 2022. The June 30, 2022 trades settled to the bank on July 1, 2022.

#### Financial Highlights – Fiscal Year 2021

- The combined total net position held in trust for pool participants was \$2,268.8 million at June 30, 2021, representing a decrease of \$104.8 million, or (4.41%), from the net position as of June 30, 2020. The decrease was due to participant withdrawals exceeding participant contributions in the VIP Liquidity Pool. This was partially offset by participant contributions exceeding participant withdrawals in the 1-3 Year High Quality Bond Fund.
- Cash and cash equivalents decreased by \$78.3 million from \$457.3 million at June 30, 2020 to \$379.0 million at June 30, 2021. The decrease in cash position is largely a result of the decrease in Repurchase Agreements (presented as cash equivalents) at June 30, 2021 of \$116.6 million compared to June 30, 2020 of \$218.6 million, representing a decrease of \$102 million.
- Contributions from participants during fiscal year-ended 2021 totaled \$1,830.4 million, a 25.37% decrease in contributions from participants of \$2,452.6 million during fiscal year 2020. The decrease is attributed to the VIP Liquidity Pool, which experienced a decrease from prior year of 25.97%. The VIP 1-3 Year Bond Fund experienced an increase in contributions over prior year of 41.59% compared to fiscal year-ended June 30, 2020.
- Contributions receivable were \$51.8 million, resulting from participant contributions in transit with a trade date of June 30, 2021. The trades settled to the bank on July 1, 2021.
- Interest income decreased 71.96% during fiscal year 2021 compared with fiscal year 2020, coming in at \$7.5 million during fiscal year 2021 versus \$26.6 million for fiscal year-ended 2020. Relationally, interest receivables decreased 71.69% during fiscal year 2021 with a year-ending balance of \$0.8 million compared to fiscal year 2020 ending balance of \$2.8 million. The lower interest income was due primarily to lower interest rates as discussed further in the *Investment Performance* section.
- The Trust closed fiscal year 2021 with a net depreciation in fair value of investments of \$2.9 million, compared to a fiscal year 2020 net appreciation of \$6.2 million. This is attributable in large part to the VIP 1-3 Year Bond Fund, which closed fiscal year 2021 with a net depreciation in the fair value of investments of \$2.7 million, compared to fiscal year 2020, which had a net appreciation of \$6.1 million. As discussed later, the return for the VIP 1-3 Year Bond Fund in fiscal year 2021 was 0.27% compared to 4.21% for fiscal year 2020.

# VIRGINIA INVESTMENT POOL TRUST FUND

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

JUNE 30, 2022 and 2021

- Participant withdrawals during the fiscal year-ended 2021 totaled \$1,938.4 million compared with participant withdrawals of \$1,639.1 million during fiscal 2020 for an increase of \$299.3 million, or 18.26%. The higher withdrawal activity is attributed to the VIP Liquidity Pool, which experienced an increase in withdrawals of \$304.9 million, or 18.94%. The VIP 1-3 Year Bond Fund experienced a decrease of \$5.6 million in withdrawals from prior year, from \$29.1 million for fiscal year-ended June 30, 2020 to \$23.4 million in fiscal year-ended June 30, 2021.

### Financial Analysis

The Trust's objectives are established individually by investment pool. The VIP 1-3 Year Bond Fund's objective is to provide political subdivisions with a high-quality investment vehicle for participants who require less liquidity and can assume additional price volatility for the potential of greater returns over a longer-term horizon. The objective of the VIP Liquidity Pool is to provide political subdivisions with an AAAm-rated (Standard & Poor's) investment vehicle offering daily liquidity at a stable net asset value ("NAV").

The comparative financial information for the *Statements of Fiduciary Net Position* as of the three fiscal years ended June 30 are as follows:

	2022	Increase (Decrease)	2021	Increase (Decrease)	2020
<b>ASSETS</b>					
Cash and Cash Equivalents	\$ 722,079,061	\$ 343,033,858	\$ 379,045,203	\$ (78,285,790)	\$ 457,330,993
Contributions Receivable	6,000,000	(45,820,711)	51,820,711	51,820,711	-

# **VIRGINIA INVESTMENT POOL TRUST FUND**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

*JUNE 30, 2022 and 2021*

---

### **Net Position – June 30, 2022 compared to June 30, 2021**

The Trust's net position, comprised primarily of investments reported at fair value, saw a modest decrease of 3.95% from fiscal year-end 2021 to fiscal year-end 2022. Decreases in investment balances and overall net position resulted from participant withdrawals exceeding participant contributions each fiscal year and net depreciation in fair value of investments exceeding interest income in fiscal year 2022. This led to overall decreases in the net position each fiscal year, with the current year change at (\$89.5) million compared to prior year of (\$104.8) million. Notably, at fiscal year-end 2021, contributions receivable in the VIP Liquidity Pool was \$51.7 million compared to \$5.0 million at fiscal year-end 2022.

### **Net Position – June 30, 2021 compared to June 30, 2020**

The Trust's net position, comprised primarily of investments reported at fair value, experienced a modest decrease of 4.41% from fiscal year-end 2020 to fiscal year-end 2021. Although the number of participants increased in the Trust, decreases in investment balances and overall net position were a result of activities in the VIP Liquidity Pool in fiscal year 2021. Participant withdrawals exceeding participant contributions in the VIP Liquidity Pool led to the overall decrease in net position from the prior year, with the current year change at (\$104.8) million compared to prior year of \$845.0 million.

A comparison of the investment assets for three years as of June 30 is presented below:

[Remainder of page intentionally left blank.]

