CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report

To The Honorable Members of the Board of Supervisors County of King and Queen King and Queen, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of King and Queen, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of King and Queen, Virginia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1 to the financial statements, in 2013, the County adopted new accounting guidance, GASB Statement Nos. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-9, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of King and Queen, Virginia's basic financial statements. The other supplementary information and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

Other Information (continued)

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 17, 2014, on our consideration of the County of King and Queen, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of King and Queen, Virginia's internal control over financial reporting and compliance.

Richmond, Virginia January 17, 2014

BAICK-

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of King and Queen County County of King and Queen, Virginia

As management of the County of King and Queen, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2013. Please read it in conjunction with the County's basic financial statements, which follow this section.

Financial Highlights

Government-wide Financial Statements

The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$23,353,536 (net position).

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported revenues and other financing sources in excess of expenditures and other financing uses of \$565,708 (Exhibit 5) after making contributions totaling \$4,082,600 to the School Board.

- < As of the close of the current fiscal year; the County's funds reported ending fund balances of \$19,451,983, an increase of \$565,708 in comparison with the prior year.
- < At the end of the current fiscal year, unassigned fund balance for the general fund was \$10,696,363, or 82% of total general fund expenditures and other uses.
- The combined long-term obligations decreased \$412,375 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of King and Queen, Virginia itself (known as the primary government), but also a legally separate school district for which the County of King and Queen, Virginia is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of King and Queen, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has two major governmental funds – the General Fund and the County Capital Projects Fund.

Proprietary funds – Proprietary funds consist of enterprise funds. Enterprise funds are established to account for the delivery of goods and services to the general public and use the accrual basis of accounting, similar to private sector business.

The Wireless Service Authority Fund provides a centralized source for wireless services to County residents.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$23,353,536 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Position:

| County | of Kind | and a | Queen, | Virginia's | Net | Position |

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$19,451,983, an increase of \$565,708 in comparison with the prior year. Approximately 55% of this total amount constitutes unassigned General Fund balance, which is available for spending at the County's discretion.

<u>Proprietary Funds</u> - The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position at the end of the year amounted to \$285,528. The total increase in net position was \$285,528. Other factors concerning the finances of this fund have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

During the year, revenues and other sources exceeded budgetary estimates by \$341,311. Expenditures and other uses were less than budgetary estimates by \$844,952, resulting in a positive variance of \$1,186,263.

Capital Asset and Debt Administration

< <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2013 amounts to \$6,835,317 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total debt outstanding of \$1,295,000. Of this amount, \$240,000 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources (i.e., lease/revenue bonds).

The County's total debt outstanding decreased by \$439,362 during the current fiscal year.

Additional information on the County of King and Queen, Virginia's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County of King and Queen was 6.6 percent at June 30, 2013. The Commonwealth of Virginia's unemployment rate was 5.7 percent as of the same date.
- < Inflationary trends in the region compare to national indexes.

All of these factors were considered in preparing the County's budget for the 2014 fiscal year.

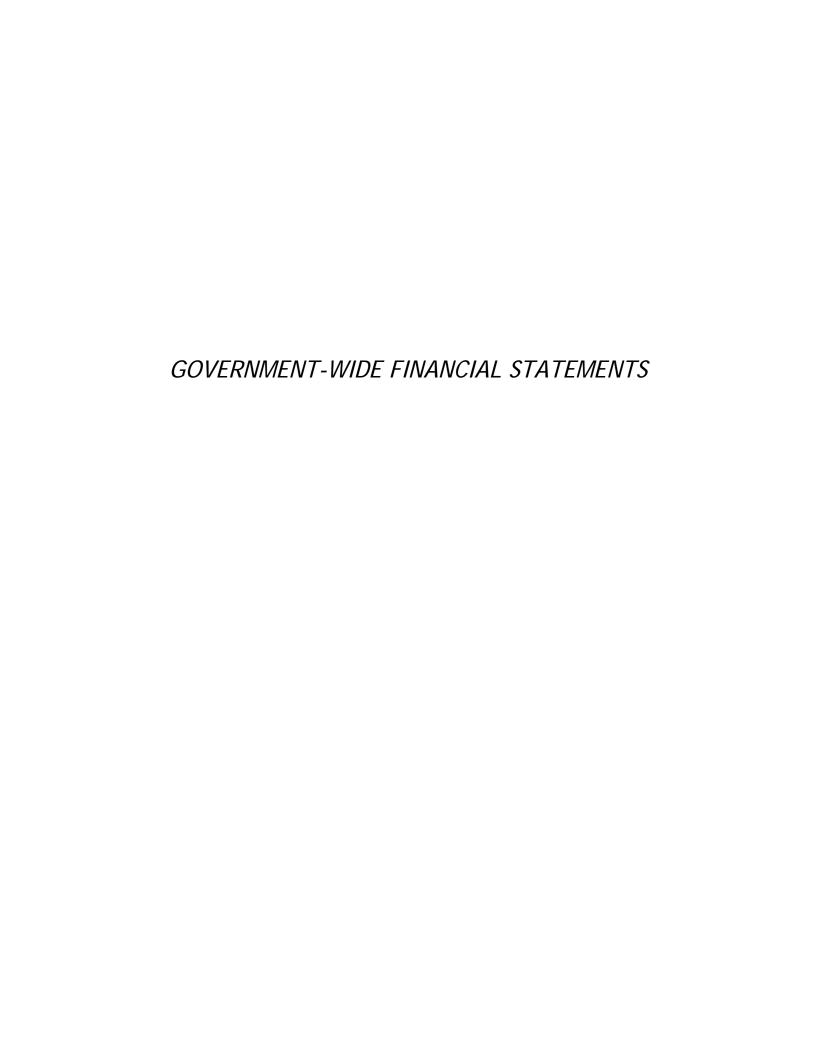

The fiscal year 2014 budget decreased approximately 7%. The real estate tax rate increased from \$0.52 per \$100 of assessed value to \$0.54. All other rates remained unchanged.

Requests for Information

This financial report is designed to provide a general overview of the County of King and Queen, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, Allen's Circle and Courthouse Landing Road, King and Queen Courthouse, Virginia 23085.

County of King and Queen, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Position June 30, 2013

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 19,451,983

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

6,835,317

Other long-term assets are not available to pay for current-period expenditures and, therefore, are unavailable in the funds.

420,564

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

| Lease revenue bond | \$ (1,055,000) | |
|--------------------------------|----------------|---|
| General obligation bonds | (240,000) | |
| Accrued interest payable | (34,215) | |
| Net OPEB obligation | (75,947) | |
| Landfill postclosure liability | (2,020,838) | |
| Compensated absences | (213,856) | (|

969,851

County of King and Queen, Virginia Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2013

Amounts reported for governmental activities in the Statement of Activities are different because:

| Amounts reported for governmental activities in the Statement of Activities are different because: | | | |
|---|----|-----------|---------------|
| Net change in fund balances - total governmental funds | | | \$ 565,708 |
| Governmental funds report capital outlays as expenditures. However, in the statement of | | | |
| activities the cost of those assets is allocated over their estimated useful lives and reported | | | |
| as depreciation expense. This is the amount by which the capital outlays exceeded | | | |
| depreciation in the current period. The following is a summary of items supporting this adjustment: | | | |
| Capital asset additions | \$ | 599,818 | |
| Depreciation expense | Ψ | (438,703) | |
| Transfer of joint tenancy assets to Component Unit from Primary Government | | (237,512) | (76,397) |
| | | | |
| Revenues in the statement of activities that do not provide current financial resources are | | | |
| not reported as revenues in the funds. | | | 56,721 |
| The issuance of long-term obligations (e.g. bonds, leases) provides current financial resources to | | | |
| governmental funds, while the repayment of the principal of long-term obligations consumes | | | |
| the current financial resources of governmental funds. Neither transaction, however, has | | | |
| any effect on net position. The following is a summary of items supporting this adjustment: | | | |
| Principal retired on county lease revenue bond | \$ | 180,000 | |
| Decrease in landfill postclosure liability | | 43,214 | |
| Principal retired on school general obligation bonds | | 259,362 | 482,576 |
| Some expenses reported in the statement of activities do not require the use of current | | | |
| financial resources and, therefore are not reported as expenditures in governmental funds. | | | |
| The following is a summary of items supporting this adjustment: | | | |
| Decrease (increase) in accrued interest payable | \$ | 11,444 | |
| Decrease (increase) in net OPEB obligation | | (26,320) | |
| Decrease (increase) in compensated absences | | (43,881) | (58,757) |
| | | _ | |

The notes to the financial statements are an integral part of this statement.