## VIRGINIA INVESTMENT POOL TRUST FUND

### MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

*JUNE 30, 2022 and 2021*

A comparison of the net position restricted for pool participants for three years as of June 30 is presented below:

#### **Cash and Cash Equivalents – June 30, 2022 compared to June 30, 2021**

Cash and cash equivalents totaled \$722.1 million at fiscal year-end 2022 compared with \$379.0 million at fiscal year-end 2021, representing an increase in cash and cash equivalents of \$343.1 million.

#### **Cash and Cash Equivalents – June 30, 2021 compared to June 30, 2020**

Cash and cash equivalents totaled \$379.0 million at fiscal year-end 2021 compared with \$457.3 million at fiscal year-end 2020, representing a decrease in cash and cash equivalents of \$78.3 million.

#### **Participation - June 30, 2022 compared to June 30, 2021**

Participation in the Trust's pools is voluntary and the Administrator strives to direct marketing efforts throughout the Commonwealth. The Trust provides all political subdivisions, including urban, rural, and underserved localities access to professionally managed investment pools.

The average of the daily aggregate participant net asset values was lower in fiscal year 2022 than in fiscal year 2021. The VIP 1-3 Year Bond Fund's average of the daily total participant net asset values increased from \$352.8 million for fiscal year 2021 to \$363.4 million for fiscal year 2022. However, the VIP Liquidity Pool's average of the daily total participant net asset values decreased from \$1,650.0 million for fiscal year 2021 to \$1,494.3 million for fiscal year 2022. During the fiscal year, five new participants joined the Trust, bringing the total number of participants to 145. The Trust is in its ninth fiscal year of operations, and participants are seeking high quality fixed income investment options under the supervision of professional management.

Factors affecting the level of interest income of the Trust include weighted average maturity, duration, interest rate levels, and average daily investment balances.

# VIRGINIA INVESTMENT POOL TRUST FUND

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

JUNE 30, 2022 and 2021

### Participation - June 30, 2021 compared to June 30, 2020

Participation in the Trust's pools is voluntary and the Administrator strives to direct marketing efforts throughout the Commonwealth. The Trust provides all political subdivisions, including urban, rural, and underserved localities access to professionally managed investment pools.

The average of the daily aggregate participant net asset values was higher in fiscal year 2021 than in fiscal year 2020 despite participant contributions decreasing by 25.37% and withdrawals increasing by 18.26%. During the fiscal year, nine new participants joined the Trust, bringing the total number of participants to 140. The Trust is in its eighth fiscal year of operations, and participants are seeking high quality fixed income investment options under the supervision of professional management.

Factors affecting the level of interest income of the Trust include weighted average maturity, duration, interest rate levels, and average daily investment balances.

The chart below presents a comparison of the average total investment NAV balance of participants by pool and by total Trust over the fiscal years 2022, 2021, and 2020:

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

*JUNE 30, 2022 and 2021*

---

### **Investment Performance**

In response to the COVID-19 pandemic first declared in March 2020 by the World Health Organization, the Federal Open Market Committee ("FOMC") cut the federal funds overnight rate by 150 basis points (1.5 percentage points) to a target range of 0.0% to 0.25%. The federal funds rate is the overnight interest rate at which depository institutions lend reserve balances to other depository institutions. The fed funds target rate range remained unchanged at 0.0% to 0.25% from March 2020 through the first nine months of fiscal year 2022. In March 2022, the FOMC raised the target range to 0.25% to 0.50%; in May 2022, the FOMC raised the target range another 50 basis points to 0.75% to 1.00%; and in June 2022, the FOMC raised the target range another 75 basis points to 1.50% to 1.75%, marking the largest increase since 1994. During the latter three months of fiscal year 2022, the FOMC also simultaneously reduced holdings in Treasury securities and agency mortgage-backed securities. These actions were taken in response to soaring inflation, the war in Ukraine, and continuing supply and demand imbalances related to the COVID-19 pandemic. The Fed's policies had a significant impact on the performance of the VIP portfolios, as detailed below.

### **VIP 1-3 Year Bond Fund**

The VIP 1-3 Year Bond Fund provides an investment vehicle to pool and invest funds for political subdivisions with surplus funds and an investment horizon of one year or longer. The VIP 1-3 Year Bond Fund is rated AA+*f*/S1 by Standard & Poor's. The VIP 1-3 Year Bond Fund measures its returns against the ICE Bank of America Merrill Lynch (ICE BAML) 1-3 Year AAA/AA Corporate & Government Index. The VIP 1-3 Year Bond Fund aims to exceed the return of the benchmark over three-year periods while preserving participant capital. The total return (before fees) of the VIP 1-3 Year Bond Fund for the year-ended June 30, 2022 was (3.19%) compared to (3.30%) for the ICE BAML Index, and for the year-ended June 30, 2021 was 0.27% compared to 0.13% for the ICE BAML Index. As of fiscal year-end 2022, the annualized return since inception (February 1, 2014) of the VIP 1-3 Year Bond Fund was 1.00%, compared to the benchmark's annualized return of 0.88%.