Notes to Financial Statements As of June 30, 2013

Note 1—Summary of Significant Accounting Policies:

The County of King & Queen, Virginia (the "County") is governed by an elected five member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of King & Queen, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Position</u> - The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the reporting model, governments provide budgetary comparison information in their annual reports, including a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of King & Queen (the primary government) and its component units. Blended component unit, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

B. <u>Individual Component Unit Disclosures</u>

Blended Component Unit. The County has no blended component units at June 30, 2013.

Discretely Presented Component Units. The School Board members are elected by the citizens of King & Queen County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2013.

The King and Queen County Industrial Development Authority (IDA) is responsible for promoting industry, developing trade within King and Queen County. The Authority consists of seven members appointed by the Board of Supervisors. The Authority is fiscally dependent on the County and therefore, it is included in the County's financial statements as a discrete presentation for the year ended June 30, 2013. The Authority does not issue a separate financial report.

C. Other Related Organizations Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the General Fund and the Capital Project Fund as a major governmental funds.

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for government-wide reporting purposes.

<u>Capital Projects Fund</u> - account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays except for those financed by proprietary funds or for assets held in trust for individuals, private organizations or of other governments. The County reports the Capital Projects Fund as a major fund.

<u>Special Revenue Fund:</u> - accounts for and reports the proceeds of revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects requiring separate accounting because of legal or regulatory provisions or administrative action. The Special Revenue Fund accounts for the activities of the Comprehensive Services Act, forfeited assets and court security funds. The County reports the Special Revenue Fund as a nonmajor fund.

Additionally, the County also reports the following fund types:

<u>Fiduciary Funds - (Trust and Agency Funds)</u> - account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements. The County's Agency Funds include amounts held for others in a fiduciary capacity, which include special welfare and soil and erosion deposit escrow funds.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

<u>Proprietary Funds</u> - account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

<u>Enterprise Funds</u> - Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The County's Enterprise Fund consists of the Wireless Service Authority Fund which provides wireless internet service to citizens for a fee.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

F. Investments

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

G. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$11,308 at June 30, 2013 and is comprised solely of property taxes.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

G. Receivables and payables (Continued)

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

| | Real Property | Personal Property |
|-----------|---------------|-------------------|
| | | |
| Levy | January 1 | January 1 |
| Due Date | December 5 | December 5 |
| Lien Date | January 1 | January 1 |

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the fiscal year ending June 30, 2013.

Property, plant and equipment, and infrastructure of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives.

| Assets | Years |
|--|-------|
| | |
| Buildings | 40 |
| Building Improvements | 40 |
| Furniture, Vehicles, Office and Computer Equipment | 5-20 |
| Buses | 10 |

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to received sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Net Position

Net position is the difference between a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

M. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

N. Fund Equity

The County reports fund balance in accordance with GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using
 its highest level of decision-making authority; to be reported as committed, amounts cannot be
 used for any other purpose unless the government takes the same highest level action to remove
 or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Treasurer, who has been given the delegated authority to assign amounts by the Board of Supervisors.

The County Board of Supervisors adopted a minimum required unassigned fund balance of \$3,000,000 on June 10 2013.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

N. Fund Equity (Continued)

The details of governmental fund balances, as presented in aggregate on Exhibit 3, are as follows:

| | General Fund | | Capital Projects Fund | | Special Revenue Fund | | Total |
|-----------------------------------|------------------|----|-----------------------------|----|----------------------------|----|------------|
| Fund Balances: | | - | | - | | • | |

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

O. <u>Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, Statement No. 63 of the Governmental Accounting Standards Board</u>

The County has implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. The Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position." The net equity reported in the financial statements was not changed as a result of implementing this Statement and no restatement of prior balances was required.