Treasury yields rose during the fiscal year with the one-month and 5-Year yields starting the year (July 1, 2021) at 0.05% and 0.89%, respectively. As of fiscal year-end, the one-month and 5-Year Treasury yields were 1.28% and 3.01%, respectively. The federal funds target rate remained constant between 0.0% and 0.25% during the first nine months of fiscal year 2022, then ended the fiscal year at June 30, 2022 between 1.50% and 1.75%. The 2-Year Treasury yield began the fiscal year at 0.25% and remained relatively steady during the first quarter of the fiscal year before experiencing continual increases during the remainder of the fiscal year, ending the fiscal year at 2.92%. The market value of the securities in the portfolio decreased due to the rise in yields during the fiscal year. Market conditions with rising interest rates, and resulting unrealized losses, have led to this result. While the future cannot be predicted with certainty, using history as a guide, it is anticipated that the income return generated from the Fund will overtake the price return loss over time. Despite the negative total return for the fiscal year of (3.19%), the VIP 1-3 Year Bond Fund outperformed the benchmark of (3.30%) by 11 basis points, or 0.11%.

Market yield is a forward-looking measure and represents the yield investors might realize going forward assuming the securities in the portfolio are held to maturity, all else being equal. The market yield (before fees) has increased from 0.26% as of June 30, 2021 to 2.93% as of June 30, 2022.

Duration, a key metric used to manage interest rate risk for the 1-3 Year Bond Fund, is a measurement of a fund's sensitivity to interest rate changes. The duration of the VIP 1-3 Year Fund as of June 30, 2022 was 1.80 years compared with the duration of its benchmark of 1.77 years. As of June 30, 2021, the 1-3 Year Bond Fund's duration was 1.83 years compared with the duration of its benchmark of 1.83 years. Book yield is based on the amortized cost of the securities held in the portfolio, ignoring current market values, and represents the potential yield available to current participants who were invested in the portfolio at the time the securities in the portfolio were purchased. The book yield (before fees) as of June 30, 2022 was 0.99%.

# **VIRGINIA INVESTMENT POOL TRUST FUND**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**

*JUNE 30, 2022 and 2021*

The VIP 1-3 Year Bond Fund did not experience large swings in fair value during fiscal year 2022 in part due to the relatively short duration of the securities in the portfolio. The Net Asset Value of the VIP 1-3 Year Bond Fund was in a range of \$9.8010 (June 30, 2022) to \$10.1857 (June 30, 2021), representing a decline of 3.78% over the fiscal year. As noted, however, the market yield of the VIP 1-3 Year Bond Fund suggests higher income going forward, all else being equal.

### **VIP 1-3 Year Bond Fund Summarized Investment Information as of June 30:**

	<b>2022</b>	<b>2021</b>	<b>2020</b>
Total Return (FYTD)	-3.19%	0.27%	4.21%
ICE BAML Index (FYTD)	-3.30%	0.13%	4.08%
Duration (years)	1.80	1.83	1.81
ICE BAML Index (years)	1.77	1.83	1.81
Total Return Since Inception (Annualized)	1.00%	1.58%	1.79%
ICE BAML Index (Annualized)	0.88%	1.46%	1.67%

The VIP 1-3 Year Bond Fund portfolio allocation is a key strategy to maximizing the investment returns to participants. The portfolio allocation of the VIP 1-3 Year Bond Fund, based on fair value as of June 30, 2022, was as follows:

<b>Security Distribution</b>	<b>Portfolio Amount</b>	<b>Portfolio Allocation</b>
Money Market Funds	\$ 1,490,416	0.45%
U.S. Treasury Securities	256,723,122	76.67%

*JUNE 30, 2022 and 2021*

---

### **VIP Liquidity Pool**

The VIP Liquidity Pool was established in October 2016. The objective of the VIP Liquidity Pool is to provide political subdivisions with an AAAM-rated (Standard & Poor's) investment vehicle offering daily liquidity at a stable net asset value. The investments in the VIP Liquidity Pool are short-duration, high-quality, fixed income securities and the pool offers a stable NAV. As such, the investments are less susceptible to changes in fair value that could result in permanent adjustments due to market conditions.

The Federal Reserve kept the federal funds target rate range steady at 0.00-0.25% throughout the first nine months of the fiscal year-ended June 30, 2022, and then raised the target rate by 1.50 basis points to 1.50-1.75% in the final three months of the fiscal year. As a result, the net yield of the VIP Liquidity Pool increased modestly from 0.06% at the beginning of the fiscal year to 0.18% in mid-March 2022, and ended the fiscal year at 1.47% as of June 30, 2022. The 30-day average net yield of the VIP Liquidity Pool as of June 30, 2022 was 1.13% compared to 0.06% as of June 30, 2021. The average annual daily yield for fiscal year-ended June 30, 2022 was 0.27% compared to 0.17% for fiscal year-ended June 30, 2021.

As of June 30, 2022, the weighted average maturity to reset ("WAMR") was 26.71 days and the weighted average maturity to final ("WAMF") was 55.62 days. As of June 30, 2021, the WAMR was 46.66 days and the WAMF was 59.60 days. Standard & Poor's guidelines permit a maximum WAMR of 60 days and a maximum WAMF of 90-120 days.

### **VIP Liquidity Pool Summarized Investment Information as of June 30:**

	<b>2022</b>	<b>2021</b>	<b>2020</b>
30 Day Ave Net Yield	1.13%	0.06%	0.42%
Ave Annual Daily Yield	0.27%	0.17%	1.64%

*JUNE 30, 2022 and 2021*

---

### **Economic Factors and Review**

The Trust's operations are dependent on the financial markets and overall economic conditions. Participant activity is influenced by local economic factors and participant cash flows.

Several national and global events occurred during fiscal year 2022 that significantly impacted the U.S. economy including resurgence of COVID-19 cases; supply chain disruptions in the face of strong consumer demand; declining or discontinued government sponsored assistance programs to businesses and individuals; the war in Ukraine and US and foreign sanctions imposed against Russia in response; steep increases in living, energy, and housing costs (inflation); and declining/low unemployment compared to available open jobs.

Quarterly U.S. real economic growth, as measured by Gross Domestic Product ("GDP"), ended fiscal year 2021 strong with fourth quarter GDP at 6.7% (annualized). The first quarter of fiscal year 2022 experienced a brief slowdown in the economy with a GDP of 2.3% (annualized). The slowdown was prompted by new restrictions and delays in reopening of businesses due to a resurgence in COVID-19 cases, and due to government sponsored assistance programs tapering off in the quarter. In the second quarter, GDP growth rebounded to 6.9% (annualized) before declining to negative 1.6% in the third quarter of the fiscal year. The decline in the third quarter was due to surges in COVID-19 cases from the Omicron variant which led to continued restrictions and disruptions of business operations. In the fourth quarter of the fiscal year, new COVID-19 cases continued with the newly dominant Omicron subvariant BA.5, inflation rates hit 40-year highs, and interest rates rose, all of which contributed to economic contraction with negative 0.6% GDP quarterly growth.

The U.S. unemployment rate during fiscal year 2022 steadily declined from 5.4% in July 2021 to 3.6% in June 2022. Virginia's unemployment rate during fiscal year 2022 also steadily declined from a high of 3.8% in July 2021 to 2.8% in June 2022. Despite declining unemployment rates in fiscal year 2022, job openings remained high throughout the fiscal year. This is possibly due to ongoing COVID-19 concerns, family obligations, or the temporary/permanent exit from the workplace of previously employed individuals. Domestic year-on-year inflation ("CPI") as of June 2022 was 9.1%, up from 5.4% in June 2021, well above the Fed's target of 2.0%, and marking the largest 12-month increase in 40 years.

During the first half of the fiscal year, the Federal Reserve was committed to keeping its fed-funds rate target range of 0.0% to 0.25%. However, with soaring inflation, the war in Ukraine, and continuing supply and demand pressures related to the COVID-19 pandemic impacting the national economy, the Federal Reserve indicated that it would begin raising interest rates, and aggressively taper its asset purchases of Treasury securities and agency mortgage-backed securities and reduce its investment holdings in calendar 2022 to shrink its Balance Sheet. The initial rate hike came in March 2022 with the target range increasing 0.25% to 0.25% to 0.50%. In May 2022, the Federal Reserve raised the target range an additional 50 basis points to 0.75% to 1.00%; and in June 2022, the Fed raised the target range another 75 basis points to 1.50% to 1.75%, marking the largest increase since 1994. Pressure continues to mount on the Federal Reserve to manage its monetary policy to curb inflation while avoiding a recession.

The multiple factors affecting the economy as discussed herein, along with the Fed rate increases, have led to rising interest rates, which in turn, has negatively impacted bond prices due to their inverse relationship to interest rates. With the rapid increase in interest rates from a low starting point, fixed-income investments have experienced historic drawdowns in the first half of calendar year 2022. Many of these challenges are part of the natural economic cycle. While volatility is likely to remain in 2022, diversified fixed-income portfolios can benefit from the rise in interest rates and wider credit spreads as higher income may potentially be realized.

# VIRGINIA INVESTMENT POOL TRUST FUND

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

---

### Note 1—Summary of significant accounting policies

*Basis of Presentation* – The accompanying financial statements have been prepared in conformance with the accounting principles generally accepted in the United States of America (“GAAP”) as prescribed by the Governmental Accounting Standards Board (“GASB”). These financial statements have been prepared utilizing the accounting principles for governmental external investment pools.

*The Reporting Entity* – For financial reporting purposes, the Virginia Investment Pool Trust Fund (“Trust”) is an independent reporting entity and is not a component unit of any governmental entity. The Trust reports its activities as a single fiduciary fund.

The Trust was established September 13, 2013, to provide a pooled investment alternative for political subdivisions of the Commonwealth of Virginia (“Commonwealth”). The Trust is a qualified investment pool as defined in the Code of Virginia § 2.2-4513.1 *Investment of funds in qualified investment pools*.

The Trust was created to provide an investment vehicle to pool participant funds and to invest such funds into one or more investment portfolios under the direction and daily supervision of a professional fund manager. Participants hold individual trust accounts within the investment pools.

The Trust is comprised of two pools and operates under the Virginia Investment Pool Trust Fund Agreement (“Trust Agreement”). The Virginia Investment Pool 1-3 Year High Quality Bond Fund (“VIP 1-3 Year Bond Fund”) is designed for political subdivisions that have excess funds and an investment horizon longer than that of money market instruments, typically one year or longer. In October 2016, the Trust established a second portfolio, the Virginia Investment Pool Stable Net Asset Value Liquidity Pool (“VIP Liquidity Pool”). The VIP Liquidity Pool provides daily liquidity and a stable net asset value (“NAV”) for daily operating funds.

The VIP 1-3 Year Bond Fund is designed to provide political subdivisions with a high-quality investment vehicle for participants who require less liquidity and can assume additional price volatility for the potential of greater returns over a longer-term horizon. Participant ownership is proportionate and based on market value. Participants can expect the value of their investment in the fund to fluctuate from month-to-month and should consider this portfolio for a longer-term strategy. The NAV is floating and fluctuates in accordance with market conditions including changes in interest rates. Shares are purchased and redeemed at the floating NAV.

The Trust reports its investments in the VIP 1-3 Year Bond Fund at fair value and, as such, participants should also report their investments in the Trust at fair value approximating NAV. Fair value is determined two times per month. The VIP 1-3 Year Bond Fund is rated AA+f/S1 by Standard & Poor’s.