P. <u>Deferred Outflow/Inflows of Resources</u>

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expenditure/expense) until then. The County does not have any deferred outflows of resources as of June 30, 2013.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reported a deferred inflows of resources for property taxes unavailable at June 30, 2013. The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the government funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30 and amounts prepaid and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid on are reported as deferred inflows of resources.

Q. <u>Items Previously Reported as Assets and Liabilities, Statement No. 65 of Governmental Accounting Standards Board</u>

The County early implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 1—Summary of Significant Accounting Policies: (Continued)

R. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse on June 30, for all County units.

Note 3—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 3—Deposits and Investments: (Continued)

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2013 were rated by Standard & Poor's and the ratings are presented below using Standard & Poor's rating scale. The County's investment policy has an emphasis on high credit quality and known marketability. Holdings of commercial paper are not allowed to exceed thirty-five percent of the investment portfolio.

| County's Rated Debt Investments' Values | | | | | | | | | | |
|---|-------|------------------|----|---------|--|--|--|--|--|--|
| Rated Debt Investments | ating | JS | | | | | | | | |
| | | AAAm | | Unrated | | | | | | |
| Local Government Investment Pool U.S. Treasury Money Market Fund | \$ | 18,986,335 45 | \$ | - | | | | | | |
| U.S. Treasury Bill | | - | | 250,997 | | | | | | |
| Total | \$ | 18,986,380 | \$ | 250,997 | | | | | | |

Interest Rate Risk

According to the County's investment policy, at no time shall the maturity or duration of an investment exceed five years.

| Investment Maturities (in years) | | | | | | | | | |
|---|----|---------------|---------------------|---------------|--|--|--|--|--|
| Investment Type | Fa | air Value | Less Than 1 Year | | | | | | |

| Total | \$ | 251,042 | \$ | 251,042 | | | | | |

Notes to Financial Statements (Continued) As of June 30, 2013

Note 3—Deposits and Investments: (Continued)

External Investment Pools

The fair value of the positions in the external investment pool (Local Government Investment Pool) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Note 4—Due to/from Other Governments:

At June 30, 2013, the County has receivables from other governments as follows:

| _ | | hool Board |
|---------|--|--|
| _ | | |
| | \$ | 396,804 |
| | | |
| 35,552 | | - |

Note 8-Landfill Postclosure Costs:

The County closed its two landfills and is liable for postclosure monitoring for a period of five years. The amount reported as landfill postclosure liability at June 30, 2013, represents the estimated liability for postclosure monitoring, of \$2,020,838 over the remaining year. The liability includes an estimate for corrective action of \$2,000,000 as required by the Virginia Department of Environmental Quality. These amounts are based on what it would cost to perform all postclosure care in 2013. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County demonstrated financial assurance requirements for closure, postclosure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 9—Unearned and Unavailable Revenue:

Unearned and unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. The County reports unavailable revenue totaling \$451,076 at June 30, 2013 which is comprised of the following:

<u>Unavailable Property Tax Revenue</u>: Revenue representing uncollected tax billings not available for funding of current expenditures totaled \$420,564 at June 30, 2013.

<u>Unavailable Prepaid Property Taxes</u>: Property taxes due subsequent to June 30, 2013, but paid in advance by the tax payers totaled \$30,512 at June 30, 2013.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 10—Contingent Liabilities:

Federal programs in which the County and discretely presented component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments</u>, and <u>Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 11—Litigation:

At June 30, 2013, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

Note 12—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 13—Defined Benefit Pension Plan:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years
 of service credit. They may retire with a reduced benefit early at age 55 with at least five
 years of service credit or age 50 with at least ten years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2013 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with a least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the members plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplier. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 13—Defined Benefit Pension Plan: (Continued)

A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1, of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950) as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the plans administered by VRS. A copy of the most report may be obtained from the VRS website http://www.varetire.org/Pdf/Publications/2012-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund their participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County and School Board non-professional's contribution rate for the fiscal year ended 2013 were 11.86% and 7.55% of annual covered payroll, respectively.