The objective of the VIP Liquidity Pool is to provide political subdivisions with an AAAM-rated (Standard & Poor’s) investment vehicle offering daily liquidity at a stable NAV. Participant shares are purchased and redeemed at the stable NAV. The Trust reports its investments in the VIP Liquidity Pool at fair value, and as such participants should also report their investments in the Trust at fair value approximating NAV. Fair value is determined daily. The VIP Liquidity Pool is rated AAAM by Standard & Poor’s.

The Trust’s Board of Trustees has fiduciary responsibility for the investment of monies and administration of the Trust pursuant to the Trust Agreement. The Board of Trustees is currently comprised of twelve voting members and two ex-officio members. Trustees are treasurers or chief investment officers of participating political subdivisions and are elected for staggered three-year terms by the participants in the Trust. Notwithstanding this practice, pursuant to the Trust Agreement the two local governments that initially founded the Trust through the Joint Exercise of Powers statute of the Commonwealth, the Cities of Chesapeake and Roanoke, Virginia are each entitled to representation on the Board of Trustees until the annual meeting in fiscal year 2023. The Trust is not subject to regulatory oversight and is not registered with the Securities and Exchange Commission (“SEC”) as an investment company.

# VIRGINIA INVESTMENT POOL TRUST FUND

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

---

### Note 1—Summary of significant accounting policies (continued)

*Measurement Focus and Basis of Accounting* – The financial statements of the Trust are presented as a fiduciary fund utilizing the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred regardless of timing of the cash flows. Security transactions and the related gains and losses are reported on a trade date basis. At June 30, 2022 and June 30, 2021, there were no pending trades. Interest income is accrued as earned, but is allocated to participants' accounts daily for the VIP Liquidity Pool and twice per month for the VIP 1-3 Year Bond Fund.

*GASB Statements* – There were no new pronouncements issued by the GASB that affected the Trust for fiscal year-ended June 30, 2022.

*Cash and Cash Equivalents* – The Trust considers all deposits in banks and short-term highly liquid investments that are readily convertible to cash to be cash equivalents. Cash equivalents, which are comprised of money market mutual funds and repurchase agreements, are recorded at amortized cost, which approximates fair value.

Cash received from participants for investing in the Trust is recognized upon receipt by the custodian bank if received by the cutoff time. Funds received after the cutoff time will not be in the investment account until the next business day. There are no separate participant accounts to hold participant funds during this interim period.

*Investment Objectives* – The investment objectives of the Trust are structured in accordance with the strategy of each respective pool. The standard of prudence to be used by investment officials of the Trust shall be the "prudent person" and shall be applied in the context of managing the portfolios. The Trust may only invest in authorized investments as established by the Board of Trustees and in accordance with the *Code of Virginia*, Chapter 45. *Investment of Public Funds Act*.

The VIP 1-3 Year Bond Fund is a fixed income investment portfolio designed to provide a pooled investment alternative with an investment horizon greater than that of money market instruments, typically one year or longer. The investment objectives are to exceed the return of the ICE Bank of America Merrill Lynch 1-3-Year AAA/AA U.S. Corporate & Government Index over three-year periods, and to preserve capital. The VIP 1-3 Year Bond Fund seeks to obtain the highest possible yield on available financial assets, consistent with constraints imposed by safety objectives and cash flow considerations.

The VIP Liquidity Pool is a fixed income investment portfolio designed to provide a pooled investment alternative with a stable NAV. The investment objectives are safety, liquidity, transparency, and offering a competitive yield, in accordance with the *Code of Virginia*.

*Investment Restrictions* – The investment policy seeks to restrict investments only to those high-quality, fixed income securities as authorized in the *Code of Virginia*. No investment may have a rating that is not at or above the minimum required in the *Code of Virginia*.

Investments of funds for the VIP 1-3 Year Bond Fund may not exceed a period of 60 months, unless the investment has a put option meeting this requirement.

To provide for the safety and liquidity of funds, the VIP Liquidity Pool is required to maintain a dollar-weighted average maturity to reset ("WAMR") of 60 days or less and a dollar-weighted average maturity to final of 120 days or less.

# VIRGINIA INVESTMENT POOL TRUST FUND

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

### Note 1—Summary of significant accounting policies (continued)

**Valuation** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Security transactions are recorded on a trade date basis. Realized gains and losses on sales of investments are calculated on an identified cost basis. Interest income, including any amortization of premium or accretion of discount, is recorded on the accrual basis. See Note 2 and Note 3 for discussion of investment risk and fair value measurements. Net investment income consists of realized and unrealized appreciation (depreciation) in the fair value of investments and interest income earned. Realized gains and losses on the sale of investments are recognized on the specific identification basis to match with the cost basis of the investments sold.

The following table reflects the investments at fair value and par value, including interest rate ranges and the maturity date ranges for the VIP 1-3 Year Bond Fund, as of June 30, 2022:

#### VIP 1-3 Year Bond Fund

Investment Type	Fair Value	Par Value	Maturity Dates Ranges	Interest Rate Ranges (%)
U.S. Treasury Securities	\$ 256,723,122	\$ 265,759,575	08/2023 - 04/2025	0.13 - 2.25

<b>Total VIP Liquidity Pool</b>	<b>\$ 1,590,466,959</b>	<b>\$ 1,590,453,056</b>		

(1) Includes securities issued at a discount.

(2) Includes securities that have variable rates with the rates ranging from 0.12 - 0.20 percent as of fiscal year end.

(3) The repurchase agreements meet the definition of a cash equivalent per policy and are reported on the Statement of Net Position as cash equivalents at amortized cost, which approximates fair value.

**Administrative and Investment Fees** – The Administrator oversees the operations of the Trust, and the Trust contracts with a third-party service provider for the portfolio management and record keeping services. The costs for the services of the Administrator and third-party service provider are accrued and charged as administrative expenses and investment expenses, respectively. The Board of Trustees approves administrative and investment fees. Fees are payable monthly in arrears on the first day of the next succeeding month.

Administrative fees for the VIP 1-3 Year Bond Fund are assessed once per month in arrears for the costs of administering the Trust. The fee is inclusive of all costs of program administration other than direct investment-related expenses, including client education, audit and reporting, legal services, accounting, credit rating, Board expenses, and insurance. The program administration fee is applied on a sliding scale based upon each participant's average asset value during the preceding month. Direct investment-related expenses, including fees for investment management and custodial services, are deducted from investment assets directly rather than from participant accounts. For fiscal years ended June 30, 2022 and 2021, the investment-related expenses were approximately 0.06% (6 basis points) of investment assets. Total administrative and investment fees ranged between 0.08% and 0.17% depending on each participant's asset value.

Participant fees for the VIP Liquidity Pool are assessed daily. The annual fee to each participant may not exceed 0.15% (15 basis points) of the participant's account balance. The fee charged to participants is inclusive of all costs including program administration, investment management, custodial services, and fund accounting and reporting.

# **VIRGINIA INVESTMENT POOL TRUST FUND**

## **NOTES TO FINANCIAL STATEMENTS**

*JUNE 30, 2022 and 2021*

---

### **Note 1—Summary of significant accounting policies (continued)**

*Income Distribution* – In order to account for each participant's activity, separate accounts are maintained by the Trust. Earnings less expenses accrued in the Trust are allocated to each participant on a semi-monthly basis for the VIP 1-3 Year Bond Fund, and on daily basis for the VIP Liquidity Pool. The allocation is based on the participant's pro rata share of the total investments in the pool. The allocated net investment income is automatically reinvested the same business day.

*Participant Transactions* – For both pools, the value of each participant's investment is determined by the pro rata share of NAV of the fund based on the fair value determination on the strike days. Each participant's proportionate share is adjusted so the sum of the participant shares equals the total investment portfolio value.

The VIP 1-3 Year Bond Fund is managed as a variable NAV pool. Fair value and NAV are determined on the 15<sup>th</sup> and last business day of each month. If the 15<sup>th</sup> is not a business day, fair value and the NAV are determined as of the preceding business day. The pool transacts with participants based on a floating NAV per share that is determined by the market, which is the same method used to report investments. Participants may contribute at any time and the contributions initially are included in the VIP Liquidity Pool, which serves as a sweep account for the VIP 1-3 Year Bond Fund. Designated deposits are transferred from the VIP Liquidity Pool into the VIP 1-3 Year Bond Fund following the next semi-monthly portfolio valuation. Redemptions must be at least ten thousand dollars and may be made twice per month on the first business day following the portfolio valuation.

The VIP Liquidity Pool is managed as a stable NAV. Fair value is determined daily for the VIP Liquidity Pool and the pool transacts with participants at a stable NAV per share of \$1.00 based on the fair value, which is the same method used to report investments. Participants may contribute and withdraw funds on a daily basis. Contributions received by the cutoff time are credited to the participant account that day and invested with other funds in the portfolio. Contributions received after the cutoff time are credited on the next business day. Requests for redemptions are honored on a same day basis, if received prior to the cutoff time. Participants may contribute to, and withdraw funds from, the VIP Liquidity Pool at any time.

*Custodian* – The Trust has contracted with a custodian that is a qualified public depository to maintain custody of the funds and securities. The custodian is responsible for holding all funds and securities in a separate account in the name of the Trust, collecting all income and principal due to the Trust from securities held, accepting contributions and distributing redemptions, and properly accepting for delivery and/or delivering securities in accordance with the contract between the Trust and the custodian.

*Risk Management* – The Trust is exposed to various risks of loss such as loss due to torts, theft, injuries, and natural disasters. The Administrator, at the direction of the Board of Trustees, maintains commercial insurance coverage to limit exposure to identified risks. The Administrator conducts an analysis at least annually to determine the type and extent of coverage needed. The coverage is deemed sufficient to preclude any significant uninsured loss for the covered risks. There were no significant reductions in insurance coverage from the prior year. The costs of settled claims, if any, have not exceeded the coverage in any of the past three years. As of June 30, 2022 and 2021, there is no evidence of an asset impairment or other information that would require the recognition or disclosure of a loss.

*Taxes* – The Trust is exempt from taxation under Section 115 of the Internal Revenue Code. Accordingly, the accompanying financial statements do not include a provision for Federal or state income taxes.

# VIRGINIA INVESTMENT POOL TRUST FUND

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

---

### Note 1—Summary of significant accounting policies (continued)

*Estimates* – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates also affect the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates and assumptions.

*Termination* – The Trust Agreement specifically allows for the termination of the Trust once “all participation interests of all participating political subdivisions have been terminated in their entirety.” Partial termination would occur when a participating political subdivision’s interest in the Trust is terminated or when a Trust Joinder Agreement has been terminated. In case of termination, either in whole or in part, affected assets of the Trust would be distributed or transferred in accordance with the Trust Agreement.

### Note 2 – Deposits and Investment Risk

**Deposits and Investment Risk** – The following information regarding disclosures of risks are designed to inform financial statement users about the Trust’s various risks.