The King and Queen County School Board professional employees current rate was 11.66%, 6.33% and 3.93% of annual covered payroll for 2013, 2012 and 2011, respectively. The contribution requirements of plan members and King and Queen County School Board are established and may be amended by the VRS Board of Trustees. The School Board's contributions to VRS for the years ending June 30, 2013, 2012, and 2011 were \$543,843, \$284,876 and \$180,463, respectively, and equal to the required contributions for each year.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 13—Defined Benefit Pension Plan: (Continued)

C. Annual Pension Cost

For fiscal year 2013, the County's annual pension cost of \$275,443 (which does not include the employee share which was \$116,123) was equal to the County's required and actual contributions.

For the fiscal year 2013, the School Board's annual pension cost for the School Board's non-professional employees was \$38,287 (which does not include the employees share which was \$36,188) which was equal to the School Board's required and actual contributions.

| June 30, 2011 | | 37,596 | 100% | | - |

⁽¹⁾ Employer portion only

The fiscal year 2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 13—Defined Benefit Pension Plan: (Continued)

D. Funded Status and Funding Progress:

As of June 30, 2012, the most recent actuarial valuation date, the County's plan was 79.97% funded. The actuarial accrued liability for benefits was \$8,724,799, and the actuarial value of assets was \$6,977,339, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,747,466. The covered payroll (annual payroll of active employees covered by the plan) was \$2,207,336, and ratio of the UAAL to the covered payroll was 79.17%.

As of June 30, 2012, the most recent actuarial valuation date, the School Board's Non-Professional plan was 96.03% funded. The actuarial accrued liability for benefits was \$2,261,024 and the actuarial value of assets was \$2,171,219, resulting in an unfunded actuarial accrued liability (UAAL) of \$89,805. The covered payroll (annual payroll of active employees covered by the plan) was \$716,378 and ratio of the UAAL to the covered payroll was 12.54%.

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 15-Other Postemployment Benefits - Health Insurance:

A. Plan Description

The County allows retirees that retire at the age of 50 with at least 30 years of service or at the age of 55 with at least 20 years of service to remain on their health insurance plan. The employee/retiree pays 100% of the rate. Benefits end at the age of 65. Health benefits include medical, dental and vision.

The King and Queen County Schools retirees must meet one of the following requirements to be eligible for health benefits.

<u>Virginia Retirement Systems plan 1 (Hired before July 1, 2010)</u>

- Attained the age of 50 with at least 30 years of service for unreduced pension retirement benefits.
- Attained the age of 55 with at least 5 years of service for reduced pension retirement benefits.
- Attained the age of 50 with at least 10 years of service for reduced pension retirement benefits.

Virginia Retirement Systems Plan 2 (Hired on or after July 1, 2010)

- Age plus service is at least 90 points for unreduced pension retirement benefits.
- Attain unreduced Social Security retirement age with at least 5 years of service for unreduced pension retirement benefits.
- Attain the age of 60 with at least 5 years of service for reduced pension retirement benefits.

Health benefits include medical and dental. Retirees under the age of 65 may choose one of the following options:

- Optima Low Option Open Access (HMO)
- Optima High Option Open Access (HMO)
- Optima Open Access (POS)
- Optima Equity Vantage (HMO)

Health benefits cease at the retiree's age of 65. Spouse coverage ceases when the retiree's coverage ceases.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

B. Funding Policy

The Schools currently have 2 retirees on their plan. The County has 1 retiree on their plan. The employee/retiree pays 100% of the rate. The contribution requirements of plan members and the County is established annually by the Board of Supervisors and the School Board.

C. Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in compliance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County and School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County and School Board's net OPEB obligation to the Retiree Health Plan:

| | County | School Board |
|--|--------------|---------------|
| | _ | _ |
| Annual required contribution | \$ 42,539 | \$ 35,400 |
| Interest on net OPEB obligation | 1,241 | 3,000 |
| Adjustment to annual required contribution | (2,026) | (3,200) |
| Annual OPEB cost (expense) | \$ 41,754 | \$ 35,200 |
| Contributions made | (15,434) | (12,600) |
| Increase in net OPEB obligation | 26,320 | 22,600 |
| Net OPEB obligation-beginning of year | 49,627 | 85,712 |
| Net OPEB obligation-end of year | \$ 75,947 | \$ 108,312 |
| | | |

Notes to Financial Statements (Continued) As of June 30, 2013

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The County and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2013 and the two preceding years were as follows:

| | Fiscal Year Ended | Percentage of Annual Annual OPEB OPEB Cost Contributed | | | Net OPEB Obligation |
|-------------|---|--|----------------------------|----|-----------------------------|
| County : | 6/30/2013 6/30/2012 6/30/2011 | \$ 41,754 42,245 2,250 | 36.96% 0.00% 0.00% | \$ | 75,947 49,627 7,202 |
| School Boar | rd: 6/30/2013 6/30/2012 6/30/2011 | \$ 35,200 38,825 37,362 | 35.80% 35.45% 21.89% | \$ | 108,312 85,712 60,687 |

D. Funded Status and Funding Progress

As of June 30, 2012, the most recent valuation date, the County's actuarial accrued liability for benefits was \$381,794, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$2,279,047, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 16.75 percent.

As of January 1, 2013, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$275,800, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$5,387,937, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 5.12 percent.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 15-Other Postemployment Benefits - Health Insurance: (Continued)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of January 1, 2013, the most recent actuarial valuation date, the projected unit credit method was used for the School Board's plan. The County has elected for its retirees to calculate information of an actuarial nature using the alternative measurement method permitted by GASB 43 for plans with fewer than 100 employees.

The following simplifying assumptions were made relative to both the County and School Board plans:

Retirement age for active employees-Retirement age was estimated based on tables used for the VRS pension valuation and assumed that participants begin to retire when they become eligible to receive healthcare benefits.

Mortality-Life expectancies were based on mortality tables from the RP-2000 Combined Healthy mortality tables for males and females projected to 2010 using Scale AA.

Coverage elections - The actuary assumed that 70% of eligible County retirees and 30% of School retirees will elect coverage.

Based on the historical and expected returns of the County's short-term investment portfolio, a discount of 3.50% was used. In addition, the projected unit credit actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2012 was thirty years.

Note 16-Other Postemployment Benefits - VRS Health Insurance Credit:

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

Notes to Financial Statements (Continued) As of June 30, 2013

Note 16-Other Postemployment Benefits - VRS Health Insurance Credit: (Continued)

A. Plan Description (Continued)

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 13.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.11% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2013, 2012, and 2011 were \$51,772, \$27,003 and \$27,552, respectively and equaled the required contributions for each year.

Note 17-*Upcoming Pronouncements:*

The GASB has issued Statement No. 60, "Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27." This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014 (fiscal year ended June 30, 2015). The County has not determined the impact of this pronouncement on its financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance with Government Auditing Standards

To The Honorable Members of the Board of Supervisors County of King and Queen King and Queen, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, and *Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of King and Queen Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County of King and Queen, Virginia's basic financial statements, and have issued our report thereon dated January 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of King and Queen Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of King and Queen, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of King and Queen, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of King and Queen, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To The Honorable Members of the Board of Supervisors County of King and Queen King and Queen, Virginia

Report on Compliance for Each Major Federal Program

We have audited County of King and Queen, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of King and Queen, Virginia's major federal programs for the year ended June 30, 2013. County of King and Queen, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of King and Queen, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of King and Queen, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of King and Queen, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of King and Queen, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of County of King and Queen, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of King and Queen, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of King and Queen, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Richmond, Virginia

DAICK-

County of King and Queen, Virginia

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2013

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of King and Queen, Virginia under programs of the federal government for the year ended June 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of King and Queen, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of King and Queen, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments,* wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received or disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government: General Fund \$ 689,473 Nonmajor Special Revenue Fund 54,418 Total primary government 743,891 Component Unit School Board: School Operating Fund 2,307,872 School Cafeteria Fund 308,419 Total component unit School Board 2,616,291 Total federal expenditures per basic financial statements 3,360,182 Total federal expenditures per the Schedule of Expenditures of Federal Awards 3,360,182