*Custodial Credit Risk* – Custodial credit risk is the risk, in the event of the failure of a depository financial institution or financial counterparty, the Trust will not be able to recover the value of its deposits, investments, or recover collateral securities that are in the possession of an outside party. The Trust’s deposit policy states that collateral for savings and time deposits shall be pledged according to the provisions of the Virginia Security for Public Deposits Act, Section 2.2- 4400 et seq. of the *Code of Virginia* (“Deposit Act”) and the requirements of the State Treasury Board (“Treasury Board”) regulations.

Funds held as deposits in financial institutions are secured in accordance with the provisions of the Deposit Act, which requires any public depository that receives or holds public deposits to pledge collateral to the Treasury Board to cover public deposits in excess of Federal deposit insurance. Deposits are insured by the Federal Deposit Insurance Corporation (“FDIC”) up to federally insured limits. Deposits with a financial institution in excess of the FDIC limit are collateralized at a rate of 102 percent under the pooled method of collateralization as elected by the financial institution.

The Trust utilized a money market mutual fund with a weighted average maturity of 25 days as of June 30, 2022. The money market mutual fund is held with the custodian. Excess funds in the deposit account are swept into the money market mutual fund each night. The balance remains in the money market mutual fund until expenses are incurred or securities are purchased. When the cash is needed, the funds are moved from the money market mutual fund into the deposit account under the direction of the investment manager. At June 30, 2022, the Trust had approximately \$36.8 million of money market mutual funds, which represented approximately 1.67% of the Trust’s total assets. The money market mutual fund is reported as a cash equivalent on the *Statement of Fiduciary Net Position*.

[Remainder of page intentionally left blank.]

# **VIRGINIA INVESTMENT POOL TRUST FUND**

## **NOTES TO FINANCIAL STATEMENTS**

*JUNE 30, 2022 and 2021*

---

### **Note 2—Deposits and Investment Risk (continued)**

In November 2021, the Trust began utilizing an institutional money market mutual fund with a weighted average maturity between 13 and 30 days as of June 30, 2022. The institutional money market mutual fund is held with the custodian. The money market mutual fund is required to price and transact at a net asset value ("NAV") per share that fluctuates based upon the pricing of the underlying portfolio of securities, which may impact the value of those fund shares. The financial institution is a member of the Securities Investor Protection Corporation ("SIPC"). In the event of insolvency or liquidation of the financial institution, securities held in safekeeping by the financial institution are covered by SIPC limits, but not investment risk including loss of principal on an investment. At June 30, 2022, the Trust had approximately \$270.2 million in institutional money market mutual funds, which represented approximately 12.26% of the Trust's total assets. The institutional money market mutual fund is reported as a cash equivalent on the *Statement of Fiduciary Net Position*.

In April 2022, the Trust liquidated deposits in insured cash sweep accounts with three financial institutions. The deposits were held in savings accounts that were fully FDIC insured and earned interest ranging from 0.15% to 0.30%. As of June 30, 2022, the carrying amount of the insured cash sweep deposits was \$0. The insured cash sweep account was considered a deposit and was reported in prior fiscal years as cash on the *Statement of Fiduciary Net Position*.

As of June 30, 2022, the bank balance of deposits was \$0 and the carrying amount of deposits was \$0. The \$0 balances are a result of the liquidation of deposits in insured cash sweep accounts. There were no deposits in transit as of June 30, 2022.

For fiscal years ended June 30, 2022 and 2021, cash equivalents include repurchase agreements that mature daily. Securities utilized in repurchase agreements are subject to additional restrictions designed to limit the Trust's exposure to risk and ensure the safety of the investment. The Trust invests excess operating cash in repurchase agreements, which are collateralized by U.S. Government backed securities with the Trust's bank. The fair value, plus accrued income, of securities utilized as collateral in repurchase agreements must be at least 102 percent of the value of the repurchase agreement, plus accrued income. At June 30, 2022 and 2021, the Trust had approximately \$415.0 million and \$116.6 million of repurchase agreements in cash equivalents respectively, which represent approximately 18.82% and 5.14% of the Trust's total assets, respectively.

As of June 30, 2022 and 2021, investment securities for the Trust were registered and held by the custodian in the name of the Trust for the benefit of the investment pools and were not exposed to custodial credit risk.

**Interest Rate Risk** – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in interest rates. The Trust manages the risk for the VIP 1-3 Year Bond Fund using the effective duration methodology. The VIP Liquidity Pool is reported based on the segmented time distribution as the investments held are not as exposed to interest rate risk as those of longer durations.

# VIRGINIA INVESTMENT POOL TRUST FUND

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

### Note 2—Deposits and Investment Risk (continued)

**Credit Risk** – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Trust. Credit risk is measured by the assignment of a rating by a nationally recognized statistical rating organization. Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and disclosure is not required. The Investment Policy states that no investment shall be purchased if its ratings from nationally recognized ratings firms are not at or above the minimum as established by the Board of Trustees and in the *Code of Virginia*. Certain major classes of investments presented below have minimum ratings for securities as defined in the Trust Investment Policy. Those major classes of investments without minimum ratings for securities are subject to a standard of prudence to be used by investment officials in the context of managing the portfolios.

- Bankers' acceptances from "prime quality" institutions. Prime quality shall be as determined by one or more nationally recognized rating agency.
- Commercial paper rated by at least two of the following: Moody's Investors Service Inc., within its NCO/Moody's rating of P1; by Standard & Poor's, Inc., within its rating of A-1; or by Fitch Investor's Services, Inc., within its rating of F-1; or by their corporate successors.
- Corporate notes with at least two of the following ratings: at least AA by Fitch Investor's Services, Inc., at least AA by Standard and Poor's, or at least Aa by Moody's Investors Service and a maturity of no more than 397 days.
- Negotiable certificates of deposit and negotiable bank deposit notes of domestic banks and domestic offices of foreign banks with at least two of the following ratings: at least F1 by Fitch Investor's Services, Inc., at least A-1 by Standard & Poor's, or at least P-1 by Moody's Investor Service, Inc., for maturities of one year (397 days) or less.

The following table reflects the credit quality of the investments held by the Trust in the VIP 1-3 Year Bond Fund as of June 30, 2022:

#### VIP 1-3 Year Bond Fund

	Fair Value by Credit Rating - S&P / Moody's				Total

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2022 and 2021

### Note 2—Deposits and Investment Risk (continued)

The following table reflects the credit quality of the investments held by the Trust in the VIP Liquidity Pool as of June 30, 2021:

#### VIP Liquidity Pool

	Fair Value by Credit Rating - S&P / Moody's			
	AA+ / Aa1	A-1+ / P-1	A-1 / P-1	Total
Repurchase Agreement	\$ -	\$ 40,395,642	\$ 76,232,414	\$ 116,628,056
Commercial Paper	-	29,998,563	124,990,359	154,988,922
Negotiable Certificates of Deposit	-	351,019,170	592,863,988	943,883,158
Agency Mortgage Backed Securities	24,994,375	-	-	24,994,375
<b>Total VIP Liquidity Pool</b>	<b>\$ 24,994,375</b>	<b>\$ 421,413,375</b>	<b>\$ 794,086,761</b>	<b>\$ 1,240,494,511</b>

*Excludes investments of approximately \$350.0 million that are obligations of the U.S. Government that are not subject to credit risk disclosure.*

**Concentration of Credit Risk** – Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer or security type. The Trust's investment policy states that no more than 35% of each portfolio's assets shall be invested in commercial paper, no more than 5% of each portfolio shall be invested in the commercial paper of a single issuing corporation, and that the investment manager shall endeavor to maintain appropriate diversification across instruments and institutions in order to reduce overall portfolio risk. There are no limits on the use of U.S. government, agency or U.S. guaranteed issues. The Trust invests solely in fixed income securities. At June 30, 2022, and 2021, commercial paper investments did not exceed 35% of the portfolio's assets and there were no investments in any one issuer that represents 5% or more of the total investments.

## **NOTES TO FINANCIAL STATEMENTS**

*JUNE 30, 2022 and 2021*

---

### **Note 3—Fair value measurement**

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing a security and are developed based on market data obtained from sources independent of the reporting entity. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, and others. Debt securities are valued in accordance with the evaluated bid price supplied by the pricing service and are generally categorized as Level 2 in the hierarchy. Securities that are categorized as Level 2 in the hierarchy include, but are not limited to, repurchase agreements, U.S. Treasury securities, U.S. government agency securities, corporate securities, and commercial paper.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions. In situations where quoted prices or observable inputs are unavailable or deemed less relevant (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the factors market participants would use in pricing the security and would be based on the best information available under the circumstances.

There have been no changes in the methodologies used as of June 30, 2022 and 2021. There were no transfers between levels in the fair value hierarchy during the period. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

### Note 4—Related party transactions

The Trust has an agreement with Virginia Local Government Finance Corporation (“VLGFC”) whereby VLGFC serves as administrator for the Trust. The Trust compensates VLGFC to provide administrative services through a monthly program fee charged as a percentage of invested assets. The administrative fee during fiscal years ended June 30, 2022 and 2021 amounted to approximately \$0.54 million and \$ 0.51 million, respectively.

# **VIRGINIA INVESTMENT POOL TRUST FUND**

## **NOTES TO FINANCIAL STATEMENTS**

*JUNE 30, 2022 and 2021*

---

### **Note 5—Subsequent Events**

The Trust has performed an evaluation of subsequent events through September 23, 2022, the date the basic financial statements were available to be issued. At the end of fiscal year 2022, COVID-19 cases in the U.S. were surging with the newly dominant Omicron BA.5 subvariant, which has proven to be a faster-spreading subvariant and more resistant to immune protection from vaccination or prior infection. In July 2022, the Federal Reserve announced its fourth interest rate hike since March 2022, increasing the rate 0.75% to a target range of 2.25% to 2.50%. The year-on-year Consumer Price Index (CPI) came in lower in July at 8.5% than in June at 9.1%, suggesting inflation may have peaked. Nonetheless, inflation remains elevated and the Federal Reserve has indicated that it is committed to achieving its 2% target inflation rate. As a result, we anticipate that fixed-income markets will continue to be volatile in calendar 2022.

The Liquidity Pool has a WAMR of less than 60 days, while the 1-3 Year Bond Fund has a duration of less than two years. Investments with shorter durations are subject to less interest rate risk. Management believes that it has adequately planned for economic downturns through portfolio diversification, increased liquidity, investing in securities with lower durations, and by modifying target asset allocations.

**Report of Independent Auditor on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements Performed in  
Accordance with *Government Auditing Standards***

To the Board of Trustees  
Virginia Investment Pool Trust Fund  
Richmond, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Virginia Investment Pool Trust Fund (the "Trust"), as of and for the years ended June 30, 2022, and 2021, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements, and have issued our report thereon dated September 23, 2022.

**Report on Internal Control over Financial Reporting**

In planning and performing our audits of the financial statements, we considered the Trust's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we do not express an opinion on the effectiveness of Trust's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Trust's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Cherry Bekaert LLP". The script is cursive and fluid, with the letters "Cherry" and "Bekaert" being more prominent than "LLP".
